## "THIS IS CHEERFUL!"

But the Cheerfulness is More Apparent to Republicans Than to Democrats.

## CONGRESSMAN SPRINGER GETS SOME INFORMATION.

Postmasters Against Whom No Charges Are Proved Will Be Allowed to Serve Four Years.

## A COMEDY IN ONE ACT.

WASHINGTON, April 18.—Congressman Springer of Illinois has a well-earned reputation for getting more positive rulings out of the executive and the cabinet people than any other man on earth. Sometimes—generally, in fact—these rulings are not salted to his taste but they are always clear. The latest instance is furnished by a meeting between Mr. Springer and Mr. Bissell.

"I understand, Mr. Postmaster General," said Mr. Springer, "that you have determined to retain Republican postmasters the full term of four years when nothing can be proven against their character or ability. But suppose that a postmaster appointed by Mr. Harrison served three years and died and a Republican successor was appointed. Will this man be allowed to serve four years, dating from the issue of the original commission, or will he be allowed to serve four years dating from the issue of his own commission?"

"He will be allowed," said Mr. Bissell, slowly and positively, "to serve out four years of his own."

"Humph," said Mr. Springer, "Well here is a case that I have in mind: Near the end of his presidency Mr. Arthur appointed a Republican postmaster at Taylorville, Ill. Mr. Cleveland allowed him to serve four years, which carried him nearly through the Democratic administration. Then a Democrat was appointed. Mr. Harrison promptly removed this Democrat and named a Republican in his place. This Republican served through more than three years of Mr. Harrison's administration and then died. A Republican successor was appointed. Is he to be allowed to hold the office four years more?"

"He is," said Mr. Bissell.

"But," expostulated Mr. Springer, "that will give us a Democratic incumbent for little more than one year of Mr. Cleveland's two terms."

"It's the rule," said Mr. Bissell.

"It's cheerful," said Mr. Springer.

## OFFICE-SEEKERS NUMEROUS.

Adjournment of Senate Has Not Reduced Their Number.

WASHINGTON, April 18.—No indication of the effect the adjournment of the senate will have on the unprovided office-seekers could be had at the White House yesterday for the reason that Mondays are reserved by the president for uninterrupted office work. As today is cabinet day only one hour was given to seeing visitors who by the rules are restricted to senators and representatives. Wednesday, however, they will be free to come—senators and representatives from 10 to 12 o'clock with the privilege of bringing as many constituents as they please with them—all others on business from 12 to 1 o'clock and the general public at the last named hour.

An unusual exodus is noticed at the railway stations but this fact hardly forms a criterion on which to base an estimate of the percentage of those who have given up hope to those who are here at the expense of board bills. There are some who believe that there will be fewer callers while others are inclined to believe that the office seekers will come en masse for a grand final effort to bring the president around to their way of thinking before leaving for home.

The adjournment of the senate has been followed by a general exodus of senators from the city and the Capitol has a very deserted look. A number of senators are hidden in their rooms behind locked doors attending to correspondence and seeking to avoid visitors and office seekers. A number have arranged to witness the naval review and will leave this week for the rendezvous. Others are preparing to depart on the various investigating trips that were ordered during the closing hours of the session.

## BERING SEA ARBITRATION

Mr. Carter Continues His Presentation of the American Case.

PARIS, April 18.—At today's sitting of the Bering sea court of arbitration Mr. J. C. Carter, of counsel for the United States, continued his speech in support of the American contention. He recapitulated the arguments advanced last week and then proceeded to show that the jurisdiction of the United States had always been based upon property interests, not sovereign dominion over the sea. Mr. Carter quoted from diplomatic correspondence and from the opinions of English jurists regarding the ukase issued by Russia in 1821. America and Great Britain had jointly protested against this ukase but Great Britain had withdrawn her protest because of the Monroe doctrine.

Mr. Carter spoke at length concerning the mistranslation and other garbling of the Russian documents originally incorporated in the evidence for the United States. The motive of the translator in thus attempting to embarrass the American government has not been ascertained, Mr. Carter said. Fortunately the United States government had in its possession the printed Russian originals. Great Britain could not truthfully accuse the United States of bad faith in the matter as all the trustworthy documents had been withdrawn.

In reading portions of the correspon-

dence between Mr. Blaine and Lord Salisbury Mr. Carter laid special stress on a certain letter from Mr. Blaine which did not represent Bering sea as *mare clausum* but only claimed absolute rights over a small portion of it, although the United States government considered itself to be within its rights when it suppressed pelagic sealing. If any nation, in order to gain a small profit, should poison the high seas near the Canadian coast, Mr. Carter said Canada would be justified in interfering. The interference of the United States with pelagic sealing in Bering sea was equally justifiable. Pelagic sealing was as destructive and indefensible as the poisoning of the waters of the high seas.

## SENT BACK TO CANADA.

Buffalo Health Officers Are Looking Out for Paupers.

BUFFALO, N. Y., April 18.—Two more of the immigrants from Hamburg who landed at Halifax have attempted to get into Buffalo but were unsuccessful. Michael Poterski and his wife arrived at Fort Erie with clean bills of health signed by the United States consul at Halifax. They were allowed to come across the river but upon landing on this side were met by Inspector Du Barry who found that they were paupers and promptly returned them to the Canadian side. Health Commissioner Wende has sent a communication to the superintendents of railways entering this city warning them to be more particular in the supervision of the transportation of immigrants from Europe via Canada and notifying them that any further delivery of immigrants without the necessary clean bill of health will compel the adoption of such measures against the railways as may be necessary for the proper protection of the public health.

## PLYMOUTH'S DISASTROUS BLAZE.

Residents of That Village \$60,000 Poorer Than on Monday.

PLYMOUTH, Mich., April 18.—Fire was discovered in George Vandercar's barber shop at 11:30 o'clock last night and within two hours the residents of this village were \$60,000 poorer. The business blocks at the corner of Main and Sutton streets were destroyed. Help was sent from Detroit but the visiting firemen arrived too late to stop the progress of the flames. The following were burned out: George Vandercar, barber; Chaffee & Hunter, boots and shoes; Miss Nellie Steele, millinery; Alfred D. Lindon, hardware; John L. Gale, druggist; A. H. Dibble, boots and shoes; Bassett & Son, furniture; R. G. Hall, dry goods; First National bank.

## PALACE BADLY DAMAGED.

Fire Wrecks the Hohenzollern Castle of Sigmaringen.

BERLIN, April 18.—Fire broke out last night in the eastern wing of the Hohenzollern palace at Sigmaringen and did an immense amount of damage before the flames were extinguished. The palace stands on a rock rising abruptly from the Danube and it was extremely difficult to get sufficient water to that high altitude. The fire burned through the night and that part of the structure known as the Fuertenbau was completely gutted. The palace contained a great number of priceless works of art and many of these were destroyed.

## FARM BUILDINGS DESTROYED.

Many Fine Cattle Saved from Fire With Difficulty.

DENVER, April 18.—The horse and cow barns, engine and boiler houses, blacksmith shops, creamery and a large silo full of ensilage, all covering three acres of ground on the Windsor farm, six miles from the city, were destroyed by fire at 5 o'clock this morning causing a loss of \$40,000, covered by insurance. It was with considerable difficulty that three hundred head of thoroughbred animals in the barns at the time of the fire were saved. Had the Holstein herd, which is known as the finest in America, been burned the loss would have been \$200,000. The property is owned by William H. Bush, proprietor of the Brown Palace Hotel.

## SEVEN KILLED BY CYCLONE.

Frightful Tempest Swept Over Scott County, Ark., Yesterday.

LITTLE ROCK, April 18.—News was received today of a fearful cyclone in the Fourche valley, Scott county. The town of Boles was almost entirely destroyed. Seven persons were killed and a large number injured. The path of the storm was a half mile in width and everything was swept before it. The bodies of a number of killed were carried over a half mile by the storm. It is impossible to get full particulars but it is known that at least seven persons were killed and that the number may be much larger.

## COLUMBIAN LIBERTY BELL.

Contributions Are Arriving from Every Country for It.

NEWARK, N. J., April 18.—Mme. Romero, wife of the Mexican minister, has been appointed to represent the republic of Mexico upon the Columbian Liberty Bell committee. Every state and territory in the Union is represented. The Sandwich Islands are represented by the wife of President DeLo. Historical contributions are arriving from every part of the country to be used in this bell.

## BUFFALO PLASTERERS STRIKE.

Work Stopped on Nearly Every Building in the City.

BUFFALO, April 18.—All the plasterers in Buffalo with the exception of about forty went on strike this morning to enforce their demand for \$3.50 per day which the master masons refused to grant. Work is stopped on nearly every building in course of construction. The men at work are employed on small jobs where the terms asked have been conceded.

## SENT A DUCHESS TO JAIL.

Dowager Duchess of Sutherland Is Sentenced to Prison for Six Weeks.

## DESTROYED DOCUMENTS WANTED IN COURT.

Sir Francis Jeune Refuses to Accept Meaningless Apology and Sends Her to Holloway Jail.

## IN CONTEMPT OF COURT.

LONDON, April 18.—The dowager duchess of Sutherland was today committed to Holloway jail under a sentence of imprisonment for six weeks imposed by Sir Francis Jeune, president of the court of probate, for contempt of court. Notwithstanding that the imprisonment of a duchess in a common jail is probably unprecedented in England the affair did not excite any great surprise among the public as it has been anticipated that the court would take severe action in view of the flagrant contempt with which the duchess was charged.

The name of the dowager duchess is Mary Caroline and she was a widow at the time of her marriage to the late duke of Sutherland, her previous husband having been Arthur Kindersley Blair. She was the youngest daughter of the late Rev. Richard Mitchell, D.D., principal of Hertford college, Oxford. The late duke himself was a widower at the time of his marriage and had children and grand-children, the oldest surviving child being the present duke of Sutherland.

When her case came up today an affidavit was presented in behalf of the duchess setting forth that the document which she had burned was a private letter written to her by her late husband before marriage, that she had not thought it any harm to destroy a document of that character, and she closed by offering an apology to the court.

Sir Francis Jeune commented in the severest manner on the action of which the duchess has been guilty. He said that it was evident that the destruction of the document had been deliberately planned and that it was effected by violence and deceit. An apology was proper for such an act but the accused could not do anything but apologize. Moreover, since the injury and wrong were now irreparable, an apology could only be regarded as a somewhat easy method of atonement. Further it had been shown that when she destroyed the letter she said it was a letter from her to the late duke. Now she said the reverse—that it was a private letter from the late duke to her. Justice Jeune added that he was unable to say which statement was true but the action of the dowager duchess had destroyed the possibility of believing her. Justice Jeune hinted that the inferences drawn from the incident might heavily prejudice her case. He then imposed the sentence of six weeks imprisonment for contempt of court and sentenced the duchess to pay a fine of £250.

## MAKING SCHEDULE TIME.

The Pioneer Locomotive Crossed the Alleghenies Last Night.

ALTOONA, Pa., April 18.—The Pennsylvania company's "greatest show on earth" continued its triumphal trip to Chicago today and the game little "John Bull," having found canal coal to be best suited to his taste as a steam-producer, laughed at up grades and got over the rails exactly according to the task laid down for him by the officials of the road. Harrisburg was left at 8:17 a. m., one hour and seventeen minutes behind the schedule, but "John Bull" was feeling frisky in the crisp morning air and forthwith proceeded to cut down his tardiness and was again "on time" at Huntington. The entire run of 121 miles to Altoona was made in four and one half hours. At Duncannon, Millin, Tyrone and other towns along the route the factories, schools and places of business generally were closed and the inhabitants turned out to greet the train. The town of Huntingdon especially distinguished itself by a procession with a great display of bunting, booming of cannon and screeching of steam whistles. The departure from Altoona was scheduled for 6 o'clock and during the night "John Bull" is confidently expected to climb over the summit of the Alleghenies, a feat never dreamed of on his arrival in America sixty years ago.

## CROP PROSPECTS ARE GOOD.

According to the Bulletin of the Michigan Bureau.

DETROIT, April 18.—The weekly crop bulletin issued by the Michigan weather service bureau today indicates that the temperature for the past week has been about normal and the average total precipitation .8 of an inch. This weather has been generally favorable to farm work and plowing and seeding has begun and prospects are favorable for good crops. Notwithstanding the cold weather of last week very little damage was done to fruit trees and a good yield is expected. Small fruits are also in good condition.

## ONE DAY IN ST. LOUIS.

Three Suicides and Two Murders in the Missouri Village.

ST. LOUIS, April 18.—F. E. Hargreaves, aged twenty-one, blew his brains out with a revolver at his boarding house, 2213 Olive street, today. Charles H. Ellsberg, manager of the St. Louis Dressed Beef company's slaughter house, hanged himself, William O'Brien, an engineer on the Merchants' Terminal railroad, committed suicide with "Hough on Rats," Stella Gray was fatally stabbed by Clara Gray in a house of ill-repute. Charles Hamilton (colored) was fatally shot by some unknown person.

LAKE LINDEN WAS CHILLY

Only Small Crowd Turned Out to Excellent "Colored Four Hundred" Show. CLEVER AMATEURS EXCEL PROFESSIONAL MINSTRELS. Work Rushing at Cleaves & Sons' Foundry and Machine Shops. Miscellaneous Notes.

LAKE LINDEN. The entertainment given by "The Colored Four Hundred" at the opera house Monday evening was a genuine surprise to every person in the small audience present. Were the company to play here again every seat would be filled. The entire program was first-class, much better than the traveling companies that come here give. Special mention can be made of the juggling performance of Mr. Lewis of Red Jacket and of the acrobatic feats on the horizontal bar, also of the orchestra, to hear which alone was worth the price of admission. Little Tommy Gottstein's singing was an attractive feature and the performance of the trick elephant "Prince" was simply immense. The company being large, over thirty people, they and their stage property required two coaches on the Hancock & Calumet railroad as a special train to bring them here, the expense of which, added to their hotel bill, caused them quite a loss by giving an entertainment here. They ought to come again on a guarantee of a paying house to make up for the deficiency of Monday evening.

"Uncle Josh Spruceby's" band created a great furor among the children on the street and the \$5,000 in currency placed in the postoffice store window created a great longing in the hearts of many who were feeling in the bottom of their pockets for a dime to wet their whistles. Rev. J. R. Knowlton, who has acceptably officiated as pastor of the Congregational church for the past two years, has accepted a call from the Congregational church at Mason City, Ohio. An oyster supper and social will be given by Lincoln lodge, Sons of St. George, next Saturday evening at the School Hall.

CALUMET. John A. Danielson left on Tuesday evening for the mineral springs at St. Louis. A snow storm yesterday made quite passable sleighing. The March product of the Kearsage mine was seventy-six tons.

RED JACKET. The annual ball of the Calumet Light-Guard will be given Monday evening, May 29, at their Armory. The most rocky performance ever attempted by any company was "Ten Nights in a Bar Room" by four people, the "Theatre Royal" company, at the opera house Monday evening. Engineer McGrath, who was in a critical condition from pneumonia, is now convalescing. St. Joseph's society will attend divine service at the Church of the Holy Rosary next Sunday at 9 o'clock a. m. The comic opera "Dorothy" will be presented on the evening of April 26 for the benefit of the Odd Fellows of this place. The Grand Union Tea store will leave its present quarters next Monday and open an immense stock in the Murphy block.

HANCOCK. The writer yesterday visited Cleaves & Sons' plant and found everything rushing. The large planer recently received from the Niles Tool works was at work on part of one of the large crushers which are being cut for the Minnesota Iron company. They are turning out two of these large crushers for this company and will shortly begin work on one for the Champion Iron company. They also have nearly completed two large mortars for the Atlantic company. The large planer is a wonderful piece of machinery. It is the largest in this state and is run by an engine which does nothing else. Thomas McCarthy, an old and respected resident of this city, died Monday afternoon. The funeral will be held this morning from St. Patrick's church.

The tug Valerie, formerly the Golden Eagle, is lying at Cleaves' foundry getting a larger cylinder put in place. She will be thoroughly renovated before leaving. The Machinists' dance Friday evening is to be a grand affair. Music will be furnished by the Houghton Cornet band and the boys will do everything in their power to make it a success. The Whist club met Monday evening at the residence of Mr. and Mrs. C. A. Wright. This was the last meeting of the club for this season and a number of outsiders were invited and all had a most enjoyable time. The parade of "The Colored Four Hundred" drew out a large crowd yesterday afternoon. Since parading in Houghton they have added a drum major. Horn, to Mr. and Mrs. J. N. Mitchell, Sunday, a daughter. "Josh Spruceby" at St. Patrick's Hall tonight.

HOUGHTON. Ernest J. Dube, formerly assistant to Peter Primeau in the county clerk's office, has opened an office in the National Bank building with telephone connections. Mr. Dube is the local agent of the Duluth & South Shore Transit company and any one going to the World's Fair would do well to see him. This company owns the steamer Ossifrage, which ran between here and Duluth last summer, and will run excursions between Duluth & Chicago, calling at Houghton and Hancock, and remaining ten days in Chicago. Owing to the fair being the hands of St. Cecilia's guild the Peak sisters will not appear. One table will be in charge of the following ladies of St. Agnes guild: Mrs. C. D. Sheldon, Mrs. A. R.

Gray, Mrs. E. M. Hoar, Miss Emma Edwards and Mrs. Jay A. Hubbell. The proceeds of this table alone will go towards paying for the electric lights in Trinity church.

The Little Dale club hopes to realize their dream of the production of the comedy "Jane" to start at once the building of the tower for the chimes of Trinity church, so generously given the church by one of the parishioners.

Reserved seats are now on sale for the Cyr brothers entertainment. They are without doubt the strongest men on earth and give a show worth going miles to see. They do not play in Hancock and those from there had better secure seats early. The strongest team of horses that can be secured will be used to test Mr. Cyr's strength.

The funeral of Mrs. Smith of the Atlantic mine was held Monday afternoon from the Methodist church at the mine. She was eight-four years old. The interment took place at Forest Hill cemetery.

The "Josh Spruceby" company passed through here yesterday on their way to Lake Linden, where they played last night. They are at Hancock tonight.

J. F. Hambitzer is having the interior of his residence thoroughly renovated and will shortly occupy it with his family.

J. Parke Channing of Iron Mountain is in the city yesterday. Mr. and Mrs. F. W. Kroll are rejoicing over the arrival of a baby boy. F. P. Mills of Ishpeming was here yesterday afternoon.

VIRGINIA, MINN.

Is the most centrally situated town on the great Mesaba iron range. It has a great natural location, sloping gradually from the mines to the shore of two beautiful little lakes and surrounded by charming scenery. The Duluth, Mesaba & Northern has reached the place and building is going on at a lively rate. The townsite surrounded by one of the best groups of mines on the range, mines capable of producing anywhere from 1,000,000 to 2,500,000 tons of ore annually. The surrounding country is well timbered, pine predominating. A saw mill is now operating and a large one is about to be erected, the lakes affording excellent boommage. The village has a system of water works, a bank, feed stable, several stores, saloons, restaurants and hotels. A post-office and newspaper is now established, the latter by Dr. Fred Barrett. Virginia is destined to have a population of at least 5,000 and people seeking new locations would do well to look it over. For further information write to Kennedy & Gleason, VIRGINIA, MINN. RIOTERS SETTLING DOWN.

Disorders Still Continue in Brussels and in Other Towns of Belgium

BUT LABOR LEADERS CALL OFF GENERAL STRIKE

Nyssen Bill Does Not Suit Them but is Substantial Victory for Universal Suffrage.

WILL RETURN TO WORK.

BRUSSELS, April 18.—In view of the action of the deputies the labor leaders resolved at a meeting held this evening to advise the abandonment of the general strike.

The police and the strikers have had several encounters this evening and six rioters have been seriously injured.

AGITATION EXTENDS TO FRANCE. PARIS, April 18.—The French government has instructed the governors of the northern industrial towns to expel any foreigners who may be organizing to assist the revolution in Belgium.

SETTLING THE HULL STRIKE.

Negotiations Are Now in Progress to That End.

HELL, April 18.—The committee in charge of the interests of the ship-owners in the struggle with the striking dock laborers today considered the proposals for the settlement of the strike which were prepared yesterday by A. J. Munda, president of the Board of Trade, Charles Wilson, M. P., one of the owners of the Wilson line, Joseph Havelock Wilson, M. P., president of the Sailors' and Firemen's union, and John Burns, M. P.

FIVE WORKMEN KILLED.

Explosion in the Rusk-Ivanhoe Tunnel Near Leadville.

LEADVILLE, Col., April 18.—Word reached here this morning that a terrible explosion occurred on the Ivanhoe side of the Rusk-Ivanhoe tunnel last night and that several men were killed and injured.

BOUGHT AN ENGLISH EARL.

Miss Cornelia Martin is Now Countess of Craven.

NEW YORK, April 18.—William George Robert, earl of Craven, and Miss Cornelia Martin, only daughter of Mr. and Mrs. Bradley Marun of New York, were married at 1 o'clock this afternoon by Bishop Potter and Rev. Dr. Huntington at Grace church in the presence of over 2,000 of the elite of New York and English society with all the pomp suggested by the nobility of the bridegroom and with all the magnificence allowed by the millions of the bride.

The Bradley Martins have been conspicuous in the millionaire set of New York for the past dozen years or so, ever since Mrs. Martin's father, Isaac Sherman, the Troy cooper, died and left her \$10,000,000 derived from fortunate railroad investments.

course the earl met his chum's sister and the result was the society event of today.

The bridegroom, besides his nobility, is the possessor of a fortune that brings him an annual income of \$400,000. He is 25 years old, tall and fair. His bride is barely 17.

The announcement of the wedding set society agog. The arrival of a few weeks ago from England of the Bradley Martins and the earl was described at great length.

The Martins paid no duty on the large amount of clothing they brought with them, claiming that it had all been worn, and society people were shocked at the idea that Miss Martin in wedding here should wear a gown that had, in the official eye, at least, been soiled. Over three thousand invitations were sent out for the wedding.

O'DONOGHUE'S STRANGE SUICIDE.

is Now Believed to Have Resulted from Financial Embarrassments.

CHICAGO, April 18.—The remarkable suicide of wealthy Horace O'Donoghue, supposed to be due solely to a sudden insane impulse on hearing his wife read an account of the death of Elliott F. Shepard, was shown today to be the probable result of large financial embarrassments involving a number of Chicago publishing houses.

The failures last week of H. J. Smith & Co., subscription book publisher of the Melbourne Publishing company whose specialty was in reprints, and of the Nile C. Smith Publishing company, which gave its attention to getting out translations from the French language, it is said, put a different face upon O'Donoghue's affairs.

MOLDERS WILL NOT STRIKE.

Union Pacific Boiler Makers and Machinists Still Out.

OMAHA, April 18.—The action of the Molders' union last night in refusing to sanction the strike of the Union Pacific employes put a little dampener on the enthusiasm of the men who walked out yesterday. All the molders went to work this morning as usual but the other iron workers who quit yesterday remained out.

MINE FIRE EXTINGUISHED.

The Homestake Will Be Able to Resume Soon.

LEAD CITY, S. D., April 18.—The fire and gas which has filled the Homestake and Highland mines for the past week were successfully overcome this morning. Fans will purify the air in the lower workings so that operations can be resumed in these mines.

ALLEGED MURDERERS CAUGHT.

Probable Assassins of Policemen Frith and Talcott Jailed.

DEBQUE, Ia., April 18.—L. W. Healy and Hugh Robbard, arrested at Greeley Sunday on suspicion of being the murderers of Policemen Frith and Talcott, were brought here late last night. They are two of the men whose descriptions have been sent broadcast and strong clues point to them as the men wanted. Placed in jail and examined separately they made contradictory statements. The police believe they have the right men.

RANK ANARCHY IN KANSAS.

KANSAS CITY, April 18.—A Topeka, Kas., special to The Times says that a committee of Santa Fe strikers from Argentine today received an emphatic assurance from Governor Lewelling that in case he is called upon to furnish troops to protect the railway property he will absolutely refuse to do so.

STEAM HAMMER EXPLODED.

Three Men Killed and Eight Injured. Two Fatally.

TOWER, Minn., April 18.—While some men in the mine blacksmith shop today were engaged in breaking up a lot of old gas pipe with a steam hammer an explosion took place which killed three of the men and injured eight others.

COUNTY SEAT WIPED OUT.

Only Two Small Stores Are Left in Cassville.

SPRINGFIELD, Mo., April 18.—Cassville, county seat of Barry county, was almost wholly destroyed by fire at 2:30 o'clock this morning. Twenty-six business buildings and a dozen dwellings were consumed.

WORTH LITTLE TO HIM.

Alfred Woods Lacks Health to Enjoy His Fortune.

WINDSOR, Ont., April 18.—Alfred Woods, who is at present under medical treatment at the Hotel Dieu, has received official notice that by the death of his father in England the family, consisting of himself, three brothers and three sisters, have been left a fortune of \$10,000,000.

QUARRELED OVER A WOMAN.

Charles Seibert Murdered John Young and His Fied.

INDIANAPOLIS, April 18.—John Young and Charles Seibert engaged in a quarrel over a woman last night at 412 Washington street and Young was fearfully injured. His head was crushed by a blunt instrument and when found at the foot of the stairs he was unconscious. He was removed to his home, where he died this morning without having recovered consciousness. Seibert has disappeared.

Ordered Prayers for Rain.

ROME, April 18.—The pope has ordered that prayers for rain be offered by Catholics throughout Italy. Rain has not fallen for two months. In other countries of southern Europe the drought has been hardly less persistent. In southern Russia the crops have suffered great damage.

Found Dead in His Office.

CLEVELAND, April 18.—Charles B. Williams, managing editor of The Plain Dealer, was found dead in The Plain Dealer office this morning. Apoplexy is supposed to have been the cause.

Minnesota Legislature Adjourns.

ST. PAUL, Minn., April 18.—The Minnesota legislature adjourned at noon today after an exciting session during which numerous sensational investigations were carried on and many very important laws were enacted.

Forecast of the Weather.

WASHINGTON, April 18, 9 p.m.—The weather bureau reports the following as its forecast for the next 24 hours, for upper Michigan: Occasional rain; easterly winds; slightly cooler in western portion.

Quebec Wants Some Cash.

QUEBEC, Que., April 18.—Provincial Treasurer Hall will leave shortly for Europe to float a new loan in order to pay off the Mercier \$4,000,000 loan which matures in July and also to obtain money required by the province.

How Tigers Wake at the "Zoo."

In the early morning hours, when the tigers' "sitting rooms" have been duly swept and strewn with fresh sawdust, and their toilet—which is always completed in their sleeping chambers—is finished, the doors are opened, and the owners of the different cages come leisurely out to greet the day, each in its humor as the night's sleep or natural temper dictates.

The tiger then stalked out and endeavored to sooth his partner with some commonplace caresses, which apparently soothed her ruffled nerves, for after sharpening her claws upon the floor she lay down, and rolling over on her back, with paws folded on her breast and mouth half open, went most contentedly to sleep.

Waste in the Construction of Houses.

In this day of improvements and convenient appliances of all sorts it is a rather remarkable fact that some way is not devised whereby the dwelling house can be made more comfortable during the winter season. One might almost fancy that builders and dealers in fuel were in league with each other, so badly built and faulty arranged is the average dwelling house.

A Question of Eating.

Some small men consume more food than large ones. The result must depend upon a great variety of circumstances. It may be said generally that there is no reason for asserting that a big man consumes or requires more food than a small one.

Thought She Was Ill.

An extremely ludicrous incident occurred in a Lancashire church on a recent Sunday. A young lady, evidently a stranger of a naturally pale complexion, accidentally fell her handkerchief fall on the floor.

Dead Men's Shoes.

It is not generally known that a special kind of shoes is manufactured for the undertaking trade. In appearance they differ to only a slight extent from the shoes made for ordinary purposes, but there is no leather in the soles, and they are made entirely of paper.

## A MINE DRY SCORCHED

And a Number of Miners Short on Working Clothes in Consequence.

### VIGOROUS KICK AGAINST PROPOSED SEWERS.

Persuading People to Leave Us—Rooms for Ishpeming Visitors to World's Fair—Sells Farming Machinery.

### A "DRY" FIRE.

Yesterday afternoon about 4:30 o'clock some of the men employed at the Cliffs Shaft observed fire breaking through one of the windows in the east end of the mine "dry." Upon investigation it was discovered that the fire had gained considerable headway and was burning quite fiercely in the inside of the building. A number of men working about the mine were soon at hand and had the mine hose attached to the hydrant near by and a stream of water playing on the building. Meanwhile an alarm was turned into No. 1 fire department headquarters and in a very short time the members of Hose and Hook and Ladder companies No. 1 were on the ground with their apparatus.

The miners' clothing in the west end of the building was nearly all removed and piled on the ground across the street where it was afterward sorted out by the owners, but it was impossible to get the clothing out of the east end of the structure and the greater part of it was destroyed.

Several streams of water were turned on but it was some time before the fire was subdued, as it had worked through to the attic and was burning between the ceiling and the roof. Several holes were cut through the roof and the firemen were thus enabled to get into the attic with their hose. After about an hour's hard fighting the firemen succeeded in extinguishing the blaze.

How the fire originated no one knows. The building is heated by steam and from what could be learned no one had been in the place for some time before the building was discovered on fire. The general supposition is that matches in some of the men's clothing must have become ignited in some manner.

A considerable portion of the roof was wrecked while the interior of the building will need an overhauling. The principal loss was that of the miners' clothing, which will amount to several hundred dollars. The building was insured. Many of the miners were obliged to remain idle last night on account of the loss of their working clothes.

The firemen did good work in keeping the fire under control as well as they did. Captain Selgwick showed his appreciation of the service they rendered by telling them to go to Bondy & Hassenger's place and have a smoke all around at his expense.

### They Objected.

The meeting of the common council held last evening for the purpose of hearing objections or suggestions from the citizens living in sewer district No. 1 regarding the proposed construction of sewers in that district brought out a large number who were opposed to the work.

A number of the citizens expressed their views, also the views of their neighbors. Most of them were positive in their opposition to the sewers on account of living on leased land.

After hearing the citizens' side of the question Mayor Osborn asked for the views of the aldermen and called upon Alderman Johnston, chairman of the sewer committee, who spoke briefly in favor of sewers in that portion of the city. He presented figures showing the amount of money spent in construction of the sewerage system as far as the work has been done, and urged that the work be continued, as sewers are necessary for the general good health of the city; also that the greater portion of that district is swampy land and sewers there is a great necessity.

Alderman Lindberg, from the Fourth ward, spoke for himself and his constituents, and moved that all of the land lying east of Fourth street be excluded from the sewer district. After some discussion a vote was taken and the motion was defeated.

On motion of Alderman Johnston, the health officer, together with the health committee, was instructed to look over the land in that portion of the district tomorrow and make a report regarding its condition at the regular council meeting to be held tonight.

The council then adjourned to meet this evening at 7:30 o'clock.

### Recruiting Colonists.

Rev. Gullstrom of Dundee, Texas, and Rev. Edlund of Colorado have been in this section for several days past endeavoring to interest people in their states with a view to inducing them to locate there. Messrs. Gullstrom and Edlund are well known in the upper peninsula, as they were both residents of Marquette and Negaunee, respectively, a few years ago. They have succeeded in getting many of their countrymen interested in their new homes and some have already begun to make purchases of farming lands. Some have already left here to look over the country before purchasing, while others have bought on the recommendation of friends who are familiar with the region to which they propose to remove. The services at the Swedish Lutheran church, this city, last Sunday morning and evening were conducted by Messrs. Gullstrom and Edlund.

### Rooms for World's Fair Visitors.

Mrs. C. L. Wendel of Ishpeming has secured a fifteen-room house, 2357 Calumet avenue, Chicago, which she has had furnished for roomers. Mrs. Wendel is prepared to furnish rooms either with or without board. Mrs. Boehm, formerly of Ishpeming, has also secured a dwelling near Mrs. Wendel's place and can accommodate a number of roomers. The house secured by Mrs. Wendel is situated half a block from Cottage Grove cable, near L. C. R. R., direct to the World's Fair grounds, and is within walking distance of the Fair grounds. rooms from Mrs. Wendel can call on her any time before May 1 at her place of business in the Voelker building, Main street, this city. She expects to have her millinery business in Ishpeming closed out by May 1, when she will leave for Chicago.

### Farming Implements.

Alderman Nick Losselyong, who does an extensive livery, grain and produce business, has taken the agency for the celebrated Champion and McCormick mowers. He has also put in a stock of plows, reapers, mowers, and other kinds of farming implements which he will sell at the lowest prices. Mr. Losselyong's place is Ishpeming headquarters for the farmers in this section. He is equipped in every way at his stables to accommodate farmers when they come to town and he caters for their trade, consequently he enjoys a very large business from agriculturists hereabout.

### Jane Coombs Tomorrow Evening.

Miss Jane Coombs will appear in this city in Charles Dickens' famous "Bleak House" taking the dual roles of Lady Dedlock and Hortense. The Cincinnati Commercial Gazette says of her: "Miss Jane Coombs in the dual role of Lady Dedlock and Hortense achieved the greatest triumph of her life. She was a living representation and the auditor soon loses consciousness of the fact that he is witnessing a play and feels that the living scenes are being enacted before his eyes."

**NEW FIRE ALARM COMPLETE**

Marquette's New Fire Alarm Telegraph System Completed and Tested Yesterday.

"BESS MITCHELL" TO VISIT MARQUETTE THIS SUMMER.

A New Time Card—Cyr Brothers' Great Show—A Marquette Man in Luck—Other Notes.

**READY TO BE TURNED OVER**

Marquette's new electric fire alarm telegraph system is now complete and was tested for the first time yesterday by Mr. A. H. Knott, who superintended the installation of the Gamewell company. Mr. Knott pulled box 42 at the corner of Washington and Front streets and instantly the proper alarm was given at the hose house and in the firemen's houses while the great fire bell tolled out the numbers, four and two, repeating them four times. The automatic bell tower alarm is one of the finest things about the system as no delay in sounding the public alarm will be possible hereafter.

The Marquette system has no superior in the state, all the circuits being of heavily insulated copper, while the installation is of the very best character throughout. Today the system will probably be tested thoroughly from all the boxes by Mr. Knott in the presence of the members of the water board, when it will be turned over to the city.

**A Famous Newspaper Woman**

"Bess Mitchell," whose recent trip to Mexico has made her famous throughout the country, will visit Marquette this season upon the invitation of the Duluth, South Shore & Atlantic road and while here will make a trip to the Pictured Rocks. The following sketch of the young lady's trip is taken from the Evening Wisconsin.

Miss Bess Mitchell Doolittle, the Chicago newspaper woman who has just demonstrated to the world that it is possible for a person to travel over most of this country and a large part of Mexico without setting foot upon the ground, is an energetic and bright specimen of the young woman of West. In the entire journey Miss Mitchell has made only seven transfers. Evidently railroad platforms do not count as "ground" for she walked freely on the low stone platform of the Grant Station, in New York City and passed over the elevated causeway to the New York, New Haven & Hartford waiting-room. The fair traveler went under the name, "Bess Mitchell," which she has used in her newspaper writing. She left Chicago on March 22, going over the Chicago & North-Western to Omaha; the Union Pacific to Portland, the Southern Pacific to San Francisco, Los Angeles and El Paso; the Mexican Central to Chihuahua, Zacatecas and the City of Mexico; the Mexican National to Laredo; the International & Great Northern to San Antonio and Longview; the Texas & Pacific to Texarkana; the Iron Mountain route to St. Louis; the Wabash to Detroit; the Michigan Central to Buffalo; the New York Central to New York; the New Haven road to Boston and Boston & Albany, New York Central and Michigan Southern to Chicago. One of the requirements of the trip was that Miss Mitchell, while in Mexico, should go to the top of the Hill of Chapultepec. This she accomplished.

**New Time Card**

A new time card will go into effect on the D. S. S. & A. on Sunday next, the first time in years that the "ore time card" has been ready before the ore began to move. One of the chief changes in the passenger card is made to accommodate the C. & N. W. which will start its train out of Chicago early in the evening, as the St. Paul has long done, the morning train from the east leaving Marquette nearly half an hour later in order to connect with the Northwest-ern's train at Negaunee so that copper country passengers over that route as well as the M. & N. can reach home by noon.

**He Is Climbing Fast**

Louis Bosworth, a Marquette boy and still well remembered here for his long years at the hose house, is now employed as an electrician on the World's Fair grounds and is receiving a salary of \$1,800 a year while the electrical engineer in charge told a Marquette gentleman recently that he was the most valuable man for the work he had ever gotten hold of and that he could not get along without him.

**The Cyr Brothers**

The Cyr brothers drew another large house at the Casino last night and start on their up-the-road tour today with the heartiest endorsement ever given a company of the kind in this city. THE MINING JOURNAL has no hesitation in recommending the company to its up-the-road readers as in every way worthy of patronage. Their specialties are all first-class and in every particular they do far more than they promise in their advertising.

The trapeze balancing by Seror, which opened the program, was a splendid exhibition while the work on the slack wire by the Leroux brothers which succeeded it was the finest thing of the kind ever seen here. Peter Cyr's work with the 190 pound bell, 35 pounds more than his own weight, was wonderful and he did splendid work with the other weights also while Louis Cyr, the 318 pound giant, swung the 273 pound bell up over his head easily and raised the 255 pound bar bell as if it had been a wand and even held it firmly above his head while his brother threw his weight, 168 pounds, upon it. His work with the 300 pound barrel was another surprising exhibition of strength while his back lift of over 3,000 pounds and his contest with one of the strongest teams of horses in the city, features described at length in yesterday's MINING JOURNAL, again made the spectators wild.

The entertainment in every feature was entirely unobjectionable and was enjoyed by a large number of ladies, almost half of the audience being of the gentler sex. The champion heavy weight lifter of the world can feel assured of large houses as often as he chooses to visit Marquette for he gives an exhibition which every man would

enjoy seeing a second and even a third time.

His company will appear at L'Anse tonight, Baraga Thursday night, Houghton Saturday night, Lake Linden Monday, the 24th, Red Jacket Tuesday, the 25th, Negaunee Wednesday, the 26th, and Ishpeming Thursday and Friday, the 27th and 28th.

**Uncle Josh Spruceby**

Everybody who went to the McCasland Opera House last night was most agreeably surprised at the excellence of the attraction, "Uncle Josh Spruceby." The play resembles "The Old Homestead" very much, but is far better. It is written in four acts and the curtain first rises on the home of Uncle Joshua Spruceby, a New England farmer, whose broad humor and clear grit were much admired by the immense crowd, nearly every seat in the entire house being occupied. The scenery was superb. In the third act a real sawmill in active operation occupies the stage, and the way it sawed planks, boards and two-by-fours was indeed surprising. The barn of Uncle Josh in the last act was also noticeable for its realistic appearance. Doubtless the crowd tonight will exceed even the immense throng that attended last evening—this being their last appearance here.—East St. Louis Journal.

**A Crowded House**

Frank Murphy had a crowded house at the Marquette Opera House last night, undoubtedly a result of the fact that Mr. Murphy's fine work as Policeman Metoogole in "A Turkish Bath" is still remembered here. He surpassed himself last night and is certainly imitable in his own chosen line. His company has some very strong members, the Dutch comedian and dancer being especially good while the little skirt and toe dancer was the finest ever seen in Marquette.

**Teachers' Examination**

The county board of school examiners will hold a special teachers' examination at Ishpeming on Friday, April 28. This will be the last examination held during the present school year.

**A HOUSEHOLD REMEDY**

Allcock's Porous Plasters are the only reliable plasters ever produced. Fragrant, clean, inexpensive and never failing; they fully meet all the requirements of a household remedy, and should always be kept on hand. For the relief and cure of weak back, weak muscles, lameness, stiff, or enlarged joints, pains in the chest, small of the back and around the hips, strains, stitches and all local pains, Allcock's Porous Plasters are unequalled.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Allcock's and let no solicitation or explanation induce you to accept a substitute.

**THE DAY NURSERY**

The day nursery in the Everett residence is now open. The object of the nursery is to take care of poor children while their mothers are out at work. Children can be taken there at 7 a. m. and left till 6 p. m. for five cents a day. There will be a matron and a nurse. The nursery has been established by Mrs. J. M. Longyear and she hopes the ladies of the city will take such an interest in the establishment as to give it their assistance; it is open to investigation at all times. It occupies the south wing of the Everett building. (4-6-1m)

**It is Strange**

That people suffering from Piles will endure them for years or submit to dangerous, painful, cruel and expensive surgical operations, when all the time there is a painless, certain, lasting cure, which gives instant relief and costs but a trifle. It is called the Pyramid Pile Cure and can be found at all drug stores. Any druggist will get it for you if you ask him.

**THE PLEASANTEST PLACE IN THE SOUTH**

A special excursion to North Galveston, Tex. will leave Marquette April 26, 1893. Remarkable inducements are offered. For particulars apply to M. E. Asire, Agt. Marquette.

**BEECHAM'S PILLS FOR A BAD LIFE**

The Pyramid Pile Cure is a new discovery for the prompt, permanent cure of Piles in every form. Every druggist has it.

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
