SWEPT OFF BY THE WAVES.

Some Twenty Men Drowned at Milwaukee's New Water Works Intake Crib.

ONLY ONE MAN FOUND ALIVE BY THE RESCUERS.

Number on Crib Uncertain but Was at Least Fourteen and Was Probably Twenty-Two.

HAD TO WATCH THEM BROWN.

MILWAUKEE, April 20.—Twenty-one lives have undoubtedly been lost as a result of the terrific storm which raged here during all last night and today. The house on the crib at the new intake of the water works system was washed away shortly before 6 o'clock this morning.

In the house last night according to reliable reports were twenty-two men, although some reports fix the number at only sixteen. It was at first supposed that all the men had been carried into the lake with the house and drowned but during the morning six men were seen on the crib clinging to a pump.

It is not certain whether the men were all drowned. There is a possibility that they took refuge in a small chamber within the crib. If they did they might have died from suffocation or have been drowned as a result of the six men opening the entrance of the air chamber in order to climb upon the crib. The life saving crew found only one live man on the crib and he will probably die. The others are probably drowned or have died from suffocation.

When the alarm was first given that the men on the crib were in danger the patrol wagon from the central police station was immediately dispatched to the scene. The patrolmen pulled up on the beach but were powerless to do anything. They could see no trace of the house. When they were standing there a mast and some articles came ashore. It was evident to the patrolmen that the men had either gone out into the lake in the house or were in the latter place their death would be almost as certain as if they had been washed out into the lake for the air pump would not be working. There being nothing they could do the patrolmen after going to the nearest patrol box and suggesting that the life saving crew be notified went back to their quarters.

Shortly after 9 o'clock one of the spectators who had been looking intently at the crib exclaimed:

"I can see a man!" The others strained their eyes and sure enough they could see the figure of a man moving cautiously about on the crib. It was only by clinging to the few remaining timbers that he was saved from being washed off by the waves. At times he would be hidden from view for several seconds by some particularly large wave.

Some of those on shore doubted that a man had been seen and the powerful glasses in the engine house were directed at the crib. There was no longer any doubt. It was a man and with him were two of his companions who had evidently come up from the air chamber while those on shore had been getting the glasses. The men could be plainly seen clinging to the one remaining pump and to the posts.

A couple of men ran along the shore to a little island and waved their handkerchiefs to let the men know that they had been seen. Those looking through the glasses could see that the men on the crib answered the signal by waving one hand while with the other they clung to the pump for their lives. While the glasses were being used two more men came up from the air chamber and later still another was seen, making six in all on the crib.

The tug Starke went out on the lake with the idea of demonstrating if it were possible to get to the vicinity of the crib but the sea was too heavy and soon she returned. The sea broke the pilot house windows and the flying glass cut Captain Chris Miller badly. The steambarge G. T. Boroughs, recently purchased by Sinclair & Schinigau, the tunnel contractors, was lying at Broadway bridge. No effort was made to reach the crib with the barge as it was considered useless.

The tug Welcome then succeeded in making her way to the crib. Captain Greenwicz of the tug Welcome made the following statement on his return. "We arrived at a point near the crib about 10:45. It was then blowing strong and the sea was still so heavy that at times we could not see the crib or anything else except the waves. We stopped about 200 feet from the crib as it was not safe to go nearer. "The life boat was then pushed off to as near the works as possible and one of the life saving crew named Olesen jumped from it to the crib. The boat was then pulled back for safety.

"The crib or hole seemed to be filled with water and every wave swept entirely over it, as it is now but about four feet above the level of the lake. "The only man visible was hanging to a cable. It is my belief that most of the men were washed away early this morning when the house went away for they would certainly cling to it and stay about the hole as long as anything was left to catch on to.

"I believe the hole was full of water all night and that it would have only been swifter death to the men to have gone below. From the appearance of things I would think all preferred to take their chances on top in the house to getting down.

"This would be natural and it is more than likely at least that a number of them went with the building and machinery. "I was told by one of the foremen that there were but sixteen men at

works in all, although I have heard it reported that there were twenty in all out there."

When the Welcome landed at the Milwaukee Tug company's dock at the foot of East Water street the only survivor was lifted from the life boat and carried into the tug office. He was in a semi-unconscious condition and for some minutes it was thought he was dying. He soon rallied slightly and when Drs. Joseph Lewis and J. S. O'Brien arrived they stated that the man had a reasonable chance of recovery but it would be alone owing to his apparent remarkable constitution. He was finally taken to the Emergency hospital.

He was found hanging to a piece of cable attached to the hoisting machine used to reach the shaft. He looked up and then his head sank back upon his breast and when Olesen reached him he was apparently dead. He whispered half unconsciously.

"For God's sake, save me; the rest are down there."

He was too stiff from cold and weak from exposure to help himself and it was with the utmost exertion that Olesen rescued him. This was done only by dragging the man, whose name proves to be Miller, on his back and then strapping him to his own body. When this was done Miller grasped the shoulders of Olesen with both hands and clung to him with the proverbial tenacity of a drowning man. Olesen said:

"When I reached the top of the crib after a big jump I saw the one man hanging to a piece of cable with a portion of his body in the sea. He could barely talk and could not help himself. "The hole was full of water and I saw several bodies of men floating around there. The living man said they were all down there and it seems as though they fell in and were drowned one by one as they lost their strength. I saw several bodies and everything except the crib was gone. The sea was fearful at the time and I cannot see how this man stood it as long as he did."

Late this afternoon Miller was reported to be doing quite well at the Emergency hospital. He was conscious part of the time but could not talk coherently.

Captain Peterson of the life saving crew is in a bad condition from exposure and the drenching he got by being washed overboard several times. The sea is considered the worst ever seen in this city and it has but slightly abated at a late hour this evening.

The following are known to have been in the wrecked crib: George Gregg, lockman; Michael Dwyer, engineer; John McBride, engineer; Eben Allen, cook; James Miller, miner; William Priestly, miner; Joseph McCarthy, miner; George Wholly, miner; William Presner, miner; Joseph Pretznold, miner; Gust Lacomitz, miner; Fred Spanner, miner; Frank Debau, James Murphy. Most of the men whose names are in this list are Milwaukeeans. About half of the crew at the crib came here recently from Chicago.

DETROIT'S LOCKS TOUSLED.

Wind Blew Seventy Miles an Hour There Yesterday.

DETROIT, April 20.—One of the heaviest gales ever known on the lakes raged last night and this morning, the wind attaining a velocity of over seventy miles an hour. The local weather officer reports that for the first time since the office was established its wind instrument, signal pole and signal lights and flags were carried away. One of the Detroit Electric Light & Power company's towers, located at the corner of Canfield avenue and Antoine street, was blown down.

YESILANTI BADLY SOAKED.

Heavy Rain Pours Into Her Many Unroofed Buildings.

YESILANTI, Mich., April 20.—Property in this city which was badly damaged by a cyclone last week has received further injury by the heavy rain that prevailed here last night and today. Stocks of goods which had been left uncovered by the unroofings of buildings were wet and rendered almost useless. The postoffice is afloat and it is almost impossible to get into it for mail. It is estimated that the loss will be from \$40,000 to \$70,000.

BLIZZARD AT MARSHALSTOWN.

Heavy Snow Driven Into Drifts by Howling Gales.

MARSHALSTOWN, Ia., April 20.—One of the worst blizzards ever known in central Iowa this late in the season began at 4 o'clock this morning and was but slightly abated this afternoon. The wind is blowing from the northwest with frightful velocity, the temperature gradually falling and snow drifted three feet deep in places. If the storm continues it will seriously interrupt railroad traffic and injure fruit and early vegetation. Telegraph and telephone wires are down badly and business is paralyzed here.

CREW WALKED ASHORE.

Lumber Scow Laurina Stranded in Milwaukee Outer Harbor.

MILWAUKEE, April 20.—The scow Laurina, laden with hardwood lumber for Racine, came to anchor behind the government breakwater yesterday afternoon and at dark last evening was riding easily and in apparent safety. During the night she dragged her anchors and at daybreak she was lodged snugly close alongside the shore breakwater a short distance north of Janneau avenue. The crew had no difficulty in stepping ashore from her. She is full of water and carries her deck load intact. She can be pumped out and lightered easily.

HAS PASSED THE HOUSE.

Only One Vote Against the Upper Peninsula Insane Asylum Bill.

THAT WAS BY MR. BLAKELY OF ALPENA.

Mining School Appropriation Bill Passes Both Houses and Is Ready for Governor's Signature.

THAT ASYLUM IS IN SIGHT.

STATE HOUSE, LANSING, Mich., April 20.—[Special.]—The bill establishing an insane asylum in the upper peninsula passed the house today with comparatively little debate. The measure is the production of Representative Wagner and appropriates the sum of \$75,000.

Mr. Blakely of Alpena was the sole opponent of the bill. He took the floor and in a camp meeting voice declared the bill was an outrage on the community and a direct robbery of the good people of the state.

Representatives Chamberlain and Hicks upheld the measure in glowing terms, however, and the house showed its good sense and appreciation of the upper peninsula delegation by passing the bill. The roll call showed: Yeas, 70; nays, 1 (Mr. Blakely).

The bill appropriating the sum of \$110,000 for the state Mining school at Houghton came over from the senate this afternoon and passed the house unanimously. It now goes to the governor for his signature.

HAVE GIVEN LEG BAIL.

Chilean Refugees Depart from Our Legation in Haste.

WASHINGTON, April 20.—Senator Don Anibal Cruze, charge d'affaires of the Chilean legation, was one of the earliest callers at the state department today. He held in his hands a newspaper dispatch announcing that Blendot Holly and Colonel Fuentes, the alleged Balmacedists to whom Minister Egan had afforded shelter at the American legation and whose surrender had been demanded by the Chilean authorities, had made their escape from the legation; that the Fuentes had been captured by the Chilean guards stationed in the neighborhood of the United States legation but that Holly was still at large. Senator Cruz had a long interview with Assistant Secretary Adee and subsequently Secretary Gresham gave this statement to the press:

"A charge was pending against Fuentes and Holly for violating the municipal laws of Chile and Minister Egan was instructed by Secretary Gresham that he should cease sheltering them." Nothing was said as to whether the refugees escaped before or after Mr. Egan received his instructions or with his supposed connivance. The official correspondence on the subject will not be given out at present if at all.

AFFAIRS IN HAWAII.

Only Agitators There Are Fake Newspaper Correspondents.

WASHINGTON, April 20.—A private letter from a United States official in Hawaii came in the mail last night. In reference to the report that Commissioner Blount had directed the lowering of the United States flag without consulting Minister Stevens, Admiral Scheritt, or any of the representatives of the United States in Honolulu the writer states that Mr. Blount did have a consultation with Minister Stevens on the subject and while he does not say so in so many words the inference to be drawn from his letter is that Mr. Stevens coincided with the commissioner in his action.

Another report and one that has found much currency in Honolulu, that the Japanese in Hawaii are contemplating resistance by force to American domination of the islands and that they have received arms to assist them in this determination, is contradicted by the writer who stated that the Japanese and, in fact, all the people of the islands are peaceably inclined and do not anticipate any trouble. In point of fact the only agitators there at present are the newspaper correspondents.

VERY POOR SHOOTING.

California Bandits Again Escape Under Hall of Bullets.

VISALIA, Cal., April 20.—Evans and Sontag, the train robbers who have eluded the officers for several months, were at Evans' home in this city last night. Sheriff Kay with a posse of eight men went to the house. The sheriff stationed his men and crawled to the barn to make sure Evans and Sontag were there. Sontag came out of the barn in a cart and Sheriff Kay gave the agreed signal to the posse to shoot. Kay fired three shots without effect and the posse also fired but they were unable to make a hit. Twenty shots were fired—none by Evans and Sontag. The desperadoes laid whip to the horses and escaped in a westerly direction. The posse is in hot pursuit but it is doubtful if they can catch the men.

SHIP GOWANBURN LOST.

Her Figurehead Found on the New Zealand Coast.

SAN FRANCISCO, April 20.—The British ship Gowanburn, which left Newcastle, N. S. W., sixty-four days since for this port, has doubtless been lost and it is probable that her crew of twenty-eight have shared a similar fate. J. J. Moore & Co., shipping merchants of this city, are in receipt of cable advices that her figurehead and cabin were found on the coast of New Zealand March 11. Whether the vessel was lost in a gale, wrecked on some island or destroyed by fire can only be surmised.

MARQUETTE, MICH., APRIL 21.

Entered as mailmatter of the second class in the postoffice at Marquette, Mich.

Things must be getting in a way at Superior, when they are beginning to burn their hotels to realize on the insurance carried on them. But there is never a boom without its reaction, and sometimes the reaction sets a town back farther than the boom carried it forward.

Very encouraging reports are received from the Pittsburg iron and steel industries, which are stated to be in much better condition than it was expected a few months ago they would be. All the firms are booking more orders than they anticipated, especially for steel, and the while the demand for iron also shows improvement.

If Representative Wagner's insane asylum bill goes through he will have done enough to entitle him to a brass band reception when he returns to Marquette, although this city is not considered in it for the proposed asylum. The asylum would be a direct benefit to all the peninsula, no matter where located, for it would relieve us from the heavy expense of transporting insane patients to asylums in the lower part of the state, not to enumerate other advantages attendant on having such an institution where it would be easily accessible from all parts of the peninsula.

Governor Rich should remember that his immediate predecessor was a great stickler for what he conceived to be "economy" also, and that his party did not dare nominate him for a second term. The people of Michigan are opposed to extravagance in the conduct of the state government, but they are just as much opposed to injudicious "scrimping." Michigan is well able to provide her people with adequate educational facilities and also with institutions for the care and treatment of those unfortunate who, through no fault of their own, are unable to take care of themselves, and Governor Rich should bear that fact well in mind if he would have his administration numbered among the popular and successful ones that the state has been favored with.

PAYING THEM IN THEIR OWN COIN.

It is reported from Washington that Secretary of the Treasury Carlisle has discovered a way by which the run on the treasury for gold can be quite effectually checked and that he has about determined to adopt it in order to avert the necessity of putting a new issue of government bonds on the market.

Under the silver purchase law the government is obliged to buy 4,500,000 ounces of silver per month upon offers called for by the secretary of the treasury or in the open market at the quoted price. Treasury notes are issued covering the value of the bullion so purchased in payment. These notes are redeemable on demand in gold or silver coin, and there are about \$130,000,000 of them outstanding. Hitherto the practice has been to redeem them in gold, and since the outflow of gold set that have been presented for redemption right along. The secretary now finds that he has the authority to redeem them in silver or gold at his option, and proposes to make the rule that the silver certificates shall be redeemed in silver coin, a step that will at once put a stop to their presentation for redemption and deprive the brokers who are endeavoring to crowd the government into issuing new bonds of a potent means for the accomplishment of that result.

It is easy to see how the government has been, in effect, forced to pay out gold or a large share of the silver purchased monthly under the Sherman act, and how that act could be, and no doubt has been, taken advantage of to steadily drain the treasury of gold while the policy of redeeming the silver certificates in gold was adhered to. All that the brokers had to do was to gather up the silver certificates and present them for redemption, and while they were redeemed in gold the government was practically engaged in converting its gold into silver and locking the latter up in the treasury vaults, where it is no more serviceable for ordinary purposes than when it was locked up in the mines from which it was originally taken.

The clause of the silver purchase law under which the secretary of the treasury is empowered, at his discretion, to redeem treasury notes in silver is here given:

Treasury notes issued in accordance with the provisions of this act shall be redeemable on demand in coin at the treasury of the United States or at the office of any assistant treasurer of the United States, and when so redeemed, may be re-issued.

That upon demand of the holder of any treasury notes herein provided for, the secretary of the treasury shall, under such regulations as he may prescribe, redeem such notes in gold or silver coin at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law.

It will be seen that the power of the secretary of the treasury to adopt and

enforce the policy he is said to have under advisement is ample. If he can put a stop to the run on the treasury for gold by exercising it his duty is clear in the premises. He will then be paying the holders of silver certificates "in their own coin," and they will have no just cause for complaint. It will be fortunate if a means shall be found of avoiding the issuance of new bonds for many reasons, chief among these being that it would avert furnishing a certain class of noisy demagogues with material for appeals to the people calculated to excite their distrust of the government and to create among them the belief that its financial policy is being shaped to meet the wishes of the banks and "money power." If it becomes necessary to protect or maintain the credit of the nation there should be no hesitancy about placing bonds on the market, but if the secretary of the treasury can hit on some plan of getting along without doing that he will be entitled to the gratitude of the whole people.

THIS IS GOOD NEWS!

The bill providing for the establishment of an asylum for the insane in the upper peninsula went through the house a-lying yesterday, the vote standing sixty-seven in its favor to one against. This presages affirmative action on the bill in the senate, as it denotes that the legislature is fully informed as to the necessity for an asylum in this part of the state and disposed to do this section justice by making suitable provision for its establishment.

THE MINING JOURNAL is highly gratified by the action taken on the bill in the house, and feels that the upper peninsula delegation has done excellent work for their section of the state in pushing the measure as vigorously and unselfishly as they have done. Our gratitude is due in fully as generous a measure, however, to the friends in the legislature representing lower peninsula districts who have stood by us in the fight, and have taken the broad ground that if there is to be another asylum provided this peninsula is entitled to and should have it.

It affords us pleasure, also, to acknowledge the effective service rendered us at an opportune stage by The State Republican of Lansing, which in its issue of the 13th contained a strong editorial article urging that the bill introduced by Mr. Wagner be passed, and presenting the arguments in support of the bill at length and with convincing force and clearness. The friendly attitude of that paper unquestionably had much to do with bringing about the result in the house yesterday. To show the earnestness with which The State Republican advocated favorable action on the measure, we give the closing paragraph of its timely and persuasive plea in our behalf:

As the matter now stands, it would seem that every instinct of justice and humanity demands the establishment of an insane asylum at some convenient point in the upper peninsula, and the terms presented in Mr. Wagner's bill, now before the house, appear to be eminently reasonable and businesslike. Their very moderation indicates the necessities of the case, and that the people of that section are intensely earnest in their desire for relief.

It is our sincere hope that the senate will show equal appreciation with the house of the justice of our claim for this institution, and that Governor Rich will not be swayed by a mistaken idea of economy to defeat the good intentions of the legislature in the matter. He is quoted as not being favorable to the bill, but he should bear in mind that additional facilities for caring for the insane of the state are imperatively demanded and that if another asylum is to be provided "every instinct of justice and humanity," to quote from The State Republican, demands that it shall be located on this peninsula.

YOUNG MEN. Who may be suffering from the effect of youthful follies or indiscretions will do well to avail themselves of this chance. DR. SPEER & CO. Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$200. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN. There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening of the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits aropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milkyish hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness. LADIES. Finding it inconvenient to call at the office can be treated by mail by sending a full description of their case. DR. SPEER & CO. Will guarantee a perfect cure in all such cases and a healthy restoration of the organs. Examination and advice free at all. Remember the place, 146 West Washington street, Marquette.

COPPER COUNTRY NEWS.

The "Uncle Josh Spruceby" Company Plays to Packed House at Hancock.

PENDING SOUTH SHORE TIME CARD CHANGES.

Thursday's Snow Storm Was General and Was a Corker-Personal and Miscellaneous Notes.

[All communications for copper country department should be addressed to A. F. Isler, Houghton.] HOUGHTON.

Residents of the copper country going east should remember that the South Shore has a limited train leaving here at 6:15 o'clock each evening with a through buffet sleeper attached. This train is very convenient for one going to Detroit, New York or Boston and it should be used and appreciated. This train makes connections the following evening in Detroit with the celebrated North Shore Limited, a through vestibule train arriving at New York at 3:55 p. m. the following day, 45 hours from Houghton. Boston is reached at 6:05 p. m., 47 hours from Houghton. In taking this route travelers not only ride on the finest and fastest trains there are but avoid expensive and tedious transfers and get there in much shorter time.

Trains on the South Shore road will on and after Sunday, April 23, leave here as follows: Duluth express, 8:50 a. m., daily except Sunday; for Marquette, 12:55 p. m.; for Detroit, 6:15 p. m. Trains arrive here as follows: From Detroit, 1:30 p. m.; from Marquette, 7:40 p. m.; from Duluth, 10:30 p. m.

While walking up a plank from the shore to the tug Duncan Robinson at Houghton Wednesday the plank broke and Will Calverly fell into the water, taking the first bath in Portage Lake this season.

F. J. Hawden arrived home from a visit to Detroit and the east yesterday noon. He says he has not yet received any official notice as to his appointment as collector of customs at Marquette.

Cyr Bros. come well recommended by both press and public and those who miss seeing this entertainment will miss something fine. The show is free from any objectionable feature and is worth going miles to see at the Armory Opera House Saturday evening, April 22.

The "Uncle Josh Spruceby company" played to a packed house Wednesday evening, every seat being taken and a large number standing before the curtain rose on the first act. Nearly 600 people were in attendance. They are several changes made in the play and it must be seen to be appreciated. The blowing up of the safe by the burglars shows that "Kid" Kelly and "Brooklyn" Jordan are not amateurs at the business while the saw mill scene is as exciting as ever and the part of the lady is well taken in this act. The company is a good one and when they return here again they are sure of another crowded house.

A number of the merchants got out their delivery sleighs again yesterday. A heavy wind blew all day and the snow that fell was very wet. Those who have been south all winter and have returned were kicking themselves.

On account of the big storm St. Patrick's parochial school was dismissed half an hour earlier than usual yesterday to give the children who live at a great distance ample time to get home before dark.

As Isaac Truscott was on his way home from work at the Quincy mills Wednesday evening his horse was taken sick and dropped on Hancock street. Mr. Truscott got the horse up and walked him home where the animal again lay down. The trouble seems to be the same that killed the valuable horse of Dr. Downer.

Henry Funke returned from Butte City, Mont., yesterday noon.

Barney Schneider and his assistants arrived home Wednesday evening, having finished their painting contract in L'Anse.

A social dance will be given by "The Bashful Five" at Miles' hall Saturday evening, April 22. Music will be furnished by the Houghton String orchestra.

The committees are: Arrangements—J. T. Amos, Frank Kopp, Michael Keegan, John Foley, C. E. O'Neill; floor—C. E. O'Neill and J. T. Amos. A good time is assured those who attend.

The social party given at the opera house Wednesday evening as a farewell to Mr. George Giessen was one of the most enjoyable parties ever given in the copper country. Over two hundred persons were present. They came by special trains from Houghton, Hancock and Calumet and some were present from the iron country. The Lake Linden band furnished the music and several of the best dancers and musicians stated to the reporter that the music was splendid. A very tempting lunch was served at midnight. All present felt that those who had charge of the arrangements understood how to provide for an affair of this kind.

The ladies of the Methodist church are straining every nerve to raise money enough to pay for the new organ that has been ordered for the church and the debt on which they have pledged themselves to pay. Their next entertainment to raise funds will be a "Columbian supper" May 1, the day of the opening of the World's Fair. In addition to the supper they are figuring to give a good literary and musical program.

Superintendent F. G. Coggin will be at the World's Fair and superintendent setting up of the stamp mill models. An electric motor will furnish power.

The "Uncle Josh Spruceby" company probably never before made its parade as in rough weather as in the blizzard of Thursday.

Dr. M. E. Wadsworth, director of the Mining school, was in the city yesterday.

Pharmacist A. F. Wetzel, who has been sick with pneumonia, has recovered sufficiently to travel to his home in Ann Arbor and he departed last evening.

Adolph Richter, the Salt Lake real estate agent, left for Salt Lake yesterday. He intends to open an office in Ishpeming as soon as he returns.

George Miner, who was hurt Tuesday night while riding up in the car, is still in a very critical condition. He is an Austrian and is only twenty years of age. Riding in the car is strictly forbidden and he knew it; therefore the company is not at all to blame for the accident.

There is an abundance of water now to run the stamp mill and the mine is looking very well but a better price for copper is necessary to make it profitable for the shareholders.

VIRGINIA, MINN.,

Is the most centrally situated town on the great Mesaba iron range. It has a great natural location, sloping gradually from the mines to the shore of two beautiful little lakes and surrounded by charming scenery. The Duluth, Mesaba & Northern has reached the place and building is going on at a lively rate. The townsite surrounded by one of the best groups of mines on the range, mines capable of producing anywhere from 1,000,000 to 2,500,000 tons of ore annually. The surrounding country is well timbered, pine predominating. A saw mill is now operating and a large one is about to be erected, the lakes affording excellent boommage. The village has a system of water works, a bank, feed stable, several stores, saloons, restaurants and hotels. A post-office and newspaper is now established, the latter by Dr. Fred Barrett. Virginia is destined to have a population of at least 5,000 and people seeking new locations would do well to look it over. For further information write to

MANY NEGROES PERISH.

Another Disastrous Cyclone Sweeps Over Two Counties in Eastern Mississippi.

LOSS OF LIFE AND PROPERTY IS VERY GREAT.

Whole Family of Eleven Negroes Cremated in the Ruins of Their Cabin. Many Other Fatalities.

FIRE ADDED TO TEMPEST.

MERIDIAN, Miss., April 20.—Passengers on a train which reached here at 1 o'clock this morning gave particulars of a frightful tornado that passed through Jasper and Clarke counties yesterday afternoon.

The cyclone originated in Jasper county, thirty-five miles south of here, and travelled in a northeasterly direction. A settlement of negro cabins was destroyed and many of the unfortunate inmates perished.

Colonel Berry's magnificent plantation was swept clean. Fortunately none of his family was injured but several negroes were badly hurt.

From this point to Barnett, thirty miles south of here, the storm was especially severe. Dr. T. J. Krouse, one of the largest plantation owners in the south, was a heavy loser. Every stick of timber on his place was carried away and every house demolished. Dr. Krouse was badly injured. His son had his skull crushed and his wife and daughter were slightly hurt.

A negro on Dr. Krouse's plantation named Henry German, his wife and nine children, were imprisoned under the ruins of their cabin and fire originating from the kitchen stove slowly roasted the unfortunate wretches, who piteously begged that death might come and release them from their sufferings. Other negro inmates of cabins on the place were shaken and bruised but no other serious casualties are reported.

Three miles east of Barnett the wind struck a neighborhood of farms. Tom Lot's dwelling was swept away, his leg was broken and other members of the family were slightly bruised. John Smith's house was levelled and he received serious injuries. Frank Mae Cornick's turpentine still was destroyed.

D. F. Leggett's store was destroyed and his stock is now hanging in shreds upon the branches of forest trees. Leggett's wife and children were buried in the ruins which caught fire and would have perished but for the timely arrival of neighbors. A little further on three negro cabins were struck. Two negroes were killed and several badly wounded.

Twenty miles east of Barnett the storm crossed the Memphis & Ohio railroad, tearing down three miles of telegraph wires and obstructing the track.

The telegraph poles and wires for a distance of five miles along the track of the New Orleans & Northeastern railway are down.

Crossing the Memphis & Ohio tracks north of Shuberta the storm created havoc among the negro cabins on the different plantations.

Reports of the damage are coming in slowly but such as are received indicate an awful loss of life and property.

All along the thirty miles of cyclone path are strewn the dead carcasses of horses, cattle and all descriptions of live stock while crops are ruined. The loss will reach into the hundreds of thousands of dollars.

MIDLAND CITY, Ala., April 20.—A cyclone struck this town late last night and destroyed a dozen residences, four stores and two warehouses. The cyclone lasted but a few minutes and no one was killed although a number of persons are seriously injured.

HARRINGTON IN HOT WATER.

The Professor Had Better Stayed at Michigan University.

WASHINGTON, April 20.—Assistant Attorney General Coby today forwarded to Professor Harrington, the chief of the weather bureau, the formulated charges against him in another official of the bureau for alleged malfeasance in office.

The charges against him are: misrepresentation of facts; soliciting of unworthy employes; evasion or violation of the civil service law; inefficiency; maladministration and improper diversion of public funds.

The secretary of agriculture has requested the resignation of Major S. S. Rockwood, assistant chief of the weather bureau, and the resignation has been tendered and accepted.

THE PLAGUE IN RUSSIA.

Seems to Be Worse in the Province of Podolia.

ST. PETERSBURG, April 20.—The official cholera statistics just issued show that from March 13 to March 27 there were 460 new cases and 120 deaths in the government of Podolia and from March 27 to April 13 there were 113 new cases and thirty-five deaths in the government of Orfa. Elsewhere in the empire fifteen cases and seven deaths are reported.

VIENNA, April 20.—Two cases of cholera and one death from the disease are reported from Oluth in Bukovina. Four cases have occurred in Nova Mamapovoe.

STATE OF THE IRON TRADE.

The Iron Trade Review's Survey of the Situation.

CLEVELAND, April 20.—The Iron Trade Review today says: "The decline in Bessemer pig iron continues. Prices have gone but slightly below those of a week ago and transactions at \$13.70 are reported with the market weak and hesitating. There are clear indications as to the future. Producers believe that ordinary production is more than can be taken care of by current consumption but this view does not take into account the capacity in the valleys that is not now active."

"The furnace situation is not materially changed. Coke iron stocks decreased about 30,000 tons in March but the weekly production of all furnaces advanced from 177,210 tons to 182,169

tons. The blowing out of several furnaces in Virginia, recently reported, has resulted in a great scarcity of good irons of all grades in the eastern market. Southern selling centers report inquiries of moderate volume. The structural material market has weakened somewhat in the past ten days and there is not the supply or orders for early spring work that had been expected."

MURDERERS IDENTIFIED.

Mrs. Rister Says Parker and McAfee Killed Her Husband.

INDIANAPOLIS, April 20.—Mrs. Rister, the widow of the murdered druggist who was brutally shot down in his store on Mississippi street a few nights ago by two colored men, was taken to the jail today and given an opportunity to see the two negroes Parker and McAfee, who are under arrest for the crime. As the two men were brought before Mrs. Rister she exclaimed: "They are the men who murdered my husband." The negroes began to expostulate but were at once returned to their cells. The two men were originally arrested on circumstantial evidence.

POISONED HER HUSBAND.

Mrs. David Burton and Her Paramour Under Arrest.

MADISONVILLE, Tenn., April 20.—Mrs. David Burton and her paramour, Noah Trout, are in jail here charged with the murder of Mrs. Burton's husband. The woman has confessed to giving her husband two successive doses of rat poison at the instigation of Trout in order to get rid of him, succeeding with the last.

MOORS ARE TROUBLESOME.

Outposts of the Spanish Convict Settlement Attacked.

MADRID, April 20.—A party of Moors fired upon the Spanish sentries at Melilla, the Spanish town and convict settlement on the northern coast of Morocco, Monday night. One of the sentries was fatally wounded. Military gardens are situated on the outskirts of the town. The houses occupied by the gardeners were looted and burned by the Moors and the gardeners were driven to seek refuge in the citadel.

Choctaws Cooling Down.

WASHINGTON, April 20.—General Schofield at Antlers, I. T., stating that quiet prevailed there and that the trouble with the Indians is about ended. The Locke men and the Jones party are negotiating for peace.

Four Seamen Lost.

BEAUS AYRES, April 20.—The American bark G. Southard, Captain Hurlbut, from New York Nov. 17 for San Pedro and Redondo, has arrived at Montevideo. She reports the loss of four of her crew on the voyage. No details are given.

Forecast of the Weather.

WASHINGTON, April 20, 9 p.m.—The weather bureau reports the following as its forecast for the next 24 hours, for upper Michigan: Rain or snow; northerly to westerly winds; slightly colder.

Blizzard at Iron Mountain.

IRON MOUNTAIN, Mich., April 20.—[Special.]—A terrific snow storm and blizzard has been raging here all day. Ten inches of snow has fallen. Street traffic is almost at a standstill.

Mining Town Wiped Out.

SPOKANE, Wash., April 20.—A dispatch from Warden in the Coeur d'Alene mining district reports that town destroyed by fire. Warden was a place of 1,000 inhabitants.

Another Big Bank Failure.

LONDON, April 20.—The failure is announced of the Australian Joint Stock bank with liabilities amounting to \$65,000,000. The deposits amount to nearly \$55,000,000.

CHICAGO MARKETS.

Wheat Quotations. CHICAGO, April 20.—The leading wheat futures ranged as follows:

MORE TROUBLE AT TRACY.

Free Miners Attack the Convict Camp at the Tennessee Coal Mines.

ONE MINER KILLED AND ONE GUARD FATALLY HURT.

Attack Repulsed and All Quiet Again. Nashville Waked by Cannon Shots in the Night.

MADE A NIGHT ATTACK.

TRACY CITY, Tenn., April 20.—The branch prison at this place was attacked by armed men, estimated at forty to one hundred, about 11 o'clock last night. The prison officials had information of the intended attack and the guards were all on duty.

Firing was soon commenced but the miners were repulsed with one of their men, Bob Irwin, killed; Matt Parsons wounded and another thought to be injured, name unknown. Deputy Warden Shriver, was wounded in the head but not dangerously. James Walden, a guard, was fatally wounded. Sheriff N. Sanders was at the prison during the attack. No work is going on in any of the mines. The prisoners were not taken out of the stockade today.

CITY ROUSED BY CANNON.

NASHVILLE, April 20.—The city was startled at the hour of 3:30 o'clock this morning by the discharge of cannon on Capitol Hill. Five heavy reports rang out as the signal for the soldiers to come to arms and was promptly responded to. The occasion for the alarm was a telegram received by Adjutant General Fife from Tracy City announcing that a battle was in progress there between the miners and convict guards.

The telegram was from Warden Burton and stated that one of the guards had been mortally wounded and another hurt. It was sent at 11 o'clock reach Nashville until 3:15 this morning. The special train that left the Union depot in this place at 4:40 o'clock carried a little over one hundred of the Tennessee National Guards and two pieces of artillery. General Fife and aides accompanied the soldiers.

Hot Lead Against Cold Steel.

GREENFIELD, Mo., April 20.—A quarrel here yesterday, Wm. McGuirk attacked Boyd Miller with a pitchfork and was shot dead.

How to Boil Water Without a Kettle.

"My wife and I," says a traveling man, "were once in a hotel where we couldn't get any boiling water. After we had discussed the situation my wife asked me if I had an envelope in my satchel. I got one out, when she told me to fill it with water and hold it over the gas jet. I hesitated, but finally did it and expected to see the envelope blaze up every moment. But it didn't blaze. The envelope took on a little soot, but that was all. The water boiled in time, and the envelope was as good as ever when the experiment was at an end. I don't know the chemistry of the process, but try it yourself and see if it will not work."—New York Tribune.

Articles Fanned in Paris.

A correspondent of the Paris Figaro has been interviewing the mont de pieté or big pawnshops of Paris. He has published a rather curious list of the various articles pledged during the year. The most popular among them were bed sheets, of which 9,194 pairs were pledged. There were 549 eider down quilts, 354 fans, 362 boxes of mathematical instruments, 1,973 saws, 460 sewing machines, 57 pianos and 977 looking glasses.

Artificial Silk.

Dr. Lehner of Augsburg is said to have solved the problem of making artificial silk. He declares that it costs only one-fourth as much as natural silk; that its elasticity, luster and feeling to the touch are at least equal to those of the latter, but that its strength is only two-thirds as great.—Exchange.

To Remove Stains From Wall Paper.

The soiling caused by persons leaning their heads against a papered wall may be greatly lessened, if not obliterated, by laying a sheet of blotting paper upon the spot and passing over it a moderately warm flat iron.

Francis I of France was struck on the chin with a sharp missile. The wounded part could not be shaved, and following the monarch's suit beads came into fashion, after having been out for nearly a century.

The Pleasantest Place in the South.

The southern slopes of the Himalaya mountains record as much as 610 inches of rain in a single year, but to counterbalance this Peru, Egypt and parts of Persia often pass whole years without rain.

It has hitherto been the law in Japan that if a woman was not married by a certain age the authorities picked out a man and compelled him to marry her. The mikado has abolished this usage.

Where France Is Strong. A Frenchwoman told a story at a dinner table a few nights ago that is worth keeping.

"I should like to tell you," she said, "how a countrywoman of mine saw Paris give a rebuke 20 years ago.

"It was just after the Franco-Prussian war, and feeling was ready to show itself anywhere. Mme. von Konitz was a young woman who 10 years before had married a German army officer. Her heart was torn during the struggle, and while her aid went to her husband her tears were shed for Paris. At a dinner party one night some one had the bad taste to speak of 'conquered Paris.'

"Paris may be conquered," said Mme. von Konitz, "but she still retains her ability to create a beautiful thing out of nothing."

"The next day one of the gentlemen present sent her a single white hair, asking her what Paris could make out of that. She sent it to a great French jeweler and told him of her challenge.

"Presently there came back to her a device in gold and enamel. On a bed of sapphire stood the Prussian black eagle holding in its mouth the single white hair. Attached to one end of the hair were the arms of Alsace in delicate, tiny gold workmanship, at the other the arms of Lorraine. Underneath was engraved, 'Alsace and Lorraine—you hold them by a hair.'—Atlanta Constitution.

Why Some Men Are Pessimists.

The great army of pessimists is a pitiable multitude, and we see them driven or dragged or tottering across the arena of thought in various stages of bodily suffering or decay; some the submissive captives of pain and others his defiant conquerors; some giving vent to muttered whisps, others to loud remonstrance, but all seeing the world as colored by their own weakness—Byron with his club foot, Carlyle stormy and dyspeptic, Schopenhauer with his inherited susceptibility to pain, and other leaders in the outcry of pessimism, together with a throng of minor apes and imitators distinguished for the most part by the same unfortunate characteristic of physical deficiency. If these men had been sound of limb and robust of constitution, we should not have heard from them so much wailing about the evil of the world, the disappointment of human hopes, the illfussiveness of human life and the cruelty of destiny.—Contemporary Review.

Smallest Country in the World.

The smallest country in the world is said to be the territory of Moersmet, which lies between Belgium and Germany. Its 3,000 inhabitants are mostly occupied in tin mining, although agriculture is also engaged in. Military service and election days are unknown. The senate of 10 members is appointed by the mayor, who is chosen by two delegates, one from Belgium and one from Germany. The police force consists of one man, whose salary is provided by the annual revenue (about 1,200 francs), which also maintains the roads and schools. The territory was declared independent in 1815 to settle the dispute when the boundary was fixed between Germany and Belgium, both countries wanting its tin mines. It contains only 2 1/2 square miles.—Public Opinion.

Washington Women and Souvenir Spoons.

The ladies of the Diplomatic circles in Washington were, it is said, first to set the fashion of collecting souvenir spoons, and so great did the rivalry become among them regarding the size of their collections that if one had a larger number than the other members of her set the silvermiths immediately received large orders to supply the number and styles of spoons lacking in the rival collections. This may or may not be true, but one thing is quite certain, that in no city in the Union can such an endless variety and such lovely designs in spoons be found as in Washington. There is scarcely a town on this continent that does not have a souvenir spoon peculiarly its own.—Once a Week.

Disabled by a Loaf of Bread.

A Lewiston boy who stalked out of school the other day had a sad story to tell when his teacher inquired into the cause of it. He was on the street when another boy came along carrying a loaf of bread. He laughed at him for carrying it, and the other fellow didn't like to be the cause of such amusement, so he struck him with the loaf of bread, nearly knocking his teeth out at the same time. The result was that he was disabled for a few days and isn't altogether sure of the particular delicacy of that loaf.—Bangor Commercial.

Keep the Teeth Clean.

Cleanse the teeth thoroughly at least twice a day—once on arising and again before retiring—or, better, after each meal if it can be so arranged. Use a good brush of medium texture. As a rule employ simply water from which the chill has been taken, but two or three times a week the assistance of some recommended tooth powder is desirable.—Cincinnati Enquirer.

The Victory of the Mother-in-law.

We always had an idea that the mother-in-law would prove a victor in the end. For a time the general public had an idea that all the young men were marrying the orphans, but the truth is that the mother-in-law wouldn't stand familiarity, and hence the complete cessation of the jokes that were once showered upon her devoted head.—Detroit Free Press.

Hall-master Foubert of the prison left for Ionia Wednesday night with Valenty Nowak in charge. Nowak will be remembered as the man who beat Smith to death in a little house back of the railroad shops two years ago and who was sent up for twenty-two years. He has been adjudged sane and will be confined in the asylum for insane criminals at Ionia hereafter.

A well-pleased audience watched the thread of humor run merrily through the play of "Uncle Josh Spruceby" at Wood's Opera House last night. The play is one that appeals to an audience through its delineation of characters that are met with in every-day life. It has several startling departures from the threadbare lines of the conventional play and the work done by "Kid" Kelly and "Broody" Jordan, the two safe blowers, in the second act was extremely realistic, as was also the saw mill, running at full speed, in the third act and in which the heroine came near being torn to pieces. Individually, the ladies and gentlemen of the company sustained their parts with credit. The vocal numbers were pleasing and brought forth much applause. The company has a band worthy of special mention.—Sedalia (Mo.) Democrat.

In Return For Praise.

Praise went a long way with Brignoll. One evening at rehearsal the orchestra laid down their instruments as one man and applauded his singing of a favorite song long and vigorously. He was much pleased, and advancing to the footlights with many a bow and smile of satisfaction said: "Gentlemen, immediately after the rehearsal there will be a champagne supper at the Everett house. I hope I may have the honor to meet you all there."

It is needless to remark that they were there, every man of them. The supper cost Brignoll \$500.—New York Tribune.

Could Stand Anything.

"You are enjoying yourself, I hope?" said the hostess at a Fifth avenue dinner to Gus de Smith.

"You know, madam," said Gus, with his most gracious smile, "that the dullest parties never bore me. I can't stand almost anything!"—Texas Siftings.

Your Painter

has often wasted time and material in trying to obtain a shade of color, and has even resorted to the use of ready mixed paints, the ingredients of which he knew nothing, because of the difficulty in making a shade of color with white lead. This waste can be avoided by the use of National Lead Company's

Pure White Lead Tinting Colors

These tints are a combination of perfectly pure colors, put up in small cans, and prepared so that one pound will tint 25 pounds of Strictly Pure White Lead to the shade shown on the can. By this means you will have the best paint in the world, because made of the best materials—

Strictly Pure White Lead

and pure colors. Insist on having one of the brands of white lead that are standard, manufactured by the "Old Dutch" process, and known to be strictly pure:

"Armstrong & McKelvy" "Beymer-Bauman" "Eckstein" "Fahnestock" "Anchor" "Kentucky" "Morley" "Southern" "Shipman" "Red Seal" "Collier" "Davis-Chambers"

These brands of Strictly Pure White Lead and National Lead Co.'s Pure White Lead Tinting Colors are for sale by the most reliable dealers in paints everywhere.

If you are going to paint, please pay you to send to us for a book containing information that may save you many a dollar; it will only cost you a post card.

A Weak Digestion

strange as it may seem, is caused from a lack of that which is never exactly digested—fat. The greatest fact in connection with

Scott's Emulsion

appears at this point—it is partly digested fat—and the most weakened digestion is quickly strengthened by it.

The only possible help in Consumption is the arrest of waste and renewal of new, healthy tissue. Scott's Emulsion has done wonders in Consumption just this way.

EVERYBODY knows that wall paper, with its vegetable paste and its colorings in animal glue, is unsanitary, and that to apply repeated layers of such is a very "naughty practice," as well as dangerous. Kalsomine is temporary, rots, rubs off and scales paint stops "wall respiration" needed to purify walls. Send to us for a paper from Michigan State Board of Health report on this subject, recommending Church's Alabastine and plastic only for walls of dwellings.

Alabastine forms pure, permanent and porous coating, and does not require to be taken off to renew from time to time; is a dry powder, ready for use by adding water (the latest make is used in GOLD water and is never sold in bulk); can be easily brushed on by any one; made in white and twelve fashionable tints, and in three shades, from which decorators make the balance of dry shades shown on our card.

N. B.—It is not claimed that all who live with papered walls die much before their time, but they will enjoy better health with wall coatings (P.P.P.P. Pure, Permanent, Porous and Pretty).

A Ball Player Who Is Well Known in Ishpeming One of the Heirs to An Immense Estate.

Coroner's Jury in the Pryor Case Finds Verdict of "Accidental Death"—Getting There With Fire Alarm.

JOE QUEST'S GREAT LUCK.

In Tuesday's Chicago Tribune appeared the following concerning the good fortune of Joe Quest, who managed the Ishpeming-Negaunee professional base ball team last season:

Joe Quest, the famous veteran ball player, is a clerk in the office of the Economic Gas company. Joe is of German descent. Not long ago the sole heir of the family's estate in Germany died, leaving property valued at \$40,000,000, more or less. A few days ago Joe received a letter from his brother Albion, who is a train dispatcher at Allegheny City, Pa., informing him that the executors of the estate were looking up American heirs. Nicholas Quest was the great grandfather of Andrew Quest, who emigrated to America years ago. He left a son, Jacob, who married three times, leaving six children, four of whom are living. Ball player Quest has in his possession an old miniature portrait of his great grandfather, which it is expected will materially aid the claimants in securing the vast fortune. Joe says his father's last wife lives at Sharon, Pa., and he will leave in a few days to secure a prized family bible in which all the births in the family are entered. "I expect to become a rich man," said Joe. "When I get my money I will quit work and make a tour of Germany and you can bet that I will travel in royal style."

While in this section last summer Mr. Quest made many friends who will be rejoiced to learn of his good fortune.

In the Pryor Case.

Wednesday evening, shortly after Richard Pryor had been killed at the Salisbury mine, Coroner Samuel C. Rogers was notified and empanelled a jury to enquire into the manner in which the unfortunate man came to his death. The jury consisted of R. Maxwell, J. C. Funston, M. A. Kahn, F. B. Walker, Otto Eger and C. McIlwain. After viewing the body the jury adjourned to meet yesterday afternoon at 1:30 o'clock, when evidence in the case was taken.

Four of the men employed in the mine with Pryor, together with Mine Inspector Rough, who examined the surroundings after the accident occurred, were sworn in the case. Their testimony corresponded with the account given in THE MINING JOURNAL of yesterday. After hearing the testimony of the witnesses the jury found a verdict of "accidental death."

Mr. Pryor was a member of Sir Humphrey Davy lodge, Sons of St. George, and Lily Tent No. 155, Improved Order of Rechabites. The funeral will be held this afternoon under the direction of the Rechabites. Both lodges will attend in a body and the Rechabites' band will head the funeral procession. Religious services will be held at the Salisbury Methodist church.

The Fire Alarm System.

The work of repairing the Ishpeming fire alarm system, which is being done by the Gamewell company, is progressing quite rapidly. Five men, these being Foreman Frazer, of the Gamewell company, J. Boyden, M. McDonough and Luke Demars of Ishpeming and Ed Osier of Marquette, are engaged in doing the work. At the rate they are rushing it at present the job will be completed in about two weeks.

Fine Minstrel Show.

W. A. Mahara's McCabe & Young's minstrels will appear at the City Opera House next Tuesday evening. The Rochester (N. Y.) Current says of the troupe:

W. A. Mahara's original McCabe & Young's minstrels, notwithstanding the weather, succeeded in attracting a full house last evening. Nearly every seat was occupied, and the old building was frequently made to tremble as if an earthquake had struck it from the long and loud encores the performers received. We don't know the day when we have enjoyed such a hearty laugh. The audience was kept in an uproar of laughter from beginning to end and there will be more than one mad housewife today when they discover all the buttons off their husbands' pantaloons and vests.

"Josh Spruceby" Tonight.

"Uncle Josh Spruceby" with his company will appear at the City Opera House tonight. The company is a first class one. Uncle Josh and his laugh-makers have been here before and the merits of the company and the play are well known. The farmers' band will parade the streets in the afternoon and everyone who can should witness this very funny turnout. Reserved seats are on sale at Tillson's at the usual price. If you enjoy fun see Josh tonight.

A RECORD BREAKER SURE.

The Whole Upper Peninsula Is Up to the Ears in Snow Once More.

NEW TIME TABLE IN EFFECT NEXT SUNDAY.

Marquette City Band's Sixth Annual Concert—Will Start Building Monday—Canadian Pacific's Car.

A GREAT SURPRISE PARTY.
The storm yesterday was a record breaker. When it started with a light fall of dry snow no one realized what was in store but in a short time the snow was coming down in such a body that it was impossible to see across the street and before noon every one realized that Marquette was "in for it."

The street cars kept up their regular trips until noon when No. 3, while trying to make the hill with an extraordinarily heavy load of passengers on board, blew out her fuses and then in a few minutes the track was so covered with snow that it was impossible for the cars to make the grades. Accordingly the big plow was brought out with four horses on it and after two hours delay the road was cleared and the cars making their trips as usual. The regular time being made right up to the last trip at night although every time the fire flew in all directions from the trolley and from the wheels. The snow became wetter and wetter as the day advanced and the piles turned up by the street railway plow were as heavy as lead. Toward night there was more rain than snow falling and as this condition of affairs continued all night the prospect is that the foot of snow which created good sleighing again and retired wheeled vehicles will soon disappear.

New Time Table on D. S. S. & A. R. Y.

The attention of our readers is directed to the new time table of the South Shore taking effect at 6:10 p. m., Sunday, April 23, and which is announced in our advertising columns.

The most important change is the discontinuing of the train from Ishpeming that now arrives at Marquette at 1:45 p. m. This train will no longer be necessary as passengers via C. & N. W. railway from Chicago and Milwaukee will arrive at Negaunee in time to connect with the morning express from Republic, which will arrive at Marquette at 10:30 a. m.

The local train for Republic will leave at 10:40 a. m. instead of 2:15 p. m., as at present, and the 11:05 a. m. train for Ishpeming will be cancelled. The Lake Superior limited from Detroit and the east will arrive at 8:40 a. m. instead of 8:15 a. m. and will leave for the west at 8:55 a. m. instead of 8:30, as at present.

The afternoon express for the copper country, which also makes the Chicago connections, will leave at 3:20 p. m. instead of 3:15 p. m.

The eastbound express from Houghton will arrive at 5 p. m. instead of 4:55 p. m.

The Lake Superior limited for Detroit will arrive from the west at 10:50 p. m. instead of 10:45 p. m. and will leave at 11:05 instead of 11 p. m. as at present.

Sixth Annual Concert

The Marquette City band will give its sixth annual concert at the Marquette Opera House on Friday evening, May 5. The ranks of the organization are now full and all the boys have been practicing faithfully for some time in preparation for the concert and as a result the program will be one of the finest the band has ever presented. The proceeds of the concert will be devoted to purchasing new uniforms and THE MINING JOURNAL trusts that every business man and public-spirited citizen of Marquette will make it a point to purchase tickets when they are placed on sale.

Will Start Next Monday.

Lindquist & Peterson, the Negaunee architects and builders, will start on Will A. Watson's residence on East Michigan street next Monday and will push the work actively from that time on. The plans show a very pretty little residence with a frontage of 32 feet and a depth of 35 feet, a veranda extending across the front and east sides. On the first floor there will be a front hall, extending back to the stairs, a parlor 12x13 and sitting room of the same size adjoining, the latter room having fireplace. The dining room will be 13x16 and the kitchen 8x14, the usual pantries and china closets completing the first floor arrangement. The basement will be 18x24, extending under the kitchen, dining room and sitting room. On the second floor there will be a bedroom in front with a dressing room adjoining, two other large bedrooms, all provided with closets, and a large bathroom. The house will contain all modern improvements throughout.

At the Opera House Tonight.

There has been a large sale of seats for the appearance of Jane Coombs at the opera house tonight in "Bleak House" and the talented actress will be greeted with a very large and thoroughly representative Marquette audience. Her reputation is such that all can anticipate a very enjoyable evening and in fact many of those present will be those who have before heard Miss Coombs, either in Marquette or elsewhere.

The Canadian Pacific Car.

Mr. Charles E. Dixon, agent of the Canadian Pacific railway, called upon THE MINING JOURNAL yesterday to announce the early arrival in the city of the Canadian Pacific's exhibition on wheels of the resources and possibilities of the great Canadian west. The famous exhibition car of the road will arrive in Marquette on Friday, April 28, and will be open to sight-seers from 1:30 p. m. to 7:30 p. m. It will remain here on Saturday, the following day, when it will be open to visitors from 8 a. m. to 3:20 p. m. The following are its other dates in this vicinity:

Au Train—Thursday, April 27th, 4:35 p. m. to 7:30 p. m. Friday, April 28th, 8:00

a. m. to 11:24 a. m. Negaunee—Saturday, April 29th, 4:00 p. m. to 7:30 p. m. Monday, May 1st, 8:00 a. m. to 2:48 p. m. Humboldt—Monday, May 1st, 3:35 p. m. to 7:30 p. m. Tuesday, May 2nd, 8:00 a. m. to 9:48 a. m. Michigamme—Tuesday, May 2nd, 10:22 a. m. to 7:30 p. m. Nestora—Wednesday, May 3rd, 8:00 a. m. to 10:45 p. m. Superior—Thursday, May 4th, 8:00 a. m. to 6:35 p. m. Duluth—Friday, May 5th, 8:00 a. m. to 7:30 p. m.

At Hallstrom's.

Hallstrom's spring stock is one deserving of the attention of every lady in Marquette. He has an elegant line of Columbian and Derby capes and is making a special feature of them while in his gingham wash fabrics he is showing a line which cannot be excelled and his other lines of dress goods are equally good.

He is the agent for Marquette for Butterick's Metropolitan fashions and keeps fully up to the times, while in his shoe department he carries a full line of J. Foster & Co.'s and the Dalton Shoe Co.'s fine ladies' shoes and also makes it a point to keep a fine line of gentlemen's shoes. When needing anything in his line give him a call—he will do the rest.

Charting for Lake Superior.

A Cleveland telegram says that probably twenty-five or thirty boats of the Chicago fleet now moving toward Buffalo have been chartered to return to Lake Superior with coal at 50c. As far as can be learned all boats so chartered are also provided with grain cargoes on the return trip from Duluth and Superior. Not all of the boats that have loaded coal at Ohio ports are chartered for return cargoes of grain, however, and on this account there is some fear on the part of vesselmen that a low Eschmaba rate for ore may be established on single trips, unless the ore dealers are inclined to be lenient on the freight question in order to help their chances of getting the prices at which they have been holding ore all winter.

"HA!—HA!—HARVESTS!"

A great man once said in speaking of a remarkable fertile spot, "If you tickle it with a hoe, it laughs with a harvest."

This saying is indeed true of North Galveston, for the fruit growing lands of this region yield, in response to cultivation which is mere play compared with the arduous toil of farmers in northern climes, immense crops of pears, plums, figs, strawberries, etc., etc.

These "ripples of merriment" on the part of the rich soil are perennial crops—were never known to fail. The fortunate fruit growers laugh, too, at their good fortunes; manufacturers who are profiting by the splendid resources and shipping facilities, investors who see their dollars multiply and investors who have found health in this mild and equable climate join in the merry making; and it is withal a laughing, happy, prosperous community. If you are interested in North Galveston as an investment or a home, or both, apply for full particulars to M. E. Asire.

THE DAY NURSERY.

The day nursery in the Everett residence is now open. The object of the nursery is to take care of poor children while their mothers are out at work. Children can be taken there at 7 a. m. and left till 6 p. m. for five cents a day. There will be a matron and a nurse. The nursery has been established by Mrs. J. M. Longyear and she hopes the ladies of the city will take such an interest in the establishment as to give it their assistance; it is open to investigation at all times. It occupies the south wing of the Everett building, (4-11m)

THE MUTUAL LIFE

The Mutual Life Insurance Company of New York has opened general agency offices in Milwaukee (Pabst Building) for the conduct of its business in Wisconsin and Northern Michigan.

This is the largest insurance company as well as the largest financial institution in the world. Its assets now exceed one hundred and seventy-five million of dollars. T. H. Bowles is the general agent, to whom inquiries in regard to the company's plans of insurance should be addressed, and with whom special agency contracts may be made. [4-15-1w]

Fashionable Ladies Furnisher.

There is no one Instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
