### BEGINNING OF THE END.

Cleveland Administration Face to Face With the Great Currency Problem.

### DIVERSE VIEWS OF DEMOCRATIC POLITICIANS.

Mr. Cleveland's Plain Statement Sunday Seems to Have Averted Any Danger of a Financial Flurry.

### SILVER BALLOON NEARLY EMPTY.

WASHINGTON, April 24.—If the present demand for gold abroad continues the point will soon be reached where banks will no longer give up their gold unless they get bonds in return for it. Before issuing bonds Secretary Carlisle will probably make quite a hole in the gold reserve. How low he will let the amount of gold in the treasury fall before he takes steps to replenish it by the sale of bonds is not known but his reluctance to issue the bonds is so well understood that it would not be surprising if he allowed fully half of the reserve, or even more, to be exhausted before resorting to the sale of bonds. The president, on the other hand, is understood to favor an earlier issue of bonds and the matter will be one of the principal topics of discussion at the cabinet meeting tomorrow.

It is understood certain Democratic senators have advised against the issue of bonds for political reasons, thinking the administration would lay itself open to the accusation of unnecessarily increasing the bonded debt of the country. On the other hand, it is urged by others that an early issue of bonds would be a good stroke of policy politically, the argument that the condition of the finances which necessitate the resort to the sale of bonds was the result of Republican mismanagement, especially during the Reed congress when they had both houses of congress and the presidency and passed the Sherman silver purchase law which is alleged, has caused all the present difficulty.

Shortly before the passage of the Sherman law the treasury held in round numbers \$177,000,000 in gold or \$77,000,000 more than the reserve fund. The Sherman law was approved by President Harrison July 14, 1890, and immediately after the amount of gold in the treasury began to be reduced until Jan. 31, 1891, it had fallen to \$141,000,000. Jan. 31, 1892, the figures were but \$119,000,000 and Jan. 31 of the present year there was \$108,000,000, or but \$8,000,000 over the reserve. Since that time the amount had been maintained at about the full amount of the reserve only by the most strenuous efforts on the part of the officials of the treasury department.

The present condition of the treasury has led to a revival of the talk of an extra session of congress to repeal of the Sherman law. The president has not had anything to say on the subject to any of his congressional callers as yet, however, and it is probable there will not be an extra session until September, when it is understood that congress will be called to consider the administration plan for a revision of the tariff. The president will doubtless at the same time take occasion in his message to urge immediate action on the monetary question and will, it is said, advise the immediate repeal of the Sherman act.

Secretary Carlisle left the treasury department early this afternoon. He could not be seen in regard to the report from New York that at a conference of New York bankers with Sub-Treasurer Jordan the latter had received \$30,000,000 in gold from the bankers in exchange for greenbacks. Among the older treasury officials who served under Mr. Jordan while he was United States treasurer he is held in high esteem as a man of ideas and fruitful in resources and they believe he will be successful in his undertaking to replenish the gold in the treasury.

### NO FINANCIAL FLURRY.

### Mr. Cleveland's Plain Talk Averts That Possible Danger.

WASHINGTON, April 24.—The authoritative statement of Mr. Cleveland yesterday, in which he announced the present and future action of the present administration in relation to the use of the gold reserve, has taken the edge off the excitement that followed the act of the secretary of the treasury in dipping into the reserve fund. If there had been any danger of a financial flurry that danger appears now to have passed. Under the interpretation of Mr. Cleveland's statement the reserve is to be treated simply as so much cash in the treasury and whether the aggregate rises or falls a few millions a day becomes a matter of little concern. Consequently very little interest was manifested today at the department in regard to the financial situation. Some offers of the metal were received from the west and accepted and Treasurer Jordan at New York, it was reported, had also received a considerable amount of gold certificates.

It is understood that President Cleveland has requested the American delegates to the international monetary conference to visit him at Washington before they return to Brussels to be present at the next session of the delegates. It is believed that the purpose of the call of the delegates to Washington is to discuss with them the present financial situation in its relation to the silver coinage question and the preparations of the definite proposition on the coinage of silver which the American delegation can submit to the conference. Mr. Cleveland will also ask, it is understood, the advice of the delegates in the selection of successors to Mr. McCreary and Mr. Allison.

### TORONTO GLOBE'S IDEAS.

They Are Largely Correct but by No Means New.

TORONTO, April 24.—The Globe has the following editorial on "The American Silver Question": "The people of the United States have repeated most of the great fiscal blunders recorded in history and as far as modern circumstances would permit have tried upon themselves all the vicious economic systems that superficial philosophers and designing trickery have been able to invent. The introduction of all or nearly all such systems has been promoted by small coteries of interested men with single eye to their own interests and who strengthen their pretensions with plausible arguments of disinterested and public spirited but mistaken theorists. The latest American development is the debased currency, a financial escapade which may prove as injurious, at least to the commercial classes, as the so-called protective tariff." The Globe then discusses at length the cause that led up to the present financial situation and concludes: "Of course there will be an attempt to attribute the results of the fiscal blunder to the suggested reform of the tariff, but the people of the United States are becoming too clear in economic thought to be misled by such pretensions."

### THE CHOCTAW CONTROVERSY.

### Secretary Smith Hears the Stories of Both Factions.

WASHINGTON, April 24.—A delegation of Choctaw Indians, representing the Jones faction, had an interview today with Secretary Smith. They represented that Jones was legally elected governor of the nation and the whole difficulty has been brought out of the refusal of the Locke people to recognize his legally constituted authority. A number of Locke's followers, it was asserted, had been indicted and convicted under the laws of crimes and the effort made by Governor Jones to enforce the law and to carry into effect the sentences imposed had met with armed resistance. The governor asks to be sustained by the government in preserving the peace and bringing criminals to justice. Both factions have now presented in writing their respective sides of the controversy and it is the secretary's intention to take up the case and dispose of it at an early day.

Secretary Hoke Smith today completed the adjustment of the grant made by the act of June 8, 1856, for the Mobile & Grand Railway company. The amount of land confirmed and certified to the railway company is 302,181 acres. The commission of the general land office is direct to cause all hands heretofore certified on account of the grant and not included in this allotment to be opened to settlement and entry by notice by publication with the privilege to bona fide preemptors and homestead claimants who were in possession under such claim under January 1890 to make entries of such lands during the period of publication.

### KILLED IN A RUNAWAY.

### Miss Ella Malatesta Thrown Out of Her Carriage.

ATLANTIC CITY, N. J., April 24.—A fatal runaway accident occurred here yesterday, the victim being Ella, the youngest daughter of Mark Malatesta, proprietor of the Malatesta Hotel and a brother of Joseph Malatesta, the well-known Philadelphia politician. In company with Mrs. John Danneback, the wife of a South street, Philadelphia, liquor dealer, Miss Malatesta had entered a carriage to which was attached a spirited team. Mr. Danneback was about to get in when the animals took fright and dashed down North Carolina avenue toward the ocean. In front of Haddon Hall the runaway collided with another team, throwing both occupants out upon the pavement. Both women were unconscious when taken into the hotel and Miss Malatesta died a half hour later without recovering her senses. Her companion, Mrs. Danneback, suffered a fracture of her left leg and was otherwise injured about the body. Her condition is serious.

### THEY COULD NOT SWIM.

### So of Course They Took Chances and Were Drowned.

CLEVELAND, April 24.—Julius Falk, Martin Arelit and Charles Liptack hired a boat yesterday afternoon and rowed out to the breakwater. They had been gone about an hour when Falk wanted to return but the other two desired to stay out longer. Falk waited for his chance and took hold of an iron ring on the breakwater and said that he was going to get up on it. He stepped on the edge of the boat, which quickly capsized, throwing them all into the water. Falk and Arelit could not swim but they managed to get hold of the boat. It had turned upside down and they tried to climb on top but it rolled over like a log and they went down and were drowned. Liptack kept hold of the bow of the boat and was almost dead when the tag Alva B. picked him up. Both bodies were recovered.

### EDWIN BOOTH IS BETTER.

### His Physician Thinks Immediate Danger Has Passed.

NEW YORK, April 24.—Edwin Booth was better this afternoon. His physician after a call appeared more cheerful than before. "Booth is doing well," he said. "He has recovered the use of his right arm and leg. The muscles of his face have relaxed somewhat and his eyes are clearer. I think the immediate danger of death has passed but of course there are still grave fears."

### Boston Boiler Makers Win.

BOSTON, April 24.—The boiler makers' strike is practically ended. This afternoon the Atlantic works and other large concerns conceded the strikers' demands for a nine hour day with ten hours pay. The men will return to work in these establishments tomorrow.

### BELFAST ORANGEMEN RIOT.

Catholic Workmen Driven Out of the Ship Yards at Queen's Island.

### ORANGE MOBS PARADING STREETS OF BELFAST.

Police and Soldiers Are Keeping the Two Factions Apart to Prevent Bloody Pitched Battle.

### HOWLING AGAINST HOME RULE.

BELFAST, April 24.—The Orangemen employed in the Queen's island shipyards refused today to allow one thousand of their fellow workmen, who are Roman Catholics, to resume work at the yards and to chase them away from the place. In the attack which attended the expulsion of the Roman Catholics a number of persons were injured.

LONDON, April 24.—The conflict between Orangemen and Nationalists in Belfast proceeds intermittently. More than three thousand Orangemen have been marching about in procession, threatening to attack the Nationalists. Carrick Hill is held by an equally strong force of Nationalists. The militia has been kept between the two mobs and will probably prevent their meeting tonight. Several fights between less considerable bodies have been stopped by the police.

### KICKING AGAINST THE PRICKS.

### Tories and Fanatics Trying to Check Home Rule's Triumph.

LONDON, April 24.—In the house of commons today General Sir George Chesney, Conservative member for Oxford, moved as an amendment to the Irish home rule bill that the government withdraw the military forces from Ireland before the proposed Irish parliament should be established in Dublin. Other opponents of home rule also made motions intended to debar the Irish government from having the assistance of the British army in maintaining the authority of the home rule parliament. The marquis of Salisbury gave a reception at Halford House today to the delegates from Ulster who have come to London to take part in the public protest against the establishment of home rule in Ireland. The duke of Devonshire and a host of peers opposed to home rule were present at the reception.

### OLNEY'S FIRST APPEARANCE.

### Was to Move Recording of Memorial of Justice Lamar.

WASHINGTON, April 24.—Attorney General Olney made his first appearance in the supreme court of the United States today, save on the occasion of his formal introduction to the court by his predecessor. The occasion which called him out was the presentation of resolutions recently adopted by the members of the bar on the death of the late Justice Lamar. In anticipation of this event there was an unusually large attendance of attorneys upon the session of the court and the visitors' benches were also quite well filled. Mr. Olney spoke easily and gracefully and was listened to with interest, not only for his subject but for the manner in which he handled it. Chief Justice Fuller responded to the preference of the request made by the attorney general to spread the resolutions upon the records in a few words of earnest tribute to the worth of the dead.

### FATAL PANIC IN A CHURCH.

### Eight Women and Five Children Trampled to Death.

NAPLES, April 24.—A fatal panic occurred last evening in the church of Torre Annunziata. During the service, which were attended by a very large number of persons, draperies about the altar were blown against a lighted candle. The flames spread with great rapidity and the congregation made a mad rush for the doors. The wildest excitement prevailed and women and children were thrown down and trampled upon. The fire was quickly extinguished and when some semblance of order was restored it was found that eight women and five children had been crushed to death, while hundreds of others had been more or less seriously injured.

### ASSOCIATED PRESS OFFICES.

### New and Improved Quarters Will Be Occupied May 1.

CHICAGO, April 24.—Arrangements have been completed for moving the Association Press headquarters in Chicago on May 1 to the new and commodious Phoenix building, rooms 716, 717, 718, 719, 720 and 721. The new offices will have a system of pneumatic tubes connecting the Associated Press with every newspaper in Chicago, with the city hall, the central police station and the courts. Pneumatic tubes have never before been applied on such an extensive scale for newspaper purposes and the system now under construction will greatly facilitate the work of the association in gathering as well as distributing the news.

### AN AWFUL VISITATION.

### Adventists to Turn Loose Three Hundred Book Agents.

BATTLE CREEK, Mich., April 24.—The canvassers' institute of the Seventh Day Adventists closed today after six weeks thorough training. Over three hundred book canvassers are fitted for handling their work and will be assigned to different districts, including all United States and foreign lands. Many left today to enter into their work.

MARQUETTE, MICH., APRIL 25.

Entered as matter of the second class in the postoffice at Marquette, Mich.

THE announcement is made that the Chicago & Northwestern Railway company has completed negotiations for the purchase of the Old Scranton Coal road, which runs east seventeen miles out of Denver, Col., the price that it is to pay for the property being \$1,000,000.

PRESIDENT CLEVELAND is to visit Marquette in August to sample the fishing. Arrangements should be made to get him to visit the exposition in Minneapolis and take a turn around Minnesota—Minneapolis Journal.

Possibly he might be induced to visit Minneapolis out of curiosity to see the city where Harrison received the nomination that turned out so badly in the election of last fall. But that would be about the only thing that would tempt him to swing around that way.

It is stated that the redoubtable Tim Tarsney is going to leave Saginaw and locate at Detroit. Commenting on the report the Detroit Evening News says Mr. Tarsney this compliment in its own characteristic style:

The welcome news is made public that the roaring young lion of the Saginaw valley is going to shake the sawdust of the third city from his feet and annex himself to the population of the first city in Michigan, the metropolis of the state, the best place for genius to bud and flower, and brains and good nature to have their habitation.

A LABORER employed on Queen Victoria's Windsor estate having been sued for a debt pleaded poverty in defense. He stated that he had been getting only ten shillings a week, this being the common wage rate for laborers of his grade, and that the work on the royal estate was unusually severe besides. It was suggested by the magistrate before whom the case was tried that the honor of working for the sovereign counted for something, whereupon the poor laborer drily answered that there "wasn't much honor to be got out of ten shillings a week."

PREMIER GLADSTONE has demonstrated his ability to carry the Irish home rule bill successfully through the house of commons, but it is still a question whether it will pass the house of peers. The Tory strength lies in the upper house of parliament, which is representative only of the greed and stupid opposition to any concession to popular rights of the titled, land-owning class in Great Britain. But the reforms for which Gladstone and his followers have fought so stoutly will go on even though temporarily obstructed by the Tories, and if the house of peers persists in defeating the will of the people the people will in time find a way to work their will on that branch of parliament.

IT SEEMS that the president does not approve of the idea of redeeming treasury notes in silver, though the law requiring the secretary of the treasury to purchase silver at the rate of 4,500,000 ounces per month explicitly empowers him to redeem these notes in gold or silver at his discretion.

whether treasury notes were redeemed in silver or gold. The complication that has arisen in our monetary affairs is somewhat vexing but it may lead to a better knowledge of the working of financial laws that we have set great store by than our statesmen seem to have been possessed of hitherto.

A REPORT issued by the Bureau of American republics makes the following showing relative to the workings of the reciprocity treaties with Brazil and Cuba: The United States exported to Brazil in the years 1880, 1891 and 1892 respectively, merchandise to the value of \$11,572,214, \$14,130,216 and \$14,291,873.

LABOR ORGANIZATION. We reprint below an article from a paper which is the organ of the labor party in its section of the state, The Evening Press of Grand Rapids, and commend it to the thoughtful attention of workmen who are members of labor unions:

In the current number of The Engineering Magazine there is an article which will well repay perusal by the workmen of this country—descriptive of labor unions in Australia. Though written in a spirit of unfairness to the unions, it contains a great deal of food for reflection and states strikingly historical facts.

The rock on which the unions was wrecked was the demand that employers should refuse to employ non-union labor. Three years ago the labor unions in the wool growing industry controlled 95 per cent of the shearing in the wool sheds. They demanded it all, and threatened that if their demand was refused the wool sheared by non-union labor would rot in the sheds—the carriers would refuse to take it to the seaport and the laborers would refuse to load it in the vessels.

In this country organization has accomplished a great deal for the workmen. Its results are so manifest, and the benefits yet to be secured by it are so plain that no workmen can be blind to them. The same arrogant spirit which led to such disaster in Australia is, however, too often manifested, and if they are not careful the unions will meet the same fate.

The right of any man to refuse to join a labor union can be questioned. It may show a mean spirit for him to refuse to bear the burden of the union and then reap the benefits. It is secured in the charter hours and higher pay, yet he has a right to adopt that course if he chooses to.

PRAYING FOR SUNSHINE.

Some Decent Weather Needed to Get World's Fair Grounds in Shape.

OPENING WILL IN NO CASE BE POSTPONED

New York Making Lots of Fuss Over Her Little Side Show to Chicago Main Tent.

GREAT FAIR ALMOST READY.

CHICAGO, April 24.—Today marked the beginning of the last week before the opening of the World's Fair and notwithstanding serious delay occasioned by the bad weather of last week the managers are promising to have things in presentable shape by next Monday. Under no circumstances will the opening be postponed. It was said this afternoon that with sunshine, a little higher temperature and an army of 12,000 or 15,000 men wonders may be accomplished in a week. What now seems to be a hopeless chaos of mud and building debris can be transformed into a beautiful garden. The roadways can be cleaned up and made passable, the waste areas turned into green lawns and every unsightly vestige of two years of toil removed. All this and more still will be accomplished provided the weather holds good.

As to the interior work of the fair the outlook is not quite so hopeful. No one will now pretend to say that the great show will be entirely complete by the first day of May. Installation of goods may go on day and night and yet much will remain to be done a week hence. It is a physical impossibility to get everything ready this week. The action of the carpenters' union in declaring a strike for today had no visible effect at the grounds. This morning the usual force of carpenters was at work and no one had struck and so far as could be learned no orders had been issued to the men working there to go out. Among the men there seemed to be a feeling of dissatisfaction at the action taken by the meeting last night in declaring a general strike.

NEW YORK'S SIDE SHOW

Pretty Little Annex to the Great World's Fair.

New York, April 24.—The entire naval review fleet of about three dozen American and foreign warships will anchor in the lower bay tomorrow morning. Their entrance from the ocean into the bay will be without formality. They are to get into place just inside of Sandy Hook, with the Philadelphia, carrying Rear Admiral Gherardi, at the head of the port column and the British cruiser Blake, with Vice Admiral Sir John Hopkins aboard, at the head of the starboard column. Wednesday the vessels will steam slowly up the North River and take their places for Thursday's review by the president.

Elaborate preparations are being made for the ball to be given in Madison Square Garden Thursday night. Of the 10,000 persons who are expected to be present 700 will be in naval uniforms of ten different nations and besides there will be military officers present in full regiments, so that the dance will likely present one of the most brilliant spectacles ever seen at an American ball.

LOST WITH ALL HANDS.

Wreckage of the Barge Shaw and Schooner Eddy Seen

ALPENA, Mich., April 24.—The lookout on the steamer City of the Straits reports having seen wreckage of Rogers City, supposed from the barge John Shaw, which is reported lost with all on board. The pilot house and a large quantity of wreckage were seen. The captain of the City of the Straits reports that the upper end of the lake is full of floating ice.

CHEBOYGAN, Mich., April 24.—The tug Cayler reports the whole stern of a schooner with the name Newell A. Eddy distinctly pointed on it ashore just west of Bois Blanc light. No bodies have yet come ashore.

FIVE BRICKLAYERS KILLED.

Insecure Foundation Causes the Collapse of a Wall.

CINCINNATI, April 24.—An insecure foundation to an interior wall in the Card company's electric plant in course of construction at Hunt and Broadway caused the falling of the partition wall today. Fourteen bricklayers and three helpers engaged on the fourth story fell with the debris into the basement. One was killed outright and seven were injured, four fatally. The list is: Killed—George Hill; fatally injured—Frank Weinmuth, Edward Weinmuth, A. Shumas, Edjah Johnson, (colored); seriously injured—William Thompson, John Rowman, John Fox.

MEN RETURN TO WORK.

Santa Fe and Union Pacific Shop Men Give Up.

TOPEKA, Kan., April 24.—The Santa Fe mechanics' strike, which has been in force since Saturday, April 8, was declared off at 6 o'clock tonight after a half day's conference between the men and their employers. The company retains the new men employed recently but will give those strikers for whom there are no places the preference in hiring new men hereafter.

OMAHA, April 24.—The Union Pacific iron workers strike has been declared off and the men will return to work tomorrow morning.

PLEADED THE GAMBLING ACT.

Broker Heath Takes New Way to Escape Debt.

DETROIT, April 24.—Charles J. Heath, a broker on the Detroit Board of Trade, took an unusual method in Justice Kinney's court today of evading the payment of a promissory note. He claimed that the note was void because given to secure a customer in a wheat deal

which he contended was gambling and therefore illegal. The customer was the Eldred Milling company of Jackson, Mich. The plea of Heath is at variance with all board of trade traditions and it is likely that that organization will take some action in the matter.

FREIGHT HANDLERS STRIKE.

Flint & Pere Marquette Men Want Increase of Wages.

LUDINGTON, Mich., April 25.—All the laborers, over one hundred, employed at the Flint & Pere Marquette warehouse here in loading and unloading the company's boats, went on a strike this morning, demanding twenty-five cents an hour on week days and fifty cents for Sunday work. There is no prospect of trouble unless the company brings in laborers from the outside, when it is believed that it will not be allowed to handle a pound of freight.

TWO MURDERERS SENTENCED.

Will Be Executed Unless They Escape from Sing Sing.

New York, April 24.—This morning Judge Ingraham resented John L. Osmond, convicted of killing his wife's paramour John C. Burchell, to die by electricity during the week beginning June 12. Judge Ingraham also sentenced Matthew Johnson, the colored man who was convicted last week of having killed Engineer Emil Kuckelborn December 9 last, to die by electricity during the week beginning June 12.

MOTHER'S FATAL MISTAKE.

Rushed Into Burning Building When Children Were Safe.

KELSO, Tenn., April 24.—Fire last night destroyed several business houses and the dwelling of Ben J. Thompson, a local merchant. While the flames were still in progress Mrs. Thompson erroneously supposed that one of her children was still upstairs and rushed into the burning building. Her clothing was ignited and she is dying from the effects of the burns received.

STRUCK BY FALLING BRICK.

Woman Fatally Hurt in Wind Shattered Drug Store.

SULLY, Ind., April 24.—A wind storm, approaching a cyclone in force, struck the town of Paxton, six miles south of this place, this afternoon and blew in the entire front of a brick building occupied by S. Mack as a drug store. A brick fell on Mrs. Wolf and cut her head so badly that her life is despaired of.

MURDERED FOR REVENGE.

Italian Brigands Slay Whole Family That Knew Too Much.

ROME, April 24.—A man named Alunni, his wife, and two sons, were murdered as they slept in their house in Pieve di Petrasia, near Perugia. One of the sons recently gave the police information as to the haunts of the brigands of the surrounding region.

Sheriff Seizes Water Works.

GRAND RAPIDS, Mich., April 24.—The Gloucester Iron works obtained a judgment of \$26,000 in the circuit court today against the Hydraulic Water company of this city and the sheriff took possession of the plant. The affairs of the company have been in the courts for some time and will probably soon be wound up.

NORSEMEN TIRED OF KINGS.

Seem to Need Little Provocation to Give Oscar the Grand Bounce.

PARLIAMENT REFUSES TO PASS HIS CIVIL LIST.

Then Adjourns Without Day to Express Its Indignation at His Royal Job-lot's Stupid Obstinacy.

NORSE REPUBLIC APPROACHES.

CHRISTIANA, April 24.—The Radical majority in the storting will postpone the vote on the civil list as a mark of defiance to King Oscar for having refused to approve the demand for a separate consular representation for Norway. The Norwegian newspapers attack the monarchy and are agitating for the expunging of the badge of the union of Sweden and Norway from the Norwegian flag. The Norwegian storting by a vote of sixty-three to fifty-one has decided to suspend its sittings sine die owing to King Oscar's attitude of opposition to the storting on the consular question.

HOLDING GOLD CERTIFICATES.

Only Greenbacks and Treasury Notes Presented for Gold.

NEW YORK, April 24.—The exports of gold to Europe tomorrow will aggregate \$3,200,000 of which amount \$2,100,000 was withdrawn from the treasury today. Of this amount \$1,000,000 was paid for in treasury notes and the remainder in greenbacks.

LYNCHING IN PROSPECT.

Alleged Rape Victim on Trial by Mass Meeting.

DENMARK, S. C., April 24.—A colored man charged with rape is being tried by citizens. Great excitement prevails. It is probable the prisoner will be lynched. Several colored men previously arrested and charged with the crime have proven alibis.

Major Dunwoody Promoted.

WASHINGTON, April 24.—Secretary Morton has appointed Major H. C. Dunwoody assistant chief of the weather bureau, vice Major S. S. Rockwood, resigned, to take effect May 1. Major Dunwoody has been connected with the weather bureau for many years.

Old Printing House Suspends.

NEW YORK, April 24.—Judgments aggregating \$19,955 have been entered against Russell Bros., one of the oldest printing houses of this city. The debts are about \$35,000 and the cause of trouble is the financial stringency.

Timber Stealer Convicted.

SPOKANE, Wash., April 24.—A jury in the United States court today brought in a verdict for \$22,500 against J. H. Stone, the well known capitalist and politician, for taking timber from government lands.

Forecast of the Weather.

WASHINGTON, April 24, 9 p.m.—The weather bureau reports the following as its forecast for the next 24 hours: For upper Michigan: Occasional local rains; southerly to northerly winds.

Horseplay Ends in Death.

LEWISTON, Me., April 24.—Three Frenchmen named Alfred Croux, Alphonse Beng and Cyrille Fourrier while scuffling on a raft were precipitated into the water and drowned.

Killed by Falling Coping.

LONDON, April 24.—The stone coping of several four-story houses in Peel road fell this afternoon while the street was full of pedestrians. Four were killed and fifteen injured.

More Riots at Hull.

LONDON, April 24.—Another incendiary fire was started at a Hull timber dock today. Riotous crowds still fill the streets of Hull and several fights occurred today.

Only Eighteen Decanations.

WASHINGTON, April 24.—There were 110 fourth class postmasters appointed today of which number ninety-two were to fill vacancies by death or resignation.

Medieval Fireplaces.

The hearth in medieval times was deep and ample. Sometimes several fireplaces, grouped together on a raised dais, occupied all the upper end of the hall with their blazing hearths and shadowy overmantels. A magnificent example still exists at Bourges.

In houses of less pretension the hall could boast but one chimney, but that at least was vast. A whole tree could be laid across the gigantic fireplace, whence the great glare radiated west and light into the church-like frigidities of the hall. Those who know the Salle de Garde at Langens, with its beautiful chimney piece representing the emerald and diamond, carved with mimic soldiers and warriors stooping over the battlements to look at the blaze below, will agree that few objects are more stately than the monumental nineteenth century fireplace. If the hearth did not penetrate very far, if the lumber fit in the lower hall were grateful for their fate, under the huge overmantel, where the carved scrolls stood, there was a cozy nook for the master of the house, his wife, his children, his guests, his chief retainers.—Contemporary Review.

Sell Treacherous Traits of Birds.

The scolden that some large birds place themselves in would poison them in comparatively open places. Unless one had such a bird, one would hardly give the scolden credit for the monumental nineteenth century fireplace. If the hearth did not penetrate very far, if the lumber fit in the lower hall were grateful for their fate, under the huge overmantel, where the carved scrolls stood, there was a cozy nook for the master of the house, his wife, his children, his guests, his chief retainers.—Contemporary Review.

### SETTLED AT LAST.

Ishpeming's Council Finally Disposed of the Sewer Question at Its Meeting Last Evening.

Wants to Know About That Request. Will Build a Handsome Residence. An Appreciative Order.

### THE SEWER QUESTION.

The question of constructing a sewerage and drainage system in sewer districts Nos. 1 and 5 in this city was definitely settled at an adjourned special meeting of the common council held last evening.

The proposed construction of the sewer in district No. 1 was discussed at some length by the members of the council and citizens present. One plan after another was proposed by the several aldermen until finally a motion was adopted to construct the system according to the original plans furnished by the sewer committee, with the exception of that part of the branch sewer on Bank street which lies between Sixth and Seventh streets. This portion of the branch sewer was omitted on account of the large rock dump at that point, which would render the work of extending the system through that portion of the street both difficult and expensive.

After disposing of district No. 1 Mayor Osborn called upon the citizens present from district No. 5 to express their views, if they so desired, regarding the proposed sewer construction in that district. There was no response. Alderman Johnston, chairman of the sewerage committee, then offered a resolution to the effect that the entire system be constructed according to the plans furnished by the sewer committee. The resolution found support and was unanimously carried.

Some of the taxpayers in district No. 5 requested that the laterals shall be run through the alleys in some places instead of the streets, which was acceded to by the council in such places as it was convenient to do so.

The council then adjourned.

### Joe Is Anxious.

Joe Tremethick has returned from Three Lakes, where he spent the winter in the woods. A few months ago it was reported that Joe had been left \$150,000 by the death of an uncle in England, but as yet he has not received official notice to that effect. Joe says his people in England are well fixed, and he is real anxious to learn whether he has fallen heir to a fortune or not. He wrote home a few days ago, asking for information, and hopes to hear from there soon. Mr. Tremethick says he recently heard that his brother had also been left a large sum of money by the death of his uncle. Joe has been in America twenty-one years, during which time he never heard much from his old country relatives, but he says his father and uncles are all in good circumstances. He is patiently waiting further tidings from them.

### A Fine Residence.

Svend Johnson of S. Johnson, & Co., will soon begin work on a fine new residence on the two lots he purchased in the Cleveland-Cliffs addition last fall. The plans and specifications were drawn up by Architect John S. Mennie, of E. E. Grip & Co., and are now completed. The building will be a two-story frame and will have a frontage of 44 feet by 57½ feet in length. The first floor will contain six large rooms, while the second floor will have seven rooms. The basement will be large and will be divided into seven rooms. The building will be fitted up with necessary halls, bath rooms, closets, etc., and will be modern throughout. Bids for construction of the dwelling will be asked for as soon as Mr. Johnson is prepared to start the work.

### Was Appreciated.

After their return from divine services last Sunday morning the local lodge and barack, Order Sons of St. George, passed joint resolutions authorizing the daily and weekly papers of this city to express to Rev. Mr. Joslin, pastor of the Division street M. E. church, their sincere appreciation of his masterly pulpit effort on that occasion which was prepared and delivered for their special benefit.

### A Rare Attraction.

Pete Baker, who is conceded to be the leading German dialect comedian in America, will appear at the City Opera House next Friday evening. Many people in this section have seen Mr. Baker in "Chris and Lena" while visiting in the larger cities and these speak very highly of him. The Daily National Hotel Register of Chicago says: "Mr. Pete Baker, the well-known German dialect comedian, began a week's engagement at the Haymarket Theatre last night, presenting his old-time comedy success, 'Chris and Lena.' This favorite play has met with a most enviable success, but since last seen in Chicago has undergone many changes for the better, while the company carried by Mr. Baker this season is by far the best he has ever had. Prominent among the supporting company this season is Miss Martha George, the well-known German soubrette. She has a splendid clear soprano voice and will appear in the comedy in the role of Lena. Pete Baker is as popular as ever. His new songs have made a big hit, and his dancing combined with his original wit and humor which he intersperses throughout the piece have strengthened his popularity.

Reserved seats will be on sale at Tillson's tomorrow morning at 75 cents and \$1.00. The general admission will be fifty cents.

**SOUTH SHORE APPOINTMENTS**

F. H. Ketchum Assistant Superintendent, Eastern Division, and R. B. Finch Sault Ste. Marie Agent.

CALL AND SEE THE CONTROLLER THIS AFTERNOON.

Beginning His Eleventh Year—Award the Coal Contract—At the Bradley Mill—Other City Notes.

**ANNOUNCED YESTERDAY.**

Two more important changes upon Duluth, South Shore & Atlantic were announced yesterday morning by circulars issued from the office of General Manager Fitch. The first was as follows:

DULUTH, SOUTH SHORE & ATLANTIC RAILWAY CO. OFFICE OF THE SUPERINTENDENT.

MARQUETTE, Mich., April 24, 1893. Mr. F. E. Ketchum is hereby appointed assistant superintendent of this company and will have direct charge of the station and train service between Mackinaw City, Sault Ste. Marie and Houghton with headquarters at Marquette. Appointment to take effect May 1, 1893. C. E. LITTLE, Superintendent.

Approved: Wm. F. Fitch, General Manager.

Mr. Ketchum is a man of years as well as weight in the railroad business. [This latter remark will be better understood when his massive form looms up in Marquette.] His first connection with General Manager Fitch was on the Dakota division of the G. & N. W., where the latter was division superintendent while the former was one of the oldest and most experienced of the passenger conductors. Mr. Fitch made him trainmaster of the division but later he fell from grace by embarking in the newspaper business at Huron, Dakota, where a well-known Marquette clergyman was a printer in his office. Later, when Mr. Fitch was on the Fremont, Elkhorn & Missouri Valley, he induced Mr. Ketchum to come back into the ranks and made him agent at Fremont. About three years and a half ago he brought him up to this country where he was given charge of the double office at Sault Ste. Marie. Mr. Sutherland has for some time had control of the Duluth division with headquarters at Thomaston and the title of assistant superintendent and Mr. Ketchum now takes the eastern division with the same title.

The second circular filled the vacancy created by Mr. Ketchum's appointment as follows:

DULUTH, SOUTH SHORE & ATLANTIC AND MINNEAPOLIS, ST. PAUL & SAULT STE. MARIE RY. CO. MARQUETTE, MICH., April 24, 1893. MINNEAPOLIS, MINN.

To agents and connections:

Mr. R. B. Finch is hereby appointed general agent at Sault Ste. Marie, Mich., in full charge of the interests of said roads at that point, vice Mr. F. E. Ketchum assigned to other duties.

Appointment to take effect May 1st, 1893.

W. F. Fitch, General Manager. F. D. UNDERWOOD, General Manager. D. S. & A. R. Y. M., S. E. P. & S. S. M. R. Y.

Mr. Finch will have been a resident of Marquette just three years on May 1 as General Manager Fitch's private secretary and is one of the most popular and gentlemanly men ever connected with the road. "Bob," as of course he is known to all those whose bump of irreverence is pronounced, is thoroughly liked by all who have been brought in contact with him either in a business or a social way and will be the recipient of the warmest kind of congratulations on his appointment though all will be sorry to lose him from Marquette. He makes the change to get out of the too close confinement connected with a position which involves purely office work. The people of Sault Ste. Marie will find Mr. Finch a popular and wide awake agent and will also find Mr. Finch and his family a very desirable acquisition in the social line. THE MINING JOURNAL extends congratulations. General Manager Fitch has not as yet announced Mr. Finch's successor as private secretary.

**Must Be in Proper Shape.**

The provisions in the city charter for a controller make it necessary that all bills against the city shall be presented on certain prescribed forms. As the new charter was given immediate effect a large number of bills presented to the old council were hung up and in order to have them acted upon tonight at the special meeting of the council it will be necessary to make them out again on forms prepared by the city controller, who will then pass upon them officially. For this purpose the city controller will be at the recorder's office all the afternoon to meet parties having claims against the city and to see that they are presented in proper form. Members of election and registration boards, contractors and merchants should give prompt attention to this matter.

**Beginning His Eleventh Year.**

Yesterday Mr. Trowbridge Johns began his eleventh year as superintendent of THE MINING JOURNAL job room, having concluded his tenth year at the close of business Saturday afternoon. In all these years Mr. Johns has been conspicuous not only for his ability as a printer, but also for his fidelity to and interest in the business of the office and the interests of the owners of the paper. In that interval, too, besides attending to the regular duties connected with the position of foreman of the largest job printing office in northern Michigan, Mr. Johns has been trained in the business a large number of apprentices, and of these many, after learning their trade, have drifted to other cities until they are scattered all over the land. Today in THE MINING JOURNAL job room out of twelve hands steadily employed all but one learned their trade under Mr. Johns, a condition which probably cannot be paralleled in the United States.

**Awarded the Coal Contract.**

The Duluth, South Shore & Atlantic has awarded the contract for handling the coal received at this port during the coming season to Peterson & Holl, the well-known general contractors. This

will bring Chris Peterson down from Ishpeming to stay and in reality he has never been able to get away as the Crescent street and other improvement contracts in which his firm, Peterson, Johnson & Holl, has been interested, have kept him busy. Mr. Peterson had the coal contract four years ago and made a good record with it then so the officials of the road know that they have placed the business in good hands. Mr. Peterson will employ sixty men steadily on the contract during the summer.

**At the Bradley Mill.**

Extensive improvements have been completed at the Bradley shingle mill and all is ready for the working season. Among the changes are new and stronger counter and line shafts and the introduction of another machine, giving the mill a capacity of from 150,000 to 175,000 shingles in a ten-hour day. The mill would have been started yesterday but for the ice in the cinder pond where its stock of logs is kept. If the ice keeps strong dynamite will be used on it tomorrow.

**A New Steam Laundry.**

Needham Bros. of Ishpeming, who have been very successful in the steam laundry business at Ishpeming, will soon establish a first-class steam laundry in this city where there is certainly every assurance of success for such an undertaking. Mr. Fred Needham was in the city yesterday and obtained a lease of the basement and south store in the Fraternity block and will open up a steam laundry there in two or three weeks which will be unsurpassed in point of equipment. The firm telegraphed to Chicago yesterday for a complete plant of machinery and as both members of the firm have been brought up in the business and have a first-class reputation in the business world they will give the city the best steam laundry it has ever had if all indications are not at fault.

In accordance with their lease they will neat the entire Fraternity block by steam from their plant and Fred Needham, who was in the city yesterday and who is the junior member of the firm, will have personal charge of the business here.

The firm does a tremendous business at Ishpeming and its members are all "hustlers" from the ground up. With well-equipped laundries here and at Ishpeming they will control the largest business on the upper peninsula and THE MINING JOURNAL wishes them the largest measure of success possible.

**An Obstruction to Navigation.**

Major Clinton B. Sears, corps of engineers, U. S. A., stationed at Duluth, Minn., is busy preparing the papers in the case of the sunken steamer Northerner which was lost in Keweenaw bay, near L'Anse, Mich., last November, for submission to the secretary of war. The Duluth, South Shore & Atlantic railroad has been endeavoring to have the wreck removed on account of its being a menace to navigation. The railroad company has written the owners of the Northerner and also the insurance company that it was supposed held the risk on the vessel, but has been unable to get the former to act, while the latter claims that the policy on the boat expired sometime before she was lost.

Major Sears has now the necessary affidavits, with a chart showing the location of the wreck, and these the major is arranging preparatory to sending them on to Washington.

The law provides in such cases that after the lapse of two months, the government may remove or dispose of a wreck, under certain conditions, provided it is a menace to navigation. The Northerner burned and sunk at the close of last season and as yet the wreck has not interfered with actual navigation, but will on the opening of the season.—Marine Record.

**This Evening's Concert.**

The concert before the Cercle Francais d'Egalite Politique this evening at its hall in the L'huillier block will be even more elaborate than the first attempt of the kind which proved such a complete success. The program will include the following numbers:

1. Piano duet—Marche Triumphale.
2. Chorus—Revue Francaise.
3. Piano solo—L'Union.
4. Children's chorus—Birdie's Ball.
5. Piano Duet—Warbling at Eve.
6. Comic song.
7. Piano solo—Rolling Billows.
8. Vocal solo—Cela ne se dit pas.
9. Comic song.
10. Piano duet—Tripping Through the Meadow.
11. Recitation.
12. Chorus—L'Amitie d'une Hirondelle.
13. Piano duet—The Blacksmith.
14. Recitation.
15. Vocal duet—Beautiful Moonlight.
16. Piano duet—Philamel.
17. Vocal duet—A. B. C.
18. Recitation.
19. Piano duet.
20. Vocal duet—Les Quatre Navets.

**Only a Cashier Missing.**

They are genial fellows in the editorial rooms of THE MINING JOURNAL. Having walked on ex-Mayor Adams, in driving boots (as it were), and he being downed in the contest for re-election, they tell him to lie still and make no fuss; that it will stop hurting after a while; and remind him that only a very foolish fool is so stupid as not to know when he is licked. All the same they will give him some more if he insists upon it. Genial? Why, cherubs ain't it with them. Give 'em a cashier to embezzle the funds and they'd be organized benevolence itself.—Escanaba Iron Port.

**World's Fair Tickets.**

The rate for World's Fair tickets from Marquette to Chicago will be \$17.40 and the tickets will be placed on sale April 25, continuing until October 31 and good for a return until November 30, children half-fare. The tickets will be good only for a continuous passage in both directions. The rate from other stations will be announced Wednesday.

**A Fair Week's Work.**

J. M. Carr's shingle mill at Shingleton cut 340,000 shingles last week in fifty-seven hours, which is over 6,000 an hour. The sawing was done with a Simons one-man machine.

**A MILLION FRIENDS.**

A friend in need is a friend indeed, and not less than one million people have found just such a friend in D. King's New Discovery for Consumption, Coughs and Colds. If you have never used this great cough medicine, one trial will convince you that it has wonderful curative powers in all diseases of throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at R. H. Stafford Son & Co.'s drug store. Large bottles fifty cents and \$1.

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
