JUDGES ARE DISAGREED.

But Woods and Jenkins Grant Injunction Closing World's Fair Gates on Sunday.

WOODS THINKS THE GOVERNMENT OWNS THE FAIR.

Jenkins' Decision Technical and Vague. Grosscup Dissents From Both and Punctures Woods' Sophistries.

DIRECTORS WILL APPEAL.

CHICAGO, June 8.—Judges Woods and Jenkins of the federal bench today ordered that an injunction be issued restraining the officers of the World's Fair from opening the gates of Jackson Park on Sunday. Judge Grosscup dissented and in his finding recommended that the injunction be not granted.

For the first time probably in the history of the United States courts a bench of three judges failed to arrive at a majority finding, each of the two judges who granted the injunction taking action on widely diverging grounds and the dissenting judge differing radically from both.

Prominent lawyers and citizens interested on both sides of the question crowded the federal court room today when Judges Woods, Jenkins and Grosscup filed slowly in and seated themselves upon the bench.

Judge Woods spoke first and said that the court would pass upon the motion for an injunction made by the United States against the World's Columbian Exposition company to compel it to close the gates on Sunday. He announced that he and his associates entertained different views on certain important points and that each judge would formulate his ideas in an individual opinion.

JUDGE WOODS' DECISION.

Judge Woods then read his own opinion, in which he concluded that Jackson Park was lawfully devoted to exposition purposes and that the injunction should be granted as prayed for. He found that the exposition had been in fact turned over to the control of the federal government by the local corporation and that its control was therefore as absolute as its control of the federal building in which it was speaking.

He held that the Sunday closing condition and the souvenir coin grant did not constitute a contract and the Sunday rule having once been passed by the directory and approved by the national commission the directory had no authority to reconsider it. He held that congress had a perfect right to withhold that portion of the souvenir coins which it retained and that the people had no right of entry into the park because they had handed the government of entry over to the federal authority when they voted the issue of \$5,000,000 bonds for that purpose of the exposition. He also held that congress did not limit the amount of money to be expended on the fair but that the local corporation was liable for every dollar of it. He found that because the exposition had been tendered to and accepted by the government therefore the government had a standing in equity.

So far as the case before Judge Stein is concerned he held that it was no bar to the proceedings, because "it is inadmissible to say that the government must in equity yield to the state court to take such control as would cover even the existence of the enterprise."

JUDGE JENKINS' IDEAS.

Judge Jenkins, after reciting all the early history of the fair, took the ground that the government had only a qualified possession of the exposition but said the case did not hinge on that question. He held that the Sunday closing condition was not a question of creed or religious belief but a matter of scientific research that man required one day in the week for rest and that this has been recognized by the United States almost ever since their formation. He claimed that the resolution of the directors to pay back the money received out of the souvenir appropriation was no tender at all and denied that the state court had any right whatever to take jurisdiction of the case brought for an injunction to compel the directory to open the fair on Sundays. He concluded by recommending that the injunction should be issued.

JUDGE GROSSCUP'S LEVEL HEAD.

Judge Grosscup said that the commissioners had jurisdiction over the exhibits, the awarding of prizes and also the right to modify but not to make rules. He did not look upon the \$2,500,000 or any of the donations as a gift but as a contract between the United States and the local corporation.

If the commission had charge of the exposition, as claimed, it was the first instance in which he had ever known of the donor making himself a donation. In his opinion the national government gave the money for the purpose of protecting its national honor and in his opinion it was a contract for that purpose.

By the act of March 3, 1893, the government decided to seize a portion of the donation and the act could be construed only as an unjustifiable withholding of the appropriation. By its terms the corporation was under no obligation to carry out its provisions.

Judge Grosscup did not believe that the corporation was to be held to have accepted the contract by its acceptance of the money. It did not know of the construction which was put upon the act and was not in a position to make an election.

The plea of estoppel could not be maintained when the party who brought the plea was responsible for the acts that led up to the making of the plea.

On these grounds he disagreed from the conclusions of the other judges.

DIRECTORS WILL APPEAL.

Attorney Walker said that the defendant corporation desired to appeal from the decree. He asked that the court accept a bond to operate as a supersedeas, the appeal to be heard in the appellate court. There was danger of a conflict of jurisdiction between the state and federal courts and this was all the more reason that an appeal should be granted. Tomorrow morning was set for hearing Mr. Walker on the motion.

President Higinbotham declined to express any opinion at present as did also Director General Davis. President Palmer of the national commission said: "I do not think there is anything to be said now. No doubt the openers will appeal. The decision I admit is a surprise."

Vice President de Young of the national commission said: "The opinion is a surprise to me. The government could make no law affecting Sunday closing in the state of Illinois and in recognition of that fact made a contract prohibition opening on Sunday contingent upon a money loan. They broke their part of the contract and it is a common rule of business that when one member to a contract breaks his part the other member has the right to do likewise."

THE TREASURY SITUATION.

Close Money Markets Have Checked Exports of Gold.

WASHINGTON, June 8.—The treasury situation remains practically unchanged, the receipts being undiminished and the expenditures not increased. In Treasurer Morgan's daily statement the net gold in the treasury is stated at \$89,589,363 and the net balance exclusive of the gold at \$30,253,000. This balance has been reduced since the first of the month by large payments which fall due on the first of each month. In addition to the regular stated charges of salaries, etc., nearly \$3,000,000 in a lump was ordered to be paid on account of the Choctaw and Chickasaw Indian claim. Another item of large expenditure is pensions, \$3,700,000 having been paid out on this account during the past week. The total expenditures so far this month foot up \$9,767,000 and the total receipts \$8,450,000.

Orders for exports of gold filed in New York earlier in the week have, it is understood, been cancelled on account of the tightness of money there as better rates for money can be obtained at home than abroad. This indicates that no gold shipments will be made this week although the rate of exchange—490—is sufficiently high to justify gold exports. With no gold shipments the treasury naturally in the course of business accumulates gold. The fact that much grain is now being exported adds encouragement to the situation and if it continues, as appears probable, the balance of trade now against us will be sensibly diminished.

SHERMAN LAW TO BLAME.

Free Trader Garrison Talks Sound Sense for Once.

CLEVELAND, June 8.—William Lloyd Garrison, the eminent free trader, in speaking on the financial situation says: "The stringent condition of the money market is but the natural result of the Sherman act and the remedy for this condition is the absolute repeal of the act. I would replace the Sherman bill by something at all but simply allow natural conditions to prevail and financial difficulties would become adjusted of their own accord. The present condition is but the natural outcome of the Sherman bill and I for one do not anticipate any relief in financial matters until the law is blotted from the statute books."

"When do you think that congress should convene to take action upon this matter?"

"The sooner the better; at once if possible. The great majority in both branches of congress ought to insure prompt measures."

DISORDERS AT TARANTO.

Greek Sailors Accused of Maltreating Woman and Riot Follows.

TARANTO, Italy, June 8.—A serious fight has occurred here between the inhabitants of the city and the sailors of two Greek men-of-war lying at anchor in the harbor. The cause of the conflict was the allegation that some of the sailors had violated a woman. Several persons on both sides were seriously injured and forty-six arrests were made. Though the Greeks indignantly deny the story of the outrage to the woman the feeling in the city is one of continued disquietude as the people have threatened to take vengeance on the many Greek residents.

ATTACKED BY BRIGANDS.

Spanish Bandits Attempt to Rob a Mine Pay Wagon.

LONDON, June 8.—Dispatches received from Bilbao, Spain, announce that a band of brigands recently attacked a wagon containing money to the amount of \$8,000 which was on its way to the Sestares mines to be used in the payment of the wages of the miners. The attack was made in the chief highway of Bilbao. The guard in charge of the money defended it heroically, wounding some of the brigands, who were eventually dispersed, leaving one of their number badly hurt by the roadside.

WAS IT PAINT OR BLOOD?

What Were Stains on Dress Lizzie Borden Wore?

NEW BEDFORD, Mass., June 8.—In the garden trial today testimony showed that Lizzie Borden had after the tragedy and after the search by the police burned what she said was a "paint stained" dress and which the searchers had not found. The prosecution seeks to show it was a "blood stained" dress.

DAN CASE UNDER ARREST.

Jailed by Order of Milwaukee Circuit Court Obtained by Detroit Men.

PLAINTIFFS SAY THEY GAVE CASE \$2,500.

Case Was to Take Mine Leases in Their Names but They Can Get No Accounting.

WRANGLE OVER MINE DEALS.

MILWAUKEE, June 8.—Dan L. Case, a well-known real estate dealer, was taken to the county jail this noon on a civil order of arrest issued from the circuit court.

The suit is brought by Alex McPherson, William C. Colburn and others of Detroit to recover \$2,500. The plaintiffs, who include several Detroit bankers and capitalists, allege that they gave Case \$2,500 for the purpose of buying leases on some Minnesota iron property.

It is alleged that Case was to get the leases in the names of the Detroit men who furnished the money. These men claim that they have not been given the leases and that they have been unable to get any accounting from Case. Bail for Case was fixed in the sum of \$3,000, which has not been furnished up to a late hour this afternoon.

Case is a son of the late Julian M. Case, a mining man who lived at Marquette, Mich., for many years and who was well known all over the northern mining region. Shortly after the death of his father Dan L. Case removed to Milwaukee and engaged in the real estate and mining business.

BAILED BY ANGUS SMITH.

MILWAUKEE, June 8.—Dan L. Case was released late this evening on bail in the sum of \$3,000, one of his bondsmen being Angus Smith.

IMPATIENT IRISH MEMBERS.

They Try to Hurry Gladstone and Get the Laugh.

LONDON, June 8.—The prolonged delay in dealing with the home rule bill has apparently exhausted the patience of the Irish members and a number of the Liberals. Today in the house of commons Mr. Sexton, Nationalist member from North Kerry, asked whether the majority had not a right to take adequate measures to pass the home rule bill at this session. Mr. Gladstone replied that the pressure of the Irish question has not absorbed the government from attention to the great questions affecting Great Britain. This utterance of the premier was received with cheers and jeers. The Parnellite suggested that the house ought to hold all night sittings until the Irish home rule bill is disposed of.

Mr. Gladstone—if the government should propose that, considering the pressure already brought upon the members, it would be necessary to provide a supply of undertakers (laughter).

STRUCK THE WRONG TRAIN.

Iowa Bandits Had All Their Trouble for Nothing.

OTTUMWA, Ia., June 8.—Two masked men held up train No. 12 coming east on the Chicago, Burlington & Quincy last night at Nokawa, a small station west of Corning. They detached the baggage and mail cars and compelled the engineer and firemen to leave their engine and then ran the engine and two cars down the track a mile. Here they entered the baggage car and asked the baggagemen what train it was. Being informed that it was only a passenger train they said: "We are after the Denver express," and immediately disappeared.

NAMED FOR HIS ANCESTOR.

Duke of Veragua at Largest 'Columbus' in the World.

COLUMBUS, June 8.—The duke of Veragua arrived here at 8 o'clock this morning as the guest of the city, the largest in the world named in honor of Christopher Columbus. Rather than put him in any of the hotels, now filled on account of the Republican state convention, the duke and duchess and their son and daughter are being entertained by Mr. and Mrs. Henry T. Chittenden. Commander Dickens and wife are the guests of Mr. and Mrs. C. C. Waite and the remainder of the party are at the house of Mr. and Mrs. John Joyce. All of the hosts are residents on Broad street east.

NO CONCLUSION REACHED.

Kansas Coal Mine Differences Are Not Yet Settled.

PITTSBURG, Kan., June 8.—The operators of the coal mines in this district and representatives of the striking miners held an executive consultation for four hours last night but failed to reach a conclusion and adjourned to meet Monday. Both sides are stubborn but there is no bitterness. The meeting was presided over by E. B. Brown of the Midway Coal company as chairman and J. M. Lacey, secretary and treasurer of the Western Miners' union, was selected as secretary.

WHERE IS BANKER SCHAFFNER?

Man Resembling Him Seen at Benton Harbor.

CHICAGO, June 8.—Advices from Benton Harbor, Mich., state that a man closely resembling Herman Schaffner, the missing Chicago banker, was in that place last Friday and had gone from there to Stevensville on the Chicago & West Michigan road, where all trace of him was lost.

OPPOSED TO A BOND ISSUE.

The Washington Star asserts that President Cleveland is determinedly opposed to putting a new issue of bonds on the market, and that if the emergency calling for such a step should arise he will insist on having it authorized by act of congress, the new bonds to bear a lower rate of interest than those now outstanding. The president holds, according to The Star, that there is no obligation on the government to sell bonds to keep the \$100,000,000 gold reserve intact, and that the gold in the treasury can safely and properly be used to meet obligations until it shall run so low as to render it wise to take action to procure more gold as a business measure, to allay popular apprehension.

We regard this as a wise conclusion and trust it will be adhered to. It is evident that trenching on the gold reserve has not scared anybody very much, and it is certainly good business policy to use the gold that we have to wipe out obligations rather than hoard it while creating new indebtedness to procure a farther supply. The government is now doing only just what any sensible business man would do if he were confronted by a similar condition in his business affairs, and what is good policy for the individual cannot be bad policy for the association of individuals who in a collective capacity constitute the nation.

MR. ECKLES, the new comptroller of the currency, evidently believes that it is his duty to protect the people rather than the banks. He has just made a ruling relative to national banks that is in the interest of the public though stockholders in such of these institutions as are not conducted on safe and sound business principles may not like it. Under the law all stockholders in a national bank are liable to an assessment to the face value of their stock if the bank goes to the wall and the assets are not sufficient to meet liabilities. This law empowers the comptroller to immediately call on the shareholders in a bank that has been found to be insolvent to pay in the full amount of their liability under its provisions, but it has been the custom of previous comptrollers to let the receiver first realize on the assets and then allow the shareholders to make up the deficiency, whatever it might be. Comptroller Eckles has made the rule that the shareholders must pay in the money at once and thus enable the bank to settle with depositors, and do the waiting themselves instead of having the people who trusted their money to the concern wait till the assets could be realized on. The ruling is a salutary one and the comptroller deserves credit for having made it.

WE TAKE this from the Copper Journal, published at Hancock: The editor of the Evening News in an article on "that insane asylum" goes out of his way to state that owing to the heavy snow fall in this section, any point west of the southern boundary of Keweenaw Bay, should not be mentioned as a suitable location for that institution. We can see no motive for such statements as we certainly know that the snow was all gone from the shores of Portage Lake and Lake Anse-au-Loup many days before it was on the Menominee Range. Does this continual warfare against the interests of the copper and iron country arise from any grievance he has against the people of this district, or has he a selfish motive in getting it as far south as possible with a view of providing for his own future comfort. We admit that our preferences were for L'Anse or Ontonagon but if the location of the asylum is to be the future home of our pestiferous neighbor, we think we will support either Menominee or the Soo as the place it should go.

First he didn't want the asylum anywhere on the upper peninsula; now he thinks it should not go to any point in the copper region. Naturally apprehensive of the institution, probably, knowing that he is pretty well qualified for admission.

WE FAIL to see the necessity for a "new party" in which disappointed newspaper men may assemble themselves. There is the Prohibitionist party waiting to receive all whose days are full of discontent and whose nights are brimming over with woful anxiety. Let them seek rest and peace there if they fail to find it in either of the "old parties." And if that political cemetery doesn't suit them, what's the matter with having the unhappy ones "fine" with the Populists and make howling political derisives of themselves to the limit of their desire? Really we have parties enough and the person who can't find a place to suit him among them is altogether too exacting for the uses of our day and generation.

The Sunday attendance at the World's Fair is not as large as was anticipated and the Chicago News Record, which advocates Sunday closing, points with glee to this as proof that Sunday opening is a mistake. On the same line of argument it might be shown that the whole thing is a mistake, for the week

day attendance at the great exposition has been much lighter than was anticipated. The News Record should have a care lest it prove too much.

Ohio Republicans manifest an unmistakable determination to unite on Governor McKinley as their favorite son for the purposes of the next presidential contest. He is decidedly a creditable and brave one, and they are to be complimented on the selection.

General Butler on His Yacht. General Butler was happiest on the deck of his yacht, where he clad himself in jaunty flannels, surrounded himself with pretty girls and renewed his youth. If the truth were to be told, he liked to cruise in well frequented waters, where now and then a crowded excursion steamer would be met. On such occasions he was perfectly sure to be cheered heartily; he lifted his cap while the cheering was going on and then beckoned to one of the young ladies. She understood the signal, and stepping aft pulled a cord which discharged the America's biggest gun. Boom! It was a beautiful noise. Once more the crowd on the excursion steamer cheered, the general lifted his cap, the young ladies smiled, and the America sailed exqu岸ly on her way.

Innocent weaknesses were those of the old general. If he had been a bad man or a really crafty one, he would probably have attained a higher degree of power. He sought his own purposes, but not with that consummate guile, that perfect self seeking, which makes one utterly forget present purposes in order to obtain ultimate ones. Men who are a great deal worse and more mischievous than he ever was have not been abused one-twentieth so much as he.—Boston Transcript.

Corncrunch For Chibblains. The unusual cold weather of the winter has made chibblains quite a common complaint. A woman who has suffered from the most annoying torture which this particular affliction entails reports to have found relief from a new remedy, or at least from something which is not one of the usual remedies.

"After trying hot salt and water, witch hazel, cold cream and the rest of the list," says this woman, "the idea came to me that to bury my feet in the creamy coolness of cornstarch might assuage the intolerable burning. I tried it, with instant success. Don't use a little from a powder puff. Take a bowl or dish and plunge the foot in quite to the instep and keep it thus buried for some minutes. Then dust off most of the cornstarch, and the stocking and shoe can be resumed with comfort."

This simple, inexpensive suggestion ought to be circulated. Car drivers and others whose occupation forces them to stand almost continuously are likely to be the greatest sufferers in cold weather from frost bitten feet and following chibblains.—Her Point of View in New York Times.

A Quaint Wedding Gift.

A watch which the kaiser gave as a wedding present to his sister, Princess Margaret of Prussia, on her marriage with Prince Frederick Charles of Hesse has a curious history. It originally belonged to Queen Louise of Prussia, the mother of Kaiser William I. The watch was looted by French soldiers after one of the victories which practically placed Berlin as a conquered city in the hands of Napoleon's troops. Being taken to Strasburg, it was a year or two later won as a prize in a barracks lottery by the cook of the officers' mess. The man gave the watch to his sister, who subsequently obtained a domestic position in the palace of Potsdam, where Queen Louise, noticing the watch in the woman's possession, recognized it as her own and obtained repossession of it in exchange for a generous sum of money. The late Empress Augusta trusted the watch to the present emperor, with an expression of her wish that it might always remain the property of a Prussian princess.—Manchester Times.

Peace in Europe.

Europe seems to be more peacefully disposed at this time than it has been at some other times not far in the past. The nations over there had better not begin fighting. It would be dangerous for them to do so. All the rulers declare that they are anxious for the maintenance of peace; they will show sound sense by maintaining it.—New York Sun.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that their is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. A New Certain Cure for Piles.

We do not intend to indorse any except articles of genuine merit; we therefore take pleasure in recommending to sufferers from Piles in any form, a prompt and permanent cure. The following letters speak for themselves: Mrs. Mary C. Tyler, of Heppner, Ore., writes: One pkg. of Pyramid Pile Cure entirely cured me of piles from which I have suffered for years, and I have never had the slightest return of them since. Mr. E. O'Brien, Rock Bluffs, Neb., says: The pkg. of Pyramid Pile Cure entirely removed every trace of itching piles. I cannot thank you enough for it. The Pyramid Pile Cure is a new, certain, painless cure for every form of piles. It is safe, sure and cheap. Any druggist will get it for you if you ask him.

EVELETH.

The new townsite of the Mesaba range; surrounded by Nine Huge Iron Mines. Town: Adams, Little Duke, Parkersburg, Leonidas, Cheesboro, Billings, Nelson, Fowler and Detroit, some of which have already been proved giants in extent and quality of ore. In the centre of the pine belt, a large saw mill is already an assured accessory to the natural backing of the town, and its progress is bound to be measured by monstrous strides. Ely Lake, the coming summer resort of the Mesaba county, is situated close by; it abounds with fish and bids fair to attract the attention of the pleasure seeker, thus adding to the natural advantages of EVELETH and assisting materially in its development. Two railroads, the Duluth, Missabe & Northern and Duluth & Iron Range, will build to EVELETH at once and by the close of the present year it will be a city of hundreds of happy homes and thousands of busy, industrious citizens. To those who are seeking a safe investment we recommend to their consideration this young aspirant for commercial honor. FOR PLATS and other information regarding EVELETH, apply to or address Kennedy & Gleason, SOLE AGENTS, 5-22-0 VIRGINIA, MINN.

YOUNG MEN Who may be suffering from the effect of youthful follies or indiscretions will do well to avail themselves of this chance.

DR. SPEER & CO.

Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$250. They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience.

MIDDLE-AGED MEN.

There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening of the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits a rosy sediment and sometimes small particles of albumen will appear or the color be of a thin or milky hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES

Finding it inconvenient to call at the office can be treated by mail by sending a full description of their case. Examination and advice free to all. Remember the place, Adams Block cor. Front and Superior Sts., Marquette, Mich.

EVERY TIME!

NEURALGIA. Mrs. Mary K. Sheed, 224 11th St., S. W., Washington, D. C., states that for several years she suffered terribly with neuralgia and could find no relief. The pain was intense. She resolved to try St. Jacobs Oil. After having rubbed the parts affected three times only, all pain vanished and has not returned.

LUMBAGO. LITCHFIELD, KANS. I suffered 11 months with pains in the small of the back; pronounced incurable by physicians; confined to the house most of the time. St. Jacobs Oil completely cured me. No return of pain in 4 years. LEVI P. MANSFIELD.

BRUISES. BARABOO, WIS. Have not felt the least effects from my bruises since I was cured three years ago. I fell from my engine and struck my back; thought the life was knocked out of me. S. W. DIXON.

RHEUMATISM. MAPLE HILL, MICH. Mr. John J. Smith, Ensey, Michigan, was afflicted with rheumatism 15 years; his case was pronounced incurable by 3 physicians, but was cured by St. Jacobs Oil and has remained so. S. M. GEARY, Druggist.

SCIATICA. CHICAGO, ILL. I was given up by doctors three years ago, when troubled with sciatic rheumatism, and had to use a crutch; suffered about six years. First application of St. Jacobs Oil relieved; two bottles cured. GEORGE A. ROSE.

SPRAINS. Mr. Charles Joseph, 1194 Langton St., San Francisco, Cal., says: I sprained my ankle so badly I could not walk, and tried almost everything known, without relief, when one day a friend advised me to use St. Jacobs Oil. I did so and was speedily and wonderfully cured.

IN EVERY CASE IT SCORES A CURE.

The Odd Fellows excursion to the canal tomorrow will be one of the best of the season. With two scows and a tug they will have plenty of room and a good time is guaranteed to all who attend. They will leave Houghton at 9:30 and Hancock at 10 o'clock sharp.

Richard Sanders, the non-union molder whom Justice Finn let off yesterday on his own recognizance to appear June 28 to answer the charge of assault and battery, intended leaving town without giving any notice whatever. Justice Finn learned this and had an officer at the depot to intercept the fellow.

Dennis Lynch was up before Justice Finn Wednesday afternoon on complaint of M. J. Fisher, charged with calling him vile names. A jury was summoned and after hearing the evidence returned a verdict of not guilty. Reserved seats are now on sale at the Y. M. C. A. building for the Amold concert to be given Tuesday evening next.

L. H. Richardson, the clothier, returned from Chicago Wednesday noon.

Mrs. John Pinten, while hanging out clothes Monday fell off the reel and broke her arm. The broken member was set immediately and is doing well.

The carpenters and stone cutters are again at work on the Baptist church.

The cases against the molders for disturbing the peace have been settled by their paying the usual fines.

LAKE LINDEN. The Lake Linden band serenaded Rev. Father Menard last evening at the farewell reception on his departure to a new appointment. Father Menard has been here over ten years, and has a host of friends inside and outside of his own church.

The re-union of the Maccabees here next Monday is not, as stated by the Copper Journal, a re-union of the iron and country copper tents, but only of the copper country. The banquet will be held in the new opera house.

RED JACKET. Justice McDonald leaves for Chicago Saturday. During his absence Justice Croze of Tamarac Junior will be at the office every evening.

Engineer James Kelly and Miss Mary Kelly of Calumet are to be married Wednesday, June 31.

Civil Engineer C. F. Lorneth of St. Paul, who has the supervision of the sewer work here, left for home Wednesday noon. He is well satisfied with the progress the contractors are making.

Special trains will leave here next Monday for the reunion of the Maccabees at Lake Linden.

JACOBVILLE. George Pfeiffer, manager of R. M. Hoar's store at this place, went to Houghton Wednesday evening. The boys here are waiting to give him a cordial reception when he returns for he will come back a benedict, having been united in marriage yesterday evening to Miss Eva Miller of Huron town. The ceremony was performed by Rev. Father Manning at St. Ignace church. Mr. and Mrs. Pfeiffer left on the noon train for a wedding tour to the World's Fair.

The Impertinent Press. What are we coming to if the press is going to take the starch out of everything? An esteemed contemporary—we have forgotten which one—has complained that the reports of the daily press have made the recent heresy trial appear ridiculous in the eyes of the public. The dignity and mystery of theological discussions, once so awful that angels scarcely dared to tread the platform where the discussion was carried on, have been reduced to a commonplaceness comparable to the reports of a ward meeting or a filibustering session in congress.

The impertinent press persists in treating everything and everybody in an everyday sort of a way. Even religion has to undergo the same treatment. If there is any sham or mysticism or superstition in it, it is liable to be handled as a detective handles an embezzlement. The press, as a rule, believes in pure and undefiled religion, but it wants a religion that is good for Mondays and Thursdays and Saturdays as well as Sundays.

It is complained by some Roman Catholic authorities that the press is unnecessarily meddling with the alleged controversy between the archbishops, and that the laity of the church is being stirred up by a contest which ought to have been confined to the prelates and settled by them. But everything is news, and so important a matter as alleged insubordination in the high places of the Catholic church can no more be kept quiet in these days than could the outbreak of a volcano on Manhattan island. It does indeed detract from the dignity and mystery of ecclesiasticism to have its quarrels reported in the papers, but it cannot be helped except in one way. Let quarrels cease and the press will quit its impertinence.—Springfield Union.

Rev. H. H. Fairall, D. D., editor of the Iowa Methodist says editorially: "We have tested the merits of Ely's Cream Balm, and believe that by a thorough course of treatment it will cure almost every case of neuralgia, as a chronic or superstitious with head and throat troubles, and catarrhs seems more prevalent than ever. We can not recommend Ely's Cream Balm too highly." It proved a cure.—B. F. M. Weeks, Denver.

It is Strange That people suffering from Piles will endure them for years or submit to dangerous, painful, cruel and expensive surgical operations, when all the time there is a painless, certain, lasting cure, which gives instant relief and costs but a trifle. It is called the Pyramid Pile Cure and can be found at all drug stores. Any druggist will get it for you if you ask him.

ALMOST A CLEAN SWEEP.

Nearly Every Business House and Most of the Dwellings in Fargo Burned.

ONLY ONE GROCERY STORE LEFT IN THE WHOLE CITY.

Only One Bank and One Hotel Remain. Several Persons Injured and One Child Missing.

THREE THOUSAND HOMELESS.

FARGO, N. D., June 8.—Exact figures of last night's big fire are not yet obtainable. Some hot ashes thrown out a door started a small fire which was fanned into a great blaze, enveloping a whole row of buildings before the fire department could get to work.

Fire companies are here from Grand Forks, Jamestown, Casselton and other neighboring towns but the ruins are still burning fiercely. The fire made a five blocks wide, not leaving a dozen buildings standing.

Con Keefe was badly burned on the hands while trying to save some property, and an old man whose name could not be learned was badly burned about the eyes and had two ribs broken.

President J. J. Hill of the Great Northern railroad telegraphed orders to Moorhead for the use of Fargo's homeless citizens and many secured shelter there.

The fact that all the insurance offices have been included in the destruction makes it more difficult to obtain any accurate estimates of the loss.

GASOLINE AND CANDLE.

Grocer Rezepper Brought Them Together With Customary Result.

St. Louis, June 8.—A fifty-gallon tank of gasoline exploded last night in the grocery store of Samuel Rezepper, 1028 North Seventh street.

Dangerously burned and not expected to live—Samuel Rezepper, fifty years; Bessie Weisman, forty-eight years; Max Weisman, two years.

Burned severely—Dr. Rezepper, forty-five years; Bessie Rezepper, nine years; Birdie Rezepper, four years; Annie Weisman, four years; Julius Barrion, thirty-five years; Henry Weisman, three months; Jacob Wald, three months; Goldie Weisman, eleven years; Thomas Brooks, thirty years; Bennie Weisman, six years.

Injured by falling glass and debris—Mollie Schuckert, twenty-eight years; Henry Schuckert, two years; Julia Brown.

The injuries were all caused by the explosion, all the injured being taken out before the fire reached them.

LARGE CONVENT BURNED.

Nuns and Pupils Reported to Have Escaped Safety.

MONTREAL, Que., June 7.—The Villa Marie convent at Cote St. Antoine, four miles west of here, caught fire about noon to-day and latest reports say that it will be entirely destroyed.

PERISHED IN THE FLAMES.

Porter Dan Foley Loses His Life in a Burning Building.

CHICAGO, June 8.—The building in Kinzie street occupied by the Johnson-Landry company, broom corn and broom manufacturers, supplies, by O.S. Thorpe, dealer in imported fish, and James Thompson, dealer in tents, twine and cordage, was destroyed by fire to-day, loss \$65,000.

AW WING'S LITTLE PLAN.

To Get Out of Prison and Back to China.

HELENA, Mont., June 8.—Ah Wing, a Chinaman in state prison for life for killing three of his countrymen, has raised a new and novel point regarding the Chinese exclusion law.

WRONGED WOMAN'S REVENGE.

Dora Velsey's Letter Explains Her Own Death and Gray's.

GRAND RAPIDS, Mich., June 8.—At the coroner's inquest today over the remains of William G. Gray and Dora Velsey, who were found dead together yesterday, the latter having murdered her lover and then killed herself, a letter written by the dead woman was read.

INFANTA AT WORLD'S FAIR.

Representation of Spain Received at the White City With All Honor.

MORE THAN 150,000 PEOPLE ON THE GROUNDS.

Program Fully Carried Out as Announced—The Night Attendance Breaks All Previous Records.

HONORS WERE APPRECIATED.

CHICAGO, June 8.—No woman ever was honored with a grander greeting or more cordial welcome than that accorded Maria Enlalia, the infanta of Spain, upon her arrival at the World's Columbian exposition today.

The ost striking model is that of a 9-pound square tailed spotted brook trout. It is a beauty. The other fish represented are a large pickerel, a fine yellow perch, a white perch and a menhaden.

The illumination and pyrotechnical display at the fair tonight in honor of Infanta Enlalia drew out the largest night attendance yet at Jackson Park.

The program for the infanta's reception and entertainment at the World's Fair was carried out exactly as outlined in these dispatches yesterday.

STATE OF THE IRON TRADE.

Nature's Handwork.

A curious stone was found recently, it is said, in the bed of a creek in Knox county, Ill. It is reported to be 8 inches long and 5 wide, and its resemblance to a human head pronounced remarkable.

Experiences of a Watch.

A resident of a nearby New Jersey village had his watch in soak for three weeks this winter in a peculiar way. He dropped it into the millpond in about six feet of water, and during the night the pond froze over. Three weeks later, when the ice had gone and it was possible to drain the pond and search the bottom, the watch was found.

MARINE MATTERS PASSED THE CANAL. SAULT STE. MARIE, Mich., June 8.—[Special.]—Up—a. m.—Morley, Pioneer, Keystone, Maston, Rosedale, Roby, Arabia, Italia, Samuel Mitchell, Parks Foster, Athabasca; p. m.—Hurd, Westover, Bliss Hale, Martin, Adriatic, Osceola, Fedora, Tower, Erin, Maggie, Specular, Magnetic, Algonquin, Hall, Mason, Flint.

PORT LIST. Arrived—Sparta, E. S. Pease, Planet, Negaunee, Pioneer, F. W. Gifford, Cormorant, Charles Wall. Cleared—Pioneer, Cleveland; B. Whitaker, S. V. R. Watson, Saveland, Detroit; S. J. Macy, South Chicago. Passed down—Japan.

PORT NOTES. The steamer E. S. Pease brought in a cargo of coal for the South Shore railway. The schooners Negaunee, F. W. Gifford and Planet brought in cargoes of coal for Jas. Pickands & Co.

The Pontiac, which is now nearly through discharging her coal cargo at the railroad dock, is making her first trip of the season, having been laid up because of the fire which damaged her early in May. She is still carrying carpenters on board to complete repairs.

The Macy was crippled by an accident last night when about a quarter of a mile outside the breakwater. After laying for some time she turned and made her way back into port very slowly. The hour was so late that the cause of the trouble could not be learned.

REPORTORIAL PENICILLINGS. Remember the dance in Armory Hall this evening.

Kassel Oshinsky has returned from his purchasing trip below.

The board of review is still working away on the assessment roll. It finishes its sessions tomorrow.

The Marquette City band will give a concert at the Front street band stand tonight if the weather is fair.

Great progress is now being made in the new dam bridge at the break made in the Presque Isle drive by Dead river.

The rush of emigrants over the South Shore still continues. Between fifty and sixty went through on the late train last night.

The Marquette Yacht club's cutter, Keewaydin, leaves tomorrow on her first cruise of the season, going down the shore to the Onota club.

A dance will be given in the Armory this evening by the Hughes' orchestra. The best of music will be furnished and every effort will be made to give those who attend a first-class time.

Dave Sang, the well-known contractor and real estate owner, hustled the piles in in great shape on the street railway company's bridge yesterday. Cars will be running to Presque Isle again Sunday.

The South Shore's new transfer steamer and ice crusher, the St. Marie, got up steam Tuesday for the first time and will leave the Detroit yard where she was built to take her place in the service of the roads at the straits in a few days.

Fire got started in the North Marquette addition from burning stump piles yesterday and the street railway company had to fight hard for a time to keep the flames from reaching its slab piles, while Parr had a very lively time keeping the fire from his barn and fences.

Louis Grabower leaves today for Milwaukee to endeavor to straighten matters connected with the Lappen failure. Mr. Grabower is filling the big contract for carpets for Masonic hall and in some way his carpets have been tied up, at which the lively Front street dry goods merchant intends to put in a wild, weird kick.

PERSONAL MENTION. E. G. St. Clair was in town yesterday.

Judge E. S. B. Sutton of the Soo is in town.

Dr. A. J. Braden of Munising is in the city.

E. F. Douglass returned to Houghton yesterday.

Roy Everett leaves tomorrow to visit the World's Fair.

Hon. Peter White returned yesterday from his trip below.

Isaac Neuberger is expected up here in a few days on a business trip.

John C. Spry, the noted Chicago lumber man, was in town yesterday.

Mayor Kaufman arrived home yesterday from his flying trip to Chicago.

D. McRae and George Gordon of Ewen, were down yesterday on business.

Mrs. Richard A. Parker is expected home today from a visit to her parents in Boston.

Miss Addie Riedinger is expected home today from an extended sojourn in Wisconsin.

John E. Wood, who is largely interested in Iron Mountain was in the city a few hours yesterday.

Interesting Exhibit at World's Fair. One of the most attractive and interesting exhibits at the World's Fair is that of the Keystone Watch Case company of Philadelphia, which enjoys the unique distinction of being the largest watch case manufacturing concern in the world. The exhibit is centrally located in Section O, block 1, of the Manufactures and Liberal Arts building, on the main or Columbia aisle. The booth is designed and finished on a scale of richness that admirably harmonizes with the goods exhibited. A pavilion classically proportioned, quaintly carved and finished in ivory and gold forms an imposing background, while the show cases, with their lavishly expensive finish, are a fitting repository for their glittering contents. Every possible description of watch cases is numerously illustrated and in a variety of designs that reveals the limitless ingenuity of the modern gold-worker.

The enormous factories of this company occupy an entire block of ground in the Quaker City, give employment to

1,300 individuals and have an output of about two thousand watch cases per day. The entire resources of the concern are confined to the manufacture of cases only, just as the entire resources of the Egin and Waltham factories are limited to the manufacture of movements only. Not a few of our readers may learn now for the first time that the case and works of the watches in their pockets are made in different factories, having no connection whatever with one another—case manufacturing and movement manufacturing being entirely distinct industries. The Keystone cases are made by machinery of the most complicated character, much of which is rented by and is the exclusive property of this company. They are also the sole proprietors of many well-known patents, the now world-famed thief-proof non-pull-out bow being one of the best valued. All their products, the best quality of which are the popular Jas. Boss filled case, are handled by our local jewelers.

Besides watch cases the exhibit has many special features that are as instructive as curious. One of these is a movement in a four-ounce Leader silver case which continues to tick blandly though a weight of three hundred pounds is resting on the case. Another interesting curio is a silver case weighing five pounds seven ounces, and complete in every respect. It contains a regular American movement, which it both winds and sets. There are also shown many old and curious watches of all kinds, shapes and sizes, made within the last three hundred years, many of them of historic and all mechanical interest. Those of our readers who may visit the fair and desire to gain thereat a proper realization of latter day manufacturing progress in its more refined aspect, should not fail to visit this handsome and elaborate exhibit of the Keystone Watch company.

Nerve Jarring Jocularities. There is nothing in the world which produces the sense of mental nausea more completely, or is more certain to turn the intellectual stomach, than the use of certain jocularities of speech with which many people think fit to adorn their conversation. The people who seem to find it impossible to speak of an unmarried man except as "a gay bachelor," with whom the sea is always "the briny" or "the herring pond," and a horse "a fiery steed," who eternally talk about "Sunday-go-to-meeting" clothes, and who have such phrases as "no extra charge," "agitate the tintinnabulator," "the noxious weed," "the pipe of peace," "40 winks," and "braving the elements" forever on their lips, are capable of producing a sense of disgust in those who care to see language kept bright and clear.

It is difficult to say whether these cant phrases—that is, a perfectly proper description of them—are more odious when used consciously or unconsciously—that is, by people who believe them to be funny and intend that their hearers should consider them funny, or by those who have merely caught them up and repeat them like parrots and without any intention, good or bad.—London Spectator.

No Virtue in Whole Grain or Bran. Among the ancients the "toothless hag" was a stock figure. Homer was bald. Diogenes was bald. Ulysses was bald. How did they become so on bran or whole grain bread, such as was used in their times? The miller of this day is making no mistake in his work. No civilized nation, with a mixed diet, is in any danger from the use of white flour. The "sweet and pleasant flavor" of bread made out of old buhr flour or ruder meals was due to no wholesome, nutritious quality in the flours or meals used.

It was simply the dirt—that is, the nonflour parts of the wheat berry incorporated in the product of rude milling that gave that flavor. The bread is more nourishing without it and more digestible without it. Modern milling is all right. The human intestines are not intended for mere bran conveyers. The bran should go to the bran bin, and from there to the animals that can digest it. Man is not among those animals.—Milling World.

An Original Theory of Education. Count de Lesseps has always had theories on the education of children. Part of his success in the Suez canal was due to the help of Abbas Pasha, who had been a pupil of the count. Abbas was a very fat and luxury loving boy, but with more than ordinary intelligence. At the end of the first month of De Lesseps' direction of his education his tutor, with some pride, brought in the boy's reports. "Do not bring me reports of lessons," De Lesseps said, "but his weight. I desire you to weigh him at the beginning of every month. If he has gained in flesh, punish him and see that it does not happen again."—Chicago Tribune.

Expensive Decorations. This is the season of the year when florists are paid high prices for making a display of their collection of plants and flowers in private houses, ballrooms and dining halls. To have a tropical scene created for you in the corner of a room, or to have a table garnished with choice beauties, with the breath and bloom of a summer's day in each petal, while the earth is stiffened with frost, costs something. Smilax is used in great quantities. Of the orchids, the cypripedium is the most common and makes a pretty decoration with maidenhair fern. Easter lilies are extensively used. Roman hyacinths are going out, and the Dutch hyacinths are coming in. Narcissus are used with the lily in decoration. The yellow daffodils are pretty in tablepieces.

Roses are of course the great favorite, and florists say that the demand for them this year has almost been unprecedented. American Beauties lead the horticultural world. There is nothing like them, and during the height of the season they brought as high as \$1.50 for a single rose. Much of course depends upon the quality of the plant. The Mermet is a pretty pink rose. It lasts well and generally reaches its limit at \$3 a dozen. The Pearl rose is a pretty rose for use on a table. It is a yellow rose and may reach \$3 a dozen.—New York Telegram.

DR. MORSE'S OFFICES. Dr. C. H. Morse, who has had charge for the past year of the office and practice of Dr. Speer & Co. in this peninsula and who has met with such signal success, has severed his connection with Dr. Speer & Co. and has gone into the general practice of medicine in the city. His old patients and new ones will find him at the offices in the Mining Journal building formerly occupied by Dr. Speer & Co. 6-6-d.

THIRD ANNUAL PILGRIMAGE. TO THE SHRINE OF THE GOOD SAINT ANNE. The 1893 pilgrimage to this famous miraculously working shrine being organized by the South Shore under the auspices of the Rev. P. C. Menard of Lake Linden, leaving Wednesday, June 31, 1893, and promises to be the largest ever sent out from the upper peninsula. Tickets from Houghton, Marquette and intermediate stations will be \$25.00 for the round trip. They will be good going only on the special train leaving June 21st but will be valid for return passage on all regular trains until July 31, 1893, and will allow passengers to stop off at any point en route in Canada.

The special train will be run leaving Houghton 8:00 a. m. stopping at all stations to take on pilgrims; leaving Marquette 12:40 p. m., where connections will be made with the special train over the Canadian Pacific R'y., arriving at Montreal the following afternoon. The special train will be run to Montreal only, as it is expected that the majority of the pilgrims will want to stop over in that city for the grand celebration of the St. Jean de Baptiste societies, which takes place June 24.

The journey from Montreal to St. Anne de Beaupre and return home to be made on regular trains at any time within the limit of the tickets.

A feature this year will be the Palace Sleeping cars and Tourist Sleepers that will be attached to the Canadian Pacific special train. The rate per double berth in the former from Sault Ste. Marie to Montreal will be \$4.00 and in the latter only \$3.00.

Anticipating that a number of excursionists will want to visit the World's Fair on the return, arrangements have been made by which excursion tickets entitling holders to return via Chicago will be sold at the low fare of \$35.00 for the round trip. This will be one of the choicest summer excursions ever on the people of this section. It includes not only visit to the principal cities of the Dominion of Canada, but also gives the tourist an opportunity of visiting Detroit and the World's Fair on the return trip home. (6-9-2w.)

Charcoal Furnace For Sale. The charcoal blast furnace, situated at Iron River, Iron county, Michigan, consisting of the plant and 25 acres of land on which it is situated can be purchased for the remarkably low price of \$3,000. It cost about \$125,000. It was operated at a profit until closed down about four years ago. There is an abundance of hardwood in the vicinity.

COUNCIL'S WORK.

The common council held a regular meeting Wednesday evening, President Johnston presiding in the absence of Mayor Osborn.

The minutes of the previous meeting were read and approved.

The board of public works offered a resolution to the effect that a fire-ton roller be purchased for street work, which was adopted. The same board also recommended that new sidewalks be laid in different parts of the city where needed, which was disposed of by reference to the street committee.

A petition to have Vine street graded to the northeast intersection of North Second street was read and, on motion, referred to the street committee.

A petition from W. E. Uren and others asking that North Fifth street, between High and Marris streets, be graded was read and, on motion, referred to the street committee.

A petition from Stephen Collick and others asking that South Third street from Division street be graded was read and referred to the same committee.

A petition from the members of the Swedish Baptist church asking that they be given permission to reshingle the east side of the church roof was read. The request was granted.

Hills against the city were read and referred to the committee on claims and accounts.

Alderman Persons from the finance committee reported favorably on the bonds of the city recorder and treasurer. The report was accepted.

Alderman Olson from the committee on claims and accounts reported favorably on bills presented at the last meeting and recommended that the same be allowed and paid; also that the bill of the C. & N. W. Railway company for hauling garbage be allowed and paid at once. Report was accepted and adopted.

The purchasing committee recommended that a desk be procured for the superintendent of sewers for the storage of maps, papers, etc. Referred to sewer committee.

The pay roll of the sewer employes for the last month was presented by Alderman Routhier and on his recommendation was allowed and ordered paid.

On recommendation of Alderman Swanson from the committee on water works Mrs. J. K. Richard's residence will be connected with the water main. Alderman Rood from the committee on fire department offered an ordinance providing for punishment of any person meddling with the fire alarm system. The ordinance was adopted.

The monthly report of the street commissioner, showing an expenditure of \$842.22, with \$37.80 collected for repairing sidewalks, was read and accepted.

Alderman Beerling, from the street committee, reported that four of the street lamps had been out one night each during last month. The committee on claims and accounts was instructed to deduct the contract cost of same from the electric light company's bill. The same alderman recommended that the petition asking for a new sidewalk on the south side of Barum street be graded, which was concurred in.

The monthly reports of the chief of police, Justice Kennedy and the poundmaster were read and were referred to the committee on police.

Otto A. Nelson was elected a member of the board of assessors to fill the vacancy caused by the removal of A. W. Lindholm from the city.

The recorder's monthly report was read and referred to the finance committee.

Thomas Walters was elected to succeed himself as a member of the board of public works.

After considerable discussion regarding the disapproval of the petition asking that confectionary stores, etc., be closed on the Sabbath. The petition was tabled.

Alderman Nolan moved that an ordinance be adopted compelling the railroad companies to place flagmen on the Second street crossing the entire year and on the Lake street crossing during the shipping season. The motion found support but was lost by a vote of 7 to 8.

On motion of Alderman Jenkins the railroad companies will be instructed to place a flagman on the Lake street crossing only. The council then adjourned.

Bitten By a Dog.

The little son of Mr. and Mrs. M. W. Barringer was seriously bitten by a dog, owned by W. C. Uren Wednesday afternoon. The child was seated on the porch eating a cookie when the brute entered the yard and sank its teeth into the boy's face, lacerating it in a frightful manner. The dog released his hold on the child two or three times only to take a new grip. He shook the child as he would a rat and would probably have killed him had not some one come to the rescue.

Mr. Barringer was notified and at once procured a revolver and put four bullets into the carcass of the savage brute.

And still the dogs must be given liberty to run at large, biting people, causing runaways, and doing mischief immeasurable in other ways. The dog tax could be applied here with good effect.

The Amold Concert.

August Amold, the celebrated Norwegian violinist, and company will appear at the City Opera House next Thursday evening, the 15th, under the auspices of the Chancel society of Grace Episcopal church. The St. Paul Globe of recent date says:

Herr Amold, as St. Paul music devotees have learned to expect, was his usual self, stirring the grander emotions of his audience as one soul under the influence of the mesmeric strain. To hear Herr Amold at

his best, when inspiration thrilled his every move, and the soft sweet notes floating from his instrument in unconscious accord with the executor's thought, is to lose one's self to all things earthly and live, if but for the moment, in the imagery of the most beautiful. In the program he was announced to appear but twice. When he presented his first "Nocturne" (Chopin), he had delivered but a prelude to the enthusiastic demands of those present. Responding to an encore he was again encored, and would have been responding to encores to this moment, but he was compelled to desist from sheer weariness. Reason and satisfaction were the only considerations which allowed him to retire.

Will Edit a Weekly.

Horace J. Stevens, who was seriously thinking of launching a daily paper in Ishpeming, has given up the project and has associated himself with John D. West in the publication of The Peninsular Record, of which he will be the editor. The Record will be enlarged to a six-column quarto and will be otherwise improved. The type and other material utilized in the publication of The Daily Press will be used on the paper, and its publication day will be changed from Thursday to Saturday. It will be entirely set up and printed at home. The first number under the new management will appear a week from tomorrow.

ISHPEMING IN BRIEF.

Dr. Boyce of Marquette was in town yesterday morning.

Isaac Culbert, who was badly hurt by the kick of a horse a few weeks ago, is again able to be out with the aid of crutches.

Charles Akerson, the contractor, with his family, left for Ishpeming Wednesday afternoon for Wilmar, Minnesota, where he has purchased a farm and will reside permanently.

Miss Ellen Loth of Stephenson, who has been here visiting her brother, G. M. Loth, the past few weeks, left yesterday for Champion for a few days' visit with her sister, Mrs. C. H. Rohl.

Geo. R. Persons, the Lake Angelina company's cashier, left yesterday for Ogdensburg, N. Y., to make a three weeks visit to friends. He will return home by way of Chicago and take in the World's Fair.

F. P. Tilson has gone to the World's Fair city to be absent ten days. He will be met there by Mrs. Tilson, who has been visiting friends in Detroit and other cities for the past two months, and they will return home together.

The Ishpeming Building and Loan Association advertises the house and lot at the corner of Pearl and Bank streets, next to the convent school, for sale in this issue of THE MINING JOURNAL. Apply to Ole Walseth, president, or J. B. Robert, secretary of the association.

The late arrival of the Ishpeming consignment of THE MINING JOURNAL yesterday was the fault of the mail clerk—a new hand—who forgot to leave off the bundle. The papers were transferred to the eastbound train at an up-the-road town and arrived here on the noon train.

The entertainment tonight by the Hayner family assisted by E. E. McClain at the Methodist church will be a very pleasing affair. The admission will be twenty-five cents for adults and fifteen for children. The proceeds will go to replenish the Sunday school society's coffers.

D. D. Randall, local agent of the South Shore road, together with Captain Thomas Walters, W. F. Swift, Geo. A. Newett, Chas. Kruse and Manville Jenks left here yesterday morning in Superintendent Lytle's private car on a fishing expedition to Lake Gogebie and the trout streams on the South Shore division. They will return Monday.

"ROYAL RUBY" PORT WINE. If you are reduced in vitality or strength by illness or any other cause we recommend the use of this grand old Port wine, the very blood of the grape. A grand tonic for mothers nursing and those reduced by wasting diseases. It creates strength; improves the appetite. Nature's own remedy, much preferable to drugs, guaranteed absolutely pure and of age. Young wine ordinarily sold is not fit to use. Insist on having this standard brand, it costs no more. \$1 in quart bottles of the Royal Wine Co., Chicago. For sale by H. H. Stafford, Son & Co., Marquette, and J. N. Perkins & Co., Negaunee.

NOW TRY THIS. It will cost you nothing and will surely do you good, if you have a cough, cold, or any trouble with throat, chest or lungs. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to give relief, or money will be paid back. Sufferers from La Grippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself just how good a thing it is. Trial bottle free at H. H. Stafford, Son & Co.'s Drug Store. Large size 50c. and \$1.00.

SPECIMEN CASES. S. H. Clifford, New Cassel, Wis., was troubled with rheumatism, and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years standing. Used three bottles of Electric Bitters and seven boxes of Borden's Arnica Salve, and his leg is sound and well. John Speaker, Catwaba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Borden's Arnica Salve cured him entirely. Sold by H. H. Stafford, Son & Co. Drug store.

A GIRL'S SELF SACRIFICE. She was a "Spoiled Child," but She Surprised the Whole Family.

There is a sweet girl I know who is a bit self-willed. She is the youngest of four sisters, and—oh, speak it low—is a bit spoiled, though she doesn't think so.

Supplied with her monthly allowance, she went shopping with a list long enough to swallow up all her shekels. There was a new gown, a hat and gloves and innumerable accessories to be bought.

After being fitted and paying the bill that "spoiled child" tore up her shopping list, with the remark, "It's no use; papa cannot let me have any more money just now, you know, so I'll have to go without those things."

The terrible accident that happened to Peter Daugherty, the "trackwalker," gave to many readers a new word in the vocabulary of "trades and occupations."

"A trackwalker, a trackwalker?" exclaimed one citizen when asked the definition of the term. "Why, yes; of course. A trackwalker is a fellow who walks the tracks. See? Just as easy! Now ask me something real hard."

Which all goes to show that the real bona fide trackwalker is comparatively an unknown cog in the great machine of the world. If that cog was suddenly taken out of place and thrown away the world would very soon discover its loss.

"You see, it's my shoulder there now," exclaimed Daugherty, raising his left arm and dropping it to the sheet again with a shudder of pain.

THE FIRST CRIB IN PLACE.

Powell & Mitchell Sink First Crib in the Breakwater Extension Without a Hitch.

NEW AND HEAVIER STEEL FROM MARQUETTE TO ISHPEMING.

Invitation to Marquette Tennis Players. "A Pointer" on Bess Mitchell's Trip. Storer's Colonization Scheme.

THE FIRST OF NINE.

Powell & Mitchell have placed the first crib successfully in their big breakwater extension contract. The crib was towed into position Wednesday from the lumber dock south of No. 1 ore pier, where the cribs are being framed, and at 4 o'clock yesterday morning the work of putting it in its proper resting place was commenced. Sixty cords of stone were dumped into it during the day and it is now as solid as any part of the breakwater. An immense amount of timber is being used in the construction of the cribs and notwithstanding the immense quantities of stone taken out during the winter on Front, Prospect and Crescent streets a large force of men is still kept busy blasting out rock in the old breakwater quarry near the lifesaving station to complete the rock foundation for the extension and also for use in filling the cribs. Now that the first crib has been placed in position successfully the others will follow in quick succession.

The firm is hauling the rock needed for the work in wagons now and the heavy loads are cutting up the streets badly and making expense for the city, a result due entirely to the pig-headedness of those who made a fuss about allowing the contractors to put in a temporary railroad to haul rock from the Front street openings to the breakwater. The rock could have been handled much more economically by rail and the city would have been benefited by the complete removal of the Front street bluffs, whereas now much of the rock is being taken from the old breakwater quarry, so much for the efforts of a few kickers.

Laying New Steel.

The Duluth, South Shore & Atlantic is preparing to take up the 60-pound steel on its line between Marquette and Ishpeming and replace it with 72-pound steel, the rails taken up being used in places on the main line where the traffic is lighter. The new steel is already arriving and much of it has been distributed. When all is ready the rails will be bolted together and on some Sunday the change will be made. About 1,000 tons of new rails will be used.

Invitation to Tennis Players.

The Michigan State Lawn Tennis association is a new athletic organization which was formed in Detroit last week at a meeting of representatives from the Detroit Athletic club and the Michigan Athletic association of Detroit and the Country Club of Grand Rapids. The officers are: John S. Sweeney, D. A. C., president; Sidney T. Miller, M. A. A., vice president and Ralph Stone, C. C., secretary and treasurer.

The first tournament under the new association will be held on the grounds of the Country Club of Grand Rapids on Thursday, August 29, and following days. The entries from each club are limited to three in the singles and three pairs in the doubles. There will be first, second and consolation prizes, and costly silver cups will be awarded to the club whose representatives win the championships in the singles and doubles, each cup to become the property, at the end of seven years, of the club winning it the greatest number of times.

An especial effort will be made to include in the membership of the association, tennis or athletic clubs throughout the state; and if in the cities and towns where there is good tennis material, there are no clubs in existence, to urge the organization of such clubs. The association was formed to encourage the development of tennis in Michigan, and it extends an earnest invitation to the tennis enthusiasts in Marquette to correspond immediately with its secretary, Ralph Stone, Grand Rapids, with a view to organizing and enrolling Marquette tennis clubs in the new association and securing representatives to contest for the state championship on the Country Club grounds, Grand Rapids, August 29.

Bess Mitchell's Trip.

Through the courtesy of Mr. George W. Hibbard, northern passenger agent of the Duluth, South Shore & Atlantic, THE MINING JOURNAL has received a copy of Beau Campbell's noted monthly magazine for travelers, railway and hotel men, "A Pointer," giving a full and elaborate account of Bess Mitchell's famous 10,000 mile railroad journey from the pen of the young lady herself. Her trip made her national celebrity, having been taken at the instance of prominent railroad passenger agents to make good the boasts that the through passenger car service of American railroads is so perfect that a lady could go from Chicago to Portland, Oregon, thence to San Francisco, Calif., and El Paso, Texas, thence to the City of Mexico, ride to the top of the Hill of Chapultepec, return to Laredo, Texas, and go thence to St. Louis, New York and Boston and back to Chicago without putting her foot upon the ground. Miss Mitchell made the boast good, traveling upon regular trains 10,204 miles in 17 days, 20 hours and 15 minutes, without missing a connection or being delayed by accident or other cause. There were no special cars and no special arrangements of any kind other than those observed by ordinary travelers in the way of tickets and berths secured in advance. All changes were made in union depots or on plat-

forms, and not once did her foot touch the ground.

"A Pointer's" story of the trip is beautifully and profusely illustrated with "half tones" in colors, "A Pointer" having been the first journal in America to employ this tinting process in illustrations from "half tones."

Apostle of Colonization.

Rev. John Storer was a caller at THE MINING JOURNAL office yesterday. He is as full of enthusiasm as ever on the project of developing the agricultural resources of the upper peninsula by bringing in colonies of his Swiss countrymen and believes that by this means what is now a wilderness can be made into fertile and productive farms. The mountaineers of his native land have achieved great results with land far less productive and he wants to see them engaged in the work of reclaiming the thousands of acres of waste land up here.

Mr. Storer is gathering data regarding the possibilities in the agricultural line up here and hopes to place the information thus secured where it will do the most good abroad. He holds that many of our swamps could be easily drained and transformed into gardens from which to furnish the mining centers with supplies. This what is needed here; the home market is an unexploited one and the demand for the development of our agricultural resources is becoming more imperative every day, for a city in a wilderness cannot thrive.

Kneebone Brought Back.

Thomas Kneebone, one of the prisoners who scaled the wall at the Marquette prison Sunday, was brought up from Escanaba yesterday morning and lodged in his old quarters, looking more the worse for his little pleasure jaunt through the woods. Nothing has yet been heard from Laughlin, who escaped at the same time.

In Need of Repairs.

It turns out that Antoine Wellen, the man who detected train wreckers at work on the South Shore trestle near Bibon the other night and who is now in this city, was more badly used up in his encounter with the gang than was at first supposed. Besides the severe cut on his head one shoulder was dislocated and it will be some time before he recovers completely from his injuries. Nothing farther has been learned about the parties who were engaged in the attempt though it is reported that suspicious characters were seen in that vicinity at about the time in question.

IMPORTANT NOTICE.

The public is hereby notified that Dr. C. H. Morse, formerly in charge of Marquette office is no longer in the employ of Dr. Speer & Co., and that all monies due the firm must be paid to their regular representative at their offices corner Spring and Front streets. There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
