HARRISON AT THE FAIR.

The Ex-President Takes in the Sights of the Wonderful White City.

SAYS HE REGRETS THE SUNDAY CLOSING ROW.

Princess Eulalia Breakfasts at the White Horse Inn and Leaves for New York Tomorrow.

CHEERED THE EX-PRESIDENT.

CHICAGO, June 12.—Ex-President Harrison, like thousands of other private citizens, availed himself of an opportunity to see the World's Fair today. With "Baby" McKee, now quite a boy in knickerbockers as a companion, he walked and rode through the wide drive-ways between the buildings and looked with interest on the many wonderful sights. He was jostled in the crowd like common humanity and enjoyed the day.

Ex-President Harrison arrived in Chicago from Indianapolis this morning. He was accompanied by Mrs. McKee, "Baby" McKee, Miss Swan and Miss Dimmick and was joined here by Senator and Mrs. Morrill. The party was driven to the Lakota Hotel, where they will be the guests of President T. W. Palmer during the remainder of the week.

The ex-president will deliver the oration at the dedication of the Indiana state building Thursday and decided that inasmuch as he would be required here on that day he would spend the week here sight seeing. The distinguished party arrived at the exposition at 11:30 o'clock in carriages, President Palmer acting as escort. Entrance was made at the west end of Midway Place without any demonstration and from there the party was driven directly to the Administration building. The rotunda of the building was filled with people at the time. Some one shouted, "There goes ex-President Harrison." Instantly the crowd cheered and Mr. Harrison acknowledged the compliment by raising his hat and bowing. The party was escorted to President Palmer's reception room, where they remained for an hour resting and viewing the scene from the east window overlooking the peristyle and grand basin. President Palmer's electric launch was ordered to the landing in front of the Administration building and for an hour the "White City" was viewed as the launch went sailing over the lagoon. Carriages conveyed the party to the principal buildings during the day. At 2 o'clock President Palmer entertained the party at lunch in the Administration building. The ex-president and party will spend the remainder of the week visiting points of interest.

To the Associated Press representative the ex-president stated that the exposition is far in advance of anything he had anticipated and that he had viewed the many sights with great interest. When questioned regarding the Sunday closing controversy he stated that it seemed that the fair would have prospered better if no controversy had occurred. "The American people," he said, "should put its stamp of approval on the fair by liberally attending and seeing the wonders of the world grouped together for their inspection."

Princess Eulalia dined at 12:30 o'clock today in the "White Horse Inn" at the World's Fair. Breakfast was arranged for yesterday and early this morning Manager Seery of the inn had a full force at work decorating the building and putting everything in readiness for the infant's visit. The reproduction of the inn which Charles Dickens made famous in "The Pickwick Papers" was cleaned to a nicety from top to bottom. The main court was covered with a fringe of flowers and over the door to the Pickwick club rooms were the stars and stripes and the yellow and red of Spain. Covers were laid for sixteen persons, the number of the infant's party. The table decorations were modest but the heavy furnishings of the club room gave it an aristocratic air. The party arrived about 12 o'clock and were shown to the Pickwick club rooms, later being escorted to the breakfast room. At the conclusion of the breakfast Eulalia and suite went out for another sight-seeing tour through the grounds.

EULALIA LEAVES TOMORROW. SPRINGFIELD, Ill., June 12.—Colonel Ryan, the governor's special messenger, returned this evening from Chicago bringing the reply of the infant Eulalia to Governor Altgeld's invitation to visit Springfield and be the guest of himself and wife at the Executive Mansion. The infant declined for lack of time, as she leaves Chicago Wednesday for New York.

TEMPERANCE HOTEL FAILS.

Temperance Women Get Together and Air Their Grievances.

CHICAGO, June 12.—A receiver was appointed this morning for the Harvey World's Fair Hotel company and the Harvey Home Improvement company. Walter Thomas Mills is the principal creditor. The assets of the Home Improvement company are placed at \$141,500 and the liabilities at \$99,000 and the assets of the Hotel company at \$85,000 with liabilities of \$90,000. The failure is the result of an article which appeared in "The Union Signal," the official organ of the Women's Christian Temperance Union, charging Mills with irregularities in conducting the hotel scheme, which was built by subscriptions to profit-showing certificates subscribed for chiefly by temperance people. The Home Improvement company was closely allied to the hotel scheme, its purpose being to furnish accommodations, home supplies, moral and educational entertainments, lectures, literature, recreation and amusement and to conduct and operate hotels, restaurants, etc., etc., and for the elevation of home life of persons of small means. The capital stock of the company was to be \$100,000 and was fully paid. Mills owned \$20,000 and held \$75,000 more as trustee. Though the name "Harvey" is used in connection with both enterprises the hotel is situated at a considerable distance from Harvey and the people of that town disclaim any connection with it. There was a strong indignation meeting of the two hundred or more guests of the hotel company today in the tabernacle tent adjoining the hostelry. Miss C. M. Dow, president, and the numerous women prominent in Womans Christian Temperance union circles denounced Walter Thomas Mills, Revs. George C. Boswell of Connecticut and C. C. Vinal of New Hampshire told of the alleged deception that had been practised upon them in securing their subscriptions. Mrs. Mary A. Woodbridge and Mrs. Clara C. Hoff rose and explained how they came to invest in Mr. Mills' enterprise and asked the forgiveness of those whom they induced to take stock in the hotel. Mrs. Mary Lathrop, president of the Womans Christian Temperance union of Michigan, and Mrs. Francis Leiter, national superintendent of Ohio, told of alleged lack of accommodation at the hotel. Mrs. L. M. N. Stevens of Maine explained that the Womans Christian Temperance union had no connection with the hotel whatever and it was only because prominent members of that organization were interested financially in it that it came to be patronized by Womans Christian Temperance union members. The meeting broke up with the adoption of a resolution exonerating Womans Christian Temperance union members from all blame and stating that they were deceived and misled by Mills.

TIMBER ENTRIES CANCELLED.

Acting Commissioner Bowers Finds Them Fraudulent.

WASHINGTON, June 12.—Acting Commissioner Bowers of the land office rendered a decision in which he orders cancelled on the ground of fraud and collusion about twenty-three timber and stone entries of valuable timber lands in the Vancouver land district now held by J. B. Montgomery of Portland, Or., to whom the lands were transferred immediately after final proofs were made. CHINESE TRYING IT AGAIN. Chinese Inspector Coblenz telegraphed the treasury department today from Tacoma, Wash., that the steamer Haytien Republic had left Vancouver having on board 161 Chinese. Of this number thirty had been previously rejected at Portland, Or., by the United States authorities but in this instance they have new certificates. Not a dozen Chinese merchants are in the lot of 161.

THIEVING CONDUCTORS FIRED.

Chicago & Great Western Road Asks the Arrest of One.

CHICAGO, June 12.—For some time past the Chicago & Great Western officials have been quietly investigating reports about certain conductors carrying passengers from St. Paul to Chicago on their line for certain compensation and making no returns to the company for it. This terminated today in the swearing out of a warrant for the arrest of Frank Mortimer, a conductor running between Dubuque and Minneapolis, and an order to dismiss certain other conductors. It is stated that the officials have certain other information which they do not wish to divulge at the present time.

INSANE MOTHER'S CRIME.

She Drowned Herself and Her Two Little Children.

ZANESVILLE, O., June 12.—Mrs. Clara Weaver, aged twenty-four, drowned her two children, aged four years and six months respectively, and herself in the shallow waters of Buckeye creek, three miles south of Fultonham, yesterday. Mrs. Weaver left a letter to her husband in which she stated that she had often tried to nerve herself to the terrible deed she was about to commit but that her heart had always failed her. She had finally made up her mind that it would not be wrong and was going to the creek, praying God to save her and her two little darlings. The woman was undoubtedly suffering from temporary insanity.

OSMOND ELECTROCUTED.

He Murdered His Wife and His Cousin in 1891.

SING SING, N. Y., June 12.—John L. Osmond was electrocuted this morning at 11:49 in the presence of the usual witnesses. Osmond was convicted for the murder of his wife Mary and his cousin John C. Burchell. He and his wife had lived in Burchell's apartments, 609 Third avenue, New York city. He became jealous of his cousin and after repeated quarrels left the house and Mrs. Osmond began proceedings for a divorce. He went to the flat Oct. 3, 1891, and killed the woman and Burchell. His conviction for murder in the first degree was affirmed by the court of appeals.

CRUSHED BY FALLING TREE.

Clerkman and His Wife Killed While Out Driving.

BURLINGTON, Ia., June 12.—While Rev. and Mrs. William Salter of this city were driving under a tree being chopped down today it fell, crushing Mrs. Salter to death and breaking Mr. Salter's back. He will die.

ROASTING THE WRONG MAN.

Relatives of Clerks Killed in Ford's Theatre Disaster Incensed at Colonel Ainsworth

ALMOST A RIOT AT THE INQUEST YESTERDAY

Of Course Ainsworth Could Not Repair Rotten Building and Took Same Risks as Others.

STINGY CONGRESS TO BLAME.

WASHINGTON, June 12.—There was a startling and sensational scene in the inquest upon the Ford's theatre disaster. Mr. Charles E. Banes denounced Colonel Ainsworth as intimidating witnesses and immediately there was a most threatening demonstration against the colonel. The testimony was proceeding quietly when the dramatic scene occurred suddenly and without warning. Mr. Banes walked forward and when close to Colonel Ainsworth shook his fist in his face and in a voice trembling with passion cried out: "You murdered my brother and you have no right to sit here and intimidate witnesses."

There was a dead pause. Then Mr. Warner, one of the jurors, said that owing to the evident feeling displayed he thought it only right that anyone who might be implicated in this matter should be asked to withdraw. Intense excitement followed. Mr. Perry, counsel for Colonel Ainsworth, got on his feet but howls and shouts from all sides drowned his voice. In vain he appealed to be heard. Excited men were shaking their fists and cries of "Murderer" arose.

Mr. Warner sprang on a chair and appealed for quiet and peace. One man yelled "Kill him" another "Hang him" and a general movement was made towards Colonel Ainsworth, who remained calm but pale.

Mr. Warner, standing on the chair, appealed again and again for peace and while Lieutenant Amis of the police force took his station by Colonel Ainsworth's chair. One excited man jumped in front of the corner and yelled: "There will be no peace until Ainsworth is put under arrest and held without bail."

Finally Mr. Warner made himself heard and succeeded in quieting the storm which threatened to add another chapter to the horror and coroner Schaefer immediately adjourned the hearing until tomorrow.

As soon as the inquest adjourned Colonel Ainsworth went out and got into a carriage and drove away. He was followed by angry cries and imprecations.

The inquest was commenced today at 11 o'clock in Willard's Hall, adjoining Willard's Hotel, a room capable of accommodating about five hundred people.

Just at 11 o'clock Colonel Ainsworth, chief of the record and pension division, who has been placed on the defensive by accusations that he was responsible for the presence of clerks in the old building, entered the hall and engaged in a short consultation with his attorney, Mr. Ross Perry of this city.

About a hundred persons were present, most of them the clerks of the record and pension division with a sprinkling of war department officials, builders, contractors and policemen. Dr. Schaefer, deputy coroner of the district, conducted the inquest. Near the table around which the juryman sat was a smaller table at which was seated Colonel Ainsworth, his attorney Mr. Perry and a stenographer from the war department. The district attorney's office was also represented. The testimony had developed nothing outside of well-known facts until the sensational interruption described above occurred.

KANSAS STRIKE MAY SPREAD.

Missouri Coal Miners Will Quit Unless It Is Settled.

RICH HILL, Mo., June 12.—G. B. Penna, vice president, and P. M. McBride, secretary of the National Mine Workers' association, met with the miners of this district last night. The miners resolved to strike in the event of a failure to settle the Kansas strike at tonight's meeting of the strikers and mine owners. A new union was formed last night at Little Muddy and its members will act with the district union. Penna and McBride left for Pittsburg, Kas., to attend the meeting there tonight.

IS IT SCHAFFNER'S BODY?

Corps That Looks Like Missing Banker Found at Milwaukee.

MILWAUKEE, June 12.—The body found in the river yesterday, thought to have been that of Herman Schaffner, has been identified as that of a carpenter named Hicks who disappeared a few days ago. Tonight, however, a woman called at the morgue and after looking at the body said she was sure it was Schaffner's. She refused to give her name and there is still some doubt as to who the dead man really is.

MURDERED HIS SWEETHEART.

Rejected Lover Cuts the Girl's Throat With a Razor.

CLINTON, Ill., June 12.—Miss Sue Webb was fatally injured today by George Nixon, a young farmer ten miles east of here. He was a suitor and she repelled his advances. Nixon attacked her with a razor and nearly severed the jugular vein. Miss Webb fought desperately and rescuers came, but too late. Young Nixon is now in jail.

Nine Deaths from Cholera.

COPPER is showing a strong upward tendency abroad, while in the domestic market the report is "dull but firm." Still it is better with us in copper than in iron, the tendency in the iron market being downward if there is any movement whatever to be noted in it.

AN EXCHANGE pertinently observes that "it is doubtful if the question of closing or not closing the World's Fair on Sunday will be settled before the exposition itself closes." Meanwhile, in one way or another, the fair is being run wide open on Sundays, and if this continues the question will be practically settled the right way.

CARDINAL GIBBONS had an interview with President Cleveland the other day, and now it will be in order for the A. P. A. organs to indulge in wild tirades against the encroachments of Rome on the liberties of the American people. It takes so little to alarm these timid souls that an interview between a prelate of the Roman Catholic church and the president of the United States will be sure to give 'em fits.

GOVERNOR MCKINLEY is an able man and a clean man. But, after all, he is something of a demagogue. In his speech accepting a renomination yesterday, he said: "The Democratic party has not been able to bring the better times promised." Grand Rapids Democrat.

Well, where is the demagogism in that? The Democratic party has been in power three months and has had the full benefit of Mr. McKinley's bill for the promotion of prosperity during that time, and yet we are not having better times than at the close of the Harrison administration—hardly as good, in point of fact. Our Democratic friends should not be so sensitive about remarks such as that made by the brilliant Ohio tariff maker, who has a right to feel that they ought to make things hum with his tariff law to aid them.

THERE is not a little truth in what The Age of Steel remarks in this comment of the business situation, taken from the columns of that excellent publication:

Much of the financial trouble from which all the country is more or less suffering is due to the abnormal amount of business being done on credit. There is, in too many cases, more balloon than ballast, and too free a borrowing on purely speculative features. We are characterized by our sublime faith in ourselves, and the inspiring idea that we can make up in energy and vim what we lack in cash. The result is that perhaps 90 per cent. of business is carried on with borrowed money, and in every city we have a series of inverted pyramids of credit piled up on a very thin scantling of actual cash. It is obvious that when credit undergoes a sharp contraction something has to go under, with the misfortune to accentuate the fact that the good and bad are too often a mixed multitude of unfortunates. It may be that the present critical condition of affairs may, in some measure, cure us of the recklessness with which too many men without collateral borrow money and an equally big crowd are ready to loan cash on risky bottoms.

AND WHY NOT? Mr. John L. Lewis, a brainy business man of Superior, Wis., addresses an open letter to President Cleveland suggesting, as a method of relieving the present financial stringency to some extent, that the government place on the market "some of the tons of silver for years held in its vaults"—even though it had to be disposed of at a material reduction from the quoted price of that metal—and thus replenish the stock of treasury gold, instead of selling bonds for that purpose. Sales could be made to foreign nations, and our exports thus increased so as to turn the balance of trade in our favor and check the outflow of gold; and Mr. Lewis argues that even though we were obliged to sell at a figure that would impose an additional loss to the nation on account of its silver purchase policy, that would be wiser than to keep the silver stored up and subserving no good purpose whatever. He points out that five years interest on 3 per cent. bonds would offset a loss of 20 per cent. on the silver sales, hence that it is better business policy to meet the inevitable loss now by getting rid of the silver and saving interest than to hoard the metal and float an additional bonded indebtedness that would be a yearly tax on the people for interest and a final one for principal.

There is not a little sense in the proposition advanced by Mr. Lewis, for it is indisputable that our "sedentary" silver bullion is practically valueless to us while it remains hoarded in the government's vaults, save as security for the paper issued to pay for it, and it is not needed for that, the credit of the nation being sufficient to give value to its paper issues while these are kept within reasonable bounds.

As Mr. Lewis says, legislation would probably be needed to enable the secretary of the treasury to make this disposition of our accumulation of silver bullion, but with the country demanding that it should be sold it is not likely that congress would stand in the way—

that is, if it should be found on investigation that this plan of getting out of the pinch we are in is practicable and advisable.

Eugene Field's Tribute to Phocion Howard. We very deeply regret the death of our old friend, Phocion Howard. For a good many years we have thought much more of the old gentleman than we cared to tell. If from time to time we have joked and joked at his expense, it was because we knew his worth and thought much of him personally—for, be it understood, we never frivol with those whom we do not like. Phocion understood it all. Whenever he came to Chicago he climbed the stairs to see us, and we were always glad to see his ruddy face and to hear his big, cheery voice. Phocion did not do much fooling himself, and perhaps that is why he did not dislike our badinage.

Phocion Howard was one of the old school—one of the few pioneers left here for a long time in the west. He was utterly imprudent, utterly irresponsible, utterly impossible. Once he was more or less temperate, but he stopped that folly some time ago. Up to the last he was generous and self-sacrificing to the degree of fault. His sympathies were easily enlisted and his enthusiasm and loyalty never faltered. Often times he betrayed and imposed upon and wronged, he never lost confidence in his fellow men. His head may have failed him in emergencies, but Phocion's heart was always ready with generous, gracious, noble impulses.

So we think of the old man very tenderly as we speak of him today, and the hard part of it all is that we have to hold our pen in check, lest it commit us to an utterance of those deeper feelings in our heart which perhaps would seem mere sentimentality to you, who may not have known this kindly old soul. This world of ours is very beautiful, and life here is sweet, for in this beautiful world humanity, with its tender sympathies and tender offices, glorifies it all. Our old friend Phocion loved this world of ours, and he loved his fellow men, and it is this love, perchance, that qualifies humanity for what is to come in the hereafter.—Eugene Field in Chicago News-Record.

Information for Readers. An announcement printed at the top of the editorial page of a magazine published near Boston is as follows:

This magazine is published 12 times a year; that is the reason we call it a monthly. Every postmaster on the face of the earth, or any other man, is invited to solicit subscribers and secure one of our unrequited premiums or take a cold cash commission if preferred.

It costs 10 cents to have this periodical pay you 12 visits. When you invite these visits, be sure and send the "mighty dollar" in any shape preferable, and also write your name so it shall appear plainer to us than a white cat on a coal heap, also your postoffice, county and state. If you live in a state of matrimony, it is not necessary for you to mention it.

If you send us any manuscript, don't try to write on both sides of the paper at once—to do so will make you bald-headed. We know this from experience. Also sign your best name, or into the wastebasket it goes. We don't require this so we can copy the name on a check, but merely as evidence that you are the fellow you think you are, in case we are sued for libel. All articles intended for publication should be mailed to the editor. All business letters, donations, gifts and legacies should be addressed to the same person.

Blue Glass Spectacles For Cows. A remarkable story comes all the way from Moravia to the effect that all the cows in that part of the country are "humped in the rail fence corners, chewing their cud with great blue spectacles fastened before their eyes." It seems that the ground in that country has been covered with snow since the latter part of October. Nearly every day has been clear and cold, the reflection of the sunlight from the snow being very disastrous to the eyes of both man and beast. Thousands of cattle went entirely blind before the attention of the government director of agriculture was called to the fact. That gentleman, Dr. Verinonri, recommended blue spectacle glasses set in wooden or wire frames, and the result is that thousands of cows are now roaming about over the Moravian pastures looking as dignified as Boston "school-marms." It is further said that the entire blue glass supply of Vienna has been exhausted and that the government has applied to Paris and London glass dealers for additional supplies.—St. Louis Republic.

COPPER COUNTRY NEWS.

Death of May, Daughter of Captain and Mrs. Richard Uren, Yesterday.

HOUGHTON'S NEW METHODIST CHURCH DEDICATED.

Station Agent Thomas Sweeney Cased by the Trainmen - Miscellaneous News Brevities.

[All communications for copper country department intended for publication should be addressed to A. F. Isler, Houghton.]

HOUGHTON. May, daughter of Captain and Mrs. Richard Uren, died yesterday afternoon at 2:30 o'clock of consumption, aged twenty-three years. The funeral will probably be held Thursday afternoon from Trinity church with interment at Forest Hill cemetery.

The attendance at all the services held in the new Methodist church Sunday was quite large. The program as published in THE MINING JOURNAL was carried out in every particular. Sunday evening the new building was dedicated by Bishop Nide, according to the ritual of the church. Last evening the pastor and trustees gave a reception to the bishop and visiting ministers.

The Light Infantry held guard mount at the ball park Sunday morning and there was a good turn out.

The Houghton base ball club was beaten by the Groverton boys Sunday afternoon to the tune of 13 to 8. A return game will be played at Grover in two weeks when the boys here expect to repay the compliment.

It now looks as if the militia boys would go to Chicago some time in the fore part of August. The boys are working hard and will make a fine showing.

The Maccabees excursion to Lake Linden was quite largely attended. The Houghton band furnished music for the occasion and a general good time was had.

The board of supervisors was in session yesterday.

Landlord Cannon returned from Milwaukee Saturday, bringing with him a first-class cook.

Mrs. J. A. Hubbell left yesterday noon for Chicago.

HANCOCK. Joseph Hickey of Calumet was in this city Saturday and while here a local horseman wanted to get up a race between Hickey's new trotter and "Gray Dawn" for from \$500 to \$1,000 a side but Hickey declined. Mr. Hickey has been trying to get a race between "Look Out" and "Dynamite" but the owners of the latter say that it will cost them too much money to get their horse in training for a race.

Arrangements should be made to have the sprinkler run down the street between the two bridges. It is very unpleasant to walk or drive along there on a windy day on account of the dust.

The baseball club got back from Ontonagon Sunday night. While up there they knocked that chip off in good shape. The score stood 20 to 4. Everybody was well pleased with the trip.

Remember the Amold concert at St. Patrick's Hall this evening.

The Finnish picnic to Portage Entry Sunday was largely attended.

LAKE LINDEN. William Bertsche, who was injured so severely last Saturday by a runaway team jumping on his head, is doing well and will be able to be out in a week. The cause of the runaway was two girls riding on the rear end of the wagon who jumped off at the hill and shook their dresses.

The Maccabees had a red hot day of it for their reunion yesterday. The thermometer recorded 95 in the shade.

Christ Nelson, freeman on the passenger locomotive Kearsarge, attempted to jump on L. Hennes & Co.'s delivery wagon. He slipped and the wagon ran over his foot.

CALUMET. Mr. W. G. Phillips of this city and Miss Lucy Meads will be married tomorrow at the home of the bride's parents, Mr. and Mrs. Thomas D. Meads, at Marquette.

RED JACKET. At a meeting of Red Jacket Lodge, Brotherhood of Railroad Trainmen, held Sunday Secretary Thomas Sweeney, station agent at Opechee, was presented with a gold headed cane as a memorial of the valuable services he has rendered the lodge. Master John Watson made a neat little presentation speech which was responded to by Mr. Sweeney but the latter was so much surprised that he could not say much.

The Mineral Range and Hancock & Calumet railroad employes received their monthly pay Saturday.

Joseph Omsalski borrowed money from the brewers to pay for his saloon license. After getting the cash he changed his mind about running a saloon and left for parts unknown.

Messrs. F. W. Prescott and E. H. Going of Boston returned from Copper Falls Sunday morning and went to Hancock to take the steamer City of Duluth for Chicago.

Ed March of the Auditorium has gone to the World's Fair.

MARINE NOTES. The schooner Sam Flint is discharging coal at the Quincy dock.

The Badger State passed up yesterday afternoon.

The City of Traverse came in Sunday and left yesterday morning for Duluth.

The S. F. Hodge passed up yesterday morning.

The Gordon Campbell discharged freight here yesterday and left in the afternoon for Duluth.

The schooner S. F. Kimball arrived yesterday morning.

The tug Sweepstakes passed through yesterday morning.

MINING NEWS. There are over ten million pounds of

refined copper on the docks of the Calumet & Hecla company.

The Tamarack Junior mine ships about 150 tons a day of stamp rock to the mills.

Superintendent Daniell is expected home this evening.

The discovery that electrolytic copper is not as serviceable as ordinary metal will increase the demand for Lake Superior copper.

Some improvements are being made in the Osceola mine office.

Kearsarge ships over 500 tons of rock a day to the stamp mills at Torch Lake.

Cashier Sawyer's Strange Gift. C. M. Sawyer, cashier of the Dexter National bank, possesses a very peculiar faculty for telling the weight of things offhand. He cannot explain what the power is, but that he can exercise it correctly there can be no doubt. Numerous instances of its use are told. One is that a merchant was one day preparing to weigh a boxful of old copper scraps, all shapes and sizes thrown in at haphazard. Just then Mr. Sawyer stepped into his store. Seeing the box and the scales he remarked:

"You needn't weigh that, for I can tell you to an ounce just what it weighs. The thought came to me just as I came in the door that that box and contents weighed just 373 pounds."

The dealer was not prepared to adopt this mode of weighing without verifying it, so he put the box on the scales, and it tipped the beam at exactly the weight named—Lewiston Journal.

Pretty Things Made of Coal. One of the interesting small industries of the anthracite regions of Pennsylvania is the manufacture of "coal novelties."

The novelties are articles of ornament or use turned out of chunks of prime anthracite coal, such as candlesticks, inkstands, napkin rings, matchsafes, watch charms and several others. None but the very best coal is used. It is susceptible of a high polish, and the articles made from it are genuine novelties to people who live in other places than the coal regions. A one armed man in a neighboring town makes a good living in the manufacture of coal novelties, and a Lehigh Valley engineer turns out some nice ornaments of anthracite with the lathe. The articles bring high prices, but they are brittle and break easily.—Cor. New York Sun.

One Mother's Way of Buying Clothes. The wife of one of our best known novelists has her own peculiar notions of household economies. Once in so often she buys up clothing sufficient in her view to clothe a large family for a rather extended period of time. This she puts without reservation into her children's hands. They can be careful and painstaking, and thus save it, or they can be reckless and run through it and then go without. Generally in the end they go without.

But, whatever the result, nothing more is forthcoming until the end of the specified time. The young people are thus roughly dragged along by the no means royal road to learning that one cannot eat one's cake and keep it.—Her Point of View in New York Times.

The Black Jack Inn. A few days ago the ancient "hostelry" familiar to readers of Dickens as the "Black Jack" in Portsmouth street, Clare Market, closed its doors forever, and the entire block of buildings surrounding it is about to be demolished. The "Black Jack" is the house to which Sam Weller escorted his master when that gentleman was in search of Lowton, Mr. Perker's clerk, on which occasion Mr. Pickwick heard the story of the "Queer Client," related by the mysterious lawyer's clerk.

The "Black Jack" has for many years been a veritable mecca to the medical students who have successfully braved the terrors of the examination room, for it was customary for them to adjourn to its hospitable bar and duly inscribe the names of the fortunate medics in a register kept in the house for that special purpose. Among the signatures to be seen are those of James Paget and Andrew Clarke, together with many others who have since attained celebrity.

The death of the "Black Jack" adds one more to the ghostly taverns which have abounded in the immediate vicinity. The "Spotted Dog," the "White Lion," the "Black Sheppard" notoriety, the "Bull" and the "Spiller's Head," the "Lavage" club of those days, all stood within a few yards.—London News.

PORT LIST. Arrived—Ed. Smith No. 2, S. E. Marvin, C. J. Fillmore, R. L. Fryer, Cadillac. Cleared—Cadillac, Cleveland; Ed. Smith No. 2, S. E. Marvin, C. J. Fillmore, R. L. Fryer, Tomawanda. Passed Up—Bader State. Passed Down—City of Duluth.

REPORTORIAL PENCILINGS. The Rides turned out last evening for a street drill. Martin Vierling has gone to Milwaukee on business. Mrs. Goodwin and Miss Pickands are expected home from the World's Fair today.

The contractors are now framing the roof for Mr. Hamill's new residence on North Front street. The hot wave struck Marquette yesterday and almost convinced some residents that summer was at hand.

The last car for the mill now leaves Superior street at 9:30 p. m., giving the boys another half-hour down town.

Peter Pickle, manager of the Marquette stone quarry, and James Sinclair are in Green Bay on stone business.

The recent death of Chicago of Rev. E. R. Bishop, formerly rector of St. Paul's church in this city, has just been learned here.

Mr. F. J. Truscott is now fully acclimated and quite at home in his new position as manager of the Dead River mill company's store.

A Macabee ice cream social in Macabee Hall this evening by the ladies of the L. O. T. M., beginning at 8 o'clock. All Macabees are cordially invited to be present.

Two more vessels arrived yesterday to load lumber at the Dead River mill dock. Their cargoes will make much taken out from that dock since the season opened.

The new street car schedule is liked better and better as the public gets accustomed to it. The cars are run as close to time as the trains on a steam railroad under the new arrangement.

The fires in North Marquette addition caused the street railway some trouble yesterday, a force of men having to be put at work fighting the blaze to keep it from creeping up to the street railway poles.

The tug Benham brought in a raft of 1,000,000 feet of logs from Garlic river yesterday morning at 7 o'clock to be saved here for Wylie Bros. of Saginaw and immediately went back to bring down another million.

The marriage of Mr. W. G. Phillips of Calumet and Miss Lucy Meads, daughter of Mr. and Mrs. Thomas D. Meads of this city, will be celebrated today, Rev. J. B. Bonar, pastor of the First Presbyterian church, officiating.

St. Ignace is hard at work preparing for a Fourth of July celebration which shall cover the whole straits country with red fire and glory. Cheboygan is in on the deal and towns as far up as Newberry also have a finger in the pie.

Kassel Oshinsky's annual June sale is causing his store to be crowded with bargain seekers who can be seen leaving loaded down with packages every day. When Mr. Oshinsky announces a sale through these columns you can depend on getting a bargain.

The Dead River Mill company is putting in an electric watchman's patrol circuit through its yards and mill. Ten or twelve stations will be put in and the watchman will have to visit each twice an hour to keep his ledger account good with the clock and electric self-registering dial in the company's office.

In attempting to properly enumerate the claims of Menominee to the insane asylum The Democrat of that city declares that Menominee is "next to Marquette," the most beautiful city on the upper peninsula. Pencilings raises his hat in recognition of the candor and truthfulness displayed by The Democrat.

Reports from the new club house of the Huron Mountain Hunting and Fishing club at the mouth of Pine River are to the effect that it will far eclipse anything on the upper peninsula in beauty of location and arrangement. Contractor Budd was here yesterday hiring more carpenters to hurry up the finishing work.

If anyone casts a vote against the city hall loan it will not be a man who has attended many meetings of the common council. The council chamber was a regular sweatbox last night and several aldermen asked to be excused before the meeting was ended although Mayor Kaufman was doing his utmost to hustle the business through and finished in a gait that was enough to make a man's head swim.

The piteedictor of the Menominee Democrat is talking through his millinery again. In the last issue of his paper he states that "Marquette's polygonal factory is closed and the people are hunting for something to take its place." This is great news here for, as the polygonal whistle blows three times a day and men with dinner pails go to it regularly, people here were under the impression that the "pollywog" was still wogging.

DR. MORSE'S OFFICES. Dr. C. H. Morse, who has had charge for the past two years of the office and practice of Dr. Speer & Co. in this peninsula and who has met with such signal success, has severed his connection with Dr. Speer & Co. and has gone into the general practice of medicine in the city. His old patients and new ones will find him at the offices in THE MINING JOURNAL building formerly occupied by Dr. Speer & Co. [5-27-93]

One way rate on the beautiful Duluth steamer Ossifrage from Marquette and Houghton, leaving these cities June 12 and providing meals, berth and transportation and an evening at Mackinac Island, only \$14. E. J. Dube agent at Houghton. M. H. Foard local agent. [5-27-93]

FOR LITTLE FOLKS.

Jimmy's May Basket. Jimmy found three dandelions blooming on the grass plot in the back yard. He didn't pick them; bless you, no. But he wandered up and down the avenue and through all the side streets till he found at the edge of the pavement one and then two dandelions more.

Then Jimmy went home and took all his bright colored kindergarten paper and wove a little May basket, as he had seen the bigger children do. When the basket was finished, Jimmy picked the dandelions in the back yard and put them and the other dandelions into it and filled up the chin's with long, bright grass blades. Then he hung the basket at the door of the pretty curly haired girl next door and ran away. Jimmy doesn't know the little girl next door. He doesn't even know her name. But she is pretty, and her hair shines in the sun. So Jimmy paid homage to her in the only way he knew with his May basket of dandelions.

Do you suppose the little girl liked the round, golden dandelions? Some little girls wouldn't appreciate them.—New York Recorder.

A Bright Little Girl. Of all the babies in Christendom Migration Palmer, the little daughter of Mme. Nevada, is the most celebrated. Her little sayings and her beauty have been written up in almost all civilized countries. In Italy and Spain her blond, curly hair, which reaches to her waist, her blue eyes and her pink and white complexion created the greater furor because all the babies there are brown and black. She soon learns the languages of all the countries in which her mother travels, and although the little thing is only 6 years old she speaks English, French, Italian and Spanish. She is a little prodigy in music. Whenever she is allowed to do what she pleases she goes straight to the piano and composes operas.

She has never been taught and picks up things as she goes along. She imagines she can read, because she knows by heart every word in order of all the English and French stories that her governess reads to her. To see if the child is paying attention to the reading, the governess will substitute one word for another, and the child will at once correct her. She has been taught only one thing—a Spanish dance that she executes with castanets, with all the complications of head movements, curves and steps, and although the dance lasts some 20 minutes, she is never at variance with the music, the steps or the striking of the castanets.

Don't imagine that this little prodigy is a puny, delicate child whose mind overbalances her body. She is strong and sturdy, one of those healthy English babies, with full face, rosy cheeks and strong muscular limbs. She has never been ill an hour in her life.—Paris Cor. Brooklyn Eagle.

Children in the Far North. In the far north, with its intense cold it seems that there can be but little pleasure for the children, doomed to pass their days among the almost eternal snow beneath the frozen ocean. Yet even here life to these little people has its enjoyments, and every season brings to them its round of games and sports.

In summer a portion of the inhabitants leave the winter villages and scatter along the coast for the purpose of hunting and fishing. Others go to distant points along the coast and trade oil, guns, tobacco, powder, lead, etc., with natives of the interior, receiving in payment valuable furs and the skins of reindeer, which they use exclusively for clothing. At these meetings a round of feasting and games is indulged in before any trading is done. Whenever a camp is made the little folk will be found with their bows and arrows shooting grass birds, which are abundant, or the numerous varieties of shore birds to be found in that region.—Forest and Stream.

An Obliging Donkey. The little puppy Midget. Lived near the donkey's stall. And often for a social play To Barney's side would crawl. And when the frisky Barney Out in the field was tied The little Midget, full of joy, Would caper at his side. As if it were a pendulum, And Midget watched it go, One day as Barney stood there His tail wagged to and fro.

Until within her puppy mind There grew a sudden thought, And with a sudden upward leap The swinging tail she caught. The donkey's heart was kindly, The donkey's tail was tough, "You want to swing? Well, swing away 'Till you've had enough." So Barney's tail wagged faster, And still did Midget cling. Now tell me if you ever heard Of such a funny thing? —Babyland.

THOSE MINE MODELS.

Ishpeming People Flocked to See Them at the Cleveland Shops Yesterday.

THEY WILL NOW BE SHIPPED TO THE WORLD'S FAIR.

Firemen Organizing for Their Big Picnic—T. of H. Excursion Tickets—U. S. Liquor Tax Must be Paid.

THE MINE MODELS.

All yesterday and until a late hour in the evening people visited the Cleveland Iron Mining company's carpenter shops to see the models of the underground workings of the Lake and Cliff shafts mines. The shops were crowded with men, woman and children of all nationalities during the entire day. Those who saw the models expressed themselves as surprised at finding them constructed so perfectly to correspond with the workings of the mines.

The model of the Lake Shaft attracted the greatest attention as it shows the different rock and ore formations encountered in the mine and also outlines the timbering used throughout the workings. The different kinds of rock and ore shown on the models were designated cards, as also was the water which lay above the mine previous to its removal last fall. The water is represented by light blue paint, skillfully applied by Chris Olson, the painter. The timbering in the shafts and drifts is well illustrated while the different rock and ore formations are perfectly represented by the material as it was taken from the mine. With these models at the fair it is gratifying to know that Ishpeming will be well represented, and much praise is due the enterprising company that has expended time and money in getting them up. Their preparation has taken more time than was at first anticipated owing to the inability of the company to procure all the material used in their construction.

Agent F. P. Mills and Engineer S. A. Parnell of the company have displayed unusual skill in preparing the models and are deserving of no small praise for the success they have achieved in getting them up.

Preparing for the Picnic.

The various committees appointed to arrange for the firemen's picnic in the Lake Superior Grove on the Fourth held a special meeting Sunday afternoon at the department headquarters, when each committee was instructed in the work assigned it. The committee on decoration was directed to ornament the fire engines, hook and ladder trucks, hose carts, etc., for the parade with flags, bunting, etc., also to put the picnic grounds in proper order.

A special committee was appointed to invite the lady relatives and friends of the firemen to assemble at the headquarters of the department some day soon to appoint committees to take charge of the refreshments, as that part of the program is to be entirely in the hands of the ladies it was thought advisable to have them organize, appoint committees, etc., in order to do the work systematically.

A communication was read from the firm given the order for fireworks, stating that the line of goods they proposed sending would be something entirely new.

The soliciting committee called on some of the business men Saturday and raised a neat sum to pay for the fireworks. The boys were offered as high as \$5 and \$10 by some of the citizens but they set the limit at \$1 or less from each person. No one refused. The committee of arrangements has appointed Mike Shea of Hesse company No. 2 marshal of the day. A better selection could not have been made, as he has served in the capacity of marshal on several similar occasions in past years.

The mayor and city council and police force will be extended an invitation to take part in the parade and also to attend the picnic during the day. Mayor Osborn will be invited to deliver the oration.

C. B. Hibbard, general passenger agent of the South Shore road, has informed the committee that a special one-fare rate will be given on that line on the Fourth. A special train will leave here at 11 o'clock that evening for the accommodation of Marquette firemen and others attending the picnic or visiting Ishpeming during the day.

Tickets on Sale.

Tickets from Ishpeming and Negaunee to Calumet next Saturday were placed on sale yesterday at the stores of J. Sellwood & Co., William Andrews, Kahn & Skud and the Co-operative society. Tickets for the round trip are \$3, including meals, lodging and a concert in the evening, good up to and including the following Tuesday. The train will leave here at 6 o'clock sharp. A very large attendance from here is looked for. The Star Cornet band will accompany the local legions.

Collecting the Tax.

The deputy revenue collector here is kept quite busy these days issuing special liquor dealers' licenses. He has been requested by the commissioner to collect all special taxes before July 1, as the law requires that all dealers must have their licenses by that time to carry on business legally.

Rev. H. H. Fairall, D. D., editor of the Iowa Methodist, says editorially: "We have tested the merits of Ely's Cream Balm, and believe that by a thorough course of treatment it will cure almost every case of catarrh. Ministers, as a class are afflicted with head and throat troubles, and catarrh seems more prevalent than ever. We cannot recommend Ely's Cream Balm too highly. I used Ely's Cream Balm for dry catarrh. It proved a cure.—B. F. M. Weeks, Denver.

ISHPERING IN BRIEF.

Will Crowley was here from Milwaukee yesterday.

Captain Vivian of Houghton spent Sunday in Ishpeming.

Mrs. M. F. Barber left yesterday for a few days' visit to the World's Fair.

Mr. E. H. Fowle and family left on Sunday for a visit to the World's Fair.

Mrs. W. T. Potter arrived here yesterday from Lansing, coming by way of Chicago.

Mr. and Mrs. Ole Walseth left on yesterday for an extended visit to Chicago and other points.

Leo Whitton, the Canadian giant, can be seen at the City Opera House this afternoon and evening.

The Setters defeated the Marquette Lullay Stars at Union Park Sunday afternoon. Score, 14 to 2.

George B. Sedgwick took his departure for Kenosha, Wis., Sunday on a visit to friends at that place.

Mrs. N. Voelker and niece, Miss Lottie Wendle, left on Sunday for Milwaukee and Chicago on a visit.

Mr. and Mrs. T. W. Durham and John A. Olson rode to Marquette Sunday on their bicycles, returning home by train.

If the finder of a bunch of keys lost on the streets will return the same to Tibor's store they will oblige the owner.

Street car No. 4 was accidentally driven through the First street railroad gates near the South Shore depot yesterday morning.

Andrew Anderson is making good headway, considering the ground, on his sewer work in district No. 1 on East Ridge street.

Manager Kaufman of the Valley Milling company of Marquette was in Ishpeming yesterday in company with R. Hoch of Negaunee.

Messrs. Newett, Randall, Kruse, Jenks and Walters returned Sunday from the fishing trip on the west line of the South Shore road.

Rev. J. A. Keul went to Hancock yesterday to attend the funeral of the late Joseph Wertin, which will be held at that place this morning.

Passenger Agent Miller of this division of the C. & N. W. road transacted business at Marquette yesterday morning, leaving for Escanaba and Gladstone in the afternoon.

J. F. Johnston of Appleton, Wis., formerly of Ishpeming, is running a hotel at Harvey, near the World's Fair grounds. Parties from this section who attend the fair will find in Mr. Johnston a first-class caterer and a perfect gentleman should they call on him.

The explosion which was heard in all corners of the town Sunday evening at 9 o'clock was caused by a piece of dynamite set off by some youngsters at the Lake Angeline mine. The charge was placed on top of an iron skip near the boiler shop. The top of the skip was blown off by the discharge.

FLIRTATION.

You ask me why my heart's as gay As it was only yesterday. An hour before she proved untrue. And left me in this horrid stew.

With all her modiste's bills to pay. You know, ma chere, it is my way To never fret when women play Me false, in spite of which 'em you— You ask me why!

"That's not the reason, sir," you say. Granted! If I might dare—"I may?" Ahem! Her exit gives the cue For me to try my luck with you! "You guessed as much?"—and yet, perdition! You ask me why!

—Kate Field's Washington.

Cost of Patenting.

"I have just been figuring up what it will cost me to have an invention patented throughout the world," said Alfred Emerson, a young Kansas City inventor, "and I have found out it takes a fortune. There are on this mundane sphere 64 governments that run departments devoted to fleecing the poor inventor and pretend to give him idea protection. Sixteen of these sharks are to be found in Europe, 8 in Africa, 4 in Asia, 27 are in Oceania. Of course the charges differ in every case; some are comparatively small, others are not so small. In the aggregate they average about \$27.35 each, or a grand total of \$14,550. That's a pretty sum for a man to spend to keep an idea from being stolen, isn't it?"—St. Louis Globe-Democrat.

THE FATHER OF MANY ILLS.

Constipation leads to a multitude of physical troubles. It is generally the result of carelessness or indifference to the simplest rule of health. Eugene McKay, of Bradford, Ont., writes: "I had for several years been a sufferer from constipation. Had taken a great many different remedies, some of which did me good for a time but only for a time, then my troubles came back worse than ever. I was induced by a friend, whom Brandreth's Pills had benefited, to try them. Took two each night for a week, then one every night for about six weeks. Since that time I have not experienced the slightest difficulty whatever, and my bowels move regularly every day. I believe firmly that for singleness of the bowels and thoroughness Brandreth's Pills are far superior to any other."

Had Good Luck. A party of Negaunee business men, consisting of Mayor Anthony, P. B. Kirkwood, Mine Inspector Rough, T. M. Wells and others, spent Saturday at the Escanaba river near the Swanzy mine fishing and had fairly good luck.

LOCAL LAONICS. J. Orange, Gratzie's barber, left town Sunday. The employees of the Negaunee mine received their pay yesterday.

Three iron hitching posts, connected by a cast iron pipe, were erected in front of the Kirkwood block yesterday.

Eli Dawe returned home from Edgerton, Wis., where he was called a few days ago by the illness of his sister, yesterday. Mrs. Dawe will remain a few days longer.

One of the three street cars on the Negaunee & Ishpeming street car line will go into the barn every night, except Saturday and Sunday evenings, until further notice.

J. N. Fohrman of Ishpeming will shortly open a music store in the Winter building on Iron street. Mr. Fohrman handles pianos, organs and musical goods of all kinds.

Frank Sharon purchased a fine team of bays from Hammill, the Appleton horse dealer, Saturday. He also has a new phaeton, purchased from G. S. Morris of Waupun, Wis. The outfit is about the handsomest in town.

Judge Cary's attention was occupied yesterday afternoon by Anthony Sweek and wife and Anthony Stark and son of Ishpeming, who applied to the law to settle a disturbance which took place between them a few days ago.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that their is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh.

Louisiana's Rice Crop. A Louisiana man says that the rice crop of that state this year will be fully one-half of the entire crop of the United States.

Refuses the Legion of Honor. The French government, or rather the grand chancellerie of the Legion of Honor, is in a curious fix with regard to one of the New Year's nominations.

An English View of Mr. Blaine. Mr. Blaine's career was in the highest sense creditable to the people of the United States. That, we believe, will be the final verdict of history on the great politician.

Banishing Washday. Slowly but surely laundry work is following the outward bound trend of soapmaking, butter making, spinning, weaving and tailoring.

A Man With Views on Silver. There is one newspaper man in this town who is personally interested in the silver views of Secretary of the Treasury Foster.

The Babe Alive in the Coffin. An extraordinary incident is reported from Gunnislake, in Cornwall. Mrs. Lean, wife of the landlord of the Tavistock hotel, gave birth to her tenth child, and she subsequently died.

Relic Thieves in Greece. There is a steady war of wits between the Greek police and the dealers who try to smuggle out of the country the marble reliefs and terra cottas found in tombs and ruins by men who take excellent care not to allow their excavations to be known.

Governor Flower's Double. It was known to passengers on the east bound southwestern limited that Governor Flower was a passenger. Two American express officials were in the smoking car when George F. Hanford, traveling passenger agent of the Central Hudson, entered.

Against Cigarette Smoking. A bill passed in the Alabama house on Monday prohibits the sale or giving away or otherwise disposing of cigarettes, cigarette tobacco or cigarette paper in that state, subject to a fine and imprisonment.

HELD UP AT MIDNIGHT.

Lucky Outcome of Nic Thoney's Adventure on Superior Street Last Night.

ADJOURNED REGULAR MEETING OF THE COMMON COUNCIL.

Program for the Amold Concert—Why Not Move the Light?—Condition of North Front Street.

TOOK TO THEIR HEELS.

When Nic Thoney passed the Bittern block at the corner of Third and Superior streets last night at about 12 o'clock he noticed two young men standing by the corner but not recognizing either paid no attention to them and passed on. Just as he reached the double gate at the wagon drive entering John Burke's place, however, he had cause to regret the fact that he had not looked them over more carefully, for he was suddenly seized from behind by the two, one trying to cover his eyes and mouth with his hands while the other went through his pockets, but though taken by surprise Mr. Thoney was quick enough to get a good loud yell out before his assailants could gag him and this disconcerted them so that they partly loosened their hold whereupon the yells came so thick and fast that they took to their heels through the Burke yard and were entirely lost to sight before the officers, who started up Superior street on a keen run at the very first outcry, could reach the scene. It took only a minute for quite a crowd to collect on the street there but though a thorough search of the premises was made no trace of the two men could be found. Mr. Thoney said that when he gave his first cry his only thought was that he might get help from the sheriff's residence just across the street but as soon as he noticed the effect which he was producing he redoubled his vocal efforts. If footpads are around it will be well for Marquette men to go prepared for them if called upon to traverse dark or unfrequented streets late at night.

Last Night's Council Meeting.

At the adjourned regular council meeting last night, Mayor Kaufman presiding, the routine business was dispatched at a lively rate as mayor, aldermen and city officials found the close quarters far from inviting because of the hot night. The petition of John Nesbitt to remove his liquor license from No. 130 Superior street to Lot 1, Block 1 of the North Marquette addition was read and granted while the petition of August Schwalm for a rebate because of over paid sewer assessments was also granted.

Chairman Putnam of the finance committee presented a formal resolution directing the controller to levy taxes as outlined at the last meeting, \$24,000 for school purposes in addition to the mill tax provided by law, the one mill tax for the Peter White Public Library and \$10,000 for the general fund. The resolution was adopted unanimously. Chairman Pearl of the committee on ordinances and rules presented for adoption an ordinance defining the duties, fees and powers of poundmasters, in twenty-six sections. The council fixed the pound limits within which animals must not run loose as the north line of Fair avenue produced to the lake and the city limits on the west and the south line of Hampton street similarly produced and then adopted the ordinance.

The committee on salaries reported in favor of giving the poundmaster the regular pay of a police officer during the season the council continues him in office and the vote taken fixed his salary at that figure, all fees to be turned into the city treasury.

Alderman Desjardins endeavored to have a pound established in that portion of the city west of Fifth street but a motion to refer to "the committee on pounds," alias the committee on police, litigation and grievances, prevailed.

The official bond of the city engineer and the liquor bond of Anton Zamanan were accepted and approved and then, the city attorney stating that no decree had yet been announced by Judge Stone in the sewer assessment cases against the city, the council deferred the consideration of that matter to the next meeting and adjourned.

The Amold Concert.

The sale of seats for the Amold concert at the First M. E. church on Friday evening begins today at H. H. Stafford, Son & Co.'s store, the price being fifty cents with no extra charge for reserved seats. A number of Marquette musicians will assist Herr Amold in the program, which will be as follows:

- Piano solo—"Minnetto-Halling".....Gueg
- Herr J. Scheffsted.
- Vocal solo.....
- W. A. Brown.
- Violin solo—"Yankee Doodle, with Variations".....Vieuxtemps
- August Amold.
- Ladies quartette—"Oh! Tell It Her".....Rees
- Misses Meads, Johnson, Davis and Mrs. Crawford.
- Violin solo—Grand Concerto.....Vieuxtemps
- August Amold.
- Banjourine solo—"Crystal Wave Waltz".....Babb
- Stanton Howell.
- Violin solo—"Polonaise No. 1, Wieniawski".....August Amold.
- Vocal solo—"Aria—"Bel raggio lusignier".....Rossini
- Miss Eva L. Davis.
- Violin solo—to be selected.....August Amold.

Why Not Move It.

The attention of THE MINING JOURNAL was called last night to the stygian darkness surrounding the dock at the foot of Superior street where all passenger steamers now land. When the China came in late last evening passengers had to run the risk of walking into the lake in their efforts to reach the street proper, so dark was it on the dock and in the alley between Spear's

office and the railroad building. Yet on Lake street only about one hundred feet north of Superior street the city has an electric light whose usefulness is now confined wholly to that little used thoroughfare. Why not move it to the corner of Lake and Superior where it would light the approach to the dock besides giving Lake street almost as much light as it gets now? That's the question and in view of the fact that in past years persons have walked off the dock in question in the dark it would seem to be a very pertinent one.

Paying the Penalty.

The city at large and the residents on Front street, north of Ridge, in particular, are now paying the penalty imposed upon them by the pig-headedness of the parties who made a fuss over Powell & Mitchell's railroad from the Front street rock cuts to the breakwater. The plan of the contractors, approved by the council, was to put in a little temporary railroad track, starting down Crescent street and winding around on the flat to the breakwater. The kickers who kicked for the sake of kicking caused them to abandon this plan and now the city will have a heavy bill to pay for repairs to North Front street made necessary by the hauling of heavy loads of rock in wagons over that street on the way to the breakwater. The street is already cut to pieces and is in horrible shape, while the work is only fairly commenced, but as long as the handful of kickers are satisfied the people at large must grin and bear it, it is to be supposed.

Opening Spring Street.

The earth removed in the widening of Washington street west from Fifth street is being used in the big fill necessary to open Spring street across the Harlow property between Fourth and Fifth streets. The material taken out in widening Third street from Ridge street to Fair avenue will be used in the same way, while a good many loads of street scrapings have already gone into the big hole. About 5,000 yards of earth will be needed in the fill.

THIRD ANNUAL PILGRIMAGE.

TO THE SHRINE OF THE GOOD SAINT ANNE.

The 1893 pilgrimage to this famous miracle working shrine is being organized by the South Shore under the auspices of the Clergy of the Upper Peninsula of Michigan, leaving Wednesday, June 21, 1893, and promises to be the largest ever sent out from the upper peninsula. Tickets from Houghton, Marquette and intermediate stations will be \$25.00 for the round trip. They will be good going only on the special train leaving June 21st, but will be valid for return passage on all regular trains until July 31, 1893, and will allow passengers to stop off at any point en route in Canada. The special train will be run leaving Houghton 8:00 a. m. stopping at all stations to take on pilgrims; leaving Marquette 12:40 p. m. arriving at Sault Ste. Marie 6:10 p. m., where connections will be made with a special train over the Canadian Pacific R'y., arriving at Montreal the following afternoon. The special train will be run to Montreal only, as it is expected the majority of the pilgrims will want to stop over in that city for the grand celebration of the St. Jean de Baptiste societies, which takes place June 24.

The journey from Montreal to Ste. Anne de Beaupre and return home to be made on regular trains at any time within the limit of the tickets. A feature this year will be the Palace Sleeping cars and Tourist Sleepers that will be attached to the Canadian Pacific special train. The rate per double berth in the former from Sault Ste. Marie to Montreal will be \$4.00 and berths in the Tourist Sleepers will be at a nominal price. Anticipating that a number of excursionists will want to visit the World's Fair on the return, arrangements have been made by which excursion tickets entitling holders to return via Chicago will be sold at the low fare of \$35.00 for the round trip. This will be one of the choicest summer excursions offered to the people of this section, as it includes not only a visit to the principal cities of the Dominion of Canada, but also gives the tourist an opportunity of visiting Detroit and the World's Fair on the return trip home.

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and all the snap and brilliancy of the piano. See and hear them at Conklin's.
