## PENINSULAR POSTMASTERS.

Several Michigan Democrats Presented With Offices Yesterday by President Cleveland.

AMONG THEM THREE UPPER PENINSULA MEN.

Messrs. Healy of Ironwood, McViechie of Ishpeming and Driscoll of Negaunee Appointed Postmasters.

THREE NEW ONES ARE NAMED.

WASHINGTON, June 16.—The president today made the following appointments: Thomas D. Robinson to be surveyor general of Colorado; to be registers of land offices, Joseph W. Jamison at Booneville, Mo.; George E. Kuntz at Ashland, Wis.; Andrew J. Taylor at Duluth, Minn.; to be receivers of public moneys, Charles Dennis at Ashland, Wis.; Jacob H. Robbins at LaGrande, Or.; Frank P. Arbuckle at Denver, Col.; George W. Sanderlin of North Carolina to be deputy third auditor of the treasury. Presidential postmasters were also appointed as follows: John B. Briscoe at Charleston, Ill.; William Finley at Hoopston, Ill.; Henry C. Feltman at Salem, Ill.; Clark D. Smith at Corunna, Mich.; Frank A. Healy at Ironwood, Mich.; Donald McViechie at Ishpeming, Mich.; Charles T. Russell at Mount Pleasant, Mich.; C. B. Driscoll at Negaunee, Mich.; John A. Cook at David City, Neb.; P. W. Mellie at Mandan, N. D.

CREDITORS ARE MOURNING.

Frank Aldrich Absconds From Washington, Leaving \$20,000 Debts.

WASHINGTON, June 16.—Frank Aldrich, until recently sealer of weights and measures for the District of Columbia, has gone from Washington, leaving debts behind amounting to nearly \$20,000. A considerable portion of his indebtedness is covered by property which he left behind but a pretty heavy loss will be sustained by some of those who have endorsed his paper. His present whereabouts are not known, but on the 15th inst. he was in Chicago and from there wrote to General Albert Ordway and to Judge C. Cole. To the former he tendered his resignation as quarter-master-general of the District National Guard. Of the latter, who is a somewhat heavy loser by his speculations, he begged forgiveness. Aldrich's downfall is due to the fact that he thought he saw millions in a power company which he established and borrowed money recklessly to keep afloat.

WORK WAS BADLY DONE

More Evidence on the Old Ford's Theatre Disaster.

WASHINGTON, June 16.—In the inquest on the victims of the Ford's theatre disaster today C. Entwistle, building inspector of the district, testified that the mortar used in the alterations was bad and the brick were badly done. If he had had authority to prevent it he would not have permitted the work to be done in the way it was, for there was too much risk. Architect Clark of the Capitol testified that the weight on the floor was considerably less than the safety limit. The remainder of the evidence at the morning session was comparatively unimportant.

Mr. Sasse, engineer of the building, was recalled at the afternoon session and asked to produce the plans which he drew for the electric lighting plant. Mr. Sasse said Colonel Ainsworth had taken the plans away the day after the accident but the witnesses agreed to see the colonel and produce them before the jury, which he subsequently did with explanations.

August Davis, a builder and an unsuccessful bidder for the electric lighting plant, said he thought the plans for the work were such that no man could form from them an intelligent idea as to what was wanted. He had told Captain Thorpe, chief of the supply division of the war department, that the work was dangerous. Nothing was contained in the specifications that provided for the supporting of the upper floors during the excavating work. In his opinion no reasonably intelligent man would have attempted to do the work without shoring. He said he had told Contractor Simms before Captain Thorpe that if the contract were let to some d— fool he might pull down the building.

William G. Covert, superintendent of the building, testified that Colonel Ainsworth had cautioned him particularly not to give any instructions to the contractor, but to go down in the cellar as much as possible and if he saw anything going wrong in his opinion that was calculated to endanger the building to notify him (Colonel Ainsworth) immediately. The witness did not know whether shoring was necessary or not. As Colonel Ainsworth observed the work himself he did not make any report to him on it.

After James H. McGill, an architect, had testified that any man in his right senses would not have done such work as that beneath the theatre without shoring; that a competent draughtsman should have drawn the plans and that an expert should have superintended the work according to custom, the jury adjourned until tomorrow, when it is expected the inquiry will be concluded.

CONTRACTOR ALMOST INSANE.

Contractor Dant, who was doing the work which resulted in the collapse of the building, is in a serious condition and it is feared that his mind is affected by the disaster. Ever since the accident he has been a very sick man. Once or twice he left his residence with plans of work he had under way but was compelled to return to his home. Whenever spoken to about the calamity he would break down and cry like a child. His condition the past three or four days has been so serious that the doctor has prohibited his leaving the

house and denied the presence of all save the members of his family.

Among the injured in the catastrophe were several of Mr. Dant's personal friends. He saw them carried off the building in their mangled condition and this, together with the worry and feeling of responsibility, prostrated him completely.

Among the victims of the disaster was the son of John A. Daly, an ex-soldier from Pennsylvania employed as a watchman in the interior department. The elder Daly was discharged some days ago but when Secretary Smith learned that young Daly had been killed in the theatre wreck and that the family might suffer by reason of the father's dismissal he immediately ordered his reinstatement.

CROWDS ARE INCREASING.

Over One Hundred Thousand at World's Fair Yesterday.

CHICAGO, June 17.—German Day appears to have started a boom at the White City. The reaction which usually sets in the day following a big event did not occur today. While the attendance was not as large as that of yesterday it was above the average. Visitors began coming early and at noon it was estimated that 100,000 people had passed through the turnstiles and tonight the officials of the bureau of admissions estimate that the attendance for the day will be 125,000. Many of the excursionists who took advantage of the reduced railroad rates on account of German Day to attend the exposition are still in the city and were out and throughout the day there was a steady click at the turnstiles. There were no special attractions at the park except the Illinois Press association meeting at the Illinois state building and the persons visiting the fair were bent on sight seeing. In this respect the crowd differed from that of yesterday, which was on a holiday jaunt. Superintendent Tucker of the board of admissions this afternoon gave out the official figures for the attendance yesterday as 200,706. The corresponding day at the Centennial the attendance was 60,000.

WELCOME TO HARRISON.

Ex-President Benjamin Harrison was tendered a reception at the Ohio state building this afternoon by the state commissioners. Long before the hour set a large crowd gathered at the door of the building. The ex-president and party were met at the Administration building by Commissioners D. J. Ryan and H. P. Platt and driven to the Ohio building. The party consisted of Ex-President Harrison, President and Mrs. Palmer, Mrs. Dimmick, Mrs. Wilmerding and daughter, General Trowbridge, wife and daughter, and Miss May Pingree of Detroit. General Anderson and other commissioners met the party at the door and General Anderson said: "General Harrison, the state of your nativity desires very much to show you their appreciation they have of you and your position both in office and war. They care very much to give you a welcome and they desire now to extend to you and your party the hospitality of our building."

Mr. Harrison did not make a speech, simply replying: "I thank you very much, and am glad to be with your people again."

A large number of Ohioans had gathered and were presented to Mr. Harrison. The doors were then thrown open and the ex-president experienced a hand shaking ordeal. He was then shown through the building. The visit lasted about an hour after which the party continued sight-seeing.

FOUGHT IN THE STREET.

Halstead Street Mugs Get Their Guns. Three Hurt.

CHICAGO, June 16.—Two men were probably fatally and another seriously wounded in a street brawl at Adams and Halstead streets. The shooting grew out of a long and bitter enmity between Jake Spinner and T. Kane on the one hand and George Wilson, Jim Hoollhan and Christensen on the other. The last three named are potato and egg peddlers who have their places of business on School street near Halstead. Some time ago their shop was broken into and six cases of eggs stolen. Spinner and Kane were accused of the theft. Several rows have since occurred between the two parties.

The men met on Halstead street last night and immediately commenced hostilities. Those who witnessed the shooting said that the shots were all fired within fifteen seconds and sounded like the reports of a couple of rapid firing guns. Bullets crashed through windows and doors. A Halstead street car passing at the time of the shooting was loaded with passengers. A general stampede followed. The driver and conductor got behind the horses while the passengers took refuge in stores along the street. Officers were detailed to hunt down and arrest Spinner. He is the one held most responsible for the shooting. Kane and Christensen will probably die and Wilson is badly hurt.

DECISION EXPECTED TODAY.

Shall the World's Fair Be Closed to Workingmen?

CHICAGO, June 16.—In the United States court of appeals today James L. High concluded his argument against opening the World's Fair on Sunday. Edwin Walker followed, closing the case for the World's Fair. A large crowd was present before the doors opened and remained unwearied in court throughout the lengthy talks and despite the oppressive weather. It is expected, although it is by no means certain, that the judges will render a decision at 11 o'clock tomorrow morning. When the arguments were concluded there was a conference of the judges upon the bench and then court adjourned until tomorrow morning at 11 o'clock. The usual hour for convening the court is 10 o'clock. There is no other business to come before the court except the World's Fair case and the attorneys on both sides are agreed that tomorrow when the court convenes the knotty problem will be settled.

## IRONWOOD'S FEVER PLAGUE.

Typhoid Caused Seven Funerals Thursday and Eight Deaths Thursday Night.

SUPERINTENDENT OF WATER WORKS HAS ABSCONDED.

He Neglected to Use Filters for Nine Months and People Want to Hang Him

MINES NEARLY ALL CLOSED.

BESSEMER, Mich., June 16.—[Special.]—The Ironwood typhoid fever epidemic is increasing.

There were seven funerals yesterday and eight deaths last night.

Donald Kennedy, a noted and popular contractor, died today.

The great Armory of the Curry Rifles is being utilized as a hospital and is nearly full.

The ambulances are continually conveying new patients to the hospitals.

Great indignation is felt toward Superintendent Southern of the water works.

He neglected the use of the filters for nine months.

There is strong talk of lynching him if found. He has disappeared.

Nearly every Gogebic range mine has closed.

WEBSTER STILL TALKING.

Continues Ingenious Effort to Explain Away Solid Facts.

PARIS, June 16.—Sir Richard Webster, of counsel for Great Britain, today continued his argument before the Bering sea court of arbitration. He contended that the decreases in the seal herd was due to the scarcity of bull seals, the lessened number of males being due to the excessive killing at the Pribyloff islands. The decrease he said in the herds began before the pelagic industry arose. Sir Richard quoted from the report made by Mr. Henry W. Elliott and other reports made to the United States government to show that since 1882 the number of bull seals in the herd was not sufficient to properly reproduce the species. Sir Richard advanced as a further reason for the decrease in the number of seals that the scarcity was caused by the excessive killing and the repeated drivings on the islands. If the killing done by pelagic hunters was responsible for the decrease it would be rule for them to market large skins, whereas it was difficult for pelagic hunters to obtain large skins. The report made by Mr. Elliott, Sir Richard declared, was an honest one and the arbitrators ought to read it and judge for themselves.

Senator John T. Morgan, one of the American arbitrators, here remarked that it was on the recommendation of Mr. Elliott, made in 1876, that the yearly killing of 100,000 seals was decided upon and that the following of this recommendation has led to the present paucity of seals.

MOSEHER WILL PLEAD GUILTY.

Swindling President of Lincoln Bank Sined Down Tonight.

OMAHA, June 16.—It is practically certain that tomorrow morning Charles W. Mosher, the wrecking president of the Capitol National bank of Lincoln, will stand up before a jury in the federal district court and plead guilty to several of the counts in the indictment against him in consideration of certain others being dismissed and will then receive the sentence of the court. It has been conceded from the start that there were a number of charges that could not be substantiated by proof but that there were others from which there was no escape. It was stated that the charges of fraudulently diverting the money of the bank, while undoubtedly based on actual fact, were somewhat short of positive proof, but that the falsification of the books and records of the bank, the issuance of fraudulent certificates—this deception practiced to mislead the other officers of the bank as well as the bank examiner and the comptroller—could be readily proven. It is to these latter charges that the plea of guilty is to be made.

SMELTERS WILL SHUT DOWN.

Coal Miners' Strike Stops Fires for Lack of Fuel.

PITTSBURGH, Kan., June 16.—W. & J. Lanyon announced today that they would be compelled to shut down one block of their smelters next Wednesday if the strike should not be settled and, when once shut down it would be at least ninety days before they could be repaired and fired up again. The Cherokee Zinc company will also shut down four blocks and the works at Wier City will be shut down and probably removed to St. Louis. By the shutting down of the smelters over 500 men will be thrown out of employment, about two-thirds of them with families. A number of miners and their families are in destitute circumstances at Litchfield, Frontenac and Chisopee and committees were out yesterday soliciting for them with good success.

SCRANTON, Kan., June 16.—The miners here will strike Monday.

SAILED FOR PHILADELPHIA.

Steamer Falcon Coming to Take the Peary Party.

ST. JOHNS, N. F., June 16.—The steamer Falcon has sailed for Philadelphia to take the Peary expedition to Greenland. She is fully equipped and newly fitted especially for this voyage and carries coal and provisions for the whole party for eighteen months. Captain Henry Bartlett commands and Captain Edward Tracy is the chief officer. The crew numbers seventeen hands altogether.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription Rates: Per year, by carrier \$9.00 Per month, by carrier \$7.50 Per year, by mail \$8.00

MARQUETTE, MICH., JUNE 17.

Entered as mailmatter of the second class in the postoffice at Marquette, Mich.

The unsatisfied organ on Superior street is unconsciously worried about the doings of that "unknown" referee for this district, but the object of its concern doesn't seem to mind much.

The Range Tribune of Iron Mountain says that the situation in the mining district of Crystal Falls is very discouraging at present.

A SPECIAL from Ironwood from our correspondent there gives a vivid picture of the woe and desolation being wrought in that city by the typhoid fever epidemic which is now decimating the place.

MAYOR PINGREE has downed the Gas company of Detroit and there is a prospect that the people of that city will get cheap lighting both by gas and electricity as one of the results of placing a live man in the mayoralty.

TOO BAD, isn't it, that THE MINING JOURNAL is not edited to the satisfaction of every scribbler in the state.

"IT is rumored," remarks the Menominee Herald, "that the MARQUETTE MINING JOURNAL will be transformed into a dyed-in-the-wool Democratic paper and that a new Republican daily will be started by a stock company organized for that purpose."

IN a statement given to the public concerning the financial situation and the causes that have operated to create it, Secretary Carlisle says:

SOLSVILLE MIRACLE.

A True Account of the Sufferings and Restoration of Philander Hyde.

HE SUFFERS INTENSE AGONY. Helpless and Bed-Ridden, and Loner for Death—His Recovery From This Pitiable Condition—A Remarkable Narrative.

During the past few months there have appeared in the columns of The Standard the particulars of a number of cures so remarkable as to justify the term miraculous.

SOLSVILLE, Madison Co., N. Y., June 25, 1892.—Five weeks ago father, Philander Hyde, was very low and not expected to live but a short while.

My name is Philander Hyde. I am nearly seventy years old and was born in Madison county, where all my life was spent until recently, when, becoming helpless, I was taken into my home and from him and my daughter I have had the kindest care.

There has just been completed by Messrs. Messum, the well known boat builders of Richmond, to the order of the Nizam of Hyderabad, a pleasure boat peculiar in shape and for its size exceedingly costly in construction.

There are no windows, but all four sides of the barge will be hung with purple silk of the richest quality, while the deck will be cushioned in the same costly way to a height of some feet.

THE readers of this paper will be pleased to learn that their is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh.

PREPARED BY THE FRENCH SOCIETIES' CELEBRATION OF THE UPPER PENINSULA AT REPUBLIC, SATURDAY, JUNE 24TH, 1893.

Preparations have been made for a grand celebration in Republic and the South Shore has named special excursion fares for the occasion.

JOHNSTON'S SURE SHOT! OR GIANT FLY KILLER.

IT WILLY KILL! And it came to pass that the people laid themselves down at night, after the toils and fatigues of the day to get a sweet sleep and repose. They got it not. Why?

THE RED-BUG. And they rose and went to the pantry to get refreshments. But lo! What was there?

THE BLACK ANT. They then betook themselves to mine host of the restaurant, and there beheld the good things set before them liberally besprinkled with...

THE RED ANT. They cried out, "Give us water, ere we perish." They could not drink it. Why?

THE WATER BUG. They rushed to the wine cellar, but could not enter; the way was disputed—by whom? Why, there in all its horrors...

THE COCKROACH. They looked about them for their robes and blankets to wrap themselves, for despair did rest upon their brows. They were destroyed—by what?

THE MOTH. FOR SALE BY DRUGGISTS.

Then did they cry out in despair, "We have neither rest, food nor raiment." But hark! what sound is that? It is the glad tidings. Relief has come at last! What? And they answered and said—

JOHNSTON'S SURE SHOT IS DEATH TO ALL INSECTS.

It kills: Bed-Bugs, Cockroaches, Flies, Potato Bugs, Mosquitoes, Ants, Carpet Beetles, Cabbage Worms, Sheep Ticks, Crickets, Fleas on Dogs, Lice on Horses and Cattle, House Flies, Fowl, Birds, etc., etc.

It can be used freely without danger, being non-poisonous to persons and animals. It is cheap, clean and easy to use, and a sure death to all insects. Special directions on each package.

COPPER COUNTRY NEWS.

Graduating Exercises of the Class of 1893, Lake Linden High School.

ITS DIPLOMAS ADMIT TO THE STATE UNIVERSITY.

Hon. Edward Ryan Will Dwell in Chicago for the Remainder of the Summer—Other Notes.

[All communications for copper country department intended for publication should be addressed to A. F. Isler, Houghton.]

LAKE LINDEN. The commencement exercises of the Lake Linden high school were held in the opera house Thursday evening and over seven hundred persons were present. The stage was profusely decorated with flowers and blooming plants and over the stage hung the motto of the class "After the battle the reward." The following was program with the exception of the essay by Miss Anna H. Smith, who was absent on account of the death of her brother.

- Invocation... J. R. Knowdell. Music, "Greeting"... J. R. Knowdell. Salutatory... A. A. Koepel. Essay, "Lord Tenney"... Jennie McDonald. Essay, "Angling"... Marguerite Leary. Oration, "Economic Annexation"... Charles Kirchen. Music, "Chorus"... Anna H. Smith. Essay, "The Value of Time"... Maggie M. Steffes. Recitation, "Edinburgh after Flooded"... Mamie F. Donovan. Essay, "The Grammar of Life"... Marguerite T. Daly. Music, Trio... Ada Bennallack, Nellie V. Harrington. Oration, "Three Representative Men"... John Cameron. Prophecy... Lillie Owens. Valedictory... Kathryn Gaffney. Music... T. J. ... Class Address... J. R. Knowdell. Benediction... J. R. Knowdell.

The graduates all did so well that particular mention were individuals. The class is fourteen strong and is indeed a credit to the teachers of the Lake Linden schools.

Professor C. G. White in presenting the diplomas stated that they would admit those holding them to the University of Michigan without examination.

The Lake Linden public school first began to graduate scholars from the high school in 1885. The school has turned out 103 graduates, six of which are attending the state university, nine the state normal school, three the college at Oberlin, O., ten the Michigan Mining school, three at business college, one at Albion, one at the naval academy at Annapolis, forty-six are teachers and eight are married. During the past year death has taken three from the ranks. There are 950 scholars enrolled and on the high school list eighty-four. The school has the reputation of being the best in the county. The graduating class of 1894 will number from eighteen to twenty-two and will probably be the largest class ever graduated. The Lake Linden band was present at the Opera House and played some excellent selections before the exercises began.

The ten-year-old son of Mr. and Mrs. John R. McDonald died Wednesday night of typhoid. The funeral was held Friday afternoon at the residence, Rev. J. R. Knowdell officiating.

The Houghton high school graduates attended the graduating exercises at the Opera House Thursday evening.

SOUTH LAKE LINDEN. The funeral of Michael Smith, who died from the effects of sunstroke Tuesday night, was held yesterday morning at the Church of the Holy Rosary. Richard Smith arrived from Chicago Thursday evening in response to a telegram informing him of his brother's death.

OPECHEE. The public schools at this place closed for the summer vacation yesterday.

Professor Andrew Paton will spend two weeks at the World's Fair and then goes to his farm west of Port Huron until school opens in September.

The grammar and intermediate department scholars of the school here went on their third annual excursion to the Lake Superior shore at the water works yesterday.

A special meeting of the common council was held yesterday afternoon for the purpose of considering the matter of putting in water pipe in the alley between Fifth and Sixth streets from the Calumet standpipe while the ditchers were open for sewers.

Paul Schumaker returned from Marquette Thursday evening. Mrs. Schumaker will visit relatives there for a short time.

HANCOCK. The pupils of Miss Isora Jenkins gave an enjoyable musicale at the residence of Mr. and Mrs. C. A. Stringer Wednesday evening. Following are the names of those who took part: Irene Stringer, Dollie and Cammie McLean, Laura Shields, Bert Gillespie, Mattie Craig, Mary Beauchamp, Howard Wright, Edna Halvorson, Allie Morrison, Helen Dunstan, Mabel Webb, Florence Carkeek, Bertha Wright, Lizzie Stralow and Maria Roberts. The parents of several of those named above were present and enjoyed the music very much.

On and after Monday next the American Express office will be in Lord's building on Hancock street. Agent Weissmiller will have the finest office this city has ever known and the location is just right. Patrons of the office will be able to get their goods twenty minutes earlier and will be able to get packages in for shipment fifteen minutes later.

Dennis Lynch of this city and Johanna McCarthy of Calumet were married Thursday morning at the church of

the Sacred Heart, Calumet. In the afternoon they drove to this city by way of Lake Linden and in the evening gave a reception to their many friends.

Edward Ryan and family leave today for Chicago where Mr. Ryan has rented a house for several months. They will first go to Notre Dame, Ind., where Miss Catherine graduates from St. Mary's college.

Daniel Sullivan and bride returned from their wedding tour to Chicago Wednesday evening and left on the evening train for Groveton.

The lumber for the new school house is being hauled to the ground and the carpenters are at work.

Many local sports took in the sparring contest at Dollar Bay last night.

The Ripley and Dollar Bay schools were closed Thursday to give the teachers and scholars an opportunity to attend the funeral of Miss May Uren.

David Kingston of Eagle Harbor was in this city on business yesterday.

Court Rising Sun, A. O. F., will attend divine services at the Powabic Methodist church Sunday, July 2. Rev. J. L. Hewson, who is a member of the order, will deliver an appropriate sermon.

Weber & Washburn have secured the contract to paint the Masonic Hall.

J. H. Hook left for Flint, Mich., via Chicago yesterday noon.

The barge Oneida is discharging coal at the Quincy dock.

HOUGHTON. At the meeting of the business men held at the Douglass House Thursday afternoon for the purpose of making arrangements to celebrate the coming Fourth of July in this city the following committees were appointed: Arrangements—Chas. A. Mayworm, Ed Haas, Ben Barry, Henry Krotzfeld, Dr. A. M. Wheeler, F. W. Kroll, W. F. Miller; finance—Frank Mayworm, Rudolph Haas, treasurer; F. A. Douglass; secretary, Will Calverly. The finance committee immediately got to work to secure funds and inside of an hour had obtained enough to warrant getting a man here to have a balloon ascension and parachute drop. This and the calumpan parade will be only a few of the features of the day. The complete program will be given later.

The Houghton and Hancock tents of the Knights of the Maccabees will attend divine services at Grace Methodist church Sunday. Rev. C. M. Thompson is a member of the order and an appropriate sermon will be delivered by him. All are invited to attend.

The scholars of the Houghton public schools will give a concert this evening at the Armory Opera House. The program is an excellent one and the attendance should be large. The concert begins at 8:30 sharp and all not there at that time will miss the first part of the entertainment.

A Class Boy. The class of '92 which was graduated from Yale last June has a class boy. He was born Saturday, April 29, and is the son of Mr. and Mrs. Ferdinand A. Houston. The parents of the class boy are both pursuing postgraduate courses in the philosophical department of the university. It was only last fall that women were admitted to Yale. This is the first child ever born to the university whose parents are both members of it. The mother was prior to her marriage Miss Helen Dawson and was graduated from Smith college in the class of '89. She spent several years studying in Germany and returning to this country married Mr. Houston shortly after he graduated last June.

Fear Lost in Hunger. During the cold and snowy weather of last winter foxes about the North Beach life saving station on the Maryland coast were driven to desperation with hunger. In their starving condition they seemed to lose the fear of men and actually approached the life saving station in broad daylight and attempted to steal chickens and even small pigs.—Washington Post.

A letter recently deposited in the post-office at Charlotte, Va., was held for postage, addressed to "Hon. Grover Cleveland, Washington, D. C., care of Hoke Smith, Secretary of the Interior." It was posted March 8 minus a stamp.

Seven hundred tons of butter arrived in London in one shipment from Australia two weeks ago. Its total value was about \$70,000.

Tiburzi, an uncaptured Italian bandit, died of old age recently. He had been sentenced to death 37 times.

ELECTRIC BITTERS. This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise—A pure medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, remove Pimples, Boils, Salt Rheum and other affection caused by impure blood.—Will drive Malaria from the system and prevent as well as cure all Malarial fevers.—For cure of Headache, Constipation and indigestion try Electric Bitters.—Entire satisfaction guaranteed, or money refunded.—Price 50c. and \$1.00 per bottle at H. H. Stafford, Son & Co.'s Drug Store.

IT SHOULD BE IN EVERY HOUSE. J. B. Wilson, 371 Clay St., Sharpsburg, Pa., says he will not be without Dr. King's New Discovery for Consumption, Coughs and Colds, that it cured his wife who was threatened with pneumonia after an attack of "La Grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cooksport, Pa., claims Dr. King's New Discovery had done him more good than anything he ever used for Lung Trouble. Nothing like it. Try it. Free Trial Bottles at H. H. Stafford, Son & Co.'s Drug Store. Large bottles, 50c. and \$1.00.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 26th of May, while in Des Moines en route to Chicago, he was suddenly taken with an attack of diarrhea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to traveling often produce a diarrhea. Every one should procure a bottle of this remedy before leaving home. For sale by H. H. Stafford, Son & Co.

IDEAL NEWSPAPERS.

THEY EXIST FOR ALL CLASSES OF SOCIETY AND NOT FOR ONE.

Wherein Lies the Fault of Most Intelligent Criticism of the Modern Newspapers and Their Methods of Gathering and Presenting the News.

The Massachusetts Society for the Promotion of Good Citizenship has lately been addressed by several distinguished gentlemen in a series of lectures upon the subject of journalism, and the result should be a clear understanding of what is necessary to constitute the ideal newspaper. Unfortunately, however, these philosophers are at hopeless contraries. No two of them agree upon any essential point. They have conflicting views not only as to the casual features of the case, but also as to the fundamental facts. What one considers a drawback another declares to be an advantage. Their methods of analysis and judgment differ as widely as if they were designed simply to bewilder the average mind. They are in harmony only upon the proposition that there is great room for improvement in the daily press.

When it comes to telling how the improvement should be made, they have their individual notions and are unable to make the same recommendation in a single respect. They would each have a newspaper suited to his special preferences and prejudices without regard to the tastes and wants of the rest of the world. It does not seem to occur to them that journalism appeals to a miscellaneous audience, and that it must adapt itself to the demands of the many instead of the wishes of the few, or it will lose its occupation. They would have it cater to a select constituency, forgetting that if it had to depend upon a select constituency for support it would soon cease to exist.

It is true of most criticism of the newspapers that it is thus narrow and unreasonable. Any intelligent man can easily map out a model journal from his point of view, but his point of view does not include the whole field. At the most it only relates to the opinions and tendencies of a class, whereas a community is composed of many classes, all having different desires and interests. The editor who knows his business seeks to please the majority and not the minority. He knows that his paper must have more patrons than any one class can furnish if it is to thrive and keep pace with the progress of the age.

It is not to be supposed that he regards his position as that of a man with a solemn mission for the dispensation of wisdom and virtue, whatever the pecuniary results may be. He cannot afford to take himself so seriously. His functions, as he understands them, are of a more practical nature, and experience teaches him that success lies in the direction of recognizing and gratifying a variety of tastes.

In that way only can he secure the number of readers necessary to pay the large and constantly increasing expense of gathering the news from all parts of the globe and presenting all current information about the affairs of mankind. It is quite likely that he often prints matter of a superficial and transient order, but it has its value to those who want it, and that is its justification so long as reasonable discrimination is used in selecting and apportioning it. Those who do not care for it are at liberty to skip it and read only what they like, which may be equally distasteful to others.

There would be a great deal less of this talk about the ideal newspaper if the critics would stop to think that we are not yet living in an ideal world. The press, like every other public institution, is subject to existing conditions and influences and cannot dictate the terms of its own service and prosperity. It has come to its present state of usefulness and importance through a process of gradual evolution. There has been a systematic improvement in its character and its proceedings. It grows more creditable every year as its opportunities extend and its popularity increases.

To say that it is not perfect is only to say that it shares the prevailing shortcomings of human nature and is governed by the law of environment. It began by being a luxury, and it has become a necessity. This could not have happened if it had not vindicated its right to such consideration. Things do not become indispensable unless they have definite and practical value. It is not possible to conceive how we could get along without newspapers. They occupy a larger place in the system of modern civilization than any other one agency of general convenience and advantage.

The people appreciate them, notwithstanding the efforts of certain carpers to disparage and discredit them. It is not true that their faults exceed their virtues. They perform their appointed work with diligence, discretion and a due sense of responsibility. The worst that can be said of them is that they are not better than the world in which they are published. But they are unquestionably twice as good as the world which makes them what they are, and when it reaches the ideal standard they will get there also.—St. Louis Globe-Democrat.

Texas' State Capital. The state capital of Texas is the largest state building in the United States and the seventh in size among the buildings of the world. It is a vast Greek cross of red Texas granite, with a central rotunda covered by a dome 311 feet high. It was begun in 1881 and finished in 1888, having cost about \$3,500,000. It was paid for with 3,000,000 acres of public land deeded to the capitalists who executed the work.—Exchange.

Fame Within Reach. "Going to be famous, that man? Well, I guess he will!" "What has he done?" "Invented a new literary gymnastic which takes even less brain to write than 'paste'."—Truth.

Magazines Bound.

HARPERS, ATLANTIC, CENTURY ST. NICHOLAS, SCRIBNERS, And all others at \$1 TO \$1.25 PER VOLUME

SOCIAL DEMOCRATIC GAINS.

They Are the Most Conspicuous Feature of the Late German Elections.

SECOND BALLOTS REQUIRED IN HALF THE DISTRICTS

Government Seems to Have Gained Very Little or Nothing by Appealing to the Country.

ARMY BILL SEEMS DOOMED.

BERLIN, June 16.—The most conspicuous feature of today's electoral returns have been the continued reports of Social Democratic gains and Richter-Clerical losses. Early this morning most of the news still came from the city constituencies and the list of opposition deputies grew rapidly. This afternoon, however, dispatches from the agricultural districts revealed the other side of the page. From all that can now be ascertained it is reasonably safe to conclude that the government certainly has lost nothing by the dissolution and probably has won a little. At 10 o'clock this evening the returns may be summarized thus:

In the 180 districts from which reports had been received at 10 o'clock eighty-five deputies had been elected. In the remaining ninety-five new ballots will be necessary. Of the eighty-five delegates elected thirty-six will vote with the government and thirty-nine against it. The parties siding with the government have lost three seats to the opposition. The parties working against the government have evened matters by losing the same number of seats to the friends of the army bill.

The Conservatives have elected seventeen, the Social Democrats twenty-three, the Clericals twenty, the Radical Unionists one, the Free Conservatives four, the Poles eight, the Democrats five, the Anti-Semites two, the Independents two (both favorable to the government), the Lieber Clericals one, the National Liberals two. Not one immediate supporter of Eugene Richter, the anti-government Clerical, has been elected.

The Conservatives have won two seats formerly held by Free Conservatives. The Social Democrats have gained three seats from the Richters and one from the Free Conservatives. The Lieber Clericals have gained one from the Government Clericals and had lost one to them. The Radical Unionists have elected one deputy who voted against the army bill, but will vote for it in the next reichstag. The Free Conservatives have gained two seats and lost three. The Democrats have gained one seat from the National Liberals. The National Liberals have lost three seats and gained two.

The most interesting feature in the new ballots will be probably the gains of the Social Democrats and the Radical Unionists.

Several small election riots are reported today from the provinces. In Strassburg last evening shortly after the poll was announced about two thousand Socialists began parading the streets and shouting for their candidate, August Bebel. They refused to disperse when the police attacked them and many cheered for France. The military eventually broke up the procession and arrested eight men. Nobody was injured.

In Rottlingen, Wurttemberg, the police arrested many Social Democrats who attacked the police station. In Crunberg, Silesia, the Socialists rioted through the streets. The police dispersed them with drawn swords and arrested the leaders. In this city the police arrested Landauer, an Anarchist editor, on the charge of inciting the riot. The revised lists of the Berlin polls show that the Radical vote fell from 75,000 to 51,085 while the Social Democratic vote increased from 120,317 to 150,977. The vote of the Conservatives and Anti-Semites increased from 34,098 to 48,130.

Complete returns from the second division of Munich show that George von Vollemar, the victorious leader of the South German Democrats polled 15,289 votes. In Strassburg August Bebel, Social Democrat, polled 8,206 votes against 6,081 for Peter, his National Liberal opponent. In Glandau Ignaz Amer, Social Democrat, polled 14,979 votes. "Cannon King" Krupp in Essen, who will go through a new ballot with St. Louis, his Clerical opponent, received 19,487 votes to Stoeitzel's 19,447.

MANY SECOND BALLOTS REQUIRED. BERLIN, June 17.—At 2 o'clock this morning returns are in from 326 out of 397 electoral districts. In ninety-eight districts candidates have been elected and in 128 second ballots will be necessary. The National Liberals, Conservatives and Clericals are holding their own. The Richter Clericals remain very far behind. Of the ninety-eight deputies already elected forty-two are counted for the bill and fifty-six against it. Since the reports received up to 10 o'clock were sent out the dispatches have shown that the government has gained two more seats and has lost one more old one.

GEORGIA MELONS DAMAGED.

Wind and Rain Storm Will Shorten the Lucrative Crop.

ATLANTA, June 16.—A disastrous rain and wind storm swept over South Georgia yesterday afternoon. Valdosta and Thomasville report many houses wrecked. A Baptist church and fire bell towers at Valdosta were blown down. The melon and pear crops are badly damaged across the lower section of the state.

MR. HASTINGS' VERSION.

Says Provisional Government has Confidence of Hawaiians.

WASHINGTON, June 16.—Mr. Hastings secretary of the Hawaii legation, has arrived in Washington direct from San Francisco, having left Honolulu June 1. He had a long conference with Minister Thurston today. Mr. Hastings will soon go to Chicago.

"Another steamer from Japan," said Mr. Hastings this morning, "was expected to touch at Honolulu on the 10th and will soon be in San Francisco bearing the most recent news. So far as the annexation sentiment is concerned I can only say that is growing daily. There never has been any intention on the part of Mr. Blount, either as commissioner or minister, to restore the royalists to power. We believe that when Mr. Blount submits his report it will be found to coincide with the views of those who have the welfare of the islands at heart. The provisional government has the confidence of the people."

SUPREME COURT DECISIONS.

Butler Against the Iron Cliffs Company Is Reversed.

STATE HOUSE, LANSING, Mich., June 16.—[Special.]—The supreme court handed down the following opinions this morning:

Affirmed—Huston vs Waldron; Gray vs Finn; McLeod vs Free; Reed vs Bond; Rosenstiel vs Miller; Hughes vs Lanner; Carlisle vs Carlisle; People vs Miller; Kanneberg vs City of Alpena; Stebbins vs Timm; Prentiss vs Ross Estate; Olson vs Webber.

Reversed—Butler vs Iron Cliffs Company; Michigan Dairy company vs Runkles; Whitaker vs Fuller; McGregor vs Ross Estate; Kennedy vs Dawson; Towergant vs Shaffer Iron company; Jones vs Shaffer Iron company; Harco vs Closterhouse. Tuesday's call reaches to No. 5.

RATES ARE TOO HIGH.

Depew Says the Railroads Will Cut Them Down.

CHICAGO, June 16.—Chauncey M. Depew was in Chicago today and expressed himself plainly on the subject of World's Fair rates. "The present rates," he said, "are unquestionably too high and they will come down. Just when I cannot say, of course, but the roads will do the fair thing."

Brassey Gets a Job.

LONDON, June 16.—Baron Brassey has been appointed lord in waiting to the queen in succession to Lord Wolverton, who recently resigned in consequence of his disagreement with the government as to the home rule bill.

Genesee Oil Works Assign.

BUFFALO, June 16.—The Genesee Oil works [limited] have made a general assignment with liabilities of about \$300,000. The cause was inability to meet several large notes when they became due or to have them extended.

Forecast of the Weather.

WASHINGTON, June 16, p. m.—The weather bureau reports the following as its forecast for the next 24 hours: For upper Michigan: Generally fair, warmer; variable winds.

National League Scores.

Boston, 5; St. Louis, 4. Brooklyn, 7; Cleveland, 5. New York, 9; Chicago, 10. Philadelphia, 13; Pittsburg, 7. Washington-Louisville game postponed by rain. Baltimore, 19; Cincinnati, 7.

Wheat Quotations.

CHICAGO, June 16.—The leading wheat futures ranged as follows:

Table with columns: Opening, High, Low, Closing. Rows for June, July, Sept. for various wheat grades.

Cash quotations were as follows:

Flour dull, nominally unchanged; Winter patents, \$3.58@3.59; winter straights, \$3.00@3.01; spring patents, \$3.64@3.65; spring straights, \$2.50@3.00; bakers' \$1.75@2.25. No. 2 spring wheat, 66@66 1/2; No. 3 spring wheat, f. o. b., 61@61 1/2; No. 2 red, 66@66 1/2; No. 2 corn, 41 1/2; No. 3 corn, 39 1/2; No. 2 oats, 29 1/2; No. 2 white, f. o. b., 34 1/2; No. 3 white, f. o. b., 32@33 1/2.

Cattle, Hogs and Sheep

CHICAGO, June 16.—Prices at the stock yards ranged as follows:

CATTLE—Receipts, 11,000; shipments, 3,000; market quiet; prime steers, \$3.50@3.51; others, \$3.25@3.85; Texans, \$2.75@3.50; native cows, \$3.00@3.35.

Hogs—Receipts, 20,000; shipments, 8,000;

market, 15@20c lower; natives, \$4.25@5.25; Texans, \$4.00@4.80; westerns, \$4.90@5.10; lambs, \$4.50@6.50.

METAL PRICES.

NEW YORK, June 16.—Pig iron steady, dull; American, \$12.75@13.50. Copper, weak; lake, 10.90.

COPPER STOCKS

BOSTON, June 16.—Closing prices of copper mining stocks were as follows:

Table with columns: Stock Name, Price. Rows for Allouez, Atlantic, Boston & Montana, Butte & Boston, Calumet & Hecla, Centennial, Franklin, Huron, Kearsage, Oseola, Quincy, Santa Fe, Tamarack.

Stafford, Son & Co., Marquette and J. M. Perkins, & Co., Neguette.

BECHAM'S PILLS for a bad Liver.

FINANCE AND COMMERCE.

New York Banks Feeling the Heavy Demands for Money From the West.

GOLD EXPORTS ARE CUT OFF FOR THE TIME BEING.

But Trade Balances Are Still Adverse Though the Situation Seems to Be Slowly Improving.

DUN'S REVIEW OF TRADE.

NEW YORK, June 16.—R. G. Dun & Co.'s Weekly Review of Trade says: Concerted action by the banks of New York has changed the situation materially. More failures and a tremendous drain of money to the west had such effect here that the banks were unanimous in deciding upon the issue of clearing house certificates. Much increased accommodations for the business community are expected to result and doubtless will unless speculation is stimulated to absorb all the increase in available resources through undue preference for marketable securities over other assets. The weakness of banks at many western points continues. The widespread stringency is having a serious effect upon merchants and manufacturers who are in no way concerned with speculative operations. A very sharp fall in foreign exchange removes the chances of gold export at present but it is due to foreign purchases of securities rather than to a change in trade balances. Exports in two weeks of June, it is true, are but \$2,700,000, or 15 per cent. less than last year's, and imports show a small decrease in place of the enormous increase reported for months but balances are still adverse and likely to be so for some time.

The decline in prices has led to some increase in the foreign demand of products but has been followed during the past week by an advance of more than a cent in wheat with sales of only 27,000 bushels, 2 1/2 cents in corn and 2 3/4 cents in cotton with sales of 950,000 bales. Pork has fallen 59 cents, oats 1/4 cent, coffee 1/2 cent and oil a cent, but any material increase in exports at this season must come from marketing the surplus of cotton and wheat carried over and this the advance in prices tends to prevent. Wheat receipts are still large and accounts of the growing crops decidedly more favorable from the northwest, but conflicting as to cotton.

The output of pig iron declined 7,522 tons weekly in May and is scarcely larger than a year ago. Stocks on hand declined 18,000 tons in the month but further reduction of output is in progress. The market for iron and its products remain dull and unsatisfactory, bar being especially weak and southern pig much pressed for sale. Tin has advanced 65 cents per hundred pounds but copper sold at 10.75 cents for lake and lead at 3.7 cents. The market for wool is much depressed.

Reports from other cities nearly all show tight money and slow collections. The exceptions are as to money, in a few southern cities like Charleston and Mobile and New Orleans where money is in good demand but fair with supplies, while at Knoxville the demand is smaller. The volume of business has been much affected by the prevailing stringency and caution about credits.

Iron and its products are weaker at Pittsburg and a strike is expected, the workers demanding last year's wages. Trade at Cleveland is fairly good and at Cincinnati quiet. At Detroit trade is quiet and credits closely scanned and at Indianapolis there is a better feeling.

Chicago reports an easier financial situation but western demands urgent, collections very slow, speculation limited in volume, building 50 per cent. smaller than last year, wholesale trade fairly satisfactory and retail trade improved.

Milwaukee reports confidence slowly returning. At St. Paul excellent crop prospects make a more hopeful feeling and at Omaha trade is good; at Kansas City fair; at St. Joseph fair. At St. Louis trade is beyond anticipations. At all southern ports trade is slow and quiet.

The market for stocks has been stronger during the week, though the advance has averaged less than a half dollar per share and the demand for money had advanced rates on call quite sharply.

The business failures occurring throughout the country during the past seven days number 311 as compared with totals of 322 last week. For the corresponding week of last year the figures were 153.

EXPORTS AND IMPORTS.

Exports of Merchandise Decreased and of Gold Increased.

WASHINGTON, June 16.—The total value of the exports of merchandise from the United States during the twelve months ended May 31, 1893, were \$848,373,845 and during the corresponding period of the preceding year \$1,022,984,545, a decrease of \$174,610,700. The values of the imports during the same periods were \$936,901,287 and \$928,848,119, respectively, an increase of \$108,053,168.

During the twelve months ended May 31 the export of gold amounted to \$123,095,453 and the imports to \$20,658,725; excess of exports, \$102,436,728. During the corresponding twelve months of last year the exports of gold amounted to \$18,883,224 and imports to \$49,488,324; excess of imports, \$30,605,100.

During the twelve months ended May 31 the exports of silver amounted to \$40,130,578 and the imports to \$23,764,543; excess of exports, \$16,366,035. During the corresponding period of the preceding year the exports of silver amounted to \$30,937,500 and the imports to \$18,823,345; excess of exports, \$12,114,155.

Fifty cents is a small doctor bill, but that is all it will cost you to cure any ordinary case of rheumatism if you use Chamberlain's Pain Balm. Try it and you will be surprised at the prompt relief it affords. The first application will quiet the pain. 50 cent bottles for sale by H. H. Stafford, Son & Co.

BECHAM'S PILLS for a bad Liver.

ABSOLUTELY PURE

Americans Not in Politics.

Mr. Bryce, in his "American Commonwealth," has pointed out one reason why so few men of position and culture enter politics. Supposing a man of character and refinement to have made up his mind for patriotic reasons to face the muddy roads which lead to political power, he can only hope to represent the district in which he resides, as he is forbidden by law to stand for any other constituency. Country life as we understand it is unknown in America. No man lives out of a town if he can help it.

Now unfortunately in the States, as well as at home, the rich gentlemen who reside in the city have a tendency to congregate together. Suppose, therefore, a particular suburb of a city, returning one member to the municipal body, to contain several hundred men who by position and education would be well fitted to occupy seats on the council, only one of these could by any possibility find his way into the governing assembly of his town, while the others would be practically debarred from taking any similar position, although they might be the owners of property in several districts within the city and be compelled to pay a heavy taxation to a body upon which it was impossible for them to sit or even to obtain representation.

The same restriction would prevent them from being returned to their state legislatures, although a hundred neighboring electoral districts might find it impossible to discover within their limits men equally fit to represent them.—Earl of Meath in Nineteenth Century.

No More "Lagniappe" in New Orleans.

"Lagniappe" will be more honored in the breach than in the observance among tradesmen of New Orleans in future. This is the name of the gratuity which the creoles were wont to give to customers, the recipients being chiefly children and colored people. It took the form usually of confectionery, pastry or nuts. The practice is a relic of the old Spanish domination in Louisiana. The word "lagniappe" is a transformation of the Spanish phrase "la nappa," which means a gratuity, a sweetener, to make a purchaser pleased with his bargain. This custom it seems has never obtained outside of the second and third districts of the city, and "lagniappe" was so prescriptively grounded that it came to be regarded as a right to which the people were legally entitled. In an age of sharp and sordid competition, however, the tradesmen find the gratuity too much of a tax on their profits. A few days ago the Retail Grocers' association of the second and third districts adopted a resolution doing away with the picturesque usage.—New York Post.

She Saved the License.

One should not be too confident and precipitate in affairs of the heart. James McCarthy of Norfolk has learned this bitter lesson. Friday he purchased of the town clerk a license to marry a certain lively widow on whom his favors fell.

With the parchment in his vest pocket he presented himself before the widow and for the first time asked her to be his cherished bride, and in the certainty of her answer he showed her the precious license. The proposal was so sudden and the swain so sure that the widow was nettled and refused him with considerable emphasis.

Mr. McCarthy was dazed for a moment, and then realizing his discomfiture he dashed the license to the floor, danced a breakdown on it and left the house. The next day, says the local chronicler, the economical widow took the license back to the town clerk and requested him to hold it until the right man wanted her.—Buffalo Courier.

Curiosities From Key West.

Dr. Einar Lonnberg has returned from his trip to Key West for the purpose of scientific research among marine animals. He describes the sea there as enormously rich in fish and the sponging grounds as the best in the world. He captured and brought with him 50 different kinds of fish, three of which had never before been seen along the Florida coast. He found many strange mollusks, crustaceans, actinias and worms, and the first-of the land species—were very abundant on the keys on account of the calcareous soil. On Key West he found a snake that exists nowhere else, also the great black scorpion, imported probably from the West India islands. An animal of semiellipsoid form about an inch, which he is not able to classify before it is dissected, is probably a new discovery.—Orlando (Fla.) Record.

Sacked Fish From the Lake.

Wednesday night a cyclone struck Portage lake and the surrounding country, doing great damage. At 8:15 a dark cloud swept up from the east, and the roar of the approaching storm could be heard 15 minutes before it struck the place. Barns, fences and houses were blown down, and sheets of water were carried from the lake over half a mile. Fish, large and small, were found next morning fully one mile from Portage lake.—Cor. Grand Rapids Democrat.

Cheap Flour in Maine.

Flour was never so cheap as at present, and farmers in some parts of the state are buying it for \$2.50 per barrel and feeding it to their stock mixed with bran. The outlook, however, is that lowest water mark has been reached, as crops prospects in Europe are very poor. Bread was never so cheap as now—the bread you bake at home.—Bangor Commercial.

According to the Paris Figaro, 500 un-

published letters of Voltaire were recently found in a house at Bessinger, near Geneva.

The largest cut stones in the world are in the temple of the Sun at Baalbek. Many are more than 60 feet long, 30 feet broad and of unknown depth.

MARINE MATTERS

PASSED THE CANAL.

SAULT STE. MARIE, Mich., June 16.—(Special).—Up—Selwyn Eddy, Bartlett, 127, Avon, Pontiac, Monterey, Owen, Roby, Holland, Parana, Stephens, Rosedale, Northern Light, Waupoose, Glasgow, Aberdeen, Dundee, Paistr, Pope, Joliet, Sheriffs, Galates, Spencer, Pennington, Shickluna, Worth, St. Louis, Osceola, Whitaker, Watson, Saveland, Gilbert, Griffin.

PORT LIST.

Arrived. Pontiac. Cleared—Pontiac, Cleveland; Moonlight, Ashabula. Passed Up—Conemaugh. Passed Down—Badger State.

REPORTORIAL PENCILINGS

There will be a special meeting of L'Union St. Joseph tomorrow morning at 11:30 a. m.

There will be a special missionary service at the prison on Sunday, a great many going down from the city to attend it.

By remembering that Car No. 3 does not run to Presque Isle people will save themselves and the conductor on the car a great deal of trouble and annoyance.

Mrs. Elliott, of Duluth, who was in the city visiting at the residence of her brother, Mr. Patrick Fogarty, at 243 Fisher street, died last evening very suddenly.

Staff Captain and Mrs. Brown will lead special meetings in the Salvation Army Hall on Saturday evening and all day on Sunday. Staff Captain Brown's subject for Sunday evening will be "Found Dead in the Street."

In the time card of the street railway as printed for distribution the first trip on the Presque Isle run was unintentionally omitted. The first car leaves Superior street for the Spruce street run at 6:57 a. m., starting on the return trip from Michigan street at 7:10.

PERSONAL MENTION.

John R. Gordon is down from Hancock.

Mayor Anthony of Negaunee was in the city yesterday.

W. L. Sherwood is up from Cleveland, arriving last evening.

Miss Eva Brittle returned yesterday from a visit with friends at Duluth.

Sanford Keeler, superintendent of the I. R. & H. B. R. R., is in the city.

H. M. Pelham, the Iron Mountain attorney, visited the city yesterday on business.

Richard Quayle, C. T. Mixer and W. P. Kinsman of Ishpeming visited the city yesterday.

Frank A. Bell of Negaunee and Mayor Osborn of Ishpeming were among the attorneys in the city yesterday.

Miss F. A. Hoffenbacher left for Duluth yesterday morning to visit her sister Mrs. A. C. Noon. She will be gone about one month.

Miss Nellie Young returns home today after an extended trip of two months visiting friends and relatives in Neenah, Milwaukee and Chicago.

Mr. and Mrs. A. W. Kline leave tomorrow for a two weeks' visit at the World's Fair. Mr. Kline will be absent from the city about a month all told.

Mr. Fred S. Burgess of the Peter White Insurance office is at home with his bride at 409 North Front street. Mr. Burgess was married on June 7 to Miss Melva E. Smith of Flint, Mich.

The Largest Block of Coal.

An enormous cob of canal coal was recently raised from the Abram collieries, Wigan, and sent by train to the Alexandra dock, Liverpool, for shipment to Boston. It is said to be the largest block of coal ever dug from the earth and weighs over 12 tons. It took nine months to haul it to the seam. It is said that the cost of obtaining it was \$1,000, or about \$93 per ton. When raised, the cob was inclosed in a case of planks, the weight of cob and case being 13 tons 11 hundredweight. From Boston the coal will be conveyed by train to Chicago for the World's fair. There have also just been shipped from Liverpool several large blocks of salt rock from the Cheshire salt district. Some of them are skillfully carved into figures.—London Tit-Bits.

The Telegraph in China.

In a recent report United States Minister Denby of Peking says that by virtue of the Russo-Chinese telegraph convention the Chinese land telegraph lines have been connected with the Russian system. Messages can now be sent to all parts of the world from any telegraph station in China.

Since the negotiation of this convention, the cable companies have added 15 per cent to their charges, but messages can be sent on the Chinese lines at the previous rate of \$2 per word, the cost of transmission across the Atlantic being added.

He Chose the Gold Cure.

The city authorities at Lemars, Ia., have begun the enforcement of a novel penalty for drunkenness. The city council passed an ordinance which required that any person arrested twice for drunkenness have his choice between reformation and hard labor. He must make up his mind to take either a course of treatment at a bichloride of gold institute or work on the streets of the city for 10 days with a ball and chain. The ordinance is now in force, but so far only one man has been twice arrested. He chose the gold cure.

DR. MORSE'S OFFICES.

Dr. C. H. Morse, who has had charge for the past two years of the office and practice of Dr. Speer & Co. in this peninsula and who has met with such signal success, has severed his connection with Dr. Speer & Co. and has gone into the general practice of medicine in the city. His old patients and new ones will find him at the office in THE MINING JOURNAL building formerly occupied by Dr. Speer & Co. 6-6-4.

Smokers of fine Cigars, read ad. of John E. Kenning & Co.

Coughing Leads to Consumption. Kemp's Balsam stops the cough at once.

In every smokers mouth. Ben-Hur cigars. Ask for them. (5-23-93w)

BEAUX YEUX.

Once Cupid was weeping in pain and dismay

And railing at cheating and theft, For he'd lost both his bow and his arrows at play And all of a quiver was left. "What arms have I now," cried the child in despair, "To kindle the heart into flame? My power is vanished! Oh, ill shall I fare In lands that are loveless and tame."

At the thought of this bitterest cup he must sup— His tears into rivulets ran, But they suddenly stopped, and a laugh bubbled up To his lips, for he thought of a plan:

"How foolish, how foolish, this sorrow to show, To fill all the air with my sighs! For what is the need of my arrow and bow When I can use Nellie's gray eyes?"

—Rohan Stevens in Kate Field's Washington.

Staggered by Finger Bowls.

A very amusing scene occurred once while I was serving a lady and gentleman of the unmistakable upstart type. They were grossly ignorant of the most elementary rules of table etiquette, shoveling the food into their mouths with their knives, sometimes casting aside knives and forks and attacking game and poultry by cutting them in halves and eating from their hands, holding the leg. Sometimes, too, they became ridiculously polite by carving bread with knife and fork, but the climax came when I set two bowls of rosewater before them as finger glasses.

They looked at each other, and then cautiously around the room, trying to find some solution of the mysterious dish before them, not having the sense to ignore it altogether. Whispered consultations took place, which presently grew into a suppressed quarrel, the lady reproaching her lord for his ignorance. Suddenly she was seen to shake the water around and around, and finally, with a look of contempt and superior wisdom, she raised the bowl to her lips and drank all the contents. Needless to say that the hearty laughter of the other diners made them feel the mistake, and they beat a hasty retreat.—London Tit-Bits.

Mud Shoes For Horses.

We doubt if very many persons ever saw mud shoes for horses. They are used on horses in plowing the low and wet lands of the valley north of Sumner nearly every spring. The mud shoe consists of a heavy board about 8 inches wide and from 8 to 10 inches long, rounded in the front. On this board a red-hot shoe of the size worn on the horse's foot for which it is intended is placed until it burns into it to a depth almost sufficient to bury itself. It is necessary that the shoe have a long toe and long corks. A piece of circular band iron to fit over the top part of the hoof is then attached to the board and over the hoof to hold the mud shoe solidly to the foot.

One end of the band is fastened to the board with a screw, which when tightened holds the board as squarely to the bottom of the hoof as if it had grown there. The horses become accustomed to wearing them and after a day or two experience no difficulty in working in them. By this means farmers are enabled to plow land in the spring where without the use of mud shoes horses would mire down.—Sumner (Wash.) Herald.

Served Him Right.

A good story is told about a gentleman who lives in Brooklyn and crosses at Fulton ferry nearly every day. He is much persecuted by the bore who always accosts you on a ferryboat in mid-stream with the stereotyped question, "Ah! are you going across?"

The other day one of these demons hooked on to the Brooklyn man as usual and said: "Hello, old man! Going to York?"

"No, sir," he replied promptly. "I am going to hit you on the nose."

And he did amid the cheers of the crowd.—Texas Siftings.

La Duse's Portrait.

A photograph of Eleonora Duse now on exhibition attracts constant attention. The picture is far removed both in expression and costume from the ordinary actress. The hair, guiltless of curl or bang, looks decidedly "tousled," a straight, disheveled lock straying across the forehead. The face is neither young nor beautiful and is ineffably sad. The dark, melancholy eyes look wearily away from the beholder. Mme. Duse wears a high black gown without ornament.—Philadelphia Press.

An Expression For Slowness.

A Washington youngster has succeeded in adding to the already numerous phrases that are used to emphasize an impression of slowness. He was waiting for his sister to finish something on which she was engaged. After a time his patience was exhausted, and he exclaimed:

"Won't you please hurry up? You are slower than a snail with the rheumatism."—Washington Star.

Confirmed bachelors will do well to read Dr. Benjamin Rush's definition of life without a wife, written not long before his death. "Celibacy," he said, "is a pleasant breakfast, a tolerable dinner, but a very bad supper."

There is a fire in a tenement. The excited crowd throw the crockery and glassware out of the window from the fourth story; the mattresses are brought down to the ground floor in their arms.

The most curious book in the world was neither written nor printed. The letters in its pages were cut from blue tissue paper, which was afterward pasted on cardboard.

Correspondence holds a double power, inasmuch as the pen that can comfort and cheer and elevate may become the weapon that wounds and destroys.

In the case of money finding is having in law, but money is the only personal property the title of which passes with the possession.

TOWN LIFE FOR BABIES.

Of All the Dangers Poor Food Is the Most Fatal.

For Dreaded Cholera Infantum Follows Poor Feeding.

Necessary to Begin Properly Early in the Month of June.

I have a lover, a little lover. He rolls on the grass and plays in the clover.

He builds block houses and digs clay wells And makes sand pies in his hat.

Town life is not what suits children under five years old.

But we have to deal with things as they are, and this includes many thousands of children dwelling in a city with all its dangers and difficulties.

How babies can be kept healthy in June, July and August is the greatest problem their parents have.

To prevent the great infant mortality in these three months has been the aim of all sorts of philanthropy. Infant feeding has claimed the exhaustive research of medical men. They found summer diarrhoea impossible to explain simply by the presence

of heat. They found that improper feeding in the summer time was the principal cause of the awful mortality in this climate. A perfect substitute for mother's milk had to be made, an infant food that would be nourishing and strengthening, that would furnish material for blood and bone, that would be easily assimilated and perfectly digestible. Finally in lactated food was secured the combination of the necessary elements of pure, healthy mother's milk.

The efficacy and nutritive quality of lactated food is today acknowledged by every one.

As a preventive of cholera infantum it is worth more than all the medicines in the world.

As a strength-giver to growing infants nothing can compare with it. As a food that is easy to procure and prepare, and is liked by the little ones themselves, too much cannot be said for it.

It has saved the lives of thousands of infants within the last few years. It has been the food of hundreds of babies who have never been sick. Above is the picture of the one-year-old child of Mrs. Edward Newcom of Logansport, Ind., which was received the other day, accompanied by the following letter from Mrs. Newcom:

"Our baby had to use artificial food on account of no nurse. We tried several different kinds of infant foods but none agreed with him until we commenced the use of lactated food. Now he is perfectly healthy. We are still using the food and recommend it to all our friends."

This is the expression of hundreds of mothers every month and the demand for lactated food is today more than twice as great as a year ago in consequence.

Soul Communion Day.

The last of the 17 days set apart by the World's fair management for "the parliament of religions" is monthly whole world soul communion day and the 27th anniversary of its institution, Sept. 27.

The first whole world observance was on the 27th of September, 1886, when "there was silence in heaven for the space of one-half hour," when a greater or less number of the worshippers of all the great religious faiths of the world united for 30 minutes (time at all points corresponding with the half hour intervening at Salem, Or., between 12 meridian and 12:30 past meridian) in invoking universal peace and new and higher in-flowings of spiritual light.

Of course the World's fair management did not know in setting apart the 17 days between and including Monday the 11th and Sept. 27 that "the parliament of religions" would terminate its session on the anniversary of this the most universal religious movement ever instituted among men, but such is the fact, and being so it is eminently proper that the brief universal prayer season of half an hour should on that day be accorded to soul communionists and all who will unite with them in invoking with unific soul impulses "peace on earth and good will among men." Soul communionists will ask no more of the fair management, as they are silent workers.

The time of observance in Chicago will be from 2:20 to 2:50 p. m., when there and then will be gathered worshippers from all of whom will have been divinizd by continuous previous observances in the most interior spirit of the movement.

This is "the universal prayer gauge," which a distinguished English scientist some years ago called for, and its proofs of the efficacy of unity of thought and aspiration for the common good have been wonderful and will be more wonderful.—H. N. Maguire in New York Sun.

COAL AND WOOD—Will be sold at the following prices for cash.

Table with 3 columns: Coal type, Ton, Price per ton. Includes Best Coal, Hard Coal, Cannel Coal.

Ishpeming, Mich.

### "DIRT DEFIES THE KING." THEN SAPOLIO IS GREATER THAN ROYALTY ITSELF.

### IT WILL FETCH 'EM.

Races at Union Park in July Will Bring Crowds of Horsemen to Ishpeming.

AND THE FAMOUS "BROTHER DAN" WILL BE HERE ALSO.

Quite a Costly Violin-Ball Game at Union Park Tomorrow—Hose Houses to be Freshened Up.

#### GOOD HORSES COMING.

Garrity's "Brother Dan," the trotting horse that defeated "Paine's Black" in a race at Hancock last summer for a purse of \$500 a side in addition to quite a large amount that his backers pulled in on the side, passed through here, en route from Minneapolis to Baraga, yesterday. "Brother Dan" will be one of the horses entered for the races at Union Park on the 4th, 5th and 6th of July. Had Mr. Garrity known that races were being arranged for at Union Park on the dates named he would have taken the horse off here yesterday, but he did not learn this until a few minutes before the train pulled out for Baraga.

The prizes to be offered at these races will induce the owners of all the fast horses on the upper peninsula to attend, as well as many from towns in the lower part of the state and in Wisconsin and Minnesota.

#### A \$5,000 Violin.

Herr August Aamold, the Norwegian violinist, plays on a genuine stradivarius instrument, which cost him \$5,000. Violins of this make are quite rare, there being very few of them in the country. Mr. Aamold procured his violin two years ago and at the time he bought it he considered himself lucky in getting it even at that price. While here Mr. Aamold called on J. N. Foheman, who also has a fine violin one of the genuine George Gmunder make, which he tried to buy. Mr. Foheman refused to sell the instrument as he has become greatly attached to it. There are very few of them in the market as the Mr. Gmunder stopped making them some several years ago. There are only three or four of these violins in the upper peninsula.

#### Baseball Tomorrow.

The "Setters" of this city and the "Rivals" of Marquette will play a game of baseball at Union Park tomorrow afternoon for \$25 a side, beginning at 2:30. The "Rivals" play good ball and will keep the "Setters" busy. The admission will be twenty-five cents. A good game may be expected.

#### Hose Houses to Be Painted.

The interior of hose house No. 1 is being calcimined and painted by R. McSweyn. Hose houses Nos. 2 and 4 will also be painted and calcimined and No. 2 will be painted on the outside also. Trembath & Johnson have the contract for the work on No. 4 and Mr. McSweyn has the No. 2 job. No 4 will not be painted at present, as the building may shortly be removed to another place owing to the caving in of the ground around it.

#### Passed from Earth.

Knute Berg, a member of the local Scandinavian society, died Thursday, after a short illness, inflammation of the lungs being the cause of his demise. He was a native of Norway, was twenty-four years of age and unmarried, and had been in this country and a resident of Ishpeming two years. His relatives, save two cousins who live here, are all in the old country. The Scandinavian society, headed by the City band, attended the funeral in a body yesterday afternoon.

#### A Neat Hall.

One of the neatest little assembly halls in Ishpeming is that of the Scandinavian society on Second street. The main room has been recently furnished with a handsome new carpet, altars, etc., and new chairs. The desks, altars, etc., have all been painted to correspond with the room. The building, which is occupied on the ground floor for store purposes, is owned by the society. The lodge numbers over two hundred members and is in good financial standing.

#### Cheap Suits.

F. Braastad & Co. have been making a run on boys' and men's suits and hats the past few days. Boys' suits are selling as low as eighty-nine cents a piece, while a man's suit can be bought for \$2. Hats that Vic Munson, the manager of the store, calls "World's Fair hats" are selling at 62½ cents each. They have sold a heap of these goods during the week.

#### Settled With Their Creditors.

J. E. Bergquist & Co., clothiers, have settled with their creditors, paying them in full. Their liabilities were \$3,000 and their assets about \$6,500. They will commence today to sell the stock, which must be disposed of within ten days.

#### ISHPEMING IN BRIEF.

F. W. Read of Eagle Mills was in town yesterday.

Hon. Nels Clifton of Marquette was in town yesterday.

The employees of the Cleveland Lake shaft will be paid today.

Dr. Barnett arrived home from the World's Fair Thursday evening.

The Emmett Guards were out for a drill on the streets last evening. The boys find drilling in their hall rather warm work these days.

Mrs. James Clancy and son returned home Thursday afternoon from Port Huron, where they have been the past three weeks visiting friends.

Gustafson Bros. team took a run through the principal streets of the city Thursday afternoon, causing quite a racket. The wagon was left in sections by the roadside.

The Temple of Honor excursion to Calumet today promises to be largely attended. Quite a number of the men-

bers will attend and many outsiders are also going. The special train left here at 6 o'clock.

One of Blumenthal and Rattenberg's store windows presents a very striking appearance, the effect being obtained by building up a background of tin foil. A line of coats is displayed in the window.

E. Gisvold, the contractor, has been awarded the contract for the erection of William Smith's new residence on Vine street in the Cleveland Iron Mining company's addition. A start on the work will be made in a few days.

Parties desiring water filters can procure them from John L. Ryan. Mr. Ryan sold a great many filters last year during the season, when Lake Sally was in bad condition. He will canvass the city within the next few days soliciting orders.

Superintendent Close, who is in charge of the sewer construction at Red Jacket, spent Thursday in town looking over the Ishpeming sewerage system. He came down with a view to bidding on the sewer work at Negaunee, but owing to the close competition between the bidders he decided not to bid. He left here for Detroit on a few days' business.

The Ishpeming Steam laundry is undoubtedly the busiest concern in the upper peninsula. It is working its force about fifteen hours a day right along and on the jump only 40 cents. This laundry employs sixteen hands at present and the force will be increased to eighteen or twenty in a week or two. Fine work at reasonable prices accounts for its remarkable run of trade.

#### AT GRABOWSKY'S.

All our jackets and capes we have left we will close out at one-quarter off from our regular low prices. Twenty dozen gents' unlaundered shirts with linen collars and collar bands at only 35 cents each. A few gents' laundered calico shirts with extra collars and cuffs at only 40 cents each. These are cheap. Secure one while you can. A large line of parasols, whistles and other wash goods and gauze underwear cheap at (6-15-3d)

For fine family beer "Salvador" takes the cake. Try a case. P. H. DONAHOE, agent.

For fine sour mash whiskey go to P. H. DONAHOE'S liquor store, Division street. 4-10-1f.

The cheapest and most reliable house for everything in the music line is Hein's temple of music, Ishpeming. Send for catalogue. Special inducements in Italian and German violins. (5-15-1f)

#### DOWN THEY GO.

On and after today F. Braastad & Co. will sell Pillsbury's Best XXXX flour at \$4.70 per bbl., Washburn Crosby's Co.'s \$4.70 per bbl., Wisconsin Best, Patent wholesale, \$4.00; delivered, \$4.25 per bbl. Rye Graham, \$3.75 per bbl. Wheat Graham, \$4.25 per bbl.; fine rye \$4.00 per bbl.

Success speaks volumes. Geo. Moehs & Co.'s cigars are the best sellers. (5-23-14w)

Buy the BEST FLOUR The celebrated Washburn-Crosby Co's PARISIAN.

Only the choicest Minnesota and Dakota Hard Wheat is used in the manufacture of this flour. It will make 20 lbs. more bread to the barrel than ordinary flour.

GATHERED THEM IN. A Port Huron Firm Secures a Couple of Negaunee's Sewer Contracts.

VERY CLOSE FIGURES MADE ON THE WORK. Negaunee Takes the Cake on Good Roads and Streets--Arrangements for Chevalier's Ball

SEWER CONTRACTS LET. At the special meeting of the common council held Thursday evening for the purpose of considering bids for the construction of a sewerage system in districts Nos. 1 and 2 and section one of No. 5, contracts were awarded to Muir Bros. & Nicholson of Port Huron.

District No. 1--Wolf, King & Co., \$9,637.81; Muir Bros. & Nicholson, \$6,616.50; Sang & Co., \$8,911.90. Kellan & Peterson, \$7,677.20; Chausse Bros., \$9,961.14.

District No. 2 and section 1 of No. 5--Wolf, King & Co., \$10,775.40; Muir Bros. & Nicholson, \$5,649.50; Sang & Co., \$10,784.85; Kellan & Peterson, \$7,427.50; Chausse Bros., \$8,943.75.

In district No. 1 it will be observed that the successful bidders were \$1,000 lower than the next lowest bidder and in district No. 2 they were a little less than \$3,000 lower than any of the other bidders.

It is evident that Muir Bros. & Nicholson have figured close, and it is said by the other contractors that they cannot complete the work without losing money. They are considered very reliable contractors and have the reputation of being very low bidders on every job they figure on.

City Engineer C. R. Wightman telegraphed Muir Bros. & Nicholson yesterday morning that they had been awarded the contracts and to prepare to start the work as soon as possible.

Fine Roads. If there is one thing more than another that the city of Negaunee has reason to feel proud of, it is the streets and roads of the city.

For the past few years Mayor Anthony has taken a special interest in getting the streets and roads in good condition. He has given the work his personal attention and has saved the city many dollars by doing so.

Whenever he drives over a road within the limits of the city that needs repairing he calls the street commissioner's attention to it and orders the repairs made, and at the proper time of the year he sees to it that the streets are thoroughly cleaned.

The road leading to the mines of the Buffalo range is just now receiving the attention of the mayor and street commissioner. It has been given a heavy coat of fine Jasper taken from the dumps of the Prince of Wales mine.

No better material for road building can be found anywhere. When properly put on it becomes, after being driven over for a few months, perfectly hard, making the best kind of wheeling.

Heretofore the surface of this road has been nothing but soft sand. In dry weather the dust was intolerable, while in wet weather it was difficult to get over it with a heavy load.

The repairing of this road will be greatly appreciated by the business men of this city, as well as the people living in the vicinity of the mines. When the dressing now being given it is finished the road will be one of the best in the country.

The road south of the Pioneer furnace will be the next to be taken in hand and put in good order for driving and teaming.

The Chevaliers' Ball. The committees appointed to complete arrangements for the ball to be given by the Chevaliers de Lafayette society at the Adelphi rink Monday evening, June 26, are as follows:-- Arrangements--Albert Boyer, C. Houle and P. Bernard; floor--L. St. Julian, C. Neidean, C. Gauthier and L. Grenier; reception--Napoleon N. Gauthier and Alexander Lefebvre. The music will be furnished by Stecher's orchestra.

Tickets will be \$1 per couple. Supper will be served at midnight at twenty-five cents per ticket.

READY TO PREACH. YEARS OF STUDYING COVERED BY A THEOLOGICAL STUDENT.

A Minister's Training Usually Begins at His Mother's Knee, and It is Generally Twenty Years Later When He Graduates as a Full Fledged Preacher.

"You read the other day," said a prominent clergyman, of the commencement exercises of Fremont, theological seminary and of the graduation of 54 students. There was nothing about that to attract public attention, and very likely you did not get further into the article than the headlines. It meant 54 more young clergymen in the world, that was all, to most people.

But to a man who has been through the training that has just ended for those boys it means a great deal more. I never read of a seminary commencement without feeling thankful that so many more students have pulled through safely.

"There is not much general knowledge of the labor required in the making of a clergyman. People could easily find out if they chose to inquire, but it is something they do not stop to think of. A clergyman is supposed to be able to answer any Biblical question that may be asked him, but where he gets all his technical knowledge nobody thinks of asking. He does not get it from reading the Scriptures, certainly. If you were to keep on reading Revelation till you understood it thoroughly, how old would you be when you finished?"

"No, don't ask me whether I think I understand it now or whether I may drift away into a theological discussion which will be very unprofitable. What I started to say is something about the severe training that a man must go through before he can be graduated from a theological seminary and so become a clergyman. Severe? It is more than severe, and you see it results in thousands of physically weak preachers all over the world.

"The training of a clergyman really begins when he is a 6-year-old child at his mother's knee, for in nine cases out of ten the parents decide for him and decide early. But start with the boy when he has been graduated from a grammar school, because he will probably receive that much education in any case, whatever his business or profession is to be. He should then be in the neighborhood of 12 years old. He must now begin a special preparation for college, a preparation that differs from the ordinary preparatory course of students not studying for the ministry. He must give at least four years to a special study of Greek and Latin, and at the same time lay a good foundation in ancient history, English composition and literature and higher arithmetic and algebra.

"The boy then, at 16, is ready to enter college and take the usual four years' classical course. In the first year he struggles with algebra, geometry, Latin, Greek, English history and English literature. In the second year the same, with the addition of comparative physiology, mechanics, analytical geometry, physics and rhetoric. In the third year he adds also chemistry, logic, German, political science and philosophy. The fourth collegiate year includes all of these studies and geology, consular and international law, French, ethics, astronomy and botany besides.

"He is now, on leaving college, ready to enter a theological seminary, unless indeed he proposes to go into the general theological seminary of the Protestant Episcopal church, in which case he is required to be able to read the Old Testament in Hebrew and the New Testament in Greek before he can enter. After his eight years of Greek he should be able to read the New Testament in the original, but this does not always follow. It often happens that a student who goes through his Greek lessons well enough in college finds on going into the seminary, where he must actually use the language, that he knows very little about it.

"The course in the theological seminary occupies three years--making 11 years' study in all after leaving the grammar school. The studies in the theological seminary are theology, church history, Old and New Testament languages, geography of Palestine, moral philosophy and sociology, with lectures on sermonizing and the duties of a minister and practical examples in preaching. Hebrew is one of the sticking points, for it is positively necessary for a theological student to read Hebrew almost as readily as he can English. It is a grind, a terrible grind, this long struggle with Greek and Hebrew.

"It is in the seminary, of course, that the student gets his theological training. Still each denomination has its favorite college. Theological students frequently occupy an unpleasant position throughout their collegiate and seminary courses. The churches help them when they are not able to help themselves, and they too often have the feeling of being in part charity students. All of the colleges make a reduction in the tuition of candidates for the ministry.

"After graduation from the theological seminary the student receives a professional certificate from the faculty, and he must then pass an examination before the classis or presbytery in whose jurisdiction he lives. Having passed this, he receives a license to preach. He then awaits a call (a most important matter, by the way--some clergymen are forever awaiting a call), and when he receives it he undergoes another examination by the classis or presbytery in whose district he is to be placed. He is then ordained by the laying on of hands, and being installed in his new pulpit is a full fledged clergyman.

"Do you wonder that a man who has been through it all stops to think when he reads of another class leaving the seminary? The graduates are still boys, although they know more of the ways of the world than young freshmen. They still have many things to learn, and their real work is only beginning."--New York Sun.

They have quite a large trade in the pipe line. Dr. L. D. Cyr, has resumed practice, after a rest of four or five years, and has opened an office here.

The Ancient Order of Hibernians will elect officers at their meeting to be held tomorrow afternoon. Mrs. L. Corbett and Miss Mollie Griffey left yesterday for Chicago on a visit to the World's Fair.

An iron fence has been placed around the band stand in the city square. The stand will be painted red, white and blue. Conductor McKenzie of the street car line will visit friends in the copper country today, going up on the excursion train.

The roof of the Johnson Lumber company's mill caught fire Thursday afternoon. The blaze was extinguished by the application of a few pails of water. Richard Snell, mention of whose illness was made in Wednesday's number of this paper, died yesterday morning at the home of Alderman James Matthews. The funeral will be held tomorrow afternoon.

The Young People's society of the Swedish Lutheran congregation will give an ice cream and cake social in the Sundberg block this evening. Twenty-five cents will be charged for the ice cream and cake. All will be made welcome.

MORNING GLORIES. Slight stemmed bows, purple, pink and white. Dew filled from beaded urns of Night--Morn's servitors bow her place--No goblets of more dainty grace.

White thrushes sing, Morn, radiant, slips From their cool rims, but burning lips Of thirsty hordes from noontide skies Scarce touch these ere they beauty dies.

Evances of Glacial Man. The period at which the glacial epoch existed in this country has long been an interesting problem to scientists. With few exceptions, geologists have united in placing the date within comparatively recent times, and evidence are multiplying that the great ice age in North America actually occurred during the present era of human life.

The evidence consists in the finding of stone implements of ancient man in undisturbed glacial gravels. Among the discoverers of these relics is Dr. C. C. Abbott, a distinguished archaeologist of this city. The specimens were all found by him in the Trenton gravels at Trenton, at recorded depths and in undisturbed undisturbed glacial deposits.

Professor Putnam also found specimens in the same locality, and other scientists have come upon implements of stone in similar deposits in various parts of the country. The most convincing, however, is a find made by Mr. W. C. Mills at Newcomerstown, O. In a glacial terrace in that town, at the mouth of Buckhorn creek, he came upon a stone implement 15 feet below the surface which is now in possession of the Western Reserve Historical society of Cleveland. The gravel in which this relic was found was covered by six inches of sand, several feet of supplementary gravel and from three to five feet of earth.--Philadelphia Ledger.

Why Snakes Are Disliked. It isn't terror of the snake that makes him unpopular. The most harmless snake never acquires the confidence of other creatures, and one hesitates to carry it in his hat. This general repugnance is something like backing a bill or paying a tailor--entirely a matter of form. Nothing else has sympathy with the serpent's shape.

When any other animal barters away his legs, he buys either fins or wings with them; this is a generally understood law, invariably respected. But the snake goes in for extravagance in ribs and vertebrae, an eccentric, rakish and improper proceeding--part of an irregular and raffish life. Nothing can carry within it affection or even respect for an animal whose tail begins no where in particular, unless it is at the neck; even if any creature may esteem it an animal at all that is but a tail with a mouth and eyes at one end. Dignify the mouth and eyes into a head and still you have nothing wherewith to refute those who shall call the snake tribe naught but heads and tails; a vulgar and raffish conception of life, of pothouse and Tommy Dod suggestion.--Arthur Morrison in Strand Magazine.

A Story of Suffering. The drummer from Chicago was rattling off the merits of his goods in a way which had lured the good old merchant to look at him doubtfully.

"Oh, I'm telling you the straight truth," said the drummer, catching on to the mild insinuation in the old gentleman's face. "It would hurt me to tell a lie."

"Yes," responded the old merchant quietly. "I know it would. There was a Chicago man in to see me yesterday, and he said the same thing, but I noticed that he went right on suffering as long as he staid here."

THE FATHER OF MANY ILLS. Constipation leads to a multitude of physical troubles. It is generally the result of carelessness or indifference to the simplest rule of health. Eugene McKay, of Branch City, writes:

"I had for several years been a sufferer from constipation, had taken a great many different remedies, some of which did me good for a time, but for a time, then my troubles came back worse than ever. I was induced by a friend, whom Brandreth's Pills had benefited, to try them. Took two each night for a week, then one every night for about six weeks. Since that time I have not experienced the slightest difficulty whatever, and my bowels move regularly every day. I believe firmly that for sluggishness of the bowels and biliousness Brandreth's Pills are far superior to any other."

SEE THE WORLD'S FAIR FOR FIFTEEN CENTS. Upon receipt of fifteen cents in postage stamps, we will mail you prepaid our souvenir portfolio of the World's Columbian exposition, the regular price is fifty cents, but as we want you to have one, we make the price nominal. You will find it a work of art and a thing to be prized. It contains full page views of the great buildings, with descriptions of same, and is executed in highest style of art. If not satisfied with it, we will refund the stamps and let you keep the book. Address H. E. BUCKLEN & CO., Chicago, Ill.

Are you insured? If not, now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as an insurance against any serious results from any attack of bowel complaint during the summer months. It is almost certain to be needed and should be procured at once. No other remedy can take its place in its work. 25 and 50 cent bottles for sale by H. H. Stafford, Son & Co.

**STILL MORE COMPLICATIONS.**

Besides City Taxes, the Fire and the Ward Episode Prevent Recording of Deeds.

**DISPENSATION GRANTED FOR MYSTIC SHRINE HERE.**

Dog Tax Roll Completed—Dr. Youngquist's New Offices—Started for Grand Marais—Other Notes.

**THE MUDDLE GROWING WORSE.**

An unexpected complication is attending the trouble over the registering of deeds, land contracts, etc., in this county, outlined in THE MINING JOURNAL a few days ago. At that time it was not supposed that there would be any greater obstacles in the way than were being encountered in Wayne county and elsewhere in the state and these were considered bad enough at that, but a far greater difficulty has arisen. In the great fire in June, 1868, a portion of the county records were destroyed and this alone makes it impossible for Deputy Treasurer Wright to make the necessary certification as to the payment of taxes even, on property outside of the cities of the county while the further fact that some years ago, as will be remembered, there was great looseness in the county treasurer's office, causes Mr. Wright to feel unwilling to certify through that period as under this white elephant of a law he is made personally liable for damages arising from any mistake.

The tangle is a bad one and already the auditor general's office is being besieged for copies of tax records covering pieces of property in this vicinity. That real estate men in Detroit are as badly pinched now as when the law went into effect early in the week is shown by the following from the Detroit Journal:

Judge Gordon's tax bill, passed during the closing hours of the recent legislature, is giving no end of annoyance to the local real estate men owing to the clause prohibiting registers of deeds from recording a deed to any property unless accompanied by a certificate from the county treasurer or auditor general to the effect that all taxes for a period of five years, have been paid on the property in question. Register of Deeds Heames of this county is carrying out the law to the letter and so are the registers in other counties. The result is that the auditor general and attorney general are deluged with inquiries and opinions as to the correct construction to be placed upon the clause.

Register Heames' decision has induced the local real estate board to take early action looking toward a test case, as they feel that with this construction of the law the real estate business would be simply paralyzed. While predicting an early settlement of the difficulty, President Warren of the real estate board thinks the law if carried out will have the effect of crowding some of the new real estate agents.

While the county treasurer has so far refused to furnish the desired certificates he is having some blanks prepared and, in a day or two, will be in a position to comply with the law. The failure to specify in the law that only state and county taxes were to be certified to appears to be the stumbling block over which Register Heames and County Treasurer Heames are worrying. The law reads "all taxes," and it would be utterly impossible for either the register or treasurer to say whether city and village taxes have been paid or not, as they have nothing to do with them. Judge Speed says no other construction could be put upon the law and thinks the treasurer would be justified in giving a certificate that the state and county taxes have been paid and Treasurer Heames would be equally justified and would not be violating the law if he recorded a deed accompanied by such a certificate. In the meantime the local real estate business is hung up to dry and the opinion of Attorney-General Ellis is anxiously awaited.

**Temple of the Mystic Shrine.**  
Marquette is already noted for its high rank in the Masonic world, having the lodge, chapter, commandery, chapter of Rose Croix, council of Princes of Jerusalem and lodge of perfection, Scottish rite, and now to these is to be added a temple of the Ancient Arabic Order of Nobles of the Mystic Shrine with a territory embracing the whole upper peninsula. The dispensation for the new temple was granted at the annual meeting of the imperial council of Mystic Shriners at Cincinnati on Wednesday, Columbus, O., and Peoria, Ill., being similarly honored while Charleston, W. Va., was refused. Denver, Colorado, was selected as the next place of meeting and July 17, 1894, set as the time. The following imperial officers were elected: Imperial potentate, Thomas J. Hudson, (grand potentate of Syria temple, Pittsburg), deputy imperial potentate, Charles L. Field of San Francisco; imperial recorder, Frank M. Luce of Chicago; chief rabban, Frank Locke, Boston; assistant rabban, John E. Bush, Indianapolis; high priest and prophet, A. B. McGaffey, Denver; oriental guide, Alonzo Bryner, Brooklyn; imperial treasurer, Joseph S. Wright, Philadelphia; imperial first ceremonial master, Louis P. Ecker, Richmond, Va.; imperial second ceremonial master, Ethelbert L. Allen, Fair Haven, Vt.; imperial marshal, Thomas J. Bishop, New York; imperial captain of guard, Thaddeus B. Beecher, Bridgeport, Conn.; imperial outer guard, Curtis H. Winsor, Sioux Falls, S. D.; imperial stenographer, Frank P. Haggerty.

The annual pilgrimage of the Shriners from the oasis of Grand Rapids to conduct upper peninsula pilgrims across the burning sands of the desert has been a very pleasant feature of each summer in Masonic circles but now the Marquette Shriners will lay in a stock of camels and go into business for themselves. The dedication of the new temple will be an affair long to be remembered.

**Can Go to Chicago.**  
The rifles were a little alarmed over the report that Attorney General Ellis had declared that the encampment of the Michigan National Guards could not be held at Chicago this year as had been planned, but are taking comfort from the following characteristic declaration of Governor Rich:

Governor Rich doesn't think the informal opinion expressed by Attorney General Ellis would warrant abandonment of the Chicago encampment of the Michigan troops. He knew all along that there is no provision in the statutes authorizing an encampment out of the state. Of course, the consent of Illinois and the United States must be obtained. This is practically assured. There will be no trouble for the troops having virtually, as if by common consent, agreed to place themselves under proper discipline at Chicago.

**Pay For Your Dog.**  
Controller Royce has completed his dog tax roll, the showing being 537 dogs of which 499 are males. The roll is now in the hands of the marshal for collection, and those who do not see to it that their dog is decorated with the proper tag before the end of July will be called upon to mourn his untimely demise, as all dogs not registered and paid for are to be shot by the officers.

**In His New Office.**  
Dr. O. G. Youngquist has removed his offices from the Harlow block to his residence at the corner of Ridge and Third streets where he has built a very fine office attached to the residence proper. The new office was designed especially for the requirements of his profession and contains all the conveniences which a physician or surgeon could desire. Dr. Youngquist is now at home in his new offices where he will be pleased to have his friends call and see him. He can be reached by telephone as before and either night or day.

**The Amold Concert.**  
The attendance at the Amold concert at the First M. E. church last evening was rather light but all who were present enjoyed a great treat in the playing of Herr Amold, who is certainly one of the finest violinists ever heard here. The concert duet of William Saunders and J. A. Williams, the fine vocal solo by Mr. W. A. Brown and Miss Davis' magnificent solo, the aria "Bel raggio lusinghiero" by Rossini, also gave the audience great pleasure.

**Two Big Suits Won.**  
Hon. F. O. Clark received notice yesterday that the supreme court had affirmed the decision in the case of Prentiss vs. the Ross estate where the award of the probate commissioners of \$99,500 was cut down to about \$6,000, and had reversed the McGregor case against the same estate where the judgment was for about \$7,000. Two such victories announced in one day were enough to make any lawyer feel good.

**Started for Grand Marais.**  
Ed Mitchell, of Powell & Mitchell, left yesterday afternoon to take charge of the work on the firm's contract for the extension of the Grand Marais harbor of refuge piers. He went down with the tug Cora Sheldon of Houghton and two big scows loaded with stone and material and will hustle the work for the better part of the summer.

**Rev. H. H. Fairall, D. D., editor of the Iowa Methodist, says editorially: "We have tested the merits of Ely's Cream Balm, and believe that by a thorough course of treatment it will cure almost every case of catarrh. Ministers, as a class are afflicted with head and throat troubles, and catarrh seems more prevalent than ever. We cannot recommend Ely's Cream Balm too highly."**  
I used Ely's Cream Balm for dry catarrh. It proved a cure.—B. F. M. Weeks, Denver.

**THIRD ANNUAL PILGRIMAGE.**  
TO THE SHRINE OF THE GOOD SAINT ANNE.  
The 1893 pilgrimage to this famous miracle-working shrine is being organized by the South Shore under the auspices of the Clergy of the Upper Peninsula of Michigan, leaving Wednesday, June 21, 1893, and promises to be the largest ever sent out from the upper peninsula. Tickets from Houghton, Marquette and intermediate stations will be \$25.00 for the round trip. They will be good going only on the special train leaving June 21st, but will be valid for return passage on all regular trains until July 21, 1893, and will allow passengers to stop off at any point en route in Canada. The special train will be run leaving Houghton 8:00 a. m. stopping at all stations to take on pilgrims; leaving Marquette 12:40 p. m. arriving at Sault Ste. Marie 6:10 p. m., where a class are expected. The majority of the pilgrims will want to stop over in that city for the grand celebration of the St. Jean de Baptiste societies, which takes place June 24th. The journey from Montreal to Ste. Anne de Beaupre and return home to be made on regular trains at any time within the limit of the tickets.

A feature this year will be the Palace Sleeping cars and Tourist Sleepers that will be attached to the Canadian Pacific special train. The rate per double berth in the former from Sault Ste. Marie to Montreal will be \$4.00 and berths in the Tourist Sleepers will be at a nominal price. Anticipating that a number of excursionists will want to visit the World's Fair on the return, arrangements have been made by which excursion tickets entitling holders to return via Chicago will be sold at the low fare of \$3.00 for the round trip. This will be one of the choicest summer excursions offered to the people of this section, as it includes not only a visit to the principal cities of the Dominion of Canada, but also gives the tourist an opportunity of visiting Detroit and the World's Fair on the return trip home.

**Lane's Medicine Moves the Bowels Each Day.**  
In order to be healthy this is necessary.

Opera House Block, - - Marquette, Mich.

There is no one instrument, unless, indeed, it be a large pipe organ, capable of the variety of effects that are obtainable on the Aeolian. Unlike the pipe organ, however, the Aeolian is adapted to all classes of music; overtures and symphonies can be rendered on it with all the softness and delicacy of the flute and violin and cello and the snap and brilliancy of the piano. See and hear them at Conklin's.
