## SLAIN BY THEIR OWN BOMB.

Spanish Anarchists Explode Dynamite Near Ex-Premier Canovas del Castillo's House.

## ANARCHIST KILLED AND ANOTHER FATALLY HURT.

Wreck and Panic in Neighboring Circus Results in Two Deaths and Injury to Several.

## SPANISH ANARCHIST OUTRAGE.

MADRID June 21.—Great excitement prevails throughout the city in consequence of the dastardly attempt last night to blow up with dynamite the residence of Mr. Canovas del Castillo, the late prime minister. Though the occupants of the residence of the ex-prime minister escaped unscathed the explosion was the cause of the death of one person, the fatal injury of another and the wounding of several others.

At the time of the explosion a performance was being given at a circus a short distance from the residence of Mr. Canovas del Castillo. The shock was so great that it caused a part of the ceiling directly over the seats occupied by a party of gentlemen to crash down upon their heads.

Blinded by the dust that filled the air and with the roar of the explosion still reverberating through the building the people were panic-stricken and made a rush for the exits, paying no attention to those who were unlucky enough to stumble and fall but trampling upon them in frantic efforts to escape.

Among the party mentioned above were the grandson of the marquis of Havana, president of the senate, and a son of Marquis Guadelesta. The former was struck on the head by a large piece of the falling ceiling and sustained injuries that will cause his death.

The son of Marquis Guadelesta attempted to rush from the building but lost his footing and the panic-stricken crowd trampled him to death. His body was later removed from the building. His face was hardly recognizable.

Other persons were also trampled upon by the crowd and seriously injured while a large number of those who escaped unaided from the building sustained painful but not dangerous injuries.

It is generally believed that the explosion was the work of anarchists whose headquarters are at Barcelona. It is expected that a number of arrests will be made in that city of men who are supposed to be implicated in the outrage.

The affair is supposed to have some connection with the recent revolutionary movement in Barcelona where the opponents of the government have shown much activity of late. These arrests, it is said, will be made chiefly among the men employed in printing offices which are devoted to the publication of anarchist literature.

founders of the Elks and a member of the original convivial club from which the organization was evolved. He was expelled many years ago. Mr. Stierly was this morning restored to membership and becomes one of the oldest Elks in the country.

The grand lodge voted to issue charters to twenty of the twenty-three lodges instituted during the past year. The lodge at Fargo, N. D., having been burned out, it was voted to donate it a complete set of new lodge paraphernalia and also to give the brothers a year in which to pay for their charter.

The incoming exalted ruler was instructed to put a stop to the use of Elk insignia for advertising or business purposes.

## AMERICAN MECHANICS RETICENT.

DETROIT, June 21.—The Junior Order of American Mechanics resumed their secret session at 9 o'clock but adjourned at 11 o'clock. Nothing was given out about the business transacted. A parade formed at 1 o'clock and of those participating the local members of the order were in the majority. After the parade the delegation boarded the ferry boats and a ride was taken up and down the river, after which the party was given a banquet at Des-Chreese Skoka.

## TREASURY FEELS BETTER.

Gold Is Increasing—May Anticipate July Interest.

WASHINGTON, June 21.—United States Treasurer Morgan today received a cablegram from London stating that Baring, Magoun & Co. of New York and London had shipped \$900,000 of gold to the United States. This is the first shipment of foreign gold in any considerable quantity to the United States during the present month and is looked upon as showing that the tide in gold exports from this country to Europe has turned.

For the past three weeks no gold has been exported from New York to Europe and as a consequence the treasury has been gaining gold during that period, the net gold balance today standing at \$94,050,310. In the building up of this gold the treasury department has redeemed nearly \$6,000,000 gold certificates, the amount outstanding today being \$98,570,000 against \$104,000,000 on the first of July interest.

The receipts and expenditures of the treasury department have kept about even during the month. The stated balance today is \$26,420,415. Of this amount \$12,233,000 is in subsidiary silver and minor coin and \$11,921,000 is in the national bank deposits. This statement shows that the treasury is provided with a good working currency balance, so much so indeed, that it will probably, though this is as yet not determined, anticipate the quarterly interest due July 1 on the United States 4 per cent. bonds and Pacific railroad bonds and pay this interest next week.

## ENGINES LOCKED HORNS.

Both Engineers and Both Firemen Were Badly Hurt.

GALESBURG, Ills., June 21.—The Chicago, Burlington & Quincy had a serious head-end collision just east of Buda at 4 o'clock this morning, owing to a wrong order from the operator. A fast stock train going east and an engine running light west met just around a curve. The enginemen jumped but such was the speed of both trains that they were seriously injured. Engineer A. E. Hoover's head was badly bruised and cut. Engineer D. Wilfers was injured about the head, arms and legs. Fireman H. Hancock lost part of one hand and sustained a fracture of the right leg. Fireman John Doran was bruised and cut about the head. All four were knocked senseless. Both locomotives were badly wrecked. The track and ties were sunk a foot in the ground at the place of the collision.

## SENATOR STANFORD DEAD.

California's Senior Senator Passes Peacefully Away at His Country Home.

## NEAR THE GREAT UNIVERSITY WHICH HE FOUNDED.

It Is Memorial to His Only Son and Will Inherit Most of His Great Estate.

## HIS ENDURING MONUMENT.

MENLO PARK, Cal., June 21.—United States Senator Leland Stanford died at 12 o'clock last night. He passed away peacefully at his residence in Palo Alto.

SAN FRANCISCO, June 21.—Various estimates have been made from time to time of Senator Stanford's wealth. He has been by many placed as high as \$20,000,000 and even \$30,000,000 and again there have been those who have leaped all barriers and placed his wealth at \$70,000,000. Considering his interests in the Southern Pacific system, the great Palo Alto and Vina ranches, his city and country residences, it is difficult to arrive at what he actually was worth.

The residence at Palo Alto with its extensive grounds is undoubtedly the finest of its kind in California, and perhaps there are no country residences in America in all respects so fine. It is here that the senator has spent most of his time since he returned from Washington. In his residence there and on California street are pictures and statuary that have cost hundreds of thousands of dollars. He has lived like a king, traveled, as all know, by special car and with a retinue of attendants that has astonished even the richest men of the world.

Senator Stanford was born in Water-vliet, Albany county, N. Y., March 9, 1824. He was admitted to the bar and began practice of the law at Port Washington, Wis., in 1848. He married Jane Lathrop at Albany, N. Y., in 1850. He removed to California and engaged in mining in 1852. In 1860 he was delegate to the national Republican convention that nominated for president Abraham Lincoln, of whose nomination he was an earnest advocate. He was elected governor of California in 1861. He was chosen president of the Central Pacific Railroad company in 1861 and drove the last spike of the Central Pacific railway at Promontory, Utah, in 1869. He was elected United States senator from California in 1885. He founded Leland Stanford, Jr., university as a memorial to his only son, who laid its corner stone in 1887 and opened it in 1891. He was re-elected United States senator from California in 1891. It has always been understood that most of his great estate would go to the university, for whose use he has already turned over property valued at more than \$10,000,000.

CHICAGO, June 21.—Governor Markham of California declined today to discuss who would be named by him as Mr. Stanford's successor in the United States senate.

## LIZZIE BORDEN'S RETURN.

Comes Back With Her Sister to Their Old Home.

FALL RIVER, Mass., June 21.—Lizzie A. Borden returned with her sister this morning to her home on Second street, after having spent the night at Mrs. Charles B. Holmes' residence on Pine street. They drove up to the gate in a closed carriage and their entrance was most painful to witness. There were very few spectators for the crowds of last night knew nothing of the hour when the long-imprisoned girl would return. They denied themselves to all newspaper men in accordance with the suggestions of their counsel. The sofa on which Mr. Borden lay when he was murdered is at the central police station and will not be removed for a day or two. Miss Lizzie spent a very pleasant night and was very cheerful at breakfast in the Holmes residence this morning. The two girls broke down completely when they entered their old home. Today Andrew J. Jennings is receiving letters and telegrams of congratulation from all parts of the country and Miss Borden's mail at the postoffice is very heavy. The temper of the people of the city has changed greatly by the verdict and there is a manifest respect for the decision of the jury.

## MINERS ARE DESTITUTE.

Many Strikers Will Have to Go to Work Soon.

PITTSBURG, Kan., June 21.—A final attempt is being made this evening to settle the miners' strike. Committees from the strikers and the mine owners met at 7 o'clock. Each party made a final proposition. The proposition from the operators is fifty cents per ton on yearly contracts or pay on the old basis for lump coal only, weighing at top and bottom, guaranteeing six cents per ton more than the men were getting before. It cannot be learned what the miners propose. It is generally thought that if a settlement is not reached tonight the operators will ship negroes in and put them to work. Many of the striking miners are now destitute and they have been receiving from the business men will soon be shut off. A number of them have signified their intention of going to work immediately if settlement is not reached at once.

A special meeting has been called by the United Smeltersmen of America for the purpose of taking action to investigate the discharge of union men and to discuss other matters pertaining to the miners' strike as it is understood that a cut will be made in their wages if a settlement of the miners' trouble is not made at once.

## HONORS FOR BRAVE MEN.

Edward Weise and Martin Knudsen Awarded Life Savers' Medals.

WASHINGTON, June 21.—Secretary Carlisle has awarded a silver life saving medal to Edward F. Weise of Milwaukee, Wis., for rescuing a man from drowning in the Milwaukee river in August, 1890. He has also awarded a silver life saving medal to Martin Knudsen, keeper of the Pilot Island lighthouse, Wisconsin, for assisting in saving the lives of seven men and one woman from the shipwrecked schooner A. P. Nichols in November, 1890.

## CHINESE POSTAL SERVICE.

Sir Robert Hart's Plans for Modern System Approved.

SHANGHAI, June 21.—The imperial government has approved Sir Robert Hart's scheme of postal reform submitted to the ministers some time ago and will set it in operation throughout the empire. A system managed by competent foreigners will be submitted for the present native system. When the changes shall be completed China will seek admission to the postal union.

## DOINGS OF THE ELKS.

Twenty Charters Ordered Issued and Sterily Reinstated.

DETROIT, June 21.—The secret meeting of the Elks grand lodge was resumed at 10 o'clock this morning and was occupied chiefly with routine business, the most interesting thing being the disposition of the long standing grievance of Richard R. Stierly of Houghton. Mr. Stierly was one of the

NATURALLY the cheap confidence man and dead-beat at Ewen finds a sympathizer in the similar character at Marquette.

A MAN who will deceive and defraud his own partner and swindle his own employees is hardly the man to be trusted with the administration of an important government office.

REMARKS the Grand Rapids Herald: "Report comes from London that shipments of gold to this country will be made this week."

MARQUETTE has harbored a pretty adroit confidence man for a couple of years, and he has managed to "canoodle" not a few dollars out of soft-hearted people here by his tales of woe.

LATE estimates of the loss by the fire at Virginia City place it at over a million dollars, with insurance amounting to about a quarter of that to cover it.

THE "turned down" aspirant for the position of register of the land office at Marquette has had a great deal to say in his paper of late about the "aliens, renegades and half-breeds that are now running things as the Democracy of this vicinity."

THE evidence in the Ford's theatre disaster case at Washington has shown a petty tyranny among official chiefs and an unusually few among clerks.

time arrives the board will personally examine all the locations proposed in accordance with the terms of the act providing for the establishment of the asylum on this peninsula and will accept for the state that which in its belief is most desirable, taking into account accessibility from all parts of the peninsula, economy in conducting it, and such other considerations as may properly enter into the question of its location.

GENERAL ALGER does not appear to be apprehensive that the old soldiers are going to be treated badly under this administration. He is quoted as saying: "I have seen nothing that indicates to my mind a hostile feeling on the part of the present administration toward the pensioners, and I am willing to give it credit for a purpose fairly and honestly to administer the pension laws as they exist."

At THE MINING JOURNAL—Since the appointment of D. Z. Curtis as register of the land office at Marquette by President Cleveland was revoked some of the Democrats here have manifested a disposition to sympathize somewhat with the "turned down" individual, thinking that it was an injustice to thus treat a staunch member of the party.

At the electric light convention in St. Louis Mr. L. B. Stillwell remarked that the Central station manager, who is buying energy in the form of coal and selling it in the form of light and wasting it at every step in the process, is losing far more before the energy passes through the dynamo than afterward.

### Self Torture!

That's what it amounts to, when you attempt to do washing and cleaning, now-a-days, without Pearline. And the strange part of it is, that you should be willing to suffer, when it's only for your loss and not for your gain. That needless back-breaking rub, rub, isn't saving you anything. It's costing you money. It is simply wearing out the things that you're washing. Why would you rather do it? That is what the women who are saving their strength and their clothes with Pearline can't understand.

**Beware** Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, if your grocer sends you an imitation, be honest—send it back.

## ANDERSON AND HIS ALLEY.

Was Not Going to Let It Be Opened but Changed His Mind.

**EMIL PIRTIMAA JUMPED INTO PORTAGE LAKE**

Although He Could Not Swim and Was Warned That the Water Was Too Deep.

[All communications for copper country department and publications should be addressed to A. F. Lester, Houghton.]

**RED JACKET.**

The redoubtable Bill Anderson and Street Commissioner Little had a small quarrel Wednesday morning. Anderson had possession of an alley in the rear of his Pine Street barn and had refused to allow it to be opened. Commissioner Little being fully aware of Anderson's pugilistic disposition tried to avoid trouble and got his gang of men to work as early as 3 o'clock in the morning, but Anderson, anticipating Little's movements, was on hand with his gang and drove off Little's men. Anderson then hired a gang of masons to build a stone wall on the line where he wanted the building to stand, but a warrant in the hands of an officer for his arrest put a stop to the matter and the village laborers proceeded to fill in the excavations Anderson had made.

An inquest was held Wednesday at Coroner McDonald's office on the body of Johnnie Unsworth, aged 2 years, son of Mr. and Mrs. Joseph Unsworth, who was killed Tuesday evening about 6 o'clock near the Hancock & Calumet depot by being run over by a freight car. The juror was John P. Roberts, Richard J. Burge, Joseph Oleyowich, W. G. Olds, William Jewell and James Little. The verdict was accidental death, exonerating the railroad employees from blame.

F. A. Kohlhaas made a complaint against Fred Chop for making so much noise and disturbance nights that the neighbors could not sleep. The examination was held at Justice McDonald's court after noon, Chop was found guilty and fined \$10, which he paid.

F. A. Kohlhaas and wife left on the noon train yesterday for the White City.

**CALUMET.**

E. R. Ostrander and wife left yesterday for Chicago where they will meet Mr. and Mrs. George Parichase and the party will spend about three weeks at the World's Fair.

Mr. James McGrath and Miss Mary Kelly were married yesterday morning at the church of the Sacred Heart, Rev. Father Pacific officiating. Two sisters of the bride acted as bridesmaids and brothers of the groom and bride were best men.

**LAKE LINDEN.**

As early as 4 o'clock yesterday morning some of the French-Canadian residents were seen hurrying to the Hancock & Calumet depot to take the special train for the pilgrimage to the shrine of St. Anne de Beaufort. When THE MINING JOURNAL reporter was at the depot the platform was filled with the excursionists. About seventy-five persons left the copper country.

Professor Magnus Ihsing and students of the Colorado Mining school arrived here at an early hour Wednesday morning on a special car over the Hecla & Torch Lake line in charge of Superintendent Will A. Childs. The party visited every part of the mammoth stamp mills and the Calumet & Hecla smelting works.

**HANCOCK.**

Emil Pirtimaa, the young man drowned Tuesday evening, was played in August Pelt's tailor shop, having been working there for about a year. He had only been in this country about a year and a half. The weather being so warm Tuesday he went to the copper mine with a plan to go for a swim at the end of the day. They went down to the old brickyard dock, just opposite the Mineral Range point. The water there is about 15 to 18 feet deep. His companions jumped in before him and he asked one of them if he could touch bottom. The other tried and finding that he could not told Pirtimaa so and knowing that the latter could not swim told him not to jump in. He had not gone 50 feet when he heard a splash and looked back and saw that Pirtimaa had jumped in. He immediately swam back but the boy did not come up. An alarm was immediately given and the lake was dragged. The body was recovered by John Wright, Justice Finn was notified and ordered the body taken to the undertaking rooms of D. Crawford where the coroner's jury was impaneled and the testimony of witnesses was heard. A verdict of accidental drowning was rendered. There was some talk on the streets that the young man was pushed into the lake but as there was only a little boy standing on the dock a short distance from him this story is not likely to be true and even his companions deny it. His parents were notified and came up from Portage on the tug Hennes yesterday morning. The funeral was held from the Finnish church at 1 o'clock yesterday with interment at the Hancock cemetery.

Mrs. Mary Kelly, aged sixty-seven years, one of the oldest residents of this city, died at 3 o'clock yesterday morning of bronchitis. She was born in Limerick, Ireland, and came to Hancock forty years ago. Here she was married to Mr. Kelly, who was in the grocery business. The house in which he kept store is still standing. It was one of the first houses built in Hancock. Shortly after Mr. Kelly's death, which occurred twenty-nine years ago, this house was sold to the church and is now being used as a convent. Mrs. Kelly had been in excellent health up to the death of her son Matthew about eight years ago. Since that time she has been gradually ailing and for the past three weeks has been seriously ill and her death was momentarily expected. She leaves one son, Joseph R. Kelly, who is married. The funeral will be held from St. Patrick's church Friday morning.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 5th of May, while in Des Moines en route to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to traveling often produce a diarrhoea. Every one should procure a bottle of this remedy before leaving home. For sale by H. H. Stafford, Son & Co.

NOT AFRAID OF THE HEAT.

Fair Grounds Like Turkish Bath but Over One Hundred Thousand Present.

GREAT FERRIS WHEEL IS FORMALLY DEDICATED.

Preparing for Grand Spectacular Ball of All Nations-Russian Women's Exhibit is Opened.

DAYS IN THE WHITE CITY.

CHICAGO, June 21.—The atmosphere at the White City today reminded one strongly of the steam room in the Turkish bath. It had rained pretty nearly all night and this morning the sun rose with scarcely a breath of air stirring.

The great Ferris wheel was dedicated late this afternoon. It was the intention to have started it at 3 o'clock, but it was 4:30 when the signal was given for the huge machine to start.

The Russian section in the Woman's building was opened for a private inspection this morning and tomorrow it will be thrown open to the public.

The section is surrounded by a heavy wood fence gilded. The exhibition is principally of work done by Russian peasants. Great skill is shown in needle work and embroidery of every variety.

The New Hampshire building will be opened next Monday but those who are to participate in the exercises are arriving early on the grounds.

Germany's collective exhibit of wines in the southern court of the Horticultural building was opened this afternoon.

Another attraction of the fair is being arranged by the Exposition authorities and the people of the Midway Plaisance. The success of the parade of the nations last Saturday was such that it will be repeated and in addition to this it is proposed that all the nations take part in a grand ball to be given in the stock pavilion the first week in July.

The colossal statue of Gladstone which was erected in London and is the work of the Irish artist, Bruce Joy, has been reproduced by him in plaster for the World's Fair and will be unveiled Sunday, June 25, in the banquet hall of Donegal Castle on Midway Plaisance.

They Burned the Vampire.

To most people the word "vampire" only brings up visions of noxious South American swamps, whose banks team with venomous creatures, legless and otherwise, nightly visited by myriads of large, leathery winged bats, which are reputed to have an insatiable taste for human blood.

Migration an Instinct?

THE UNIVERSAL LANGUAGE. The Germans not only look upon their language as an integral and essential part of the national life, but the more cultivated classes reverse it with an almost idolatrous veneration.

These facts render all the more noteworthy a leading article in Professor Hans Delbrueck's "Preussische Jahrbucher," perhaps the most prominent of German literary reviews, it is from the pen of Dr. A. Schroer, professor of philology at the University of Freiburg, and its subject is the importance of introducing into the schools the study of a universal language (Welt-sprache).

The writer begins by condemning all attempts, however slight, by its competitors in artificial language, like Volapuk. "No language which possesses neither literature, historical development nor linguistic relations can ever serve as a medium of general communication, for the reason that no one will take the trouble to acquire it merely as a 'tool of trade' and discipline, but as an impulse to originality of thought and expression."

Such attempts, however, are not only idle and aimless because they can never obtain the general consent of mankind, but they are useless, for, says Professor Schroer, there exists already a universal language—i. e., a language which by its constant use over the whole earth and by the ease with which it may be learned has already gained such a long step in advance that neither natural nor artificial means can deprive it of its assured position as the future medium of international intercourse, and this language is the English.

It is interesting to find this fact acknowledged and promulgated by one of the foremost of German periodicals. During the present century the English speaking population of the world has increased fivefold—from possibly 25,000,000 at its commencement to at least 125,000,000 at this date.

Professor Schroer is careful to warn his readers not to set their aim too high, for to learn to speak and write fluently and correctly a language which holds so high a place in the scale of culture and refinement as the English is "monstrously difficult," but for the average man this is not necessary, for even the average Englishman has but a limited command of his mother tongue, and the daily intercourse of life requires but a small and easily acquired vocabulary.

When a House Is For Rent. It isn't the pleasantest thing in the world to live in a house with a sign "To Let" on it. It is decidedly exasperating unless one has the patience and the disposition of an angel.

Tennyson on His Own Courage. In The Century Mr. John Addington Symonds, the well known English art critic, in a reminiscence of an evening at Woolner's—the sculptor—where Gladstone and Tennyson were present, relates this of the laureate:

How Lead Pencils Are Made. Few people are aware of the difficulties that were surmounted in the manufacture of the common lead pencil. The twenty-third great council of the Improved Order of Redmen, held in Ishpeming Monday, Tuesday and Wednesday of this week was of considerable interest. The officers present were: Great Sachem, P. H. Trezise of Ishpeming; G. S. S., Alex Millman of Iron Mountain; G. J. S., Chas. Stevenson of Eaton Rapids; G. C. of R., F. C. Temple of Grand Rapids; G. K. of W., R. E. Brackett of Lansing; G. P., Andrew Schaeffer of Grand Rapids; G. R. of W. S., W. T. Cole of Ishpeming and Alex Harper of Grand Rapids. The delegates present were: John Jenkins of Calumet; Messrs. Mildren and Rogers of Ironwood; W. H. Homes of Pottsville; Robert Whinery and Daniel Scheyneniss of Grand Rapids; A. W. Strobel of Diamond Lake; John Richardson and Chris Peterson of Negaunee.

Monday evening degree team work was taken up. Chief of Records, W. T. Cole, was presented with a handsome regalia and badge by Gitchie Gumme tribe, the presentation speech being made by W. T. Cole. Mr. Trezise has faithfully filled the office of chief of records for the past five years. The regalia cost \$35 and is a fine one. Yesterday morning at the session of the great council Great Sachem Trezise's report was read. It showed a good gain in membership during the past year. The reports of the great keeper of records and the great keeper of wampum were also read and showed the order to be in good financial condition. An entire new code of by-laws was adopted.

Tuesday evening was devoted to degree work and speech-making by some of the officers present. Hon. A. J. Schaeffer, ex-collector of customs, and Hon. P. C. Temple, an attorney-at-law of Grand Rapids, delivered very able addresses. At the conclusion of the session a banquet was tendered the visitors in the tribal wigwag.

Yesterday morning great council officers were elected as follows: G. P., Alexander Millman, of Iron Mountain; G. S. S., Charles Stevenson, of Eaton Rapids; G. J. S., W. Mildren, of Ironwood; G. C. of R., F. C. Temple of Grand Rapids; G. K. of W., R. E. Brackett, of Lansing; G. P., W. T. Cole, of Ishpeming. In the afternoon the officers were installed by Grand Representative W. T. Cole. The next annual great council will be held at Red Jacket, commencing on the third Tuesday in June, 1894.

At the conclusion of the afternoon session a carriage drive about the city was indulged in, and in the evening the visitors attended a meeting of Pecononats lodge, at which degree work was done, after which came a banquet. The visiting tribes from the upper peninsula towns in attendance, will parade the streets today, starting at 11 o'clock. Several of the lodges that previously announced the intention of being here today were unable to secure satisfactory railroad rates and will therefore not be present. The evening session will conclude with a grand ball in the wigwag of Gitchie Gumme tribe.

### Entertainment This Afternoon.

The entertainment to be given this afternoon at 2:30 o'clock by the pupils of St. John's parochial schools, assisted by Miss Minnie Sullivan, promises to be of unusual interest. ### The Ladies at Work.

There was a large attendance at the meeting of lady friends of the Ishpeming fire department, held Tuesday evening at the department parlors for the purpose of appointing committees and completing arrangements to take charge of the refreshments at the firemen's picnic on the Fourth. In fact the room

was crowded. Herman Jaedecke called the meeting to order, explained its object, and extended the thanks of the department to the ladies for the interest they had shown in responding so largely, concluding by suggesting that a committee of five be appointed to manage affairs generally and to confer with the arrangement committee of the department. As such committee the following ladies were named: Mrs. H. J. Stevens, Mrs. Will Shea, Miss Katie Schollinger, Mrs. James A. Gavnor and Mrs. August Thoney. The names of several other ladies were suggested but they all declined, stating that they were willing to do everything possible for the cause but would not serve as members of the committee.

Mr. Jaedecke then invited the members of the ladies' committee to the seats occupied by the members of the arrangement committee and turned the meeting over to them. Mrs. Stevens took the chair and called the ladies to order, stating that the appointment of a secretary was in order. Miss Bridget O'Laughlin was chosen secretary and the appointment of sub-committees to take charge of tables, lemonade and ice cream stands, etc., began. After naming the various committees the ladies adjourned to meet again subject to the call of the chairman of the committee.

### Paper Gone Astray.

The advertising paper for Duncan Clark's female minstrels, booked to appear here on Monday evening next, the 29th, was shipped for Ishpeming from a Wisconsin town on the 10th, but has not yet arrived. Traces have been sought after it and it is probable that the bundle will be found at last a few days in advance of the show. Duncan and his lady performers will be here just the same on Monday whether the paper is found or not.

### ISHPEMING IN BRIEF.

F. P. Tillson got home from Chicago yesterday.

Mr. and Mrs. Ole Walseth returned home from the World's Fair yesterday.

The Union Park track was thoroughly scraped and leveled up yesterday.

A Scandinavian picnic will be held at the Deer Lake grove Saturday next, the 24th.

At the regular meeting of the Sons of St. George lodge, this evening business of an important nature will be presented. All members have been requested to attend the meeting.

The children of St. Joseph's congregation gave a very pleasing entertainment, consisting of vocal and instrumental music, in the convent hall yesterday afternoon. The attendance was large.

Strawberries and ice cream will be served and vocal and instrumental music will be rendered at the lawn social to be given tomorrow evening by the Young People's society of the Bethany church on the church lawn. All are invited.

The Salvation Army will give an ice cream festival at the army barracks on the Fourth. Members of the Negaunee army will be present. The admission, including ice cream, will be 10 cents, and all who attend will be made welcome.

James George will leave today for California on a visit of several months for the benefit of his health. On his way west he will remain a few days at Chicago viewing the sights of the World's Fair. Mr. George has a brother living in California.

P. J. McGinty went to Canada yesterday on the Ste. Anne de Beaupre excursion. While away Mr. McGinty will visit St. Clair Heights at Detroit, in which property he is interested, being the upper peninsula agent for the sale of lots there. On his return he will also visit the World's Fair.

### THIRD ANNUAL PILGRIMAGE.

TO THE SHRINE OF THE GOOD SAINT ANNE.

The 1893 pilgrimage to this famous miracle-working shrine is being organized by the South Shore under the auspices of the Clergy of the Upper Peninsula of Michigan, leaving Wednesday, June 21, 1893, and promises to be the largest ever sent out from the upper peninsula. Tickets from Houghton, Marquette and intermediate stations will be \$25.00 for the round trip. They will be good going only on the special train leaving June 21st, but will be valid for return passage on all regular trains until July 21, 1893, and will allow passengers to stop off at any point en route in Canada.

The special train will be run leaving Houghton 9:30 a. m., stopping at all stations to take on pilgrims, leaving Marquette 12:40 p. m., arriving at Sault Ste. Marie 6:10 p. m., where connections will be made with a special train over the Canadian Pacific R'y., arriving at Montreal the following afternoon. The special train will be run to Montreal only, as it is expected the majority of the pilgrims will want to stop over in that city for the grand celebration of the St. Jean de Baptiste societies, which takes place June 24.

A feature this year will be the Palace Sleeping cars and Tourist Sleepers that will be attached to the Canadian Pacific special train. The rate per double berth in the former from Sault Ste. Marie to Montreal will be \$4.00 and berths in the Tourist Sleepers will be at a nominal price.

Anticipating that a number of excursionists will want to visit the World's Fair on the return, arrangements have been made by which excursion tickets entitling holders to return via Chicago will be sold at the low fare of \$33.00 for the round trip. This will be one of the choicest summer excursions offered to the people of this section, as it includes not only a visit to the principal cities of the Dominion of Canada, but also gives the tourist an opportunity of visiting Detroit and the World's Fair on the return trip home.

**BRINGING THEM BACK AGAIN.**

The D. S. S. & A. Helping Out Upper Peninsula People Ruined by Mesaba Fires.

**ELECTION OF DIRECTORS OF THE STREET RAILWAY LAST NIGHT.**

Bradley's Shingle Mill Making Big Records—Burned Trestle Repaired. Married Yesterday Morning.

**RAILROADS TO BE PROUD OF.**

Few can realize the widespread ruin visited upon the whole Mesaba range by the forest fires. Ever since Virginia and a number of her sister towns were wiped out last Saturday and Sunday hundreds and even thousands of homeless and destitute people have been carried into Duluth and Tower by both of the Mesaba range roads for shelter and support and it is now stated by officials of the Duluth, South Shore & Atlantic that their trains since Monday have been crowded with Mesaba refugees who were brought down from Duluth to their old homes on the Gogebic and Marquette ranges free of all charge. In view of the noble work of General Manager Philbin and President Merritt of the Duluth, Missabe & Northern and President Greatsinger of the Duluth & Iron Range roads in first rescuing and then relieving the wants of the fire sufferers and especially in view of the policy adopted by the officials of "the Marquette route" which is in no-wise interested in the Mesaba range or its development who can say that Lake Superior railroad corporations "have no souls?"

**Election of Directors.**  
The annual meeting of the stockholders of the Marquette City & Presque Isle Railway company was held last evening at 8 o'clock at the office of the president, Hon. F. O. Clark, in the Harlow block, all but twenty-six shares of the capital stock being represented. The election of a board of directors for the ensuing year resulted in the choice of the following: F. O. Clark, James Connolly, Peter White, C. H. Kelsey, Mrs. Olive L. Harlow, B. W. Wright of Ishpeming, and M. E. Asire. The new board of directors will meet on Friday afternoon for the election of officers.

**Hustling Out Shingles.**  
The Bradley shingle mill was shut down yesterday while a bent counter shaft was being straightened. Mr. Bradley is giving the mill his personal supervision this season and it is making a far different record than ever before, cutting as high as 110,000 a day, not counting culls and shorts. Mr. Bradley is employing seventy-one men now as compared with about forty last year but is still short-handed on bolters, having had trouble all the spring to secure enough skilled men in that department to keep things on the jump. He is giving good wages and pays promptly on the 10th of every month.

**The Road Open Once More.**  
Repairs on the burned trestles on the Duluth division of the D. S. S. & A. were completed last night so that trains 5 and 6 will resume their through run again today. One is the train leaving here at 9:05 a. m. and the other the train arriving at 5 p. m. During the week they have been running between Marquette and Houghton only.

**Married Yesterday.**  
Mr. Stephen Lowney, land looker for the Michigan Land & Iron company, and Miss Laura Wamber, of Craig street, South Marquette, were married yesterday morning by Rev. F. Langan, pastor of St. Peter's cathedral, at the pastor's residence near the cathedral. Mr. and Mrs. Lowney will reside on North Pine street. Mr. Lowney having purchased the Max Bielenberg residence in the Longyear addition as a home for his bride.

**Will Celebrate at Ishpeming.**  
Morse Hose company No. 3 of this city, or in other words the Marquette Fire department, has accepted an invitation to go to Ishpeming on July 4th to take part in the grand celebration to be held there under the auspices of the firemen of Ishpeming. John Jones, Jr., and Fred Collins were down from the Hematite metropolis yesterday billing the city for the celebration and while here they made arrangements with the passenger department of the D. S. S. & A. for a special train to leave for Marquette at 11 a. m., after the grand display of fireworks. The celebration will be held at the Lake Superior grove and every effort will be made by the Ishpeming hustlers to give every one attending dead loads of pleasure.

**Closing of Public Schools.**  
All the grades in the public schools except the eighth will close for the year this afternoon. The eighth grade will have its closing exercises at the Ely building at 8 o'clock this evening, about thirty-five being passed to the high school by certificate.

The high school commencement will take place at the Marquette Opera House on Friday evening when an admission fee of ten cents will be charged to defray expenses. There are eighteen in the graduating class, making the class of '93 the largest in the history of the Marquette High school.

**At St. Joseph's Academy.**  
The annual commencement exercises of St. Joseph's academy will take place on Wednesday evening, June 28, at 8 o'clock in the basement of St. Peter's cathedral.

**Died at Grand Rapids.**  
Brigadier General H. F. Hastings of the Michigan brigade, Uniform Rank, Knights of Pythias, died at his home in Grand Rapids on Monday. He was past eminent commander of the famous De Molay commandery, Knights Templar, of Grand Rapids; past commander-in-chief of De Witt Clinton consistory, Scottish Rite Masons; a thirty-third degree Mason and a Shriner. In business

circles he was also a prominent figure, being a director in the People's Savings bank and connected with numerous mercantile institutions. General Hastings leaves a wife and one daughter.

**Off for Montreal.**  
Among the Marquette people who joined the big St. Anne de Beaupre excursion to Montreal over the D. S. S. & A. and C. P. railways yesterday afternoon were Dr. J. A. Desjardins, Conductor Louis Reau and Miss Anna Bernier and her cousin, Miss Tranche-montagne. P. J. McGinty of Ishpeming and F. J. Bawden of Houghton also joined the party here.

**Base Ball.**  
There will be a return game at the fair grounds on Sunday afternoon between the Setters of Ishpeming and the Rivals of Marquette. Judging from the close game last Sunday at Union Park the game will be hotly contested, the Rival's left-handed twirler being very effective. The admission will be fifteen cents; grand stands ten and five cents.

**WHY?**  
Taste of "Royal Ruby Port Wine" and you will know why we call it "Royal." A glass held up to the light will show why we call it Ruby. \$500 reward for any bottle of this wine found under five years old. It is grand in sickness or where a strengthening cordial is required; recommended by physicians. Be sure you get Royal Ruby. Sold only in quart bottles; price, \$1. For sale by H. H.
