WEATHER WAS DELIGHTFUL.

Attendance at the World's Fair is Growing Steadily and Rapidly.

RAILROADS BEGIN TO RUN EXCURSION TRAINS

Governor William McKinley Visits the Grounds and is Cheered by the Assembled Thousands.

DAYS AT THE WHITE CITY.

CHICAGO, June 22.—Newport nor Baden nor Brighton Beach nor any more delightfully pleasant than the White City in Jackson Park today. There was not a cloud in the sky, the air was cool and invigorating, a bracing wind blew from Lake Michigan and never was the World's Fair more like a paradise than it was today. The visitors rolled in at the gates like a great stream and scattered out over the grounds until they looked a sea of human heads. The superintendent of admissions tonight gave it out as a conservative estimate that the total paid admissions for today would run above the 150,000 mark. The total attendance for yesterday was 132,368.

EXCURSION SEASON OPENS.

Two excursion trains on the Pennsylvania system were run into the big terminal station this morning, depositing between 800 and 1,000 people at the park. Besides this number many of the excursionists left the train before the grounds had been reached and were transferred to hotels. One of the trains started from Logansport and the other started from Fort Wayne. Both picked up passengers at intermediate points. While several excursion trains have been run into the terminal station those of today practically mark the beginning of the excursion season and it is confidently expected that during the summer people from all parts of the country anxious to visit the fair will be given the benefit of reduced rates and can come direct to Jackson Park without suffering the inconvenience of transferring at Chicago.

ATTENDANCE IS GROWING.

The steady increase of strangers at the fair is becoming more noticeable each day and the daily attendance is growing at a rate that convinces the exposition officials that the enterprise is destined to be a financial success. The total attendance yesterday was equal to that of the second week of the fair and is believed that the total for this week will be the greatest total as great as the total for the entire month of May. Excursion trains are beginning to run to the fair from cities at a distance from Chicago, and the big summer hotels built especially for World's Fair visitors in the vicinity of the grounds are fast filling up.

The viticultural section of the Portugal exhibit in Horticultural Hall was formally opened today by Royal Commissioner Ribeiro. There was no formal program. A large number of visitors were present.

There was a large crowd in the Woman's building this morning when the Mexican exhibit was thrown open to the public. People swarmed into the enclosure where the display is arranged.

RECEPTION TO MCKINLEY.

Governor William McKinley, Jr., of Ohio arrived in Chicago this morning and followed the crowd to the fair. It was his first visit to the exposition and he was honored by an informal reception by the Ohio commissioners at the state building. He was accompanied by his wife. Commissioners Ryan and Sexton met the governor at the residence of Mr. McWilliams about 2 o'clock and escorted him to the fair.

On entering the grounds the celebrated high tariff advocate was recognized by many and he was cheered lustily by the crowd which followed the carriage to the Ohio state building. Here a large concourse of people had gathered and amid hearty cheers Governor McKinley passed within the building. He was met at the door by General C. M. Anderson. The doors of the building were thrown open and for an hour a solid stream of humanity crowded through and shook hands with the governor, after which he made an address.

EPIDEMIC OF SUICIDE.

Suicide and Insanity Enormously Increasing in Hungary.

VIENNA, June 22.—An epidemic of suicide has broken out in Buda-Pesth and other Hungarian towns. Seven cases of suicide were reported in Buda-Pesth yesterday. Cases of insanity are increasing in number and the lunatic asylums are full. This is attributed to the drinking of poisonous concoctions substituted for wine, which has become scarce through the ravages of the phylloxera.

Ignatz Abeles, a Jewish recruit, committed suicide in Vienna yesterday on account of the ill treatment to which he was subjected by petty officers. The authorities have ordered an investigation into the affair.

MYERS IS REELECTED.

Lively Contest Over Grand Secretaryship of the Elks.

DETROIT, June 22.—Most of the morning session of the Elk grand lodge was taken up with the consideration of the changes in the by-laws. Several new ones were adopted. An hour or more was then given to the report of the committee on grievances. After some twenty Elks whose names had been dropped from the rolls were reinstated balloting for officers for the ensuing year began. Ashley Appery of Louisville, Ky., was elected grand

Percy Williams of Brooklyn. Then the fight over the secretaryship began. Besides Allen O. Myers, the present incumbent, John W. White of Chicago, A. L. Fleming of Buffalo, Peter Rush of Detroit and James B. Cook of Indianapolis were candidates. White, Fleming and Cook withdrew in favor of Rush. The ballot resulted in the reelection of A. O. Myers by a vote of 103. Peter Rush received 88 votes.

NO SETTLEMENT REACHED.

Kansas Coal Mine Strike May Spread Over Other States.

PITTSBURG, Kas., June 22.—The conference between the committees of employers and striking miners last night was fruitless. No agreement could be reached, neither side being willing to make concessions. Several employers today posted notices stating that the strikers would be given ten days to return to work and if they refused to work that their places would be given to new men. It is believed the employers are arranging to import negroes from the south to take strikers' places. In that event trouble is sure to follow. Secretary Tracey of the United Mine Workers' association stated today that inside of ten days the miners of Missouri, Arkansas and Indian Territory will be out and word has been received from Colorado that the men there are willing to strike in aid of their Kansas brethren. J. F. Young of Scranton, Kas., representing 2,000 miners of Osage county, came to town today and said that the Osage and Scranton miners had sent him personally to assure the miners of Cherokee and Crawford counties that they would stay out until their fight had been won. Dispatches from Leavenworth state that the miners are still out there and will remain firm.

The appeal for aid sent to the eastern miners some time since is meeting with a hearty response. This is the first time that the west has ever asked for relief in the east. It is now the policy of the strike managers to shut down every mine in Kansas, Missouri, Indian Territory, Arkansas and Colorado. They will carry on the strike in the peaceful manner that has been pursued heretofore. The leaders, however, are fearful lest the employers import negro labor. In that event they say they cannot be responsible for results.

The W. & J. Lanyon company shut down one block of their smelters today on account of the lack of coal and others will follow in a few days.

HOME RULE BILL CHANGES.

Mr. Gladstone Announces Some Modifications and Redmond Kicks.

LONDON, June 22.—In the house of commons today Mr. Gladstone stated the alterations the government had decided to make in the financial clauses of the Irish home rule bill. He proposed a provisional term of six years to effect the financial arrangements. No change in managing or in collecting the existing taxes would be made. The Irish parliament would be empowered to establish new taxes. Ireland's contribution to the imperial exchequer would be a third of the ascertained revenue; also the whole yield of any taxes imposed upon Ireland by the imperial parliament expressly for war or special defense. At the close of six years the contribution and the whole arrangement would be revised. John Redmond, Parnellite member for Waterford city, gave notice that he would oppose the clause preventing the Irish parliament from collecting and regulating existing taxation as unjust and humiliating to Ireland.

FORT DEARBORN MASSACRE.

Mr. George M. Pullman's Splendid Memorial Gift to Chicago.

CHICAGO, June 22.—A splendid bronze memorial group, the gift of George M. Pullman to the city of Chicago, was unveiled this afternoon on the ground where most of the victims of the Fort Dearborn massacre of 1812 fell. The massacre by the savages of the soldiers, men, women and children who had left Fort Dearborn to make their way toward the eastern settlements was the first great calamity, the first dramatic event in the annals of the then untamed-of World's Fair city. The location of the monument is on the shores of Lake Michigan at Eighteenth street near the residence of Mr. Pullman. The oration at the unveiling this afternoon was delivered by ex-President Harrison, who spoke extemporaneously. The only other monument in Chicago commemorating a local historic event is the Haymarket monument on the spot where the anarchist riot took place.

SAYS IT WAS ACCIDENTAL.

Town Marshal Somewhat Careless With His Revolver.

VERMILION, S. D., June 22.—James Ginn shot and instantly killed Abel Bruyer about 2 o'clock this morning. Ginn is chief of police and attempted to halt Bruyer and some others who were driving through the streets too fast and making considerable noise. His story is that he fired to the ground when he told them to stop. They whipped their horses instead of stopping and he attempted to take the team by the bits when a blow from one of the horses discharged the revolver the second time, the ball entering Bruyer's heart.

SOCIALISTS LOOT A TOWN.

Serious Riot and Shops Plundered by the Mob.

VIENNA, June 22.—Great excitement has been caused at Andrichow, a town of about 4,000 inhabitants in Austria Galicia, by the rioting of a number of socialists who live in and about the town. The mob had full possession of the place for a time and took advantage of the opportunity to loot a number of shops. The military finally intervened and some of the rioters were killed and a number wounded. Troops are now stationed in various parts of the town.

WILL PREPAY INTEREST.

The Four Per Cent. Coupons Due July 1 Will Be Paid at Once.

WILL SOMEWHAT RELIEVE THE FINANCIAL STRINGENCY.

Several National Banks Fail and Pacific Coast is Alarmed—No Pension Deficit This Year.

SECRETARY CARLISLE'S ORDER.

WASHINGTON, June 22.—Secretary Carlisle has modified the notice announcing that the prepayment of interest would begin on Monday next. He has now decided that payment may be made as fast as delivery of the checks can be effected and the treasurer of the United States and the several assistant treasurers have been notified accordingly. Holders of 4 per cent coupons due July 1 may therefore now present them for payment without rebate and owners of the checks for July interest may have them cashed as soon as received.

MONEY TO SAN FRANCISCO.

Extensive shipments of money by telegraph from New York to San Francisco were made today by direction of United States Treasurer Morgan. The bank failures yesterday on the Pacific coast evidently spurred the banks to increase their supply of ready money to meet any emergency that may arise. This money is transferred in a simple manner. A bank in San Francisco telegraphs its New York correspondent to place in the sub-treasury at New York a given sum of money to its credit. The sub-treasurer at New York telegraphs the sub-treasurer at San Francisco to credit the bank with the given amount of money. The San Francisco bank thus saves the express charges and the government which receives gold for the money it transfers by telegraph, builds up its gold reserves. It is a mutual arrangement by which both the banks and the government are benefited.

TWO SAN DIEGO BANKS FAIL.

WASHINGTON, June 22.—Comptroller Eckels appointed Frederick N. Pauley a temporary bank examiner and placed him in charge of the First National bank and the Consolidated bank of San Diego, Calif., which closed their doors for business today. The capital of the First National bank is \$300,000 and at date of last report the nominal resources were stated at \$780,000. The capital of the Consolidated National bank is \$250,000 and at date of last report the nominal resources were stated at \$1,279,000.

NO PENSION DEFICIT.

There will be no pension deficiency for the fiscal year, which ends June 30. That is assured by figures obtained from the treasury department today. They show that the appropriations for pensions were: For the fiscal year 1892-93, \$146,737,350; deficiency for the year 1891-92 and prior years, \$14,144,884; total, \$160,882,234. Expended for pensions for eleven months ended May 31, \$147,946,366; for June up to today, \$10,380,000; estimate for next eight days of June, \$1,000,000; total, \$159,326,366. This will leave a surplus of about \$1,556,000 which will be turned into the treasury.

THURBER FOR GOVERNOR.

An evening paper says that Mr. Henry T. Thurber, private secretary to President Cleveland, is likely to be the next Democratic nominee for governor of Michigan.

TRAIN ROBBERS OUTWITTED.

Engineer Pulled Out While They Parleyed With Messenger.

ALBUQUERQUE, N. M., June 22.—An attempt was made to hold up a passenger four miles this side of Coolidge this morning by six men who flagged the train. On the conductor and brakeman stepping out they were covered with Winchester rifles and ordered to call upon Express Messenger Higgins to open the door of the car. The messenger, anticipating trouble, cautiously peered out and seeing the situation closed, fastened and barricaded the door. Engineer Lemon saw his chance, pulled the throttle of his engine wide open and leaving the conductor and brakeman with the robbers flew down the track. After the train had left the robbers liberated their prisoners and ordered them to follow the train.

WHAT WAS HIS REASON?

Strange Suicide of Wealthy Young Grand Rapids Man.

GRAND RAPIDS, Mich., June 22.—John A. B. Mead, a nephew of the late Major A. B. Watson and one of the most prominent young capitalists and businessmen of this city, committed suicide this morning by taking chloral. A young widow survives him. No motive for the deed is known among his friends and there is much surprise that Mead, who inherited a large sum of money from his uncle and who had a splendid business and a pleasant home, should kill himself.

PLAGUE-STRIKEN MECCA.

Eight Hundred Thirty Deaths from Cholera in Four Days.

LONDON, June 22.—Cholera reports received from Mecca show that from June 16 to 20 there were 830 deaths from the disease in that city.

ST. PETERSBURG, June 22.—Cholera is decreasing rapidly throughout Russia.

In Bessarabia, Podolia, Kursk and Orel only an occasional death and fresh cases are now reported.

MARQUETTE, MICH., JUNE 23.

Entered as second class in the postoffice at Marquette, Mich.

The character of the little coterie of newspaper curs who keep perpetually barking and snarling at THE MINING JOURNAL and its editors is the best possible recommendation the paper could have. The yelping pack can only bark—they lack the power or courage to bite.

THE German Kaiser appears to stand in urgent need of the services of some of the practical politicians of which this country has more than a sufficiency. Wouldn't it be a good idea for some of these who are out of a job here to swarm over there and get one? They can be spared.

By the death of Senator Stanford of California the Democratic majority will be increased two votes after the legislature of that state, which is Democratic, shall have elected his successor. For the present he will be succeeded by a Republican, the governor of the state, who will appoint a senator to fill the vacant seat pending the election by the legislature, being a Republican, but the Democrats will gather it in later. The luck seems to be with the other fellows this year, and no mistake.

THE Great Northern's sweeping cut in through rates from Seattle to St. Paul and intermediate points went into effect Monday and as its through tickets are acknowledged by the Chicago and Great Western between St. Paul and Chicago on the basis adopted by that company the people along its line have obtained reduced rates to the World's Fair in advance of those in older communities, who have a better claim to and more of a reason to expect concessions. Still, the start has been made and the other roads will now be apt to "do something."

"A PROMINENT upper peninsula Democrat, now in the east, has been charged with the mission of informing Mr. Dickinson of the correct situation of politics in this district. The move is made in order that Mr. Dickinson may not suffer for his action in matters in which he has been grossly deceived." So says the decapitated editor of the discredited organ on Superior street. It is pleasing to find that after its persistent and indecent abuse of Mr. White, the organ alluded to has been forced by the pressure of home sentiment to recognize and acknowledge the position in the party of that honored and influential member of the Democracy.

SENATOR BUTLER, of South Carolina, is out with a sensible expression of opinion regarding dictation by representatives and senators in the matter of federal appointments. He maintains that the appointing power being vested in the executive it is purely an executive prerogative and that members of congress in either branch are assuming altogether too much when they claim that their recommendations should be accorded more weight than those of other persons, and that the political positions in their respective states and districts are really only held in trust by the president for their sole use and benefit. The senator is sound on the patronage question.

SEEMS as if Menominee hasn't so dead sure a thing on that insane asylum as the esteemed Democrat of that city fondly and foolishly imagined. It is quite possible that when the locating board comes to look the ground over up here it will see the unwisdom of placing the asylum just this side of the Wisconsin line and at a point where it would be almost as remote from the bulk of population on this peninsula as if it were located in lower Michigan. Besides, when the board goes to Menominee it will visit the place to look at the proposed location for the asylum and not to gaze with awe on the congressman, state senator and representative whose residence there has made the city famous.

IF THERE remained any doubt as to the complete accord between the head of the Catholic church and Archbishop Ireland on the educational question it is set at rest by the pope's letter to Cardinal Gibbons sustaining the eminent Minnesota prelate in the liberal stand that he has taken relative to the public schools. There is nothing left for the non-progressive element in the church to do now but to broaden out their views and get into the procession headed by Archbishop Ireland. He is in the right, has the authority to which the church bows behind him and the hearty sympathy of all well-wishers of this republic with him in the good work that he is doing.

IN REPLY to inquiries as to the amount of United States bonds held abroad, a statement has been prepared by the treasury department at Washington showing that when the census of 1880 was taken coupon bonds of the United States to the amount of \$37,000,000 were estimated to be owned abroad. No effort was made to obtain similar estimates as to coupon bonds in the census of 1890, but from the checks

mailed from the register's office an approximate estimate is arrived at that the amount of United States registered bonds owned abroad is \$18,500,000. This includes both the bonds of holders who receive their interest direct from the treasury department and bonds of foreign owners who, for convenience, have their interest sent to their representatives in this country.

PRESIDENT CLEVELAND is quoted as having stated to a member of congress from one of the southern states that he feels very sure that the Sherman silver purchase law will be repealed at the special session of congress and financial legislation had that will relieve the business distress. If his confidence is well grounded there is in the fact cause for general rejoicing. The president is also stated to have expressed the belief that there is not any such need for tariff legislation as there is for congressional action to adjust the country's financial system to existing conditions. This, if true, is very creditable to the president's good sense. If congress will only fix up the financial system and let the tariff alone the country will soon get on solid ground again.

AH THERE! The smoked-out fraud on Superior street evidently does not dare to make a play for that \$50 put up by "One Who Knows" to back the proposition that the humbug never befitted him to the Democratic party before he came to Marquette to start his Hard Times in the hope of gathering the tax list—which, by the way, he didn't get because the Democrats of the lower part of the state knew him too well to waste patronage on him. He knows that "One Who Knows" knows so much about him and his antecedents that it isn't safe to call his hand! Discretion constitutes a very large share of the valor of the fraud who is now trembling in his boots lest the victim of his impositions and lies should acquaint the people of Marquette with his true character and damning record. THE MINING JOURNAL is simply holding that \$50 in trust. Come and get it, Dizzy, or stand convicted of being the political Hessian and fraud that this paper is prepared to prove you. This is business, and you need not be the least bit solicitous about THE MINING JOURNAL's ability to establish the facts. It has the proof of everything it offers to show concerning you right at hand.

FACTS ABOUT ANIMAL STRUCTURE. The complexity of animal structure is marvelous. A caterpillar contains more than 3,000 muscles. In a human body are some 2,000,000 perspiration glands, communicating with the surface by ducts, having a total length of some 10 miles, while that of the arteries, veins and capillaries must be very great. The blood contains millions of millions of corpuscles, each a structure in itself. The rods in the retina, which are supposed to be the ultimate recipients of light, are estimated at 30,000,000, and Meinel has calculated that the gray matter of the brain is built up of at least 900,000,000 cells.—London Tit-Bits.

THE Queen's Three Rings. It is said that the three rings which Queen Victoria prizes the most, highly are, first of all, her wedding ring, which she has never taken off; then a small enamel ring, with a tiny diamond in the center, which the prince consort gave her at the age of 16, and an enamel serpent which he gave her as an engagement ring. For many years after the prince consort's death her majesty slept with these rings on her fingers, only taking them off to wash her hands, as the water would of course spoil the enamel.—Exchange.

MUST BE Something Terrible. Dora—I shan't stand it another minute! I'm going to send him back his ring! Clara—What! That beautiful diamond ring? "Yes." "Horror! What has he done—robbed a church, killed his mother, or what?"—New York Weekly.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that their is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. FRENCH SOCIETIES' CELEBRATION OF THE UPPER PENINSULA AT REPUBLIC, SATURDAY, JUNE 24th, 1893.

Preparations have been made for a grand celebration in Republic and the South Shore has named special excursion fares for the occasion. Tickets will be issued at the following named low fares and will be on sale June 24th, good for return until June 25th inclusive. From Marquette, \$1.00; Negaunee, seventy-five cents; Ishpeming, seventy-five cents. Special passenger coaches will be attached to the morning train leaving Marquette at 9:05 a. m. These coaches will be attached to a special train at Humboldt, running through to Republic without change; and a special train will leave Republic the same evening for Marquette and all intermediate stations. It is expected that the French societies in the iron district will be well represented at this annual gathering. 6-15-9d.

They will therefore say to the unfortunate sufferers who may read this notice that you are treading on dangerous ground when you longer delay in seeking the proper remedies for your complaint. Then for the first time you will realize what negligence means. Our success in such cases can be best understood when we will positively declare that over 100,000 have been treated by us in different parts of the world. Call and get the benefit of our experience

MIDDLE-AGED MEN.

There are many of the age of 30 to 50 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting sensation and weakening of the system in a manner which the patient cannot account for. On examination it will be found that the urine deposits aropy sediment and sometimes small particles of albumen will appear or the color be of a thin or milky hue, again changing to a dark and torpid appearance. There are many who die of this difficulty ignorant of the cause which is the second stage of weakness.

LADIES

Finding it inconvenient to call at the office can be treated by mail by sending a full description of their case.

Examination and advice free to all. Remember the place, Adams Block cor. Front and Superior Sts., Marquette, Mich.

COPPER COUNTRY NEWS.

Program of Commencement Exercises at the Calumet High School.

NO SCHOLARSHIP TO ALBION COLLEGE AWARDED.

Will Schweitzer Compelled to Leave Hancock on Account of Failing Health—Miscellaneous.

(All communications for copper country department intended for publication should be addressed to A. F. Isler, Houghton.)

CALUMET.

The annual commencement of the Calumet high school was held at the school hall Wednesday. Owing to a severe rain and thunder storm prevailing just about the hour that the exercises were to begin the attendance was not as large as in former years. The following was the program:

- Chorus, "The Day is Ending,"
- Vocal Class.
- Prayer, Rev. H. E. Wolfe
- Song, "Softly Now the Shadows Fall,"
- "Darkness Brings Out the Stars,"
- Nina Lean.
- "Success and Failure,"
- Nora C. Sweeney.
- Solo, "When the Swallows Build," Gabriel
- Miss Manie Harris.
- "Educational Advantages to Be Derived from the Columbian Exposition,"
- W. J. Smith.
- "She,"
- Solo, "Bedouin Love Song,"
- Mr. F. W. Nichols.
- "Emigration and Immigration,"
- Andrew L. Swinton.
- Class History, Prophecy and Valedictory.
- Carrie Gasser.
- Chorus, "Maid of the Mountains,"
- Vocal Class.
- Awarding Diploma, Rev. William Wallace
- Benediction, Rev. William Wallace

That there was no scholarship awarded to Albion college, as has been customary for many years, was quite a disappointment to the members of the graduating class.

Engineer C. F. Loweth of St. Paul left for home yesterday.

Dr. Bobb and family intend to go to Chicago on the next trip of the City of Traverse.

A heavy rain storm Wednesday with cool weather today is doing great good to the hay crop.

LAKE LINDEN.

The infant daughter of Mr. and Mrs. Dolphie Roberts died Tuesday night. The funeral was held Thursday forenoon.

George Hennes arrived from Detroit on Wednesday evening. He will remain here until his brother Robert returns.

Charles Kettenbell has opened his his lively stable for business.

The new Hecla sand wheel is doing full duty at the mill.

The Misses Coggin, daughters of Superintendent F. G. Coggin, returned Wednesday from the coast where they have been attending college.

Charles Gladden has captured a cub bear in a spring trap. The little fellow has a broken leg but is apparently recovering. Mr. Gladden has killed several bears this spring.

Richard Repath left yesterday for England and will be gone three months.

HANCOCK.

The Quincy Mining company has a large force of men at work making extensive improvements on its old warehouse. The old floor has been torn up and rock put in on which cedar poles have been placed and a new floor of 3-inch plank laid on top of these. The floor heretofore was an incline; it is now level. The wall running along the full length of the building back of the warehouse is being raised three feet as also will be the roof. New sills and posts will be put in all through and a runway will connect the old warehouse with the one formerly used in storing grain. Part of the front of the old warehouse is to be cut off so as to bring the whole into line and a new front as well as a new roof will be put on. The doors will also be made three feet higher than heretofore. At first the company contemplated building an entire new warehouse but having so much freight on hand with no place to store it thought this plan better. When finished the Quincy will have the largest and one of the best warehouses in this city as the changes that are being made will make it as good as a new one.

Will Schweitzer, who has for the past two years been practicing clerk in A. J. Scott's drug store, will leave Saturday. During his residence in this city Mr. Schweitzer has made many friends who will regret his departure and he will carry their best wishes with him for a prosperous future. He has not been in the best of health for some time and this has made it necessary for him to seek a change. As yet he has not decided what he will do. He will leave shortly for his home in Marquette where he will take a much needed rest.

Saturday morning will present a 4th of July appearance in this city. There will be at least four bands and the St. Jean Baptiste societies from the different towns throughout the county will parade the streets going to church, as will also the American Foresters, who will march to the square on the way to their picnic. For an hour or so there will be at least 2,000 people out if not more.

The Griff-Nester case was again up before Justice Finn Wednesday and Griff was held to the next term of circuit court in bonds of \$300, which was furnished. This case will no doubt be of great interest to lumbermen as a number of men here are engaged during the summer picking up logs, sawing the owner's marks off and in some cases selling them again to their rightful owners.

The three bells for the Lutheran church were hoisted into the belfry and put in their places Wednesday afternoon and rung for the first time in the evening. They have a beautiful tone and the congregation is highly pleased with them. Carpenters will go to work immediately on the repairs that are to be made on the church.

Miss Stringer of this city, accompanied by Mr. and Mrs. Edward Stringer of

Lake Linden, returned from the World's Fair Wednesday noon.

The Ripley store is for sale or rent. Here is a good business chance for some one as the store has always done a good trade. Enquire of James Manley.

The funeral of Mrs. Jannette Rankin was held Wednesday afternoon from the Congregational church, Rev. G. Y. Washburn officiating. The remains were laid to rest in the Hancock cemetery.

The refreshing rain that fell Wednesday evening was much enjoyed by all farmers. The past week of hot weather has been drying crops up.

One of Evert & Dondlinger's large plate glass windows was broken Wednesday by a little boy throwing a stone through it.

General Manager C. A. Wright and family left yesterday for the White City and will be gone about a month.

The Y. M. C. A. are making sewer connections and will put in two large shower baths, a number of bath tubs, closets and a large boiler. These baths are for the use of members of the association only.

Mr. and Mrs. O. W. Robinson of Chassell were in this city Wednesday.

Allan Kirkpatrick has gone to Mt. Clemens after his family.

Mr. and Mrs. Sherman Ross and children are here visiting relatives.

Houghton.

The funeral of Richard Hosking was held from Grace church Wednesday afternoon and was quite largely attended. Rev. C. M. Thompson officiated. The interment took place in Forest Hill cemetery.

The steamer Ossifrage will give an excursion from Houghton to Duluth Saturday, July 1, leaving Hennes' dock at 7 p. m. so that Sunday may be spent in Duluth. Returning the boat will arrive here early Monday morning. Fare for the round trip, including berth, \$4.00. Calumet, Lake Linden, L'Anse and Baraga people will have their railroad fare paid one way.

Duncan Clark's female minstrels drew a deservedly small audience last evening.

Dr. A. David and Principal Jeffries of the Atlantic mine have gone to Chicago to visit the World's Fair.

MARINE NOTES.

Superintendent G. A. Marr of the canals reports that the dredging has progressed sufficiently to announce a depth of fourteen feet of water from Portage Entry to ship canal.

The barge Mills and consorts passed up yesterday morning.

The barge T. S. Christie finished discharging coal at Quincy and left Wednesday afternoon.

The Otego was in yesterday on her way up.

The Jay Gould passed down yesterday noon.

IMITATORS AND IMPOSTORS.

The unequalled success of Alcock's Porous Plasters as an external remedy has induced unscrupulous parties to offer imitations, which the endeavor to sell on the reputation of Alcock's. It is an absurdity to speak of them in the same category as the genuine porous plaster. Their pretensions are unfounded, their wanted merit unsupported by facts, their alleged superiority to or equality with Alcock's a false pretense.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.

A New Certain Cure for Piles.

We do not intend to endorse any except articles of genuine merit; we therefore take pleasure in recommending to sufferers from Piles in any form, a prompt and permanent cure. The following letters speak for themselves:

Mrs. Mary C. Tyler, of Heppner, Ore., writes: One pkg. of Pyramid Pile Cure entirely cured me of piles from which I have suffered for years, and I have never had the slightest return of them since.

Mr. E. O'Brien, Rock Bluffs, Neb., says: The pkg. of Pyramid Pile Cure entirely removed every trace of itching piles. I cannot thank you enough for it. The Pyramid Pile Cure is a new, certain, painless cure for every form of piles. It is safe, sure and cheap. Any druggist will get it for you if you ask him.

SLAIN BY THE CYCLONE.

Ten Persons Killed and One Family Is Apparently Totally Destroyed.

SOME OF THE VICTIMS TORN LIMB FROM LIMB

Nothing Is Left Standing for Some Six Miles in the Path of the Storm.

THERE CAME A MIGHTY WIND

PERRY, Kas., June 22.—The most destructive and death-dealing cyclone that ever visited eastern Kansas passed through Williamstown and the surrounding country in Jefferson county last night. It traveled southeast and took in a scope of country half a mile wide and about six miles long. Not a house, barn or tree was left standing in its path. It was accompanied by a terrible rain storm and midnight darkness. Ten dead bodies have so far been discovered and it is thought that at least five more were killed. The dead are: L. F. EVANS, EMERY EVANS, MRS. JOHN HUTCHINSON, SAMUEL KINCAIDE, CLARA KINCAIDE, SADDIE KINCAIDE, WALTER KINCAIDE, EVA KINCAIDE, WILLIAM KINCAIDE, SAMUEL STEWART.

Their bodies are all horribly mangled. Mrs. Hutchinson's arms and legs were found in a tree a mile from the house. Eva Kincaide's head was severed from her body. Three persons are known to be fatally injured and many others are seriously hurt. Here is the list of fatally injured: JAMES BAKER, WILLIAM GOEPFERT, MRS. GOEPFERT. Seriously injured: ROSE GRAY, HORACE GRAY, ARTHUR JONES, WALTER MCCracken.

Complete details cannot be obtained but it is probable that at least twenty people have been killed and thirty houses blown down.

Those who were killed last night were buried today. A historic landmark was destroyed by the cyclone. It was the old stone house on the bluffs of the Kaw river once owned and occupied by John Brown.

CYCLONE IN IOWA.

DES MOINES, Ia., June 22.—A cyclone passed through Adair county, southwest of here, last night and devastated a strip a quarter of a mile wide. A large number of farm houses were destroyed, but no fatalities are reported. A child was carried twenty rods through the air and escaped unhurt.

STATE OF THE IRON TRADE.

Shut-Downs of July Are Welcomed by the Mills.

CLEVELAND, June 22.—The Iron Trade Review this week says: "Curtailling on every Lake Superior iron range, a sharp reduction both in blast furnace capacity and in pig iron stocks, an activity in rolling mills in anticipation of midsummer idleness and a prospect in all finished iron and steel operations of one of the longest shut-downs in years—are the salient points in the iron situation today."

"The week has brought the largest record in the history of the present stringency of failures affecting the iron trade and the policy of caution in the selling heretofore generally pursued, has in some cases developed into a refusal to sell on more than limited orders except for cash or on very short time paper. The matter of credits is the uppermost consideration, just now; and added to the lack of profit in any department of the market the uncertainties about returns from sales after they are made, cause iron manufacturers to welcome the shut-downs of July as a relief from the strain of the past thirty days."

BERING SEA ARBITRATION.

Mr. Phelps Clearly Shows Inconsistency of England's Position.

PARIS, June 22.—A large number of visitors were present today at the session of the Bering sea tribunal of arbitration. Among those who listened to the proceedings was the Hon. James B. Eustis, American ambassador to France. Hon. E. J. Phelps, of counsel for the United States, opened his argument in behalf of the contention of the United States and his address was a brilliant one. He said that the case presented only two main questions. Have the Canadians and renegade Americans who seek the shelter of the British flag in order to defy the laws of the country the right to continue destroying the seal fisheries and if so what regulations are necessary to prevent the extermination of the seals? Other questions might be involved but they were merely incidental.

FOUR PROBABLY DROWNED.

Men Are Missing and Their Boat Found Overturned.

CLEVELAND, June 22.—A mystery surrounds the finding of an overturned row-boat floating in Lake Erie one mile out. Sunday morning Newell Bros. rented a row-boat to four men—Herbert Gerbock, William Oldridge, John Wagner and Fred Helke. No tidings have been received of the men and it is now believed that they were drowned.

FOUND HIS MOTHER DEAD.

Mrs. Ellis Burned to Death in a Forest Fire.

CROOKSTON, Minn., June 22.—Sam S. Ellis is a locator on the Red Lake reservation living with his mother. He went away Sunday on a visit and on his return found his shanty in ashes and the charred remains of his mother about twenty rods from the house. She had been carrying out things and was probably overcome by the heat and consumed by the flames.

Minister to Liberia Is Dead.

NEW YORK, June 22.—News has reached here by way of England that William D. McCoy of Indiana, United States minister resident to the Republic of Liberia, West Africa, died at Monrovia, the capital of the country, May 14, and was buried with military honors.

Four Students Drowned.

TORONTO, June 22.—Edward Kelly and J. M. Clothier, law students, and Edward Rivard and Camille Maguan, medical students of Joliet college, were drowned today by the upsetting of their boat.

Greenville Bank Fails.

GREENVILLE, Mich., June 22.—The City National bank of this city was closed this morning by order of Bank Examiner Caldwell.

sertion that the United States wished to declare Bering sea *mare clausum* was untrue. Mr. Phelps said that the seizures of pelagic sealing vessels were effected under the American claim to the right to protect the seals. The United States government had next endeavored to obtain a convention which, waiving rights, would preserve the seals. The convention was only defeated by Canada's interference on the ground that protection was needless after an agreement respecting a close season had failed.

Throughout the negotiations, Mr. Phelps further said, Great Britain had never defended pelagic sealing but while denying the Americans the right to protect themselves against the British Lord Salisbury had professed a readiness to accept all regulations necessary to preserve the seals proposing the appointment of a joint commission to this end.

Now Great Britain had veered round after the arbitration treaty had been concluded and based her case upon an elaborate defence of pelagic sealing, insisting that no regulations would be accepted by her which were inconsistent with the prosperity of the pelagic hunters.

FOOL, GIRL AND GUN.

Frank Schoeffler Fatally Wounds Lena Linder and Himself.

NORWALK, O., June 22.—The attendants at a church social given by the young people of the German Lutheran church last night were greatly shocked when one of the visitors, Frank Schoeffler, drew a pistol, shot Miss Lena Linder in the arm and side and then shot himself in the breast just above the heart. He asked the young lady to go to supper with him but she declined. His jealousy was aroused by her going with another young man. Both are in a critical condition.

DIED FROM AN OLD WOUND.

Highwayman's Bullet Proves Fatal After Five Years.

SEATTLE, Wash., June 22.—Frank A. Conant died at his home in this city last night from the effects of a bullet wound received in the throat from the pistol of a highwayman in Cincinnati five years ago. At that time Conant was living with his father at Avondale, a suburb of Cincinnati. The thief was never found. Young Conant afterwards came here and engaged in the lumber business with his father. Last night the old wound broke and he died suddenly.

JUDGE LYNCH MAY SIT.

Brutal Father Murders His Two-Year-Old Child.

ATLANTA, Ga., June 22.—Frank Harney, a white man leaving near Carnesville, beat his two-year-old girl to death today. After he had whipped and beaten the child to death he smashed its head, broke its ribs and stuck his knife into its body repeatedly. Harney is now in jail at Carnesville, but some think Judge Lynch will pass sentence. Everybody is quiet, but the feelings of the community are very much aroused.

ASK DR. GRAVES' RELEASE.

He Has Been Kept Over Long Waiting His Trial.

DENVER, June 22.—The attorneys for Dr. T. Thatcher Graves, who is awaiting a rehearing on the charge of having poisoned Mrs. Barnaby of Providence, R. I., today applied to the supreme court for a writ of habeas corpus, asking that the doctor be set free. The application is based on the ground that two terms of court have passed since Dr. Graves' imprisonment without his being tried.

DROVE HER INSANE.

To See Her Former Lover Marry Another Woman.

GUTHRIE, O. T., June 22.—An eighteen year old daughter of Rev. Wm. Langston, living fifteen miles northeast of here, attended a wedding, the groom being a young man to whom she had been engaged. When she returned home she sprang from the buggy and disappeared and after a three day search she has just been found wandering in the woods many miles from home.

CHRISTIAN ENDEAVOR CONVENTION.

MONTREAL, JULY 5TH.

The Duluth, South Shore & Atlantic has succeeded in arranging a summer excursion trip to Montreal and return on the occasion of the twelfth international convention of the Young Peoples' Society of Christian Endeavor, which will be held in the city July 5th to 9th. The itinerary of this delightful excursion is as follows: Duluth, South Shore & Atlantic and Canadian Pacific railways, the direct all-rail line to Montreal, thence via the C. P. R. to Toronto and Detroit, including a free side trip to Niagara Falls. From Detroit to Chicago, returning home by either of the all-rail lines between that city and the upper peninsula. The fare for the entire trip will be \$32.50. Tickets will be on sale at all the principal ticket offices between Houghton and Sault Ste. Marie from June 20th to July 4th and will be good to return until September 15th, 1893.

After the close of the meeting excursionists will have ample time to visit Toronto—the Queen City of Canada—the Falls of Niagara, the City of the Straits and the World's Fair. Intending excursionists are referred to the ticket agents of the D. S. & A. R. Y. for further information.

A Remarkable Eskimo Custom.

To the student in ethnology the Eskimos afford unusual interest, especially those of the coast of Greenland. Comparatively speaking, modern settlers in that frigid region, they have many of the characteristics of the people of the stone age, yet their build and facial outlines indicate Mongolian origin. They have many customs of peculiar interest, not the least among which is a remarkable reluctance to pronounce their own name before a stranger. If a white man meets a family and asks the head thereof his name, his wife will promptly answer for him. If a child is asked its name both parents, if they are present, will reply, while the little one will stand dumb.

If but one Eskimo is about, and the same question be put to him, he will look about in a distressed way, as though seeking some one to give the desired information, and endeavor to evade the query until a member of the tribe comes up to answer it for him. If pressed, and no other course is left him, he will tell his name, but with marked reluctance. On all other subjects except their spiritual beliefs they will converse with volubility and do their best to impart information.—Philadelphia Times.

SOUND IN WATER AND AIR.

A bell that could be heard at a distance of 45,000 feet in water could be heard at a distance of only 650 feet in the open air. Dogs barking on the earth can be heard by balloonists sailing at a height of four miles.—New York Evening Sun.

The Age of Publicity.

Old time privacy got a great blow when a Paris mob pulled down the Bastille. This is the age of publicity, and we have reason to rejoice at it. "Think," wrote President Eliot the other day, "how all sorts of abuses and cruelties are checked and prevented by the publicity of modern life—a publicity which depends on the universal capacity to read." It is true enough that so great an advantage has not been won without a good deal of accompanying detriment. Private life is pried into far too much for the edification of a servants' hall society. M. Taine's desire for seclusion was probably an outcome of personal temperament, but justification could be found for it, if that were necessary, in the abuses of the confidences of other men.

A Feat in Carving.

In all branches of sport beating the previous record is a performance of almost everyday occurrence, and no matter how excellent the achievement it is not likely to remain long unchallenged and unconquered. The establishment of a new kind of record, although not strictly within the realms of actual sport, cannot therefore fail to interest that large class of speculators who are ever ready to discover something new on which to stake their spare cash. A wealthy young Cuban recently made a bet with the carver of one of the leading night restaurants on the Boulevard—the wager being for 1,000 francs—that the latter would not cut and make 2,000 complete sandwiches in 24 hours.

Admission Fees at the Big Fair.

The disappointment which follows the payment of a quarter to see the block-like but highly scented Eskimos illustrates the great ruling principle at this show, which is that the best that is to be seen is what is seen free of extra cost. If the Eskimos, the Irish village, the animal show, the Turkish show and that sort of thing are worth 25 and 50 cents each to a visitor, it is certain that the great exposition, common to all for one admission fee, should be rated at a thousand dollars' worth of sightseeing.

REPORTORIAL PENICILLINGS.

The superstructure is being placed on the first cribs sunk by Powell & Mitchell in the breakwater extension.

The white stone foundation for Mr. A. W. Lovejoy's new residence on North Front street has been completed.

The pupils of the Third street school to the number of seventy or eighty enjoyed a picnic on Presque Isle yesterday, going out on the electric cars at 2 o'clock.

A. J. Freeman is building a poundnet boat which will have room for a whole school of whales if necessary. It is the biggest craft of the kind ever turned out here.

Joe Fay is exhibiting in his front window a fine model of a steamship made at the prison by a convict working entirely with a jackknife. It will be sold or raffled.

Members of the Ladies' society tendered Mrs. E. J. Harris a surprise party last evening which was well attended. The evening was passed pleasantly with music and games.

The commencement exercises of the Marquette high school will be held this evening in the opera house. In the grammar and primary grades the school year ended yesterday.

The burned tug, Clara Belle, was moved over to the bulkhead between No. 3 ore dock and the coal dock yesterday. Her engine being rebuilt at the Lake Shore Iron works.

The high wind yesterday started up the fires again on the North Marquette addition and on the lands of the Marquette Land company and the Agricultural society. No damage was done.

Everyone has been complaining about the lateness of the season but the recent hot weather seems to have reversed matters. A Marquette lady picked her first roses, Harrison's yellow, on July 1st last year. This season she picked the first on June 21st.

Marquette visitors to the World's Fair can find pleasant quarters at the Woodlark park, 412 Sixty-third street, Hotel York, 412 Sixty-third street. This hotel is within five minutes walk of the main entrance to the World's Fair, the elevated and electric roads pass the door and the Illinois Central is within a block. The proprietress, Mrs. J. E. Blodgett, better known to Marquette friends as Miss Jenny Armstrong, daughter of Mrs. Armstrong who was so long identified with the Tremont House in this city in the years gone by.

The Keewaydin was out yesterday afternoon and evening, the smashing breeze being found just a full sail breeze for the Marquette Yacht club cutter though other craft were out with sails well reefed. The cutter is in splendid trim this season and the members of the Marquette Yacht club are getting an immense amount of enjoyment out of her. A. O. Jopling was skipper yesterday while Messrs. Jennison, Charlton, Miller and E. C. Williams formed the crew. On future trips Mr. Jennison will equip his hat with a life preserver. It needed it twice yesterday. The Keewaydin has one of the coziest cabins imaginable. It is finished in cream white throughout and is as light and cheerful as could be desired while there is plenty of headroom for all except those who are far above the average height.

PERSONAL MENTION.

Misses Rose and Kate Moore arrived home yesterday.

William Johnston was down from Even yesterday.

T. D. Mead of Escanaba was a Marquette visitor yesterday.

F. L. Baldwin of the Alger County Republican is in the city.

Miss Bessie Wilkinson arrived home from college yesterday for her summer vacation.

Miss Lizzie Greenwald returned yesterday from a visit with her sister at Milwaukee.

Paul L. Britnell, better known here as "Ben" is in the city visiting his parents and old friends.

Ralph Connable, Jr., of the Connable Fishing company, leaves for lower Michigan today.

Harry Harwood and A. H. Tilson, Jr., were down from Ishpeming yesterday on their machines.

O. H. Packard of the Hotel Marquette returned yesterday from a flying trip to St. Ignace and the Soo.

Mrs. G. W. Kelly and children left yesterday for a two months' visit at her old home in Pennsylvania.

Mrs. W. N. Wilson of Minneapolis, formerly a resident of this city is spending a few days in Marquette visiting old friends.

Will Schweitzer has resigned the position he has held for the last two or three years in the Scott drug store at Hancock and will return to his home in Marquette for a short rest.

SUNDAY ON THE WATER.

Our readers are reminded of the twenty-five cent excursion trips around our beautiful harbor by the steamer City of New Baltimore commencing Sunday, June 23, and continuing every Sunday during the remainder of the season. Steamer will leave the dock at the foot of Main street at 10:45 a. m., 2:30 p. m. and 7:30 p. m. Music will be furnished. Light refreshments for sale on board the steamer. This is sure to be the popular summer excursion with our people, as it will enable them to escape from the heat and dust of the city and enjoy the cooling breezes that come in from the main body of Lake Superior. WORKING WOMAN'S DRESSMAKING.

True Economy Is In Caring For Health, Not In Saving Dressmakers' Bills.

Every one, so they say, has a pet economy, and the business woman, the working woman, always tries to economize by doing her own dressmaking. She likes to dress well, and it does seem so extravagant to pay so much for what she might do herself. It requires a brave woman to attack her headgear, but with clever fingers and good taste a dress doesn't seem such an undertaking, and often it quite saves the price of another gown.

But really you ought not to do it at all. If your day's work is fulfilled conscientiously, you ought to give the evenings to rest and amusement. You would only sit and read, you say? Well, then, just sit and read. Reading doesn't give you that sharp pain in your side. Reading doesn't key you up to a point of feverish excitement because you want to get so much done.

If you like to sew you can always have a dainty bit of fancy work on hand, or if you have set your heart on some luxurious addition to your wardrobe that will give you exercise for your needle. Then there is always your mending, and the really dainty woman finds more than enough to fill the time she should give to evening employment. But, as for dressmaking, don't try your tired eyes with it at night. Every little worry-some pucker in the dress is going to leave a little worried wrinkle in your face, and every new gown will increase that miserable nervousness that preys upon so many American women. Evening is not the right time to conquer complicated dress patterns, and you had much better do with fewer dresses and hand your material over to the professional dressmaker, who perhaps just needs your work to pay for some help that will give her a little time for rest.

A man never thinks of attempting to make his own clothes as an economic measure, but a woman clings to quality and quantity of raiment and heads her list of economies by making it up herself. That does very well for the woman whose days are her own, though often enough it would pay her better to depend on some one else, but for the woman who has only the evenings for all the little odd jobs that somehow belong to a woman's life it is bad policy to add evening dressmaking to her daily duties and means a weary middle age, lacking energy for duty and application for pleasure.—Philadelphia Times.

Vegetable Salads.

Vegetable salads are among the most acceptable dishes that can be prepared for a summer repast. They tempt the appetite and impart a flavor to the rest of the meal. While the art of making and serving them is very simple, care should be taken in their preparation.

The dressing for a variety of vegetable salads is the same, yet different flavors may be delicately added, always being careful that one does not predominate over another. It is very important to have only the best ingredients, as wilted vegetables and inferior seasoning will not make good salads. The quantity of oil to be used is rather difficult to decide, but two tablespoonfuls to one of vinegar is the usual proportion for plain dressings, while more is required for mayonnaise.

Lettuce salad should be dressed only with oil, vinegar, pepper and salt.

Salads are rendered much more attractive when prettily garnished with fresh green leaves, vegetable blossoms, rings of hard boiled eggs, sliced tomatoes and fancy designs cut out of radishes, beets or turnips.

The dressing should never be added to the prepared vegetable until ready to serve, when the salad should be stirred as little as possible in order to retain its freshness.

The vegetables best suited for salads are lettuce, asparagus, dandelion, celery, cauliflower, water cress, beets, string beans, cabbage, potatoes, cucumbers and tomatoes.—Harper's Bazar.

A Loss to Temperance Women.

The unexpected death of Mrs. A. C. Thorp of Cambridge will be deeply felt in the Woman's Christian Temperance union. She had been prominently identified with the work not only in Cambridge, but in the state at large. When she went to California some time ago, she took with her her enthusiasm for this work and met with a very cordial welcome from the union workers there. Though she went for refreshment and rest, she was not content to be idle. She was charmed with the magnificent scenery of the Pacific slope and wrote of it in the most glowing terms.

Mrs. Thorp was interested in many social movements, and her home in Cambridge received many of those who were engaged in promoting them. The Woman's club in Santa Barbara, Cal., gave her a very hearty greeting. For their meeting she wrote some verses expressing her keen appreciation of the delights of the country in which she was sojourning. They also reveal much of the deep religious and poetic fervor of her mind. There is in them, as it now seems, almost a hint of a premonition of the end. She wrote that "the old were seldom weary," and that "the fainting spirit rallies as it takes its flight above," almost as if conscious that she was soon to take her departure, in a ripe old age, from the land of flowers.—Boston Globe.

Two Women Detectives.

The largest New York "provider" employs two women detectives—Lena Vozzemer and Eva Peyser. They are both mere girls. They receive high salaries, have the run of a lavish wardrobe, and completely change their attire twice a day—so effectively that there is hardly a shop-thief in New York who is quite sure of the identity of either of them. They have a busy time of it, and they make it a practice never to arrest a thief unless she is nearly always a woman—has left the shop with the goods unpaid for. They sometimes have to give chase to their quarry should they arouse her suspicion before they can arrest her.—New York Letter.

Perjury in England.

Confession is said to be good for the soul, and if such be the fact the Pall Mall Gazette and an English judge can take much comfort. They declare that perjury is becoming a fashionable vice in England. In trying a case at Birmingham Judge Chalmers, who has been a magistrate in India, says that as perjurers the false witnesses of Bengal, of whom dozens can be got for a sixpence, are not to be compared with their congeners in England. In the case he was trying the cross swearing was so hard that no verdict could be given. The Gazette says it is humiliating, but the same vice prevails in London. "The honor of a politician, the honor of a wife—it made no difference; you can always hire some one to swear it away."—Exchange.

The Mania For Suicide.

Another woman who has the suicide habit has turned up in the person of Maggie Benner of New York. Seven times during the past year she has attempted to end her life, but all have been unsuccessful. The first time was in March, 1892, when she jumped into the East river and was rescued. Several weeks ago she drank carbolic acid, and on Tuesday night she attempted suicide again by drinking paregoric and carbolic acid. She has also been sent to the Bellevue hospital four times while suffering from alcoholism. Besides these futile attempts at death she has been arrested for stabbing a woman.

THE COUNCIL'S WORK.

Ishpeming's Municipal Business Receives Due Consideration.

A PUMP THAT LIFTS MUD WITH THE GREATEST OF EASE.

Commencement Exercises of Graduating Class of '93 at the High School This Afternoon.

WORK OF THE COUNCIL.

A regular meeting of the common council was held Wednesday evening with President Johnston in the chair and Aldermen Routhier, Clancey, Rood, Olson, McNamara, Lladberg, Swanson, Beerling, Jenkins, Nolan, Heyn and Veran in their seats.

The minutes of the previous meeting were read and approved.

Pumping Mud.

The pump at Lake Angelina has been taking mud from the bottom of the lake the past few days. The lake mine is discharging the water from its underground workings into the lake and this is also being pumped out with the mud, making the discharge about two-thirds mud and one-third water. The pump handles the mud without any difficulty, and has already reduced the deposit in the bottom of the lake some inches for several hundred feet around the sump. The mud in some places where the water was removed last fall is hard enough to admit of a man walking over it.

Will Start July 1.

Mr. Cooper, of the sewer firm of Cooper & Dorsey of Terre Haute, Indiana, who was awarded the contract for the construction of the sewers in district No. 3, is in town and expects to start work on his job about July 1. He will make a start at the intersection of Division and Lake streets, where the main trunk sewer turns the corner.

ISHPEMING IN BRIEF.

Senator Pascoe of Republic was in town yesterday.

The street railway planked its Main street crossing yesterday.

C. T. Fairbairn got home yesterday from a business trip to Duluth.

Mrs. Geo. G. Johnson got home from her visit to the Columbian exposition Wednesday afternoon.

Charles Grabowsky came down from Bessemer yesterday to remain a few days visiting his parents in this city.

Mrs. E. S. Wheeler and daughter and Miss Edith Smith and Marie are in the city visiting Mrs. C. T. Fairbairn.

Mr. and Mrs. Chas. Merryweather took their departure for the World's Fair city, to be absent several days, Wednesday afternoon.

Charles, the three-year-old son of Mr. and Mrs. Thomas Parkin, of Wabash street, died Wednesday and was buried yesterday afternoon at 2 o'clock.

The local office of the Chicago & Northwestern road has direct communication with Chicago now, the new telegraph line having been completed a few days ago.

The Kirkwood Pharmacy will receive a large consignment of flowers from a Wisconsin florist, today, for parties attending the graduating exercises this afternoon and the alumni reception this evening.

The members of the City band desire to publicly express their thanks to Mr. G. L. Hodgkins for the use of his omnibus and team, furnished free of charge, last Sunday, when the band held its picnic at Deer Lake grove.

Rev. H. H. Fairall, D. D., editor of the Iowa Methodist, says editorially: "We have tested the merits of Ely's Cream Balm, and believe that by a thorough course of treatment it will cure almost every case of neuralgia. Ministers, as a class, are afflicted with head and throat troubles, and catarrh seems more prevalent than ever. We cannot recommend Ely's Cream Balm too highly."

I used Ely's Cream Balm for dry catarrh. It proved a cure.—B. F. M. Weeks, Denver.

It is Strange

That people suffering from Piles will endure them for years or submit to dangerous, painful, cruel and expensive surgical operations, when all the time there is a painless, certain, lasting cure, which gives instant relief and costs but a trifle. It is called the Pyramid Pile Cure and can be found at all drug stores. Any druggist will get it for you if you ask him.

The cheapest and most reliable house for everything in the music line is Hein's temple of music, Ishpeming. Send for catalogue. Special inducements in Italian and German violins. (5-15-17)

DOWN THEY GO.

On and after today F. Braastad & Co. will sell Pillsbury's Best XXXX flour at \$4.70 per barrel; Washburn Crosby's Co.'s \$4.70 per barrel; Wisconsin Best, Patent wholesale, \$4.00; delivered, \$4.25 per barrel; Rye Graham, \$3.75 per barrel; Wheat Graham, \$4.25 per barrel; fine rye \$4.00 per barrel.

A Surgical Operation.

For the cure of Piles is always painful, often dangerous and useless, and invariably expensive; on the other hand there is a new, certain cure, perfectly painless, gives instant relief and permanent cure and costs but a trifle. It is the Pyramid Pile Cure. It is a more certain cure than a surgical operation, without any of the intense pain, expense and danger of an operation. Any druggist will get it for you.

A FAKE REPORTER'S STRIKE.

A Sensational Article Regarding Ore Trimmers Well Calculated to Injure This Port.

CLOSING EXERCISES OF EIGHTH YEAR GRADE LAST NIGHT.

Manager A. C. Neal Promoted to Route Agent—St. Jean Baptiste Ball This Evening at the Casino.

DOCK MEN ALL KICKING.

Any paper having no more discernment than to publish an article so splendidly calculated to do harm to the city which it calls its home as the article regarding an ore trimmer's strike in The Times of yesterday afternoon should receive such a thorough-going shaking up by business men as to teach it some little discretion. The upper peninsula, and especially Marquette county, is infested with penny-a-line newspaper correspondents to whom the report of a strike on the Marquette docks would be a veritable godsend and long ere this that report, started by an irresponsible sheet which probably could not injure the city directly if it would, has been telegraphed out to do injury to this port, to the D., S. S. & A. R'y and to the men whom it employs.

The Times charges that a strike occurred among the Marquette ore trimmers shortly after 1 o'clock Wednesday afternoon, that yesterday morning "the situation remained unchanged," and that "the Castalia, Holland and Anderson, all big ore steamers [sic] are lying at dock No. 1 without a chance of being loaded for two days," while "the captains are greatly exercised" etc., and "the delay is apparently useless and even damaging to traffic, [every stranger] but the gangs are determined to bring the bosses to terms."

The following riot is equally to the point: "During the novelty and excitement of the strike yesterday afternoon, the men talked quietly, but with determination. None lost their heads and liquor was used sparingly. This morning there is more of a disposition to indulge the appetite, but sober heads hope to keep peace until suitable arrangements are made and the men can return to their work. It is expected that work will be resumed on the waiting boats tomorrow."

The ineffable idiot who penned that stuff should at least have been able to see that there was not an ore carrier lying at an ore dock in Marquette harbor yesterday, he could have learned from THE MINING JOURNAL'S port list yesterday morning that the steamer Castalia, the steamer Continental and the schooner Grace Holland, vessels to which it is presumed he intended to refer, all cleared Wednesday evening while the schooner Anderson is lying at the coal dock loaded and awaiting her steamer. He could have learned at the South Shore shipping office or from any of the dock officials or from any of the ore trimmers themselves that not a single vessel was delayed five minutes Wednesday or any other day this week because of Marquette ore trimmers. He could easily have ascertained any of these facts—but he didn't. On the other hand he ground out a lot of rot similar to that quoted above and did his best to start the report among vessel men that Marquette is a port to be avoided because boats cannot be trimmed here on account of trouble among the men. It is no wonder that men working on the docks and whose bread and butter is directly involved expressed the desire yesterday afternoon of introducing their heaviest brogans to the anatomy of the offending scribbler.

THE MINING JOURNAL investigated this matter fully Wednesday afternoon, before even Wednesday's issue of The Times was published, and found that there was not enough in it to dignify it with an item, yet Thursday the same deal took a sucker in beautifully. The gist of the matter is right here: There are three boss trimmers who have most of the business here, O'Meara, Flynn and Tom McFarland (not McFarlan). Tom got it into his head that Flynn had gobbled some wild tonnage by cutting the regular Marquette rate, four cents a ton—he never accused O'Meara as The Times had it. To get even he attempted to reduce the rate to three cents and did trim several boats at that figure but his men, who share and share alike, the boss counting as two men, kicked on the arrangement and Tom had to come back to four cents and it was well that he did as at the shipping office, where the vessel masters usually settle their ore trimming bills, it is declared positively that all of the checks and all of the settlements this season have been at the rate of four cents for every ton of the cargo and it is impossible for the shipping officials to be deceived in either particular.

That is all the foundation there was for the sensational article in the afternoon. While he was about it the brilliant youth who evolved the article might as well have had the militia out and martial law proclaimed. "The men are quiet as yet and sober heads hope to keep the peace!"—for heaven's sake, will some one be kind enough sprinkle a little salt on him?

Well Merited Promotion.
For the second time within a year the Marquette office of the American Express company furnishes the company with a route agent, Mr. A. C. Neal, who succeeded S. F. Westcott as agent, having been notified of his appointment as route agent on a new route which will be made up of territory which is now a part of several routes, the new district lightening Route Agent Westcott's labors as well as those of some of the other route agents.

Mr. Neal will leave today to look over his territory and hopes to make his headquarters in Minneapolis, where Mrs. Neal has many relatives, though he may not move his family from Marquette until August or September. As agent of the company in this city Mr. Neal has made a host of friends who, though regretting that promotion will take him away from the city, will

only the heartiest of congratulations to extend and the best of wishes to express for his success. Mr. Neal will be succeeded here by Mr. S. E. Hughes, now agent at Duluth, who is expected here daily.
