## ADJOURNS FOR CHRISTMAS.

Congress Is Adjourned to Allow Congressmen to Spend the Holidays at Home.

## HAWAIIAN MUDDLE BROUGHT UP IN THE HOUSE.

Speaker Promptly Shut Off Discussion on Resolutions Offered by Referring Them to Committees.

## WILL EAT TURKEY AT HOME

WASHINGTON, Dec. 21.—The Hawaiian matter figured prominently in the last session of the house before the holiday recess. Mr. Boutelle and Mr. Blair each offered resolutions, the former calling on the secretary of the navy for the instructions whereby the admiral in charge of the naval forces at Honolulu was placed under the command of Commissioner Blount and the warrant therefore; the latter instructing the foreign affairs committee to investigate the questions of fact relative to the Hawaiian revolution. The substitute for the Hitt and Boutelle resolution was also presented by the chairman of the foreign affairs committee. Debate on each of these resolutions was avoided by the prompt action of the speaker in referring them.

Before adjournment Mr. Wilson gave notice that the debate on the Wilson bill would begin the day of the reconvening of congress and Mr. McCreary also informed the house that within ten days after meeting two days would be given for consideration of the Hawaiian resolutions reported by the foreign affairs committee.

As soon as the journal was read Mr. Boutelle, who was on his feet, sent up a resolution which he said was privileged. As soon as the reading of the resolution had been completed the speaker ordered it referred to the committee on naval affairs. Mr. Boutelle vainly sought to discuss the question of his right to discuss the resolution but the speaker cut him short and said it could only be considered at this time by unanimous consent. Mr. Boutelle asked unanimous consent but Mr. Talbot (Md.) objected.

Mr. McMillan (Tenn.) from the committee on ways and means, then presented a joint resolution authorizing the secretary of the treasury to make regulations whereby stock removed across the Texas border into the United States until May, 1894. Mr. Pascal of Texas explained that on account of the drought in southwestern Texas stock was dying in large numbers and that the resolution simply allowed stockmen to take stock across the river to keep them from starvation. Without objection the resolution was passed.

Mr. Blair of New Hampshire then came forward with another Hawaiian resolution which he described as a resolution looking to the investigation of the question of fact. With a reference to the subject the Democrats were again on their feet protesting. Mr. Talbot insisted that it should go forth with to the foreign affairs committee.

"This resolution is to investigate the truth," said Mr. Blair.

"I object," reiterated Mr. Talbot.

"The gentleman seems to be very shy about the truth in this matter," ejaculated Mr. Reed sneeringly.

"You won't find us shy when the proper time comes," retorted Mr. Talbot hotly.

Mr. Wilson then gave notice that on the day congress reconvened after the holidays he would call up the tariff bill. The house waited patiently for an hour for the adjournment resolution to come from the senate. The tellers in the meantime vainly tried to secure a quorum on Mr. Wheeler's motion to go into committee of the whole on the New Mexico bill. The tellers then reported that the vote on this motion stood 141 to 0. In making the report General Wheeler called attention to the fact that the Republicans had refused to vote, 130 of the 141 votes being the votes of Democrats. A moment later the president's clerk announced his approval of the deficiency bill and then at 3:15, upon motion of Mr. Holman, the house adjourned.

## MADE CHRISTMAS PRESENTS.

Senate Spent the Day Confirming President's Appointments.

WASHINGTON, Dec. 21.—In the senate today a good part of the time was devoted to executive business and many nominations were confirmed. During the brief legislative session Mr. Mitchell of Oregon took occasion, in securing an order for the reprinting of a memorial on the subject of bankruptcy, to say that there was no justification for the impression throughout the country that bankruptcy legislation was dead.

Mr. Proctor (Vt.) introduced a bill to annex the territory of Utah to the state of Nevada. It was referred to the committee on territories.

At 12:45 the senate on motion of Mr. Mills (Tex.) proceeded to the consideration of executive business. When the doors were again opened the corrected house joint resolution providing for the holiday recess of congress from today until Wednesday, Jan. 3, 1894, was laid before the senate and concurred in. At 1:50 the senate took a recess until 2:30, at the expiration of which the senate resumed its session and after transacting some routine business at 2:45 again went into executive session.

The legislative session was resumed at 3:40 and the chair laid before the senate a communication from the secretary of state in response to the resolution of the senate calling for information as to whether permission had been granted any foreign cable company to land its cables or lines on the coast of the United States since March 1, 1893. The secretary of state said no such permission had been granted since March 1, 1893, either conditionally or

unconditionally, knowing of no law of congress authorizing him or any other executive officer to do so; that several times prior to that date permission was refused unless completed on prescribed conditions; and that he knows of no reason for granting such permission since March 1, 1893, that did not exist prior to that date. Mr. Frye (Me.) the author of the resolution to which the communication of the secretary of state was a reply, asked that the communication lie on the table, as he desired to call the attention of congress to some matters connected with it.

## STANTON RESTORED TO DUTY.

Is Given Command of the North Atlantic Squadron.

WASHINGTON, Dec. 21.—Secretary Herbert this evening gave out his decision in the case of Commodore Stanton, detached from command of the South Atlantic squadron for saluting Mello in the harbor at Rio. The secretary restores Stanton to duty and assigns him to the command of the North Atlantic squadron. This is regarded as perhaps the choicest station to command among them all. The concluding portion of Secretary Herbert's letter is as follows: "The department has never for a moment considered that you were intentionally guilty of wrong in this matter, but only that you committed a grave error of judgment. For this reason and to satisfy the authorities of Brazil who were offended at your action you were detached from your own command."

## HE WAS AFTER THE MONEY.

Young Husband Elopes With Another Woman and \$5,000.

SAN FRANCISCO, Dec. 21.—Lincoln Potter, a young man who has been conducting a saloon here for several months, was arrested today and will be taken back to La Crosse, Wis., to answer charges of grand larceny and embezzlement. About a year ago Potter was a railroad brakeman. Then he made the acquaintance of Mrs. Marie Watkins, a wealthy widow, and they were married. The wife gave the young husband \$5,000 and he started for New York to buy a stock of general merchandise. This was the last Mrs. Potter saw of her husband. Then she learned he had run off with another woman. She offered a reward of \$200 for his arrest. Potter was known here as William Day until detectives discovered his identity. The woman's money was used to purchase a saloon here.

## STRUCK BY AN ENGINE.

Three Men Killed While Walking on a Railroad.

GREENSBURG, Pa., Dec. 21.—This evening at 6 o'clock four men who were walking on the track were struck by passenger engine No. 31 of the Pennsylvania road a quarter of a mile east of here. Three of them were instantly killed. The other escaped with a few scratches. The train was running very fast and the four men were hurled into a ravine one hundred feet below. John Scott, an Englishman, the one survivor, knew only one of the men who were killed. He was his companion and he stated to the Pennsylvania railroad physician that his name was Arthur Cavenagh. He said that they had been working at McDonald's as miners and were on their way to Williamstown, Pa., where they expected employment. The other two dead men are unknown.

## DROWNED IN A MINE.

Flood of Water Catches Three Men in a Pennsylvania Mine.

POTTSVILLE, Pa., Dec. 21.—A large body of water, imprisoned in the old abandoned colliery that was worked by the Harpers in Black Valley near Minersville thirty years ago, broke into the Oak Hill colliery at the Delaware, one mile northeast of Minersville, last night about 8 o'clock and three men who were at work in the gangway were drowned. The victims are: PAUL ALEX, laborer, of Delaware, single. JOSEPH STANICK, laborer, Mine Hill Gap, leaves a widow. GILES PLUMPTRE, miner, of Minersville, aged fifty-two, leaves a widow. Thirteen others were at work in the gangway at the time but they were alarmed in time to escape.

## WILL NOT CONTEST ELECTION.

Chicago Republicans Admit Hopkins Was Legally Elected.

CHICAGO, Dec. 21.—County Judge Frank Seales as ex-officio chairman of the board of election commissioners today declared John P. Hopkins elected mayor of Chicago. This was done after the official count had been made and Hopkins' plurality found to be 1,290. The official figures show the vote of the four mayoralty candidates to be as follows: Hopkins, 113,959; Swift, 111,069; Britzius (socialist), 2,004; Wakeley (people's silver), 535. The Republicans who have been claiming the election of Swift, because of alleged Democratic irregularities were given opportunity to present charges, but they filed none.

## WILL OBJECT TO FREE WOOL.

Petition With 50,000 Signers to Be Presented to Congress.

CHICAGO, Dec. 21.—The American Sheep Breeder of Chicago is circulating a petition among the wool growers of the United States protesting against the passage of a free wool measure. The sheep men propose to voice their remonstrance against free wool by a monster petition signed by 50,000 wool growers. Judge Lawrence of Ohio and a committee of five appointed by the national wool growers association will present this petition when they appear before the senate finance committee remonstrating against the free wool clause of the Wilson bill.

## CORWIN REACHES HONOLULU

Secret Dispatches of Importance from Washington Are Delivered to Minister Willis.

## HONOLULU THROWN INTO STATE OF GREAT EXCITEMENT.

Provisional Government Is Ready to Fight if Necessary and Is Making Preparations for Defense.

## BLOODSHED IS ANTICIPATED.

SAN FRANCISCO, Dec. 21.—Sensational news was brought from Honolulu today by the steamer Mariposa, which left the Hawaiian capital on Dec. 14. The Corwin arrived on the day the steamer sailed and Minister Willis had received his latest secret instructions from President Cleveland. The Associated Press Honolulu correspondent writes privately as follows just as the Mariposa was preparing to leave the dock for San Francisco:

Since the arrival of the Corwin affairs are in a very excited condition here. The rumor is prevalent that the officers of the United States warships have ordered their wives to leave by the Mariposa. The greatest secrecy is maintained. The provisional government is confident and will fight if attacked. At the present writing Americans and the government are prepared for the fight, which may be precipitated at any moment. The militia are all prepared and within twenty minutes 1,000 men could be in the field to defend the provisional government.

## WILLIS RECEIVES DISPATCHES.

HONOLULU, Dec. 14, via San Francisco Dec. 21.—[Copyrighted by the Associated Press.]—The political situation in Honolulu is in a state of abeyance awaiting the news expected to arrive by the steamer Alameda, due on the 21st instant. Since the diplomatic notes exchanged between the provisional government and Minister Willis nothing further has transpired. In the meantime the provisional government is carrying out the plans of defense already reported and at least five thousand sandbags are being filled today to be placed in position upon the upper verandas of the executive building in case an attack is made.

At 6 o'clock this morning the United States revenue cutter Corwin arrived unexpectedly in the harbor. Almost as soon as the Corwin dropped her anchor in Naval Row Captain Munger came ashore and went at once to the American legation, where he remained closeted with Minister Willis for over an hour. It is learned positively that he delivered extensive dispatches from Washington to the legation. Conversations with leading Royalists develop the belief that President Cleveland will endeavor to carry out his policy of restoration and that he will receive sufficient backing in the present congress to enable him to do so.

Minister Willis has absolutely nothing to say on the situation beyond a reiteration that he is awaiting further instructions from Washington which have been made necessary by certain contingencies which have arisen since his arrival. What those contingencies are no man knows officially. The royalists claim that if congress refuses to settle the matter in favor of the queen as proposed by Mr. Cleveland, the Hawaiian affair is liable at any moment to assume international proportions and they hint that both England and Japan will take a hand.

It is learned upon authority coming directly from the ex-queen's residence that after her recent interview with Minister Willis she at once went to British Minister Wodehouse and thanked him for the advice he had previously given as to how she should conduct her negotiations with the United States government through its Hawaiian representative. All efforts to find out the position to be taken by the British in case trouble occurs have thus far failed. Everybody connected with the British legation is ominously silent.

Within the last few days the British cruiser Champion steamed out ostensibly for target practice but kept within two miles of shore for over two hours taking inland bearings. She finally steamed out about seven miles and began target practice after which she returned suddenly to the harbor, having been away one-third of the usual time occupied by British vessels upon such occasions. The procedure has been variously commented upon by the loyalists and annexationists.

Inquiry into the ex-queen's policy in the case of her restoration is outlined by several of her leading politicians to be one in which general amnesty will be granted to her opponents with few exceptions. After careful inquiry among the leading royalists these exceptions were learned to be President Dole, Minister Thurston, Attorney General W. O. Smith and Chief Justice Judd of the supreme court. The annexationists claim that the ex-queen will never have a chance to display either good will or hatred against these men or any other, so long as there is an American alive in Hawaii.

President Dole expressed the hope that the congress of the United States will aid Hawaii in reaching her ultimate destiny, from which he believes neither diplomatic intrigue nor force can long deter her and affirms that he firmly believes such steps will be taken on the opening of that body as will do away with the necessity of the provisional government meeting the proposed policy of the restoration with force, which must certainly result if Cleveland's administration attempts to again saddle a native monarchy upon the white population of Hawaii.

A special session of executive council adjourned at 3 p. m. after considering the situation and discussing further

THE HAWAIIAN CONTROVERSY.

We print in this morning's issue a communication from Judge Charles R. Brown of this city reviewing the acts of the administration in the Hawaiian difficulty and censuring the president for his course in the affair. He does not agree with THE MINING JOURNAL on the main points at issue, but this paper is not called on to defend the administration, and submits his communication without undertaking in any manner to weaken its force. The Boston Transcript, a Republican paper whose high standing, great ability and life-long fealty to the true principles of Republicanism cannot be disputed, furnishes a Republican answer to all that Judge Brown advances, however, in the article here reproduced from its editorial columns, and it is given to show how differently thinkers even in the same fold sometimes regard a question of this kind.

There has been a considerable call from politicians for an intense description that president of the United States should take the plain people into his confidence as regards Hawaiian affairs. He has done so in a message, which may be severely criticized by those who feel the crushing force of its closely reasoned and logical argument. It is, in the first place, an historical narrative of important events which occurred within thirty-two days, "fifteen of which were spent by the Hawaiian commissioners in their journey to Washington." His citation of facts respecting this period groups itself around a proposition which he unfolds as follows:

It appears that a so-called committee of safety, ostensibly the source of the revolt against the constitutional government of Hawaii, was organized on Saturday, the 14th day of January; that on Monday, the 15th, the United States forces were landed at Honolulu from a naval vessel lying in its harbor; that on the 17th the scheme of a provisional government was perfected, and a proclamation naming its officers was on the same day prepared and read at the government building; that immediately thereupon the United States minister recognized the provisional government, and created; that two days afterward, on the 19th day of January, commissioners representing such government sailed for this country in a steamer especially chartered for the occasion, arriving in San Francisco on the 28th day of January, and in Washington on the 3rd day of February; that on the next day they had their first interview with the secretary of state, and another on the 11th, when the treaty of annexation was practically agreed upon, and that on the 14th it was formally concluded, and on the 15th transmitted to the senate.

Unless these statements can be successfully impeached, and it will require much effort to do that, then the terrible arraignment of ex-Minister Stevens by Mr. Cleveland will stand. The question at issue simply is, was the queen deprived of her throne by United States troops illegally used for that purpose. Let the fight rage as fiercely as it may about this point, no impartial critic will care to dispute the ability or fairness of the broad view of the consideration of this whole subject by the administration. It doesn't militate in the least against such a statement to concede that the president's purpose has been to prevent by the use of force the course of the queen, in refusing to carry out the policy recommended by the president.

The documents accompanying the message show that President Cleveland never intended to use force in restoring Liliuokalani to the throne. As the provisional oligarchy has no intention of coming down like Captain Scott's con before a single shot has been fired, there appears nothing in the way at present to prevent the organizers of revolution from calling themselves a republic, whether they allow the masses of the people to vote or not. We have an idea that our people at large would say, if they expressed their minds upon what has occurred, at Honolulu, and the hasty negotiation of an annexation treaty with Hawaii, "A plague on the Sandwich Islands!"

This message has a lofty moral tone underlying its formal paragraphs worthy of mention. Mr. Cleveland is very emphatic in saying that he shall not "again submit the treaty of annexation to the senate for its consideration." So that the people of an island are to be annexed to the United States during President Cleveland's term of office, it must take place in some other method than by treaty. Congress can deal with this question practically as it pleases, except where its action might trench on executive prerogatives.

REALLY THE MINING JOURNAL is surprised at the comments of some of its contemporaries on the Hawaiian matter. They allude contemptuously to the "mulatto queen" and insist that she wasn't good enough ruler for a population composed mainly of "colored people." And yet those same papers are forever complaining because the colored voters of the south are disfranchised to such an extent that in portions of that section of the union where they are in a majority they are not permitted to have any voice in the local governments, the whites having fixed things so that they hold the offices and control in all public matters despite the numerical preponderance of the blacks. If it is an outrage to subject a black majority to white domination in the south why isn't it in Hawaii?

COMMENTING on the Irwin dispatch from Hawaii announcing that the "provisional government has 1,000 men under arms," the Chicago Times, Bourbon Democrat organ, asks: "Under arms for what? To fight for the right of white men to govern themselves and against the reinstatement of a negro calling herself queen." With true Democratic disregard of the rights of negroes The Times ignores the fact that the whites in Hawaii are but a small portion of its population, and that the "negress" who pretends to be queen is of the race to which Hawaii naturally and rightfully belongs. But, then, negroes have no rights that white men are bound to respect according to old-time Democrats and some latter-day Republicans.

The Hawaiian Situation as It Appears to a Republican.

BY C. M. BROWN.

The late Queen Liliuokalani's original right to the throne of Hawaii was by nomination of her brother Kalakaua. Kalakaua was elected king by the house of lords in 1877. His election was bitterly denounced by the natives, and a most formidable riot broke out in Honolulu which threatened to overthrow the government, and but for the interposition of the foreign government the riot would have been installed. The soldiers and sailors of the United States then in the port of Honolulu were landed and it was chiefly through their intervention and instrumentality that the riot was suppressed and the king placed upon the throne. In this connection it may not be amiss to remember the instructions given by Mr. Bayard, President Cleveland's secretary of state, to Minister Merrill, the predecessor of Minister Stevens, July 13, 1887. These instructions were approved by President Cleveland, and, it is claimed, were in full accord with the spirit of the instructions which caused the landing of forces from the warship Boston in January last.

In January of the present year, the queen entered into a scheme to promulgate a constitution disfranchising all the white men in her kingdom except those married to native wives. The parties proposed to be disfranchised paid more than five-sixths of the taxes of the country. Her ministers refused to countersign the proposed constitution, which was necessary to establish its legality. It is master of history that on that occasion "she spent one entire day endeavoring to force her unaimed ministers into submission, while her soldiers were drawn up in front of the palace, and the throne room was crowded with her adherents." Finding that she could not induce them to yield obedience, she made a speech in the throne room, which she repeated from the galleries of the palace, in which she declared "that she desired to issue the constitution, but was prevented from doing so by her ministers."

This speech was reported in the Honolulu papers at the time, and was also printed in the leading papers of this country. Thereupon the monarchy was overthrown, and a provisional government established, which was recognized by the United States government. The United States government has received its minister and appointed ministers to represent us at Honolulu.

The fact that the government of Hawaii is merely provisional in no wise affects the question of our right to interfere with it. This government has no right to pass upon or determine the respective claims of sovereignty of the provisional government and Liliuokalani. Any attempt on the part of this government to restore Liliuokalani by force, fraud or moral suasion would be denounced by every civilized government as impertinent and unauthorized.

The president in his last message to congress practically admits that he has no power within the limitations of a constitution to carry out what he attempted to accomplish.

ORIGIN OF WALL PAPER.

King William III. the One Who Probably Introduced It into England.

In answer to a query as to the origin of wall papers an English authority states that the art of making paper hangings was copied from the Chinese, among whom it has been practiced from time immemorial. Wall papers did not come into common use in Europe till the eighteenth century, but stamped papers for the purpose appear to have been made in Spain and Holland about 1555. The first allusion to wall papers known to exist is in the examination of Herman Schunkel, a printer of Delft, who was accused, in 1568, of printing books which were forbidden by the then prevailing laws. Being interrogated as to certain ballads, he said they had been printed by his servant in his absence, and that when he came home and found they were not delivered he refused to deliver them and threw them into a corner, intending to print roses and stripes on the back to paper attics.

It is probably to King William III. that England owes the introduction of wall papers into that country. Paper hangings of a sort, it is true, were in use in England before the time of William of Orange, but they usually consisted merely of maps of the world, as it was then known, with fantastic borders of Indians, negroes and elephants, and other natives of far-off regions. The art of paper hanging, in imitation of the old velvet flock, was new when William came to England. It was on the walls of the drawing-room at Kensington palace that these new hangings were first seen in Britain. They took the fancy of the fashionable of the day, and a recommendation, they speedily came into general use.—Harper's Young People.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is a safe and certain remedy for catarrh of the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and acts directly on the blood and mucous surfaces. Testimonials free. Sold by druggists, price 75c. per bottle.

A New Certain Cure for Piles.

The following letters speak for them selves: Mary C. Tyler, of Heppner, Ore., writes: "One pkg. of Pyramid Pile Cure entirely cured me of piles, from which I have suffered for years, and I have never had the slightest return of them since." Mr. E. O'Brien, Rock Bluffs, Neb., says: "The pkg. of Pyramid Pile Cure entirely removed every trace of itching piles. I cannot say you enough for the relief you get them. If they say that some other is just as good, tell them that only the best is good enough for you. Alcock's Porous Plasters are quick and sure, and acknowledged by the highest medical authorities and everybody else to be the best old-time remedy for pains and aches of every description."

THE SWIZZLE STICK.

Wonders Which by Its Aid the Demerarian Butler Performed.

The air was full, on a day I well remember, of all the oppressively abundant plant and insect life of the tropic underwood. Suddenly, beneath a mighty tree, where there was space for tolerably free movement, Pauli, my "colored" huntsman, takes out his knife, and, bending down, crops a long, straight stalk. "Swizzle, sah," he says, as he turns and holds up his prize. Pauli, let me here observe, had together with four Indians, accompanied me for days past in wandering amid the lovely recesses of the Sunland forest.

The swizzle plant of Guiana has a long, perfectly straight stem of hard wood. This stem, for its most sacred uses, should not be thicker than an ordinary penholder. There grow from it, at points some few inches apart along the stalk, straight, hard twigs. Three or four of the twigs usually radiate from each joint in the stalk, and almost at right angles to it. The stem is cut immediately below one joint, and just under the next one above it. When the bark is peeled off we have our swizzle stick, nine or ten inches long, with which the Demerarian butler will work wonders, and make such music in his pantry that the languid listeners in the veranda shall scarcely suppress the smile of contentment developing on ordinary impassive features.

But, what has the butler been doing? If we put back the clock five or six minutes, we can peep over his shoulder and watch his labor in his room. He has uncovered the blanket-swathed ice in the refrigerator, where it was placed by the cook this morning, on her return from the icehouse and the market, breaks off a piece about the size of a mango, and then puts the larger block to bed again. He wraps the fragment in cloth, and proceeds to hammer it with a wooden mallet. When it is no more than frozen water dust, he empties it into the glass jug. Swiftly he adds three teaspoonfuls of white sugar, thus blending sweetly the pole with the equator. Wistfully, for he is both human and honest, he uncorks a black bottle, labeled "Schiedam," and judiciously measures out three wineglassfuls of a white, transparent liquid. These, with the same quantity of water, go to join the ice and sugar. Last of all, he opens a flask hailing from the Orinoco and containing world-famed Angostura. Of the Angostura he pours into the jug just three teaspoonfuls. The thing is now ready, and James gravely takes the swizzle stick from its place. The end, with the amputated twigs attached, he buries in the mixture he has just compounded. The smooth stem he presses gently, but firmly, between the palms of both hands, his fingers outstretched, and imparts to it a rotary motion, constantly increasing, till the foam produced by the whirling twigs almost reaches the top of the tall glass. This task accomplished, he goes off with his burden to the waiting "buccaras" in the veranda.—Gentleman's Magazine.

THAT WEEDY OLD FENCE ROW.

The Sight of It Sent One Man Back to His Boyhood's Home.

They were brothers. They had not seen each other for fifteen years, and here, on the pleasure, in the midst of a jostling crowd of good-humored sight-seers, they had met accidentally. The recognition was instantaneous, although time had with gentle fingers changed the countenance of each. "Will!" "John!" And they actually hugged each other oblivious of the gaping crowd that gathered around them. John was from the country and wore the regulation hayseed makeup—broad slouch hat, ill-fitting coat and short "butternut" trousers partially covering a coarse pair of cowhide boots. Will was a well-dressed city man whose appearance suggested wealth. "Come, John, let's get out of this crowd and have a quiet talk," and pushing their way through the throng into a side path among the nursery exhibits, their faces beaming with happiness, they stopped just alongside that old "weedy fence row" that some Jersey farmer has put up. They clasped each other's hands and looked proudly into each other's eyes.

"Will," says John, "why haven't you been home in all these years? The old folks have longed for a sight of you." "Too busy, John, too busy!" "Can't you come back with me when I go and see the old folks and the old farm once again? You will recognize the old place; it hasn't changed much, although mother and father are going down hill fast." "I would like to go, John, but I can't leave my business just now. I'll be down soon, though. I would like to see it all—mother and father and that old peach orchard with the weedy fence row to the south of it, where—"

Just then his eye caught sight of the bit of old rail fence almost hidden in the rank growth of weeds near where they stood, and he paused for several minutes watching a great golden butterfly that hovered over the blossoms until the tears welled from his eyes. His grip on John's hand tightening, with an unsteady voice he said: "John, when do you go home?" "To-morrow. I have been here for a week, but I didn't know where to find you. We have heard nothing from you for more than ten years, you know." "Come home with me, John, and stop to-night. I will go to the old home with you to-morrow," said the other.

The sight of that old "weedy fence row" had stirred up a longing in his breast for a sight of the old home that he could not resist. The old weedy fence row had softened the money-pleasing of family love had fallen to do.—Chicago Tribune.

"Do you know that girl?" "No." "Then why did you take off your hat to her?" "I didn't. It's my brother's hat, and he knows her." "Oh, I see." —Drake's Magazine.

PERSONAL AND IMPERSONAL.

—Miss Mary Garrett, of Baltimore, daughter of the late John W. Garrett, is said to possess an income from an estate worth about \$20,000,000. Miss Garrett is about 40 years old. She devotes a good deal of her time to business, and contributes largely to charities.

—Mrs. Cornythe, who lives at New Britain, in the Bismarck archipelago, is one of the greatest traders in the south seas. She is half American and half Samoan, her father being a former American consul and her mother a native woman. She is said to be worth over \$1,000,000.

—Miss Mary Villa Patterson, of Muscatine, Ia., a recent graduate of a deaconess' school and also of the Boston theological seminary, has assumed a position seldom offered to women in a professional way, and is to become pastor's assistant of the Central Methodist church of Detroit, Mich.

—Mrs. R. R. Phillips, of Salem, Mass., who has just recovered from an attack of peritonitis, during which she was twice regarded as dead, avers that she died and got a glimpse of Heaven, but had to come back for a time. Salem was the starting point for several ladies who didn't come back, away off in the wretched days.

—People have been known to eat indigestible suppers in order to produce dreadful dreams. For instance a painter of the last century was noted for the horrible nature of his pictures. Report says of him that he used to eat raw beef and under-done pork chops for supper and so bring on nightmares, which gave him fresh ideas.

—Mrs. Flower, wife of Gov. Roswell P. Flower, of New York, is a regular contributor to many charitable institutions, which she aids to an aggregate extent of \$250 a week. Mrs. Flower is as shy as a school-girl, and her modesty has prevented her from having herself photographed. Her portrait is now being painted by an Albany artist.

—Senator Plumb's estate will pan out about \$1,000,000 to the heirs. For a time it was believed that there would not be a dollar remaining. There was very much of business about the late lamented senator, and although he had a reckless way of doing things, the grand total was always found to be largely on the right side of the ledger.

—Vic President Stevenson is not one of those stuck-up people who find it necessary to use a carriage in their journeys to and from the capitol. He is accustomed to jump upon a green street car after the adjournment, hand the conductor one of the little tickets that he buys six for a quarter, and then read his newspaper until he reaches his hotel.

—Princess Victoria, Mary Augusta Louise Olga Pauline Claudine Agnes is the whole name of the sweet young lady known as Princess Mary of Teck, the bride of the duke of York, and in time she may be the queen of England. She is twenty-six years old and is the eldest child and only daughter of Princess Mary of Cambridge, daughter of old King George's seventh son, and has been brought up in healthy English fashion, with her three brothers, at White Lodge, Richmond. She bears the name Teck from an ancient principality in the Swabian Alps, which was conferred upon her father, a son of Duke Albert of Wurtemberg, by the king. The princess is especially fond of outdoor sports and is a great favorite with all who know her, and especially with the princess of Wales.

—"I wish, sir, to ask for the hand of your daughter in marriage." "But are you in a position to support a family?" "O, I think so, sir." "Yes, but you must consider the matter pretty carefully for there are ten of us."—Fleegende Blaetter.

—Tommy (who has been studying with but poor success)—"Pop, my teacher says history repeats itself; does it?" Tommy's father—"Yes, my boy, sometimes." Tommy—"Well, I wish mine would repeat itself, cause 'I can't."—Philadelphia Record.

—Dick—"Yes, you see, I'm in no end of a fix. I would never have proposed if I'd had the least idea that she would accept me, but she did." Jack—"Well, just propose again, as if you had forgotten. That ought to make her mad enough to refuse you."—N. Y. Times.

### CORONER'S JURY FINDS NO ONE TO BLAME.

Copper Country Sending Substantial Christmas Presents to Gogebic Range Sufferers.

### RED JACKET.

Coroner McDonald held an inquest Wednesday evening upon the body of John Ladicia, who was killed in the Hecla mine that afternoon. The particulars of the accident as elicited by the testimony of the partner of the dead was that they had dumped a car of rock into the skip at the 28th level. While Ladicia was in the act of leveling the top of the lead cross timber supporting the weight of the skip broken in two and one portion of it struck him in the back, knocking him between the skip and the walls of the shaft, the skip starting up crushing him. The verdict of the jury was that death was caused by an accident for which the company was not to blame. Ladicia lived in Raymbaultown and leaves a wife and two children.

Quite a consignment of merchandise left here yesterday for the Gogebic sufferers.

There will be a special train on the Hecla & Torch Lake railroad next Wednesday evening to accommodate all who hold tickets to the Charity ball.

Coroner D. T. McDonald left Thursday for Detroit to spend the holidays with his daughter, Mrs. John Pantone. From there he intends going south to visit his son in St. Louis.

Superintendent John Daniell returned yesterday from the east.

The Trainmen are very busy with arrangements for their ball on the 29th.

Tickets for the Charity ball are on sale at the office in the warehouse on the Calumet & Hecla dock and at the principal stores in town. A special free train will be run to Calumet over the Hancock & Torch Lake railroad Wednesday evening.

A dangerous operation was performed on Miss Libbie Bowden Wednesday by Dr. Fletcher, assisted by Drs. Simons and Bohler. The patient has recovered from the shock and is now doing well.

The members of Ingot Tent, No. 241, K. O. T. M., making great preparations for their annual ball at St. Patrick's Hall on New Year's night. The net proceeds of which will be devoted to the relief of the destitute people of the Gogebic range. Their parties in past have always been largely attended and the members are sparing no pains to make this one of the grandest of them all. The object is a worthy one and whether he intend going or not every citizen should purchase a ticket.

Quincy Lodge, F. & A. M., has elected the following officers: W. M., Henry L. Barnes; S. W., L. H. Richards; J. W., E. R. Shields; secretary, G. W. Bailey; treasurer, William Harry; S. D., John White; J. D., David Evans; S. S., Ed Warner; J. S., M. C. Getchell; Tyler, Samuel Gillespie.

The lecture given in St. Patrick's Hall Wednesday evening by Robert J. Burdette under the auspices of the Y. M. C. A., was one of the best ever heard in this city. The speaker kept the large audience in continual laughter. Three hundred tickets were sold and all present passed a most enjoyable evening. The next of the series of entertainments under the auspices of the Y. M. C. A. will be Swift Bros. Novelty Concert company, which will appear here in the early part of February.

August Pelto, Hancock's fashionable tailor, who ad appears in another column of this issue, is carrying in stock an elegant line of kerseys, meltons, Irish frieze, montagnac chinchillas, English, French and Clay worsteds, which he invites the public to call and examine. You have only to try him once to be convinced that he can fit you correctly and when you see what bargains you are getting he will retain your trade. He makes a specialty of fine dress suits and guarantees a perfect fit on everything turned out. During the holidays he offers the citizens of Calumet, as an inducement to every purchaser, a ticket good on the Mineral Range railway from Calumet to Hancock and return free.

Just at the close of the morning's work Wednesday Larry Hearter's team went through the ice near the Highland smelter. The ice is eight inches thick but the weight of the team on a large pile of snow proved too much. The gang of men at work there soon had the team safely out.

Superintendent James Allen of the Upper Peninsula Ice & Cold Storage company reports both his large fields of ice in excellent condition and says the company's crop will be the best ever gathered on Portage Lake. The new company has two teams and a large gang of men at work keeping the snow off their fields and it will not be long before they will double their force.

The relief committee of Hancock, Franklin and Quincy townships will meet at the parlors of the Hotel Northwestern next Tuesday evening, when some changes will be made in their program. The committee reports having shipped a carload of goods yesterday and now say that money and footwear are needed the most.

Christmas exercises will be held Sunday evening in the German Lutheran church beginning at 7:30 o'clock sharp. The exercises will include declamations and songs by the children and music by the new choir. A Christmas tree loaded with all the good things of the season and handsome presents will be one of the features of the evening.

The Ladies' Missionary society of the Congregational church has contributed clothing, etc., to the amount of nearly \$60 to the Gogebic sufferers and invite

### A DIFFICULT FEAT.

Raising a Locomotive That Had Been Plunged into a Muddy River.

On August 10 last, says the San Francisco Call, a locomotive went through a big ferryboat and plunged pilot first into the water of Carquinez straits, the tender and cars remaining on the ferryboat. The water was deep enough to cover the cab, but not enough to let the boat out of the slip. The locomotive stood practically vertical, and its nose was deep in the mud. On the night of the 15th a large pair of shears made of twelve by twelve inch timbers crossed at the top, was built up on the end of the boat and some large pulleys hung where the timbers crossed. Then a diver spent several hours in fastening a number of cables on either side of the frame under the boiler. Four engines were attached to the ropes, but could not start the locomotive, although the strain was so great that a cable nearly three inches in diameter was broken. Finding the appliances of insufficient strength, the shears were doubled in size, and a fifth engine taken on board.

On the 17th another trial was made. It was hard to get the engines to pull exactly together, and as their wheels would slip and revolve the cables would snap and the tackle generally would be badly strained. Finally a simultaneous pull started the mass and the cab slowly appeared above the water, and the engine was gradually lifted until somewhat higher than the floor of the ferry boat. Tackle from a steam dredger stationed in front of the slip was then attached to the forward end of the locomotive, which was pulled out in this way. The shears were then swung slowly backward over the deck of the ferry and the engine gradually lowered to the tracks it had left. When it was hauled to the neighboring roundhouse and the mud washed off it was found that but little damage had been done beyond the splintering of the cab by the cables.

Inspector Wood, who was here in the early part of November to look over the books of the Atlantic mine postoffice and hunt up the shortage of John Clegg, has issued a warrant in Chicago for Clegg's arrest and it is probable that ere this the absconding deputy postmaster is on his way here. He will be confined in jail until the next term of United States court in Marquette. He will probably reach here in charge of a deputy marshal tomorrow noon.

There will be regular Christmas exercises at Grace Methodist church Sunday morning. Rev. E. W. Frazee will preach on "The Song of the Angels." In the evening there will be a Sunday school social. The program will consist of literary and musical exercises. The admission is free to members of the school; others, ten cents.

"Yes, sir." "Looks like cooler weather."

"Yes, sir." "I hope you are feeling quite well, Mary."

"Quite well, sir." "And that you enjoyed the farmer's picnic yesterday?"

"Pretty well, sir." "And, now, let me see; what have we for breakfast this morning?" asked Mr. Fulton, as he glanced over the empty table.

"Well, there's ham, sir." "Ah, yes, ham or—what?" he inquired with his most engaging manner. "Ham or nothing!" returned Mary, briefly.—Harry Romaine, in Life.

I have been bothered with catarrh for about twenty years; I had lost sense of smell entirely, and I had almost lost my hearing. My eyes were getting so dim I had to get someone to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did, my sense of smell is partly restored, and it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for catarrh. Mrs. E. E. Grimes, Reindill, Perry Co., O.

HER LIFE IS IN DANGER.

Mrs. Andrew Foy Will Probably Testify in the Coughlin Case Today.

PROSECUTION SAYS HER LIFE IS THREATENED.

Counsel for Defense Are Considering the Advisability of Having Coughlin Testify in His Own Behalf.

WITNESS GUARDED BY POLICE.

CHICAGO, Dec. 21.—A sensation was caused in the Coughlin trial during the afternoon session when the prosecution called Mrs. Andrew Foy to the stand, as it was not expected that she would be asked to testify today.

"Your honor," said he, "it is a question of only a few hours whether this woman can testify at all or not. Since 4 o'clock this morning this woman's life has been in peril. Tomorrow we may look for her and she may not be found. The defense talks about Mrs. Foy being insane. I have not the least doubt she will be insane or dead before long unless this horrible story of hers is divulged."

Judge Wing protested that the state had agreed last night to defer Mrs. Foy's testimony until tomorrow. Judge Tutthill finally decided to hold her over and sent an officer to guard her. Where the court sent her he would not say.

Juror Benson, whose illness threatened to seriously retard the progress of the trial, was entirely recovered today. His physician is confident that the juror will be able to retain his place until the conclusion of the trial.

Dr. Charles F. Perkins completed today the testimony which was interrupted by yesterday's adjournment. The witness said that he had been present at the post-mortem held on the body supposed to be that of Dr. Cronin. Death, he testified, was caused by the numerous wounds upon the head and neck. He was unable to determine, he said, whether or not the large wounds on the temple and behind the ear had been made before or after death.

John J. Cronin, a brother of Dr. Cronin was called to the witness stand. He testified that he had identified the body found in the catch basin as that of his brother. He was positive in his identification because of a peculiar birth mark found upon his body.

The announcement of Milkman Mertes' intention to return proved a surprise to the defense. Coughlin himself was very much exercised over the news. He declared with much emphasis that Mertes committed rank perjury. Proof of this assertion, the big ex-detective said, was given by Detective Crowe to whom Mertes is said to have acknowledged that he could not identify Coughlin. The testimony thus given by Detective Crowe occasioned his dismissal from the police department at the last trial, it is said, but on representations alleged to have been made by W. S. Forrest of Coughlin's counsel the detective was reinstated.

Coughlin today declared to a reporter that he never in his life saw the Carlson cottage and was ready at any time to go on the stand and say so to the jury. If his counsel approve of this proposition the appearance of Coughlin on the witness stand will prove one of the sensations of the trial. He was not a witness in the other case and counsel today were considering the wisdom of calling him in his own behalf. They permitted the statement to be made that in case Milkman Mertes is sworn as a witness then the present disposition of counsel was to have Coughlin tell his story under oath to the jury.

IRON BUSINESS INCREASING.

Blast Furnaces Do More Work Than Two Months Ago.

CLEVELAND, Dec. 21.—The Iron Trade Review this week says: The quietness that usually settles upon the iron trade in the closing week of a year is upon it now, intensified by the tariff incubus. Yet in mill production it is evident that the volume of business is greater than it was two months ago. There has been here and there a resumption by a belated agricultural concern and a few western car shops have taken orders that will keep them running most of the winter; and what is, perhaps, best proof of them all is that the call for finishing material has been growing—blast furnaces are making over 25,000 tons more per week of pig iron than at the same time in October and the demands from mills and foundries are not only equal to it but are making a slight inroad upon accumulated stocks. This condition indicates that although no new undertakings of any magnitude are on hand, and none need be looked for, the country's renewal demands a constant and the starting off process cannot be persisted in forever.

MAY RESULT IN ACQUITTAL.

Conductor Scott May Be Exonerated by the Jury.

MARSHALL, Mich., Dec. 21.—The jury in the Scott case were taken to Battle Creek early this morning where they spent the forenoon in visiting the scene of the wreck. The prosecution have put in nearly all of their evidence and it is now thought the case will be completed this week unless the ailing jurors grow worse. The opinion that Conductor Scott will be acquitted seems to be gaining ground.

CORWIN REACHES HONOLULU

(Continued from Page One.)

plans of defense in case of unfriendly action by Willis. At 3 o'clock no communication had been received by the cabinet from Minister Willis. Late this afternoon a visit to the executive building showed an active state of preparation, and the officers expressed themselves as ready for the unexpected should it happen. The royalists are uneasy at the prospects and annexationists declare that if they go down it will be with colors flying. The very latest order which has been issued was to the citizens' reserve guard to be on the alert. The Mariposa is to sail in a few minutes.

The Associated Press correspondent has just learned that the cipher dispatches received by Willis per the Corwin amounted to seven pages. They were translated by officers of the Philadelphia. One of the officers who made the translation said to a responsible citizen this afternoon:

"If I were a royalist, knowing what I do, I would consider the game was up as far as the ex-queen is concerned." President Dole assured the Associated Press representative that in case Minister Willis made any advance, either before or after the sailing of the Mariposa, looking toward restoration this government wished it announced in the most public manner that such negotiations would make no headway here and if pushed would be absolutely rejected by the provisional government.

"The provisional government," said President Dole, "has arranged every detail for protecting life and property and is also well prepared to resist with force the overthrow of the provisional government, if attempted by external means. Yes, you can say that if the worst comes we will make a stubborn resistance."

Quarrel Between Husband and Wife Lead to Grave Suspicions.

SAULT STE. MARIE, Mich., Dec. 21.—Peter Pocoloni of Dafter, in this county, was arrested today on suspicion of having murdered his wife. Pocoloni mysteriously disappeared two weeks ago after a quarrel with her husband and her trace of her has yet been found. The preliminary examination of the prisoner will be held tomorrow. Pocoloni said he thought his wife had gone to visit Canadian friends.

DESPERATE BURGLAR KILLED

Chicago Citizen Protects His Property in a Decided Manner

CHICAGO, Dec. 21.—James Connors, one of the worst criminals that ever lived in Chicago, was shot and almost instantly killed at midnight last night just after he had committed a burglary. He was shot four times by Alfred Luer of 156 Maxwell street, into whose house he had broken. Luer followed Connors into the street and fired four times at him, every bullet taking effect.

CITY NEWS IN BRIEF.

L. B. Sutton of Palmer was here yesterday. Ex-Governor D. H. Jerome left for Saginaw yesterday. The public schools will close today for the holiday vacation. Merchants report very fair Christmas trade, considering the hard times. E. F. Brant and S. A. Parnall of Ishpeming were in town yesterday. Prosecuting Attorney Young was down from Ishpeming on business yesterday. Mayor Anthony of Negaunee was down last night to attend the Grand Army ball. Seymour Coleman of Chicago was in the city yesterday but left for the west last night. The best Christmas present to make this year is toward the relief of the poor and needy of this city. J. C. Dougherty, F. E. Nightingale and Thomas M. Wells were among yesterday's visitors from Negaunee. The Case residence was bought yesterday by John M. Longyear of this city and Seymour Coleman of Chicago. There was another large crowd at the Salvation Army barracks last night and Major Stillwell swore in several recruits. M. C. Scully yesterday petitioned the probate court for letters of administration of the estate of Arthur H. Holland, deceased. Mrs. John J. Doetsch of Iron Mountain arrived in the city yesterday to spend the holidays at the home of her parents, Mr. and Mrs. John Stenglein. There has been a gratifying improvement in the absence of the idle and therefore probably mischievous small boy from the streets since the passage of the recent ordinance on the subject. The police are doing good work in this direction. The case of Asher Hagoney against George C. Preston, for an accounting of partnership in the Savings bank barbershop, came up in circuit court yesterday. The matter will probably be referred to a commissioner to account and report to the court. The street railway company again has men at work clearing the snow from Front street and has that part from Washington to Superior about done. Cars were again running regularly yesterday. The Front street hill should and doubtless will be cleared today. Mr. S. R. Hughes, agent of the American Express company, says that the advice given in Tuesday's MINING JOURNAL regarding the shipment of Christmas presents has been generally heeded by the patrons of his office, with the result of materially expediting the work. There is a case of "loved not wisely, etc.," now pending in justice court. The woman in the case has concluded that she is not so anxious to be married as she was but she does yearn for that share of her too-fond lover's wealth which the laws of Michigan allow her under the circumstances. Some unknown vandal fired a bullet through the window of J. W. Spear's Superior street grocery sometime Wednesday night. At least the break has some appearance of having been made by a pistol ball though the police say they heard no shot. It may have been done with a sling-shot. He is a wise and humane man this year who refrains from the much-abused custom of buying expensive Christmas presents for friends or relatives who do not need them and instead devotes the money to helping the needy of the city. The various charitable organizations need every dollar they can get this winter for the calls upon them are many. Christmas day the postoffice will keep Sunday hours, that is from 12:30 until 1 and 2:45 until 3; 5 p. m. The carriers will make only the early morning trip. The Sunday preceding Christmas the wickets will be kept open from 2:45 until 3:45 p. m. This arrangement is to accommodate those who may have packages sent for Christmas and which the carriers would be unable to take care of Christmas morning. COMMON COUNCIL PROCEEDINGS OFFICIAL. An adjourned regular meeting of the common council of the city of Marquette was held in the council room on Monday, the 18th day of December, A. D., 1893, Mayor Kaufman presiding. There were present Aldermen Brown, Gillett, Hennessey, Hoch, Homier, Hallstrom, Moore, Pearl, Putnam, Rygaard, Vandenberg and Z-rbel. Alderman Mullally appeared later and took his seat. The minutes of the last two preceding meetings were read and approved. The controller presented the street commissioner's report, which was on motion accepted. The controller presented two bids for construction of the city hall. Said bids were then read, which are as follows: From Emil Bruce, Minneapolis, fifty-two thousand, four hundred and thirty-seven dollars (\$52,437.00). If steel is used on roof, deduct fifteen hundred dollars (\$15,000.00). From Chausse Bros., Negaunee, fifty-four thousand dollars (\$54,000.00). Deduct thirteen hundred dollars (\$1,300.00) for steel Spanish tile for roof. Motion was made by Alderman Hennessey and supported that both bids be rejected, as they exceeded the appropriation, and that the controller be instructed to re-advertise for bids. Alderman Pearl offered the following resolution as a substitute: Resolved, That the mayor appoint a committee of two, with himself as chairman, to confer with the architects and Mr. Bruce to see if certain modifications can be made by which the contractor might bring his bid within the \$50,000 limit. Said substitute was carried by the following vote: Ayes-Aldermen Brown, Gillett, Hoch, Homier, Hallstrom, Mullally, Pearl, Putnam, Rygaard and Z-rbel. Nays-Aldermen Hennessey, Moore and Vandenberg. The mayor thereupon appointed Alderman Pearl and Putnam as such committee and the council took a short recess. After the recess the council was called to order and the committee reported and recommended the acceptance of the bid of Emil Bruce. The following resolution was then on motion adopted: Resolved, That the bid for the construction of the city hall with steel roof made by Emil Bruce, said bid being for the sum of \$50,000, be accepted, provided, that the said Emil Bruce within ten days enter into a contract with the city of Marquette satisfactory to the common council, and furnish two bonds with two or more sureties also satisfactory to the common council, one in the penal sum of \$25,000 running to the people in the state of Michigan and conditional for the payment of all claims for labor done and materials furnished in the construction of said city hall, and one in the penal sum of \$20,000 running to the city of Marquette and conditional for the faithful performance of the contract aforesaid. The following resolution was also adopted: Resolved, That the form of the "City Hall" bonds printed by the MARQUETTE MINING JOURNAL company (limited) is hereby revoked and that the form of "City Hall" bond printed by the Wm. Johnston Printing company of Chicago, Ills., is hereby substituted in lieu thereof, and is hereby authorized and instructed to destroy all "City Hall" bonds printed by the said MARQUETTE MINING JOURNAL company (limited) and numbered from 1 to 100 and to issue in lieu thereof City Hall bonds numbered 1 to 100 printed by said Wm. Johnston Printing company of Chicago, Ills., and Resolved, That the mayor, recorder and controller be and they are hereby authorized and instructed to take up, cancel and destroy all "City Hall" bonds printed by said MINING JOURNAL company (limited) heretofore sold and executed and to issue in their stead bonds of like numbers of the form printed by the Wm. Johnston Printing company of Chicago, Ills., being the form of bonds hereby adopted. Moved by Alderman Pearl, supported and carried that a committee of three, including the mayor as chairman, be appointed to confer with the architects and Mr. Bruce in regard to any modifications in the plans to bring the amount within the fifty thousand dollar (\$50,000) limit, and that the committee have authority to assist the city attorney in drawing the contract. The mayor thereupon appointed Alderman Pearl and Putnam as such committee. Alderman Moore stated that a petition had been handed to him, which is as follows: To the Honorable the Mayor and Common Council of the City of Marquette. GENTLEMEN: Your petitioners would ask for permission to connect a sewer on High street from Michigan to a point thirty-five feet south of Ohio street; and also that an order be given the city treasurer to refund all monies back to the parties that have paid it in to him on their assessments. JAMES E. SMITH, H. F. HANDFORD. Alderman Moore moved, which was supported, that said petition be granted. Alderman Hennessey moved as an amendment, which was supported that it be referred to the street committee, which was lost by the following vote: Ayes, Aldermen Hennessey, Hoch and Vandenberg. Nays, Aldermen Brown, Gillett, Homier, Hallstrom, Moore, Mullally, Pearl, Putnam, Rygaard and Z-rbel. The original motion as amended was then carried. Moved and carried, that orders be issued for paying back the amount of the assessment to those who have already paid for sewer on High street between Michigan and Ohio streets. The council then on motion adjourned to the 20th day of December, A. D. 1893, at 8 o'clock p. m. THOMAS MEADS, Recorder. OYSTERS. Do not buy fresh oysters until you telephone me for prices. I will have in stock New York Counts, Selects, Sticks and in fact, oysters for stewing, broiling or for frying. E. P. MONTEITH, Depot Restaurant. Johnston Printing company of Chicago, Ills., and Resolved, That the mayor, recorder and controller be and they are hereby authorized and instructed to take up, cancel and destroy all "City Hall" bonds printed by said MINING JOURNAL company (limited) heretofore sold and executed and to issue in their stead bonds of like numbers of the form printed by the Wm. Johnston Printing company of Chicago, Ills., being the form of bonds hereby adopted. Moved by Alderman Pearl, supported and carried that a committee of three, including the mayor as chairman, be appointed to confer with the architects and Mr. Bruce in regard to any modifications in the plans to bring the amount within the fifty thousand dollar (\$50,000) limit, and that the committee have authority to assist the city attorney in drawing the contract. The mayor thereupon appointed Alderman Pearl and Putnam as such committee. Alderman Moore stated that a petition had been handed to him, which is as follows: To the Honorable the Mayor and Common Council of the City of Marquette. GENTLEMEN: Your petitioners would ask for permission to connect a sewer on High street from Michigan to a point thirty-five feet south of Ohio street; and also that an order be given the city treasurer to refund all monies back to the parties that have paid it in to him on their assessments. JAMES E. SMITH, H. F. HANDFORD. Alderman Moore moved, which was supported, that said petition be granted. Alderman Hennessey moved as an amendment, which was supported that it be referred to the street committee, which was lost by the following vote: Ayes, Aldermen Hennessey, Hoch and Vandenberg. Nays, Aldermen Brown, Gillett, Homier, Hallstrom, Moore, Mullally, Pearl, Putnam, Rygaard and Z-rbel. The original motion as amended was then carried. Moved and carried, that orders be issued for paying back the amount of the assessment to those who have already paid for sewer on High street between Michigan and Ohio streets. The council then on motion adjourned to the 20th day of December, A. D. 1893, at 8 o'clock p. m. THOMAS MEADS, Recorder. OYSTERS. Do not buy fresh oysters until you telephone me for prices. ### THE TASK IS EXACTING.

So Hon. John Jones Finds That of Looking After Relief Supplies for Ishpeming's Poor.

HE WILL GET LADIES FROM THE VARIOUS CHURCHES TO ASSIST.

Went Through a Window—Home for the Holidays—Fine Line of Fruits and Nuts.

WANTS THE LADIES TO ASSIST.

Hon. John Jones, receiver for the city's relief committee, has his hands full attending to the wants of the many who call to see him. He finds the task of distributing clothing and other supplies among those who are entitled to assistance more difficult than he anticipated. When a needy person calls he generally has to put aside whatever work he may be engaged on and attend to the case of the applicant. In order to satisfy himself that the applicant is deserving (and he finds many who are not) considerable time is given to making the necessary inquiries. After he is satisfied on this point the person's wants are supplied.

During the past week or more applicants for clothing have come in so fast that Mr. Jones finds it difficult to satisfy them all. One day this week general satisfaction in the distribution of the goods and to relieve himself of a portion of the work, so that he can devote a part of his time, at least, to his own business, he desires to have the ladies of the city assist him in the distribution of supplies.

His plan is to have the different church societies appoint committees of ladies to take charge of the distribution of the garments and also to investigate the cases of the destitute families belonging to their respective churches. Mr. Jones says the supplies can be kept at his place and he will tender the free use of the room to the ladies, who can make it their headquarters if they desire.

The donations of ready-made clothing and other goods are coming in quite satisfactorily. One day this week F. Braastad & Co. added considerably to the stock of clothing, caps, rubber goods, etc.

Broke the Window.

Tuesday afternoon when the rotary snow plow was passing along the main line of the South Shore road it threw snow on either side of the track a distance of from fifty to one hundred and fifty feet. The snow was hurled against the Jenks block, which is about one hundred feet from the track, with such force that it broke one of the windows in L. W. Atkins & Co.'s store. The broken glass was scattered about the store and came very near striking one of the clerks in the face as he started toward the window to watch the plow go by.

Back from Houghton.

Alfred Anderson and Eric Swanson, employees of the Joachim Hardware company, returned yesterday from Houghton, where they have been at work for the past five or six weeks laying material on the roof and setting in ventilators, etc., on the new addition to the Houghton mining school which is being constructed by E. E. Grip & Co. of this city. The contractors are making good progress with the structure. Messrs. Anderson and Swanson will return to Houghton in a few weeks to finish up the tin work, a portion of which is not yet ready for them.

Where to Find Them.

The place to find fruit of all kinds, green vegetables, fresh and salt fish, nuts, confectionery and fancy groceries for the holidays is at Tibor's, corner of Main and Pearl streets. Have you noticed the display in the corner window? What a reminder of some of the fruit displays at the World's Fair it is! The pyramid of California oranges with Malaga grape trimmings, surrounded by fruits and nuts of various kinds, is the neatest fruit display that has been seen here in some time. In speaking of fruit it is hardly necessary to say Tibor's stock is complete, as he makes a specialty of handling fruits and always has the best in the market.

In the window on the south side is a display of fresh and salt fish among which can be found fresh cod fish, mackerel, lobsters, shrimps, halibut, smelt and numerous other kinds, and many varieties of salt and smoked fish, fresh oysters, etc. In green vegetables a fresh stock, including various kinds, is received every day. Special attention is directed to Mr. Tibor's stock of nuts, which includes almost every variety that grows. These will be sold at reduced prices during the holiday season. In apples he also has a fine line.

For the Holidays.

The Chicago & Northwestern Railway company is offering reduced rates of fare to and from all points on that road during the holidays. Round trip tickets to points in Michigan will be sold for one and one-half of the regular fare. Tickets will be on sale from Dec. 23 to 25 inclusive, and on the 30th and 31st, good to return not later than Jan. 3.

ISHPEMING IN BRIEF.

The schools closed yesterday for the holiday vacation.

Miss Mabel Green of Escanaba was in the city yesterday.

Miss Edith Vincent of Republic was in the city yesterday.

Hon. George Wagner was up from Marquette yesterday.

Miss Ada Mildon will leave today for Chicago on a week's visit to her parents.

Will Northmore is up from Marquette. He will leave for Chicago some day next week.

Frank Kennedy is home from Watertown, where he has been attending school.

F. W. Lindquist went to Escanaba on business yesterday to be absent a couple of days.

Charles Hultquist came down from

Duluth yesterday morning to spend the holidays with his parents.

The Chicago & Northwestern pay car was here yesterday distributing their monthly earnings among the employees.

Harry Beers, cashier at the Chicago & Northwestern depot, will leave today on a few days' visit to friends in Chicago.

William Larson, the commission merchant, yesterday received a car load of fine fruit for the holiday trade.

Neil Donahoe and Gust Dahlstrom are expected home from Ann Arbor, where they are attending school, today.

Dick Passoe will leave the employ of the Joachim Hardware company tomorrow and will remove to his home at Republic.

Alderman August Beerling, who has been in the furniture business here for the past year or so, is desirous of selling out and retiring from that line of trade.

August Erickson, residing at 618 Vine street, died yesterday. He is survived by a wife and three children. The funeral will be held this afternoon at 1:30 o'clock.

L. W. Atkins & Co. are displaying a nice line of neckwear, gloves, etc., suitable for Christmas gifts. They are offering special inducements in certain lines this week.

Many Christmas trees have been distributed about town during the week. Good trees are scarce, as a large number have been cut and shipped below during the past few weeks.

The next hop by Our Boys' Dancing club will be given at the Knights of Pythias hall on the 28th inst. Clifford's orchestra will furnish the music and J. A. Gaynor will do the prompting.

In addition to the supper which the Finnish Temperance union proposes giving to the poor on Christmas eve, there will be a distribution of presents of shoes, clothing, etc., to the destitute children.

The furniture, fixtures, etc., of M. A. Horowitz, late of the Arlington Hotel, will be sold at public auction to the highest bidder next Tuesday morning at 10 o'clock to satisfy a chattel mortgage held by Karin Melhuus.

Wallace Duhaime, who has resided at Ashland for some time past, is in Ishpeming visiting his parents. He will return to Ashland after the holidays. His brother Walter came down with him after making a two months' visit at Ashland.

A Suitable Christmas Present.

What will make a more suitable Christmas present for a gentleman than a nice meerschaum pipe or cigar holder, a cigar case or a box of fine cigars? Nothing that can be bought will be more highly appreciated by a lover of a good smoke than one of the articles mentioned. In these goods Jaedecke Bros. have an unusually fine stock this year. They have selected a line especially for the holiday trade. In cigars they have various kinds, from the cheapest to the dearest, put up in packages of twenty-five, fifty or one hundred.

As to prices, Mr. Jaedecke says he has marked his goods down to a figure where they are bound to sell. The stock is so varied that a present can be bought for almost any sum, from twenty-five or fifty cents up. Persons desiring articles in this line can be suited in every respect by calling at this popular house.

OUR PROGRESS AT SEA. American Ship Builders Make the Best of Ships. General Ignorance of the People Concerning Achievements in Building Fast Ocean Steamers--Foreigners Astonished.

There is a serious side to our continued yachting triumphs, in importance transcending far the sporting world, says the Boston Transcript. Some time ago Emperor William was quoted as saying that in building up the German navy he would look to the United States hereafter. Whether the emperor said this or not, the fact that it is attributed to him in Europe demonstrates that the revival of American skill in shipbuilding is attracting attention abroad.

How few are the people who realize all that is meant by the statement that a newly-launched cruiser has made twenty knots on her trial trip! There are not many who know that a twenty-knot ship was ten years ago a mechanical impossibility in this country.

How did you enjoy your summer trip, Bagley? "I had a delightful time. Gained 150 pounds." Hobson--"One hundred and thirty pounds! I don't believe it." Bagley--"Don't you? Well, here it comes down the street. Just wait a moment and I'll introduce you."--Harlem Life.

A pleasing feature of some railway stations in and about New York is a strolling colored mutton as attendant in the ladies' room. These women are nearly always popular, unfailingly courteous and apparently honest to a penny. They make it part of their business to care for packages, and they accept the smallest tip with a smile and thanks that makes the giver regret that the amount was not thrice as large.

Along with the improvement of yacht building has gone an improvement in the art of making the trophies offered in yacht races. However beautiful America's Cup may appear for the time being, it is certainly a less creditable example of the silversmith's art than several less distinguished trophies. This was sufficiently apparent when it was recently exhibited in a New York jeweler's window beside half a dozen other cups.

It may have surprised some folks to learn that it would require five years for the mints of the United States government to coin 107,000,000 silver dollars, but the time is not so surprising when one has done a little figuring. The mints have scarcely 300 full working days in the year, or less than 700,000 working minutes in five years. To coin 107,000,000 in that time, therefore, it would be necessary to turn out more than 250 dollar pieces per minute.

Jarley's stair-rail in his new house is a strange looking thing. It has a novel-post on every other step. "Yes. That is one of Jarley's patents. It's what he calls his Anti-Slide-Down Banister for Families with Boys. He also has a scheme to prevent servants from scratching matches on the wall." "What is that?" "It's a little notice in the servants' rooms requesting them not to scratch matches on the carpet."--Harper's Bazar.

Rather a pretty effect was made by a sidewalk fruit dealer in the market district of New York the other day. He had gathered an armful of wild asters and chamomile from a vacant lot and had decorated his fruit stand with them, placing a richly headed stalk of flowers between every pair of baskets. The blue and white, blended with the green of the leaves, the pink of the peaches, the red of the apples, the yellow of the pears, and purple of the plums, made quite a decorative piece of color, and many of those who passed that way stopped to look at it.

A man with his head beneath a dingy bit of cloth and a tripod in front of him stood in Third avenue, New York, the other day and waved his hands as if in practice for the post of railway brakeman. He was trying to photograph a corner bakery with a group of the women employees in the doorway. The girls were variously posed, and one had deliberately turned her back on the camera. The outdoor photographers testify that the whims of feminine sitters are not to be counted upon with any degree of certainty. For one woman that takes an easy pose, with natural, unembarrassed expression, ten turn their backs, giggle, or look as if they had just said "flip" by way of making up a pretty mouth. On the whole, however, the resultant pictures are more pleasing than when the incidental group is made up of men.

"Give me a name for that," said an artist to a visitor who was looking at his freshest picture. "I'm the worst hand at that," he continued. "I can paint a picture easier than I can name it, and the least a fellow can do when he comes up here and fools away my time is to give me a lift on a name. Other people name more than half of my pictures. The trouble is they are apt to be sentimental and want to call a thing 'At Hush of Eventide,' or 'When the Stars First Painted,' which is more than I can endure. Usually I end by adopting some infernal piece of commonplace: 'A Meadow,' 'Connecticut Pasture,' 'November Afternoon,' or such like. You think it's easy to make names? Well, here's a shelf full of chromos: christina christina."

Postage Stamps in Paris. It may not be generally known that Paris is the great postage stamp market of the world. There is a regular course held every Thursday and Sunday in a corner of the Champs Elysees, where hundreds of men, women and boys congregate with their postage stamp albums and packages of stamps for sale and exchange. It is said that thousands of francs change hands there every market day.

**OLD SOLDIERS DANCED.**

Veterans Forgot Their Years at Albert Jackson Post's Ball Last Night.

**AFFAIR A BRILLIANT SUCCESS IN EVERY WAY.**

Rush Culver's Appointment As Receiver of the Land Office Caused Considerable Surprise.

**BRASS BUTTONS GALORE.**

Veterans of the greatest war in history forgot their years last night and danced lightly over the polished floor of Armory Hall. The Grand Army ball was a great success. The walls were decorated with the national colors and stacked guns with knapsacks and rolled blankets hung upon them reminded the veterans of the days when they tramped and camped in the woods and fields of the lands to the southward. The attendance was large and by no means represented the total sale of tickets. Fully half of the gentlemen present wore military uniforms of some sort and the glitter of gold lace added much to the brilliance of the scene. Several of the veterans wore their army or navy uniforms, every member of the Marquette Rifles present was in full dress and the costume of the Uniform Rank of the Knights of the Maccabees could scarcely be distinguished from the regulation military dress.

The grand march was called at 10:30 and was led by Colonel Bernard S. Kaufman, Michigan National Guard, with Mrs. C. D. Blanchard, and Major Edward E. Homer, Uniform Rank, Knights of the Maccabees, with Miss Rose Cole. After several very pretty maneuvers the march music melted into the strains of a waltz and in a moment the floor was full of swirling figures. Dance succeeded dance and although the older people began to disappear as the small hours of the morning grew larger the younger folks kept up the festivities until a late hour. Supper was served by French in the dining room below and was enjoyed and praised by all. Joe Mack of course was prompter and Rowell's orchestra supplied the music. The receipts netted Albert Jackson post quite a neat sum, which will be expended for the growing charitable work of the order.

**'Twas a Surprise.**

The appointment of Mr. Rush Culver of L'Anse as receiver of the land office at Marquette was in the nature of a surprise, as but few were aware of his candidacy for the place and the general belief was that no change in the office would be made until the expiration of the present receiver's term under his commission. It was generally supposed that Mr. Chas. J. Laughren of Ironwood would receive the appointment when a change was made, as he is popular, deserving and was very strongly endorsed for the position, but it seems that a rule has recently been adopted by the department under which either the register or receiver must be an attorney-at-law, where this is possible, and this barred out Mr. Laughren as well as several other aspirants for the place. Mr. Culver will doubtless make a capable and faithful officer and his appointment will be particularly pleasing to the homesteaders of the upper peninsula, who have great confidence in his ability and integrity.

**W. E. Tyler's Promotion.**

The many friends throughout the peninsula of the genial W. E. Tyler, for several years commercial agent of the Chicago, Milwaukee & St. Paul road with headquarters at Republic, will be glad to learn of his promotion to the post of traveling freight and passenger agent for the Lake Superior division and contiguous territory, with office at Green Bay, Wis. The official notice was issued the 15th inst and the appointment takes effect Jan. 1. Mr. Tyler during his residence in this county has made hosts of friends for the St. Paul road, who while sorry to see his residence removed from this community will be glad to learn that the change is a substantial advance for him in more ways than one. As he keeps his old territory his jolly face will continue to be seen hereabouts at frequent intervals and his silvery voice will continue to proclaim that the Chicago, Milwaukee & St. Paul is the only railroad on earth. More power to him!

**Both Were Surprised.**

Members of Tontonia lodge No. 236, I. O. O. F., inflicted a pleasant surprise on Mr. and Mrs. F. C. Gloeck last evening. During the afternoon a handsome sideboard arrived at the house. Mrs. Gloeck accused her husband of buying it for a Christmas present and he, although completely mystified, meekly pleaded guilty to the charge. In the evening a crowd of Odd Fellows and their wives invaded the house to find both master and mistress absent. They were soon coralled, however, and brought home and Mr. A. Engelbach then proceeded to present the sideboard. Mr. Gloeck had then to confess that he did not buy the sideboard but excused himself by saying that he had affirmed the contrary to keep peace in the family. The evening was spent in games and other amusements, not forgetting a bountiful lunch, and all present passed a most agreeable time.

**An Appetizing Display.**

Hathway & Peters' Washington street market contains an appetizing display of good things for Christmas festivities. A row of carcasses of the finest cattle reminds one irresistibly of the "roast beef of Old England," so much celebrated in song. Other meats, bowls and oysters of the best brands make a combination that would tempt an anchorite to forego his vow of abstinence. A choice collection of partridges and other game is also in evidence, headed by several fine specimens of a bird not often seen in this region, the wild turkey. The *MINING JOURNAL* man has shot and eaten the wild turkey in his native woods and in his opinion the much praised canvas-back is "not in it!"

alongside of a plump and well-roasted Indian Territory turkey. The display is well worth inspection by all lovers of good eating.

**Ninety Cents a Cord.**

Mr. J. C. Fowle writes THE *MINING JOURNAL* to say that he is paying ninety cents per cord for chopping spruce, instead of eighty cents as erroneously stated in the issue of Dec. 15. He is ready to contract with parties to cut from one to four forties as they may desire and can employ quite a number of men. Experienced woodsmen say that ninety cents is a good price for chopping spruce though the earnings of a man will depend on his experience and how scattering the timber is. There is nothing like trying, however, and while a green man cannot do much at first with an axe the trade is an easy one to learn and small earnings are much better than going on the county.

**Queen City Tent Officers.**

The following officers were elected last evening by Queen City tent, K. O. T. M., for the ensuing year: J. J. Stevenson, commander; Lester Clark, lieutenant commander; J. W. Hudson, record keeper; F. E. Knight, finance keeper; Frank Schwartzberg, chaplain; A. Desjardins, physician; T. C. Smith, sergeant; P. D. Price, master-at-arms; Robert Stevie, first master of guard; R. A. McLaughlin, second master of guard; John Morrison, sentinel; M. E. Foard, picket.

**No Paper Christmas.**

In accordance with custom since the establishment of THE *DAILY MINING JOURNAL* there will be no issue of the paper on Christmas day. The whole force from editor-in-chief down—or up—to devil, including that most indispensable personage, "the ghost," will take a rest which they hope THE *MINING JOURNAL*'s readers will consider well earned.
