SENATOR HILL of New York is getting "slapped in the face" in more ways than one lately.

A WELL-CONDUCTED STRIKE The best conducted railroad strike of any magnitude that has occurred in this country was that of the Great Northern men, which has just ended in a substantial victory for the strikers.

MR. CHAPIN, owner of the fee of the Chapin mine, has agreed to waive his royalty for a year in order that the mine can be wrought, and it is this concession that has enabled the trustee in charge of the property to make arrangements for resuming mining operations.

THERE is a probability that if the upper peninsula were to unite and vigorously push the claims of Hon. Jay A. Hubbell for appointment as the successor of Senator Stockbridge Governor Rich would be inclined to give them consideration.

THE Wisconsin board of normal school regents has declined to accept any of the sites offered by Superior for the state normal school which the state is to build at some point in northern Wisconsin, and has decided not to make further attempt at present to select a site for the school.

OF course Sovereign, the blather-skite now at the head of the Knights of Labor order, could not fail to avail himself of so promising a chance to show his folly as the "industrial army" movement afforded.

WORKING OUT RESULTS. The determined and sensible stand regarding silver coinage taken by our government is having the desired effect abroad, and already there is a marked increase in sentiment favoring the adoption of an international ratio for the coinage of silver developing in Europe.

A bimetallic congress assembled in London this week, and it is noticeable that it approaches the work before it in an entirely different temper from that manifested by the Brussels conference, at which the disposition of the representatives of the European governments plainly was to do nothing that would tend to help the United States out of the hole into which crude silver legislation had placed this country.

This would not be had not congress repealed the silver purchase act and had it not been shown that until the European powers are willing to unite with us in establishing an international ratio we shall treat silver precisely as they do. Being satisfied at last that

we will not put ourselves at their mercy by undertaking, alone and single-handed, to re-monetize the white metal they are getting ready to join with us in putting silver back where it belongs.

The best friends of silver are those who oppose having this government admit it to the mints free except under an agreement as to the ratio at which it shall be coined that will ensure its permanent and world-wide recognition and acceptance as money on parity with gold.

It may be said that this strike was successful because it was well-conducted. The men had popular sympathy with them at the start and kept it to the finish by abstaining from violence and any attempt to intimidate the company into conceding their demands by destruction of its property.

Indeed so scrupulous were the striking employees of the company on this point that they organized for the purpose of guarding and protecting the property of the railway company wherever there was any danger that ill-disposed persons might seek to take advantage of the trouble to rob trains or in any manner interfere with the company's property rights.

On one point they were immovable. They would not allow trains to be moved by new men. In taking this stand they were only doing what was absolutely essential to ensure the success of the strike; nevertheless the position they took was a denial of the company's legal right to hire whoever it pleases for the purpose of operating its line.

On the whole the strike was admirably handled by the men and its success is a great card for the new organization of railroad workers which ordered and managed it.

ARE YOU GETTING DEAF? The Following Explains Why and Shows the Remedy.

Mr. W. D. Stokes, Baton Rouge, La., writes: "I had chronic catarrh very badly, noise in the ears, and nearly deaf. I used your Pe-ru-na according to directions, and am now well; can hear the tick of a watch ten feet. Your Pe-ru-na is a wonderful medicine."

Catarrhal deafness is always due to catarrh of the throat passing up through the eustachian tubes to the middle ear. The catarrh in rare cases originates in and remains confined in the middle ear. The symptoms are: Roaring, cracking and buzzing in ears, with gradually increasing difficulty in hearing. If not cured the hearing will be entirely destroyed.

A book on la grippe, coughs, colds, catarrh, etc., will be sent free to any address by the Pe-ru-na Drug Manufacturing company of Columbus, O.

A blow with a hammer on the thumb, crushes it and the nail turns black and comes off. The thumb swells and is painful and the man "lays up." Now look at another case. The thumb was smashed just the same but the man was not laid up an hour! He had a bottle of Dr. Fenner's Golden Relief. He poured some into a cup and dipped his thumb in it as soon as hurt. It is now covered with a thin piece of cloth and kept wet with the Relief. He works as usual. It is not sore though yet raw. It has not swelled. No matter will form. He will work with it right along in a day or two it will be well. Inflammation cannot exist where it is applied, any more than the morning dew can.
