TRIED TO BUY SENATORS.

Senator Hunton Was Offered \$25,000 to Vote Against Tariff Bill.

KYLE OF NORTH DAKOTA ALSO APPROACHED.

One Buttz, a Former Member of Congress, Named as the Would-Be Vote Buyer.

INVESTIGATION DEMANDED.

WASHINGTON, May 16.—Mr. Lodge introduced a resolution for the appointment of a committee to investigate the charges of attempted bribery of senators in connection with the pending tariff bill and the charges in the Philadelphia Press of Monday relative to the influence of the sugar trust on tariff legislation. The resolution went over until tomorrow.

ATTEMPTS TO BUY VOTES.

Rumors of this character have been floating about for some time but received little attention in the senate. It is now learned definitely that certain senators received intimations that a money consideration could be secured for votes against the tariff bill, though whether the alleged briber had any authority for these promises is a matter of doubt.

KYLE AND HUNTON APPROACHED.

The negotiations of the character indicated apparently got no farther than intimations to the clerks of Senators Kyle and Hunton. These intimations are said to have come from a North Dakota man known as a lobbyist and formerly a member of congress from the south identified with the carpet-bag movement. The intimation was that Mr. Kyle was to receive \$14,000, the negotiator to get \$1,000 of it.

WHAT KYLE'S CLERK SAYS.

Senator Kyle's clerk says that the matter never went farther than an intimation that such a sum would be paid for Kyle's vote against the tariff bill. Senator Kyle is now in South Dakota and will return Saturday.

It is not believed that anybody with money enough to carry the scheme of corruption through would entrust it to a man of the character named in the charges.

HUNTON OFFERED \$25,000.

Senator Hunton said the offer of bribery made to him was made a month ago. The would-be briber went to Virginia and made it to the senator's son. He offered \$25,000 for the senator's opposition to the bill. Senator Hunton at once laid the facts before several of his most intimate friends.

THINKS BRIBER MEANT IT.

Senator Hunton said he was satisfied that the money would have been paid and that the offer would have been raised to \$100,000 if necessary. He said he was not acquainted with the briber.

The name of the alleged briber is withheld by those acquainted with the inside facts but their descriptions best fits Major J. A. Buttz of Buttzville, N. D.

BUTTZ ASKS INVESTIGATION.

Ex-Representative C. W. Buttz of Buttzville, N. D., whose name has been mentioned in connection with the alleged attempts to purchase the votes of Senators Kyle and Hunton against the tariff bill, will ask a full investigation at the hands of the senate of the charges made against him.

SENATOR HANSBROUGH'S ADVICE.

Buttz called on Senator Hansbrough of North Dakota this evening and asked advice as to what he had better do. Mr. Hansbrough finally advised him to write a letter asking for an investigation and agreed to place it before the senate. This Buttz agreed to do. Senator Hansbrough expects to receive the letter and present it in the senate tomorrow.

ALLEN'S RESOLUTION DISCUSSED.

Mr. Allen's resolution calling upon the secretary of the treasury for information as to the number of persons directly affected by protective duties and by competition with foreign laborers in the United States was discussed until the tariff bill was taken up at noon but no final action was taken and the resolution went over.

GALLINGER'S SERIAL STORY.

Mr. Jones having moved to increase the duty on linseed, flaxseed and poppyseed to twenty cents, Mr. Gallinger announced that he was about to give a complete history of American legislation on the tariff. He read away at an enormous pile of manuscript until 2 p. m. when, saying that he had now brought the story down to 1846, he gave way to Mr. Dubois.

DUBOIS DEMANDS ACTION.

The portion of Mr. Dubois' speech demanding immediate action upon the pending bill—either passage or defeat as the quickest way to restore at least temporary commercial prosperity—created something of a sensation as indicating the attitude of western Republicans on the matter.

WILL CHECK SMUGGLING.

The pending Jones amendment was to place crude opium, not adulterated, containing 9 per cent. or over of morphia (dutiable at \$1 per pound in the house bill), on the free list and to reduce the duties on other grades of opium.

Senator Vest said the officials on the

Pacific coast all believed the reduction of the duty, thereby reducing the premium on smuggling, would tend to break up that practice and would furnish the government a larger revenue. The amendment was agreed to. At 6:05 the senate went into executive session and afterwards adjourned.

HOUSE TALKS AGRICULTURE.

WASHINGTON, May 16.—The house today passed the bill for the validation of affidavits made before United States commissioners in all land entries. Then the house went into committee of the whole on the agricultural appropriation bill. Without any action of importance the committee rose and the house adjourned without acting on the bill.

TRY TO HOLD UP A TRAIN.

Three Minnesota Desperadoes Fall and Are Landed in Jail.

ST. PAUL, May 16.—Three desperadoes made an unsuccessful attempt to wreck and hold up a Chicago, Milwaukee & St. Paul train late this afternoon at Minnesota City. They were disguised as tramps and boarded the passenger train at the little village of Minneska. Their leader was Thomas Kelly, one of the best known desperadoes in the northwest.

The trio stepped aboard the baggage car back of the tender just as the train pulled out of the depot, and were not noticed by even the engineer and fireman as they crept upon the steps from the side of the train opposite the depot and crouched down behind the tender. They tried open a big tool chest attached to the tender and, by dropping picks, links, pins and other things on the track, sought to derail the train five miles from Winona.

The engineer noticed the bumping of the baggage car and brought the train to a standstill. The desperadoes were discovered and the train crew made for them. They fought for their liberty for some time and then attempted to break for the woods.

Two of them, however, were tripped up, fell and were captured. Kelly, their leader, eluded the trainmen temporarily but was run down in half an hour. The three are now lodged in the Winona jail. Their plan was to derail the train at a lonely spot and then rob its passengers. Kelly's partners give their names as Wilson and Horge. These are evidently fictitious.

TRAIN STEALERS HELD.

Must Furnish Bonds to Appear or Be Jailed.

LEAVENWORTH, Kas., May 16.—The preliminary examination of the Saunders train-stealers was concluded today and Commissioner Waggener rendered an opinion holding the defendants to the United States court for trial. Saunders' bail was fixed at \$500 and each of the 350 men at \$400. Marshal Neeley was ordered to take them to jail in case the bail was not given.

KELLY'S NAVY IN TROUBLE.

OTTUMWA, Ia., May 16.—There is much excitement in Eldon over Kelly's Navy. As a boat was coming down the river citizens hailed it for the purpose of supplying provisions. The deputy sheriffs employed by the Rock Island rushed down to prevent the landing. A stone was thrown at the Kelly boat, breaking the ribs of one and knocking the other unconscious. At another point the Rock Island deputies attempted to prevent the Kellyites from landing and a pitched battle ensued. Conductor Charles Martin was struck on the head and it is thought his skull is fractured. Two Kellyites were arrested.

LIGHTNING LIT THE GAS.

Gas Wells Aflame and Adjoining Towns Burning Wood.

MUSKEE, Ind., May 16.—During one of the severest thunderstorms that ever visited this county great damage was done last night. Fences and timber were blown down and many buildings damaged. Lightning struck the large gas-regulator house at the location of the four gas-wells owned by the Winchester Gas company, near Zelma, completely destroying it. The pipes were torn loose from one of the wells and the gas ignited. Soon the entire product of the four wells was ablaze. The blaze shot a hundred feet into the air. This with the roaring caused great excitement for miles around. The blaze could be seen easily from this city, a distance of seven miles. Today a large force of men has been at work trying to stop the blaze. In the meantime Parker City, Farmland, Winchester and other Randolph county towns are burning wood.

FAVOR FREE SILVER.

Missouri Democrats Adopted the Majority Report on Platform.

KANSAS CITY, May 16.—The pending question on the reconvening of the Democratic state convention this morning was the previous question ordered on the reports of the committee on resolutions last night by 187 1/2 to 345 1/2. The minority substitute was defeated and the platform as originally presented by the majority adopted, 432 to 114. The nomination of a candidate for railroad commissioner was then proceeded with. It took six ballots and J. H. Finks of Chariton county was declared the nominee, after which the convention adjourned.

DEMURRER IS OVERRULED.

Judge Jenkins Orders Northern Pacific to Plead Merits.

CHICAGO, May 16.—Judge Jenkins in the federal court today overruled the demurrer and plea of the Chicago & Northern Pacific and Northern Pacific railroads to the bill of the Farmers' Loan & Trust company to foreclose on the mortgage for \$300,000,000 of these companies and issued an order to the defendant railroads to plead to the merits of the bill by the first Monday in June.

CHIPPEWA VALLEY FLOOD.

Dams, Bridges, Mills and Booms Swept Away by the Waters.

ESTIMATED DAMAGE OVER ONE MILLION DOLLARS.

Chippewa Falls Business Houses Flooded and Other Towns in the Valley Suffer Loss.

WORST IS PROBABLY OVER.

CHIPPEWA FALLS, Wis., May 16.—The heavy rain storm which passed over this city and vicinity last night swelled the Chippewa river and its tributaries over their banks, flooding an immense area of farming country, washing away railway tracks, bridges, farm buildings and mills. Several dams broke, which caused the most loss. This city has lost three bridges and other property to the value of \$15,000. Private losses are heavy, including goods in cellars to the value of \$30,000. Duncan creek has turned into a raging river on which saw mills and many thousand logs have been carried away. The estimated loss to this city and the surrounding country is \$200,000.

CHIPPEWA IS STILL RISING.

The Chippewa river is still rising. Merchants in the lower part of the city are moving out their goods. The flood loss in the Chippewa valley alone is estimated at \$2,000,000. No lives are reported lost. At Chippewa City, six miles north, saw mills, dams, lumber yards, in fact almost the whole city, have washed out with 6,000,000 feet of logs. The Chippewa river is nine feet above low water mark and the worst has not yet come. It is reported that the Little Falls and Flambeau dams have given away. If true this will cause the river to rise fifteen feet more, completely flooding the business part of this city.

IT WAS A CLOUD BURST.

ST. PAUL, May 16.—A severe storm in the nature of a cloud-burst, extending twenty-five miles in length north and south, with St. Paul on its western side, did terrible damage last night. The amount of damage is yet uncertain but will be very heavy.

RIVER FALLS, WIS., REPORTS THE DAM BURST AND THREE BRIDGES WASHED AWAY.

loss on dam, \$25,000.

NEW RICHMOND, WIS., REPORTS TRAINS UNABLE TO RUN ON ACCOUNT OF WASH-OUTS.

Mrs. William Brennan of Erwin Prairie, Wis., was killed and several others injured by lightning.

RAILROADS ARE WASHED OUT.

All Chicago railroads suffered severely. Some trains had to go round-about ways to escape wash-outs. Others were not able to get through at all. On the Northwestern road yesterday all trains were held at Hudson and last night at Eau Claire by wash-outs. The Wisconsin Central trains are tied up by wash-outs. The Burlington and Milwaukee trains came in by round-about ways. The wires are down near Prescott, Wis., and more definite news is unobtainable.

Great damage was done to cellars throughout this city. The flats are flooded and residents there are seeking high ground. The weather is sultry and it is feared the worst is not yet over.

STILLWATER IS HIT AGAIN.

STILLWATER, Minn., May 16.—Last night's storm left this city in worse condition than its predecessors. Several houses on Fourth street tipped over into a gully thirty feet deep. The yard and shops of the penitentiary are flooded with sand and water. The railroads are badly washed out and business houses on Main street flooded with sand. The additional loss by this storm will reach \$50,000.

THREE BRIDGES WASHED AWAY.

RIVER FALLS, Wis., May 16.—The storm last night was the worst ever known here. The Prairie mill dam and three bridges, two of them iron, were washed away with several buildings. The loss will aggregate \$200,000.

TRAIN STUCK IN THE WOODS.

GLENWOOD, Wis., May 16.—The flood last night took out the dam and let one million feet of logs down the stream. The Wisconsin Central tracks were badly washed out and the passenger train was hung up in the woods all night.

DELLS DAM BLOWN OUT.

BLACK RIVER FALLS, Wis., May 16.—The west wing of the dam at the Dells was blown out this morning to save the rest of it. The water is rapidly rising and the break is now 300 feet wide. The damage to crops is very large.

WATER IS NOW RECEIVING.

CHIPPEWA FALLS, Wis., May 16.—The loss by flood in the Chippewa valley will aggregate \$500,000. The water is now receding and the worst is over.

FISH HATCHERIES WASHED OUT.

HUDSON, Wis., May 16.—The heavy rain storm yesterday has caused Willow River and Trout brook to overflow the banks with damage of over \$50,000 to trout hatcheries and other property.

MICHIGAN POSTMASTERS CONFIRMED.

WASHINGTON, May 16.—The following Michigan postmasters were confirmed today: George D. McKay at Oscoda; John S. Flanders at Sturgis; William F. Stirling at Eaton Rapids; David Matteson at Middleville; Richard S. B. Reece at Three Oaks.

GERRYMANDER ARGUMENTS FINISHED.

DANVILLE, Ill., May 16.—Arguments in the gerrymander case were finished today and court adjourned till Saturday, when the decision will be rendered.

It's Education—

simply a matter of education—the use of Pearline for washing and cleaning. The bright women, those who learn quickly, are using it now. The brighter the woman, the larger her use of it—the more good uses she finds to which she can put Pearline. Dull women, those who never use new things until their bright sisters have drummed it into them—they'll use it presently. It's just a question of sooner or later, with every woman who wants the best.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—send it back.

HARD FOR YOUNG GIRLS.

Trying Preparation for Entrance into Society—What Paine's Celery Compound Does.

To be graceful, entertaining, accomplished in music and French, easy talkers on topics of the day, yet up in ancient history—this and much more is what society expects of the young girls who "come out" at 18 or 19.

In the few years before 30 so great a change is wrought that we almost, as if by magic, see a woman, where but a short time before was only a child.

If, during these critical years, constant mental exertion absorbs blood and nerve force, the system grows feeble and suffers from lack of nourishment.

The vital mistake of the thousands of girls who yearly break down in schools and colleges is just here: A vigorous, healthy body and brain must have an unlimited supply of pure, rich blood, fully capable of building up growing tissues and repairing the waste of hard worked nerves and brain and body.

This is just what Paine's celery compound is providing today for over-worked, anxious, "run down" people all over the United States and Canada.

If care be taken that no part of the body be poorly nourished, a great deal of hard work and study can be safely gone through. But when young girls are seen to grow thin, pale, spiritless, and nervous, there is plain starvation of some of the important organs and a craving of the blood and nerves for better nutrition.

Paine's celery compound was first prepared by Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, with the fullest knowledge of any medical man of his day of what tired, weak, nervous women need to make them well and strong.

The happy effects of Paine's celery compound are hereby informed that they are all cases of debility, nervous weakness, and impoverished, impure blood are astonishing. It makes people well where everything else fails.

This remarkable remedy makes sickly, feeble women strong; does away completely with the languid feeling that comes from underfed nerves and blood.

As a sure sign of its radical effect on the system for good, it is noticed that in a short time the eyes grow clearer and brighter, and cheeks ruddier, and the mind more active and hopeful.

Paine's celery compound cures dyspepsia, sick headaches, neuralgia, rheumatism, and every symptom of impure blood, and permanently cures the most difficult diseases of the liver, kidneys and heart.

Thousands and thousands of men and women who have taken Paine's celery compound are today perfectly well and happy.

Lovers of fine cigars should read advertisement of The New Daisy 48 Cigar.

SIBERIA NOT ALL STERILE.

Five Million Square Miles of Land Suitable for Agriculture or Pasture.

Siberia is popularly supposed to be a barren waste, extending from the frozen ocean on the north to the sands of the Gobi desert on the south. But this popular impression is altogether wrong, according to the Philadelphia Record. Exclusive of the north and the deserts of Turkestan, Russia in Asia contains an area of 5,000,000 square miles of land suitable for agriculture or pastoral pursuits. Its population numbers nearly 18,000,000. There are several cities with a population exceeding 50,000. The agricultural products exported, which constitute only a very small part of the whole, are valued at an average of \$30,000,000 a year. The output of the mines exported is valued at upward of \$20,000,000 annually, and the furs, fish, skins and other products that come into European Russia from Siberia are worth \$5,000,000 to \$6,000,000. It was for the purpose of developing this vast territory and encouraging immigration thither that the government of the czar has undertaken to expend \$300,000,000 upon the Great Siberian railway, over 4,000 miles long, which will connect the Black sea and the Baltic with Vladivostok, on the Sea of Japan. It is not expected that the railway will pay the expense of operation for many years to come. But it will doubtless be an important factor in the future economic history of the world. One result of the completion of the road may be an entire shifting of trade routes; and it will certainly open a new and productive continent to settlement.

A Trait of David Dudley Field.

The late David Dudley Field knew how to treat deserving young men of his own profession. A young lawyer from the country happened to be in London at the time of an important international convention of lawyers, and Mr. Field was there as an honored delegate to the convention. The great lawyer and the young man were acquainted, but the latter was embarrassed and perhaps a little embarrassed to find not only that he received tickets to the meetings of the convention, but was made to take a seat among the comparatively small group of men whom the profession sought specially to honor. These unexpected attentions were all the result of a word from Mr. Field.

STABBED HIS OLD MOTHER.

Engene Brady in His Insane Frenzy Does a Frightful Deed.

PLUNGED A KNIFE IN HIS MOTHER'S HEART.

Four Other Persons Injured, One Seriously, by the Maniac Before He Was Overpowered.

MANIA'S AWFUL CRIME.

ALBANY, N. Y., May 16.—Engene Brady, aged thirty-five, killed his mother, aged sixty-five, this afternoon in a fit of violence, and attempted to kill four other persons. With three knives in his hands he ran wildly about the streets, cutting right and left, assaulting everyone he met. Before the police overpowered him he had cut his sister-in-law, Mrs. James Brady, Alfred J. V. Werner, Mrs. John Kelly and Patrick Rice. Mrs. Kelly's wounds are serious, but it is not thought they will prove fatal. The wounds of the others are not serious.

Engene Brady quarreling with his mother and sisters for no apparent reason, and they soon determined that he was not in his right mind, as Brady's father had been insane and was released from an asylum but a short time ago. The daughter, Jennie, went to a near-by lumber yard and asked that some of the employes be sent to the house to quiet her brother.

When the men entered the house Brady ran up stairs and jumped from a second-story window. The men ran outside and picked him up. He was unconscious and it was thought he was seriously injured. He was carried into the house, placed on a lounge and his head bathed. He revived in a few minutes and before he could be stopped jumped up and grabbed a common case knife, a can opener and a carving knife. He then ran out of the house and began a wild and terrible chase through the neighborhood.

TWO THOUSAND HOMELESS.

Nearly Five Hundred Families Burned Out at Boston.

BOSTON, May 16.—A stretch of blackened ruins covering more than a dozen acres marks the scene of last night's fire. Hundreds of homeless men and women are searching the ruins of their houses in hopes that something has been spared. The property loss is half a million dollars. One hundred and thirty-seven buildings, mostly wooden structures occupied by poor people, were totally destroyed and twenty-two more damaged. Four hundred and sixty-seven families or more than two thousand persons are homeless. The Boston Base Ball club losses \$70,000 and the city of Boston \$100,000. There was only one fatality, that of a baby suffocated, but seventeen persons were injured.

Early in the day thirty-five children were reported missing as a result of yesterday's great fire but this morning the number was greatly decreased. Many little ones were discovered in the homes of strangers who had cared for them until their relatives were found. Several are yet to be found but they are undoubtedly safe in the keeping of people of the vicinity of the fire. The loss by the fire is now estimated at \$600,000.

TRAIN-STEALER SENT UP.

Hogan Will Not Walk on Washington Cross This Year.

HELENA, Mont., May 16.—William Hogan, leader of the Montana contingent of the Industrial army, will not get on the grass at Washington for six months to come. Judge E. Knowles of the United States court yesterday sent him to the county jail for that period for contempt of court in leading the movement which resulted in the taking of the Northern Pacific train at Butte on April 24 and running off with it till captured by troops at Forsyth two days later. Philip Rogers, engineer; J. Hackett, fireman, and forty captains and lieutenants were also sent to the county jail for sixty days. The rank and file, 300 strong, will be brought into court in blocks of thirty, and if they promise not to do so again they will be dismissed.

NO AGREEMENT REACHED.

Coal Miners and Operators Are Still at Odds.

CLEVELAND, May 16.—Representatives of the striking coal miners and operators of the mines resumed their sessions this morning and appointed a conference committee of four from each side to settle on a scale. The miners demanded the restoration of the old rates which the operators offered, sixty-five cents for Pennsylvania and fifty-six cents for Ohio. The committee was in session all day without an agreement being reached. The general convention will therefore take up the question.

COAL HILLS IN FLAMES.

Disastrous Fire in Coal and Lumber Yards at Pawtucket.

PAWTUCKET, R. I., May 16.—This city is illuminated tonight by the blaze from fully 50,000 tons of coal consumed in the disastrous fire on the river front this afternoon. Conservative estimates place the loss at \$500,000. The fire started in the Newell Coal & Lumber company's yards, whose entire property is in ashes. The flames were communicated to the coal and lumber yards of Olney & Payne Bros. and the stock and structures were wholly consumed. The fire next enveloped the coal and lumber yards of J. T. Cotrell & Co. and

HE WINGED A BURGLAR.

Town's Shot Gun Did Good Execution on a Gang of Thugs.

FOUR MEN TRIED TO BREAK INTO HIS HOUSE.

Fired Through the Window at Them and Fatally Wounded One of the Party.

ELEVEN SUSPECTS ARRESTED.

TURNER, Ill., May 16.—One of the four thugs who beat Casper Hoffman into insensibility at the depot last night and who entered several houses was shot and fatally wounded by Major Town, a well-to-do farmer, into whose residence they were trying to pry an entrance.

THE NOISE AROUSED THE MAJOR, WHO CAME DOWN STAIRS WITH A SHOTGUN IN HAND.

The moon through the window disclosed his presence to the burglars. They started to run, when Town opened fire through the window, hitting one somewhere in the breast. The burglars returned the fire and five shots were exchanged, but no further damage was done. While Town was reloading his gun the burglars made their escape.

The one who had been winged went to John Fessler's house and begged them to open the door and go for a doctor but they were too frightened. A great pool of blood showed that the wound was bleeding freely. He managed to go to the pump where he bathed his wound and then disappeared. This morning the body of the man was found in Martin's slough, a short distance from the scene of the shooting. Hoffman did not regain consciousness until 3 o'clock this afternoon. His description of the man who pretended to be a brakeman and who knocked him down and kicked him into insensibility corresponds to that of "Prairie Jim" O'Brien, who had just been put off the train. Hoffman is still in a serious condition and may not recover.

The posse organized last night has succeeded in bringing in eleven men, who are locked up in jail on suspicion. Extra police have been put on duty, while the excitement is so great that the citizens are guarding their own homes.

THE PREVENTION CURE. Preserving the Health of Schoolboys by Daily Attention to Their Condition.

THE PREVENTION CURE.

"A Headmaster's Wife," in an uncommonly sensible letter to a London paper, describes a plan whereby the health of schoolboys or young collegians can be more thoroughly taken care of than is usual. In normal school practice all boys "reported sick" are excused from football and other sports, but the question is, to what extent must a schoolboy feel ailing before he reports himself sick? It is the very pluck that one admires in boys that generally works the mischief, and they often will not complain until the delay has more or less seriously aggravated the case.

THE PREVENTION CURE.

Though so unready to report himself "sick," a boy will usually admit that he "does not feel very gay" if the question is put to him directly, and it is this fact that has given rise to a system which has been found to answer excellently well. One boy in each dormitory is appointed to report each night upon the condition of the boys in his dormitory. He writes on a slip of paper: "All well in such and such dormitory," and adds the date, or "All well except so and so, who complains of this or that malaise." These slips are placed nightly on the desk of the lady manager.

THE PREVENTION CURE.

Suppose that a boy complains of headache or sore throat, he is at once summoned, the slight ailment is inquired into, a simple remedy ordered, and in nine cases out of ten nothing more is heard of the matter. If, however, it seems to be a case of chill, the boy is kept warm in the sick room for a day or two.

THE PREVENTION CURE.

"I am convinced," says the "Headmaster's Wife," "that being kept warm for a day or two often wards off a serious illness, and in this opinion I am supported by one of the most eminent of London physicians. A plan something analogous to this might be carried on in nearly all educational institutions. The 'preventive' takes only a day or two, the 'cure' may take weeks, and that means a serious loss of valuable work and possibly precarious health for years to come."

THE PREVENTION CURE.

It seems that the Sunday night entertainments, recently so popular in London, are beginning to pall upon those for whom they were intended. Out of five clubs which used to give orchestral or other concerts on Sunday nights in the west end only one remains. The Sunday discussions upon theatrical matters are also, it is alleged, not nearly so well supported as the Thursday night smoking concerts. The chief difficulty in the organizing and developing of Sunday concerts and entertainments lies in the fact that the vast majority of Londoners live in the suburbs, and prefer their family circle and their home to a journey to town on Sunday evening.

THE PREVENTION CURE.

It gives an impressive idea what subterranean London is fast becoming to learn that an emerging from the river the new city and Waterloo line will, in its passage up Queen Victoria street, run for a part of the way underneath the low level main sewer, which in its turn runs along beneath the District Underground railway. So that at this point in the city we shall have first a busy main thoroughfare, below that a steam railway, then a huge metropolitan sewer, then an electric railway, reaching its terminus at a depth of about 63 feet below the streets, and here it will communicate with another line—the Central London—which will lie at a depth of 80 feet—London Daily News.

THE PREVENTION CURE.

A Long Pursuit. Balzac or Gaboriau never wrote a more thrilling story of long pursuit and successful revenge than comes by the China steamer in accounts of the assassination in Shanghai of Kim Ok Kim, the Korean refugee. It occurred in a foreign hotel in the European settlement, and the assassin, Hung, was arrested and held for trial. Hung camped on Kim's trail for six years in the hope of getting him outside of Japan. While in the pay of the Korean court he cultivated the acquaintance of Kim, who had lived at Tokio for several years under a Japanese name. Hung induced a Korean exile, who owed Kim a large sum of money, to write offering to pay the old account with interest if Kim would come to Shanghai. The trial will probably show that the Korean court promised the assassin a big reward for removing a dangerous conspirator whom the Japanese government had saved from their vengeance for ten years. Kim was the ablest Korean who has come to the front since the hermit kingdom was opened to foreigners. He spoke Japanese, Chinese, French and German fluently.

AFFAIRS AT ISHPERING.

Superintendent Gibbs of the Board of Public Works Prostrated by an Attack of Sickness.

RACE BETWEEN A TROTTER HORSE AND A BICYCLE RIDER.

Dan Coughlin Goes Into Business at Chicago—Failed to Find His Men—No More Photos on Sundays.

A SUDDEN ATTACK.

Albert W. Gibbs, superintendent of the board of public works of this city, lay in a critical condition all yesterday and last night at his home on West Ridge street. Shortly before 9 o'clock Tuesday morning he was prostrated by sickness while at work and at once went home. He suffered considerable pain all day and gradually grew worse. At an early hour yesterday morning Mrs. Gibbs became alarmed on his account and called in a couple of the hospital physicians. Upon examination they found that he was suffering from peritonitis and was sinking fast. At noon he was very weak and unconscious and continued in that condition for several hours.

Yesterday the news of Mr. Gibbs' illness spread about the city and during the day many friends called at his home to ascertain how he was getting along. Up to a late hour last evening his condition was unchanged. The attending physicians reported that if he lived until today his chances for recovery will be good.

Dan Coughlin in Business.

Dan Coughlin, who left here for Chicago a couple weeks ago, has engaged in the saloon business in that city. On Thursday last Dan called on Andy Foy and persuaded him to return to his wife and family. This, relating to the reunion of Foy and his wife and the purchase of the business by Coughlin, appeared in a Chicago paper of Tuesday.

Andrew Foy and his wife have been reconciled and are now living happily together at their home, 347 North Franklin street. The husband and wife have forgotten their difficulties brought about by the trying court scenes of the Coughlin trial and have agreed to come together for their children's sake. The romantic part of this episode is that Dan Coughlin himself was the actual peacemaker. Last Thursday Coughlin hunted up Foy and had a long argument with him. He told Andy that he did not cherish any ill-will against Mrs. Foy and had forgiven her for all she had done against him. It is said that with tears in his eyes, Foy then gave Coughlin his hand and started at once to propose the reunion with his wife. Mrs. Foy was equally happy to give her consent.

Coughlin has bought the saloon at 123 Clark street, paying \$15,000 for it. The detective declared he would never take a drink, not even behind his own bar. It is said a West Side coal dealer named Corbett is Coughlin's banker. Andy Foy will be Coughlin's bartender.

Coughlin's place is said to be one of the finest in Chicago. It is located in about the liveliest portion of the city and is very handsomely furnished. Dan, no doubt, will make a success of his business venture.

Horse Against Bicycle.

Mail Carrier James Tucker, who is one of the best bicycle riders in the county, has consented to race the trotting broncho recently owned by Hamilton Stewart at Union Park on Decoration Day. The management of the park has offered a prize to the winner of the match. Mr. Tucker says he will race the horse on the conditions that governed in the match between the broncho and Willis of Red Jacket a year ago. The horse is to trot the entire five miles. The owner of the horse has not yet agreed to this, as he wants to trot the first three miles and go-as-you-please the remaining two.

As the horse was an easy winner in two former races of the kind Mr. Tucker will not consent to allow him to run the last two miles as he realizes that the nag would then have the easy end of the match. Jim will begin training for the race at once.

Couldn't Find Him.

Conrad Larson, who went to Sault Ste. Marie Monday in search of Victor Luoma and Jacob Kersberg, who are wanted as witnesses in the case of Alexander Alatala vs August Kalmola, which comes up for trial in the circuit court at Marquette this week, returned yesterday. Soon after arriving at the Soo Larson learned that the two men he was seeking had left there for parts unknown a few days before. Kalmola will be tried on a charge of assault with intent to do great bodily harm, he having stabbed Alatala at their boarding house on Pearl street in this city last February.

To Accommodate Horsemen. The management of Union Park will issue monthly tickets during the summer season to Ishpeming and Negaunee persons who desire to exercise their horses on the track. The tickets will not be good on days when there are amusements of any kind in progress there. The tickets will be sold at a reasonable price and will not be transferable. Further particulars can be obtained by applying to the management.

"The Sparkling Cup."

The members of the Uniform Rank of the Temple of Honor, who have been rehearsing a drama, entitled "The Sparkling Cup" for some time past, have completed arrangements for its presentation at the Temple of Honor hall on East Division street on the evening of Decoration Day, May 30. The admission will be twenty-five cents for adults and fifteen cents for children.

To Close on Sundays.

N. M. Nelson and C. D. Cole, photographers of this city have agreed to not keep their galleries open for business on Sundays hereafter. As trade in that line is not as rushing now as formerly they are of the opinion that all those wanting work done can just as well call during the week as on Sunday.

ISHPERING IN BRIEF.

"The Smugglers" tonight. H. S. Cannon of Houghton was in the city yesterday.

J. H. Karkeet of Iron Mountain was in town yesterday. The funeral of the late Henry Quinn, who died at Republic Tuesday morning, will take place at Negaunee tomorrow morning at 10 o'clock.

Rev. J. E. Borg, pastor of the Swedish Lutheran church, was at Marquette since Tuesday evening attending a district mission meeting.

Austin Farrell, consulting engineer of the Iron Cliffs company of Negaunee, and Charles H. Schaffer of Marquette were in the city together yesterday.

The ties and rails have all been laid on the new side track leading from the South Shore main line to the Ames mine and the track is now being ballasted.

The Rice, Wolford & Sheridan company will open a three-nights and matinee engagement at the City Opera House tonight. "The Smugglers" is the bill for tonight.

Al. Smith, the barber, removed from the Jenks to the Anderson block, where he occupies the stand recently vacated by H. Willis & Son, yesterday afternoon. He will be ready to attend to his patrons as usual today.

Mrs. Ada Bryant and daughter, who have been residing on First street, left yesterday morning for England, where they expect to remain permanently. They will visit eastern cities for a few weeks before sailing for abroad.

Mrs. G. A. Stoye of Houghton was in the city visiting her sister, Mrs. Joseph Richards, Tuesday. She left on the early train yesterday morning for West Superior on an extended visit to another sister, Mrs. McDonald.

J. A. Dunneath of the Main street restaurant will fit up ice cream parlors in connection with his restaurant soon. He recently began the sale of fruits and is doing fairly well in that line. He advertises in this issue for a girl to wait on table.

The members of Sir Humphrey Davey lodge Sons of St. George have been requested to attend the regular meetings of the lodge tonight and also a week from tonight to consider the leasing of a hall for the ensuing year, as the lease of their present quarters expires June 1. Mathew Dennison, secretary of the Ancient Order of Hibernians of Michigan, who attended the national convention of that order at Omaha, got home Tuesday. He says the meeting was the largest and most successful ever held by the Hibernians in the United States.

SPECIAL RATES FOR HUNTING, FISHING AND CAMPING PARTIES.

The South Shore have placed on sale at their Marquette, Negaunee and Ishpeming ticket offices, excursion tickets to the stations on their Duluth extension west of Nestora to Lake Gorebelle inclusive, at the very low rate of single fare for the round trip. These tickets will be sold only to parties of five or more and will be made good for fifteen days from date of issue. They will remain on sale until September 1st, 1894.

KNOW ITS STRENGTH.

There Were Temptations Zeke Doubted His Ability to Withstand.

A Georgia fruit dealer had about his store a man of color who was noted for his honesty; at least, he had been for the six months he had been employed, says the Detroit Free Press. When the first load of watermelons for the season was received, Zeke became worried and nervous, and just before closing for the night he went to the proprietor.

"I spec, boss, I've got ter resign," he said, twirling his hat in hand like a shamefaced boy.

"Why, Zeke, what's the matter?" was the surprised response. "I'm satisfied with you and I thought you were satisfied with me."

"I wuz, boss, twel ter-day."

"What's wrong now?"

"I can't stan' hit, boss," he said, vaguely.

"Can't stand what?"

"Can't stan' de grat tem'tation, boss," he went on rapidly. "De oranges ain't nothin', ner the bananas, ner the peaches, ner plums, ner grapes, ner nener dem. Dem's nothin' to a man ob my principles, boss, an' tain't no tem'tation fer me not ter pick um up when you ain't lookin'; but, boss, hit an dem yar water-milions wot's rasslin' wid dis chile, an' dey's gwine ter fling him, sho. Dem's wot I can't stan', boss, an' ef I hain't done resigned my job dish yer very night, dar's a commandment gwine ter be busted wide open, an' Ise 'sponsible fer hit. Lemme go, boss," he pleaded, and, to save a good man, Zeke was invited to take his pick of the pile and carry it home with him.
