sure but one disease, viz.: INFLAMMATION.
But that appearing in so many forms makes a lenglist of names. It certainly looks like a big jump from corns and felons to consumption. But each is inflammation, and inflammation can no more thrive under the application of this remedy than potato bugs can under paris green. It kills it. If no inflammation then there would be no it. If no inflamination then there would be no consumption: strest it and you arrest the consumption. Mr. S. L. Amphlett, Clearmont, South Dakota, writes: "I am a well man and cannot say enough in praise of Golden Relief. Took it as directed. In two weeks cough had ceased and throat trouble of years standing disappeared. The Golden Relief is all you claim for it. I could tell of other wonderful cures." This is the brief tale of a man who had had the "hectic flush" and was about to take the "last chance." Instead of "going south" he was induced to use Golden Relief. He did not "go south." To-day he is a well man. Try it. If not satisfied with results, money refunded. No harcotics, no mineral poisons in it. Safe and certain. Never disappoints. One tablespoonful cures LaGrippe.

### LILLY LED A DOUBLE LIFE. Man Killed in Burlington Left Widow There and in Chicago.

BURLINGTON, Iowa, May 21 .- It appears that Walter Lilly, the electric lineman who was killed by a live wire here several days ago, had two living wives. He left a widow in this city and Mrs. Nellie Burke Lilly of 5243 Ashland avenue, Chicago, accompanied by her sister, has arrived in this city and claims the body of the dead man. She brings a marriage certificate showing she was united to Walter Lilly on December 4, 1889, at St. Anne's church December 4, 1889, at St. Anne's church on Wentworth avenue in Chicago. The certificate is signed by the Rev. Father J. M. Flanegan of St. Anne's church. She also brings a photograph of the dead man, taken while he was with her in Chicago, and also one of their son. The Burlington widow was not aware of the Chicago claimant. Lully left no property, but the appearance of the Chicago claimant will complicate the claims for damages from the electric light company.

LINNEUS, Mo., May 21,-The latest news received here concerning the hunt for the Taylor brothers, the murderers of the Meeks family, is to the effect that they are cornered in the woods north of Novinger in Adair county. Sheriff Barton of Lima county is still in the hunt and as no word has been received from him today it is thought he has struck a good trail. Many people here believe the Taylors have certainly been rounded up. The latter have a great number of friends and the searchers say that obstacles innumerable have been thrown in their way by the Taylor sympathizers. DIFFERENCES IN RAILWAYS.

The American railways differ from those of England in three essential particulars, and those differences are so fundamental that English railroad managers and engineers have always contended that the methods and arrangements peculiar to the United States can not be applied to the gener-ally greatly different circumstances of a country like England. The most radical difference is that which occurs in the average length of haul-a difference which is a function of the geo-graphical conditions of the two coun-

of haul in the United States being about one hundred and ten miles, and that in the United Kingdom being only about thirty-five miles, the cost of bandling the traffic relatively to the average receipts per ton handled is much greater in our own country. So great is this difference 'that some notable railway authorities have argued that the cost of transport is an expectation of the opera company to another. "Why?" "You see, she's really fond of her husband and hates gued that the cost of transport is not only not a function of the distance, but that her art demands it."—Washington only not a function of the distance, but that distance has very little to do with it; and to some such explanation it is due that the average freight charge on American railway lines is less than Wife (quietly)—"Yes. ## INDIGESTION

## Ayer's Sarsaparilla

Words of Comfort to All who Suffer from Dyspepsia.

"For years, I was a martyr to indigestion, and had about given up all hope of ever finding relief, as the complaint only seemed to grow worse instead of better, under ordinary treatment. At olast, I was induced to try Ayer's Sarsaparilla, and I hereby testify that after using only three bottles, I was cured. I can, therefore, confidently recommend this medicine to all similarly afflicted."—
FRANKLIN BECK, Avoca, Ia.

"I am personally acquainted with Mr. Beck and believe any statement he may make to be true."—W. J. MAXWELL, Druggist and Pharmacist, Avoca, Ia.

"I have used Ayer's Sarsapa."

"I have used Ayer's Sarsaparilla for general debility and, as a blood-purifier, find it does exactly as is claimed for it."—S. J. OADAMS, Ezzell, Texas.

Reporter Has Swift Sail and Views Wrecked Tug Pacific.

HOUGHTON, Mich., May 21.—The Mixino Jounnal reporter never dreamed he was going to run across so much marine news when he left this city Sunday morning in the schooner Red Wing which was chartered for the trip was manned by a railroad crew. Baggageman Loranger was captain and pilot: Engineer Watson had charge of the foresail and was lookout man. The men before the mast were Sincock and Wilson. Leaving the dock at 10 o'clock what wind there was was fair, but the boat had scarcely got to the middle of Portage Lake when it blew a perfect gale from the rothwest and as we reached the vicinity of the Atlantic stamp mill the white caps were breaking into the boat over the windward bow and water was running over the lee rail. The reporter amused himself by bailing out water. Just when things began to look doubtful of reaching three scows. The boat's bow was put toward her and the tug captain kindly took our line and we were song ging directly ahead. On board the Robertson was Engineer Brassard of the tug Pacific and he gave the reporter the particus and reported to part of the city.

All tatempts to release the schooner Hattle bayes of a falled. She is still only only a fall attempts to release the schooner Hattle have so far falled. She is still only a for water, only about a hundred feet from the light not part of the foresail and was looked man. The men before the mast were Sincock and Wilson. A Big Business That is Bigger in Mary

The hero who was the first man to swallow an oyster would be astounded if he could read part of a recent bulle-tin of the United States fish commission and see what an important indus-try he started all by himself. This bulletin tells about the oyster business in Maryland, but, as Maryland produces one-third of the world's oyster product, the story of the industry in that state contains about all that is necessary to an understanding of the importance of the oyster commerce.

Of the 35,000,000 bushels of oysters produced in the world each year nearly 30,000,000 bushels are natives of the United States, and more than 11,000,000 Ed Laughlin, the genial foreman of bushels come from Maryland waters. Hose company No. 1 of the fire department, appeared in the May number of nearly \$6,000,000, that of the United The Western Fireman and Journal of States about \$16,000,000, and that of the Public Works," published at Chicago: rest of the world's a little more than \$12,500,000. It will be noted that a The Negaunee, Mich., fire department has been drilling since January: under Foreman Ed Laughlin. Ed used to belong to the state troops and was captain of a company in New York for about three years, and the way he has brought the department into drilling condition shows that he understands his business. He says it makes him feel as though he is back east again with his old company. When the department turns out July Fourth the boys expect to be as well drilled as any company in the regular army. Ed is captain of No. 1's ball team and has charge of the large warehouses of the C. & N. W. railway. He is trying to get the council to purchase new uniforms for Company 1, and with the chairman of the fire committee intends soon to visit Milwaukee and Chicago for the purpose of looking up fire matters and obtaining prices on equipments. They will go at the city's expense, for if there is one thing Negaunee takes pride in it is its fire department.

When one sees an oysterman lifting his long tongs out of the water, he sometimes wonders if there is any limit to the length of the poles the man can handle in his small boat. There is; it is about 28 feet. Longer tongs are used on larger vessels, but they are worked by halyards fixed to the rig-ging. In deep water the dredge is sed. It is a heavy iron rake, and is drawn up by means of a windlass on board. There are so many laws gov-erning the use of tongs and dredges that the Maryland oysterman must be a lawyer as well as a sailor and a fighter.

ome of the Latest Freaks and Frills of Fashion. A curious novelty is a hat which resembles a butterfly shape. The crown is Panama black moire with a paste buckle in the middle, represents the body of the butterfly. The wings are black moire bows edged with real lace the color of the crown, and white strings come from under two bunches of violets which adorn the back.

The newest sleeves for evening wear are either formed of two puffs, one overlapping and the other caught up on the outside of the arm to form a bow, or are made of a series of frills, one over the other.

The "complexion veil" is a novelty of pale pink Russian net sprinkled with black spots and delicately perfumed. It is very becoming to pale blondes, yet there is nothing so pretty as the regulation black dotted net.

Some of the latest bonnets have im-mensely wide strings edged with lace, which form a scarf under the chin.

One of the whims of fashion is to wear a black moire ribbon, an inch wide and a yard and a quarter long, around the neck, and fastened with a

gold slide. To this is attached a tiny watch or a fancy little gold bottle filled 4-11-tf with a favorite perfume.

One of Worth's fancies is the use of foulard silk with a white ground and

colored figures in combination with black crepon. Among the new laces are those that are worked over the pattern with gold thread; others studded with jet and embroidered with colored silks and heavy laces, such as English silk guipure patterns of point de gene and Russian arabesque. These are used as flat borderings, and on waists for collars, berthas and vests. Lemon is the latest color in lace.

With the revival of checks comes the old-fashioned Louisine silks so durable and soft for summer dresses.

Travelers say that the entire vista from the car windows along the South rest of the pick and shovel has brought into play the plow and harrow. In no one spot is this most gratifying change more marked than around Negaunee. Not in its history have farms clustered around it giving that feeling of security and bulwark against want which husbandry engenders. One visitor to this city says it is fast taking on the ap-pearance of a lower Michigan town and that the unusual sight of farmers at work in the fields about the city is doing more to inspire the people with

To the agriculturists of Chocolay and adjoining townships Marquette owes a great deal, and the same story may be retold of Negaunee and Ishpeming if they properly encourage the ten-dency toward farming, which is the outgrowth of necessity but may soon be-

Thomas Flynn's Body Found.

The body of Thomas Flynn, who had been missing since last Tuesday night, was found yesterday forenoon in the slip between Spear's dock and No. 3 ore dock by the life saving crew. Coroner Crary summoned a jury and held an inquest after which the body was taken to Hager's morgue. A post mortem examination showed no signs of violence and as nothing definite could be learned regarding the manner in which deceased came to his death, the jury game a worder of accidental

accept the jury's verdict as correct.

Flynn's disappearance did not cause any uneasiness for the first day or two but by Saturday his brother feared he was in the bottom of the harbor and had some boats begin dragging. Yesterday morning the services of the life saving crew were asked and after about two hours' work the body was found.

Deceased was fifty-two years of age and will be buried this forenoon at 9

Death of J. B. Johnson. John B. Johnson, one of the pioneers of Marquette and the upper peninsula, died yesterday noon at his home, East Arch street, in the sixty-second year of his age. Deceased leaves a widow and family of eight, four sons and four daughters. Elmer, the eldest son, is teller in the Wilkinson bank, Samuel clerks for the Manhard-Jopling Co., Henry is car accountant in the South Shore general offices and John is with Shore general offices and John is with Kellan, the grocer. Of the daughters, one is the wife of Mr. McKereghan, Irene is teacher in the public schools and the two youngest live at home. All the family reside in Marquette. The funeral will take place Wednesday afternoon at 3 o'clock from the house.
