GREAT DAMAGE WAS DONE.

Two Score of Persons Seriously Injured by the Storm at Little Rock.

FOUR PERSONS WERE KILLED AND OTHERS MAY DIE.

Many Buildings in Business Portion Unroofed and the Contents Ruined by Floods of Water.

MANY UNCONSCIOUS OF DANGER.

LITTLE ROCK, Ark., Oct. 3.—The disastrous effects of the cyclone that visited this city last night was not fully realized until today. Its course was almost directly east, the first disastrous effects being at the insane asylum where its destructiveness was appalling, killing Dr. Ingate and injuring eleven inmates. Thence the funnel-shaped cloud wound its way with fearful velocity, now rising and again descending, through the residence and business portion of the city, entailing a loss which will reach a million dollars, sacrificing four human lives and injuring nearly forty persons, some probably fatally. The killed are:

DR. INGATE,
JACKSON BOYD AND SON,
J. T. GRIFFIN.

Those injured are:

C. T. MONROE,
SAM O. SMITH,
FRITZ REIS,
MRS. L. LE PERWITT,
JOHN HOLWAY,
JOHN FORTNER,
MISS LUCILLE WEST,
TOM FORBES,
CALVIN PRATHER,
J. D. BOWMAN,
JOHN EATON,
WILL WARD,
MRS. L. COLMER,
JOE HOLWAY,
W. D. TROTTER,
— HOUSEL,
J. M. RYAN,
DR. LARLAND,
JERRY DONOHUE,
JOHN BROWN,
MRS. J. JANKS,
JOE SMITH,
W. A. LANGFORD,
JOHN BALLE,
J. B. CROSS,
J. C. BIGGS,
A. HENRY.

WILL HARVEY, convict,
TOM MITCHELL, convict, probably fatally hurt.

GILBERT BAKER, convict,
LEE HINSON, convict,
WILL SINGLETON, convict,
J. J. SMITH, guard,
JOHN WITT, guard.

From the moment the cyclone struck until daybreak the city was enveloped in darkness. The streets were filled with bricks, mortar and debris of the ruined buildings and a mass of telegraph, telephone, electric and trolley wires making pedestrianism difficult if not dangerous. The greater number of the 40,000 inhabitants slept peacefully, totally unconscious of the devastation of the business portion of the city. The path of the cyclone lay along the Arkansas river sometimes touching it but never crossing it to the north. The weather bureau instruments were swept away so no history of the origin of the storm could be obtained at this source, nor its course after leaving the city, although marks of its destruction are reported from Lonoke.

Not until 10:30 this morning could news of the disaster be sent to the outside world as all wires but an Iron Mountain railroad wire were down previous to that time. During the entire day the streets were filled with thousands of people viewing the ruins. Hundreds of workmen were busily engaged removing the debris and repairing the damage. So quickly did the work of progress begin that except in a few localities no one would have realized the extent of damage except by a close inspection. Beyond unroofing two hundred buildings the damage to buildings was confined to the insane asylum, state prison, Martin block (opposite the Custom house), the large wholesale grocery house of C. F. Baucum, while scarcely a mercantile establishment in the storm area was not a sufferer by water, many stocks being almost a total loss from the deluge.

At the insane asylum the south half of the main building was destroyed. It was erected twelve years ago at a cost of \$300,000. Seven of the unfortunates are still unaccounted for. At the state penitentiary the loss is estimated to aggregate \$30,000.

AT THE REQUEST OF PATRONS.

Whisky Trust Does Away With the Rebate System.

PEORIA, Ills., Oct. 3.—The directors of the whisky trust are still in session. The most important action of today was the knocking out of the rebate system. This is generally regarded as a severe blow to the trust for by its use it was enabled to hold its trade against competition. This system was only abandoned because it was forced by the distributors both east and west who are combining to fight the company. Outstanding rebates will be paid if dealers hold to their agreements. The trust today issued a circular to all agents throughout the country stating that the board of directors had decided on and after Oct. 4 to discontinue the issuance of rebate vouchers at the request of patrons.

ATTENDANCE INCREASING.

Expense of Running Indian Schools Has Been Reduced.

WASHINGTON, Oct. 3.—D. M. Brown, commissioner of Indian affairs, has submitted his annual report. He says there has been a steady pressure of earnest work all along the lines with satisfactory results. The aggregate enrollment for the schools has been 21,451, with an average attendance of 17,096, against a 21,117 enrollment and 13,303 average attendance for the previous year. The reduction in contracts

for schooling the Indians the past year amounted to \$75,716. The amount for the Roman Catholic schools was reduced from \$382,745 to \$359,216; the Presbyterian, \$30,340 and the Congregational, \$10,825 was cut off. The field matrons have done good work but there are not enough of them to carry civilization forward rapidly. Commissioner Browning takes the same position as his predecessor that all Indians are under the agents of the government and the sale of liquor to them is a violation of the law.

TRIUMPHAL MARCH.

Immense Crowds Gather to Greet Governor McKinley in Kansas.

HUTCHINSON, Kas., Oct. 3.—After speaking to large crowds at Scranton, Burlington, Osage City, Peabody, Strong City and Newton Governor McKinley arrived here at 4 o'clock. The country folks were apparently advised of the coming of McKinley for at every station there were groups of cheering men and women in Humboldt Park, adjoining the railroad tracks, set up a shout as the special train rolled in and a cannon boomed out a deafening salute. The governor spoke for half an hour and then continued his journey westward. At Newton the governor gave utterance to some significant words. He said:

"I see before me many old soldiers, members of the Grand Army of the Republic. I am glad to welcome them here today. We are not only in favor of prosperity, but the Republican party is in favor of patriotism. What we want here is a little more patriotism and a little less anarchy. What we want is a revival of patriotism in the United States and protection is in part patriotism, for protection stands for our country and our flag."
At Hutchinson thousands followed Governor McKinley from the depot to his place of speaking, yelling frantically, climbing on his carriage and demanding to grasp his hand. Oklahoma, Indian Territory, Nebraska and even Texas contributed to the enormous crowd whose numbers was estimated at from twenty to thirty thousand. Governor McKinley made two speeches here, one on his arrival and a second one in the evening. A special train took him to Lincoln, Neb., tonight.

ANOTHER CAUSE ADVANCED.

Hard Times Brought on by Money Spent in Drink.

OSHKOSH, Wis., Oct. 3.—The grand lodge of the Wisconsin Independent Order of Good Templars opened its thirty-ninth annual session here today with nearly five hundred delegates in attendance. Grand Chief Templar Clark delivered his report showing the number of subordinate lodges added and claiming that the depression of the past year was due principally to the vast sum, estimated at over a billion dollars, expended in drink. The third district was awarded the grand lodge banner for the largest gain in temple membership, 102 per cent. The evening was taken up with reports of committees.

LANDSLIDE WRECKS A TRAIN.

Tennessee Convicts and Their Guards Injured by the Accident.

MEMPHIS, Tenn., Oct. 3.—A disastrous wreck occurred on the Brushy Mountain railroad sixteen miles from Harriman, Tenn., today in which several guards and convicts were injured, some of whom may die. The most seriously injured are: D. O. Webster, Boniar, Tenn., foreman; J. N. Blamhall, Nashville, guard; R. H. Burrows, Oliver Springs, guard; John Thornhill and Green Armstrong, convicts. Thirty-nine convicts, whose names are not known, were also injured. The accident was caused by a landslide at the end of a short curve.

AN ELOQUENT DIVINE DEAD.

Professor David Swing Dies at His Home in Chicago.

CHICAGO, Oct. 3.—Professor David Swing died at 8:10 p. m. His death was due to acute blood poisoning brought on by an attack of jaundice. Professor Swing was born in Cincinnati, O., August 23, 1830. In 1866 he accepted a pastorate as a minister of the Presbyterian church in this city and remained until after the famous heresy trial, when he resigned and formed the Central church, with which he has since labored with great success.

FARMERS LEFT PENNILESS.

Flames Destroy Crops in the Black-brook Country.

GRANTSBURG, Wis., Oct. 3.—Word has just been received here that a hurricane of flames has swept over Black-brook country, twelve miles north, burning everything in its path. Hundreds of tons of hay, together with other property, was destroyed. Some buildings were burned. As this section is composed of new settlers it leaves them in a pitiable condition. An appeal will be made to Governor Peck for aid. A relief committee is organized here.

LINDHOLM BROUGHT BACK.

Defaulting Deputy Secretary of State Now in Lansing.

LANSING, Mich., Oct. 3.—Deputy Sheriff Wright and Chief of Police Sanford, arrived here today with August Lindholm, the defaulting ex-deputy secretary of state who was arrested in Sweden. Lindholm freely admitted the shortage but says it amounts to only about \$1,200.

Forecast of the Weather.

WASHINGTON, Oct. 3.—9 p. m.—The weather bureau reports the following as the forecast for the next twenty-four hours. For upper Michigan: Showers; west winds.

GATHER TO DEFEND PEKIN.

Immense Army of Chinese Surround Their Capital to Defend it from Invaders.

JAPANESE ARMY LANDS AT THE MOUTH OF YELLOW RIVER.

Mikado's Forces Acting With Great Promptness and Energy in Their Invasion of Chinese Territory.

IN A STATE OF CONSTERNATION.

SHANGHAI, Oct. 3.—A hundred and fifty thousand men are gathered at Peking for the defense of the city. The Japanese army has landed north of Yellow river in the southern part of the gulf of Pechili to intercept the transports of troops from the south by the way of the Grand canal to Tien Tsin. A Japanese fleet of seventeen warships are blockading the gulf of Pechili.

The governor of Kirin, Vanc Huria, reports that the Japanese have landed in the rear of Lanchow. The whole province is in a state of consternation but measures for relief are being adopted. Another heavy levy has been made on the Chinese merchants to meet the expenses of the war.

WILL DISCUSS THE WAR.

British Council Called to Review the Eastern War.

LONDON, Oct. 3.—Inquiry made by the Associated Press correspondent at the foreign office late today elicited the information that the calling of a cabinet council for tomorrow had no connection whatever with the meeting of the French cabinet on the same day. The relations between Great Britain and France have certainly been strained during the past six months and although the government ministers would be glad to seize upon the occasion to discuss matters the cabinet has not been summoned for that purpose but on account of the dangerous situation in China. The British minister, O'Connor, has received a dispatch from Peking which indicates that the danger to the foreigners in China is considerable.

LONDON, Oct. 3.—All the afternoon papers seriously discussed the hasty summoning of the cabinet council and it is generally accepted as connected with some serious difficulty with France. Conservative organs warn France against encroaching on British rights. It is believed the calling of a cabinet council so hastily when the ministers are absent on vacations all over Europe was brought about by the news of blockading the ports of Madagascar by France, though this is by no means all the points of difference between the two nations.

The Politique Coloniale of Paris, which reflects the views of the minister for the colonies, gives, exclusive of Madagascar and Egypt, eleven unsettled difficulties between these nations connected with the frontier and other disputes in various African colonies and Siam and other far eastern countries. The Globe says the cabinet has decided on a resolute course of action.

NEW YORK, Oct. 3.—The dispute between France and England in regard to Madagascar is one of long standing. Madagascar is now virtually under a French protectorate although it is claimed in England that at least one-seventh of the island is held by British capital. Early last month the French government evidently determined upon taking decided action in regard to Madagascar. Consequently Lemeyer Devillers was sent on a special mission to Madagascar and it is understood he is to all intents and purposes instructed to demand the abdication of the government and the annexation of the island to France. Devillers is just about due at Madagascar.

Cocarde of Paris recently said: "If Hovas ministers do not give entire satisfaction M. Devillers will withdraw to one of the vessels of our squadron and the commander of that squadron will then open the sealed instructions sent him."

ANTANANARIVO, Madagascar, Oct. 3.—A blockade of the ports of the island has been proclaimed by France. The resident general has gone to Tamatave and has been instructed to take measures to protect the colonies in case of war.

STATE ELECTION IN GEORGIA.

Democratic Candidate for Governor Ran Behind His Ticket.

ATLANTA, Ga., Oct. 3.—A lighter vote was polled in the state election today than was cast two years ago. The Democratic ticket was elected by a majority estimated at 30,000. A. G. Kinsin, Democratic candidate for governor ran behind his ticket; many old soldiers either scratched him or voted for Hines, the Populist. Fulton county, outside of Atlanta, went for the Populist ticket. The Democratic ticket was elected as follows: Governor, Wm. Y. Atkinson; secretary of state, Allen D. Candies; treasurer, Robert U. Hardeman; attorney general, Joseph M. Terrell; comptroller, Wm. A. Wright; commissioner of agriculture, Robert T. Neabitt.

WILL SECURE THE GOVERNOR.

Connecticut Election Returns Show a Republican Gain.

HARTFORD, Conn., Oct. 3.—Returns from all except two of the one hundred and sixty-four towns in the state that held local elections Monday show that the Republicans have gained in twenty-three towns. The majorities are not complete yet but indicate a Republican majority sufficient to elect the governor without the election being thrown into the legislature at the November election. Of the towns heard from 106 went Republican, twenty-nine Democratic and twenty-seven were divided.

LITTLE CHANCE OF FUSION.

Democrats and Populists Will Each Put a Full Ticket in the Field.

STRIKING TRAMMERS RETURN TO THE TAMARACK.

The Citizens of Grover Are Demanding Much Needed Protection from Further Loss by Fire.

HANCOCK.
Political matters are beginning to grow in interest. The Republicans and Populists having gotten their tickets in the field the Democrats are beginning to be heard from occasionally, and they are by no means inclined to admit that their chances are nil. In fact they take a very cheerful view of matters, and seem to think that they will secure a portion of the loaves and fishes. All prospect of fusion between Democrats and Populists is off. There is more bad feeling between the two parties named than between either of them and the Republicans. There was some sort of a trade made two years ago, in which the Populists declare they were sold out, while the Democrats failed to obtain any offices to speak of, and each party blames the other. The Democrats expect the Populists to poll about 400 votes this fall, or half their vote of two years ago, while the Populists express surprise when told that the Democrats will nominate a straight ticket, and intimate that the corner should be pressed into service to see that a party so decessedly defunct as the Democracy should be compelled to remain in its crypt, and not disturb the peace of the public by wandering about in its shroud. Even a blind man can see that there is bad blood between the Democracy and the People's party, and the Republicans, who at one time were a little anxious for fear that a fusion of their opponents would endanger several county offices, are viewing the scrap with great good nature. Like the old lady in Texas, say "go it husband—go it bear."

The Democrats will probably endorse Captain Dunn for sheriff, also A. T. Streeter for prosecuting attorney. For county clerk Chas. Oliver of Hancock is the leading candidate and would doubtless make a strong run. William Ellis of Red Jacket is also named in connection with the office of clerk or register of deeds. For treasurer R. H. Brelsford of Hancock seems to be the universal choice. Added to Mr. Brelsford's great personal popularity would be the dissatisfaction existing over Fremodig's nomination by the Republicans in certain quarters, and Mr. Brelsford would undoubtedly win the race or lose by a slender plurality.

The Prohibitionists of the township are requested to meet in caucus at the Finnish Temperance Hall, Scott block, at 6 o'clock this evening for the purpose of naming delegates to the county convention.

A substantial coping of redstone is being placed about the church, parsonage and parochial school building, rendering the corner a very attractive one in appearance.

The fire department will hold its annual ball on Thanksgiving evening at St. Patrick's Hall.

The last proposition of the Hancock fire department looking for a race was that one heat be run in the village and one on the Quincy hill, a toss to decide the third, if a third heat was required to settle the matter. If the Quincy department cannot accept this proposal, which is certainly as fair as could be asked by any person, there is little likelihood that a race can be arranged for on any terms.

R. Kauth, Arno Jaehning and George W. Emery returned yesterday from a hunting expedition to the Kauth homestead, bringing in with them a deer and several partridges. The main object of the expedition, which was the depletion of the larder, was accomplished in an expeditious and thorough manner as could be desired by the most exacting.

Thomas D. Ryan, Larry Kerrigan and William Dritler returned yesterday from a partridge hunting trip to Eagle River. They escaped with their lives and are thankful.

Kuelle's Marmaduke and Ethier's Robert R will race for \$500 next Monday. Popular favor is with Marmaduke, who has proved his bottom.

Houghton.
James P. Edwards of Houghton has appeared in the field as a candidate for the Democratic nomination for the legislature from the Second district and will undoubtedly receive the nomination. Mr. Edwards' Democracy is of the time-tried sort and the Democrats are nominating only brethren who are dry behind the ears this season. They had an overdose of fusion and "reform" two years ago.

Bids for the construction of the new school house which is to be built on Section 13, Township 54, Range 34 will be received until Saturday by Director John P. Hunt of the school board. Nothing elaborate is to be constructed but the need of some sort of a building for the accommodation and tuition of the youngsters in that locality has become pressing and will be met by the school board, the building of the school house having been authorized by the taxpayers of the district. The location of the proposed building is about three miles south of Houghton.

The gossips are kept busy discussing the latest scandal, which very much resembles a case of blackmail.

The ladies of St. Ignatius' church will give an old folks' concert in about two weeks, arrangements being now under way for the performance.

Excursion Rates will be given again over the South Shore to the iron district on Saturday and Sunday next, the fare from Houghton being placed at the low figure of \$2.50, with privilege of returning from any of the Marquette county cities or towns not later than Wednesday of next week.

CALUMET.
The trammers' strike at the Tamarack ended ingloriously, just as any observant person could have predicted it would. Most of the men went back to work at the eleventh hour, and those

who did not found other men in their places when they applied too late. The men may be right in their assertions that Captain Waters does not use them properly—that point has not been investigated—but they certainly could not have taken a more foolish course to procure the righting of their alleged wrongs. No one can deny the right of any man to quit work at any time, for any reason, providing he does not jeopardize life or property by so doing, or does not violate a contract by so quitting, but the man who has a grievance and strikes to right it should at least let his employer know what the trouble is. This the trammers did not do. They quit work without notice, and made their complaints in the saloons and newspaper offices down town instead of at the company's office. The excuse urged for them that they were afraid to complain for fear of discharge is nonsensical. The idea that men on strike are afraid to notify their former employer why they struck for fear he will discharge them from employment they have voluntarily quit is about as far fetched and quazy as anything recently put forth in the realm of nonsense.

Hunters returning from Keweenaw county say that there were two hunters for each partridge, and that there were two dogs for each hunter. Prospects are excellent that several of the hunters will be mistaken for deer and filled full of bird shot, for some of the sportsmen now out there have not yet learned which end of the gun to shoot out of.

The laying of the corner stone of the Salvation Army barracks is billed for Thursday. The army here purposes erecting a \$10,000 structure. This will lead them with a debt that will strain the backs of the faithful but they will manage to pay it somehow. For zeal and dogged persistence the red-jacketed soldier of "fire and blood" set an example that all would do well to follow.

The roof is being placed on the new Swedish Lutheran church by Contractor Grip's force of carpenters.

Mrs. Jonas Helvoia of Newton died Monday evening of typhoid fever and was buried Wednesday.

Mrs. Wm. Johns of Raymbaulttown died of typhoid fever Monday and was buried yesterday.

LAKE LINDEN.
The people of Grover are asking for fire protection. They are entitled to it and should have it. The cost of extending a water main would be light. It is niggardliness to refrain from making such a necessary improvement.

Postmaster Guck still awaits the arrival of the fixtures from Chicago. They should be here this week and as soon as they arrive will be set up in the Deschamps block.

Mr. and Mrs. John Light will celebrate the fifth anniversary of their marriage tomorrow night.

The Democratic caucus is called for 8 o'clock Monday evening next at the city hall.

Kimball & Carr's livery business is now in running order in the city ice rink. The firm, although losing heavily by the fire, saved an outfit ample to take care of present business in the livery line.

Mrs. D. W. Sutter went to Grand Marais Monday to institute a hive of the L. O. T. M.

EAGLE RIVER.
The blow of Sunday afternoon and Monday morning was the most severe of the season and the white-crested billows came rolling in from the lake in a most savage manner. The storm finished the Pickands and she went completely to pieces. It is possible that divers will be able to locate her boilers next summer, but it is doubtful if there will be any salvage whatever in addition to the thousand dollars worth of material taken off last week by the tugs from Houghton. Fortunately there were no wrecks on the point, but there were some narrow escapes. One monster wave struck two vessels headed east, while off the point, and washed the decks of lumber from each vessel. In the storm it was impossible to learn the names of the vessels, but it was a narrow escape for both. Many thousand feet of fine pine lumber were picked up along the shore and will be held for salvage.

SENATE DISTRICT CONVENTION.
A Democratic convention for the 31st senate district will be held at the North-western Hotel, in the city of Hancock, on Friday, the 3rd day of October, at 2 o'clock p. m., for the purpose of placing in nomination a candidate for state senator to be supported by the Democratic electors of the district in the coming election. The counties composing the district will be entitled to one delegate for each 200 votes, or moiety thereof, cast for governor in the last general election.

98%

of all cases of consumption can, if taken in the earlier stages of the disease, be cured. This may seem like a bold assertion to those familiar only with the means generally in use for its treatment; as, nasty cod-liver oil and its filthy emulsions, extract of malt, and other preparations of hypophosphites and such like *palliatives*.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites, had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been again reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience.

MIRACLES IN ENGLAND.
Devil Hunting by the Catholics of the Seventeenth Century.

In the fervor of the Catholic reaction in the latter half of the sixteenth century, Europe seemed ablaze with miracles. Saints, it is said, flew in the air, were in two places at once, uttered prophecies and raised the dead. England, the theater of a supreme papal effort hallowed with the blood of many martyrs, seemed alone to lie under the shadow of a supernatural eclipse. These were miracles, indeed, but as a rule they were insignificant or ineffective. The miraculous cross of St. Donatus was extinguished by a commission of inquiry. The sudden deaths of unjust judges or jurymen by jail fever; the tide ceasing to flow at London bridge on the morning of Campion's execution; the voice from the Thames crying aloud on the death of the English Jezebel, "Forty years of reign and an eternity of punishment!" and others like prodigies, either failed to attain notoriety or to impress the popular imagination.

To this apparent dearth of famous miracles in Elizabethan England there is on record one very notable exception. At a critical moment of the religious conflict (1585-1586) there was manifested a group of phenomena in connection with the casting out of devils which has been hailed by Catholic historians as shedding lustre upon the fame of their martyrs, and adding new glories to the Roman church.

The prodigies in question were performed in the light of day, in the neighborhood of London, in the houses of noblemen and distinguished Catholics—at Lord Vaux's at Hackney, at the earl of Lincoln's in Cannon Row, at Fulmer and Uxbridge, and above all in Sir George Peckham's house at Denham, in Bucks.

The exorcists to whom the credit was given were a dozen or more of the best-known missionary priests, among whom were several in the virtue of the recent decree of Leo XIII. are now honored with the title of venerable martyrs. Their leader or conductor in the affair was Father William Westen, superior of the Jesuits, or rather at that moment the only known Jesuit in England, and afterward notorious for the part he played in the famous Wisbeach "Stairs," while the most active of his co-operators was the venerable Robert Dibdale, who was hanged at Tyburn the 8th of October, 1586. They were assisted by John Cornelius, a "covert" or secret Jesuit, and Mr. Yaxley, both afterward enrolled among the martyrs; by Ballard, a seminary priest, not a martyr, but executed for complicity in the Babington Plot; by Christopher Thules, who became prominent as one of the "Appellant" priests; by Antony Tyrrell, who, after changing his religion two or three times, became for many years an Anglican clergyman, and by several others.

The manifestations continued from first to last for about eighteen months, and from October, 1585, to June, 1586, were of almost daily occurrence. The witnesses were numerous and in high position. On one occasion there drove up to the Denham house to see the miracles five coaches full of gentlemen.—Nineteenth Century.

Bellini's devotion to his piano was such that by his incessant practice he brought on the ailment which caused his death. He was singularly amiable, and never was known to engage in a quarrel with anyone about anything. Like Purcell, Mozart, Schubert, Mendelssohn, Herold and some others of the great Italian poets, he did not live out half the allotted years of man, dying at the age of thirty-three.

MONEY FOR PROTECTION.

The New York Police Tax Small Merchants for Their Alleged Protection.

LEXOW COMMITTEE STILL AFTER WILY POLICEMEN.

The Whole Force in New York Found to Be a Gang of Blackmailers and Robbers.

MANY NEW CASES COMING UP.

NEW YORK, Oct. 3.—Attorney Moss, for the Parkhurst society, opened today's proceedings before the Lexow investigation committee by placing in evidence a chattel mortgage given by David K. Roman to raise money to pay for police protection.

The woman then took the stand. She told a story of shameful treatment. Her children had been torn from her by the policeman and placed in an asylum. She had been scourged from pillar to post by the policeman and Max Hochstien.

Elias Mandel testified that in 1893, when he kept a restaurant, Hussey demanded \$100 for protection from gambling. He was arrested by Hussey on a false charge and was subjected to much persecution.

Mrs. Annie Treynour told a significant story. The woman supported a family by selling newspapers on a stand at the corner of East Broadway and Rutgers street.

Adolph Forster told a tale which throws some light on the peculiar power, which was headed by the notorious Max Nochein, in which he appears in the role of a collector of tribute for the police.

John W. Goodwin, a former roundman in the Fourth precinct, told a sensational story. Sergeant Magan was in the habit of bringing a woman in the station house for improper purposes.

TORN UP RAILROAD TRACK.

Joliet's Mayor Arrested on the Charge of Contempt.

CHICAGO, Oct. 3.—H. H. Stassen, the mayor of Joliet, Ill., was today cited to appear in Judge Grosscup's court to show cause why he should not be attached for contempt.

HAD TROUBLE WITH WORKMEN.

Gang of Italian Laborers Blow Up Lamp I Bought; I Guess There's Something Wrong with It.

LANCASTER, Pa., Oct. 3.—A terrible tragedy occurred today in Salisbury township, this county, in which a three-story brick dwelling house was blown up by dynamite and the occupants, Mr. and Mrs. Letim, instantly killed and a

servant named Jackson seriously injured and may die. Letim had trouble with his employees consisting of a gang of Italians, and it is believed they placed a large quantity of nitroglycerine under the building.

AFTER EIGHT YEARS.

Farrell Loses a Fight to Ed Smith on a Foul.

DENVER, Oct. 3.—About two hundred and fifty sporting men left the city early this afternoon on a special train to witness a mill between Denver Ed Smith and Lawrence Farrell for a purse of \$5,000.

The ring was pitched on the open prairie by the side of the track in the same spot where Smith defeated Farrell eight years ago. The men entered the ring at 3 o'clock. Smith weighed 184 pounds and Farrell 171. The referee announced that the mill was simply a sparring match for points and was not to be a fight to the finish.

Second round—Both led and Smith played for the ribs and Farrell got several on the face. Here Smith accused Farrell of striking his elbow in his face. Farrell was cautioned but continued to jab at Smith.

The third, fourth and fifth rounds were simply a repetition of the first and second, the men frequently clinching, Farrell fouling Smith with his elbow and Smith punching Farrell with his head. In the sixth Farrell threw Smith, claiming he could not help it. A moment later it occurred again and a foul was claimed.

Congressional Nominations.

EAU CLAIRE, Wis., Oct. 3.—General M. Griffin was nominated in the Republican congressional convention of the Seventh district. He received 30 votes on the first ballot and J. J. Esch of LaCrosse 25.

PARIS, Oct. 3.—A French inspector of forests of the name of Tourtel and the mayor of Saorge, both of whom were members of the commission appointed for the "De Limitation Franco-Italian frontier," were arrested today by the Italian authorities.

Death of an Authoress.

ROCKFORD, Ill., Oct. 3.—Mrs. Rev. Minerva Bruce Norton, on authority of national reputation, died at Beloit today aged fifty-seven.

NEEDLESS WORRY.

Mr. Hunker Thought There Were No Grounds for Fear.

"I have been reading a very interesting article on coffee," said Mrs. Small, as Mr. Hunker passed up his cup for refilling.

"Being about a beverage, the article couldn't be dry," observed Mr. Hunker, playfully, and then added: "Three lumps of sugar, please."

"Something like a frown passed over the landlady's face at her boarder's remark, but she continued: "The article was one which deserves a large circulation. I think, for the good of the race. It was on the injurious effects of coffee drinking. The author said that we were becoming a nation of coffee toppers. The pernicious effects of too much coffee drinking he set forth in an exceedingly strong light.

"It was coffee he was talking about, was it?" asked Mr. Hunker, as he rose to go.

"Then I don't think we need worry ourselves."—Truth.

"I hear Bilker lost his job. Wonder if he's struck anything since?" "Er—yes; all of his friends and two-thirds of his acquaintances."—Buffalo Courier.

"I don't believe half of our rich men know when they are well off." "Humph! How'd you get that idea?" "Been looking over the assessment roll."—Buffalo Courier.

"Tommy, can you give me a sentence in which 'but' is a conjunction?" asked the teacher. "See the goat but the boy 'But' is a conjunction, and connects the boy with the goat."

"How shall I enter the money?" the cashier skipped with. "I'll keep it under the profit and loss?" "No, suppose you put it under the running expenses."—Toronto Reporter.

"Rest and change are good for people," said the wife as she rose in the night to rifle her husband's pockets. "I've had a rest, and now I think I'll have a little change."—Buffalo Courier.

"Is it true that your bride is very hard of hearing?" "It is. Why, when I proposed to her I had to shout out so loud that all the neighbors ran in and congratulated me."—Fliegende Blatter.

GIVEN THE CHAMPIONSHIP.

Robert Fitzsimmons Declared Champion Heavyweight of the World by the Olympic Club.

CORBETT FAILED TO DEFEND THE TITLE GIVEN HIM.

Fitzsimmons Will Be Expected to Meet the Best Man to Be Found in February.

WAS WON WITHOUT A STRUGGLE.

NEW ORLEANS, Oct. 3.—The Olympic club today forwarded a telegram to Corbett at Boston reciting that at the regular meeting of the board of directors of the club yesterday a resolution was unanimously passed declaring Robert Fitzsimmons the champion heavyweight of the world and stating that he would be compelled to defend the title against the best man. The telegram says the directors were compelled to take this action on account of Corbett's persistent refusal to meet Fitzsimmons.

WILL MEET FITZSIMMONS.

HARTFORD, Conn., Oct. 3.—Champion Corbett in an interview with an Associated Press reporter tonight stated that he had covered Fitzsimmons' money in New York. I will meet Fitzsimmons in New York next Thursday to make final arrangements. I will also meet any other heavyweights or any other weight in the world the same day.

TRIED TO SELL THEIR VOTES.

Six Toronto Aldermen Have Been Charged With Boonling.

TORONTO, Oct. 3.—Six Toronto aldermen are alleged to be implicated in an attempt to extort money from the Toronto Electric Light company, which put in a tender for the street lighting contract. It is said they demanded \$13,000 for their votes. A thorough investigation is to be made.

AGAINST THE A. P. A.

Royal Baking Powder ABSOLUTELY PURE

—Rosa Bonheur, upon whose breast Empress Eugenie personally fastened the cross of the Legion of Honor in 1855, has just been promoted to the grade of officer in that order, the first woman artist upon whom that distinction has been conferred.

—A South African publication states that many trees in the government compound at Kimberley have been destroyed by a species of underground ants, which eat into the roots and penetrate upward into the trunk, whereupon the tree slowly withers.

—Turkey has for some time been planning a great exhibition to be held in Constantinople in 1896. The sultan has just decided to postpone it until 1897 or 1898 on account of the Millennium exhibition, which is to be held at Pexth in 1896, and at which Turkey will be an extensive exhibitor.

—During last year 113 murder charges were tried in Great Britain, of which twenty-one were of child-murder, in thirty cases verdicts of wilful murder were returned; in twenty cases the defendants were found not guilty; in fourteen the accused were found to be insane, and in the remainder verdicts of manslaughter in various degrees were returned. The number of charges of wilful murder were more than double the number in the preceding year, and the number of convictions was also nearly double.

—The decree of President Carnot, forbidding members of the French diplomatic and consular service to marry without the permission of the government, caused a stir in diplomatic circles. The fact that the decree was issued so soon after the marriage of M. Jules Patenotre to an American girl is regarded as significant, although the French premier insists that it only has reference to the marriage of French representatives to ladies of other nations which are objectionable to the French government.

—Under the new electoral scheme passed in Belgium last year, some notable pressure will be remembered, Brussels will have 142,182 voters, instead of 20,300, as under the old regime. It is calculated that in the rural districts the electors will be increased to fourfold the extent of the increase in Brussels. Under the old regime about one inhabitant to five of the capital had a vote, but only about one in twenty of the rural people had a vote, while in villages containing several hundred people not one person could vote.

A ROAD-SIDE TEA-HOUSE.

Accommodations Afforded to Transients in Yoshino, Japan.

At Yoshino I found a little suite of rooms built in the garden away from the rest of the house, and at once engaged them, in happy anticipation of quiet nights. These isolated rooms have some disadvantages, such as having to get to the bath and back on wet nights, but a very short acquaintance with life in a tea-house makes the traveler disregard such trifling inconveniences for the certainty of peaceful sleep. The Japanese wanderers usually finish their day's journey about five in the afternoon, and after the preliminary cup of tea, discard their travel-stained clothes for the clean kimono which every well-regulated tea-house supplies to its guests, then bathe in water as near the boiling-point as possible, eat their dinner, sit talking and smoking till midnight, snore till five o'clock in the morning, and then begins the clatter of taking down shutters and the elaborate business of tooth-cleaning and tongue-scraping, with an accompaniment of complex noises suggesting sea-sickness in its worst stages, so it is not till they have departed at six or seven o'clock that a light sleeper gets much chance. In the daytime the tea-house is deserted, except by the proprietor, who sits in the front room and does his accounts, and by the little servant girls, who with their heads tied up in towels, kimono tucked into their obi, and sleeves fastened back, showing a good deal of round brown leg and arm, busily sweep and dust the rooms in preparation for the new set of visitors who will arrive in the evening. The thin sliding partitions would be little bar to sound even if they reach to the top of the room, and above them there is generally a foot or so of open wood-work, which allows free ventilation and conversation between the different apartments. Privacy, as we understand it, is no part of the scheme of a Japanese tea-house. Real fresh air from outside is very difficult to get at night. During the hot weather I was always careful to examine the fastenings of the wooden shutters with which, after dark, every house is enclosed like a box, so that I could surreptitiously open a crack opposite my room, although by so doing I was disobeying the police regulations. These shutters do not keep out the noise of the watchman, who all night long wanders round and knocks two blocks of wood together, just to let burglars know that he is on the lookout.—Alfred Parsons, in Harper's Bazar.

A Little Too Neat.

"I don't mind a woman bein' neat," said old Mrs. Jason, "but one woman I used to know was just a little too neat for any use. Why, that there woman used to take a couple of goldfish she had out of their tank every Saturday night and give 'em a bath."—Indianapolis Journal.

—All at sea—"Let go the anchor!" yelled the captain. "I ain't a-touthing it," said the new neck hand.—Tit-Bits.

ENERGETIC WAITING

It is One of the Essential Elements in a Successful Career.

One of the most successful men in the country, in reply to the question how he succeeded in doing so many difficult things, said: "I can wait." His capacity for abiding his time was a great element of success in the large and difficult enterprise which he undertook, and which he carried through. Small things can be done in a hurry; large things require often a great deal of time. It is only the man of long thought and unweary patience who can secure them. Waiting is a great element in a life that succeeds on a large scale; but it is not waiting with one's hands folded; it is waiting with energy and intelligence. The man who waits in this sense is always at work to secure the end he has in view. His energy is untiring, but his intelligence keeps his method normal and adapted to the purpose. It saves him from the folly of trying to secure by a single outburst of energy something which must be fostered by growth, and which, therefore, requires time. Most things come to those who wait energetically and intelligently; who keep steadily in mind the end they wish to attain; who are not hurried, discouraged or deflected from their purpose; who keep quietly on year after year, steadily nearing the goal, and finally touching it as the culmination of a flow of energy which has often seemed to be suspended and sometimes to be diverted, but which has never for an instant deviated from the thing which it sought.—Outlook.

One Day Short.

There is a small island in the south Pacific, where there only appear to be six days in the week. This extraordinary phenomenon is brought about by the location of the island. Travelers around the world are acquainted with the fact that time is lost while traveling east and gained while traveling west, the difference of time in a trans-atlantic journey alone being about four hours. This little island is just on the line of demarcation between times and dates. In order to keep right with the remainder of the world it is necessary to skip from noon on Sunday to noon on Monday every week in the year, and hence the joke that it is possible to spend a whole day at dinner without eating an average meal. The island is so near the antarctic region that days and nights are altogether mixed up from the idea of an ordinary individual, but this plan of jumping the afternoon of one day and the morning of the next so as to keep in line with the almanac is something so ridiculous that none but a seafaring man can appreciate it, or understand the necessity.—St. Louis Republic.

—In a paper recently read before the New York Electrical society on "Electric Heating from an Engineering Point of View," it was shown that electric street car heaters cost only five cents a day more than coal stoves, the figures being twenty and fifteen cents respectively. It was also stated that present installations of cooking apparatus demonstrate the success of electric cooking, both as regard cost and simplicity of operation.

—The glory of such a city as Philadelphia is that she early started and has bravely kept to the system by which every man of spirit can and does own his own house. The system of ground rent there favored a plan which is happily working out from Philadelphia so that it is taking a hold in other cities. In every part of Philadelphia where this system holds—that is, where the street is inhabited by the people who own the houses—the street is well cared for and the section well administered. It is said that 180,000 workmen in Philadelphia own their homes.

—Moslem has his famous widow in the person of Ayesha, the third wife of Mohammed. The first two were widows when he married them; she was a young girl, but such was the ascendancy she obtained over her husband that though she was repeatedly charged with being unfaithful to him, and on one or two occasions the statement was proved, he never could make up his mind to part with her, but, in her vindication, composed a chapter for the Koran. After the death of Mohammed she retained much of his authority among his followers. She was called the "Mother of the Faithful," and in all difficult points the interpreters of the Koran consulted her to ascertain what had been Mohammed's meaning. She retained her influence until her death, and was buried with her husband.

DEER SCARCE AND SHY.

Ishpeming Hunters Having Little Sport in Consequence.

NOT MUCH TYPHOID IN ISHPERING.

A Miner's Hard Luck—Pleasant Surprise Party—Men in Demand on the Mesaba.

NOT MANY DEER IN SIGHT.

F. P. Tillson, C. T. Hampton, Dr. N. D. Kean, G. G. Johnston and W. J. Kankle returned Tuesday evening from a few days' outing at the group of lakes about eighteen miles south of Ishpeming. On Monday their horses strayed from camp and it was some time before they were found. The members of the party spent most of their time fishing for bass.

They had excellent luck with the rod and line and brought home quite a nice lot of fish. They also shot a deer, the carcass of which they brought to town. Deer are very scarce in that vicinity and they saw but few during the three or four days they spent in camp.

It was reported here yesterday that Captain Walters, George A. Newell and others, who are camping some distance from Republic, also lost their team of horses the previous day and that they had not yet recovered them. The team is owned by Republic parties.

Several from here who have been out hunting during the past week report that deer are very scarce. Fully twenty hunters from here have been out and up to date the carcasses of only two deer have been brought in. There are several parties now camping in the vicinity of Clowery, where deer were quite plentiful last season. A man who came down from there yesterday, after spending four or five days in that vicinity vainly endeavoring to get a shot at a deer, reports that none of the hunters whom he met there had yet got even a sight of one. Many of the veteran hunters, who in years past have crowded the local markets with venison, are now out, but none of them have yet sent in a supply, which is the best proof that deer are unusually scarce in this vicinity.

Only Six Cases Here.

Many of the people of Ishpeming are of the opinion that there are quite a number of typhoid fever cases in this city owing to a couple of boats having occurred from that disease recently. At present there are only six cases here. Two of these are being treated at the Ishpeming hospital. Four of the boats came here from other places for treatment. The other two originated here. Considering the population of the city and the fact that the disease prevails to quite an extent at other places in the upper peninsula, Ishpeming has no cause to complain.

In Hard Luck.

Peter Peterson, who resides on Second street between Bank and Ridge streets, had his foot badly injured at the Cleveland Lake shaft mine Tuesday. He was operating a pocket and in switching a car he fell and one of the wheels passed over his foot. Although the car weighed over twenty tons the foot was not mangled badly enough, apparently, to necessitate amputation. In reducing the fracture of the ankle and other principal bones of the foot the Ishpeming hospital surgeons did skillful work.

Mr. Peterson is really in hard luck. Only about three weeks ago his wife died of typhoid fever. His daughter has since been very sick and for a time it was thought she would not recover. She is improving now, however, and will soon be able to leave her room.

Gave Her a Surprise.

The lady friends of Mrs. Johnson of Marquette, who is here working in the interest of a ladies' tent of the Maccabee order which will shortly be instituted here, gave her a very pleasant social surprise last evening. Mrs. Johnson has thus far secured the names of about twenty ladies who will join the new tent, and expects to get many more before closing the charter. The new tent will be organized sometime within the next two weeks.

Men Scarce on the Mesaba.

An Ishpeming man who is in business at Virginia, on the Mesaba range, in a letter to his family here received yesterday states that there are very few idle men in that section at present; that one of the mines there desired to increase its force fifty men and that the number of men wanted could not be secured. He says that many men have left the mines and gone into the woods, where better wages are being paid. Times at Virginia, he says, are much better than a few months ago and business generally is improving there.

Meat Took a Tumble.

John Quayle's delivery horse took fright on Strawberry hill while the driver was delivering a package at a house there about 9 o'clock yesterday morning and ran away. The nag tore down the hill and through Main street at a high rate of speed, scattering packages of meat about promiscuously. The horse was stopped before any injury to himself or the delivery wagon resulted.

Four Clubs Entered.

Four clubs—the Setters of this city, Rivals of Marquette, the Baragas and Hancock—have thus far entered for the baseball tournament to be held at Union Park on Saturday and Sunday next. Good games may be looked for, as the teams are very evenly matched.

Have gone into the coal and wood business. Hard coal delivered \$7 per ton. Wood of all kinds will be furnished as cheaply as can be obtained from any firm in Marquette county. Coal or wood delivered on short notice. (9-22-4)

THE OLD SONGS.

Whatever the Vogue of a Style in Music They Never Lose Favor.

It was a hotel parlor, a brilliant pianist had just rendered one of Wagner's most difficult pieces, and a murmur of well-bred applause followed. Then very softly and tenderly, like a sweetly-tremulous old voice reciting pathetic memories, the ivory keys sent the plaintive melody of "Auld Lang Syne" sighing through the room. The idle chatter ceased, every mind was busy with bitter-sweet memories, and the air was full of the scent of varnished clover, the warm fragrance of newly-tossed hay, the echo of babbling brooks. The simple tune knocked at the door of every heart, and the ghosts of dead days came trooping forth in answer.

A stout dame on the musician's left looked away through the open window, beyond the moon-flooded hills, and a sigh scintillated the jet upon her ample bosom. She had gone back and on a summer eve years ago, and was dressed in a faded pink calico and flapping sun-bonnet again. Her bare toes sank deep in the yellow dust of the country road as she drove the cows home through the lonely, cool shadows. John Edward, freckled-faced and honest-eyed, came sheepishly out of the woods and joined her, and the cows were late that night for what has young love to do with time?

A dignified old gentleman beside her blew his nose and incidentally wiped his eyes. He was thinking of the morning when he went out to seek his fortune, and turned under the windy orchard trees to a wave of last farewell to a mother, who stood in the door with her check-apron to her eyes. He had whistled "Auld Lang Syne" to keep back the rising sob as he trudged upon his way.

Not a word was spoken when the last memory-haunted note died away in silence, but everyone had paid a tribute of a tear to "Auld Lang Syne." An almost forgotten poet, Robert Hinckley Messenger, quaintly wishes for old wood to burn, old books to read and old friends to talk with in an ideal old age, and he might also have added old tunes to be played in the long twilights which he dozed and dreamed in his easy chair. It is a fact that none of the popular songs of late years survive a Mayfly existence. They catch the lip, but do not hold the heart, and are written to enter to the popular fancy, unlike the old tunes which are birth-marked with the joys and woes of the human race.

Music-hall melodies may come and go and be forgotten, but as long as a sprig of heather blossoms on Scottish shores "Highland Mary" will bring tears to Scottish eyes, and the earnest cry of "Barbara Allen" will go down through all the ages, while lads go courting and lassies are capricious. Every sailor leaves a "Black-eyed Susan" in port behind him, and there is a clasp in every bosom set to the wondrously immortal cry, "Home Sweet Home." "Annie Laurie" will live as long as the English language. Neither a Handel nor a Beethoven composed the "Marseillaise," yet it became the battle-cry of a nation. It is not to the music of the symphony societies that the dying turn, but to "Rock of Ages."

Many of Gilbert & Sullivan's catchy melodies are borrowed from old ballads, and they have even Mother Goose to thank for some of their success. Strauss may set the feet to dancing, Wagner tickle the brain and Mozart please the ear, but nothing can touch the heart like the old tunes.—Philadelphia Press.

Wanted It Long.

Farmer Wayback—I promised my boys I'd buy 'em a few bicycles if they don't cost too much.

Dealer—Well, here is a fine one at ninety-five dollars.

"Wha—?"

"The one next to it is eighty dollars, next to that seventy-five dollars, and so on. The farther we go along the row the cheaper they get."

"Say, mister, how long is the row?"

"The length of the store."

"Wall, of your store is 'bout half a mile long, I'll walk on with yeh."—Good News.

TAKEN TO THE COUNTY JAIL. A Negaunee Case of Temporary Aberration of Mind. Postponed Their Trip West--Finnish Miners Take to the Woods--A Coldish Freak.

HE WAS GROWING DANGEROUS. Abraham Pietila, an old Finlander who has been staying down at John Hogberg's farm with a couple of his countrymen, was taken in charge by the local authorities Tuesday and yesterday he was sent to the county jail for ten days.

When Marshal Anderson and Pietila's partners went down to the farm after the old man he would not allow them to enter the shanty. When he saw them approaching the place he ran inside and locked the door. They finally effected an entrance through a window and after talking with Pietila a short time he consented to accompany them to town.

Off For the West. W. H. Bath and a friend named Dunstone from Ishpeming were all ready to leave for Idaho Tuesday when they received a telegram from the former's father, Harry Bath, who left for that country a short time ago, advising them to remain here for the present.

Will Chop Wood. A half-dozen Finlanders, who have been working at the mines here, recently quit and left Tuesday afternoon for a point down the line of the Chicago & Northwestern road, near Escanaba, where they have secured work chopping wood.

A Lively Runaway. The old black horse which Landlord Seass uses on the run from the hotel to the trains, ran away yesterday morning. The old nag started from the South Shore depot and came dashing up Iron street at the rate of about three miles and a half an hour, when one of our business men stepped into the street and stopped him.

Quite Ill. Mrs. Thomas M. Wells returned yesterday morning from Duluth, where she had been called a short time ago on account of the illness of her sister, Mrs. Edward Blake, formerly of this city. When she left there Mrs. Blake was resting quite well, but she is still a very sick woman.

LOCAL LACONICS. The city council will hold a meeting tonight. Water taxes are now due and payable at the city recorder's office.

John Sheehy, who has been working at Sault Ste. Marie for some time past, has returned to remain a short time. The Finnish Temperance society will give a concert at the Finnish church on Thursday evening, Oct. 18.

Matt Maloney, president of the Populist club here, says the organization has three hundred members in Negaunee. Matt predicts a great gain for his party in the upper peninsula in the approaching election.

Eli Dawe, who left here for with his family for Green Bay several months ago, is now located at Rhineland, where he is working in a furniture store. Mr. and Mrs. Dawe have lost their infant child, which died a couple of weeks ago.

A SYMPATHETIC NATURE. The Cheering-Up Business a Good Business to Be In. When the hard times began last year it was reported that a clever woman declared that if she had to earn her living she would become a "general sympathizer."

It is a beautiful and self-effacing occupation, demanding special gifts of tact and sweetness, and calling for keenness of eye and quickness of ear, and also, contradictorily enough, for a certain judicious near-sightedness and mental deafness, which can leave unnoticed and unheard all that tends to mar the perfect harmony which it is so essential to maintain.

It is by no means claimed that women have a monopoly of this inspiring, bliss-imparting quality, yet it is always conceded to be such a right womanly talent that the highest compliment that can be paid to one of the other sex is to liken his powers of sympathy to those of ours.
