GIVEN HEARTY WELCOME.

Governor McKinley Greeted by Thousands of Republicans at Lincoln and Omaha.

SAYS IT REMINDS HIM OF LAST YEAR IN OHIO.

Believes the People Are Ready to Vote Their Opinions of the New Tariff Law.

HE WILL MOVE ON IOWA NEXT.

OMAHA, Oct. 4.—At Lincoln was the biggest meeting of the kind ever held in the city and the estimates of the enormous audience to which Governor McKinley spoke from a platform erected in front of the Lincoln hotel ranged as high as 15,000. The whole surrounding country seemed to have turned out. There was a parade into which Governor McKinley was incorporated, composed of clubs, college students, industrial exhibits, etc., and it was more than an hour after the arrival of the special train when the governor began his address. Governor Crounce occupied a seat on the stage beside ex-Governor Thayer, Dawes and Nance and other prominent Republican candidates. Governor Crounce presided, introducing Governor McKinley to the audience. A great outburst of cheers greeted McKinley as he stepped to the front and were for "Our Next President." He began by saying:

"I have been in Missouri and Kansas for thirty-six hours. I spent a part of the morning in the great state of Nebraska. I have met thousands, yestereans of thousands of people, and they acted precisely as the people did in Ohio last year when they gave the Republican ticket a majority of 80,000 (cheers). The people are eager to vote this year; they are eager to vote for their homes and factories, their farms and wages. They are eager to vote their opinion of the new tariff law—a law which President Cleveland would not approve. No one is better able to speak of the bill and the influences which made it than he, and he did not have the moral courage to vote it."

Much laughter was caused as Governor McKinley, referring to the reductions made in the tariff by the Wilson law, quoted the reductions made on opium for smoking, harana cigars, imported brandy, kid gloves, ostrich feathers, paintings, statuary, saying ironically: "What a comfort these reductions will give to the merchants and farmers. My fellow citizens, these reductions benefit but one class of our people, the opulent and luxurious. They have nothing to commend them to the great industrial masses of the United States." The pension policy of the present administration was fiercely arraigned. The governor was taken to a club of business men after his speech and met the members, then taking the train for Omaha at about half past 5 o'clock.

He was escorted here by a reception committee and on his arrival was carried to the Coliseum where a crowd of 12,000 persons awaited him. Fourteen carloads of men came in from Lincoln for the purpose of hearing tonight's address but they with thousands of others were turned away from the doors simply because they could not get inside. The audience was highly demonstrative and was declared to be the largest gathering ever held in Omaha. Hon. John M. Thurston was particularly felicitous in introducing McKinley. The governor's speech constituted a fine presentation of the principles of Republicanism and was listened to with close attention and was repeatedly interrupted with demonstrations of appreciation. His tour through Iowa begins tomorrow.

FIRST PUBLIC MEETING.

Many Prominent Republicans Hold Forth at Rock Island.
ROCK ISLAND, Ill., Oct. 4.—The first public meeting of the campaign here was held tonight, Harpers theatre being crowded to hear the addresses by Senator Cullom, Representative Post, Isaac Clements, Ex-Congressman Butterworth of Ohio and Mrs. Fanny McCarty Worthington of Sterling. Senator Cullom spoke for an hour almost exclusively on tariff questions. Captain Clements followed in a further illustration of the Republican economic principles. General Post was very brief. Mrs. Worthington dwelt upon the extension of suffrage to women. The closing address was by ex-Congressman Butterworth and made the audience wild with enthusiasm.

It was on the points of supreme excellence that Dr. Price's Baking Powder received the highest honors at the Columbian and Midwinter Fairs.

WOULD NOT DECLINE.

General Harrison Willing to Run for President Again.
YOUNGSTOWN, O., Oct. 4.—Thomas Burton returned here from Terre Haute after a business conference with Russell B. Harrison during the course of which he asked him if his father would be a candidate for the Republican presidential nomination. Harrison replied: "I do not think he will be an active candidate. If a sentiment should develop that he was the choice of the convention I do not think he would decline the nomination."

CLARKSON ENTHUSIASTIC.

Republican National Committee in Session in New York.
NEW YORK, Oct. 4.—The Republican National committee met this afternoon in the rooms of the executive chairman, Joseph H. Manley, at the Fifth Avenue Hotel. Vice President J. S. Clarkson, who has just returned from the west,

is enthusiastic when he speaks of the situation in that section. He declares the Wilson bill will rebound to the advantage of the Republican party, principally for the reason that westerners cannot stand the free wool. Delegations from the various states met the committee in conference and the prospects in all the congressional districts were carefully gone over.

WILL MEET AT GRAND RAPIDS.

NEW YORK, Oct. 4.—The national executive committee of American Republican college leagues today decided to hold the next annual convention of the league at Grand Rapids, Mich., on Friday, April 5, 1895.

GATHERING OF THE FAITHFUL.

Democrats Will Try to Hold Their Only Congressman in Iowa.
DAVENPORT, Ia., Oct. 4.—The opening meeting of the campaign in the Second congressional district of Iowa was held this evening in the new Grand Opera house. On the issue depends the chances of the only Democratic congressman for Iowa, Hon. Walter I. Hayes. The district is usually good for 4,000 Democratic majority which the Republicans are bound to cut a big hole in, while the Democrats are equally determined they shall not. Ex-Governor Horace Boies arrived today and with Hon. John C. Bliss of Davenport opened the Democratic campaign tonight. Governor Boies was escorted from the hotel to the theater by the Horace Boies club of Davenport. Ex-Mayor C. A. Fick of Davenport presided at the meeting. Bliss delivered a forcible address, Hon. Walter I. Hayes closing with brief remarks. Governor Boies spoke at great length, reviewing in detail the issues of the day.

In the course of his remarks Boies said the claim of the Republican speakers in the present campaign were confined to one proposition, that under Republican rule the country was always prosperous and every one happy and under Democratic rule we, at one bound, leaped to widespread ruin. I suppose these gentlemen know that when the flood tide of depression about which they talked so much was reached and overwhelmed the business affairs of the country no change whatever in the laws or political policy of the nation occurred. If these gentlemen turn their backs to the darkness that enveloped the closing hours of their party policy and look out into the dawn that is ushering in they will see that their fears are groundless and the eternal welfare of the nation does not depend upon a system of laws that levies tribute upon one class of industry for the benefit of another.

BOLTERS KNOCKED OUT.

Regular Democrats of Nebraska Still Retain Their Name.
LINCOLN, Neb., Oct. 4.—A decision was rendered today in the case of the Democrats of the state against the bolters of the party, who nominated a ticket and filed it with the secretary of state as the "Democratic" ticket. The decision knocks the bolters' ticket out of the field and the names on the document can only be placed on the regular ballot by petition and under some other heading than Democratic. The protest of the ex-state chairman will have a hearing Monday. Judge Shilling gave notice of appeal.

OMAHA, Oct. 4.—Through the "administration Democratic" circles it was announced tonight that a ticket is to be placed in the field by petition representing the views of the so-called anti-fusion Democrats. Under the state law 500 signatures are necessary to accomplish this.

KILLED BY A LIVE WIRE.

An Electric Lamp Trimmer Meets With Horrible Death.

BOSTON, Oct. 4.—A horrible case of electrocution was witnessed on Congress street by hundreds of people today. Charles E. Day, a lamp trimmer in the employ of the Boston Electric Light company, was cleaning a lamp and hitched himself to the top of the pole when attention was called to him by a faint cry. Day was seen to be helpless and unconscious. In a few seconds he was limp and a blue flame was flaring from his eyes, nose, mouth and ears.

Several on-lookers tried to get up the pole and one young man succeeded in touching the body when he dropped to the ground, receiving painful injuries. A. J. Muns reached Day's body but he received a shock and fell thirty feet to the ground, striking on his head and fracturing his skull. He died shortly afterwards. It was more than half an hour before Day's body, terribly burned, could be lowered to the ground and taken to the morgue.

Bicycle exercise according to Miss Frances Willard, is marvellously healthful. So is Dr. Price's Cream Baking Powder.

ADMIRAL BENHAM BANQUETED

Honored for His Services During the Brazilian Rebellion.

PHILADELPHIA, Oct. 4.—A gathering of most distinguished men filled the Union League club house tonight to do honor to Rear Admiral Benham of the United States navy in recognition of his services to the nation during the Brazilian rebellion. President Young presented the admiral with a Union League's gold medal as a mark of special honor for his service to this country and the admiral in reply made a speech of thanks. An elaborate banquet followed the reception.

LINDHOLM ARRAIGNED.

Held Under Bonds of Fifteen Thousand Dollars.

LANSING, Mich., Oct. 4.—Ex-Deputy Secretary of State August W. Lindholm was arraigned this afternoon. He pleaded not guilty to the charge of embezzling state funds. His examination is set for October 17 with bail in the sum of \$15,000. He has not yet secured bondsman.

WILL PROTECT FOREIGNERS.

England and United States Send Warships to the Scene of the Eastern War.

ENGLAND DECIDES TO SEND SEVERAL THOUSAND TROOPS.

Eight American Warships Will Soon Be in Chinese Waters to Protect the Treaty Ports.

WILL NOT ATTACK SHANGHAI.

WASHINGTON, Oct. 4.—The United States steamer Charleston has arrived at Yokohama, Japan. There is now five United States warships in the east, the Charleston, Baltimore, Monocacy, Concord and Petrel, and the force will be increased to eight vessels by the addition of the Detroit, Machias and Yorktown as soon as they can be made ready.

LONDON, Oct. 4.—The cabinet council met today. It is understood a perfect agreement has been reached respecting plans for the protection of British residents in China. It is authoritatively announced that it was decided to send troops to China to protect British interests. Additional warships will also probably be sent. It is understood the British legation at Peking will be guarded by British blue jackets and native Indian soldiers. The Exchange Telegraph company says six thousand troops will be sent from India to protect the treaty ports in China.

The British consul at Hankow and Ningpo sent alarming dispatches to the government on Tuesday and Wednesday reporting disturbances in those places and stating that the European residents are in peril.

BERLIN, Oct. 4.—The Frankfort Zeitung says the Chinese minister in London has proposed to Great Britain that that country, Russia and France send troops to the treaty ports of China to protect foreigners and that China would raise no objection.

TOKYO, Oct. 4.—The Italian minister has obtained a pledge from Japan not to attack Shanghai.

SAN FRANCISCO, Oct. 4.—The steamship Gaelic arrived today from Asiatic ports, bringing advices from the special correspondent of the Associated Press as follows:

YOKOHAMA, Sept. 21.—All Japan is ablaze with enthusiasm over the victory at Pihyong Yang, which was the first really important action on land and in which all the conditions of success appear to have been thoroughly achieved. The sole Chinese army in Corea has ceased to exist. It is estimated, allowing for exaggerations, that it must have numbered 10,000 and probably exceeded that figure. The opposing force actually engaged is estimated by the best authorities at twelve to fifteen thousand. All the advantages of position were with the Chinese.

Yesterday while the excitement caused by the victory was at fever heat negro news was received in Tokio of the brilliant success in Korean waters near the mouth of Yalu river.

Applications for the Japanese war bonds exceeded 7,000,000 yen, more than double the amount called for.

WAS A FALSE ALARM.

England's Cabinet Council Had Nothing to Do With France.

LONDON, Oct. 4.—The news agency which originated the report that today's cabinet council was called on account of the sudden new developments in England's relations with France says it has learned that nothing has occurred between France and England that is in any way likely to become critical.

PARIS, Oct. 4.—The French cabinet met today. As far as learned it considered no international questions. The papers say there is no chance for a complication with Great Britain over Madagascar.

PORT LOUIS MAURITIUS, Oct. 4.—The report in France of the declared blockade of Madagascar ports appears to be due to a misconception of the measures to prevent the landing of arms and ammunition for Hovas.

No other baking powder is so strong in leavening power, so wholly free from adulteration, so productive of sweet and wholesome food as Dr. Price's.

INSPECTOR SHEA ROASTED.

A Lexow Investigating Committee Badly Baked in Chicago.

CHICAGO, Oct. 4.—Judge Goggin today severely criticized from the bench the conduct of several officers of the central detail, particularly Inspector Shea, chief of the detective bureau. The case was the application for a writ of habeas corpus in behalf of Richard Dean, a "shell worker." The evidence given in court went to show that Dean was repeatedly arrested without a warrant and had been maltreated by Shea. Dean also declared that while practicing his game with shells he paid Officers McLane and Nolin sums varying from \$15 to \$40 per week for protection. Since he ceased paying the tribute the police have persecuted him. At the conclusion of the evidence Judge Goggin remarked "If all this is true Inspector Shea ought to be held to the grand jury."

FRANCE and England are making faces at one another just now, but they will not come to blows.

FRANCE and England are making faces at one another just now, but they will not come to blows. All the great nations of Europe are so well prepared for war at present that they are going to be mighty slow about bringing their disputes to the dread arbitrament of the sword.

FUSION leads to confusion. It is much better to have each of the political parties select its own candidates and support them than that they should engage in unnatural combinations.

THE Menominee Herald says THE MINING JOURNAL is making friends for Sam Stephenson right along. As that is what the Herald desires to have done it ought to be very much pleased with THE MINING JOURNAL'S work.

JOHN W. JOCHIM told the Detroit Journal while in Detroit a few days ago that Sam Stephenson is going to sweep this peninsula; also that John Jones is going to be turned down for member of the assembly in the Ishpeming district and that the Republican candidate in that district will be Mr. J. F. Grip.

BETTER ROADS ARE NEEDED Hancock Doing More Than Its Share in Road Building in the Adjacent Country. HOUGHTON COUNTY SHOULD LEND A HELPING HAND.

Calumet Village Wants Separate Post-office Without Regard to Effort Being Made for Free Delivery. HANCOCK. Hancock township has a gang of woodmen at work making a road to Section 4-53-36, a distance of eighteen miles from the city. There is a fairly good road from Portage Lake to Oppenoff's, a distance of four miles. From Oppenoff's to the Gravelor river, a distance of eight miles, a road has been cut but not graded, while the proposed road from the Gravelor to 4-53-36 has been blazed and the chopping is now being done. When the chopping is completed there will be fourteen miles of road needing grading and ditching very badly, the township of Hancock feeling that it has done all it can afford in doing the slashing especially as the people living along the route do their trading almost entirely in Houghton, which is nearer to them than Adams township intervenes between Hancock, on the south side of the lake and Portage the township in which Houghton is located.

There are at least a dozen families, all Finns, located on or near the end of the new road. The Finns are expert woodmen, and make excellent pioneers. They have taken up homesteads to till the soil and make homes for themselves and families, unlike the majority of settlers in the peninsula, who are alone and quickly abandon their "homesteads" when the timber is chopped off. The country on the southern side of the Gravelor is high, rolling land, well timbered with hardwood, and with excellent soil well adapted to the cultivation of grasses, cereals and root crops. Many of the settlers have raised all the supplies they will require for the winter, and will have vegetables to sell when the new road allows them to bring their crops in. The new road will do passably well for winter, when the snow covers stumps and stones, but it will be nearly impassible during the summer months, unless grubbed and graded. Houghton county should vote to adopt the county system of road making. Ten thousand dollars expended in the roads of the county outside of the villages would give us the best roads in the state and would yield direct returns right speedily. Houghton county roads are now the best in the peninsula but they could be made both better and more complete to the financial benefit of the tax-paying public.

C. J. Byrns is canvassing the city and will institute a camp of the Modern Woodmen here as soon as the requisite number of members has been secured. The order gives insurance at exceptionally low rates, and is growing rapidly in the upper peninsula.

The Democratic senatorial convention for the Thirty-first district will be held at the Hotel Northwestern, at 2 o'clock this afternoon. The church fair came to an end Wednesday evening in a blaze of glory. HOUGHTON. The smoke stack of the electric lighting station is going up again, but is going up much slower than it came down during Sunday's big blow. CALUMET. The people of Calumet village are very much in earnest in their efforts to secure a post office for that location. If Calumet is to have free delivery the institution of any additional post offices in the district would be very unwise, but it is a fact that the people of a town of 200 souls will lay down and willingly allow their rights to be withheld, establish the post office at Calumet village by all means. Open a post-office on every corner and let the town be broken into as many fragments as possible. No better means could be devised to keep the town behind the place it rightfully belongs in.

Surveyors are now at work on the property of the Laurium Mining Company, a corporation owning an extensive tract of land in the vicinity of Calumet village. Forty acres are being platted and will be divided into twenty-five foot lots, which will probably sell for \$100 to \$125 each and will be placed on the market this month.

Dr. W. J. Gregg of Kalamazoo is now installed as assistant to Dr. Lawbaugh at the Osceola.

The camp starts out with a membership of eighteen of the town's best residents and has an exceptionally good set of officers. Their names are as follows: V. C. George Pfeifer; W. J. Hinkley; clerk, Charles Asiala; escort, R. E. Miller; watchman, George C. Blondo; entry, Peter Dyin; physician, Dr. C. L. Finch; managers, R. E. Miller, George C. Blondo, Frank E. Backel; delegate to state camp, Dr. C. L. Finch.

The sale of tickets at Osceola station was begun Monday. Joseph C. Jeffrey, who has been running Kohlan's meat market for a number of years past, resigned his position to enter into partnership with William Reynolds at Calumet Village. John Wornington, formerly delivery clerk, has taken Jeffrey's position as manager.

The Ladies' Aid society gave an overflow social Monday evening, principally to give an opportunity to make way with the great surplus of provisions left from Saturday evening's entertainment.

Twenty-three cases of Ammonia poisoning in a single year is a dismal record. Ammonia is used freely to adulterate certain baking powder. No trace of Ammonia or other adulterant in Dr. Price's, "the most perfect made."

On Ice. At that moment a shade stepped aboard with a swagger and haughtily appropriated the best cushioned seat in the first-class cabin. "He acts almighty independent," remarked Charon, as he moistened his palms and grasped the oars. The first mate acquiesced. "I wonder who he is?" "I suspect — The boatman struck a forty-five to the minute stroke. — "he is the great American hog and takes this for a refrigerator car." — Detroit Tribune.

SEA SERVICE AND SHORE DUTY. Considerations that Guide the Preferences of Naval Officers. One of the oddest features of that little known annual, the United States navy register, is the record of each officer's time of sea service, shore duty, and idleness. It seems at first thought that it must be the business of a naval officer to go to sea, but as a matter of fact naval officers pass from one quarter to two-thirds of their time ashore.

The admirals are usually credited with from sixteen to twenty-five years of sea service, from fifteen and a half to twenty-four years of shore duty, and from two to ten years of idleness. The proportions in the case of commodores are much the same, and the time of captains at sea and ashore is pretty evenly divided on the average, with wide variations in cases, and from one to eleven years of idleness.

The lieutenants of both grades have had from six to thirteen years at sea and from three to eleven ashore, with short periods of idleness. The ensigns, who are the lowest commissioned officers of the line, have seen from two to eleven years' sea service and from one to eleven years' shore duty, with periods of idleness varying from a few months to a year and a half. The highest staff officers in the medical pay and engineer corps have nearly all passed many years more ashore than at sea. Much the same is true of the chaplains, and there is perhaps something of irony in the fact that the naval constructors are usually credited with no sea service, except in the case of the younger men.

It is the scheme of the navy department to send each officer three years to sea and then to give him a tour of shore duty. The scheme is not strictly carried out, and there is no hard and fast rule upon the subject. Pay is from two hundred dollars to one thousand dollars a year more at sea than ashore, and this advantage determines many officers to seek sea service, and especially to shun waiting orders. To put a man on waiting orders for a long period is one form of light punishment for minor misdeeds. It means a loss in pay of from four hundred dollars to two thousand dollars a year. It is the theory of the navy that an officer with a family needs more money at sea than ashore, because in the former case he must make special provision for his family, whereas in the latter his wife and children can share quarters with him.

There is a good deal that is deceptive about the record of sea service, for the reason that much of it is only constructive sea service. So long as a ship is in commission, unless, indeed, she be a mere receiving hulk, the officers aboard are constructively doing sea service, and a ship may undergo weeks of repairs with her pennant still flying and half her wardrobe ashore every day. That is an agreeable form of sea service, especially if the work of repairs be done at New York or some agreeable foreign port.

All sorts of motives, mysterious to landsmen, decide an officer in his preference for this or that shore duty. Some men eschew the New York navy yard until they have attained sufficient rank to make them feel at ease and free from the fear of imposition. Some seek places at Newport, because such appointments may bring them into a gay and fashionable society. Others seek to escape from such duty for the very same reason. Some of the billets at Newport carry with them plenty of matter to be considered if a man wishes to take his place in the society of the city.

The Norfolk navy yard is popular because an officer may there enjoy at small expense a kindly and agreeable society. There is a pleasant little naval station at New London, and there are charming quarters for an officer of rank at the several naval hospitals. Duty at League Island, Pa., is pretty dull, but it is a good place to wear out old clothes. The great navy yards are a source of sorrow to those officers who lack the tact and humor to deal with the politicians that dominate such places. Washington is popular with naval officers, as is shown by the number of retired officers who make it their home. Perhaps New York would be equally so if rents were lower.

There are a few places that all naval officers regard with something like horror. The task of caring for the monitors in the James river near Richmond is courted by nobody, and Pensacola in summer time is not an object of envy. There were stranded on the Rio Grande some twelve or fifteen years ago an old gunboat that could not in reason be expected to come down, and to that lonely spot a few officers were sent from time to time. The man about to be transferred received his relief with smiles of joy and assurances of commiseration. The amusements of the wardroom were expeditions to Mexico and visits to neighboring Texas towns. Luckily for the youngsters of to-day Rio Brava no longer makes even the pretense to float.—N. Y. Sun.

Italian Poker. Mora is to Italians what draw poker is to Americans—the national game. There was an astonishing amount of gesticulation and loud talk, but it was all in the game and well meant. The game is played by two persons. One calls a number, say seven. He throws out say five fingers to make the number and his opponent must try to make up the remainder, two, by immediately putting up that number of fingers. The moves must be made instantly. Some of the players are marvelously rapid, but to the uninitiated, there is not much pleasure in the game. The stakes are usually very small.—Buffalo Courier.

Pleading His Own Case. "You promised this woman to marry her," exclaimed the judge indignantly, "and now you meanly want to back out of it." "Your honor," replied the defendant, "marriage is a lottery, and by the laws of this state lotteries are prohibited."—Judge.

USE IT IN TIME.

Catarrh starts in the nasal passages, affecting eyes, ears and throat and is in fact, the great enemy of the mucous membrane. Neglected colds in the head almost invariably precede catarrh, causing an excessive flow of mucus, and if the mucous discharge becomes interrupted the disagreeable results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears and oftentimes a very offensive discharge. Ely's Cream Balm is the acknowledged cure for these troubles.

WOMEN OF IMPERIAL ROME. Marriage Regarded by Them as a Foolish Ceremony.

In Juvenal's time the woman were entirely independent. They could do as they pleased, go where they liked without comment, and were mistresses of their own fortunes and estates.

With such a loose state of morals, and divorce so easy, it seems to us it was scarcely worth while to marry at all. The Romans themselves were of this opinion.

A rich Roman who married and was regarded as a fool. Unmarried and without heirs, he was courted by crowds of sycophants and legacy hunters, who swarmed around him, on the lookout for gifts during his life or for legacies at his death.

He was an object of attention to and adulation from all. Each Roman vied with his neighbors in his display of wealth. Ostentation became a passion. A feast was not considered a success unless the cost of it was a matter for discussion by "all Rome."

Palaces and villas were built in the most splendid and costly style. Beautiful marbles, gold and silver and precious stones were lavishly used, in order to show the wealth of their owner.

Nero had several rooms in his Golden House studded all over with pearls. Goethe might well term the Romans the greatest parvenus in history.

A Good Friday Custom.

Among the many quaint rites and old-fashioned ceremonies once proper to Passion week, most have now vanished away, but some yet remain.

A Good Friday custom, said by authorities to be the oldest extant, is yet left us, and the picturesque function was duly celebrated recently in the ancient parish of St. Bartholomew the Great.

Upon a tombstone in the churchyard were set out twenty new sixpenny pieces, and by the side of each a bag of hot cross buns and an Easter card.

Then, under the buns and silver, there marched in procession twenty venerable, godly, widowed women of the parish, each to become richer by a share of the matters spread upon the tombstone.

It is to be noted in connection with this old usage that no beverage originally instituted it. Indeed, its origin is now buried in the mists of a far past.

Nevertheless, to a bequest it owes its present vitality, for not very long ago Mr. J. W. Butterworth, F. S. A., the celebrated antiquary and student of folk-lore, invested a sum sufficient to perpetuate the Good Friday dole at St. Bartholomew the Great for all time, and twenty deserving widows of that parish are, therefore, certain to enjoy sixpences and buns at least once a year as long as the world wages.

Black and White.

The Umbrella in Italy.

Our name for the umbrella being obviously taken from the Italian ombrello, naturally refers us to Italy as the source from which we have derived that useful article.

If we had obtained it intermediately from France, we would doubtless have taken with it the name of parapluie, which in the present use of the implement is a more expressive and proper name than that of umbrella, which signifies a "little shade," and refers to the original use as a defense against the sun rather than to its present use as a shelter against rain.

There seems to be no doubt that the umbrella was first introduced into Italy from the east, and thence found its way into Europe. It seems also that the applicability of the instrument as a defense from rain was quite an afterthought, and that it was originally, as in the east, only used to protect the person from the rays of the sun.

A HISTORIC DOCUMENT.

President Fillmore's Proclamation Regarding Certain Lands in This Peninsula.

ALLEGED TO BAR THE CANAL COMPANY'S CLAIMS.

Its Production Seems to Have Induced Judge Severens to Refuse Injunction Asked.

HISTORY FOR HOMESTEADERS.

At the last term of the United States court the Keweenaw association, as successor of the Portage Lake Canal company, asked from Judge Severens an injunction forbidding P. J. Hartford and some thirty others from settling on lands claimed by the plaintiff under the grant to its predecessor. Rush Culver, counsel for the homesteaders, opposed the issue of the writ on the ground that the lands in question were designated and set apart as "mineral" and offered for sale by President Fillmore in a proclamation issued seventeen years before they were ever certified to the Portage Lake Canal company.

By the president of the United States: In pursuance of law, I, Millard Fillmore, president of the United States of America, do hereby declare and make known, that a public sale will be held at the land office at Sault Ste. Marie, in the state of Michigan, commencing on Monday, the 27th day of October next, for the disposal of those sections and parts of sections of public lands situated within the limits of the following named townships and fractional townships, covered by mineral leases (not purchased or reported by the geologist containing mineral, in which are embraced the tracts which could not, by reason of unexpired leases, be offered under the president's proclamations of the 27th of January, 1848, and June 18th, 1850, and such of said mineral lands as are now vacant and are required to be reoffered under the provisions of the act entitled "An act to reduce the minimum price of the mineral lands in the Lake Superior district in Michigan, and the Chippewa district in Wisconsin," approved on the 26th of September, 1851, to wit:

North of the base line and west of the principal meridian. Townships 47, 48 and 49 of range 33; 47, 48, 49 and 38 of range 38; 38 and 39 of range 27; 31, 32 and 33 of range 28; 31, 32, 33, 34, 35 and 36 of range 29; 31, 32, 33, 34, 35 and 36 of range 30; 31, 32, 33 and 34 of range 31; 31, 32, 33, 34, 35, 36, 37 and 38 of range 32; 34, 35, 36 and 37 of range 33; 35, 36, 37 and 38, and 39 on Isle Royale of range 34; 32, 33 and 34 of range 35; 32 and 33 of range 36; 31, 32 and 33 of range 37; 31 of range 38; 31 of range 39; 48, 49, 50 and 51 of range 42; 48, 49 and 50 of range 43; 48, 49, 50 and 51 of range 44; 48, 49 and 50 of range 45; 49 and 50 of range 46; 49, 47, 48 and 49 of range 47; 47 and 48 of range 48; 48 of range 49.

Lands appropriated by law for the use of schools, military and other purposes, together with "those swamped and overflowed lands made unfit thereby for cultivation," if any, which shall be selected by the state authorities before the day appointed for the commencement of the public sale under the act entitled "An act to enable the state of Arkansas and other states to reclaim the swamp lands within their limits," approved September 28, 1850, will be excluded from the sale. And no locations for land locations heretofore granted by any law of congress for military services rendered to the United States will be permitted on any of the above mentioned lands, as provided by the act entitled "An act making appropriations for the civil and diplomatic expenses of the government," etc., approved March 3, 1851.

Particular lists of the tracts to be offered will be deposited with the register and receiver of Sault Ste. Marie before the day of sale, and the offering of the lands will be commenced on the day appointed and will proceed in the order in which they are advertised with all convenient dispatch, until the whole shall have been offered, and the sale thus closed; but the sale shall not be kept open longer than two weeks, and no private entry of any of the lands will be admitted until after the expiration of the two weeks, given under my hand at the city of Washington this 25th day of July, anno Domini one thousand eight hundred and fifty-one. MILLARD FILLMORE.

By the president: J. W. SEVERENS, Genl. of general land office.

Judge Severens said at the time that if Mr. Culver would present a certified copy of the proclamation, that would probably settle the matter of the injunction asked by the plaintiff. Mr. Culver at once sent to Washington and obtained the necessary document and forwarded it to Judge Severens. Nothing more has been heard of the injunction and it is presumed that the attempt to drive the settlers off the lands in that manner has been dropped.

It is alleged that the Portage Lake Canal company included in its selections nearly sixty-nine thousand acres of the lands designated as "mineral" in the above proclamation and it is contended on the part of the settlers that that company had no right to those lands there and has none now.

All tests have shown the superiority of Dr. Price's Baking Powder in learning strength and purity.

Ex-Dputy Forester's Story.

Ex-Dputy Warden Albert Foubert was seen yesterday regarding his dismissal from the board prison and said:

"I was told by Warden Van Evert that I was let go because of my conduct at Au Train. The story that I was drunk at Au Train is a lie. I took four glasses of beer and no more. The other two officers there with me drank the same as I did and I know they were not drunk and that I was not drunk. A few days before Bill Plug escaped Warden Van Evert and I had some words about another matter and I told him he had better call for my resignation. He said he would but in a day or two came and said he had re-considered the matter and wanted me to stay.

he would but in a day or two came and said he had re-considered the matter and wanted me to stay.

"Bill Plug was let out at 4 o'clock in the morning to work around the barn. There were no officers on duty outside at that hour, hence there could be no negligence in letting him get away. He was let out by Warden Van Evert's order and against my protest. I thought it was not safe to give an eight year man so many privileges. Warden Van Evert replied that he was old and lame and a pensioner and would not run away. But he did run away. I must say that I do not think I have been fairly treated in this matter. If there was anything wrong in my conduct at Au Train those who were with me were equally guilty. Yet they are exonerated and I am discharged.

Warden Van Evert in response to a question as to the reasons of Foubert's dismissal said that the latter's resignation had been asked and his successor appointed before the escape of Bill Plug. The change was made in the interests of discipline.

Foubert's fellow-officers presented him on his leaving the prison with a fine gold-headed cane, which is now at Conklin's being suitably engraved.

J. D. Boxer Rinked.

J. D. Boxer, the popular chief train dispatcher of the South Shore road, was one of the most surprised men in Marquette last evening. George Gallagher, who rooms in Conductor James E. Connell's house, got Mr. Boxer around to his room on pretense of a little smoke and talk. While they were there a surprise party mustered in the parlors below, composed of a number of the railroad boys and several gentlemen connected with the management of the orphans' fair which has just closed. Mr. Boxer was brought down and when he came into the room the spokesman of the party stepped forward and in behalf of the friends assembled presented Mr. Boxer with a handsome diamond ring.

Mr. Boxer was almost overcome by the generous and kindly action of his friends but managed to find words to express in some manner his thanks and gratification. A very taking little speech was made by Division Superintendent Ketcham. Among those in the party was Mr. George Barnes, who was the victor over Mr. Boxer in the recent friendly contest at the orphans' fair for the diamond ring. Light refreshments and a social card party followed the presentation and a most pleasant evening was spent by all present. Mr. Boxer will long remember the night of Oct. 4, 1894, and the beautiful gift of his friends will be ever worn by him with pleasant recollections.

An Agricultural Exhibit.

There is in Delf's window a very pretty exhibit of specimens of vegetables, grains and fruits, all raised in this city or its neighborhood. A glance at the display is sufficient to show that the current romance that nothing except pine trees and fish can be raised in this region is without foundation. There are shown fine specimens of corn, wheat, oats, cabbages, beets, turnips, carrots, several sorts of squashes, beautiful celery, potatoes, radishes, onions, melons and grapes. Many of the articles were raised by Percy Delf in his own garden and the rest came from Woolner's farm north-west of the city. The display is an appetizing one and well worth inspection.

Will talk about the tariff ever cease? There is far greater benefit in talking about the merits of Dr. Price's Cream Baking Powder.

Prohibition Ticket.

The Prohibitionists of Marquette county held a mass convention at the Loyal Temperance Legion Hall on North Third street last evening and placed the following ticket in nomination: Sheriff, Peter Delf; probate judge, Charles Hawes; county clerk, Otto Nelson; treasurer, John Skoglund; surveyor, E. F. Bradi; coroners, James Smith and Charles Bart, representative, First district, Trowbridge Johns; Second district, Richard Quayle. Probably no one anticipates that the Prohibition ticket will be elected but the party has in this county put up a clean and honest ticket worthy of the support of all who believe in its principles.

Good Catches of Fish.

There is fine lake trout fishing now off Presque Isle and some great catches have been made lately with the trolling line. Yesterday Oliver Patenaude and Joe Sullivan went out in the rain and came back with a string of thirty-nine trout, the aggregate weight being nearly three hundred pounds. A number of others were almost as successful. Boats can be hired at the island and of course the electric cars make the fishing grounds very easy of access. Those who do not mind a little wet weather are having great sport out there these days.

The Rifles' Dance.

Despite the disagreeable weather the Marquette Rifles had a good attendance at their first dance of the season last evening. The Marquette Ideal orchestra played its usual excellent music and Preston served a toothsome little supper at midnight. Lieutenant Charles F. Moore and his band were present and of course were congratulated by all the numerous friends of the hostess and present. The Rifles' parties are always enjoyable and this one was no exception to the general rule.
