UTAH MAY TAKE A HAND.

Admission of New States Will
Cause Change in Organizing
Next Congress.

SIX ADDITIONAL SENATORS MAY
BE GIVEN SEATS.

Complexion of Senate May Be Decided
by Elections Next Year in Three
Western States.

POINT THAT WAS OVERLOOKED.
WASHINGTON, Nov. 9.—A point over-
looked in computing the political com-
plexion of the next senate is the ad-
mission of Utah with two United States
senators. There is ample time to have
all formalities complied with and Utah
proclaimed a state in time for its sen-
ators and representatives to participate
in the organization of the next con-
gress. This would make in all ninety
senators and as the next senate now
stands the politics of the Utah senators
would cut an important figure. Another
probability which arises is the ad-
mission of both New Mexico and Arizona
which may be accomplished in time so
that four more senators would partici-
pate in the organization of the next
senate. Bills have already passed the
house for the admission of both these
territories. The senate committee on
territories reported them favorably to
the senate and they are now on the
calendar. Therefore, quite likely the
battles for the control of the senate
may yet be fought out in Utah. New
Mexico and Arizona next year. The
admission of these new states would
make a total of 94 senators and any
party to control would need 48 for a
majority.

WASHINGTON, Nov. 9.—Chairman
Babeok of the Republican congress-
ional campaign committee was today
advised that the following named Rep-
ublican congressmen were elected in
Missouri and Kentucky: Missouri—
First district, C. N. Clarke; Fourth,
George C. Crowther; Seventh, J. P.
Tracey; Eighth, Joel D. Hubbard;
Ninth, William M. Treloar; Tenth,
Richard Bartholdt; Eleventh, Charles
F. Joy; Thirteenth, J. H. Roney; Four-
teenth, N. A. Moseley; Fifteenth, Charles
C. Burton.
Kentucky—Third district, W. G.
Hunter; Fourth, John W. Lewis; Fifth,
Walter Evans; Ninth, Samuel J. Pugh;
Tenth, T. Thomas Hopkins; Eleventh,
David G. Colson.

TEXAS STILL DEMOCRATIC.
DALLAS, Tex., Nov. 9.—Not more
than one-third of the vote of the state
is reported officially but enough is
known to predict the success of Culber-
son (Dem.) for governor by about forty
thousand plurality. He is ten to fifteen
thousand behind the balance of the
state ticket. The Democrats will cer-
tainly elect congressmen in eight of the
thirteen districts.
NASHVILLE, Tenn., Nov. 9.—The
vote for governor is very close between
Turney (Dem.) and Evans (Rep.). The
official returns will be necessary to de-
termine the result. The indications
point to Evans' election.

NASHVILLE, Tenn., Nov. 8.—Fall re-
turns from sixty-nine counties and a
majority of the returns from nineteen
counties show that Turney (Dem.) has
2,275 majority over Evans (Rep.). The
remaining eight counties gave in 1892 a
Republican majority of 307. Chairman
Carroll of the Democratic committee
confidently insists these counties will
be able to wipe out Turney's present
lead. The Republican committee still
claims Evan's election.

CLAIMS THE GOVERNOR.
SAN FRANCISCO, Nov. 9.—The election
of Budd, the Democratic candidate for
governor, is not so certain as it at first
seemed. His lead over Estee (Rep.) is
steadily decreasing as the returns come
in and he is now only 1093 ahead of the
Republican candidate. There are still
333 precincts to hear from and if Estee's
gains continue in the same ratio as they
have during the day he may yet beat
Budd. The Republican state committee
claims Estee's election by several hun-
dred plurality.

Adolph Suito (Pop.) the builder of the
famous Suito tunnel in Nevada and the
owner of one-tenth of the real estate in
San Francisco and county, was elected
mayor of San Francisco by a plurality
of 18,000. Four candidates were op-
posed to him and he had a majority of
3,000 over them all combined. He was
elected on the platform of opposition to
the Southern Pacific road.

RYAN RETIRES FROM POLITICS.
OMAHA, Nov. 9.—Congressman Bryan
issued a manifesto to Nebraska Demo-
crats tonight in which he sums up the
causes which led to the defeat of the
fusion forces and announces his retire-
ment from the political arena. He
says: "I shall continue as a lawyer
and editor to advocate the fusion of
Populists and Democrats. It is our
only hope against combined monop-
oly."
The Republican central committee is
arranging to contest the gubernatorial
election on the ground of fraud. The
legislature is overwhelmingly Republi-
can and the congressional delegation is
solidly Republican.

SPRINGFIELD A HEAVY LOSER.
SPRINGFIELD, Nov. 9.—The official
vote for congressman in the Seven-
teenth Illinois district is as follows:
Connolly, rep, 20,451; Springer, dem,
17,513; Smith, prohib, 1,095; Crawford,
pop, 1,155. Connolly's plurality is
2,938, a Democratic loss from 1892 of
5,940. The official returns received by
the secretary of state from the Six-
teenth district show that Finis E.
Downing, dem, editor of the Virginia
Enquirer, is elected over John L. Rin-
aker, rep, by 69 votes.

General Howard Retired.
WASHINGTON, Nov. 9.—Brigadier Gen-
eral Alexander McDowell McCook
is appointed major general of

the United States, vice Gen-
eral Howard, retired, and Colonel
James Forsyth of the Seventh cavalry
is promoted to brigadier general to suc-
ceed McCook.

CELEBRATED THE VICTORY.

Massachusetts Republicans Meet and
Congratulate Each Other.

LYNN, Mass., Nov. 9.—The Lynn
Republican club celebrated Tuesday's
victory by a grand banquet tonight
with Senators Hoar and Lodge and
Representative Elect Barrett as guests.
Senator Hoar was the first speaker.
He said:

"The defeat means the judgment of
the American people against the per-
nicious doctrine of free trade and I do
not think you will see another party
subscribing it on its ballots in the fu-
ture. We are going to have quiet for
the next two years. There is not a
workingman or manufacturer who has
the least fear that after March 4 de-
structive measures will be enacted for
the next two years. The Democrats
can now draw a freer breath, realizing
they are free from further danger from
their own party. Whatever the future
policy may be William McKinley, in
one position or another, will have
something to do about it. There is
nothing but McKinleyism in the whole
country."

Senator Lodge said: "One of the
causes of the Republican victory is that
the American people are tired of being
deceived. The Democrats made every
promise in every district of the country
to gain their end. Their defeat is just
resentment of the people who were
taken in."
Congressman-elect W. E. Barrett
said that not since 1792, when only one
candidate for president was in the field,
has there been such a unanimity of
opinion which renders the present
domination of Republicanism only the
more emphatic.

AND STILL ANOTHER PARTY.

The Silver Men of the West Forming a
New Party.

DENVER, Nov. 9.—The silver men of
Colorado and other mining states are
maturing plans, it is said, for the launch-
ing of a silver party. They will co-
operate with the bimetalists of the
south and east and a call will soon be
issued for a meeting to effect an organ-
ization.

"I do not care to have my name
used," said a prominent mining man to-
day, "but I have had correspondence
from Cameron and Sibley of Pennsylv-
ania, several Ohio congressmen, Sen-
ators Jones and Stewart of Nevada and
many others all urging us to form a sil-
ver party. We have no hope from the
successful party in congress."
"Do you think Cameron would run
as an independent silver candidate
against the Republican party?"
"I feel confident he would head our
ticket with pleasure. He wants in the
platform only silver and protection.
We all believe this party will be the
principal opponent in 1896 to the Re-
publicans unless the Democrats should
pass a free coinage bill."

George G. Merrick, president of the
Colorado Silver League, says plans for
the organization of the new party are
well advanced but are not yet ready
for publication. A few days more will
decide the question.

GOING BACK TO AFRICA.

The Migration to Liberia Is Taking
Definite Shape.

BERMINGHAM, Ala., Nov. 8.—A com-
mittee of twelve negroes, appointed by
4,000 colored members of the Inter-
national Migration society to go to
Africa and arrange for colonization of
the south in that country, left here to-
day for Liberia. The president of Li-
beria has promised the colonists land
and farming implements. The advance
guard goes to make arrangements for
the coming of 4,000 more of their race
who will sail in special steamers char-
tered by the International Migration
society from New Orleans, Mobile,
Savannah and Charleston during the
coming winter. The first cargo of five
hundred leaves early in December. The
Liberian congress will welcome them
and the president of that country has
written letters to the promoters of this
important scheme here urging the
negroes to come.

Bound to lead. For over forty years
the standard, Dr. Price's Baking Pow-
der, has advanced steadily with the
growth of the country.

ARE DOING AWFUL DAMAGE.

Plantations Along the Southern Mis-
sissippi Destroyed by Fire.

MEMPHIS, Tenn., Nov. 9.—Forest fires
are raging in West Tennessee and east-
ern Arkansas and a cloud of smoke has
settled down over the city and sur-
rounding country like a fog. The
smoke is so intense on the river as to
prevent boats running. Passengers on
the steamer Lady Lee, which arrived
late this afternoon, bring terrible tales
of losses and suffering from forest fires
on both sides of the river north of Mem-
phis. In Mississippi county, Ark., sev-
eral plantations were devastated and
the tenants left homeless. The flames
were fanned by a stiff wind and when
last heard from were spreading in every
direction. Nothing but a heavy rain
will check the fires. The towns of
Brownsville and Tobias on the Tennes-
see side of the river, which were in dan-
ger, were saved by the prompt work of
the citizens who fought the flames all
night.

EARTHQUAKE IN MICHIGAN.

Very Distinct Shock Was Experienced
at Benton Harbor.

BENTON HARBOR, Mich., Nov. 9.—An
earthquake shock was experienced
here early this morning. Windows
rattled and clocks stopped as the
houses shook perceptibly. The vibra-
tions were distinctly noticed for two or
three seconds. They were accom-
panied by a deep rumbling like thun-
der. No damage resulted.

WILL ISSUE MORE BONDS.

Government Has Decided to Call
for Another Loan of at Least
\$50,000,000.

NEW YORK BANKS WILL BE
CALLED UPON.

The Announcement Has Been Made
Public That the Loan Will Be
Asked for Soon.

UNCLE SAM BORROWS AGAIN.

NEW YORK, Nov. 9.—After the close
of business today it was announced
that the government will ask the bank-
ers for another loan of \$50,000,000.
Gold bonds of that amount bearing 5
per cent. interest are to be issued with-
in a few days at a price which will net
the investors about 3 per cent. annu-
ally. Assistant Secretary of the Treas-
ury Curtis has been in the city for sev-
eral days and has had conferences with
the presidents of the national banks
and trust companies. One of these
bank presidents said today:

"Yes, there is to be an issue of bonds
shortly, probably within a week or
two. Secretary Carlisle will call for
investors. President Cleveland and
Secretary Carlisle have determined that
the gold reserve shall not be further
depleted. If the people do not take all
the bonds, and it is probable they will
not, the bankers who floated the last
issue will subscribe. So far as known
in this city the exact amount of the
issue is not yet determined upon. The
issue will undoubtedly reach \$50,000,-
000. It is not yet decided whether a
syndicate will be formed to take the
bonds or not. That also will depend
upon the action of the authorities in
Washington."

MAY LOSE ALL OF THEM.

Remaining Chinese Warships Ordered
to Release Imprisoned Fleet.

LONDON, Nov. 9.—A dispatch from
Shanghai states that the Chinese men-
of-war remaining outside Port Arthur
have been ordered to attack the Japan-
ese fleet blockading that port and pre-
venting the egress of a number of war-
ships now lying there.

CHEMULPO, Corea, Nov. 9.—Further
bodies of Japanese troops have landed
on the coast to the southward of Seoul.
Their object is the subjection of the
Tonghak, who are very troublesome.
Kim Haku, the vice president of the
council of state, who was appointed by
Japanese influence, was assassinated on
Oct. 20. The anti-Japanese feeling is
intense. Five hundred Japanese
troops have returned to Seoul in conse-
quence.

THE RAIDS CONTINUE.

The Cook Gang Adds Murder to Its
Other Crimes.

COFFEYVILLE, Kan., Nov. 9.—Two of
the Cook gang plundered the town of
Lenapah, I. T., and left a bloody trail
behind them this afternoon. They
entered the town without any conceal-
ment and terrorized the citizens until
they carried out their plans of robbery.
E. E. Melton, a young man who at-
tempted to stop them with a gun when
they were riding away, was shot and
instantly killed. Another man whose
name cannot be recalled tonight was
reported to be seriously wounded. The
robbers held up the proprietors of two
stores and looted the places. They
also robbed the postoffice. John
Shufeldt, proprietor of one of the stores,
was relieved of \$100 in money and a
gold watch.

There is no economy in buying the
cheaper baking powders. Dr. Price's, a
pure Cream of Tartar powder, has
several times the strength of the in-
ferior powders and never fails to give
wholesome food. An ideal leavening
agent.

GUILTY OF TRAIN WRECKING.

American Railway Union Man Con-
victed of Murder.

WOODLAND, Cal., Nov. 8.—Salem G.
Worden, one of the several American
Railway union men charged with hav-
ing wrecked a Southern Pacific train
during the strike in July last and
causing the death of Engineer Clarke
and four United States soldiers, was
today convicted of murder in the first
degree. The jury offered no recom-
mendation in regard to the penalty of
death or life imprisonment. The other
accused train wreckers will be promptly
tried.

THE BUILDING COLLAPSED.

Fine Montreal Office Building Falls
With Fatal Results.

MONTREAL, Nov. 9.—This afternoon
the top floor of the new and magnificent
offices of the city passenger railway
caved in killing two men instantly,
injuring one fatally and maiming a dozen
others. The accident was caused by
frost which made the heavy iron girders
leave their sockets and which, crashing
down, carried with them everything be-
low. There were at the time about fifty
workmen in the building and many
were miraculously saved from death.

THE MAXWELL DISABLED.

Is Drifting Ashore and Her Entire
Crew in Danger.

MANISTIQUE, Mich., Nov. 9.—The
schooner E. B. Maxwell is reported dis-
abled and drifting ashore near Manis-
tique river. Grave fears are enter-
tained for the safety of her crew and a
tug was sent to her assistance.

Mutinous Artillerymen Shot.

RIO DE JANEIRO, Nov. 9.—Twenty
mutinous artillerymen have been ar-
rested and at once shot.

Entered as mailmatter of the second class in the postoffice at Marquette, Mich.

THEY ARE IN ACCORD.

Many surprising things are shown by the outcome of the elections of this week, in which the Democrats were so unmercifully drubbed and the Populists failed to establish that they are gaining ground. One of these is that there is no antagonism between capital and labor in the United States. The stupendous victory of the Republican party was gained by the support given its candidates everywhere by both the capitalists and workingmen. All the great corporations of the country were arrayed on the Republican side, and with them were the men of large means.

But these could not have given the party its victory were it not for the assistance of the labor vote, which went almost solidly Republican, as the returns show. In view of this singular, but comforting, fact it cannot well be longer claimed that there is any serious antagonism between capital and labor in this country. If there were it would manifest itself at the ballot box, for that is where American citizens who have grievances to redress are afforded the opportunity to make their power felt.

It might be urged that labor had no choice between the two old parties were it not for the fact that the Populist party was in the field with a platform framed and candidates selected to catch the discontented labor vote. That the Populists fared no better at the hands of the workingmen than the Democrats, and that the Republican party, which conspicuously enjoys the friendship and confidence of the great employing corporations as well as the capitalists of the nation, was favored above them both leaves no doubt of the correctness of THE MINING JOURNAL'S assumption, to-wit, that there is no real antagonism between labor and capital in the country, despite the efforts of preachers of the gospel of Populism to produce it; and that the party which proposes to revolutionize everything has no mission, consequently cannot continue to grow, as its leaders have hoped and expected it would.

It has been charged that the "money power" and the wealthy corporations run the government to suit themselves. Either the workingmen do not believe this, or they approve the way these are running it. Undeniably the labor vote was given to the party which has the friendship of the accumulated wealth of the nation and the corporate interests—and this, too, with a full knowledge on the part of the labor voters of what their support of that party would mean and how it would affect the result.

The Democratic party has claimed to be the party of the people. So has the Populist party. Both stood as advocates of measures and policies in various ways antagonistic to the corporate and capitalistic interests where these are alleged to conflict with those of the people. The R-publi-can party stood for measures and policies which were denounced by both the Democrats and Populists as being designed to favor classes at the expense of the masses, yet the masses voted the Republican ticket with substantial unanimity, as is amply shown by the returns.

For which reason there should be an end to this twaddle about the conflict between capital and labor in this grand country of ours. There is none. Capital and labor stood up together to be counted on the Republican side last Tuesday, and when the count was made it was found that Democracy and Populism had gone down together. And the country was saved once more.

DID GREAT WORK.

The Menominee Herald takes credit to itself for having brought about the Republican victory in its county in the recent election. The Herald published seven issues a week and in each of these the voters were urged, with all the force and vigor which the political editor of that influential sheet is noted for in his writings, to support the Republican ticket from top to bottom. Which they did, to the great advantage of the Republican party in the county and the great glory of the Herald.

In this county the work of the Iron Herald of Negaunee contributed immeasurably to the success of the party. Griffey excelled himself in this campaign as a dirt-slinger, and the more mud he threw about the more votes were won for the party whose cause and candidates he championed. He broke all his previous records as a disseminator of campaign lies and brutal assault on the reputations of better men than himself, and in this way assisted to achieve the victory won by his party in the county. He comes out of the campaign with a big triumph to gloat over and couple of libel suits to look after, and is in a very complacent frame of mind indeed.

All the avowedly Republican papers in the district worked vigorously for their party, but with the exception of the vile and abject organ at Negaunee they held themselves well within the bounds of decency, and are not open to

the criticism that even Republicans are freely passing on that dirty sheet and its Hessian editor on account of the indecency of both in the campaign.

It is the privilege of victors to burrah over their success. No one would deny them that or deprive them of it. But the skulking coward in battle is apt to be the most vociferous in his rejoicing after the danger is over and the field won; so nobody need be surprised at the noise the Negaunee hireling is making over the success of his party since he has learned that it was big winner in the fight. He couldn't be decent if he tried, not having been put up that way.

This paper was not aware that it ever claimed to have any influence in the councils of the Republican party in this district, and never has sought to obtain any favors from the party magnates in the district or state. It favored Mr. Culver's candidacy in the election just held because it believed him to be the best man in the field for congress, and it holds the opinion that he was today. Its opposition to Stephenson was based on honest grounds, but was conducted with decency and without resort to abuse or vilification. It cares as little now for the criticisms of his followers as it did during the canvass, and stands just where it did before—ready to commend where it believes commendation called for and to condemn where it conceives condemnation deserved. As it is not an organ it cannot be controlled by the influences or judged by the rules that apply to papers which have no higher ambition than to do their party's work, whatever it may be, and be rewarded by an occasional chance to feed at the party trough. THE MINING JOURNAL has no tears to shed over the outcome of Tuesday's elections, and will be found doing business at the old stand right along, as free, independent and "sassy" as ever. Its mission is to publish the news and give its honest opinions, and no political boss, Republican or Democratic, can deprive it of the one or prevent it from doing the other.

PRESIDENT CLEVELAND is alleged to entertain the belief that the Democratic party has outlived its usefulness for the accomplishment of the great governmental reforms on which his heart is set. If it has survived at all there is not much evidence of its vitality in the showing it succeeded in making Tuesday. But Grover still lives in clover. He seems to have had the best of the deal between him and the Democratic party all the way through.

AT BAY CITY Thursday night the Republicans had a grand jollification and parade over their magnificent victory, and Fisher's famous "white horse" led the procession, he having laughingly agreed to loan it for the purpose when its use was requested. It was a pity that the "Two Tims" were not "in it" astride of the animal—but perhaps the horse would have "kicked" against that arrangement!

HOW'S THIS!

We offer One Hundred Dollars reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O. WALDING, KINNA & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

DID YOU EVER

Try Electric Bitters as a remedy for your troubles? If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all female complaints, exerting a wonderful direct influence in giving strength and tone to the organs. If you have loss of appetite, constipation, headache, fainting spells, or are nervous, sleepless, excitable, melancholy or troubled with dizzy spells, Electric Bitters is the medicine you need. Health and strength are guaranteed by its use. Large bottles only fifty cents at Farnham's Drug Store.

Dyspepsia Cured

"My wife has been a great sufferer with dyspepsia for over four years. Three bottles of Hood's Sarsaparilla have perfectly cured her. At times the lightest food would distress her terribly. She could not sleep well nights and she said no one could tell how badly she felt. She was also troubled with sick headaches. She had tried different kinds of medicine, but none did her any good. At last Hood's Sarsaparilla was recommended and one bottle did her so much good that she took two more and now she is perfectly well. She is not now troubled

Mrs. Otis Merritt. Hood's Sarsaparilla with any sick headaches nor bad feelings, can eat heartily and sleep well. To Hood's Sarsaparilla belongs all the credit." OTIS MERRITT, Addison, Maine.

Hood's Sarsaparilla Cures

Hood's Pills cure headache and indigestion.

MICHIGAN MINING SCHOOL.
A STATE SCHOOL OF MINING ENGINEERING located in the heart of the Lake Superior mining region, giving practical instruction in Drawing, Blue-prints, Mechanics, Mechanism, Properties of Materials, Graphical Statics, Shop-practice, Analytical and Technical Chemistry, Assaying, Ore Dressing, Metallurgy, Plane, Railroad, and Mine Surveying, Hydraulics, Mining, Mineralogy, Petrography, General Economic, and Field Geology, etc. Has Summer Schools in Surveying, Shop-practice, and Field Geology. Laboratories, Shops and Stamp Mill well equipped. Tuition free. For Catalogues apply to the Director, Houghton, Mich.

COPPER COUNTRY NEWS.
St. Agnes Guild Have Secured J. Edward Reilly for Their Entertainment Course.
LOCAL PAPERS ADMIT SALE OF PENINSULA MINE.
Calumet & Hecla Has Immense Coal Supply—Will Hold Services in New Church.

[All communications intended for this department should be addressed to Horace J. Stevens, Houghton, Mich.]
HOUGHTON.
The fifth and sixth entertainments of the course being given under the auspices of the ladies of St. Agnes Guild, Trinity Episcopal church, were to have been given by G. Paul Smith, the famous impersonator, but the dates here have been cancelled by reason of the sickness of Mr. Smith. His place will be taken accordingly by the Rev. J. Edward Reilly, of the Hancock Congregational church who will deliver his lecture on Ireland on Saturday Nov. 17th and on Mexico on Tuesday Dec. 4th. Both lectures will be at the Armory and will be illustrated by fine photographic views, projected on a large screen from one of the finest of modern stereopticons.

The Calhoun Opera company scored a great success in its season at the Casino, the home of the comic opera in New York. The metropolitan press says most flattering things of the company which is to appear at the Armory on the 10th in "Amorosi" and in "The Black Hussar." "Millocker's" famous opera, on the following night. Reserved seats will be \$1.00 and \$1.50 according to location and general admission 75 cents, but at the rate tickets are selling it will be unwise to depend on securing a seat not previously reserved on either night.

The three-year-old son of Mr. and Mrs. Chas. Ruelle was buried Thursday from St. Ignatius church.
The October enrollment in the Houghton public schools was 465 with an average attendance of 96.99 per cent. Hancock's schools had 614 pupils enrolled and an average attendance of 98 per cent. The average attendance in both towns is good, a fact which all practical educators know is of great advantage to both teachers and pupils in doing the school work quickly and thoroughly.

The Houghton county delegates to the Grand Rapids State Sunday School convention will leave on the morning train of the South Shore next Monday. A special fare of \$14.30 for the round trip will cover a great attendance from copperdom, twenty delegates being expected to go down from this county alone.

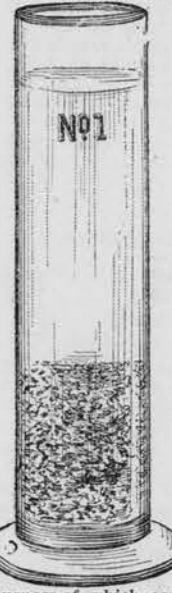

The ladies of Grace Methodist church and their friends enjoyed a social last night at the residence of Mr. and Mrs. E. J. Pryor, East Houghton.

Nathan Leopold of Chicago, of the marine firm of Leopold & Austrian, is in the county looking after the firm's interests.
Frank McM. Stanton, agent of the Atlantic and Central mines, left for his father's home in New York city Thursday afternoon, accompanied by Dr. Alfred David of Atlantic. Three weeks ago Mr. Stanton drove to the Central mine and contracted a severe cold on the way. Since then he has not been feeling well and a sudden and serious turn for the worse decided him to go home on Thursday. Mr. Stanton has been working very hard during the summer, the building of the new mill at Salmon Trout for the Atlantic and the condition of the Central and its partial closing down having proved a great responsibility. There is a universal hope that he may soon return in the best of health, as Mr. Stanton is a young man who has none but friends in the copper district.

Colonel E. G. St. Clair of Ishpeming arrived here Thursday and will spend several days in the county explaining the advantages of Pecos Valley, New Mexico. Colonel St. Clair has already piloted one party of intending settlers to that fertile spot in the southwest and will soon repeat the trip with a second party. Those who have investigated the district assert that the representations of the Pecos company and its agents are all fully borne out by the facts.

HANCOCK.
The deed transferring the Peninsula mine property to the Franklin Mining company was filed with the register of deeds of Houghton county on Nov. 7. On Oct. 24 THE MINING JOURNAL informed its readers that this sale had been made. The Calumet News and the Houghton Gazette, two publications which make considerable pretense of being authorities on mining matters, each took up the statement, denied it vociferously, and asked the public to exonerate the Mining Journal for foisting any such palpably absurd statement upon the people. Both of these precious publications denied the story "by authority"—at least they so informed their unfortunate readers. The Calumet paper took occasion to draw as a moral the obvious inference that the Calumet News has been, is and forever will be the only newspaper published which can tell the truth about a copper mine. The Houghton sheet sermonized to some length upon the alleged tergiversations of THE MINING JOURNAL and alleged with great show of public spirit that any newspaper guilty of lying about the sale of the Peninsula must forever lose the confidence of the people. In the current issue The Gazette admits the sale of the Peninsula to the Franklin in the following ambiguous but decidedly characteristic manner:
We are informed that the Peninsula mine, which was recently purchased by Mr. Pope for eastern parties, has by them just been sold to the Franklin Mining company.
Inasmuch as the deed to the Franklin company reads from the Peninsula company direct this sandwiching of mythical "eastern parties" into the deal is evidently a slight-of-hand attempt by The Gazette to let itself down easy and as a prestidigitator that sheet is about as clumsy as it is in certain other respects. The editor of The Gazette must explain whom these "eastern parties" are or stand convicted of screening himself from the consequences of one false statement behind another of like ilk.

PASKOLA VINDICATED.
GROSS IGNORANCE EXPOSED.
Its Value and Healthfulness Fully Established.

The results obtained by certain professed chemists in an attempt to analyze Paskola are so far from the truth that we have every reason to believe the perpetrators to be in the employ of rival manufacturers (possibly people interested in preparations of cod liver oil), whose business has been injured by the merited popularity of Paskola. This suspicion is strengthened by the fact that the untruthful reports as to the composition of Paskola have been widely circulated through the mails and otherwise. Among the things the so-called "chemists" have stated is that Paskola was nothing but glucose and hydrochloric acid, the ridiculousness of which assertion will be made clear by the following experiment:
Take two pint bottles and in one place a tablespoonful of glucose and in the other a like quantity of Paskola; fill them with water, shake thoroughly and add to each forty drops of muriatic or hydrochloric acid, in order to imitate the acidity of the natural gastric juice. Having previously finely minced a quantity of rare or raw lean beef, chicken, the white of hard boiled eggs or similar foods, put into each bottle one ounce. Immerse the bottles in warm water and carefully maintain the contents at a temperature of 100 to 105 degrees Fahrenheit, frequently shaking in order to thoroughly expose the food to the action of the solution.
In the course of a very short time the contents of the bottle containing Paskola will be seen to undergo a change, and in two or three hours the food will have become entirely dissolved or digested; whereas the contents of the other bottle containing the glucose and acid will show no change beyond a slight difference in appearance.
If you have neither the facilities nor the inclination to make the test for yourself we have no doubt that your druggist will be glad to try the experiment. The tubes herewith show the results of a test made in our own laboratory, the cuts being from a photograph. No. 1 contained glucose and No. 2 Paskola. What are we to conclude? One of two things: Either that the so-called "chemists" are ignorant or dishonest.
Glucose has no digestive properties. This is a well-known fact, whereas Paskola is giving relief to thousands of dyspeptics, a truth attested by the unsolicited testimonials that pour in upon us. The presence of digestive ferments in Paskola cannot be determined by chemical test. No one has ever seen digestive ferments in a pure form, and the only way to determine their presence is by observing the effects which they produce upon food. This is a fact recognized by every authority, and will be found stated in Foster's Physiology and other standard works.
Another thing which these ignorant and jealous rivals have said about Paskola is that inasmuch as its basis is pre-digested starch it is calculated to encourage diabetes.
We cannot better answer this charge than by quoting a paragraph from a report made to Mayor Gilroy of New York by Dr. Cyrus Edson, commissioner of health for the city of New York and for the state of New York:
"Pre-digested starch is starch in the exact condition that we find it prepared by the digestive organs for assimilation. It is preeminently a fat-forming, heat-producing food. Under a diet of pre-digested starch or glucose a man can perform more muscular work than under any other single article of food. Pre-digested starch not only is not injurious but it is an essential article of food, without which in some form man cannot enjoy life."
This letter from Dr. Edson was written in answer to an inquiry from the mayor as to whether or not pre-digested starch was healthful.
Paskola contains a special form of pre-digested starch as well as digestive ferments and is not alone a fattening food but it aids the digestion of other foods in the stomach, just as you may see in the above experiment. The tired, feeble stomach of the dyspeptic is too weak to do its duty. It needs a little help; this help Paskola gives. Its use is at once followed by a sense of well-being, strength, vigor and courage. The appetite improves and the sufferer can eat with comfort where before distress followed every meal. Paskola corrects emaciation and the pale, thin sufferers rapidly gain in weight under its use. Consumptives will experience a thousand times more benefit from it than from the use of disagreeable, nauseating cod liver oil, which often does more harm than good. Consumption need not prove fatal if we can arrest the loss of flesh, for its victims virtually die of starvation.
Send for our interesting pamphlet and learn about this wonderful preparation. We will gladly mail you a copy free upon application. The Pre-digested Food company, 30 Reade street, New York.

LAKE LINDEN.
The Calumet & Hecla company now has stored on its coal dock here 140,000 tons of coal, which is 15,000 tons more than the estimated capacity of the dock. Outside of the railroad companies and the Illinois Steel company the Calumet & Hecla company is the heaviest consumer of coal in the west.
Rev. H. C. Scottfield will deliver his lecture on the "Triumph of a Republican Form of Government" (no allusion to the recent landslide, as the title was chosen before election), at the Congregational church on Friday evening next. The lecture will be illustrated by some handsome stereopticon views projected by a calcium light.
Miss Mand Bawden will leave Monday morning for the State Sunday School convention at Grand Rapids as a delegate.
Engine No. 3 on the Quincy & Torch Lake railroad, which was received last week, has been placed in commission and now makes regular trips between the mine and mill under the direction of Engineer A. W. Lord of Hancock. Engine No. 1 is now in the shop for a needed over-hauling.

A library party at the residence of Mr. and Mrs. Charles Smith last evening was a highly enjoyable novelty in the line of entertainments. The hearty congratulations of the guests were received by Mr. Smith last night upon the occasion of the deserved honor of election to the Michigan legislature.

CALUMET.
The new Swedish Lutheran church which J. F. Grip of Ishpeming has been putting up at the head of Sixth street has drawn so near completion that services will be held tomorrow in the basement and every successive Sunday thereafter until the interior of the church proper has been properly furnished.

The German-American Bowling club gave a dance at the Red Jacket Opera House last evening. Karisek's string orchestra furnishing the strains for Terpsichore to caper to.

Nelson Pardee and Miss Mary Roeder were married at the Calumet Methodist church on Wednesday by the Rev. John Sweet.

Born to Mr. and Mrs. Benjamin Blum, on Thursday, Nov. 8, a daughter.

Rev. J. Edward Reilly delivered his lecture on Ireland at the Methodist church in Dollar Bay Wednesday night under the auspices of the Epworth league, which has undertaken to supply a series of clean, moral and interesting entertainments during the winter at every village in the county which has a branch of the league.

Three cans of the cheap baking powder are required to go as far as one of Dr. Price's.

LOCALS FROM L'ANSE.
Successful Comedy by Local Talent. Other Brief Items.
Thursday night's performance of "Larks" at the opera house before a large audience was pronounced by all a grand success. The comedy was rendered by local talent under the direction of Mrs. H. M. Strong, who also won the attraction of the evening in her many and varied specialties. Her personification of the darkey provoked loads of laughter and her songs with banjo accompaniment were the cause of frequent encores. Mrs. Strong will appear at both Baraga and Pequaing and we assure our readers of a premium value on the amount invested.

Today's edition of the L'Anse Sentinel is under the new management, Mr. John A. Campbell, a long-time resident and successful business man of our town, having bought out the entire interest of the paper from its former editor and proprietor, Mr. Sylvester Kinney. Mr. Kinney had issued this commendable sheet for some fifteen years uninterruptedly. Mr. Kinney will remove with his family to southern Michigan. We trust that what the community sustains in a loss by his absence will be to Mr. Kinney's best interests.

The Baraga Silver Cornet band serenaded the sheriff-elect, John Hill, and the clerk-elect, Otto Beecher, at their respective residences Thursday evening in this city. The members of the band as well as many outside friends were royally entertained by the successful candidates.

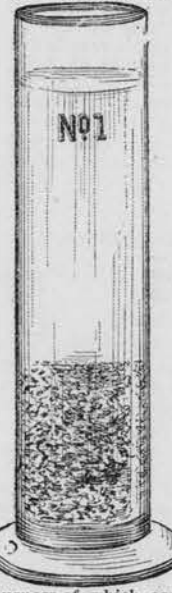

The tow barges A. Stewart and James Mowhet are loading with lumber at the L'Anse Lumber company's dock for Chicago and will probably clear Sunday or Monday morning.

Mrs. D. J. Norton returned to Ewen Monday, after a visit with Mrs. S. Kinney.

Miss Kerwin returned this week from an extended visit at Ashland.
S. Kinney spent the week at Menominee.

ALL DISEASES of the blood are cured by Hood's Sarsaparilla, which by its vitalizing, enriching, and alterative effects makes only **PURE BLOOD.**
BARGAINS! BARGAINS! BARGAINS!!!
Buy your storm sash of The Bice Mfg. Co., the only home industry that manufactures them. Quality the best and sold at the lowest market prices.

By the Santa Fe Route. The most attractive American tour. A new descriptive book, with the above title, containing over 150 pages and as many pen and ink illustrations, sent free on receipt of 4 cents in postage, by JOHN J. BYRNE, Room 723 Monnock Building, CHICAGO - ILL.

WOULD KICK AT ANY PARTY.

Congressman Bynum of Indiana Expresses His Opinion Regarding the Recent Election.

MERELY VOTED AGAINST THE RULING PARTY.

Restless Element in America Caused Overthrow of the Republicans Twice and Democrats Once.

NOT WON TO REPUBLICANISM.

WASHINGTON, Nov. 9.—William D. Bynum of Indiana arrived in the city today. When asked for an opinion as to the cause of his own and the party's defeat in the election he said:

"It is absurd to attribute such a revolution to change in the minds of the people upon political questions. Upon questions of principle such sudden and radical changes do not take place. Anti-free silver and conservative tariff representatives as well as advocates of free coinage and a radical revision of the tariff went down alike before the same irresistible influence. The result is not the acceptance of the principles and policies of the Republican party.

"Every person who has observed the condition of public sentiment for the last few years has noted a restlessness upon the part of the great masses of the people and a disposition to hold the party in power responsible for the misfortunes visited upon us. We have had many peaceful revolutions within the last ten years and we may congratulate ourselves the dissatisfied elements have thus far been content with their efforts to strike down the ruling party. Within four years they have twice dethroned the Republican and once the Democratic party.

"To say that the people are so fickle minded upon the questions upon which the two great parties are divided as to cause the ridiculous result of Tuesday last is only another but still more striking exhibition of the deep dissatisfaction which has been growing in the minds of the people for some years and which up to the present time has been content to strike down the party in power.

"The Republican party when clothed with full responsibility will, unless there is a radical change in conditions, meet with the same fate. These sudden and overwhelming changes are evidences of a demoralized, if not diseased, public mind that does not augur well for the stability of any policy or for the prosperity of the country. What the country needs most is a rest and not to be plunged into a condition of uncertainty every two or four years that will more likely aggravate than allay the evils of which the people are complaining."

MOTHER LEASE SPEAKS.

She Feels Glad That Democracy Has Been Downed.

WITCHITA, Kan., Nov. 9.—Speaking of the late election Mrs. Mary E. Lease said today:

"The defeat of the People's party in Kansas is due largely to the disgraceful compromise with Democracy two years ago and to the treachery perpetrated upon the people by the election of John Martin. I believe Governor Lewelling would have been reelected this year had it not been for Martin's letter and the bulldozing methods and treachery of State Chairman Breidenthal who, to serve his own selfish ends, sacrificed the head of the ticket by endeavoring to carry the legislative and congressional districts.

As to woman's suffrage, its defeat this year was assured when some crazy, irresponsible, seeking-for-notoriety woman accepted Republican pay to foist her peculiar views upon the Populist convention. When we get ready for a constitutional amendment in this state, our people will look after it successfully. We all rejoice that Democracy, John Martin and his political tools are beyond all hope of resurrection. That is some consolation."

GOT A LIFE SENTENCE.

An Old-Time Star Ball Tossing Is Convicted of Murder.

SAN FRANCISCO, Nov. 9.—Charley Sweeney, the ex-baseball player who was America's foremost pitcher a few years ago, was today sentenced to eighty years' imprisonment in the state penitentiary. During a saloon brawl Sweeney shot and killed "Con" McManus. He was convicted of manslaughter.

COULD NOT STAND THE STRAIN.

South Dakota's Populist Candidate for Governor Dying Seriously Ill.

BEDFORD, S. D., Nov. 9.—Judge Isaac Howe, Populist candidate for governor in the late campaign, is lying seriously ill at home with small pox of recovery. Excitement and fatigue of the campaign was more than he could endure.

THINKS HE IS AN EMPEROR.

German Priest Becomes Violently Insane at Omaha.

OMAHA, Nov. 9.—Father Schraffe, a well known Omaha priest, became violently insane in a room at the Millard hotel. He has a revolver and declares he is the emperor of Germany and will

kill any one who approaches him unless of equal social rank. The police are unable to solve the question of securing the maniac.

KILLED MAN AND WIFE.

Desperate Character Confesses to Commission of Two Murders.

FARGO, N. D., Nov. 8.—N. J. Villars was brought to the Case county jail by Sheriff Eddy. Eddy left Jamestown with the prisoner just in advance of a mob which was on its way to take him from jail and lynch him. On the way here Villars confessed to a horrible assault on Mrs. Fromer which resulted in her death with which he was charged. Villars tonight confessed to another crime. A month ago Fromer, the husband of the woman he murdered, mysteriously disappeared. Villars says he killed Fromer and his body can be found buried in a pile of manure back of the barn.

HELD MEMORIAL SERVICE.

President Attends Ceremony in Honor of Late Czar.

WASHINGTON, Nov. 9.—Very impressive ceremonies were held at the Russian legation today in memory of the late czar. President and Mrs. Cleveland and a number of the cabinet and ladies of foreign ambassadors and suites were present in official costumes. The services were conducted by Bishop Nicolas of the Russian church, assisted by a monk and two attendants.

IS FIGHTING A TRUST.

Tennessee Waging War Against Cotton Seed Oil Trust.

MEMPHIS, Tenn., Nov. 9.—The state of Tennessee opened a fight against the cotton seed oil trust today. Attorney General M. H. Patterson filed a suit in the circuit court against six of the most powerful members of the alleged trust, asking the court to declare their charters forfeited.

TOUGH ON CHEROKEES.

Will Be Killed for Selling Land to Outsiders.

TALHEQUAH, I. T., Nov. 9.—A bill has passed both houses of the Cherokee legislature making it treason for a Cherokee citizen to sell the real estate of this nation to a non-citizen, naming as a penalty for so doing death by hanging.

Lumber Company Fails.

St. Louis, Nov. 9.—The Schulenberg & Boeckler Lumber company has failed. The assets are \$100,000. The liabilities are unknown. The assignment was precipitated by the death of the junior member of the firm.

Race Declared Off.

PHILADELPHIA, Nov. 9.—The match race between Robert J. and John R. Gentry, which was to have been paced today at Belmont, was declared off on account of the heavy track caused by last night's rain.

What a Great Thing It is that a Pan of cake or biscuit properly mixed and baked will always come out just right. That's the case when baking is done with Dr. Price's Cream Baking Powder.

Ten Persons Drowned.

HAVANNA, Nov. 9.—The Spanish coast steamer Fernando foundered Tuesday morning twenty miles north of Bahia Honda. Ten of the passengers and crew were drowned.

Forecast of the Weather.

WASHINGTON, Nov. 9.—9 p. m.—The weather bureau reports the following as the forecast for the next twenty-four hours. For upper Michigan: Snow in early morning followed by fair, cooler, high northwest winds.

Officers Not Indicted.

JACKSON, Miss., Nov. 9.—The federal grand jury by a vote of more than two to one refused to indict the governor, treasurer, and auditor in the matter of printing Mississippi state warrants.

Oberlin Bank Robbed.

CLEVELAND, Nov. 9.—Burglars last night blew open the safe of the National bank at Oberlin. The amount of money secured is not known but it is large.

Charged With Embezzling.

TACOMA, Wash., Nov. 9.—Ex-City Treasurer Boggs was arrested on the charge of embezzling nearly \$25,000, the sum deposited by him in the suspended savings bank.

Made Indian Commissioner.

WASHINGTON, Nov. 9.—William E. Russell of Massachusetts was today appointed by the president as member of the board of Indian commissioners.

RELIEF IN SIX HOURS.

Distressing kidney and bladder diseases relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by J. H. Stafford & Co., Druggists, Marquette.

BOME SEEKERS' EXCURSIONS.

The Missouri, Kansas & Texas railway will sell tickets on Sept. 11, Sept. 25 and Oct. 9 at greatly reduced rates to all points in Texas, to Eddy, New Mexico and Lake Charles, La. Good returning twenty days from date of sale. For further information address H. A. Cherrier, 12 Rookery Bldg., Chicago; T. E. Cookerly, 509 Locust street, Des Moines, Ia., or James Barker, 6 P. and T. Art., St. Louis, Mo. (8-31-4 Fridays)

Highest of all in Leavening Power.—Latest U.S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

IMPROVEMENT LOOKED FOR.

Merchants and Manufacturers Anticipate Revival of Trade in the Near Future.

FOREIGN TRADE AFFECTS PRICE OF WOOLEN GOODS.

Staple Brands of Iron and Steel Steadier Than They Have Been for Many Months.

BRADSTREET'S TRADE REVIEW.

NEW YORK, Nov. 9.—Interest in elections this week naturally tended to restrict the volume of trade. But within a few days the influence of more reasonable weather west and north-west, together with the emphasis with which the political questions were apparently settled, increased the confidence of many merchants and manufacturers in prospect for an increased rate of improvement in general trade in the near future.

Chicago and St. Louis manufacturers and business men already report evidences of a tendency on the part of interior buyers to purchase for future delivery and from such iron centers as Philadelphia, Pittsburg and Chicago a relatively greater steadiness is reported in quotations for staple brands of iron and steel than for months past. There is an increased shipment of anthracite coal both by lake and by rail within the week and a stimulated demand for shoes, hats and clothing.

Foreign competition with domestic plain woolen dress goods is noticeable and orders are placed for delivery after Jan. 1. American fleece wools feel the effects of competition with Australian and continue easier. Print cloth stocks have reduced in volume and prices are steady. Domestic woolen mills are fairly well employed. Prices of iron and steel shapes and for Bessemer pig and steel billets are practically steady.

There was another net advance this week in prices for wheat and lard and coffee and sugar advanced fractionally also. There was further recession in quotations for corn and oats. The general commercial conditions at the south continue to struggle with another decline of an eighth of a cent on cotton. Exports of wheat (including flour) on both coasts aggregate 2,689,000 bushels this week against 2,813,000 bushels a year ago.

The total bank clearings of the principal cities in the United States for the past week were \$948,954,499, an increase of 1/2 per cent. compared with the corresponding week of last year.

New York, Nov. 9.—R. G. Dun & Co. report that the failures in the United States during the past week were 261 against 358 for the corresponding week of last year.

NAVAL HERO RETIRED.

Admiral Gehardt Today Placed on the Retired List.

WASHINGTON, Nov. 9.—Tomorrow at noon there will be placed on the retired list the commandant of the New York navy yard, Admiral Bancroft Gehardt, one of the few old war commanders now in the naval service and known in naval parlance as the "sea going admiral." He leaves behind him a career of distinction, full of hard fighting and severe service and without blemish.

Enjoy good health by using Dr. Price's Baking Powder, the only powder prepared by a physician.

CHICAGO MARKETS.

Grain and Produce.

CHICAGO, Nov. 9.—The leading grain futures ranged as follows:

Table with columns: Wheat, Corn, Soybeans, etc. and values for Opened, High, Low, and Closed.

Cash quotations were as follows: Flour, more active, firm. Wheat, firm, 2 spring 82 1/2 @ 83 1/2; corn firmer, 3 1/2; oats, higher, No. 2 white, 32 1/2; white, 31 1/2. Butter, firm; creameries, 14 1/2 @ 15; dairies, 12 @ 13; eggs, firm, 20 @ 21 c.

RECEIPTS—Flour, 9,000 bbls.; wheat, 84,000 bu.; corn, 122,000 bu.; oats, 132,000 bu.

SHIPMENTS—Flour, 6,000 bbls.; wheat, 88,000 bu.; corn, 48,000 bu.; oats, 49,000 bu.

Cattle, Hogs and Sheep.

CHICAGO, Nov. 9.—Prices at the stock yards ranged as follows: CATTLE—Receipts, 8,000; calves, 300. Steers steady to strong and butchers and cannery stock strong to a shade higher. The supply was light. Native steers were in demand at \$9.00 @ 9.45 and native cows and heifers at \$1.15 @ 1.65. Western rangers were firm at \$1.75 @ 1.75 and sales of Texas cattle were on a basis of \$1.30 @ 1.40. Stockers and feeders were quiet at \$2.00 @ 2.20.

HOGS—Receipts, 37,000. There was another big run on hogs today but the market opened firm and higher and maintained a good degree of activity and firmness to the end. Choice heavy brought \$4.75 @ 4.80 and there were a few sales of assorted light at \$4.65. Common rough mixed sold at \$4.25 @ 4.30 and there were many sales at \$3.75 @ 3.85. Culls were quoted at \$2.50 @ 4.00.

SHEEP—Receipts, 15,000. As a consequence of Thursday's heavy supply there was a decline of 10 @ 15c in sheep and 20 @ 25c in lambs and as there was further softening today the present prices are very little better than the close of last week. Sheep ranged from \$1.25 @ 1.30; lambs, \$2.00 @ 2.25.

METAL PRICES.

NEW YORK, Nov. 9.—Pig iron dull; Scotch, \$19.00 @ 20.25; American, \$19.00 @ 21.00.

Copper, quiet; brokers price, 9.50c; exchange for spot, 9.50 @ 9.55c.

COPPER STOCKS.

Table listing copper mining stocks: Boston, Nov. 9.—The closing prices of copper mining stocks were as follows: Atlantic, 10 00; Boston & Montana, 25 62 1/2; Butte & Boston, 10 12 1/2; Calumet & Hecla, 20 00; Centennial, 10 00; Franklin, 12 00; Kearsarge, 7 25; O'Brien, 22 00; Quincy, 14 00; Tamarack, 13 00.

HIS BEST HAUL.

A Deaf Old Fisherman Lands a Desirable Son-in-Law.

A merchant tailor in the city of Buffalo many years ago, having accumulated a competency at his trade, determined to throw aside his shears and spend the remainder of his life upon a farm.

He purchased several hundred acres of land in Tonawanda, and there was a "fishing ground" on the estate.

Mr. C., the ex-merchant, was delighted with his new occupation, and he devoted his best efforts with untiring zeal to farming and fishing. Being hard of hearing he often made ludicrous blunders, which excited the mirthfulness of his friends and customers.

His graceful and beautiful daughter was at boarding school near New York city at the time her father purchased the farm. She had a lover, and promised to marry him, providing he could obtain the consent of her parents to the matrimonial alliance.

The young man traveled west as fast as the iron horse would take him in that direction. On the morning after his arrival he was strolling along the banks of the creek that sweeps through the village of Tonawanda, when he met a plain old gentleman, dressed in homespun, and inquired of him "if the cars had commenced running to the falls yet."

"Principally pike and mullet," said he.

"You misunderstand me," replied the young man. "I merely wish to know if the cars have commenced their trips to the falls of Niagara, and what the fare is."

"From three to four cents a pound," "Do you intend to insult me?" "I will let you have a large quantity for two cents."

"I have a good mind to give you a caning for your impertinence." "Well, if you do not choose to give it I know who will."

"I should like to know if there are any more such fools as you are in the town of Tonawanda."

"We shall make another haul in the morning before daylight." At this instant another citizen made his appearance, and the stranger stated his grievance to him. He said:

"I have been asking this old man a few civil questions, and he has given me the most impertinent answers." "Oh, he is deaf!" exclaimed the third party. "He is deaf as a post; but he is a very fine old gentleman—one of the best men in town—one of the most influential and respectable men in the county, indeed. He deals in fish somewhat, and so do I. It is possible he may think I am endeavoring to undersell him; will you therefore do me the favor to write down your question on a scrap of paper, and save me from suspicion, and satisfy yourself in regard to the old gentleman's politeness?"

The young man commenced writing, when the old farmer-fisherman interrupted him with the remark: "I will not take a note of hand: cash on the nail or no trade."

"He is preparing a note," said the last comer.

"Call me a brute, do you?" exclaimed Mr. C. "then take that," and sitting the action to the word, he dealt him a blow straight from the shoulder, which prostrated him "flat as a flounder."

By this time the note was finished, and the old gentleman discovered his mistake—and about that time the young stranger made the discovery that he had been picking a quarrel with his prospective father-in-law.

Mr. C. made an apology and invited both parties to go over to his house to dine. The front door commanded a view of a meadow in which a cow was feeding, and while Mr. C. was looking in that direction, the youthful lover, whose heart was overflowing with emotion, commenced the task he came such a long distance to perform.

"I am acquainted with your daughter," said he, in a loud tone.

"She is a fine beast," remarked the old gentleman, looking at the cow.

"Your daughter!" screamed the young man. "I have the honor to be well acquainted with her."

"She is a noble animal," was the quiet response.

"I was speaking about your amiable and accomplished daughter!"

"She is very kind, indeed—never breaks down the fences, never kicks over the pail, never strays away like the other brutes I have."

"You don't understand me, sir! I was speaking of your daughter at boarding-school!"

"No, I never put a board on her face; she never does any mischief at all."

"Your daughter!" shouted the young man, frantic with excitement.

"Did you say I ought to?"

MEDICAL KINETOSCOPES.

Recent Uses of the Invention in the Study of Disease.

The invention of the kinetoscope, which is at present attracting a large amount of popular interest, resembles some of Mr. Edison's inventions in being really an improvement on or an adaptation of discoveries of other men.

This in no way implies that the fame of the American inventor is undeserved. On the contrary, it is due to his genius that mere experiments of scientists have been converted into things of real and lasting benefit to civilization. Sir Humphrey Davy discovered that carbon could be rendered incandescent in a current of electricity, and that oxygen consumed the carbon; but it remained for Edison to exclude the oxygen and to give the electric arc light to civilization. The main essentials of the phonograph were in use before Edison conceived the idea of making a practical use of the machine. The Murybridge photographs were the forerunners of the kinetoscope.

It has been proclaimed that the time is now at hand when books and theaters will become rarefactions, and the average citizen will be content to use the phonograph and the kinetoscope for his pleasure. Such a prediction is over sanguine, as yet, for the reason that these inventions are not yet perfect. The beauty of concerted music or of rare singing is still marred by the electric whir and the false sounds that issue from the phonograph's diaphragm. The splendid color and dazzling luster of the opera's stage are as yet beyond the grasp of the kinetoscope. Perhaps these things may come some day, but they have not come yet, and in the meantime the present generation is concerned chiefly with the things of today. The telephone, for instance, is of more immediate use to civilization than are the phonograph and kinetoscope combined.

Science has already found certain uses for Mr. Edison's later inventions, however. The phonograph counterfeits permanently many sounds that are useful to therapeutics; the normal and unusual heart-beats, "rales" in the lungs, certain vocal sounds depending upon special conditions of the throat or tonsils. It is of decided benefit to science to have permanent records that can always be easy of access without recourse to a special patient. In the same way the kinetoscope promises to be of great utility to medical science by reproducing physical action that can be studied in detail or comprehensively as the student desires. In this city some effort in that direction has already been undertaken, and more will be developed from time to time, especially in nervous disorders that bring on certain physical action that is often so violent and vigorous as to baffle any attempt at close study by means of the unaided eye.

The Murybridge photographs showed some years ago that the eye was unreliable for the detection of the absolute details of rapid animal motion. Instantaneous photography alone gives a correct representation of the different attitudes taken by men or animals in rapid action, and it is quite possible that medical science may achieve fresh discoveries by the help of the kinetoscope. Thus in studying the muscular action that results from certain nerve disorders, it may be possible to trace the nerves which are affected. Even in less complicated cases, like lameness, a surgeon may be able to reach conclusions with greater quickness and certainty by securing the details of muscular action of the affected limb, as the speed of the kinetoscope may be regulated at will. Altogether, then, while the reproduction of grand opera for the multitude may be a matter of the remote future, the kinetoscope is something of more use to civilization than a mere pictorial toy.—Boston Advertiser.

ANCIENT NOVEL WRITERS.

The Egyptians Were Eminent Authors of Fiction and Romance.

The ancient Egyptians were novelists and readers of novels was what no one suspected till Mme. d'Orbigny purchased her famous papyrus in 1857. The Egyptologists of Europe, in fact, fairly scandalized to find that these "grave and reverend sages," whose mummies were so eminently respectable, had tastes as frivolous as our own. Since that time many more specimens of ancient Egyptian fiction have come to light, tales of adventure by land and sea, tales of enchantment and magic, even historical romances and ghost stories. These discoveries have cast a new light upon the early history of literature. They show us that Egypt was not only the birthplace of all our arts and all our sciences, but that the valley of the Nile was in truth the cradle of romance.

It was from Egyptian sources that Herodotus derived many a narrative which he innocently accepted for fact and repeated as history, and it is from these sources that the Arab drew many an incident familiar to us all in the pages of "The Thousand and One Nights." "The Shipwrecked Mariner" (who, by the way, performs the astonishing feat of sailing up the Nile as far as Nubia, and thence gaining the open sea), is cast, like Sinbad the Sailor, upon an island peopled by serpents. Gen. Tahuti, in a story called "The Taking of Joppa," introduced his soldiers into the beleaguered city by means of a stratagem less successfully attempted in after ages by the "Forty Thieves"—that is to say he conceals a certain number of men in big jars, which are carried by others of their comrades disguised as captives laden with booty. One inside the gates, the pretended captives liberate the soldiers in the jars, and take possession of Joppa and its inhabitants.

In "The Story of the Doomed Prince," whose father isolates him in a castle on the top of a mountain in order to defeat the fulfillment of a fatal prophecy, we recognize the central incident of the tale of "Prince Arim," the Third Royal Mendicant, and in the story of "The old man of the mountain," the Egyptian version of "King Midas and the little glass slipper"—"Conte de la Petite Fille aux Sandales de Verre."—L'Espresso.

WOMEN ALWAYS TIRED.

Mrs. Henry Ward Beecher Says She Has Known

But Half a Dozen Women Who Were Thoroughly Well.

The Routine of Domestic Tasks Over-drains Their Nervous Force.

"Among all my friends—and the number of my acquaintances has necessarily been rather large," says Mrs. Henry Ward Beecher, "I can recall but half a dozen thoroughly well women."

So many, in order to obtain the reputation of being good housewives, work from morning till night, cooking sweeping and overhauling.

"What would the house look like," they ask, "if I were not constantly looking after it?"

It would certainly look a great deal more homelike if the wife and mother kept her health and high spirits instead of growing old and careworn from the struggle with dust and the neglect of their tired, aching nerves, and pale watery blood that daily becomes more and more badly nourished.

It is not the healthy weariness of muscle and brain, so easily forgotten after a good night's sleep; but it is the weariness that remains till morning, and follows one

through the day, that should cause anxiety and a desire for prompt relief.

When the nerves and the blood have thus become so badly nourished and the strength thus reduced, food—food appropriate for building up the nervous tissue—and rest, are the plain and simple means, in fact, the only means of restoring vigor and health.

All the material so urgently needed by the million of exhausted nerve cells and by the thin, depleted blood are found in that remarkable invigorator, that food for the brain and nerves, Paine's Celery Compound. It fills the nervous and muscular tissues all over the body with the means of rapid growth, the blood gains new red corpuscles and grows ruddy and capable of thoroughly feeding the body. The strength returns, and headaches, dyspepsia, neuralgia and nervous debility disappear when the tone of the system has been thus raised and the body abundantly supplied with fresh, life-giving blood.

The very first week in which this perfect nerve food, Paine's celery compound, is conscientiously employed it will declare its tonic effect by the feeling of returning strength, a marked increase in the appetite, freedom from pain and depression.

Paine's celery compound cures radically and permanently rheumatism, heart weakness, diseases of the liver and the kidneys, and encourages the excretory organs to expel whatever impure humors there may be in the blood. This is evident by the healthy, clearer condition of the skin that physicians say invariably follows when they prescribe Paine's celery compound, as they so commonly do where the body needs building up and when recovery is slow after acute diseases.

Here is the experience of Mrs. E. L. Wing of Putney, Vt., told in her own words: "I had been afflicted with rheumatism and neuralgia for many years. In a year and a half I have taken eight bottles of Paine's celery compound and have not been so free from these troubles in fifteen years as I am now. I advise all who are afflicted in any way with rheumatism or neuralgia to use Paine's celery compound."

"For the nervous and tired feelings, I think it is the best dose of ambulation that I have ever found. Before I had taken one bottle I felt almost like another person. Other medicines have given me only temporary relief. But the compound has done me more permanent good than the doctors or any other medicine, and I can hardly feel grateful enough for the benefit that I have derived from its use."

A HOUSEHOLD TREASURE.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best relief in all its use; that he would not be without it, if procurable. G. A. Dykeman, Druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at Farnham's Drug Store. Regular size 50c and \$1.00.

BUCKLE'S ARNICA SALVE.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Itch, Ringworm, Corns, Chapped Hands, Chills, Burns, Scalds, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale at Farnham's Drug Store.

THE CLOSE OF THE SEASON.

The round trip excursion tickets from Marquette to Munising and intermediate stations which have been on sale during the summer season at the low rate of single fare for the round trip, will be discontinued after Saturday, November 10th. All sportsmen who have been taking advantage of these rates during the season should take notice.

Blood Poison THE BANE OF HUMAN LIFE, Driven Out of the System by the Use of Ayer's Sarsaparilla

"For five years, I was a great sufferer from a most persistent blood disease, none of the various medicines I took being of any help whatever. Hoping that change of climate would benefit me, I went to Cuba, to Florida, and then to Saratoga Springs, where I remained some time drinking the waters. But all was no use. At last, being advised by several friends to try Ayer's Sarsaparilla, I began taking it, and very soon favorable results were manifest. To-day I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. To all my friends, and especially young men like myself, I recommend Ayer's Sarsaparilla, if in need of a perfectly reliable blood-purifier. J. C. FOWLE, Escobar, proprietor Hotel Victoria, Key West, Fla.; residence, 352 W. 16th St., New York.

Ayer's Only Sarsaparilla Admitted for Exhibition AT THE WORLD'S FAIR

WANTED-FOR RENT OR SALE. SITUATION-By experienced dining room clerk. Address: [illegible]

WANTED-A man in every section to peddle experience unnecessary, best side line. [illegible]

WANTED-Lady or man of upright character willing to study employer's interests, to travel, representing and selling. [illegible]

TO MAKE BIG MONEY-Selling our Electric Telephone. Best seller on Earth. [illegible]

FOUND-Dwelling house pass key. Owner will recover same by calling at this office, proving property and paying for this advertisement. [illegible]

Will Travel in Style. Next Monday noon the copper country delegates to the state Sunday school convention at Grand Rapids will pass through this city in a special Wagner sleeper chartered for the trip.

At Bradford, England, silk has been made from wood pulp so much like the real thing that it bids fair to occupy a place in commerce and use. It is produced by subjecting vegetable fiber to the action of various acids, the result being a product said to be identical with the filament of the worm, having its lightness, luster and all its qualities, including that of durability. Commercially speaking, says the Philadelphia Ledger, the importance of the discovery can hardly be overestimated, and it is possible that it will produce the most revolutionary consequence in the trade in that commodity everywhere. The world's stock of silk, both woven and raw, is immense and has always held a staple value likely to be much shaken and disturbed by the intrusion of a new supply which can be cheaply and abundantly produced. Samples of yarn, fringe, braid, gimps, sewing silks, handkerchiefs, brocades and other fabrics, dyed in various colors, have been exhibited by the Bradford makers to the trade and pronounced all right and up to the commercial standard in all respects. With artificial diamonds and rubies such as are now being turned out in great abundance, modern society will doubtless take on a style of splendor hitherto unknown, outshining the courts of Solomon or the queen of Sheba or the retinues of Mahmood or Haroun Al Raschid.

In all the great hotels, all the leading clubs, all the refined homes Dr. Price's Baking Powder holds supremacy. BREWERY HORSES. They Are, as a Rule, Fat from Eating Brewery Grain. Did you ever see a thin, square, cadaverous, bony horse pulling a brewery wagon? Probably not in New York, though such a thing could happen, though it would not pass without notice. The reason for it is simple, says the New York Sun. These horses are fed on what is known as "brewers' grain," the residue of the brewing process, a nourishing but unsalable product of the brewery. When the labor of beer making is ended gallons of these grains in liquid form are poured into closed wagons and carted to the stables, where they are fed to the horses. They are fattening, and give brewery cart horses that rotundity which is the marvel of many, who do not understand the true cause of it. It is estimated that nearly seventy per cent. of brewers' grains are water and unavailable for transport, except at large expense, for considerable distance, and more than this, they spoil easily, so must be used at once they come from the brewery, hot and steaming. In some places, especially out of New York, these brewers' grains are fed to cattle with very good result, but in this city the supply is taken up chiefly in the stables of the largest breweries.

Very few persons have stopped to compute the extent to which horses are necessary in the brewery business. The largest of the city breweries has two hundred and fifty horses constantly in use in delivering kegs of beer to customers distributed about New York city and Brooklyn. The next largest has two hundred horses, and so on down the list, the total number of brewery horses in the city footing up five thousand.

A DOCTOR'S PHILANTHROPY. Thousands Afflicted by Chronic Catarrh Under Free Treatment. The first day of November, 1893, Dr. Hartman gave his consent to take charge of the treatment of 10,000 cases of chronic catarrh free of charge. The announcement was at once published in all the leading papers, when the applications came pouring in from every state in the Union. With a large number of clerks and stenographers to assist him the doctor actually directs the treatment of thousands of cases by correspondence, which costs the patients nothing except the necessary medicines, which are obtained at the central drug store. To become a patient it is only necessary to send name and address, describe symptoms, and minute directions as to diet, sanitary regulations and other advice will be sent promptly.

Wherever Dr. Hartman is known the name of Pe-ru-na has become a household word. It is safe to say that no medicine in existence is used by so many families as Pe-ru-na. This is especially true of this time of the year, when the people are liable to catarrhal affections, coughs, colds, grippe, etc. Pe-ru-na has cured more cases of chronic catarrh than all other medicines combined. The great majority of those who use it buy the remedy themselves, use it according to directions, not even reporting their case to Dr. Hartman until after they are entirely cured. But now that a limited number of cases can secure a personal attention of Dr. Hartman free of charge it is not to be wondered at that many prefer to do so. Pe-ru-na never fails to cure catarrh when properly used.

The Pe-ru-na Drug Manufacturing company of Columbus, O., is sending free to any address a book on chronic catarrh, which gives the latest treatment for catarrh, coughs, colds, grippe, bronchitis and all other affections of the head, throat and lungs.

MILLINERY. Mrs. David, having cancelled her engagement with Mr. L. Grabower, will do trimming and general millinery at her home, 213 West Washington street, opposite the postoffice. (11-10 1m)

In buying storm sash patronize home industry and avoid the vexatious delays and mistakes incident to ordering from outside dealers. Quality the best. Prices the lowest. The Bic Mfg. Co. (10-3-1f)

"A FRIEND IS NEED IS A FRIEND INDEED." A friend advised me to try Ely's Cream Balm and after using it six weeks I believe myself cured of catarrh. It is a most valuable remedy. -Joseph Stewart, 624 Grand Avenue, Brooklyn, N. Y.

My son was afflicted with catarrh, I intended him to try Ely's Cream Balm and the disagreeable catarrhal smell all left him. He appears as well as any one. -J. C. Olmstead, Arcadia, N. Y.

Price of Cream Balm is fifty cents.

WITHOUT A THRONE. A King Who Was Without Honor in His Own Country.

History in Brief of the Late Comte de Paris-His Services as a Volunteer in the United States Army.

Louis Philippe Albert, Comte de Paris, whose death occurred recently, writes, claimed to be the king of France. He was however never on the throne and never acknowledged king in France. The monarchial governments of Europe, as a rule, professed to believe that he really was king, but, of course, to preserve their friendly relations with the republic, they were forced to recognize the president as the chief executive of that country. Nevertheless, Louis Philippe was regarded as a king by quite a strong party, who will now turn to his son, Louis Philippe Robert, a young man of twenty-five, who is very much in earnest in his pretensions to the throne of France.

Comte de Paris was born in Paris on August 24, 1838, and became, by the death of his father in 1842, the immediate heir to the crown his grandfather, Louis Philippe, had picked up when Charles X. dropped it in his flight from Paris, after the "Three Glorious Days" of July, 1830.

When he was ten years of age Comte de Paris was, with his grandfather, King Louis Philippe, driven from France by the revolution of 1848.

Though too young to remember his father's death, Comte de Paris doubtless always remembered the scene when his brave mother took him and his brother to the chamber of deputies, only to escape there from at the peril of their lives. After many dangers, the fugitives succeeded in crossing the frontier, and went to live at a country house belonging to the grand duke of Saxe-Weimar.

The exiled king and queen reached England, and there the ex-king died in 1850. Ever afterwards Comte de Paris has occupied the position of pretender to the French throne.

He has lived a very quiet life, enveloped by very slight conspiracies, none of which involved any very dangerous schemes, and as a result he has been very little before the public eye.

The only time, indeed, when he came very prominently before the world was in 1861, when, accompanied by his brother, Duc de Chartres, and his uncle, Prince de Joinville, he came to America and offered his services as a volunteer to aid in the preservation of the union. Gen. McClellan, then commander of the army of the Potomac, made him and his brother officers on his staff, with the rank of captain.

John Jacob Astor, whose name will always be a synonym for millionaire in the United States, was also on the staff of the general. Both the distinguished foreigners were obedient, well-behaved and thoroughly acquainted with the duty of their positions. Comte de Paris was repeatedly trusted by Gen. McClellan with important and dangerous commissions, which he fulfilled with credit and ability. For more than a year the comte participated in the varying fortunes of the army of the Potomac, accepting no pay for his services.

France began shortly after this to interfere in Mexican affairs, and there arose a coolness between this country and the comte's, which led to the comte's resignation, lest he might be called upon to fight his own people. He therefore resigned his commission, in spite of Gen. McClellan's efforts to retain his services.

The overthrow of Napoleon III. and the downfall of the second empire at last enabled the comte to return to France. The third republic, very soon after it was established, fell into the hands of a coalition of royalists, who permitted the Orleans princes to return to their native land and restored them their estates, which had been confiscated by Napoleon III., with forty million francs as an indemnity for the deprivation of their revenues. The comte received his share, and also his ancestral estate.

For awhile it seemed very probable that the monarchy would be restored; but, as the partisans of the other claimants refused to help them, the French people at last got tired and became for the most part good republicans. In 1873, when it was too late to do any good, all the claimants to the French throne, except the Bonapartists, recognized the comte as de jure king of France.

A royalist demonstration in 1880 led to the exile of the comte and all members of his family.

He took up his residence in England, and from that country issued manifestoes declaring that the men who were ruling France had lost the confidence of the people, and the only salvation of the nation was to restore the monarchial form of government.

The new head of the French royal house - Louis Philippe Robert - is quick, intelligent, active, energetic, passionately fond of movement, and uncompromising in the expression of his thoughts and feelings. In disposition and temperament he is singularly unlike his father, who was one of the best informed men living, a deep thinker and a scholar.

What influence the new pretender will exert on the destinies of France cannot be guessed, but the probabilities are that, like his father, he will live and die a mere pretender - a king without a throne or a crown.

Foundation of a Fortune. The assassination of President Carnot has made the fortune of the hardware dealer in Certe where Caserio bought the knife with which he committed his crime. Since the origin of the knife became known no day has passed without Guillaume's receiving orders for the "Carnot poignard." These orders come not only from France, but also from foreign countries, in such numbers that the dealer cannot fill them. One house in Brussels alone ordered three hundred.

A Bank Failure. AN INVESTIGATION DEMANDED.

A general banking business is done by the human system, because the blood deposits in its vaults whatever wealth we may gain from day to day. This wealth is laid up against "a rainy day" as a reserve fund - we're in a condition of healthy prosperity if we have laid away sufficient capital to draw upon in the hour of our greatest need. There is danger in getting thin, because it's a sign of letting down in health. To gain in blood is nearly always to gain in whole-some flesh. The odds are in favor of the germs of consumption, grip, or pneumonia, if our liver be inactive and our blood impure, or if our flesh be reduced below a healthy standard. What is required is an increase in our germ-fighting strength. Dr. Pierce's Golden Medical Discovery enriches the blood and makes it wholesome, stops the waste of tissue and at the same time builds up the strength. A medicine which will rid the blood of its poisons, cleanse and invigorate the great organs of the body, vitalize the system, thrill the whole being with new energy and make permanent work of it, is surely a remedy of great value. But when we make a positive statement that 98 per cent. of all cases of consumption can, if taken in the early stages of the disease, be cured with the "Discovery," it seems like a bold assertion. All Dr. Pierce asks is that you make a thorough investigation and satisfy yourself of the truth of his assertion. By sending to the World's Dispensary Medical Association, Buffalo, N. Y., you can get a free book with the names, addresses and photographs of a large number of those cured of throat, bronchial and lung diseases, as well as of skin and scrofulous affections by the "Golden Medical Discovery." They also publish a book of 100 pages, being a medical treatise on consumption, bronchitis, asthma, catarrh, which will be mailed on receipt of address and six cents in stamps.

ELY'S CATARRH CREAM BALM. Is quickly absorbed. Cleanses the Nasal Passages, Allays Pain and Inflammation. Heals the Sores. Protects the Membrane from Additional Cold. Restores the Senses of Taste and Smell. IT WILL CURE. A particle is applied into each nostril and is agreeable. Price 50 cents at Druggists or by mail. ELY BROTHERS, 56 Warren St., New York.

BUT HE MUST QUIT SCARING WOMEN

Ore Shipments on the Rival Mesaba Range—Serial Sermons—Toboggan Slide Projected

GIVEN A LIGHT FINE

The hearing in the case of Daronto Carso, the Italian who assaulted a young girl on Main street Tuesday evening, was concluded Thursday afternoon in Justice Donahoe's court. While the evidence produced proved that Carso was guilty of the charge preferred against him it was apparent that he committed the deed while under the influence of liquor and that when he caught hold of the girl and followed her to the postoffice he had no criminal intent. In view of the fact that he was drunk at the time and also that none of the witnesses sworn would testify that he was the man who had frightened or chased them, the court imposed a fine of only \$10 and costs, which Carso and his friends promptly paid. Attorney Dandon defend Carso and it was through his efforts that the Italian got off so lightly.

Carso will be closely watched henceforth and in case he offends again in the same manner he will be severely dealt with.

Not Shipping Much Ore.

An Ishpeming man who recently returned from the Mesaba range, where he had been working for the past six months, reports that very little ore is being shipped from that range at present. The vessels which have been carrying ore all summer have nearly all gone into the grain and coal trade and those which remained in the ore business have raised the rate, so that a majority of the mines prefer to hold their ore until next spring, when they expect a cheaper rate.

The mines of the Mesaba will do considerable stripping this winter and will be prepared to ship a very large quantity of ore next season. At some of the principal mines on the range a number of the steam shovels, which have been raising ore all summer, are now stripping, and it is said that several of the shovels will be kept at this work during the greater part of the winter. The mines on the range have not yet laid off many men. Those left on have been a few steam shovel hands. Laborers have been rather scarce there during the past couple of months, as many of the men employed about the mines have given up their places and gone to work in the woods. There is considerable lumbering being done in that district and the wages paid are about the same as in this vicinity. There is every prospect of the principal mines on the Mesaba working at least a good percentage of their present forces all winter, as many of them contemplate getting out a large amount of ore next season.

A Series of Sermons.

Rev. J. H. Green, pastor of the Calvary Baptist church, is preaching a series of sermons from the Book of Revelation at the Sabbath evening services. The second of the series will be delivered tomorrow evening, the subject being "The White Horse and Its Rider, or The Opening Era of the Christianity." The third sermon of the series will be preached on the 18th inst., when the subject will be "The Red Horse and Its Rider, or The Outbreak of Violence Against the Church." On Nov. 25 the theme will be "The Black Horse and Its Rider, or The Dark Ages." On Dec. 2 the subject will be "The Pale Horse, or Persecution Decreasing and the Church Prospering." Rev. Green's subject at tomorrow morning's services will be "Knowledge of Eternal Life."

Will Build a Slide.

The members of the Ishpeming Snow Shoe club intend building a toboggan slide from the bluff between the club house and Lake Bancroft, where the slide was located last winter, as soon as the weather will permit. The slide will be built in a more direct line than the old one and the uneven places will be filled in or cut down as the case may be. Last winter the slide was not constructed until very late in the season, but this year an early start will be made, as tobogganing affords fully as much pleasure as snow shoeing, if not more.

Getting Out Lagging.

George Voelker has seven men and two teams at work cutting and getting out lagging on his land west of the Carp river. There is considerable young timber on Mr. Voelker's place and if he can find a market for it he will employ several men during the winter. The lagging he is cutting at present has been purchased by the Lake Angeline company.

It is true you can buy baking powder for ten cents a pound. One pound of that kind will spoil one dollar's worth of flour. A pound can of Dr. Price's at fifty cents will do ten times as much work as the cheaper powder. Which is the more economical?

The Election in Ely.

In Ely township the election of Tuesday was one-sided, as in nearly all other townships of the county. There were seventy-two votes cast. Sixty-six of these were for Rich, although there were only sixteen straight Republican votes polled. There were two straight and three split Democratic ballots, and one straight Prohibition, cast.

Will Move Next Week.

Timothy Hughes expects to move into his new block the latter part of next week, when the contractors expect to have it completed. The front of the block presents a very handsome appearance since the glass was put in. Some changes were made in the original

The result of the war between China and Japan is uncertain, but you will make no mistake in preparing for a cold winter. Buy storm sash and keep your house warm and your fuel bills down. We make them at prices within your reach. THE BICE MFG. CO. Marquette, Mich.

OF GENERAL INTEREST.

A dun took its name from a celebrated bullfinch of London during the reign of Henry VII. named Joe Dun. He was extremely clever in devising ways and means to compel unwilling creditors to settle their accounts, and hence the saying, "Send Dun after him," or "Dun him."

People put their hands over their mouths when they yawn because their great-grandfathers believed that unless the sign of the cross was made before the mouth when a man yawned, the devil would fly down his throat. The mere raising of the hand was a substitute for the sign.

Among the many uses to which celluloid is now put is the making of jewelers' ring trays. A ring tray of white velvet lasts ordinarily but a single season; carefully as it may be handled it is sure to get soiled. A celluloid tray can be cleaned, and it lasts for years; there are thousands of them in use.

"One can get something of an idea of New York's trade," said a stroller, from the marks on packages standing on the sidewalks waiting shipment, or seen on trucks on the way to railroad freight stations or to wharves. He will see packages marked for California, Japan, Australia, and I don't know where not at one time and another he is likely to see things for pretty much every country on the face of the earth."

Some queer discoveries by the prince of Monaco during his deep-sea dredging in the Atlantic and Mediterranean in the present summer are made known. He found that at great depths, where it was supposed nothing could live, life is abundant. Many black ground sharks of a species supposed to be extremely rare were caught at a depth of a mile and a half. Some fishes not identified were found at a depth of more than two miles.

A new idea comes from Indiana, which is to make ice with natural gas. When gases are compressed they part with a portion of their heat, and then as they expand they take back the same amount from bodies in contact with them. These gases when deprived of heat can be made to take it from uncongenial fluids, and thus accumulate cold, which may be applied to the freezing of water. Gas in this way can produce ice at fifty cents per ton, an ordinary well having a capacity of fifty tons per day.

At a fashionable establishment for the sale of men's furnishing goods in New York it was said that perhaps one percent of all the half hose sold were unbleached; they are bought mainly by older men who have been accustomed to wearing them and don't wish to change. Scarcely any white half hose are sold, but the unbleached are pretty nearly white after a few washings. Nearly all the half hose sold for fall and winter wear are black, and this year they will almost all of them be of solid black, unrelieved by stripes or other color effects.

An effective and simple fence protects the riverside roadway along certain parts of the Housatonic in western Massachusetts. Posts are sunk as in making an ordinary fence; along the tops of these are placed whole trunks of trees, varying in length from thirty to fifty feet, the butts being from six to ten inches in diameter. In each butt a longitudinal hole is bored, into which the tip of the next tree is driven. Thus a fence is soon built, as long or as short as is needed, practically without any break, with very few joints, and as strong as necessary.

The condemning of alum as an unwholesome ingredient in baking powder by the government authorities, as well as by physicians generally, has not deterred manufacturers of such powders from forcing them on an unsuspecting public. Following is a partial list of the alum powders found in the stores:

"Calumet," "Chicago Yeast," "Kanton," "Grant's Bon Bon," "Hotel," "Taylor's One Spoon," "Glimax," "Snow Pull," "Snow Ball," "Giant," "Hills," "Crown," "Unrivaled," "Silver Star," "David's O. K.," "Forest City," "Monarch," "K. C.," "Loyal," "Manhattan," "Crystal," "Hats," "Home," "Echo," "Perfection," "Rocket," "Town Talk," "Imperial," "White Rose," etc.

It is safe to reject all brands sold with a prize. All powders sold at twenty-five cents or less a pound are sure to be made of alum. Dr. Wiley, the government chemist, in his official examination of baking powders at the World's Fair, threw out all "alum powders," classing them as unwholesome.

A certain justice of the peace having arrived, previous to a trial, at a conclusion upon a question of law highly satisfactory to himself, refused to entertain an argument by the opposing counsel. "If your honor please," the counsel replied, "I should like to cite a few authorities upon the point." Here he was sharply interrupted by the justice, who stated: "The court knows the law, and is thoroughly advised in the premises, and has given its opinion, and that settles it." "It was not," continued counsel, "with an idea of convincing your honor that you are wrong, but I should like to show you what a fool Blackstone was."—Piero.

NOTED AT NEGAUNEE. Rendition of "The District Skule" a Pronounced Success.

Dance After the Concert--Got in Some Fine Cutters for the Winter's Work.

"THE DEESTRICT SKULE." Not for some time has a more thoroughly pleased audience assembled at McDonald's Opera House than that which was present last night when "The Deestrick Skule" was produced under the direction of the ladies of the Presbyterian church.

The classes were composed of a number of Negaunee's most prominent citizens and their wives, and the "skule marster" was the genial J. C. Dougherty, who is never without a new joke to tell his friends, no matter where or when you meet him. The following novel program, which provoked no end of laughter, was rendered:

FORENOON. Song, "O Come, Come Away." Calling the roll. A, b, c and primer class. Advanced reading class. Geography class. Spelling class. Exercise song.

AFTERNOON. Exercise song. "A Tribute to Our Dear Teacher." Mrs. Honeyuckle.

Song, "Welcome." Composition, "Girly." Neil Duncan.

Composition, "Boys." Anna Maria Cruikshank. Declaration, "Casablanca." Augustus Briggs.

Essay, "B. Franklin." Susan B. Anthony. Composition, "Cows." Miranda Whitcomb.

Recitation, "Mary Had a Little Lamb." Elizabeth Bush. Pieces by the b, c class. Declaration, "Rienzi." Sam Stephenson.

Essay, "Michigan." Jane Hawker. Topical review questions. Skule marster. Speech by head committeeman. Rev. J. A. Greene.

Song, "Goodnight." "Auld Lang Syne." One hundred extra chairs were brought over from the church during the day and even these, as well as all the seats in the hall, were filled, the attendance being unusually large.

They'll Dance. A dance will take place at the conclusion of the annual concert of the English Oak band, to be given at McDonald's Hall on Thanksgiving night.

As there is no dancing club here this season it is not likely that more than two public dances will be given before Lent. These will be the German Aid society masquerade and perhaps one other—a firemen's ball.

The dance after the English Oak concert will be without extra charge. None but those who buy tickets to the concert will be admitted to the dance.

They Are Beauties. Frank Sharon, the liveryman, received a lot of new cutters from the Green Hay Carriage works yesterday.

They are the latest thing out in style and are of fine workmanship. Frank believes in being prepared to do business, even if the election Tuesday didn't go his way. He intends turning out more stylish rigs this winter than ever before.

Grocers often say "It's just as good as Dr. Price's" when they want to sell inferior baking powder. But there is no powder half so good—millions of cooks know this.

LOCAL LAOONICS. M. Kaufer of Calumet was in the city yesterday.

Clifford Barabee is down with typhoid fever. Mrs. F. E. Nightingale is expected home from the east today or tomorrow.

Charles Taylor of Sands has been at Lansing on business during the past few days.

Mrs. Ed Laughlin and Miss T. Laughlin have returned from their visit to friends in Ohio.

Harry James had a leg fractured by a fall of ground while at work at the Davis mine Tuesday.

There will be a one-mile race between Henry Williams and August Kerkola for a purse of \$10 at the rink tonight.

The English Oak lodge, sons of St. George, will elect officers for the ensuing term at the regular meeting next Monday evening.

A special meeting of Iron Castle, Knights of the Golden Eagle, will be held at 7:30 this evening. Members are requested to attend.

Richard Kitto, who went from this city to Idaho some three months ago, has returned to remain permanently, not being satisfied with that country.

Samuel Redfern, who spends the greater part of his time at Gladstone these days, looking after the interests of the Iron Cliffs company, arrived home Thursday.

J. C. Dougherty, with his sister, Mrs. M. J. Stevens of Decorah, Ia., who has been visiting here, will leave tomorrow for Elgin, Ills., on a visit to their brother.

Mr. and Mrs. Mark Elliott, with their little son, left yesterday for Chester, Pa., and Roanoke, Va., where they will visit friends for some time. It is possible that Mrs. Elliott will remain at Chester all winter.

Mrs. Peter Ramquist and children have gone to Wakefield, where Mr. Ramquist has charge of a mine for Corrihan, McKinney & Co. They expect to reside there permanently. Mr. Ramquist being an alderman from the Fifth ward, his place on the board will now be declared vacant.

The most remarkable cures of scrofula on record have been accomplished by Hood's Sarsaparilla. This medicine is unequalled for diseases of the blood. Take only Hood's.

Hood's PILLS are hand made, and perfect in proportion and appearance. 25c. 3

VIRTUES OF PLANTS.

Medical Uses of the Ladies' Slipper, Horshound and "Life Everlasting."

The plant is known in common parlance as the ladies' slipper, moccasin flower, yellow, bleeding-heart, American valerian, yellow umbel, male nerve and Noah's ark. This plant with so many names is one brought to our notice by the Indians. It has perennial roots, with long, thick, fleshy fibers, yellow in color, shape cylindrical, and running mostly parallel with the ground.

From one to five stems are sent up, but generally only one. The stems are hairy, sharp and straight, rising from one to two feet above the ground, with three to seven leaves and one to three flowers. The leaves arise one above the other on opposite sides of the stem and unfold it at their base. The leaves are oblong in shape and hairy, marked with parallel lines of a pale color below and greenish above. The flowers bloom in May and June and are of a yellow color. The plant seldom grows from seed and when transplanted it should be taken up so as to leave a great deal of earth about the roots. Select a moderately shady situation and a rich light soil. This plant is one of the most beautiful orchids and richly repays cultivation.

For medical purposes the root is collected in the fall for early spring, dried at once, and reduced to powder. It is a popular remedy for excessive nervous sensibility unaccompanied by organic lesion. It is soothing in its nature and is frequently called the American valerian. It is also anti-spasmodic, tonic, stimulant and diaphoretic, possessing the same common properties as valerian. It is of special value in morbid sensibility of the eye, in neuralgia, hysteria, nervous headache and insomnia. The dose is a smooth teaspoonful of the powder mixed with sweetened water or sirap. It allays pain, quiets the nerves, disposes to sleep without the injurious effects of opium. The root may be usefully combined in these affections with calamus. Sleep has been induced in delirium tremens by giving a teaspoonful of the powder in a cupful of sweetened honest tea. It is reported to have cured epilepsy. The pharmacists keep a fluid extract of cypripedium, dose from ten drops to half a teaspoonful; also a preparation called cypripedium, which is an impure alcoholic extract, dose from one-half to three grains.

Horshound, the white horshound, or marrubium vulgare, is found growing in waste places in the United States and Europe. It is from one to one and a half feet high, has a perennial root sending up yearly a number of four-sided, straight downy stems, bushy, with roundish, ovate, crenate, wrinkled leaves over an inch in diameter. The flowers are white and grow in crowded whorls or rings in the angle formed by the leafstalk and the stem. The flowers are in bloom in July and August. The whole plant has a whitish appearance from the down with which its leaves are covered. It has an aromatic but not agreeable smell. It is tonic, stimulant, and laxative, and is much used in coughs, being a popular remedy and a safe and efficacious one. The stem, leaves and flowers are all used and should be gathered when in bloom. Horshound strengthens the system generally and causes perspiration. It is administered in the form of an infusion or made into a syrup with sugar. The infusion is made by putting an ounce of herb into a pint of boiling water, of which a wineglassful is a dose. The powder may be used in doses of from twenty to forty grains. It is useful in the latter stages of liver complaint and jaundice. Use a wineglassful three or four times a day. It is principally employed in lung troubles, with much expectation, using a tablespoonful every two or three hours.

A syrup is made by taking an ounce of horshound and an ounce of liquorice root; putting these into a pint of hot water and boiling down to three-fourths of a pint; strain and replace on the fire, adding enough white sugar to make a sirup. Dose, a tablespoonful every two hours. The horshound and confections advertised have seldom more of the herb in them, but consist mostly of sugar or molasses with the addition of tartar emetic, thus making a powerful but unsafe remedy, especially for children.

Out of "Life everlasting" the negro Caesar made his celebrated remedy for curing the bites of rattlesnakes. It is also commonly known as pearly everlasting, cutweed, silverleaf and non-soparretta. Botanists call it antenaria margaritacea and also gnaphalium margaritaceum. The term everlasting flowers is given because the flowers suffer little change of appearance in drying, and may be kept for years without much diminution of beauty. They are surrounded with an involucere. From the appearance of its heads of flowers it obtains the name cat's-foot. It has a perennial root sending up a branching stem. The leaves are spear-shaped, narrowing to a sharp point. The flowers grow on stalks varying in length so as to form a flat top, and bloom in August and September. They have yellow disks and white pearly rays. The plant grows from one to two feet in height, and is a favorite garden growth. Stem, leaves and flowers are medicinal, and are gathered when the flowers bloom. This plant has successfully been used as a substitute for tobacco in smoking, and like tobacco it is sedative and quieting. All ordinary chest pains, coughs and colds are treated by it. An ounce of the herb is put in a pint of boiling water and a teaspoonful to a tablespoonful taken as required. In powder, from five grains upward are used. It is serviceable in bruises, strains, boils, etc. Applied externally as a wash as hot as possible. Sheep doctors use it externally and internally. Different varieties of this plant have commonly been called rattlesnake plantain, squirrel ear, poor robin, and white plantain, the doses and properties of which are the same. The negro Caesar combined this and horshound for his rattlesnake cure. It has been universally used for snake bites, and the Indians have great faith in it, allowing themselves for a trifle to be bitten and then cure themselves by eating life everlasting.—Chicago Tribune.

PABST MILWAUKEE BEER WINS.

A VICTORY OVER THE ENTIRE WORLD, consisting of an award on ten separate products. A victory complete and a lute UNPARALLELED IN THE HISTORY OF EXPOSITIONS.

A BISHOP'S BAD NIGHT. Popped into a "Spare Bed" in which Silver Was Stored.

An eminent bishop who was quartered in the house of the wealthiest resident in a certain village, while his host's wife was away, occupied the "spare bed." He is a thin man, and when his host inquired in the morning how he had slept and hoped he had passed an agreeable night, he answered, with some vehemence: "No, I did not; I passed a very disagreeable night, indeed."

The bishop departed, and when the wife of his host returned she naturally inquired who had been in the house in his absence.

"Bishop P—," said the husband. "Bishop P—! Where did you put him to sleep?"

"In the spare bed, of course." "In the spare bed," shrieked the horrified matron. "Why, I put all the silver under the mattress before I went away!"

Almost like electricity, Dr. Price's Baking Powder because it works so quick. No other works so fast.

Not Satisfactory. "I understand," said the detective, "that you had a clew to the whereabouts of Crookles, the famous criminal."

"Yes," replied the brother officer. "A slight one."

"What was it?" "A man came to me and said he was Crookles and wanted to give himself up because he was tired of eluding justice."

"What did you do?" "Nothing. He couldn't prove his identity."—Washington Star.

The scientists have declared that the average workman requires daily in his food not less than four ounces of proteins, two ounces of fat and eighteen ounces of the carbo-hydrates.

Opelella, Ala., has a name borrowed from the Seminole language, and meaning large swamp.

CHANGE IS PROBABLE.

Another Company May Replace the American on the South Shore.

BUSINESS MEN FEAR INCREASE IN RATES

Sale for Comic Opera Opens Tuesday. Jury Asks That Charges Against Baldwin Be Dismissed.

MERCHANTS ARE DISTURBED.

Business men of this city and others along the line of the South Shore road have been considerably disturbed for the last few days by rumors that the American Express company would, at the expiration of its present contract with the South Shore company, be displaced on that line by a new express corporation.

This peninsula is reached by four railroads, two from lower Michigan and two from Chicago. With two of these, the Michigan Central and the Chicago & Northwestern, the American Express company has contracts with some years to run.

The new company which it is reported will succeed the American along the South Shore road is called the Western Express company and has been recently incorporated in Wisconsin with a capital of \$100,000.

On the other hand it is only fair to say that the new company promises to afford all the facilities and at as low rates as now prevail.

Dr. Price's Baking Powder is the housewife's best reliance.

The Calhoun Engagement. The sale of tickets for the two appearances, matinee and evening, Nov. 17, of the Calhoun company will begin at 10 o'clock next Tuesday morning at the opera house box office.

The Calhoun company Oct. 17 opened the New Grand Opera House of Davenport, Ia., with "Amorita" and the performance is thus spoken of by The Tribune of that city:

The New Grand Opera House opened its regular season last night with the Calhoun Opera company's attraction and Calhoun's beautiful "Amorita" as the opera. The company has been heralded as an evenly balanced and admirably equipped organization and last night's performance more than justified these reports.

the organization, appeared in the title role and easily proved herself the possessor of a most sympathetic soprano, which she uses with the ability born only of good schooling.

Mr. George Lyding, as Fra Bombardo, proved himself not only one of the very best tenors ever heard in Davenport, but he is beyond a doubt the best acting vocalist before the American public today.

The contralto, Miss Adela Farrington, appeared in the role of Angiola, which she played and acted with much vivacity, proving herself equal if not the superior to any of her predecessors in the same character.

The chorus of the company was a most agreeable surprise. Its members are young and comely and have undoubtedly been selected for their pleasing appearance as well as their voices.

Worth's living pictures, an innovation to Davenport, were presented between the first and second act and proved to be one of the features of the evening. They have been selected with the same care and taste which characterized the entire presentation.

Editor Baldwin Acquitted.

The case against Editor Baldwin of The Alger County Republican, charged with assault to do great bodily harm in firing a shot gun into a crowd of hoodlums who raised a disturbance in front of his house on the night of his return from his wedding trip, ended yesterday in the practical acquittal of the defendant.

Wants to Play Football.

The Portage Lake Football team, as will be observed from the appended challenge, flings a bold defiance to the pig-skin chasers of the upper peninsula in general and of Marquette county in particular.

To THE MINING JOURNAL:—The Portage Lake Football team (successor to the Y. M. C. A. team of Hancock, Mich.) hereby challenges any team, with an average weight of 150 pounds or over, in the upper peninsula, and particularly in Marquette county, to a game of Rugby football on Thanksgiving Day, Nov. 29, 1894.

WALTER B. JAHNEN, Manager.

Hancock, Mich., Nov. 8.

It is quite possible that the Rifles Football team of this city will accept the challenge of the doughty athletes of Portage Lake. The Rifles team is getting well organized through the players for all positions are not finally selected, and the weight of its players will average the 150 pounds set by the challengers.

Be sure and name your brand. Don't ask for baking powder simply, ask for Dr. Price's, or write your order.

Are Undoubtedly Lost.

Little doubt remains as to the fate of Edward and Peter Alee. Yesterday morning Captain Cleary and the life saving crew went out on another search and about 10 o'clock found the missing sloop high and dry on the rocks of the mainland almost in front of M. E. Asire's cottage.

RHEUMATISM CURED IN A DAY.—"Mystic Cure" for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The dose greatly benefits, 75 cts. Sold by H. H. Stafford & Co., Druggist, Marquette.

LESSONS IN DANCING.

Hughes gives private lessons, single or by the term, teaching all standard and fancy dances, including the Waltz and popular Two-Step. Call at 412 High street or address Box 153, Marquette, Mich. (11-3-14)

Patronize home industry and enterprise and buy your storm sash from The Bice Manufacturing company, Marquette, and thus save five times their cost. In fuel. Saving nothing about the comfort they afford and the sickness they save from the cold and chilly winds during our long winter months.

WE DENY IT.

While it isn't true that we are selling Confectionery for less than cost, we are coming very close to the other side of the cost mark in our prices. We want to get rich, of course, but we're satisfied to do it slowly. Small profits satisfy us if they are numerous enough.
