WAS NO DISAGREEMENT.

President and Secretary Carlisle Had No Misunderstanding Regarding Bond Issue. SECRETARY WILL NOT RESIGN TREASURY PORTFOLIO. Certain Journalists Are Entirely Too Anxious to Fry Into State Secrets and Often Make Mistakes.

REPORT ENTIRELY UNFOUNDED.

WASHINGTON, Nov. 14.—The attention of the president was called today to the statement contained in certain papers to the effect that there had been a disagreement between him and Carlisle in regard to the issue of bonds and other matters and intimating that such disagreement might result in the secretary's retirement from the cabinet. The president emphatically denied the entire "batch of silly statements" and said: "Never since our association together has there been the slightest unpleasantness or difference concerning the affairs of the treasury department or any other matter. I have every reason to believe his attachment to me is as sincere and great as mine is for him. I should be much afflicted if anything should cause him to entertain the thought of giving up his position where he is doing so much for his country. We agreed exactly as to the issue of bonds and there has been no backwardness on his part on the subject. I see it is said I am formulating a financial scheme. If such a scheme is presented it will be the work of the secretary of the treasury and I shall advise and support it. The trouble seems to be that those charged with the executive duties of the government do not appear willing at all times to take the counsel of the newspapers and make public all they intend to do."

AN EXPLODED SENSATION.

There is nothing sensational in the statement that Assistant Secretary Hamlin has been designated by the president to act for the coming six months as secretary of the treasury during the absence of Secretary Carlisle from the department. The designation of Hamlin to act as secretary is in continuation of the custom which has prevailed in the treasury department ever since Carlisle became secretary. Each of his three assistants serves in that capacity for half a year in rotation and as acting secretary they sign all the papers of a routine character, thus relieving the secretary from this onerous duty. The secretary does not contemplate leaving Washington but much of his time for the next two weeks will be devoted to the preparation of his annual report.

MAIL SERVICE FIGURES.

The report of Assistant Postmaster General Neilson has been made public. It deals with that branch of the postal service which looks after mail transportation. For the star service it is shown there are 19,375 routes with an aggregate length of 251,586 miles and total number of miles traveled 113,570,335 at an expense of \$5,846,856; the estimate for next year is \$5,875,000. In consideration of the feasibility of utilizing electric and other rapid motor street car lines for the transportation of mails in important cities between the main postoffices and the branch offices and to and from railway stations, the office hopes to accomplish some substantial results in the direction indicated within the next year. The cost of railway mail cars is \$3,213,356 and the estimate for next year is \$3,205,000. Railway postal clerks cost \$6,378,194 and the estimate for next year is \$7,433,000. The total number of pieces of mail handled was 10,534,234,256, in which but 1,381,094 errors were made. The foreign mail cost \$1,329,362 and the estimate for next year is \$1,919,400.

PEOPLE WITHOUT PROTECTION.

The Indian office has received a telegram from Agent Wisdom at Muskogee, T., giving a brief account of the train hold-up by the Cook gang. He calls attention to the former requests that troops be sent to the territory and states that the people are unable to protect either their lives or property. It having been decided that troops cannot legally be sent into the territory the matter must remain with the department of justice.

LIST OF EXPORTS.

A statement prepared at the bureau of statistics, treasury department, shows that the exports during the month of October were as follows: Mineral oils, \$3,765,991; cotton, \$30,754,506; breadstuffs, \$9,849,596; provisions, \$12,636,274.

ARE BECOMING DANGEROUS.

Forest Fires in the South Cause Several Fatalities. MEMPHIS, Nov. 14.—Forest fires caused the burning of three negro shanties near Millington and probably the fatal burning of a negro named Fannie Woods. Another casualty from the fire occurred on Mrs. W. P. York's plantation. A negro baby was playing near the fire when her dress became ignited and before any one could reach her was burned so badly she died a few hours later. It is reported that a few bodies, thought to be those of a hunting party, were found in the St. Francis bottoms in Arkansas opposite Memphis. Fires have broken out in Nonconch bottoms just south of Memphis.

LABOR LEADERS IN SESSION.

Cases of Suspended Local Assemblies Has Been Decided. NEW ORLEANS, La., Nov. 14.—The afternoon session of the Knights of Labor was occupied with questions affecting the coal miners which was finally referred to the committee on grievances. The press committee stated that action had been taken on the local assemblies which had been temporarily suspended on account of questions of law but the committee cannot state what the result of the deliberations was. The work of appointing committees consumed the greater part of the session. Powderly is expected to arrive for tomorrow's session. It is expected the election of officers will take place tomorrow. Sovereign, it is claimed, will be his own successor. The movement to consolidate all labor organizations into one powerful and united body with a new constitution will be acted upon in a few days. A resolution will be offered concerning the scheme and when it comes up action will be taken to determine whether or not the Knights of Labor favors such a movement. It will most likely pass unanimously as all who have been spoken to on the subject favor the scheme. Then attention will be called to the proposition by submitting it to other labor organizations. They will be asked to appoint delegates to a general conference when the transformation will take place and the new organization launched.

STORM SWEEPS ENGLAND.

Doing a Great Deal of Damage Along the Coast. LONDON, Nov. 14.—A tremendous gale is raging along the southeastern coast of England. The sea is running high and it is feared much damage will be done to shipping. During the storm today a pilot cutter was run down by a steamer and eight of the cutter's crew drowned. An unknown two-masted vessel off Guernsey this morning suddenly disappeared and it is supposed she has foundered taking all the crew down with her. Further reports from the south and east of England report an enormous loss of property. A number of villages are inundated. The inhabitants all living in these parts have remained in boats to places of safety. The wrecking of seven vessels is reported from along the east and south coasts. A Norwegian ship was driven ashore near Dover. The captain and several of the crew were drowned. The rivers Avon and Sever have overflowed, doing great damage.

BONDS WANTED IN LONDON.

Bond Issue Could Be Easily Disposed of in England. LONDON, Nov. 14.—The United States \$50,000,000 loan is hunted after everywhere here by financiers who are desirous of taking a portion. The stock market would be only too pleased to take any amount of it. WASHINGTON, Nov. 14.—The chief of the loans and currency division of the treasury department today sent out a large number of blank forms for the use of persons desiring to make bids for the new 5 per cent. bonds. The new bonds will be identical to those issued February last inclusive of the date but will contain three less coupons as the interest on them begins Nov. 1 instead of Feb. 1 as in the case of the others. Consequently the same plates can be used for printing the new bonds and there will be no delay whatever on that score. Inasmuch as the offers will not be finally considered until Nov. 24, it is likely the principal bids will be submitted much before that date, as holders will want to take advantage of the latest information as to the state of the money market before finally deciding upon the terms of their bids.

IRISH PARTY CONFIDENT.

May Hold Balance of Power in Next Parliament. DUBLIN, Nov. 14.—At a meeting of the Central branch of the National Federation this afternoon Justin McCarthy said the delegates met under the most encouraging auspices. They set before the country a clear and definite program and only wanted the assistance of the people to carry it out. It is not true that the Irish parliamentary party had ever pledged itself to any English government. They are as free as ever to declare their own terms and break from any government refusing to recognize the full claims of the Irish people, whoever went out or came into office. The success of the Irish party he claims to be certain in the near future and if the long struggle is continued the Irish party would soon hold the balance of power. He did not believe the present parliament would last beyond the next session. They would put in the present government again if, in meantime, it did what the Irish wanted. Although it is scarcely possible the Tory government would be returned yet, if that occurred, the Irish members would reduce it to failure if it did not listen to the Irish demands.

WILL VOTE WITH REPUBLICANS

North Carolina Will Aid Republicans in Organizing Senate. RALEIGH, N. C., Nov. 14.—Marion Butler, president of the National Farmers alliance, who is slated to succeed Senator Ransom in the United States senate after March next, is reported as having said he would vote with the Republicans in the organization of the next senate. If this is so the Republicans can count on both of North Carolina's votes in organizing the senate, the other to be elected in January by the legislature to succeed Jarvis, will be a Republican. Dr. J. J. Mottz, ex-chairman of the Republican state committee, seems to be in the lead just now for that position.

VERY SHORT SESSION.

National Base Ball League Holds Its Annual Meeting. NEW YORK, Nov. 14.—The Twentieth annual convention of the National Base Ball league met at the Fifth Avenue hotel today. The meeting was of very short duration and, having received President Young's report for the past season and awarded the pennant to Baltimore subject to the approval of the league, concluded its business.

JAPAN HAS NOT DECIDED.

Offer of United States to Mediate Between China and Japan Not Accepted. WANTS CHINA TO STATE HER TERMS OF PEACE. European Powers May Object to Having United States Act as Mediator Between Belligerent Countries. EACH NATION WANTS A SLICE. WASHINGTON, Nov. 14.—It is stated here in official circles that Japan has not yet accepted the invitation of the United States to submit the question of peace with China to our mediation. While this statement is probably literally correct there is reason to believe that Japan has requested as a preliminary to action upon our invitation, that she be informed explicitly just what terms China has to propose as a basis of the treaty of peace. Up to this moment China has not submitted any definite proposals so the delay seems rather on her part than with Japan. Chinese tenders so far have been on a basis that could not be accepted with safety and consistency by Japan. But disregarding the points of difference it is becoming more evident that the interference of European powers is a stumbling block in the way of a settlement of the war through the mediation of the United States. They nearly all have interests in the east which they regard as paramount to our own and by no means relish the action of the United States, first in refusing to cooperate with them in intervening, and second in seeking to settle the war without reference to the interests of any nation other than China and Japan, which might result in checking the fruition of some little schemes for their own aggrandizement which have been formed. It is probable that any representation by the powers to the United States to have their claims included in the terms of peace would fall upon deaf ears, although it may be that the combined influence of these powers may defeat our purpose to act as mediator.

CHINA BOWS TO ENGLAND.

TIENTSIN, Nov. 14.—As cabled to the Associated Press some days ago, Great Britain sent an ultimatum to the Chinese government demanding within seven days that Tientsin Shong be dismissed and degraded; that the British steamer Chung King be saluted by the Taku forts and that a money indemnity be paid the owners of the Chung King for the outrage committed by Chinese soldiers on board the Chung King last August, in default of which Great Britain threatened that the British fleet under Admiral Freeman would make reprisals. This threat had the intended effect and this morning all the conditions demanded were complied with by China.

MADE IMPORTANT CAPTURE.

WASHINGTON, Nov. 14.—Japanese Minister Kurino received the following cable dispatch from Tokio: "Our army occupied Talianwan on the afternoon of the 8th inst. Having destroyed the Chinese torpedoes our fleet, transports and torpedo boats are safely anchored in the bay. The torpedo station with its signaling equipments, charts of submarine torpedoes, eighty cannon, telephone lines and telegraphs have been captured."

MISTAKEN FOR THE ENEMY.

LONDON, Nov. 14.—A Tien Tsin dispatch to The Times says thousands of refugees who were fleeing from Kinchow were mistaken for the enemy by Chinese troops and fired upon. Hundreds of them were killed.

NATIONAL GRANGERS MEET.

Will Erect a Temple to Ceres at Washington. SPRINGFIELD, Ill., Nov. 14.—The annual session of the National Grange and Patrons of Husbandry convened here this morning. Twenty-seven states were represented with 375 delegates. The report of the secretary shows the organization has 20,000 lodges and an aggregate membership of 1,000,000. Ninety-four lodges with 5,000 members were admitted during the year. Fifty-five lapsed granges were also readmitted. The treasurer reported a permanent fund of \$60,000; received during the year, \$20,763; paid out \$14,435 up to October 1, 1894; on hand now \$16,000. The report of Mrs. M. H. Rhoads of Pennsylvania was read regarding the erection of a temple to Ceres at Washington, D. C., costing \$50,000, the National Grange to give \$20,000. A five cent levy on each member was asked for which, with a \$1 initiation fee, would give the funds \$10,000 annually.

SMALL-POX IN NEW YORK.

Eight New Cases Were Reported in Twenty-Four Hours. NEW YORK, Nov. 14.—Eight new cases of small-pox were discovered today within the infected belt on the west side. This makes nearly fifty cases taken within a week, principally from that locality. The health officials say they have the disease in check. SPRINGFIELD, Ill., Nov. 14.—The state board of health has been notified of the existence of small-pox at Sandwich. There have been four cases and one death.

Lying in State.

ST. PETERSBURG, Nov. 14.—Throughout the whole day there was an unceasing flow through the cathedral for the purpose of taking a last look at the face of the late czar. Every one showed deep emotion. The papers here state that, including the 600,000 roubles that, including the 600,000 roubles divided among the doctors, Czar Alexander's illness and journey to Livadia, cost 10,000,000 roubles.

SOME of the party organs have already begun the campaign of 1896. Are we never to have any surcease of politics in this afflicted country?

IT was hardly worth while for the Democrats to name their candidates for the two United States senatorships in advance since they are going to be able to give them but one vote in the legislature. But, then, they could hardly have foreseen that the election was going to turn out that way, poor things!

SEVEN of the defeated Democratic candidates for office in Bay county have filed petitions for a re-count, in the hope that enough defective ballots may be found to have been counted against them to let them in. It is a slim hope that animates them, but a defeated office-seeker will grasp at any kind of a chance to save himself.

THINGS have changed a good deal since Cleveland was president before. Then he was obliged to buy government bonds at a premium to relieve the treasury of its "surplus." Now he is selling bonds to maintain the gold reserve. There has been bad management somewhere or we would not find it necessary to increase our public indebtedness in a time of peace.

DANA, of the New York Sun, wants the Democrats of the present congress to use the time they have left them for legislative work in carrying out the pledges of the Chicago platform. If they would carry out the platform and make a burnt offering of it in some retired place they would show more wisdom than the party did in adopting it. That platform and the effort to live up to it was what did the business for the Democratic party.

IN Union county, Iowa, a man who was nominated for office on the Republican ticket died after the ballots were printed, a few days prior to the election. No other name was substituted, the Republicans evidently believing that even a dead Republican could beat a live Democrat this year, and their confidence was justified by the result, for the defunct candidate got a majority of the votes, defeating the Democrat by a "stiff" majority. It was a great election day for Republicans.

IT is conceded that Tom Reed will be speaker of the next house. It will need a capable man in that position to handle the big majority the Republicans will have in that body, but Reed has got the capacity and the nerve to do it. It isn't likely that the Democrats will make him as much trouble next time he wields the gavel as they did when he was speaker before. In the first place there will not be as many of them, and in the next the handful of them elected to seats in the LIVth congress will not be disposed to do much kicking. They will be inclined to feel grateful that they are allowed to exist, rather.

BREATHING SPELL FOR BUSINESS. The trade papers are of one mind regarding the prospect for business—now that the elections are over and the tariff tinkering at an end for a definite interval. They ought to be good judges of the conditions which affect trade and industry, for they are not so much biased by partisan prejudices as the political organs, and are as a rule better informed on business matters than the latter. One of their number, the Chicago Journal of Commerce, discusses the business outlook very sensibly in the following article, which THE MINING JOURNAL deems worthy of reproduction because of its conservative, yet hopeful, tone:

Without stopping to discuss the arguments in favor of high tariff and low tariff, one thing may be taken as conclusively proven: the people of this country have had a sufficiency of tariff reduction to last them some time. Whatever caused the panic and hard times of the past eighteen months, tariff legislation has the credit, and it will be a long time before the idea is dispelled. The sweeping victory of the advocates of protection will do much, everything in fact, to restore the confidence of manufacturers and capital generally and bring about a speedy revival of trade. It took but a seemingly small matter to stagnate business and close down manufacturing plants, and the results of the recent election are ample to remove the withering blight and set the machinery of the country again in motion. That this view of the situation is the one generally taken, may be learned by conversing with almost any intelligent member of the defeated party. While winning a little under defeat, they will concede that the result will prove beneficial to their pockets, and that commercial prosperity is to be preferred to the hollow rewards of a political victory. Business men need now have no fear of engaging in business, real business, once more. The present congress has a few months to live, but it has learned a lesson, incredible as the statement may seem, and will tinker with the tariff no more. Like the bear that engaged in a conflict with the circular saw, it knows when it has had enough. It will not be until the assembling of the congress to be elected two years from now, which will not meet regularly for over three years, that any partisan

legislation can be looked for. This gives us a long breathing spell, and quite incidentally, from the standpoint of politicians, a chance to do business and make some money.

Three years will try the present tariff schedules and show where they are defective, thus permitting their amendment or repeal in a calm, dispassionate and business manner. It is to be hoped—and there is good reason that the hope will be realized—that the tariff question will now be taken out of the domain of party politics and placed on a business basis. In the moment of its decisive victory it would be well for the party of protection to return to its old-time principles and advocate a protective tariff that exactly protects. If this is done no party opposing its principles can ever gain control of our government. As protection becomes less or less a necessity, tariff rates would decline and low tariff, free trade in many things, would be attained without injuring a single American workman or manufacturer.

Such a policy would practically destroy the thunder, such as it is, of the free trade party, and place the questions of revenue and protection where they will become intellectual and business propositions. Let us hope that something of this kind will result and that American manufacturers and American workmen will be protected in their rights by a well-settled policy of the people of the nation, rather than of a political party.

SAM IS A CANDIDATE. The Detroit Journal has it straight that Sam Stephenson is a candidate for the short term senatorship, and that Senator Joe Fleishem of Menominee will be in Detroit this week to start a boom for him right at the state metropolis. This information was given out, The Journal alleges, by a Menominee gentleman who was in Detroit recently, so it is probably reliable.

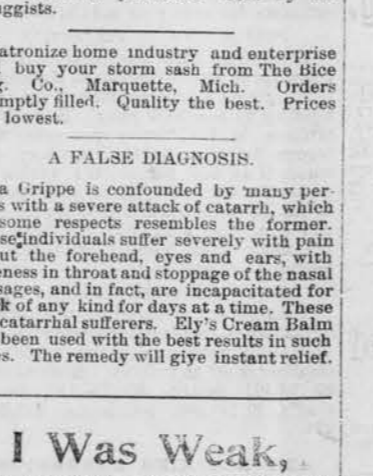

During the late campaign it was denied by Mr. Stephenson's supporters that he was in the field for the junior senatorship. It was supposed that the loyal support given him by the Republicans of Houghton county, who ardently desire that Mr. Hubbell shall have the united support of the upper peninsula delegation for the place, would incline him to abstain from antagonizing the copper district's favorite for the senatorship. But it would appear from what the Detroit paper says that it has not had that effect. Indeed that paper asserts that Sam would "take more pleasure in downing Hubbell than in living ten more years on earth than nature had originally fixed as his apportionment." If this is his feeling he will no doubt succeed in destroying Hubbell's chances, even though he fails to secure the prize himself.

THE MINING JOURNAL would like to see Mr. Hubbell have the solid support of the delegation from this district for Senator Patton's seat, knowing that he would make a valuable member of the senate for the interests of the state and this peninsula, but in view of the vote the people of the district gave Stephenson in the election just held it would be absurd in a newspaper to undertake setting a limit to his ambition. If he goes into the contest for for the senatorship and conducts it in the same manner he did his congressional campaign he is liable to come out a winner, for mighty is the power of the "barrel" with our latter-day legislatures.

A FALSE DIAGNOSIS. La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

I Was Weak, Tired and nervous, my food did not digest easily. In fact I was in poor health generally. I had to sleep propped up in bed to breathe easily at night. I had the grip and afterwards a severe cough. I found relief in Hood's Sarsaparilla. I have taken seven bottles and can eat what I please, sleep soundly and feel rested unless I over-work. I feel as young as I did at 16 when I use judgment in my daily exercise. I cannot begin to express my thanks sufficient for such a great soothing, health restoring medicine.

RUMOR OF BURNING VESSEL ON KEWEEANAW BAY.

Said to Have Been Seen Heading for Shore but No Trace Has Been Found.

[All communications intended for this department should be addressed to Horace J. Stevens, Houghton, Mich.]

HOUGHTON. The official canvass of the Houghton county vote made on Tuesday shows the following pluralities: Governor, Rich, 2,376; secretary of state, Gardner, 2,277; congressman, S. M. Stephenson, 2,288; Sheriff W. A. Dunn, 2,105; county treasurer, J. W. Frimodig, 2,119; county clerk, R. H. Shields, 2,504; coroners, McDonald and Isler, 2,241; surveyor, W. W. Stockley, 2,245.

The No Name club will give a social at the residence of Mrs. Chas. Kehl on Wednesday evening, Nov. 21st.

The tug Valerie, which had such a narrow escape on its return from Ontonagon with a load of passengers last August, is now in the water again and her engines and boilers are in the hull once more but some steam fitting remains to be done.

Columbia lodge No. 144, Knights of Pythias, will hold a meeting in its Castle hall this evening at which there will be work in the second degree or rank of esquire.

Houghton county will be fortunate in having a strong representation at Lansing during the coming session of the legislature. Mr. Sheldon has served our term as a member of the lower house which will be greatly to the advantage of himself and his constituents at the next session.

LAKE LINDEN. A rumor that a vessel was burning on Keweenaw bay was spread Tuesday afternoon. It is supposed that a burning brush heap somewhere started the story.

The Lake Linden Times is the only paper published in the copper country which had the pleasure of telling its readers, "We told you so," when the sale of the Peninsula to the Franklin was confirmed by the recording of the deed.

The electricians have been putting in their best tricks and it is now hoped to have the electric lights turned on in the Congregational church for tomorrow night's lecture.

The Social club will give a dance at the opera house next Tuesday evening. Hult's orchestra having been engaged to furnish the music.

Ivy Lodge, Daughters of Rebekah, will serve supper at the school hall to be followed by a musical program Saturday evening.

The new Masonic lantern was formally turned over to the local lodge of Masons and dedicated at the meeting of the lodge held Tuesday evening.

The Salvation Army will hold a jubilee meeting at the opera house tomorrow evening at which the male quartette and the Red Jacket Salvation Army band will assist in making music.

Those who have put down their names for tickets for "The Black Hussar," to be presented at the Army, Houghton, on Monday evening next can secure their seats today at Wiesnauer's news stand.

John Hosking and William Glanville have bought J. S. Slonaker's Grover meat market, and have taken possession under the firm name of Hosking & Co.

CALUMET.

General William Booth, commander of the Salvation Army, is in this country and will review the forces in the northwest at Minneapolis from Nov. 26 to the 29th.

EDITOR THE MINING JOURNAL: In last week's Police News of Boston Ed Shepard says that he got the worst of the fight here three weeks ago from the referee and all other people, and says it was impossible for him to win, he quit.

P. S.—The only reason Shepard quit was because he couldn't fight any longer and he knew I would fight till I was put out and knowing how strong I was in the last part of the fourth round he gave up and for an excuse puts in this unfair plea.

How Mexicans Cheat Indians.

There are many stories illustrating the ease with which the Indians are duped by the Mexicans. I know, for instance, that a Mexican once bought from an Indian a sheep on credit and killing it paid for it with the head, hide and entrails and the Indian was perfectly satisfied.

Five battalions of the Tyrol rifle-regiment, the Kaiserjäger, lately performed a wonderful march from the Pusterthal to the valley of the lower Inn.

A STRANGE IMBROGLIO.

Premier Estrup's Contempt for the Will of the Danish People.

The Close of a Long and Most Curious Political Struggle—Characteristics of the Bismarck of Denmark.

The late resignation of Jacob Estrup, prime minister of Denmark, brings to a close one of the longest and most curious political struggles of the present century, says the San Francisco Call. To understand it it is necessary to go back nearly thirty years.

The dispute ended in a compromise by which the king yielded everything except the right to choose his minister. But in 1881 the quarrel broke out afresh with increased virulence.

The agitation gained strength until, in 1885, the folkething absolutely refused to vote the budget, and left the obnoxious Estrup ministry without means to carry on the government.

The protracted existence of this curious anomaly has been due to various causes. In the first place there is no one in Denmark who can compare in energy and persistency with Jacob Estrup.

MURDERED BY HIS CLERK.

Judge of Chancery Court Shot and Instantly Killed by the Court Clerk.

TROUBLE CAUSED BY FAILURE TO PAY A LOAN.

After the Murder the Clerk Shot Himself Twice With a Pistol but Still Survives.

COLLECTING WITH A SHOT GUN.

NASHVILLE, Nov. 14.—Of the many tragedies Louisville has experienced the most appalling occurred today.

Only one man, Joseph H. Acklen, saw the tragedy. The chancellor had just adjourned court and left the room, entered the hall and was about to descend the steps.

Whitworth was perfectly cool and collected during the shooting and also after affair and expressed no regrets but desired to know if he had killed his man.

NASHVILLE, Tenn., Nov. 14.—George K. Whitworth, clerk and master of the chancery court, who killed Andrew Allison, chancellor of the court, this morning and then shot himself, is still alive but death is expected before morning.

Stamp Printer Released for Lack of Evidence Against Him.

FAILED TO MAKE A CASE.

ST. LOUIS, Nov. 14.—In the United States court today Judge Priest on the failure of the government to prove its case directed a verdict of acquittal in the case of Charles H. Mekeel, charged with having Columbian postage stamps cancelled contrary to law.

A QUEEN'S PERQUISITES.

Whales Captured on the British Coast Be Long to Victoria.

Among the most curious of her majesty's perquisites is her right to every whale or sturgeon captured on the coast of the United Kingdom.

Another of the queen's perquisites is a certain number of magnificent cashmere shawls, which are dispatched to her every year from the kingdom of Cashmere.

Another class of royal purveyors is called upon to present annually to her a tablecloth, while from other sources again she is entitled to an annual contribution of such varied items as white dresses, white hats, currysoms, fire-tongs, scented hosiery, nightcaps, knives, lances and crossbows.

AN ERROR OF JUDGMENT. Should Have Shot the Dogs Instead of the Deer They Were Pursuing.

SO A NEGAUNEE JUSTICE TAXED HIM \$25. The Finnish Seminary at Superior Will Not Be Built Till Spring—Herman Sons Lodge for Negaunee.

FINED FOR KILLING DEER. Con Scannell, who has been working in the woods at the east branch of the Escanaba river for Edwin Freeman the past couple of weeks, came to town Tuesday and went before Justice Veran and entered a complaint against John Mahoney, Freeman's foreman, charging him with killing deer out of season.

It appears that Scannell became dissatisfied with the treatment he had received at the hands of Mahoney and took this means of getting even with him. Mr. Freeman and his men testified that Scannell has been laid up with rheumatism more or less of the time since he has been in the woods and was unable to work steadily. During the past week that he was there he had not worked a day, and owing to his not having put in full time the foreman decided to pay him off at the rate of \$20 a month, including board. This was not satisfactory to Scannell, who wanted \$25 a month, so he threw up his job and left.

Mahoney at first pleaded not guilty to the charge but when he saw that the case would not come to a close until the following day unless a settlement were made he pleaded guilty. He said that he had killed a deer a few days ago; that the animal had been run down by some dogs from Sands and that if he had not killed it the dogs would. On admitting that he could have killed the dogs instead of the deer Justice Veran said he should have shot the dogs and let the deer go. The fine imposed, including the costs of court, amounted to \$25, which Mahoney paid.

IN THE KITCHEN. Some Useful Hints for the Young House-keeper. Very few housekeepers, particularly if they are young and inexperienced, really govern their kitchens. In the dining room and drawing room they are paramount, and the evidences of their dainty care are plainly visible in minutest details; but at the threshold of the kitchen they pause, and the invincible dread of interfering with the cook conquers them, and as long as the meals are served to their satisfaction they are content to let well enough alone.

While the range is heating, the kitchen should be lightly dusted, after which breakfast should be prepared. Breakfast over, all the utensils and dishes used in cooking should be washed and left on the range to dry. Then the range should be brushed and the greasy places rubbed with stove polish; mats should be shaken and the floor swept, and the kitchen dusted thoroughly. Then the sink should be washed with soda and a stiff brush (this should be done after each meal), allowing no refuse to go down the waste pipe. Afterward come the dish cloths, which should be washed out in hot soap suds daily, and boiled twice a week. This is most important for sanitary reasons. Soiled dishes should be allowed to stand; they should be scraped and washed as soon as possible after each meal, and set in order before proceeding to other work.

When the last meal of the day is over, the kitchen should be put in order, the utensils washed, all food sorted and put away in ice box and closet, the tables scoured, the ashes taken away from the range, and the hearth brushed up. A great deal of labor can be saved and leisure gained by doing everything at the right time, and also by knowing how to do it. Iron pots should be cleaned with soda with a metal scourer and dish cloths kept for the pots alone. If food adheres to the sides, fill the pots with water and leave them on the range for an hour or so. This should be washed with hot suds as soon as possible after using, and should be scoured once a week with sapollo. Copper utensils should be cleaned with vinegar and salt rubbed on with flannel, and polished afterward with chamois. Wooden utensils should always be washed with cold water and sand, and kitchen knives should be cleaned every day with brick. The greatest care should be taken with the refrigerator; it should be thoroughly scrubbed out at least once a week with borax and water, and well aired, and the blanket on the ice dried every day and washed once a week.

Although care such as we have mentioned should be a daily duty, there should also be a more thorough cleaning once a week. The floor must be scrubbed, the range polished, the flies of the latter cleared of dust and ashes, the closets and shelves scoured. It makes the work easier if this cleaning is distributed—for instance, the pot closet and pots on Monday, the store-room Tuesday, the dresser and china closet on Wednesday, tins and coppers on Thursday, refrigerator on Friday, and the kitchen and range on Saturday.

A list of the duties expected of a cook clearly written out and hung up on the wall will greatly facilitate matters, and prevent misunderstanding. By practicing a little gentle firmness at the outset, it is easy to train a new cook into "your ways," and she will like you better and stay with you longer if you insist upon making her work easy for her in spite of herself.—N. Y. Tribune.

Oil of Lavender. The industry as carried on in Great Britain. The protection of lavender distillation is an important branch of the industry. In the county of Surrey, England, there are several large lavender distilleries. To these the growers carry their harvestings, to be subjected to the necessary process. The oil is contained in glands situated chiefly on the calyx, corolla and leaves, but also to a less extent on the branches and flower stalks. In the process of distillation, two hours are allowed for the first "run." This run gives the clearest and best oil, and when of a very high quality it is almost colorless. For the second run four hours are allowed, the oil produced being of a pale amber tint, and having a stronger, coarser odor than that which results from the first run.

FOR BETTER GAME LAWS.

Local Game Protective Association Was Started at Last Night's Meeting.

MOVEMENT FOR GAME LAW CONVENTION.

Sportsmen of Other Localities Earnestly Solicited to Organize With That End in View.

KEEP THE BALL ROLLING.
Preliminary steps were taken at a meeting held last evening towards a systematic agitation for the revision and improvement of the present very defective game laws of this state. About forty gentlemen of this city were present and after considerable discussion of various phases of the question it was determined to form a local organization and to ask other cities and towns of the peninsula to take such steps as they may deem expedient in a similar direction.

It is hoped that the sportsmen of other localities who have not already done so will organize and that in the near future a general game law convention for this peninsula may be held at some convenient point. Such a convention, composed of delegates from all parts of the peninsula, should be able to frame such legislation as will be generally acceptable. It is believed that such a bill as the projected convention could frame would be backed by public sentiment and would so impress the legislature as to be enacted into law without particular difficulty.

The local association formed last evening does not and cannot hope to accomplish anything by itself. Its desire is merely to start the ball rolling and the advice, cooperation and assistance of sportsman in all other sections of the peninsula are earnestly solicited.

Mayor Kaufman was chairman of the meeting last night and will continue to act as temporary president of the local association. A committee on correspondence was appointed with a view to opening up communication with persons interested in all parts of the peninsula. There is no doubt that in all parts of this peninsula the feeling is general that the game laws are badly in need of revision. To that end it is hoped that the sportsmen of the various localities will form such organizations as they deem expedient and communicate with the Marquette association and with each other, with a view to the calling of a game law convention as soon as practicable. For the purpose of calling such convention The Game Protective Association of Marquette offers itself as a center of information to the sportsmen of the upper peninsula and others interested. The Marquette association takes this step with no desire to dictate to other localities but simply to supply temporarily a means for exchange of views as to the measures which should be adopted and to discuss the expediency of calling a game law convention for this peninsula for the purpose of formulating such legislation as may be agreed upon. All communications should be addressed to M. E. Asire, secretary, Marquette, Mich.

At the meeting last evening Mayor Kaufman was made chairman and M. E. Asire secretary. After some general discussion by various gentlemen present it was resolved to appoint a committee to draft a plan of temporary organization. D. F. Charlton, L. M. Spencer, D. H. Merritt, F. M. Moore and Dan Sullivan were appointed as such committee, to which by subsequent resolution the chairman of the meeting was added. The committee retired and after some conference reported, recommending:

1. That a local organization be formed, to be called "The Game Protective Association of Marquette, Mich."

2. That a committee on correspondence be appointed and that the sportsmen of other localities be solicited to organize with a view of protecting the game and of holding a delegate convention in the near future at some convenient point, for the purpose of considering what changes should be made in the game laws.

3. That in the local association the entrance fee be one dollar, which shall cover the dues of the first year, and that the annual dues be fifty cents.

After some discussion of the best means of interesting other localities in the movement the foregoing recommendations were adopted and the chair appointed as the committee of correspondence E. B. Palmer, George A. Boyce, Dr. C. H. Morse, M. E. Asire and Rawson Bennett.

The officers of the meeting, Mayor Kaufman and Mr. Asire, were made temporary president and secretary-treasurer of the local association. Those present then signed the list as members and paid in one dollar each to provide the secretary with necessary funds for preliminary work. F. E. Pearce, A. F. Maynard and F. M. Moore were appointed a committee to draft constitution and by-laws for the local association, which then adjourned to meet on call of the chairman.

All persons interested are solicited to become members of the local organization. The only formality required is to give in their names and one dollar to Asire's office in the Wilkinson bank block. Lists will also be circulated about the city for signatures and the membership ought to be large. Every man who hunts even a little ought to be a member of this association and thus help towards the much needed improvement of the game laws. It is hoped to form a game protective association which will cover the entire peninsula, with active branches at least in every county. Such an association can undoubtedly do great good not only in procuring suitable legislation but also in enforcing the laws.

Considerable interest in the movement for better game laws is taken outside of this peninsula. Mr. W. W. Ingram of the Hotel Ingram of Chicago heard that the meeting was to be held and wrote a long letter in which he denounced early hunting because it killed off the does while the bucks escaped.

J. M. Carr of Shingleton wrote in the same vein and also advised that there be a game warden for this peninsula who should devote his entire time to the work. Mr. Ingram also said that he would be glad to join a game protective association and thought many others who came into this country to hunt for recreation, and not for profit, would do the same.

The movement for better game laws has been fairly started. If the sportsmen of other localities will only get together and carry out the plan of a game law convention much good can be accomplished.

Girls in Gay Costumes.
Morgan chapel was full of bright faces and gay gowns last evening. The room was handsomely decorated and the costumes were of all ages and countries. In a booth with appropriate oriental trimmings at one side sat Mrs. James E. Jopling and Miss Hanscom in Gypsy guise, revealing the future—more or less—to all inquirers. Mrs. Shaffer as chief fishwife and Misses Grylls, Burt and Knight had charge of the mammoth fishpond, most of the catches from which were productive of much laughter. Miss Kaufman and Miss Callie Kaufman, dressed in old German costumes, dispensed cider to the thirsty in one corner. Mrs. Conklin, Mrs. J. E. Ball, Mrs. Gilbert and Miss Mapes were almost hidden behind a barricade of chrysanthemums and other flowers. Miss Pendill in Martha Washington dress presided at the coffee table and a bevy of young ladies in fancy dresses of all descriptions served ice cream and other refreshments at half a dozen other tastefully decorated tables. During the evening musical selections, vocal and instrumental, were rendered by Mrs. Begole, Miss Jones, Miss Burt, Mr. Conklin, Mr. A. O. Jopling and others. Considering the unpleasant weather and the other attractions of the evening the attendance was quite large.

The oyster supper at the Baptist church parlors was also well attended. The supper was served by the young ladies of the church and was very good and quite a neat sum was realized.

Hawley Succeeds Bowen.
Notice was received here yesterday of the retirement of Brigadier General Bowen as commander of the Michigan National Guard, his term having expired. Governor Rich has appointed as his successor Colonel C. R. Hawley of Bay City. Colonel Hawley was head of the old Third Regiment, in which the upper peninsula companies were formerly included. He is the ranking colonel of the Michigan National Guard and his promotion is well earned. Colonel Lyon of the Fifth is next in rank and the members of that regiment are now looking forward to the time when he will get his promotion and head the brigade. Under ordinary circumstances this cannot happen for at least three years and of course may not then, as General Hawley may very likely be re-appointed by whoever is governor in 1897.

Had Qualms of Conscience.
In one of the wards of the city of Ironwood at the recent election an old Irishman came up to vote. He stood outside the polling place some time, consulted several friends and seemed considerably perturbed in mind as to what ticket he should cast. Old habit evidently pulled one way and new conviction the other. Finally he went into the booth, prepared his ticket, handed it to the inspector very solemnly and came out dolefully shaking his head.

"I have voted the Dimmyeratic ticket for thirty years," he said. "But now I have voted the straight Republican ticket for the first time, and may the Lord have mercy on me now!"

This story is vouched for by high judicial and legal authority as an actual occurrence.

The Machinists' Fourth.
Iron Bay lodge, No. 164, International Association of Machinists, is sending out neat invitations for its fourth annual ball, which will be given in Armory Hall Thanksgiving eve., Wednesday, Nov. 28. Music will be furnished by the Marquette Ideal orchestra of eight pieces and Joseph Mack will act as prompter. Supper will be served in the Armory dining room at fifty cents per couple by the ladies of the Locomotive Firemen. The Machinists have attained the reputation of giving the dance of the season and are sparing neither work nor expense to make this excel all former efforts. Machinists from Hancock, Duluth, Escanaba and Ishpeming will be in attendance and all who come will be guaranteed a good time.

First New Calendars.
Hanck & Deckelmann, the enterprising cigar manufacturers of Superior street, are out with the first new calendars of 1895. They go in sets of two and are very pretty. The first shows four very pretty little girls dolefully weeping while beneath is the legend "We Wish Our Papas Would Smoke Home Industry Cigars." The second shows four equally pretty but radiantly smiling little misses and the text runs: "Our Papas Smoke Home Industry Cigars." The idea is quite taking and the pictures very good and the firm will find its New Year compliment much appreciated.

Four Stocks In Trade

Comprising a grand choice of economic principles were offered to the people last week by the political bosses and the unfortunate ones that will now have the care of the public trusts, (incidentally the fat salaries too,) had their stocks loudly praised. Some thought they would get there with a RUSH, yet others got there all the SAMY.

The people though, the dear people have fought it out on an entirely new issue, promises weren't worth a cent.

Comparison Carried the Day.

Comparison is our stronghold, our hobby, merchants like politicians will praise their wares above that of the other fellows, but the people decide it by comparison. For instance:

- COMPARE OUR**
\$15.00 All Wool imported or domestic Kersey overcoats or Irish Frieze Ulsters, long cut and long wear, blue or black shades, single or double breast, half satin lined, heavy silk sleeve lining, wool cassimere body lining handsome finish and graceful looking garment.
- COMPARE OUR**
\$12.50 All Wool Kersey overcoats or Frieze Ulsters made up of same material as the \$15.00 coat, except that it has a plain lining instead of one-half satin back.
- COMPARE OUR**
\$10.00 Kersey or beaver cloth overcoat, stylish cut handsome finish, well lined, a very serviceable garment, strictly fast color and sure to please.
- COMPARE OUR**
\$7.50 and \$5.00 Kersey overcoats in Oxford and other dark shades, well put together, good linings, stylish cut and good fitting, will wear two seasons at least, and give good satisfaction.

We Challenge Comparison.

If we can't give you an overcoat fully as good as any coat in the city and beat them by \$2.00 to \$5.00, we are satisfied to miss the sale, or if already sold will cheerfully refund the money.
