HAVE A MONSTER PETITION.

Delegates to the National Women's Christian Temperance Union Meet in Washington.

WILL PRESENT MAMMOTH PETITION TO CONGRESS

It Has Been Signed by Millions of People of at Least Fifty Different Nationalities.

IS AGAINST LIQUOR LICENSE

WASHINGTON, Feb. 15.—There was a good attendance at the opening session of the National Women's Christian Temperance Union. The principal object of the gathering was to call the attention of the president and congress to the immense petition which has just completed its journey around the world and carries the signatures of over three million people of all nationalities. It is addressed to the governments of the world appealing to them against the indefensible complicity in the traffic in alcoholic liquors and opium by accepting revenue from them.

Devotional services, conducted by Mrs. Helen M. Barker, national treasurer of the Women's Christian Temperance Union, were held at the opening of the afternoon session, when the attendance was again large. Addresses were delivered by Mrs. Margaret B. Platt of Washington, Mrs. Emily L. McLaughlin of Massachusetts and Mrs. Matilda B. Carse of Chicago.

Convention hall was crowded by 3,000 persons at the evening session over which Mrs. L. M. N. Stevens presided. After devotional exercises conducted by Mrs. Katherine Lente Stevenson Miss Anna Gordon read Miss Francis Willard's address, the latter not being present. Both she and Lady Somerset were detained in Boston by an attack of the grip but are expected tomorrow. Miss Willard's interesting address gave a review of the work of preparing the monster petition. She gave the names of some of the most prominent women who went to the far parts of the globe to gather signatures, having been occupied in the work for years and then said in part:

"The signatures came to hand in fifty languages; they are of all sorts and sizes and were to be trimmed and prepared for mounting as compactly as possible on interminable webs of muslin, one-half yard in width, one edge of which is bound in red, the other with blue ribbon—red, white and blue being the prevalent colors of the flags of all nations and the symbolic badges of the great temperance movement of modern times.

Mrs. Shuman, who has had charge of this work, has now mounted 1,925 yards, or over one mile of canvas, making five miles of names written solidly one under the other, 771,200 in all. This is exclusive of the 350,000 names that came from Great Britain already mounted, making a total of 1,121,200 actual names on the document that will be submitted to President Cleveland. Besides these there are hundreds of thousands of names yet waiting to be added to the long roll.

"It must be remembered that the signatures to this petition are of three kinds. First, the names of women; second, the written endorsement of societies which have endorsed the petition by resolution or otherwise. The document has been circulated in fifty nations and in the three ways stated has received over 7,000,000 signatures. The total number of actual signatures from outside the United States is 480,000. Though this is a woman's petition it should be noticed that it is endorsed by perhaps a million men. The signers represent every grade of human life and the great procession is headed by the name of Neal Dow, the father of the prohibitory law."

Prof. Latz, city chemist of Indianapolis, recommends Price's Baking Powder as absolutely pure.

STOLE TO AID AN INVENTION. Station Agent Robs the Railroad and Then Commits Suicide.

SPRINGFIELD, Ill., Feb. 15.—A. M. Legg, traveling auditor of the Wabash railway, and W. R. Eckenmaster, traveling accountant of the Pacific Express company, arrived at Riverton, this county, this morning to investigate the accounts of Agent C. J. Bowman, who has been short in his remittances. Bowman told them he was short in his accounts and that he would get the amount from friends and left the depot. Some time elapsed and the officials sent a man to find Bowman. The latter was found lying in a box car dead, having blown his brains out with a revolver. Bowman was twenty-five years old and leaves a young wife, whom he married two years ago, in Concord, Ill., and a baby. His parents reside in Meredosia, Ill. Previous to coming to Riverton, eighteen months ago, Bowman was employed in St. Louis. Bowman embezzled money in order to further an invention for a short distance commercial telephone to work without batteries.

QUEEN PLACED ON TRIAL.

Her Personal Diary the Most Damaging Evidence Against Her.

SAN FRANCISCO, Feb. 15.—The steamer Mariposa from Honolulu brings the intelligence that no executions have taken place up to the time of her departure. The queen's trial began on the 5th inst. and is still pending. The most damaging evidence is her personal diary. William Franz, charged with conspiracy, was deported on the Mariposa.

Others will be deported on the steamer Australia, leaving the 23rd inst., including Peterson and Craighton, ex-cabinet officers. Wardenburg, ex-Postmaster General V. V. Ashford and John F. Bowler were found guilty of treason. From conferences between Minister Willis and Admiral Beardslee it is believed the forces of the steamer Philadelphia will be called on in case the government decides to hang Willard. Several of the men condemned by the military court. There is a well defined rumor that Admiral Beardslee has instructions to raise to the flag of the United States over Pearl Harbor. It indicates that the United States will virtually declare a protectorate over the island.

GERMANY IS WAKING UP.

Afrid She Will Lose Her Gold by Gold Standard.

BERLIN, Feb. 15.—Count von Mirbach, conservative, introduced a resolution in the reichstag today instructing the federal government of Germany to issue invitations for an international monetary congress to take measures to bring about the rehabilitation of silver as a circulating medium. Mirbach said the moment had now arrived for Germany to take the initiative in settling this question which is one of the greatest importance. Agriculture would be ruined if the present system is maintained. America would either absorb Germany's gold or adopt a pure silver standard and capture the whole eastern trade.

Count Herbert Bismarck said an international entente upon the currency question would be arrived at in the course of time and in the case of Great Britain the feeling was growing in favor of bi-metalism. Chancellor von Hohenlohe declared that he was inclined to favorably consider the proposal for an interchange of views on the subject with those states which are concerned in the silver question. The debate was then adjourned.

WEATHER VERY SEVERE.

Southerners Indulge in Unwonted Pastime of Snow Balling.

ATLANTA, Feb. 15.—Dispatches from south Georgia report an unprecedented snow storm. At Quitman the snow reached the depth of three and a half inches. It is the first in sixteen years. The sight is a novel one and business is suspended while everybody is enjoying snow balling. At Buchanan the snow and sleet stopped all the saw mills, coaling and other public works of the county. The protracted cold weather is very severe on live stock. At Augusta a white child aged six months and one colored aged nine months died last night from exposure. In Atlanta five inches of snow fell on the four inches of frozen remains of Sunday night's storm. The trolley car system is paralyzed and practically no business is being transacted.

NEW ORLEANS, Feb. 15.—A dispatch tonight shows that the severe weather has continued throughout the states of Louisiana, Mississippi and Texas. These states are almost entirely covered with snow from two to fifteen inches deep, an unprecedented condition.

DALLAS, TEXAS, Feb. 15.—Reports from Wednesday's snow storm from all over the state sum it up as without a parallel in the history of Texas. Two inches is the smallest and fourteen inches the greatest depth that fell in any country reported.

MEMPHIS, Feb. 15.—Reports from all sections of the south indicate that the snow storm is more extensive than ever before known.

FOUNDINGS HOME BURNED.

Four Hundred Children Safely Escape from Burning Building.

WHITE PLAINES, N. Y., Feb. 15.—The Westchester temporary home, about a mile from this county courthouse, burned late tonight. The fire originated from a defective flue. The building contained 200 children, ranging from one to fifteen years of age, besides three dozen teachers and nurses. The children were awakened and all safely gotten out of the building. Many were sick and suffered considerably from the cold while being transferred to a place of safety.

PANA, Ill., Feb. 15.—Fire broke out in Sallor's drug store at Herry this morning and before it could be controlled about \$10,000 worth of property was burned. The drug store, pool room, meat market, Friley & Friley's elevator and corn bins were destroyed.

DALLAS, Tex., Feb. 15.—At midnight tonight fire destroyed the large warehouse of Waters Pierce Oil company, situated in East Dallas, containing about 500,000 gallons of oil. The loss is unknown.

Price's Cream Baking Powder will go farther than any other because it's absolutely pure.

NEW PARTY COMING.

Will Be in Favor of Bi-Metallism and Protection.

LOCKPORT, N. Y., Feb. 15.—J. McParlin, secretary of the national and state committees of the People's party, in an interview today stated that about March 4 he expected the birth of a new national party. McParlin states that during the past few weeks secret conferences have been held by members of all parts of the country and are continuing. That important political action will result he affirms is certain. The platform of the new party according to McParlin, will be "bi-metalism and protection."

Labor Agitator Dead.

DETROIT, Feb. 15.—Captain Richard Trevelick, the well known labor agitator and politician, is dead.

MUNEN, Feb. 15.—Johann Friedrich Vogel, the well known German engraver, is dead.

PROVED A BAD WITNESS.

The Defense Introduces Its First Witness in the Hayward Murder Case

TESTIMONY HE GAVE WAS OF A DAMAGING CHARACTER

Harry Hayward Was Identified as the Man Who Drove Miss Ginz to Her Death.

DEFENSE RECEIVES A SHOCK.

MINNEAPOLIS, Feb. 15.—The event of the day in the Hayward case was the testimony given by M. D. Wilson, who was called by the attorneys for the defense. Mr. Wilson asserted that the lawyers for both sides had called on him for information but he had absolutely declined to talk until placed on the stand. Therefore neither side was able to know what the nature of his testimony would be.

In answer to questions this afternoon he said he had known Miss Ginz for several years as a customer when he had a livery barn down town. He was sure it was her he saw in the Gossman rig the night of the murder driving on Lyndale avenue and turning into Kenwood boulevard. He did not know that the man with her at the time was Harry Hayward for he had not up to that time met the defendant. Two days later when he saw him at the police station, however, he recognized him. This statement was evidently quite a shock to the defense, and also a surprise to the prosecution.

Among the witnesses was Charles Bartleson, the attorney whose daughter Mabel went to the theatre with Harry the night of the murder. He said Harry came to the house about five minutes before 8 o'clock and he and the young lady left in a few minutes. Bartleson further said he had been interviewed by Harry as to the proper manner in which to have assignments of insurance made and had given him advice. The court adjourned an hour earlier than usual as Erwin had no other witnesses ready.

FLAGS AT HALF MAST.

Body of Minister Gray Will Be Conveyed to Indianapolis.

CITY OF MEXICO, Feb. 15.—Mrs. Gray and Bayard Gray will leave for Indianapolis tomorrow with the remains of the late United States Minister Gray. President Diaz will accompany the body with a brigade of soldiers to the train. By the order of President Diaz all national flags throughout the republic of Mexico will remain at half mast until the body has crossed the border. The president personally paid a visit of condolence to the legation this morning. Mrs. Diaz called this afternoon on Mrs. Gray.

NOTED DWARF IS DEAD.

Little Princess Paulina Dies in New York of Bronchitis.

NEW YORK, Feb. 15.—Princess Paulina, who arrived in New York Dec. 22nd, last, and who since then has been an object of great interest to thousands in this city, died today of bronchitis. Princess Paulina was born in Holland in 1876 and during the past nine years has been seen and fondled by nearly all the kings and queens of Europe. She was exactly seventeen inches high and weighed but eight and a half pounds.

PRICE OF COAL LOWERED.

Nebraska Drouth Sufferers Had Become Expert Coal Thieves.

OMAHA, Feb. 15.—The Union Pacific has reduced freight on coal \$1 a ton in Nebraska from its Wyoming mines so that the drouth sufferers may be better enabled to purchase fuel. The work of coal thieves was a factor in having the rates reduced. Coal stealing had become a regular business and so expert were the hucksters that conviction was next to impossible.

SUICIDED ON A TRAIN.

Body of Well-Dressed Stranger Found by a Car Cleaner.

ST. LOUIS, Feb. 15.—In the seat of a Missouri Pacific coach which arrived last night a car cleaner today found the body of a white man about forty years old, who had evidently shot himself in the head. The ticket on the body was for a passage from Kansas City to Fairmount, Ill., and was in the name of C. C. Moore. The dead man was fairly well dressed.

Poisons are not food. Therefore shun adulterated baking powders. Dr. Price's is absolutely pure.

NEW ENVOYS APPOINTED.

Li Hung Chang and Prince Kung Will Be Sent to China.

YOKOHAMA, Feb. 15.—It is reported here that Li Hung Chang and Prince Kung, uncle of the emperor of China, have been appointed peace envoys.

LONDON, Feb. 15.—The Times of Che Foo says negotiations for the surrender of Wei-Hai-Wei to the Japanese have been pending since Tuesday. Admiral Ting, commander of the Chinese naval forces at Wei-Hai-Wei, committed suicide Tuesday night because of the defeat of his fleet.

May Vote for Mayor.

BOSTON, Feb. 15.—The committee on woman suffrage of the legislature today decided to report a bill in favor of municipal woman suffrage.

When the legislature gets through with Detroit's local fight it will probably give some attention to matters of state legislation.

MAYOR PINGREE may have the ring politicians against him in his fight to retain home rule for Detroit, but he has the people with him.

It would be a fine scheme to have the state obtain control of Mackinac Island and convert it into a state park, using it for military encampment purposes.

REPRESENTATIVE CHAMBERLAIN has sent to this peninsula blank petitions asking the legislature to make provision for the establishment of an upper peninsula normal school.

MICHIGAN'S Democracy has gained to felicitate itself on one thing. It cannot be held responsible for anything the state legislature is doing this winter.

SENATOR McMILLAN did not hesitate at all about declaring himself in favor of having his home city governed from Lansing.

MEMBERS of the German reichstag who favor bimetalism have started a new movement for an international monetary conference to consider ways and means of bringing about the re-monetization of silver under an agreement between the great powers.

If the published reports of its proceedings do not do the common council of Escanaba gross injustice, that city is afflicted with the most ignorant and stupid board of aldermen that was ever chosen to conduct the affairs of a municipality.

The great state of New York is likely to go in for civil service reform on a more comprehensive scale than even the general government. The Civil Service Reform association there has prepared, at the instance of the senate investigating committee, a new act.

official roster of all officers serving the state, county, city or village, with the date and manner of appointment, term of office and salary; of extending as rapidly as possible civil service rules to the appointment and promotion of all officials except judges, heads of departments, private secretaries, etc.

At a meeting of the board of supervisors of Marquette county held at the court house in the city of Marquette, in said county, on Wednesday, the 13th day of February, 1895.

The minutes of the last meeting were read and approved. A communication from the auditing committee was received and, on motion, laid on the table until the next meeting.

The Detroit Journal, in discussing the wisdom of establishing capital punishment for murder in this state, puts the case against the present system of dealing with crimes against life apply and forcibly. That paper says: The people have dallied with murder and murderers to test the efficiency of sentimental safeguards against taking human life.

There is now a bill before the legislature, and two or three others about to be produced, providing for the restoration of the death penalty. It is feared that these measures will be burdened by amendatory verbiage and hemmed with fine distinctions so that they will be ambiguous or meaningless.

It is no longer to be doubted that the congress now wearing the remnant of its life out at Washington will do nothing to give the country needed currency legislation. The new congress cannot meet in regular session until next December.

But some of the papers which assume to speak for the Republican party are opposed to an extra session. One of these puts its objections in the words quoted: "The Republicans have especially powerful reasons for avoiding an extra session."

If this means anything it means that the Republican party should put off as long as possible taking charge of the work the people last fall voted it into power to do. That is a cowardly policy and unworthy a party which claims to be possessed of the ability to successfully conduct the affairs of the government.

CATARRH CANNOT BE CURED WITH LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies.

YOU DON'T HAVE TO SWHAR OFF. says the St. Louis Journal of Agriculture in an editorial about No-To-Bac, the famous tobacco habit cure. "We know of many cases cured by No-To-Bac. One, a prominent St. Louis architect, smoked and chewed for twenty years, two boxes curad him so that even the smell of tobacco makes him sick."

HANCOCK.

There are about a dozen petitions in circulation here for the signatures of those who want the legislature to do various things. The liquor men are vigorously circulating a petition asking for important changes in the license and liquor laws.

The unwavering of the Franklin junior, formerly Peninsula, alias 'Boston' is proceeding at two satisfactory rates and the water will be down below the fourth level next month.

Following is the program of the meeting of the Houghton and Keeweenaw Teachers' association to take place at the Hancock High school today:

MORNING SESSION. Teachers' social, 9 to 9:30. Devotional exercises. Music.

Discussion led by Superintendent J. G. Johnson, Quincy. Discussion led by Superintendent J. H. Z. Brock, Hancock.

Mining critics who have been saying harsh things about the purchase of the Peninsula by the Franin should bear in mind that some of the leading lodes of the copper belt are found on the property and are in condition to be economically tested.

John B. Weber will open a saloon in the premises now used for his cigar factory, on Ravine street, on Monday or Tuesday next.

Y. M. C. A. will be addressed by Rev. M. S. Holt of Calumet, and the League Quartette of Pewabic, consisting of Jno. Dunstan, Fred Raudie, Wm. Simons and Edward Wills, will furnish extra music.

HOUGHTON.

The old board of the Peninsula Electric Light & Power company was re-elected by a unanimous vote at the annual meeting held at the telegraph building last Tuesday.

It transpires that Mr. Porter of Ontonagon wished to secure a franchise here for a telephone line, and then form a local stock company to build and operate the line.

James R. Dee will leave tomorrow for Cleveland to attend the annual convention of the National Association of Electrical Engineers.

CALUMET.

Another faker has worked the town for advertising, this time the scheme being the old familiar one of advertisements printed on paper bags.

The ladies of St. Margaret's guild will hold a cake sale at H. E. Lean's store, Fifth street, Red Jacket, from 4 until 8 this afternoon and evening.

George Lang has removed his bar fixtures and stock to the small building opposite Burge's Commercial House on Fifth street and has a sign out informing the public that his place is known as the "Captain's office."

A rag carpet social is on the tapis for this evening at the Armory. The ladies of the Finnish Sewing society will meet there, aided and abetted by divers and sundry of the male friends of the afore-said members, for the purpose of cutting and sewing carpet rags.

Friends of Captain John Daniell of the Tamarack and Osceola will be pained to learn that recent advices from Milwaukee are by no means reassuring.

Practice household economy by using Price's Cream Baking Powder. It's absolutely pure.

HAPPENINGS AT REPUBLIC.

The "Poverty social" under auspices of the "Ys" at the town hall last evening, proved a very interesting, as well as a lucrative, affair.

Hector McDonald and Mrs. Ball, all of this place, were united in marriage at the residence of the bride last Wednesday afternoon.

Another wedding took place here on Thursday evening, the contracting parties being well and favorably known. The groom did the needful among his army of friends on the occasion.

Mr. and Mrs. D. T. Morgan left on Thursday evening for a visit with Mrs. Morgan's relatives in Chicago and Mr. Morgan will remain away for some time but Mr. Morgan is expected back here about March 1.

Secure seats at Munson & Peterson's for "Beyond Pardon," to be produced at the opera house next Friday evening.

W. E. Tyler, of the Chicago, Milwaukee & St. Paul, spent Thursday evening with old friends here.

IN A CHINESE PRISON.

Convicts Unconcernedly Waiting to Be Beheaded.

There Were No Soldiers or Wardens on Duty and Little Children Were Playing About the Place—Repulsive Looking Criminals.

Since visiting this prison, writes Hon. Florence O'Driscoll, in Century, I have never ceased wondering at two things whenever I have thought of the subject: first, why the prisoners stay there at all; second, if determined to remain in prison when captured, how anyone can dare to be a criminal in China.

The buildings were none of them above twelve or thirteen feet high at the loftiest part of the roofs, and many were much lower. The outer door, unguarded, stood open, leading to some narrow passages with rectangular turns. Seated drowsily in the shade were two or three men in ordinary Chinese outdoor dress.

Inside were fifteen or twenty ferocious-looking creatures. They were human beings and tame, but they looked wild; the little clothing they wore was in rags and tatters. A chain about a foot long fastened the legs of each together, pieces of iron being bent round the ankles and looped into each end of the links.

The place was a small courtyard about twenty or twenty-five feet square. One great stall, like a cowshed, ran round it, barred up in front with the usual flimsy round saplings, except here and there an opening was left for convenience of passing in and out.

I did not feel particularly anxious to go in among the occupants, but as they all walked out to have a look at me, leaving the place empty, I entered.

The heat was intense, and heat fiercely upon the granite paving stones; the heat in the stall was still greater. Nothing that in the remotest degree resembled a bed was anywhere to be seen; not a bit of straw or even any rags.

The guide said they were all sentenced to be beheaded, and that at any time the mandate might arrive fixing an immediate date for their execution.

I now returned to the court only to find the magistrate had not arrived. After some time I proposed to go, but the guide suggested waiting for another ten minutes, saying that five or six prisoners had been sent for.

Just as I was about to give up all hope of seeing the court sit, I heard the clank of chains. Here were the prisoners, unattended, by any guard came in, and sat on a long low bench in one corner of the court.

Presently another walked in, apparently of his own volition, for no one was guarding or directing him. He also sat down. I noticed that the hobble-jobs had made sores on his ankles, and he held a string round the calves of his legs which held the pieces of bent iron midway between his ankles and his calves.

The information was hardly necessary; he looked more like what my imagination had figured a pirate to be than ever any picture had shown me.

All that could be seen, when he sat down, was a large diamond-shaped piece of wood, with a terrible head glaring in its center, bare knees and legs with ankles chained together, and fingers clasping the lower side of the diamond, where they helped to support it.

Those hands were like birds' claws, with long, dirty, curved talons on them; his queue was large and fuzzy, like the tail of a maddened cat; the front half of his head, once shaven, wore a growth of black fiber standing straight on end, about two inches long—a sort of halo one might imagine a devil would wear.

Perhaps it was not to be wondered at. Two months passed in such conditions as had environed this man would probably transform the most pious-looking church deacon into a pirate of the wildest and most bloodthirsty type, who as a model would make the fortune of a realistic painter.

Density of Hohogony. There is a remarkable difference in the density of mahogany as it comes to the cabinetmaker. A square foot of Cuban mahogany, one inch thick, weighs on the average six pounds; a like piece of Santo Domingo mahogany weighs two and a half pounds.

REPORT IS FAVORABLE.

House Commerce Committee Favors Channel Between Great Lakes and the Sea.

REMITTANCES ON INCOME TAX ALREADY BEING MADE.

Bill Is Introduced in the Senate for an Industrial Commission to Arbitrate Labor Troubles.

BENEFIT THE WHOLE COUNTRY.

WASHINGTON, Feb. 15.—The report of the house committee on interstate and foreign commerce on the senate report authorizing a preliminary examination concerning the deep waterways between the great lakes and the ocean was submitted to the house today.

Collectors of internal revenue throughout the country have already begun to receive returns under the income tax law and in a number of instances cash accompanied the return.

Senator Perkins from the committee on education and labor today reported a bill for the creation of an industrial commission of twenty-one persons which is intended to arbitrate all labor difficulties.

The president appointed Right Rev. Bishop Henry B. Whipple of Minnesota a member of the board of Indian commissioners.

POSTOFFICE BILL PASSED.

Senate Spends the Day Considering Appropriation Bills.

WASHINGTON, Feb. 15.—The finance committee reported favorably the bill repealing one-tenth of a cent differential on sugar from bounty paying countries.

The agricultural appropriation bill was then taken up. Secretary Morton was present while the bill was discussed.

DISCUSS NAVAL APPROPRIATIONS.

WASHINGTON, Feb. 15.—The house went into committee of the whole on the naval appropriation bill. The feature of the bill providing for new ships was antagonized by Simpson (Pop. Kas.), Hall (Dem. Mo.), and Everett (Dem. Mass.), and supported by Talbot (Dem. Md.), Dooliver (Rep. Ia.), Pendleton (Dem. W. Va.), Money (Dem. Miss.), Woodcock (Dem. Mich.) and Meyer (Dem. La.).

Ranks of Women Crusaders in Sioux City Somewhat Thinned.

SIoux CITY, Ia., Feb. 15.—The W. C. T. U. temperance crusaders were out on a tour of the saloons again today but their numbers were much smaller than Thursday when the ladies received such a warm reception at one of the saloons.

GOT A LIGHT FINE.

German Firm Caught Importing Rifles for Samoan Rebels.

SAN FRANCISCO, Feb. 15.—Correspondence to the Associated Press from steamer Mariposa Feb. 5, Apia, Samoa, Jan. 30.—The great scandal during the last month has been the discovery that Friger & Shatz, a large German firm here has been importing and selling the rebels rifles and ammunition.

imperfect customs arrangements had got into Samoa. This first installment was but part of an immense quantity now stored in Sydney by the firm in question and which they admitted were intended to be introduced into Samoa.

CARRIED TO SUPREME COURT.

Appeal Taken in the Case Testing Legality of Income Tax.

WASHINGTON, Feb. 15.—The district court of appeals affirmed the decision of the lower court refusing John G. Moore of New York an injunction restraining the internal revenue commissioner from collecting the income tax.

Strike Will Be Investigated.

BROOKLYN, Feb. 15.—The legislative committee appointed to investigate the causes of the trolley railroad strike began its labors today.

Wants Time to Investigate.

LONDON, Feb. 15.—Sir Edward Gray, in response to an inquiry in the house of commons as to the condition of affairs in Hawaii, said Hawes, the British commissioner, had been instructed to ask for a delay in the execution of the Englishman, Riehard, who was condemned to death by court martial.

WAITING FOR THE TIDE.

Business Waits to See If the Last Gold Purchase Has a Lasting Effect.

PUBLIC CONFIDENCE HAS BEEN GREATLY INCREASED.

Prices of Farm Produce Remain Unchanged While the Metal Market Is Sluggish as Ever.

DUN'S WEEKLY TRADE REVIEW.

NEW YORK, Feb. 15.—Exports of gold and withdrawals from the treasury were almost entirely stopped by the contract for the purchases of gold from Belmont and Morgan. For a moment business waits to know whether the sales of American securities and withdrawals of gold from the treasury has been lastingly stopped by this remarkable increase in confidence.

There has been no gain in the prices of farm products on the whole; corn is nominally half a cent higher but with an insignificant movement. Cotton is unchanged. A few words tell the old story; the corn crop is undeniably short, although probably a much larger supply than the official reports indicate.

The sales of steel rails were only 150 tons in January and the weather has arrested structural work and retarded deliveries of all kinds. But there appears a better inquiry for some finished products and especially in wire, wire rods, nails and barbed wire business is encouraging.

Continued dullness is reported in cottons and the reduction of prices by the Amoskeag mills causes some hesitation. Trade in woollens is by no means satisfactory; prices have been generally reduced and competition with cheap foreign goods is felt somewhat more.

HEADSTREET'S REPORT.

NEW YORK, Feb. 15.—Milder and pleasanter weather, following the severe storms and extremely low temperature, have with few exceptions failed to stimulate orders for seasonal goods or the distributive movement generally.

Eastern manufacturers of shoes are asking higher prices in view of the late advance in leather and spruce lumber for frames has been marked up about 30 per cent.

Live cattle and hogs are higher, due to an improvement in the eastern demand and a decline in the receipts of Indian corn is responsible for the advance of that cereal.

Prices are unchanged for leather, oils, pork, cotton, iron and steel. Wheat is also off on additional evidence of heavier supplies, both at home and abroad than was anticipated.

The total bank clearings of the principal cities of the United States the past week were \$24,416,480, an increase of 5.1 per cent. compared with the corresponding week of last year.

Price's Baking Powder alone enjoys the distinction of being absolutely pure.

He Challenged the Fit.

The short and disastrous reign of Louis XVI. produced two remarkable duellists—the petticoated Chevalier d'Éon and the mulatto St. George. D'Éon died in London as late as 1810, and no satisfactory reason was ever given for the whim which made him a quarter of a century attire himself in woman's clothes.

Sound Logic.

An old man who believed that "what was to be would be," lived in the west, and was one day going out several miles through a region infested by very savage Indians. He always took his gun with him, but this time found that one of the family had got it out. As he would not go out without it, some of his friends tantalized him by saying there was no danger of the Indians; that he would not die until his time came, anyhow. "Yes," said the old fellow; "but suppose I was to meet an Indian and his time had come; it wouldn't do, nohow, not to have my gun."

IN HIS OWN BEHALF.

A Dog Proved That He Was Not Vicious and Was Saved from Death.

Nero was the principal feature in Justice Barry's court. Really he was on trial for his life, but in the eyes of the law he figured merely as an exhibit in the case at bar.

Did he or did he not bite little Paul Reed? was the question before the magistrate. If he did, it was cause for an award of damages against his owner, and perhaps for sentence of death against himself.

"The dog himself is the best evidence," said Mrs. H. P. Terry, mother of the boy who owns Nero.

"No Nero was put on the stand. "Pull his tail or play with him, any one, if you think he will bite," suggested Mr. Terry.

One of the lawyers gave Nero's tail a hard jerk. The dog looked around in a hurry to see where it came from, and then settled contentedly on his haunches again, opening his mouth as if to catch a superfluous fly.

"The truth is," said Mrs. Terry on the stand a minute later, "that is one of the best-natured dogs that ever lived. I don't believe he ever bit the boy at all; he just jumped on him. They brought young Reed over to our house and showed a little triangular hole in his pants about three-quarters of an inch each way."

"I looked at the skin under the tear in the cloth," the witness went on, "and there was a little scratch, such as might be made with a pin. That was all there was, every bit."

Still the prosecution's witness, who had seen the affair when it occurred in Jefferson park, insisted that the dog was vicious and did bite and hurt Paul Reed until he cried as if he were a fountain filled with tears.

"The dog is a good-hearted dog," said Jimmie Wilson, eight years old, and people smiled at the old-fashioned solemnity of the boy.

"This story was started by the Stettons. They have moved away from Golden Gate avenue now," said Mr. Terry, very distinctly.

"Were the relations between your folks friendly or otherwise?" asked the justice, as if he suspected something.

"Otherwise," briefly stated the witness.

The case was decided in favor of the defense.—San Francisco Examiner.

EARTHQUAKE WAVES.

Pulsations Travel at a Very High Rate of Speed.

Some of our readers may remember, says Youth's Companion, that the pulsations of the great earthquake in Greece last April were perceived in England, and it was believed, at the Cape of Good Hope, by means of very delicate instruments contrived for the purpose of registering any slight shaking of the earth's crust.

By a comparison of times, combined with the distances from Constantinople of the places where pulsations were observed, a fairly accurate estimate of the velocity with which the earthquake waves traveled was obtained.

The average speed was about two miles per second. This is almost exactly the same velocity as that which was calculated for the pulsations of the Greek earthquake in April.

One of the English instruments which registered these pulsations is at the bottom of a deep mine near Newcastle-on-Tyne, and its delicacy may be judged from the fact that it has recorded the beating of the waves on the seacoast ten miles away.

To Please Him.

A great many stories are told of the jealousy and ill-feeling among the musicians, but not always are the tales so full of a good-humored appreciation of the state of things as is the following, told by the Argonaut: Rossini, walking one day on the boulevard with the musician Braga, was greeted by Meyerbeer, who anxiously inquired after the health of his dear Rossini.

"Bad, very bad," answered the latter; "a headache, a sideache and a leg I can scarcely move." After a few moments' conversation, Meyerbeer passed on, and Braga asked the great composer how it was he had suddenly become so unwell.

NOT MUCH OF A WORLD.

Melancholy Reflections of the Young Man from Sauk Bridge.

"What a small world it is, after all," said the young man from Sauk Bridge, O. He had just moved to Chicago, and for some reason he was not greatly impressed with the immensity of the city.

"For instance," he went on, "I had been in my hotel but a week when I discovered that my uncle's divorced wife lived in the next room, while the man who married a girl I used to be engaged to is on the floor below."

"Hello, there," sounded a voice as we drew close together. "I haven't seen you for a long time. I'm in pretty tough luck, old man. Can't you stake me to a bed?"

"It was a tramp printer I had known eight years ago in Leadville, Col. I gave him fifty cents simply because he had proved to me beyond cavil that life runs in circles around a globe and that they all intersect somewhere in their circumferences."

"She sat with an anxious heart and a half fearful eye furtively watching him as he was about to taste her first dinner. He knew what was passing in her mind. After dinner was over he said: 'I'm sorry for one thing.'"

"What is it?" she asked. "That I didn't get married sooner, so that I might before this have enjoyed your delicious cooking, my love. As a cook you are a success." He lied, but the messenger who should have flown up to Heaven's chancery with the falsehood folded his wings over his ears and did not hear it.—N. Y. Press.

THE AWFUL HOTEL FEEDER. Kate Field Finds a Frightful Example and Shows Him Up.

It was six o'clock p. m. I was seated in a cheerful dining-room in one of the best hotels of the middle west, eating simple, wholesome food, preparatory to lecturing.

Depositing all this stuff at once, in a series of soap dishes, which are a marvel and terror to the untutored European, my neighbor introduced me to a system of eating, such as even I, with all my traveling and disbeliever in the feeding proclivities of my countrymen, had not conceived.

CHRISTIAN ENDEAVORERS.

Marquette County Rally Held Here Last Evening Was Largely Attended.

NEARLY FOUR SCORE CAME FROM UP THE ROAD

Returns for the Income Tax Must Be Made by March 1-List of Sunday Services

"CHRIST AND THE CHURCH"

Nearly four score Christian Endeavorers came down from Ishpeming and Negaunee last evening to attend the Marquette county rally held here.

A general meeting was held in the auditorium of the church at 8 o'clock with plenty of music and three addresses besides short talks.

Sunday morning Rev. D. B. Spencer of the Presbyterian church will exchange pulpits with Rev. C. S. Eastman of the Methodist church.

Following is the musical program for high mass at St. Peter's cathedral tomorrow morning:

Organ prelude. "Mass in G." Rosewig Solo, duets, trios and choruses. Offertory—"Ave Maria" Arcadelt Chorus.

Prof. Barker of the University of Pennsylvania, declares Dr. Price's Baking Powder absolutely pure.

Hewed to the Line. The members of Lake Superior Pioneer camp, Modern Woodmen of America, and their friends hewed to the line at Fraternity Hall last evening.

The Modern Woodmen is one of the great fraternal beneficiary organizations. Its headquarters are in Illinois and its 120,000 members are entirely in the healthy northwest.

What phase of Christian Endeavor work commends itself to me? F. W. Epley said that it bridged the gap between the Sunday school and the church.

After the program there was an informal social until time for the visitors to take the train home.

only when they fail to receive one from the deputy collector.

While it is important as an aid to taxpayers in complying with the law relative to returns of income, that the deputy collector should distribute blank forms to all persons, corporations, companies and associations in his district liable to make such returns, as far as he can learn the names and locations of the same, their attention is called to the fact that the failure of such persons, corporations, companies and associations to receive such blank forms, or to receive any notices relative thereto, cannot be deemed a valid excuse for not rendering the return required by law and will not prevent or reduce the penalties imposed for failure or neglect to make proper returns.

Applications for blanks should state whether it is an individual or corporation whose income is to be returned, as the forms are quite different. The general exemption from the tax is \$4,000 but as stated above all persons or corporations with gross incomes of \$3,500 are required to make returns.

Archdeacon Williams' Sunday subjects at St. Paul's church will be, in the morning, "Society;" in the evening, "Prejudice." The subject of his talk to young men at the Y. M. C. A. meeting Sunday afternoon at the Baptist church parlor will be "The Young Man and the Sunday School."

Sunday morning Rev. D. B. Spencer of the Presbyterian church will exchange pulpits with Rev. C. S. Eastman of the Methodist church.

At the Baptist church the usual services will be held and Rev. W. E. Freeman will preach. Excellent music may be expected under the direction of Mr. G. L. Burtis.
