A SHOE STORE

Is the place to buy shoes.

BEAR IN MIND

This is cold weather. You should wear overshoes. Felt shoes or rubbers. It is poor economy to wear good shoes and have them spoiled with salted snow. Cold and wet feet don't pay. We have rubbers and overshoes and felt shoes at low prices. They are worth the money. We have better ones at higher prices. They are real rubber and felt. It is economy to buy the best. You will find a full assortment of Styles and widths in our rubber Department. We can fit any size shoe and any shape shoe too. We have them all styles from a French heel narrow toe to a Common sense.

Chandler Announces That Next Congress Will Inquire Into Last Sale of Bonds.

STATEMENT CREATES SENSATION IN THE SENATE.

Some Things the Next Republican Congress Will Do Are Outlined by Senator Chandler.

EXPECTS AN EXTRA SESSION.

WASHINGTON, Feb. 20.—Chandler created something of a sensation in the senate late today by outlining some important steps to be taken by the next congress including a congressional investigation of the recent purchase of gold by the president of the United States. The speech came unexpectedly as an incident to the debate on the Indian appropriation bill.

Jones, in charge of the silver measure, announced that his friends would make no further effort to pass it at the present session. The silver bill then took its place on the calendar. Wolcott's resolution declaratory for silver was presented but, postponing action, it also went on the calendar without final action. It was discussed briefly by Higgins, who opposed it as meaningless. Manderson proposed an amendment, urging an international bi-metallic agreement. Chandler addressed the senate on the Wolcott resolution. In his speech Chandler significantly urged that the time was near at hand when the Republican party must take affirmative action on bi-metallicism.

The house bill was passed authorizing a bridge across the Missouri river at Sioux City, Iowa, and Dakota county, Nebraska. The Indian bill was then taken up and Chandler, criticizing the committee amendments, said it would be considered at the inevitable extra session of congress.

"I am most hopeful," said Chandler, "that the president will call congress together in extra session sometime in April or May. It will no doubt assist in bringing back the stability of the country to assemble a Republican congress. That congress will undoubtedly take up the Nicaragua canal project and pass a bill for building the canal, not by private corporation, but by the United States. I believe the next house of representatives will take steps to bring about certain and ultimate annexation."

"Moreover, the next congress will inaugurate an investigation into the recent purchase of gold by the president of the United States. That transaction is one of the most remarkable in our history. The rates at which our bonds sold involve the loss of nine million dollars to the people of the United States. If ever a financial transaction of the administration needed a searching and severe committee investigation—such, for instance, as the senator satirically, "as the senate conducted against the sugar trust—it is this gold purchase. There appears to be more below the surface concerning this transaction than the country is aware of. It is not a transaction that congress can allow to be uninvestigated."

The debate reverted to the Indian bill although Chandler's suggestion as to the purpose of the next congress continued to be the interesting topic. The Indian bill was not completed when the senate adjourned.

IN FAVOR OF WAR VESSELS.

House Passes Bill Authorizing Construction of War Ships.

WASHINGTON, Feb. 20.—Opponents of the new battle ships for the navy suffered a crushing defeat in the house today when Sayer's motion to strike out the authorization for war vessels was lost, first in committee of the whole on a vote of 42 to 121, and later in the house by a vote of 67 to 199. After Sayer's motion had been defeated Cannon (Ill.) attempted to have an appropriation, first of \$23,000,000 and then \$5,000,000, inserted in the bill for building the ships authorized, but the propositions failed.

Dolliver (Ia.) succeeded in having an amendment adopted providing for building two torpedo boats on the Mississippi river and Sayers added a proviso to the item for armor appropriation to the effect that no higher sums should be paid by this government for armor or gun steel than was paid the contracting firm for similar material furnished other governments. Harbor (Ill.) offered an amendment to the bill which was agreed to directing the secretary of the navy to transfer to the Columbian museum at Chicago the reproduction of the caravels Santa Maria, Nina and Pinta. The naval bill as passed authorizes the construction of three battle ships to cost, exclusive of armor, \$4,000,000 each and twelve torpedo boats to cost \$170,000 each.

Some of the time of the morning was spent in unraveling the tangle produced by the passage by the house under a misapprehension of the bill to increase the pension of Thomas Corrigan, late of Company B, Eighty-eighth Illinois infantry, to \$50 per month. The bill was returned to the house in response to a resolution and by unanimous consent a vote was taken on the recommendation of the committee of the whole that the bill lie on the table. Hull and Lacey of Iowa insisted that the bill was meritorious and that the recommendation of the committee of the whole should be disagreed to and this action was taken—40 to 100. The bill was then passed—133 to 73.

Pickler (S. D.) called up as a matter of privilege the resolution introduced by him calling on the secretary of the treasury for a list of the soldiers of the late war dismissed from his department since March 3, 1893, with the cause of dismissal in each case and it was adopted.

on foreign affairs, called up the conference report on the diplomatic and consular bill. He explained that the house conferees refused to agree to the senate amendment appropriating \$500,000 for a submarine cable to the Hawaiian islands and he would ask the house to further insist on the disagreement. Hitt (Ill.) moved that the house recede from its disagreement. McCreary spoke in opposition to the motion while Boutelle and Hitt favored the cable amendment. At the conclusion of Hitt's remarks, without action, the house adjourned.

BISSELL WILL RESIGN

Postmaster General Will Retire Some Time in April.

WASHINGTON, Feb. 20.—Although Postmaster General Bissell refused to either affirm or deny the rumor that he had decided to resign it nevertheless is true that unless he changes his present determination he will retire some time in April. What his reasons are for taking this step cannot be stated.

It can be stated on authority that there is no truth in the report which has been current for some time that Secretary Carlisle intends to resign. Nor is it true that the president desires his resignation with view to his nomination to the supreme bench.

Senator Pettigrew today gave notice of his intention to propose an amendment to the sundry civil appropriation bill making an appropriation of \$300,000 for supplying seeds and seed grains among the drought stricken parts of the country.

BUILDING WORK SUSPENDED.

New York Mechanics Ordered Out on an Extensive Strike.

NEW YORK, Feb. 20.—A strike among the building trades on all buildings in course of construction in this city was declared late this afternoon by the board of walking delegates. The strike is in sympathy with that of the Electrical Workers' union. It will call out from twenty to fifty thousand men and may extend tomorrow to Brooklyn and Jersey City. Among the trades affected are the carpenters, plasterers, gas fitters, plumbers and tin and sheet iron workers.

Three thousand members of the Knights of Labor, including the Children's Jacket Makers' union, of whom five hundred are women, struck today against a return to the piece work system.

BONDS REPUDIATED.

Ironwood Will Fight Collection on Last Issue of Bonds.

IRONWOOD, Mich., Feb. 20.—It has been decided, although informally, by the mayor, city attorney and nearly all the officials of this city to repudiate the last issue of Ironwood city bonds, amounting to \$150,000. The bonds were sold to Coffin & Stanton, New York, who are now in bankruptcy. Twenty-five thousand dollars were paid by the firm and the balance is due and still unpaid. The bonds in the meantime have been sold to men in New York, Boston and London, and a strong fight will be made by them to enforce payment. Senator Vilas has been retained in behalf of the city.

HORRORS OF CIVIL WAR.

Authorities Suppressing the Facts About the Peruvian Revolution.

NEW YORK, Feb. 20.—Mail advices from Argentine differ from the correspondent at Lima, Peru, saying that information about the revolution is strictly forbidden, that the authorities invade the residences of suspected persons at all hours of the night and turn the male residents into the streets and destroy the furniture and violate the females. People are arrested, whipped, tortured, shot or decapitated without trial. Political prisoners disappear and their families cannot find the place of their burial. Conscriptions are made at church doors. Cacere's followers have sacked the town and Matucana men are shot in heaps.

WAS ENTIRELY FALSE.

Wild Story from Honolulu About Captain Davies is Untrue.

DEBQUE, Ia., Feb. 20.—Mr. and Mrs. J. F. O'Neil, formerly of this city but now of Honolulu, arrived here today on a visit. They pronounced the story of the hanging up by his thumbs of Captain William Davies by the Hawaiian government as utterly false. Nothing of the kind occurred they say.

Railway Pays Damages.

GREEN BAY, Wis., Feb. 20.—Judge Hastings today decided the case of Cook Bros. vs the Soo road in favor of Cook Bros., placing damages at \$55,000. The plaintiffs' saw mill was destroyed by fire which started on the Soo's right of way.

Bishop Messmer Ill.

GREEN BAY, Wis., Feb. 20.—Bishop Messmer, who has been confined to his bed the past two weeks with grip, today suffered a relapse and is reported seriously though not necessarily dangerously ill.

Burned Two Children.

LAKE CITY, Mich., Feb. 20.—The house of Jacob Gaukel, near Star City, burned during the absence of Mrs. Gaukel and her two children, aged five and two years, were burned to death.

Changes State Capital.

JEFFERSON CITY, Mo., Feb. 20.—Resolutions passed the senate today removing the capital to Sedalia. The resolution does not need the gubernatorial approval.

FREDERICK DOUGLASS DEAD.

Dropped Dead While Talking With His Wife at His Home in Washington.

HIS SUDDEN DEATH CAUSED BY HEART FAILURE.

Life Devoted to Emancipating and Upholding the Colored Race in America Comes to an End.

HAD MADE HIS LIFE USEFUL.

WASHINGTON, Feb. 20.—Frederick Douglass, the noted freedman and orator, dropped dead at his home in Annapolis this evening. His death, which was due to heart failure, was entirely unexpected as he had been enjoying the best of health. During the afternoon he attended the convention of the women of the United States now in progress in this city. When he returned home he sat down and chatted with his wife. Suddenly he gasped, clapped his hand to his heart and fell back unconscious. A doctor was hastily summoned. His efforts to revive Douglass were hopeless. Within twenty minutes after the attack the great ex-slave and statesman was dead.

Douglass leaves two sons and a daughter, the children of his first wife. His second wife, who was a white woman, survives him.

The story of his second marriage is a romantic one. Miss Pitts, whom he married, was a New England woman of middle age, a clerk in the office of recorder of deeds for the District of Columbia when Douglass was appointed to that office. She was a member of a literary society to which he belonged. They were thrown much together and finally became engaged. Her relatives were bitterly opposed to the union on account of his color, but finally yielded to the force of circumstances.

Frederick Douglass was born in Tuckahoe, Talbot county, Maryland, in February 1817. His mother was a negro slave and his father a white man. In September, 1838, he fled from his master in Baltimore and made his way to New York. He was aided in his efforts for self education by Wm. Lloyd Garrison. In the summer of 1841 he attended an anti-slavery convention at Nantucket and made a speech which was so well received that he was offered the agency of the Massachusetts Anti-Slavery society. In this capacity he travelled through New England and gave lectures. Large audiences were attracted by his graphic descriptions of slavery and his eloquent speeches. In 1840 his friends raised a purse of \$750 to purchase his freedom in due form of law.

Douglass was also the author of several books and he had published a paper in the interests of the colored men. He urged upon President Lincoln the employment of colored troops in the civil war and advocated the proclamation of emancipation. He held various prominent positions under the government. In 1860 President Cleveland removed him from the office of recorder of deeds which he had held for a number of years. President Harrison appointed him minister to Hayti in 1850, which was the last government position he held. Douglass was also one of the Haytian World's Fair commissioners. Since the close of his position Douglass has lived quietly in Washington without engaging in any special business. His wealth is variously estimated at from \$100,000 to \$200,000.

HAS ENDLESS SUPPLY.

Mesaba Claims to Seriously Effect the Iron Ore Business.

MILWAUKEE, Feb. 20.—President Curry, of the Metropolitan Iron and Land company, returned today from a conference held in Cleveland at the representatives of the principal iron ore corporations of the United States. He said the meeting was like a funeral dirge on account of the opening of the Mesaba and other ranges. This is a big blow to the Wisconsin and Michigan companies and they possess over a hundred million dollars. Billions of tons of ore can be placed on the cars in the Mesaba range at a low price and also assures the world of an adequate supply of mineral for a thousand years to come. Curry predicts a revolution in the iron ore industry.

Is in Good Condition.

CHICAGO, Feb. 20.—The protective committee of the whisky trust has examined the report of its experts. The chairman says it is better than he expected. It is understood the report shows that the assets, exclusive of plants, exceed the liabilities, including bonds, to the amount of three-quarters of a million.

Will Visit New Orleans.

MEMPHIS, Feb. 20.—Governor Jackson and staff, accompanied by a number of other representative Iowans, arrived here today enroute to New Orleans, where they will take in the Mardi Gras festivities. They will stop over at Vicksburg to attend the farmers' convention.

Will Not Be a Law.

BERLIN, Feb. 20.—The bill repealing the anti-Jesuit law passed the reichstag. It is not expected, however, the bill will become a law as the Bundesrath, which has heretofore always refused its consent to repeal the law, is not expected to sanction the resolution.

Stuck in the Ice.

DETROIT, Feb. 20.—Dispatches from all parts of the state report a furious snow storm accompanied by a fierce gale. Many trains are abandoned. The steamer Wisconsin is fast in the ice off Lake City.

Adam Kates is on the sick list and was reported quite ill yesterday. John Nesbitt will serve hot and cold lunch to those desiring it tonight. Traveling Auditor Howe of the Chicago & Northwestern line was here checking up the business at the local office yesterday. The members of the Mixed Whist club spent a very pleasant evening at the home of Mr. and Mrs. Alexander Matland last evening. Alexander Matland, who will attend the Republican state convention at Detroit today, will spend a couple of weeks in the east before returning home. The tickets for the entertainment to be given tomorrow evening at McDonald's Opera House for the benefit of the Sisters of St. Joseph school, are on sale at Perkins' drug store. There are being sold at twenty-five cents each. Negaunee's camp of the Modern Woodmen of America will hold an interesting meeting at the A. O. U. W. hall tonight. Several new members will be initiated and a number of members of the Ishpeming camp will be in attendance. Refreshments will be served at the conclusion of the meeting. Word was received here yesterday of the death at Green Bay of Louis Hagemester, who had been in the brewing business at that place for several years past. He died of consumption. Mr. Hagemester had been in poor health for the past two years. He and other members of his family are well known to a number of Negaunee people.

NEW JERSEY'S ARK. It Rested Upon Mount Ararat for Many Years. The Queer Looking Structure Erected by the Owner of the Emance--Once a Favorite Resort of the Children. Mount Ararat is the first of a series of hills which end in the ridge upon which Summit is located. With many twists and turns the tracks of the Morris & Essex division of the Delaware, Lackawanna & Western railroad climb up from the Orange valley to the top of this ridge at Summit. Quite near to the track--about half a mile--is Mount Ararat, upon which stood for many years the queer-looking structure called the "Ark."

A DANGEROUS FOE. The Terrible Charge of the Ungainly Rhinoceros. The author of "Discovery of Lakes Rudolf and Stefania" had shot a zebra, and his men were making ready to cut it up, when two rhinoceroses appeared in the distance. Apparently the firing of the gun had disturbed their nap and made them thoroughly angry. Though more than four hundred paces off, the rhinoceroses swerved aside when they saw us, and then dashed upon us with the speed of race horses. As usual, my black companions took to their heels, making for a solitary tree some distance off. It was hopeless for me to think of reaching it, and there was not so much as a blade of straw for cover anywhere. And behind the dead zebra, which would have been better than nothing, three of my men were already crouching. There was nothing for it but to brave the situation out; so I knelt on one knee, the better to take aim, and, with my elephant gun in hand, waited for fire till I could hope to kill. It seemed a long time before I could cover the shoulder of either of the huge beasts, and I knew any other shot would be useless. The result was that I did not pull the trigger till one of the animals was only some eight or ten paces off. It staggered and fell, but the next moment was on its feet again. It was not killed, but its ardor was cooled, for it turned away, followed by its companions. Twice it seemed about to fall, and I did not think a second shot would be necessary; but it got away with undiminished speed, and, though we followed it for some distance, we lost it.

ODD KINDS OF RENT. Horseshoes, Nails, a Red Rose and Other Payments in Lieu of Cash. Suit and service for the desirable properties known as "The Forge," in St. Clement Dunes, and "The Moors," in the county of Salop, were duly paid by the city of London to the crown, the rent consisting of six horseshoes, sixty-two nails and two bundles of faggots, one of which had to be cut with an ax and the other with a bill hook, says the London Telegraph. Mr. Crawford, the city solicitor, acted as wood-cutter, the queen's remembrance officiated as referee, and the interesting ceremony took place at the law courts in the presence of a number of ladies and gentlemen. For six hundred years and more the rent has neither been raised nor lowered, but has always consisted of the same number of horseshoes, the same number of nails and the same number of cut faggots. The queen's remembrancer, Master Pollock, explained to the company that though now the idea of rent was something paid in hard cash, originally it was some service or thing rendered, and in former days when lands were granted by great lords and knights to tenants it was on the promise to furnish horses, men and so on. In process of time these services came to be exceedingly irksome and troublesome, and were commuted into a money payment. An ancestor of Sir Walter Scott held certain lands by payment of one red rose per annum. The rent paid by the city in the reign of King Henry III. for the properties mentioned had never been commuted.

Are They Dangerous --the imitations of Pearlina? How are you going to find out? A few washings with them won't show any damage. It's only after some months, when your clothes go to pieces suddenly, that the danger can be seen and proved. Are you willing to risk your own clothes in the experiment? It is better to be sure that you are safe, by using the original washing compound--Pearlina. All the others are founded upon that. Will it pay to use these imitations? Figure up all that they may offer--prize packages, cheap prices, or whatever it may be--and put it against what you may lose.

Send it Back. Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlina." IT'S FALSE--Pearlina is never peddled, and if your grocer sends you something in place of Pearlina, be honest--send it back.

PABST MILWAUKEE BEER WINS. A VICTORY OVER THE ENTIRE WORLD. CHARLES JOHNSON, WHOLESALE AGENT, NEGAUNEE.

AIR DOES NOT KILL. The Wind Preceding a Shot Found to Be Harmless. The old belief that projectiles sometimes kill men in battle without hitting them must be abandoned in view of recent scientific experiments. It was formerly supposed that the air compressed and driven before the projectile, and technically called "the wind of the shot," was capable of striking a fatal blow, and even army surgeons have assented to this theory. But, says Youth's Companion, experiments have shown that the air driven by a projectile, while capable of being instantaneously photographed in the form of a wave, does not possess sufficient energy to produce any destructive effect. Another theory which recent investigations have overturned is that the explosive effect sometimes exhibited by bullets is due to compressed air driven into the wound. Experience shows that the appearance of explosion arises from the nature of the substance penetrated by the bullet. If this substance is plastic or watery, the impulse of the projectile is distributed laterally in all directions among its particles, and they are driven asunder. Such an effect has been noticed in battle when bullets have entered the brain, and accusations of using explosive projectiles, contrary to the comity of nations, have been based upon them. By firing bullets into wet dough, every indication of an explosion has been produced, although the same bullets, fired with identical velocity, into solid substances like bone, made only round, clean-cut holes.

PROPOSED GAME LAWS.

Synopsis of the Three Bills Now Pending Before the Legislature.

WILL MAKE THE MARKET HUNTERS TIRED.

Every Sportsman Should Urge His Local Member to Vote for All These Bills.

THEY SHOULD BE PASSED.

A committee was appointed by the recent game law convention at Lansing to draft bills in accordance with suggestions approved there and at the convention held in this city. Three bills have been prepared, one to regulate the killing of game, one concerning fish and a third regarding the transportation of game.

Under the proposed law the open season for deer is made Oct. 15 to Nov. 15, both inclusive, thus giving thirty-one days for shooting. In certain counties of the lower peninsula all killing of deer is prohibited for eight years.

Hunting with dogs is prohibited and anyone may kill any dog found pursuing a deer without any liability civil or criminal. The owner or possessor of any dog found following deer is guilty of violating the law.

PAINLESS CHILD BIRTH.

Mrs. FRED HENT, of Glenville, N. Y., says: "I read about Dr. Pierce's Favorite Prescription being so good for a woman with child, so I got two bottles last September, and December 13th I had a twelve pound baby girl. When I was confined I was not sick in any way. I did not suffer any pain, and when the child was born I walked into another room and went to bed. I kept my Extract of Smart-Weed on hand all the time. It was very cold weather and our room was very cold but I did not take any cold, and never had any after-pain or any other pain. It was all due to God and Dr. Pierce's Favorite Prescription and Compound Extract of Smart-Weed. This is the eighth living child and the largest of them all. I suffered everything that feels could suffer with the other babies. I always had a doctor and then he could not help me very much, but this time my mother and my husband were alone with me. My baby was only seven days old when I got up and dressed and left my room and stayed up all day."
