MARQUETTE SANATORIUM.

THE MARQUETTE SANATORIUM not only receives patients for treatment but others who need a quiet hygienic home for rest and recuperation. Use is made of all forms of baths, massage, Swedish movements, the vibratory treatment, electricity, oxygen, super-heated air, cupping, special dieting, etc., etc. It is well known that all cases of sickness, both medical and surgical, do better under sanatorium care and treatment than at home. All cases are helped and many seemingly hopeless cases of chronic invalidism are readily cured. For rates and full particulars of our cottage plan, and most wonderful climatic advantage over all other points, address

R. C. MARKHAM, M. D., THE MARQUETTE SANATORIUM, Superintendent. (6-29-4f) Marquette, Mich.

PEACE AT SPRING VALLEY.

Miners Adopt Resolutions Declaring That All Men Are Free and Equal

AND NEGROES WILL BE ALLOWED TO RETURN.

Pledge Themselves to Maintain Law and Order and Are Ready to Resume Work.

THEIR DEFIANT SPIRIT GONE.

SPRING VALLEY, Ill., Aug. 7.—The state troops, for the present at least, will not be ordered to this turbulent town. Peace has been declared. This was brought about through the efforts of Colonel Bayle, assistant adjutant general, who was sent here by Governor Altgeld to restore peace if possible. He was successful and the miners of Spring Valley this afternoon adopted a resolution declaring that all men were free and equal and that the negroes could return. At a conference with city officials and prominent citizens the colonel outlined the governor's policy.

"The governor sent me here," said Bayle, "to investigate the trouble and ascertain where the blame lies." He also instructed me to bring about a settlement if possible without the aid of state troops. The governor told me that all American citizens, regardless of race or color, were to be protected. If I find the local authorities unable to maintain law and order then the state troops will be sent. Law and order must be enforced at any cost.

Colonel Bayle was informed by Sheriff Clark, Superintendent Dalzell and others—citizens and miners—that no one had as yet been killed. All admitted, however, that one hundred citizens all colored, had been driven from their homes by a mob composed of Italian, Pole and Hungarian miners. Many shots were fired and some of the colored miners wounded and brutally beaten in the melee. These negroes—men, women and children—had been driven from their homes and forced to go to Seatonville. As to this outrage all were agreed, but that any one had been killed or fatally wounded both the company officers, miners and county authorities denied. Colonel Bayle was then informed that the miners were to hold a mass meeting this afternoon at which the following resolutions were to be presented for adoption:

"As a race conflict has taken place in this city resulting in no loss of life, but in serious hardship and inconvenience to a considerable section of this community, we, the miners of Spring Valley, declare it to be our belief that all men, regardless of race, color or creed, are born with the same equal rights and should enjoy the same opportunities in the pursuit of life and happiness; we denounce any attempt at suppressing these rights as unjust and barbarous and pledge ourselves to maintain law and order so far as lies in our power.

"We are now ready to resume work providing the Spring Valley Coal company is ready to start the mines; we denounce the lying reports misrepresenting and slandering sent to the Chicago papers. These dispatches were in the main infamous, distorted and exaggerated beyond human reasoning. In denouncing these atrocious misrepresentations we hold as accountable the publishers of the Chicago press, who could have easily informed themselves as to the actual truth of the situation.

At the appointed hour about six hundred miners assembled on the public square at a mass meeting. It was a curious gathering. Every nation in eastern and southern Europe was represented. Every motion that was made at least six times and each time in a different language. When the resolutions had been read in the various languages Chairman Haney asked if any one desired to speak. In response came numerous inquiries as to whether the negroes would come back if the resolutions were adopted. To these inquiries the chairman replied that the law must take its course and peace be preserved. This did not seem to meet with general approval and many left the meeting. At length the chairman put the question. The vote was about tie, but the chairman declared it carried. The meeting then adjourned.

When the meeting adjourned those who had been instrumental in calling it met at the Spring Valley Hotel with Colonel Bayle, the county officials and representatives of the coal company. Most of the questions were proposed by James O'Connor, president of the then State Miners' union. It was during this questioning that it developed that Manager Dalzell would willingly take back all the miners who had quit work save those who had committed crimes. Dalzell explained that the colored men who had been driven from the mines were anxious to come back. They had sent word to this effect. "I replied," he continued, "that if they wanted to come back they could do so. Under this resolution was that not right?"

"It was," said O'Connor, "only you must not hold us all responsible if something should be stabbed in the backs." O'Connor requested Dalzell to wait two or three days after the mines started before he asked the colored miners to return. Dalzell said that he would ask no one to come to work, but that if the colored miners asked for work he would take them at once. He then turned to Mayor Delmagro and said, "Are you ready to protect them?"

The mayor replied indirectly that he would do the best he could. This was satisfactory to Dalzell and he concluded by informing all present that he was satisfied with the resolutions and the conference and that he would advise the colored people who had been driven out that they could come back. The representatives of the miners said they were satisfied and Colonel Bayle said he

was pleased to see an amicable settlement. The meeting then adjourned.

Notwithstanding the miners' resolutions it is generally believed that if the negroes return to work there will be trouble.

CHICAGO NEGROES BUY RIFLES.

CHICAGO, Aug. 7.—The police this afternoon received information which leads them to believe that colored men of this city have perfected an organization and are arming with the intention of attacking the Italian miners at Spring Valley. The information came from a number of pawnbrokers who stated that they had been approached during the day by colored men who were anxious to purchase a number of Winchester rifles. In several instances purchases were made, but as a general thing the pawnbrokers did not have enough rifles to make a deal with the colored men. One of the would-be purchasers said when asked what he wanted to do with the rifles, "Oh, we will show the dagoes what we want with them."

NEGRO REFUGEES EXTENDED SYMPATHY.

SPRINGFIELD, Ill., Aug. 7.—A mass meeting of colored citizens was held this evening to consider the race war at Spring Valley. Representatives of the colored race present felt that the meeting was one of great importance to their people and called for conservative action. No incendiary speeches were made and conciliation was urged. A committee was appointed to confer with the committee of colored citizens of Chicago who went to Spring Valley today. Resolutions were adopted and sent to the refugees at Seatonville stating that the colored citizens of Springfield would co-operate with them in anything that might be right.

ROCKFORD, Aug. 7.—The negroes of Rockford held a largely attended meeting this evening and passed a resolution of sympathy for their people in Spring Valley and voted to extend moral and financial aid to them. A committee was appointed to solicit funds.

INDIAN SCARE IS OVER.

And the Bad Redmen Have Returned to Their Reservation.

WASHINGTON, Aug. 7.—Commissioner Browning today sent a telegram to Agent Teter of the Fort Hall reservation, Ida., acknowledging the receipt of a telegram from him in which he informed the Indian bureau of the return of the Indians to their reservation and their good conduct while away from it. The commissioner added: "It is exceedingly gratifying to all the friends of the Indians everywhere that they have returned peacefully to their reservation and gone to work without having committed any act of violence against the persons or property of the whites. This will certainly be to their lasting credit. It is in my power to have a faithful investigation of the killing of the Indians made and see that justice is done. I am looking for a full report from you giving the details of the whole affair."

FRANCE LIKES THE COLUMBIA.

News has reached the navy department that the French government has shown its appreciation of the fine qualities of the fleet United States cruiser Columbia by ordering the immediate construction of two vessels as the duplicate of the famous American flyer as they can be made in the absence of our exact plans.

MUST BE PROTECTED.

Denby's Strong Demand as Regards Americans in China.

WASHINGTON, Aug. 7.—United States Minister Denby has taken prompt and energetic steps for the protection of American missionaries in China. Mail advices from him show he made a sweeping, peremptory demand on China for the fullest protection of all Americans in China, redress for depredations on their property and for the capital punishment of the perpetrators. What answer he received is not known.

Advices to the department indicate that no Americans were killed or injured in the recent outrages. Admiral Carpenter, commander of naval forces in Chinese waters, has been instructed to assist in the protection of Americans, take its course and peace be preserved. This did not seem to meet with general approval and many left the meeting.

LONDON, Aug. 7.—Archdeacon Wolfe cables sent to protect the mission at Ku Cheng plundered it and that no reliance can be placed on the Chinese authorities.

OMAHA COUNCILMEN REBUKED.

Disobeyed Court's Order and Approved A. P. A. Commissioners' Bonds.

OMAHA, Aug. 7.—After convincing the ten members of the city council who defied the laws and the court's order on last Friday that they acted without precedent and were really in open contempt of court, Judge Hope-Carpenter today dismissed them with a severe rebuke. The council had been ordered by the court not to approve the bonds of the A. P. A. commissioners, but did so in defiance of the order. It was expected the district court would imprison the members for contempt and the room was crowded at the trial. The case of the constitutionality of the new commission is still being argued.

PASSENGER TRAIN DITORED.

Many People Killed and Wounded Near Albuquerque, N. M.

ALBUQUERQUE, N. M., Aug. 7.—A serious accident occurred tonight on the Atlantic & Pacific at Grant station. Two sleepers and two day coaches of the train which left San Francisco Monday night went into a ditch. It is reported that twelve people were killed and twenty-five wounded. No further particulars obtainable at present.

Forecast of the Weather.

WASHINGTON, Aug. 7.—9 p. m.—The weather bureau reports the following as its forecast for the next twenty-four hours. For upper Michigan: Fair; warmer; southerly winds.

IN FR. MARQUETTE'S MEMORY

Big Celebration at St. Ignace Yesterday All That Could Be Desired.

GOVERNOR RICH AND OTHER NOTABLES PRESENT.

Town Profusely Decorated and Many Visitors in Attendance—Synopsis of Principal Addresses.

IT WAS A GRAND SUCCESS.

ST. IGNACE, Mich., Aug. 7.—[Special.]—Today—the day set apart by the people of St. Ignace to do honor to the memory of the famous missionary and explorer, Pere Marquette—unfortunately broke cloudy, but this fact in no wise lessened the great ardor of the citizens and the multitude of visitors who had assembled to make this day mark an epoch in the history of St. Ignace. The exercises were intended to inaugurate a movement toward the erection of a suitable monument over the grave of the devoted savant of Christianity.

All here joined hands in the effort, and when it became known that Governor Rich and other distinguished gentlemen would be present, the success of the celebration became assured. Excursions by train and boat brought great crowds and the gentle missionary, benignly looking down upon the scene of his former labors, would have felt surprised at the life and activity shown at the place which he had described as a "bleak, exposed and barren wilderness."

The town was profusely decorated, the memorial arches erected by Father Keul and congregation of St. Ignace church, by the local members of the G. A. R. and by the ladies of the Eastern Star lodge (who also handsomely decorated Father Marquette's grave being worthy of special mention). The exercises took place at the park on the heights, commencing at 2 o'clock in the afternoon. After music by the band, Mayor Connors welcomed the visitors to the city. He was followed by the Rev. Father J. A. Keul, who addressed the assembly on "The History of the Grave of Marquette in St. Ignace." A synopsis of Father Keul's address follows:

Mr. Chairman, fellow citizens, ladies and gentlemen—We are assembled today in a noble cause; a high purpose actuates this meeting, intensified by the knowledge that we stand on historic soil. We unite to honor the hero, the missionary, the scientist—explorer—Marquette—in sight of his last resting place, with the true spirit of American love.

On the 13th day of May A. D. 1675, Marquette, the guardian angel of these shores, the black-gowned friend of the Indian explorer of the Mississippi river, died at the age of thirty eight years. Father Marquette was buried by his own request where he died and his funeral dirge was sadly wailed by the waters of Lake Michigan for two years.

We have assembled today to do his memory honor. Immortal spirit of Marquette! Nearly two centuries have passed since that day and your memory still lives and will live as long as history and fame will not perish from the earth. Great events do not happen by chance. We can probably understand that Marquette before he breathed his pure soul into the hands of his Maker, gave instructions for his future last resting place. The Kishkakon Indians, instructed in the truths of Christianity by Marquette himself, carried out two years later, his last desire of his heart. They opened their tomb, took out the body and according to their well known custom, prepared it for the long journey to St. Ignace. He was taken dead, whether living he was journeying to reach when death overtook him. The Relations, the most authentic history of the Jesuit missionaries state, that in that funeral cortege there were nearly thirty canoes.

As they approached St. Ignace Father Notvel, who was the superior of the house, went to meet them accompanied by the French and Indians of St. Ignace, and having caused the convey to stop he made the ordinary interrogations to verify the fact that the body which they bore was really Father Marquette's. The body was then carried to the church and the next day—Tuesday, June 9, 1677—it was deposited in a little vault in the middle of the church. This is written history and cannot be questioned. Now to the discovery of his grave, 166 years after this last episode in his life, under date of 1877.

The late Rev. Father Jucker was the discoverer. The honor of finding the ruins of the old mission, on the claim of Mr. Patrick Murray, belongs to the late Mr. Patrick Murray as well as to Mr. Peter Grondin. A large cross was known by the French and Indians to have stood on or near the beach of East Moran bay, and the tradition is that the cross marked the site of the old church that once stood there. It was this traditional lore that led to a close study of the Jesuit Relations and verified by La Hontan's history. This study plainly settled that the old mission house, in which Father Marquette's bones were buried, stood no place else than at Point St. Ignace. But to discover the exact spot after two hundred years and after all traces of it were obliterated was now the bent of the zealous Jucker.

On May 4th 1877—nearly two hundred years after Father Marquette's burial—Peter Grondin occupied in clearing ground on claim 19, for Mr. Patrick Murray, Jr., discovered a rude foundation, thirty-six by forty feet in size, the smaller side facing the lake. Father Jucker immediately repaired to the spot. This old foundation consisted of flat stones, covered with sand or soil. Immediately adjoining it to the west were plain traces of a large building, divided into three compartments, having three fire places. The whole plan looked like the mission of the Jesuits, with the church adjoining, the house, sacristy and workshop. But it was the church that attracted Father Jucker's attention. There was a hollow about five feet deep in the southwest corner of the building. That they had now discovered the old Jesuit mission they had no doubt. The chief source for ascertaining the exact locality of the mission was found in the second volume of La Hontan's travels, which contains a description and plan of the mission at St. Ignace as it was in 1688, eleven years after Marquette's burial.

At sight of the plan all became clear. The old mission church found, the grave of

COPPER COUNTRY NEWS.

First Annual Bicycle Tournament at Hancock Driving Park, Tuesday, Aug. 20.

SECOND ONIGAMING CLUB REGATTA TOMORROW.

Commander Booth of Salvation Army Fame Will Visit District—Arnold Mine Resumes Operations.

HOUGHTON.

A second regatta will be sailed by yachts of the Onigaming club on the clubhouse course, beginning at 2:30 p. m. Friday of this week.

Nick Pezzy, a notorious character from Calumet, who attempted to pass a \$20 confederate bill at Section 16, Calumet, on the occasion of the Austrian picnic, but who found that the foreigner was well able to distinguish between genuine money and the spurious article, pleaded guilty on Monday and was sentenced to one year in the branch prison at Marquette by Judge Hubbard.

The Hancock township school board will build a new school house at the Salmon Trout mill of the Atlantic company, where there are already over fifty children of school age, with the prospect that there will be fully one hundred before spring.

An examination of candidates for admission to the Michigan Agricultural college will be held in connection with the teachers' examination to take place at the Rock school house on Thursday and Friday of next week.

The Hurontown baseball club has chartered the Hennes and will go to L'Anse next Sunday morning to play a game with the club there. A limited number of excursion tickets will be sold.

William J. Evans left Tuesday afternoon for his home at Great Falls, Mont., after visiting Houghton county friends and relatives for a week.

Mayor J. H. Jacobs of Marquette was in Houghton on business yesterday.

HANCOCK.

The lovers of cycling have become interested in the sport and propose giving the first annual bicycle tournament of the copper district at the Hancock Driving park on Tuesday, Aug. 20. Prizes aggregating \$300 will be offered, but if the management expects to secure the entry of the leading wheelmen of the county it will be necessary to change the prizes from cash to medals of equal value, as has been done by the Sons of St. George for the bicycle races to be pulled off at Marquette on Aug. 17. The rules of the League of American Wheelmen, which governs all cyclists with laws like those of the Medes and Persians, are ironclad and any person entering a race for money, no matter how small the sum, is a professional for all time to come, even if he fails to make a better record than a mile in ten minutes.

The Hancock baseball team will play the Baraga team on the grounds of the latter next Sunday, going down on the Valerik. All who wish to make the trip can be accommodated upon application to Captain Peter Goulette of the Hancock club.

Mr. and Mrs. J. H. Senger are spending a short vacation at Potosky and Mackinaw.

CALUMET.

Commander Ballington Booth, the head of the Salvation Army in the United States, will make a visit to the copper district within three or four weeks, accompanied by his wife, Mrs. Maud Ballington Booth. The visit of Commander Booth and his wife to the copper district is being looked forward to with great delight by the Salvationists.

Montrose commandery, Knights Templar, which includes in its membership sir knights of Houghton, Keweenaw, Ontonagon and Baraga counties, and is one of the most flourishing and best drilled bodies of Templars in the northwest, has arranged to take along the Fifth Regiment band on the occasion of the annual conclave at Boston at the end of the present month. It is needless to state that upper peninsula people will not be at all afraid to put their band in cultured Boston, and it is safe to predict that some of the bean-eaters who imagine the Lake Superior country still infested with scalp-hunting savages, and peopled with large, coarse miners wearing flannel shirts and bowie knives, bearded like the pard and full of strange oaths, after the style of Mayne Reid and his followers, will be just a trifle surprised at the turnout of Templars and musicians from the copper district.

The improvements on the road to Section 16 have been completed by William Anderson and the road is now among the best in the county—and Houghton county has without question the best country roads in Michigan.

Red Jacket lodge No. 134 voted at its last meeting to attend the A. O. U. W. reunion to be given at L'Anse on Thursday, Aug. 23, in a body.

Martha lodge No. 1, Daughters of Hermann, will give their first annual picnic at the Section 16 grounds on Tuesday, Aug. 30.

LAKE LINDEN.

The village tax roll is now in the hands of Marshal McKinnon for collection. He will be found on Fridays during the current month at the marshal's office all day and during the evening.

The old school hall in the Lake Linden school house, which has been the scene of so many gatherings, is to be done away with. The growing school population renders it imperative that the big room be divided, one room, the larger of the two, being used for a recitation room, while the smaller will be utilized for laboratory purposes.

The new steel smoke-stack of the Hecla boiler house begins to loom up like a lighthouse in a fog. When completed it will be 250 feet in height and by some 30 feet the highest stack in the upper peninsula.

John Faulk was awarded the contract

for the addition to the building of the First National Bank of Lake Linden, and has begun work on the job.

Born, to Mr. and Mrs. Henry Kettenbell on Saturday, Aug. 3, a son.

MINING NEWS.

Half a dozen men were set at work at the Arnold property, Keweenaw county, yesterday morning to clear up things preparatory to resuming mining work.

The Arnold undoubtedly possesses some very rich rock but so far as known the quantity is limited. Boston people take a great deal more stock in the Arnold than do the Lake Superior people who are best acquainted with the mine. The mine was closed down early in 1894 on account of the low price of copper. It employed less than a dozen men during the last two years of its operation and has one shaft down 518 feet on the ash-bed, has four levels opened and some stoping ground in sight. Both the Arnold and the Copper Falls were recently examined by H. C. Southworth and it is thought that an attempt will be made to consolidate the Arnold and the Copper Falls. The Copper Falls is a mine with fully equipped hoisting plant, mill and all facilities for making copper, while the Arnold is simply a promising sort of prospect. The high price obtained for Arnold stock on the Boston board is a striking example of what can be done for a mediocre property when it has "friends at court."

The last full year worked by the Copper Falls mine was in 1892, the mine having been closed down in August, 1892. The production of mineral was 27 tons from about 130,000 tons of rock stamped. The mineral is about of the lowest grade of any in the copper district, carrying about 62 per cent. copper, and the 1892 product cost the company fourteen and one-half cents a pound. The Copper Falls is also developed on the ash-bed, and under ordinary conditions gives employment to about two hundred men. It is to be hoped that the company will be able to make cheaper copper now than during the last year of its working.

A temporary engine house, 20 by 30 in size, is being built at the site of No. 3 shaft, Tamarack mine, to house the drums and boiler to be used in sinking the shaft the first hundred feet.

SUNDAY EXCURSION FARES

COMMENCING SUNDAY JUNE 16TH, 1895.

The Mineral Range and Hancock & Calumet R. Rds., will, commencing Sunday June 16th, and continuing during the Summer Season, sell round trip tickets between the stations designated below at the following very low fares:

Houghton and Hancock to Red Jacket, Laurium, Osceola and Lake Linden, 50c.

Lake Linden, Osceola, Laurium and Red Jacket to Houghton and Hancock, 50c.

Tickets are to be on sale Sundays only, are good on all passenger trains but are valid going and returning only on the date of issue.

ARE NOT FOR RICHES.

Heads of the Catholic Church Are Not Wealthy Men.

Few of Them Have Paid Much Attention to the Accumulation of Money—Some Who Have an Eye to Business.

The late Cardinal Manning was wont to say that the proper way for a priest or bishop to die was without money and without debts. The great English prelate followed out his own teachings in this respect, and it has been the usual rule with American bishops also. Few, if any, of them have died possessed of any personal fortune, although the opportunity to amass wealth was often present. Here in New York, says the Herald, for instance, the late Archbishop Hughes and Cardinal McCloskey could, if they had been so disposed, have easily accumulated fortunes through speculations or investments. Neither had anything to bother him at his demise. The late Archbishop Wood, of Philadelphia, was noted for his ability as a financier, having large experience in business before he entered the ministry. All his talent in this direction was exercised to improve the diocesan property. He left nothing of his own. The pioneer bishop of Brooklyn, Rt. Rev. John Loughlin, was famous for his shrewd foresight of real estate values. He secured property all over the city in the best sites long before the city limits enhanced their value. With the resources at his command he could have easily been a millionaire. All he disposed of in his will was his watch and a set of old spoons, which he gave to his sister. A year before his death the people of Brooklyn gave him a purse of twenty-five thousand dollars at the celebration of his sacerdotal jubilee. With this money he paid off the debts of some of the charitable institutions.

The only modern prelate on record who tried to make money was the late Archbishop Purcell, of Cincinnati, who started a banking annex to the Episcopal palace. What a disastrous failure it was need not be recapitulated here. Yet it was his brother more than the archbishop that was to blame in the matter, and the object of the scheme was not for personal gain. It was a means adopted to better the resources of the diocese to meet the demands of the increasing population for churches and priests.

Of the present members of the hierarchy of the United States Archbishop Ireland, "the conserved bizzard" of St. Paul, is probably the wealthiest. His personal fortune comes from land investments made before the marvelous growth of the western cities near his home and from railroad enterprises in which he had been included by the intimate and powerful friends he has among the western trunk line magnates. According to his admirers, the bulk of his income goes to the poor missions and churches that form no inconsiderable part of his province. Archbishop Corrigan has a modest patrimony from his father's estate. It is doubtful if he has increased it from the salary of his office, which, as has already been explained, is well balanced by the demands continually made on it.

He is more much interested in the completion of the new diocesan seminary near Yonkers. His personal contribution to it is the erection of the chapel of the institution. This will probably cost him seventy-five thousand dollars. Cardinal Gibbons does not get a very large income from the small diocese of Baltimore. It is well known that he hesitated for some time about accepting the red hat, for the reason that he was too poor to incur the very considerable expense that accompanied such an honor.

Archbishop Williams, of Boston, whose name has more than once been mentioned for a second hat, has also given this reason for a refusal. The other day he commemorated his sacerdotal jubilee, and one of the gifts from his admiring subjects was a check for fifty thousand dollars. Perhaps he may now see his way to an acceptance of a seat in the senate of the church, where, it is said, the pope desires to have him. Archbishops Feahan, of Chicago; Riordan, of San Francisco; Gross, of Oregon; Ryan, of Philadelphia; Chapelle, of Santa Fe; Kater, of Milwaukee; Janssens, of New Orleans, and Hennessy, of Dubuque, are all comparatively poor men. There is not a money spinner among them. Archbishop Elder, of Cincinnati, has a considerable reputation as a financial executive, but all his energies have been spent in getting the diocese out of the tangle into which the Purcell disaster threw its affairs.

Related to the Queen.

Victoria, queen of Great Britain and empress of India, has just given her royal and parental consent to one of her relatives entering upon a professional career in order to earn his living on the public stage. In an English paper the following business-like announcement appears among the court news: "A member of the queen's family is about to go on the stage as a professional singer. Countess Valda Glichen, the daughter of the late Prince Victor of Hohenlohe, the queen's nephew, more remarkable for her voice than her pocketbook, finds herself compelled to make her own living by singing."

The Newly-Rich.

Wealth and ignorance sometimes go hand in hand. To a jewelry store in a small town there drove one day a handsomely dressed lady, who entered, and, after some preliminary flourishes, asked for a dozen souvenir spoons. "A dozen souvenir spoons?" repeated the clerk in natural surprise. "Yes," replied the lady, placidly, "a dozen souvenir spoons—to eat souvenirs with, you know. My daughter makes beautiful souvenirs." The clerk turned pale, and exhibited a tray of orange spoons, on a venture. She selected a dozen and carried them away, and the clerk is still wondering what she really wanted.

YOU Put Your Foot In It when you buy inferior soap instead of the genuine SANTA CLAUS SOAP The favorite of every woman who ever used it either in the laundry or for all around the house cleaning. Sold everywhere. Made only by THE N. K. FAIRBANK COMPANY, Chicago.

J. H. OSTRANDER, EXPERT OPTICIAN, At Rohrer's Jewelry store, Hancock, all this week. He has No Superiors and Fewer Equals anywhere. All examinations free.

Farewell Tour of the Upper Peninsula.

SORE MOUTH IN BABIES. Simple Treatment of a Very Annoying Affliction. Young children are very liable to affections of the mouth which, though not dangerous, invariably produce discomfort and fretfulness. One of the commonest causes of sore mouth in babies is to be found in the irritation of teething, though any local irritant will cause the same trouble. Another frequent cause is gastric disturbance, a fact which is shown by the acidity of the stomach and by the character of the intestinal discharges. The first indication which usually appears in cases of inflammation of the lining membranes of the mouth is restlessness on the part of the infant, and an indisposition to nurse. On looking into the mouth we observe that the gums and other parts are reddened and inflamed in certain places, and here and there are white specks like pimples. If the inflammation is not cared for and promptly subdued, these pimples soon break down and become open sores. The principal point in the treatment of sore mouth is to correct any general or special cause upon which the local trouble seems to be dependent. The bowels should be kept regulated, and the acidity of the stomach controlled. If the disturbances of the stomach and bowels are not very marked a little magnesia or Hincowater added to the milk, or given separately, will prove all that is required. As a local remedy we may wash out the mouth with a mild preparation like borax and water or a solution of alum and carbolic acid. There is no special rule to be followed in preparing washes for the mouth, except that they shall be cleansing and non-irritating. A very good way to treat sore mouth is to swab out the mouth carefully with warm water two or three times a day, afterward putting on the tongue a pinch of powder made of equal parts of powdered white sugar and borate of soda. We should remember, however, in treating this affection, that it rarely cures of itself, but is almost always significant of some more general disturbance.—Youth's Companion.

HOTEL FOR RENT.

I will rent or lease the Commercial House, Red Jacket, on very reasonable terms. This is the oldest established hotel business in the largest town of the Upper Peninsula and is located in the heart of the city. An excellent opening for a good man. For particulars address or call upon

R. J. BURGE, Commercial Hotel, Calumet, Mich.

Band Leaders

Send for our Grand Band. We furnish all the instruments and supplies. Established Agents for FISHER PIANOS, \$8,000 in use. DETROIT MUSIC CO., 184-186 Woodward Ave., DETROIT, MICH.

MOTHERS recovering from the illness attending childbirth, or who suffer from the effects of disorders, derangements and displacements of the womanly organs, will find relief and a permanent cure in Dr. Pierce's Favorite Prescription. Taken during pregnancy, the "Prescription" MAKES CHILD BIRTH EASY by preparing the system for parturition, thus assisting nature and shortening "labor." The painful ordeal of child birth is robbed of its terrors, and the dangers thereof greatly lessened, to both mother and child. The period of confinement is also greatly shortened, the mother strengthened and built up, and an abundant secretion of nourishment for the child promoted.

THE MARRIED WOMAN be delicate, run-down, or overworked, it worries her husband as well as herself. This is the proper time to build up her strength and care those weaknesses, or ailments, which are the cause of her trouble. Dr. Pierce's Favorite Prescription dispels aches and pains, melancholy and nervousness, brings refreshing sleep and makes a new woman of her.

Mrs. ABRAM LYON, of Lawrence, Jefferson Co., N. Y., writes: "I had been suffering from ulceration and falling of the womb, for several years, and during the birth of my youngest child, I consulted all the physicians around here, and they gave me up and said there was no help for me. At last, almost discouraged, I began taking Dr. Pierce's Favorite Prescription and took five bottles. It is three years since I have not had any return of the trouble. I feel very grateful, and in fact, one year ago I did not think I should have alive now if I had not taken your medicine."

WANTED—FOR RENT OR SALE.

WANTED—Situation as housekeeper by middle aged lady. Can furnish excellent references. Address 122 W. Ohio street. (8-2-1)

Henry and Joseph Standart of Detroit are at the Hotel Superior and will leave Friday morning for the Huron Mountain club.

Presque Isle Lodge, Knights of Pythias, will work all three ranks of the order this evening. Visiting members are cordially invited to attend.

About one hundred and fifty people from this way were carried by the South Shore road into St. Ignace yesterday to attend the Father Marquette Memorial celebration.

SHORT LIVES OF PRESIDENTS.

Only Eight Chief Magistrates Have Exceeded Their Expectations of Life. From some recent life insurance statistics it appears that the presidential office is a fatal one.

At Washington's inauguration his expectation of life, according to the insurance tables, was sixteen years, but he lived only ten years. The next seven presidents not only lived out their expectation of life, but the two Adamses, Jefferson, Madison, Jackson, Van Buren and Tyler exceeded it.

But Harrison fell nine years short of his expectation of life, Polk seventeen, Taylor eleven, Pierce seven, Lincoln sixteen, Johnson seven, Grant seven, Hayes three, Garfield twenty-two and Arthur fifteen. It is true that Lincoln and Garfield were assassinated, but the assassination of a president should always be taken into account as a possibility.

Our first eight presidents exceeded their expectation of life forty-five years in the aggregate, while their successors fell one hundred and ten years short. This may seem strange when it is recollected that the length of human life has steadily increased during the century. The compiler of these statistics suggests an explanation.

"The fact seems plain to me that the presidential office is becoming too heavy a burden for any man to assume without almost certain shortening of his life. The responsibility is so great, the tension so destructive, that I never again expect to see a president survive the full period of his natural expectation."

Evidently the presidential office is a dangerous one, but very few of our patriotic statesmen will ever decline it on that account.—Atlanta Constitution.

A Queer Savings Bank.

Five million francs in a warming pan was the lucky find of the prefect of the Seine the other day. An old lady of eighty-three named Taries had died in her country house, leaving the city of Paris heir to all her property, which she said amounted to five million francs. After her death the country house and her flat in the Rue de la Boetie were searched without anything being found; she was not known to have any banker, and the authorities were coming to the conclusion that they were the victims of a mystification, when some one opened an old warming pan without a handle, stowed away under a sink, and found the sum there in gold, bank notes and bonds.

City of London Proper.

The city of London has an area of about 1 square mile—Temple Bar bounds it on the west and Smithfield on the north; on the east it includes the Tower. In 1881 its population was 50,625; in 1891 it had fallen to 37,705. This, however, was the resident population; the day population is estimated at nearly 400,000 persons.

HOW TO REST.

An Accomplishment in Which Most of Us Are Sadly Deficient. Having worked ourselves out to such an extent that a very few of us are sound and healthy, it is about time for us to begin resting. But to be benefited by it we must go about it in a more rational way than we have gone about doing our work.

Our tired, ill-nourished brains and bodies clamor for rest, and we give them the alcoholic spur. In this way they are kept on a jolt-trot until they give out utterly, and then the coroner or able physician officially blames the untimely demise on heart-failure, or apoplexy, or alcohol, or some disease due to the failure of a particular organ to do its whole duty.

The fact is that these are nothing more than different names for one thing—exhaustion from lack of rest. The pains, aches and discomforts that accompany these ailments are nature's timely and persistent calls for rest, and warnings of impending danger.

The trouble with many of those who are perfectly willing to take physical rest is they do not know how to go about it. Our household furniture was fashioned to suit the notions of our ancestors, who were not in the habit of resting. Chairs were merely benches or stools with backs to them, while sofas were simply longer benches with shorter backs.

As many of you know from experience, the old-fashioned chair had a straight back. It was thought that this would in some measure counteract the tendency of men and women to become hump-backed. It did not occur to them that this deformity was due to the exhaustion of physical energy, and not to carelessness on the part of the individual. Round shoulders and hollow chests are due to the relaxation of the muscles of the back, and no amount of straightening up will remove the cause. When the muscles of the back become weak from loss of energy, the muscles of the chest naturally pull the shoulders forward. To restore the body to a perpendicular position, the muscles of the back must have their energy restored.

Lying flat down and stretched out at full length is the most restful position the human body can take, because it requires no effort whatever to maintain this pose.

The Japanese understand this, and they make good use of their knowledge. Instead of having their houses full of stiff-backed chairs, they spread soft rugs, skins or cushions on the floor or low platforms, upon which they recline when resting, reading or whiling away the time. In this way they stop the waste of the energy necessary to keep one in a bolt-upright position. The blood circulates more freely, because there is no tension on the limbs. This reduces the labor of the heart to a minimum. The energy thus saved goes to restore tired or weakened organs or to the invigoration of the brain.

We must rid ourselves of the notion that it is a sign of laziness to lie down or lounge about on the floor, or cot or bed; also that it is not proper for women to lie down when tired.

Were our women in the habit of taking more rest, and taking it properly, they would not be compelled to wear stays in order to keep them straight. Having to wear these constantly, the muscles of the chest and back do not develop normally, and are, therefore, weaker than other muscles of the body.—Pittsburgh Commercial-Gazette.

ELECTRIC LIGHTING IMPROVED.

The System Has Come to Stay, but It Is Still Crude.

An expert points out that, while in the early days of electric lighting people thought much more of the mere fact of having electric light than of the actual efficiency they derived from it, the consumer of to-day is usually perfectly well able to tell whether he is getting full value in light for the money he is paying the central station; so that between the strict exaction of the customer and the competition of rival lighting systems, an electric light company can only hope to succeed by the best possible service. The whole subject of lighting is in a transition state. In factories and large shops the old practice of allowing the rays of the arc lamp to fall downward will probably soon be discarded. It is found that by inverting the lamp and throwing the light to the roof, which should be whitewashed or white painted, the powerfully reflected rays are so different throughout the building as to give the maximum efficiency without straining the eyes of the workmen. Much of the present outdoor lighting is condemned as crude and unscientific. The street arc lamps dazzle and strain the eye, throw sharp shadows and waste light. The next improvement will probably be the use of lower candle power lamps, placed at shorter intervals, and having reflecting hoods. The bottom half of the globes will be semi-opaque and possibly tinted a deep orange color. This would neutralize the painful glare of the arc lamp and give the streets the effect of being illuminated with Chinese lanterns. In domestic lighting shades having prismatic corrugations on their surfaces are coming into vogue. They give a good diffusion of light, with but little absorption. An authority on decorative lighting says that although many new ideas have sprung up in the distribution of masses of light in interiors, none have yet superseded in beauty and effectiveness the system of putting lamps out of sight and lighting the room entirely by diffused and possibly colored light. This will probably be the method of illuminating churches in the future. In churches where it has already been adopted the effect is described as so infinitely restful and appropriate that in comparison the ordinary methods of church lighting seem garish and barbarous.—N. Y. Times.

On account of change in business we will close out our stock of

GLASSWARE,

LAMPS, BOOTS, SHOES,

FURNITURE

and other goods at auction, commencing today, July 30th and continue until sold. These goods are new and some of the latest designs, so come early and get bargains.

Farm lands for sale in lots to suit buyers in town of Munising. Well located, soil good as any in Northern Michigan. Prices low; terms easy. These lands near the new town building on the lake where the railroad is building. E. A. WETMORE, Enquire of W. S. Wetmore, Marquette, July 15, 1895. (7-16-1)

DAYS OF ANGUISH.

Dread, Doubt and Despair Invade Homes.

Unguarded Babies Succumb to Intestinal Disease.

Question of Infant Food Confronts Mothers.

Under-Fed Babies Fall Easy Victims of Cholera.

No Touch of Summer Disorder With Lactated Food.

If a mother's blind love could save the little ones what a happy world this would be.

There would be no more cholera infantum nor wasting summer disease that every year carry off so large a proportion of the babies under five years. The love of parents is strong, but unless intelligently directed can do little to ward off these diseases that threaten the tender years of babyhood.

Only when children are kept fully nourished and unexposed to contamination in their food do they run no risk from hot August days and nights. Diarrhoeal diseases, the great scourge of infants, are wholly due to improper food, encouraged by high temperature. But for this ignorance and carelessness in baby's summer diet the hot months might be as healthful as any.

One has only to contrast the healthy full-fed happy condition of babies fed on lactated food with that of the many badly nourished drooping ones whose mothers persist in keeping them on the old diet upon which they are plainly not thriving. Babies that are not gaining in weight, as their mothers wish, and who show too little animation and interest in things about them, soon gain a liveliness and zest for living when fed with this splendid nutriment. They gradually cry less and less; their sleep becomes sound by night, and by day they are bright and noisy and happy.

Such is the great difference between babies that are nourished by lactated food and those that are poorly because improperly fed.

In its composition lactated food is well nigh identical with baby's earliest and best food—healthy breast milk. As a food, therefore, for mothers who nurse their little ones with difficulty, especially through the summer months, lactated food is ordered by physicians with the most gratifying results.

For invalids who require an easily digested, absolutely pure, rich aliment, there is nothing equal to lactated food.

La Flor de Lucretia is acknowledged by cigar smokers to be a superb article.

DON'T
Suffer with PILES when you can be cured easily, quickly and permanently. Ask your druggist for a box of Gem Pile Treatment. Take it according to directions and you will surely be cured. It is the only internal pile remedy on the market. Is recommended by all who have used it. Its use causes no inconvenience. It is entirely vegetable, absolutely safe, pleasant to take and guaranteed to cure.
For Sale by all "Up-to-Date" Druggists.

"THE CITY IS YOURS."

That Was the Hospitable Assurance That Welcomed Visiting Firemen to Ishpeming Yesterday.

LARGE DELEGATIONS ATTEND FROM ALL PARTS OF THE U. P.

Grand Parade of the Firemen Followed by Exercises at the Grand Stand. The Program Today.

IT'S A HUMMER.

The success of the great tournament of the upper peninsula fire departments, which began in Ishpeming yesterday, is already assured. The firemen and their friends arrived by every train on the South Shore line yesterday. Four departments, from Hurley, Bessemer, Ironwood and Ontonagon, arrived on the early train. Three extra coaches were put on at Bessemer and these, as well as the regular cars, were crowded. In fact many were obliged to stand in the aisles during the greater part of the trip. There were over one hundred people from Bessemer alone while there were at least as many from Hurley and Ironwood. The fire companies from these places were largely represented.

The Marquette and Republic departments arrived at 9:45 and the companies from the copper country and intervening points got here shortly before noon. An unusually large number of outsiders also came down from up the line and a great many from the neighboring cities are also here.

Although the extensive program did not open until afternoon the city was crowded from Monday and Tuesday morning. The Ishpeming people were out in force awaiting the arrival of the trains. As fast as the companies arrived they were escorted to the firemen's headquarters where each fireman was provided with a badge, thence to their hotels, where they were assigned rooms.

The decorations throughout the city are deserving of more than a passing notice. The large arch on Main street is attracting a great deal of attraction. When illuminated with its two hundred colored lights the effect is very pretty and the firemen have many compliments from visitors and others on the excellent taste and skill displayed on this particular arch. People stood around in crowds last night viewing the display. It is safe to say that a finer piece of work in that line has never been seen in the upper peninsula. The weather of Monday and Tuesday kept many from decorating but as soon as indications of better weather were visible every business man in the city procured material for decorating and the work was vigorously pushed. Many of the citizens worked all Tuesday night getting their places in shape while a large number began decorating at day-break.

The parade yesterday afternoon was a grand sight. The companies in line presented a good appearance and they were all largely represented. The line of the parade was practically as announced in yesterday's issue of THE MINING JOURNAL. Following the parade the firemen, as well as many others, assembled at the stands on Division street, where an address of welcome was delivered by Mayor Johnston. In substance the mayor said:

"It is with great pleasure and satisfaction, as mayor of the city of Ishpeming, that I welcome the members of the Upper Peninsula Firemen's association, also the Hurley fire department and all guests assembled in our city, and I hereby extend you all a hearty welcome. It is our desire that, while you are here, you will make yourselves at home and that we will have a good time and if you will all look forward to this event with anticipations of pleasure, I hope and trust that you will all enjoy this reunion. I believe that the Upper Peninsula Firemen's association will be of great benefit to its members, not only in a social way but in many other respects. It will afford its members opportunities for doing one another good that could not well be achieved otherwise. Much can also be learned, through these gatherings, of the best appliances for fighting fires, etc. I can assure you that the city of Ishpeming and its citizens generally consider your presence here an honor and that we appreciate the honor you have conferred upon us in selecting Ishpeming as the place of your first grand meeting. I extend to you, and in fact all our invited guests, the freedom of the city and I again say to you that I sincerely hope you will enjoy your visit to our city."

Archie J. Scott, first vice president of the association, was called on to respond to the mayor's address of welcome. His remarks were brief and to the point. He said: "I wish to thank the citizens of Ishpeming on behalf of the association for the courtesies extended and for the kindly greeting you have given us. I am not surprised at the hospitality accorded us here as the hospitality of Ishpeming's people is already well known throughout the upper peninsula. On your banners you say the city is ours. I can assure you that we will take it and keep it until Saturday morning then you Ishpeming people can take the fragments. I hereby accept the city in behalf of the firemen."

Hon. F. C. Chamberlain was in attendance and was called on for a speech. He was introduced by President Routhier and responded pleasantly. Mr. Chamberlain said he was pleased that he was a member of this happy gathering. When he left his home at Ironwood he did not expect to come to Ishpeming but he was glad that he had stopped off here. "I understand," said he, "the city authorities have ordered the police officers to disband until the firemen leave the town, and that the sheriff has been ordered to keep away (unless he desires to come here as a private citizen) until the tournament is over; that the keys of the city jail have been hidden at the bottom of the deepest mine in the city. I congratulate the citizens on their decorations and I

think they are unsurpassed in the history of any celebration ever held in Michigan. I am sorry for Ishpeming, but as the city is ours we will take pleasure in presenting the citizens with the few pieces left after we have departed from it."

The speaker alluded to the patriotism displayed by the firemen and also to how conspicuously and proudly the stars and stripes were displayed in the line of march as well as throughout the entire city. Mr. Chamberlain concluded his remarks by thanking the city for the courtesies extended.

The remarks of the different speakers were heartily received. Mr. Routhier announced that a convention of the association would be held at 7:30 o'clock and requested all firemen to be on hand. The meeting then closed and the firemen and their bands marched back to their hotels.

The program for today is as follows: Regulation hose race—First prize, \$75 silver trumpet; second \$50 silver trumpet. Run 150 yards to plug, attach hose, three full turns, lay 150 feet of hose, break coupling, and run up pipe. Take off springs, make coupling, break joint 50 feet further along and put on pipe. All connections to be made three full turns. 9:00 a. m., Marquette; 9:30, Republic; 10:00, Bessemer; 10:30, Hancock; 10:40, Ironwood; 11:00, Ishpeming; 11:30, Lake Linden.

Chief race—Prize, silver lantern. To be a handicap race according to weight and age of contestants. The shortest distance to be run to be 100 yards. 1:30 p. m., Regulation hook and ladder race—First prize, \$75 silver trumpet. Second, \$50 silver trumpet. Run with truck 200 yards to line, draw and raise a 20 foot ladder to an angle of at least 30 degrees, without the aid of springs, straps, platform or rear of truck, and send a climber to the top, starting from the ground, touching bottom rung. Time to be called when climber touches the top rung. 2:00 p. m., Ishpeming; 2:10, Republic; 2:20, Marquette; 2:30, Ironwood; 2:40, Bessemer; 2:50, Hancock; 3:00, Calumet.

Coupler race—Prize, gold badge each. Teams of two men to run 50 feet, break coupling of three full turns and attach pipe three full turns; time to be taken when pipe touches the ground; 3:30 p. m., Bessemer; 3:40, Hancock; 3:50, Marquette; 4:00, Ishpeming; 4:10, Republic; 4:20, Ironwood; 4:30, Lake Linden.

Hurdle race—First prize, gold badge; second prize, silver badge. To be run by any member of an association fire department; race to be over five hurdles, each two and one-half feet high; 5 p. m., Consolation hub and nut race—Prize, silver cup; two slowest teams in regulation hose race; 5:30 p. m.

Any team not on time ready to start when their time has expired will be debarred from that race. Contestants in other races must be on line within five minutes after the stated time or be debarred.

The judges selected by the executive committee of the association are as follows: J. B. Tibor of Ishpeming, E. C. Anthony of Negaunee, Chief Haight of Ontonagon, Chief Tolon of Escanaba and Chief McDonald of Houghton.

The time keepers are T. E. Smith, Jr., editor of the Firemen's Journal, Chicago, W. M. Brackett of the Game-well Fire Alarm company of Minneapolis and Chief Wolfelin of Hurley.

John S. Mennie of Ishpeming is the starter. The judges selected to determine which was the best appearing department in the parade were Mrs. John P. Outhwaite, Mrs. P. H. Davins, Mrs. H. O. Young and Mrs. W. H. Hood of Ishpeming and Mrs. J. W. Spear of Marquette. Up to a late hour last evening the ladies had not made known their decision.

The Bicycle Parade. All cyclists who desire to participate in the parade this evening are requested to assemble at the Nelson house as soon after 7:30 o'clock as possible. Each participant can use any variety of lantern desired. Some neatly decorated wheels will be in the parade and it is now quite certain that the turnout will be large. The procession will leave the hotel at 8 o'clock sharp, starting down main street as far as Division, down Division to the Cleveland-Cliffs company's office and back to the hotel again. The ladies are especially invited to come out with their wheels.

Voting Contests. Two voting contests were started at St. John's church fair in the opera house Tuesday evening. One is to determine which of two Ishpeming young men, Joseph A. Voelker and John D. Sliney, is the most popular. The prize to be given the winner is a handsome diamond ring. The other contest is between ten or a dozen little girls. The one receiving the greatest number of votes will be given a handsome bride veil, valued at about \$10. The attendance at the fair Tuesday and last night was quite large.

"Man and Master." The drama "Man and Master," produced last night at the Convent hall by members of the Catholic Dramatic club, was witnessed by a large and appreciative audience. The play is an excellent one and it was finely rendered by this capable company of amateurs. It is unlike most comedy dramas in that the plot is a strong one. While many startling and exciting incidents abound in the production sufficient comedy to keep the audience in good humor throughout the play is introduced.

The leading male character, Terry O'Gorman, a whole-souled, witty Irishman, is portrayed by Mike Navins. The character suits Mike to perfection and his work last night was highly commendable. As an Irish comedian Mike Navins improves at each succeeding performance and his work last night was far ahead of anything he has ever attempted in that line.

P. F. Small as James Blake, who was in the power of Martin Towers, the villain and murderer, played his part effectively, as also did D. J. Sliney, as Towers.

Thomas Dordon, as Ernest Vang, the lover, was very acceptable. Although his part was rather embarrassing at times Tom wasn't at all bashful.

J. G. Welch made a clever old man, he having the part of Hugh Vane, the wealthy father of Mabel Vane, whom Towers tried to wed for the sake of her father's wealth. J. F. LaBrecche, as Jack the jailor, was exceptionally good, and Neil Donahoe, as Bill the tough, brought down the house repeatedly. Miss Nellie Donahoe in the subtitle part of Flit Brand, made a decided hit. Her characterization of the romp was immense. She looked and acted the part to perfection. Miss Kate Welch as Mabel Vane and

ISHPEMING IN BRIEF.
Mrs. Gooding of Marquette is visiting Mrs. J. L. Bradford.
John Zoberlein and Paul Routinam are among the firemen down from Bessemer.
Mr. and Mrs. A. W. Myers left yesterday for Milwaukee and Chicago to remain two weeks.
Mrs. George Voelker has returned from her visit to relatives and friends in the lower peninsula.
William Johnson of Ewen, formerly of Ishpeming, came to town yesterday to take in the tournament.
A number of Ishpeming miners have gone to the Gogebic and Mesaba ranges during the past week or two.
The Misses Sadie and Jennie Benedict have gone to Sault Ste. Marie, having taken places in the New Parker Hotel.
The Main street Chinamen were the only persons on that street who did not decorate for the tournament, so the firemen decorated their place for them.
The Ishpeming and Baraga baseball teams will cross bats at the Union Park grounds this afternoon. The game will be called at 2:30. The admission will be twenty-five cents.

PYTHIANS AT THE BALL.

Reception at Hotel Superior Last Night Was Very Pleasant Affair.

TWO BALL ROOMS WERE PUT TO ACTIVE SERVICE.

New Pavilion Used First but Adjournment Taken Later to Dining Room of the Hotel.

IN HONOR OF KNIGHTLY VISITORS

The convenience of the Hotel Superior for a summer dancing party was well shown last evening at the reception given by the Pythians of the city in honor of the visitors from Chicago. The wide piazzas of the hotel were just the places for promenade or rest between dances and for those who wished to gaze upon the midnight beauty of the city. The large parlors and roomy corridors gave ample space for those who feared the chill of the night air and the two ball rooms used at different stages of the evening were both well adapted to the purpose. The fact that most of the members of Morse hose company paraded the streets in full uniform headed by the Marquette City band yesterday morning before taking the train for Ishpeming and the firemen's tournament. Reports received at the general passenger office of the South Shore road show that the gathering of the firemen is being well attended. From here over 125 people went up with the firemen on the morning train alone; over 350 came from the copper country; over 200 from the Gogebic range and over 100 from Republic. Add to these the contingents that came in by the Northwestern road and those on the later trains, of which reports have not been received here, and it is evident that not less than 1000 strangers were in Ishpeming yesterday. More are coming today and tomorrow, as the proceedings have just begun.

The ball opened in the dancing pavilion at the edge of the grounds and the new structure proved to be well adapted to its purposes. The floor was good and electric lights from the house plant shown upon the gay dresses of pretty girls and upon gorgeous uniforms. But the side screens which the pavilion will have when completed were not yet in place and some of the ladies found the place a little too airy as the night deepened. So about 10:30 an adjournment was taken to the house and in the big dining room the dance went on until about 9 o'clock. The Hotel Superior orchestra maintained its reputation of furnishing the best dance music ever heard here. All who love good music should congratulate themselves that Mr. Margulies has determined to settle here and will keep together this excellent organization for winter as well as summer parties. He is certainly the most competent orchestra leader that Marquette has ever possessed. Supper was served in the ladies' ordinary and was much approved by all present. Altogether the ball was most pleasant and the Marquette Pythians are to be congratulated upon the success of their efforts.

Gebeau-Cadarette.
Miss Marie Maude Gebeau and Mr. Nelson Cadarette were married yesterday morning at the church of St. Jean Baptiste, Father Vernare celebrating the nuptial mass. The church was prettily decorated with palms and ferns and there was a large attendance of friends. Miss Ozalia Gebeau, sister of the bride, was bridesmaid while the bestman was the groom's brother, Fred Cadarette. After the ceremony there was a wedding breakfast and reception at the house of the bride's parents, 347 West Washington street, and the newly wedded pair received the congratulations of many guests. The bride is a native of this city and has a large circle of friends, while the groom has been for four years draughtsman in the office of Chief Engineer Payne of the South Shore road and is very favorably known. Mr. and Mrs. Cadarette left on the 1:30 train for Montreal and Quebec and will spend about two weeks in visiting points of interest and relatives of both families. They will be at home to their friends at 746 West Washington street after September 1.

Was a Great Success.
The Flints gave last night one of the most successful entertainments of their engagement here. The class of subjects was the largest that has yet appeared on the stage and eight were found suitable to do the purposes of experiment and amenable to hypnotic suggestion. Among other illustrations of this strange power was a regular minstrel performance by the subjects while under hypnotic influence. This was perhaps the most elaborate experiment yet shown and evoked roars of laughter and rounds of applause from the audience. The rock-breaking feat was repeated with a slab weighing eighty pounds more than that used the first night. Owen O'Neill swung the sledge and had to take the heaviest on the stage to break the tough slab of variegated brownstone. The engagement will close this evening and those who have not yet attended should not fail to see this wonderful exhibition of the powers of hypnotism.

Not as an Organization.
The Kitchimikana club will not attend the bicycle parade at Ishpeming tonight as an organization, it having been found impracticable owing to other engagements to get a large enough party to secure a special train up and back. Quite a number of members, however, who can remain over until the next day will go and take part in the demonstration.

Not Wholly Deserted.
Despite the persistence of the miners' strike and the consequent stoppage of ore shipments Marquette harbor is not wholly deserted and some business is still going on at the docks. Two vessels cleared yesterday with cargoes of lumber from Dead River and two more from the Burtis mill. Another lumber barge will complete her cargo this morning and four more are loading lumber and board timber for export. The vessel now discharging brick for F. B. Spear will also load lumber. But despite this activity in the lumber trade the ore carriers are greatly missed and

the harbor seems very dull with the hematite no longer thundering down the chutes. The fact that so many men are compulsorily idle until the differences at the mines can be settled has a very depressing influence upon local trade of all kinds. Every one here certainly hopes that the companies and the miners will come to some sort of an agreement right speedily.

A Musical Treat.
The Imperial Opera company has contracted to appear in one grand and three light operas in this city during the next month. The repertoire will include the following operas: "Said Pasha," "The Bohemian Girl," "Mascot" and Gilbert & Sullivan's ever-popular "Pinafore." The opening bill will be Richard Stahl's breezy little gem, "Said Pasha," on Friday night of this week. This is one of the most popular of comic operas and more than serves its purpose—an evening's entertainment. The music is bright and catchy and the libretto funny and well constructed, the parts of Haded and Nockey being particularly good. These roles will be assumed by Messrs. Denier and Felch—two of the best light comedians now before the public. Reserved seats are now on sale at Bigelow's. Prices for the engagement are \$1.75, 50c and 25c.

Gathered at Ishpeming.
The members of Morse hose company paraded the streets in full uniform headed by the Marquette City band yesterday morning before taking the train for Ishpeming and the firemen's tournament. Reports received at the general passenger office of the South Shore road show that the gathering of the firemen is being well attended. From here over 125 people went up with the firemen on the morning train alone; over 350 came from the copper country; over 200 from the Gogebic range and over 100 from Republic. Add to these the contingents that came in by the Northwestern road and those on the later trains, of which reports have not been received here, and it is evident that not less than 1000 strangers were in Ishpeming yesterday. More are coming today and tomorrow, as the proceedings have just begun.

MARVELOUS RESULTS.
From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at E. Farnham's Drug Store. Regular size 50c. and \$1.00.

LOUIS GRABOWER.
OUR CLOSING SALE OF SUMMER GOODS

Has kept all hands here busy as bees for the past few days. Nevertheless we place before you a complete revision of already low prices to keep up our reputation of never being undersold, giving the people trading here more for their money than can be had elsewhere. We name prices way below those quoted by our competitors. It's like a man grasping in the dark to head us off, for our aim is to always undersell. People come here expecting more for their money than can be had elsewhere and they are never disappointed. No matter how low a quotation is made by our competitors we always go them a notch lower, besides showing you three times the stock to pick from than is shown by any other concern.

Duck, best quality, 11c a yard instead of 15c.	Wash Goods. Here is gathered more wash goods, more new weaves than can be found elsewhere in all Marquette combined. A clean cut on every item. Challies, big line to select from... 4c Pongees, light and soft... 10c Fine organdies... 15c French satines, 35c grade... 13c Figured demities, 20c grade... 12c Dress Prints, all kinds... 5c Shirtings... 3c	Carpets. Every yard of carpeting we sold this season was from 3c to 35c a yard less than the same could be bought of our competitors and this did not all come from the lips of our customers who bought here, either. We still continue selling on this basis. To be had here only—the best Body Brussels, the best Ingrain, the best Moquette. Every Rug in stock at wholesale cost.	Shoes 60c a pair, instead of \$1.75.
Challies, all wool. Frere's best goods, 35c instead of 50c.	How about matching these prices? 100 Yards of Silk for dresses, waist trimmings, etc. at the lowest prices ever known.	Curtains. Over 100 pair of Lace Curtains sold so far this season. Our matchless prices aid the business. We have had no competition in lace curtains. Such values as these are good enough for everybody: \$1.00 a pair lace curtains, worth... \$2.50 \$1.50 a pair lace curtains, worth... 3.00 \$2.00 a pair lace curtains, worth... 4.00 \$3.00 a pair lace curtains, worth... 6.50 Lace curtain net at less than cost. Chenille curtains worth \$8 and \$10 for 5.	Pure Silk Mitts 25c a pair, former price 50c.
Wash Silk, 25c instead of 35c.	Fans. By far the prettiest and newest collection ever shown. Fans of silk, satin, gauze, linen, etc. 5 cents and upwards for good fans.	Best Opaque Shades on spring rollers at 35 cents.	Corsets 90c, former price \$1.50.

EVANS & JULIEN, Props.

THE REGINA MUSIC BOX

Plays all the Latest Songs.
New tunes issued every week over one thousand are now ready including dances, operatic and all the popular airs of the day.
It is a musical novelty rendering on one or two accurately tuned steel combs, the most beautiful music and playing an unlimited number of tunes.
It is the first and only music box manufactured in the United States and far surpasses the finest imported ones. The mechanism is of strong and well finished that with ordinary care it will last for a life time. It runs fifteen minutes with one winding. All its parts are interchangeable. The cases are ornamental and highly polished. The tone sheets are indestructible, being made of metal and are easily adjusted or changed. Send for illustrated catalogue.
