MARQUETTE SANATORIUM.

THE MARQUETTE SANATORIUM not only receives patients for treatment but others who need a quiet hygienic home for rest and recuperation. Use is made of all forms of baths, massage, Swedish movements, the vibratory treatment, electricity, oxygen, super-heated air, cupping, special dieting, etc., etc. It is well known that all cases of sickness, both medical and surgical, do better under sanatorium care and treatment than at home. All cases are helped and many seemingly hopeless cases of chronic invalidism are readily cured. For rates and full particulars of our cottage plan, and most wonderful climatic advantage over all other points, address

A GRIST OF ACCIDENTS.

Fall of Ground at Chapin Mine Yesterday Killed One Miner and Injured Another.

PIGNICKERS GET TANGLED UP IN A RUNAWAY.

Several Are Fatally Injured—Loaded Electric Cars at Indianapolis Collide—Bad Railroad Wreck.

AN IRON MOUNTAIN FATALITY.

IRON MOUNTAIN, Mich., Aug. 9.—[Special.]—An accident occurred this morning on the seventh level of the Chapin mine by a fall of rock and timber. Charles Faust was killed outright and his body so wedged in that he was not taken out until 3 o'clock. John Johnson, his partner, had his foot smashed but otherwise he is uninjured.

WENT DOWN AN EMBANKMENT.

BECATON, Ind., Aug. 9.—A shocking accident occurred near here this afternoon. A crowd was returning from a picnic when the horses suddenly became frightened and plunged off a thirty-foot embankment. Three prominent society women—Mrs. Mangold, Mrs. J. C. Peterson and her mother, Mrs. Erwin—received injuries which will undoubtedly prove fatal. John Dunson and two small children, who were in the party, also received serious injuries.

FAILED TO THROW THE SWITCH.

INDIANAPOLIS, Ind., Aug. 9.—Two heavily loaded electric trains on the Broad Ripple Suburban street car line collided this afternoon and at least a dozen persons were severely injured. Those seriously injured are:

MARtha SWENEY, both legs broken. MARSH RICE, head and face badly battered and bruised. MRS. MARTIN, leg broken, badly bruised. EUGENE CHRIST, lower limbs bruised and other injuries. L. H. SMITH. MARY BLY. SARAH L. LANIYAN. (The latter badly bruised.) Besides these there are at least a dozen others whose injuries are slight. The accident was caused by the motor-man's failure to throw the switch.

SUNK IN DETROIT RIVER.

DETROIT, Mich., Aug. 9.—The steamer Britannic, loaded with iron ore, was sunk near Ballard reef in the Detroit river by the Lackawanna company's steamer Russia this afternoon. One of the sunken steamer's crew was drowned. The Britannic lies athwart the channel, making navigation dangerous. The collision was caused by the breaking of the Britannic's rudder chains.

TRAINMEN SEVERELY BRUISED.

SPRINGFIELD, Ills., Aug. 9.—An extra freight on the St. Louis, Chicago & St. Paul (Bluff line) ran off a safety switch at Curran, near this city, this morning. The engine and four cars turned over and were badly demolished. Engineer Donaldson, Fireman Burner, Conductor Hale and Brake-men Welsh and Schwab were all more or less bruised and cut up.

KILLED BY LIGHTNING.

ONEBOLT, Ia., Aug. 9.—Arthur and C. J. Johnson, brothers, and A. C. Anderson were killed by lightning near here today. They were threshing and had taken refuge under a tree.

SUPREME COURT VACANCY.

Appointment Not Likely to Be Made Until Congress Meets.

WASHINGTON, Aug. 9.—There is much speculation as to who will be President Cleveland's choice for the United States supreme court to succeed the late Justice Jackson, but beyond the mention of available names there is little of definite nature thus far. It is the general understanding that no appointment will be made until after the meeting of congress. It is suggested that the selection is most likely to be made from the east, and probably from New York, as Cleveland made the last appointment—that of Justice White—from the south after the senate had rejected Horace Blower and Peckham of New York; Bissell, Carlisle, Wilson, Secretary Smith, Don M. Dickinson and Solicitor General Holmes Conrad are among those mentioned this time. The name of Representative Josiah Patterson of Tennessee will probably be called to the attention of the president, as he comes from the same state as did the late justice and is known as a most loyal friend of Cleveland.

Three persons, however, whose relations with the president are of the closest character, believe Cleveland's first choice would be Olney, secretary of state. It is known he has explicit confidence in Olney's opinion on all the important legal questions which come before him. Being a resident of Massachusetts is the only objection to Olney. Next to Olney is Rufus Peckham and it is thought by many that he will most likely receive the nomination.

MINERS' PAY RAISED.

Penn Company Increases Wages 10 and 25 Per Cent.

IRON MOUNTAIN, Mich., Aug. 9.—The Penn Mining company, operating the East Vulcan, West Vulcan and Curry mines at Norway, has announced a 10 and 25 per cent. increase in wages taking effect the first of August. The Aragon company has also raised wages in the same ratio.

REPARATION AND INDEMNITY.

Minister Denby Makes Vicious Demand on Chinese Government.

WASHINGTON, Aug. 9.—Acting Secretary Adee received a telegram from Nashville, signed jointly by the Southern Methodist and Presbyterian Missionary society officials confirming the report of the outrages at Chi Cheng and urging the state department to protect

the American missions. Adee responded by telling them that United States Minister Denby had already taken the most vigorous measures to secure the safety of Americans and that renewed instructions to that end had already been sent to the minister. The state department expects to secure full and ample reparation and indemnity for all the injuries sustained by Americans and, indeed, Minister Denby has already made a most vigorous demand on the Chinese government to that effect.

No official advices have reached the state department concerning the reported destruction of American mission property at Ing Hoi, China. It is believed the place referred to is identical with Sui Hing, where troubles were reported two days ago, and that this second dispatch really relates to the same incident.

FORGERY IS ALLEGED.

Patent to Made Land at Chicago Said to Have Been Falsified.

CHICAGO, Aug. 9.—Captain Porter of the United States secret service today arrested Captain George W. Streater, Charles A. Applegate, William H. Cox and Jacob Nine on the charge of forging a government patent to a tract of made land on the shore of Lake Michigan. The arrests were made at the instigation of George B. Detwiler, who claims to have discovered that the signatures to the patent of President Cleveland, Secretary Hoke Smith and E. W. Lamont, recorder of the general land office, were forgeries. The four men have been released on bail. The arrests grew out of the fight that has been waged for some time for the possession of 150 acres of land, worth \$18,000,000 to \$20,000,000, which are claimed by Captain Streater and other squatters on the one hand and property owners along the original shore on the other.

MUST PAY THEIR FINES.

Wives of Convicted Saloonists Issue Ultimatum to Other Dealers.

LYONS, Ia., Aug. 8.—Several days ago four saloon keepers were committed to the county jail in default of \$500 fines. Each sentence was imposed for contempt of court in violating injunctions for the non-payment of Iowa mule tax. The Clinton County Advertiser tomorrow will publish this: "Notice to the saloonkeepers—You are hereby notified that the undersigned, wives of the men now confined in the county jail, will on Monday, Aug. 12, commence proceedings against you under the prohibition laws of Iowa for the violation of said liquor law in selling liquor contrary to the same unless you will make some arrangement for the payment of the fine assessed against those in the county jail. Mrs. John Manning, Mrs. Mary Hildebrandt, Mrs. Mary Smarcker, Mrs. Clem Manning." The above is without precedent and a sensation will result.

CHICAGO WAS WARM.

Several Persons Prostrated by the Heat Yesterday.

CHICAGO, Aug. 9.—This was one of the hottest days of the summer. The mercury in the government observatory showed a maximum of 91 degrees but on the street level it was several degrees warmer than that. The victims of the heat were as follows: WILLIAM MONROE, roofer, prostrated while at work; died a few minutes later. JOHN H. GAS, horse dealer. GEORGE HONEY, teamster. MICHAEL WILSON, Secretary. WILLIAM SULTY. MARGARET LICK.

RECEIVES SENTENCE TUESDAY.

Defaulting Treasurer Taylor Turns Over Property to State.

PIERRE, S. D., Aug. 9.—The Taylor defalcation is about to be cleared up and the defaulting treasurer will be sentenced Tuesday. His bondsmen and himself today turned over to the state treasurer \$100,000 as agreed upon when he surrendered himself in June and also a list of the properties which the defaulter owned prior to his skipping to South America. The value of these properties will be assessed by the state board, and the amount agreed by them and the \$100,000 will be credited to this deficit. The bondsmen will make up the balance. The statute by which it was thought that Taylor would be sentenced for twenty years has been found defective and two years will be the maximum.

THE COLOMBIAN REVOLUTION.

Government Troops Routed at San Miguel—Loss Heavy.

PANAMA, Aug. 9.—Guayaquil advices confirm the report of the battle at San Miguel Aug. 6. General Sarapis, with six hundred troops, attacked the advance guard of the patriot army, commanded by General Bernaza. After thirteen hours fighting Sarapis' troops were routed and demoralized. One hundred and fifty on both sides were killed or wounded. General Alfaro has arrived from Guamo and is now facing Sarapis' army. It is expected a decisive battle will occur tomorrow.

Two More Bodies Found.

NEW YORK, Aug. 9.—Two more victims were taken from the collapsed building today. The workmen have not yet reached the spot where most of the bodies are believed to be buried. It is believed now that at least ten more bodies are in the ruins.

Emperor William Banquetted.

COWES, Aug. 3.—Emperor William was the guest of the Prince of Wales today on board the Britannia during the races. He was banquetted by members of the royal yacht squadron who attended the Ktel fetes.

HAMMERED TO DEATH.

Insane Asylum Patient Brutally Beaten by Two of the Attendants.

EVERY RIB IN HIS BODY WAS BROKEN

And Flesh in Places Hung in Loose Shreds—Attendants Claim He Assaulted Them.

MANIAC'S HORRIBLE DEATH.

CHICAGO, Aug. 9.—George Badzick, an insane patient, died at the county insane asylum at Dunning today. When the coroner's inquest was held it was found that the man had unquestionably come to his death by violence. His breast bone was broken in two places, eight ribs were broken on the right side and the same number were fractured on the left and several of them broken in two places. Badzick was only taken to the asylum on Thursday and for two days prior to that time was confined in the Alexian Brothers hospital in this city. Officials at the hospital declare that although he was a very violent maniac he was in a sound physical condition when he left their institution. The attendants at Dunning declare that he was weak and seemed to be suffering great pain soon after he arrived at the asylum.

The verdict at the inquest was that the man came to his death by a blow dealt by unknown persons. Every effort is being made to find out who killed the man, as his injuries were of such nature as to render it impossible that he could have inflicted them himself.

CHICAGO, Aug. 10.—George Gough and J. B. Anderson, attendants at the insane asylum at Dunning, were arrested late last night charged with the murder of Badzick Thursday night. Badzick seemed to be in excellent health and yesterday morning was found dead in bed. The attending physician suspected that something was wrong and examined the body and then sent for Coroner O'Brien. The examination showed that Badzick was literally hammered to death. Every rib in his body was broken, nearly all of them in two places. His breast bone was broken in two places and the abdomen bore marks of heavy blows. In several places on the chest and side blows had been dealt so viciously that the flesh was literally torn from the bone and hanging in loose shreds. The county physician declared the wounds must have been occasioned by a sledge hammer.

Gough and Anderson, the two men who had charge of the ward during the night, were then called in Superintendent Morgan's private office. They first denied any knowledge of how the man came to his death, but finally admitted they had assaulted him. They said he was very violent and then when they attempted to restrain him he had assaulted them with his fists. To protect themselves they assaulted him with their fists. Dr. Mitchell and Deputy Coroner O'Brien declare the case to be one of the worst they ever heard of and without exception the most brutal they ever heard of in any asylum in Illinois.

NEGROES RETURN TO WORK.

Spring Valley Miners Made No Attempt to Molest Them.

SPRING VALLEY, Ills., Aug. 9.—Acting Mayor Hicks, with the city council, led about fifty deputies out to No. 3 this morning and soon after the colored miners arrived from Seatonville headed by Representative Buckner. The negroes were lowered into the mine and put to work alongside the white miners. No one attempted to obstruct the program mapped out by General Manager Dalzell and the company. Everything is now quiet.

Just how long the situation will remain peaceful cannot be told. Superintendent Dalzell stated tonight that if any further trouble rises he will discharge every Italian miner employed and will then employ none but colored workmen or white men of this country.

BIMETALLISM IN ENGLAND.

Crisp Does Not Think It is Making Rapid Progress.

LONDON, Aug. 9.—Ex-Speaker Crisp, who is now in London, was interviewed today in regard to the chances of a monetary conference being called. He said: "I could not discover in my travels in England that any interest in bimetallic is being taken among the people. McNeill, secretary of the Bimetallic league, informs me that the membership of the league is rapidly increasing, but what they consider rapid in England would be very slow in America."

THE OMAHA INJUNCTION.

Decision Will Be Handed Down This Afternoon.

OMAHA, Aug. 9.—Arguments in the case brought by Mayor Bemis and members of the board of police commissioners by which they sought to secure an injunction against the A. P. A. board to restrain its members from acting or attempting to act as police commissioners of Omaha and interfering with the discipline of the police force were completed this afternoon. Judge Hopewell announced that he would hand down a decision tomorrow afternoon.

Love for This Pastry Barred Him Out of the Pulpit and Drove Him to Forger.

A most singular case is now in the courts at Kingston, in this state. A young man living there was lately found to be a forger, and when he confessed he said he was driven to the crime by an ungovernable gluttony for mince pie.

According to his story his extraordinary liking for mince pie began to show itself when he was a boy. He seemed even then to feel that there was something abnormal in his appetite, for he went voluntarily to Bloomingdale asylum in the hope of being cured of his gluttony.

Then came the forging of the note and the pie orgy which ended in his arrest. After hearing his story a commission was appointed to inquire into his sanity, and it is likely that, instead of being sent to a penitentiary, he will be placed in a lunatic asylum.

JAPAN'S QUEER CONTENTION

Claimed Right During Late War to Search American Vessels

AND ARREST ANY ENEMY FOUND ON BOARD.

Refuses Still to Retreat from Its Position and in Case of Russo-Japanese War

COMPLICATIONS MAY RESULT.

WASHINGTON, Aug. 8.—In the event of war between Russia and Japan the United States may find itself an unwilling party unless the Japanese retreat from the position which they assumed towards the United States during the last war with China.

This issue arose through the assertion by the Japanese authorities of the right to search American vessels. They insisted they had the right to board any American vessel and if they chose to take from her any Chinese enemy they might find even though they were but passengers.

The matter had progressed to that perilous state that when Admiral Carpenter was about to escort an American merchant steamship out of a Japanese port to prevent her detention by the Japanese the latter, it is said, gave orders to the shore batteries to open fire upon the American vessel.

GREAT BICYCLE MEET.

Opening Day of Chicago Tournament. Several Records Smashed.

CHICAGO, Aug. 9.—About two thousand persons witnessed the bicycle races today. All the "crack" cyclists of the country with the exception of a very few cash prize professionals, whose wants were not provided for in this instance, were on hand today at the national circuit tournament which began this afternoon at the South Side track.

The feat of riding a mile in competition in 1:58 1-5, accomplished by E. C. Bland, Class B leader, was a feature of the afternoon. Bland clipped 1-5 of a second off Johnson's Waltham time and it was clear he could have reduced the record at least another second had the pacemakers remained at the head longer and pulled him along.

The five-mile paced race for Class B was well contested and brought out a field of notables, among whom were Titus, Maddox and Murphy.

Tomorrow Lawson will make an onslaught on the hour record, starting at 1 o'clock.

DEFENDER RAN AGROUND.

Has Been Released, However—Canadian Steamer Ashore.

NEWPORT, Aug. 9.—The Defender went out for a spin this afternoon and as she was returning ran aground hard and fast on the spit which runs out from Goat Island. She was not gotten off until flood tide this evening. It is thought she was uninjured, as she grounded easily and the tide did not leave her high enough to cause any strain.

VICTORIA, Aug. 9.—The Canadian Australian steamer Warimoor is ashore

two or three miles from Carmanah point, at the point where the Dutchess Argyle was lost. She was about forward and will probably float at the next tide.

LATER—The steamer was floated at high tide. The fog is very thick and nothing can be learned regarding the damage.

INTOXICANTS A CURSE.

Catholic Total Abstinence Bitterly Attacked Dealers and Makers.

NEW YORK, Aug. 9.—At the Catholic Total Abstinence union today the majority report of the committee on resolutions was presented. It was a bitter attack on liquor dealers and asked those engaged in the business to give it up.

THE WEEKLY TRADE RESUME.

NEW YORK, Aug. 9.—Business continues unusually active for midsummer. One change of great importance which the past week brought is eminently the helpful and amicable settlement between the miners and employers in western Pennsylvania, Ohio and Indiana.

There is no important change in the crop prospects. Wheat declined a fraction with scanty transactions and extremely small western receipts influencing the market for the present more than restricted exports.

The industries continue to make progress and higher prices for iron and steel products prove that the supply has not yet outrun the demand.

The failures in the United States the past week were 225 against 274 for the corresponding week of last year.

BRADSTREET'S TRADE REVIEW.

The features of the week are the continuance of the remarkable strength of demand for, the increase in the production of and the advance in prices of steel and iron, practically all the first class producing plants having been put to service and a note of crispness striking as was the demand for and the advance in the price of wheat, leather, cotton and other staples for a month or two following March 1 last there has been no rebound and since the depression of 1893 there has been nothing stronger nor more surprising than that in iron and steel.

The statement compiled by Bradstreet's shows the total bank clearings of the principal cities of the United States the past week to have been \$976,022,215, an increase of 25.9 per cent as compared with the corresponding week of last year.

Treasurer Greene's Shortage.

Eau Claire, Wis., Aug. 9.—Sait has been commenced by the city of Eau Claire against ex-City Treasurer Greene and his bondsmen—Hon. W. A. Rust and O. H. Ingram—to recover the shortage of Greene, amounting to \$150,000.

Writing History of His Life.

PHILADELPHIA, Aug. 9.—H. H. Holmes is occupying his time in prison writing a history of his life. District Attorney Graham said today he expects important developments within the next few days.

Forecast of the Weather.

WASHINGTON, Aug. 9.—6 p. m.—The weather bureau reports the following as its forecast for the next twenty-four hours. For upper Michigan: Showers; probably slightly warmer; southeasterly winds.

THE BALTIC SHIP CANAL.

Germany does well to make the formal opening of the great Baltic ship canal a ceremonial affair of the first magnitude, says the London Review. When ships of the largest burden can pass by a protected short cut of sixty miles' length from the North sea to the Baltic the ugliest as well as the oldest problem of north European navigation will have been solved.

Copenhagen has endeavored to forestall disaster by making itself into a free port and spending large sums of money upon dock and harbor improvements; but, we fear, all in vain. It is incredible that any shipping will hereafter be sent into Danish waters, to round the tiresome Jutland peninsula and leave the dangers of the treacherous passage of the sound, which can be avoided by the shorter and entirely safe route across Holstein.

The Courland port of Libau has spent two hundred and fifty thousand pounds in enlarging its facilities for the competition, and even St. Petersburg, which, with its new deep-water dock in the Neva, becomes a competitor for the first time, has visions of maritime greatness based on this novel rearrangement of trade currents.

NOT DAME FORTUNE'S WHEEL.

But It Was the Cause of Ups and Downs Just the Same. It was all about a bicycle and it was not an 1895 model either, nor was it the steed of bloomer beauty. It was a wheel that would have made excellent junk, and it was probably the oldest of its kind in existence.

These facts, however, made little difference to the tow-haired urchin who had come into possession of it, and he was the hero of the hour among his companions, who, after the manner of all scyophants, praised his somewhat toilsome and serpentine method of locomotion.

All but a red-headed, freckle-faced lad, plainly the Ishmaelite of the community, says the Chicago Tribune. "Say, Billy, why don't you get a hump on yer?" he yelled derisively. "Are ye trainin' fu' th' fat man's race?" "Huh, mebbe ye think you could ride."

Ten seconds later the two were rolling up and down the alley in mortal combat until, as Billy seemed to be getting the worst of it, his followers, mindful of possible rides, fell upon his adversary and routed him. Then they returned in triumph to the wheel.

But before he had time to reply a hoarse voice from a neighboring woodshed shouted: "Naw, it's rheumatic, dat's what it is."

And in the brief interval of silence which followed the critic clambered down and fled for his life.

THE Difference

Between printing and printing is often a very wide one.

Two printers do the same job of printing, but when you come to compare them you will find they are not the same job after all.

If you want Good Printing

Will Prosecute Them.

The street railway officials have determined to teach some of the boys who have caused so much trouble by hanging on cars coming up Third street from ball games a greatly needed lesson. Each time there has been a crowd out to see a ball game it has been feared that in spite of the efforts of motormen and conductors some of the youngsters swarming about the cars would be killed or seriously injured. While the company could not be considered to blame the tax upon the energies of the men has been unbearable and Superintendent Retailic has decided to make an example of every boy whom he can catch hanging on the motors or trailers. Parents would therefore do well to see to it that their hopefuls keep away from the cars if they do not want to see the family purse depleted by a justice court fine for every boy caught today or from this time forward will be prosecuted to the full extent of the law.

A Problem Solved.

The problem of the accessibility of the Onota club on the Laughing Fish river has been solved, Captain Cleary having demonstrated that it is as easy of access as any shore point up or down from Marquette. Thursday he took the Call party down in his thirty-foot steam yacht and landed them, bag and baggage, at the clubhouse landing on the river, crossing the bar at the river mouth without difficulty and steaming straight up through the bayous.

As the captain's charges are extremely reasonable, while his yacht is safe, speedy and commodious, the new way of reaching the club house cannot fail to rapidly become the popular way; for those who prefer to go down by rail Robert Nelson has opened up a new route for baggage and supplies by taking the Kelsey trail down the river bank with his jumper, charging \$3 for the trip from Deerton to the clubhouse.

They were warmly welcomed by their many friends, Mrs. Garrick having so recently moved to Chicago as to be still looked upon as belonging to Marquette; they are now domiciled at No. 523 N. Front street.

The mistake of THE MINING JOURNAL in saying that Vandenoorn's creamery butter had been burned caused many people to fear they would have to eat factory butter this week, but when the butter cart rolled around about 11:30 yesterday loaded to its utmost capacity with butter, fresh and firm, it was quite evident that it had not been near the fire. The butter is kept in a refrigerator which was in no way connected with the house.

DECIDED ON THE THEATER.

But Neither of Them Cared to Say Much Concerning the Compromise.

"I've made quite a pleasant discovery, dear," remarked young Mr. Marigold as he came in. "I'm sure I'm glad to hear it," responded his wife. "I'm so tired that I need cheering up, though the whole flat is at last set in order. Dear me, I hope we shall never move again; I never see a snail without envying him with his home fast to his back, and yet able to move whenever he likes."

"But you haven't asked yet what I have discovered."

"No. But, oh Junius what do you think? An old sweetheart of mine—we had just quarreled when I met you—living with his wife in this very apartment building. The poor fellow seemed so delighted to see me."

"Humph. Once for all, Evangeline, I insist that you shall not make promiscuous acquaintances in the house."

"I shall do as I like. As if poor Jack's wife would be a promiscuous acquaintance, anyhow! No doubt he has always held me up as a pattern to her and it is my duty to—"

"Stuff and nonsense! I don't imagine he ever did amount to much, anyhow. I insist that you simply decline to know them at all. But I have found a very pleasant new acquaintance for you, and in this very house, too. You remember that lovely girl I—I used to call upon when I first knew you?"

"The young woman who used to fresco her face? Yes, I remember her."

"I think I have already told you that she had a lovely complexion of her own and had to suffer such suspicions in consequence. I told her you would be delighted to call upon her."

"Indeed? Well, you never were a successful mind reader, dear. I have told poor ——— though, that I will call upon his wife this evening."

"You shall do nothing of the kind; I do not at all approve. Besides, I promised poor Ida that you would call upon her this evening."

"Well, I shall not go. Poor Jack has evidently not forgotten me, and it is my duty to be kind to his poor little wife."

"Humph. Poor Ida is evidently not very happy, either, and it is much more my duty to be kind to her."

"I don't see it in that light; I don't even know her. As for Jack, he is a splendid fellow, and any woman he would marry, even out of pique, would be worth knowing."

"Ida is one of the noblest women I ever knew. I insist that you call upon her, as I promised, this evening."

"I shall do nothing of the kind. Let me see, Jack says they live on the second floor—"

"That is right across from Ida, then; I shall ask her if they are nice people for you to know. By the by, I don't even know her married name yet—she gave me her card, though. Here it is. 'Mrs. Jack Sweeting.'"

"Junius Marigold, I don't believe you! Why, that is my Jack! I don't believe he would marry that horrid girl!"

"Good heavens! So it is; how did she ever come to be the wife of that condemned idiot, I say, Evangeline, dear, don't let us know anybody living in the building; it is really much pleasanter not. And how should you like to go to the theater this evening?"

And Mrs. Marigold promptly answered: "Indeed, I quite agree with you, Junius, love. Let us go to the theater this evening by all means.—Chicago Times-Herald.

The Mistakes of Humorists

"'Nothor ship gone down, grandmother,'" said Henry, who was reading the paper.

"'Mercy on us!'" the old lady ejaculated. "'What dreadful times. Was anybody drowned?'"

"'No,'" Henry answered. "'You see, she only went down to Panama. After bananas, you know.'"

Henry laughed, for he saw it was funny. But he won't feel so certain of it when he reads grandmother's will.

"A FRIEND IN NEED IS A FRIEND INDEED." A friend advised me to try Ely's Cream Balm and after using it six weeks I believe myself cured of catarrh. It is a most valuable remedy.—Joseph Stewart, 624 Grand Avenue, Brooklyn, N. Y.

My son was afflicted with catarrh. I induced him to try Ely's Cream Balm and the disagreeable catarrhal smell all left him. He appears as well as any one.—J. C. Olmstead, Arcola, Ill.

Price of Cream Balm is fifty cents.

END OF THE TOURNAMENT.

Closing Session of the Convention and Last Day's Contests.
ISHPEMING'S HOSPITALITY IS PRAISED ON ALL SIDES.
Winners in the Races Given Their Prizes and the Great Firemen's Reunion Is Over.

THE LAST DAY.
At the adjourned meeting of the Upper Peninsula Firemen's association held Thursday evening very little business was transacted, nearly everything of importance having been disposed of the previous evening. The discussion of topic No. 7 was continued but action was deferred until the next annual convention at Sault Ste. Marie.
A resolution requesting each department in the association to keep an accurate account of all fires, amount of property damaged, also the amount of insurance carried, etc., was adopted.
A communication from the Association of Fire Engineers, relative to annual conventions, etc., was read. It was ordered placed on file.
After a few remarks by the president bearing on the association's welfare, the convention adjourned.

The balls Thursday night at the A. O. U. W. and K. of P. halls were in keeping with the tournament generally. The attendance at both was very large. In fact, the halls were crowded. The dances passed off well and all had a good time. The ball given last evening at the A. O. U. W. hall was for the special benefit of the members of the running teams of the several departments. The men who took part in the contests were requested by their chiefs to attend the dances or out after a certain hour each night. The instructions were scrupulously followed, and the teams which appeared on the course yesterday were all in good trim. The boys all turned out last night and a most happy time was had, the final ball being one of the great features of the tournament.

Mr. Brackett, of the Gamewell Fire Alarm company of Minneapolis, gave an exhibition of the Loeb respirator Thursday evening. The barn at the rear of the Robbins block near the fire engine house was filled with sulphur smoke. Several firemen, one from almost every department represented here, tried the apparatus and they all pronounced it an excellent thing. Some of the boys went into the enclosure without the respirator and they were compelled to return within from ten to thirty seconds. With the respirator on they had no difficulty in remaining there five or ten minutes and many of them said they could have remained longer, as the smoke did not seem to have any effect on them. The device is certainly a good one and with practice it can be used to excellent advantage.

Chief James Tolan of the Escanaba fire department was in attendance at the tournament. He had with him an adjustable spray nozzle, which his brother, John Tolan, also a member of the Escanaba department, made. It is calculated to do the same work as the Bell spray nozzle but it possesses some advantages over the Bell. Two streams—a solid and a spray—can be thrown from it at one time. Both sections of the nozzle are provided with shut off stops and a large or small spray can be thrown. The nozzle can be manufactured for less than \$25 while the Bell nozzle costs \$100. All the chiefs attending the tournament, as well as many of the firemen, examined the nozzle and they all agreed that it was the best thing of the kind they had ever seen.

Mr. Tolan manifested considerable interest in the tournament and he says Escanaba will certainly join the association, as he realizes that the firemen are greatly benefited by such reunions as that held here. Escanaba has a partially paid department. Its department consists of seven men under salary and eight volunteers. Mr. Tolan says he will take immediate steps to organize a running team so that Escanaba will be represented in the contests at the tournament to be held at Sault Ste. Marie next year.
The Hurley fire department will also make application for membership in the association. The Hurley department was here as the guests of the Ishpeming department and the boys felt included in the association and in a position to participate in the contests. Hurley has a number of expert pipemen and couplers, as well as several sprinters.

The races yesterday drew out a much larger attendance than those of the previous day. The contest in the morning was almost as large as that of Thursday afternoon, while the turnout in the afternoon was twice as large. The forenoon was taken up with the novelty hose race and the exhibition coupling by Charles Stranberg of Hurley (not Ironwood, as was stated yesterday), and Cort Ford of Ironwood. The Ishpeming team carried off the first prize, a handsome silk flag, in the hose race, its time being 53 3-5 seconds. A delay of about three seconds was caused by the cross threading of one of the couplings. The Hancock team got the second prize, a silver cup, time, 54 1/2 seconds. The Bessemer team made the run but was not given any time. In pulling the hose from the reel one of the couplings struck a wheel, or bottom of the cart, and was bent, consequently the coupling could not be made. The team was not given any other trial, as such accidents are liable to occur at any time. The team made a good run and but for the accident its time would have been somewhere near that of the winners. The Ironwood, Calumet, Marquette and Lake Linden teams withdrew from the contest. The Ironwood team claimed it had not practiced for the race as it was run and pulled out on that account. The other teams were short some of their runners.
The exhibition coupling by Stranberg and Ford was fine. It was something the people of Ishpeming may not have the pleasure of witnessing again for years. Two styles of coupling—running and standing—were shown. In the exhibition where a run of fifty feet

was taken each was given five trials. The work in this test consists of a run of fifty feet, breaking a coupling of three full turns and putting on a nozzle three full turns. Stranberg's best time was 4 1-5 seconds and Ford's 5 seconds. In the standing coupling, breaking the joint, putting on the nozzle, Stranberg did it in two seconds and Ford accomplished the feat in 1 1/2 seconds. Ford is a sprinter and carries a half-dozen handsome medals won in foot racing and coupling. He has a slight advantage over Stranberg in the fact that he is much lighter and starts more quickly, but Stranberg is undoubtedly the liveliest coupler. Stranberg is a printer and works at his trade in an office at Hurley.

The contests in the afternoon began promptly at 1 o'clock. The flag race was won by the Ironwood team, its time being 1:07 4-5. The Ishpeming team came in second; time 1:09 1/4. The Hancock team made the run in 1:10 and the Republic team was credited with 1:13. The Calumet, Marquette, Bessemer and Lake Linden teams withdrew from the contest. The prize is a silver water set.
In the novelty hook and ladder race all the teams, except those of Hancock and Ishpeming, withdrew. The Hancock team made the run in 4 1/2 seconds. Ishpeming was not given any time, the bucket carrier having assisted the ladder man in climbing the roof. The team would have made good time had this mistake not been made. The prize awarded the Hancock team is a \$20 lantern.

The firemen's foot race was participated in by F. E. James of Hancock; L. Clark of Ironwood; Ed. Dishnaw of Michigan; Oscar Carlson of Republic and Charlie Stark of Ishpeming. James won first prize and Clark took second. James came over the line about five feet ahead of Clark. His time was 10 2-5 seconds. The first prize is a gold badge and the second a silver badge.
The first prize in the ladder climbers' contest was won by the Bessemer team. Its time was 7 seconds. Ironwood got second prize; time, 7 1/2 seconds. The Hancock team made the run in 7-5 seconds. The Republic team's time was also 7-5 seconds and Ishpeming's time was 7-5 seconds. The first prize was a \$20 lantern and the second a \$15 lantern.

The champion hub and hub hose race between the Ironwood and Ishpeming teams was the most exciting contest of the tournament. In the last fifty yards the Ironwood team held the lead by about three feet. J. P. Jones, the coupler for the Ishpeming team, stopped at the wrong joint and lost anywhere from two to four seconds by halting. Despite this he was not more than a second behind Ford, the Ironwood coupler, in dropping the nozzle to the ground. The prize, a silver cup, was awarded to the Ironwood team. The time was 35 1/2 seconds.
The executive committee of the association presented the teams and persons taking part in the various contests with their prizes last evening at the Nelson House.

The committee selected to determine which was the best appearing department in the procession, Wednesday afternoon yesterday submitted the following communication, which fully explains itself, to President Routhier of the association:
Mr. H. Routhier, president of the Upper Peninsula Firemen's association—
Dear Sir—Your committee respectfully submits the following report: The Hancock company is given the prize, with honorable mention for the "Blues" with silver stripes and also very honorable mention for the Ishpeming fire company.
Mrs. J. W. SFEAR,
Mrs. W. H. ROOP,
Mrs. J. P. ORTHWAITE,
Mrs. P. H. DEVINE,
Mrs. H. O. YOUNG.

The Hancock uniform was different from anything in the parade. The boys all wore frock coats, white vests and white ties. They presented a fine military appearance and were thoroughly drilled. They were under the direction of Chief Scott, and a very clever drum major, dressed in a turkey red costume, marched at the head of the column.
It was no easy matter to decide which department was entitled to the prize, as every company in the line of march presented a fine appearance.
The visiting firemen and their friends began leaving the city for their homes last night. Many, however, are still here and will depart for home today, while several will spend Sunday here.
The visitors doubtless enjoyed themselves while here. They certainly had the freedom of the city and not a few of them spoke enthusiastically of the reception they were accorded by the Ishpeming fire department and the citizens generally. It is much to the credit of the visitors that there was not the slightest disturbance of any kind during the three days of the tournament.

EVENING SCENES.
The whole city was in a turmoil last evening. The bicycle parade brought out everybody. Seventy-two machines were in line and the costumes and lanterns made the scene a remarkably pretty one. The banner costumes were those of Tucker and Violet of the post-office. After the parade the Salvation Army took possession of the city, its regular parade being swelled by large numbers of visiting firemen and hundreds of citizens. The presentation of the prizes won at the tournament was made at the Nelson House and kept things stirred up in great shape in that direction. Altogether it was about as lively a night as Ishpeming has ever known.

Tietz-Anstey Nuptials.
One of the most home-like weddings that has occurred in Ishpeming in some time took place Thursday afternoon at 3 o'clock at the home of Mr. and Mrs. John L. Bradford, when Mr. William Frederick Tietz of Appleton, formerly of Ishpeming, and Miss Birdie Mary Anstey were made man and wife. The nuptial ceremony was performed by Rev. J. H. Joslin, pastor of the First Methodist church. The happy couple stood under a large floral bell while the vows were being spoken. They were attended by Miss Ethel Bradford and Master H. N. Marquette. The blinds were drawn and the room was illuminated.
The decorations about the house were quite unique and very pretty. The parlor, where the ceremony took place, was decorated entirely in white. The hall leading to the parlor was decorated in blue. The back parlor decorations were yellow and the dining

room was pink. The effect throughout was very beautiful.
At the conclusion of the ceremony the congratulations of the fifty friends present were tendered the happy pair, after which all present sat down to a bounteous wedding feast. Mr. and Mrs. Tietz were the recipients of many costly and beautiful presents.
The young people left Thursday evening for their future home at Appleton, Wis. They intend spending their honeymoon in the east.

Fair Will Be Continued.
The fair being held in the opera house by the members of St. John's church will be continued two days next week and will close on Tuesday night. The attendance every afternoon and evening during the week has been quite satisfactory and the fair has proved a success in every way. Door prizes are given every evening and there is also music in attendance. The big drawing for fifty prizes will take place Tuesday evening.

Baragas Were Winners.
In the ball game at the Union Park grounds between the Baraga and Ishpeming teams yesterday the visiting team won by a score of 10 to 8, ten innings being played. The feature of the game was the pitching of Lynn for the Ishpeming team, the Baragas failing to get a hit off him during the first six innings. The game was well contested.

ISHPEMING IN BRIEF.
Miss Kittie Dinneen of Escanaba is visiting Ishpeming friends.
Mrs. Henry Bohm of Milwaukee is in Ishpeming on a visit to friends.
The strikers held their meeting at the park earlier than usual yesterday morning. There is no change in the situation here.
The Ishpeming strikers yesterday attended the funeral of the late Charles Ogleson, who was killed by a street car at Negaunee Wednesday evening.
Frank F. Winter, violinist, of Chicago, will assist at the services in the Presbyterian church tomorrow evening. The usual services will be held during the day.

The strikers of Ishpeming and Negaunee will hold a big demonstration in Ishpeming this afternoon. E. J. Carey of Negaunee will deliver an address at the grounds near the Co-operative store.
THE MINING JOURNAL will issue 1,000 extra copies of its weekly edition today to supply those who desire a complete account of the firemen's tournament. Orders left with the local representative will be filled.
The decorated hose cart in L. W. Atkins & Co.'s store window was built entirely with the exception of the wheels, by Mr. Bradford, manager of the business. John is quite an artist. The yacht in the window was constructed by C. D. Cole of Childs' Art gallery, and quite a neat piece of work it is too.

For more than a hundred years the Shakers have been studying the remedial properties of plants. They have made many discoveries, but their greatest achievement was made last year. It is a cordial that contains already digested food and is a digester of food. It is effective in removing distress after eating, and creates an appetite for more food so that eating becomes a pleasure. Pale, thin people become plump and healthy under its use. It arrests the wasting of consumption.
There never has been such a step forward in the cure of indigestion as this Shaker Cordial. Your druggist will be glad to give you a little book descriptive of the product.

STICK TO THEIR CAUSE, Striking Miners Refuse to Take Work With a Railroad Contractor.

A NEGAUNEE MERCHANT TAKES BACK HIS OLD BUSINESS.

DON'T WANT WORK. A railroad contractor from up the line called at the meeting of the strikers at Union Park Thursday and submitted a proposition to the men to give them work on the extension of a road near Duluth.

It is said that Superintendent Fitch of the Champion mine is desirous of starting the crushers but that the strikers will not allow him to do so.

In Business Again. Alex Heyn has taken possession of the dry goods business which he conducted for so many years up to about a year ago, when it was transferred to Henry Bregstone.

Slow in Getting Here. The Marquette county Telephone company will not complete its system in Negaunee and Ishpeming as soon as was expected.

Declared a Draw. The Cornish wrestling match between John Ryan of Ironwood and Miles Doyle of Negaunee at Union Park yesterday morning was declared a draw.

LOCAL LAOCINIS. Hon. F. C. Chamberlain was in Negaunee Thursday.

Mrs. Mark Ferguson of Eagle Mills is here, visiting her mother, Mrs. B. Wood.

The street railway company did an unusually big business the past three days.

Miss Laura Brand of Marquette is in the city, visiting her cousin, Miss Lillie Mitchell.

The extension of the water main on Mills street will be completed within a short time.

"Cheap Joe" has moved his stock of goods to the Sundberg block, near Elfrand's drug store.

Mrs. George Kinto of Dollar Bay was in town during the week, the guest of Mrs. Thomas Trathen.

John Cox, proprietor of the Chassel hotel, of Chassel, is spending the week with Negaunee friends.

Charles Taylor was up from Sands yesterday. He says the crops in that vicinity are looking fairly well.

Alex Jackson came up from Swanzy Thursday with a wagon load of water lilies for which he found a ready sale.

Dr. O'Leary delivered his last lecture in Negaunee for the present Thursday evening. He will leave on Monday for the copper country.

Mrs. M. J. Arland has a new Waverly bicycle, she having received it through Walter Maas, who has the local agency for that wheel, yesterday.

Negaunee looked deserted yesterday and Thursday, as everyone who could possibly attend the firemen's tournament at Ishpeming did so.

HIRAM GUM, FIDDLER. The Unhappy Ending of His Remarkable Romance.

The last red rays of the evening sun disappeared below the mountains and the gray twilight settled over the valley.

By and by the woods across the way assumed a formless blackness, and from their dark midst came the call of the lonely whip-poor-will.

Gathered there upon the porch were the School-teacher, the Chronic Loafers, the G. A. R. man and the Patriarch, an old man with a long white beard, who was seated on the oak bench, leaning forward and resting his chin upon the head of his cane.

"When it comes ter fiddlin'," the Chronic Loafers was saying, "they is few men kin beat Sam Washin'ton. Why, I've know'd him ter set down at a party at seven o'clock at night an' fiddle till seven next mornin', and play a different tune every time."

"Did you ever hear of Hiram Gum?" asked the Patriarch.

"Hiram Gum?" cried the G. A. R. man. "I've used often to speak of him. But he was before my time. Drowned in the canal."

"Wonderful wonderful! I've heard tell," exclaimed the miller. "I kin remember seein' him once when I was a boy—a little man with long hair an' big eyes an' a withered arm."

"Yes, yes," the old man murmured, beating his stick on the porch, "an' a wonderful fiddler was Hiram Gum. They was few about these parts could handle a bow with them an'."

"But Sam Washin'ton's the best fiddler they is," interposed the Loafers, emphatically.

"My dear man," the Patriarch began, "Hiram Gum was more'n an earthly fiddler. He hed charms; he know'd words."

"I don't believe in them charms funder 'an they 'foot snakes an' bees," said the miller.

"But Hiram Gum was more'n an ordinary man. No one know'd where he come from when he settled up the valley, across the Juniata. That was nigh onto sixty years ago, an' I was only fifteen. I remember him well, though. He was a little man, as the miller say, an' hed long black hair an' a red beard that waved all aroun' his neck, an' big black eyes an' white cheeks, that shined as ef they was scoured like milk pails. Then his left arm was all withered, an' wasn't no use, exceptin' that he could crook it up like, an' work the long fingers on the fiddle strings. No one ever know'd jest how old Hiram was, no more'n they know'd where he come from, fer he never sayd. No one ever askt him more'n once 'bout such things, fer hed jest look black like, an' say nothin' an' give you such a glance with them big eyes that you felt all chilly. He was allus a pleasant, cheery kin' of a man aside from that, an' he talked entertainin', fer hed traveled a heap."

"Hiram settled in a little log house that stood on the south ridge near where Luckenbach's peach orchard is now. He used to live from 'ban' to mouth, for he couldn't work, an' what he made he got from his fiddle playin'. An' such a fiddler. You uns never seen the beat. Oh, I tell yer when Hiram Gum drawed the bow over the old insterment of his it was worth a hundred brass ban's."

"Peter Billings' farm 'ined Hiram's lot, an' it wasn't long 'fore the leetle man tuk to strollin' over to see his neighbors in the evenin'."

man tuk to strollin' over to see his neighbors in the evenin'. By an' by hed seemed to take a consid'ible shine fer Peter's dotter Susan. First no one ever that nothin' of it, for it hardly seemed likely that as pretty a girl as she would keer much as Hiram Gum. Then, besides, for a long time she'd be keepin' compny with young John McCullagh, whose father owned 'bout the best piece of farmin' lan' up the valley. It may a be'n that old McCullagh an' Billings made it up between them that John was to marry Susan. I allus took it that way. But she couldn't a fell in with their ways. He was a boastful, fine-lookin' big feller, with a powerful temper an' a likin' fer his own way.

So when Hiram Gum began loadin' over at Billings' no one ever dreamt a thing would come of it.

"But after Hiram hed be'n livin' up the valley two 'years, he sudden stopped visitin' Billings. He was drew off the place, I heard, an' Susan for a week was kep' locked up in her room. An' such a change as come over that man! I never seen the like. It was in the airy spring when it happened, an' hed be'n doin' pretty well all winter fiddlin' at parties. But from one of the pleasantest of men he became one of the blackest. He had allus met a man with a hearty 'howdy' before, but after hed be'n spok'n no more when he passed. From comin' to the store every day reg'lar, he got to comin' only when he needed things, an' the rest of the time he kep' mopin' up in his place on the ridge. An' Susan, too, was changed. She lost color, an' big dark rings come around her eyes. Many a time I seen her leanin' over the gate, Hiram Gum's place lay. An' then her father would come out an' drive her inter their house with angry words. She wouldn't scarce speak to John McCullagh in them days."

"The weeks went by, an' she picked up a little an' her father 'loved her more freedom. Then come Sam Lander's big party. It was the last dance of the season, for the best weather was comin' on when there wasn't time ter be swingin' corners, let alone the overheatin' that would come by it. It was jest 'bout the biggest dance of the year, an' everybody in the valley was there. They didn't hev no fancy organs in them days. The plain old fiddle was enough, an' it would be sufficient in these times if all fiddlers was like Hiram Gum. Everybody danced when Hiram played. Hed no sooner take his place in the corner an' draw the bow then every inch in the room would be covered with sets."

The old man beat his stick on the porch and waved his body to and fro at the remembrance of the time so long before.

"Bow yer corners! An' we was off. My, but that was fiddlin'. It jest went through a man like one of them electric shockin' machines. Yer feet was started an' away yer went; old Hiram settin' there with his withered arm crook'd up to hold the fiddle, the long crooked fingers techin' the strings, the bow goin' so fast yer could hardly see it, his big eyes lookin' down inter the insterment, his long hair an' beard wavin' as he swung to an' fro. Now yer own! Oh, them was dancin' days when Hiram Gum played. Yer never tired trippin' the floor."

"I done one set with Susan Billings, an' I noticed she could scarce keep her eyes away from Hiram. She only danced a set with John McCullagh, an' lay kinder limp like when she swung corners with him, an' never sayd nothin'. When they finished he left, an' I seen him go out the door with a black look on his face."

"Young an' old danced that night. They was three sets in the settin'-room an' two in the kitchen. It was mighty little restin' we done, save layin' off at ten o'clock fer sweet cake an' cider. But the queer thing was that Hiram never passed the hat once. It's seldom a man goes to a party without the hat comin' his way three or four times. An' 'fore that night they never was a more inebriated but masser 'an Hiram, fer by his playin' he made his livin', an' never a note 'ud he make tell hed fifty cents in his old white beaver. Then hed play that out, an' roun' he came agin'. But that night he jest set glum an' never once did he stop his fiddlin'. There was never a fiddler like Hiram Gum."

"We lived over the river then, an' they wasn't no bridge in them days. We used to cross in a couple of old boats that was kep' tied along the bank jest below the canal lock. Most all hed gone when I left Lander's airy in the mornin'. I went down across the flat and through the woods till I come out at the canal, where I crossed on the lock to the towpath. It was a clear night an' the moon shone down bright through the trees. I walked up along the towpath whistlin' fer company. The canal was on one side and down through the open places on the other I could see the river gleamin' along. I come to the bend jest a couple of hundred yards above where the boats lay, an' was jest stepping into the clearin' there when sudden I heard a loud voice. I stopped. Then it came louder, an' I recognized John McCullagh's rough talk. I went cautious tell I got out of the woods, an' there jest ahead I seen him, near the towpath, fadin' old Hiram Gum, who, with his fiddle under his arm, was standin' with his back to the canal looking quiet at the big feller. I dropped down on the groun' an' watched, scarce breathin', I was so excited."

"Sudden John raised a heavy stick an' shook it, and stepped slow like toward the leetle fiddler, backin' him toward the bank."

"Hiram Gum!" he said, deliberate like. "I've hed 'nough of you. Git out of this country an' don't come back or you'll never fiddle agin'."

"Hiram lowered his fiddle slow, and sayd, 'You can't skeer me, John McCullagh, fer Susan Billings doesn't keer for you.'"

"You shan't run off with her, yelled the other, shakin' his stick. 'Now, quick. Make up yer min'."

"I could see his face workin' as he swung his stick up an' down an' step

by step kep' edgin' the leetle feller nearer the canal. I jest lay tremblin', I was that frightened, fer I was but a lad in them days. I know'd I ought to run out an' stopp'd et, but I was undecided, an' 'fore I got my courch up I hear the soft notes of the fiddle. There was old Hiram, with his withered han' holdin' the insterment, his long fingers rounnin' over the strings, the bow slidin' slowlike up an' down, his black eyes fastened hard on the big feller.

"Swing yer corners, John," he yelled. Then the notes come quick an' short. I scarce drawed a breath, expectin' to see the big stick go crashin' through his white hat. Instead John stopped sudden. His arm fell limp like. He passed his hand confused over his forehead. Then he bowed. They was a queer gleam in Gum's eyes; an' the notes come faster. In another minute John was swingin' corners, with his arms graspin' the air. The dead sticks cracked under his feet as he flung around. An' as old Hiram called the figgers he followed him, yellin' 'em louder an' kickin' like mad. It was the wildest dancin' ever I seen. He bowed and twisted, backward an' forward, an' chassayd an' chained, his feet seemin' all the time to be movin' faster and faster, as the notes come quicker, an' the long bow slid to an' fro like lightning. Cautious old Hiram moved around, never takin' his eyes off his en'my tell he was on the riverside, an' John skippin' around on the beaten towpath."

"Them was awful minutes for me. I could do nothin' fer the playin' kind of speller me like. Once I tried to get up, but I kicked out with both feet and fell sprawlin' to the groun'. Slow old Hiram begin to move toward the canal, all the time the mad dancin' feller backin' nearer an' nearer the bank.

"Back ter yer corner, John!" called the fiddler.

"Corners next!" yelled John, kickin' up his heels and throwin' out his arms like he was grabbin' somethin'. Then come the awfullest cry I ever heard. It went right through me like a knife. There was a splash. Hed gone over the bank.

"I jumped out, fer the fiddlin' hed stopped, an' started toward the spot. But before I got there Hiram throwed away his fiddle, run to the bank and was down on his knees starin' inter the water, with a wild look in his eyes. A head came above the surface, then an arm reached wildly out. Old Hiram leaned over and grasped the hand.

"I stopped, I was so excited, and call: 'You've got him. Hi! You've got him! Hol' fast!'"

"But it wasn't no use, fer hed nothin' to support him with. He grasped the bank with his withered hand, but the arm gave way and he toppled over. Then for a minute all was still. I leaned over the water an' waited. They was a ripple toward the middle an' two heads come up. I seen Hiram Gum's long black hair and beard, an' his drawn face as he looked up at the sky overhead. Then they disappeared agin. I watched a minute, but the surface of the canal became quiet and still, like nothin' had happened. Then I turned an' ran."

"Them was awful moments for a boy like me. I flew along the tow path, across the clearin', inter the woods agin, and then down toward the river where the boats lay hid among the willer bushes. An' as I went crashin' through the willer branches I heard a girl's voice callin'."

"Hiram," she says, 'is that you? I thot you was never comin'. Why were you fiddlin'?"

"In another second I was through the willers and on the bank. There, settin' in the boat, her han's on the oars ready to pull away, was Susan Billings."

The old man stopped his story and beat his cane softly on the porch, and hummed a snatch of a tune.

There came a short puffing, as the Chronic Loafers drew on his pipe until the bright coals shone in the darkness.

"But Sam Washin'ton—" The old man arose slowly.

"I don't keer 'bout Sam Washin'ton. I must be goin'. I'll git rheumatism on such a night with no horsechestnut in me pocket."—N. Y. Sun.

FRUITLESS WISHING. A Simple Story Which Teaches a Useful Lesson.

A young man stood listlessly watching some anglers on a bridge. He was poor and dejected. At last, approaching a basket filled with wholesome-looking fish, he sighed:

"If now, I had these I would be happy. I could sell them at a fair price, and buy me food and lodgings."

SYNOPSIS OF GAME LAWS.

Principal Features of New Law Given for Benefit of Local Sportsmen.

'Twas a Great Week for Lumber Shipments.

'Said Pasha' at Opera House Tonight. Duluth vs. Marquette This Afternoon—Secretary Carlisle's Visit.

PASTE THIS IN YOUR HAT.

There has been a very active inquiry among local sportsmen regarding the provisions of the state game laws as the sweeping amendments made by the last legislature have been only imperfectly understood even by the best posted of the local Nimrods and Waltons. The laws as compiled by the secretary of state are now out in pamphlet form, L. M. Spencer being the first to secure a copy. Mr. Spencer will immediately get out slips giving the main features of the law as affecting deer, partridge and trout. Any one desiring such information can secure one of the slips by calling at the Mecca of upper peninsula sportsmen, "Spencer's."

THE MINING JOURNAL presents here with the main features of the law which are of interest to local sportsmen, the principal changes made at the last session of the legislature being clearly shown. Anyone pasting the following pointers in his hat and living up to them need stand in no fear of the minions of the law.

TROUT AND BASS.
Trout fishing prohibited from September 1st to May 1st following; bass to be taken only with hook and line during the period from March 1st to July 1st.
Sale of fish is prohibited during the close season.

The use of dynamite and other explosives for killing fish or any device to stupefy them is prohibited.
Unlawful to take any game fish less than six inches in length.
Unlawful at any time to catch or capture by any means whatever, for the purpose of sale or to ship for the purpose of sale any brook trout from the inland waters of the state.

DEER AND GAME.
Deer may be killed only from the first day of November to the 25th day of November, both inclusive, in each year.
Unlawful to kill at any time any deer in its red coat or any fawn in its spotted coat, the possession of the skin of any such deer or fawn to be prima facie evidence of such illegal killing.

The killing of deer in the water, or by traps, pitfalls or pits, or by the use of any artificial light, or by the use of dogs is prohibited and the law protects any person who shall kill a dog found pursuing deer.
Partridge or ruffed grouse may be killed in the upper peninsula from October 1 to January 1, inclusive, in each year.

Each and every non-resident of Michigan who engages in the hunting or killing of deer in any county in the state must take out a license from the county clerk of the county wherein he proposes to locate his camp during the open season, paying a license fee of \$25.
Every resident who has resided in the state of Michigan six months and who proposes to hunt or kill deer in the state must take out a license from the county clerk of the county in which he resides, the fee for said license being not to exceed fifty cents.
All licenses continue in force only during the open season of the year in which issued and permit the killing of five deer only.

To each deer or parts of deer shipped, one coupon from the hunter's license must be attached, the coupon being signed and detached from the license by the person to whom the license is issued in the presence of the shipping agent at the point of shipment. Each coupon permits the shipment of one deer to any point in Michigan.
Every person hunting or killing deer without a license will be fined, upon conviction, a sum not less than \$50 nor more than \$100 or be confined in jail for ninety days or both, in the discretion of the court.
Refusal to pay the fine prescribed when its imposition is demanded by any game warden or deputy, any sheriff or deputy or any constable is made prima facie evidence of illegal hunting.
The sale or barter or exposure for sale of any quail, woodcock or partridge is absolutely forbidden in the state under a fine of not less than \$10 nor more than \$50 and the costs of prosecution.

'Said Pasha' Tonight.
The Imperial Opera company will repeat "Said Pasha" tonight at the Marquette Opera house. The company has some very good voices in its ranks and the presence in the city of so large a body of visiting firemen should give the company a large house in spite of the fact that the bill is repeated on the heels of so large a house as that of last night.

This afternoon the Imperials will take in the ball game in a body and will do some choice "rooting" for Marquette and THE MINING JOURNAL can assure them, by the way, that it will be a long, long day before they will come across a nester amateur team one in which every player was reared in the city whose fame the team has so well maintained, not having lost a game on the home grounds in two years.

In the evening the Duluth and Marquette teams will take in the opera and after the performance the opera company, whose members are nearly all baseball cranks, will entertain the ball players on the stage, a little love feast being held at which the Hon. Thomas Sparrow will officiate as toastmaster, taking a little recreation after his arduous labors in pushing clouds away during the action of the opera.

Good Week for Lumber.
The busiest man in Marquette during the past six days has been W. W. Richardson, the lumber inspector and shipper. It has been a great week for lumber, fully six million feet having been loaded at this port during the days noted, 2,000,000 from the Dead River mill dock, 450,000 from the railroad dock and the remainder from the Burdett mill docks, seven vessels having been gathered about the latter docks at one time.

Cargoes were taken out during the week by the Ketchikan and consort, Montgomery; Perew and Beckey; Porter and consorts, Cahoon and Brainerd; Rhoda Stewart and consort Bay City, and the William Brake, ten cargoes in all, of which Mr. Richardson handled eight.

The Ketchikan and Montgomery have a season contract with the Dead River

mill to handle 30,000,000 feet and every eleven days they take down very near an even 2,000,000 feet. Wonderful time is made in loading the Ketchikan. She carries 1,200,000 feet and elsewhere it has taken four days to load her but here it is done in two days, 600,000 passing over her rail in a day. This record is made possible by the fact that all the Dead River mill lumber is measured in the yard and then sent down onto the dock, the Ketchikan's cargo going on one side and the Montgomery's on the other. When the boats arrive they find their cargoes ready and as there is no cross piling it goes on board with a rush.
During the week the rush has been so great that all the lumber shovers were employed and many of the ore trimmers, idle because of the miners' strike, also obtained work. The pay is forty cents an hour and as fully one hundred and fifty men were on the jump all the week it can be seen that the transfer of the lumber from the dock to the vessel left a good deal of money here. Besides the big lumber shipments of the week four or five cargoes of board timber for the European market went forward, hence it is evident that Marquette's harbor was not entirely deserted even if the cargoes of Republic ore were the only evidence of the great industry for which Marquette county has long been famous.

Duluth vs. Marquette.
The Zenith City and Queen City baseball aggregations will face each other at the Fair grounds this afternoon and tomorrow afternoon and great interest is felt in the result. Word has been received that a big force of the firemen who have been having a gay time at Ishpeming this week will be down to see the game. It is now understood that the Hurley, Ironwood and Bessemer departments will visit Marquette today and it is also expected that the Hancock department will keep the Gogebic visitors company. For the game today Reichman or Smith will be in the box for Marquette, while Krollwitz will pitch for Duluth. The batting order will be as follows:

DELUETH.
Springer 3b
Connors c
Larkie lf
Gerald 2b
McCallum cf
Fitch ss
Neil rf
Carroll lb
Krollwitz p
Chapman p

MARQUETTE.

Don't miss these games, as they will be the star engagements of the season.
Secretary Carlisle's Visit.
Secretary Carlisle and party were compelled to remain over here yesterday by the illness of his little grandson, aged seven. The two younger of the secretary's three grandchildren suffered from a mild attack of the German measles after the Amaranth, in which the secretary and Mrs. Carlisle with their daughter-in-law and her three children are making the trip around the lakes, had left Chicago, but nothing serious came of it until they had reached this port. Thursday night the little boy became very ill, his disorder developing a trouble of the bowels. Yesterday morning Dr. Youngquist was summoned to treat him and the Amaranth remained in port during the day and last night, the physician being of the opinion that it would be unsafe to resume the trip on the lake until he showed some improvement. The rest and good treatment brought a marked improvement in the child's condition during the day and last evening he was getting along encouragingly. If his condition is favorable this morning and the weather promises well, the Amaranth will leave for Duluth.

Yesterday forenoon Mr. and Mrs. Carlisle, with their grand-daughter, Miss Jane, took a drive, escorted by friends here, to and around Presque Isle, also visiting other points of interest in the city. The distinguished visitors were delighted with the beauty of Presque Isle and greatly enjoyed their drive. During the day several citizens of the city paid their respects to the secretary on board the Amaranth, and found him a charming entertainer, despite the anxiety that he felt on account of the illness of his little grandson, to whom he is deeply attached.

Will Face the Camera.

Before starting on their return to Chicago Sunday afternoon the Sir Knights of St. Bernard Division, Uniform Rank, Knights of Pythias, of Chicago will be photographed at the Hotel Superior at 9 a. m. Sunday. Iron division No. 41 of Marquette will also be present and the physiognomies of its members will form an important part of the picture. It is the expressed desire of the visiting knights that as many members of Iron division as can possibly attend shall be present when the picture is taken, as the photograph of this party is to be the most cherished souvenir of the visit.
Accordingly all members of the division are directed to report at the Castle hall Sunday morning and the march to the Hotel Superior will be taken up at 8:30 sharp. Sir knights will report in full dress, except helmets, wearing fatigue caps instead. When they arrive at the hotel Photographer Bailey will do the rest.

VACATION TIME
Is at hand and is gladly welcomed by all, especially those whose duties in life have caused them to greatly run down their system to meet the requirements, physical and mental, forced upon them. With these and others, it is important, whether at home, at the seashore or in the country, that some thought be given to diet, and as further assistance of Nature, a good building-up medicine like Hood's Sarsaparilla had best be resorted to. If the digestion is poor, liver deranged and frequent headaches seem to be the rule, Hood's will change all this and enable everyone to return to their home and business in a refreshed state of mind and bodily health.

OUR CLOSING SALE OF SUMMER GOODS

Has kept all hands here busy as bees for the past few days. Nevertheless we place before you a complete revision of already low prices to keep up our reputation of never being undersold, giving the people trading here more for their money than can be had elsewhere. We name prices way below those quoted by our competitors. It's like a man grasping in the dark to head us off, for our aim is to always undersell. People come here expecting snore for their money that can be had elsewhere and they are never disappointed. No matter how low a quotation is made by our competitors we always go them a notch lower, besides showing you three times the stock to pick from than is shown by any other concern.
