

SIX O'CLOCK. WEARY WOMEN WATCH FOR THAT BLESSED HOUR.

Help for our Working-Girls and Women Near at Hand.

(SPECIAL TO OUR LADY READERS)

The stroke of six ends the day's work at stores, offices, factories, mills, where women are employed. But their necessary work at home, sewing, mending, etc., must be done after that time, and "their work is never done."

Backache, dizziness, fainting, head-aching, disordered stomach, moodiness, dislike of friends and society—all symptoms of the one cause—will be quickly dispelled.

Write Mrs. Pinkham about your trouble. You can tell the story of your pain to a woman, and get the help that only woman can give.

FRIENDLY FACES.

Beam Down Upon the Visitors at the National Museum.

Plaster Casts of Noted Persons and Queer Manikins of the Various Races—An Interesting Collection.

Some queer likenesses of human beings of many nationalities and countries have been collected in plaster by the scientists at the National museum.

The collection, says the National Tribune, includes a number of heads which have an interesting history. From one of the shelves there looks down a plaster mask of the late Joseph Francis.

A companion mask near that of Mr. Francis is one from Gen. Greely, the present head of the signal corps, distinguished for his travels in the far north.

One advantage in leaving off the lower part of the face is that it allows the person to breathe freely, and this part can be added afterward without difficulty.

People visiting the museum sometimes marvel at the life-like proportions of the many clay figures which adorn the different collections.

The sculptor has to exercise much care in preparing his casts from living subjects. Take the hand as an example. It has first to be carefully oiled, that all the hairs may be smoothed down.

The collection of dolls at the museum is the largest in the world. Some of the Esquimau dolls are probably the most valuable, and they certainly are instructive.

A carpenter sent to make some repairs in a private house entered the apartment of the lady of the house with his apprentice, "Mary," the lady called to her servant, "see that my jewel case is locked at once."

WORLD'S EXPENSIVE BRIDGES.

The Structure Uniting New York and Brooklyn Heads the List.

The very latest official computation puts the total cost of the Brooklyn bridge at \$17,489,853. The bridge when contracted for was to cost \$10,800,000. At least, such was the original estimate of John A. Roebing, who in 1867 put the cost of the bridge at \$7,000,000 and of the approaches to it \$3,800,000.

GOOD AS GOLD.

How Unused Railway Tickets May Be Redeemed at Slight Cost.

Some men with valuable unused railway tickets on their hands sell them to scalpers, while others go to the railway company that issued them and obtain their value in money. Most men, however, do neither, and accept the loss when the ticket is worth less than one dollar.

INDUSTRIES ARE CRIPPLED.

Fox River People Dissatisfied With Water Power Decision.

APPLETON, Wis., Aug. 11.—The decision of the war department in the water power matter causes a great deal of dissatisfaction throughout the Fox river valley. It means that manufacturing industries must remain crippled until the close of navigation, though the mills are supplying themselves with steam plants as rapidly as possible.

That closes the transaction, and there is no material loss on either side.

Powder Puffs.

Probably not many women know where the powder puffs with which alabaster brows and blushing cheeks are produced come from. There is a place in Chicago where some nimble-fingered girls are engaged all the year round in making them. The material is the soft, fluffy down from cygnets or young swans, and it comes largely from the islands of the Baltic sea.

JUGGING FOR CATFISH.

Exciting Employment of Natives Along the Missouri's shores.

They died in Jefferson City several months ago a character known as "the king of jug fishers." His name was Tipton M. Goodwin, and what he didn't know about catching catfish from the mighty Missouri was scarcely worth knowing. He was a good carpenter by trade, an avocation which he followed in the winter when there was nothing to do in the way of hunting or fishing, but his real business throughout the year was "jugging for cat."

That's what you must expect of such a collar; it's the linen of it.

The stand-up collars won't stand up, and the turn-down collars will wilt down. The easy, cheap, and pleasant way out of this is to wear "CELLULOID" COLLARS AND CUFFS. These goods are made by covering linen collars or cuffs on both sides with "CELLULOID," thus making them strong and durable, and waterproof, not affected by heat or moisture. There are no other waterproof goods made this way, consequently none that can wear so well. When soiled simply wipe them off with a wet cloth. Every piece of the genuine is stamped like this:

Full off with starch and glass serene, The linen collar starts the morn; Full off at noontime it is seen All wilted, wrinkled and forlorn.

THE MEETING SATURDAY.

Imposing Demonstration of the Striking Miners Held in the Afternoon at Ishpeming.

FULLY 4,000 ASSEMBLED TO HEAR JUDGE CAREY'S ADDRESS.

The Men Still Determined to Hold Out for Recognition of Their Union and the Full Schedule Demanded.

IT WAS A BIG ONE.

The meeting of the Ishpeming and Negaunee strikers held in Ishpeming Saturday afternoon drew out a large crowd. The men returned from the park at 12:30. About 3,000 men were in line. The line of march was along Division street to First, on First to Canal, on Canal to Main and on Main to the ground near the co-operative store, where the men dispersed for dinner.

At 3 o'clock the strikers re-assembled to listen to an address by Hon. E. J. Carey of Negaunee. The gathering was quite large, there being almost 4,000 men and a goodly sprinkling of women crowded in the lot. Mr. Carey spoke for an hour and a half, during which he held the close attention of his hearers. He opened with an acknowledgment of the dependence of the men and their leaders on God, then paid a tribute to the flag which elicited cheers from the men. Next he alluded to the newspapers and invited any reporters who might be on the ground to seats on the platform. The reporters from the outside dailies were all out of the city, while some of the local reporters happened to be around at that time. Mr. Carey spoke kindly of THE MINING JOURNAL and its representatives because of its fair and impartial treatment of the men and their cause, and his allusion to the fair treatment his paper has accorded the men brought out a hearty cheer for THE MINING JOURNAL, its editors and reporters. He also spoke appreciatively of THE PENINSULAR RECORD, the official organ of the strikers, and its work in behalf of the men, and was again cheered. But it was evident that the outside papers and The Iron Ore of Ishpeming and Iron Herald of Negaunee do not stand very high in the estimation of the strikers for some reason, and there were no kind words spoken of them or their representatives.

Mr. Carey's address was at times quite eloquent, and it was interesting from start to finish. He reviewed the strike and gave the men some good advice. In the course of his remarks he put in a kind word for the local mine managers. He said the settlement of the demand for the outside papers and the Iron Ore of Ishpeming and Iron Herald of Negaunee do not stand very high in the estimation of the strikers for some reason, and there were no kind words spoken of them or their representatives.

Those who went to hear Mr. Carey expecting to hear him deliver a demagogic and inflammatory discourse were disappointed. While he did not hesitate to avow his sympathy with the men and to urge them to stand loyally together in the contest on which they have entered he repeatedly adjured them to abstain from lawless acts, and to not allow themselves to be tempted in any manner to violate the law. No fault could be found with his address so far as it bore on the duty of the men as citizens. The obligations and significance of their citizenship were strongly impressed on the attention of the men, and the speaker to his remarks on that point seemed to be very well received. There was nothing "demagogic" in his appeals to the men, and certainly no endeavor to array them against the authorities, irritate them with a desire to harm anybody in person or property.

Mr. Carey expressed the hope that the trouble would soon be over; that the companies would see their way clear to grant the men the advance of pay demanded. His remarks were very heartily received, and when he concluded speaking he was given three hearty cheers by the vast assemblage. So far as THE MINING JOURNAL can learn, the temper of the men remains unchanged, while the mine managers show no signs of receding from their position. It is quite apparent that the men are still determined to hold together and not go to the mines to hear the propositions of the mine managers separately. They will continue to hold their daily meetings and are buoyed up by a strong conviction that the companies will soon treat with them through their union and grant their full demands.

It is said that some of the companies are thinking of starting their steam shovels within the next week or ten days. This will surely precipitate a crisis if attempted, as the men will not allow any ore to be mined or shipped until a settlement is had if they can prevent it.

Went Home Happy.

The visiting firemen who remained in Ishpeming Saturday had a glorious time. They had the freedom of the city as on the three previous days and the local firemen, as well as others, insisted on making things pleasant for the boys. The Bessemer, Ironwood and Hurley companies went to Marquette on the 9:45 a. m. train and paid a visit to the branch prison, also taking in the sights of the city. They returned on the 4 o'clock train in the afternoon and got off at Negaunee. After spending an hour or two there they returned to Ishpeming, where they remained until 11:45, when they departed for home.

The visitors assisted very materially in giving the city a lively appearance Saturday night. Shortly after supper a dozen or more of them procured a ladder and gave exhibitions in ladder climbing along Main street. They attracted much attention and all enjoyed the exhibition given. Later in the evening the boys began feeling happier than usual and they doubtless enjoyed

themselves as well during the last few hours they were here as at any time during the tournament.

The visitors were accompanied to the train by a large number of the Ishpeming firemen as well as hundreds of others. The visitors, as well as the Ishpeming department, were heartily cheered by the crowd. At 1 o'clock the train, with the copper country and other companies from up the line left for home, there was also a large crowd and the departing firemen were cheered enthusiastically as the train pulled out.

Couldn't Find the Water.

Some of the Ishpeming friends of one of the Hurley firemen, who is an old Ishpeming boy are telling a good joke on him. On Saturday he invited some of his Hurley friends out to Lake Angeline to take a boat ride. Before starting out the Hurleyite asked one of the firemen here if there were as many boats as usual at Lake Angeline and if he would have any trouble in procuring one in case he took his friends out there. Seeing a chance to get the laugh on his friend, the Ishpeming fireman told the Hurley visitor there would be no trouble about getting all the boats he would need to navigate Lake Angeline. So the little party started for the lake, the former Ishpemingite telling his friends as they tramped out there what a glorious time he used to have boating there in his boyhood days.

Arriving at the place they of course discovered that there was no water in the lake, so the laugh was on John. He "squared" himself, however, when he returned to town but exacted a solemn pledge from his friends not to say anything about his boating excursion on Lake Angeline when they returned to Hurley.

Two Deaths Friday.

The daughter of Andrew Gauthier, aged twenty-two years, died Friday of consumption at the home of her parents on Pearl street. The funeral was held yesterday afternoon at 2:30 from St. Joseph's church.

James Lezenby, who resided with his nephew at the Cleveland location, died Friday night at 11 o'clock. Cancer of the throat was the cause of his death. He was seventy years of age.

ISHPEMING IN BRIEF

George Voelker and his mother got home from their western trip Saturday.

Mr. and Mrs. C. H. Moss are happy over the advent of a young son at their home.

Gust Peterson, ex-chief of police of Ishpeming, came down from Duluth Saturday.

Fred Karlinen, editor of the Finnish paper at Calumet, spent Saturday in Ishpeming.

Mr. Brackett, of the Gamewell Fire Alarm company, who was in Ishpeming during the tournament, left Saturday night for Duluth.

H. Harwood has circulars and entry blanks for the bicycle races to be held at Marinette, Wis., Aug. 15, 16, and 17, and will be pleased to supply all those interested in them.

C. D. Cole, of Child's Art Gallery, procured some good views of the strikers as they were gathered to hear Mr. Carey's address Saturday. He also procured some fine views of the firemen's races, parade, etc.

Frank E. James of Hancock, who won the two first prizes in the foot races here Friday, has about a dozen medals which he won at other places. He says the two medals he got here are finer than anything he ever before won.

All those who have bills against the firemen on account of the tournament are requested to hand them to the chairman of the different committees as soon as possible. All bills should be in before Saturday evening when the department meets to audit them.

PITTSBURGH'S LAW LIBRARY.

Contains Acts of Scottish Parliament and Many Valuable Reference Books.

The Allegheny county law library in Pittsburgh is the pride of the judges and the lawyers and the constant reference for all of them. It contains twenty-eight thousand five hundred volumes and embraces the decisions of the superior courts of every nation where jurisprudence is known and practiced. It had a slender beginning, says the Pittsburgh Times, but wise providers, and now, while its possessions are increased at considerable cost yearly, the cost to the lawyers, for whose especial benefit it is, is nothing. The total expenses are not more than five thousand dollars annually, and this money is paid by the county commissioners.

Based on the shelves are decisions of the Indian court of appeals, and below them are the deliberances of the erudite, bewigged and bejeweled justices of the courts of England, whence all law comes. There are copies of the reports of every state and territory, and reviews of the important causes which have been decided by the courts of France. Most of the books are printed in English, though some of them are in French, German and Latin. One volume from the supreme court contains a dawningly precise recital of a love case, which must have excited state-wide comment from the fluent Attorneys at Law, the learned and grave judges; the admixture of passion and pistol makes it a thrilling story. It is soiled by the touch of many thumbs and seems to have been much read in preference to the dry diagnosis of the technicalities of suits involving property rights.

There are some treasures in the library which are highly prized. The oldest book is a copy of the acts of the Scottish parliament from 1124 to 1425. It contains charters and seals that are so yellowed with age as to be in parts undecipherable. Another revered volume is Fitz Gibbons' reports of the cases argued at the king's bench in Westminster, London, during the five years of the reign of George II. This book begins with the date of 1739, and its leaves are eaten by worms. The type is of a large German character. This is probably the only copy in America. The Scotch acts, from 1224 to 1621, contain the laws of parliaments during the reigns of King James and Queen Mary in one part, and the acts during the reign of King Charles I. and II., and the convention of estates of Scotland in 1663, 1667 and 1678, in the other. The Duke of York's "Book of Laws" of 1679 to 1682 has all the autographs of the governors and presidents of the councils of Pennsylvania during those years. The list includes the flourished chirography of William Penn. There is also a fac-simile of the charter granted by King Charles II. to Penn.

"Your husband has been ill," said the caller. "Yes," replied the little, worried-looking woman; "he has been feeling very badly. I do my best to please him, but nothing seems to satisfy him." "Is his condition critical?" "It is worse than critical," she answered with a sigh, "it's abusive."

"I'm puzzled," I answered. "You're very charming, Flo, but—"

"Thank you, William," said Flo, in a very low voice. William withdrew. I stood meditatively in the middle of the room. Then I put my hat down.

BROKE EVEN WITH DULUTH

Marquette Team Lost First Game This Year on the Home Grounds.

PLAYED IN THE INTERVALS OF SHOWERS OF RAIN.

Score Tied in Sixth but Ballou Went Up in Eighth and Marquette Was Not in It.

CLOUDS DID NOT ROLL BY.

Marquette broke even with Duluth in the two games, winning that of Saturday by better work with the stick and in the box and dropping Sunday's by a combination of errors and hard luck in the eighth inning. Smith proved a hard puzzle for the visitors in Saturday's game and had he always received sharp support the score would have been even better than it was. In Sunday's game the Duluth batters had of course learned something and Smith was at the disadvantage of having to pitch two games in succession. After holding the visitors down well for seven innings they lit on him and assisted by several errors hammered out seven runs in the eighth. Krellwitz did well in Sunday's game for the visitors, better in fact than in Saturday's.

Chapman was in the box for the visitors at the opening of Saturday's game and was touched quite freely. Then he got a finger hurt and was so wild that he had to be retired and Krellwitz substituted. The latter did well for a time but in the eighth the Marquette batters jumped on him and hammered out the four runs that won the game. Smith never did better but the fielding was quite ragged at times. The weather was excellent and the spectators numerous. Score by innings:

Duluth.....2 0 0 2 0 0 3 0-8
Marquette.....3 1 0 1 0 2 4 7-11

Sunday's game was an exciting contest down to the eighth inning, the interest of a close and then a tied score being varied by uncertainty as to how long the rain would allow the players to keep the field. Three or four times Umpire Malone was compelled by sharp showers to send the teams to shelter and to suspend the game to wait for the clouds to roll by. Then as the rain let up the contest would be resumed. Owing to the rain the game did not begin until late and the general expectation was that it would be called at the end of the seventh. But when that came the score was tied and the moist and muddy players had to keep on dancing around in the slop while the pitchers nearly twisted their fingers off trying to control the wet ball.

The visitors led off well but as Smith got warmed up to his work the balance began to incline the other way and McCarthy's drive over left-field fence in the sixth tied the score. This is the first time this season that the ball has been lifted over that fence and if recollection serves the first home run hit. The crowd cheered lustily but the smash brought in no one but McCarthy himself. Two men were out already and Rivers after getting his base on balls was cut off at second by Mack's quick handling of C. Reichman's grounder. Then for an inning and a half the score was tied but in the eighth Duluth got on her batting clothes and touched Smith for four safe hits, which with a choice assortment of errors let in seven runs and won the game. Score by innings:

Marquette.....0 0 1 2 1 1 0 0-5
Duluth.....3 3 0 0 0 0 7 7-12

The visitors were unlucky in the way of accidents in Saturday's game. In addition to the damage to Chapman, Gerhard, their second baseman, got a finger broken at the knuckle. This left them a man short but they got down Coveau from Ishpeming. The latter did quite good work and having often played with the Marquette team managed to make two safe hits and get one base on balls. While Coveau's work was not conspicuous enough to say that he won the game for the visitors he no doubt strengthened the team, for under the circumstances he was quite as good a batter as Gerhard and much better than Chapman.

Malone of Duluth was umpire and a more accomplished man for the place has not been seen on the home grounds. His decisions were quick and certain and he was so evidently alert and so manifestly fair that he gave the cranks no opportunity to kick.

BARAGA DEFEATS HANCOCK.
BARAGA, Mich., Aug. 11.—[Special.]—Baraga defeated Hancock here today in a hard fought and well contested game, the feature of which was Berriman's pitching. Score: Baraga, 4; Hancock, 3. Batteries—Berriman and Nugent; Renwick and Sody. Base hits—Baraga, 10; Hancock, 6. Struck out—by Berriman, 11; Renwick, 3.

House Was Very Thin.

"Said Pasha" did not prove a drawing card for a second night at the opera house and was repeated to practically empty benches. The performance was better than on the first night and the singers were as good natured in responding to recalls from half a dozen people as if the house had been crowded to the doors. The company contains some good voices and some fairly clever comedians. Its management made two mistakes here which no doubt will be rectified hereafter. The first was in charging first class prices for a second class show. The tickets should have been placed at not more than seventy-five cents for the best seats and perhaps fifty cents all over the parterre would have given more general satisfaction. At "popular prices" the company gives a good show but its performance, as things theatrical go, is simply not worth the rates charged here. The managers say they appreciate this fact and in the copper country, where they go now, will play at popular prices, which will also prevail when they return to this city.

The second mistake was in the opera selected. "Said Pasha" contains some pretty music, but is no piece for a small company. Its text is too incoherent and has no central motive to hold the interest of the audience. It depends too

much on the amusing horse play by the comedians, and on gorgeous costumes and a big and shapely chorus. These were lacking and the few pretty airs, although well sung, could not make up for the absence of a coherent plot and really interesting situations. "Chimes"—if there is a man in the aggregation who can do Gaspard—or "Mascotte" or "Olivette" could probably be given by the company with much more satisfaction to the audience. At "popular prices," however, those who go will get the worth of their money.

Britton Gets Out Warrants.

Fred H. Britton, special correspondent of the Detroit Evening News, came down from Ishpeming Saturday and filed four complaints before Justice Crary against as many of the leaders of the crowd of strikers who compelled him to leave Ishpeming in such haste a week ago last Friday night. This action on Mr. Britton's part will be something of a surprise to many people. For while he was unquestionably treated in a wholly unlawful manner by the strikers, the latter had realized the folly of their course and their leaders had invited his return to Ishpeming with positive assurances that he should be protected. He had been about the town for a week, going freely in pursuit of his business where he pleased without any molestation whatever. Most people had come to look upon his former expulsion as the hasty action of excited men, of which their cooler judgment had caused them to feel ashamed, and for which due apology had been made. That the matter should be reopened at this late day is considerable of a surprise to everybody.

The Circus Is Here.

Ringling Bros.' big show pulled into town at midnight, coming in three heavy trains of huge cars. All night hundreds of men were busy getting poles and canvas and wagons and all the multitudinous paraphernalia of a modern circus out to the Fair grounds and with early dawn the big tents swung up and everybody was hustling to get ready for the parade. The horse cars came first and were unloaded and ready to attach to wagons by the time the next section arrived. The first wagons to go out to the grounds were those which carried the cook tent, for there would be lots of hungry men for breakfast and the cooks must begin early. Such was the order and discipline that there was no confusion apparent anywhere and no waiting for directions. Everything went to its place and every man to his place at once.

Sons of St. George.

The South Shore road has made a rate of \$3 for the round trip from all points in Houghton County for the Sons of St. George reunion and will run a special excursion train leaving Lake Linden and Red Jacket at 6 o'clock on Saturday morning and reaching here at 11:10 o'clock. Rates from intermediate points will be correspondingly low and from Ishpeming and Negaunee will be fifty cents. A special train will leave here at 10 o'clock Saturday night to take the visitors back to the copper country. Excursion tickets will be accepted on all regular trains of August 17 as well as on the specials and will be good returning until Aug. 20 inclusive. The indications are that the attendance of visitors will be very large.

The Boys Brigade.

Company F, Second Michigan Regiment, Boys' Brigade of America, will not hold its regular meeting tonight (Monday) on account of the circus, but will hold it Wednesday evening at the Presbyterian church. All members are requested to be present at that time. Visitors are always welcomed and new members are wanted. The management of the Boys' Brigade has secured the services of Dr. Minor C. Baldwin, the celebrated organist of New York, who is taking a vacation in this region and with the aid of local talent propose to give an organ recital and concert at the Presbyterian church on Monday evening, Aug. 19, in behalf of the Boys' Brigade.

Maccabees in the City.

The city was gay yesterday with the insignia of the Knights of the Maccabees. An excursion some two hundred strong with a brass band rolled in at noon, having started from Bay Mills and picked up contingents from Sault Ste. Marie and all along the line. Belknap tent of Onota sent up its whole membership and the tents at Bay Mills and other points were out in force. The excursionists were unlucky in their weather, but contrived to get much enjoyment out of the trip just the same. They went home by special train last night.

Firemen in Town.

Quite large contingents of firemen and others from the tournament at Ishpeming were in the city Saturday, the South Shore having made a fifty cent rate for the benefit of those who wished to see Marquette or to call on friends here before going home. Many of the visitors took in the ball game in the afternoon while others went out to Presque Isle and saw other sights of the vicinity. They seemed well pleased with their reception on the Marquette range and with the hospitality of the three cities which they had had an opportunity of visiting.

Look Out for Thieves.

Marshal Maloney requests merchants to look to their back doors today while the circus parade is passing and to their bolts and bars generally. While Messrs. Ringling take all possible precautions to keep thieves away from their show they cannot prevent their presence entirely and the crowds that go with a circus necessarily give a chance to depredators of all kinds. Extra police will be on duty but people should take all precautions.

OUR CLOSING SALE OF SUMMER GOODS

Has kept all hands here busy as bees for the past few days. Nevertheless we place before you a complete revision of already low prices to keep up our reputation of never being undersold, giving the people trading here more for their money than can be had elsewhere. We name prices way below those quoted by our competitors. It's like a man grasping in the dark to head us off, for our aim is to always undersell. People come here expecting more for their money than can be had elsewhere and they are never disappointed. No matter how low a quotation is made by our competitors we always go them a notch lower, besides showing you three times the stock to pick from than is shown by any other concern.
