MARQUETTE SANATORIUM.

THE MARQUETTE SANATORIUM not only receives patients for treatment but others who need a quiet hygienic home for rest and recuperation.

Use is made of all forms of baths, massage, Swedish movements, the vibratory treatment, electricity, oxygen, super-heated air, cupping, special dieting, etc., etc.

It is well known that all cases of sickness, both medical and surgical, do better under sanatorium care and treatment than at home. All cases are helped and many seemingly hopeless cases of chronic invalidism are readily cured.

For rates and full particulars of our cottage plan, and most wonderful climatic advantage over all other points, address

R. C. MARKHAM, M. D., THE MARQUETTE SANATORIUM, Superintendent.

CUBAN FILIBUSTERS JAILED

Twenty Men Arrested at Wilmington, Del., for Violation of Neutrality Laws.

WERE JUST ABOUT TO EMBARK FOR THE ISLAND.

Arms and Other Munitions Intended for the Insurgents Found in Their Possession.

PLANS KNOCKED IN THE HEAD. WILMINGTON, Del., Aug. 30.—Twenty men were brought here this evening from Penn's Grove, N. J., and lodged in jail charged with violating the neutrality laws in having organized a hostile expedition to Cuba. They are still here in the custody of the United States authorities. The men under arrest are from Philadelphia and New York, and were arrested under orders issued by the treasury department. A hearing will be given them tomorrow.

It had been suspected several months that a Cuban-filibustering party was at work in this city. Tonight it was learned they have headquarters at 710 Market street here and that at least one if not more expeditions to Florida have been dispatched from this city. Monday the United States authorities here were notified by Detective Gaylord of the Pinkerton agency that another expedition was about to start. Detective Gaylord and several of his associates came the next day.

United States Deputy Marshal Lannen and several assistants, together with the police authorities, kept a close watch ever since. They noticed a number of suspicious characters loitering about a cigar store and discovered that one of these had chartered the tug Taurus to carry freight to Penn's Grove. They shadowed the tug until she left her wharf in this city at midnight last night. It was known beforehand by the authorities that an alleged filibustering party was to wait at Penn's Grove for a steamer to come from Philadelphia at midnight tonight to take them to Cuba. The men were watched here and permitted to load their freight and embark without molestation.

This afternoon Marshal Lannen with several assistants, Detective Gaylord and a squad of police boarded the tug Medina and sailed for Penn's Grove. There they found the party which had chartered the Taurus and arrested them. When they overhauled the freight in the hull of the Taurus they found it consisted of twenty-seven cases of arms, a large quantity of ammunition, provisions, clothing, etc. All this was seized and the party returned to Wilmington.

None of the prisoners have been permitted to make any statement and it is not thought they be until they are arraigned in court. An expedition similar to the one which came to grief two weeks ago and it is understood its members safely landed in Cuba.

NEW YORK, Aug. 30.—Information was received today at the headquarters of the Cuban Junta that another expedition with guns and ammunition had landed on Cuban soil.

CUSTOMS OFFICIAL MAKES A SEIZURE. WASHINGTON, Aug. 30.—The treasury department today received a telegram from Collector of Customs Cottrell at Cedar Keys, Fla., saying that at the instigation of the Spanish consul at Tampa he had seized at a point twenty miles from Cedar Keys 150 Remington rifles, a quantity of cartridges and ten kegs of powder which were to have been shipped to Cuba.

MUST GRANT HOME RULE. Only Means by Which Spain Can Maintain Foothold in Cuba.

HAVANA, Aug. 30.—At a reunion last night of the leaders of the Autonomist party an agreement was entered into providing for an active propaganda in the interest of the party. An effort will be made to bring to the attention of the Spanish government the necessity for the establishment of the principle of autonomy, thus, it is hoped, satisfying the Liberal elements and putting an end to the struggle with the insurgents. By this means, it is thought, many insurgents who, acting in good faith, have taken up arms against the government, may be induced to surrender.

Reports have been received here to the effect that insurgents have burned the village of Cuatro Caminos, near Encru Cijada, province of Santa Clara. A report has been received by government officials to the effect that the column of General Ruiz had completely routed and dispersed the insurgents near Guaymaro. The insurgents left forty dead and these, according to the report, were buried by the troops.

A THING OF THE PAST. Boston Conclave Is Over—Many Knights Leave for Home.

BOSTON, Aug. 30.—The twenty-sixth triennial conclave of Knights Templar is over. The grand encampment wound up its business today, installed the officers and tonight goodbyes are being said and thousands of knights leaving for their homes. The grand encampment devoted almost the entire day session to the discussion of a constitutional revision. It was decided to make Washington the headquarters of the Knights Templar after 1898. If no invitation is received from another place the triennial conclave will be held in that city. A motion by Past Grand Commander Carson of Ohio to levy a per capita tax of twenty-five cents per year for the purpose of maintaining the archives in the city of Washington was referred to the next conclave.

The grand officers elected were then installed by Grand Commander McCurdy, and resolutions were passed expressing the thanks of the grand encampment to the retiring grand master. The new grand master, the Most Eminent Sir Warren Larue Thomas, then appointed the following grand officers: Prelate, Cornelius Twing, New York; standard bearer, Thomas O. Morris, Tennessee; sword bearer, Edgar S. Dudley, Nebraska; warden, Joseph A. Locke, Maine; captain of the guard, Frank H. Thomas, Washington. The grand encampment adjourned to meet at Pittsburgh on the second Tuesday in October, 1898.

A reception and banquet complimentary to the officers of the grand encampment was given tonight at the University club by St. Bernard commandery of this city.

Four warships, the New York, Minneapolis, Raleigh and Montgomery, arrived this morning and were the center of interest to the visiting Knights during the day. The Minneapolis commanderies will tomorrow present a silver service to the cruiser Minneapolis.

EASTERN STAR GRAND OFFICERS. At today's session of the eight triennial meeting of the General Grand Chapter of the Order of the Eastern Star the following officers were elected: Most worthy grand matron of the general grand chapter, Mrs. Mary E. Partidge, Oakland, Cal.; most worthy grand patron, Henry H. Hinds, Stanton, Mich.; associate grand matron, Miss Hattie Ewing, Massachusetts; right worthy assistant grand patron, N. E. Gearhart, Minnesota; right worthy secretary, Miss Lorraine Pitkin, Ills.; right worthy grand treasurer, Mrs. Harriet A. Franck, Iowa; worthy grand conductress, Edna L. Hedges, Montana; associate conductress, Laura B. Hart, Texas.

DEFENDER AGAIN VICTORIOUS. Defeated Vigilant Yesterday and Is Chosen to Meet Valkyrie.

NEW YORK, Aug. 30.—The third so-called trial race between the Defender and the Vigilant, which took place today, was a good deal of a farce. The Defender won over a course of ten miles to the windward and return by five minutes and twelve seconds, when she could have passed the finish line anywhere from eight to ten minutes ahead of the Vigilant if she had been sailed for all she is worth. The Vigilant, on the other hand, was sailed as she always is—in a most sportsmanlike manner. White caps appeared here and there but there was no sea that could be called heavy or even choppy.

The racers had not proceeded a mile on the course when the English Valkyrie loomed up to the northward. She was never nearer to the Vigilant than five miles, but even at that distance it could be seen that the challenger kicked up a good deal of fuss in the water. The Valkyrie did not come near the Defender and Vigilant until very near the close of the race, when she drew up to the finish line and witnessed the Defender's success.

The America cup committee formally decided at a meeting held on the committee's boat this afternoon that they had selected the Defender to meet the Valkyrie for the America cup. There was a conference tonight at the New York Yacht club's house between the members of the cup committee and Lord Dunraven. No information concerning it was made public.

EXCURSION TRAIN WRECKED. Two Persons Killed and Fifty Injured Near Macon, Ga.

MACON, Ga., Aug. 30.—An excursion train on the Southern railway carrying a party of Pythias excursion from this city to Indian Springs for a picnic left the track between Holton and Pope's Ferry this afternoon. The baggage car and two passenger coaches turned over. J. A. Kennedy of this city and Mrs. Hancock of Americus, Ga., were killed and almost every person in the two coaches was hurt more or less seriously. None of them are likely to die. There is no way of accounting for the accident, as it is said the track was in perfect condition. The number of injured will reach fifty.

TAYLOR SENTENCE UPHELD. Lower Court Did Not Exceed Jurisdiction in the Matter.

PIEBRE, S. D., Aug. 30.—The supreme court today remanded ex-State Treasurer Taylor to a deputy sheriff, who will leave with him for the penitentiary tonight. The point decided was the jurisdiction of the lower court to impose sentences in excess of the limit of the general imprisonment law. The supreme court holds that the lower court did not exceed its jurisdiction; that after Taylor has served two years he can test the validity of the two years sentence.

MINERS MADE HAPPY. Wages of Coal Diggers in Birmingham Fields Voluntarily Raised.

NASHVILLE, Aug. 30.—Advices from Birmingham state that the Tennessee Coal, Iron & Railway company today advanced the price of pig iron fifty cents per ton on all grades and the wages of the coal miners were accordingly advanced two and one-half cents per ton. Coal mining in the Birmingham district is now at the highest price paid for three years.

BURNED THE HOUSES. Turkish Soldiers and Kurds Attack Several Armenian Villages.

BERLIN, Aug. 30.—The Vossische Zeitung has news from Tiflis that five thousand soldiers and ten thousand Kurds under Sako Pasha attacked the Armenian town of Kemakh and several villages. They plundered the churches and monasteries and burned the houses.

Bissell Denies the Report. MARION, Mass., Aug. 30.—Ex-Postmaster Bissell says there is no truth whatever in the report that he had been offered the place on the supreme court bench made vacant by the death of Justice Jackson.

CHOLERA AT HONOLULU.

The Dreaded Disease Now Raging Among the Natives and Chinese There.

BROUGHT BY STEAMER BELGIC FROM CHINA.

Passengers Also Landed at San Francisco and Feared Disease Will Break Out in This Country.

SEVERAL DEATHS ARE REPORTED SAN FRANCISCO, Aug. 30.—The steamer Monowai, which arrived tonight from Australian ports, did not stop at Honolulu as usual. When off that port the steamer was hailed by the American consul in a small boat, who announced that cholera had broken out in Honolulu among the natives and Chinese. The cholera broke out soon after the steamer Belgic left on her last trip. It is presumed the disease was brought by that vessel. The Monowai did not enter the Honolulu harbor but steamed direct to San Francisco. Her passengers for Hawaii were brought here. There have been eight deaths.

The Belgic carried a large number of passengers in her steerage. According to the story as shouted from the small boat to the people on the Monowai three Chinese steerage passengers bound for Hawaii on the Belgic died at sea. The doctor said they died of heart disease and pneumonia. No mention of the deaths at sea was made by the steamer officials. She arrived here and it seems strange she neglected to mention the fact that there had been sickness and death aboard.

The Belgic brought to San Francisco six white steerage passengers, sixteen Japanese and forty-five Chinese. Eighteen Chinese are in transit and have already proceeded east or to Mexico. There is some alarm felt here as to a spread of the cholera by the passengers who landed in the United States.

KICKED TO DEATH. Cook Brutally Murdered by Her Employer at Anna, Ills.

ANNA, Ills., Aug. 30.—The Southern Illinois fair closed here today with a brutal cowardly murder. John Jones had an eating stand on the fair grounds and Mrs. Mendelahn did the cooking for him. She asked for her pay this afternoon and an altercation ensued which ended by Jones knocking her down and kicking her so that she died in an hour. She had a husband and two children. Jones was arrested and is in jail at Jonesboro. He killed a man named Champion here twelve years ago and served six years in the penitentiary.

KILLED BY JEALOUS WOMAN. QUINCY, Ills., Aug. 30.—Dora Heilwagon tonight fatally shot Henry Boling and Rosa Sewaringen. Boling had been paying attention to both women and tonight took Miss Sewaringen out riding. Miss Heilwagon got in another buggy, met them outside the city and shot both of them. She has not yet been arrested.

CONDUCTOR FATALLY SHOT. TOMAHAWK, Aug. 30.—This morning as Conductor S. A. Merritt of the Wisconsin & Chippewa railroad was on the way to his train he was stopped by one Donnerstag, who fired five shots at him, two taking effect in the chest and abdomen. He will not live. Donnerstag escaped.

SHOT WIFE AND TOOK OWN LIFE. BATTLE CREEK, Mich., Aug. 30.—Today Jack Wilson, hack driver, fatally shot his wife and then killed himself. Domestic trouble was the cause.

UNNATURAL FATHER'S CRIME. Bound and Gagged Son and Left Him to Die in Deserted House.

VINCENNES, Ind., Aug. 30.—Word reaches here that Jim Hulan, living near Edwards Port, this county, bound and gagged one of his children, aged four, and took him to an old deserted house and left him to die. The remains were found a few days later by neighbors who were attracted to the house by a large number of buzzards that had collected there. Hulan has been arrested.

DROWNED WHILE BATHING. Young Man and Woman Lose Lives Near Syracuse, Ind.

SYRACUSE, Aug. 30.—Miss Nettie Van Natta, aged twenty, of Lima, O., and Bert Sargent of Tiffin, O., aged nineteen, were drowned in Wawasee lake at Black Stump point while bathing this afternoon. After roving out in the lake Miss Van Natta feared getting into the water. The young man plunged into the water himself and pulled her out of the boat. In her fright she grasped him and both went down.

OVER A DOZEN STABBED. Glass-Blowers' Picnic Wound Up in a Free Fight.

NOBLESVILLE, Ind., Aug. 30.—Meagre details reached this city late tonight of a fatal stabbing affray at a picnic of three hundred glass blowers at Cielero, a small town six miles north. A free fight occurred among the picnickers and more than a dozen were stabbed, some of them, it is feared, fatally. One of the injured was stabbed fifteen times.

Not Slater's Body. MILWAUKEE, Aug. 30.—F. E. Lyon, a friend of W. F. Slater, the Chicago traveling man who is missing, tonight examined the effects of the man found in the lake and told the coroner they did not belong to Slater. Lyon also said the description of the remains did not tally with Slater's.

QUAY'S victory in Pennsylvania has not bettered Harrison's chances of being the Republican nominee for president next year. But they were so slim anyway that a further shrinkage will not make any perceptible difference.

Those "sound money" Democrats in Kentucky who intend to oppose the election of Hardin, the candidate of their party for governor, because he is a free silver man and has the courage and honesty not to deny it are providing a precedent that may tell against sound money candidates of their party in other elections. If Hardin is defeated in Kentucky by the defection of the gold standard element in his party the result will go far toward disolving an unnatural and unreasonable partnership between voters who are at opposites on the most important issue now before the country.

An old politician predicts that the bicycle clubs will ere long become a factor in politics. He argues that the clubs bring together the most active young men in the several communities and that their association and mutual fondness for the fascinating exercise begets a fellowship that the political managers will not be slow to perceive and take advantage of when they are seeking candidates to "strengthen the ticket." Result, the political ambitious will soon see the benefit of owning a wheel and belonging to a club of wheelmen, just as shrewd chaps who had an eye to their political advancement were accustomed to simulate a great fondness for farming while the granger movement was at high tide some years ago. There is something in this. Young men, if you want office buy a wheel and join a bicycle club. Wheeling is the fad of the day and the "bicycle face" has cheek enough to be a great winner in politics.

THE silver men are getting together out west. They do not propose to dance to music ground out by the goldbug band any longer. In evidence of which this, from the Butte, Montana, Inter Mountain, the most influential Republican paper in that state, is submitted:

Sam Hauser of Helena is now the hero of the free silver Democrats of Montana. He has had the courage temporarily to shake his party and announce himself in favor of Don Cameron, a Republican, for president. Thousands of Montana Democrats will follow his example, all of them, in fact, who are sincere in their advocacy of silver. There is no longer a doubt that the Democratic candidate for the presidency will be a goldbug—that has been assured by the state conventions in Iowa, Kentucky, Maryland and Ohio. The only hope now is with the Republicans, and Cameron is the man for silver's friends to endorse. Every Republican in Montana, except one, will support Cameron for the nomination, and 5,000 Democrats under the leadership of Sam Hauser will vote for him at the polls. Cameron and Teller! Free silver and protection! Not one, but all!

In responding to a toast, "The President of the United States," at a dinner that he attended at Boston, England, recently Minister Bayard said: The president stands in the midst of a strong, self-confident and oft times violent people—men who seek to have their own way, and men who need to have that way frequently obstructed, and I tell you plainly that it takes a real man to govern the people of the United States.

That was a bad break for Bayard—so bad as to suggest that his toast came late, after the wine had been passed frequently. The president of the United States administers the government, but he does not "govern" the people in the sense of ruling over them. In fact the people have the power to remove a president from office, acting through their representatives in congress, should cause be given them for such a proceeding. But Bayard's slip does not justify the harsh criticisms being passed on him by the anti-administration organs. Republicans of great prominence have talked just as foolishly at times, stimulated to it by the same cause probably, and no fuss was made about it by the organs which are now demanding that Bayard shall be recalled on account of his rather clumsy compliment to the president—and, incidentally, the American people.

The saloon men's "law and order league" at Superior is getting in its work relentlessly. A cigar man named Patterson and a druggist named Haman and his clerk paid fines for having kept their places open for business last Sunday, and in a lot of other cases brought for violations of the Sunday law continuances were taken. Several street car conductors and motormen were among those brought before the courts on warrants sworn out by members of the league. The law under which these proceedings are being taken is on the statute books and has the same force and effect as that under which the saloon men have been prosecuted for keeping open Sundays and after hours on week day nights, and when it is put in motion the courts have no choice but to punish those who violate its provisions.

The saloon men say they will prosecute every person who fails to respect and obey the Sunday closing law, and avow the purpose of putting a stop to every kind of traffic at Superior as long as they are obliged to strictly observe the law specially framed to regulate the conduct of their business. As the other law and order league is pushing the liquor dealers hard the people of Superior are likely to be given an object lesson showing the annoyance that may be caused by laws that were enacted to satisfy those who want a Puritan Sabbath, the strict enactment of which was never anticipated or intended.

DISTURBERS CAN'T USE THEM. In an article concerning the incendiary utterances in the letter from Eugene V. Debs read at a Populist meeting the other day regarding the corruptions charged against the administration and the "old parties" generally, The St. Louis Globe-Democrat says, with truth and point: It is to the credit of these two great parties that they can not be used for the promotion of ideas and projects which antagonize the institutions of society and tend to introduce arbitrary and desperate methods for the settlement of ordinary controversies. They do not agree about general principles and policies of government, but they do agree about the matter of obedience to law and protection to life and property. Whenever a party is needed to give sympathy and assistance to a scheme of reform which ignores the duties of good citizenship, it has to be created for the occasion. The two permanent and formidable parties in our politics can not be persuaded or intimidated to give support to such an undertaking. They are composed, generally speaking, of men who have the welfare of the country at heart, and who are against all proposed assaults upon the agencies by which peace is maintained and rights are preserved. Third parties come into being from time to time because the two existing parties will not consent to a departure from the line of fidelity to obligations of patriotism. The cranks and fanatics find that they must have organizations of their own. But the great majority of the people, representing the sober intelligence and honesty of the country, have no difficulty in getting along with the two regular parties between which their votes are divided.

NO HOPE THERE. We commend this, clipped from the St. Louis Globe-Democrat, to the consideration of those bimetalists who think we should wait until England and the other great powers of Europe agree to the remonetization of silver before we accord the privilege of our mints to the white metal: First Lord of the Treasury Balfour does not think an international agreement on silver would come from an international conference, although he is a bimetalist. This is the opinion of most persons at the present time. England is as strongly against entering into any such agreement as ever, and of course, without England's participation none of the other nations of Europe will open their mints to silver. A few years hence England may take a different view of the question, but for the present tories, as well as liberals, are overwhelmingly opposed to a remonetization of silver by England. The tories of England no less than the liberals are too much benefitted by having the gold standard continued to leave any hope that they will ever voluntarily consent to an agreement which would accomplish its abrogation. Bimetalism on the basis of an agreement to which England will willingly agree is an "iridescent dream." We must either continue to allow England to shape our financial policy or fashion one to suit our own needs and requirements without her. Many believe we are powerless to do this; but, then, when the American colonies rebelled against British authority there were many of the then colonists who declared against that step and urged that it would be better to wait until England got ready to treat the colonies fairly than to risk destruction by delaying her power. The cowardly policy did not prevail against patriotism then and it should not be permitted to now.

ALL FREE. Those who have used Dr. King's New Discovery know its value, and those who have not had the opportunity to try it free. Call on the advertised Druggist and get a Trial Bottle, Free. Send your name and address to H. E. Bucklen & Co., Chicago, and get a sample box of Dr. King's New Life Pills Free, as well as a copy of Guide to Health and Household Instructor, free. All of which is guaranteed to do you good and cost you nothing. E. Farnham's Drug Store.

IMPORTANT FACTS. If you have dull and heavy pain across forehead and about the eyes; if the nostrils are frequently stopped up and followed by a disagreeable discharge; if soreness in the nose and bleeding from the nostrils is often experienced; if you are very sensitive to cold in the head accompanied with headache; then you may be sure you have catarrh; and should (immediately) resort to Ely's Cream Balm for a cure. The remedy will give instant relief.

SUNDAY TRIPS. TO THE QUEEN CITY OF THE UPPER PENINSULA. The D. S. S. & A. Ry. have on sale Sunday excursion tickets to Marquette and return at the following very low fares: From Eagle Mills.....\$.30 " Negaunee....." .50 " Ishpeming....." .50 " Humboldt....." .75 " Republic....." .75 " Champion....." .75 " Michigamme....." .75 Tickets are on sale on Sundays only; are good on all passenger trains; but are valid going and returning only on date of issue. The train which now leaves Marquette at 6 p. m. (Sundays) will make these Sunday trips more popular than ever, as excursions will be able to spend the entire day in Marquette and reach home at a seasonable hour the same evening. (5-19-11)

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

GEMS OF THE OCEAN.

Rare Beauty of the Islands in the San Juan Archipelago. The number of people who visit the islands of the San Juan Archipelago for sports and out-of-door recreation are annually increasing. In time these islands will be famous as summer resorts, and will rival in this respect any other quarter of the globe. The long stretch of delightful weather, extending as it generally does from May to October and November, affords opportunities for endless numbers of outing parties.

The beaches furnish crabs and clams galore, while the hills and woods are the home of the deer, quail and grouse in abundance. Every silvery brook that wanders from its retreat in the fastness of mountain and forest to seek repose in the placid bosom of the sound teams with speckled trout, seemingly impatient to flop into the skillful angler's basket. True, they seem to have a preference for certain baskets over others, their choice depending somewhat upon the character of fly or bait employed and in the seductive powers of the fisherman.

One must also need light of foot, keen of vision and skilled in the use of firearms if he succeeds in capturing deer or birds in these island forests, for although they are plenty they are likewise wary. The deer must be sought among the hills in high altitudes. They frequent rocky glens and not easily accessible places. No matter how difficult the hunter may find it to scale a cliff by clinging to bushes, vines or slight projections of rock, when he at last gains a spot where he can stand erect he will find "deer signs" in the earth or rock, such is the skill of these four-footed mountain climbers.

But one can find a great enjoyment on the islands, even though destitute of all skill as hunter or fisherman. Any one can capture a crab or "surround" a clam, provided he or she is able to lift a crab net or wield a spade. Then, again, anyone can hold on to the safe end of a trolling line, while a salmon is investigating the business end, and the "other fellow" is pulling the oars. The wild berries yield their delicious sweetness to both the skilled and unskilled picker, and nature bounteously displays her charms to the just and the unjust.

A visit to the summit of Mt. Constitution, on Orcas island, on a clear day in summer is worth ten times what the trip costs in money and exertion. The grand natural cyclorama, viewed from this height of two thousand four hundred and twenty feet, overlooks Alpine scenery, and bathes deserts of snow. Only the faintest conception of the view thus obtained can be imparted by brush or pen. At one sweep the wilder vision takes in over ten thousand square miles of land and water. Far to the northwest the cold, gray peaks of the Selkirk range the clouds. The towering Rockies define the horizon farther south. Mr. Baker's whitened cone comes next, arresting the eye in its southern sweep, and catching the onlooker to hold his breath in awe and amazement. Farther away, and to the southeast, the Cascades limit the vision. On the north, the great gulf of Georgia is mistaken for the open sea, so boundless are its proportions.

The western horizon includes Vancouver island, a rim of the Pacific and the straits of San Juan de Fuca. The beautiful Olympic range lies to the southwest, appearing much as it does when viewed from Seattle, albeit the mountains seem very much taller when seen from Mt. Constitution. While there are many points of interest in view to the south, they are all forgotten or overlooked in contemplation of majestic, solitary, awe-inspiring Mt. Ranier, monarch of western Washington and the Pacific slope. Ranier's proportions seem almost doubled when seen from the summit of Mt. Constitution, although the distance to the mountains is double what it is from Seattle. All around are spread the bluish green waters of the sound, everywhere jeweled with beautiful islands, a cruise among which lends a spell of enchantment unknown elsewhere outside of the Thousand Islands of the St. Lawrence. —Seattle Post-Intelligencer.

Line for Ocean Liners. There are no laundries on board ship; they take up too much room. So the chief steward lays in thousands of pillow slips, sheets and towels. These come on board tied up in bales of a dozen each, and are stored in the linen locker, a cubbyhole of a place, on the main deck; the ventilator pipes from the engine room run through it, and keep it hot. There is no danger of linen getting mildewed there. The linen which has been used is thrown into another room, provided with the same atmosphere, and is kept thoroughly dry. Where there are clean napkins every day, frequent changes of stateroom linen and an everlasting replenishing of towel racks, the demands upon the linen locker are very extensive. A liner like the New York puts to sea with about nine thousand serviettes, ten thousand towels, six thousand or seven thousand sheets, eight thousand pillow slips and about one thousand table cloths. Most of these find their way to the linen locker in the course of the voyage. When the vessel arrives they are carried off to a laundry. —Tit-Bits.

Shoe Trees Are Fashionable. The fashionable woman who does not own a shoe tree in these days is far behind the times. These "trees" are a rather expensive luxury, or as their owners consider them, necessity. They must be carefully made from the last of the shoes they are to hold. They cost five dollars a pair, and one must have only one less pair than she has shoes and slippers. On the other hand, with ordinary usage, they are indestructible. They keep the footgear in excellent shape and condition for the longest possible term of usefulness. So that, as in many other cases, seeming extravagance may be true economy. —Chicago Chronicle.

A BIG FEE.

Two Hundred Thousand Dollars to Lawyers in an Indian Case. The old settler Cherokee Indians are soon to receive in payment from the government \$200,000. The roll is about completed in the department, showing that 1,100 Indians are entitled to share in the money, but, as it is to be paid out by estates and not per capita, there is a wide range of difference in the amounts to be received. In some instances individuals will receive only 14 cents, and in other cases an individual will receive over \$1,500.

The money to be paid the old settlers, says the St. Louis Globe-Democrat, comes from interest on old accounts due them from the government. They date back to 1835, when a treaty was made with the Cherokees, and this fund, according to the terms of that treaty, is to be paid to a certain number of families who moved into that country prior to that time. This is how it happens that the money appears to be so unevenly divided. In some instances but few members of a family are living, while in other cases many descendants are living. The department has had considerable trouble in perfecting the roll, as a few of those entitled to share this money now live in California. Nearly all live in the Cherokee nation. With those in the nation it has been a difficult matter to determine in many instances whether or not an individual is entitled to share the money. The work of perfecting the rolls has delayed payment for more than a year.

While the Indians receive only \$200,000, the entire claim is \$900,000. The \$300,000 is taken up by attorneys' fees, which are paid direct to the attorneys. Over 22 years ago the Indians interested in this claim executed a contract with W. J. Bryant, of Tahlequah, giving him 25 per cent. of all the money he could get out of the combination of claims. He commenced work on the matter and is now 78 years old and very feeble, but he is expected to make another trip here to get his \$200,000 and divide it with attorneys he has employed in the case. It is understood that he has given contracts to attorneys and officials covering about \$150,000, thus leaving him but \$50,000. But this division was thought by him necessary to bring about a final settlement, and, as estimated, it never would have been paid had he not been able to deal out some money where it would have the effect of securing action.

In addition to this \$200,000 given over to attorneys and for other purposes, \$100,000 is taken out of the fund for ex-Congressman Heard, of Missouri, by an act of congress. Mr. Heard was employed in the case some time before he was elected to congress, and did the work that entitled him to the fee of \$100,000. The payment of his fee was recommended by the present officials in the department, and Mr. Heard concluded that it would be just as safe to have congress set apart his fee as it would to leave the matter in the hands of the department officials. Accordingly he had an act passed covering the matter and making sure his fee. He paid his fee out of the claim, and it is taken out in addition to the \$200,000 that is given to Bryant and divided with others.

MOLASSES TO BURN.

Planters Have Millions of Gallons and They Want a Furnace Invented. There are twenty-five million gallons of molasses stored in tanks on the various sugar plantations throughout the state, says the New Orleans Times-Democrat, that is an elephant on the sugar planters' hands. They do not know what to do with it. They cannot sell it for any profit in sight would be exacted in transportation. Besides, it would require a cool half million dollars to barrel it, and putting this sum and the freight charges together, when the present price of molasses is taken into consideration, the shipper would find that he would be out of pocket after his labor was concluded.

The question of what disposition to make of this molasses is a knotty one to the sugar planters, and at the last two meetings of their association no other subject has been discussed. The planters say that it is a problem that has to be solved, for before the next crop is taken off this surplus molasses has to be got rid of in order to make room for the new crop. Heretofore the stuff has been dumped into the river or swamps. In the latter method it has been found that the molasses sours and makes life disagreeable to those living five miles away, while in dumping it into the river or streams, people living on the banks complain of it as a nuisance.

It is being fed to stock, but from statistics there is not enough stock to consume it. Suggestions have been made to distill it into alcohol, but the planters find that it would require such an outlay of money to erect a distillery to distill fine alcohol so as to compete with the world's markets that it would not pay. It has also been suggested that, as molasses is excellent stock food, it be shipped to central distributing points where stock is raised in large numbers—Texas, for instance—by means of tank cars. This suggestion has met with favor, and some day the experiment may be tried.

The only solution, however, in sight seems to be the discovery of some way in which the molasses can be burned as fuel. When this problem is solved the planters believe that molasses will then be valuable. Experiments have been tried in burning molasses as fuel, and they have been successful, but it has been on such a small scale that it will not pay in its present crude form. What the planters want is for an invention which will successfully allow molasses to enter the furnace in such a manner that it will burn rapidly, will not gum the carrier, and, in fact, do its duty without injuring the furnace in any respect. There is a fortune in sight for the man who works out this invention. A system of spraying the molasses on the bagasse as it goes along with carrier to the furnace, is, from all accounts, the only system that will suffice.

I Was Thrown From a Horse And sprained my ankle badly. An ulcer formed and caused me much pain. Last August it broke out worse than ever. I commenced taking Hood's Sarsaparilla and now the ulcer has entirely healed. I have laid away my crutches and am doing my own work, thanks to Hood's Sarsaparilla.

I gladly recommend it to all who need a blood purifying medicine. Mrs. C. S. BRON, Chauncey, Ohio. \$1; six for \$5.

Hood's Pills easy to buy, easy to take, easy in effect. 25c.

COPPER COUNTRY NEWS.

A Busting Scene of Activity the Order of Things at Dollar Bay.

ANOTHER BIG ENTERPRISE JUST STARTED.

New Dock of Tamarack and Osceola Companies—Fifth Regiment Band a Feature of Boston Conclave.

[All communications intended for this department should be addressed to Horace J. Stevens, Houghton, Mich. Telephone connection.]

DOLLAR BAY.

One of the "biggest little" towns to be found in the peninsula, and one of the liveliest places to be found anywhere, is Dollar Bay. The town is but six years old, the ground for the smelters and rolling mills having been broken in May, 1889, yet it contains a population of over one thousand and has excellent prospects of steady and rapid growth for the future.

There are already four large industries located here, the works of the Hancock Chemical company, manufacturing high explosives, which are the largest in the northwest; the Dollar Bay saw mill; the smelters of the Tamarack and Osceola companies and the big plant of the Tamarack-Osceola Copper Manufacturing company, making sheet copper and copper wire.

The latter manufactory is the largest in its line west of New York and is doing a very heavy business. In fact at the present time a full force is being worked on full time, with scarcely any manufactured goods on hand and orders booked to keep the works running full time for the next six or seven months.

An addition to the rolling mill is now contemplated, and has been practically decided on. Work of construction will probably be begun next month, as additional room is a necessity.

Another big enterprise just begun is the new dock of the Tamarack and Osceola companies. The dock will be built about half a mile west of the rolling mill, the site being carefully adapted to the purpose. The ground is very level and the water is deep up to the shore. Dredging was begun this week by James Pryor of Houghton and will be finished in a few days, very little work in that line being required.

A wharf for the reception of coal and a big coal shed will be built; the wharf to be 500 feet in length, with ample room for two vessels to discharge cargoes simultaneously. The coal sheds will be of steel throughout and will have a capacity of 100,000 tons, or two-thirds of the size of the mammoth coal sheds of the Calumet & Hecla company at Lake Linden. The new dock is being built by the companies named to avoid the payment of the high tolls now charged on all cargoes passing through the Torch Lake canal, which range from ten to fifty cents per ton on freights, according to their value.

From the coal dock the fuel will be taken to the mines over the Hancock & Calumet railroad.

The new automatic grand piano placed in the ball room of the Casino is a much finer instrument than the average of mechanical pianos and constructed upon entirely different principles. It is primarily an upright grand piano and can be played upon by any musician in the ordinary manner.

By an ingenious attachment the piano is played automatically, a number of selections of popular music being kept on hand for dancing and other purposes. The instrument is of very sweet tone and attracts much attention. A dance will be given at the Casino this evening by some of the young men of the village.

CALUMET.

According to the Boston newspapers one of the most interesting features of the conclave of Knights Templar now being held in Boston is the Fifth Regiment band, which in addition to its regular uniform took along complete outfits of miner's digging clothes and has been visiting the headquarters of the other commanderies clad in the oilskins, rubber boots and helmet hats worn by the men who toil a mile underground in the copper mines of Calumet.

Montrose commandery is the guest of the Calumet & Hecla company while in Boston, and it is needless to state is being most royally entertained. Advice from copper country people are unanimous in stating that no such successful and enjoyable gathering of the Templars has never been held in this country.

The road to Section 16 has been completed by Wm. Anderson and is now a portion of the best system of country roads in the northwest, and is so built as to hold its own with other thoroughfares in this portion of the county.

Rev. Frank Hoyt will deliver his lecture on the Maccabees, illustrated with a variety of magic-lantern views, at the Red Jacket Opera house on Tuesday evening next.

W. H. Richards will open a new clothing and furnishing goods store in the stand recently occupied on Fifth street by Sam Lawrence, and is now in Chicago buying stock.

Mr. Nicholas Mustonen and Miss Sophia Paas of Calumet were married at the Finnish Lutheran church by Rev. J. K. Rydman on Wednesday, Aug. 28.

A meeting of the Houghton County Fish and Game Protective association was held Friday evening at the Red Jacket Opera House, with a view to putting a stop to the illegal slaughter of partridge and other game.

Mr. J. E. Fliege and Miss Hannah Ritchie of Calumet were married last evening at the residence of the bride's parents.

HOUGHTON.

Following are the teachers engaged for the coming year to serve in district No. 1, Portage township: Superintendent, Prof. B. A. Dunbar; principal of High school, Prof. Dooley McCone; principal of grammar department, Miss Lucy Major; teachers in grammar department, Misses Nellie Bogan, Mollie Foley and Annie Gottstein; principal of primary and kindergarten grades, Mrs. Ida Collins; assistants in primary and kindergarten, Misses Bridget Sauce, Amelia Hankey and Bessie Osborn.

Principal of Houghton school, Prof. J. Wesley Beech, assistant, Miss Nellie Murphy; teacher of school at Section

A COMPLETE FAILURE.

Negroes in the West Indies Cannot Govern Themselves.

For More Than Fifty Years They Have Enjoyed the Greatest Freedom, But Have Made No Advance Socially or Morally.

In the last quarterly issue of the American Statistical Association Frederick L. Hoffman gives a series of statistical tables bearing upon the social and moral development of the negroes in the West Indies. As he points out to the students of the West Indies offer an attractive field for observation and study, for the reason that for more than fifty years the negro has there enjoyed those political and social opportunities which it is claimed are denied him in this country.

Thus, says the Boston Herald, for more than half a century, he has had there presented the possibilities of progress and advancement in civilization, and considering that in 1834 those who were instrumental in bringing about emancipation in the West Indian colonies of Great Britain felt confident that the change would be of immense benefit to the colored people and to the world at large, it is interesting to see how far these hopes have been verified by experience.

Mr. Hoffman's tables include the Leeward islands, the Barbadoes, Bermuda, the Bahamas, Trinidad, Jamaica, British Honduras and British Guiana. He also has race tables as to the population of Cuba and Porto Rico. From these it appears that, while the negro race in the West Indies does not, on the whole, greatly increase, the white population is steadily diminishing.

For example, a hundred years ago the white population of Jamaica was about 10 per cent. of the entire population, while it is now a little less than 2 per cent. In the Leeward islands the white population a hundred years ago was about 8 per cent; it is now about 4 per cent. In the Barbadoes the white population a hundred years ago was about 20 per cent., while at the present time it is less than 9 per cent. In some of the other colonies the relative decline is not so great, but the tendency has been for the white race to disappear, with the result that the colonies have fallen more under the control of the negro inhabitants.

Contrasted with this change is that presented by Cuba, where the white population in 1879 amounted to about 49 per cent., and in 1890 to approximately 70 per cent., and Porto Rico, where the white population in 1893 was 48 per cent., and in 1890 63 per cent. In other words, in the two Spanish colonies the white race, as in the United States, has tended to increase at a faster ratio than the colored race. This Mr. Hoffman holds to be due to the determined struggle that has been maintained in the Spanish colonies by the whites for political, as well as social, supremacy, and that under such conditions a race of inferior standing is not able to hold its own.

In the British West Indies, on the other hand, the struggle is a hopeless one, and hence no effort was made to maintain it, ascendancy passing, with all that it implied, into the hands of the colored population.

The result of this does not seem to have been specially advantageous. The colored race has grown in the West Indies at a rapid rate. Possibly the limitations of area and industrial opportunities may have something to do with this, but the birth rate is not especially high, and what is quite as material a factor in determining the growth in numbers of a community, the rate of mortality has been exceptionally high, so that the population has tended in some of the colonies to become almost stationary.

In the group of Leeward islands there are now fewer people than there were a century ago, and Jamaica may be said to be about the only island which has shown a large increase in population, the number there doubling in less than a century. In those instances where a contrast is permissible it is found that the death rate is much larger among the colored inhabitants of these colonies than it is with the white population, a statement that also holds true of Cuba, where the death rate is high with both races, but about 15 per cent. higher with the colored than with the white race.

But the worst showing made in Mr. Hoffman's tables of statistics is found in those which relate to the moral condition of the people, for while the statistical evidence shows that in the matter of education there is a constant improvement, as, for example, in Jamaica the number of those able to read and write over 4 years of age has advanced in the last thirty years from 81 to 92 per cent. of the population, a corresponding improvement does not appear to have taken place in the moral condition of the people. In the Barbadoes 76 per cent. of the population is unmarried, in Jamaica 77 per cent., and in Trinidad, excluding coolies from the East Indies, nearly 82 per cent., while in all these colonies more than 60 per cent. of the births are of illegitimate children.

Satisfied with One Eye.

The Beyreuth newspapers record a new sample of meanness. An inhabitant of that city was afflicted with a cataract in both eyes. He contracted with a skilled physician to have two operations performed—one on each eye—for fifty pounds sterling. The first operation proved very successful, but when the doctor offered to operate also on the other eye the patient refused, declaring that he could see as much as he wanted to see with the one eye, and tendered half of the amount stipulated, i. e., twenty-five pounds sterling. The physician, however, says that he fixed the price as low as he did in consideration of the quantity of payment to be received, not in consideration of the quantity of work to be done, and the unique dispute is now before the courts awaiting Solomonian settlement.

BLOODHOUND DETECTIVES.

Question Being Agitated by English Canning Papers.

The question whether bloodhounds could not be utilized in this country to aid in the discovery of criminals has again been raised in one of the English journals. It is suggested by a gentleman in the Midlands that a bloodhound club might well be started, the object of which would be to have properly-trained dogs always ready to assist in the work of bringing burglars and murderers to justice. The last occasion on which a systematic attempt was made in this country to put the bloodhound to his old traditional use was in 1889, when the chief commander of police in London encouraged, and was himself personally present at, some trials with a couple of the dogs belonging to the well-known breeder, Mr. Brough.

St. James' park was the spot selected for these trials, and both animals showed themselves decidedly skilful in tracking and following up the human footstep. Once in the crowded streets, however, the hounds seemed to lose their cunning, and there exists, indeed, no reliable record of criminals being successfully hunted down by the aid of these canine detectives in the case of crowded cities and thoroughfares. Even if the scent were a hot one, it is more than doubtful whether the cleverest and best-trained bloodhound would follow it very far where it had been crossed and recrossed by many other strange feet.

Thus the idea of the bloodhound being used for the discovery of criminals, so far as populous centers and large towns are concerned, may be regarded, after the failure in the case of the Whitechapel murders, as an exploded one. The case, however, may be different in regard to country districts, where it is at least conceivable that the hound might now and again be turned to some good service. Many of the old stories respecting the successful hunting of the Mosstroopers by blood or sleuth hounds rest on a rather slender historical basis, though the frequency with which the name of the dog occurs in some of the records of those days shows that its detective qualities were highly estimated.

In later times the Cuban bloodhound, of a far more savage breed than our own, was unquestionably used as a man-hunter; while only a few years ago Capt. Powell gave a good deal of information respecting the dogs used at the present time for tracking convicts who escape from prisons in Florida. Bloodhounds were first resorted to for this purpose, but it appears that latterly an animal more like our foxhound has been adopted. These animals, like the English bloodhound, are not inclined when they have discovered their man to attack him, but rather prefer to keep at a respectful distance after he has been fairly brought to bay.

Half a dozen years or so ago some exceedingly interesting trials were held at Alexandria palace, in which several of the most noted bloodhounds of the day took part. A "clean boot," as well as a greased one, was hunted, the length of the course being about six hundred yards. A keeper was dispatched with a good start, and though some of the hounds failed almost entirely, others delighted the spectators by the unerring accuracy with which they followed the "clean boot" over a considerable portion of the course. One dog leaped the railings which the hunted man had climbed, and ran under others which he had slipped through. All, however, were more or less at fault when they came too near the crowd, a sure sign that only in lonely and sparsely-populated districts, or at hours when few people are about, can the bloodhound be really relied on as a successful man-hunter.—Fall Mail Gazette.

FRANKLIN'S SERVICES.

Were of Great Benefit to the Cause of Education.

The university of Pennsylvania was founded in Philadelphia, in 1740, as a charitable school, one hundred and four years later than Harvard, thirty-nine years later than Yale. The most distinguished men active in its foundation were Dr. William Smith, its first provost, and Benjamin Franklin, who for nearly half a century was identified with the institution as a trustee, and for a large part of that time as the president of its board. Nine years after its foundation Franklin wrote a pamphlet relative to the education of youth in Pennsylvania, in which he advocated courses in the English language and literature; in other modern languages, particularly French, Italian and Spanish, because they were the tongues of commerce in his day; in history, mathematics, and in the elements of the applied sciences—all concurring in a curriculum which, in his opinion, would qualify those who pursued them "to pass through and execute the several offices of civil life with advantage and reputation to themselves and country." Franklin tried to exclude Latin and Greek from the school. Provost Smith advocated them. By compromise, both ancient and modern languages were included in the course. Shortly before his death Franklin wrote an elaborate paper to show that his own ideas of education were the ideas of the founders of the university. As many of his ideas have been adopted in modern educational systems, and especially his emphasis of science, modern languages, history, political economy and psychology, as the university has developed into a great school of science, and has of late years laid the foundations of schools of economy, history, biology, hygiene, veterinary science, chemistry and engineering. Franklin, by many, is called the founder of the university. Probably a just statement will include the labors of Provost Smith and the ideas of Dr. Franklin as the principal initiative forces of the university.—Francis N. Thorpe, in Harper's Magazine.

Maryland has 107,054 persons engaged in manufacture, the annual value of whose product is \$171,842,593.

LAKE LINDEN.

Sutter's Cash Store company has added two new members, Albert Sarazin, son of Norbet Sarazin, a prominent lumber dealer, and T. C. Corbell, who has been with Mr. Sutter for some years. The change will make this concern more popular than ever as these young men are most respected and deservedly popular.

MAMMOTH WAGONS.

The largest freight wagons in the world are now, it is asserted, made in San Leandro, Cal., for team freighting in connection with traction engines, the capacity of these wagons being sixteen tons each, and with sufficient wheel surface to sustain that amount without injury to the roads. The dimensions and details show the size of axles to be four inches in diameter, front wheels four feet ten inches high and sixteen inches width of tire, rear wheels six feet high and tires sixteen inches wide; length of bed nineteen feet one-half feet, width four and one-half feet, and six feet high. These are made wholly of iron and steel, except the bed, which is of wood. The front wheels track somewhat wider than the rear ones, due to the fact that the continual hauling over the road, and the wagons always running in the same tracks, naturally cut down the road into ruts to a certain extent, rendering it uneven. To overcome this the engine wheels are twenty-six inches wide and the front wheels of the wagons so designed that the tire tracks will lap one-half the width of the engine wheels on the inside.—Boston Budget.

WOULD BE DISCHARGED.

Useless to Begin Proceedings in Wyoming Against Slayers of the Bannocks.

AUTHORITIES HAVE NO SYMPATHY FOR INDIANS.

Murder of Last July Part of Prearranged Plan to Prevent the Indians from Hunting.

THE STORY OF THE TROUBLE.

WASHINGTON, Aug. 30.—The department of justice has received from the United States district attorney an official report of the investigation into the Bannock Indian trouble.

Accompanying the report of the district attorney is a scathing arraignment of the Jacksons Hole settlers, as made in the report of the United States deputy marshal who investigated the trouble.

The deputy marshal's report says careful investigation of the whole affair shows the reports made by the settlers charging the Indians with the wholesale slaughter of game to secure the hides of the animals killed have been much exaggerated.

"During my stay in Jacksons Hole," he says, "I visited many portions of the district and saw no evidence of such slaughter. Lieutenants Gardner, Parker and Jackson, of the Ninth United States cavalry, who conducted scouting parties of troops through all portions of Jacksons Hole also found this to be the case.

"In no instance has there been a well authenticated case where a settler has been molested by Indians. The killing of game by the Indians and by the increasing number of tourist hunters threatens to so deplete the region of big game, deer, elk, moose, etc., as to jeopardize the occupation of the professional guides at Jacksons Hole.

"If a full investigation of the affair should be held the fact would be established, that when Constable Manning and his posse of twenty-six settlers arrested the party of Indians July 13 and started with them for Marysville he and the men did all they could to tempt the Indians to try and escape in order that there might be a basis of justification for killing some of them.

"If the truth of the matter can be reached it will be found that the captors did not care particularly about getting their prisoners safely to Marysville. From Manning I learned that none of the horses of the escaping party of Indians were shot, notwithstanding his order to shoot the horses, but that at least six Indians were hit by bullets.

"Of these Timaga, an old man, was killed. Timits, a boy, was wounded so he could not escape and the others got away. When the body of this old Indian was found it was seen that he had been shot four times in the back. The boy wounded was shot through the body and arm.

"The whole affair was, I believe, premeditated and prearranged to kill some of Indians and to stir up the rest so as to get the United States troops into the region and have the Indians shut out from Jacksons Hole. The plan was successfully carried out and the desired results obtained.

It would, however, be but an act of simple justice to bring the men who murdered the Indian Timaga to trial. There are, however, no officials at Jacksons Hole, county, state or national, who would hold any of Manning's posse for trial.

SEVEN THOUSAND DOLLARS.

Amount of Fines Paid by Saloonists Who Violated Sunday Law.

New York, Aug. 30.—In the court of special sessions today the cases of 423 saloonkeepers, on the charge of keeping open on Sunday, were set for hearing.

The court announced that all who would plead guilty would be let off with fines of \$35; those who did not plead guilty would be sentenced to three months' imprisonment.

SENT UP FOR NINE YEARS.

Ex-Mayor of Duluth Convicted on Charge of Forgery. SAN FRANCISCO, Aug. 30.—Alonzo J. Whitman, formerly mayor of Duluth, Minn., an ex-member of the Minnesota legislature and an ex-banker and millionaire, who has dissipated a fortune in a few years, was today sentenced to nine years' imprisonment for forgery.

Death List Numbers Fourteen.

CENTRAL CITY, Colo., Aug. 30.—The men killed in the mine here yesterday now number fourteen.

Baseball Scores.

Table with columns for National League and Western League, listing teams and scores for various games.

CHICAGO MARKETS.

Grain and Produce. CHICAGO, Aug. 30.—The leading grain futures ranged as follows:

Table showing grain market data: Wheat, Corn, Sept., etc. with prices.

Cash quotations were as follows: Flour, quiet, unchanged; wheat, easy; No. 2 spring and No. 2 red, 61 1/2c; corn, lower, 36c; oats, lower; No. 2 white, 21 1/2c; No. 3 white, 20 1/2c.

CATTLE, HOGS AND SHEEP.

CHICAGO, Aug. 30.—Prices at the stock yards ranged as follows: CATTLE—Receipts, 5,000; calves, 300. Trade slow; native beefs dull at decline of 10c from prices of yesterday morning.

METAL PRICES.

New York, Aug. 30.—Pig iron, steady. Southern, \$11.50@14.00. Northern, \$12.00@14.00.

COPPER STOCKS.

Table listing copper stocks: Boston, Aug. 30.—The following closing prices of copper mining stocks were reported by F. W. Prescott & Co., Ames building, Boston.

THE BUSINESS SITUATION.

Tone of the Market Is Stronger and the Improvement in All Lines Continues.

PROSPECTS FOR FALL TRADE GROW BRIGHTER.

Bessemer Iron Advances \$2 Per Ton and Further Rise in Prices of Iron Products Expected.

DUN'S WEEKLY TRADE RESUME.

New York, Aug. 30.—The improvement in markets and prices continues. A strong conservative feeling is finding expression, not as yet controlling the markets or industries, but warning against a too rapid expansion and rise. In some directions the advance in prices clearly checks future business.

The advance in prices of iron and its products has added about \$2 per ton more in a single week to the price of Bessemer iron at Pittsburgh, and yet the great steel companies are buying wherever they can, while the air is full of reports that this or that finished product will further advance.

BRADSTREET'S REVIEW OF TRADE.

New York, Aug. 30.—The concluding week of August presented surprises even more optimistic, with a striking increase in the volume of business with jobbers in staple lines at such centers as New York, Baltimore, Boston, Chicago, St. Louis, Kansas City, St. Paul and Minneapolis and to a more moderate extent at distributing points in the south Atlantic and Gulf states.

All winter lines of goods have felt an improvement in request and manufacturers and jobbers are preparing to handle a large trade. At the south, where recovery from the effects of the late trade depression was felt the latest, jobbers in dry goods, hardware and groceries announce the receipt of many orders for September delivery.

INUNCTION REFUSED.

Old Liberty Bell Will Be Seen at the Atlanta Exposition. PHILADELPHIA, Aug. 30.—The city today received judicial consent to send the old Liberty bell to the Atlanta exposition. An injunction was asked by a number of prominent citizens to prevent the proposed trip on the ground, among others, that it would be putting the bell to other than its proper and legitimate uses.

INMAN'S BODY FOUND.

Fate of New York Yachtsman a Mystery No Longer. SOUTH BEACH, Staten Island, Aug. 30.—The body of Robert W. Inman, who was drowned from his yacht Adelaide after a collision with the steamer Perseus Monday night, was found on the beach at this place this afternoon.

KEIR-HARDIE IN CHICAGO.

Noted Socialist Not Greeted by Large Audience Last Night. CHICAGO, Aug. 30.—James Keir-Hardie is in Chicago. He came to-night and was warmly greeted by a committee and taken to the Great Northern Hotel. There in the banquet hall filled with chairs he talked for an hour to twenty persons, two of whom wore scarlet ribbon bows in their coats and one of whom gave the agitator a big bunch of red roses tied with a scarlet ribbon.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

not in sympathy with Mr. Hardie or his teachings, nor are they co-operating with the socialistic element here who purpose receiving and entertaining him.

Hardie was met at the depot by two committees, one representing the radical element of the socialists and the other the regular committee of the Chicago Labor congress, which invited him to this country. The radicals were the first to meet Hardie and presented him with a large bunch of roses.

Balked in their purpose to capture the visitor and not knowing where he had been taken the radicals also held a meeting, at which a committee was appointed to wait on Hardie tomorrow morning. He will then be asked which party he prefers to deal with and the result will be immediately cabled to his home in the old country.

CROWD TOO NOISY.

Sixth Joint Debate Between Hardin and Bradley Declared Off.

EMINENCE, Ky., Aug. 30.—The sixth joint debate in the series of twelve, which was to have taken place between Colonel Bradley and General Hardin at Eminence today, was called off on account of the noisy demonstration of the crowd. W. P. Thorne, Democratic chairman, appealed for order but the crowd paid no attention to him.

Met in Secret Session.

MONTEAL, Aug. 30.—The annual convention of the Brotherhood of Locomotive Engineers and Firemen of America met in secret session here today. C. A. Wilson, second vice-grand master, of Peoria, Ill., presided.

Forecast of the Weather.

WASHINGTON, Aug. 30.—9 p. m.—The weather bureau reports the following as its forecast for the next twenty-four hours: For upper Michigan: Generally fair; cooler; northwesterly winds.

Heavy Rain in Nebraska.

OMAHA, Aug. 30.—A violent rain storm extended over the eastern half of Nebraska this afternoon and by night two inches of water had fallen, interfering considerably with the movement of trains.

Called on Bismarck.

HAMBURG, Aug. 30.—The German-American veterans called on Prince Bismarck at Friedrichsruhe today.

NO SMOKING IN PUBLIC.

In Some German Towns the Weed Is Prohibited on the Streets. The consumption of tobacco of all kinds in France, according to recently compiled statistics, is nearly one hundred and twenty-five million pounds per year. An analysis of the figures shows that the people of northern France use nearly four times as much per capita as those in the southern provinces.

This is especially the case with Germany. In many small German towns smoking in the streets is forbidden. Less than fifty years ago if a man ventured on the streets of Berlin with a cigar in his mouth he would be liable to arrest. The same provision existed until 1848 at Vienna, though the law was not observed by the populace.

The town of Broeck, in Holland, which is said to be the cleanest city in the world, has long forbidden the people within its walls to smoke after sunset in the streets unless with a covered pipe, "in order that the cinders may not be blown out." Smoking with an uncovered pipe in German or Austrian forests is an offense that is rigorously punished, and as a result of this regulation forest fires are rare in those countries.

Fashion for Farmers.

A western farm paper, humorously inclined, gives the following "hints to farmers in regard to their attire": Don't wear a kid glove when teaching a calf to suck the finger. Don't wear a silk hat when plowing corn.

BUCKLEN'S ARNICA SALVE.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Itch, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale at Farnham's Drug Store.

Office closed till June 1st, 1895. Marquette, Mich.

The Weather for September.

The following data compiled by Observer Patrick from the record of observation taken at this station for the month of September during the last twenty-four years, will be of interest to those who would like to figure on the probabilities for the same month this year. They show the average and extreme conditions of the more important meteorological elements for the period named and the range within which such variations may be expected to keep during the corresponding month this year.

TEMPERATURE-Mean or normal, 57 degrees. The warmest September was that of 1891, with an average of 63 degrees. The coldest September was that of 1873, with an average of 52 degrees. The highest temperature during any September was 97 degrees on the 24th, 1878. The lowest temperature during any September was 28 degrees on the 24th, 1883. Average date on which first "killing" frost occurred (in autumn), September 17.

PRECIPITATION (rain and melted snow)-Average for the month, 4.10 inches. Average number of days with .01 of an inch or more, 13. The greatest monthly precipitation was 12.71 inches in 1881. The least monthly precipitation was .53 inches in 1886. The greatest amount of precipitation recorded in any twenty-four consecutive hours was 4.44 inches on September 29th, 1881. The greatest amount of snow fall recorded in 24 consecutive hours (record extending to winter of 1884-5 only) was traced on September 25, 1889.

CLOUDS AND WEATHER-Average number of cloudless days, 8. Average number of partly cloudy days, 12. Average number of cloudy days, 10.

WIND-Prevaling winds have been from the northwest. The highest velocity of the wind during any September was south, 61 miles, on the 21st, 1893.

Last Hotel Superior Hop.

There was a very pleasant dancing party at the Hotel Superior pavilion last evening, about forty couples from the city being present. The Superior orchestra, which closes its season at the hotel today, outdid itself and all present declared it one of the pleasantest dances of the season. Light refreshments were served and at midnight the electric cars brought home a somewhat tired but very jolly party.

Not a Longshoreman.

To THE MINING JOURNAL: In your issue of Aug. 20 I notice that in commenting on the murder of Patrick Murphy by Con Sullivan at Houghton, your correspondent made the statement that Con Sullivan was a longshoreman. Permit me, in justice to the Longshoremen's association, and as an official of that order, to assert that Con Sullivan is not, nor has he ever been, a member of our organization. He may be a stevedore, but our order is diametrically opposed to such.

FRED KRUSCHINSKI, President. MARQUETTE, Mich., Aug. 29, 1895.

CAUGHT ON THE FLY.

Northwest winds; clearing and colder today and Sunday.

D. A. Nease of Ewen was among yesterday's visitors here.

Fred Mackenzie, editor of the Calumet News, was in town last night.

Miss Delia Lemire of Negaunee will spend a few weeks in the city as the guest of Miss W. L'huillier.

The auditing committee of the board of supervisors will meet today and the full board on Wednesday next.

Kassel Oshinsky has revised his bargain list. See what he has to offer in the line of money-savers in his advertising space.

E. J. Nally, western manager of the Postal Telegraph company, came in last night from a ten days fishing expedition in Alger county and leaves for Chicago today.

N. C. Piskard, for several years foreman of THE MINING JOURNAL news room and afterwards telegraph editor, is now night editor of the Fort Worth (Tex.) Gazette.

J. P. Deegan, of the Superior street restaurant, is right to the fore with oysters of the very quality and fresh. His finest lot came yesterday and from this time on you can get oysters served at this place in every style and good, as all who tried them will tell you.

All the meat markets have agreed to close at noon on Monday-Labor Day-and will remain closed the remainder of the day. Persons who have occasion to visit the markets that day are warned to do their buying early and before noon if they would avoid inconvenience.

The Shakers have made a great hit. Their Digestive Cordial is said to be the most successful remedy for stomach troubles ever introduced. It immediately relieves all pain and distress after eating, builds up the feeble system and makes the weak strong.

The fact is, foods properly digested are better than so-called tonics. The Cordial not only contains food already digested, but is a digester of other foods. Food that is not digested does more harm than good. People who use the Cordial insure the digestion of what food they eat and in this way get the benefit of it and grow strong.

The little pamphlet which the Shakers have sent drugists for free distribution, contain much interesting information on the subject of dyspepsia.

LASOL is not a mixture of drugs. It is nothing but Castor Oil made palatable.

NOTICE.

The annual meeting of School District No. one of the city of Marquette for the election of one trustee and for the transaction of such other business as may lawfully come before it, will be held at the Police Court room of the City Hall, Marquette, Michigan, on Monday the 2nd day of September, 1895. Polls will be open at the above named place from 9 o'clock a. m. until 8 o'clock p. m. for the election of such trustee. At 8:15 o'clock p. m. the meeting will be open for the transaction of other business.

Dated this 22nd day of August, 1895.

YARNUM B. COCHRAN, Secretary of Board of Education. (8-23-10d)

FOR SALE.

A well located saw mill and lumber yard. One that can make money for the right party. It will pay to look into this matter by the men who understand the lumber business. Enquire at this office. (8-10-1w)

KINDLING WOOD FOR SALE.

BRICE MANUFACTURING CO. (8-23-1f)

SLABS FOR SALE.

Sixteen inch slabs \$2.50 per cord delivered. Telephone F. W. Read & Co., lumber yard, Washington street. Telephone 41. (7-18-1f)

STRANGE WHEELS.

Such Were the Bicycles of "Ye Olden Time."

Archaeologists will be interested to know that the first record of a bicycle is that of a stained-glass window in the church of Stoke Newington, near Windsor, in England. It was this churchyard, by the way, that inspired Gray to write his ever-famous elegy. The rider of the bicycle in the picture on the window, writes John Gilmer Speed, in Lippincott's, which is dated 1842, would be mistaken for Pan with his pipe were it elsewhere than in a Christian church, where pagan deities are not made at home. But history is silent as to the use of any such vehicle at that time. One hundred and twenty years or so later there was exhibited before the French court a manumotive carriage of several hundred pounds weight; but the bicycle can scarcely have grown from that. It was much nearer our own time that the first genuine bicycle was invented. It was quite the fashion to ride such a vehicle in England in 1819; the new invention was variously called the "dandy horse," the "hobby-horse," and the "velocipede." There are many allusions to it in the records of the day, and in a letter from John Keats in February, 1819, to his brother in America I find this mention of it: "The nothing of the day is a machine called the velocipede. It is a wheel carriage to ride cock-horse upon, sitting astride and pushing it along with the toes, a rudder wheel in hand. They will go seven miles an hour."

How it would have stimulated the poet's imagination if, in the year he wrote that epistle, he had been granted a vision of the modern bicycle, a thing of grace, swiftness, and outdoor delight. Perhaps a really great poem of the wheel might have resulted. For there is poetry as well as utility in it, and anybody with a spark of idealism must feel this, except in those moments when the mind is taken up with the attempt to escape being run down by one of the reckless flyers.

Think of seven miles an hour and several hundred pounds weight set against the figures concerning the modern "bike!" Verily, the world moves and bicycles move with it. It would be dangerous in the light of the past to say that the machine of the future may evolve into, one can hardly believe in an improvement proportionate to that of the last fifty years, but anyway it furnishes another reason for wishing to live a hundred years or so that one might behold the wheel of 3000 A. D. The "nothing of the day" of 1819 has become an almost indispensable personal business and pleasure. It must be left to some John Keats of the present to attempt a better prophecy than his fellow bard of England eighty odd years back, whose gifts were not of the kind to give him a hint of the great prospects of the "velocipede."

TOWNS OF SETTLED HABITS.

London and Philadelphia alike in this respect.

In her article on "The Myth of the Four Hundred," in the Cosmopolitan, Mrs. Burton Harrison tells of an American calling upon a lady in London and finding her seated in a big chair by the window, engaged in some sort of needlework. A young man came in and paid his respects, as was his her duty at home, and then bowed himself out. Three years later the American was again in London, and again he called upon the lady. It was her day at home, and there she sat in the same chair by the same window with the same needlework, or some very like it, in her hand, and, more remarkable still, the same young man called and made the same remarks he had made three years before. Mrs. Harrison tells this anecdote to show how unchanged things are in England, and how you are pretty sure to find people just about as you left them. The illustration is a good one, but I can match it with a better one over here.

I have the pleasure of knowing a family in Philadelphia, who have lived in the same house for forty years. As the children of this family grew up, they developed a musical talent from four or five generations of men learned in the law, as well as skilled with the bow. Every Sunday between twelve and one o'clock, it was the custom of the father and the sons to play classic music, the father being first violin, one son, one second violin, the other violoncello. They played well, and, as I lived nearer Philadelphia in those days than I do to-day, I often dropped in at these rehearsals, as they called them. Five years ago I was in Philadelphia on a Sunday. I had not seen my old friends in fifteen years, but I was sure that they were living at the old place. I walked around the house, and, as I mounted the marble steps, I heard sounds of music. Could it be possible that a "rehearsal" was going on? Yes, sure enough. There sat the father, his hair snow white, with his violin tucked under his chin, and three "boys"-fathers themselves-all playing away as they had been doing since they were children. To be sure, they were married men and did not live at home, but they met every Sunday morning at their father's for the usual music. I expect to run on to Philadelphia again before long, and, though it has been at least five years since I was at my old friend's house, I expect to hear the music on Sunday morning, for I shall time my visit so as to include a Sunday.

The Fire Cure.

The native doctors of India practice a peculiar system known as "firing." Afflicted persons, no odds what the disease may be, are, immediately upon the arrival of the family physician, subjected to the tortures of the fire. At the beginning of the present century it was used chiefly for aches and pains, but at present it is said that it threatens to become the universal remedy for all afflictions. A late report by a medical authority declares that there is not one to the thousand of total population in Bombay and the larger cities generally, who does not bear traces of the "fire cure" in the shape of hideous scars on head, back, stomach, or limbs.

THERE is but one

way in the world to be sure of having the best paint, and that is to use only a well-established brand of strictly pure white lead, pure linseed oil, and pure colors.* The following brands are standard, "Old Dutch" process, and are always absolutely

Strictly Pure

White Lead

"Acher," "Marley," "Cassidy," "Shipman," "Zimmeting & McKelvey," "Southern," "Fayrer-Sauman," "Red Seal," "Doris-Chambers," "Collier," "Falmestock."

*If you want colored paint, tint any of the above strictly pure leads with National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead. Send us a postal card and get our book on paints and color-card, free. NATIONAL LEAD CO. Chicago Branch, State and Fifteenth Streets, Chicago.

THE REGINA MUSIC BOX

Plays all the Latest Songs.

New tunes issued every week. Over one thousand are now ready including dances, operatic and all the popular airs of the day.

It is a musical novelty rendering on one or two accurately tuned steel combs, the most beautiful music and playing an unlimited number of tunes.

It is the first and only music box manufactured in the United States and far surpasses the finest imported ones. The mechanism is of wonderful perfection and so strong and well finished that with ordinary care it will last for a life time. It runs fifteen minutes with one winding. All its parts are interchangeable. The cases are ornamental and highly polished. The tone sheets are indestructible, being made of metal and are easily adjusted or changed. Send for illustrated catalogue.

J. N. FOHRMAN, Dealer in Pianos and Music 111 Front St., Marquette.

Farnham the Druggist.

Has just received, a shipment of the celebrated "Geneva" Lithia water. The strongest Lithia water known.

CITY OF MARQUETTE

Leaves Marquette for

HURON BAY

And intermediate points Mondays and Fridays at 8 o'clock a. m. Keweenaw Bay and Portage Lake points are also visited as required.

The round trip from Marquette to Huron Bay and return is a most delightful excursion. The rocky coast, Granite Island, Huron Mountain, "Red-heads," Huron Mountain Club House, Huron Islands, Huron Bay, etc., form a succession of most charming pictures.

Camping and fishing parties landed at or taken from any points on the shore and service provided while the camps are occupied.

The steamer may be chartered for excursions, etc. Wednesdays, Thursdays and Sundays.

Delightful one day excursions from Marquette may be made to the famous

Pictured Rocks, Stannard's Rock

(Remarkable Light House and wonderful fishing grounds, or to the

HURON ISLANDS

(Light House and notable Glacier-marks.) Excursions to

ISLE ROYALE

(Beautiful scenery and good trout fishing.) Short excursions on the lake of one or more hours, are very refreshing when the weather is hot.

PARTRIDGE ISLAND

(Dancing Pavilion.) is reached in 40 minutes and may be chartered with the steamer for parties or other parties.

Unless otherwise engaged, the steamer will make three trips to Partridge Island every Sunday at 11:00 a. m., 2:00 and 7:30 p. m. Round trip 25 cts.

WILL TAKE NO CHANCES.

Steam Shovel Operators at Ishpeming Decline to Work in Opposition to the Union's Commands.

WILLING TO IF THE UNION WOULD PERMIT IT.

Companies Will Therefore be Obligated to Bring in Men from Outside to Operate the Machines.

SHOVEL MEN WON'T WORK.

The steam shovel men here have declined to operate the shovels. The request that they be permitted to return to work was so strongly opposed at the union meeting Thursday that they finally concluded not to tackle the job under the present condition of affairs here. It is said that the meeting was a hot one and that, although many were in favor of allowing the shovels to work, the proposition was ultimately voted down by a large adverse majority. Some of the steam shovel men were seen yesterday and all those with whom the reporter talked said they would not go back to work, as they are certain that operation of the shovels will be strongly opposed by the miners. They say they don't care to run any chances on the result. They regret very much, however, that outside men will be put in their places, but as matters stand here they deem it best to stand aside and let the work go on with the new men in charge.

The mine managers say they would much rather have their old hands go to work than to bring in men from outside, but as their former employees decline to run the shovels they have no choice but to secure others. It is generally understood that the companies sent for the men they have in view yesterday and that they will be here in time to begin work Monday. Captain Ball of the Marquette contingent of the Michigan National Guards was in Ishpeming Thursday afternoon. In view of the fact that he expects that his company will be the first called in here in case of interference with operation of the shovels by the strikers he was here looking up suitable camping grounds for his men.

Our School Teachers.
The full corps of teachers engaged to do service in the Ishpeming public schools during the ensuing year is as follows: High school building, Miss Olcott, principal, the Misses Gale, Benson, Hinsdale, Crane, Ashton, Girzi, Mildon, Williams, N. McDowell and Casey.

Ridge street building—Miss Lenhart, principal; the Misses Wright, LaLonde, Nankervis, Beals and Bright. Division street building—Miss McDowell, principal; the Misses Fisher, Johnston, Sedgwick, Bracelin, K. Laughlin, Bamford, Connors, Dyson, B. Laughlin, Robinson and Emerson. The latter will have charge of the kindergarten department.

Salisbury building—Miss Belcher principal; the Misses Rogers, Coy, O'Brien and Wadsworth. Gravelock building—The Misses Barney and Shryer. Temple of Honor building—Miss Anna Lacey.

Second and High street building—Miss Gilmore. This will also be a kindergarten department. Miss Herbert of Detroit has been engaged as music teacher. The Cadets are the Misses Ropes, St. Clair, Broad, Nolan and Outwaite.

There are fourteen new teachers in all, these being the Misses Benson of Gambier, O.; Hinsdale of Ann Arbor; Crane of Laporte, Ind.; Williams of Champion; Beals of Adrian, Mich.; Bright of Michigamme; Bracelin of Menominee; Emerson of St. Paul; Coy of Owosso; Barney of Kalamazoo; Shryer of Flint and Gilmore and Herbert of Detroit. A number of the new teachers have already arrived. Those who have not yet got here will reach here today.

Superintendent Hardy has called a meeting of the teachers to be held this afternoon at 2 o'clock at the High school building, when places will be assigned them.

The two kindergarten departments will be the valuable addition to the schools. All children who enter the schools for the first time this year will be assigned to these departments. With the additional rooms which have been provided it is certain that all the children who may come will be cared for. The schools will open for the fall term on next Tuesday morning at the usual hour.

Quite a Case.
A very interesting case was tried in Justice Kennedy's court on Thursday, August 11, 1893. William J. Moyle, of the Badger Hill location, lost his cow, and about two weeks ago he found her—or one that he thinks is his—in possession of Edward Vadnais of the Saginaw location. Vadnais obtained the animal a few months ago from his uncle, Maurice Vadnais, of Eagle Mills. Maurice comes in and swears that the cow came to his place in June, 1893, two months before Moyle lost her. He also brought in three witnesses who give similar testimony. He produced a notice which was published in The Iron Herald of Negaunee in June, 1893, to the effect that the cow was in his possession and that the color of the animal was brindle. The cow was brought into the alley near Mr. Kennedy's office and the justice and the different witnesses were permitted to examine her. It was found that the cow was a brindle and white, instead of a complete brindle.

Mrs. Killman, the original owner of the cow, testified that she sold the animal to Moyle prior to August 1893, and that she knew the cow by its color and also by a gash which a cow doctor had cut in its tail about the time she disposed of it.

Maurice Vadnais swore that he had cut the gash in the cow's tail and his witnesses testified that they had seen the cow walking about Eagle Mills with a rag tied around its tail and that they were certain from this that Vadnais had performed the operation.

Moyle had nine witnesses who swore

that they positively knew the cow belonged to him. Yesterday Mr. Kennedy rendered a decision in favor of the plaintiff. He says that the defendant did not comply with the statute regarding the advertising and subsequent sale of the cow and that he was not entitled to ownership. The defendant says he will appeal the case to the circuit court.

ISHPEMING IN BRIEF.

A special meeting of the school board will be held this afternoon.

Miss Edith Broad will teach school at Mason, Mich., during the coming year.

Miss Mary McCarthy left yesterday for Milwaukee on a visit to Mrs. Will Crowley.

D. H. Bacon and daughter of Tower, Mich., were in Ishpeming yesterday. They came down on a special car.

The High school baseball team and the Browns will cross bats this afternoon at the Union Park grounds.

The Ishpeming and Negaunee strikers will hold a demonstration in Ishpeming today after the regular meeting at the park.

Miss Emma Sinclair of Clinton, Mich., arrived here yesterday on a visit to her brother, O. A. Sinclair, and family.

A regular meeting of the fire department will be held this evening at the usual hour. All members are requested to attend.

Messdames Robbins, Wilkinson and Call and the Misses Bessie and Mabel Wilkinson of Marquette spent yesterday in Ishpeming.

James Heard is endeavoring to engage twenty-five good miners to go to the Mesaba range next Monday. Good wages are promised the right men.

The city steamer was out yesterday pumping water from the intake of the sewer on Third street to admit of repairs being made to the main near by.

F. P. Tillson, M. W. Barringer, Geo. Y. Johnston and others went to Perch, up the line of the South Shore, yesterday to spend a day or two camping and fishing.

MARRIAGE IN COREA.

Some Peculiar Features of the Matrimonial Ceremony.

Corean girls, after enjoying freedom until they are eight years old, are consigned to the women's quarters, where they live in seclusion till they are married, at sixteen or seventeen years. After marriage, says Popular Science Monthly, the woman is allowed to see no man but her husband. The boys, on the other hand, are taught that it is undignified for them to enter the women's part of the house. They never see their brides till the wedding day, all having been arranged for them, often when both bride and groom are infants. The bride and bridegroom invite their most intimate friends to assist them in dressing their hair in the manner befitting their new estate. Then the bridegroom mounts a white pony, which is led by two servants, while two others on either side support the rider in his saddle. Thus he proceeds to the bride's house, in which the bride and her relatives are awaiting their arrival. A goose (the Corean symbol of fidelity), which the bridegroom brings with him, is then produced. The bride (who has to cover her face with her long sleeves) and the bridegroom then bow to each other until their heads almost touch the ground. This they do three or four times, and are then man and wife. A loving cup is passed around, and then the bride is taken off to the women's apartments of her husband's home, where she is looked after by her mother and mother-in-law, while the groom entertains his friends. The husband must maintain his wife properly and treat her with respect. Marriage is the great event in a Corean's life, for he then attains man's estate. Before marriage, no matter how old he may be, he is treated as a boy, and has to maintain a deferential attitude toward the married men, even though they be only half his age.

THE UNDERTAKER BEE.

There was serious trouble in a suburban beehive the other day, and in the midst of the excitement several bees dragged out one of their dead and left it on the edge of the hive. Many bees came and went, leaving the dead body unnoticed, but after awhile came along the undertaker bee. He seized the body, flew off with it some yards and dropped it in the grass. The operation was repeated with another dead bee, and, as before, those whose duty lay in other directions left to the undertaker the task of carrying off the body.

—Only eighteen per cent. of native Americans go to mining for a means of livelihood; nearly one-half of the British immigrants find employment in the mines; of the Canadians, nearly forty-four per cent. are so employed.

FREE PILLS.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by E. Farham's Druggist.

Have gone into the coal and wood business. Hard coal delivered \$7 per ton. Wood of all kinds will be furnished as cheaply as can be obtained from any firm in Marquette county. Coal or wood delivered on short notice.
(9-22-1f) F. BRAASTAD & CO.

Besides handling the best quality of coal and wood in the city Hampton & Co., carry in stock hay, grain and flour. Wood contractors will save money by consulting them before buying elsewhere. Give them a call and be convinced.

This offer will be good for a limited time only.

TUGGLE WITH A DEER.

The Desperate Fight of a Hunter with a Dying Buck.

The literature of hunting is full of anecdotes which show the danger of a too hasty assumption that a wounded animal is dead or past the power of defending himself. A new illustration is furnished by Mr. Roosevelt in his "Ranch Life and the Hunting Trail." Not only will a big, black-tail buck beat off a dog or a wolf coming at him, in front, but he is an awkward foe for a man. One of them nearly killed a cowboy in my employ.

The buck, mortally wounded, had fallen to the shot, and the man rushed up to kill him. Then the buck revived for a moment, struck down the man, and endeavored to gore him, but could not, because of the despairing grip with which the man held on to his horns. Nevertheless, the man, bruised and cut by the sharp hoofs, was fast becoming too weak to keep his hold, when in the struggle the two came to the edge of a wash and fell into it some twelve or fifteen feet. This separated them. The dying buck was too weak to renew the attack, and the man crawled off; but it was months before he got over the effects of the encounter.

—Even sleep is characteristic. How charming are children in their lovely innocence! How angel-like their blooming hue! How painful and anxious is the sleep and expression in the countenance of the guilty.—W. von Humboldt.

—A scamp was originally only a traveler, but in the early middle ages most of the scampering was done for some good cause, and the man who scampered was in virtue of that fact adjudged to be a person of bad character.

—Tree planting is now encouraged in nearly every western state.

THINK OF THIS. Hood's Sarsaparilla is the only true blood purifier prominently in the public eye today. It cures disease when all others fail, because it makes pure blood.

HOOD'S PILLS cure jaundice, biliousness, sick headache, constipation and all liver ills.

Mining Work and Ore Shipments Being Pushed Vigorously at the Gribben and Star West Mines.

Ishpeming Strikers Paid the City a Visit Yesterday--Daughters of St. George Supreme Lodge Officers.

WORKS WELL IN FURNACE.

Captain James Ames, who has charge of operations at the old Gribben property on the Cascade range, is doing big work.

Four new hydrants, three on Bluff and one on Maas street have been added to the water works system.

Adolph Wickstrom has purchased Charles Larson's residence property on the north side of the Tea Lake bluff and will occupy the place within a few days.

The Chicago & Northwestern company is improving the sewer line from the corner of Winter & Snell's meat market to the main line near the tracks.

There is a certain ethical quality in the unwritten social law which enjoins that whatever sufferings and discomforts a person may undergo in private, he is to bear himself in public as if good fortune was accompanying him everywhere.

The Ishpeming strikers who attended the meeting at Union Park yesterday joined the Negaunee strikers and spent a portion of the afternoon in Negaunee.

At Thursday's meeting of the supreme lodge officers of the Daughters of St. George the following officers were elected for the ensuing year: President, Elizabeth Lacey, of Chicago; vice president, Kate Ridding, of Allegheny City; financial secretary, Elizabeth Cook, of Cleveland, O.; recording secretary, Jennie M. Dixon, of Tacony, Pa.;

The next annual convention will be held at Philadelphia commencing on the fourth Tuesday in August, 1896.

The visiting ladies and members of the local lodge were tendered a reception and banquet at the Sons of St. George hall last evening.

An interesting program has been prepared for the concert to be given to-night. An admission of fifteen cents will be charged and all are invited to attend.

The supreme lodge expects to complete its business this afternoon. The ladies will nearly all remain here until Monday.

Superintendent Davis of the public schools has called a meeting of the teachers to be held at the High school room this afternoon at half-past one o'clock, when the work for the ensuing term will be outlined.

REAL MERIT is the characteristic of Hood's Sarsaparilla. It cures even after other preparations fail.

\$100 REWARD \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh.

SUMMER EXCURSIONS. TO THE PICNIC, FISHING AND HUNTING RESORTS COMMENCING SATURDAY, MAY 4, 1895.

Sand River and return... \$.70 Deerton " " " " " .85 Onota " " " " " .95

Geo. H. HEAFFORD, Gen'l Pass. Agt., Chicago, Ill.

LOCAL LAONIONS.

H. H. Heinemann is up from Iron Mountain. Fred Jacobson has returned from Gladstone.

Josh Murray returned from a visit to Iron Mountain friends yesterday.

D. G. Stone is repairing his warehouse, which was recently damaged by fire.

Coffee and nut rolls will be served free of charge at T. M. Wells' store today.

Four new hydrants, three on Bluff and one on Maas street have been added to the water works system.

Adolph Wickstrom has purchased Charles Larson's residence property on the north side of the Tea Lake bluff and will occupy the place within a few days.

The old nuisance ground has been abandoned and a new one established about half a mile further north.

There is a certain ethical quality in the unwritten social law which enjoins that whatever sufferings and discomforts a person may undergo in private, he is to bear himself in public as if good fortune was accompanying him everywhere.

Everyone loves an optimist, and although he may have to bear to be laughed at sometimes, the laughter is good-humored and encouraging; but when dignity and a certain decorous gravity join with optimism the individual may be sure of respect as well as of regard.

So the keeping up a brave appearance implies that behind it is a staunch heart and enterprising spirit, which will not easily yield before difficulties, and without the object being to preserve one's business credit, to maintain one's position in society, or to live up to a reputation for character, the worthiness of the effort is appreciated by the good public.

Times of commercial adversity bring out the true or false ring of character. When necessity drives the prosperous class to lessen the scale of expenditure by giving up superfluities, men and women reveal the tone of their minds by what they consider superfluities.

The virtue that lies in keeping up appearances depends entirely upon the sort of appearance we aim to keep up. It is right that everything that ministers to the higher needs of our nature should be preserved; that we should cling to the social position which we have gained by honorable effort; that neither our pleasant homes nor essential comforts nor those things which involve the welfare of those persons dependant upon us should be sacrificed readily or early.

The antiquity of modern inventions has often been the subject of remark by way of commentary upon the old saying that "there is nothing new under the sun."

"Fran Moeckel, why do you always play the piano when your husband is busy writing?"

"There's no help for it. He is at work on a tragedy, and I have to make him savage."--Bunties Allerlei.

PLENTY OF WILD FRUITS.

Nature Has Been Very Generous This Year. The Abundance of Berries and Nuts, It is Said, Presages Severe Cold and Lots of Snow the Coming Winter.

If there is anything in the old belief that a season of abundant wild fruits, and especially nuts, presages a cold and snowy winter, we may expect severe weather five, six and seven months hence, says the New York Sun.

Just after the strawberries came the wild blackcap raspberries, abundant and excellent. They were greedily eaten by birds and boys and like wild creatures. Blackberries are still ripening, because their season is longer than that of most other wild fruits.

The nuts promise well, and upon these the weather indication is supposed especially to hang. An abundant nut crop is held to indicate a providential care against snow and cold, for the needs of squirrels and other wild creatures that lay in winter stores.

The nuts promise well, and upon these the weather indication is supposed especially to hang. An abundant nut crop is held to indicate a providential care against snow and cold, for the needs of squirrels and other wild creatures that lay in winter stores.

STOVEPIPE AND ELBOWS. An Important Feature in the Business of 40,000 Dealers in Stoves in This Country.

Stovepipe is sold in joints, two feet in length, and in various diameters. In anthracite regions the pipe averages five or six inches in diameter, but in soft coal regions it is mostly seven or eight inches in diameter.

Stovepipe is much cheaper than it used to be. Such pipe as formerly sold at retail at twenty-five cents a joint, can now be bought at fifteen cents or less.

While many stove dealers having tin-smiths' plants make their own pipe, very few now manufacture elbows, which they can buy cheaper from the manufacturer.

The Great Northern runs Buffet-Library Cars, Palace Sleeping and Dining Cars the latter on the A. L. Carlo plan, "pay for what you eat."

Having a rock ballasted track the transcontinental journey via the Great Northern Railway is free from one of the chief annoyances of western travel.

Round Trip Tickets with stop over privileges and choice of return route.

For further information apply to Railway Ticket Agents at all principal points, or address James Young, General Agent, 26 Wisconsin St., Milwaukee or F. I. Whitney, G. P. & T. A., St. Paul, Minn.

Bicycling for Women

Physicians recommend bicycling. Dame Fashion says it is "good form." Two new models for women's use in--

Columbia Bicycles

THREE ARE IN THE RACE.

That Many Candidates Entered for the Post of School Trustees.

A POSSIBILITY THAT NO ONE WILL BE ELECTED.

Law Says One Receiving "Majority" of Votes Shall Be Declared Elected. None May Get That.

COCHRAN MAY HOLD OVER.

Three candidates are in the field for school trustee to succeed Varnum B. Cochran. So long as Mr. Cochran was a probable candidate for reelection there seemed no great amount of opposition. But Mr. Cochran, being advised by his physician that he might have to spend the coming winter in a warmer climate, announced that he would not be a candidate.

Many patrons of the schools and numerous friends had solicited George Barnes to become a candidate for the position. He did not wish to run against Mr. Cochran but when the latter pulled out of the race Mr. Barnes consented to the use of his name.

At the urgent request of many friends E. W. Allen has also consented to be a candidate for trustee. Mr. Allen is well known as a railway official of energy and ability and no doubt will poll a good vote.

The last candidate to be heard from is James Pendill, who yesterday consented to enter the race. Mr. Pendill has served in the council and is now a member of the electric light board.

So far these are all the candidates that MINING JOURNAL reporters have been able to hear of as being seriously in the race, though others have been mentioned by personal friends in a tentative way. But there is lots of time for more to get on the track between now and when the starter's bell rings on Monday morning.

MAY BE NO ELECTION.

As a result of there being at least three candidates in the field there may be no election at all. In most elections a plurality of the votes cast is sufficient to elect but such is not the case in an election for school trustees. There the law requires that the successful candidate shall have an absolute majority. At least such seems to be the meaning of the law.

The provision in question will be found in the graded school act, at the end of Section 5132 of Howell's Revised Statutes of Michigan. The section in question, after providing as to the number and terms of office of school trustees and some other matters, contains at the end the following proviso:

"Provided, That in the election of trustees and all other school officers the person receiving a majority of all the votes shall be declared elected."

City Attorney Brown ran upon this provision yesterday in looking up the school law in general. Its existence seems to have been totally unknown here before, but that it is good law seems established by the fact that Mr. Brown found a decision of the supreme court declaring certain contracts invalid because it was shown that two members of the school board which made them were illegally elected, having received only a plurality instead of a majority of the votes cast.

Hence if all three of the candidates stay in the field and some more get into the race the result may be no election at all, in which case it seems that Mr. Cochran would hold over until next year.

As Mr. Cochran has declined to be a candidate, thereby inferentially asking to be relieved from farther service on the board, it would seem in order for the friends of the various candidates to get together and by avoiding a contest of three or more corners avoid a possible failure to elect anybody.

The Series With Duluth.

Smith and Rivers will fill the points for the home team in today's game with Duluth and the visitors will present Krellwitz and Connors. P. Reichman and Martin will be the battery in Sunday's game for the home team and Chapman and Connors for the visitors. For the game Monday the batteries will be announced later. There is reason to believe that the games with Duluth will be the most interesting series played here this season, as it will be the only one in which the same teams play together for three days in succession. Owing to the heavy expense of bringing the Duluth team here ladies will not be admitted free to these games but no charge will be made for seats in the grand stands. The last game Duluth played here was in the intervals of showers but good weather is hoped for this time and a much more interesting contest.

Civil Service Examination.

A competitive examination under the rules of the civil service commission will be held in this city on Oct. 1 of applicants for the grades of inspector, inspector and watchman in the classified customs service of the United States for this district. Applications must be made on the blanks prescribed by the commission and must be filed with the secretary of the local board of examiners at the custom house in this city before the close of business on Sept. 11. Blanks and other information can be obtained on application to Mr. Alex C. Thiel, secretary of the board of examiners.

Political opinions cut no figure in filling these places and persons who pass the examinations and secure appointments may be certain of retaining their positions as long as they prove trustworthy and competent. The intent of the civil service examination is to secure a list of competent persons from whom appointments can be made. It is an application to the public business of the same principles of common sense that regulate private business.

The "spoils system" of distributing public office in return for political service is slowly but surely dying and no

one but a few professional politicians will regret its final demise. The merit system, which has only recently been applied to the customs service, is already justifying itself there, as it has in the railway mail and other branches of public business, by its superior efficiency and economy. The more the taxpayers see of the merit system of filling public offices the better they like it and a return to the old ways has become practically impossible.

There has been so far no oversupply of really first-class applicants for positions in the customs service of this district but as the good points of the merit system of appointment and promotion are more widely appreciated conditions will change. The examinations are not technical nor unduly difficult but are designed to test whether the applicant possesses sufficient education and knowledge of the duties of the position for which he applies to fill it satisfactorily.

Sunday Services.

At the Presbyterian church Sunday morning Mr. Spencer will speak on "Offending God's Little Ones." In the evening there will be a "Strangers Service," devoted to the guests who are in the city, all of whom are cordially invited to be present. The choir have appropriate music in preparation and will be assisted by Mr. O. J. Margulies, violinist.

The musical program for high mass at St. Peter's Cathedral tomorrow morning is as follows:

"Asperges Me"—Chorus.....Kemper.
Mass in G.....Millard.
Solos, duos, trios and choruses.
"Veni Creator," chorus.....Millard.
Offertory—Solos, duos and chorus.....Peters.
"Laudate Dominum".....Gregorian.
Organ postlude.....Lemmens.

There will also be evening service at 7:15 o'clock with choir and organ.

At St. Paul's church tomorrow there will be a celebration of holy communion at 7:30 a. m.; second celebration with sermon by Rev. Frank J. Mallett on "The Noblest Emotion of the Heart," at 10:30 a. m.; evensong with sermon on "The Value of Old Age," at 7:30 p. m. At St. Margaret's chapel, South Marquette, Sunday school will be held at 3 p. m.

Determined to be Tough.

The girl of sixteen who was advertised as missing in yesterday morning's MINING JOURNAL was found at an early hour by Marshal Maloney and was shipped back to her relatives at the head of the lake last night. The young woman is evidently determined to be tough and if her relatives are wise they will put her in a reform school or a House of the Good Shepherd, where she will be under useful severer of discipline. She would be a decidedly corrupting influence in any ordinary school.

Little Everard Williams Dead.

A telegram was received here yesterday announcing the death at Denver of Everard, the little son of Archdeacon Williams of this city. The child was about three years old and it is presumed will be buried at Detroit or Milwaukee. It is feared that the sad event will prevent the attendance of the archdeacon upon the convocation of this diocese, which will be held here next Wednesday morning.

The Longshoremen's Picnic.

The Longshoremen's association of this city will celebrate Labor Day by a parade in the morning in which several other organizations will join and a picnic in the afternoon at Meesick's gardens. Addresses will be made by Mayor Jacobs, Hon. George Wagner of this city, Mr. E. J. Carey of Negaunee and others. Nearly all of the business houses will close all or part of the day, as appears by notices published elsewhere. The Longshoremen feel that they have something to celebrate over this year, their wages for lumber-shoveling having been recently advanced from forty to forty-five cents an hour by all the vessels for whom they work.

Will Close on Monday.

We, the undersigned, do agree to close our places of business Sept. 2, being a legal holiday: Gooding & Ormsbee, Marquette Furniture Co., The Emporium, J. H. La Rochelle, A. H. Palmer, E. R. Hixson, D. Murray, A. R. Morgan, H. F. Handford, P. Werner & Sons, K. Oshinsky, Duquette & Metz, Louis Getz, Jacob Rose, M. S. Johnson, Arthur Delf, Young & Son, J. F. Zerbel.

MARQUETTE, Mich., Aug. 30, 1895.

Music at the Clifton.

The orchestra of the Hotel Superior, having closed their engagement with that hotel, will begin an engagement with the New Clifton tomorrow noon. Dinner will be served from 1 to 2:30 p. m., during which the following program will be given and to which all the patrons and friends of the New Clifton are cordially invited. The orchestra will play from 12 to 1:30 each day during the week and on Sundays as above:

"Life a Dream" overture.....Ellenberg
Intermezzo from "Cavaleria Rusticana".....Czibulka
"Pilgrim's Chorus".....Czibulka
"Evening Star," from.....Wagner
"Tannhauser".....Wagner
"Summer Evening" waltz.....Waldteufel
Selection from "The Bohemian Girl".....Baife
"Spring Song".....Mendelssohn (Adv)

THE MARQUETTE SUPERIOR ORCHESTRA

closes its season at the Hotel Superior Saturday, August 31, and will be open to the public for engagements beginning Sunday, Sept. 1st. Music furnished for Balls, Receptions, Dinners, Concerts or any social function.

O. J. MARGULIES,

(8-31-tf) Musical Director.

Hotel Superior Hops

Given at the Pavilion every Tuesday and Friday Evenings.

Tickets including ladies one dollar. Street cars make regular trips to and from the hotel. (8-31-tf)

Should be Looked Into.

THOROUGH INVESTIGATION REQUESTED.

A BOLD ASSERTION.

Ever since Prof. Koch started the world by promising to cure consumption with the Koch lymph and his complete failure to do so, the people have been looking for some discovery which would prove an absolute, certain cure for that dread disease. Over a quarter of a century ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, put in a claim for a medicine, which he had discovered and used, in his extensive practice, that would cure ninety-eight per cent. of all cases of consumption when taken in all its early stages. Time has proved that his assertion was based on facts gained from experience. His "Golden Medical Discovery" has cured many thousand people in all parts of the world, and Dr. Pierce invites all interested to send to him for a free book which gives the names, addresses and photographs of many prominent people who have willingly testified to the marvelous curative properties of his "Golden Medical Discovery." He has also written a Book of 150 pages on "Diseases of the Respiratory Organs," which treats of all Throat, Bronchial and Lung diseases, also Asthma and Catarrh, that will be mailed by the World's Dispensary Medical Association of Buffalo, N. Y., on receipt of six cents in stamps, to pay postage.

Consumption, as most everybody knows, is first manifested by feeble vitality, loss of strength, emaciation, then local symptoms soon develop, as cough, difficult breathing, or bleeding from lungs, when investigation proves that tubercular deposits have formed in the lungs, it is earnestly advised that the "Discovery" be taken early and the latter stages of the disease can thereby be easily avoided.

To build up solid flesh strength after the grip, pneumonia, ("lung fever"), exhausting fevers, and other prostrating diseases, it has no equal. It does not make fat like cod liver oil, its gusty compounds, but, solid, wholesome flesh.

THE LAST CALL FOR SUMMER GOODS

AT

GRABOWER'S.

No such prices made by anybody. No such goods shown at such very low prices. We are headquarters for Dry Goods and undersell them all; no matter what price competitors make, ours is always the lowest.
