MARQUETTE, MICH., MARCH 12.

Entered as mailmatter of the second class in the postoffice at Marquette, Mich. A PINGREE club with a membership of 200 was organized at Saginaw, the home of Bliss, one night this week. At Port Huron, where the rampageous Boynton is mayor, a club with a membership of 300 was formed a few nights ago, despite the fact that the mayor of that city is a pronounced and rabid anti-Pingree man.

IT CAN no longer be charged that the present congress has done nothing. In the interest of economy, it has cut down the salary of the president's private secretary from \$5,000 to \$3,500. This is a clear gain of \$1,500 for the people of the United States, and will be a big card for the members of the house when they go before the people next fall to ask for a "vindication" by re-election at the hands of the beneficiaries of this monumental piece of saving.

While this country is verging upon financial bankruptcy through the criminal inaction of congress, while business is paralyzed and property depreciated to worthlessness, what do you think several Michigan congressmen are doing for the good of the republic? Why, there's our own Crump and Linco of Saginaw, both patriots with a big P. They are devoting all their time to getting the statue of Father Marquette removed from a public building. This is about the smallest, meanest, most pusillanimous piece of demagoguism that alleged intelligent men ever engaged in.

NEW YORK'S chamber of commerce has assumed a political function, and is sending out appeals to similar bodies throughout the country asking and urging them to use their influence in their respective communities in the elections of this year to secure the choice of gold standard men to congress, and also delegates of that complexion to the conventions of both the parties in order that the platform of both shall contain declarations in favor of the continuance of gold as the sole basis of our currency system. The New York chamber of commerce is made up largely of men who have made big money out of bond sales, and naturally desires to have the monetary system continued under which its members enjoy such golden opportunities to make money easily and without any risk.

PERRY F. POWERS, a lower Michigan editor who holds a state office, is disturbed because of the amount of money Pingree is putting into his campaign. He asserts that Pingree is spending more money than Bliss. It isn't plain why Pingree's conduct of his own side of the contest should at all concern Mr. Powers. If the mayor is spending any money it is his own, and has not been contributed by corporations which are interested in having a condition of things continued in the state that enables them to prosper unduly at the expense of the people. But all the talk about the expenditure of money to make Pingree sentiment is the merest bosh. The people don't need to be hired to support Pingree. They are doing it of their own volition, because they believe him to be honest, courageous and energetic—just the kind of a man that they want to see occupy the governor's chair for a couple of years, if only for a change.

The Boston Transcript mentions the return of General Manager Nickerson of the Mexican Central railway and his staff from a tour of inspection of that road. He found the road in excellent condition, and with most encouraging prospects. This is the principal railway in Mexico, and a large amount of American capital is invested in it. Mr. Nickerson further states that business in Mexico is quite prosperous, the growing strength of silver having a stimulating effect on trade and industry throughout the republic. Mexico, like Japan, is on a silver basis, and seems to be getting along vastly better, comparatively, with silver as the foundation of its monetary system than we are under the gold standard. The fact is commended to the attention of those among us who afflict themselves and others by drawing dismal pictures of what would happen to us if this country were to restore silver coinage and thus double the supply of redemption money available for the purpose of maintaining a sufficient volume of credit money for the needs of the people.

QUEER! It is indisputable that Pingree is easily the foremost candidate for the Republican nomination for governor. More Republicans favor his nomination than can be found backing any other candidate for that office. Yet the party organs generally have hardly a mention of Pingree, and when they do mention him it is, as a rule, to discredit his candidacy or express a doubt of the wisdom of making him governor. In this county there are two Repub-

lican papers, but neither of them has a word to say about the gubernatorial candidate whose nomination is desired by a majority of the Republican voters of the county. They are dumb as the dead on a subject which their readers are deeply interested in and are discussing more than any other at this time. The same is true generally in this part of the state. Both the orthodox organs at Escanaba are silent regarding the gubernatorial situation, though one of them did allow itself to observe recently, anent something said by THE MINING JOURNAL about the demand for Pingree buttons, that there was no demand for them at Escanaba and that only one had been seen there, that one being worn by a Pingree man from Marquette county, Hon. George Wagner, who had happened to visit the city about that time.

Why this coyness of the organs? It is easily explained. The machine in this state is dead against Pingree, and the organs of the Republican party in Michigan, with a few brave exceptions, represent and reflect the wishes of the machine and not those of the rank and file of the party. That the Escanaba organ mis-stated the sentiment of the Republicans of its city is shown by the fact that a large number of Pingree buttons are now being worn by Republicans there, and more are wanted by other Republicans who are desirous of thus going on record as Pingree men.

The organs are trying to stifle the sentiment favorable to Detroit mayor in the party. They are doing this because the machine desires to have Pingree's nomination prevented. The organs recognize the right of the machine to all the service they can render. They recognize no claim on them of the voters in the party, whom they look on as useful only for the purpose of furnishing the party with the majority which keeps the bosses in power, and the tax lists and other similar patronage in the hands of men who will in turn see to it that they are properly distributed among the "reliable" party papers.

A "CONSPIRACY" CHARGED. The friends of McKinley openly charge that a conspiracy to prevent his nomination for the presidency has been entered into by leading men in his party who are opposed to him, and that in pursuance of the plan agreed on contesting delegations are being set up in the southern states where the regular conventions are choosing delegates favorable to Ohio's beloved and favorite son in order to discount his successes in these states and prepare the way for a further contest over their representation in the St. Louis convention. It is alleged that the leaders who have engaged in this plot to down McKinley some time ago instructed their agents in the southern states to pick up delegates wherever they could do this, but where they could not do this, and elect contesting delegations, and that these instructions are being faithfully carried out.

It is said that the seats of not less than a hundred of the delegates favorable to McKinley chosen in southern states will be contested in accordance with this plan of campaign. Should this be so the national committee will be placed in a position to exercise an unusual influence on the result, for that committee makes up the roll of delegates who will constitute the convention until the convention itself passes on the credentials of the delegates and determines the rights of claimants to seats. The delegates reported by the committee will vote in the preliminary organization of the convention, and action then taken may determine what the subsequent action of the convention on the contested seats will be. If a majority of the committee is friendly to McKinley the regular delegations from the states which send contesting delegations to the convention will probably be seated, but if its sympathies happen to be the other way the contesting delegations are likely to be reported as entitled to seats on the face of the showing made, and will thus be given the right to participate in the preliminary work of the convention to the exclusion of the others.

McKinley's friends are said to be greatly disturbed over the new element of danger in the situation, and are considering measures to circumvent this shrewd scheme of their wily opponents. The "favorite son" dodge and this conspiracy, worked together, would very materially diminish McKinley's chances in the St. Louis convention. It is obvious even at this early day that the contest over the nomination is going to be one of the most exciting that has ever occurred in a national convention of the Republican party, and it may in some of its features resemble that which split the Democratic party in twain in 1860 and paved the way for a Republican victory in the memorable election of that year.

AFFAIRS AT L'ANSE. Summary of the Week's Happenings in and About That Village. The "stag" party given by Dr. J. G. Turner to his numerous friends in Baraga county last Friday evening at his residence was, without doubt, the most enjoyable gathering that had assembled in L'Anse for years. Progressive Pedro was indulged in from nine to half-past eleven o'clock, with fragrant bavanas and a pharmacist at the sixth table. There were thirty games played. J. B. Smith won twenty-one, getting the first prize, a very nice silver mounted whisk broom with "traveling companion" attachment. Joseph Courtney won ten games, which entitled him to the consolation prize, a

silver ash receiver, with cigar attached which Joe did not care to smoke. The tables were then spread, and it is needless to comment on that part of the program, as Mrs. Turner's reputation as a hostess is too well known to need dwelling on. The pharmacist, however, did not confine himself to one table in this act. Toasts and music for an hour or more were indulged in. It is unanimously conceded by those who were present that Dr. Turner is a royal entertainer and knows just how to conduct a "stag" party. Souvenirs carefully prepared at the "dispensary" were presented each guest on his departure.

Mr. L. B. Eagan of Boston, representing eastern parties interested in the Iron Range & Huron Bay railroad, made a tour of inspection of that road and its equipment last week, and will report on the same in a short time. Mr. Eagan thinks there will be something done at the quarry this spring to put the road in operation, which is a very interesting news to the people of this county. The Whist club was entertained by Mr. and Mrs. J. A. Smith Tuesday evening. Mr. S. T. Harris and Mrs. L. J. Shepard made eighty points, the largest score made in one evening this season. Mr. and Mrs. E. A. Mack will entertain the club next Thursday evening. The club accepted an invitation from Mr. and Mrs. J. L. McKernan to spend an evening at their residence before the season closes.

At the village election held here Monday last there was no opposition to the following ticket: President, John Campbell; clerk, Martin Voetsch; treasurer, Roger C. Williams; trustees, P. Bulger, Allen Johnston and J. B. Belanger; assessor, Con. D. Shea. M. DeHaas of Marquette was in town yesterday on his way home from a few days visit at Huron Bay where he has been looking after his lumbering business and sawmill. He expects to start his sawmill there as soon as the ice goes out.

Accidents will happen, even on a short drive to Pequaming, but it was no laughing matter to see the "two Georges" come into town Sunday evening after a seven mile walk carrying the robes and cushions. Mrs. J. B. Smith gave an afternoon pedro party yesterday to a number of her lady friends in honor of Mrs. George E. C. Seaman, her sister-in-law of Sault Ste. Marie, who is visiting here for a short time.

Miss Allie McKinzie of Pequaming left Monday morning for Detroit, where she will take a course in a business college. She was accompanied by Will Hebbard, who went east on a few weeks vacation.

The musicale and dance to be given by Crim's orchestra on the 17th should be well patronized, as the former alone will be well worth the price of admission.

B. Otto Schroeder and Christina Halverson of Skaneecore procured a marriage license yesterday and took the morning train for Marquette to get married. Dr. and Mrs. J. G. Turner will entertain a number of their friends at what Friday evening in honor of Mrs. Geo. E. C. Seaman of Sault Ste. Marie.

Miss Mame Smith returned from the "Soj" last Friday evening accompanied by her aunt, Mrs. George E. C. Seaman, who will visit here a few weeks.

The L'Anse Brick company is piling up several hundred cords of wood near its yard for summer use.

John Dalzell of Detroit is in L'Anse this week collecting water for his lumbering interests of this county.

Harry Work of Watertown, Wis., took orders for candy and called on his friends here Tuesday.

There is more Catarrh in this section of the country than all other diseases put together, and unless the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by E. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure, send for circulars and testimonials. Address, P. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c.

NOT TO BE TRIFLED WITH. (From the Inmate Gazette.) Will people never learn that a "cold" is an accident to be avoided, and that when it occurs treatment should be promptly applied? There is no knowing where the trouble may end, and while complete recovery is the rule, the exceptions are terribly frequent, and thousands upon thousands of fatal illnesses occur every year ushered in by a little injudicious exposure and seemingly trifling symptoms. Beyond this, there are today countless invalids who can trace their complaints to "colds," which at the time of occurrence gave no concern, and were therefore neglected. When a cold is caught use Chamberlain's Cough Remedy. It is prompt and effectual. 25 and 50 cent bottles for sale by The H. H. Stafford Co.

WINTER TOURS TO THE BERMUDAS, 1895-1896: The Duluth, South Shore & Atlantic Ry., have made arrangements whereby they can book winter tourists from any of their stations to the Bermudas at the very low rate of \$50.00 for the round trip. Tickets being good for six months from date of issue. The route is via the direct line to New York by way of Saint Ste. Marie, Montreal, thence via the well known steamers Trinidad and Orleano of the Quebec Steamship Company. This delightful winter excursion trip to Bermudas has no equal. A passenger can leave Marquette on Monday reaching New York Tuesday night, leave New York Wednesday morning and be in the Bermudas Friday. In that short time he effects the wonderful change from a Lake Superior winter to the balmy climate of an island of the southern seas famed for its scenery and clad in the fresh verdure of Spring. First class accommodation can be secured at the principal hotels at rates from \$2.00 to \$3.00 per day and at the leading boarding house at from \$10.00 to \$14.00 per week.

For further particulars of the journey and descriptive matter of the Bermudas, apply to the General Passenger Department of the D. S. S. & A. Ry., Marquette, Mich.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

BIG MUDDY TO IRRIGATE. Plan to Divert Waters of Missouri In South Dakota.

Congress Will Be Asked to Aid in Construction of a Canal Connecting It with the Jira River - Benefits to Be Derived.

The projected plan of irrigating the central portion of South Dakota by diverting the water of the Missouri river into extensive irrigating ditches is gaining friends. Irrigation by means of artesian wells must of necessity be upon a limited scale, and in many localities the water is so thoroughly impregnated with minerals as to be unfit for irrigation. It is claimed by market gardeners that the chemical properties in the majority of artesian wells toughen vegetation and retard growth. Again it has been found that iron sediment from the water soon forms a coating to the sides and bottom of irrigation ditches and prevents absorption of moisture by the adjacent land. These things have been proven to be true.

The contemplated irrigation scheme is nothing less than diverting a portion of the Missouri river flow through the entire state and a portion of North Dakota. With this end in view it is proposed to ask congress to aid in constructing a canal from a point on the Missouri river at or near the town of Washburn to a point on the James river a few miles north of Jamestown. Through this canal it is proposed to turn a volume of water equal to a stream one-third the size of the Missouri. If the project is carried out the plan is to control the flow of water by means of locks and dams, having branch irrigation ditches extending on either side of this great water course, and supplying the adjoining land with abundant moisture over an extensive area. These branches would find an outlet in the various lake beds and creeks and might be turned back into the main canal.

The Missouri river is of no value whatever, except as a drainage canal, and the water taken from this stream for irrigation would scarcely be missed. The cost of constructing the necessary ditches and locks would not be great. Competent engineers have estimated that with an annual tax of one-half cent per acre upon the land thus benefited the interest on the bonds and the expenses of maintaining it would be realized.

WISHES HE'D SOLD HIS FARM.

Illinois Farmer's Vein of Gold Proves to Be Yellow Metal. The section around Pana, Ill., was thrown into considerable excitement ten days ago when it was announced that gold in paying quantities had been discovered on the farm of Charles Baker, six miles south of Pana. Baker, in sinking a well, discovered a four-foot vein of what had the appearance of gold. A guard was placed over the spot by day and night, and Baker was offered 20 times the value of the land for his farm of 40 acres, which he refused. Farmers adjoining his property likewise refused greatly increased prices for their land. Meanwhile a sample of the mineral was sent to an assayer, who returned an analysis to the effect that the mineral is principally yellow mica and contains no gold properties of paying value, in consequence of which Baker and his neighbors are regretful for not selling their property.

BELVA LOCKWOOD SUSTAINED.

Pension Bureau Admits the Famous Woman a Lawyer is Entitled to Her Fee. Mrs. Belva Lockwood, the well-known woman lawyer and ex-presidential nominee, was some time ago alleged to have illegally retained a fee paid to her in the case of a soldier named Benjamin Thompson. On account of the allegation Mrs. Lockwood paid back the fee, but appealed from the action of the commissioner of pensions to the secretary of the interior. Mrs. Lockwood has now received a letter signed by Mr. William Lochren, commissioner of pensions, advising her that her appeal from the action of the bureau in requiring her to "refund \$25 in the case of Benjamin Thompson, deceased," has been decided in her favor and that the money will be returned to her.

Yale Will Enter Henley Regatta.

A conference of the academic and scientific branches of the Yale faculty was held the other day, and it was decided that the request of the university navy management to enter an eight in the Henley regatta in July would be granted. The crew will sail on June 6, before the close of the semiannual examination, in order that they may become acclimated before the race on the Thames.

American Cars for Africa.

The J. G. Brill Car company of Philadelphia has obtained a big contract for trolley cars for Cape Town, South Africa, against the competition of the world. The firm will build the cars, furnish the motor, electricity engines, pumps and condensers and erect the power-houses. The contract calls for 26 cars.

Chesapeake Oysters.

Fifteen years ago Maryland and Virginia furnished from the Chesapeake 10,000,000 of the 26,000,000 bushels of oysters eaten by the people of the United States. This year they will not furnish more than 5,000,000 bushels, and the largest oyster territory in the world diminishes in its productiveness each year.

The Pope's Pearl.

Sixteen thousand pounds is the figure that it is approximated the pope's pearl would bring. One of Leo's predecessors became possessed of it in a manner which has not been told, and it has descended in a regular course.

Rests the Tired Brain

Hood's Sarsaparilla Gives Nerve Strength and Bodily Health

Hood's Pills are "Much in Little." "I have used Hood's Sarsaparilla and Hood's Pills for many years and consider them the best on the market. Hood's Sarsaparilla has given me health and strength from time to time when tired and worn out from overwork and the worry of business. It has purified my blood, toned my nerves, and rested my tired brain by restoring sleep and invigorating my entire system. Hood's Vegetable Pills are much in little. I use no others. They invigorate the liver to healthy action, act gently on the bowels,

Hood's Sarsaparilla Cures relieve sick headache and indigestion, and thus assist tired nature to remove disease and restore health." J. M. CROCKER, 1419 Rhode Island Avenue, Washington, D. C.

Funeral Director and Practitioner Embalmer. Charles A. Hager, 118 South Front St. Telephone 6. W. Hager's residence.

Communications for this Department should be addressed to C. A. FOSS, Houghton, Mich.

**AFTER HIS ALLEGED SPOUSE.**

Thomas Clifford of West Superior Again Pays Copperdom a Visit.

The train which pulled out of Houghton for Calumet Tuesday afternoon carried lots of trouble with it wrapped up in the personality of one Thomas Clifford, who, with his little eight-year-old son, had come up to the copper country all the way from West Superior to try to induce the woman he claims to be his erring wife to come back to her own fireside and the bosom of her family.

The rest of the trouble lay at the other end of the line, where, tied by bonds as strong as a Houghton county marriage license coupled with the services of a minister could make them, the alleged erring wife is now the better half of a man named Brown, who is in the employ of Dave Kingston, the butcher at Calumet.

Clifford's story, or at least part of it, has appeared in the copper country papers once before. He is a brick-maker by profession and an Englishman, of intelligent and cultured appearance, and dresses well. Some weeks ago he came up here on the same errand which at present engages his attention, but his mission proved futile.

Seated in the rear yesterday, he poured out the story of his wooing to the care of THE MINING JOURNAL representative, and this time there was a grim determination expressed in the lines about his mouth and in the flash of his steel blue eyes which showed that he did not propose to be balked again if his own efforts to right matters could prove of avail.

"Are you going to seek an interview with Mr. Brown?"

"No, I want to see my wife and have asked Mr. Streeter, your prosecuting attorney, to be present at the interview, but he has told me that he does not care to interfere in the matter. I want her to give up living with this man Brown, to whom she is bound neither by ties of law nor duty, and come home to her children. If she will not do this, I want her to go to Scranton, Pa., to her mother and stay with her."

"Shall you institute legal proceedings?"

"Not until my other resources fail, but when they do I shall sue the people up here that I have the law on my side and can use it."

"How did your wife come to leave you and go with Brown?"

"How can any man get control of a poor, weak minded woman? By taking out his money and showing it to her. There are four or five prominent men in Superior and Duluth who knew of Brown's intentions and I know that they were parties to a conspiracy which spirited my wife away from me."

At Calumet Mr. Clifford left the train and went directly to a boarding house, while THE MINING JOURNAL representative walked up the street to Mr. Kingston's place of business and there found Mr. Brown.

The latter showed no signs of uneasiness when the information concerning Mr. Clifford's mission and whereabouts was broached to him. On the contrary Mr. Brown smiled broadly as he commented:

"That fellow is either a fool or else there's something wrong with his head."

"Yes?" inquired his interrogator.

"He came up here once before on this same mission and my wife told him plainly that she was through with him and wanted nothing more to do with him. She never was married to him and he has no claim in the world on her. I married her legally here in Houghton county. I am tired of his annoying efforts to destroy my wife's happiness and I don't think it would be pleasant for him to call here."

The concluding chapter of this story may be found in our next issue and it may not. All depends upon Mr. Clifford.

**THE TAILOR WANTS HIS DUE**

His Scheme Was Clever, but So Were the "Boys"—A Unique Case.

Tomorrow morning in Judge Carter's justice court at Calumet a test suit will be brought, under the title of Michael Johnson vs. Homer Demarais, which will be one of a series providing the nice legal point to be brought up will carry in favor of the plaintiff. The history of the suit is a peculiar one and runs as follows:

Johnson is a tailor doing business in Calumet. During the long winter months when business was dull he conceived the unique idea of selling suits on the lottery plan. Accordingly he had drawn up articles of agreement for the organization of what he termed a "suit club." By the provisions of this agreement the club was limited to fifty members. Fifty suits were then made up by Johnson at a value of \$25 apiece. Each member of the club then bonded himself to pay into the treasury one dollar every week until he drew a suit, when he was to drop out. A drawing for a suit took place every week and the limit of the amount to be paid for a suit was fixed at \$34 for all who had not drawn suits at the close of the thirty-fourth drawing.

Everything looked lovely to the tailor and the club members seemed enthusiastic over the scheme, especially those who were so lucky as to draw their suits early in the lottery at the expenditure of only a few dollars. Then the trouble began to brew. Certain of the members who had paid their dues for five or ten weeks came to Mr. Johnson and suggested that they didn't relish the idea of waiting until spring perhaps for their suits and that if they would keep on paying their dollars into the treasury weekly until their number was drawn and they might stop. Trusting in their promises Mr. Johnson allowed this, and over \$600 worth of suits went out in this way.

Then came the denouement. Having

gotten the suits the defendant, it is alleged, together with a number of other members, coolly told Mr. Johnson to go to a warmer climate to collect the balance due him—informed him that he was running a lottery in violation of the statutes made and provided, and suggested that if he valued his right to vote and pay poll taxes he had better keep quiet and look out for falls.

But Mr. Johnson wasn't to be squelched in that manner. The boys had his suits and he wanted his money, even if he had to run the risk of going to jail to get it. Hence the suit in Judge Curtis' court today. The attorneys for the plaintiff are Larson & LeGendre and their method of procedure involves the delicate point in law mentioned. They will sue in trover for the conversion of the suits—that is, they will set aside entirely the contract of the lottery scheme, and seek to recover only on the goods sold and delivered at the uniform price and value of \$25 a piece. If they are defeated in justice court they will make an effort to get the matter lit in circuit court. The defendant has retained W. J. McDonald as his attorney.

**HAD TRIED IT ONCE BEFORE.**

Mrs. Hahn Evidently Meant Business in Recent Shooting Scrape.

It will be remembered that when Attorney Streeter was asked why he did not prosecute Mrs. Hahn for shooting her husband at Laurium some days ago, Mr. Streeter replied that after an investigation he was satisfied that the affair was only a trifling marital difficulty; that the shooting was done simply in the spirit of dare-devil fun, and that Hahn himself did not consider the matter of consequence enough to have his wife prosecuted. Said a prominent citizen of Calumet to THE MINING JOURNAL yesterday:

"To let that woman go is a terrible mistake. She meant business when she fired those shots into her husband out of that little 22-revolver and she means business yet, I believe, if she ever gets the chance. An incident which Hahn himself told me not long ago shows that the woman is a dangerous person and desired to get rid of her husband."

"Some two or three weeks before this shooting incident at Laurium occurred, and when Hahn and his wife were getting ready to separate and move out of the house in which they had been living, he came home one evening and just as he opened the door his wife confronted him with a large revolver. She aimed it directly at him and pulled the trigger but the cap simply snapped. Hahn then wrested the gun away from her and put the woman out of doors. He was thoroughly frightened and when his scare had abated somewhat, he proposed to two or three men who were in the house at the time that they go out into the yard and see whether the gun was really loaded. At the first pull of the trigger there came a deafening report and a bullet crashed into the ground. Another and another shot was fired until every one of the five chambers was proven to be loaded, including the one which Mrs. Hahn had at first tried unsuccessfully."

The gentleman referred to will vouch for the fact that Hahn had told this to him.

**IT'S THIRD IN THE STATE NOW.**

The Hancock Y. M. C. A. as Result of the Contest—The Banquet.

The contest which had been raging for the past three week between the Reds and the Blues and the Pinks and the Whites of the Hancock Y. M. C. A. ended Saturday, and the climax was reached Tuesday night, when the beautiful building of the Y. M. C. A. was opened to receive its guests, fully 1,000 of whom responded to the invitations to the banquet given by the older members to the new ones. As the result of the contest the present membership of the association is now 915, giving it rank third in the state.

The building was beautifully decorated throughout with the four contesting colors, drapes and festoons most artistically. But the electric light acted very badly. It coquetted shamefully, winking and blinking and occasionally playing hide-and-seek by disappearing, leaving the building in total darkness several times. While the management could not control this feature, President Stringer showed himself a born controller of crowds, and everything passed off satisfactory—even in the dark.

Four long tables were set in the hall, seating in all 200 at one time. They were also decorated with the four colors and an abundance of flowers—carnations, principally—ferns and trailing vines, and laden with good things prepared by the members of the Ladies' Auxiliary. It was quite amusing to watch the defeated Blues and Pinks wait on the guests but they did it gracefully.

After those at the first table had finished eating and before leaving the table they were treated to an original poem by Professor Daley McCone, principal of the Houghton High school. After the third table had finished, Professor G. T. Whalen of Franklin, the orator of the evening, delivered a spirited address, eulogistic of the beautiful home provided for the young men in the form of the Hancock Y. M. C. A. Following Mr. Prince, the photographer, then took a flash light view of the scene. Music was furnished for the occasion by the Quincy band.

**ASPHYXIATED BY GAS.**

Two Red Jacket Citizens Meet Death in a Hotel at Boston.

Tuesday noon Marshal Ward of Red Jacket received a telegram from the chief of police at Boston, to the effect that one George Roamba of Red Jacket had been asphyxiated by gas where the latter was stopping. Later advices received by Mrs. Roamba brought the additional intelligence that besides her husband, Abram Heitonen, also of

Red Jacket, had met the same fate as Mr. Roamba. Details are meagre at present writing, but there is no doubt that the death of the two men was due either to carelessness on their own part or defect in the plumbing in their room.

Mr. Roamba was one of the best known citizens of Red Jacket, being pastor at the time of his death of the Apostolic Finnish Lutheran church. He was what is known as a lay pastor or evangelist and on last Monday left Red Jacket for Massachusetts to do some evangelical work there among his Finnish brethren. He was accompanied on this trip by Abram Heitonen, who lived on a farm near Swedeton and also had considerable reputation as a successful local evangelist. The untimely death of the two pastors has thrown the Finnish community at Red Jacket into mourning, for the dead men were leaders among their people there.

**Obtaining Many Signatures.**

THE MINING JOURNAL representative was shown the petition yesterday which is now being circulated throughout the county urging the calling of a mass meeting to discuss new railroads for the copper country. On Tuesday the petition was sent over from Hancock to Calumet. In the evening it was passed on to Laurium. Yesterday it was being circulated in Houghton and today it will be passed on to Lake Linden. Its language is as follows:

"The undersigned business men of Houghton county, Michigan, believing that the common interests of this county would be greatly promoted by the construction and operation of a competitive railroad to its principal towns and that its population and resources now fully warrant an immediate and favorable extension of their present systems on the part of the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul, the former road now being within sixty miles and the latter within forty miles of Houghton, the county seat, do hereby extend a call to all of the business men of Houghton county to meet at St. Patrick's Hall at Hancock on Thursday, March 19, 1896, at 2 p. m. for the purpose of considering what encouragement may be offered to either of the above named companies to extend their roads to Houghton during the present year. It is earnestly hoped that every business man in Houghton county who sympathizes with this movement will endeavor to be present at this meeting."

When last seen the petition bore the signatures of many prominent business men.

**"Damon and Pythias" Tonight.**

E. R. Penberthy, of the Houghton K. P. lodge, under whose auspices the play of "Damon and Pythias" will be presented at the Armory tonight, has received word from Manager Hibbard of the Mineral Range railroad that a round trip fare of seventy-five cents will be made to Houghton from Red Jacket, Laurium and Oseola; fifty cents from Lake Linden for the night train of the 12th, returning on the morning of the 13th; and one fare from L'Anse and Baraga and return. A large turnout is expected tonight and it may be well to state here that the proceeds of the entertainment go towards a worthy and charitable purpose.

**Evidence Against Clayton Weak.**

Prosecuting Attorney Streeter was again asked yesterday what would be done in the Clayton case. "I think nothing can be done with the man," he replied. "That is, on the evidence presented at the inquest and so far as I know nothing further concerning the man has or can be learned. He is a man without a family and absolutely nothing is known about his past life up to the time he came to Milwaukee. I shall give him an examination, of course, but I do not expect it to bring forth sufficient material upon which to base charges for any grave crime."

**COPPERDOM BREVITIES.**

Will Calverly of Houghton is expected home from the east this week.

A. M. Schulte of Dollar Bay left yesterday for a brief visit in Chicago.

Colonel Smith of Calumet left yesterday for a visit to Detroit, Milwaukee and other points.

Edward Langdon, son of the high school janitor at Houghton, is lying dangerously ill with consumption.

Evangelists Kerr and Johns will continue their services at the Calumet Methodist church for another week.

Browne's Theatrical company will present "Michael Strogoff" at the Red Jacket Opera House Saturday night.

H. Stuart Godell, of the Keweenaw clubhouse, is at the head of a movement to organize Pingree clubs in the villages of the county.

Arrangements are being made to have Dr. Lane of Houghton address the congregation of the Portage Lake Baptist church next Sunday.

The many friends of Mr. H. Hadley, formerly of Houghton, will be pleased to learn that he is rapidly convalescing after a second severe operation undergone in Chicago.

Senator John J. Ingalls will appear at the Red Jacket Opera House, Wednesday evening, March 13, in the last of the series of five attractions in the Y. M. C. A. course.

Byron W. King, the famous elocutionist and dramatic reader of Pittsburgh, will appear at the Congregational church, Calumet, Friday evening under auspices of the Christian Endeavor society.

The date of Phea's appearance at the Armory Opera House, Houghton, has been changed to the 11th, in deference to the annual ball to be given by the Mining school students on the evening of the 10th.

The annual meeting of the Onigaming Yacht club will be held sometime in the latter part of this month. The enlarging of the club's present quarters will be the most prominent subject up for consideration.

On the evening of March 25, a "Milkmaid's Convention" will be held at the Calumet Presbyterian church, to which the public is invited. The proceeds will go towards the purchase of a new Sunday school library.

**THIS KIND OF A BOTTLE**

is all right in a nursery. But what you want is a bottle of the SUPERIOR STOKK beer of the Bosch Brewing Co. It enriches your blood, and makes all the world seem brighter to you. All dealers sell it.

REPUBLICANS LOSE A VOTE

Unseated Kaufman in House but Their Democratic Friends in Upper Branch Retaliate.

SENATORS JAMES AND WALTON ARE BOTH OUSTED.

Prospects Now Kentucky's Legislature Will Not Elect Senator This Session—Quorum Breaking the Scheme.

EXCITEMENT AT FRANKFORT.

FRANKFORT, Ky., March 11.—This day—the eleventh of March, 1896—will be unforgettably memorable in the history of Kentucky state politics.

At one time the explosive point was almost reached. That point would doubtless have been reached if the Republicans had attempted to force the unseated senators into the joint assembly meeting.

Within the hall joint assembly matters made the run more smoothly by the ruling of Speaker Worthing that each house should call the roll for a vote of the house.

A mistake by the Republicans in the senate was made when they walked out and refused to vote when the question of declaring of Senators Walton and James ineligible to seats in the senate came up.

FRANKFORT, Ky., March 11.—The house of a solid Republican vote today unseated Kaufman (Dem.).

DUNLAP WON'T TAKE THE SEAT. LOUISVILLE, March 11.—A special to The Post from Frankfort, Ky., says: W. G. Dunlap, who last night withdrew his contest for the seat of Representative Kaufman, returned to Frankfort today and was immediately besieged by friends of the Republican senatorial nominee.

CHICAGO MARKETS. Grain and Produce. CHICAGO, March 11.—The leading grain futures ranged as follows:

Table with columns: Opened, High, Low, Closed. Rows for Wheat, Corn, etc.

Cash quotations were as follows: Flour, unchanged. Wheat, steady; No. 2 spring, 63 1/2c.

RECEIPTS—Flour, 9,000 bbls.; wheat, 98,000 bu.; corn, 346,000 bu.; oats, 525,000 bu.

SHIPMENTS—Flour, 6,000 bbls.; wheat, 74,000 bu.; corn, 65,000 bu.; oats, 283,000 bu.

METAL PRICES. New York, March 11.—Pig iron, quiet; Southern, \$11.25@13.25; Northern, \$11.50@13.50.

COPPER STOCKS. Boston, March 11.—The following closing prices of copper mining stocks were reported by F. W. Prescott & Co., Ames building, Boston.

Aloues, 19 25; Atlantic, 19 25; Boston & Montana, 77 50; Butte & Boston, 1 75; Calumet & Hecla, 305 00; Centennial, 1 00; Franklin, 15 00; Kearsarge, 13 00; Osoola, 30 00; Quincy, 128 00; Tamarrack, 110 00; Wolverine, 7 50.

NOT TIME FOR HASTY ACTION.

think—we had better hold out peace if we do not like it and go on with the negotiations.

OHIO SOLID FOR M'KINLEY.

Factional Differences Seemingly Lost Sight of at the Republican Convention.

THE MOST HARMONIOUS MEETING IN YEARS.

Leaders' Plans Are Slightly Knocked Out by the Nomination of Charles Kinney for Secretary of State—The Platform.

'T'WAS A BIG M'KINLEY RALLY. COLUMBUS, O., March 11.—The Republican state convention was more of a McKinley rally than the usual party business assembly.

It was claimed yesterday that the old factional lines were being drawn into the contest between Kinney and Doty.

When the convention was called to order the reports of the committees on credentials and rules were received and adopted.

IT WILL NOT ACT HASTILY.

The Power and Lighting Commission Not in a Hurry to Purchase Machinery.

FOR TWO WEEKS LONGER BIDS WILL BE RECEIVED.

A Junket to Chicago and Other Points Likely to Be Made in Order That the Best Equipment May Be Secured.

ALD. TOBIN TALKS INJUNCTION.

The power and lighting commission, though it now has ample authority to put in all the additional machinery it needs, is not disposed to act hastily in letting the contract, at least such was the sentiment at an informal meeting yesterday morning when it was decided not to take action until about two weeks hence.

It was practically settled yesterday that, because of the fact that a better conclusion could be reached by inspecting the various machines suggested, several commissioners visit the works of the competing companies and thereby be better able to decide which should be selected for the use for which it will be needed here.

Alderman Tobin has not yet abandoned his opposition to the purchase of the machinery in the manner proposed, notwithstanding his two defeats in the council. He stated yesterday that he did not believe that the council had the right to appropriate from the general fund for the purchase of equipment for the power and lighting commission, and he intimated that an injunction might possibly be obtained against the transfer of any money from the general fund to the commission.

FOR SALE - SPECIAL BARGAINS - Lots with and without buildings; desirable location; suitable for business; any reasonable offer accepted; easy terms. Apply A. J. A. Wallen, 217 W. Michigan St. (3-8-96)

DID YOU EVER

stop to think that the medicine you take to restore your health should be of the highest grade and mixed with accuracy? No? of course. Your physician tries his best to cure you and your druggist must co-operate with him by giving you the best drugs the market affords and by exercising the greatest care in compounding them.

Honesty, Accuracy and Dispatch is our Motto.

T. Coderre Pharmacal Co. (2-18-96)

buttal and was still under direct examination when court adjourned for the day. The case is not likely to go to the jury before Friday, and possibly Saturday.

COMMON COUNCIL PROCEEDINGS.

OFFICIAL. A special meeting of the common council of the city of Marquette was held in the council chamber on Monday, the 9th day of March, A. D., 1896, Mayor Jacobs presiding.

There were present Aldermen Brown, Blanchard, Hoch, Hoag, Kreig, Pendill, Rossetter, Robertson, Schoch, Sherman, Stafford, Shea, Tobin and Vandenberg. Alderman Carney appeared later and took his seat.

The recorder read the call for the special meeting of the common council at this time, stating its object, and presented affidavit showing due and timely service of notice of said meeting on all of the aldermen of the city, which notice and affidavit were duly filed.

Alderman Sherman moved the adoption of the following resolutions, which was supported: Resolved, That under the authority of Section 15 of Chapter 7 of the charter for the purpose of procuring money for the municipal improvements and for the general purposes of this city the bonds of the city of Marquette be issued in amount not exceeding the sum of ten thousand dollars in denominations of five hundred dollars, dated March 9, 1896, to be due and payable within ten years after date with interest payable semi-annually at a rate not exceeding 6 per cent. per annum, said bonds to be executed by the mayor and recorder and countersigned by the controller, and

Resolved, That the mayor and controller be and they are hereby authorized to negotiate and sell said bonds at the best rate obtainable not less than par and accrued interest and deliver the same on the certificate of the city treasurer that the purchase price of same has been paid into the city treasury.

Resolved, That the proceeds of the sale of such bonds be placed to the credit of the general fund.

After discussion the aforesaid resolutions were adopted by the following vote: Ayes - Aldermen Brown, Blanchard, Hoch, Hoag, Kreig, Pendill, Rossetter, Robertson, Schoch, Sherman, Stafford, Shea and Vandenberg. Nays - Aldermen Carney and Tobin.

The council then on motion adjourned. THOMAS MEADS, Recorder.

SUED FOR PRICE OF COFFIN.

Judge Thompson Orders One for Himself and Releases It When Done.

For the first time on record in West Virginia a man has been sued for his own coffin, and defended the suit himself. The defendant is Judge W. P. Thompson, for eight years treasurer of the state, the present judge of the criminal court of Cabell county, and one of the most prominent democrats in the state, while the plaintiff is ex-Mayor Dickey. Judge Thompson has had an elaborate and costly tomb built for the ultimate reception of his body, and ordered a casket from ex-Mayor Dickey, now an undertaker. The casket was not delivered when specified, and Thompson bought another. When Dickey delivered the coffin it was refused, and suit followed. Thompson defended his own case and won it.

PAYS \$10,000 FOR CARNATION.

New York Florist Buys the Exclusive Right to a Michigan Plant.

A New York florist, for the sole right to the famous double carnation known as the "Murella," has paid its discoverer \$10,000. The flower has been raised and owned entirely by a firm owning a large greenhouse near Reed's Lake, Mich. The senior member of the firm has been engaged in the cultivation of flowers, and has bred many peculiar species. The "Murella" is one of the most beautiful carnations ever seen, being very large and of a deep red color. He has been working upon it for many years and brought it out only last year. After taking several prizes at floral shows he began to receive offers from prominent florists about the country.

Simon S. Hartman, of Tunnelton, West Va., has been subject to attacks of colic about once a year, and would have to call a doctor and then suffer for about twelve hours as much as some do when they die. He was taken recently just the same as at other times, and concluded to try Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says: "I took one dose of it and it gave me relief in five minutes. That is more than anything else has ever done for me." For sale by The H. H. Stafford Co.

RHEUMATISM CURED IN A DAY.

"Mystic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and systematic. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits; 75 cents. Sold by Frank Pendill, Druggist, Marquette. (1-28-96)

SPECIAL SUNDAY RATES TO MARQUETTE.

Commencing Saturday September 28th, the D., S. S. & A. R'y will sell Sunday excursion tickets to Marquette and return from the stations named below at the following low fare:

Table with 2 columns: Station Name and Fare. Sand River... \$ .50, Onota... .75, Rock River... .75, Au Train... 1.00, Munising Junction... 1.25, Wetmore... 1.50.

SUNDAY TRIPS.

TO THE QUEEN CITY OF THE UPPER PENINSULA. The D., S. S. & A. R'y have on sale Sunday excursion tickets to Marquette and return at the following very low fares:

Table with 2 columns: From Station and Fare. From Eagle Mills... \$ .30, " Negaunee... .50, " Ishpeming... .50, " Humboldt... .75, " Republic... .75, " Champion... .75, " Michigamme... .75, " Nistoria... 1.25.

Tickets are on sale on Sundays only; are good on all passenger trains; but are valid going and returning only on date of issue. The train which now leaves Marquette at 5:30 p. m. for Republic will make these Sunday trips more popular than ever, as excursionists will be able to spend the entire day in Marquette and reach home at a reasonable hour the same evening. (5-19-96)

You Needn't Look immediately for the damage that dangerous washing compounds do. It's there, and it's going on all the time, but you won't see its effects, probably, for several months. It wouldn't do, you know, to have them too dangerous. The best way is to take no risk. You needn't worry about damage to your clothes, if you keep to the original washing compound—Pearline; first made and fully proved. What can you gain by using the imitations of it? Prize packages, cheaper prices, or whatever may be urged for them, wouldn't pay you for one ruined garment.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearline is never peddled; if your grocer sends you an imitation, be honest—send it back. 365 JAMES PYLE, New York.

# Trout Creek Lumber Co.,

TROUT CREEK, MICH.

## LUMBER, LATH and SHINGLE.

Short Length, Quarter Sawn Bevel Siding or Clapboards.

IT DOES NOT WARP AND IS CHEAPER than ordinary bevel siding, and is just what a farmer or mechanic requires for an economical building. Our cheapest grade, to introduce into local consumption, we will deliver at stations on the D., S. S. & A. R'y, at the low price of \$10 per thousand feet surface measure. If you are thinking of building correspond with us and get a sample by mail.

### Military Road Lands

Belonging to the Estate of James C. Ayer 174,000 Acres for Sale or Lease

200,000,000 Feet of Pine Tributary to the Ontonagon and Sturgeon River and the D., S. S. & A. and Milwaukee & Northern Railroads.

Hemlock, Cedar, Poplar, Hard and Soft Wood for Charcoal and Cordwood.

Agricultural Lands equal to the best in the Northwest. NEW YORK OFFICE—F. A. AYER, Mills bldg. Bank building, Shattuck St. For further particulars apply to W. W. MANNING, Agent, Marquette

### Munising R'y Time Table No. 2.

Table with 2 columns: Train No. and Time. Includes details for trains 1, 2, 3, and 4, with departure and arrival times for various stations.

If You Are Going Anywhere South This Winter Louisville & Nashville R. R. You should write and get correct information in regard to the facilities offered by the

Sleeping Cars. The northern peninsula of Michigan is accessible by sleeping car connections from Detroit or by telegraph.

HOMES IN THE SOUTH Can be secured on most liberal terms and at low rates. Write for County Map of the South to either of the above named gentlemen, or to P. SID JONES, Pass. Agent, Birmingham, Ala.

Glass Works, Proprietors, and Importers of Washed Plate Glass, and Mirrors.

# In and About Negaunee.

## THEY WANT TO KNOW.

Negaunee Pythians Will Explore the Mysteries of Mahassan Temple. Several members of Negaunee lodge, Knights of Pythias, will make application for membership in Mahassan temple of the Dramatic Order of the Knights of Khorassan, which was recently instituted at Marquette. It is understood that several members of the Knights of Pythias at Ishpeming and in the copper country will also join the new order, and a special meeting of Mahassan temple will be held for the admission of the candidates on the 27th inst. It is quite likely that a special train will be secured over the South Shore line for the accommodation of the copper and iron country knights. The candidates her look forward to the meeting with pleasurable anticipations. The Knights of Khorassan have no connection whatever with the Pythian order, although only members of the latter organization are admitted to it.

## SHOULD PACK THE HOUSE.

Cheap Prices Made for Washington Gardner's Lecture. The members of the English Oak lodge, Sons of St. George, of Negaunee, have decided to sell the tickets for the lecture to be given here by Secretary of State Washington Gardner, on the evening of Good Friday, April 3, at fifteen, twenty-five and thirty-five cents. The latter price will be for reserved seat tickets. Considering the large sum the lodge is to pay Mr. Gardner the price of the tickets is very reasonable, and the opera house should be filled to the doors that evening. The tickets will be placed on sale within a few days.

## Will be Here Tuesday.

The James H. Browne Dramatic company will be in Negaunee next Tuesday, the 17th, and will produce the pleasing melo-drama, entitled "Hearts of New York" that evening. This is one of the strongest plays in the company's repertoire and all who can possibly attend should be present to see it. Mr. Browne's agent will be here today or tomorrow to begin billing the town.

## Will Wait for the Drive.

A number of the men who have been working in the woods at Swanzy and other points west of here have been gathering in town the past few days. They will remain here until the break-up, when they will go on the drive.

## BALLOONING WITH A LION.

A Daring French Countess Will Do This to Benefit Sick Soldiers. A young and attractive woman in Paris, who is said to be a countess, proposes to go from Marseilles to Paris in a balloon with a lion as her companion. She is what they call in France a "d'omptese," this translated into English meaning a "lady lion-tamer," and this extraordinary performance is to be for the benefit of the sick soldiers who have survived the Madagascar expedition.

It is by no means certain, however, says the New York World, that she will be able to make this unique trip. A few nights ago she had a dangerous adventure in her wild beast cage. She had scarcely closed the door when Tzar, the most savage and ferocious lion of the lot, sprang at her and clawed her in the breast and arms. A panic ensued in the menagerie, and a rush was made for the entrance, but the brave countess stood her ground untrifled and managed to beat the lion off. Then she straightened herself up and made Tzar go through his usual performance. The panic was allayed and the spectators began to wildly applaud the courageous woman.

## Columbia Bicycles

The Journal accordingly bought ten Columbias, paying \$100 each for them, without discount or rebate. On even terms a few will choose a bicycle other than the Columbia

## HEIRLOOMS OF NOBILITY.

Discovery Made by the Inheriting Niece of a Michigan Man. Gerrit Metzging, an eccentric old man, who lived at Fillmore, Mich., went to Holland last summer and drew up a will, leaving all his property to his niece at Allegan. He died in August, and the niece took possession, according to the provisions of the will. She was much surprised the other day, when she was rummaging an old secretary, to find a secret compartment in which was over \$1,800 in gold and paper money. Besides this, there were three solid gold head dresses for women. One was richly engraved and bore the crest of some noble house in the Netherlands. There were also rich old brooches, earrings and three sets of silver shoe buckles. The niece will endeavor to trace out the owners of the crest engraved upon the head dress.

## Marvelous Results.

From a letter written by Rev. J. Gundersman, of Dimondale, Mich., we are permitted to make this extract. "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at E. Farnham's Drug Store. Regular size 50c. and \$1.00.

## Dr. Price's Cream Baking Powder

World's Fair Highest Medal and Diploma.

## LOCAL LAOCONICS.

Barney Goodman spent Sunday in Negaunee. William Manley was up from Escanaba yesterday.

The funeral of Mr. and Mrs. E. W. Adams' little son John was held yesterday afternoon. Marshal Rough went to Turin Tuesday for three orphans whom he took to the poor house at Marquette.

Very encouraging reports are received from Thomas Pellow, who went south a few weeks ago for the benefit of his health.

Mrs. Thompson, the dressmaker, will open parlors in the Kirkwood block next week. She will occupy room 9, second floor.

L. A. Girard, who operates the sawmill at Little Lake, was in town yesterday. He has finished operations in the woods there.

Charles Jolibois, who has had charge of a logging camp for Mann Bros. at Swanzy during the winter, has returned to Negaunee.

George Maas, who has been slightly under the weather since his return from Mansfield last week, is around again and is feeling quite well.

Mr. and Mrs. Stephen Donnetten's baby boy, aged eight months, died Tuesday. The funeral will be held this afternoon at 2 o'clock.

Wilford Bousche, who has been conducting logging operations at Little Lake all winter, arrived in the city yesterday. He has finished up his work there and expects to remain here some time.

J. E. Thather of Detroit, special agent of the Phoenix Life Insurance company of Connecticut, has been in Negaunee the past few days. He and F. M. Beney, local agent of the company, did business at Michigamme yesterday.

## BACTERIA IN GRAIN.

Germany's Excuse for Excluding Foreign Cereals. And now bacteria has been found in grain, and in vast numbers, too, according to a report to the state department from United States Consul Stephen at Annaberg. The German agrarians, always on the lookout for any plausible pretext to keep out foreign competition, hailed with delight the news that Prof. Heinrich in Bostock had found numerous bacteria in Russian and Roumanian grain, which were the more deadly, as they could not be killed even by the heat of the oven.

The matter was brought to the attention of the reichstag, when it presently appeared the German government had already been making an inquiry. The director of public health reported that 16 German and 17 foreign samples of grain had been examined for bacteria. The purest was the American; then came Moravian, Bohemian and Hungarian barley; the most impure was Turkish rye.

In one gramme of German wheat 14,000 to 230,000 bacteria were found; in Russian, 250,000 to 300,000; in La Platta wheat only 5,000. A sample which showed 850,000 bacteria in Rostock showed 14 days later in Berlin only 150,000, so rapidly does the germ disappear. As regards the character of these bacteria, such as would endanger health, were not found in a single sample, so the grain is absolutely harmless. Even the worst bacteria are destroyed by the heat of the oven.

## A PLUCKY LITTLE FELLOW.

Remarkable Conduct of a Boy Whose Legs Had Been Cut Off by the Cars. A remarkable exhibition of pluck was displayed the other night by ten-year-old Edward Seaman as he lay on the tracks of the Lehigh Valley railroad near the Frelinghuysen avenue crossing at Newark, N. J., with both legs cut off. He had just been run over by an engine, and, seeing a train approaching, shouted to his companions, who were a few yards away: "Hurry up, fellows; help me off, or I'll get hit again."

The other boys were almost paralyzed with fear when they saw what had befallen Eddie, and appeared to be riveted to the ground until he shouted again for them to hurry. This brought them to their senses, and they lifted the unfortunate lad to the side of the track just as the train sped past.

Help was promptly summoned and little Eddie, still conscious and without uttering a whimper, was placed in the police ambulance and taken to St. Barnabas' hospital. When placed on the operating table he eyed the surgeons until drugs closed his eyes. The mangled stumps were then dressed and Eddie was placed on a cot, where at last accounts he was doing remarkably well.

The hospital authorities said it was the most remarkable exhibition of pluck they had ever witnessed. Eddie is the son of poor parents, and with his companions was picking up coal when the accident occurred.

IMPROVED BLOOD causes that tired feeling. Hood's Sarsaparilla purifies, enriches and vitalizes the blood, giving new life and increased vigor and vitality.

Hood's Pills are easy to take, easy to operate. Cure indigestion, biliousness, headache.

All last winter Mr. Geo. A. Mills, of Lebanon, Conn., was badly afflicted with rheumatism. At times it was so severe that he could not stand up straight, but was drawn over on one side. "I tried different remedies without receiving relief," he says, "until about six months ago I bought a bottle of Chamberlain's Pain Balm. After using it for three days my rheumatism was gone and has not returned since. For sale by The H. H. Stafford Co."

## The World's Fair Tests

showed no baking powder so pure or so great in leavening power as the Royal.

## GODDESS OF LIBERTY.

Original of Profile on Every Silver Dollar Is Soon to Marry.

Interesting Story of How the Classic Features of Miss Anna W. Williams Came to Adorn the Big White Metal Coin.

The announcement that the Goddess of Liberty is about to be married has aroused new interest in the woman whose face is known to more people than that of any other woman on the American continent. Every man, woman or child who has a silver dollar carries the handsome profile of the Philadelphia school-teacher, Miss Anna W. Williams. Her classic features have been stamped upon millions of the silver disks.

It is 20 years since the pretty blonde girl became world-famous. It was then stated that Miss Williams' profile was the original of the Goddess of Liberty on that much abused, much admired and equally much disliked Bland silver dollar. The friends of the young woman placed every obstacle in the way of possible identification, but failed in their object. The story of how Miss Williams came to be the Goddess of Liberty may be retold, now that it is said she is soon to become a bride.

In the early part of 1876 the treasury department secured, through communication with the royal mint of England, the services of a clever young designer and engraver named George Morgan. Upon his arrival in this country Mr. Morgan was installed in the Philadelphia mint and was assigned the task of making a design for a new silver dollar. After many months of labor the young engraver completed the design for the reverse side of the coin, upon which he represented the American eagle. His attention was then turned to the other side, and his original inclination was to place on it a fanciful head representing the Goddess of Liberty. But the ambitious designer was too much of a realist to be satisfied with a mere product of fancy. Finally he determined the head should be the representation of some American girl, and forthwith diligently searched for his beautiful maid.

It was a long search, although pleasant. He told his friends of his desire, and one of them spoke of the really classic beauty of Miss Anna Williams. The English designer was introduced to the girl. Mr. Morgan was at once impressed by her beautiful face and studied it carefully. Then he told her what he desired and she promptly refused to permit herself to be the subject of the design. Her friends, however, induced her to pose before an artist. After five sittings the design was completed.

Mr. Morgan was so enthusiastic that he declared Miss Williams' profile was the most nearly perfect he had seen in England or America. His design for the Bland dollar was accepted by congress, and so the silver coins have been pouring from the mints all these years adorned with the stately face of a Quaker city maiden.

Miss Williams is a decidedly modest young woman. She resides on Spring Garden street, not far from the school house, in which for years she has been employed as an instructor in philosophy and methods in the kindergarten department. She is slightly below the average height, is rather plump, and is fair. She carries her figure with a stateliness rarely seen and the pose of the head is exactly as seen on the silver dollar. The features of Miss Williams are reproduced as faithfully as in a good photograph.

## WRIGGLING

Like a Snake the Boy Shed His Skin—A Perfect Cast of His Form.

The case of John Allen, an eight-year-old boy of Lake City, Fla., is puzzling the physicians. Six weeks ago an orange thorn penetrated the boy's hip, inflammation followed and the boy was soon horribly swollen from head to foot. Finally the swelling subsided, but the boy immediately began to shed his skin. That on the face came off separately, but from the neck down the cuticle remained intact and moved off by way of the hands and feet without breaking. The cuticle was five days in passing off, and during that time the boy remained on the bed wriggling like a snake at molting time. The child seemed to be in no pain, but complained of a tickling sensation and of a crawling of the flesh. When the cuticle had been shed the boy immediately recovered, and is now as well as ever. The skin which was shed is on exhibition at a physician's office. It is a perfect cast of the human form from the neck down, and is about the consistency of hard glue, which it much resembles.

## Leap Year Parties.

The latest thing in vogue among fashionable young women in New York, writes a correspondent in the Pittsburgh Dispatch, is the leap year theater party. There have been several of these parties recently. Last Saturday night I ran into one composed of 30 couples. The young women escorted the lucky dogs to the theater and handed in the tickets to the doorkeeper. Inside they acted very independently. They checked their own wraps and the men's overcoats and sticks; in fact, did everything a man escort usually does, except go out to see a man between acts.

## Talk Didn't Count.

A man and his wife living in Penobscot county, Me., had been unanimous on one subject at least—their aversion to consulting mediums. Both declared such a performance to be silly in the extreme. What was their astonishment to meet each other face to face in the waiting-room at the medium's one day recently.

## Sea Water.

Atlantic sea water contains only 81 pounds of salt to the ton; that from the Dead sea 187 pounds to the ton.

# Difference

Between printing and printing is often a very wide one.

Two printers do the same job of printing, but when you come to compare them you will find they are not the same job after all.

**A LECTURE ON TEMPERANCE**

John G. Woolley Addressed a Large Audience at the Baptist Church Last Evening.

**URGES ORGANIZATION OF CHRISTIANS AGAINST SALOONS.**

Steam Laundry to Leave Its Present Location—Funeral of H. S. Blankley This Afternoon—Work Resumed on the New Railway.

**STRAIGHT PROHIBITION TALK.**

At the Baptist church last evening a crowded house greeted John G. Woolley, the well known Christian Endeavor and temperance orator. It was a representative Marquette audience, such a one as has not been seen here since Joseph Cook spoke in the same audience room several years ago. The speaker is erect, spare, the type of an intellectual orator. His address, while earnest and soul-stirring, yet bubbled over with fun and mirth-provoking sallies, alternated with shafts of satire so keen that no armor of sophistry could withstand them. He was possessed by his subject, yet was the master of it, and demonstrated that he had that power which is the basis of all Christian government. He is most tremendously earnest; no report of his lecture could do justice to it; the personality of the man vivifies his words and penetrates his hearers like an electric current.

After reading from the Psalms, and prayer, the speaker was introduced by Rev. Mr. Spencer. The speaker said that the subject of Christian citizenship was so large that he should confine himself almost entirely to one phase of it, the liquor problem. There never has been a public question so one-sided as this; all agree the saloon must go; the saloon only puts its hand on its pocket as a sufficient answer. It does not have to die. Christian citizenship hasn't the power to kill it, because it wants to do too many other things first, defeat the Republicans, or knock out the Democrats, or restore high tariff, or bring about free coinage of silver. Power comes after a surrender to truth.

The persistence of the saloon today is because there are too many men who do not stand consistently for the truth, too many who dispense with wine at home for conscience's sake, and at political conventions dispense with conscience for wine's sake. Haters of the saloon who have a Gattenburg or high license attachment, ministers who stand for the truth with a slant to the ecletic, like the Irishman who got into his clothes head side before and then thought he was fatally twisted, are the political acrobats who try to ride at once the two horses of temperance and high license; ninety-five per cent. of the Christian voters are thus fatally twisted; three hundred and sixty-four days in the year they pray for the downfall of the saloon, and on the three hundred and sixty-fifth day they go to polls and vote for and with the saloon.

There is no "township truth." Truth is one; no man who has the truth will say, "how much does it cost." The man who has the truth may die without a sign of the success of the truth, but he knows he is right, and no fear that he has "thrown away his ballot" troubles his dying moments. The testimony of the Christian voter at the ballot box is the measure of the influence of his church in the community. We must have in the Christian church a steadfastness of faith that will endure unpopularity, persecution, defeat, humiliation, all things, knowing that he has the truth.

You cannot tell God that it would be "throwing away your vote" to vote for the truth. He would not except such an excuse.

Saloon keepers know that Christian powder will not explode; they have heard it fizz so much that they are not afraid of it.

One might go on indefinitely quoting, so full was the lecture of telling hits and keenest sarcasm. What, there was through it all a love of humanity and an earnestness which could not fail to find response from the audience.

Mr. Woolley speaks tomorrow evening in Ishpeming.

**Steam Laundry to Move.**

Needham Bros. have rented the whole of the first floor of the Y. M. C. A. block on West Main street, and will remove their laundry to the new location as soon as necessary repairs and improvements are completed. This change is necessary on account of the growth of their business. An archway will be cut through the walls, thus making the two stores one, new floors will be laid, a boiler house will be erected in the rear of the building and some new machinery will be put in, giving additional facilities for laundry work.

The Salvation Army, which has occupied half of the first floor, will move up stairs where it will have somewhat larger quarters.

**Mr. Blankley's Funeral Today.**

Mr. Herbert Steele Blankley, local manager for R. G. Dun & Co., whose death was briefly announced in Tuesday's MINING JOURNAL, was born at Gainsborough, a suburb of London, England, Aug. 18th, 1869. After good educational advantages he entered the London office of Dun & Co. at the age of eighteen, until climatic considerations made it best for him to remove to America, and he took a position with the same firm in Detroit. He was transferred to the Marquette office about four years ago, and after a brief experience in the west, became manager here last May, succeeding Mr. Witzleben.

His pleasant manners and uniform courtesy made him many friends everywhere he went, who will sorrow deeply with his family. He was from an early age identified with the Church of England choir work, and continued in that work both in Detroit and here, where his skill contributed greatly to

the services in St. Paul's church. He had also been while in good health superintendent of the Sunday school and lay reader in the church. He had cherished a design to enter the ministry at some future time, and his name was regularly enrolled among the candidates for Holy Orders in the diocese of Marquette; while it had not been of late possible for him to advance toward this end, yet health permitting, he would have surely carried out his plan at some time.

Though lately suffering from weak lungs, his application to the duties of his responsible position was unremitting, and his devotion to the interests of his principals absolute. He was actually at work up to a few hours before his death, which must have been hastened by such close application.

The funeral services will be held at St. Paul's church, this afternoon at 3 o'clock, with the assistance of the choir he was so deeply interested in, and will be conducted by the clergy of the city assisting the bishop-elect.

Mr. Blankley had been married but little over a year, and the death of his infant son a few weeks ago had a decidedly unfavorable effect upon his condition, which his friends even then began to believe precarious.

**Scheme for Private Laundries.**

Weather Observer Patrick suggests another use for city power when the improved machinery at the power and lighting station is in running order; it is a use which will do away with "Blue Mondays" and will enable each family to do its washing without much work or expense. A smaller size of the revolving washing cylinders, now in common use in public laundries, can be purchased at a small price, and when run by city power, it will cost very little to operate them, certainly not as much as the washerwoman's bills now are. At the same time the work is excellently, quickly and easily done. These laundries are now in general use in many of the larger cities.

**Will Tackle Duluth First.**

The contract for shoes for the Marquette baseball club has been given to Joseph Dunnetek, and the contract for suits will be let this week. The new suits will be maroon and green. The team will open the season at Duluth, playing there May 30 and 31. It will then return and play against nines from Ishpeming, Baraga, Hancock and Calumet, the six mentioned constituting the northern amateur league. Last year the local men carried off the championship and they hope to win it again. Manager Shea wishes to express his thanks to the business men who have contributed so liberally, thus making the organization of a strong team possible.

**Work Resumed at Dead River.**

The construction of the Lake Superior and Ishpeming railway near the Dead River powder mill, which was suspended about two weeks ago on account of the objections to its continuance made by the powder company, was resumed Tuesday and is now being pushed rapidly. All differences between the railway and the powder company have been satisfactorily adjusted.

**Two Hearts Joined Together.**

B. O. Schroder and Miss Christine Halverson, both of Huron Bay, were united in marriage yesterday afternoon at the Swedish Lutheran parsonage, Rev. F. A. Johnson performing the ceremony. The bridal party left for their home at Huron Bay on this morning's train.

**Lenten Services.**

This morning at 10 o'clock there will be a celebration of Holy Communion in Morgan memorial chapel. At 12 o'clock the usual twenty minutes service will be held. Bishop Elect G. Mott Williams will speak.

**Electric Bitters.**

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at E. Farnham's Drug Store.

**Don't fail to secure a supply of Vandenberg's fresh creamery butter tomorrow.**

The superior quality of this butter is now so well known that it is almost impossible to supply the demand which is rapidly increasing. (2-12-1d)

**JOHN HARRIS, DAIRYMAN.**

If you give your order to John Harris, the dairyman, to supply you with butter, eggs, cream or milk, then you can depend on the quality of the article you are receiving. Eggs supplied by him are home laid. Telephone your order over either 'phone, and same will have prompt attention.
