

## Have You Tried

### Milwaukee Ice Cream

and we never need apologize when selling it. Everyone likes it. Try it.

**THE STAFFORD DRUG CO.**  
222 South Front Street.

We handle no other at our Soda Fountain. It is expensive for us, but it is pure cream and it is clean, and it is clean, and it is clean.

### What is Mr. Goodspeed going to do about it?

Although we have sold a "raft" of low shoes (probably more than have been sold by any one house on the upper peninsula) we will have an immense stock of them left. Our policy of never carrying goods over from one season to another leaves us no alternative. There is only one thing to do; that is CUT THE PRICES AGAIN. Shrewd buyers will not fail to take advantage of this, our first inventory sale.

### INVENTORY SALE.

Buyers' harvest. Prices lowered to a point that would make the shoes blush for shame could they realize the low figure we ask for them. ARMSTRONG'S OXFORDS, accustomed to move in the best shoe society, who would have turned up their toes in disgust at a suggestion of less than \$3.50 and \$4.00, must be sacrificed and you are welcome to your choice of these fine shoes in patent leather, vic kid, cloth tops, light and dark tans, at \$1.75 a pair.

### INVENTORY SALE POSITIVELY ENDS AUG 10th.

Until that time we submit for your serious consideration the greatest shoe opportunity of recent times. Are you going to look after you interest in this sale? Everybody has some. Don't neglect yours.

## TAMMANY HALL FOR BRYAN.

Executive Committee of That Organization Endorses the Chicago Platform.

### THE RESOLUTION IS PASSED BY ACCLAMATION.

Preparations Are Immediately Begun for Active Work in the Campaign—Bryan Announces the Itinerary of His Eastern Trip.

### WONT WAIT FOR CONVENTION.

NEW YORK, July 31.—Tammany Hall will endorse Bryan and Sewall without waiting for the state convention. The executive committee this afternoon passed by acclamation a resolution to that effect after defeating a motion to postpone action by a vote of 71 to 4. Immediately immense pictures of the Democratic nominees were raised on the outside of the building and preparations begun for active work.

John G. Sheehan, in introducing the resolution endorsing the Chicago candidates, explained that at the Chicago convention the New York delegates fought hard for what they believed was "sound money," but was largely in the minority. He declared it a good Democratic rule to stand by the will of the majority when duly expressed.

Great applause marked the conclusion of the speaker's address. After a short debate the resolution endorsing the Chicago candidates was passed by a viva voce vote.

### HE GOES EAST NEXT FRIDAY.

Bryan to Be Officially Notified at New York Aug. 12.

LINCOLN, Neb., July 31.—Mr. Bryan today announced his itinerary for his eastern trip to meet the notification committee from the Democratic convention at Madison Square Garden Aug. 12. Mr. Bryan and his wife will leave Lincoln on the Burlington Friday evening, Aug. 7, arriving at Chicago Saturday afternoon. They will stop over Sunday and leave Chicago about midnight Sunday night, reaching New York Tuesday. The national committee will meet in New York at the time of the notification and important campaign work will be discussed. From New York, Mr. Bryan and wife will go to Bath, Me., and spend a few days with the Sewalls. Mr. Bryan is making any dates for speeches at this time and will not do so until after the national committee has been consulted.

A dispatch received tonight from Congressman Cummings of New York said: "The Tammany executive committee has unanimously endorsed your nomination. My personal congratulations."

A newspaper man has received a letter from Frank A. Bay, Republican lieutenant governor of Minnesota, dated Fairmont, Minn., July 28, in which, referring to Mr. Bryan, the writer says: "He is my ideal. Tell him that for the time being I am, like Senator Hill, a Democrat."

### PAID RESPECTS TO MCKINLEY.

Delegation of Workmen and Veterans Makes a Visit to Canton.

CANTON, O., July 31.—There was a most enthusiastic delegation at the McKinley home today of farmers, workmen and old soldiers of Guernsey county. Major McKinley replied at some length in a felicitous vein to their congratulations, and said, in part: "I am glad to meet the representatives of labor who have assembled here this morning. I congratulate them upon the advance that has been made in the tin plate industry, to which their spokesman referred. I am glad that Republican legislation gave this country an industry that gives work and wages to Americans and brings happiness to American homes. I am glad to meet my old comrades of the Grand Army. My comrades of thirty-five years ago are just as loyal to national honor today as they were loyal to national unity then."

"When the war closed there were two great debts resting on the government. One was the debt due the men who had loaned the government money with which to carry on its military operations, and the other was due to the men who had willingly offered their lives for the preservation of the Union. Every dollar of the first debt up to this hour has been paid in gold or its equivalent, the best recognized money of the world, and every dollar of that debt yet to be paid will be paid in the same unquestioned coin. Most of that debt is out of the way.

"The great debt of this government now is to surviving soldiers of the Republic. There are 970,000 pensioners on the honored pension rolls of this government today and every dollar of their debt must be paid in the best currency and coin of the world. There is nobody more interested in maintaining a sound and stable currency than old soldiers, and they will this year, as in years past, stand by the financial honor of the government and will not permit our nation's integrity to be questioned that they would permit that flag (pointing to an American flag) to be assailed."

Great applause followed Governor McKinley's remarks.

### LITTLE LOVE FOR SEWALL.

Missouri Populists Urge Union of 811-yer Forces on Their National Ticket.

SEDALIA, Mo., July 31.—The Populist state convention reassembled this morning and adopted a platform declaring for "a national issue of government money direct to the people without the intervention of banks" and for

the free coinage of gold and silver at 16 to 1 and their application to the payment of the national debt.

The forenoon was spent in a heated discussion over an amendment proposed reciting that if the Democrats refuse to take Sewall's name off their ticket the Populists of Missouri would refuse to support Bryan. A substitute for the whole address sought to have the Democrats pledge their support to Watson in the event of a division of electors, and declared if the Democrats would not agree to such a plan the electors should be instructed to vote for Norton of Illinois.

A heated and lengthy discussion followed. The roll call on the original address was finally taken and resulted in its adoption by a good majority, 267 to 132. The address says among other things:

"The People's party does not propose to surrender the identity of its organization. Its mission is not accomplished. But for it, in our opinion, the Chicago convention could not and would not have made its platform or nominated Bryan. We ask and seek a union of forces in our state that its vote be cast in the electoral college for Bryan and Watson, the nomination of one being a rebuke to the sectionalism of the Mississippi river and that of the other north of Mason and Dixon's line."

### HARRITY BACK IN THE RANKS.

Democratic Leader Announces His Retirement from Active Politics.

PHILADELPHIA, July 31.—William E. Harrity, until recently chairman of the Democratic national committee and for years a leader in the party councils, announced today he had retired from active politics. In answer to inquiries upon the subject Mr. Harrity said: "It is true that I have determined to withdraw from active participation in political affairs. For several years I have been accorded some prominence in the management and leadership of the Democratic party, but now I desire to take my place in the ranks except in so far as I may have duties to perform as the Pennsylvania member of the Democratic committee."

"In taking this step I wish to express my warm appreciation of the personal and political friendship and support which I enjoyed during my political career. I have no resentments for my enemies, and nothing but gratitude for my friends."

"I shall," said Mr. Harrity, "continue to take a general interest in politics and shall always be ready to go wherever I reasonably and consistently can promote the success of the Democratic party; but I shall absolutely refrain from any participation whatever in matters that relate to party organization and management."

### INTERNATIONAL BIMETALLISM.

Senator Allison Thinks It Due Within a Reasonable Time.

ALGONA, Ia., July 31.—Harvey Ingham, editor of The Upper Des Moines, has received a letter from Senator Allison, in which he expresses the belief that an international agreement on the subject of international bimetallism is probable within a reasonable time, and says this belief rests first upon the desirability of such an agreement. Both precious metals are necessary as a basis of value for the world's commerce, which cannot be carried on without a reasonable fixed par of exchange. The senator then proceeds to justify his views by citing evidences of a growing bimetallist sentiment in Great Britain and Germany, and concludes as follows: "The silver question is a vital one in a worldwide sense, and international bimetallism is making rapid progress in Europe and if we make no mistake now is likely to produce a practical solution whereas silver and gold will again circulate at a practical parity in value at an agreed ratio."

### BRYAN MEN HAVE THE PLACE.

Iowa Gold Democrats May Not Get Ticket on Official Ballot.

DES MOINES, Ia., July 31.—The gold standard Democrats who will hold a convention here next week are confronted with the fact that they cannot get their electoral ticket on the official ballot except by petition. The secretary of state is compelled to treat them as a new party, a party which cast no vote last year. This seems to have called the ardor of some of the promoters of the third ticket. The Bryan Democrats will have the space regularly allotted to the Democratic party on the official ballot.

### THIRTY STATES TO BE REPRESENTED.

INDIANAPOLIS, July 31.—It is now believed that about thirty states will be represented at the meeting of the provisional committee of gold standard Democrats here next Friday. John S. Lawrence is the Michigan member of the committee.

### KILLED HIS GRANDFATHER.

Iowa Farmer Confesses to Murder During a Family Quarrel.

BURLINGTON, Ia., July 31.—Henry Teuscher, a farmer, who was arrested today, confessed he had murdered his grandfather, Louis Krekel, last winter during a family quarrel. He knocked the old man down with a blow on the head and cut his throat with a dull knife. He carried the body in the night to a dry well on the farm, tossed it in and covered it with brush. Searching parties found it two weeks later, and suspicion fell on him, but evidence was lacking until today. Teuscher made a desperate fight for liberty when the officers appeared at his house this morning to make the arrest. He is in jail here.

### Passed Its Second Reading.

LONDON, July 31.—The house of lords has passed the second reading of the Irish land bill without division.

## FIFTY-SEVEN BODIES FOUND.

Other Victims of the Atlantic City Disaster Thought to Be Under the Wreckage.

### FORTY-THREE WERE INJURED, SOME FATAALLY.

Jury Empanelled and an Investigation Into Cause of the Frightful Collision Commenced—Engineer Greiner's Story.

### RESCUERS SEARCH THE RUINS.

ATLANTIC CITY, N. J., July 31.—Forty-seven dead, forty-three injured. These are tonight's figures on the appalling disaster on the meadows last evening. Of the injured it is more than probable that four or five will die. The general impression is that there is at least half a dozen more bodies under the mass of debris.

Investigation into the cause of the collision and fixing the responsibility began today. The coroner impanelled a jury and visited the scene of the wreck. The scene was very different from that of last night. The relief gangs had done effective work. Both tracks are now clear and much wreckage has been moved. The jury made an exhaustive examination of the ground and devoted considerable time to the inspection of the signals which still remain as they were at the moment of the accident.

George F. Hauser, who had charge of the tower and who is now under arrest, had made several statements to the police. He told them he saw both trains coming and both were sufficiently far away to admit of a full display signal, but as the West Jersey was nearest he gave the Reading the red light and signalled to the other train to come ahead. The Reading, however, never slackened speed but came on. The coroner's jury then separated until tomorrow, when another meeting is to be held.

All the dead so far found and identified were removed to their former homes this afternoon. Inside the morgue tragic scenes were being enacted throughout the day. Scenes of a like character were occurring at the Sanitarium, where the injured lie. Every incoming train brought crowds of grief-stricken relatives and friends.

### ENGINEER GREINER'S STORY.

CAMDEN, N. J., July 31.—John Greiner, the engineer of the ill-fated Bridgeton excursion train, said that just as his train was leaving the drawbridge he looked out of the cab window and saw the Reading express flying shoreward. It was then probably two miles away. The Camden & Atlantic accommodation train was running in the same direction that the Reading flyer was going. From what he could observe the trains were racing. He then looked up at the tower and saw he had a clear track. As the express came thundering down upon the crossing he saw a collision was unavoidable. The body of Engineer Edward Farr, who died with his hand on the throttle, was taken out early this morning, and with much difficulty the rigid fingers were unclasped from the lever.

### LAWS INSTEAD OF WARS.

Socialist Congress Declares in Favor of International Arbitration.

LONDON, July 31.—The socialist congress today adopted the report of the committee on education and physical development, favoring a government system of public education, extending from kindergarten to university and including physical, scientific, artistic and technical subjects, to be genuinely accessible to everyone by freedom from fees. The congress also adopted the report of the committee on organization, favoring the establishment of a permanent international committee and an international bureau of information.

After a lengthy discussion the report of a committee was then passed in favor of the abolition of standing armies and the establishment of a national citizen force, and in favor of the establishment of a tribunal of arbitration whose decision should be final and whose duties it should be to regulate disputes between nations. The latter report declares that workmen can only obtain the objects enumerated by gaining control of legislation and allying themselves with the international socialist movement.

### SHOT DOWN IN THE STREET.

Tragedy at Chicago in Which Wm. Hawkins Is Fatally Wounded.

CHICAGO, July 31.—William Hawkins of Burlington, Ia., was shot four times and fatally wounded this afternoon in front of McCoy's Hotel by J. G. English and his sister, Nellie English. Each fired two shots. One bullet entered the mouth and carried away a portion of the jaw, another entered the knee and two lodged in the body. English was walking with his sister when they met Hawkins at Clark and Van Buren streets. English instantly drew a revolver and opened fire. As Hawkins dropped to the sidewalk Nellie fired two bullets into his prostrate body. Hawkins was charged by English with desecrating Nellie, who lived at Galesburg, Ills. Hawkins is a bartender.

### WILL BLACKLIST THE TRACKS.

Canadian L. A. W. Board Condemns Female Bicycle Racing in Public.

TORONTO, July 31.—In the racing board bulletin issued today the Canadian board condemns female racing and announces the board will hereafter blacklist any track upon which female bicycle riders are allowed to race before the public.

THE ONIGAMING YACHT CLUB. A Few Facts About That Popular Social Organization.

In view of the fact that the Onigaming Yacht club held its first regatta for this season yesterday, a little of the history of this popular social organization may be of interest to copper country people.

There were four regattas in 1894, in each of which six boats participated. In the first regatta J. E. Rice's yacht Atlanta won. In the remaining three contests the Sylvia, owned by A. F. Rees, was first to cross the line.

The following call has been issued: "The undersigned hereby call a meeting to be held on Tuesday, the 4th day of August, 1896, at 8 o'clock p. m. at Fireman's Hall in the village of Houghton.

For a "Sound Money" Club. The following call has been issued: "The undersigned hereby call a meeting to be held on Tuesday, the 4th day of August, 1896, at 8 o'clock p. m. at Fireman's Hall in the village of Houghton.

After Next Firemen's Tournament. Next Monday the different fire companies of the county leave for Sault Ste. Marie, where they will attend the tournament to be held Tuesday, Wednesday and Thursday.

Will Open a Hospital. It was generally known that one of the wishes of Joseph Werten, Sr., of Hancock during his life was to establish either a hospital for the aged or a hospital. His son, the Right Rev. J. Werten, D. D., is carrying out the wish of his father and to this end three Sisters are now in possession of the Werten homestead, and in a short time will open a hospital there.

Dr. Price's Cream Baking Powder. World's Fair Highest Award.

WORK OF THE C. & E.

Summary of the Operations During the Fiscal Year Just Closed. The following extracts are from President Agassiz's report for the fiscal year ending April 30, 1896, to be read at the annual meeting of the stockholders of the Calumet & Hecla Mining company at Boston, Aug. 19:

"During the past fiscal year we produced mineral equivalent to 41,981 1775-2000 tons of refined copper; our product in refined copper was 43,776 756-2000 tons. For the previous year our refined copper product was 31,233 414-2000 tons. The price of copper varied from 9 1/2 to 12 cents per pound. It is now 11 1/2 cents. During the past fiscal year there have been paid five dividends of \$5 each.

"The Red Jacket shaft has now reached a vertical depth of 4,900 feet. This is the deepest point to which we propose to sink. The rock temperature at this depth is 87.6 Fahrenheit, a temperature which will not interfere with active mining operations.

"We have purchased from Thomas F. Mason 120 acres of territory lying adjacent to our lands in the extension in depth of our Hecla shafts No. 6 and 7.

"The old Calumet fire-engine house has been removed and its place taken by a new fireproof building situated in a more central position.

"We have extended our mine line of railroad beyond No. 5 Calumet shaft to the Calumet Pond pump house, so that we can now supply all our boiler houses with coal by rail. Two locomotives have been purchased. The main line of steam pipes has been relaid in a permanent culvert and protected against radiation.

"The principal loop of the drainage system surrounding the location has been completed, and a number of houses connected with the system.

"The engine Wabeek, which was wrecked in 1894, has been replaced by a new engine; it has been running satisfactorily since the beginning of August, 1895.

"We are extending our coal docks at Torch lake, to enable us to discharge a greater number of vessels simultaneously, and to increase our storage capacity.

"The expenditures on account of the Aid fund for the fiscal year 1895 and 1896 amount to \$40,743.17. The value of the Aid fund at cost is \$113,488.35."

Table with columns for ASSETS and LIABILITIES. Assets include Cash at mine office, Cash at New York office, Cash at Boston office, Bills receivable, Drafts in transit, Bill payable at Boston and mine, Machinery contracts. Liabilities include Employees' aid fund, Machinery contracts.

A Thriving Village. The growth of the village of Hancock is something wonderful, and should it continue for two years more at the same ratio it will have a population of 10,000.

Wonderful are the cures by Hood's Sarsaparilla, and yet they are simple and natural. Hood's Sarsaparilla makes PURE BLOOD.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

COPPERDOM BREVITIES.

Treasurer Flagg, of the Calumet & Hecla company, arrived at Calumet Thursday. The infant child of Captain Scott of the Salvation Army, Lake Linden, died Wednesday and was buried yesterday.

Charles Klein of Laurium is figuring on establishing a new factory in Hancock. He was there yesterday looking over the situation.

Mr. and Mrs. L. Karger of Chicago, who have been visiting their son Samuel at Houghton for the past two weeks, left yesterday for Mackinac Island.

An unusual amount of Calumet & Hecla copper is going abroad at the present time. The amount exported for the week ending July 24 was more than 1,000,000 pounds.

Six weeks ago I suffered with a very severe cold; was almost unable to speak. My friends all advised me to consult a physician. Noticing Chamberlain's Cough Remedy advertised in the St. Paul Volks Zeitung I procured a bottle, and after taking it a short while was entirely well.

Don't suffer with piles when you can be cured easily, quickly and permanently. Ask your druggist for a box of Gem Pile Treatment, a guaranteed cure. Take the treatment according to directions and you will surely be cured.

BUSINESS STILL LAGS.

Improved Conditions Have but Little Effect in the Present Torpid Season.

INDUSTRIAL SITUATION IS LESS FAVORABLE.

Iron Continues in Poor Demand and But Few Mills Are Running— Outlook Points to Further Decline in Prices.

DUN'S REVIEW OF TRADE.

New York, July 31.—Dun's Review of Trade in its issue of tomorrow will say: Business conditions have clearly improved, though business has not. It is now the torpid season and better prospects have little effect as yet.

None suppose that the exchange syndicate is interested to do more than to bridge over the period in which merchandise exports have been light.

What is already going out with more freedom than usual for the season, and Atlantic exports for four weeks were 6,564,000 bushels, against 3,422,000 last year.

The iron industry is helped but little by the settlement which gives the producers of the Ohio region 50 cents advance in wages, because the demand is so light that few mills can run.

The failures in the United States for the week were 281 against 261 for the same week of last year.

BRADSTREET'S WEEKLY SUMMARY.

New York, July 31.—Political uncertainty continues an unfavorable factor in trade, and industrial and mercantile lines are unusually dull.

The outlook is for a further decline in iron and steel prices. Chicago offers concessions on pig to bring bids for round lots.

The total bank clearings of the principal cities of the United States for the past week were \$811,433,203, a decrease of 11.6 per cent.

LIBAU IS IN FLAMES.

ST. PETERSBURG, July 31.—A terrible fire has been raging in Libau, Russia, since Wednesday.

tion of thirty thousand. It is enclosed by a wall and has a council hall, theatre, hospital, extensive almshouses and an orphan asylum. Its trade is considerable.

CABINET CRISIS IMMINENT.

Opposition to Spanish Government Charges Election Frauds. MADRID, July 31.—A cabinet crisis is believed to be imminent here.

DUBUQUE DISBANDED.

Will Probably Prove Death Blow to the Western Association. DUBUQUE, Ia., July 31.—The Dubuque baseball club disbanded tonight.

MAY GIVE WALES A CHANCE.

Rumored in Court Circles That Queen Victoria Intends to Retire. LONDON, July 31.—A rumor that Queen Victoria intends to retire in favor of the Prince of Wales is again current in court circles.

Hot Spell Broken.

ST. LOUIS, July 31.—A thunderstorm which broke over the city this afternoon dispelled the heat that prevailed since Sunday and brought relief to suffering humanity.

Bicycle Concerns Fail.

New York, July 31.—Robert Cary was today appointed receiver for the Porter Gilmore company, manufacturer of the Eby bicycles.

John E. Hardin was today appointed temporary receiver for the Liberty Cycle company. The liabilities are \$38,000; nominal assets, \$50,000.

Nineteen Condemned to Die.

VIENNA, July 31.—The trial at Agram of the Stejznev band, numbering thirty-six, charged with eighteen murders and numerous assaults and robberies, has resulted in the condemnation of nineteen, including two women, to death; the sentence of nine to imprisonment and the acquittal of eight.

Carriage Makers Go Under.

CHICAGO, July 31.—The Staver & Abbott Manufacturing company, the well known carriage firm, assigned this afternoon. Henry C. Staver, the principal member of the firm has also assigned. The estimated assets are \$300,000; liabilities, \$400,000.

Migration of Grasshoppers.

OMAHA, July 31.—For the past three days clouds of grasshoppers have been passing over Nebraska eastward bound. They crossed the Missouri river in swarms. They have done no damage to crops in the state. They are believed to have come from Colorado.

Lowered the Track Record.

CLEVELAND, O., July 31.—Frank Agan in the second heat of the free-for-all race lowered the track record to 2:04. He won the race, with Joe Patchen, second and Robert J. third. The stakes were worth \$2,500.

Forecast of the Weather.

WASHINGTON, July 31.—10 p. m. The weather bureau reports the following as its forecast for the next twenty-four hours: For upper Michigan: Fair; followed by showers; brisk southerly winds.

Will Be Out Monday.

WASHINGTON, July 31.—The Republican congressional committee announced today that the campaign text book would be ready for distribution Monday.

Baseball Scores.

NATIONAL LEAGUE. Washington, 4; Baltimore, 5. New York, 9; Brooklyn, 5. Boston, 13; Philadelphia, 1. Cincinnati, 7; Pittsburg, 9. Other games postponed; rain.

WESTERN LEAGUE.

Columbus, 1; Milwaukee, 2. Detroit, 14; Kansas City, 7. Indianapolis, 2; Minneapolis, 3.

IT IS A FACT that Hood's Sarsaparilla, the One True Blood Purifier, has proved, over and over again, that it has power to cure, even when other medicines fail to do any good.

A GUM-CHEWING NATION.

Twenty Million Dollars Worth Manufactured Yearly by Americans. Twenty million dollars sounds like a pretty big sum to spend annually for the satisfaction to be derived from chewing gum; yet Dr. Cyrus W. Edson, who has studied the subject profoundly, does not consider this an overestimate.

There are at least five immense chewing gum factories, a dozen of moderate size and innumerable insignificant firms in the United States. One company alone sells \$5,000,000 worth every year—including, of course, the quantities exported. This is as much money as the United States furnishes each year for the support of her home- and foreign missions.

The entire revenue received by the government from taxing fermented liquors only exceeds the chewing-gum limit by a paltry \$3,000,000, while the cost of the chewing-gum craze is greater by \$9,000,000 than the entire expense of running the prisons, courts, hospitals, police force, etc., of the city of New York.

The habit is increasing at such a rate that Americans bid fair to become a race of enormous facial development. Chewing gum will be a national characteristic, as football is the national game, and cleaver slang is our native speech.

And this is not a vulgar fad or a stupid habit without rhyme or reason. Men and women chew nowadays from physiological reasons. Men prefer gum to tobacco because it is both cheaper, healthier, and cleaner.

The following were the closing prices of United States bonds and railroad stocks, etc. U. S. regular... 113. Mo. Pacific... 17 1/2. U. S. 4 1/2... 114. Nor. Pacific... 9 1/2.

JACKSON CHANGED HIS MIND.

His Friends Have Wondered What Got Into the Teetotaler. For years Jackson had been a total abstainer for personal reasons best known to himself.

When he ranged the nine glasses in a circle and regarded them intently for half an hour, while his friend looked on in blank amazement. He didn't drink any more, but had to be carted home on the train by his friend.

There was once a deacon on Cape Cod who heard early one morning that there had been a wreck on the beach near his house.

That was Different Again. "Have you heard about young Meard? He has just walked off with 30,000 francs of his employer's money."

"Oh! the infernal scamp!"—Le Papillon.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

LOCKJAW IN SOIL.

Tetanus Bacilli Thrive in Long Island— Nine Fatalities a Year. The death of a child in Brooklyn from lockjaw, said to have been caused by bacilli of the disease which existed in the soil of that region, calls attention again to a peculiar danger of some portions of Long Island, which has been mentioned at intervals of several years.

As to the existence of tetanus bacilli in the soil, the evidence seems to be ample. Health Commissioner Emery says the soil is full of these bacilli and that they caused several deaths which followed vaccination a year ago.

The germ of tetanus is in the air as well as in the soil, but to breathe them is not necessarily fatal. In the vicinity of the south shore of Long Island horses, as well as human beings, have fallen victims to the bacilli.

A curious and exceedingly unusual freak is reported by a deer hunter to Forest and Stream. The hunter was up in Wexford county, Mich., and got on a deer trail that had hoof marks plainly made by a buck.

A HORNLESS BUCK.

Killed in Michigan and Said to Be Unique in This Country. A curious and exceedingly unusual freak is reported by a deer hunter to Forest and Stream.

The deer did not have any horns, although a two-year-old, and weighing 150 pounds. Further, it never had had any horns.

Does with horns, bucks with three horns, dozens of spikes, and malformed horns, have often been reported of Michigan and other American deer, but this is the first hornless American buck reported, although some European deer sometimes lack such weapons, but yet are able to whip the horned ones.

A Valuable Prescription.

Editor Morrison of Washington, Ind., "Sun" writes: "You have a valuable prescription in Electric Bitters, and I can cheerfully recommend it for Constipation and Sick Headache, and as a general system tonic it has no equal."

JACKSON CHANGED HIS MIND.

His Friends Have Wondered What Got Into the Teetotaler. For years Jackson had been a total abstainer for personal reasons best known to himself.

When he ranged the nine glasses in a circle and regarded them intently for half an hour, while his friend looked on in blank amazement. He didn't drink any more, but had to be carted home on the train by his friend.

Angle worms wanted by L. M. Spencer. (8-1-3d)

GALA DAY FOR A. O. U. W.

Fifth Annual Reunion of the Upper Peninsula Lodges to Be Held in Marquette.

LIKELIHOOD OF A LARGE CROWD COMING.

Special from the Copper Country—Good Speaking and Music—Amusements for All Tastes—Day for Fellowship.

THEY CELEBRATE TODAY.

Today is the red letter day on the calendar of the year for the A. O. U. W. lodges of the upper peninsula. It is the date of the annual reunion, which has come to be a feature of the life of the order in this part of the state.

The preparations that have been made for the gathering at Marquette are such as to warrant the expectation that the fifth annual reunion will be the most successful one ever held by the order. The program contains features calculated to interest and amuse visitors of all classes, and if the weather is only good there will be lots of people here to enjoy the day.

The strength of the A. O. U. W. in the copper country probably exceeds that of any other order, and from six to eight hundred from there have manifested their intention to come down. Their special leaves, Houghton at 7 o'clock in the morning, arriving here at 11. As soon as this comes in the procession will be formed on Superior and marched to Washington street park, where the assembly will be treated to a series of short addresses by some of the best speakers in the order. Comfortable seats have been put up to accommodate the crowd. The addresses will be made from the new band stand.

When these are over dinner will be in order. There will be eating accommodations for the biggest number likely to attend. All the hotels will make extra preparations, and some of them will feed the A. O. U. W. members at special rates. In addition to these there will be several eating rooms opened by church and society ladies.

After dinner Captain Cleary and his life saving crew will give an exhibition in the bay of the way crews are rescued from wrecked vessels.

The life saving feature over the base ball game and the circus will be rival bidders for the throng, and people may take their choice according to inclination.

In the evening the brothers will be given an opportunity to show the social side of their natures at the dance to be given in Casino rink. This will close the day's festivities, which will have progressed at high pressure from noon till midnight, the time for the departure of the copper country special.

The rink has been chosen for the general headquarters, and here the crowd will repair for the speaking in case of rain. The A. O. U. W. hall will be a special headquarters for the ladies. Ladies from out of town whether D. of H. members or not will be entertained by the local lodge of the Degree of Honor.

Sabbath Chimes. Services at the First Methodist Episcopal church as follows: Morning subject, "A Perfect Cure in Christ." Evening subject, "To Many Fiekle Minded Christians." The male quartet will render some of its best selections. Citizens of Marquette, and all strangers are most cordially invited to all our services.

The pastor of the Baptist church, Rev. W. E. Peeman, has returned home and will occupy his pulpit Sunday morning and evening. The morning will be given to a short address and the celebration of the Lord's Supper. In the evening the house will be devoted to the question, "Does the Bible Give Us a Clue to These 'Hard Times'?" Seats free. Everybody invited.

St. Paul's cathedral: Celebration of the holy communion, and flower sermon at 10:30 a. m. Evening prayer and sermon at 7:30. The archdeacon will officiate and preach.

Christian Science service: Fraternity Hall, Front street, 10:30 a. m. Subject: "David's Kindness." All are cordially invited to attend.

St. Margaret's mission, South Marquette: Sunday school at 3:00 p. m.

Pharmacy Examination. The board of pharmacy will hold a meeting for the examination of candidates, in the Hotel Marquette, Friday and Saturday, Aug. 7 and 8, commencing at 9 a. m. Friday. All candidates must be present at that hour.

Candidates must file their applications with the secretary and must furnish affidavits at least one week before the examination, showing that they have had the practical or college experience required.

The next meeting will be held at Lansing, Nov. 4 and 5, 1896. F. W. E. Perry, secretary, will furnish blanks upon application.

MARINE MATTERS.

PASSED THE CANAL. SAULT STE. MARIE, Mich., July 31.—(Special.)—Up—Fryer, 1 a. m.; Pathfinder (whaleback), Mahoning, Wawatam, Pratt and consort, 3; Waldo, 7:20; Rest, 8:20; Shrigley and consort, Olna, 8:20; Joliet, 10:20; Manitoba, 11; Trevor (whaleback), 12:30 p. m.; Oates and consort, 1:40; Wallace and consort, 2:30; Palmer, 3:30; Panther and consort, Drake, Sitka, Yukon, 4:40; Tower, 5:20; Wright, 6:20; Arabia, 6:30; Italia, Clinton and consort, 8; Parks Foster, 8:30; Cort (whaleback), 9:20; Marina, Spry and consort, 1:30; Centurion, 11:30.

MIDLAKE AND HARBOR GOSSIP. The Castalia and Continental were discharging cargoes yesterday at the coal dock.

The John M. Nichol brought in a cargo of nitrate soda for the Powder mill yesterday.

The City of Marquette will make her regular weekly excursion to Pictured Rocks today. The indications are that she will take a good crowd.

The Peerless was in going down yesterday morning, and the China went up

last night. Both boats had good passengers lists, but left few off at Marquette.

Vessel Inspectors York and Gooding are back after a short trip to Detour and the Sault. They examined several previous inspections and made an inspection of the Lillie A. at the first named port.

There have been many inquiries at the inspector's office for the new light-house board list of beacons, lights and signals. It is a month past the time for receiving the books, but none have been sent to the local office.

Port list: Arrived—Castalia, V. H. Ketchum, Wadena, J. H. Wade, Wawatam. Cleared—Wawatam, J. H. Wade, Olive Jeanette, Continental, Grace Holland, Cleveland; V. H. Ketchum, Wadena, Ashtabula; L. R. Doty, Conneaut.

A new and dangerous shoal has been found near Kelley's island, Lake Erie. It is something of the shape of a dumb-bell, 350 feet long and 150 feet wide and located almost exactly on the course from Ballast island to Lakeside, due west from Carpenter point, on Kelley's island, one and five-eighths miles. It is also directly on the course from abreast of Starve island to Kelley's island docks. Bearings are as follows: To Marblehead light-house, southeast by south 1/2 south; east edge Ballast island, north 1/2 east; Lakeside dock, south by east 1/2 east; South point, South Bass island, northwest by west 1/2 west; Black can, Scott's Point shoal, west 1/2 north 2 1/2 miles; Carpenter point, east 1/2 north 1 1/2 miles. Several boats have recently struck there and one was sunk. This route is daily traveled and thousands of people pass by it weekly.

CITY BREVITIES.

Weather forecast: Probably showers and warmer; easterly winds.

Yesterday's temperature: 7 a. m., 64 degrees; 12 m., 70 degrees; 7 p. m., 70 degrees; maximum, 73 degrees; minimum, 54 degrees.

Dr. F. C. Boyer and wife returned home Thursday.

A. L. Carpenter of Ishpeming was on the streets yesterday.

L. Karger of Houghton, was in Marquette Friday on a business visit.

Street Commissioner McIntosh had the roller out on Lake street yesterday.

Alfred Meads, editor of the Ontonagon Miner, is visiting in town for a few days with relatives.

The park board has prepared an order closing the cemetery hereafter at eight in the evening.

Mr. and Mrs. C. Parker Colby and H. D. Cliffor and wife, of Chicago, are recent arrivals at the Superior.

Mrs. O. G. Youngquist and son are visiting relatives in Grand Rapids. They have been gone about a week.

Mrs. Thomas W. Edwards and Miss Roland, her niece, both of Chicago, are here on a visit with friends and relatives.

Ladies of the First M. E. church will serve meals today in the lately vacated Emmons store right under the A. O. U. W. hall.

The infant son of Mr. and Mrs. E. A. Willson was buried yesterday afternoon, the funeral being held from the house.

Mr. Watts, the piano tuner, has returned from Chicago, after having visited the piano factories, and can be found at Conklin's.

F. C. Chamberlain came up from Iron Mountain yesterday to participate in the A. O. U. W. festivities. He will deliver one of the addresses.

The funeral of Eva Dollar, the girl who died from an overdose of laudanum, was held yesterday forenoon from St. Peter's cathedral.

No tidings have yet been received from relatives or friends of John Ronen, who died here Thursday night. The body remains at Hagers.

Dr. J. H. Dawson has moved his office. He is now located in pleasant rooms in the Adams block, over Duquette & Metz's clothing store.

City Treasurer Maecht had the anticipated rush yesterday of taxpayers who were anxious to square accounts before Aug. 1 and so avoid the penalty.

Ethel, the three-months-old child of Mr. and Mrs. William H. Latterell, died yesterday afternoon. The funeral will be held this afternoon from the residence, 237 Rock street.

Arnes, the six months old daughter of Mr. and Mrs. Henry Siegel died Friday forenoon. The funeral will take place this afternoon the interment being in the new Catholic cemetery.

Thursday Frank Pendill caught a fine mountain trout in a brook near Sault's head. This is the first one that has come to light since John Stewart planted 9,000 there several years ago.

A flower festival will be held at St. Paul's cathedral tomorrow morning at 10:30. The Ven., the archdeacon, will deliver "a flower sermon." Members of the congregation having any cut flowers to spare will kindly send them to Miss Robbins, Ridge street, this

afternoon or evening. At the close of the services the flowers will be sent to the hospitals and sick in the parish. All are cordially invited.

An exhibition of the X-ray machine in actual operation, photographing the sinuses, will be given in the basement of the Methodist church, Monday evening, Aug. 3, at 8 o'clock. Free to everybody.

Among the different parties looking for the office of Marquette county sheriff Sam Bennett wishes to notify his friends that he is in the field, and hopes that they will remember him before making promises to others.

A gentleman who returned from the Sault yesterday reports that there is a break in the machinery of one of the gates in the new lock, and there is some question if the locks will be opened Tuesday, as was originally expected.

Clara Christina, wife of John Carlson, died yesterday in St. Mary's hospital as the result of an operation. The deceased is forty-eight years of age. Besides her husband she leaves six children. Sunday afternoon at 3 is the time set for the funeral.

Mrs. Geo. H. Christy and family, Miss McVay, Mr. Tate, Pittsburg, Mr. and Mrs. Hempstead Washburne of Chicago, Walter Hill, Miss Hill and Miss Harter of East Liverpool, O., Dan H. Ball and George Ball of Marquette went to Pine River on the City of Marquette yesterday.

THE BANK OF FRANCE.

A Discussion That Will Arise on the Question of Renewing the Charter.

The subject of renewing the privileges of the Bank of France will shortly come up for discussion in the chamber, after having been in abeyance since 1892, when the senate approved a bill for the purpose.

That bill, says the Edinburgh Scotsman, has not since been modified, and the provisions included in it, it is thought, be adopted without material alteration. One of them, which was to empower the bank to increase its note issue from 3,500,000,000. to 4,000,000,000., was passed as far back as 1893. The charter expires on December 31, 1895, and the proposal is to extend it for a further period of 20 years from that date, in consideration of the bank making certain concessions to the state.

Among these concessions is one by which the bank is to forego all future interest on the government debt, amounting to 140,000,000., and not to demand repayment of the capital so long as the charter is in force. The bank is to undertake the service of the national debt and transact other business for the treasury, both at the head office and branches, free of charge, and make an annual payment to the latter of 2,000,000. during the first year of the currency of the new charter, and 2,500,000. per annum subsequently. It is to open several new branches, and make advances to agricultural co-operative societies.

It is not improbable that an effort will be made to convert the bank into a state institution, but such a project does not command support either in financial or ministerial circles, and is not in the least degree likely to meet with success.

FOLDING KITES.

A Novelty from France That Closes Like an Umbrella.

A novelty from France is a folding kite. Folded up it looks somewhat like a small rolled-up umbrella; opened out ready to fly its shape is like that of the kite commonly known as the bow kite. It has a single upright stick, which is 30 inches in length. The bow is formed of two light steel ribs, one on either side of the stick, which are raised into place and bowed into form, as the ribs of an umbrella are raised; there are braces running from the ribs to a metal band which slides on the stick, like the sliding ferrule on the handle of an umbrella; when the bow is raised and in place it is held there by turning a little metal button attached to the kite stick under the band to which the braces are attached. As the ribs are raised their inner ends, where they meet at the stick, near the top, bow up into a light metal holder which projects slightly on either side of the stick and which holds the two parts of the bow in line.

The kite is covered with light muslin; they are used in covering the kites muslins of various colors, so that some of the kites are red, some blue, and so on. The tail is of string with little parti-colored bunches of muslin cuttings attached along its length, as little bunches of paper are sometimes attached to string kite tails; at the end there is a little bag in which may be placed a marble or other weight, if more ballast is required, in a high wind.

Miss Lamphear, the dressmaker, has taken the agency for the joy method of dress cutting. She will continue to teach at the same price the general agent charged while here. (8-1)

Marquette Ideal Orchestra.

We, the members of the Ideal orchestra, wish to announce that we are open for engagements. We are still on earth. Address, Otto MUEHLBAUR, 413 High street. (6-30-1m)

WANTED, WORK!

The undersigned having been born and bred to mining and having served in and about mines as boy and man for over thirty years, desires work as a miner, timberman, engineer, blacksmith or mechanic—not as a handy man but as a skilled workman who thoroughly understands all these trades, and can produce testimonials to his ability and responsibility from the best mining men on Lake Superior. Having been idle for more than a year, and being now able to work again, I take this means of calling myself to the attention of mining men. Of those having need of a competent and experienced man in any or all of the callings named, I respectfully ask for a chance to show my references. Address JOHN E. HOSKING, Houghton (west side), Mich. July 23, 1896. (7-25-1f)

HOMING PIGEONS FLY BY SIGHT.

Believe the Most Careful Observers of Their Long Journeys.

What the peculiar gift is which enables the pigeon to return to its home from great distances is a matter upon which authorities disagree. The most general opinion among those who know anything of the subject is that the birds fly by sight alone. This theory would seem to be borne out by the fact that the best and most highly bred racing birds have frequently been lost in London fogs. The fact that instinct is unerring, and that the homing pigeon not only frequently errs, but exhibits at times great indecision as to the correct course for him to pursue, seems to preclude the idea that he is governed solely by instinct. The theory which is most generally accepted is that the bird is gifted with remarkable eyesight, and also with a memory for landmarks which is superior to a similar faculty in any other animal. That the bird possesses a high order of intelligence is shown by the fact that homers which have become lost in a race will frequently return to the room in which they have been kept at the starting point of the speed test.

In selecting homing pigeons for racing purposes, even the best fanciers often pick out birds as most likely racers that cannot fly 20 miles without becoming lost. The meanest, most scraggy looking bird, without a single good point, sometimes leaves its handsome competitor, who is, to all appearances, perfect in physical proportions, far in the rear. Still fanciers look with interest to four points in a homing pigeon which are considered of prime importance. The first of these is, strange as the fact might appear to a novice in the art, the eye. Mr. Star, one of the foremost and most successful of American fanciers, has this to say of the eye:

"The white eye may mean the cumulet, and if so, indicates that the bird will fly high, have great endurance and wing power. If the eye is dark, the head round, and the beak short and close-fitting, there will be a preponderance of the owl type and the result will be that the bird will fly at night than any other type. But whatever the character of the color, the ball must extend beyond the line of the head, and be so placed that the bird should have a view of what is behind as well as before it. When a bird returns from a journey over much new territory, this protrusion of the eyeball is greatly increased, showing to what a great strain the powers of vision have been subjected."

While Mr. Star, in common with other successful American fanciers, pays little or no attention either to the size or shape of the head, this point is the second at which European fanciers look with interest. It is generally conceded that the shape makes but little difference. The skull may be flat, long and narrow, or high, short and wide. But it must have room for the brain, and for a large brain at that, or else the bird is not considered a likely candidate for racing honors. Great stress is laid upon this organ by all Belgian and Holland fanciers, but in this country the feature is almost entirely overlooked.

The chest should be broad, and is of as great importance as the wing. A narrow-chested bird can fly no great distance without exerting the muscles which gives fullness to the breast beyond their endurance. The wings and tail should be both exceptionally long, as the tail acts as a rudder and the shorter wings require much added exertion for the same amount of flying.

The color of a pigeon has no significance, but the rule in breeding is to cross the colors when practicable. Even the best bred of the "homers" require most careful and intelligent training before they are entered in races. While the physique of the bird is well developed at the age of ten weeks, it is thought best to give a considerably longer time for the brain to develop before the bird is trained for the work which lies ahead of him. At the age of four months the first trial trips may be made, and he is then flown distances of between two and ninety miles, at intervals of two or three days apart. Many birds are lost in these trial trips, and those which return safely from the longer trial trips may be considered fit to enter in the young bird races. The shortest of these is 100 miles in length, and the birds are not supposed to be flown more than 90 miles before taking part in the speed trials.

For the young birds the system of training is supposed to accomplish two widely different results. In the first place they teach the young bird to return to his loft, and in the second they develop the muscles and prepare them for the hard work which the races will require of them. Training trips for older birds are made with the sole view of getting their muscles limbered up again and toughened for the longer races.—Chicago Chronicle.

American Amber.

The world's greatest source of amber is the shores of the Baltic sea. Amber is the fossilized resin of several species of pine trees. In small quantities it has been found in various parts of the globe, including the United States, but up to the present time no American deposit of amber extensive enough to be of commercial value has been discovered. Quite recently, however, amber has been found at Cape Sable, on the Magotho river, in Maryland, and this arouses the hope that it may yet be discovered in paying quantities in this country. The deposit at Cape Sable has been known since 1821, but only lately has a careful investigation of it been made. The fossil tree trunks in which bits of amber are imbedded are not, like those of the Baltic region, pines, but are believed by their discoverer, Mr. Arthur Bibbins, to be specimens of the sequoia.—Youth's Companion.

Chameleons always change their color on the approach of a storm, and assume a neutral hue, darker than their ordinary tint.

WHAT DOES IT MEAN?

Our business during the month of July beat all previous records. It means that the people are getting to realize that they can get what they want and good values at our popular place. Our Ice Cream Soda is the best on earth. Take home a pint or quart of our fine Ice Cream.

MARQUETTE, MICH., JULY 29, 1896.

# Ishpeming and Vicinity.

## A BIG REPRESENTATION.

Ishpeming's Fire Department Will Have It at the "Soo" Tournament.

But Ample Provision for Protection of the City While the Firemen Are Away Will Be Made.

Ishpeming will have a larger representation of firemen at Sault Ste. Marie next week than any other place in the upper peninsula. Fifty-four of the sixty active members of the department will attend the tournament there. Three of those remaining at home are John B. Pearce, John Lacy and Charles Regstrom, the former of Hoose company No. 1 and the two latter of Hook and Ladder company No. 1. Engineer Condon and the driver of the hose team, Martin McDonough, will also stay at home. In addition to three members of No. 2 company at Lake Angelina have agreed to remain here while the other firemen are at the "Soo."

While the city will be minus its regular firemen during the boys' four days absence others will take their places in case of fire, as each fireman has been requested to provide a substitute. Ex-Chief Pearce will be in charge of the department and he proposes bringing the substitutes to headquarters Monday and posting them as to their duties, locations of their coats, boots, etc., so that they will be ready for work on short notice in case their services are needed.

President Ronthier of the Upper Peninsula Firemen's association has been notified by Secretary Suppe of the "Soo" department that ten teams have thus far entered for the contests. These are from Ishpeming, Negaunee, Marquette, Republic, Michigamme, Hancock, Calumet, Ironwood, Bessemer and Sault Ste. Marie. The Baraga team is also expected to enter. Each team has put up an entrance fee, which will not be returned to them in case they do not participate in every contest for which they are entered. This will do away with some of the cunning work that was practiced here last year. No team will be allowed to drop out of a race unless the executive committee decides that they have good grounds for so doing.

### Ishpeming's Delegation.

The Republican city convention to select Ishpeming's delegation in the county convention to be held here tomorrow met at the Nelson House at the appointed hour, and organized with W. T. Potter as chairman and N. G. Robbins as secretary. The caucuses preceding were not marked by any notable contests. The delegates chosen are as follows, and it is understood that they are not favorable to the candidacy of Mr. Pingree for governor: H. O. Young, Richard Nichols, August Swanson, Thomas Walters, John Miner, Jr., John Jones, Carl Tellefsen, John Peters, George A. Newett, George Haslam, John Carlson, Robert Maxwell, John Mufgur, James Clancey, George B. Sedgwick, W. T. Potter, W. H. Johnson, N. G. Robbins, James Trebilcock, W. H. Road.

### Will Enlarge.

The members of Grace Episcopal Church society propose enlarging the church as soon as a sufficient amount of money can be raised in a general way to do the work. The width of the building will be extended as far out as the "wings" on the north and south sides. This will give an additional seating capacity of from 150 to 250. The cost of the extension will be about \$1,200.

It is not improbable that the improvement will be made this fall, soon after the rector's return from England. The improvements made about the church property during the past month have added very materially to its appearance. The filling of the grounds, painting the two dwellings and fence made a wonderful change in their looks.

### To Marquette Today.

Quite a number of Ishpeming people, aside from members of the local lodge of the Ancient Order of United Workmen, will take in the excursion and celebration of that order at Marquette today. A special train will leave here at 10:15 this morning for the accommodation of all who wish to go down. The fare for the round trip will be fifty cents. Returning, a special train will leave Marquette at 11 o'clock tonight. Tickets will be good on the regular trains leaving there during the afternoon. An entertaining program has been arranged for the day and all who attend will doubtless have a good time.

### Will Close Tonight.

The Columbian Comedy company will close its week's engagement at the Ishpeming Opera House tonight, when "Paw Ticket No. 10" will be produced. This is a comedy which has never been presented here. The company goes from here to Hancock, where the pavilion will be used. At the matinee this afternoon "A Lucky Number" will be the bill.

### Back from California.

Mrs. Mary J. Martin and her son, William J., have returned from California, where they have been for the past two years. They will now remain here permanently.

### Meeting of Mining Institute.

The annual meeting of the Lake Superior Mining Institute will be held in Ishpeming on Tuesday, Aug. 18. All the prominent iron mining men of the upper peninsula will be here. The local members of the institute have already begun arranging for the meeting. A program for the entertainment

of the visitors during the day will be arranged and the business session will be held in the evening at the Ishpeming Opera House.

### Sons of Herman Convention.

The annual convention of the grand lodge of the Sons of Herman of Michigan will be held next Monday, Tuesday and Wednesday at Escanaba. The local lodge will be represented by Thomas Kirchmer, J. J. Voelker, ex-grand president of the order, will also attend. They will leave here Monday morning.

### ISHPEMING IN BRIEF.

Miss Agnes Templeton of London, Ont., is in the city the guest of Mrs. T. W. Durham.

Mrs. George A. Newett and her two daughters got home yesterday from a trip on the lakes.

W. C. Brown, F. O. Clark and J. R. McKrand of Marquette did business in Ishpeming yesterday.

Miss Nellie Walters will entertain friends at her parents' home on North Oak street, next Monday evening.

Mr. and Mrs. J. W. Aisles and son, Master Edgar, are in the city, the guests of S. E. McKenney, of Lake street. Mr. Aisles is a prominent gas and furniture manufacturer of Detroit.

The ladies of the Chancel society of Grace church will have an abundance of ice cream and cake for all who call to see them at the "Keyes" block this evening. Cream will be served at ten cents per dish, with five cents extra for cake.

At the Presbyterian church tomorrow morning there will be a celebration of the Lord's supper preceded by the reception and baptism of new members and a "meditation" by the pastor. At the evening services Rev. D. B. Spencer of Marquette will preach. His theme will be "A Man—What, When, How." All will be made welcome.

### Russian Thistle.

The so-called "Russian thistle," or "tumbleweed," has found its way to the vicinity of Chicago, as it was sure to do sooner or later, and is causing no little annoyance to the farmers of northern Illinois and Indiana. It came, of course, along the railway lines with the stock cars, and great patches of it are now found on the outskirts of the city. It first got a foothold in this country over 20 years ago, having been brought by some Russian colonists who settled in the northwest. It soon took firm possession of the Dakotas, and began to spread itself over a dozen other states and territories. It is a pest that promises to make more trouble than the Canada thistle ever did. Already it causes a loss of several millions annually to the farmers of the northwest, and its ravages are increasing every year. Thus far science has been appealed to almost in vain for some effective means of getting rid of this extremely unwelcome immigrant.—Harper's Weekly.

### The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds and Lung Complaints, having used it in my family for the last five years. To the exclusion of physician's prescriptions or other preparations."

Rev. John Burgess, Keokuk, Iowa, writes: "I have been a minister of the Methodist Church for 50 years or more, and have never found anything so beneficial, or gave me such speedy relief as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial Bottles Free at E. Farnham's Drug Store.

### TWO BICYCLES GIVEN AWAY.

L. W. Atkins & Co. will give away two more Majestic bicycles, one on July 1st and the other Aug. 15. The chances on the wheel will be given out under the same conditions as the one given away recently and the drawing will be conducted in a similar manner. The bicycles are strictly high-grade and will be a credit to any wheelman.

### Another Bike Given Away.

Kahn & Skud will give away a Monarch bicycle, high grade, to the holder of the lucky number at a drawing to take place Sept. 1. A ticket good for a chance on the wheel will be given with every purchase of \$1. The bike is as good as the best. (7-17-1f)

### SATURDAY EXCURSIONS TO LAKE MICHIGAMME.

Commencing Saturday, June 30, the D., S. S. & A. R'y. will sell excursion tickets to Lake Michigamme and return at the low fares enumerated below. Tickets will be on sale for the train leaving Marquette 9:10 a. m., Negaunee 9:50 a. m., Ishpeming 10 a. m. Passengers will be left at the boat landing about one mile east of Michigamme station, where the steamer "Lake Michigamme" and "Picnic Barge" will take excursionists for a trip on the lake, giving them an opportunity of spending the day on the water and the beautiful islands of Lake Michigamme, returning in time to connect at the boat landing with the train leaving Michigamme 4:58 p. m., arriving at Ishpeming 5:35 p. m., Negaunee 6:35 p. m. and Marquette 6:35 p. m. The excursion rate includes the boat ride.

### REPUBLICAN STATE CONVENTION, GRAND RAPIDS, AUG. 5TH AND 6TH.

The D., S. S. & A. R'y. will sell tickets to Grand Rapids and return via Mackinaw City and the G. B. & I. R. R. at a rate of single fare for the round trip from all of its stations in Michigan. Tickets will be on sale August 3rd and 4th and will be good for return until August 8th inclusive. For further particulars apply to the station and ticket agents of the company. (7-23-11f)

### The World's Fair Tests

showed no baking powder so pure or so great in leavening power as the Royal.

### THE FASHION OF HEALTH.

Rules to Be Followed by Persons Desiring to Grow Strong.

It is continually said that women would as soon be out of the world as out of fashion; that they would follow fashion if it should lead directly to the grave. While this is an exaggeration, of course, it must be admitted that they are greatly attached to fashion, and that it is fortunate for them when it sets in wholesome directions, as it does now, and has done for nearly a generation. During all that time, at least, it has been the fashion to be healthy, and it is such to-day more than ever. We all like to see a woman sound and vigorous in body, with a good appetite, who can walk, and is fond of out-door exercise.

A very young person might think that it had never been otherwise; that nobody could, in recent times, have been foolish enough to regard favorably physical delicacy or any tendency to invalidism. But it is in the memory of people now living that pale complexions, very slender figures and frequent ailments were considered particularly interesting in young women. These were said to eat chalk, slate pencils and paper, and such substances as produce severe indigestion, accompanied by a colorless complexion and a languid manner suggestive of romance and extreme sensibility. This morbid fancy and feeling must have been the result of the Byron craze, which began early in the century and raged for 50 years. How bravely we have recovered from such mad and sentimental, such sickly fanaticalness, we of the present need not be told.

Women, young or not young, who are generally ailing, who have feeble constitutions and despondent moods, may be pitied more than in the past, but they have ceased to be attractive on that account. Thinness or bodily weakness of any kind is no longer idealized. But robust health, high vitality, genuine endurance, are thoroughly appreciated. So are good looks—but a man would rather see a healthful bronzed complexion gained by a woman's exposure to sun and wind than a pallid face that had been zealously shielded from unpleasant weather. He would rather see tanned hands with a firm grasp than soft, slender taper, nerveless fingers, caressing the strings of a harp or guitar. She is another creature than her grandmother or her mother was. She is clothed with new flesh, and she owns an altogether different system. Her nerves are far firmer, and her muscles have lost their flaccidity. She believes in sound health as the prime essential of life. To have it and to keep it are among the first duties she owes herself. She has grown to be a devoted and enlightened disciple of Hygieia, having disavowed various false divinities whom she once worshipped.

Drugs and physicians she does not cleave to as of old. She considers nature the great mediciner, discarding many artificialities, and trying, so far as she has light, to obey nature's laws. Home is not her sole allurements and her sole obligation, as it was in the era of her grandmother. She adds to its brightness, to her own well-being and comfort, as her mental expansiveness and her clearer judgment, by domestic contrasts and excursions abroad. She has become acquainted with the great world; she has stopped taking all her views at second hand. She is physically transformed; she gets pleasure, recreation, inestimable benefit from out-door sports. She swims, she skates, she runs, she coasts in winter, she rows, she rides a wheel, she goes fishing and hunting often, she vies with her brothers in athletic sports. She is what would have been called 30 years ago a perfect Amazon; and yet she has not relinquished a particle of her womanhood. In truth, she has rather broadened and deepened it. She is gentler ever, and much stronger; she has not parted with any of her tenderness; but she has acquired fresh development in divers directions. She has enlarged her activities and usefulness; she has mounted to a far loftier plane. She is, to express it mathematically, woman raised to a higher power.

There are inevitably some ultra-conservative people who, looking on any change with abhorrence, think that woman has deteriorated, not advanced, by her bodily betterment, by the acceptance of new opportunities. But they belong to the same class, though much later in time, as they who believed that gross ignorance in a woman was an added charm. We all remember the French courtier who asked the young lady of quality: "Are you not ashamed to write so well, you who have so much grace and beauty?" Perhaps there are human fossils to-day shocked to see so many fine women in unquestionable and superabundant health. But they can better afford to be shocked than the women can to return to the virtual invalidism prevalent throughout the republic only a few decades ago.—Harper's Bazar.

### Creamed Dried Beef.

For a family of six allow one-half pound of beef, two cups of milk, two tablespoonfuls of butter, two teaspoonfuls of flour. Place the beef in a frying-pan, cover with cold water, set on the fire and gradually heat to scalding. Take up and drain the water off and return to the stove, stirring and shaking the beef in the pan to dry off all the water. When this is done add the butter to the beef and cook until brown, stirring all the time. Add the flour to the fat, stir well, cook one minute, then add the milk. It will thicken quickly and should form a creamy dressing for the beef when done. Dust lightly with pepper when on the serving platter.—Boston Globe.

### Beneath Contempt.

Mrs. Figg—Tommy, why is it you never play with the little boy next door? He seems to be such a nice little boy.

Tommy—Aw, he's one of these sneaky kind of kids that says he likes his teacher.—Indianapolis Journal.

LOCAL LACONICS.

A new walk was built in front of No. 1 hose house yesterday. L. B. Sutton, formerly of Negaunee, is down from Ely, Minn.

Peter Trudell was called to Montreal, Canada, on account of the death of his mother.

Editor Griffey of The Iron Herald will spend the coming week in the lower peninsula.

Mrs. Roberts, sister of the late Dr. A. C. Mackenzie, has returned to her home at Ashbury Park, N. J.

D. C. Kingham and Miss Lizzie McGraw of Manistique, who have been visiting relatives here, returned home Thursday.

T. J. Flynn, secretary of the Upper Peninsula Firemen's association, will leave for the "Soo" on the early train Monday morning.

The passenger train on the Chicago & Northwestern line was nearly two hours late arriving here from the south yesterday morning.

Professor Krogman, who has been training the running team of the fire department, will accompany the boys to the "Soo" next week.

William Haupt, who has resided in Detroit for the past two years, spent the greater part of the week with Negaunee relatives and friends.

Rev. Father Langner has gone to Mackinac Island to spend a few days. Rev. Father Lagan of Ishpeming will celebrate one mass here tomorrow morning.

Mrs. J. D. Jeffery and her two daughters, who have spent the week with Negaunee friends, expect to leave today or tomorrow for Mexico to join Mr. Jeffery.

The Bole brothers and their friends from Cleveland, who are visiting at Palmer, spent yesterday down the line of the Chicago & Northwestern road fishing for trout.

Erick Mackey, a miner employed at the Queen, fell through a scute a distance of thirty feet Thursday and sustained a fracture of one of his legs. He was also quite badly bruised. His injuries will not prove fatal.

SOCIETY IN GUATEMALA.

Unspeakingly Dull for the Average Youth Brought Up in America. Life in Guatemala City to a foreigner, and especially a young man, says the New Orleans Times-Democrat, possesses about as much attractiveness from a standpoint of amusement as would a residence in a graveyard.

The Bole brothers and their friends from Cleveland, who are visiting at Palmer, spent yesterday down the line of the Chicago & Northwestern road fishing for trout.

Erick Mackey, a miner employed at the Queen, fell through a scute a distance of thirty feet Thursday and sustained a fracture of one of his legs. He was also quite badly bruised. His injuries will not prove fatal.

Seems as if consumption always picks out the brightest and best. Maybe it isn't so. Maybe it seems so because consumption is the most frequent of all diseases. Consumption kills more people than wars or cholera or yellow fever. Fully one-sixth of all the deaths that occur in the world are caused by consumption. And consumption can be cured. Doctors used to say that it was incurable, but the doctors were merely mistaken. It would be strange if medical science did not make some progress. Many things were once considered impossible. The electric light—all these were once impossible, and once it was impossible to cure consumption. That was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 98 per cent. of all cases of consumption. Consumption is a disease of the blood. It is caused and fostered by impurity in the blood. Purify the blood and restore the healthy action to the various organs of the body and consumption will be cured. It is by weakness and loss of vitality in the blood. It is certainly cured. Those who have consumption or any lingering bronchial, throat or lung disease, and those who are on the road to them, have a positive remedy at hand. Any condition of the body that indicates weakness, any indication of impurity in the blood, should be attended to at once. Loss of appetite, loss of flesh, loss of vitality, nervousness, weakness and unnatural weariness, are indications that the body is running down. Dr. Pierce's Golden Medical Discovery makes the appetite good, the digestion strong. It builds up solid, healthy flesh and vigorous strength. Thousands of people have testified that it has really saved their lives. Some of these testimonials, together with hundreds of things that everybody ought to know about health and sickness and how to cure them, are given in Dr. Pierce's "Common Sense Medical Adviser." This 1008 page medical work, profusely illustrated, will be sent free to you, if you will send one-cent stamps to cover cost of mailing only. World's Dispensary Medical Association, Buffalo, N. Y.

Alfred Taylor, MASTER.

LOST—A lady's chain watch, with gold chain, on Mitchell avenue, between Main street and the Finnish church. A reward will be paid the finder by returning it to J. D. Campbell at C. & N. W. depot. (7-29-1w)

DEATH TO THE DANDELION.

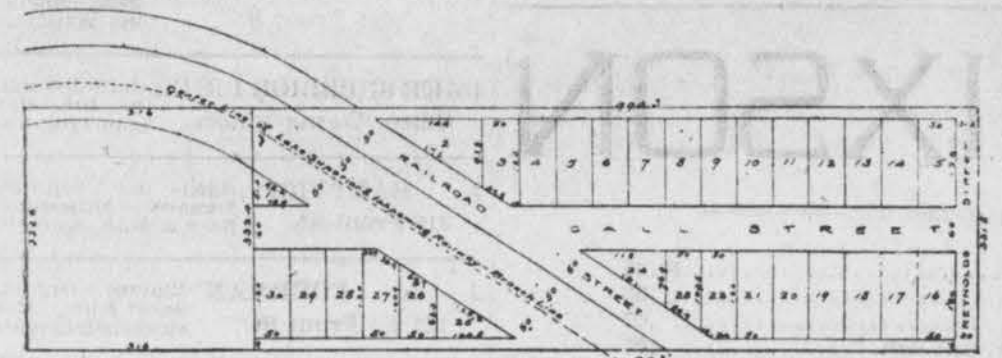

If the root of the dandelion is not extracted it will grow again. The tool is intended to be used in an auger around the root of plant or weed, and when buried deep enough in the ground, by an upward spiral movement of the tool, the weed foliage and root will be removed without cutting the roots, thus effectually cleaning a lawn or other surface from any objectionable plant. The tool is strongly made of steel.

Advertisement for 'THE BOSS' DANDELION PULLER. Patented Oct. 8, 1895. Includes illustration of the tool.

MICHIGAN LAND & IRON COMPANY (Ltd.)

PLAT No. 1 AT MARQUETTE, MICH.

Land situated just south of the shops and round house on the branch line of the L. S. & I. Ry from Presque Isle to Marquette, and in close proximity to its freight yards and docks. All these lots are within three miles of the center of the city.

For particulars, etc., enquire of the MICHIGAN LAND & IRON CO., MARQUETTE, MICH. (7-17-14f)

Letter from a Hancock Man.

HANCOCK, Mich., June 21, 1896. Gem Treatment Co., Marquette: GENTLEMEN—This is to certify that I, James Stephens, was troubled with piles for fifteen years and could not find any cure until I tried the Gem Treatment. After using three boxes I became a well man. I have no piles now. My age is fifty-two years. I work in the Quincy mine as a miner. Before I took the Gem Treatment I was not able to work one quarter of the time. I would like to have everyone who is troubled with piles to know what the Gem Treatment has done for me. It cost me three dollars and it did me more than five hundred dollars worth of good. Yours Respectfully, JAS. STEPHENS, Hancock, Mich.

Gem Treatment for Piles

is for sale by all up-to-date druggists and by the Gem Treatment Co., Marquette, Mich.

PUSHING THE WORK.

Good Headway Being Made at This End of the New Railroad. The contractors who are finishing up the work on the Lake Superior & Ishpeming railroad between Negaunee and Ishpeming are making good headway, considering the number of men employed. The iron spans on the bridge west of the Jackson bluff will be in place within the next few days. The bridge work near the Queen mine will also soon be completed. When this is finished the track laying and ballasting between the city and the mine will be finished up in short order. A number of men and teams are at work filling in a strip of the low land between the Standard Oil company's tanks and the Cleveland-Cliffs company's barn. Dirt for the filling is being taken from the hill near by.

The city convention held last evening in No. 1 engine house resulted in a victory for the supporters of Mayor Pingree. The caucuses were largely attended and considerable interest was manifested in them, as also in the convention. Mayor Kirkwood officiated as chairman of the convention and Thomas H. Harris was secretary. The following are the delegates to the county convention at Ishpeming today: P. B. Kirkwood, Robert G. Jackson, John A. Hogberg, Thomas H. Roberts, E. T. Treloar, T. H. Harris, L. T. Miller, Matthew Chester, Benjamin C. Neeley and George A. MacDonald.

Will Be a Good Turnout.

It is expected that about fifty members of Our Bono lodge, Ancient Order of United Workmen, of Negaunee, will attend the reunion of the lodge at Marquette today. There will also be quite a number of others who will take part in the sports at the Queen City. The special train put on for the occasion will leave Negaunee at 10:25 a. m. Tickets will be good on all trains during the day. The fare for the round trip will be fifty cents.

The Graduates All Right.

Some of the commercial travelers, and also the railroad men, who have seen the performances of the Georgia Graduates down the line report that they give a first-class entertainment. The company is doing a big business and it will doubtless be greeted by a large house here next Monday evening.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by E. Farnham.

My little boy, when two years of age, was taken very ill with bloody flux. I was advised to use Chamberlain's Colic, Cholera Diarrhoea and Remedy, and luckily procured part of a bottle. I carefully read the directions and gave it accordingly. He was very low, but slowly and surely he began to improve, gradually recovered, and is now as stout and strong as ever. I feel sure it saved his life. I never can praise the remedy high enough. I am sorry every one in the world does not know how good it is, as I do.—Mrs. Lina S. Hinton, Grahamsville, Marion Co., Florida. For sale by The Stafford Drug Co.

Boiling River

It is sure enough. It is not as large as the Mississippi, indeed it is quite small, but a mighty interesting stream for all that. It issues from the sides of a mountain in a thousand tiny rills, more or less, and of almost as many colors. These gather themselves into pools and lakelets on the mountain's side, covering an area of about 200 acres. Overflowing their boundaries they slowly trickle down the sides of the mountain forming small cliffs, the most wonderful in the world. From a distance one can hardly believe that the eyesight reveals—white, black, orange, lemon, terra cotta, green, blue, red, pink, separate and in manifold combinations stand out before him. It is a hill of painted cliffs on the sides of the mountain that rises high above. And the odd part of it is that each of these exquisite colors represents a different temperature. Does that startle your credulity? Even so it is true.

When through with this beautiful painting process, these waters again come together and then, as if full of mischief, a pack of small boys trying to play hide and seek, dive down and remain under the ground for a space of two miles and then flow out from the mouth of a cononynta as one of the clearest, most beautiful, green streams imaginable. Where these waters emerge from the mountain into the little lakes they are hot, boiling hot. During their dark underground journey they fall several hundred feet and also many degrees in hotness, so that when they again see daylight they are much cooler. This then is Boiling River, an underground mountain stream of hot water. But you ask, where is it? Where can I see it? It is in Yellowstone Park at Mammoth Hot Springs. It is one of the lesser, mind you the lesser—wonders of this land of wonders. Go there and see it by all means but first send to Chas. H. Fee, General Passenger Agent, Northern Pacific Railroad, St. Paul, Minn., six cents for Wonderland '96, that tells all about this renowned region. (7-24)

**PINGREE VERY MUCH IN IT.**

**Marquette Sends a Solid Delegation to Ishpeming Instructed for Pingree.**

**DETROITER GOT EVERYTHING EXCEPT THE EIGHTH WARD.**

**Health Officer Harkins Tells How to Stop the Barber's Itch Epidemic—Detroiters Go Home Today—Female Beggar.**

**LANDSLIDE PINGREE'S WAY.**

If there is anything Pingree wants in Marquette he can have it unless he happens to choose the eighth ward. Friends of Bliss by active plugging managed to hold that one for the machine candidate. The other seven went solid for the Detroit. Pingree managers had some doubt about being able to take the third, but hard hustling on the part of all the Pingreeites in that ward won it for the reformer. Elsewhere in the city there was small opposition to Mr. Pingree.

All the ward caucuses were held at seven in the evening, and the city convention not till an hour later in the city hall assembly room. This was fairly well filled with delegates and auditors. The complexion of the assemblage was very much Pingree.

City Chairman J. A. Van Evert called the meeting to order and received the nominations for permanent chairman. George Wagner was named for this position and was unanimously elected to it. In accepting the office Mr. Wagner made an appropriate speech which received enthusiastic applause. B. O. Pearl was named as secretary of the convention and elected without opposition.

Next in order was the appointment of the committee on credentials. The chair named as this committee John Beardon, John Tobin and Alfred Eastrom. While they were examining the credentials a recess of five minutes was taken by the convention. At the end of this time the committee had finished its work and brought in the following list of approved delegates:

- CITY CONVENTION DELEGATES.**
- First ward—Martin Gorman, M. W. Shea, James Flannigan.
  - Second ward—John E. Tobin, Samuel Bennett, William Jansen, Carl Williams.
  - Third ward—B. O. Pearl, Edward Farnham, H. F. Handford, C. H. Kelsey.
  - Fourth ward—George Wagner, J. F. Niedhart, William Jellison.
  - Fifth ward—Frank Ralph, W. A. Ross, William J. O'Meara, E. E. Homier.
  - Sixth ward—Alfred Eastrom, James Jamieson, Jacob Smith, John Beardon.
  - Seventh ward—Richard Mitchell, Charles T. Lawrence, Walter T. Ward.
  - Eighth ward—W. A. Brown and M. E. Asire.

The report of the credentials committee being accepted a committee of five was appointed to select the delegates to the county convention. On this committee were C. H. Kelsey, Joseph Niedhart, Charles Lawrence, Martin Gorman and James Jamieson.

Every delegate chosen by this committee is an out and out Pingree man. Here they are:

- DELEGATE LIST.**
- C. H. Kelsey, O. G. Youngquist, George Wagner, B. O. Pearl, J. F. Niedhart, John Beardon, Martin Gorman, H. F. Handford, Sam Bennett, W. A. Ross, Richard Mitchell, F. A. Ralph, George Drollet, W. J. O'Meara, George Homier, Willis Maguire.

**PINGREE FIRST AND LAST.**

On motion of W. A. Ross the delegation was instructed to vote for a solid Pingree delegation to the state convention. Ross' motion was carried with a burst of applause.

The convention adjourned. When the house had risen to its seat somebody cried: "Three cheers for Pingree!" They were given with a vim that shook the roof.

Immediately after the adjournment the Ishpeming delegation got together and selected C. H. Kelsey as its chairman and W. A. Ross for secretary.

The delegates go up today on the nine o'clock train. Carriages have been sent out into the country to get the township delegates so they will not fail to be on time.

**To Stop the Epidemic.**

In view of the fact that the skin affection, known as barber's itch, has attained the proportions of an epidemic, the health officer deems it advisable to give to the barbers in particular, and the public in general, some information regarding the disease, in the hopes that the precautions advocated may soon result in its speedy disappearance. Says Dr. F. McD. Harkins:

"The disease, medically known as *Trinea Sycois*, is dependent for its propagation, transmission, and effects, upon a contagious, microscopical, vegetable fungus, usually transferred from one victim to another through the medium of razors, towels, straps and other accessories of the barber's shop. The fungus penetrates the hair-follicles and there multiplying, causes inflammation of the root-sheath and consequent formation of crusts and suppurative processes until the application of antiparasitic remedies check its extension and restores the integrity of the skin. Prevention can only be successful by strict adherence to the following rules on the part of the barber:

- "First, absolute cleanliness, effected by washing his hands thoroughly after each shaving in some antiseptic solution, say of carbolic acid (obtained in any drug store) 30 to 40 drops to a quart of water.
- "Second, boiling all razors, scissors, clippers and other tools in water (to which a little baking soda is added to prevent rusting) for a few minutes, or what is more convenient, dipping the cutting portion of all tools in a bath of pure carbolic acid for 15 or 20 seconds and then washing the whole instrument in the weak carbolic solution.
- "Fresh napkins and towels should be used for each patron. Magnesia, alum or other toilet dressings should not be

applied by the hands direct but by powder blowers or atomizers. "The public soap-suds should be thoroughly scalded before and after each shaving and have connected with it at least two brushes, the one to be soaking in an antiseptic solution—(say of leisterine one ounce to the pint) while the other is being used."

**Good Bye Detroiters.**

At 8:45 this morning the special which is to take the Detroit party to the point will pull out of the depot, and the aldermen, supervisors and others will start on their way to the lower part of the state loaded down with the good wishes of the upper peninsula generally and Marquette people particularly.

Judging from everything they say the aldermen are in a reciprocal mood. They have been given an opportunity to see the peninsula, its many resources and natural beauties, and they have been handsomely treated on the trip and they know it. They appreciate it.

Yesterday they were left to amuse themselves, but with Marquette's many attractions at hand none of them seemed to find it difficult to kill time. Quite a number of the visitors took in the prison, and others went out to take a second look at Presque Isle. Some of the hotter politicians put in a little time quietly plugging for Pingree.

In the evening they were the guests of honor at a swell reception and dance tendered them at Hotel Superior. In addition to the aldermanic party there were some 200 of the best people of Marquette in attendance upon the function. Till midnight the time was spent dancing in the pavilion to the delightful strains of Salisbury's orchestra. The refreshments were served there.

The reception last night was not only the best attended, but the swellest function given at the hotel this season.

**New Beggar in Town.**

The latest mendicant to strike Marquette is a woman who is canvassing the city from door to door and taking anything that her pitiful tale of woe will induce sympathetic souls to give her. She has been operating here about a week. Unmindful of the adage that liars should have good memories, she has not taken the trouble to have her various stories correspond, and none of them tally with the facts as stated by a doctor who made a professional visit to the house. The main thread of her story, round which numerous variations are woven is that she is begging to get food and clothing for an invalid husband and from three to six small children. She represents that they are in a state of absolute destitution, with not a bite to eat and hardly a rag to their backs.

The doctor says that the husband is not a confirmed invalid, though an attack of cramps necessitated the call. Instead of being without clothing three trunks, jam, stack full, almost blocked his entrance to the living room. The six children of the story dwindle down to one in fact, and the husband admitted that one was all there were.

**Today's Ball Game.**

Duluth will play at the fair grounds against Marquette today. The mere announcement of this fact is enough to draw every ball crank in town to the grounds. The lake enders have a reputation for playing good ball, and they have proved their capacity here already this season. They are one of the few clubs which have taken a game from Marquette on the home grounds this year.

Since they were here last time the Marquette club has been strengthened with the addition of two imported players. Manager Shea promises also to have a new pitcher in the box, a man from the lately disbanded Western association, who can throw all around the "Escanaba ringer." With Smith and Stronach on the bench the club will not lack for pitching material.

The game Saturday will begin at 3:30 which will give just comfortable time for the crowd to get out to the grounds after witnessing the lite saving exhibition in the bay. Both teams will march out headed by the Marquette City band.

A stomachful of undigested food is about as unhealthy a mass as one can well imagine.

What can be done with it? There it stays! It won't digest, it churns up, ferments and decays; becomes poisonous (as all putrid matter does) and causes great pain and deep-seated disorders.

In order to change all this, take Shaker Digestive Cordial.

It stops fermentation and decay at once, so that no more poisons are created. It clears the stomach of poisons already there. It helps to turn the food that remains into healthful nourishment. It strengthens the stomach for the next meal.

Here is the whole philosophy and cure of indigestion in a few words. And what's more, it's all true. Try it.

Shaker Digestive Cordial is for sale by druggists, price 10 cents to \$1.00 a bottle.

Hundreds of people have visited the Marquette City dairy this season to investigate the stock and stables and learn why there is so much more demand for Vandenberg's fresh milk and Jersey creamery butter than for any other. Many of them remark: "It is no wonder there is a big demand for these goods; just look at the excellence of everything connected with the business."
