wear a larger shoe than a size 4. That is, only about one lady out of every 16 wears a smaller shoe than a number 4. For this reason our stock of small sizes is large. As the price of goods is governed by the law of supply and demand, i. e., when goods are scarce and money plenty prices are apt to be high. When goods are plenty and money scarce prices are low. The latter is the fix we are in. Lots of small sizes and we want money. You can readily see why we are selling Armstrong's \$3 and \$4 low shoes at \$1.75 and we have no objections to

CZAR REED RENOMINATED.

Selected by Acclamation to Represent the First District of Maine in Congress.

NOMINATE HIM FOR THE TENTH CONSECUTIVE TIME.

Gives His Views of the Money Question in a forcible oration—Convention Endorses St. Louis Platform and Candidates.

FOR THE TENTH TIME.

PORTLAND, Me., Aug. 6.—Thomas B. Reed was today renominated by acclamation for congress by the Republican convention of the First district. This is the tenth successive term for which Reed has been nominated.

In putting Reed in nomination W. C. Chapman expressed a regret that he was not the presidential candidate of his party. "But," he said, "we are bound to put aside our feelings of disappointment, and we are now looking forward to the time when Reed will become the Republican standard bearer, and as president of the United States will still further honor his district."

After his nomination Reed was escorted to the platform amid loud cheering. After thanking the convention for the unanimous nomination, Reed said:

"We in Maine have got to make up our minds on a great issue this campaign, and a great deal depends on what we do in September. When we see two men standing on the corner and both men seem to be somewhat uneasy and unable to fully comprehend what they are talking about, you may rest assured they are talking about the currency. I shall not attempt to fully explain the currency question to you, but I shall say something about it.

"The only question is what monetary system is best? You hear a great deal about bimetalism. The platform of the Chicago convention was not a bimetallic platform, and don't let them make you believe that bimetalism is what they are after.

"What the object of bimetalism is to give the currency a greater stability by spreading it over more surface."

Reed, after citing an illustration or two, took up the history of the currency question from 1782 down to the present time and concluded as follows:

"You say our prices have gone down and they are going down on account of the appreciation of gold, and therefore we want to change it into silver so that it will go up again.

"Whether gold has appreciated or not, I do not suppose any man knows; but whatever its appreciation has been, it has been a long time doing it, and its effect upon prices, in my judgment, has been nothing.

"Democrats talk about the fall in prices of cotton and wheat because gold has appreciated in value. My friends, everyone in this country is liable to meet with some trouble in his business. More people go into business, and the profits of business decrease because there are so many to divide them.

"Why has wheat gone down? Not because silver was demonetized, but because Russia and the Argentine Republic are raising millions of bushels of wheat, and they can sell it here as cheap as our farmers can.

"Now we will always have money even if we demonetize every dollar of gold and silver in the world. And we may have silver money, perhaps, but are you any better off if you have your property reckoned in half dollars, as it will be on silver basis, rather than in dollars as it is at present. No, we don't want silver, because the road is a thorny one to travel and after you travel it, it will be still more thorny, and get rougher.

"Credit plays a great part in the silver question. If your merchant buys goods from England you will find that his credit amounts to a great deal, and on a silver basis we will pay big sums for this credit. This is why merchants do not want a silver basis. They say that on a silver basis you will scale down in our debt one half; would you do it, and deprive the men you owe of one-half of what you owe them? Shall the nation do it? I say no, and from no sentiment do I make this statement, but from a selfish reason. We must preserve our credit in the world and if we adopt a silver basis we will ruin it the world over. We want no silver basis to help us out in these hard times because a silver basis is dishonorable. Distrust was what brought on these hard times in 1893, and the hard times will last until we turn down these silverites, and when we settle this thing for good and all in November, we will hear no more of hard times."

Following Reed's speech, the committee on resolutions reported and the convention adopted a strong endorsement of the action of the St. Louis convention, and pledged its loyal support to McKinley and Hobart.

HIS CAMPAIGN OPENS.

Candidate Watson Says Populists Can't Abide Sewall.

ATLANTA, Ga., Aug. 6.—Thomas E. Watson, Populist candidate, opened the vice presidential campaign here tonight with an address two hours in length, delivered before an audience of 3,000 people.

Watson appealed at the outset for a non-partisan hearing, declaring that he spoke with bitterness to none, and on behalf of the men who held the plow, who pulled the hoe, who wielded the hammer. If God gave him strength, he declared, he would plead the cause of these people, through the pens of the reporters present, before sixty-five millions of people in the morning. He entered into an enumeration of the reform de-

mands of the People's party, indicting the government for high crimes and misdemeanors in granting the privileges of the government and power of making money to a special class; in unfair levying of taxes which laid heavy hand of tribute upon those least able to sustain it; in closing the mints to the free and unlimited coinage of silver; in leaving the great public highways of the country in control of grasping corporations who levied tribute upon the people, who were compelled to use them, and in corruption of the ballot. He explained at length his course in leaving the Democratic party after having been elected to congress as a Democrat and by the machinery Democratic party. Recent events, he declared, had vindicated his course. Continuing, Watson said: "At Chicago the Democratic politicians swallowed our platform and they thought they had caught the bear, now, when after the Chicago convention they thought they had caught the bear, now, since the St. Louis convention, they are beginning to feel sure that the bear caught them. We can stand by Bryan. He has been with us and has fought for our policies, but when we are asked to swallow Sewall be beg to be excused. He does not represent our platform." Concluding, Watson made this significant statement: "We are not going to put up any candidate against Bryan. We are going to vote for Bryan, whether Sewall is withdrawn or not. I'm going to manage this campaign so that William J. Bryan gets every vote we've got. I see the dread evils of McKinleyism threatening us, and I fear if we are defeated in this fight McKinleyism will have been enthroned forever. I shall tell my people to stand by the contract made at St. Louis. Let Bryan have every vote you can muster." "What are we going to do in our state conventions?" was asked. "We're going to put out a full electoral ticket for Bryan and Watson," he said. "We can't vote for Sewall. Then we'll empower our committee to take off part of our electors and put on part of yours whenever the Democratic committee refuses Sewall. The Democratic managers may have made up their minds to put Tom Watson down and keep him down, but I thank God the people of the south have entered into no such contract. Let it be known henceforth that the south and west will never again sit at the footstool of the north." Watson was cheered at frequent intervals and his peroration was followed by a long continued storm of applause.

BUSINESS TROUBLES.

Three Banks are Closed—Quarter of a Million Failure.

NEVADA, Mo., Aug. 6.—Under an order of the Vernon county court the sheriff today closed Conkling Bros. banking house in this city; also the Bank of Bronough, and the Bank of Richards, all property of Conkling Bros. The action of the court is based on a report by the state bank examiner that the business is being conducted unsafely. A member of the firm says the banks will pay all indebtedness in full.

CHICAGO, Aug. 6.—C. H. Fargo & Co., one of the oldest wholesale boot and shoe firms in the city assigned today. The failure is the result of a confession of judgment in the federal court on notes aggregating a hundred and seventy thousand dollars in favor of the United States Rubber company and L. Candee & Co. Close upon this came a confession in the circuit court for \$25,000 in favor of the Metropolitan National bank. Assets and liabilities are not scheduled.

PHILADELPHIA, Aug. 6.—Boyd Harley & Co., carpet dealers, have failed. Their liabilities are over a quarter of a million, and the nominal assets are three hundred and fifty thousand.

NEW ORLEANS, Aug. 6.—The American National bank failed to open its doors this morning, the management having decided to go into liquidation.

MINISTERIAL FIEND.

Alleged That He Tried to Poison His Wife.

ST. PAUL, Minn., Aug. 6.—Rev. J. C. Hull, a preacher, was arrested last night at the request of his wife, charged with attempting to poison her by the administration of poison in repeated small doses. When he appeared in police court today he had no attorney and as neither side was prepared to proceed the case was continued for ten days. Hull is held without bail. The matter has caused a great sensation in this section. Hull became prominent a year ago when he made certain charges of persecution against certain members of his congregation, he being at the time pastor of the Clinton avenue M. E. church.

LONDON, Aug. 6.—The government suffered a defeat in the house of lords today where the Irish land bill is being considered in the committee stage. The government refused to accept the amendment but it was adopted by the house of lords, 137 ayes to 67 noes.

PINGREE ON THE FOURTH.

Michigan Republicans Will Run the Popular Mayor of Detroit for Governor.

MANAGERS OF PINGREE'S CAMPAIGN DID CLOSE FIGURING.

Made Gains On Every Ballot—Pingree Got Most of the Votes From Breaking Delegations.

DUNSTAN FOR LIEUT. GOVERNOR.

Temper and Temperature of Convention Hottest Ever Known.

DETROITER WINS THE BATTLE.

Governor—Hazen S. Pingree. Lieutenant Governor—Thomas B. Dunstan of Houghton. Secretary of State—Washington Gardner (present incumbent). Treasurer—Geo. A. Steele of St. Johns. Auditor—Roscoe D. Dix of Benton Harbor. Attorney General—Fred A. Maynard of Grand Rapids. Commissioner of State Land Office—William A. French (present incumbent). Superintendent of Public Instruction—Jason E. Hammond of Hillsdale. Member State Board of Education—John W. Simmons of Owosso.

GRAND RAPIDS, Aug. 6.—The Republican state convention reassembled at ten this morning. A motion to divide St. Clair county, giving Bliss and Pingree each eleven votes, adopted.

After nominating and seconding speeches the convention proceeded to ballot for the nominee for governor. The first ballot resulted: Pingree, 339; Bliss, 286; O'Donnell, 83; Wheeler, 47; Conant, 22; Aitken, 56; number necessary to elect, 417. On the second ballot Pingree had 358, Bliss, 297.

NAMED IN THE FOURTH.

On the third Pingree was but 13 votes short of a majority. He was nominated on the fourth ballot amid tremendous enthusiasm. Pingree received 449 votes on the last ballot, and Bliss 293. On motion of one of the other leading candidates Pingree's nomination was made unanimous and the convention took a recess until 4 o'clock.

THEY FIGURED CLOSE.

GRAND RAPIDS, Mich., Aug. 6.—The Republicans of Michigan closed one of the most exciting conventions ever held by their party at 8:30 this evening. The fight over the candidate for governor, which ended with the nomination of Hazen S. Pingree, Detroit's famous mayor, has been on since early last winter.

Pingree men had predicted 350 votes on the first ballot for their favorite, and lacked only eleven of fulfilling their prediction.

Bliss managers had estimated their strength at 340 and showed only 286. The others, O'Donnell, Aitken, Wheeler and Conant, held their accredited strength and a deadlock seemed apparent until the chairman ruled that the unit rule had no place in a Republican convention. Then the various delegations that had been instructed to vote as a unit began breaking up and Pingree got most of the odd votes, and the fourth showed Pingree with 443, while Bliss had fallen back to 287.

All the other candidates, except Bliss, joined in declaring Pingree the unanimous choice of the convention. In his speech of acceptance Mayor Pingree did not mention the silver question, ignoring requests for a statement of his position on that issue. Colonel Bliss and other defeated candidates pledged their support to the victor. The remainder of the ticket is made up as above.

The convention adjourned at 8:30 p. m., closing the hottest convention in temper and temperature ever held in Michigan. Congratulations by telegram are pouring in from all over the state and county to Pingree.

WILL SUPPORT THE NOMINEES.

Hill Will Climb Into the Democratic Bandwagon

NEW YORK, Aug. 6.—Tomorrow morning the World will say: Senator David B. Hill will support the nominees of the Chicago convention. A formal announcement of his position, it is said, will be made public within a very few days. The above facts, the World will say, were learned by Senator Jones, chairman of the Democratic national committee, while on a visit to Mr. Hill at Normandie-by-the-Sea Wednesday night. Senator Jones returned to the city this morning and immediately left for Washington and will return to this city next Monday night. His meeting with Hill is said to have been a cordial one. To a personal friend, the World will say, Senator Jones remarked significantly, "Hill is all right."

QUAY'S LAST TERM.

Senator Wants to Get Acquainted With His Family.

PITTSBURG, Aug. 6.—Before leaving for the south today Senator Quay stated to a Dispatch reporter that his present term would be his last in the senate. He said:

"It has often been said by others but I have never said it myself, until now. At the expiration of my term in the United States senate I will refuse any renomination, and instead will retire from politics and spend the balance of my time getting acquainted with my family."

Young man, we would take a little of the conceit out of you. Don't think that the girl you intend leading to the altar is marrying you for love, 'cause it isn't so—she's marrying you because she's unable, or disinclined, to provide herself with board and lodging for the rest of her days.

It robs them
of their terrors
—by taking
away that
clothes-destroying,
back-breaking
rub, rub,
rub. What
does the work
of washing
amount to,
when all you
have to do is to put the things in to soak and boil—and then just rinse them out? That's the Pearlina way of washing—easy for women and easy for clothes. In all kinds of cleaning, too, you get rid of that tiresome rubbing. Any one can see what it saves. And remember, no matter how you use Pearlina, it's absolutely and entirely harmless.

Pat Savage left on his wheel for Swanzy yesterday.
Miss Josie Gaffney arrived in town yesterday on a visit.
Mrs. W. M. Jeffery of Cleveland was a visitor in town Wednesday.
Mrs. Kline and her daughter Grace returned from Milwaukee Wednesday.

The merry-go-round is doing a very remunerative business here, it being kept going until nearly 11 o'clock Wednesday evening.
A meeting of the Clerks' association will be held this evening in Winter's Hall at 8 o'clock. Every member who can possibly attend is requested to be present.
Professor W. J. Clain will lecture at St. George's hall on phrenology and anatomy. The date is not settled, yet but it will be either Saturday or Monday evening next.
The band boys sent a telegram yesterday to J. E. O'Donoghue requesting him to inform their employers at the mines that they will not return till Saturday, one day later than they expected.
A woodsman from down the road was in town Wednesday and in the evening was seen on the streets with a good sized load, and a button in the lapel of his coat bearing the inscription "Never Touched Me."
Martin Joyce and Harvey Sawbridge left yesterday morning on their wheels for Escanaba. They succeeded in getting as far as Swanzy when one of them punctured his tire and both came back most of the way on foot, reaching here at 3 p. m.
Mayor Kirkwood received a telegram from Geo. Wagner yesterday at 2:30 p. m. from Grand Rapids, acquainting him with the news of Pingree's nomination. This was the first dispatch received in receipt of that effect and immediately on receipt of it the mayor had his flag raised on his building in honor of the event.
A little four-year-old boy, Eddy Chalifons, was knocked down yesterday by a young man who was riding his wheel at full speed on the sidewalk in front of the Kirkwood block. He was racing with a cyclist who was riding down Iron street. The lad received quite a shaking up, but no bones were broken.

Electric Bitters.
Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, Constipation, Dizziness, yield to Electric Bitters. 50c, and \$1.00 per bottle at E. Farnham's Drug Store.

Boiling River
It is sure enough. It is not as large as the Mississippi, indeed it is quite small, but a mighty interesting stream for all that. It issues from the sides of a mountain in a thousand tiny rills, more or less, and of almost as many colors. These gather themselves into pools and lakelets on the mountain's side, covering an area of about 200 acres. Overflowing their boundaries they slowly trickle down the sides of the mountain forming small cliffs, the most wonderful in the world. From a distance one can hardly believe what the eyesight reveals—white, black, orange, lemon, terra cotta, green, blue, red, pink, separate and in manifold combinations stand out before him. It is a bill of painted cliffs on the sides of the mountain that rises high above. And the odd part of it is that each of these exquisite colors represents a different temperature. Does that startle your credulity? Even so it is true.
When through with this beautiful painting process, these waters again come together and then, as if full of mischief like a pack of small boys trying to play hide and seek, dive down and remain under the ground for a space of two miles and then flow out from the mouth of a canyonita as one of the clearest, most beautiful, green streams imaginable. Here these waters emerge from the mountain into the little lakes they are hot, boiling hot. During their dark underground journey they fall several hundred feet and also many degrees in hotness, so that when they again see daylight they are much cooler. This then is Boiling river, an underground mountain stream of hot water.
But you ask, where is it? Where can I see it? It is in Yellowstone Park at Mammoth Hot Springs. It is one of the lesser, mind you the lesser—wonders of this land of wonders. Go there and see it by all means but first send to Chas. S. Fee, General Passenger Agent, Northern Pacific Railroad, St. Paul, Minn., six cents for "Wonderland '96," that tells all about this renowned region. (7-24)

Identifying Them.
New Housemaid—Who is that elegant looking young lady, cook, that I met coming in?
Cook—That was me sister; been to call on me.
"And that stylish lady in blue silk?"
"That's our laundress."
"Then who was the plain old woman in black?"
"That's the missus." — Detroit Free Press.

A Dietetic Hint.
An English professor recommends to persons suffering from dyspepsia, consumption and anemia, or any who need to take on flesh, to eat very thin slices of bread and butter. The idea is that it induces people to eat much more butter, a quality of fat most essential to their nutrition in a form against which they will not rebel.—N. Y. Sun.

If the root of the dandelion is not extracted it will grow again. The tool is intended to be used as an augur around the root of plant or weed, and when buried deep enough in the ground, by an upward spiral movement of the tool, the weed foliage and root will be removed without cutting the roots, thus effectually cleaning a lawn or other surface from any objectionable plant.
