A MIGHTY HUNTER.

is located the operating machinery and Joseph Mahn, of Elk county, once famous as a mighty hunter, died a few Including the approaches the great days ago, nearly 90 years old. It was work completed will cost in the neighless than ten years ago that failing eyeborhood of \$5,000,000. The work was sight compelled him to give up his life commenced under the supervision of in the woods. He had hunted and the late General O. M. Poe, who lived trapped in the Pennsylvania woods to see the great undertaking practically since 1820, and the stories of his exploits are household words in the west-THE FATE OF TOMPKINS.

ern and northern portions of this state. He remembered when elk were yet The surprise of the Grand Rapids numerous in the state, and one of his convention was the turning down of favorite stories was of the time when O. C. Tompkins for auditor general. he was a boy and went with his father He was early in the field for the nomion an elk hunt. They followed the elk nation and as he had been connected from the headwaters of the Alleghany with the office he stood in the line of river until it crossed the river below promotion. His candidacy was almost where Oil City is now, and led the chase unanimously endorsed by the Republiinto Ohio, where, on the third day of can papers of the state, whose publishthe hunt, it was killed not far from ers took it for granted that he would what is now Mansfield.

This old woodsman ended his career as a hunter and trapper by a series of successes which he declared were the most satisfactory to him of all his exploits. He was trapping in Center county, and had four bear traps out. He started out one morning to look after them. The first trap he visited had done good work. It had a big bear in it with a magnificent coat of fur. The old trapper shot the bear and went on to another trap. That one had friends in the convention had another a surprise for him. It was not a bear, man slated for auditor general and he but an ugly, glaring, snarling catagot the place on the ticket that Mr. mount, the largest one Mahn had ever Tompkins confidently looked on as seen in all his career in the forest. It

was not only ugly, but extremely tough, for the trapper had to shoot it five times before it would die. This trophy was over-four feet long.

After killing the catamount Mahn went on to the third trap, and there he found awaiting him a monstrous oldtimer of a he bear, caught in the trap

by both fore feet. How the bear man-THE MINING JOURNAL has long susaged to get both feet into the trap was pected that this was the case, but it something Mahn could not understand, did not expect to be furnished with as it was a thing unheard of in bear such conclusive proof of the soundness trapping. This bear was a savage old of that opinion in the fate of O. C. chap, and resented its capture with so much tenacity that he would not give The nominee for auditor general, up until four rifle bullets induced him Mr. Roscoe D. Dix of Benton Harbor, to. That three traps in succession should have yielded each so fine a prize is a man of good ability and high standwas enough to astonish even a veteran ing in his party. He will make an excellent official, if elected, of which trapper, but when the fourth one came to the front with a third bear, as fine as there can be hardly any doubt, as the either of the others, the old trapper reticket headed by Mr. Pingree will joiced gneatly. It was a trapping event sweep the state, from present indicawithout precedent in the Pennsylvania woods, and as it was a fortnight since Mahn had shot the biggest buck on record as having been killed in the state.

THE STRONG JAW. When Found in the Human Species It is a Form of Ataviam.

Among all old world apes the teeth are the chief weapons for defense Infests the blood of humanity. If against natural foes and for combats for mates or for tribal supremacy, says are in most cases enormously developed, insomuch that ill-informed naturalists have suggested that a near relationship must exist between the primates and the carnivora. As a matter of fact these formidable teeth have nothing to do with alimentation, but are as purely weapons of war as are the bayonet and the Maxim gun. In practically every two inches across formed and in walking emergency demanding unusual energy, obstinacy and courage, they come into play.

great and powerful anthropoid, it is ab- the swelling had gone down. My solutely and brutally necessary to have

a large and strong jaw, to give firm attachment to the teeth and good leverage to the muscles. That for an immense epoch our prehuman ancestors achieved success in life in like manner is as clear

as the print of "Maga" to those who fited otherwise. I have increased in have learned to read nature's handwrit- weight and am in better health. I cannot ing. .

Since those days of true Arcadian simplicity our life has become bewilderingly complex, and our methods for settling social difficulties have changed generally for the better. But here, as in so many other instances, the habits of a past age have left an indelible impress on the nervous system.

BLUFFED OUT OF A BIG ROLL

Bold Plan of a Robber in Denver to Raise the Wind.

Mr. Moffat is the Denver banker who office one day at noon, says the Pitta burgh Dispatch. The robber held revolver in one hand and a bottle nitroglycerine in the other. He r quested Mr. Moffat to write a check for \$21,000 under penalty of being shot an of having his bank building wrecked h the explosive in the bottle. Mr. Moffa is reputed to be worth as many million as the number of thousands demande by the robber. He wrote the check The robber said he would have t trouble Mr. Moffat to go with him int the paying teller's cage and produce th cash; he would take \$20,000 in larg bills, and \$1,000 in gold. "If you say one word, or indicate 1

a look or motion that anything is wrong I will shoot you and then blow up th bank." Saying which the robber three a light overcoat over his arm concealin the revolver he held in his hand, accom panied the bank president into th teller's cage, received the money and r turned with Mr. Moffat to the privat office. He then repeated his threat t he was willing to go home and rest the kill the banker and blow up the build- receipt of price, 25c., or 5 for \$1.

The fully twenty feet behind in reaching markets, which already shuts off com-mercial loans almost entirely. The of his opponent by more than half a second. The Ironwoods won a similar race last year in 351/2 seconds.

The winners of the contests were presented with their prizes this evening at the city hall. A number of the firespecial train while others will take their departure tomorrow.

UNUSED STAMPS.

How Uncle Sam Redeems Envelopes That Are Spolled or Misdirected.

One of the most interesting branches of the postal service is that which is The great strike of the garment worktime the timers stopped their watches devoted to the redeeming of stamped ers here has extended; the strike at at the first coupling instead of the last. envelopes which have been misdirected. Cleveland has broken out again; iron They credited the team with making A person of an observing tarn can spend a very profitable half-hour there any striving to cut down the coast in order time, listening to the stories told by the to keep in operation, and the iron mines men and women of how they came to The timers were accused of being fav-orable to the Bessemer team, and from all appearances there was good ground for the "kick." The Ironwood team talked of pulling out of the timers' de-cision in the Bessemer team's favor, but reconsidered the matter and was on time in the next contest. The spectime in the next contest. The spec- to the way in which the envelopes are returned - some back to back and others folded and twisted into every possible shape. All this means extra work to the clerks, who have very little spare time on their hands. The envelopes are redeemed in all cases possible, many packages being received which have obviously not been misdirected. For instance, if a firm goes out of existence and has a quantity of envelopes left over, the chances are that a marking-brush will be each man running 100 yards. The drawn over the edges instead of Ironwood team won the prize, a silver a few scratches being made on lines trade is unchanged, and in some each envelope. There are many ways departments lifeless. Merchants in all in which envelopes can be spoiled for directions continue to buy for needs business purposes, and if a list of all only. While it is too early for the fall the peculiar cases were made it would fill a book. One man recently brought in a box full over which he had spilled a bottle of ink, while another had a large quantity that had been badly Merchants not wishing to be refused damaged by fire, and a third appeared have accordingly curtailed their re-The Ishpeming and Bessemer teams with a lot that he claimed had been quests for accommodation. Mercantile gnawed by mice. The government, of course, loses nothing in these transactions. It has been already paid for the envelopes and printing, and it redeems only the face value of the stamps. The New York owing to the lack of demand western office makes payment not in cash, but in postage stamps, and these stamps have off. There is no improvement in wool to come out of the regular supply, as and the department at Washington will not have recognize any demand until the misdirected envelopes have been counted .--N. Y. Troubles in the Labor World-Clothing , and Shoe Trade Somewhat Improved-Corn and Wheat Movements Large.

ONE WEEK IN BUSINESS. NEW YORK, Aug. 7.-R. G. Dun's report says: The sensational collapse of the speculators at Chicago who controlled the Diamond Match and New York Biscuit stocks, with the consequent closing of the Chicago stock exchange. for an indefinite period, though followed by remarkably few failures. brings a sudden change in the monetary

Chicago has drawn heavy upon the Illinois bank balance here, and withdrawals of other western funds may naturally result. Europe was also moved to sell American stocks rather freely, so that the average sixty most active railroad stocks fell about \$2.18 Chicago to restrict the disturbance deserves praise and did much good, but it was not possible to avoid some shock to the public's confidence, and there mercial loans almost entirely. The collapse also increased the caution of bankers and other leaders regarding loans on securities of similar character. The movement of wheat is again large, Atlantic exports being 1,761,000 bushels for the week, flour included, against 753,000 last year. Conflicting crop reports are as numerous and noisy as ever, but the more reliable mark up winter wheat to 300,000,000 bushels, and the movement tends to sustain such es-

timates, for since July 1 western re-ceipts have been 17,633,000 bushels, against 9,330,000 last year. Corn is also moving rapidly with western receipts of 4,800,000 bushels

against 1,660,000 of last year. Labor is more disturbed than works throughout the country are of the Gogebic range are stopping. The suspension of the cotton mills has bemaintain prices this month, but the markets are not stronger in volume of the closing prices of United States bonds orders or purchases. Pressure to sell, and railroad stocks, etc.: even at concessions, is the prevailing rule, and prices are almost nominal. The minor metals are generally weak. The curtailment of the production in cotton does not bring a stronger market, and a few quotations are reduced. Sales on lightweight woolens are disappointing and mainly for cheap grades, and in some cases prices have again been reduced. Failures in the United States for the week are 240, against 225 last year. Bradstreets' report: In nearly all trade to assume large proportions, the distribution of clothing and shoes at Chicago has improved somewhat. At several centers bankers preferred not to loan as freely as heretofore. collections are slow, in some instances more difficult to make. The iron and steel industries remain excessively dull. Cotton yarn manufacturers have agreed to curtail production 50 per cent. during August, and packing house employes have been laid some Philadelphia mills shut down. Comparatively favorable reports concerning general trade are more numerous than in pre-ceding weeks. Pittsburg jobbers report a slight increase in the volume of trade, and at Baltimore there is marked improvement, with jobbers receiving orders freely.

That Go Overboard.

and the scrap never reaches the sea!

CHICAGO, Aug. 7 .- Wheat is fair trade within 1%c. range. Closing %c. from top, unchanged from yesterday. Market

NEW YORK STOOK MARKET.

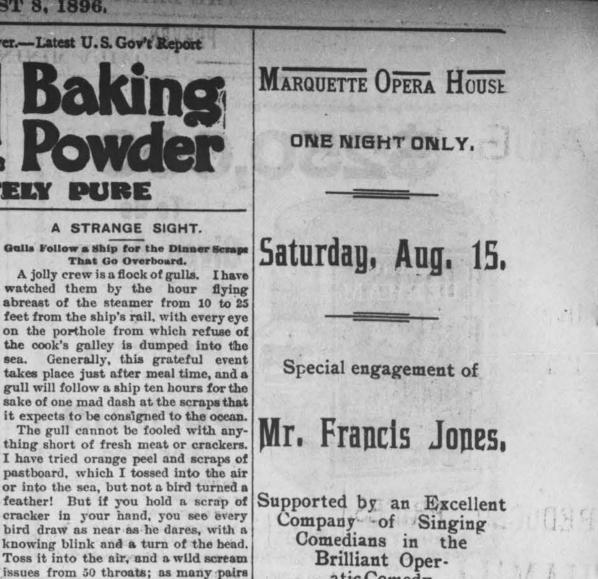

NEW YORK, Aug. 7.—Stocks today were unusually active and displayed a degree of weakness that surprised even the most uncompromising bears. The declines were exceptionally severe and only consevatism of the leaders of that faction prevented open demoralization, as the only support given was by covering purchases.

Some low records published in the active list were considerably below the Ven-ezuelan proclamation panic figures. There is no special news to account for the break,

but the advance in call money rates to the extreme rate of 7 per cent. following upon

renewed disturbances in loans by banks, precipitated a flood of enforced selling orders, and gave the advocates of lower prices a clear field. The complete absence of support is re

garded as unfavorably significant of the despondent feeling generally prevailing. This condition in the Wall street mind is further evidenced by suggestions of the necessity of issuing clearing house certifi-J. McGee, of Washington. From time

sent out by the bureau of American

tators roasted the time keepers so hard that one of them, a "Soo" man, left the track very hot under the collar. Had the remaining time keepers did like-wise they would have pleased the majority of the firemen present, as it was generally conceded that they were anything but efficient and fair. The best time in the novelty race last year was 53 3-5 seconds, made by the Ishpeming team.

The flag race was an excellent contest. There were ten teams competing. The distance covered was 600 yards, cup worth \$40. Time, 66 seconds. The time made by the other teams was as follows: Bessemer, 71 3-5; Calumet, 69 4-5; Negaunee, 70 3-5; Hancock, 68; Ishpeming, 69 1-5; Sault Ste. Marie, 67 3-5; Republic, 72 2-5; Michigamme. 71 4-5. The Marquette team was not given any time, as one of the men stepped over the line to take the fiag. It made the run, however, in about 71. were the only ones who dropped the flag. Each lost from two to three seconds by this misbap. The flag race last year was also won by the Ironwood team. Its time was 67 4-5 seconds.

The contests in the afternoon began with the novelty hook and ladder race, the Michigamme team making the first run. It finished in good shape, mak-ing the run in 38 seconds. The Hancock team was the next to run. It ran well but was slow in handling the ladders. Its climbing was also poor. Time, 43 4-5. The Republic team followed the Hancocks. It did good work, both in running and clumbing. Time, 37 4-5. The Bessemer team ran well but was slow in climbing. Time, 39 4-5. The Physicians Examine the Skeletons and. Calumet team made an excellent run but the ladder men started to pull the ladder from the truck before the line was reached. No time was given, but the run was made in 37 4-5. The Ishpening team made an unusually fast run out the climber lost his footing on the roof, losing fully two seconds in re-

BODIES FOUND IN A TRENCH.

Decide They Are Bones of Indians.

Skeletons from the unknown graves at Stockton, Kan., have been brought to St. Joseph, Mo., and are now in the hands of physicians, who have decided cities of the United States, for the past that they are the bones of Indians. The skeletons were taken from a trench crease of 6.8 per cent. compared with where 300 bodies have been buried.

Rain washed the earth from a skull at the side of the road and it led to the discovery of the burying ground. The bodies had been piled into the trench face downward and in every shape, presumably after a battle or massacre. The bodies of women and children were buried in the grave, but there was not a weapon or piece of pottery to show their race. The skeletons of the men were of ordinary stature and many of them do not resemble Indians in any way. The oldest inhabitants about Stockton do not remember any battle having been fought near the place where the skeletons were found, and have concluded that the bodies must have been buried there before the ar- four hours: For upper Michigan: rival of any white settlers. When wear begins to exceed repair in your body you are going to fall sick. The signs of it are: loss of flesh, paleness, weakness, nervousness, etc. The repair needed is food. You think you eat enough, and yet you feel that you wear out more tissue,

energy, nerve-force, than you food makes for you. The difficulty is that you do not digest enough. And this is so serious it is worth sitting down seriously to think about. If you can't digest what you eat, take a few doses of Shaker Digestive Cordial. The effect of it will be to increase your flesh and make you feel stronger. You won't fall sick. Proof that it is in control of your re-

pair apparatus. Its easy enough to test this for yourself. Take a few bottles of Shaker Digestive Cordial.

WILL JOIN JACKSON TO SECURE PREVENTITIVE LEGISLATION.

Committee of Six Will Act in Conjunc tion With Similar Bodies from Ionia and Jackson-More Than a Quorum.

TO REMEDY A PROSPECTIVE EVIL There were only three vacant chairs last evening at the special meeting of the council, and one of these, most unexpected fact, belonged to an alderman of the Second ward, who, in the memory of the oldest councilman, has meeting.

As the mayor cast his eye over the smile. His bluff had worked. There was no occasion to impose a fine.

After arguing a matter of public health and passing a series of resolutions, and later an ordinance on it, the recorder, at the dictation of the mayor, read some letters his honor had received Jeweler, from a gentleman in Jackson, Mich.

These letters set forth the evils with which that town was afflicted on account of the ex-convicts who were settling there as rapidly as they were discharged. They are undesirable inhabitants at best, and the citizens of Jackson want to stop any additions to the convict colony. They desire to join with them in this effort the other peni-tentiary cities, Marquette and Ionia. by L. M. The scheme is to have each of these three cities' councils pass resolu-tions of condemnation of the pres-Spencer. ent system of turning a convict loose on the world the minute he leaves the prison door, instead of returning him to the county from which he was sent up. The plan also calls for a committee of six to be appointed in WANTED-Two rooms unfurnished; good locality. Address W. W. kichardson, (8-8-tf)

has been under the doctor's care for a the point well rounded, filed, canted and sharpened." England depended upon France for

its supply of pins until 1626, when John Tilsby introduced the manufacture into Gloucestershire. His business grew to such an extent that it is said he gave employment to about 1,500 persons; at any rate, his pins-Stroud pins, as they were were called-gained a high reputation. In 1636 the manufacture was introduced into Bristol and Birmingham. the latter place ultimately becoming the great center of the industry.

Pins in America made their first appearance during the last century. In 1775 a prize was offered to the colonists of Carolinia who introduced the first native pins and needles. During the

war of 1812, when, owing to the restrictions upon commerce, the price of pins rose to one dollar a paper, the manu-United States, but does not seem to have met with success, as the enterprise was soon abandoned. The industry was not fairly started in this country until the year 1836.

The early pins in this country were made with globular heads of fine twisted wire, made separately and secured to the shank by compression from a falling block and die. These old pins had the misfortune of often parting with their heads. It was to overcome this difficulty that the attention of the early inventors was directed. The solid-headed pin in common use to-day to any took the place of the old form about (5-20-tf) 1840.—Brooklyn Eagle.

> A Queer Arctic Bird. The modern idea of feminine rights

must be modeled after the habits of the red-necked phalarope, a bird with a special fondness for the arctic regions. According to Mr. Elliott, the hen bird does all the courting. "The male," he says, "is as coy and retiring as the most

bashful maiden, turning away from the proffered attentions, first to this side, then to that, even flying to the opposite side of the pool or to another near by;

fair one who has chosen him from his fellows, and there is no escape. At least, like any other poor bachelor so beset, he yields, and the nest, a slight structure of dry stalks, is placed in the center of a tuft of grass. The eggs are four in number. On these the poor

male, the victim of woman's rights, is obliged to sit the greater part of the time, the female amusing herself on the pool near by."-Troy Times.

THE DAILY MINING JOUBNAL: SATURDAL MORNING, AUGUST 8, 1896.

The regular monthly meeting of the common council was held in the city hall Thursday evening, Aug. 6. It was called to order by Mayor Kirkwood. The minutes of the meeting of July 2 were read and approved. Alderman Gaffney of the committee

in engine house No. 1 is in a very poor morrow. condition, and the committee on fire

repair. Alderman Perkins, chairman of the

committee on water works, recommended that a water main be laid on Jennings street, and the recommenda-

tee had appointed a sexton. Alderman Anderson, of the commit-

tee on police, claims and grievances, reported that they had examined and approved the report of the marshal for the previous month. Report accepted.

Alderman Thomas, of the committee on electric light and gas, to which was referred the petition of Patrick Gannon and others, reported that they had the

same under consideration and recommended that the petition be laid on the table, which was done.

Alderman Kellan, of the committee on streets and highways, to which was good. referred the petition of Frank V. Sauer and others, reported that they had the

same under consideration and recommended that the petition be rejected because the water main would have to be lowered if said street were graded. Concurred in.

Alderman Thomas, of the committee on electric light and gas submitted the

following report :

To the Hon. Mayor and common council of the city of Negaunee. GENTLEMEN;—The committee to whom was referred the matter of ascertaining the cost of an electric light plant, beg leave to report that we have had the same under consideration, having: engaged Frank B. Rae of Chicago to draw plans and specifications, also preliminary cost Frank B. Rae of Chicago to draw plans and specifications, also preliminary cost and maintenance, said committee recom-mend that the city council proceed at once to put in said plant, as it will reduce the cost of lighting the city about \$41 per light per annum and by the revenue coming in from the incandescent lights it will be self-sustaining and it will save about \$3,000 per year to the city, as shown by the report of year to the city, as shown by the report of the engineer. We also beg leave to sub-mit the report of Engineer Fraak B. Rae S. S. THOMAS. P. B. KIRKWOOD, L. K. KELLAN,

JOHN E. HOGBERG, Committee.

The council took a recess of of ten minutes to look over plans and specifictric light plant. On reassembling it was moved by Alderman Kellan, supported by Alderman Perkins, and carried, that the report of the committee be adopted. The following resolution was offered

Henry Britt is spending a few days in Marquette visiting friends. Miss Pauline Mitchell left Thursday evening for her home in Ypsilanti. Mrs. J. B. Mass gave a lawn party to her lady friends Thursday afternoon.

T. F. Cole left Thursday evening for on fire department reported the floor Cleveland and is expected back to-

> A large party of young folks spent yesterday afterdoon and evening cruising on Teal lake in the Trilby.

tion was concurred in. Alderman Pascoe, of the committee on cemetery, reported that the commit-and Pioneer avenue. His death is expected at any time.

The firemen who stayed home have been decorating No. 1 fire engine house since they heard about the boys success in winning a prize. They will be ac-corded a joyful welcome on their return home today. And energy, he must call a halt. He is on a down grade. The strands of his rope are parting rapidly. Dr. Pierce's Golden Medical Discovery has helped thousands of men in just this condition. It makes health, it makes pure, tick blood it forms out impurities and been decorating No. 1 fire engine house

home today. Peter Trudell returned Thursday from Montreal, where he went to at-tend the fuseral of his mother. He also visited Quebec and was particular-ly struck with the quietness of the city, while business in Montreal was fairly good.

Every man who cares to keep his health should have Dr. Pierce's "Common Sense Medical Ad-viser"-a finely illustrated book of 1008 pages, Bent to any address on receipt of 21 one-cent stamps to cover cost of mailing only. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, NO. 663 Main Street, Buffalo, N. Y. Last Wednesday evening the home of Mr. and Mrs. J. B. Maas was a scene of festivity. The occasion was the forty-fifth anniversary of their marriage. There were some sixty guests present,

of their esteem in the shape of beautiful cut flowers.

The three iron bridges on the Lake Superior & Ishpeming railway between the city and a short distance beyond the Queen mine are now finished and

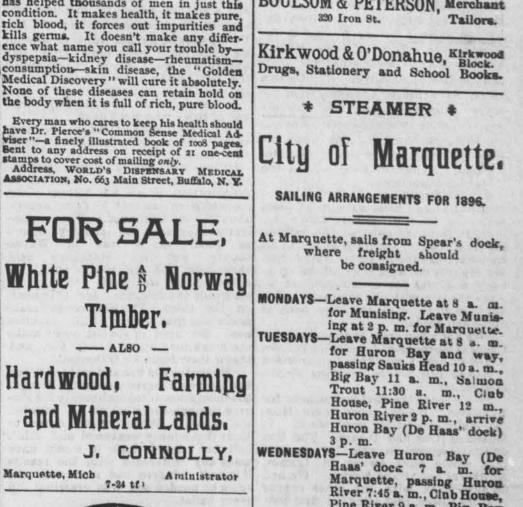

work has been begun on the last one beyond the Pioneer mine, near Union

PITH AND POINT.

-Generalship.--"Can you give me Hardwood, change for five dollars?" inquired the -Generalship .- "Can you give me usually impecunious friend. "Certainly," was the unguarded answer. "Then lend me three."-Washington Star.
