Why is one woman attractive and another not? It isn't entirely a question of age or features or intellect. The most admirable and attractive thing about an attractive woman is her wobody admires a womanly woman. Everybody doesn't realize just what it is that makes her womanly. She must have health, of without it she would lose the brightness of

vivacity. Health brings all these things but health means more than most people think of. Real health must mean that a woman is really a woman. That she i strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Upon her strength in this way depends to a large extent her general health, her good looks and her attractiveness. Some women are born stronger than others. Some are born with what is called "con-stitutional weakness." It is easier for some women to retain health and strength than it is for others. Some seem able to do anything they like, whenever they like, without serious results. Still, there is no reason why women should not enjoy perfect health. Those who do not, need only take the proper precautions and the proper remedy to become perfectly well and strong.

Miners' Union at Leadville Warn Men from This Region Not to Go There.

There Is a Strike On and Outside Men Will Not Be Made Heartily Welcome.

J. R. Amburn, president, and E. J. Dewar, secretary of the Miners' union at Leadville, Col., have written the union here advising the miners to stay away from that place, as the strike there is still on. A package of posters, giving warning to men here to not go to Leadville at present, was also received yesterday. The poster was issued by order of Cloud City Miners' union No. 33, and was signed by the president and secretary. These were sent on in response to inquiries from men in this section who contemplated at Marquette, either at the city hall or going to Leadville on the strength of Hotel Superior. Daring Daylight Holdup.

John and David Dennis, brothers, were the victims of an attempted holdup yesterday forenoon in a Front street saloon. Two of the perpetrators are in the lockup, and the third is at large.

The Dennis boys and their would-be robbers have been working on the new railroad. They became casually acquainted last Saturday night.

Monday forenoon the three men met the brothers, and persuaded them somewhat against their will to go into a saloon and get a drink. Instead of drinking at the bar they passed through into the back room, and the bartender brought them a round, four from Ammonia, Alum or any other adulterant, beers and a cigar. When these were

gone one of the fellows stepped front to order a second round, or to engage the bartender in conversation and keep him out of the back room.

Without warning the remaining two men jumped on the Dennis brothers, each taking his man from behind. John's assailant succeeded in stiffling his cries, but the one who attempted to handle David was not so successful, for the victim wriggled out of his grasp and yelled at the top of his lungs.

When the alarm was given all three of the men ran for dear life, two of them by the back door and one by the front. Two of them were later captured, but one of them escaped. The name of one of them is alleged to be Charles H. Wells; the other is known only as "Slim."

The intended victims had about seventy-five dollars between them.
