### HONORS TO MAJ. CLARKSON.

Chosen Commander of the Grand Army of the Republic by Acclamation.

### THE THIRTIETH ENCAMPMENT COMES TO A CLOSE.

Resolutions Ask Preference of Capable Veterans in Government Appointments and Condemn Use of Flag for Advertising Purposes.

### MEETING A SUCCESSFUL ONE.

ST. PAUL, Sept. 4.—The thirtieth annual encampment of the Grand Army of the Republic ended today after one of the most successful meetings since the organization was established. The weather was the best that could have been desired. On the largest day the number of out-of-town people reached almost 200,000, nearly 50,000 of whom came from Minneapolis to see the grand parade. The crowds were greatly diminished, thousands starting for home or other parts of the northwest immediately after the parade, which, while smaller than many that have preceded it, was one of the best handled ones ever known and the veterans are all proud of the fine marching appearance they made.

Major T. S. Clarkson of Omaha was today chosen commander-in-chief of the Grand Army of the Republic by acclamation. General J. H. Mullen of Minnesota was made senior vice-commander-in-chief. Charles W. Buckley of Alabama was chosen junior vice commander-in-chief. A. E. Johnson, Department of the Potomac, surgeon general and Rev. Mark B. Taylor of Massachusetts, chaplain-in-chief.

Among the resolutions adopted were: Asking preference for capable ex-soldiers in government appointments; urging on congress the justice and propriety of conferring on General Miles the full title of lieutenant general; endorsing the proposed national parks at Vicksburg and Fredericksburg; recommending the reading of Lincoln's Gettysburg address as part of the exercises on Memorial Day; favoring the prohibition of the use of the national flag for advertising purposes; asking congress to repair and preserve the trigate Constitution and the sloop of war Hartford; and asking congress to provide a soldiers' home south of the Ohio river.

After the council of administration had been elected the officers were duly sworn in, the new chaplain-in-chief inducted and the next encampment and the encampment adjourned. The first official act of the new commander-in-chief, Major Clarkson, was to appoint C. E. Burmaster of Omaha, adjutant general.

The ladies of the Grand Army of the Republic elected officers today, as follows: Mrs. Catherine E. Hirst (re-elected), Louisville, national president; Mrs. Sarah C. Mason of Nebraska, junior vice president. Adjournment followed.

The Woman's Relief Corps elected and installed the following officers: Mrs. Agnes Hitt, Indianapolis, national president; Mrs. Marie Hazen Winkle, St. Paul, senior vice president; Mrs. J. A. Pickler, South Dakota, Chaplain. No action was taken by either of these organizations looking toward a union, each preferring its present name and membership. The Daughters of Veterans also refused to unite with the Loyal Home Workers.

### EMPEROR WILLIAM AT BRESLAU.

He Unveils a Monument to His Illustrious Grand sire.

BRESLAU, Sept. 4.—Emperor William and the empress arrived here at 1:30, and were welcomed by the civil and military officials. Upon their arrival at the monument to Emperor William I, Governor Seydewitz made a speech extolling Emperor William I and exhorting the rising generation to "fear God and honor their king." His majesty then unveiled the monument amid deafening cheering from the troops and populace, the firing of salutes and the playing of martial airs by the bands in attendance. Later, Governor Seydewitz thanked their majesties for gracing the ceremony by their presence. Their majesties afterwards proceeded to the town hall, where the burgomaster delivered an address of welcome and handed the emperor a loving cup. His majesty returned cordial thanks and drank the health of Breslau.

At the banquet this evening the emperor made a brief speech in which he returned thanks for the splendid welcome accorded, and for the honor done the memory of his grandfather by the erection of the statue.

### JUDGE RAMSDALL FOR CONGRESS.

Joint Silver Convention of the Eleventh District Nominates Him.

REED CITY, Mich., Sept. 4.—Judge J. G. Ramsdell of Traverse City was nominated for congress early this morning by the joint convention of Democrats, Union Silver men and Populists of the Eleventh district. The contest over candidates lasted nearly all night. Judge Ramsdell has, hitherto been a strong Republican leader, but disagreed with the party's present financial declarations.

### An Address to Irishmen.

DUBLIN, Sept. 4.—An address to the Irish at home and abroad, signed by all the foreign delegates, has been issued. It expresses the belief the Irish national convention has voiced the Irish national spirit, and exhorts all who desire the welfare of Ireland to support the majority rule. They pledge the unflinching support of the Irish parliamentary party.

### BRYAN IN CHICAGO.

Confers With Chairman Jones—Speaks in Milwaukee Today.

CHICAGO, Sept. 4.—Candidate Bryan arrived from South Bend, Ind., at 9:30 this morning. He spent some time this afternoon with Chairman Jones reviewing his letter of acceptance of the nomination by the Silver party, of which he will be formally notified at Lincoln Tuesday. Mr. Bryan leaves tomorrow morning at 8:30 for Milwaukee, where he makes two speeches. He will be the guest of Edward C. Wall, the Democratic national committeeman of Wisconsin, returning to Chicago Monday morning and leaving in the evening for Lincoln.

### SILVER SENTIMENT INCREASING.

Mr. Bryan in an interview today said: "People whom I have met who have mingled with audiences at Democratic gatherings have voluntarily come forward to assure me that sentiment was veering around toward the Democratic platform. If a speaker be qualified to judge of the effect of his speeches on audiences I think, without egotism, I may say the people I have met and addressed are far more enthusiastic in favor of free silver than they were when the campaign began."

Mrs. Bryan left this evening for her home in Lincoln, where she desires to be when the public schools open Monday.

MILWAUKEE, Sept. 4.—Candidate Bryan will arrive here at 10 o'clock tomorrow. He will address open air meetings in the afternoon and evening.

### ROUND FOR AMERICA.

Armenian Refugees Arrive in Marseilles—Porte Wants Them Back.

MARSEILLES, Sept. 4.—The Armenian refugees who have arrived from Constantinople on board the steamship La Froid, including the men who surrendered to Sir Edgar Vincent after participating in the attack upon the Ottoman bank, have been conveyed to prison pending their departure for New York.

MARSEILLES, Sept. 4.—The porte has asked for the extradition of the men who were implicated in the attempted loot of the Ottoman bank at Constantinople, but it is believed the request will not be granted.

### UNKNOWN STEAMER BURNS.

Destroyed by Fire Ten Miles Off Black River, Mich.

CLEVELAND, Sept. 4.—A special from Alpena, Mich., says: "Word was brought from Black River today that a large steamer burned ten miles off of that port last night. The news was brought in by a man in a sail boat. No trace of survivors has been found."

DETROIT, Sept. 4.—A special to The Tribune from Alpena says: "No trace has been found of the boat reported to have been seen off Black River last night. It is generally believed the rumor had no foundation."

### JESSE R. GRANT A POPULIST.

Son of the Late General Joins the Ranks of the People's Party.

SAN DIEGO, Cal., Sept. 4.—At the Populist county convention today a sensation was caused by I. Wade McDonald, one of the delegates, reading a letter from Jesse R. Grant, son of the late General Grant, stating he had joined the Populist ranks, and concluding: "The platform of the People's party, on the contrary, has no objectionable principles and seems to offer a political home that as American can proudly enter. His letter provoked prolonged applause."

### IT WILL BE A BIG ONE.

A Delegation From Pittsburg Will Call on McKinley Today.

CANTON, O., Sept. 4.—The delegation of visitors to call upon Major McKinley from Pittsburg and Beaver county Saturday promises to exceed in numbers anything yet witnessed. Seventeen hundred tickets have already been sold to those who are coming. Senator Quay will probably head the delegation. Seven trains of twelve coaches each are already assured.

### ON THE TICKET TO STAY.

Mr. Sewall Has Not the Remotest Intention of Withdrawing.

NEW YORK, Sept. 4.—The Commercial Advertiser this evening prints the following dispatch: "BATH, Me., Sept. 4, 1896. EDITOR COMMERCIAL ADVERTISER.—Any statements or inferences that I propose to withdraw from the Democratic national ticket are without foundation. I never had, or have not now, the remotest intention of doing so."

### THE WORK OF A FIEND.

CHADRON, Neb., Sept. 4.—Some unknown person saturated the beds on which Assistant Postmaster W. A. Danley, wife and two children were sleeping, with kerosene and set it on fire. Before they were rescued both children were dead and the parents unconscious. There is no known motive for the crime.

### To Open China to Trade.

SHANGHAI, Sept. 4.—Reports are in circulation in circles of the highest authority to the effect that the interior of the Chinese empire will shortly be thrown open to trade with the rest of the world.

### Alger to Stump Michigan.

CHICAGO, Sept. 4.—It was announced today that ex-Governor Alger of Michigan would take the stump shortly in Michigan.

### Krupp Buys Shipyards.

BERLIN, Sept. 4.—Herr Krupp, the iron king of Essen, has purchased the Germania shipbuilding works for 6,325,000 marks.

### LI AT NATION'S CAPITAL.

Chinese Viceroy Is Entertained at a Dinner by ex-Secretary of State Foster.

### CABINET MEMBERS AND OTHER NOTABLES THERE.

The Oriental Statesman Thanks the American People for His Welcome and Reception—Visits Washington's Tomb Today.

### RECEPTIONS TO LI HUNG CHANG.

WASHINGTON, Sept. 4.—Li Hung Chang arrived here this morning from New York. He went first to the national Capitol building. From the Capitol the party drove to the residence of the Chinese minister. Elaborate preparations had been made by Minister Yang Yu for the reception of the highest representative of his exalted emperor. The mansions that form the legation had been decorated in magnificent style. After Li received the greetings of the minister and his household, he and Yang Yu retired to a private conference which was somewhat extended. Then there was a general reception and fraternizing between members of the visiting embassy and those of the legation and at noon the viceroy and suite were entertained at luncheon in the ball room. No foreigner was present.

Li Hung Chang was entertained at a dinner tonight at the Arlington by ex-Secretary of State Foster, the guests including three members of the cabinet, the commanding general of the army and several other notables in official life. The floral decorations were of a most elaborate character. The United States Marine band was stationed in one of the parlors and played Chinese and American airs.

At the conclusion of the dinner Mr. Foster made a few remarks expressing the great pleasure of the company at the visit of Li to the national capital and other prominent cities of the country, and regretting that his public and urgent duties made his stay so short. The company heartily joined in wishing him a safe journey and a continued life of usefulness to his country and the whole world. The viceroy responded, in substance:

### LI EXPRESSES HIS GRATITUDE.

In acknowledging the hospitality extended by my old friend, Hon. John W. Foster, I thank him for affording an opportunity before my departure from the capital of this country to renew the sincere expression of my gratitude and thankfulness to the American government and citizens for the welcome and reception offered me as the representative of my august master, the emperor of China.

Many impressions I will carry home, not only as augmentations of my store of knowledge of the fruits of the western modern civilization, but as a means of enlightening the millions I represent, facilitating the introduction of these very means and ends of civilization into China and amalgamating the old civilization of the far east with the most modern one of the extreme west.

After the dinner was over the guests remained an hour in conversation, Li afterwards going to his room. Tomorrow a reception to the heads of the several bureaus and various governmental departments and a visit to the treasury department are on the program while in the afternoon it is the intention to take the viceroy to Mount Vernon, where he will place a wreath on the tomb of Washington.

### CANADA PREPARING FOR CHANG.

OTTAWA, Sept. 4.—Sir Henry Joly left tonight to meet Li Hung Chang at Niagara Falls. Sir Henry will accompany the Chinese viceroy as far as North bay. Dr. Horsey from that point represents the government, seeing Li on board the steamer at Vancouver. A battery from Hamilton has been ordered to Niagara Falls to salute Li on his arrival. They will be accompanied by one hundred men of the Thirteenth regiment to act as a guard of honor. The regimental band will accompany the detail.

### DEMS. AND POPS. CAN'T AGREE.

Negotiations for Fusion in Tennessee Are Again Off.

NASHVILLE, Sept. 4.—Four days' correspondence has been in progress between the Democratic and Populist state committees concerning fusion upon a joint electoral ticket. The Democratic committee proposed to pull off three electors and allow the Populist committee to fill the places. The Populists wanted four electors, which the Democratic chairman, Coleman, would not agree to and fusion negotiations are again off.

### OFF IN WEST VIRGINIA, TOO.

WHEELING, W. Va., Sept. 4.—Fusion between the Democrats and Populists of this state has been declared off at Clarksburg after nearly thirty-six hours of fruitless endeavor between the committees to get together. The Populists absolutely refused to support General Watts, the Democratic candidate for governor, and will not surrender Watson for Sewall on the electoral ticket. They selected two Populist electors-at-large and nominated N. W. Fitzgerald for governor in place of Ralph Snyder. After much discussion and various offers from either side both committees adjourned, it being understood the Populists will keep in the middle-of-the-road.

### Will Be Peaceably Settled.

LONDON, Sept. 4.—The Brazilian legation here has issued a note announcing that there is every indication of a peaceful solution of the difficulty between Brazil and Italy regarding the claims of the latter country for indemnity for recent and past outrages upon

### CONFIDENCE IS INCREASING.

Continued Gold Importations an Encouraging Factor in the Business World.

### HEAVY SPECULATIVE PURCHASES BY THE WISE ONES.

Prices of Iron and Its Products on the Up Turn Again After Many Weeks of Decline—Big Sales of Bessemer at Pittsburgh.

### DUN'S WEEKLY TRADE REVIEW.

NEW YORK, Sept. 4.—There is a distinct increase in confidence, due largely to the continuing and heavy imports of gold, which have put an end to the money anxiety; and also to political events, which are closely watched. While it has not yet started more mills and factories than are closing for want of work, it crops out in heavy speculative purchases of pig iron, wool and other materials by experienced men who believe a revival in business is not far off, and for the first time in nearly two months a slight upward turn appears in the prices of manufactured products.

Wheat has suddenly risen a week ago, but reacted with better crops news until Thursday, when another advance came of one cent, making the net decline for the week 1 1/2%. Western receipts have continued large; the increase since July 1 is about 12,000,000 bushels, or 13 per cent. Atlantic exports are also large, making a gain of 69 per cent. Corn has reached at Chicago the lowest point ever touched, twenty cents in 1861, and has again broken all records here, declining to 25 1/2c. at which it closed.

After many weeks of decline so that the average prices of iron and its products were the lowest since early last year, the prices have started up a shade. Heavy speculative purchases of Bessemer at the west and for southern iron here have so strengthened the market that Bessemer at Pittsburgh commands \$11.25 and grey forge \$9.50. The various associations have not reduced prices, believing it would not stimulate the demand at present, which is extremely narrow and shows no improvement.

Tin is weaker at \$13.15 for September; bids at 10.37c. are solicited for lake copper, while lead is a shade firmer. No gain yet appears in the demand for prices of wool, but marked speculative buying shows a belief the prices will improve. The sales for the week were 4,377,600 pounds, of which half a million were foreign.

The failures for the week were 334 in the United States against 186 for the same week of last year.

### BRADSTREET'S TRADE SUMMARY.

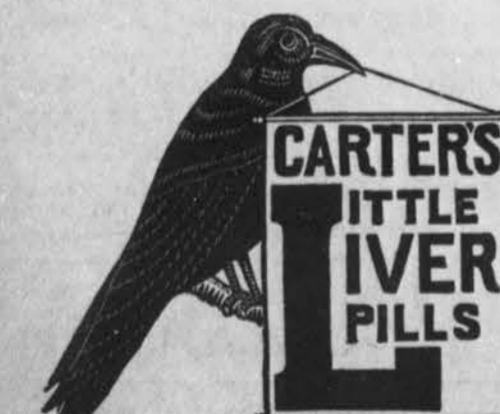

NEW YORK, Sept. 4.—There is a somewhat better feeling among wholesale merchants for the prospects of the autumn trade in seasonal goods. This extends to some industrial lines, notably iron and steel. Chicago sales of iron for the week were larger than for all August, and at Pittsburgh sales were larger and prices better on the outlook of harmony among steel makers. The more encouraging features in the movement of prices lies in the advances of quotations of wheat on stronger statistical position and a free export movement; higher prices of iron and steel at Pittsburgh and Chicago, with a gain in demand, and a further appreciation in the quotations of cotton on renewed reports of damage to crop. On the other hand, there has been no general increase in industrial production, the output, as a whole, being smaller than previously during the year.

At Detroit, Cleveland, Cincinnati, Kansas City, Omaha, Milwaukee, Duluth and Minneapolis there is no change from the dullness and conservatism which has marked preceding weeks. Exports of wheat (four included as wheat) from both coasts of the United States and from Montreal this week were 3,369,892 bushels, against 3,281,000 last week and 2,360,000 in the week a year ago.

The total bank clearings of the principal cities of the United States for the week were \$827,011,134, a decrease of 10 per cent. as compared with the corresponding week of last year.

### Liabilities Nearly Five Millions.

TOPEKA, Sept. 4.—United States District Judge Foster today appointed a receiver for the J. B. Watkins Land & Mortgage company of Lawrence, Kas. The liabilities are \$4,350,000 in debenture bonds held in the east. J. B. Watkins, president of the company, is considered one of the wealthiest men in Kansas and is the principal owner of the Kansas City, Watkins & Gulf railroad. The assets, which are said to include farm mortgages in Nebraska, Iowa other states, are thought to almost cover the liabilities.

### PYTHIAN ENCAMPMENT OVER.

Eau Claire, Wis., Division Wins First Prize in Competition Drill.

MINNEAPOLIS, Sept. 4.—The Pythian encampment practically broke up this evening. Prizes were awarded as follows: First prize, \$750, John Barr Glenn Division, No. 10, Eau Claire, Wis.; second prize, \$700, Lilly Division, No. 16, Radcliffe, Ia.; third prize, \$250, Hart division, No. 20, Clinton, Ia.; prize for best captain, Captain Con Feige, Eau Claire, captain of the winning division. There were two prizes of \$400 won by the mounted divisions of Sioux City and St. Joseph, Mo., for the best exemplification of the word "Pythianism" in the parade Wednesday night.

### Four Murderers Hanged.

PARIS, Tex., Sept. 4.—This morning George L. Wheeler, white, was hanged for the murder of Robert McCabe in the Chickasaw nation June 12, 1895. After the removal of Wheeler's body the trap was again adjusted and Silas Lee and Hickman Freeland, the two negroes who murdered Edward T. Canady, Jeff Maddox, Paul Applegate and an unknown man on a shanty boat on the river Nov. 14, 1895, were placed upon the gallows. The negroes were hanged separately at Wheeler's request.

FOLSOM, Cal., Sept. 4.—George W. Roberts was hanged in the state prison today for the murder of Walter D. Freeman last April.

### Broken in Health and Spirits.

NEW YORK, Sept. 4.—Dr. Thomas Gallagher, the liberated Irish political prisoner, arrived today. He is much broken in spirits and his mind is totally unbalanced. He was welcomed at the quarantine by a number of old friends who came in a special boat, but he failed to recognize them.

### Paraded in the Rain.

OMAHA, Sept. 4.—The Northwestern Scandinavian Singers' association this morning held a parade in the rain. The ball and reception tendered the visitors tonight was a magnificent affair.

### More Gold Brought Over.

NEW YORK, Sept. 4.—The steamer Augusta Victoria today brought \$3,000,000 in gold.

### Base Ball Scores.

NATIONAL LEAGUE.  
Washington, 17; Louisville, 3. Second game—Washington, 6; Louisville, 5.

Brooklyn, 3; Cleveland, 7.  
Philadelphia, 5; Pittsburgh, 3.  
Boston, 13; St. Louis, 3.  
New York, 15; Cincinnati, 5.

### CHICAGO MARKETS.

CHICAGO, Sept. 4.—Wheat, moderate trade, within a 1/2c. range, closing at the bottom and 1/2c. lower than yesterday. The weakness was due to disappointing cables, an expected large increase in northwestern receipts, the failure of predicted frost and the liquidation of long lines.  
Corn, moderate trade, within a 3/4c. range, closing at the bottom and 3/4c. lower than yesterday. The weakness was due to the failure of predicted frosts, the weakness of wheat, the beginning of the movement of new corn in the southwest and selling by professionals.  
Oats, moderate trade, within a 1/2c. range, closing at the bottom and 1/2c. lower than yesterday. The decline was in sympathy with other grains.  
The leading grain futures ranged as follows:

	Opened	High-est.	Low-est.	Closed.
Wheat:				
Dec. ...	88 1/2	88 3/4	88 1/4	88 1/2
Dec. ...	21 3/4	21 3/4	21 3/4	21 3/4
Corn:

### NEW YORK STOCK MARKET.

NEW YORK, Sept. 4.—The stock market was uniformly strong, and the moderate volume of business was well distributed. Sugar led the list in activity and gave tone to general speculation. London was also a considerable factor, turning to the bull side after its recent persistent selling. The market displayed spurts of activity and at intervals large blocks of stocks changed hands. Eventually the highest prices in the present movement were recorded in a number of instances. Around the delivery hour further fractional concessions occurred; in late dealings renewed strength was displayed. The extreme gains ranged from 1 to 3 per cent. The market closed strong at fractional concessions from the best figures of the day.

The following were the closing prices of United States bonds and railroad stocks, etc.:

Samuel T. Tolen, an American Citizen, Arrested on Shipboard at Havana.

### WEYLER DETAINS HIM ON A POLITICAL CHARGE.

Consul Lee Promptly Protests Against the Arrest and Reports the Case to Washington Authorities—Another Expedition Lands.

### TAKEN OFF STEAMSHIP SENECA.

HAVANA, Sept. 4.—Samuel T. Tolen, an American citizen, recently a resident of the province of Matanzas, has been arrested on board the Ward line steamship Seneca on a political charge and is now in custody ashore. It is reported United States Consul General Lee entered a protest against the arrest and has notified the authorities at Washington.

Louis Somellian, Sr., the American citizen rearrested in July on the charge of having rendered assistance to an insurgent expedition, will be tried next week. The king's attorney will demand a sentence of imprisonment for life.

It is reported that an expedition, under Rafael Cabreara, was landed Monday at Neuvas Grandes, province of Puerto Principe.

The English sailors Ramsley and McKenzie of the pilot boat Honor, who came with an expedition to Antonia Maceo and were imprisoned at Santiago de Cuba have been liberated.

The British steamer Ardandahu had a large amount of valuable contraband on board when she arrived at Cardenas. General Weyler gave energetic orders, which came to the knowledge of those in charge of the Ardandahu, and the steamer suddenly left port. Gunboats have gone in pursuit.

### PALMER RETURNS HOME.

Gold Democratic Nominee Is Met by a Rather Small Crowd.

SPRINGFIELD, Ill., Sept. 4.—Senator Palmer, who was nominated for president by the gold standard Democratic convention at Indianapolis yesterday, arrived home this afternoon. Mr. Palmer found a crowd of 500 people waiting to meet him and, headed by a band, about 500 escorted him home. Ex-Senate Senator Shumway introduced Senator Palmer to the crowd. The senator addressed them, expressing his gratefulness for the kind words of friends and the reception accorded.

"I went to Indianapolis," the senator said, "earnestly desiring the nomination of a brave and gallant soldier, a friend, expecting also to associate with that name the name of another soldier—not a soldier who wore the blue, but a soldier who wore the grey. I expected to take part in signaling the complete restoration of the Union. After reaching there, for reasons I do not know, I was selected as the representative of that code of political opinion I cherish. They kindly tendered me the nomination for president—not tendered it, but forced it upon me. After they had drafted me, then I volunteered; I told them I would serve."

INDIANAPOLIS, Sept. 4.—It has been decided to establish the national headquarters of the National Democratic party in Chicago, with sub-headquarters at New York.

### FOREIGN GOSSIP.

—The invention of a new calculating machine in France has demonstrated its triumph by practical work. One of the remarkable results achieved was when 6,222,333,444 was multiplied by 8,838,111,224. The answer—55,304,791,723,086,975,456—appeared on the register in less than three seconds.

—A pleasant theory for the Moscow disaster, started by the London Daily News, was that the distribution was begun purposely before the police appeared in order to create a disturbance that should cover frauds, the large supplies of provisions paid for by the government not having been furnished.

—On the first Sunday that all the London museums were thrown open they were visited by 10,650 persons. Of these 2,437 went to the National gallery, 3,173 to the South Kensington museum and 1,644 to the British museum. The other museums open were Bethnal Green, the Geological, the Natural History and the National Portrait gallery.

—Warsaw's Kuryera Warzawski has just celebrated its 75th anniversary. It began in 1821 as a 120-line sheet printed on a hand press by its editor, printer and compositor all in one. Only news that the censorship approved of could be published. It is now to Poland what Le Figaro is to Paris, publishing two editions daily with a literary staff of 210 persons.

—The precise period at which horse-racing began to be practiced at Europe is a matter of uncertainty, but it dates as far back as the reign of James I., who was at times a resident of the place and occupied the palace at Non-such. The pastime must have been practiced before 1648, as about that date the place was evidently becoming somewhat celebrated for the sport.

—A picturesque 16th century tavern, which is not a stone or a plank has been discovered a few steps from the Saint Michel fountain in the Latin quarter of Paris. It is called the Auberge du Cheval Blanc, and in 1652 was the starting point for the weekly coach between Bordeaux and Paris. Later it was the headquarters of the post-chaise service.

### FOUNDLING OF A PRINCE.

Largest School in the World is Sustained by Rothschild.

Within a stone's throw of White-chapel, surrounded by some of the very worst slums, stands the largest school in the world. It is presided over by a peer of the realm, Lord Rothschild, who is regarded with love and admiration by every pupil, for he is indeed their good fairy. This school educates 3,500 children, belonging mostly to the poorest foreign Jews, and has a staff of 100 teachers.

It is well known that this is Lord Rothschild's pet institution and that were it not for his munificent support the school would be unable to meet its vast expenditures. It is owing to his generosity that free breakfasts are given every morning to all children who wish to take them, no question being asked. Again, he presents every boy with a suit of clothes and a pair of boots and every girl with a dress and a pair of boots in the month of April, near the Jewish passover.

An idea of the poverty of the children may be gleaned from the fact that not more than two per cent. of them decline to avail themselves of this charity. A second pair of boots is offered in the month of October to every child whose boots are not likely to last during the approaching winter. It is scarcely necessary to state that few do not get them.

A very popular feature in the school is the savings bank department instituted by the kindly president. In order to encourage habits of thrift he allows an interest of ten per cent. per annum on all savings, the said savings not to exceed five pounds in a year. The teachers are also permitted to avail themselves of the benefits of this bank, the maximum savings allowed them being £15 per annum.

It remains to be mentioned that in pursuing this noble work Lord Rothschild is following in the footsteps of other members of his family, who have supported this school in a princely fashion since its foundation 55 years ago.—Pearson's Weekly.

### Sighted Peary's Steamer.

ST. JOHNS, N. F., Sept. 4.—The Peary steamer Hope was sighted by Newfoundland fishermen along the coast of northern Labrador about the 20th of July. Everything appeared to be right with her; no ice floe was in sight.

### "THE BOSS" DANDELION PULLER.

Patented Oct. 8, 1895. If the root of the dandelion is not extracted it will grow again. The tool is intended to be used as an augur around the root of plant or weed, and when buried deep enough in the ground, by an upward spiral movement of the tool, the weed foliage and root will be removed without cutting the roots, thus effectually cleaning a lawn or other surface from any objectionable plant. The tool is strongly made of 5-16 crucible spring steel, nine inches long, in two sizes: 1/2 core for sandy soil, 3/4 core for heavy soil.  
LIST PER DOZEN, \$6.  
Liberal discount to the trade. Sample sent via mail prepaid on receipt of 50 cents.

St. Margaret's mission, South Marquette: Sunday school 3 p. m.

### "Wanted a Wife."

Under this title role the Eunice Goodrich company presented the exceedingly clever and well known comedy, "Jane," at the opera house last evening to a fair sized audience. The complications which are brought about by a short order demand for a wife and a baby furnishes a playwright with ample opportunity for mirth-provoking situations. Miss Goodrich did well in the part of Anne, but Frank Linden, who played the part of the butler who was compelled to loan his bride to the master for a wife, deservedly takes the honors of the performance. He was at times "killingly" funny. The entertainment of the evening opened with the curtain raiser, "Editha's Burglar," with the baby as Editha.

There will be two performances today, the matinee and the evening's entertainment. The bill for the first is "Wanted a Husband." For the evening performance an uproarious comedy, "The Romp," will be put on. This being the concluding night of the stand the management will give a high grade Monarch bicycle to the holder of the lucky number. Tickets have been given out all the week, but to secure the wheel it is necessary for the holder to be in the house, and to accept it on the stage.

### Farmers' Institute Soon.

The time is drawing near for the farmers' institute and those interested in the work are hustling about completing the program. The dates for the institute were selected by Superintendent Butterfield, who has chosen for Marquette county the 22nd and 23rd of this month. He has mailed the secretary the list of lecturers he will furnish, which is as follows: Hon. William Ball, Hamburg; Mrs. Mary Mayo, Battle Creek; Prof. C. F. Wheeler, Agricultural college, and H. P. Gladden, Agricultural college. To these will be added a number of local speakers. Superintendent Butterfield is hopeful that the Marquette county institute will be as successful as it was last, when, he acknowledges, it was the largest in the state.

### Deaths and Funerals.

John Emmert, the year old child of Mr. and Mrs. August A. Thoney, died yesterday afternoon of cholera infantum. The funeral will be held today at 3 p. m. from St. Peter's cathedral.

George R., the eight months old child of Mr. and Mrs. Peter Wilson, died yesterday forenoon of cholera infantum. The child will be buried Sunday afternoon from the house, 316 Craig street.

### MARINE MATTERS.

Tower, 12:30; Manitoba, Andaste, 1:30; Roby and consort, 2; Coate (wheelback), 2:20; Marina, 2:30; Hackett and consort, 3:30; Cherrin, kee and consort, 3:40; Alaska, Katakah, 4:30; Merida, 4; Curtis and consort, 5:40; Drake, 7:20.

### MIDLAKE AND HARBOR GOSSIP.

The steamer Gladstone, which left for Buffalo recently with a cargo of grain, was nearly three days coming down the river from Armour's elevator "C" above Halsted street, Chicago. Although not a particularly large vessel, the Gladstone was one of the deepest laden boats that ever left the harbor. Tugs were working on her almost incessantly from Saturday night until Sunday afternoon, and she was pulled down the river by sheer strength, as she drew more than seventeen feet of water. The worst place reached was the Washington street tunnel, where the tugs worked for an hour to get the vessel across.

The steamer Nyack, of the Crosby transportation company, will go into drydock to be rebuilt and overhauled at Manitowoc next week. The greatest changes will be made in the interior. The steamer P. & P. M. No. 2 will take her place on the Grand Haven-Milwaukee route.

Ashabula ore receipts for August were 314,297, a falling off of over 100,000 tons compared with the same month of last year. Coal shipments were 131,091 tons.

Captain William Lund has been selected to take command of the steamer Ferdinand Schlesinger upon the retirement of Captain D. P. Crane.

Port list: Arrived—Samuel Mitchell. Cleared—Samuel Mitchell, Cleveland. Presque Isle dock: Arrived—Pontiac. Cleared—Pontiac, Cleveland.

The Duluth went down yesterday noon with a heavy passenger list. The Alaska was up at night with freight. The India goes down today.

The Brightie, which came in with stove coal, loaded with ore for her regular and cleared for an Erie port last evening.

The United States court has allowed the steamer Nyanza \$500 for five days demurrage. The steamer was sunk in

collision last summer, and after she was raised the Pioneer Fuel company refused to receive the wet coal. The steamer was delayed with the cargo five days, and a suit for \$1,000 followed.

The steamer Maggie Duncan was tied up at Cleveland Wednesday on a repair bill amounting to \$400.

Monday night is the closing sale of the book auction. (9-5-17)

### CITY BREVITIES.

A runaway team attached to a lumber wagon crashed into two trolley poles near the Corner of Champlain and Fisher streets, and brought them both to the ground. When the wire got down there were all sorts of fireworks for a little while.

A number of local hunters were commenting yesterday on the news that L'Anse sportsmen were going out after partridge, supposing apparently the open season began with Sept. 1. The local sports say the L'Anse men are liable to arrest, as it is not lawful to shoot the bird till next month.

Since F. B. Spear has moved his coal to the railroad dock he has begun an era of improvement on the property. He has erected great bins almost the entire length of the dock, and expects soon to have these roofed over, so making sheds in which he can keep his coal nice and dry.

The committee having in charge the Labor Day celebration has done nothing but work since the union took the matter up. Yesterday they were out and arranged plenty of seats and tables in the grove for the accommodation of all comers. They have also secured Mrs. Donovan to cater to the hungry crowd.

There is to be a change in the program for the Athletic entertainment to be given next Tuesday. The Superior quartet which was made up of waiters at the hotel cannot appear as some of them are going to Chicago. The bill will be further altered by the addition of a box between an unknown and a local heavy-weight.

NOTICE. The annual meeting of school district No. One of the city of Marquette, for the election of two school trustees and for the transaction of such other business as may lawfully come before it, will be held at the city hall, Washington street, on Monday, the 7th day of September, 1896, at 5 o'clock p. m. The polls will be open for voting from 9 o'clock a. m. until 7 o'clock p. m. Dated this 31st day of August, 1896.

A number of local hunters were commenting yesterday on the news that L'Anse sportsmen were going out after partridge, supposing apparently the open season began with Sept. 1. The local sports say the L'Anse men are liable to arrest, as it is not lawful to shoot the bird till next month.

Since F. B. Spear has moved his coal to the railroad dock he has begun an era of improvement on the property. He has erected great bins almost the entire length of the dock, and expects soon to have these roofed over, so making sheds in which he can keep his coal nice and dry.

The committee having in charge the Labor Day celebration has done nothing but work since the union took the matter up. Yesterday they were out and arranged plenty of seats and tables in the grove for the accommodation of all comers. They have also secured Mrs. Donovan to cater to the hungry crowd.

There is to be a change in the program for the Athletic entertainment to be given next Tuesday. The Superior quartet which was made up of waiters at the hotel cannot appear as some of them are going to Chicago. The bill will be further altered by the addition of a box between an unknown and a local heavy-weight.

BICYCLE ETIQUETTE.

Warning Not Heeded and the Fall of a Wheelman into a Trench.

That puzzling question of when it is proper and when it is not proper for bicycle riders, unacquainted, to speak to each other on the road, confronted a man on the Coney Island bicycle path one day last week, with a curious result. He was riding along behind two women, and as he approached the one in the rear he noticed that the hem of her skirt was wrapped around the guard of the rear wheel of her bicycle, and that momentarily it was in danger of catching in the small sprocket wheel. That meant an ugly fall. The man debated for a moment whether he would call the woman's attention to it. He decided that it was his duty to warn her of danger just as he would warn any woman of danger if she were walking along the street. He rode up and said:

"Excuse me, madam, but the skirt of your dress is wrapped around the guard of your wheel, and may catch at any moment."

The woman shrunk back a little, put on a stern face, but softened her expression as she remarked the polite tones of the man, and then replied:

"I thank you, sir. I knew my gown looked as if it might catch, but I think I can get it all right."

"It was simply my fear that you might meet with an accident that prompted me to speak," said the man.

"I thank you very much," was the only reply, and then the woman and her companion slowed up and permitted the man to pass on.

About 100 yards further the park workmen were putting in a set of drinking fountains along the path. They had dug a trench on each side of the path, leaving only a space of about three feet in the center through which the bicyclists might pass. The man had gone about 50 yards beyond the trench when he heard an urchin cry:

"Hey, Billy. Look at de lady fell down the hole!"

The man stopped and dismounted. Beside one of the trenches there lay a wheel, but its rider could not be seen. A dozen men rushed to the spot. It was the woman who had been warned by the man. They got her out of the trench without difficulty, and led her to a bench just as the man who had called her attention three minutes before to her danger came up. When she saw him she turned her head away. She was not hurt seriously. Her dress had thrown her because she became nervous as she approached the dangerous crossing, and had shifted in her seat, giving her dress more play about the rear wheel.—N. Y. Sun.

NOT HOMOGENEOUS.

The Reason Why Pennsylvania Is Not the First State of the Union.

Pennsylvania is the second state in the union. But those who are familiar with her vast resources of iron, petroleum, coal and lumber, her temperate climate, her fertile soil and the skill of her people in the mechanic arts and manufacturing, often wonder why she is not easily the first.

The difficulty seems to be a lack of unity and homogeneity among her people. In colonial times her population was split up into distinct divisions of nationalities and religions. The English Quakers controlled Philadelphia and its neighborhood, and also dominated the legislature. The Welsh settled on a tract west of the city, under an agreement with William Penn that they should have it for a little colony of their own. For a time they succeeded in governing it in their own way, and at first very few of them could speak English.

The Scotch-Irish Presbyterians went out on the frontier, became a law unto themselves, and were bitterly opposed to the Quakers, who, they say, refused them all share in the political government of the province and failed to protect them from the Indians. The Church of England people were not very numerous in colonial times; but when the sons of William Penn joined their faith they were given the executive offices of the government, which were all in the control of the proprietors. Thus the political administration of the province was split into two parts, the executive controlled by the Church of England people, and the legislature controlled by the Quakers.

The northern half of the province was claimed by Connecticut, and her people by force of arms succeeded in settling and holding part of it. They lived by themselves, and their descendants still retain much of their local sentiment and pride. But the most important and distinct division was that of the Germans, who numbered at least a third of the population. They retained their language and customs, and lived by themselves. There are still many of them, who, though their ancestors have been in the state for 150 years, cannot yet speak English, and a still larger number who, though they understand English, usually speak the dialect known as Pennsylvania Dutch. Each of these divisions had a distinct religion of its own, which in colonial times increased the desire for isolation, and the effect of these old controversies and feelings has by no means worn away.—Lippincott's.

OUR SCHOOL TEACHERS.

List of Those Engaged to Serve for the Ensuing Year.

The Ishpeming public schools will open next Tuesday morning at 9 o'clock for the fall term. Several of the teachers arrived here yesterday and the remainder of those coming in from outside are expected here today. Superintendent Richard Hardy has called a meeting of the teachers to be held this afternoon at 2 o'clock in the High school assembly room, when all will be instructed as to their duties during the year. Including Superintendent Hardy and Miss Lola B. Herbert, the instructor of music, the corps of teachers numbers fifty-eight. The teachers and the schools at which they will be stationed are as here given:

High school—Miss A. F. Olcott, principal; Misses G. E. Mogford and E. C. Beach, English; Miss E. G. Galvin, science; Miss M. J. Spofford, Latin; Mr. R. D. Ewing, mathematics; Mr. H. H. Davis, manual training; Mr. A. H. Tuttle, history; Mr. S. B. Norcross, commercial.

High school building—Misses A. L. Barnard, Anna Lacey, Margaret Ashton, Alma Joerns, Lillian Fisher.

High street school—Miss Nora Casey, principal; Misses Olga Girzi, Henrietta McDowell, Ada Milton, Agnes Johnston, Belle Beals, Alice Gilmore, Mary Donahoe, Nellie Keigreen, Eliza Ames, Rachel Schreyer, Matilda Sinecock.

Division Street School—Miss Ada McDowell, principal; Misses Margaret Connors, Anna Bamford, Mary Jacobs, Kate Laughlin, Gertrude Bracelin, Rosabel Robinson, Vena Grunzel, Bridget Laughlin, Salome Dyson, Nannie Nickel, Annie Smith, Elizabeth Treillock, Amy Westgren, Anna Haslam.

Ridge Street school—Miss Louise Lehart, principal; Misses Sarah Wright, Bessie La Londe, Emma Nankervis, Nellie Bright, Daisy Williams, Kate Fitzpatrick, Salisbury school—Miss Minnie Belcher, principal; Misses Jessie Rogers, Edith Coy, Mary Stegath, Rose O'Brien, Louise Berner.

Grayerock building—Mr. A. A. Snowden.

THE WRESTLING MATCH TODAY.

Rowett of Ironwood and Harris of Lake Linden to Meet in the Ring. John Rowett of Ironwood, champion Cornish wrestler of the upper peninsula, who will meet Tony Harris of Lake Linden here in a match for \$100 a side and the entire gate receipts this afternoon, arrived here yesterday. He is in excellent trim for wrestling and will enter the ring quite confident of winning the match. He has devoted all the time possible since the match here on the 24th of last month to training for this contest.

Harris will arrive here in due time and he will be accompanied by "Sonny" Dwyer, the catch-as-catch-can wrestler, and other friends from the copper country. It is said that he is also in good condition and will enter the ring prepared to make a strong effort to down his sturdy opponent. Harris is a fine athlete and Rowett will have to work hard to put him on his back.

The match will be best two in three falls. The sticklers and judges will be selected at the ring side before time is called. The match will begin at 2 o'clock sharp and a large number are expected here from outside to witness it.

Gives a Good Entertainment.

Dr. E. C. Ellis, manager of the Wizard Oil Mushing company, which will be at the Ishpeming Opera House all next week, was in the city yesterday completing arrangements for the engagement. He says the opera houses in towns up the line where the company has spent the past eight weeks were not large enough to accommodate the audience. There are seven first-class performers with the company. Their entertainments consist of a vaudeville first past, embracing all the latest popular songs, negro melodies, character sketches and impersonations. The program closes each evening with a comedy bill. Those who do not care to take chances on getting a choice of the seats at the door can procure them in advance at Meloche Bros.' (Sinclair's old stand) drug store without extra charge. The admission to all parts of the house will be only ten cents.

May Reduce the Force.

It is not improbable that there will be a reduction in the working force at the Lake Angeline mine within the next few days. The local management has received instructions from the officials at Cleveland to prepare for a cut down of the force now employed. Agent Kidder and Superintendent Walters will endeavor to keep as many men on the pay roll as possible during the remainder of the shipping season. It has not yet been fully decided what will be done so that it is not known just how large a reduction will be made.

A Fine Monument.

John Nolan has just had put in position at the Ishpeming cemetery a very fine monument to the memory of his wife, who died a few months ago. It is one of the largest and handsomest monuments in the upper peninsula. Its weight is 5,375 pounds, and it was furnished by the Joseph Shaver Granite Marble company of Milwaukee.

Services Tomorrow.

Rev. M. M. Allen will occupy his pulpit at the Presbyterian church tomorrow morning and evening. His morning theme will be, "Some Thoughts of Education." In the evening he will discourse on "Making a Straight Line." All will be made welcome.

WAKE AGAIN AFTER 24 YEARS.

Mr. McClelland Knows How Rip Van Winkle Felt When He Woke Up.

The village of Graysville has developed a strange case as viewed from a medical standpoint—that of a man who had lain upon his bed for 24 years, during a great part of which time he was blind and speechless, and sometimes unable to hear, but can now walk about with the aid of crutches, and his eyesight, voice and hearing all restored. This man is Asa McClelland. He was a soldier in the late war, being a member of company C, Eighteenth Pennsylvania cavalry, and will be remembered by many of his old comrades.

In the early part of the '70s he was taken ill and became bedfast. He lost the use of his body, and finally sank into a half-conscious state, during which he lost both eyesight and power to speak, and for a time could not hear. Some time before his illness his mind became temporarily affected, and he attempted to take his life by shooting. The ball struck him near the base of the brain, but failed to penetrate the skull. But little injury was done, apparently, by the wound, and he went about for several months afterward. After he became ill his case baffled the aid of physicians.

Much of the time he would lie upon his bed with his head and entire body under covers. He would show no sign of recognition, and his food was frequently pushed under the covers within his reach, and thus he ate enough to sustain life. This lasted during a period of 24 years. After the first few years old acquaintances ceased their visits, and he almost dropped out of their remembrance. He now relates the following strange story:

A short time ago he felt strength suddenly return to his body, and had an impulse to rise. He tried to do so and found that he could get up. About the same time he found his eyesight restored. He had not uttered a sound for years, but the thought occurred to him to speak, and he found his voice restored.

His first attempt to walk was by resting his hands upon the back of a chair and pushing it along, but he now uses crutches. He had forgotten many names, and those were taught him just as a little child is instructed. In the same way he was taught to read again. Everything was new to him. He, however, remembered the names and faces of former acquaintances. An old acquaintance who had not seen him for many years met him at the store at Graysville, and was quickly recognized by McClelland. The latter refers to the period of his life prior to his illness as one who has been away in another part of the country for many years and has just returned. He speaks of places about the village as "when I was here before they looked so and so." He says there were but two or three houses in Graysville when he was there then.

Like Rip Van Winkle, he seems to have awakened from a long dream. He says that during his illness he was many times able to hear what was said, but had not the power to whisper even a reply. He has an interest in a piece of land, and draws a small pension, and says he now is able to conduct his own business. Mr. McClelland is 54 years old, and formerly worked at the painting trade.—Pittsburgh Dispatch.

OCEAN STEAMSHIP'S EARS.

First Vessel Equipped with the Device to Determine Sound.

The Gate City is the first steamer going out of this port to be equipped with an aurophone, the new device for enabling the lookout to determine the direction of sounds at sea. The aurophone was tried on the way up, but little could be told about its utility owing to its being placed in a poor position. It consists of a brass box which fits over the mast and which has projecting over each end a broad-mouthed funnel. From this box, close to the funnels, two tubes, like ordinary speaking tubes, lead down the mast and through the main deck to the deck below. Inside the box there is a complex arrangement of diaphragms and sounding boards, so placed that a sound will enter only one of the tubes when it is passing through the funnel on the opposite side of the box. On the lower deck is an arrangement like an engine-room indicator, by which the box above may be turned around the mast, and directly under the indicator in a tell-tale compass. The man below places the tubes to his ears, where they are held in place by a cap. Unless the funnels above are pointing directly toward the sound which he wishes to locate he will hear it only faintly, and in one ear, because one of the funnels being turned away from the sound the tube opposite does not operate. He then turns the indicator in the direction from which the sound appears to come, and when the funnel is pointed directly at the sound it passes through the funnel and out of the other, putting both tubes in operation, and the operator hears the sound distinctly, and in both ears at once. He then glances at the indicator, and the point on the tell-tale at which it rests gives the exact bearing of the sound.

In the case of the Gate City, the box was placed on the foremast, and the operating station was on the forecastle deck. There was so much noise there, caused by the hands moving about and the breaking of the seas against the stem of the vessel, that the sounds came in a confused way, and although bearings could be better taken than by the ear alone, it is thought that the operation of the instrument can be much improved. On the next trip it will be placed on the jigger mast, and the operating station will be in the women's stowage, where it will be quieter. The arrangement is in use on the Old Dominion steamers, and one or two other lines, and has been found to work finely. Whistling buoys and light whistles can be much better located, and can also be heard to a much greater distance than with the ear alone.—Boston Transcript.

Cupid how at a face full of pimples and blotches. Hollow cheeks, sunken eyes, and a sallow complexion will defy his best intentions. Beauty is more than skin deep. The skin is merely the surface on which is written in plain characters the condition of the body. The skin is not a thing by itself, and skin diseases are frequently not skin diseases at all. All the lotions and bleaches and creams and powders in the world won't make a good complexion if the digestion is wrong. If the stomach is sour, and the liver torpid, and the bowels constipated, the skin will show it. No use trying to treat the skin for such a condition. The only way to relieve it is to cleanse the system and purify the blood. As long as the heart is pumping impurities to every part of the body, just so long these impurities will show through the skin.

Dr. Pierce's Golden Medical Discovery is good for the complexion because it makes the whole body healthy—because it cleans and purifies the blood, makes the digestion strong and clears out impurities of all kinds. By increasing the ability to assimilate nutritious food, and by the infusion of its own ingredients, it enriches the blood and so makes solid, healthy flesh. It fills out the hollows, rubs out wrinkles and substitutes for sallowness a rosy, healthy glow. There is no mystery about it. It isn't a miracle. It is merely the result of a combination of rational, natural common sense with expert medical knowledge. It cures diseases of the lungs, liver, stomach, bowels, skin and scalp, simply because all these diseases spring from the same cause—a disordered digestion and consequent impure blood. Don't let prejudice and scepticism cheat you out of your health. Dr. Pierce's Golden Medical Discovery will positively cure you, if suffering from diseases named above.

If you want to know hundreds of great medical truths, send 21 one-cent stamps to cover cost of mailing only, and we will send you FREE a copy of Dr. Pierce's 1008-page book, "Common Sense Medical Adviser." Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

WORK OF THE COUNCIL.

It Met and Disposed of Some Business Thursday Evening. The regular monthly session of the city council Thursday evening was presided over by Mayor Kirkwood.

The minutes of the meetings held Aug. 6 and 26 were read and approved. A petition from Ellen Broad and three others, asking for an extension of the main sewer in district No. 4 to lot 10, block 1, of Corbett's second addition, was read. It was referred to the sewerage committee.

On motion of Alderman Anderson, the July report of Marshal Rough was accepted, it having been approved by the committee on police.

Alderman Gaffney, from the committee on sewerage, reported that the extension of the sewer to the Jackson school had been completed, and that two catch basins had been put in, one at the head of Jackson street and the other at the rear of Benjamin Neely's block. The report was accepted.

Alderman Perkins, from the committee on water works, reported that the water main has been extended on Jennings street. The same was accepted. Alderman Kellan advised the council that the Lake Superior & Ishpeming Railway company has repaired the crossings along its line within the city limits.

On motion of Alderman Matthews, the following report from the committee appointed to purchase supplies for the fire sufferers of Ontonagon was accepted and the committee discharged:

Your committee appointed to purchase and forward groceries and provisions to report that the provisions were purchased amounting to two hundred dollars (the sum appropriated by your honorable body) on the same day and shipped at midnight same day, through the courtesy of the management of the D., S. S. & A. R'y. This committee further report that they have not received any acknowledgement of receipt for goods sent. And your committee beg to be discharged.

Accompanying the report were vouchers showing the exact amount of goods purchased. The marshal's report for August was read and was referred to the committee on police.

The recorder was instructed to deduct \$3.57 from the electric light company's bill for lights out during last month.

On motion of Alderman Perkins, the resignation of Frank V. Sauer as supervisor of the Fourth ward was accepted. Maurice Wollner was elected to fill the vacancy. T. M. Wells received three votes and S. S. Thomas one vote for the place.

The bond and oath of office of Charles McComber as street commissioner of the city were read and ordered placed on file. Peter Trudell and Medore Gauthier are his sureties.

The bond of R. C. Treloar, justice of the peace, was also read and was accepted. His sureties are Henry Sawbridge and Joseph Andrews. A list of bills against the city, which were approved by the finance committee, were ordered paid. The council then adjourned.

Will Meet Monday.

Superintendent Davis of the Negaunee public schools desires the teachers who will do service here the coming year to meet Monday morning at 9 o'clock at the Case street school, when work for the year will be outlined and classified as far as practicable. A full attendance of the teachers is desired. The schools of the city will be formally opened for the fall term Tuesday morning at 9 o'clock. All who have children old enough to attend school should go to school the first day, so that they may be assigned places. A number of the teachers arrived in the city yesterday and more will get here today and tomorrow.

Will Not Attend.

Most of the union men here who had fully made up their minds to take in the Labor Day festivities at Norway next Monday have given up the idea, owing to the Lillie mine having closed down. This shut down has made the men feel "blue," and they have lost all desire to go to the Menominee range to spend the day. Those who will take a day off here will go to Ishpeming to take in the sports there. There will be a parade and speeches there in the forenoon and Cornish wrestling in the afternoon. The admission to the latter will be only ten cents.

Candidates for School Trustees.

Benjamin Neeley and Christian Johnson will be candidates for school trustees in the school district election to be held Monday. Both are good men and will be well supported. Mr. Neeley is an old resident of Negaunee and a public-spirited citizen, and the voters of the district will make no mistake if they place him on the school board.

STRANGER THAN FICTION.

Rifle Bullets May Be Rendered Harmless by the Use of a Dynamo.

The Journal de Geneve gives some startling details respecting the deflection of steel projectiles by electricity. It will be remembered that Dr. Conan Doyle, in the Stark Munro letters, attributed an invention to his crazy hero for deflecting shots from vessels by means of accumulators at the stem and stern. That which appeared improbable now seems to be easy of realization—at least, if the facts stated by our contemporary have not been misapprehended. They are as follows: "The committee of the federal rifle meeting at Winterthur has made a curious discovery while summing up the results of the last course. The greater number of the hits on the target fired from the right side of the range were marked on the right of the bull's-eye, while those fired from the left of the range were almost exclusively on its left. Moreover, all projectiles partly or wholly constructed of steel had become magnetic. These facts suggested various theories, and among them it was suggested that the diversion of the bullets might be due to the numerous electric and telephone wires extending along both sides of the range at Winterthur. Fresh experiments at the range of Berne and Thun conducted to this conclusion. The authorities at Thun seem to have little or no doubt on the subject.

"At Thun authorities established parallel with the rifle range, at a distance of a little more than 40 yards, an electric current of 8,000 volts, carried along four steel cables. With a view of tracing the whole effect paper circles were placed at every ten yards. The first experiment was made with the Swiss model rifle of 1889. With this the influence of the electric current was apparent. In a distance of 250 yards the bullet took a lateral deviation of 24 yards, and after that the curve of the trajectory was still more marked. The second experiment was made with the Japanese 3.2mm. rifle of Col. Yamagata, and it was still more decisive, the bullet being rapidly attracted to the electric wire, and following its course with absolute servility. Further attempts were made with artillery.

The range selected was one of 3,000 yards, and 200 yards in front of the targets, but 40 yards to the side, was placed the electric battery. Every shot was diverted by its influence far to the side of the target—to be exact, the deviation was one of 14 degrees.

"The conclusion drawn from these experiments are that a section of infantry exposed to fire at 300 yards would enjoy complete safety if a dynamo or accumulator were placed on its flank; a whole company would be in the same security at 500 yards, and artillery fire could be rendered innocuous at 1,000 yards. If these facts are sound, the new small-bore rifle is doomed, and we shall have to return to the heavy bullet of lead, because it is unaffected by electricity. But to military reformers this will signify a repulse along the whole line."—N. Y. Herald.

Old Neighbor—Oh, he's changed completely now. He's the most modest man you could find in a day's journey,—he doesn't believe he knows anything. "You don't say so! Well, now I think of it, when I met him he was a college sophomore." "Yes, and now he's a graduate, and trying to earn his own living."—N. Y. Weekly.

### SCHOOL BOARD FIGHT ON.

Prospect of a Lively Battle for the Trustees Positions Made Vacant.

TWO CANDIDATES ALREADY ANNOUNCED AND MORE COMING.

Silver Men Propose to Debate With Gold Burs—Menominee Aldermen Heavily Fined—Winter Will Be a Cold One.

#### COMING SCHOOL BOARD ELECTION

Considerable interest is being taken in the coming school election, and as the case was last year, there is likely to be a lively fight for the positions made vacant by the expiration of the terms of Trustees Moore and Spear.

They are in the field for re-election, and there are already two candidates mentioned who will race against them for the places, while others, it is asserted, will be sprung at the last minute. The indications are for a "slippy" campaign.

While the board as at present constituted has pleased one portion of the community with its management of the schools there is another faction which has not been pleased. There is constant complaint of hard times, and trouble to raise enough money to pay taxes, yet the board has advanced salaries all along the line, the average being about ten per cent. of the pay the teachers got last year. Many complain that the present tax of \$27,000 a year is too high, and that the schools could be made nearly or quite as efficient with less money. Another complaint is that outside teachers are given positions in the faculty while graduates of the local high school, who have added to this college training, are turned down when they put in their applications for places.

The two candidates already announced, in addition to the pair up for re-election, are Joseph Neidhart and W. H. Johnson. The polls will open at 9 o'clock Monday morning in the city hall.

#### WANT TO DEBATE THE ISSUE.

THE MINING JOURNAL has received a communication from a silverite who thinks that many of the people would like to be educated on the money issue. To this end a joint debate is proposed, and the following challenge issued:

It is less than sixty days before the people of this country will be called upon to decide the financial problem now being agitated. Many persons in this vicinity will be called upon to give their verdict upon it who have neither time nor means to prepare themselves to do so. They are anxious to learn but know not what to believe. They do not want spread-eagle oratory or soap-bubble logic and these may both be avoided by subjecting the argument of each side to the criticism of the other and limiting the time allowed for each address.

Two believers in free coinage hereby challenge any two advocates of the gold standard to discuss the financial problem in a series of joint debates to be conducted subject to the following condition and such others as may be agreed upon.

The advocates of the opposing sides shall speak alternately but neither side shall occupy more than ten minutes at any one time without the consent of the other.

If the advocates of the gold standard have any faith in their cause they will not fail to accept this challenge, for sound logic will bear investigation.

Address all communications to John R. Hood, Marquette, Mich.

#### One Big Judgment.

When the court adjourned yesterday it did so sine die and ended the September term. Its entire time during the last two days has been devoted to hearing evidence and argument in the case of the Monmouth Mining and Manufacturing company against the aldermen of Menominee. As has been mentioned here before these aldermen let a contractor for a sewer, and failed to take a bond as required by law from the contractor for the protection of the material, men and sub-contractors. The Monmouth company furnished most of the material and was unable to collect its bill, so it took advantage of the aldermen's neglect and came back on them for the amount due. The case was a hard fought one, but in the end it was very disastrous to the Menominee city dads, as there was a judgment brought against them for \$6,676.59, for which amount they will have to go down in their jeans pro rata. They have, however, thirty days in which to move for a new trial, and proceedings are stayed during this period.

#### Get Out Your Furs.

For once the scientific weather prophets and the others, who go by natural signs, or by guess and b'gosh have agreed upon a prediction.

This latter class has come out verbally and in almanacs, in interviews, and any other old thing, and adjured the people to get their coal in early and buy double weight underclothing, because an arctic winter was coming.

Weather Observer Patrick isn't an alarmist. He doesn't want to scare the people. He sits up in his tower and wishes them all the good will in the world, so he isn't so heartless as to predict the coldest weather ever seen in the upper peninsula. He says it will be cold, though, colder than the last two winters have been, and that there will be lots more snow. Mr. Patrick called the turn on the weather last year, and says he feels safe in his prediction for the coming winter.

In cold winters, he says, the storms travel further south than they do when it is warm. This time last fall they were coming in over Oregon, at present they are in the latitude of Salt Lake City, and by January time they will be much lower down than that.

As an indication of how early winter will set in the first flock of wild geese are reported to have flown over the city yesterday.

Resignation Was Not Accepted. Somewhat to the surprise of his congregation and much to its regret the Rev. W. E. Freeman tendered his resignation last Sunday. At the succeeding meeting of the trustees of the church

the matter of the resignation was of course brought up, and it was voted unanimously that the resignation should not be accepted, and it is thought that the pastor will reconsider his action and remain with the Marquette church. At the same meeting enough money was raised to practically clear the church of its small indebtedness.

#### Musical Soiree.

The musicale given for the introduction of Miss Grace Kemp under the direction of Prof. Muhlbaur was a marked success.

Presbyterian church, in which place the entertainment was given, was very comfortably filled with an audience of the leading musical and society people of the city. That the entertainment was excellent is attested by the repeated and insistent encores they gave the performers.

First on the program was Prof. Muhlbaur himself with a violin solo. The selection was Bohm's "Legend," which he rendered in his usual masterly style. Miss Irene Johnson sang sweetly "Ashore," by Bingham, and gave for an encore a familiar Scotch ballad most charmingly.

"Deep in the Mine" was rendered in fine style by the rich bass voice of M. M. Gillett, and the "Angel's Serenade" sung by Miss Hodgkins was much appreciated and enthusiastically applauded by the audience.

Miss Hornby gave the only recitation on the program. Her selection was the "Sioux Chief's Daughter." This is a piece that is a favorite with professional elocutionists, but Miss Hornby's rendition did not suffer by the comparison that might be made.

Miss Grace Kemp is a charming young girl and a promising pupil of Professor Muhlbaur's. She rendered a most difficult piece of Liszt's, the "Hungarian Fantasia." Her expression and technique are excellent, and altogether she gave a very pleasing rendition of the number. She was accompanied by her teacher, Professor Muhlbaur.

The soprano solo that followed this number, "He Was a Prince" was rendered exquisitely by Miss Meehan, while the concluding number of the program "Welcome Pretty Primrose," by the Sappho Ladies quartet, composed of Mesdames Palmer and Steele, and Misses Johnson and Meads, was excellently given and well received.

#### Mr. Gordon Is Responsible.

Mr. Gordon sends the following communication to THE MINING JOURNAL giving his side of the story about the shortage of water in Dead River and the consequent inconvenience to the electric plant:

Judging from an article in your paper of Sept. 3, you are at a loss to know who is responsible for the handling of the water in Dead river in connection with the Dead River Mill company's operations. I, the undersigned, am pleased to say that I am responsible for the good or bad actions up river, and must say that Mayor Jacobs is at least mistaken when he says we are responsible for the carrying away of the electric light dam last April. At the time the said dam was washed away we had not commenced operations yet up river; we had neither closed nor opened any dam up river. Our dams, both above and below, took equal chances with the electric light dam. As for the shortage of water in July, we were unintentionally to blame, which I have already explained through this paper. And as to the last, fresher referred to, it was caused by the breaking away of both gates at the Hoist dam. It was our intention to waste that water in two days, but the accident let it all come in one. It is our intention to treat fairly, and we don't want to be placed in a wrong light with the public. Hoping that this will be given space in your valuable paper, I am, Respectfully yours, JOHN R. GORDON.
