Doctor Sponge

has very large practice, but it would be much larger if people only knew what an excellent physician he is generally, and how very moderate are his charges. Those who do know him thoroughly, couldn't be induced to give him up. He comes in all sizes and at all prices—you may buy a big, soft, spongy sponge for \$1, and you may buy a tiny, soft, spongy sponge for 5c. You may also get soft, spongy sponges in different prices and sizes between these. Try one at your bath tomorrow—try one on the baby—use it for everything.

GREAT CROWDS HEAR BRYAN

Thousands of Admirers of the Silver Candidate Turn Out in His Honor.

SPEAKS AT MANY POINTS IN THE BUCKEYE STATE

Three Big Meetings at Youngstown and Four at Akron the Features of the Day—Talked in McKinley's County.

OHIOANS HEAR SILVER GOSPEL.

STUEBENVILLE, O., Oct. 20.—The trip this morning of Candidate Bryan along the banks of the Ohio was punctuated here and there with cheers for his opponent and sandwiched in the crowds were many badges of a color indicating their wearers were not as friendly to silver as they might have been. Five stops were made before this place was reached. Steubenville was visited yesterday by the Alger party of campaigning generals and one speaker attacked the pension record of Mr. Bryan. Bryan answered the statements today by saying he was a better friend of the soldiers than those who wished to submit the financial policy of this nation to the dictation of foreign powers.

AKRON, O., Oct. 20.—At East Liverpool shortly after 10 o'clock the Democratic nominee addressed a large crowd at that place. He had trouble in making himself heard because of the cheering for his opponent; but every manifestation of affection for the Republican nominee was answered by the yells and cheers of the supporters of the free silver champion. Pennsylvania was invaded by Mr. Bryan at Rochester, at noon. It was a distinctively Bryan crowd. The nominee defended that plank of the Chicago platform declaring in favor of an income tax and quoted the opinion of Justice Brown in the income tax case. Short stops and brief talks were made at New Brighton and Kenwood.

BRYAN'S VISIT TO YOUNGSTOWN.

At Youngstown, Mr. Bryan found the largest crowd he had encountered during the day. From the depot to the places of speaking and back to the depot the nominee received a continual ovation. The candidate spoke three times at Youngstown, the first being from a stand in a public square, the next in the opera house to women and the last near the Pennsylvania depot, where he spoke from a carriage. In his first speech Mr. Bryan said:

"They tell you we are raising a sectional question; we are trying to array the west and south against the north and east. But we are simply trying to array those who love American liberty against those who want foreign dominion."

In his speech at the opera house Mr. Bryan said:

"I fully realize the responsibility of the great office for which I am a candidate. I very fully realize the difficult work that lies before one who goes into that office with that determination, and I have been gratified beyond measure to find the deep interest that the people have taken, and I feel sure of this, that if by the suffrages of my countrymen I am to enjoy the highest honors within the gift of men to confer, I have behind me the earnest and powerful hearts of those who still believe this nation should be what our forefathers intended it to be, a light to all the nations of the world."

"I think I have exhausted my powers for discussion in trying to describe what must be the result, not only to the people of this city but to all mankind all over the world, if the gold standard system is to be chained to the people of the United States. I believe what the historians say, that the dark ages came upon the world as a result of a decreasing volume of the world's money, and I think I can see in the signs of the times, in legislation that makes the rich richer and the poor poorer the entrance upon another period of dark ages, unless the manhood and womanhood of this nation rise to take it from the grasp of those who have so legislated that they might rise above their fellowmen."

Mr. Bryan was then presented with an immense basket of chrysanthemums in bunches of sixteen white to one of yellow. The presentation was made by two little girls, dressed in white and yellow. Mr. Bryan, in acknowledging the gift, said:

"I appreciate the kindly feelings which rise behind these floral gifts and do not accept as any personal tribute to me or to her who has shared my struggles and shall share all the honors that may come, but rather as an indication of your interest in that great cause for which, at this time as a presidential nominee, I stand."

SPOKE IN MCKINLEY'S COUNTY.

The last speech at Youngstown was delivered to laboring men near the depot. He spoke about the attempt of railway companies to coerce employees and said the position of railway magnates was not because of the Chicago platform declaring for free silver, but because of the declarations for arbitration and against government by injunction. His remarks were enthusiastically received.

The next stop was in the county in which resides the Republican nominee. It was at Alliance, and several thousand people listened to the candidate for twenty minutes. There was another good crowd at Ravenna. Here Mr. Bryan spoke five minutes. At Kent there was a repetition of the crowd at Ravenna, and the candidate appealed to them to study the money question, and not let anyone else do their thinking for them, and then vote as they thought best.

SANDUSKY, O., Oct. 20.—The feature of the Akron meetings was the crowd. It had been arranged that Bryan should

address three audiences, one on the outside and two in halls, but the great assemblages prevented him addressing the crowds as advertised. It would be impossible to estimate the number of persons who heard, or tried to hear, the nominee in Akron. From the time he left the train until he, aided by three detectives, fought his way into the special car, it was one howling, shouting mass of humanity about him. He made four speeches from a carriage. They were short and of the same nature as those he generally makes in five-minute addresses. After leaving Akron, Mr. Bryan addressed enthusiastic audiences at Medina, Elyria and Sandusky.

TWELVE WERE DROWNED.

A Steamer Goes Ashore in a Fog on the Oregon Coast.

MARSHFIELD, Ore., Oct. 20.—The steamer Arago went ashore this morning in a heavy fog just north of Cooks bay jetty. In attempting to land, four of the passengers and eight of the crew were drowned, of which the following is a partial list:

E. M. M'GRAW, Coquill City.
JOHN NORMAN, Marshfield.
RICHARD WALTERS, Oakland, all passengers.
Of the ship's crew the drowned are:
M. P. WHITTLE, San Francisco.
ERIC WALLA, San Francisco; fireman.
RICHARD PATTERSON, San Francisco; steward.
A. FERNANDEZ; chief cook.
W. E. BROWN; chief engineer.
J. KURGER and HARRY SANDERS, sailors.

What is left of the steamer to be seen is two spars projecting upon the ocean beach. The survivors were brought to Empire City on the tug Columbia. None of the bodies of the lost were recovered.

BOOTH-TUCKER IN NEW YORK.

He Pleads for the Admission of the Armenian Refugees.

NEW YORK, Oct. 20.—Commander Booth-Tucker appeared before the board of special inquiry at Ellis island today to plead for the admission of the 157 Armenian refugees detained there pending a decision as to their desirability as immigrants. Dr. Senner defined the position of the government in the matter as that "we cannot allow these people to come here and compete with American workmen. All people come here as immigrants, and as they arrive we decide as to their merits as individuals and not as a class. Before we can admit people that Salvationists and other philanthropists want to be landed, we must have a substantial guarantee in the shape of bonds that the people so admitted will not become a charge on the country. Workmen of Massachusetts have complained very much about immigrants from Armenia during the past few years, claiming they lower the standard of wages in some industries."

MCKINLEY GETS A REST.

Delegations Scheduled for Yesterday Postpone Their Visits.

CANTON, O., Oct. 20.—Two delegations had announced a visit with Major McKinley today, one from Cleveland and one from the eastern district of West Virginia and the western district of Maryland. Both were postponed. The Cleveland delegation will come tomorrow and the Maryland delegation Oct. 27. Among the callers at the McKinley home today was J. Madison Vance, a colored man from New Orleans, who made a most eloquent address at the St. Louis convention seconding the nomination of McKinley. He was accompanied by Mr. Myers and Charles W. Anderson, private secretary to the treasurer of New York. Robert P. Teenock, ex-member of the state legislature of Massachusetts, called to pay his respects to Mr. McKinley today.

SICKENING TALE FROM ARMENIA.

The Massacre at Van—No Armenians Left in the District.

LONDON, Oct. 20.—A Berlin dispatch to The Daily News says: The St. Petersburg Viedomosti gives details of the Van massacre, secured from fugitives who arrived at Elchmiadzin. They declared no Armenians were left in the Van district. The Kurds, declaring they were executing the sultan's will, mercilessly butchered the men, kidnapped the prettiest women and girls and threw the children into pits intended for storing corn and buried them alive, in order to save ammunition.

PROHIBITION TICKET SECOND.

State Supreme Court Settles Its Position on the Official Ballot.

LANSING, Mich., Oct. 20.—[Special.]—The supreme court today filed an opinion in the case of Fred A. Baker vs the board of election commissioners of Wayne county, directing that the Prohibition ticket be placed second on the official ballot and stating that the "National" Democratic ticket and the Democrat-People's Union Silver ticket be given such place on the ballot as the election commissioners in each county might determine.

MORRILL REELECTED SENATOR.

Venerable Vermont Statesman Has Already Served Thirty Years.

MONTPELIER, Vt., Oct. 20.—Justin S. Morrill of Strafford was reelected United States senator from Vermont this afternoon. No other name was presented and Mr. Morrill received the entire thirty votes. When on the 4th of March next he is formally inducted into the office which he has filled for thirty years he commences a term which bids fair to break all records of membership in the national senate. Mr. Morrill is eighty-six years of age.

HARRISON ON THE STUMP.

The Ex-President Starts Out On a Speaking Tour Through Indiana.

CHIEF DEMONSTRATION OF THE DAY AT PRINCETON.

There He Talks to a Crowd of Five Thousand People and Denies He Has Changed Front on the Silver Question.

AFTER VOTES FOR MCKINLEY.

INDIANAPOLIS, Oct. 20.—General Harrison left this morning on his first speaking trip in this state. He was given three cheers by the people at the depot just before the train pulled out. SPENCER, Ind., Oct. 20.—General Harrison's first speech was at West Indianapolis. The next was at Mooresville, in which he said that in the last campaign the Democrats demanded cheap things. They won, and the people had cheap things, cheap manufactured articles, cheap agricultural products—so cheap that everybody lost money. Now these same people had changed their tactics entirely, and were calling for high prices. The general also spoke at Martinsville, on the use of federal troops in states, and at Spencer on federal courts. He was enthusiastically cheered everywhere.

EVANSVILLE, Ind., Oct. 20.—General Harrison arrived at Evansville at 6 o'clock, having made ten speeches during the day. Everywhere there were great crowds and everywhere great interest was manifested. At Vincennes, the silver question was his topic. He concluded as follows:

"We must stand out with the votes of a million of our people in Indiana and adjoining states the heresy that is pressed upon us now. What we want is a return to the condition of things we had when we had a revenue bill that paid the expenses of the government and did not put us to the necessity of buying bonds to pay them."

HASN'T CHANGED ON SILVER.

The demonstration of the day was at Princeton. Here General Harrison was escorted to the fair grounds, where there was a crowd of five thousand. The speaker referred to the fact that Bryan had attempted to show that he occupied a different position now from that occupied by him while president, on the silver question. He quoted at some length from speeches made by him in 1876 and 1878 and also from messages to congress.

"My voice then," he said, "speaking under the responsibility of a great public office, was precisely what it is today when I speak as a private citizen."

"The Chicago convention declared it denounces federal interference with the affairs of states. That was not a general proclamation. It was meant to rebuke Mr. Cleveland for interfering in the Chicago riot and to open a way far United States mail and for commerce between states. When Mr. Bryan endorses that platform he declares that if in any of our states a riot should break out and mail trains be stopped and interstate commerce be stopped, he will not feel he has the right or power as president to open a way for the mails of the United States and its interstate commerce. We must hold to the doctrine that the president is the chief executive of the nation, sworn to execute the laws and has power to execute them on every foot of American soil without asking anybody's consent."

At the conclusion of the speech the crowd at the back of the platform demanded an address and the general spoke briefly. At 7:30 p. m. the Evansville demonstration was begun by a parade, which was reviewed by Harrison from a stand at the court house. After the parade the ex-president spoke to two thousand people.

NO CHANGE IN POLICY.

Government Will Keep a Watchful Eye on Cuban Filibusters.

WASHINGTON, Oct. 20.—It can be stated on good authority that there has been no change in the declared policy of the government with respect to Cuba, nor is any contemplated. From the inception of the present difficulties in Cuba the administration has used all reasonable diligence in preventing the fitting out in this country of hostile expeditions against Spanish authority in Cuba, and this vigilance will be continued to the end. It can be stated, also, that the sending of the revenue cutter Windom to sea with sealed orders has no special significance whatever beyond the purpose of the treasury department officials to keep secret from Cuban agents the movements of the revenue fleet.

LATE NEWS FROM CUBA.

HAVANA, Oct. 20.—The supreme court of war and marine has ordered the preparation of new cases against the crew of the American schooner Competitor, who will now be tried before an ordinary marine court martial.

Consul General Lee is in good health and the report circulated by La Lucia in a dispatch from Washington to the effect that the general had asked to be recalled is classed as untrue. Four boats marked "Three Friends" have been found on the beach south of Juruague, province of Santa Clara.

Acquitted on Ground of Insanity.

MANSFIELD, O., Oct. 20.—In the case against Miss Celia Rose, on trial for having caused the death of her father, mother and brother with poison, the jury today, after being out an hour, brought in a verdict acquitting the accused on the ground of insanity.

TYPICAL COUNTRY COURT.

Where Justice is Dispensed in a Rural Southern Town. The day is sweltering and the little green lawn in front of the courthouse is fairly alive with a motley gathering of people of all grades—of all shades of color.

Time passes and the crowd grows denser and more dense; some are going out all the time. They occupy the entire space within the bar and bank up on the desk-like tops.

Even his honor is crowded for space, but takes it as a matter of course. Within the small inclosure on his platform numerous persons are seated, others completely throng and block up the steps and entrance and pen him in, a prisoner in his own castle.

More time elapses, and the sheriff, not caring to fight his way again through the crowd, has jumped from the window to the ground, only a few feet below, and now brings in the prisoner. Some one is made to vacate a chair in order that the accused may be seated, and he is soon so surrounded by the crowd as to become entirely invisible.

Still the lawyers do not appear. At length the judge, having finished his paper, instructs the sheriff to ring the courthouse bell, but, having made already two journeys through the crowd, he is exhausted and calls to some one near the rope, which dangles near the main door, to exercise this function for him.

After performing the various functions necessary to the opening of court, it is dinner time, and a recess is taken. Several cases which have been on the docket for some time are postponed until the next term, and everyone, apparently, is satisfied.—Washington Star.

NO FUSION IN GEORGIA.

Democratic State Committee Rejects the Proposition After an Exciting Debate.

DEMANDS OF THE POPULISTS ARE IGNORED.

Committeeman Washburn Unexpectedly Returns to Chicago After Conference With Watson—Said to Have Ultimatum for Jones.

WILL STICK TO OWN ELECTORS.

ATLANTA, Ga., Oct. 20.—After an exciting debate the Democratic state committee today rejected the Populist fusion proposition. It further held the state committee had no right to take down the Democratic electors as demanded by the Populists.

BACK FROM THE CONFERENCE.

CHICAGO, Oct. 20.—George F. Washburn, of the Populist national executive committee, arrived unexpectedly this evening from Thomson and Atlanta, Ga., where he and Committeeman W. H. Reed had been in conference with Vice Presidential Nominee Watson.

It is stated on good authority the reason Washburn returned so suddenly was to confer with Chairman Jones.

of the Democratic national committee, and place before him in the form of an ultimatum two or three propositions from Watson looking to the latter's recognition on fusion tickets in different states.

Mr. Washburn said he had seen Watson's letter of acceptance and says it is interesting political reading. He also says Watson will not be ignored, and that his persistency in claiming the rights of his party has placed him in a false light.

A SPECIFIC FOR—

La Grippe, for Colds, Coughs, AND LUNG TROUBLES, AYER'S CHERRY PECTORAL

"Two years ago, I had the grippe, and it left me with a cough which gave me no rest night or day. My family physician prescribed for me, changing the medicine as often as he found the things I had taken were not helping

me, but, in spite of his attendance, I got no better. Finally, my husband,—reading one day of a gentleman who had had the grippe and was cured by taking Ayer's Cherry Pectoral,—procured, for me, a bottle of this medicine, and before I had taken half of it, I was cured. I have used the Pectoral for my children and in my family, whenever we have needed it, and have found it a specific for colds, coughs, and lung troubles."

A ZOOLOGICAL DIVERSION.

Story of an Elephant Who Indulged in Practical Jokes.

The elephant at the Jardin des Plantes, at Paris, used to play his visitors a trick which could not have been thought of but by an animal of such intelligence. His house opened upon an enclosure called the Elephant's park, containing a pond, in which he would lay himself under the water, concealing every part of him except the very end of his trunk—a mere speck, that would hardly be noticed by a stranger to the animal's habits.

The steamer Grand Traverse of the Lackawanna line, and the steamer Livingstone, collided early Monday morning near Colchester light. The Grand Traverse sank immediately, the crew being taken off by the Livingstone. There is now nothing to be seen of the sunken boat but the spars and smokestack. The Livingstone turned back and continued on her way to Detroit with the crew of the Grand Traverse aboard. The Grand Traverse after being laid up most of the season, went into commission at noon Sunday, and had not been in service twenty-four hours before she was sunk. The Livingstone had also been out of commission but was loaded with grain at Armour's Friday.

ROYAL Baking Powder Absolutely Pure

FANCIES OF THE AUTUMN MAID.

She Will Exercise Individual Taste in Choosing Her Frocks.

With the coming of September and the oyster the summer girl has laid away her laced and ribboned frocks of organdie, and like diaphanous material, folded up her rose and cream Dresden silk petticoats, consigned her gayly beflowered hats to their handboxes, and transformed herself into a demure autumn maid. And she is queen.

Her robes of state are varied, for it is the day of individual taste, but whether the autumn girl appears on the golf links at Whenton or on the tennis grounds at Kenwood, she is seen in the trimmest and coziest of frocks and hats, and is "chie" from crown to toe.

It is easier to tell what she will not wear than what she will. The prophecies of the autumn styles are careful as yet, because fashion is such a capricious thing the prophets are finding their position a trying one. It seems to be settled that all the modifications possible in the big sleeves are to be introduced, and the sleeve shown most frequently so far is a long, rather close one, not skin tight, but a little wrinkled, with all sorts of puffs and plaits to reconcile the friends of the big sleeve to its gradual passing.

Until now Dame Fashion has relegated the wear of the shirt waist to the summer months, but this year the autumn girl has had her own sweet way in this, as in many other matters, and the coming fall and winter will see her and her pet shirt waist almost as close companions as in the summer time.

It may be made of corduroy, smoke-colored being the favorite, or Persian figured velvet, or any of the new heavy loosely woven novelty goods, but the autumn girl observes an unwritten law which says it must be worn with white collars and cuffs.—Chicago Tribune.

How to Make Bananas Harmless. The banana yields more food to the acre than any other plant, and yet it disagrees with no end of northern stomachs. This is because we eat it the wrong way. But the wife of a missionary to the tropics tells the glad tidings from heathen shores of how to eat a banana. When you have stripped off the willing rind, just scrape off the stringy and hairy coat that lies beneath the rind and you may eat your banana without tasting it all the rest of the day.—Philadelphia Record.

AN ERRING YOUTH

Takes to Wicked Ways and Winds Up by Robbing His Father.

John Toutloff robbed his father, Moses B. Toutloff, Monday night and he is now behind the bars of the city jail awaiting a hearing. Cash and valuables amounting to about \$500 was the extent of the young man's theft.

John has not been living at home since last May, previous to which time he was in his father's employ as bartender. Some time during Monday evening he got into the house—the family residence being above the saloon—and concealed himself in an unoccupied room. He remained there until the other members of the family had retired. He then went down into the bar room by a rear stairway leading from the kitchen. The door at the bottom of the stairway was unlocked, so that he had no difficulty getting into the place.

The safe is directly opposite the front window of the saloon and can be seen from the street when the curtains are drawn as they always are after 11 o'clock at night. John evidently knew the combination of the safe and he also had a key to the inside door, as no force was used in reaching the drawers where the money was kept. Mr. Toutloff did not know that John knew the combination or that he was in possession of a key to the inner door of the safe. He thinks, however, that his son had a key made while he was out of the city last April as he left him in charge of the business during his absence.

John took all the cash in sight. Mr. Toutloff's pocketbook was in one of the drawers and contained \$180 in bank notes and \$10 in gold. All but the latter was taken. The gold evidently escaped his notice, as it lay in one corner of the purse. About \$80 in silver, two gold watches, a silver watch and a fine revolver were also taken from the safe, and between \$8 and \$9 in small change was taken from behind the bar. Mr. Toutloff usually leaves some small change back of the bar for the bartender to use early in the morning. One of the gold watches belonged to Mr. Toutloff and is worth \$95. The other two were watches he was holding for parties who left them in his charge. The young man made his escape through a window in the rear of the bar room.

Soon after Mr. Toutloff came down stairs yesterday morning he had occasion to go to the safe. He found the door unlocked, and at once knew that he had been robbed, as he distinctly remembered locking the safe when he closed up the previous night. After looking through the safe he began an investigation of the building. He found the window open and on making inquiries among the family he learned that one of the girls had heard someone going down into the bar room. She had paid no attention to the noise, as she thought it was one of the other boys who had business there. This was sufficient to convince Mose that John was the guilty party.

Mr. Toutloff immediately went to Justice Kennedy's office and had a warrant sworn out for the arrest of John. The warrant was placed in Officer Downing's hands and within two hours the young man was found and was placed behind the bars. The prisoner was searched but nothing incriminating was found on him. He had about \$7 in change in his pocket.

The officer suspected that Mrs. Lagary, a woman with whom young Toutloff is very intimate, might know something of the robbery. She was seen but she pleaded innocence. Her place was then searched. About noon the officers found the revolver, and the gold watch which Mr. Toutloff held for safe keeping, wrapped in a handkerchief, under a shed at the rear of her house.

Mr. Toutloff says he will show his son no mercy whatever, as he has been anything but dutiful. His conduct of late has been so disgraceful that his father would not allow him to remain at home, and he has finally concluded that a term in prison will do him good.

The hearing in the case will probably take place today in Justice Kennedy's court.

HE PUT THEM OUT.

A Dago Case That Was Too Much for Justice Kennedy's Patience.

Justice Kennedy had the very unpleasant task of putting about twenty-five excited Italians out of his court room yesterday morning. This action on his part saved the dago from entering into a free-for-all fight. They came before Mr. Kennedy to settle a dispute between Frank Salvaggio and one Carlo. Some time ago the former loaned Carlo \$5, which he claimed had never been paid back. Carlo was positive he had returned the money to Salvaggio, and thus the quarrel began. Each of the men had about a dozen witnesses to testify in his behalf. The witnesses got excited and contradicted one another until they all got in a fighting mood. Mr. Kennedy spent some time trying to quiet them, but without success, so he finally opened the door and told them all to get out. Mr. Kennedy says he never had such a noisy gang in his office during his eighteen years experience as justice of the peace. They were all talking in the Italian language so that the racket was very annoying. In order to dispose of the case Mr. Kennedy rendered a judgment against Carlo for \$4.10.

The Van Brooklyn Family.

The condition of Mr. and Mrs. John Van Brooklyn's children who are ill with typhoid fever was slightly improved yesterday, as compared with the previous day. Addie, the oldest girl, was much better than on Monday. Emily, aged eight years, was very low, but the other boy and girl were reported out of danger. On Monday

night John, the oldest boy, again developed symptoms of the disease. His temperature went as high as 103, but yesterday morning it was four degrees lower. He will be taken to the Ishpeming hospital for treatment.

Tonight's Program.

Following is the program to be rendered this evening in connection with the bazaar being held this week under the direction of the ladies of the Swedish Lutheran church:

- Overture... Lake Superior band. Dialogue... Naomi Skogberg, Annette Borg and Eddy Sandberg. Selection... Mixed Choir. Address... Rev. John Truedson. Vocal solo... Carl Jonsenblad. Selection... Male Choir. Overture... Lake Superior band.

Special Cloak Sale.

For the accommodation of ladies who are intending to purchase a fall or winter cloak J. H. Quinn has arranged to have in his store all Thursday next, also during the evening, an agent of one of the largest cloak manufacturers of the east with a full line of samples of every novelty known to the cloak trade. All goods will be sold at this sale at manufacturers' prices and for cash. This is an opportunity to select a garment which the ladies would not miss. (21-2d.)

Shot a Lynx.

Victor Silas of this city shot a lynx near Bass lake Monday. He was out hunting partridge when the lynx came upon him. He did not know what kind of an animal it was. It took several charges of bird shot to kill the lynx, which weighed twenty-four pounds. Its hide is a beautiful one. The carcass can be seen at S. Johnson & Co.'s store.

ISHPEMING IN BRIEF.

Otto Nelson returned from Chicago yesterday.

Peter White was up from Marquette yesterday.

J. H. Karkeet of Iron Mountain is in the city in the interest of the powder company he represents.

Mrs. J. P. Oathwaite and daughter, also Miss Beatrice Sedgwick, got home yesterday from their visit to Chicago.

Mr. and Mrs. H. A. Miller have gone to their home in Jackson, Mich., after spending the past six weeks with H. H. Mildon and family in this city.

The champions of silver coinage will hold a rally Friday evening at the Ishpeming Opera House. Rev. Probst of Chicago will be the speaker. He is a free silver Republican and an exceedingly fluent and forcible speaker.

A social dance was given Monday evening at No. 3 hose house. Dr. T. A. Felch held the house that drew the heating stove which was raffled off there. The doctor was rather surprised yesterday when he was informed of his good luck.

Mrs. Thomas Ryan, an old resident of Ishpeming, died Monday night of consumption at her home on Greenwood street. The deceased was a daughter of the late John Moeckler. The funeral will be held tomorrow morning at 9 o'clock from St. John's church.

Rev. Lindkert, who is spending a few days in Ishpeming, will speak tonight at the Norwegian Lutheran church. He will talk in English, so that English-speaking people are especially invited to attend. The reverend gentleman will discourse on the "Lutherans of America."

A very interesting political debate took place Monday evening at the rooms of St. John's Reading Circle. John D. Siney and J. F. Tabreeke spoke in favor of the gold standard and P. F. Small and J. G. Welch upheld the cause of free silver. At the conclusion of the debate a vote was taken. It resulted in about a tie.

The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colic, and Lung Complaints, having used it in my family for the last five years, to the exclusion of physician's prescriptions or other preparations."

Rev. John Burgess, Keokuk, Iowa, writes: "I have been a Minister of the Methodist Episcopal Church for 50 years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial bottles free at E. Farnham's Drug Store.

ADDITIONAL NEGAUNEE.

ernment. The opposition, however, was strongly increased to \$80 per acre and at last in 1892 the plan was sold to the street railway company for \$2,500, the company agreeing to furnish the city with light at a cost not to exceed \$75 per acre. The moral is that if a private company owns the government or the officers in charge of the light plant it can nullify the benefits of public ownership."

It was a case of robbery of the city by a council controlled by a private corporation.

There is nothing in the article of "Taxpayer" that is in accordance with the facts; it is a distressingly distorted and disjointed dissertation by a disgruntled dependent of a company upon a subject that he has no knowledge of, and it, in no way, alters conclusions in my report accepted and acted upon by yourself and council, showing that the city of Negaunee can save some \$3,000 per year by owning and operating a municipal lighting plant. Yours very truly, FRANK B. RAE.

A LIVELY MEETING.

Republicans Held It at the Opera House Monday Night.

The Republican rally held Monday evening at McDonald's Opera House was one of the liveliest of the campaign. The hall was completely filled with voters. Congressman J. M. Farquhar of Buffalo was the first speaker. He brought out many good points in favor of sound money. He did not advance many arguments on the tariff issue as he did not think it necessary to talk on that question, as the supporters of Bryan are not discussing the tariff. Mr. Farquhar is a very good talker and he held his large audience well during the time he occupied the platform.

George Harris, ex-president of the Miners' association of Pennsylvania, greatly amused his countrymen. He related some funny tales about the variety of pasties they would have in case McKinley is elected, "Boys," said he, "elect McKinley and we can again buy suet for our pasties." This brought down the house. Mr. Harris made a very favorable impression. His remarks were principally of a humorous nature, but at the same time there was much of argument in them also.

Scared the "Con."

The employees of the Negaunee & Ishpeming street railway line are having considerable amusement at the expense of one of the conductors these days. One night last week the conductor started for home. He had not gone far when he saw, or imagined he saw, three men approaching. Without ascertaining who they were or what they wanted he turned around and started on the run to the power house. He remained there until his motorman was ready to go home, confessing that he was afraid to go alone. The "Con" has set up the cigars several times in the hope that his fellow workmen will let up teasing him.

LOCAL LAONICS.

A. F. Leopold of Chicago spent yesterday with Negaunee friends.

Frank V. Sauer is able to be out again after being ill and confined to his home the past three weeks.

Christ Johnson held the lucky number which won a rifle raffled off Monday night by Fred Zimmerman.

Miss Frances Winter left last night for Chicago, where she will spend the next month or so visiting her sister, Mrs. Ed. Cummings.

Mrs. T. C. Yates and her daughter, Mildred, have returned from a three weeks visit with friends in Chicago and the lower peninsula.

The date of the rally in Republic, at which Frank A. Bell of Negaunee and William Peters of Ishpeming will be the principal speakers, has been changed to next Saturday night, instead of Thursday.

Mrs. Thomas Buzzo and family are moving in from the Iron Cliffs location. They will occupy the house being vacated by James Burge and family. Mrs. Buzzo is building a large barn on her property here.

The taxpayers of the city are manifesting considerable interest in the special election to be held Friday for the purpose of determining the question of installing a municipal electric lighting plant. It is expected that the vote will be reasonably large.

Boiling River

It is sure enough. It is not as large as the Mississippi, indeed it is quite small, but a mighty interesting stream for all that. It issues from the sides of a mountain in a thousand tiny rills, more or less, and of almost as many colors. These gather themselves into pools and lakelets on the mountain's side, covering an area of about 200 acres. Overflowing their boundaries they slowly trickle down the sides of the mountain forming small cliffs, the most wonderful in the world. From a distance one can hardly believe what the eyesight reveals—white, black, orange, lemon, terra cotta, green, blue, red, pink, separate and in manifold combinations stand out before him. It is a hill of painted cliffs on the sides of the mountain that rises high above. And the odd part of it is that each of these exquisite colors represents a different temperature. Does that startle your credulity? Even so it is true.

When through with this beautiful painting process, these waters again come together and then, as if full of mischief like a pack of small boys trying to play hide and seek, dive down and remain under the ground for a space of two miles and then rise out from the mouth of a canyon that is one of the clearest, most beautiful, green streams imaginable. Where these waters emerge from the mountain into the little lakes they are hot, boiling hot. During their dark underground journey they fall several hundred feet and also many degrees in hotness, so that when they again see daylight they are much cooler. This then is Boiling river, an underground mountain stream of hot water.

But you ask, where is it? Where can I see it? It is in Yellowstone Park at Mammoth Hot Springs. It is one of the lesser, mind you the lesser—wonders of this land of wonders. Go there and see it by all means but first send to Chas. S. Fee, General Passenger Agent, Northern Pacific Railroad, St. Paul, Minn., six cents for Wonderland '96, that tells all about this renowned region. (7-24)

DETROIT

Striking Facts Concerning the State Metropolis.

THE HANDSOMEST CITY IN THE WEST AND A LEADER IN ENTERPRISE.

Depot of Supplies for Michigan and Adjacent Territory.

William E. Curtis, the talented newspaper correspondent, thus eloquently alludes to some of the beauties of the metropolis of Michigan: "The people of Detroit have utilized the abundant natural resources for rest and recreation that surround them, in a very attractive manner. They have beautiful parks, and a magnificent boulevard system. Belle Isle, which sits in the river opposite the city and only a few minutes' journey from the court house [City Hall], is a lovely place. It has been decorated by a skilled and tasteful landscape gardener, and its drives and groves and lawns are unsurpassed. Up and down the river for a distance of thirty miles are clusters of hotels, club houses, cottages and villas and other private and public pleasure resorts, which offer attractions to all classes at all prices and easily accessible. Along the St. Clair ship canal, upon which the government has expended so many millions to connect a channel that carries more commerce than any other waterway in the world, is a row of cottages and clubs several miles in length that are built upon

strills, like the lake dwellers in Paraguay and the people of Maracalbo, which Americus Vesputius saw when he cruised along the Spanish main in 1505. He called that country, Venezuela, which means 'Little Venice.' The people of Michigan also call this cool and lovely place after the famous city on the Adriatic. Some of the houses are surrounded by lawns and groves of trees planted upon the reclaimed ground, and are very attractive. They say it is always cool there, that mosquitoes are unknown, and that you can catch fish enough for breakfast by dropping a line out of your bedroom window."

Besides Belle Isle Park, Detroit has nineteen other parks, the next in size being Log Cabin Park on Woodward avenue, one hundred and twenty acres. These twenty parks comprise within a fraction of eight hundred and eighty-seven acres of land devoted to the recreation and health of the residents of the city, and the pleasure of visitors. The value of this property is over six and a quarter millions of dollars. The Grand Boulevard is a semi-circle over eleven miles in length. Detroit's Public Library contains nearly one hundred and forty thousand volumes. About two thousand volumes are worn out by use and replaced every year.

She has a Museum of Art which has cost in buildings and grounds one hundred and twenty-seven thousand dollars. The collections therein are valued at one hundred and seventy-five thousand dollars, and they were all given to the Museum by Detroit citizens. She has sixty-one public school buildings, valued with the ground they stand on at over two millions three hundred and forty thousand dollars. Seven hundred and thirty-seven teach-

ers instruct the thirty-five thousand pupils in these schools. Besides, there are probably fifteen thousand pupils in the various parochial and private schools.

Detroit has two hundred and twenty-five miles of paved streets, one hundred and fifty-eight miles of public sewers, and two hundred and eighty-five miles of lateral sewers. The city is lighted at night by a plant which she owns and which cost over six hundred and thirty thousand dollars. About forty thousand electric lights blaze every night in her streets. The official municipal manual gives her population as two hundred and eighty thousand. The city directory figures the number within her borders as over three hundred and sixty thousand. The area of the city is twenty-nine square miles.

Over one million six hundred and twenty thousand dollars was expended for new buildings in Detroit during the first six months of 1896. Detroit contains the tallest commercial building outside of New York and Chicago—the new Majestic Building, fourteen stories and two hundred and eleven feet high.

The above scattered facts show that the State metropolis is not only a beautiful, comfortable and otherwise highly enjoyable place of residence, but that she is an immense and fast-growing commercial and industrial center. In several branches of trade, among which are the manufacture of cars, drugs, stoves, matches, varnish, soda-ash and pins, and in the seed business, Detroit leads every other city in America.

In and About Negaunee.

RAE DEFENDS HIMSELF. He Replies Fully to "Taxpayer's" Criticisms in the Iron Herald.

Mayor Kirkwood yesterday received the following letter from Engineer Frank B. Rae in reply to the article printed in last week's Iron Herald, signed "Taxpayers":

CHICAGO, Oct. 9, 1896. HON. P. B. KIRKWOOD, Mayor, Negaunee, Mich.

DEAR SIR:—In the Negaunee Iron Herald of Oct. 16, I notice an article, written by someone evidently interested in the company now furnishing your city with electric lights, attempting to show that the municipal lighting plant proposed for Negaunee, cannot be operated with any saving over the cost of contract, and should not be purchased. This article is signed "A Taxpayer"; it might, I presume, have been signed "A Stockholder" or "A Manager," but whatever nom-de-plume the writer might have selected to hide his identity he would still have exhibited the cowardice of the anonymous writer who seeks to do harm to others without exposing himself.

While a citizen, either taxpayer or stockholder, may discuss the broad question of municipal economy from behind the editorial fence with other citizens similarly entrenched, it is a cowardly act to attack an engineer in the public prints by unsigned, unsubstantial and malicious misstatements as contained in the article over the signature of "A Taxpayer."

There are, possibly, some of your citizens interested, as the writer of the article referred to is interested, in preventing the purchase of a municipal plant; who may request you to defend these statements. I will therefore reply to them for your information.

First, this brilliant (!) writer on municipal economy says, "It is impossible to operate a 115-horse power engine at full load on 300 tons of coal in excess of what is now used to furnish the present water supply. Mr. Rae's estimate to the contrary notwithstanding," and he calls on the master mechanics of your city to support him. Now I have not said that 300 tons or any other amount would run 115 h. p. engine at full load. To determine the coal required to run any engine now you must not only consider the load but also the length of time it is to operate at such load, the economy of the engine, the evaporation factor of the boilers with a given grade of coal, and the specific conditions of the plant.

What the estimate submitted to yourself and council does say is that under the conditions that are probable, one of such being the operation of thirty-two street arc lamps 3,000 hours per year and the other that of furnishing 1,000 incandescent lamps an average of 20 hours each per year, the coal cost will be for 300 tons.

For the average horse power required an allowance of four pounds of coal per horse power is certainly ample. The average burn rate of an engine on a dark night schedule is 3,000 hours per year, the average energy consumed by an arc lamp including line loss is 500 watts, or 500-740, or 0.770 horse power per light.

Thirty-two lights at 0.770 h. p. equals 24.64 horse power and 21.44 h. p. times 3,000 hours equal 64,320 horse power hours per year. The station economy, that is to say the efficiency of all the machinery, will average an average of 75 per cent, therefore the horse power to be generated by the boilers is 64,320-75 per cent, equals 85,760 horse power hours per year, at 4 pounds of coal per horse power per hour the coal for arc lights is 343,040 lbs. per year.

If the steam plants at Negaunee will not do better than a horse power at 4 pounds of coal per hour it would pay the owners to employ some engineer to overhaul the engine and boiler. "Taxpayer" and his master mechanic a thing or two about steam economy.

This apostle of political economy says that "experience shows an arc lamp takes 4 1/2 pounds of coal per hour, necessitating a cost of \$80 per light per year."

Experience does not show anything of the kind. It may be true of the plant that "Taxpayer" is interested in defending, as I heard a representative of an engine company offer to take out the engine of the Negaunee light plant, replace them with his make and take his pay in the saving of the coal that the new engines would effect in a short time. An arc lamp of 2,000 nominal candle power requires at the engine about 9-10 of a horse power at an average station efficiency of 75 per cent.

The engine purchased by your city is guaranteed to produce a horse power at 37 pounds of water per horse power hour, a very conservative boiler evaporation is 7 pounds of water per pound of coal, therefore 4 pounds of coal will produce one engine horse power, but an arc lamp requires only 9-10 h. p. at the engine or 4 times 9-10 equals 3.6 pounds of coal per lamp hour—at 3,000 per year this is 5.4 tons at \$3.20 per ton is \$17.28 per lamp per year, not \$80.

Not assuming, just to show the animus, not to mention the stupidity, of "Taxpayer" figures that it will take 4 1/2 pounds of coal per lamp hour. At 4 1/2 pounds of coal per lamp hour the lamp requiring 9-10 horse power when the station efficiency is 75 per cent, each indicated horse power of engine requires 5 pounds of coal, or at an evaporation of 7 pounds of water per pound of coal 3 1/2 pounds of water per horse power per hour. As stated above, this engine is guaranteed at 27 pounds of water per horse power per hour at best economy, but assuming that it requires 35 pounds of water or 4 1/2 pounds of coal per lamp hour, 3,000 lamp hours require 3,000 x 4 1/2 = 13,500 lbs., which at \$3.20 is \$43.20 per lamp per year for coal and not \$80.

Supposing again for the sake of illustrating the old adage of the liar and the figures, that the service is all night every night or 4,000 per year. Under this extreme condition each lamp would take nine tons of coal per year, which at \$3.20 is \$28.80 and not \$80. All of the figures made by "Taxpayer" in his labored effort to continue or renew his contract with your city and to defeat the municipal plant are about as near right as the 800 per year per lamp for cost of coal as above and are entitled to no consideration by the bona fide taxpayers of your city who really have the welfare of the city at heart and are not animated by a desire to increase their personal revenues at the expense of the people.

The gentleman who writes in your paper who gets behind the door of the editorial sanctum to throw mud, says: "The common council of Madison, Wis., rejected Mr. Rae's reports the other day as misleading and unreliable, and there is the kind of trash that has misled the Hon. Mayor and common council of this city."

I believe the foregoing statement if made over the signature of a responsible party would be cause for an action for damages. It is untrue in every word and is made with the intent of injuring my reputation and in the hope of discrediting my statements to your council; aside from the personal damage it attempts to do myself it shows how little there is for the opponents of municipal lighting to offer as an argument against city ownership, when they are reduced to personal attacks upon myself. The city of Madison has not rejected my reports, on the contrary it has accepted them completely and has acted on the advice and statements contained in them. The city council has received bids in which all of the manufacturing companies competed, under my specifications made in accordance with my reports; the council has further accepted the proposal of one of the bidders for the plant conditional upon the passage of an ordinance authorizing the issue of bonds as required by the Wisconsin law—there are eight members in favor of the passage of the ordinance and the purchase of the plant, three members who are influenced by the local lighting company oppose the municipal plant, assigning as their reason that its purchase will interfere with sewer work but at the same time saying they believe the city should own its light plant. The council is short one member and the required three quarters majority is not available to pass the ordinance until the twelfth member is elected. If an election can be held this fall and this new member seated he will vote with the municipal light faction irrespective of politics, as the citizens will demand his pledge to do so. If the matter must hold over for the spring election the plant must wait until that time, but it will go in, and the city of Madison will save from \$6,000 to \$7,000 per year. There is not one word of truth in "Taxpayer's" statement, as he and the gentleman from Madison who helped him to write the article well know.

There is just one other statement in the column of misstatements made by "Taxpayer" that I will notice at this time, namely, the reference to Michigan City, Ind.

In the "Arenas" of 1885 was published a series of interesting and valuable papers by Professor Frank Parsons entitled "The People's Lamps." On page 86 he says: "The one case public ownership has been crippled and finally destroyed by the scheming of a private company. Michigan City built a public electric light plant in 1886 with 84 arcs for \$7,500. During the first three years the cost per arc was \$43, then the Electric Street railway wished to buy the plant and had some backing in the gov-

ernment. The plant was sold to the private company for \$10,000. The cost of the plant was \$7,500, the profit was \$2,500. The plant was sold to the private company for \$10,000. DR. BRYAN'S SILVER PILLS.

H. O. Young Says 625,000,000 of Them are Now in the Nation's System.

PROSECUTING ATTORNEY AD-DRESSED A SMALL CROWD.

No News Yet of Bourke Cockran's Coming—Republicans Announce Advance Dates—O'Donnell and Dunstan—S. A. Rally Postponed.

BOOMING SOUND MONEY CAUSE.

Lack of means to make the rink warm was probably responsible for the small size of the crowd which turned out to hear Hon. H. O. Young of Ishpeming discuss the issues of the campaign. At most the number in attendance did not exceed 400, and those felt the cold so keenly that they were obliged to wear their overcoats and hats throughout the meeting.

Though not honored by as large a turnout as some who have spoken in the same place this campaign Mr. Young's address was quite as worthy of listeners. He presented many of the gold standard arguments in a new dress, and under new lights.

Music by the Marquette City band enlivened the waiting time before the speech began.

Mr. Young was introduced by C. H. Kelsey, president of the McKinley and Hobart club.

He began his address by enumerating the points of national wealth, yet with all of which advantages, he says, the country is in a state of disorder, with idle mines and mills. What is the cause, and what is the remedy? he asks.

He compared the country to a sick man who first calls in his family doctor, then, failing to recover quickly, another regular physician, and after the sickness has preyed upon his mind, calls in the quacks who advertise free consultations, and no pay till cure inducements. But if the man, or the nation, then returns to the regular physician it is better for the man or the country, and the worse for the quacks.

"We have tried," he says, "the Wilson specific, prescribed by a celebrated physician of Buffalo, and now comes a new doctor from Nebraska, a young Mr. Bryan. He travels about the country in his own special car and is advertised by the press far and wide, including your own MINING JOURNAL. He is the quack, at the head of a three-tail trinitarian monster (though some say it has no head), and he prescribes for us little silver pills—lots of them. He seems to forget that we have already tried 625,000,000 of his pills and have them still in our system, but they did us no good."

"Now, to drop the figure and to discuss the subject seriously, the free silver Democrats come before you and tell you that the distress that harasses the nation arises from the rise in the price of gold, but we know that the distress is due to a fall in the price of commodities, caused by an industrial revolution, which has been going on for years."

After elaborating this point Mr. Young passed on to tell of the thirty-two years of Republican rule under which the country had comparative, at least, prosperity. He paused to consider specially the Harrison regime, and eulogized Harrison, Reed, Blaine and McKinley, drawing volumes of applause at the mention of each name.

The speaker took his opponents severely to task for attempting to turn speeches of Blaine to support the free silver issue, and called attention to a speech made by Blaine in 1878, and of which he had a copy on the table, showing the knight of the white plume to be a consistent and forcible advocate of the best money.

"I have seen this attempt," he cried, "with regret. First, because it is an attempt to deceive the people, and second, because it is a slander on the dead!"

From the consideration of the heroes of the Harrison administration he turned to the reasons why the people forsook a condition of commercial prosperity and went to one of general distress. The reason, he said, was the suave dissection of Democratic orators. He cited in this category Wm. J. Bryan, J. Maurice Finn and Tim Nester. These three, with others, had promised a condition of unparalleled prosperity, but this was never secured. When it was seen that the Democrats actually intended to assail the tariff of the protectionists the country fell into a state of business paralysis. There was another cause of alarm. This was the weight of the \$625,000,000 in silver, which the people, with no confidence in the administration, feared would result in taxing too heavily the credit of the government, and driving all the gold from the country, and force it upon a silver basis. Watching the men in command of the administration, he said, was like watching a lunatic, as no one could imagine what they would do next.

"By the beginning of last summer," declared Mr. Young, "the Democratic party was so thoroughly discredited by the people that its only hope was to run from its record, which it did by the repudiation of the Cleveland administration, and the formation of the free tail party seemingly under the leadership of Bryan, a Tillman and an Altgeld, but in which they are really feathers tossed on the wild waves of Populism, ignorance and anarchy!"

"If you want to find anything, it is a good plan to go back to the place where you lost it. This country lost something, protection, and if you want to find it you must go back to the place where you lost it."

"Every civilized country in Europe has had experience with a bimetallic standard, and all the countries which have maintained it have driven the gold from their shores, and in all countries where the gold standard has been maintained the gold and silver have circulated side by side."

Mr. Young paid his respects to those who, as he expressed it, wanted to cut the debt of the nation and of individuals in half, and pointed out the suffer-

ing that would ensue to holders of life insurance policies and to pensioners from having their policies and pensions cut in two.

Bryan's idea that gold was not a good basis for our financial system because it got out of sight at the first note of alarm, came in for a reply.

Says Mr. Young: "Gold does not get out of the way at the first note of alarm, but it is hidden away by its holders, because it is precious, because it has a value that even Bryan and his Populist associates cannot effect."

Bryan wants a money that is not so valuable, wants a money that people will want to get rid of, something cheap and pretty, something that they will leave out at the front door like they do umbrellas or rubbers.

"The Republicans want money plenty, but they want it good. They want honest money, with fair returns for capital and labor."

"Let us look out for ourselves once, more let us act to our own advantage, and vote for protection, honest money and fair returns for capital and labor. We can do all these by voting for William J. McKinley."

Political Dates.

When Hon. Bourke Cockran will be in Marquette is still unknown. Hon. Peter White believes that Hon. Don M. Dickinson will be able to keep his promise and bring the great gold orator to the upper peninsula, but he has heard nothing since the telegram printed in THE MINING JOURNAL Monday morning. Yesterday he wired Mr. Dickinson a long dispatch urging him to name the date when he and Mr. Cockran could be here. This has not been replied to.

Two dates are announced definitely by the Republican managers. The first is for the appearance of Hons. James O'Donnell and Thomas B. Dunstan, and the second is for Hon. John L. Farquhar of Buffalo and George Harris of Wilkesbarre, Pa.

Friday Hons. James O'Donnell and Thos. B. Dunstan will be here. This is the original date announced for these speakers. It was intended to change it till Thursday in order to avoid conflict with the Salvation Army rally, till it was learned that Commander Booth-Tucker would have to postpone his visit to Marquette a week. Both speakers are well known here by reputation, and to many personally. Mr. O'Donnell was one of Pingree's opponents in the race for the gubernatorial nomination. Mr. Dunstan was chosen to the place of lieutenant governor on the ticket with Pingree.

The speakers who are to appear here Monday night are not so well known here. Hon. John L. Farquhar is a New York congressman who attained prominence by championing the great harbor improvement bill. George Harris is vice president of the American Federation of Labor. He is a coal miner by trade, and hails from the great coal regions of Pennsylvania. He appeals to the miners as a fellow miner in an associate industry.

Put Off a Week.

Capt. Turner of the Salvation Army was apprised by telegram yesterday evening that the coming of Commander Booth-Tucker would have to be postponed one week. The reason of the postponement is on account of complications arising from the landing of the Armenian refugees in New York. The commander was to have appeared in the opera house Friday evening. Arrangements will be made accordingly to have him appear in the same place Friday week.

Today is the annual day of prayer for the Salvationists of America. It will be observed here as elsewhere. Special prayer will be made for the Armenians.

Love and Marriage.

Dr. O'Leary will give his best, and most amusing lecture tonight. It will be on "Marriage and Divorce." He will tell the ladies what kind of a man to marry and what kind to let alone. The young men will learn how to select a good wife. Admission tonight ten cents, children only five cents. The doctor has lifting machines and spirometers at the door every night, free for the use of the audience. He gives a prize of a silver dollar to the lady or gentleman who can lift or blow the most. The competition is growing interesting. Large crowds are attending the lectures.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion, which means not-digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1 per bottle.
