REPORT OFFICIALLY DENIED

Mediation of the United States in Cuba Has Not Yet Been Accepted.

ASSERTED, HOWEVER, NEGOTIATIONS ARE PENDING.

But Pride Compels Spain to Act Secretly—Must Do Something Soon, as Proceeds of Recent Loan Are Nearly Exhausted.

ASSENT THE WAR IN CUBA.

WASHINGTON, Dec. 29.—It is officially denied the Spanish premier has sent Secretary Olney a communication accepting the mediation of the United States on carrying out the plan of autonomy for Cuba.

MADRID, Dec. 29.—Emphatic denial is given here to the report credited to the Washington Post that Senor De Lome, the Spanish ambassador, and Secretary Olney have concluded negotiations for the acceptance by Spain of the good offices of the United States in the settlement of the Cuban insurrection.

LONDON, Dec. 29.—In regard to the reported Spanish-American agreement The Daily News Paris correspondent says: "It is quite clear that Spain is negotiating with Secretary Olney, but Castilian pride compels the government to negotiate in an underhanded way. They cannot help trying to arrive at a private understanding with the United States, for the proceeds of the recent loan are nearly exhausted and Captain General Weyler's apparent inaction has checked the buoyancy which followed Maceo's death."

THE DAUNTLESS PUTS TO SEA.

JACKSONVILLE, Fla., Dec. 29.—The master and owners of the filibustering steamer Dauntless presented a manifest of her cargo today and asked for clearance papers to Novitas, Cuba. The cargo consisted of arms and ammunition. The collector refused the clearance until he should hear from Washington, and a telegram was sent asking for instructions. No reply was received up to a late hour this afternoon. In case clearance is refused the owners of the Dauntless will bring suit against the government for damages. The steamer Dauntless waited for the clearance papers until late this afternoon, and then without getting them steamed down the river, ostensibly on a towing expedition. While the Washington officials were studying the legal aspect of the Dauntless captain's demand, the steamer left, escorted by the Boutwell. The night report from the observer at Fort George, below Mayport, at the mouth of the river, fails to show her present whereabouts. The Boutwell is at Mayport now, but whether the Dauntless escaped from the cutter cannot be ascertained tonight.

FILIBUSTERS IN A TIGHT BOX.

WASHINGTON, Dec. 29.—Authorities of the treasury department and department of justice expect the prosecution of the alleged filibustering steamer Three Friends will be under Section 5282, Revised Statutes. This will be a new method of prosecution. This section is directed against the arming and mounting of guns on a vessel intended to be used against a friendly nation. As those on board the Three Friends have given the circumstantial details as to the mounting and firing of the Hotchkiss rapid-fire guns, it is believed by the officials that this section will apply to the case. The proceeding against the vessel is much more severe than in the case of libel for fitting out an expedition. The statute provides that on the conviction the vessel and all tackle, stores, etc., will be forfeited to the United States. The proceedings are in charge of the district attorney at Jacksonville.

POLITICIANS AT CLEVELAND.

A Conference in Hanna's Office Sets Cabinet Rumors Afloat. CLEVELAND, Dec. 29.—Among the prominent visitors at the office of Mark Hanna today were Hon. Henry C. Payne of Wisconsin, of the national executive committee; General Wm. Osborn, Massachusetts; Senator Clark and Frank W. Mondell, Wyoming; Judge Robertson, a prominent politician of South Dakota, and half a dozen well-known Ohio Republicans. They held a long conference with the national chairman. It is stated Payne and Osborn came here to confer with Mr. Hanna on business connected with the national executive committee. But as a result of the big conference today all sorts of cabinet rumors are in circulation, but those best qualified to know said the slate had not been even partially completed. Indeed, one gentleman who stands close to both McKinley and Hanna said today he had good reasons for believing that not to exceed one or two members of the cabinet under the incoming administration have been decided upon. The conference at Hanna's office today was held behind closed doors.

Killed Sweet-Heart and Suicided.

HERON, S. D., Dec. 29.—Edward Rosa, who made his home with his brother Gale Rosa, a well-known ranchman near Forest City, shot and killed his sweet-heart, Miss Mary Brehl, at the home of her sister, Mrs. Stewart, in Forest City today. After killing the girl Rosa blew out his own brains. They had been to a dance on Christmas, and while there Rosa believed he was not given proper attention by the girl. Both belonged to excellent families.

Defaulter Takes His Own Life.

ANTIGO, Wis., Dec. 29.—Henry F. Strauss, county clerk of Langlade county, committed suicide last night by poison. He had been called on to surrender the county books and funds, and had secured an extension of time. He left a letter addressed to his wife, admitting he was a defaulter to the amount of \$3,770. Strauss was a pioneer, seventy-two years old, and known as "Honest Henry" Strauss.

Bicycle Record Smashed.

DENVER, Dec. 29.—A. L. Hachenberger, brother of the well-known professional cyclist, today lowered the world's road record for two hundred miles, riding it in fourteen hours and two minutes.

Two Bodies Recovered.

DUBLIN, Dec. 29.—The destructive movement of the bog land at Castle Island finally ceased tonight. Two bodies have been found a mile distant from the scene of the disaster.

Decatur would contribute \$1,000 in the event an equal sum was raised by the men while on the march to Canton. But the men have not had smooth sailing. They declared that up to the time they reached Indianapolis they had good success in selling pictures of the horn and in other contributions, but since that time they have not made expenses. The hospitality shown them has been generous, with but a very few exceptions. They have been met by bands and drum corps and other organizations in the states through which they passed. The men soon after reaching this city, went to the McKinley home and presented the horn to the president-elect, who received his visitors very cordially. On account of an incessant rainfall no demonstration was made.

BUSINESS ON CREDIT.

80 Per Cent. of the Country's Trade Done Without the Use of Money. BALTIMORE, Dec. 29.—The American Economic association today took up President Adams' annual address and spent an hour discussing it. The next subject taken up was the query: "Is There a Distinct Agricultural Question?" The leader of the discussion was to have been Professor Bailey of Cornell University, but being unavoidably absent he formulated a thesis on the general subject, and this was participated in by Professor Wm. A. Scott of the University of Wisconsin. Professor Walker of the Massachusetts Agricultural college and others. Professor David Kinley of the University of Illinois read a paper on the use of credit instruments in the retail trade. His estimate was that 60 per cent. of the total retail trade was done without the use of money, and at least 80 per cent. of the entire business of the country. He said the monetary circulation of the country was not so greatly enlarged by this extensive use of credit, because much of the money was held in reserve in banks. Credit based upon such reserve by setting free a certain amount of money lowers prices or keeps them from advancing. General discussion followed. Thomas G. Sherman of Brooklyn criticizing Professor Kinley's statistics and asserting they would have a false influence in the political agitation of this country.

THREATENED TO BOYCOTT THEM.

Window Glass Jobbers Force Concessions from the Manufacturers.

CHICAGO, Dec. 29.—Window glass manufacturers and jobbers met here today. The jobbers rebelled against the manufacturers' scale, and threatened to place their orders in Europe if a greater profit were not given them by American manufacturers. The scale fixed the price at a small margin, and by the rebate system jobbers had been expected to enlarge their profits. The rebate scheme satisfied the large jobbers, but the small men, and they were numerous, protested against the scale that gave a rebate of 3 per cent. to purchasers of less than \$25,000 during the year and 5 per cent. to larger purchasers. The jobbers presented their ultimatum in very vigorous fashion, and the manufacturers, after some deliberation, granted their demands and the rebate system was agreed upon. It secures for every purchaser who buys \$8,000 worth of glass in six months a rebate of 2 1/2 per cent. and to those buying \$25,000 worth in six months a rebate of 5 per cent. No advance in prices was made.

TWO MORE CORPSES FOUND.

More Bodies Thought to Be in the Debris of the Cahaba Wreck.

BIRMINGHAM, Ala., Dec. 29.—Two more charred corpses were found deep under the debris of Sunday's wreck of the Birmingham Mineral passenger train at Cahaba bridge and buried today. They were too badly burned for identification but it is regarded as reasonably certain they were the bodies of S. W. Tibbs and wife, who are missing. The bodies recovered today run the list of dead up to twenty-four. A. H. Hinton of Pratt City was here today searching for his fifteen-year-old son, who, he says, left Guernsey for Biocion Sunday morning. He has since not been heard from and it is feared he, too, was a victim of the wreck, which will make twenty-five lives lost. The death of Andrew Bryson, the injured passenger, which will likely occur at any hour, will swell the death list to twenty-six.

FORCED TO THE WALL BY A RUN.

ROANOKE, Va., Dec. 29.—The Commercial National bank of this city closed its doors today. The trouble was a heavy run on the bank yesterday by depositors. On Dec. 9 J. G. Davenport, the cashier, resigned and his successor was elected. The matter was kept quiet until Sunday night, when Davenport left the city for his home in Charlestown, W. Va., and it is stated that as soon as this became known a general run was made on the bank and it was compelled to go to the wall. The officials say depositors will be paid in full. The liabilities are \$65,000, while valuable assets are estimated to be worth more than double that amount. The report of Nov. 21 showed assets of \$264,000; surplus, \$25,000; due depositors, \$75,000; other liabilities, \$35,000.

MR. ECKELS NOT WORRIED.

Recent Banking Failures Are of Little General Significance.

WASHINGTON, Dec. 29.—Comptroller of the Currency Eckels this afternoon said he feels no apprehension over the bank failures which have occurred of late. The failures added to the list today were comparatively small institutions, and under ordinary circumstances their failure, it was said, would attract only passing attention. Mr. Eckels when asked as to the general banking situation, said: "Of course, bank failures are more or less disquieting, but those which have occurred have little or no general significance attached to them. They

MINNEAPOLIS BANKS FAIL.

The Columbia National and the Washington State Close Their Doors.

HEAVY WITHDRAWAL OF DEPOSITS THE CAUSE.

The Clearing House Association Comes to the Relief of the Swedish American National and No More Trouble Is Looked For.

DEPOSITORS WERE ALARMED.

MINNEAPOLIS, Dec. 29.—The Columbia National bank, with a capital of \$200,000, went into the hands of the bank examiner this morning. The statement of Dec. 17 showed loans and discounts of \$348,145; other resources of \$188,000; deposits, \$183,000; due other banks, \$137,000; notes outstanding, \$45,900. Cashier Bodleter says the total liabilities are only \$247,000. He claims the bank will be able to pay depositors in full.

The Washington bank, a state institution, closed its doors at noon. Its capital is \$100,000. The statement of Dec. 17 showed loans and discounts of \$507,145; cash, \$88,372; other assets, \$48,868; deposits, \$523,667. The bank's suspension was due to the fact its clientele, being the same as that of the suspended Columbia National and Scandia banks, became alarmed and began to draw out deposits today at such a rate that the management decided the best interests of all would be served by closing the bank. Its condition is most excellent, the assets being \$600,000 and liabilities \$500,000. There is little real estate among the former, and they can be quickly converted into money.

The following announcement was made by the clearing house committee this afternoon: "The clearing house committee deem it their duty to announce that their investigations warrant them in advancing whatever sum of money may be needed by the Swedish-American National bank to meet promptly all calls upon them by depositors. This bank has an unusually large available cash reserve, amounting to about 55 per cent. of its obligations, and its bills receivable are of such class that we have no hesitation in saying we will make them the necessary advances to meet all demands. We do not look for further trouble among the banks of this city."

IN CHARGE OF A RECEIVER.

BATAVIA, Ills., Dec. 29.—The Van Nortwick bank did not open this morning, being in charge of a receiver. Cashier Grimes says there is no reason why the manufacturing institutions of this state and Wisconsin with which the Van Nortwicks are connected should close their doors, as all are making money.

The fate of the Van Nortwick millions will be determined in a large degree by a conference to be held in this city tomorrow. Wm. M. Van Nortwick was engaged all day in making arrangements with the creditors and stockholders in the various Van Nortwick enterprises by which the bank could unload some of the vast properties it had accumulated the last six years and get cash therefor. No successful waste in that tonight he sent an invective message to his brother, at Appleton, Wis., to meet him in Chicago tomorrow morning.

Little was given out as to the nature of the settlement which the brothers are hopeful of making. All that could be learned was that some of the plants were to pass into other hands and a large segment of the Van Nortwick heritage was to be disintegrated. The factory of the Appleton Manufacturing company at Geneva, Ills., may pass into the control of Peck's of Geneva, who now holds stock in the company. The settlement is to carry with it the payment of the claim of the Atlas bank for \$300,000. This claim is secured by a trust deed on the plant of the Combined Lock Paper company of Appleton, which was put on record at Appleton by the Atlas bank last Saturday. This, according to Cashier Stone of the Atlas, is the only incumbrance on all Van Nortwick property.

FORCED TO THE WALL BY A RUN.

ROANOKE, Va., Dec. 29.—The Commercial National bank of this city closed its doors today. The trouble was a heavy run on the bank yesterday by depositors. On Dec. 9 J. G. Davenport, the cashier, resigned and his successor was elected. The matter was kept quiet until Sunday night, when Davenport left the city for his home in Charlestown, W. TIME TABLE.

Table with columns for destination (Montreal, Houghton, Detroit, Duluth) and departure times (3:45 a.m., 9:10 a.m., 1:30 p.m., 3:05 p.m., 5:30 p.m., 11:45 p.m.).

MINOR DRESS ITEMS.

Little Things Which Go to Make Up a Lady's Costume. It is quite the custom when estimates on the cost of dressing are made up to put down a lump sum for incidentals, including gloves, handkerchiefs, neck-dressing and hosiery.

Selecting gloves is an art, a trade by itself, and the woman who is an expert in this item has a decided advantage over her less posted neighbors. To know how to buy good gloves and what to buy is a matter of consequence.

There are some striking novelties in hosiery, among which are those in clan plaids and in fancy stripes. Boot-hose are very much liked. Those with black feet and ankles and colored tops are preferred.

Boil some eggs hard, throw them into cold water so that the white may not be discolored, shell them, and cut them in slices. Chop up some parsley, chives, and a sprig of tarragon leaves, pound them in a mortar previously rubbed with a little garlic, with sufficient butter to form a smooth paste.

Chas. B. Hood, Broker and Manufacturer's Agent, Columbus, Ohio, certifies that Dr. King's New Discovery has no equal as a Cough remedy. J. D. Brown, Prop. St. James Hotel, Ft. Wayne, Ind., testifies that he was cured of a Cough of two years standing, caused by La Grippe, by Dr. King's New Discovery.

Copper Country Department

ON ITS LAST LEGS.

Keweenaw May Be Made a Part of Houghton County. It is possible that the officials who will look after the business of Keweenaw county for the next two years will be the last to serve in that capacity: in other words, it is likely the county organization will be given up and the county become a part of Houghton county.

WORDS BORN IN NEW YORK.

"Porterhouse" Originated in Burlington "Boss" from the Dutch. New York city is the birthplace of several expressions that have been for many years current all over the world.

Attracts Local Interest.

The fight being waged on the appointment of Colonel John R. Bennett of Muskegon for the position of inspector general is attracting more than passing interest locally, especially in military circles.

Moving Into His New Quarters.

Sheriff-elect Fred Lean is busily engaged at present in moving his household effects to his new residence in the court house and making all other necessary arrangements prior to entering upon his official duties.

Not Shipping Any Copper.

In accordance with the custom established three years ago, the Calumet & Hecla is not shipping any copper to the eastern markets during the winter season.

Tax Titles Out.

Since the council of the village of Hancock voted to purchase the water works property at West Hancock from M. M. Moralee it has been found that old tax titles are held on the site by Dr. Joseph Croze and the Sheldon estate of Houghton.

COPPERDOM BREVITIES.

Miss Mary Mahoney of Calumet left Monday for a short visit with friends in Detroit.

Several carloads of new machinery arrived from below yesterday for the new Tamarack mill.

A new case of diphtheria was reported at the home of George Alee of Houghton yesterday.

The balance of the order of fifty-six washers turned out at the Lake Superior Iron works for the new Tamarack stamp mill were shipped this morning.

Matilda, the fifteen-year-old daughter of Mr. and Mrs. John Francis, died Sunday at the home of her parents at Laurium. Funeral services will be held this afternoon from the Congregational church.

The Woman's edition of THE MINING JOURNAL will be on sale at the newsstands at Hancock, Houghton and Lake Linden. At Calumet THE MINING JOURNAL newsboy will look after the sales of the paper.

John Lauren of Calumet is somewhat of a vocalist when intoxicated. Monday evening he was in condition to do himself justice in this respect.

Several expressions that have been for many years current all over the world. These expressions are not the outcome of scholarly thought and culture. Although our professional men have dutifully and generously aided in the circulation and ennoblement of neologisms foreign born, the apt yet un-studied offerings of the untutored workman have held their own in literature as well as in everyday speech.

Only a few years ago attention began to be called to the prevalence of the various forms of vice in what was then considered the choicest residential part of the city.

Porter is the name given in London more than a century ago to a very dark and heavy beer much fancied by porters and other outdoor workmen.

Plants growing near the sea have thicker leaves than those growing inland. Apparently the sea salt is the cause of this phenomenon, as plants cultivated in artificially-salted soil yield thicker leaves.

RHEUMATISM is a foe which gives no quarter. It torments its victims day and night. Hood's Sarsaparilla purifies the blood and cures the aches and pains of rheumatism.

HOOD'S PILLS are the best family cathartic and liver medicine. Gentle, reliable, sure.

When most needed it is not unusual for your family physician to be away from home. Such was the experience of Mr. J. Y. Schenck, editor of the Caddo, Ind. Terr. Banner, when his little girl, two years of age, was threatened with a severe attack of croup.

FAST TIME SOUTH.

WINTER SCHEDULES OF THE LOUISVILLE & NASHVILLE RAILROAD GREATLY IMPROVED.

Information comes to us that the schedule of the Louisville & Nashville railroad to Florida and Gulf Coast points, in effect Dec. 30, are faster than ever before operated by this most progressive line.

Dr. Price's Cream Baking Powder We'd like to see your Fair Highest Award.

NEW AND CURIOUS PURSES.

The Whole Reptile Tribe Impressed to Furnish Skins.

Leather is, of course, the material most frequently used in large pocket-books, which are usually made to serve the purposes of card cases as well. One striking point in regard to these articles is impressed immediately upon a purchaser possessed of an inquiring turn of mind.

Besides the older and more familiar skins, such as morocco, seal, chamois, Russia and the crushed levant, which are treated and finished more artistically every season, the whole reptile tribe has been impressed in the pocket-book service. Alligators have long been popular as furnishers of leather for the purpose, but they are obliged to yield first place now to the lizards, the chameleons and the snakes.

The decorations which are applied to all these kinds of leather are many, and assist still further to vary the styles. Tiny watches set in the skin are a pretty fashion. Delicately formed and enameled flowers, such as violets and sweet peas, are fastened to the purse—cover by the stems and edges of the petals, as if held there by the hand when the purse is carried.

Chief among the smaller purses, intended strictly for coin, are those closely interlocking chains, in silver, silver-gilt and solid gold. They are of every size and shape, and are the most fascinating to look at and to handle of all the purse family.

Side by side with the latest modern contrivances there are revivals of the quaint silk and bead purses which the grandmothers of the present generation delighted to make.

Carved ivory is a Japanese notion for a purse. It has the two-fold merit of being handsome and rare. Patterns in it are exceedingly few and difficult to find, but when discovered they are well worth the pains.

Rub the quinces with a cloth till free from fuzz. Cut in slices, put in a preserving kettle, cover with cold water and boil until soft. Pour into a flannel bag and let it drain slowly. Measure and return to the kettle. Allow three-quarters of a pound of sugar to a pint of juice and let it boil until it will jelly from the spoon.

Quince Jelly. Rub the quinces with a cloth till free from fuzz. Cut in slices, put in a preserving kettle, cover with cold water and boil until soft.

THE CHANGE OF LIFE.

Intelligent Women Prepare for the Trying Ordeal.

A Time When Women Are Susceptible to Many Dread Diseases.

The anxiety felt by women as the "change of life" draws near, is not without reason.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, it is at this period likely to become active and with a host of nervous irritations, make life a burden.

Such warning symptoms as sense of suffocation, headache, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, dizziness, etc., are promptly heeded by intelligent women who are approaching the period in life where woman's great change may be expected.

Vegetable Compound saved my life. It carried me through the change of life all right, and I am now in good health. It also cured my husband of kidney trouble.

Snow Point Changing.

For years Marquette enjoyed the reputation of being the weather report station of greatest snowfall in the United States.

Last year was the first time since the weather station has been established that this was not so.

"Snow falls in belts," says Weather Observer Patrick. "This belt has usually been right over Marquette, and some snow would fall every day, hardly ever missing."

New Specialty in Law.

"I was much amused," said a man who has been in local politics and who watches municipal matters with interest.

"An attorney who was conducting the examination had an expert electrical engineer on the stand.

"What do you mean by that question?" Explain it. And when he did get the questions straight the answers were given in the technical language of an expert.

"I made me think what an opening there was for a man to make a specialty of electrical law.

"Excuse me," observed the man in spectacles, "but I am a surgeon, and that is not where the liver is."

HIS HOME A TOMB.

How an Eccentric New York Man Guards His Wife's Body.

Jonathan Reed, who passes the greater part of his leisure time guarding the tomb of his wife in Evergreen cemetery, Brooklyn, has been requested by the cemetery authorities not to admit so many visitors to the vault as he has been in the habit of doing.

The vault was built according to Mr. Reed's own ideas after the death of his wife, over three years ago.

The interior of the vault is ten feet wide, ten feet high and 13 feet long.

The vestibule is hung with Japanese bead portieres and the walls are adorned with portraits and bric-a-brac gathered by Mr. and Mrs. Reed during their European travels.

They are the very best that could be made," said Mr. Reed. "I do not know how soon the second will be needed, but I thought that so long as they were making the one I might as well tell them to make two.

THEY SIGN THE ARTICLES

Dwyer Agrees to Meet Williams on the Mat With Strangler Barred.

AUXILIARY LIGHTING CONTRACT IS READ TWO WAYS.

New Bill to Be Filed in the Redstone Injunction Case—Changes Among the Teachers—Bar Members Dine.

ARRANGE A WRESTLING MATCH.

Articles of agreement were signed in the Mining Journal office last night between Professor M. J. Dwyer and Professor George Williams for a catch-as-catch-can wrestling match to be held in this city.

The match is to take place in the opera house next Tuesday evening. In connection with it will be given an athletic program which promises to be of considerable merit. Popular prices of admission, twenty-five, thirty-five and fifty cents, will be charged.

A remark of Professor Williams that if Dwyer could train down anywhere near his weight he would be willing to meet him catch-as-catch-can was the start of the match. Williams goes on the pad at 140, and the best Dwyer can train down to is 165. Meeting on equal terms was an impossibility.

Since getting his class under way Mr. Dwyer has been desirous of doing some wrestling. He secured acceptances to his challenges in Ishpeming and the copper country, but no one appeared who was willing to meet him in Marquette. Being desirous of showing the people here what he could do he made a handicap challenge to Williams in consideration of his weight.

Dwyer offered to throw Williams ten times in one hour, no locks barred, and put up \$25 forfeit in case he did not appear to sign articles or go on the mat after the arrangements were made. He agreed to give Williams the door receipts and the \$25 already posted besides, if the latter should secure one fall on him, or prevent Dwyer from throwing him ten times within the hour. In case Dwyer should throw Williams the ten times, as set, the door receipts go to Dwyer. Williams loses nothing but his chance on the door.

The statement that Williams would accept the professor's challenge if the stranger was barred, was printed in the paper yesterday. Dwyer's former statement that he wanted the match no locks barred seemed to indicate that he would not agree to the amendment, but so anxious was he to secure the match that he willingly acquiesced. The two contestants had no difficulty on agreeing on the terms of the articles. Professor Dwyer fixed the date as the fifth to accommodate a match he has on with Stevens in the copper county the second. The professor will go up Thursday.

Both men are in active training. Professor Dwyer has been wrestling every day since he has been here, and Professor Williams went into active training yesterday.

Both men will be in good condition when they go on the mat.

Auxiliary Lighting Troubles.
There is a difference of opinion as to the meaning of the contract under which the Lake Shore Iron works was, or is, to operate the auxiliary dynamo to take part of the load off of the city's incandescent light machine.

The contract says that the company is to operate the 750-light machine that has been lying idle at the Dead River station. The board holds that this means carry a load of 750 lights. Manager Holley claims that he fulfils the contract when he operates the machine, taking what load his engine can conveniently carry.

He took a contract under board No. 2 to operate the machine at \$1 an hour. This but little more than pays for the coal and leaves a profit very unlikely. Friendship for the members of the board was what induced him to take the contract.

The dynamo at the power house was carrying many more lights than it should. It was impossible to take more customers, and it was a question whether there were more customers to be secured. Besides this the water was very low in the river and a steam auxiliary was deemed advisable. The board wanted to be in position to take more business should it be offered.

In this dilemma certain of the members came to Mr. Holley and induced him to take the contract to run the small dynamo. As he was doing the board a favor, and accepting the contract at so low a price, the understanding was, he says, that the lights should be given him as his engine could handle them. When he found that the No. 3 board, the one now in office, was not inclined to deal with him in this way and favor him with a few lights at a time till he could get his engine, shafting and belting in proper condition, he telephoned Superintendent Wilson to take the load off, that he was not going to carry it any longer.

Yesterday the board members decided to notify Mr. Holley that he might have till Monday night to get his machinery in shape to do the work required by the contract. At that time the board expects him to be prepared to take the whole 750 lights. In case of his refusal to do this, board members declare that Mr. Holley will have to whistle for the \$125 which he spent in fixing his plant so he could run the dynamo.

Complicating the Injunction.
The temporary injunction against the Detroit supervisors to restrain them from using Michigan redstone in the new county building will be complicated by a new bill in which some new information will be embodied. At least Judge Hatch. Mayor Pingree's attorney, makes the promise.

The case came up Monday and it was thought a motion would be made to dissolve the injunction. Somewhat to the surprise of the opposition, Judge Speed, acting for the supervisors,

didn't take this course, but filed a demurrer to the sufficiency of the bill.

Judge Speed had not been engaged by the supervisors till Monday morning, and consequently had not given notice entitling him to come into court so soon. Mr. Hatch seemed to take the insistence of the judge to appear as a trespass on his rights. He addressed a vigorous protest to the court. In it he brought up his right to notice of a new attorney's appearance, raised the point that Judge Speed could not represent the board of supervisors as it was not a corporate body, and scored the supervisors for passing by the door of the prosecuting attorney to engage the judge. Mr. Hatch then said:

"I admit that mistakes have been made in the bill, but it was drawn in a hurry, as the court knows. I will say for the benefit of court and counsel that another bill is being drawn, in which information of an important character is included, not known to us at the time of drawing the first."

The hearing was continued till Saturday.

Changes in the Schools.
The school board is taking advantage of vacation week to shift the teachers around and make changes generally in the schools.

Miss Brown's going to Chicago has made necessary a number of changes among the teachers in the primary grades. Her place in the Ely school is to be taken by Miss Annie Mitchell. Miss Crowley, who now teaches in the Third street school will take Miss Mitchell's place. Miss Hornby will come up from the Hampton street school to take Miss Crowley's room. Miss Wallace will take the grade Miss Hornby had, and her work in turn is to be assigned to Miss Bernier, who has been one of the cadets, thus keeping the corps of teachers complete.

The North Marquette school has double the number of pupils enrolled in it this year that it ever had before. To accommodate this number the room has been enlarged and is now 20x34. This is large enough to accommodate the sixty odd pupils who should attend that school. In the forepart of the year twelve of them went into town to school. When school takes up these will all go back to North Marquette.

The board looks upon the building of a new school there next summer as a probable contingency. This will be necessary on account of the increase of population brought by the new railroad. The school is now in charge of Miss Bessie Richardson, with Miss Nelson as cadet assisting.

Some radical changes are being made by the present board in the manner of granting certificates to teach. It is expected that at the extra meeting of the board, to be held Saturday, an order will be issued for all teachers in the city schools to take a teacher's examination next June.

Presbyterian Christmas Tree.

Santa Claus never forgets the Presbyterian children, though he may come a little late. He was at the church last night and succeeded in making himself very popular with the little people. In connection with his efforts as an entertainer he had a brightly-lighted and full hung Christmas tree with pop corn and candy fruit on every branch. Every member of the Sabbath school was treated to a generous quantity of candy, nuts, pop corn and oranges.

Immediately upon Santa's arrival he mounted the platform, and in a merry song introduced himself to his small auditors. They must have been expecting him, for they were all able to respond with an answering chorus. A short program was given before the old saint arrived.

Bar Banquet Tonight.

This evening the eighth annual banquet of the Marquette County Bar association will be held at the Hotel Marquette in this city.

Responses show that thirty or more, the usual number, will be in attendance. The guests will go into the banquet room at promptly 8 o'clock, where they will sit down to an elaborate spread prepared by Proprietor John Lewis in the best style his house affords. After the supper will come the toasts.

J. G. Bates, the piano tuner, will be in Marquette one week, beginning Dec. 30. Leave orders at Fohrman's. (12-29-1w.)
