DASHED TO DEATH!

Collapse of a Big Railroad Bridge in Course of Construction Over the St. Lawrence.

WENT DOWN WITHOUT THE SLIGHTEST WARNING.

Victims Are Drowned in the Swift-Running River or Crushed in the Wreckage--Nearly All Those Rescued Are Frightfully Injured.

Hogansburg, N. Y., Sept. 6.—The two south spans of the International bridge of the New York & Ottawa railroad, now under construction across the St. Lawrence river three miles above the St. Regis Indian village, fell today without warning, with about eighty men at work on the structure, all being thrown into the river, some sixty feet below. Over thirty were picked up and taken to the Cornwall (Ont.) hospital and twenty-seven are now missing.

The bridge consists of three spans, of which two were completed and the third nearly completed, when the south pier gave way at its foundation, causing both spans to fall and taking its load of human freight with it. The names of the killed and drowned cannot at present be ascertained. They were mostly from Pennsylvania, excepting a few Indians from St. Regis reservation.

LOOSENED BY SWIFT CURRENT.

The immediate cause of the disaster and the giving away of the spans of the bridge seems to be from the washing away of one of the large piers. The water at this point is known to be as swift as in any part of the river. The pier in question was begun last fall, and was finished this summer. It had been accepted as perfectly reliable and safe. It would seem from this that the swiftness of the current was underestimated.

Late reports from the Cornwall hospital say that thirty-three men were taken out of the river and transferred to the hospital. Eighteen of them have since died.

An eye witness of the fall of the bridge says he was sitting on the bank of the river, watching the workmen above him, when, without warning, there came a fearful crash. Two spans of the bridge collapsed, an immense mass of timber and iron dropped, and then came agonizing shrieks from men who were being crushed in the wreck or drowned by the rushing waters.

HOPELESS STRUGGLE FOR LIFE.

Then the eye witness saw bodies coming to surface, and the work of rescue began. This was helplessly inadequate, there being only a few boats in the vicinity and but few men who would undertake to swim out into the turbulent waters. Many who might have been saved were drowned before help could reach them. Piteous and appealing faces sank beneath the waters before the eyes of helpless on-lookers.

Mangled bodies came to the surface for a moment and then passed out of sight. Even those who got on land alive were in such condition that many died on the way to the hospital. Some had their backs broken, others both legs, while others were crushed by the heavy irons.

PARTIAL LIST OF THE DEAD.

Later—As far as is learned eighty-two reported for work this morning. Of this list only thirty-eight late tonight have actually been accounted for. The following is the list of dead up to midnight:
W. J. CUBBY, Patterson, N. J.
L. J. JACKSON, Columbus, O.
LOUIS BAUMER, Johnstown, Pa.
B. L. DYSART, Tyrone, Pa.
J. D. CRAIG, Detroit.
PATRICK MURPHY, Toronto.
THOMAS BIRMINGHAM, Cleveland.
DAN HUGHES, Cleveland.
FRANK LEIGNE, Ogdensburg, N. Y.
W. SHERMAN, Cornwall, Ont.
W. SAUNDERS, Baltimore.
JOHN CLAUSE, Caughnawaga, N. Y.
H. DAVIS, Pittsburg.
CYRIL CAMPBELL, Cornwall, Ont.
Of the survivors rescued, nearly all are horribly injured.

PANA UNDER MARTIAL LAW.

CITIZENS ARE INDIGNANT AT THE ACTION FAVORING THE IMPORTED EX-CONVICT NEGRO MINERS AND MAY APPEAL TO PRESIDENT M'KINLEY.

Pana, Ills., Sept. 6.—The city was placed under martial law this afternoon, notwithstanding that the attitude of the miners is absolutely quieter than at any time since April. The citizens are indignant and say that unless Governor Tanner acts they may appeal to the president to send United States marshals to arrest the sheriff and his deputies for endeavoring to incite riot. And made bold by the martial law protection, the imported convict negroes from the South came

from the Springside mine into the city this afternoon and boldly paraded the streets, badly frightening the citizens. The miners are conducting themselves very orderly. Notwithstanding that the deputies are taking advantage of the law in committing over acts, the miners take the proceedings coolly, believing that the action of the sheriff and negroes is to incite them to riot and lawlessness so as to induce Governor Tanner to send troops.

BIG DAY AT AMSTERDAM.

WILHELMINA IS FORMALLY INVESTED QUEEN OF THE NETHERLANDS WITH GREAT PROMPT AND REJOICING.

Amsterdam, Sept. 6.—The young Queen Wilhelmina was enthroned in the Nieuwe Kerk today with all the ancient ceremonies and amid great rejoicings. Soon afterwards the queen left the church, her mother following her, and returned to the palace. As the queen and her mother passed on their way to the palace there were renewed acclamations from the people.

When their majesties entered the palace four heralds stepped out on the balcony. Their appearance stilled the concourse into dead silence, which was broken by a silvery trumpet peal, followed by the voice of the senior herald, announcing that Queen Wilhelmina had been invested queen of the Netherlands. While the saluting guns, which greeted the proclamation, were still booming the young queen, wearing the regalia, appeared and was welcomed by a mighty roar of delight. Later in the day the queen drove around the city and viewed the decorations.

DRINKS TO THE FATHERLAND.

There were general illuminations throughout the city tonight on a magnificent scale. At a banquet at the palace this evening, Queen Wilhelmina proposed the following toast: "My heart urges me to give expression to the wishes filling my soul for the welfare of my country and people. I ask you to drink the health of the fatherland. Long live the fatherland." The president of the first chamber of states general, Dr. Van Eemeren, in return, proposed the health of her majesty.

VESSELS CAUGHT IN ICE AND LOST.

WORD COMES FROM THE ARCTIC OF THE DESTRUCTION OF THE FLEET OF EIGHT WHALERS IMPRISONED NEAR POINT BARROW.

San Francisco, Sept. 6.—A Seattle special dispatch today says that the latest from the Arctic is that all the vessels that were caught in the ice were lost. The ships caught in the ice to which relief was sent were the Jesse H. Freeman, Wanderer, Belvidere, Orica, Rosario, Newport, Fearless and Jeannie. Some of these vessels were already known to be destroyed, and it has been understood one or two escaped before the ice broke up.

CANDIA IN FLAMES!

BLOODY BATTLE BETWEEN BRITISH AND MOSLEMS IN CRETE.

Attempt to Install Christians as Revenue Officers Is Resisted by Armed Followers of Mohammed and Riots Occur in Which Many Persons Are Killed, Among Them, It Is Reported, the English Consul—Warships Are Dispatched to the City, Which Has Been Fired by the Turks.

Canea, Sept. 7.—The Turks have set fire to the whole town of Candia. The only warship there at the time of the outbreak was the British gunboat Hazard, which landed a party of marines to assist the 139 British troops there. Four warships stationed here have left for the riotous city, and special precautions are being taken here and at Retimo, the troops, too, being held in readiness.

DESPERATE FIGHTING.

Candia, Island of Crete, Sept. 6.—Candia is the seat of anarchy. A collision between the Mussulmans, who were demonstrating against European control, and the British authorities, who have been installing Christians as revenue officials, culminated today in bloody fighting between the Mussulmans and British troops.

Riots took place in various parts of the city, and many have been killed. When the outbreak was the fiercest a warship stationed in the harbor began firing shells, with the result that a portion of the city is in flames. The greatest confusion and uproar prevails, and it is feared the night will not pass without further pillage and destruction.

TURKS THE AGGRESSORS.

The trouble began with attempts of the British military authorities to install the Christian officials. They had appointed a council of internal control to administer the title revenues, and a detachment of soldiers were stationed outside the office as a precaution.

A crowd of unarmed Moslems, who had been demonstrating against the Christians, attempted to force an entrance into the office. The British soldiers fired and wounded several. The Mussulmans then ran for their arms and returning attacking the soldiers. Other Mussulmans spread rapidly through the Christian quarter, shooting into the windows and setting many houses and shops on fire.

It is reported the British consul has been killed.

MARQUETTE, MICH., SEPT. 7.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The St. Louis Globe-Democrat is not afraid that expansion is going to be hurtful to us as a nation. It calls attention to the fact that both Great Britain and France have more inhabitants in their outlying possessions than at home, and caps this with the observation that "the condition of these two nations does not indicate that expansion is a drawback to national safety or prosperity."

A New York police court magistrate has decided that kissing and hugging soldiers just back from war does not constitute an offense against the peace and dignity of the city. "I not only kissed them, but I hugged them, because they were soldiers, your honor," the girl said, in her own defense. The magistrate gave the policeman who made the arrest the stony stare, and the complaint against the osculator was dismissed. The Hobsonizing can now go on.

There is said to be some feeling among the Republicans of Delta county over the defeat of Mr. Fuller for the state senatorship in the convention at Gladstone last week, but it will pass off before election day comes round. The nominee, Mr. F. K. Baker of Menominee, is one of the brightest of the younger men of the party in the district, and had as good a right to the nomination on the ground of party service as Mr. Fuller. The latter has been pretty well recognized and rewarded by the party, and can afford to wait for further honors. Mr. Baker is one of the men who helped swing Menominee county into line for Pingree against all that the Stephenson gang in the county could do to give its delegation to Bliss two years ago. He is a rattling vote-getter and will make a great run. From his affiliations in the past we take it that he will favor Pack for United States senator as against Burrows, for which reason alone The Mining Journal is disposed to be well pleased with his nomination.

The Army and Navy Journal blames most of what had management of the camps in a commissary and medical way there may be, on politics. It says: In the beginning we started out well, as a reference to the early appointments will show. Then the senate discovered that army appointments were within its reach, and its friends and relatives had to be provided for. Additional officers with army experience were required to meet an immediate emergency, and they should have been procured, as they were in the navy under like circumstances, by detailing officers to duty, but congress would not pass the bill providing for the necessary amendment of the law. Extra clerks were wanted in the war department, and men experienced in army methods could have been obtained by details from the army and otherwise, but the great place hunter and his influential friends must be placated, and our war office was filled with novices, whose ignorance of army work hindered instead of advanced business. Thus it has been all the way through, and our men in the field have paid the penalties in agonies of endurance which might have been spared in a measure.

It is fortunate that Admiral Dewey has more sense than some of his admirers. As a sample of the swashy stuff that some of these are putting in type about him, this, taken from an exchange, is submitted: Admiral Dewey, when notified by the government that his presence at Washington for purposes of advice would be appreciated, replied that unless ordered there he is of the opinion that he can do more good at Manila. Dewey's advice at Manila is just as good as at Washington. It is: "Don't lower the old flag." And at Manila he will see to it that it is not lowered as long as he has a ship that can float. He can't help it, "he's born that way."

If the authorities at Washington needed Dewey there for any purpose an intimation to that effect would bring him there promptly, for he is too good an officer not to understand his duty to his superiors. And whatever he may do, or refrain from doing, at Manila, it can be depended on that he will act in accordance with the instructions of the government at Washington. If Dewey were at all inclined to act as the paragraph quoted would make appear he would be a dangerous man to entrust with power, but he "isn't built that way."

The New York Republican state convention takes place today at Saratoga, and there is more than a probability that Colonel "Teddy" Roosevelt will be its nominee for governor of the state. Platt has come out for him, and it is said that popular sentiment in the state strongly favors making him governor in recognition, both of his fitness for the position and of his gallant service with the "Rough Riders" in Cuba. If Roosevelt secures the governorship of the Empire state as a reward for his service in the field during the fighting at Santiago he

will be entitled to rank as one of the luckiest of those who went to the front in our brief war with Spain. Prior to that war he was looked on as a "faddist" of more than average eccentricity, and he got little credit for sincerity as a political reformer, though that was the role in which he was best known to the people. Now he is regarded as a man of great personal courage, a born leader of men, a man who is willing to back his convictions with his sword if necessary, and the people of the whole country entertain a high respect for him. Should he be elected governor of New York he will undoubtedly use the power the office will give him wisely and honestly. His record in the war with Spain has opened the way to a great career for Roosevelt, and if he gets the nomination for governor of the greatest state in the union in the convention at Saratoga today he will have made a long step toward becoming a potent factor in national politics.

AMERICANS ARE DEGENERATING.

A Writer Who Thinks We Use the Street Car and Bicycle Too Much.

Someone should bring together the statistics of the recent army recruiting. He should learn the number of millionaires examined for admission to the United States volunteer service, the number rejected and the chief causes of rejection. He should try to determine whether the standards of physical fitness were substantially the same at the various recruiting stations throughout the country, and whether they were applied with the same force and impartiality. And finally the subject should be considered particularly in respect to the locality of the volunteers, whether from a large city or small, or from the country. No fact has been developed by the war which has surprised people so much, or which begins to possess so great, or disturbing an importance, as this failure of large percentages of the millionaires to meet the physical tests prescribed by the federal military service. The Medical Record of New York barely refers to the subject in last week's issue. It notes the fact that the enlisting bureau at that point had to examine 17,000 applicants to obtain 12,000 men fit for field duty; and it accounts the result as a probably fair representation of the physical state of the average metropolitan, whose city life has subjected him to influences which narrow the chest, weaken the knees and impair the eyesight. "It is quite evident," concludes the Record, rather abruptly, "that the city man is losing his physical grip."

This may be so, but important data are missing. It was reported at the time that the percentage of rejections in some of the agricultural districts in the Dakotas, for example, was very large. This might be so and yet prove nothing in favor of the city; since the militia in the Dakotas and similar states may be, and probably is, made up largely of young men from the villages and cities employed in stores, factories and offices, where metropolitan conditions of life prevail to a modified extent. If this be so then modern concentration in population begins to present no less a problem than the degeneration of the race. Wholly apart from the cigarette, whose pernicious influence is thought to be traceable in the large percentage of rejections among militia volunteers, are other possible generative influences to be considered, more directly connected with municipal effect of the street railway and the bicycle? The street railway tempts people to ride when they ought to walk. Factory hands, clerks, business men and others ride more generally to their work than ever before, spend the whole day in stuffy indoor quarters and ride home. Others use the bicycle where they would otherwise walk, and the swift bicycle not only keeps them to a less extent in the open air, but exercises only a part of the muscular system which is strengthened and improved by walking.

Here are two possible causes of a certain fatty degeneration which breeds weakness in vital organs and troubles of the heart, the kidneys and the liver. Quite possibly evolutionists tell us that the highly civilized man is the more perfect in physique because he uses his legs more than the lower order of the human race. The ape has a small leg since he travels largely on all fours. The Hottentot stands on unsightly spindles because he is indolent and exerts himself little in getting a living. Generally speaking, the great mass of the barbarous and semi-barbarous races, who are now confined largely to the tropics, are physically determined and defective for a similar reason. What will be the effect then, upon the more highly developed races of this growing disuse of the lower muscular system through the spread of cheap transportation facilities and bicycle riding? Possibly we shall come out on a level with that race of savages whose life in canoes had left them with only slight spindles for legs, but with enormously developed trunks and arms—two heavy beings of a storklike appearance. Quite possibly, among such a people it will be hard indeed to recruit an army for forced marches and camp and field endurance. We trust that the doctors will make a closer inquiry into the facts of the recent army examinations and their bearing upon the present life and habits of the people.—Springfield Republican.

AN ANCIENT INLAND SEA.

Its Bed Is Now the Desert—How Canyons Were Made.

Writing of "the spell of the Grand Canyon" in Harper's Magazine, T. Mitchell Prudden says: It is tiresome to try to conceive of the long reaches of time during which this great inland sea was filling up, and it is fortunate that the geologists who deal in such lordly, lavish fashion with the years, handling them in parcels of a few millions or a hundred millions or so, finally lump them together under ages—Carboniferous, Permian, Triassic, Jurassic, Cretaceous, etc., names which are not insistent in the suggestion that they were, after all, made up of hours and minutes, which only one by one have slipped away.

But if you go out into the plateau country 500 miles from any ocean you will not doubt this inland sea. For you may ride for hours along shaly rock escarpments on which the ripples of the ancient shores are as plain as plenty as ever you saw them on the Jersey coast. You can pick up shells, too, which at least suggest clams, stone though they be today. In the northern part of the plateau country, now cut off from the rest by the Uintah Mountains, the bones of monkeys and crocodiles, of birds with teeth and three-toed horses, of sea serpents—honor bright, I appeal to Marsh—and of a motley lot of named and nameless uncouth, ludicrous beasts, are piled pell-mell together in the washes, or half buried in banks and cliffs and weathered buttes which once were the shores and bottoms of our slowly shoaling inland sea.

The secret of the great denudation and of this wonderful achievement of the Colorado in carving out of rock a series of canyons about 500 miles long, and in one place at least, more than a mile deep, with a multitude of tributary chasms and gorges, is very simple when you know it. The water had not slowly risen. At first, the Colorado river and its tributaries, and some nameless monstrous ancestor of these, sweeping over the slowly rising surfaces, planed them down to most relentless fashion, and then began wearing out broad shallow stream beds. But then the country rose more rapidly, and the water had to cut deeper channels in the rocks in order to get out and away to sea. Owing in part to the wear of the water itself, but more to the ceaseless bombardment of the suspended sand which it bore from the up country, or picked up as it went along, and to the thump of pebbles and boulders which it swept on in flood time, the river kept cutting down as the strata rose, until finally, when what was left of the inland sea bottom got thrust up so that, towering far above its erstwhile rocky shores, it had to be called a plateau, the Colorado and its auxiliaries found themselves at the bottom of a series of colossal canyons and gorges, where they are today.

The great canyon is shy of the camera, and the marvelous blue haze, now luminous, now faint, now shot with purple as the light falls red upon it at sunset, is always there, holding its reserve inviolate. Single cliffs and towers of rare strength and beauty you may secure upon your films, but the canyon never.

The outline panoramas sketched by Holmes for the geological survey recall some very striking forms and groupings of them, and simple as they are, convey, I think, better than photographs an impression of space and distance.

The first white men to look upon the Grand Canyon were some old Spaniards, who went out from the Moqui villages in 1541. A few of them scrambled down the cliffs a little way, and took a world of satisfaction, when they got back, in pointing out to their wiser comrades, who had stayed above, some pinnacles of rock part way down apparently as large as a man, but which they triumphantly declared were bigger than the great tower of Seville.

Major Powell, who knows the Colorado well, says impressive things, in very charming fashion about the grand canon. But he finds the task perilously exacting, and at last, yielding to the frenzy of comparison, plucks up Mount Washington by the roots to the level of the sea, and drops it head first into the abyss, warning you to witness that the waters still flow between the walls. And the Blue Ridge is plucked up and even hurled into the canyon; but there is room aplenty still. Mr. Warner, wearying of description, stows away the Yosemite in an inconspicuous side gorge, and defies you to find it. Then he summons dreams of the Orient, calls Babylon back across the years, fixes his eyes upon a far, aerial heaven which fades at last into visions of the New Jerusalem, and so, altogether, comes off with flying colors from his slightly luster tilt with the impossible.

The most wise and sympathetic, as well as learned description of the Grand Canyon and its adjacent country is, I think, that of Captain Dutton, unfortunately buried for most readers in a bulky report.—Vol. II.—of the United States Geological Survey.

DISCOVERED BY A WOMAN.—Another great discovery has been made, and that, too, by a lady in this country. Disease fastened its clutches about her for seven years, she understood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hammick & Co. of Shelby, N. C. Trial bottles free at the Stafford Drug company. Regular size 50c and \$1.00. Every bottle guaranteed.

Dr. C. G. C. Ointment Powders for horses are the best tonic, blood purifier and vermifuge. Price 25 cents. For sale by The Stafford Drug Co.

GIVEN A BIG DEMONSTRATION. HOUGHTON AND CALUMET DO HONOR TO THEIR RETURNING SOLDIER HEROES.

Companies F and D of the Thirty-fourth Michigan Volunteers, excepting such soldiers as were unable to make the trip, arrived home Monday evening and interest in the war, from a local standpoint, has come to an end. It had been all but decided at Houghton that any attempt in the way of a demonstration would be out of place, but the joy Monday morning was unbounded and had to be given vent in some manner. After a brief discussion of the situation, among other things being the fact that not a Houghton boy had given up his life at Santiago and there were no bereaved parents in the village resulting from it, a real holiday was decided upon.

"RUDY" TO THE FRONT. The move was fathered by Lieutenant Haas of Company F, who has scarcely missed the arrival of a train the past two weeks in the fear that some of the boys might arrive and not receive proper attention. "Rudy" showed the real stuff Monday morning, when at his own personal expense he engaged the Quincy, Atlantic and Calumet bands and during the afternoon had them rendering such appropriate airs as "When Johnny Comes Marching Home," "The Star Spangled Banner," etc.

Shortly after dinner the streets began to present an animated appearance and during the afternoon the closest attention was paid to information from Marquette regarding the time of departure. Shortly before 6 o'clock crowds started to gather at the Houghton depot, and soon the tops of box cars and other surrounding points of advantage were decked with people. Continental Fire company No. 1 took its place on the platform and guarded a space for the soldiers to alight. The horses were detached from a suitable vehicle, which was then backed up to the depot street and attached to it were about 100 feet of rope. The company was for gallant Captain Millar and his noble wife, who has attended him at Camp Wikoff the last ten days.

MIGHTY SHOUT GOES UP. The three bands were in line, and more than one hundred carriages were in readiness when at half-past six the tooting of whistles at the east end announced the coming of the much looked for train. Slowly the iron horse approached the depot, and before arriving within a hundred feet of it a mighty cheer went up from thousands of throats, and hats, handkerchiefs and parasols filled the air, the demonstration continuing fully five minutes, during which time the soldiers had started to alight and many were in the arms of their friends.

Much surprise and deep regret was manifested at the condition of Captain Millar. Immediately on being seated in the rig, which was drawn by fully sixty men, the captain was the center of attraction, and a mighty cheer for him went up along the entire line of march. The captain has borne up with the greatest fortitude the past month, but the strain was too much and during the past few days he has been very weak. In the same condition is Lieutenant Hendrickson, who also shared Captain Millar's condition and who was left in a Detroit hospital. In the case of the sick soldiers who had to be aided from the cars to the conveyances, the scenes were pitiful. Several of the boys looked gaunt and thread worn, notably Robert Siller, whose condition is indeed serious. Others of the soldiers were jolly and full of life almost as the day of their departure.

HUGE CROWD AT CALUMET. The blowing of whistles was resumed as the train started across the bridge for Hancock, where another enormous crowd was in waiting, but a stop of not more than two minutes was made before the start was made for Calumet. A number of Calumet residents had come to Houghton to meet the special and extend any comforts that might be in their power.

It was about half-past seven when the train reached the metropolis and it was greeted by the largest assemblage of people ever seen in the county. It seemed as though every one in town was present, besides hundreds from Lake Linden, and the general feeling seemed to be one of solemnity, owing to the decimated ranks of the boys. There was no demonstration, and the soldiers were at once bundled into their homes.

Accompanying the soldiers on the trip were Dr. and Mrs. Rupprecht and Ed and Paul Grierson of Calumet and Mr. and Mrs. J. C. Shields of Hancock. The condition of the Calumet soldiers is better than was expected, but five had to be aided to carriages, and the attending physicians hope that all will be ultimately restored to health.

WORLD'S DEEPEST SHAFT. It is claimed, and with reason, that the Red Jacket shaft of the Calumet & Hecla copper mine, in Northern Michigan, is the deepest in the world. It has taken nine years of day and night work to sink and has cost \$2,500,000. This shaft is vertical, but all the other shafts of the Calumet & Hecla follow the dip of the lode. Work on it was started in 1889, immediately after the last of the three great underground fires in the older workings of the mine, which did damage of more than \$1,000,000. Work has been continued upon it since that time, and the shaft stands without a parallel in mining. It is 4,900 feet in depth, or 339 feet less than a mile. It contains six compartments, each equal in size to an ordinary mining shaft, four of which are used for hoisting rock and lowering timber. One shaft is utilized for the ladders, and the sixth and last compartment carries the wires and pipes for telephones, light, power, water, and compressed air.—Industries and Iron.

MINNESOTA POINT.—This remarkable formation of land makes the finest harbor on the Great Lakes. The Point is about ten miles long, and an average width of five, hundred feet. It is formed entirely of sand, and is partially covered with trees and undergrowth. It is a great resort for hundreds of campers during the season, and as a clean and pleasant place for picnics and camp fires, it has no equal anywhere.

THE RIVER.—Following up the St. Louis river, you find a continued succession of most charming scenery, and terminating at Fond du Lac, where begins the Dalles of the St. Louis, the ideal of all anglers. The river here falls in a comparatively short distance over six hundred feet, and the estimated horse power possible of development, by means of proper dams, is estimated at over 100,000, which would make it one of the largest streams in the world.

WOODLAND PARK.—This is an island suburb, which is very attractive, and is reached by the Woodland cars going east on Superior, Second and Fourth Streets, and a fine view of the city, harbor and lake.

Money to Release the 5,000 Held by the Insurgents Is to Be Sent to Manila—Dewey Denies Reports of Brutality.

GERMANY IS AFTER PALAYAN ISLAND

Hong Kong, Sept. 6.—From a Spanish source it is learned that the German cruiser Arcona is lying off Palayan island, in the Zulu sea, awaiting instructions to take possession.

WANT AMERICAN RULE.

Manila, Sept. 6.—At a meeting yesterday of twenty leaders of the Filipinos of all sections, called to discuss the policy of these islands, eighteen were emphatically in favor of outright annexation to the United States and the other two were in favor of a republic.

The United States cruisers Olympia and Raleigh returned from Hong Kong today.

TO BUY THEIR FREEDOM.

Madrid, Sept. 6.—The cabinet has authorized the foreign minister, Duke Almodovar de Rio, to negotiate with the Philippine insurgents to ransom the five thousand Spanish prisoners now in their hands, and it has been decided to transmit money to Manila for that purpose and for the release of the Spanish troops, which is urgently needed.

MAY SEND WARSHIPS!

London, Sept. 6.—A Madrid special dispatch says that the cabinet has been occupied with a discussion of the situation of the Spaniards, civil and military, of the Philippines who may be desirous of returning to Spain, but who are deterred by the number of insurgents and their armed ships. Therefore, it is said, the cabinet realizes the necessity of sending warships for their protection.

NO ACTS OF CRUELTY.

Washington, Sept. 6.—Admiral Dewey was recently called upon to investigate the reports that the Spanish prisoners taken by the insurgents in the Philippines were subject to cruel treatment. A cable message from Admiral Dewey was received today, saying that the story probably originated from the fact the insurgents were unable to meet the wants of the sick Spanish prisoners, owing to lack of physicians and medical supplies, but he said he had been unable to find any proof of acts of cruelty on the part of the insurgents.

OVERHAULING THE FLEET.

A report from Constructor Capps, at Manila, just received states that, aside from the small gunboats, which have been raised and put into service by Admiral Dewey, none of the Spanish ships of war engaged in the battle of Manila Bay are likely to be raised. Already the flagship Olympia and the gunboat Raleigh have been docked and cleaned at Hong Kong, and the Boston arrived there last Saturday for the same purpose. Within the course of a few weeks Admiral Dewey's squadron will be thoroughly renovated. The admiral will then be in shape to meet any who may threaten to disturb his possession of Manila.

ONLY FIFTY YET REMAIN.

150 OF THE SICK MEN SHAFTER LEFT BEHIND AT SANTIAGO SAIL FOR AMERICA'S SHORES.

Washington, Sept. 6.—The most encouraging report that has come from the sick soldiers in Santiago since the appearance of the dreaded fever, in the judgment of Adjutant General Corbin, came to hand at noon in the shape of the following telegram from Major General Lawton:

"One hundred convalescents and others leave today on the Vigilanza, not to exceed fifty sick of the Fifth Army corps now remaining. There is ample transportation for them."

General Lawton's report of the sanitary condition of the entire force quartered at the Cuban city is as follows:

Total sick.....236
Total fever.....167
New cases of fever.....15
Returned to duty.....5

There were two deaths at Santiago yesterday [names given in general list of dead].

6,000 PRISONERS STILL THERE.

Santiago, Sept. 6.—The United States transport Vigilanza sailed today for Montauk Point with about 150 convalescents, representing various regiments. Only forty-five sick men of the Fifth Army corps now remain. Eleven of these are down with yellow fever at Siboney.

Three thousand Spanish prisoners have been shipped from Guantanamo this week, two thousand from Leon and a thousand from San Ignacio. Only six thousand are left, and these will be rapidly shipped to Spain.

CHARTERS AN OCEAN LINER.

New York, Sept. 6.—Captain Eulate has chartered the City of Rome to take one hundred Spanish officers and 1,300 men back to Spain. These men were captured when Cervera's fleet was destroyed.

COMMISSARY EAGAN COURTS AN INVESTIGATION BY CONGRESS OF THE CHARGES AGAINST HIS DEPARTMENT.

Washington, Sept. 6.—Commissary General Eagan courts an investigation of the most searching kind and he does not want it conducted by the army, as he believes such an investigation would not be satisfactory to the public. He will insist upon having a congressional committee do the probing and challenge any one to come forward with any specific charge, as he says it is impossible to investigate glittering generalities.

TOO MUCH FOOD.

"At no time since the beginning of the war has there been a complaint lodged against my department in that the soldiers on board the ship look one way or the other. I wish to state that the charges of suffering from lack of food are exaggerated, and if there has been any suffering it has been caused by extravagance on the part of officers and men.

"In the case of one of the transports, it was asserted that there was a shortage of food, but the captain told me that the soldiers on board the ship look one way or the other. I wish to state that the charges of suffering from lack of food are exaggerated, and if there has been any suffering it has been caused by extravagance on the part of officers and men.

"The Seneca brought also the postal commission, thirty nurses and six contract surgeons. There are thirteen postal clerks with the commission for various stations. The Seneca proceeded to Ponce this afternoon. Paymaster Arthur, who is on board, has a million dollars for the troops.

When the admiral's pennant was raised on board the New Orleans the marines paraded and the band played. Spanish Brigadier General Vallarino made an official visit to Admiral Schley and was saluted with seven guns. During the afternoon Admiral Schley and General Gordon came ashore and took up their quarters at the Hotel Ingle Terra, where they will remain during the sessions of the military commission. Later General Brooke arrived from Rio Piedras, and the three commissioners called upon Captain General Machias.

SIX MEN SICK AND ONE DEATH.

TRANSPORT CHESTER ARRIVES AT NEW YORK FROM PORTO RICO WITH 1,200 SOLDIERS.

New York, Sept. 6.—The United States transport Chester, Captain Danc, arrived this afternoon from Ponce, Porto Rico, whence she sailed Sept. 1. She brought about sixty officers and civilians and 1,150 enlisted men. Among those on board are Brigadier General Schwab and Hains and their staffs and the Fourth Pennsylvania Volunteers. Captain M. H. Smith of the Fourth Pennsylvania, died last night from malarial fever. Six men were in the ship's hospital, five suffering from typhoid fever and one from malarial. After a brief inspection at quarantine the transport proceeded to Jersey City, where the men will land.

BOOKED FOR MONTAUK.

Camp Wikoff, L. I., Sept. 6.—General Shafter has been informed unofficially that four transports with troops from Porto Rico will, upon their arrival off New York, be directed to disembark at Montauk Point the regiments they bring. It is understood the Odbam and Mississippi are two of the troop ships of the four vessels. All are due to reach Montauk Point the 7th or 8th. The Odbam brings General Miles and his staff and nine companies of the Second Wisconsin.

BUT THIRTY-THREE DEATHS.

GEN. BOYNTON GIVES THE OFFICIAL RECORD OF THE SECOND DIVISION HOSPITAL AT CHICKAMAUGA.

Washington, Sept. 6.—The following telegram from Brigadier General Boynton, at Chattanooga, was received today at the war department:

"The hospital of the Second division of the Third corps was closed yesterday. This is the one that has been most generally and severely criticised. The following is its record since it was established on June 1: Total number of patients, 2,462; total deaths, 33. Of these cases, 270 were of typhoid fever, and of the total deaths 23 were from typhoid."

ALGER TO MAKE A TOUR.

At the cabinet meeting today it is understood much time was consumed in discussion of questions incidental to the war and its settlement, with particular stress on matters relating to the treatment and condition of the soldiers now in the various army camps. Secretary Alger announced after the meeting he intended to make a tour of the various camps at which large bodies of men are now stationed to find out the exact condition of affairs.

TAKEN TO BOSTON.

Boston, Sept. 6.—A train carrying the sick soldiers of the Ninth Massachusetts who were taken from the steamer Leighton when she was wrecked last night at Newport reached here this morning. There were no deaths on the train.

GRIGSBY'S COWBOYS TO GO.

WILL BE PAID THURSDAY AND MUSTERED OUT FRIDAY.

Chickamauga, Sept. 6.—The Eighth

Washington, Sept. 6.—Justice White has finally declined the tender of membership on the Spanish-American peace commission. It is understood tonight, although no definite announcement is made, that the vacant place on the commission has been offered to Senator Gray of Delaware, one of the leading Democratic members of the senate and a member of the minority on the foreign relations committee. Mr. Gray had a long conference with the president today. While the senator has not definitely indicated acceptance, it is regarded as unlikely he will be the fifth member of the commission.

NEW LAW DECLARED ILLEGAL.

Des Moines, Sept. 6.—Judge Bishop this afternoon ruled that the new marriage after seduction law is unconstitutional, holding it to be class legislation.

CHEERS FOR "THE NEXT PRESIDENT" ALSO IN EVIDENCE.

GENERAL GORDON ACCOMPANIES THE NAVAL CHIEFTAN.

They Are Joined by General Brooke in the City, and Together the Three Evacuation Commissioners Pay a Visit to Governor Macias.

HE GOT AN ENTHUSIASTIC WELCOME

San Juan, Sept. 6.—The United States transport Seneca, carrying Admiral Schley and General Gordon of the Porto Rican commission, arrived off the harbor last night, but did not enter until this morning.

The United States cruiser New Orleans, which was lying in the harbor, fired the admiral's salute of thirteen guns. The Spanish gunboat Segunda responded with thirteen guns, whereupon the New Orleans set the Spanish flag at the peak and saluted it with thirteen guns. A boat immediately put off from the New Orleans and took Admiral Schley aboard. As he went over the steamer's side her passengers gave him three cheers and a "tiger," and one man in his enthusiasm yelled, "Hurrah for the next president." Admiral Schley was given an enthusiastic reception aboard the New Orleans.

MONEY FOR THE TROOPS.

The Seneca brought also the postal commission, thirty nurses and six contract surgeons. There are thirteen postal clerks with the commission for various stations. The Seneca proceeded to Ponce this afternoon. Paymaster Arthur, who is on board, has a million dollars for the troops.

DICKINSON WILL GO SOLID FOR SHELDEN.

He Carries Norway With a Rush and Loses but One Ward in Iron Mountain.

SITUATION IN IRON COUNTY STILL REMAINS DOUBTFUL.

STEPHENSON GETS CRYSTAL FALLS AND CARLOS D. IRON RIVER.

Middle-of-the-Road Populists Early in the Field for Presidential Honors, Barker and Donnelly Being Yesterday Placed in Nomination.

BUBBLES FROM THE POLITICAL POT.

Iron Mountain, Sept. 6.—This (Dickinson) county will tomorrow endorse the record of Carlos D. Sheldon by instructing its six delegates to the congressional convention at Ishpeming, Thursday of this week, to vote for the renomination of the Houghton man as the representative of the Twelfth district in the national legislature. This result is assured by the action of today's city and village conventions. Sheldon carried Norway solid and only lost one ward in this city, thus leaving Stephenson doomed, locally at least, to certain defeat.

HORSE A PIECE IN IRON.

Advices from Iron county tonight are that the situation in that county is still doubtful. Sheldon has carried the village of Iron River, but has lost at Crystal Falls, so that to which candidate the three votes of Iron county will go remains to be determined tomorrow.

MIDDLE-OF-ROADERS SPLIT IN TWAIN!

FRIENDS OF SENATOR BUTLER, GATES, WALK OUT AND HOLD A CONVENTION OF THEIR OWN, THE REMAINDER PUTTING UP BARKER AND DONNELLY AS THE NATIONAL TICKET.

Cincinnati, O., Sept. 6.—The middle-of-the-road Populists today reorganized the People's party, renewed its former declaration of principles and nominated its national ticket two years in advance of the date of election. The object was to head off fusion similar to that of 1896. While the radicals controlled the convention, they could not carry out the program without a bolt from the northern delegates. The western and southern delegates nominated Wharton Barker and Ignatius Donnelly and declared the principles of the re-organized party. The eastern states were not represented.

DECLARE FOR GREENBACKS.

The convention reconvened this morning. The temporary organization was made permanent, and then Ignatius Donnelly made another radical speech, strongly advocating the reorganization of the party.

An elaborate address to the people of the United States was adopted. It reaffirms the previous Populist platform, and charges the Democratic party with stealing its principles; it denounces Senator Butler with attempting to betray the party, and closes with an appeal for a return to "the full legal tender greenback of the Civil war" as the best currency the country has ever possessed.

Previous to the adoption of the address, Delegate Foster of Minnesota, creating a stir by his bitter objection and was hissed down, as were others of the Butler faction. A bitter discussion then followed on a motion to proceed with the nominations for president and vice president. The Butler faction moved to amend by referring the whole matter to the national committee. This caused a great disturbance, and the Butler men were knocked out.

HALL MANAGER ALARMED.

Joseph Palmer of Illinois then called the Butler faction together in another part of the hall and it was announced they would leave the hall if the motion to proceed with the nominations prevailed. The disturbance of the small crowd became so fierce that Mr. Hazbitt, manager of the Lyceum, appeared and requested the assemblage to vacate the hall, as he was apprehensive of the security of his property.

The Butler faction, led by Delegate Palmer of Illinois, then left the hall and the other faction proceeded with the nomination. After numerous nominating and seconding speeches in presenting the two names for presidential candidates, the ballot was taken, resulting: Wharton Barker, Pennsylvania, 128 4-5; Ignatius Donnelly, Minnesota, 99 1-5.

On motion of Mr. Donnelly, the nomination of Barker was made unanimous. Donnelly was then nominated by acclamation for vice president.

REFERENDUM IS ADOPTED.

A long platform was adopted, in which are incorporated the provisions of the Omaha platform, as well the address adopted at the morning session. The declarations of the platform do not differ from those of the other platforms, except in a plank which especially denounces Senator Marion Butler, as chairman of the national committee, for attempting "to drive the Populist party into the Democratic organization." The resolutions also provide for the reorganization of the party, with Milton Park of Dallas as chairman. The convention adjourned without fixing any time or place for another convention.

The most important action of the convention was the adoption of the referendum system as the cardinal principle in the future government of the reorganized party. The rules adopted by the convention for the future government of the Populist party provide that the new People's party should never again hold delegate conventions of any sort, but that the nominations for all the officers shall be made through "initiative and referendum or petition endorsed by popular vote."

PROTEST BY THE BOLTERS.

Those who followed Delegate Palmer out the convention afterwards held a convention and adopted the following: "To the People's party of the United States: On behalf of our delegates who attended the meeting called at Cincinnati

PROTEST BY THE BOLTERS.

Those who followed Delegate Palmer out the convention afterwards held a convention and adopted the following: "To the People's party of the United States: On behalf of our delegates who attended the meeting called at Cincinnati

by some of the old members of the People's party, we submit the following protest to the action of that body. We attended the convention for the purpose of preserving harmony among those who espoused straight, simple People's party doctrines.

"But those who controlled the convention were prompted by some purpose provoking them to override every effort to promote the interests of the party. The convention proceeded properly to establish the referendum system, through which the nominees of the party for the several offices could be selected by the members of the party voting in their respective precincts. When we sought to have the national, central and national organization committees put the program into effect within an hour they refused, disregarding the plan adopted by themselves and immediately proceeding to the nomination of president and vice president, and by their actions we believe they have placed themselves outside of the regular organization of the People's party and made for themselves a new party.

THEN CAME THE SPLIT.

"Thereupon, quite one-half of the delegates withdrew, preferring to remain loyal to the People's party; and, willing to trust to future developments for the remedy of the party difficulties, we implore the Populists of every state to pay no heed nor attach importance to this small party number, but to maintain an aggressive warfare on the lines hitherto followed and to build up and preserve our state and local organizations, in accordance with the recommendations of the national organization committee, as adopted at Nashville, July 4, 1897, and the subsequent agreement between our two national committees at Omaha, June 15, 1898, relying on the patriotism and good judgment of the men advocating both policies of party management to heal our differences before the time fixed for our regular national convention."

The above resolutions were unanimously adopted by the delegates in whole or in part from the states of Michigan, Indiana, Kentucky, Missouri, Illinois, Ohio and Tennessee.

IOWA SILVERITES WILL FUSE.

Marshalltown, Ia., Sept. 6.—Delegates are gathering here for the state convention of the Democrats, Populists and Silver Republicans. The fusion of the three parties is conceded. The Democrats will give the Populists attorney general and one railway commissioner, and perhaps supreme court reporter. Judge Spurrier, representing the Silver Republicans, will be nominated for supreme judge, and the Democrats will name the secretary of state, auditor, treasurer, one railway commissioner and clerk of the supreme court. The indications point to only a fair attendance of Democrats and Populists and a very small attendance of Silver Republicans.

PLACES ON THE STATE TICKET TO BE DIVIDED AMONG DEMOCRATS, POPULISTS AND WHITE METAL REPUBLICANS.

Marshalltown, Ia., Sept. 6.—Delegates are gathering here for the state convention of the Democrats, Populists and Silver Republicans. The fusion of the three parties is conceded. The Democrats will give the Populists attorney general and one railway commissioner, and perhaps supreme court reporter. Judge Spurrier, representing the Silver Republicans, will be nominated for supreme judge, and the Democrats will name the secretary of state, auditor, treasurer, one railway commissioner and clerk of the supreme court. VERMONT REPUBLICAN.

THAT PARTY'S NOMINEES GENERALLY VICTORIOUS IN THE BIENNIAL ELECTION HELD YESTERDAY.

White River Junction, Vt., Sept. 6.—In the regular biennial Vermont election today, the Republicans elected the entire state ticket, headed by Edward C. Smith of St. Albans, for governor. It is also probable that the Republicans elected their entire list of thirty senators. Twenty-five Democratic representatives are reported elected in the 116 towns thus far heard from. Thomas W. Moloney, Democratic candidate for governor, polled about the same vote as the Democratic candidate four years ago, while the Republican vote for governor is materially decreased.

CONGRESSIONAL NOMINATIONS.

Red Wing, Minn., Sept. 6.—The Third district Republicans tonight re-nominated Congressman Heatwold by acclamation.

Appleton, Wis., Sept. 6.—The Democrats of the Eighth district today nominated Philip Sheridan of Green Bay for congress.

Wausau, Wis., Sept. 6.—Webb M. Ruggles of Ashland was nominated for congress by the Democrats of the Ninth district today.

Fond du Lac, Wis., Sept. 6.—Frank G. Stewart was today nominated for congress by the Sixth Democratic congressional convention.

Chippewa Falls, Wis., Sept. 6.—The Tenth district Democratic congressional convention today nominated J. R. Matthews of Menomonie.

CONGER OF MICHIGAN.

WOLVERINE STATE IS REPRESENTED ON THE INDUSTRIAL COMMISSION JUST NAMED BY THE PRESIDENT.

Washington, Sept. 6.—President McKinley announced tonight the names of his appointees on the industrial commission. They are: Andrew L. Hart, Ohio; S. N. D. North, Massachusetts; Frank P. Sargent, Illinois; Ellison A. Snythe, South Carolina; John M. Farquhar, New York; Eugene D. Conger, Michigan; Thomas W. Phillips, Pennsylvania; Charles J. Harris, North Carolina, and M. D. Ratchford, Indiana.

A CRITICAL TIME

During the Battle of Santiago.

SICK OR WELL, A RUSH NIGHT AND DAY.

The Packers at the Battle of Santiago de Cuba Were All Heroes—Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. Butler, of pack-train No. 3, writing from Santiago de Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by the Stafford Drug Company.

CITY DADS.

Things They Did and Didn't at the Regular Monthly Meeting.

The common council met last night for the first time since Aug. 8 and transacted all the business on hand as the meeting was the regular monthly session. Hereafter when the council wishes to install an electric light on the streets it will pass a resolution recommending the electric light and power commission to do so. It has heretofore been the custom to simply refer petitions asking for new lights to the commission. Alderman Ward introduced the first resolution of the sort at the meeting last night in answer to a petition of residents in the vicinity of Third and Magnetic.

There was quite a discussion over a petition of the street car company asking permission to run the express car during the hours from 8 a. m. to 8 p. m., which hours are exempted by legislative act unless special permission is given by the city authorities. The petition also asked permission to let the car stand on the track forty-five minutes at a time. The council gave the permission to run the car in the day time, but a proviso was tacked on that it should be operated under restrictions by the council to be decided on later.

In connection with the matter Alderman Ward took occasion to criticize the management of the car. Coming in from Presque Isle it is pushed ahead of the motor car, and often the express car is loaded so full it is hard for the motor-man to see ahead of the car. There is a brakeman on the express car but he is inside and not where he can see and warn people who might be on the track. Alderman Ward said that the brake should be set on a platform in front or on top of the car, so that the man in charge can see people in time to use his brake with good effect. The alderman said that unless some precaution of the sort were taken there would be an accident sooner or later. Alderman Clark, president of the company, who introduced the petition, admitted that the suggestions were good.

The council was asked to ratify the plat of the Shaw addition, at the foot of Morton street between Lee and Seventh. A good many lots have been sold in it but the plat has never been approved or recorded. Sidney Adams had in a petition to be allowed to build a stairway on the south side of his block in Spring street. A resolution was passed instructing him to submit plans and specifications for the approval of the council. It was not incorporated in the resolution, but the council will not permit the erection of any but an iron stairway.

After the bills of the street department are paid there will be not to exceed \$1,200 left of the amount allowed for street work this season. This is about enough to finish the Ridge and Spruce streets improvements now under way. As the street committee is not in favor of exceeding the appropriation work will probably be stopped soon after the middle of the month.

Ald. Jacobs followed this with a resolution, rather ironical from his chance order, giving the employees of the street department a nine hour day on Saturdays. It was passed by the council.

The council adjourned till Sept. 19.

MATINEE GIRL.

This Merry Comedy Will Be at the Opera House Tonight.

Edwin P. Hilton's successful production, "The Gay Matinee Girl," will be seen at the opera house tonight.

The clever comedians, Monroe and Hart and Miss Mattie Vickers, for whom the claim is made that she is America's greatest subretrite are the leading figures in the aggregation of twenty players who comprise the company that puts the piece on the boards.

W. Parker and Mrs. Hattie Walker were married yesterday afternoon by Justice Byrne. The happy couple left on the 5 o'clock train for parts unknown. They will be at home to their friends about Oct. 15 at the Parker homestead in Skandia township.

The third annual autumn excursion of the South Shore leaves this morning. The \$5 round trip rate from Marquette to Detroit proves more seductive each year, and the crowd which it is expected will leave this morning test the capacity of the trains and boats.

NO HUMBBUG HERE.

Marquette Indorsement is What Counts With the People.

You can't fool the public all the time. They will find you out at last. Every time a man is fooled, another skeptic is made. Many the remedy that makes the skeptic.

It fails to keep its promise. Doan's Kidney Pills bring renewed faith.

They cure the skeptic. Plenty of proof of this at home. Marquette proof for Marquette people. Our citizens say they cure backache. Cure urinary disorders. Cure sick kidneys.

Experience has taught them this is so. Conviction for every sufferer. In the testimony of friends and neighbors.

Read this case: Mr. Edward Murtha, of 221 W. Rock street, says: "I have no hesitation in recommending Doan's Kidney Pills to anyone having any trouble with their back or kidneys. I suffered off and on for a long time with attacks of pain through the small of my back and around through the groin. At times it became quite severe, especially if I caught cold or strained myself. The kidney secretions were irregular and unnatural. I was advised to go to the Stafford Drug company and procure Doan's Kidney Pills. I did so and began to use them. Before I had taken very many the distress was removed from my back and loins and the kidney secretions regulated. I can say that from my own experience I found Doan's Kidney Pills to be a splendid remedy."

Doan's Kidney Pills are sold for 50 cents per box. For sale by all dealers, or sent by mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name Doan's and take no other.

CHICAGO MARKETS.

Chicago, Sept. 6.—There was a fair trade early today in wheat, but the market became more quiet later. The feeling at the start and for a time was stronger, but this was succeeded by an easier tone. Moderate world's shipments and a decrease on ocean passage were responsible chiefly for the early strength, the action of corn also helping, as did a liberal out-inspection, and New York reported continental buying there. Later the offerings increased and prices receded. A liberal Northwestern movement and weakness at Duluth and Minneapolis were also bear factors, as was the increase in the visible.

Corn opened active and much stronger, under active covering by shorts. Water the offerings were liberal and prices receded, changed some and closed higher. The weather was the chief bull factor. Colder conditions in the West and predictions of light frosts from Kansas, Iowa and Nebraska frightened shorts.

Trade in oats was steady, with a firmer feeling, especially for September. There was moderate activity, the market acting rather independently of other grains.

The leading grain futures ranged as follows:

AMERICA'S CUP THE PRIZE.

JOHN NOLAN WINS THE BIG CHARTER OAK TROTTER RACE AT HARTFORD.

Hartford, Sept. 6.—Interest in the second day's racing of the grand circuit meet today centered in the Charter Oak purse for \$10,000. There were sixteen starters with Mattie Patterson the favorite at 60 against the field one hundred, but the talent also took kindly to John Nolan and backed him heavily. He proved to be the winner in three straight heats after Mattie Patterson had taken the first. Summaries:

2:24 trot, two-year-olds, purse \$1,000 (six starters)—The Earl won; Helen Simmons, second; Admiral Symmes third. Best time, 2:17.

2:30 pace, purse \$2,000 (six starters)—Royal B. Shelton, first; King Chimes, second; Split Silk, third. Best time, 2:24.

Charter Oak, 2:17 trot, purse \$10,000 (sixteen starters)—John Nolan won; Mattie Patterson, second; Stamboulet, third. Best time, 2:09 1/2.

Trotting handicap, purse \$1,000 (seven starters)—Tommy Britton won; Oakley, second; Surpol, third. Best time, 2:15 1/2.

Ishpeming and Vicinity.

CONDEMNNS THE KLONDIKE. CAPTAIN AUGUST BEERLING IS BACK FROM THERE AND GIVES AN ENTERTAINING ACCOUNT OF HIS TRIP AND ITS RESULTS.

Captain August Beerling, who has just returned from Ishpeming from the Klondike gold region, has interesting stories to tell of his experiences there.

It was on his second attempt to get to the new gold fields that Mr. Beerling succeeded in reaching there. He first started out last fall, when he thought he would be able to get over the snow covered mountains and frozen streams all right, but before he reached the Chilkoot Pass he discovered that he had started out at the wrong time of the year.

He remained there a short time and then came home, with a stronger determination than ever to again undertake the trip in the spring.

On the 23rd day of February Mr. Beerling and a couple of other Ishpeming men left here, fully determined to reach and exploit the new gold fields of Alaska.

They were full of ambition until they quickly realized what a hopeless task they had attempted.

The first difficulties they encountered were at Bennett. Here a stay of nearly six weeks was necessary while the explorers made ready for crossing the rough country beyond.

There were thousands of explorers already there with their boats and outfits ready for the journey, but the ice in the lakes and river was in such shape that they did not dare attempt the trip at that time.

Being asked about how many men were at Bennett when he was there Mr. Beerling said there were about 100 men.

"We had all concluded that the Indian river, or on the streams tributary to it, was the best place for us to explore."

TWO FIRES AT THE MINES. Fire almost destroyed the new crusher building at the Lake Superior Iron Company's Section 16 mine Monday evening.

About noon yesterday fire broke out near the roof of the blacksmith shop at the Cliffs shaft mine. The top of the stack of one of the forges blew off and the sparks set the timbers just below the roof on fire.

Steed is said to be in a hospital at Boston. He intends to return to Negaunee just as soon as he is strong enough to travel.

TO ORGANIZE A POLITICAL CLUB. The Finnish Republican voters of Negaunee propose to organize a political club here within the next week or two.

The meeting for that purpose will probably be called next Sunday afternoon.

A prominent Finlander yesterday said that the most of his countrymen here are Republicans and they are going to support the regular nominees of the party in the election to take place this fall.

He said that an effort will be made to have the Finnish voters at Ishpeming come into the club here. Some of them had expressed a desire to do this, and if they do a very strong club will be formed.

THE SCHOOL ELECTION.

LITTLE INTEREST MANIFESTED AND R. G. JACKSON WAS RE-ELECTED TRUSTEE.

Robert G. Jackson was re-elected a member of the board of school trustees at the annual election held Monday. His opponent was Joseph E. Sues, who did not consent to make the run until Monday morning, when a number of his friends came around and urged him to make a candidate.

There was not a great deal of interest manifested in the election, partly on account of the excitement over the arrival of the soldiers, and also the Maccabees picnic and the sports at Union park. Up to Monday morning it looked as if there would not be any opposition to Jackson, and for this reason the friends of Sues had not made any preparation for the contest.

The election of Jackson is considered quite a victory by the Stephenson men. While one would suppose that the congressional fight had nothing to do with the school contest, the supporters of Sam Stephenson now choose to regard the outcome as showing the relative strength of the two factions, they claiming that all the Stephenson men were with Jackson and that the Sheldon men stood back of Sues.

Had the contest been fought on these lines and the friends of Sues looked upon the contest in that way there would undoubtedly have been a warmer election than there was. As can be seen by the vote, the bulk of the voters did not come out at all. There was no particular reason why Mr. Jackson should be down because there was a split on account of the congressional fight. He has made an excellent school trustee and everyone seemed satisfied with his work during the fourteen years he has been a member of the board.

On the other hand Mr. Sues made no effort to win. He remained at his place of business the greater part of the day looking after the wants of his customers. Whenever anyone came around to talk about the contest Joe was simply too busy to discuss it.

The free text books proposition was carried by a vote of 225 to 10, there being hardly any opposition to it. There was practically no opposition to the proposition to raise \$12,000 by bonding the district to pay off the indebtedness incurred last year, when there was no money to be had on account of the non-payment of delinquent taxes. There were 203 votes cast in favor of issuing the bonds and 9 against it.

At the business meeting following the election the board was authorized to ask the city council for an appropriation of \$18,000, to meet the expenses of the schools during the ensuing year. It is thought that this amount will carry the board through, though there will not be much, if anything, left by the close of the spring term.

The salary of the director was fixed at \$300, and the assessor will be paid \$100 for his services during the ensuing year. This is the same as was paid these officials last year.

There were not many present at the business meeting. In years past when the contests for places on the board were warmer, there has not been sufficient room in the city building to hold all who came out. But this time there were not more than a half dozen tax payers present.

EXPECTS TO BE HOME SOON.

ANOTHER VOLUNTEER FROM NEGAUNEE WHO HAS HAD A SUFFICIENCY OF CAMP LIFE.

Ben Miller of this city, who is with the troops in Pennsylvania, writes his father that he expects to be mustered out of the service about the first of the coming month. He said he narrowly escaped a sick spell last week, as he was on picket duty for thirty-six hours straight.

He said the soldiers are often on duty twenty-four hours, but through some mismanagement he was kept at work until he was completely done up. He spoke of how the money his father sent him saved him from an attack of sickness, as he was able to buy proper food and stimulants with it. If he did not have the money he would surely have been down, as he could not eat the army rations about that time.

Ben says all the soldiers at the camp where he is are anxious to get through. They have had all the soldiering they care for and there are not many in his regiment anxious to continue in camp.

Mr. Miller is anxious for Ben's return, as he wishes him to attend college again this year. If Ben is late in getting back to school at Ann Arbor he is afraid he will be behind with his work. Ben will come home before going to Ann Arbor, and will lose no time in getting here after he is mustered out.

LOCAL LAONICS.

Harry Verran arrived here yesterday from Oshkosh, where he has a job as motorman on a street railway line. He will spend a week or so with his folks before returning to Oshkosh.

The dancing at the Maccabees' picnic at Pearce's grove Monday was continued until after 9 o'clock in the evening. Gasoline torches were used to illuminate the platform. It was after 11 o'clock before some of the committee men got home from the grove.

The steamer Christopher Columbus will run an excursion to Pictured Rocks on the 16th inst., a week from next Friday. There will be a balloon ascension from the boat. Special rates of fare will be given over the South Shore line for all those who wish to take in the excursion. The run on the boat will cost 75 cents.

A party of young people of this city had a very nice time (nit) out on Teal Lake Monday. They went out in the big sail boat and were in the centre of the lake when the wind went down completely, and there they remained until after 9 o'clock. The boys had the hardest kind of a time getting the boat to shore. All they had was one piece of a board to paddle with and they could hardly budge the big boat with it. They worked hard for nearly four hours, when they finally got the craft ashore. Even then some of the boys had to get out into the water, wetting their feet and trousers, to pull the boat to land, so that the ladies could get off without damping their dainty feet.

ROBBED THE GRAVE.—A startling incident of which Mr. John Oliver of Philadelphia was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradual growing weaker day by day. Three physicians had given me up. Fortunately, friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at the Stafford Drug Company.

AN OPEN LETTER. On Four Hundred Baltimore Rye from a Prominent Railroad Surgeon.

Office of G. E. Brown, Division Surgeon, Grand Rapids and Indiana R. R., Shore & Atlantic City, Mich., July 14, 1898. Macking City, Mich., July 14, 1898. Crown Distilling Co., Cincinnati, Ohio. Gentlemen:—The case of Four Hundred Baltimore Rye whiskey arrived, for which I accept my thanks. I have submitted your Four Hundred Baltimore Rye to a thorough test, in cases requiring a stimulant, and find it far superior to anything I have used in practice. It is absolutely pure, being free from all deleterious matter; it is mild and of mellow flavor; does not distress the patient, and is a Perfect Tonic Stimulant. As such I take great pleasure in recommending it to my brothers in practice, as a perfect whiskey.

Yours very truly, GEORGE E. BROWN, M. D. It is pure, guaranteed ten years old and of rich mellow flavor. Sold at all first class cafes.

JOLLY EXILES' LAST.

Western Hay Fever Association Holds Its Final Session of Present Season.

NEW RIVAL AT BAY VIEW DIED DURING BIRTH.

Marquette Favored for the Meeting Place Next Year But Selection is Left With Location and Transportation Committee.

THEY HARDLY SNEEZED AT ALL. The Western Hay Fever association held its second and last session of its twentieth annual gathering here yesterday afternoon.

Yesterday was an ideal day for the sneezers. It was bright and cool and hardly a particle of the objectionable pollen was in the air.

Electing officers was the principal business of the meeting. The president was re-elected at the session a week ago, but the choice of the others was laid over till yesterday.

President—E. R. Goldsmith, Hamilton, Ohio.

Secretary—E. G. Walker, Louisville, Ky.

Treasurer—M. D. Goodman, Chicago. Location and transportation manager—Colonel Charles T. Johnson, Louisville, Ky.

Vice presidents—Mrs. R. E. Gregory, Owensboro, Ky.; Willis Hickman, Spencer, Ind.; J. D. Stowell, Chicago, Ill.; Dr. T. B. McWilliams, Sigourney, Ia.; F. J. Jennings, Marquette, Mich.; Mrs. J. S. McClelland, St. Louis, Mo.; Miss Mary Williams, Baltimore, Md.; Mrs. R. B. Pope, Cambridge, O.; A. H. Havalega, Janesville, Wis.; Edward G. Childs, Dallas, Tex.; Mr. Hitchcock, Duluth, Minn.

There is one vice president for each state. The intention is to cover the states represented by the active members of the association.

Up till a year ago the matters of location and transportation were left with a committee of five, but the committee being scattered was too cumbersome to work well, so when Colonel Johnson was chosen for its chairman a year ago he stipulated that the committee should be a committee of one.

His success was so good getting concessions for the association that when he made the same stipulation on being put in nomination yesterday there was not a voice raised against it.

J. W. Lott of Potoskey, who was elected treasurer of the association in 1897, died during his term of office.

Following are the resolutions which were passed in his memory: "Resolutions of Respect by the Western Hay Fever association—Whereas, It has pleased the all wise creator to remove from our midst our beloved brother and treasurer, J. W. Lott of Potoskey, and Whereas, in the death of Mr. Lott we feel that our society has been deprived of a faithful officer, the wife of a true husband and the children of a devoted father.

Resolved, that, while we now in humble submission to the divine will, we commend the family to him that doeth all things well, that we extend to the family and friends our deepest sympathy in this the hour of their bereavement, and Resolved, that we transmit a copy of these resolutions to the family, spread them on our minutes, also a copy to The Potoskey Resorter and The Daily Mining Journal of Marquette for publication.

"Willis Hickman, "T. B. McWilliams, "Mrs. R. B. Pope.

"Marquette, Mich., Sept. 6, 1898." Resolutions were also passed thanking the management of the opera house for courtesies, those who have aided in the musical and literary programs for their assistance, and to The Mining Journal for press favors.

In connection with yesterday's meeting a very pleasing vocal and instrumental program was given.

It is a matter of quiet gratification among the officers and loyal members of the Western Hay Fever association that the attempt last week to form a rival society at Bay View died before it had the breath of life in it.

The Western association has always before held its sessions either at Potoskey or Bay View, and the people of those two resorts could hardly credit the evidence of their senses when they learned that the association was going to hold forth at Marquette this year.

Not desiring to lose the patronage of such a numerous body as the hay feverites, they attempted to organize a Bay View Hay Fever association. The preliminary meeting went through all right.

Mrs. R. B. Pope, late secretary of the Western, was present at the second meeting. Before going on with the organization Mrs. Pope was asked to tell about the Marquette meeting. She did so and depicted its success so graphically and dilated so on the advantages of the climate, that she revived the sentiment of loyalty to the association in many that were wavering.

Several took the floor after her and made speeches telling the good work the association had done and indirectly favoring adherence to it. The promoters of the new association finally cut off this kind of remarks, and proceeded with the business for which they had met, but a vote taken on the question of organization was lost and the attempt to form another society was abandoned.

Since then President Goldsmith has been receiving a great many renewals of membership and the accompanying quarters from the sufferers who had gone to their old time resort.

Quite a number of the "Hays" are coming from Potoskey personally. They say that Potoskey is not benefiting them this summer, but in Marquette they find comparative immunity from the disease. Since his election as president of the association and the announcement of the fact through the Associated Press reports, Mr. Goldsmith has been flooded with letters from all parts of the country.

Most of these letters inquire the purpose of the association and what has to be done to join. A great many of them ask him what he considers the best brand of medicine for the disease. The president is not recommending any preparations, but he is having a chance to try a good many, as enterprising manufac-

turers from all over are sending him samples of their goods.

The majority sentiment of the association is favorable to Marquette for the meeting place next year, but the determination of it is left in the hands of Colonel Johnson.

All agree that climatologically Marquette is the best hay fever resort they were ever in, and say that if this place is chosen as the meeting place of the association next year there will not be less than a thousand hay fever resorters here.

LET HIM EXPLAIN.

Captain Wheeler Owes an Explanation to the People of Marquette.

Some few of Captain Wheeler's friends have complained that he was unjustly roasted in yesterday's issue of this paper. The statements made by The Mining Journal are those which were based on information from the returned members of his company. They have been current report about the city for weeks, but the paper has refrained from voicing them until the soldiers could return to refute or support them.

They did not refute the rumors incriminating against their captain, but corroborated them, and that energetically. They charge him with things which have not been alluded to in print.

Captain Wheeler may be able to refute the charges which his subordinates make against him, but the load of proof is on his side, and the people of Marquette are entitled to the explanation if he has one to make.

So far only the less serious of the charges made against him have been attacked.

It is asserted that he was not in Detroit, but in Pennsylvania, and that this is shown by letters written home, which stated that he left Mt. Clemens Sept. 2.

Captain J. E. Ball says that he asked Colonel Peterson point blank if it were true that Wheeler sought the position of recruiting officer. Colonel Peterson said it was not, though Captain Wheeler was called to headquarters, told an officer would have to be detailed from his company and asked if he would take the assignment. He said he was willing.

No satisfactory explanation has been offered for the way in which the company was deprived of the relief money.

The nearest thing to a satisfactory explanation is that the captain, being on detail away from his command, couldn't get where there was a government paymaster to draw on, got hard up and used this money.

If that is the case the money came in very handy, but the question suggests itself, "What would Captain Wheeler have done if there had been no relief fund?"

What he would have done in that case is what he ought to have done in the case as it was. Why he didn't do it is where his explanation must come in if he wants to set himself square with the people of Marquette.

The returned soldiers may not have been where they could get reliable information about the way in which the captain came to be appointed recruiting officer, but their testimony as to whether they had anything out of the fund is certainly A No. 1.

Captain Wheeler is an officer, but the money was not raised any more for the officers than for the privates, and down in fever-infested Cuba they needed it a good deal more than he did recruiting in the salubrious climate of Michigan.

DEWEY DID IT.

He Writes to H. G. Beatley and Acknowledges Periodicals Sent Fleet.

A number of weeks ago H. G. Beatley collected a lot of books and periodicals and made up a large box of literature which he sent to the sailors in Admiral Dewey's fleet. The larger portion of the contents was obtained from the Marquette club. The box was sent on and arrived in San Francisco in time for shipment by the first transport which sailed for the Philippines.

Mr. Beatley has just received a letter which he prizes very highly. It is an acknowledgement of the box by Admiral Dewey. It reads: "United States Naval Force on Asiatic Station.

"Flagship Olympia, Cavite, P. I. "July 27, 1898.

"H. G. Beatley, Esq., Marquette, Mich.

"Dear Sir:—I beg to acknowledge with thanks the box of periodicals kindly sent by you, and to request that you will convey my sincere thanks to the Marquette club and to W. B. Harris of the Western and Well Fargo Express company.

"Very respectfully, "George Dewey, "Rear Admiral, U. S. Navy, "Commanding United States naval force Asiatic station."

COMPANY L, ATTENTION!

Here's an Invitation to Attend the Opera House Performance Tonight.

Company L, Marquette, Mich: Gentlemen—On behalf of Manager Edward P. Hilton and myself, you are invited in a body to the opera house to-night, Sept. 7, to witness the comedy "The Gay Matinee Girl," and we trust you will be, all of you, able to attend. I am, believe me,

Very truly, HERMANN F. GRUENDLER, Manager, Marquette Opera House, Marquette, Sept. 6, 1898.

CARL PETERSON LOCATED.

Been Transferred from Montauk Point to City Hospital at New York.

EIGHT SICK AND WOUNDED PASSE THROUGH YESTERDAY.

Mass Will Be Said This Morning for Marquette's First Martyr—Lieut. Wilson Writes He Will Be Home Next Week.

MAN OF CO. L WHO WAS MISSED.

Carl Peterson is in the city hospital of New York.

There has been a question in the past few days as to where he was, and relatives and friends have entertained fears that he might have died or been left behind in Cuba.

On the strength of the statement of Sergeant Baker he was given in the list published yesterday morning as being in the general hospital at Montauk Point.

To verify this The Mining Journal sent a telegram to the surgeon in charge of the institution. Yesterday afternoon the following reply was received:

"Carl Peterson transferred to city hospital, Sept. 4th.

"Brown, ex-officer."

One man whose name escaped recording in the list published yesterday is George Cullman. He was a woodsman and enlisted in Company L at Marquette. He died in Cuba.

Though the great bulk of the upper peninsula soldiers have reached their homes the boys will come along in small lots for some time yet.

Yesterday eight sick and wounded men came through in a special sleeper in charge of Colonel Cox. One of them, Geese, of Menominee, belonged to Co. L. The rest were Houghton and Calumet men.

Religious services will be held this morning for the first Co. L man who laid down his life in Cuba. This is Peter F. Vandenberg. Requiem high mass will be said for him at St. Peter's cathedral at 8:30.

Following is a letter which J. E. Ball has received from Lieutenant "Jack" Wilson:

"Boston, Aug. 31, 1898. "Dear old Cap.—I received your nice long letter this morning, and as I feel a great deal better this afternoon I am going to answer it.

"I have had a set back, but am back in place again. I was weighed here in the hospital the other day and tipped her off at 106 pounds. How is that? There is no question but I have gained fifteen pounds since I left Santiago.

"Goodness, I wish I could get started for home! I am sick of hospital life. They treat us fine here though. It is going to be a hard trip for me. I guess I will be done up when I reach home. I will be there next week.

"I know where we will hunt birds if I ever get straightened around; best place in the country; found it last fall.

"Oh, I'll be all O. K. when I hit the U. P. Won't do a thing to the camp. "Mother is out visiting the other hospitals today, but I will see her again to-night. I said in my letter to my sister that I was the only one who had reached the 106 notch that they had saved up to that time. So the doctor told me.

"Cap, I have no news that I can write. Wait till I come home and you can board—I mean live—at the house.

"About the mothers of the poor fellows who left us having to make so many inquiries and being in doubt so long I feel very much grieved. But Cap, I was not there when any of them died and supposed that of course those things were being properly attended to. I was fighting the demon myself at just that time and he pretty nearly floored me.

"My hand is tired, Cap, so I must close with kindest regards and a never ceasing friendship.

"Yours, "Jack."

UNITED STATES COURT.

Judge Severens Took His Seat on the Bench Yesterday Afternoon.

The September term of the United States circuit and district courts for the northern division of the western district began here yesterday with Judge Severens in his accustomed place on the bench. Marshal Wheeler is also here, District Attorney George Covall, and Circuit Court Clerk Fitch, who is here in place of District Court Clerk McQueen, who usually comes up.

A few matters were taken up yesterday afternoon. In the case of Thomas Pellow versus W. D. Res, which was tried at the last terms, the time for settling the bill of exceptions was extended thirty days. The defendant was given till Saturday to move for a new trial.

A motion to throw out of court the case of the city of Menominee against John Larson and others was made and argued.

RETIRING FROM BUSINESS.

\$20,000 TO BE SACRIFICED AT ONCE.

We have had a big rush during the first week of our sale and many of our customers, as well as strangers, have come in and are convinced that we mean business. The prices at which we are selling our goods is all the argument necessary to convince the public that we are positively retiring from business. For this week we would make special mention of our

BOYS' SUITS.

We have about 200 all-wool Black and Blue Chevots, Double Breasted, running from 5 to 15 years, that would be considered Cheap at \$2.50, but we will close them out at \$1.25. Mothers, take notice of this bargain. We still have a full line of

LADIES' CLOAKS, CAPES, JACKETS and SKIRTS

(all this season's goods) that is going at a big sacrifice; also a big line of Blankets, Quilts, Knitting Yarns, Dress Goods and Flannels; also a full line of Men's, Ladies' and Children's Shoes, Clothing, Hats and Caps, Gents' Furnishings, Dry Goods, Notions, Carpets, Floor and Table Oil Cloths, etc., etc.

All of which must be closed out regardless of cost.

It will pay people living in near-by towns to take advantage of this sale, as you will save more than your fare, even by purchasing a small quantity. Come and be convinced that we mean business, and when you see our prices you will know at once how much money you can save by buying your Fall and Winter Goods at this sale, as this will be the greatest slaughter of goods ever offered in the Upper Peninsula.
