AN INVESTIGATION OF WAR DEPARTMENT!

President Decides to Appoint a Commission to Look Into Alger's Management.

GENERALS SCHOFIELD AND GORDON OFFERED PLACES.

Just What the Full Duties of the Tribunal Will Be Is Not Definitely Determined, but a Rigid Inspection of the Camps Is to be Made.

Washington, Sept. 9.—The president has decided to appoint a commission to investigate the war department. General Schofield and ex-Senator Gordon of Georgia have been asked to accept places upon the commission.

It is said a commission for the investigation of the affairs of this department has been under consideration for some time by the president. Just what its duties will be have not been definitely determined, but it can be stated that one reason for its creation will be to visit and report upon the conditions in the various army camps and satisfy the anxious relatives of soldiers that the care that is being taken of them is the best that can be afforded, and if not, to ascertain what should be done and report to the war department.

The officials at the war department say that inspectors and army officers have been sent to make investigations, and where any fault has been discovered it has been corrected. The suggestion is to have a commission, composed of eminent men, whom the people all know, to make a tour of the camps and see what is lacking and say what the real conditions are.

Whether or not the commission is to extend its investigation into the conduct of the war department in relation to other features of the war it cannot just yet be authoritatively announced by the Associated Press.

LARGER TRAINED ARMY NEEDED.

GENERAL MILES SAYS WAR HAS TAUGHT NEED OF A THOROUGH REORGANIZATION OF THE MILITARY BRANCH AND HE WILL RECOMMEND A PLAN.

Washington, Sept. 9.—Major General Miles called on the president this morning. The meeting was confined to a formal exchange of courtesies. The general also called at the war department today and, after spending a short time in the room of the army headquarters, went to the office of the secretary of war. Here Acting Secretary Meiklejohn and General Miles chatted for some time on general topics of the campaign in Porto Rico. Shortly afterwards the general left the department.

Speaking of the future of the army, General Miles said there were a number of matters which required careful and deliberate consideration, with respect to army organization, and that undoubtedly steps in that direction would be taken as soon as practicable. With respect to the reorganization of the army, the general said that the experience of this war had very clearly demonstrated what the military authorities well understood before—that the establishment of a standard was necessary to enforce the efficiency of the army. He said it was his intention to recommend a plan of reorganization to congress, and that he believed the necessity for it would be recognized by the public and congress.

PROPOSES A STANDARD.

The acquisition of territory obviously made it necessary that there be a larger army, and the experience of the war has demonstrated the necessity of establishing a standard and having troops thoroughly trained to the military service. It was desirable, he said, that the army be organized on the basis of one soldier to every certain number of inhabitants. He thought one soldier to every one thousand people probably would be found about right for the standard. There should be a full complement of non-commissioned officers and men, as well as commissioned officers, who were trained to the hardships of military life and who knew how to take care of themselves and look out for their own health and comfort in a campaign.

It was essential that the army be composed of soldiers trained to the profession, commanded by efficient officers in every grade and controlled strictly according to military principles. That military operations should be directed by military men, he said, was too obvious to need be stated.

ALGER AND SHAFER MEET.

HOLD A LONG PRIVATE CONFERENCE AT CAMP MEADE, WHERE THEY ALSO REVIEW TROOPS.

Camp Meade, Middletown, Pa., Sept. 9.—Secretary Alger and General Shaffer were here today. They witnessed a review of the troops and made a hurried tour of the camp, the secretary afterwards resuming his journey to Detroit and General Shaffer going to Washington. The two men were closeted together for an hour in the secretary's private car. What passed between them neither would say, except that it was a private affair.

Later in speaking of the controversy

between himself and General Miles, General Shaffer said: "It is all 'poppycock.' There is no friction between General Miles and myself; our relations have always been pleasant. The general may have been talking, but I believe much of it is due to antagonistic newspapers, whose motives certainly are not patriotic."

SHAFER IN WASHINGTON.

Washington, Sept. 9.—General Shaffer reached Washington tonight and went immediately to the Ebbitt House. He denied himself to all visitors, and will call upon the president tomorrow.

SAGASTA'S REGIME TOTTERING.

PREMIER HIMSELF REALIZES IMMINENCE OF THE CRISIS AND HAS NOTIFIED HIS COLLEAGUES TO BE PREPARED FOR THE FALL.

Madrid, Sept. 8, via Biarritz, France, Sept. 9.—The government's severe measures to prevent reports of the secret sessions of the cortes are nullified by the senators and deputies of the opposition who are eager to inform the foreign correspondents as to what goes on.

Yesterday's session of the chamber ended with Senor Silveira attacking the government and exclaiming, "The Sagasta ministry is a corpse," and "We do not discuss corpses; we bury them." Senor Canalejas, who is the lieutenant of General Polavieja's new party, urged an inquiry into the sources of the charges against the army and navy.

BLANCO APPEALS FOR FUNDS.

The debate has apparently weakened the government. It is reported that at yesterday's cabinet council Premier Sagasta told his colleagues they must be prepared for the fall of the cabinet.

General Blanco has appealed to the government for funds, representing that the situation in Cuba is most distressing. Senor Romero Giron, minister for the colonies, has asked the treasury for a hundred million pesetas. In reply, he received thirty millions. The Bank of Spain nominally holds one billion pesetas of internal 4's, but the sums supplied to the government on this guarantee have already been exhausted.

BITTER ROAST BY CANALEJAS.

Madrid, Sept. 9.—In the chamber of deputies today, Senor Canalejas in a long speech denounced the government collectively and individually, for its conduct during the war and now in the peace negotiations. He produced a sensation by asserting that when Admiral Cervera asked for instructions, the minister for the colonies replied to him: "May God help you." Senor Canalejas accused Premier Sagasta of constituting himself a dictator merely to satisfy his personal ambition; and he attacked General Correa, minister for war, and Captain Anon, minister for the marine, mercilessly for their incapacity. The sitting was then suspended. Senor Canalejas will continue his speech tomorrow.

FILIPINOS DIVIDED.

ABSOLUTE INDEPENDENCE AND AN AMERICAN PROTECTORATE BOTH IN FAVOR.

Manila, Sept. 9.—In conformity with the new regulation, most of the Spanish steamers are taking on American registry. The insurgents continue divided between those who advocate absolute independence and those who favor an American protectorate.

The British cruiser Powerful arrived today and saluted Admiral Dewey. General Otis responded from the Utah battery in the citadel. It was the first salute since the surrender.

MARTIAL LAW IN CANDIA.

FIRES CONTINUE AND ANOTHER BOMBARDMENT IS IMMINENT.

Athens, Sept. 9.—News from Candia late this afternoon is that another bombardment is imminent. The fires continue. Four hundred deaths are already attested. Martial law has been proclaimed.

OCEAN HOUSE IN RUINS.

NEWPORT'S BIG SUMMER HOTEL IS DESTROYED BY FIRE.

Newport, R. I., Sept. 9.—The Ocean House, one of the largest and best known hotels on the Atlantic coast and the center of attraction to visitors in the city for over half a century, burned this afternoon. The loss is over \$100,000.

TELEGRAPHY KNOCKED OUT.

AURORA BOREALIS AFFECTS ALL WIRES WITHIN A RADIUS OF 500 MILES OF CHICAGO.

Chicago, Sept. 9.—The aurora borealis this afternoon brought all telegraphing to a standstill for a time. The area of the disturbance extended five hundred miles or more in all directions from Chicago.

TURKEY FORBIDS IT.

IMMIGRANT JEWS CANNOT LAND IN THE PALESTINE.

Washington, Sept. 9.—The Turkish legation today issued the following statement:

"Entrance into the Palestine is formally prohibited to foreign Israelites, and consequently the Imperial Ottoman authorities have received orders to prevent the landing of immigrant Jews in that province."

DIVORCES HIS GIRL WIFE.

GEN. CASSIUS CLAY IS FREED FROM HIS MARITAL WOES.

Richmond, Ky., Sept. 8.—General Cassius Clay, the sage of Whitehall, has been granted a divorce from his girl wife, Dora Richardson Clay, by Judge Scott of the circuit court. The suit was not contested by the defendant. No reference is made to alimony, as it is understood General Clay has already made ample provision for his wife by the purchase of a large and productive farm near her old home.

APPEAL TO ENGLAND.

WEST INDIAN COLONIAL REPRESENTATIVES ASK AID FROM THE HOME GOVERNMENT IN REMEDIATING INDUSTRIAL CRISIS.

Kingston, Jamaica, Sept. 9.—The conference of West Indian representatives at the island of Barbadoes today passed a resolution formally demanding aid from the British home government, as a matter of right and as being the only available remedy for the industrial crisis; and it also demanded the adoption of measures, either for the exclusion of bounty-free sugar from the English market, or the enforcement of countervailing duties. No ultimatum looking to American annexation was adopted.

DOUBLE CRIME AT DENVER.

OHIO MAN MORTALLY SHOT IN A HOTEL BY A WOMAN WHO TAKES HER OWN LIFE.

Denver, Sept. 9.—W. H. Lawrence of Cleveland, O., was shot and mortally wounded in a room at the Oxford Hotel this afternoon by a woman who was known here as Flora Richardson. The woman then shot herself in the heart, dying almost instantly. The motive for the shooting is not known. Lawrence is a brother of M. J. Lawrence, president of the Ohio Farmer Publishing company, Cleveland, and owns an interest in that paper. The Richardson woman's true name is said to be Florence Montague. She is said to have been a dissolute character.

TERRITORY OF HAWAII.

THAT THE NAME SELECTED FOR OUR NEW PACIFIC POSSESSION—DRAFT OF THE FORM OF GOVERNMENT.

San Francisco, Sept. 9.—The steamer Coptic, from Yokohama and Hong Kong, via Honolulu, brings the following advice from the latter city, under date of Sept. 3:

"The Territory of Hawaii." That is the name which the annexation committee has decided to recommend to congress. The form of government will be modeled on that of the existing territories. Local self-government will be given a thorough extension of the municipal idea. The islands will be divided into municipal districts, having control, under restrictions and limitations, of purely local affairs.

There probably will be a territorial legislature, but with limited powers. All the attributes of sovereignty will be exercised by the national government of the United States. The people of Hawaii will be called on to consider themselves Americans, looking to the national government as the source of national power. In local affairs they will have the opportunity of exercising the highest attributes of American citizenship—local self-government. The committee is trying to conclude its labors by Sept. 20.

THE CONGRESSIONAL MIX-UP.

The outcome of the Republican congressional convention at Ishpeming Thursday is what had been for some time apprehended by those who had watched the campaign for the nomination carefully and had noted the bitterness with which it was conducted toward the close. Two bodies, each of which claims to have been the true convention of the Republican party for the district, were evolved from the representation sent by the counties of the district to participate in the regularly called convention. Each of these nominated a candidate, the first placing in nomination Hon. Carlos D. Sheldon, the present member, and the second naming S. M. Stephenson as its candidate.

There was but one convention called and but one was held. If the convention which nominated Mr. Sheldon was properly organized, its action was binding on the party in the district and will stand. If there was any radical defect in the method of organization which it adopted, the second convention was the true one, and Mr. Stephenson is the Republican nominee for congress in this district. The question is one that will, in all probability, have to be settled by a legal tribunal, hence The Mining Journal does not care to enter on a discussion of it at this time.

The convention was turbulent, but that is not an unusual feature of political gatherings of the kind. In its make-up it was a highly respectable assemblage of the best men of the party in the district. The delegations chosen for both Mr. Sheldon and his competitor for the nomination were, as a rule, composed of men of the highest standing in their several communities. They were men who are thoroughly conversant with the ordinary methods of procedure in party conventions, and they were there to do the best they could for their respective candidates. A convention so constituted, following on the heels of a hot fight over the delegations in nearly all the counties of the district, could not fail to develop considerable heat. That it did is no discredit to the party, or the men who represented it at Ishpeming. But the leaders on both sides should have been able to find a way of composing their differences without resorting to the ridiculous alternative of splitting in twain and making two nominations, thus continuing the contest that has already done so much toward disrupting the party in the district, as well as in some of the counties composing it.

It is well known where The Mining Journal has stood in the contest between Mr. Sheldon and Mr. Stephenson. It stands there yet, as staunchly as ever, and as confident as ever of the soundness of its position. But the case has now got beyond the stage where newspaper discussion can cut any figure in determining the result, while it would add to the bad feeling bred of the contest for control of the convention. This paper will await further developments, therefore, in the confidence that justice will finally prevail, and that the nominee of the true convention at Ishpeming Thursday will have his right to a place on the official ballot as the Republican candidate for congress in this district affirmed by a legal tribunal whose disposal of the matter will be entirely satisfactory to the bulk of the voters of the Republican party, and to the people of the district generally.

"The harmonious proceedings of the convention were interrupted at the start by an organized mob, as the culminating feature of a Democratic conspiracy to subvert the will of the Republican voters of the district, with the sole aim of aiding the election of the Democratic nominee." That is the way the Iron Herald of Negaunee begins its woful tale of what happened in the Republican congressional convention at Ishpeming Thursday. "Organized mob" is good. And what a keen vision the editor of The Herald must have been able to discover a "Democratic conspiracy" behind the work done by such Republicans as Chase S. Osborn of Chippewa county, Gad Smith, Chas. T. Fairbairn, M. M. Duncan, of this county, J. McNaughton of Dickinson, Lieutenant Governor Dunstan, John Duncan, Graham Pope, R. G. Shields, and a score of others of the leading Republicans of Houghton county, who, with dozens of others of the best men in the Republican party from other counties in the district, were at the convention to secure the nomination of Mr. Sheldon. The Herald man evidently prefers a mob that isn't organized to the kind he and his crowd ran against at Ishpeming Thursday. Nor do we blame him. His side found rather more organization

than they relished in the Ishpeming convention.

In the convention which was instrumental in organizing at Ishpeming Thursday for the purpose of getting Sam Stephenson in the field for congress in some manner, H. O. Young complained that he had been made the target for much abuse by The Mining Journal, which he charged with having persistently followed him because of the work he had done on behalf of the Republican party in the county. The Mining Journal cannot recall having paid much attention to Mr. Young. It has mentioned him on several occasions latterly in connection with the campaign that he set up in this county for Mr. Stephenson, and has criticized the methods he employed to force the party in the county into line for Stephenson. But it has not pursued him. It isn't gunning much for that kind of game. Nor has it any ill feeling toward Mr. Young personally. It does not like, nor approve of, his methods as a politician. He is a good lawyer, and we know nothing against him as a citizen, but when he claims to have done great work for the good of the party in the county the best answer to his claim is the condition to which he and his following have brought it by their obstinate endeavor, to take it into the Stephenson camp while the bulk of its voters unquestionably favor the return of Mr. Sheldon to congress.

We take this report on the movement of the ore market from the Cleveland Iron Trade Review of Thursday:
 The week has had its quota of ore sales in Bessemer and non-Bessemer grades. The movement of ore up to Sept. 1 was equal to a month's shipments in advance of 1897, or 2,290,000 to 2,300,000 tons. To Sept. 1, 1897, the total was 7,712,000 tons. Figures for last month from all ports but one, and that estimated on the basis of its shipments in August last year, give a total to Sept. 1 of 9,042,226 tons. A season's total of 14,500,000 tons is indicated. The shipments from the Vermilion range were at a less rate in August than in the early portion of the season, owing to the inadequate supply of miners. The season has developed some disappointments in connection with operations at certain Mesaba properties. Irregularly in these deposits is a feature that must be reckoned with; in the case of some mines calculations as to quantity and quality will need to be revised.

It may appear that it was reserved for the Republicans of this congressional district to turn the supreme court of the state into a political machine. Through their procedure in the dual convention at Ishpeming Thursday they may oblige the court to perform the functions of partisan congressional convention, in determining who shall be the Republican candidate for congress in the district.

So many Democrats are joining the Republican party of late that there is grave danger of having the equilibrium arranged by the old-time bosses disturbed. These plaguey Democrats who have got to be Republicans are more dangerous to the bosses as members of the party than they ever were when they were "forinist" it politically.

Those grand army men at Cincinnati are hardly to blame for having taken it for granted that Governor Pingree was going to roast General Alger in his speech when he mentioned the general's name. It isn't often that the governor alludes to anyone in a speech save to give him a hot turn.

There is a difference between "Our Sam's" George and George the immortal. The living (for though badly punished and much disfigured he is "still in the ring") George didn't do it with his little hatchet, neither does it bother him a bit to tell a whopper.

It is a singular political coincidence that Li-Hung-Chang has been deposed as a political boss in China at the same time that Ho-Young met a similar fate in Marquette county. Condolences between the pair of deposed rulers would appear to be in order.

They do say that Editor Griffey's smile was simply sardonic when he met the hilarious Sheldon men at the Nelson House Thursday, after the trouble was over in the belated convention of which he formed a dismal part.

Sam will keep on until he gets it in the solar plexus. But there is one thing that can be said in his favor. He isn't as free a talker as Corbett.

The "bunco game" didn't work as well in a Republican congressional convention as it did with Governor Pingree.

Truth wears well. People have learned that DeWitt's Little Early Risers are reliable little pills for regulating the bowels, curing constipation and sick headache. They don't gripe. Stafford Drug company.

L'ANSE ITEMS.

Will T. Menge and wife returned this week from Chicago.

Miss Rose Blankenhorn is visiting friends at Hancock for a week.

Mrs. Charles Hebbard is quite seriously ill at her home at Pequaing.

John R. Thomas lost a valuable cow last week, which he thinks was struck by lightning.

A marriage license was issued to Andrew E. Anderson and Laura Anderson, of Skanee, this week.

Peter E. Ruppe and J. Edward Shepard of Calumet visited friends here the early part of this week.

Mrs. Chas. S. Hebbard left for her Philadelphia home on Sunday last, having spent but a short time at Pequaing.

Miss Lizzie McCurdy, who has been visiting Mr. and Mrs. Chas. Smith for the past month, left for her home at Houghton Monday.

Mrs. B. F. Jenkins returned to her home at Chicago Wednesday after a month's visit here with her mother, Mrs. E. L. Mason.

John Pfeifer of Houghton was here and in the adjoining country in search of girls to work in his hotel but he did not fare very well, only securing one.

Joseph Lloyd of Duluth has been reviewing his many old friends here this week, and says he feels as young as he did twenty-seven years ago when he first came to this town.

Eli Mattson was killed last Sunday on the Nester Estate log railway. Some cars got a start on a down grade and collided with other cars and Mattson was squeezed to death between the logs. He leaves a wife and children in Finland.

W. H. Loomis, grand lecturer of the Knights of Pythias will be present at the next meeting of the lodge, on the 14th inst., to meet the officers and members, and inspect the records. The Baraga lodge will visit the L'Anse lodge on that evening; all members are requested to be present.

The Baraga county Democratic convention will be held at Baraga on Wednesday next, to select delegates to the state, senatorial, congressional and legislative conventions, and also to nominate county officers. There are quite a number of candidates for county offices, and a lively time is expected.

Clara Tight, a seventeen-year-old girl, walked into the South Shore depot Thursday just ahead of the 10 o'clock train and was an object of pity; she had on a pair of men's cowhide shoes and no stockings, part of a calico dress, no under clothing, and a 10-cent straw hat. She soon unfolded her tale of woe to the several people there awaiting the train, from which it seems she is an orphan and had been at F. A. Holtzhausen's orphan's home for some time prior to a year ago, when he found her a home with Mr. and Mrs. Fritz Wouscher, who live on a farm about seven miles west of town. The girl says she had to do all kinds of farm work, milk five cows twice a day, work in the hap and potato fields and cut wood, and that she was afraid to refuse doing what they told her lest they would scold and ill treat her, and that they only gave her two calico dresses the past year and not enough other clothes to mention, so she concluded to seek a new home. John Pfeifer asked her if she would like to work in a hotel and she gladly consented to do almost anything, if they would clothe and treat her decently. Being ashamed to take her to Houghton as she was, Mr. Pfeifer gave her money enough to get a new outfit of clothes and a ticket. She was then taken down town and soon fitted out respectably, and left on the evening train feeling very grateful to her new friends. Mr. and Mrs. Wouscher have the reputation of being miserly and unfit to have the care of children, as has been since learned from a boy who lived with them for a year. He could not stand their treatment, and is now living with Andrew Wahl. Rev. Holtzhausen should be a little more careful in securing homes for his orphan charges.

DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

AN OPEN LETTER

On Four Hundred Baltimore Rye from a Prominent Railroad Surgeon.

Office of G. E. Brown, Division Surgeon, Grand Rapids and Indiana R. R., Michigan Central R. R., Duluth, South Shore & Atlantic R. R.

Mackinac City, Mich., July 14, 1898.
 Crown Distilling Co., Cincinnati, Ohio.

Gentlemen—The case of Four Hundred Baltimore Rye whiskey arrived, for which accept my thanks. I have submitted your Four Hundred Baltimore Rye to a thorough test, in cases requiring a stimulant, and find it far superior to anything I have used in practice. It is absolutely pure, being free from all deleterious matter; it is mild and of mellow flavor; does not distress the patient, and is a Perfect Tonic Stimulant. As such I take great pleasure in recommending it to my brothers in practice, as a perfect whisky.

Yours very truly,
 GEORGE E. BROWN, M. D.

It is pure, guaranteed ten years old and of rich mellow flavor. Sold at all first class cafes.

Love that Alters.

"Love is not love that alters when it alteration finds."
 That is one of the sublime lines in all literature. It is the final definition of love by the world's greatest reader of the human mind.—Shakespeare. Nearly all women who truly love, love in this sublime way. Men seldom do.

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for many thousands of women. He has devised a perfect and scientific remedy for women's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for all weaknesses, diseases, disorders, displacements, irregularities, and debilitating drains peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it, and no honest dealer will advise you to accept a substitute that he may make a little larger profit.

"I was afflicted with kidney trouble and I have always had a torpid liver," writes Mrs. E. Crosswhite, of Duffau, Erath Co., Texas. "When I commenced your medicine I was not able to stand on my feet. I used one bottle of Dr. Pierce's Favorite Prescription and five vials of his 'Pleasant Pellets.' I am now well. I had not walked in four months when I commenced the treatment; but in ten days I was able to walk everywhere."

SPANISH OUTRAGE IN PORTO RICO.

Schley's Flag Lieutenant Is Struck by a Brick Hurled in a San Juan Street.

ON HIS WAY TO THE PALACE OF CAPTAIN GENERAL MACIAS.

BORE A NOTE FROM THE AMERICAN EVACUATION COMMISSIONERS.

Message Gave Notice the Conference Must Begin Before Monday and Indicated No Delay on the Part of the Dors Would Be Tolerated.

OUR LATE ENEMY IN NO HURRY.

San Juan de Porto Rico, Sept. 9.—The American evacuation commissioners at a meeting held yesterday afternoon decided to notify Captain General Macias they were present and ready to proceed with business. A communication to this effect was drafted in most courteous terms. It asked where and when the Spanish commissioners would meet the Americans.

Lieutenant Sears, Admiral Schley's flag lieutenant, delivered the communication to the captain general, driving to the palace in a carriage. At the gate of the palace a brick was hurled at him from the sidewalk. Being an old baseball player, he was able, partly, to ward the missile off with his hands, and it fell, striking him on the ankle, but doing only slight injury. This was the first incident of the kind. The lieutenant did not deem it advisable to lodge a complaint, and the police made no arrests.

WILL BROOK NO DELAY.

The American commissioners are determined to brook no delay, as indicated by their action. Although General Macias has recognized their presence by official visits, they have not been notified of the appointment or the names of the Spanish commissioners, and the names of the latter have not been officially gazetted. The thirty days expire Sunday, and if the Spaniards are not prepared to proceed on that date they must explain the matter. The censorship of press dispatches by the Spanish authorities continues.

Fresh outrages are reported in the interior. At Cocos, in the neighborhood of Ciales, a number of brigands recently raided a plantation and the evacuation prior in the leg. A detachment of fifty Spanish soldiers has been dispatched from Arecibo to restore order.

MACIAS COMES TO TIME.

Later—General Macias late tonight sent word to the American military commissioners that the Spanish evacuation commissioners would be ready to meet the Americans at the palace tomorrow (Saturday) morning.

REVIEWED BY M'KINLEY.

FIRST DISTRICT OF COLUMBIA REGIMENT COMES HOME FROM THE WAR.

Washington, Sept. 9.—From the portico of the White House, the president and all the members of his cabinet in the city reviewed the First District of Columbia Volunteers on their return from the war. It was an inspiring sight as the District heroes marched under the portico, receiving salutes from the president, while the dense crowd gave an enthusiastic welcome to the soldiers. The troops presented a soldierly appearance, marching briskly despite the fatigue and exposure they had undergone. About the necks of the officers hung great wreaths of laurel, while from every gun barrel protruded a bouquet.

CHICAGO WELCOMES HEROES.

Chicago, Sept. 9.—Five hundred Illinois

At Santiago—

DR. E. S. TYNER, acting assistant surgeon; yellow fever.

FRANK W. DOUGLASS, civilian; chronic dysentery.

CLIFFORD HOUGHTON, private, Ninth infantry; typhoid fever.

CAMP POLAND, Knoxville, Tenn.—

LIEUTENANT H. D. NASS, adjutant Thirty-first Michigan; Jackson, Mich.

PRIVATE D. WILCOX, Company B, Thirty-first Michigan; Adrian, Mich.

PRIVATE EDWARD W. DUNSON, Second Ohio.

All these died from fever contracted at Chickamauga.

MICHIGAN SICK REMOVED.

Invalid soldiers from Camp Wikoff were taken yesterday to hospitals in New York city as follows:

St. Peter's hospital—John Amolock, Company D, Thirty-fourth Michigan, intermittent fever and rheumatism;

George J. Baker, Company G, Thirty-third Michigan; Charles Haed, Company I, Thirty-third Michigan, typhoid;

Geo. Mirer, Company H, Thirty-third Michigan, malarial; John R. Morrison, Company F, Thirty-fourth Michigan, intermittent fever.

St. Mary's hospital—John R. Bradley, Company I, Thirty-third Michigan, intermittent fever; Elijah Hinebauch, Company H, Thirty-third Michigan, malarial; Rouben G. Levyn, Company B, Thirty-third Michigan, malarial; Ollie Noonan, Company G, Thirty-third Michigan, dysentery.

Fort Wadsworth hospital—Charles G. Kimball, Company G, Thirty-third Michigan.

Naval Reserves arrived in Chicago this afternoon. They were given a most enthusiastic welcome as they marched through the streets, to their quarters on Michigan avenue. They have seen more fighting than any of the men who went from this state to the front, sixty of them being on the Oregon alone, and their welcome was in full keeping with the work they had done. General John McNulta and Mayor Harrison delivered speeches of welcome. At the conclusion of the addresses the boys were given their discharges from the service of the country. Of those who arrived today 373 were from Chicago and the balance from Quincy, Moline, and Alton. About three hundred Illinois Naval Reserves are still in the service.

WISCONSIN DOES HONOR.

Milwaukee, Sept. 9.—Eleven hundred members of the Second Wisconsin regiment arrived in Milwaukee today from Porto Rico on sixty-days furlough. The troops were tendered a reception by thousands who had gathered at the depot. None of the members of the Second are critically ill, though several had to receive careful treatment by trained nurses before they could leave the cars. After the men were fed, special trains were run to the various cities in the state from which the companies comprising the regiment came, and were given receptions at Sheboygan, Oshkosh, Beaver Dam, Green Bay and Marinette. Most of the troops have but little fault to find with their treatment, although they say there were times in Porto Rico when they did not have enough to eat.

Milwaukee, Sept. 10.—The first section of the train bearing the First Wisconsin regiment reached Milwaukee at 2 o'clock this morning and three other sections are due at intervals of an hour apart. The men in the companies from other cities will spend an hour in the city and will be given, with the local soldiers, a square meal and then go direct to their homes.

HEALTH OF SANTIAGO ARMY.

Washington, Sept. 9.—General Lawton's health bulletin for today, received tonight, is as follows: Total sick..... 420 Fever..... 250 New cases of fever..... 28 Returned to duty..... 71 There were three deaths.

SILVER STILL THEIR SLOGAN.

UTAH REPUBLICANS DECLARE FOR FREE COINAGE AT 16 TO 1.

Salt Lake, Sept. 9.—The Republican state convention today nominated Chief Justice Zane for the supreme bench and Alma E. Eldredge for congress. The platform renews fealty to Republican party principles; it congratulates the country and administration on the war policy; approves the Cuban policy; insists on maintaining the Monroe doctrine and expresses the belief that it is consistent with it and safe for the United States to hold for commercial purposes other lands in any part of the world, and believes in protecting our flag wherever it has been successfully raised. The platform demands protection, bimetallism and reciprocity, and says: "Independent of the action of any other nation, we favor the free and unlimited coinage of silver at the ratio of 16 to 1."

NEVADA FOR BRYAN.

Reno, Nev., Sept. 9.—The Silver party convention today adopted resolutions endorsing the platform of the National Silver party adopted at St. Louis in 1896 and the financial plank of the Chicago Democratic platform, and predicts the nomination of Bryan in 1900; it favors holding Cuba, Porto Rico and the Philippines until the American people have time to consider the best policy in regard to their disposition. Francis G. Newlands was nominated for congress and R. Sadler for governor.

FUSION IN WASHINGTON.

Eisburg, Wash., Sept. 9.—The Democrats today nominated James Hamilton Lewis for congress, and the Silver Republican convention renominated Congressman W. C. Jones. After reflecting all night, the Populist state convention decided to concede to the demand of the Democrats and yield them one supreme judge. This removed all obstacles to fusion. The Populists nominated B. F. Heston of Tacoma for supreme judge.

OUT FOR ROOSEVELT.

New York, Sept. 9.—The City club, composed of independents, gave out a statement tonight outlining its fall state ticket, at the head of which it placed the name of Colonel Theodore Roosevelt for governor. The statement recites that the opposition is independent to machine rule and says recent events have shown the evils of partisanship.

LIKELY TO AMALGAMATE.

Colorado Springs, Colo., Sept. 9.—The probabilities tonight seem to point to fusion between the Democrats, Populists and the Teller branch of the Silver Republicans.

CALL UPON COMRADE M'KINLEY FOR PENSION REFORMS.

Obnoxious Rules Laid Down by Last Administration, It is Alleged, Are Still Enforced—Commissioner Evans is Roundly Scored.

GREAT ENCAMPMENT IS ENDED.

Cincinnati, O., Sept. 9.—The work of the thirty-second annual encampment of the Grand Army was happily concluded today. The rule in almost every instance is to adopt the reports as presented, and in this way the pension report went through without objection, although it was modified later to take away any impression that might have arisen that President McKinley was under censure. While the encampment was concluded this afternoon so that the new national board of administration could meet with Commander-in-Chief Sexton for routine initial work, the national councils of the three organizations continued not only all day, but until late tonight. They had much more fighting over the officers than the ex-soldiers. Their afternoon and evening sessions were devoted to a contest over division honors, and in these contests Illinois carried off almost everything.

The department of the Illinois G. A. R. secured the commander-in-chief last evening and also the president of the Woman's Relief Corps. Today that state had "swatched with pride and satisfaction the wise, conservative, unselfish, patriotic and statesmanlike manner in which our honored comrade, William McKinley, as president of the United States, had met every demand upon our country," and also praising the valor of the army and navy. As soon as the demonstration following the adoption of the above resolution had subsided, the following was adopted unanimously, with another demonstration: "Resolved, That from a knowledge formed of our experience, as soldiers during four years of active service, we recognize the unflinching energy and patriotic devotion with which, as secretary of war, General Alger, has borne his weighty responsibilities and performed the important duties suddenly imposed on him by the recent war with Spain in creating and maintaining so large an army under such unfavorable conditions, the deeds of valor and only slight lustre on American soldiers, but also challenge the admiration of the world."

ENTHUSIASTICALLY ENDORSED.

Amid a scene of great enthusiasm a resolution was next adopted declaring that the Grand Army of the Republic had "swatched with pride and satisfaction the wise, conservative, unselfish, patriotic and statesmanlike manner in which our honored comrade, William McKinley, as president of the United States, had met every demand upon our country," and also praising the valor of the army and navy. As soon as the demonstration following the adoption of the above resolution had subsided, the following was adopted unanimously, with another demonstration: "Resolved, That from a knowledge formed of our experience, as soldiers during four years of active service, we recognize the unflinching energy and patriotic devotion with which, as secretary of war, General Alger, has borne his weighty responsibilities and performed the important duties suddenly imposed on him by the recent war with Spain in creating and maintaining so large an army under such unfavorable conditions, the deeds of valor and only slight lustre on American soldiers, but also challenge the admiration of the world."

SHABBY PENSION TREATMENT.

The report of the committee on pensions was presented. In part it is as follows: "A view of the repeated complaints of an unfair construction of the pension laws, and the making and enforcement of rules which are in violation of the laws and inimical to the interest of applicants, it impels this encampment to call upon Comrade McKinley, president of the United States, to exercise his authority and see that the laws are executed in a spirit of fairness, justice and liberality. "Beyond doubt the political campaign of 1896 was largely influenced by the hope of the amelioration of the harsh conditions then obtaining in the pension bureau. This expected amelioration has not taken place; in no substantial instance has one of the harsh rules been abrogated, but every one remains in full force and effect, as under the previous administration. "It seems unnecessary to enlarge upon the fact that the veterans have had the right to expect very different treatment from the present commissioner of pensions than they had received from his predecessor. Hardly a day passes but that somewhere or another in this broad land, a pension arrives only in time to be laid on the coffin of the applicant."

REFORMS ARE SUGGESTED.

The report continues: "Resolved, That the rule of the pension office by which a widow is debarred from a pension if she has an income of \$100 per year is unjust, and we ask the president that the order be abrogated and the minimum income debarment from pensions be fixed at not less than \$200 per annum. In this connection we desire to inform the president that very rarely in his administration it has been announced by a high official of the pension office that the widow's limit would be raised to \$300, but it has never materialized. "Resolved, That we ask for the reestablishment of Order 164, which was enforced under the Harrison regime. This order took cognizance in rating a man's pension on all the disabilities he suffered, and was abrogated by the last administration, and it is held that to be entitled to the lowest rate, \$6 per month, a comrade must have some one disability which is rated at that amount. If he has three disabilities rated at \$4 each, he gets no pension at all. This iniquitous rule is maintained up to the present hour, and we submit that it is not such treatment as we have had the right to expect from Comrade McKinley; and we are confident that when he is once relieved of the weighty matters of national and world-wide importance which now command his attention, he will see justice done."

LAI'D ON THE TABLE.

A proposition from the Department of the Tennessee, to amend the rules so as to make soldiers who had been conscripted

in the rebel army and afterwards served in the Union army and honorably discharged, eligible to membership in the Grand Army, was referred to a special committee of five, with instructions to report to the next encampment. A proposition to make eligible to membership soldiers who had served in the war with Spain was laid on the table.

The national council of administration was appointed, in part, as follows: Michigan, T. E. Samuel and J. Lawrence, Wyandotte. The ceremony of installing the newly elected officers was performed by Comrade Wagner of Pennsylvania. A felicitous speech by Commander-in-Chief Sexton, followed by a vote of thanks to the retiring commander-in-chief, General Gobin, and others concluded the business and the encampment adjourned at 2:30 p. m.

WITH THE AUXILIARIES.

The ladies of the G. A. R. today elected the following officers: President, Mrs. Agnes Winslow, Chicago; senior vice president, Mrs. Cahoon, Elyria, O.; junior vice president, Mrs. Willis, San Francisco; treasurer, Mrs. Tobey, Logansport, Ind.; chaplain, Mrs. Stevens, Newark, N. J.; counsellor, Mrs. Davey, Duluth; council of administration, Mrs. Lincoln, Duluth, and Mrs. Lawrence, Keokuk, Ia. The president will appoint the secretary and other officers.

The Woman's Relief Corps today elected the following additional officers: Secretary, Miss Mattie J. Jamison, Illinois; counsellor, Mrs. Emma P. Wallace, Illinois. Among the resolutions adopted was one thanking Miss Clara Barton, president of the Red Cross society, for her official work in relieving the destitution in Cuba, and thanking the president of the Woman's Relief Corps for establishing an emergency fund for the suffering soldiers during the Spanish war. As the treasury of the G. A. R. was found to be about empty, the ladies of the Woman's Relief Corps made an appropriation of \$2,000 for the benefit of their brothers. Adjourned sine die.

The Daughters of Veterans today elected and installed the following officers: President, Miss Anna Clark, New York; senior vice president, Miss M. Lizzie Kimball, Massachusetts; junior vice president, Miss Lillian Phillips, Illinois; chaplain, Miss Bertha Dicus, Ohio; treasurer, Ada J. Allen, Massachusetts.

NATION'S BUSINESS IS ON THE BOOM.

VOLUME CONTINUES THE LARGEST EVER KNOWN AND, BESIDES, MANY OTHER PROOFS OF PROSPERITY ARE NOTED BY DUN AND BRADSTREET—THE WEEK'S SITUATION REVIEWED.

New York, Sept. 9.—Dun's Review for this week tomorrow will say: "The volume of business is larger than it has ever been. Investors across the water have caught the cue, and their purchases of bonds and stocks have been heavy for several weeks. "Nobody can guess how great the demand for iron and steel products may be a month hence, but the manufacturer has rare good sense to wait for actual orders hoisting the price. So far the advance has been remarkably moderate, the average of all finished products only 3.3 per cent. from the lowest price this year, while pig iron has risen less than 3 per cent."

"The sales of wool have been only 2,283,500 pounds at the three chief markets against 18,109,400 pounds in the same week of last year and 8,812,000 in the same week of 1897. The feeling grows that the prices demanded at the West cannot be maintained, and until wool sells at materially lower prices the manufacturer cannot meet the existing market for goods. The prices for goods do not change, and a considerable number of mills will shortly shut down unless the condition improves. "Wheat has been about 1 cent higher in price for spot, with Western receipts only about half as large as those of last year for the week. No doubt some farmers have learned that it is poor business to hold back for higher prices, and yet many are doing it, and so are making inevitable a more disastrous decline in prices after a time. Atlantic exports for the week have been 3,325,100 bushels, against 4,243,386 in the same week of last year, and Pacific exports were 163,192 bushels, against 718,434 last year. Corn is a shade higher; crop experts have again reduced their estimates of the yield. "The failures for the first week in September have been, in amount of liabilities, \$11,111,592, of which in manufacturing the amount was \$224,602 and in trading \$703,991. The failures for the week have been 164 in the United States, against 215 in the same week of last year, and 16 in Canada, against 35 last year."

WILHELMINA'S LIFE IS ATTEMPTED!

Newly Crowned Queen of the Netherlands Narrowly Escapes an Assassin's Bullet.

ATTACKED BY AN ALLEGED ANARCHIST WHILE DRIVING.

MAN FIRES POINT-BLANK AT THE YOUTHFUL SOVEREIGN.

Leadens Messenger Just Misses the Intended Victim and Wounds the Cheek of the Lady in Waiting Accompanying Her.

WOULD BE MURDERER ARRESTED.

Berlin, Sept. 9.—The Lokal Anzeiger tonight says that a fortnight ago an attempt was made to assassinate Queen Wilhelmina of the Netherlands near Amsterdam, province of Utrecht, on a road between the Castle Soosdyk and Baara. A man emerged from behind a tree and fired a revolver at her majesty. The bullet missed the queen, but ploughed the cheek of a lady in attendance. The would-be assassin was arrested. The article says he is supposed to be an English anarchist.

AMSTERDAM MUCH EXERCISED.

Amsterdam, Sept. 9.—The people here are much exercised over the alleged attempt on the young queen's life, although no confirmation of the affair can be had tonight in official circles. Special precautions will undoubtedly be taken to guard her majesty and preserve the throne to Wilhelmina, both through political reasons and the throngs of affection with bind her to her people. Indeed, it is a matter of great concern with her subjects that Queen Wilhelmina quickly choose a husband. The reason is purely political. In case she should die without an heir the crown, according to the constitution of the Netherlands, would devolve on the septuagenarian grand duchess of Saxe-Weimar-Eisenbach or her descendants. Her husband is Prussian to the core, and as such is regarded as among the main pillars of the German empire. Indeed, none of the petty sovereigns who form the federation known as the German empire predominate influence on the national affairs of Germany than does the grand duke of Saxe-Weimar. It naturally follows that Holland under her would become de facto, if not de jure, part and parcel of the North German empire. At any rate it would be brought within what is known as the sphere of Berlin influence, with all that implies in a military, a political and a commercial sense. WARM WELCOME HOME. The Hague, Sept. 9.—The queen of the Netherlands and her mother on their return here from Amsterdam today were received with the same ceremonial that marked the state entry of the loyal party into Amsterdam. The streets and houses were magnificently decorated, and the cheering was continued throughout the passage of the procession from the railroad station to the palace. Special religious services were held in St. James' church today for the queen. It was a beautiful and impressive ceremony. On entering the church the queen was preceded by four children from the orphan asylum, who strewed flowers across the path of her majesty.

but the mills are heavily oversold. Pig iron remains strong in tone, and the firmness of prices is a feature. Unabated activity is reported in Chicago, and dry goods shipments cannot be made fast enough. Business is active throughout the entire Northwest. Wool sales have again fallen off at Boston; cotton goods are quiet, but steady, and the demand for men's wear wools is not up to expectations. "The wheat shipments for the week, including flour, aggregate 3,100,298 bushels, against 3,687,040 last week and 5,461,506 bushels in this week a year ago. Since July 1, this year, the wheat exports aggregate \$2,493,800 bushels, against 35,311,752 bushels during the same period of 1897. The corn exports for the week aggregate 3,868,869 bushels, against 1,661,700 bushels last week and 4,943,348 bushels in the corresponding week of 1897. Since July 1, this year, the exports of corn aggregate \$8,407,370 bushels, compared with \$9,476,757 last year."

CHICAGO MARKETS. /Chicago, Sept. 9.—Wheat today was more active. The trade was broader than for some time and the feeling stronger. The principal bull factors were higher cables and adverse Russian advices, the yield there being reported very disappointing. Shorts were good buyers and the offerings were readily absorbed. New York reported a good export demand. A report was current, too, that the government report would show a much smaller yield than recent private estimates. The strength in corn also helped. The Liverpool Corn Trade News estimated the world's wheat crop at 320,000,000 bushels greater than last year. Corn was active and strong, on shorts covering and moderate offerings. Predictions of frost in Illinois, Indiana, Missouri and Michigan, the higher wheat and a better cash inquiry were also bull factors, as was the promise that the government report would show a lower condition than last month. Trading in oats was fairly active and strong, in sympathy with other grains and on better buying. The leading grain futures ranged as follows:

Wheat: Dec. 61 1/2 61 3/4 61 1/2 62

Corn: Dec. 30 3/4 30 3/4 30 3/4 30 3/4

Closing Cash Quotations. Wheat, spring; No. 2 red (5c); No. 2 spring, not quoted. Corn, (5c); No. 2, 31 1/2c. Oats, spring; No. 2 white, 20 1/2c. No. 3 white, 22 1/2c. 31c.

METAL PRICES. New York, Sept. 9.—Pig iron, warrants, dull; \$6.80 bid, \$6.95 asked. Lake copper, firm; 12.25c. bid, 12.37 1/2c. asked.

CAPITALIZED AT \$200,000,000. Trenton, N. J., Sept. 9.—Articles of incorporation of the Federal Steel company, with an authorized capital stock of two hundred millions, were filed with the secretary of state today. The company is generally understood to be formed for the purpose of consolidating the Minnesota Iron company and the Illinois Steel company.

BROKE THE TRACK RECORD. Hartford, Sept. 9.—The event of the greatest interest in the Charter Oak Park meeting today was an attempt by Star Pointer to lower the track record of 2:03 1/4, which was successful, the mile being made in 2:00 1/4.

ROYAL BAKING POWDER Absolutely Pure. WALL STREET STOCKS. New York, Sept. 9.—There was further liquidation in the stock market today at an expense to the price of stocks of between \$1 and \$2 per share in a great many cases. The disappointment over the fixing of the St. Paul dividend at only 2 1/2 per cent. continued the prevailing influence, and no attention was paid to favorable developments. The selling evidently was in the nature of speculative profit-taking, and came from an element that has persisted in the confidence that prices were certain of a further advance, based on the supposition that the St. Paul dividend would be increased and awaken general activity and widespread outside interest, as was the case with the increase in the Burlington dividend. There was a brief steadiness at the opening, on steady quotations from London, but the selling pressure of yesterday was quickly renewed and continued throughout the session. The distinctly easier tone in money in the afternoon brought a recovery in prices aside from that due to covering by room traders. The bond market showed the effects of liquidation, though to a less degree than stocks. The total sales were four million dollars. United States 2's advanced 1/2 and new 4's, while 3's, when issued, declined 1/2 in the bid price.

The closing quotations of bonds and leading stocks were as follows:

Table with columns: U.S. new 4s, 127 1/2; U.S. 4s, 111 1/4; Do coup., 112 1/2; U.S. 5s reg., 113 1/2; Do 5s coup., 113 1/2; Pacific 5s of '06, 102 1/2; Sugar, 182 1/2; Cen. Pac., 21 1/2; C. & A. Ton., 150; C. B. & Q., 113 1/2; B. & O., 112 1/2; Lake Shore, 100; Mich. Cen., 100.

COPPER STOCKS. The following are yesterday's Boston stock quotations, furnished by A. B. Turner & Bro., Savings Bank Building, Marquette:

CHICAGO MARKETS. /Chicago, Sept. 9.—Wheat today was more active. The trade was broader than for some time and the feeling stronger. The principal bull factors were higher cables and adverse Russian advices, the yield there being reported very disappointing. Shorts were good buyers and the offerings were readily absorbed. New York reported a good export demand. A report was current, too, that the government report would show a much smaller yield than recent private estimates. The strength in corn also helped. The Liverpool Corn Trade News estimated the world's wheat crop at 320,000,000 bushels greater than last year. Corn was active and strong, on shorts covering and moderate offerings. Predictions of frost in Illinois, Indiana, Missouri and Michigan, the higher wheat and a better cash inquiry were also bull factors, as was the promise that the government report would show a lower condition than last month. Trading in oats was fairly active and strong, in sympathy with other grains and on better buying. The leading grain futures ranged as follows:

Wheat: Dec. 61 1/2 61 3/4 61 1/2 62

Corn: Dec. 30 3/4 30 3/4 30 3/4 30 3/4

A. T. VAN ALSTYN'S OPERA BLOCK DRY GOODS HOUSE, Marquette, Michigan.

The dry goods store of the present day is as different from the dry goods store of former days, as the styles of dress of today and that of twenty-five years ago; or at least, the modern "up-to-date" store is. Marquette City excels in many ways all her rival cities. It is a well-known fact, and admitted by all, that Marquette homes, her buildings, streets, and drives, her well kept lawns, and beautiful surroundings, are the envy of every person of taste and culture.

MARINE MATTERS. Passed the Canal. Sault Ste. Marie, Mich., Sept. 9.—(Special.)—Up—Fryer (whaleback), Newyago, 9:20; Columbus, 11:20; Siemens, Bell, 1:20; Nicol, Colgate, 2:30; Fessenden, 5:30; Burnham, Commerce, Cape Horn, 6:40; Larson, 7:20; North Wind, China, Sacramento, Abyssinia, 8:30; Maritana, 9:30; Gilbert, 10:20; Athabasca, 11; Wetmore, Brunette, 2:20; Victory, Constitution, City of Cleveland, 4:30; Leuty, Botsford, 5:20; Shrigley, Burton, City of Glasgow, 6:30.

Occupying a space of 75 feet frontage, with a suite of rooms on the second floor for a first-class dress-making department, the store building is now being re-modelled and modernized, and when completed it will be the most convenient and the handsomest dry goods store north of Chicago. The fixtures are of oak and glass, of the latest style and pattern, and will equal those to be found in the best stores in our large cities.

VERY CLEVERLY DONE.

THAT IS THE COMMON VERDICT ON THE CAPTURE OF THE CONGRESSIONAL CONVENTION BY THE SHELDEN MEN.

Ever since the congressional convention here Thursday afternoon much has been said about the meanness of the Sheldon delegates in capturing the convention in the manner they did. They have been especially condemned by certain of the Stephenson men, but those who know a thing or two about such affairs simply say, "it was very cleverly done."

The Sheldon delegates had in some manner learned that a majority of the members of the congressional committee, who were Stephenson men, had decided to take the matter of seating the contesting delegates in its own hands, exactly as the county committee had done in the county convention at Negaunee last week, and getting entirely away from the precedent which has prevailed in the conventions held in years past. Then there was only one thing for the Sheldon men to do, and that was to act quickly and put their temporary chairman at the head of the convention before the Stephenson men got their man in the place.

Had they waited for the chairman of the congressional committee to state his position and then abide by his rulings they would have been badly left. They took no chances on that; they had a majority of the uncontested delegates on their side and considered that they were justly entitled to the temporary chairmanship.

It was evident that the action of the Sheldon men in taking the convention in their own hands was a surprise to the Stephenson forces. Had they mistrusted what was about to transpire they would doubtless have acted as prompt to act in the selection of a chairman.

The scene presented when Chase Osborn stepped from the back of the stage and assumed control of the convention as temporary chairman was one that will not soon be forgotten by those who witnessed it. In half a minute or so after Osborn stepped to the front the Stephenson chairman was hoisted up and undertook to exercise authority as presiding officer of the convention.

The Sheldon men went into caucus in the morning and decided on a plan of action. They followed the plan agreed on in the letter. It was a good play for first place, and gave them the advantage of position. Had they spent an hour or two working on the credentials as the men on the opposite side did the squabble that would ensue would doubtless have been more exciting. The credentials were handed in rapidly by the chairman of the different delegations and the committee got over its work in less than half an hour, while it took the Stephenson committee nearly two hours to prepare its report.

It is also argued that the Sheldon men did not show the chairman of the congressional committee very much respect in taking control of the convention away from him before he had read the call and turned the meeting over to the temporary chairman. Very true. But on the other hand the Sheldon men simply say, "What respect was shown the lieutenant governor of Michigan when he got up to present the name of Hon. C. D. Sheldon to the convention. The Stephenson men would not listen to him. He was simply hoisted down by nearly every Stephenson man in the room." In view of this the Stephenson men really have no kick coming, so far as respect to any one goes. The great fight has taught politicians in the district a lesson by which they will be guided to a certain extent in the future. The whole thing seems like a dream to many of them and it will be many months before they will recover from the ill-effects of the contest, which as already been put down as the greatest and most stubborn political fight the upper peninsula has ever seen.

Nearly every man in Ishpeming was ready to talk politics yesterday. Various opinions were exchanged as to which candidate will win out in the supreme court. It is the opinion of many that the one who is turned down there will come up as an independent candidate in the election next November.

Following are the resolutions adopted at the Sheldon convention Thursday: "We, the Republicans of the Twelfth congressional district of Michigan, in convention assembled, do affirm our adherence to the principles laid down in the St. Louis platform of 1896 and heartily congratulate the party on the magnificent victory achieved in the election of Hon. William McKinley to the presidency. His administration has been marked by splendid achievements in every branch of the public service and we are proud of his record as the chief magistrate of the republic. His treatment of all foreign, diplomatic controversies has been statesmanlike and patriotic, and his insistence on the fulfillment of every party pledge has endeared him to the people.

"We congratulate the country on the victories of our armies and navies in the late struggle with Spain; and we emphatically declare that every soldier and sailor who participated in the war is entitled to the deepest and most sincere gratitude of the nation, and equal con-

sideration with the veterans of the civil war.

"We applaud the wise and conservative course which has been followed by Governor Pingree and the other officers of the state administration in the conduct of state affairs, and do most earnestly justify every effort towards equal and honest assessment and taxation of all property, whether it may be individual or corporate property, and believe that there should be an equitable revision in relation thereto.

"We wish thus publicly to testify our appreciation of the unblemished record which that gallant soldier of the civil war, and distinguished citizen of Michigan, has made as secretary of war, General Russell A. Alger, since the beginning of hostilities with Spain. To his conspicuous ability, untiring energy and unswerving patriotism is due largely the brilliancy of the campaign in Cuba and the war and the triumph of our arms. A grateful people will not soon forget his invaluable services.

"The career of our congressman, Hon. Carlos D. Sheldon, fully meets the approval of his constituents. He has been ever vigilant in guarding the interests of his district; he has been faithful to every duty, and has well and ably discharged the obligations of the trust confided to him, and we are confident that his fidelity will be rewarded by his re-election to congress by an overwhelming majority. T. B. Dunstan, E. C. Davidson, Fred Smith, Jas. McNaughton, Chas. Brebner, Committee."

The Stephenson delegates adopted resolutions as follows:

"Resolved, That we, the Republicans of the Twelfth congressional district of Michigan, in convention assembled, hereby reiterate our faith in President McKinley and commend the calm and statesmanlike course pursued by him prior to the declaration of war with Spain and the wise and firm position that he took when war could no longer be averted. Be it further,

"Resolved, We hereby tender our heartfelt thanks to our gallant soldiers and seamen for their grand achievements on land and sea during the recent war, now so happily ended, and congratulate them upon their bravery, which has placed them upon the roll with the heroes of 1812; the heroes of the Mexican war and the heroes of the war of the rebellion from 1861 to 1865.

A. H. Ralph, W. F. Waite, S. S. Nitterauer, Committee."

NEWETT'S HOUSE CAUGHT FIRE.

A BLAZE THAT CAME AS A FINISH TO THE POLITICAL EXCITEMENT THURSDAY NIGHT.

Had it not been for the prompt and efficient work of the Ishpeming fire department George A. Newett and his family would not be occupying their home on the shore of Lake Bancroft today.

Shortly before eight o'clock Thursday evening, when the city proper was full of political excitement, an alarm of fire was sounded and crowds that had congregated on the streets and at the Nelson House to talk politics scattered to see where the fire was. Mr. Newett was at the hotel at the time talking over the political contest with some friends, and never imagining that his home was on fire. He was soon advised, however, that his place was almost at the mercy of the flames, and he lost no time getting home.

The fire started from an overheated flue leading from the grate in the library and extending to the attic. In the upper part of the house the flue came within a foot or two of touching the timber and it appears the wood got so hot that it started the woodwork to burning. When the firemen arrived the house was so full of smoke that it was a difficult task to get at the blaze away up in the attic, almost against the roof. Several of the firemen suffered greatly in reaching the place where the fire was, as the smoke was too much for them. They finally got at the blaze and put it out with very little damage resulting.

The chemicals were used but they did not quite do the work, so a little water had to be thrown on. The damage by water will not amount to more than \$25 or \$30, while the total damage will not aggregate much over \$100. Mr. Newett considers himself very fortunate in getting out as well as he did and he is very thankful to the members of the fire department for the work they did.

THE HEART OF CHICAGO.

Those who like a stirring drama of today should go to the opera house next Thursday evening, when Lincoln J. Carter's great spectacular production, "The Heart of Chicago" will be shown for the first time in this city. Like all of its kind it tells an intense story but only more emphatically and artistically. It has been cleverly conceived and well written. The author has been particularly fortunate in his comedy scenes and has furnished some particularly bright lines to those who are entrusted with the

NEW RESTAURANT.

Mrs. P. W. Griffin, late of Marquette, has opened a restaurant in the old Montreal House on First street, immediately south of the Fire engine house. She has fitted the place up with new furniture; the walls have been repapered and the woodwork painted, and now it presents a very inviting appearance. Until recently Mrs. Griffin conducted the "Coffee House" at Marquette. She is thoroughly familiar with the restaurant business and will be prepared to serve the trade either night or day, it being her intention to keep the restaurant open at all hours.

PRESBYTERIAN CHURCH.

The morning theme at this church tomorrow will be, "While the Children Are About Us: A Sermon for Parents." In the evening the sermon will be especially for young people, and the theme "The Genius of Industry." The regular quartet choir will sing both morning and evening, rendering the following anthems: "Abide With Me," Shelley, and "Babylon" in the morning; at the evening service, "Forever With the Lord," Gounod; "Sometimes I Catch Sweet Glimpses" by Gounod, and "Hark! Hark! My Soul," Shelley. All are cordially invited.

ORE UNDER THE LAKE.

IT IS BELIEVED THAT A LARGE DEPOSIT LIES UNDER TEAL LAKE AND THAT IT WILL YET BE WORKED OUT.

It has been the opinion of mining men here for a long time past that there is a large body of good ore under Teal Lake. As development work progresses at the various properties on the shore of the lake, those who have given the matter attention have become more fully convinced that a deposit will some day be opened up directly under the lake basin which will figure as the better part of the Teal Lake range.

Some of the deposits in the mines near by give strong indications of the ore dipping directly under the lake. Enough has already been done in an exploratory way to satisfy those most directly interested that it will yet be necessary to follow the ore under the lake in working out the deposit.

The question of how the water is to be disposed of will require considerable study. It would not surprise many here if the lake might have to be drained in order to conduct mining operations in the basin successfully. In case the ore is there, and there now seems no doubt of that, the owners of mines will sooner or later go after it. It will be a hard matter to do mining with the present large body of water above the deposit. This might be accomplished successfully if the basin had a foundation of solid rock, but the bottom in many places is quite soft. An attempt to mine the ore without properly guarding against the water would be one that few mining men would contemplate. With such conditions as exist there it would not be safe for men to operate under the water, as a leak in the bottom would some day result in destroying every mine there, as well as placing the lives of the workmen in great danger.

In case pumping the water out is attempted, the city will have to find another place for its supply. This would involve a large expense, as there are not many lakes conveniently located. Some of the lakes on top of the hill toward the Iron Cliffs location would have to be tapped. This could be done, and if it ever comes to that Negaunee will have better water than is at present obtained from Teal Lake. The water in the lakes on these hills is the best that is found anywhere here. Ever since the people of Ishpeming have obtained their supply from hill lakes there have been very few complaints of the quality of the water. While the city got its supply from Lake Angelina there was continuous fault-finding on account of the quality of the water. The work being carried on at the mines surrounding the lake did much to make it impure and undesirable.

Even if the removal of the water in Teal Lake to admit of reaching the ore there is not attempted within the next few years it is evident that the condition of the water will not improve as the mines continue to develop more extensive workings.

It is the belief of nearly all the people here that the question of a new source of water supply will soon demand the attention of the authorities. It is better that the mining companies be permitted to get at the ore than to stop work to save the water. The suspension of operations at those mines would be a hard blow to the town.

George B. Mitchell recently started a diamond drill in operation on the edge of the lake for one of the companies owning land there. The result of the borings will be watched with much interest, as it is thought an extension of one of the big deposits will be found leading directly under the water.

ONLY SIX WERE FIT FOR DUTY.

Speaking of the condition of the members of Company L while in Cuba, Sam Hooper, who arrived home from there Monday, yesterday said that every man had been ill at one time or other. There were six, he said, who were on their feet every day and never failed to answer the roll call. Even these were not always in condition to be up, but they were on hand just the same. Sam was one of the six. He is feeling pretty well, though he is not in condition to go out in the

night air as he used to before he went away. He lost considerable flesh during the campaign at Santiago and has changed considerably in appearance, though he does not regret the pulling down he has had as he thinks he was a little too fleshy before he enlisted.

John McAniff was reported feeling somewhat improved yesterday. The typhoid has developed into malaria, which the doctor claims will not keep the patient in bed as long as typhoid would.

Ed. Piggott has not been out since he returned. He is very weak and intends to stay inside just as long as his physician orders him to remain there.

WILL ORGANIZE TOMORROW.

A number of the Finnish Republican voters of Negaunee will get together tomorrow afternoon at the Finnish Temperance society's hall and organize a Republican club. A number are expected over from Ishpeming to take part in perfecting the organization and place their names on the membership roll.

Those at the head of the movement here are August Kirkkala, Carl Pelto and Peter Auno. These men were the head "push" in the McKinley club two years ago, when they succeeded in getting nearly three hundred names on the membership list in Negaunee. By joining with the Finnish voters at Ishpeming they expect to have a much larger membership this fall.

IN FROM CAMP.

Thomas Fellow and family got in Thursday from a camp some miles south of Ishpeming on the bank of the Escanaba river. They had been out there about a month and during that interval several others from this city and Ishpeming put in many pleasant hours in the immediate vicinity of their camp. Mr. Fellow and family were the last to leave the camp and they returned thoroughly satisfied with their outing. It was one of the pleasantest they have ever had.

A GREAT ENGLISH STATESMAN'S SECRET.

The secret of a celebrated English statesman's long life was his systematic way of eating. Every bite of food was chewed thirty times before swallowing. The result was he naturally enjoyed good food. Most men and women bolt their food, and eat things which were never intended to be eaten. They become costive, have a bad complexion, lose flesh, are irritable and nervous, and the first thing they know they are "played out." It is gratifying to know that Hostetter's Stomach Bitters cures stomach troubles. It is a purely vegetable medicine that has stood the test of many years. It cures cases which seem to be hopeless. Sufferers from any disorder of stomach, liver or bowels should try it.

LOCAL LAUNCHES.

Mr. Billings of Cleveland, who is interested in the Princeton (formerly Swanzy) mine, spent Tuesday looking over the property.

Nicholas Pearce and wife are happy over the advent of a young daughter at their home. The little stranger put in an appearance yesterday morning.

Miss Lillian Fitch of Champion and her friend, Miss May Beauty of South Bend, Ind., returned to Champion yesterday morning after spending a few days in the city, the guests of Miss Gertrude Kruse.

Charles Thoren, Sr., and Frank Anderson have returned from Lake Independence, where they spent the greater part of a week fishing for pike. They got a number of fine fish and enjoyed their outing very much.

John Elliott's painters expect to get through work at the government building in Marquette about the 20th of this month. They have been hustling all the while they have been down there and Mr. Elliott is very well satisfied with the work they have thus far done.

The son of John H. Bartle of California, was reported dangerously ill with typhoid fever at the home of his grandfather, John Bartle, in this city yesterday. The boy's father, who recently came back on a visit, is still in the city, and will remain here until the lad is out of danger.

There was a great deal of political talk indulged in here yesterday. Those who attended the convention at Ishpeming Thursday were very much pleased that they were present. They say they would not have missed it for anything. Some of the younger politicians got many valuable pointers out of the congressional fight.

SIDNAW JOTTINGS.

Frank Muck has rented William Sly's building.

O. Olson, the lumberman, is here on business.

Niel Conroy made Ewen a short visit this week.

When you want a nice cigar smoke the "Sidnaw."

William Sly and family have moved to Negaunee.

Thomas Desboro has purchased a fine team of horses.

Don't miss the grand excursion to Trout Creek tomorrow.

Jacob Muskau is in Chicago buying his fall and winter stock.

Raymond McKay has been on the sick list but is feeling better now.

Three days of steady rain has been vouchsafed the people of Sidnaw.

John Havey has fully recovered and is again punching tickets on the road.

There were ten car loads of nice birds-eye maple shipped from here last week.

The Ferguson hotel has had to turn away guests lately. It is running full.

C. Johnson is here from Oconto making arrangements for his work in the woods.

Thomas Grooms has returned from below and reports his wife feeling much better.

J. J. Jeffery has left town suddenly. No one knows his whereabouts but the

The Horrors of Rheumatism.

A woman's account of torture which lasted three years; of her struggles against the dreadful disease, and the good fortune that crowned her efforts.

Such suffering as rheumatism causes the victims upon whom it fastens itself is almost unendurable.

Sufferers from the worst types of this terrible disease will supply the missing horrors in the following story from real life.

Those who write under milder forms of rheumatism will be able to imagine the feelings of the tortured victim.

The only justification for making public such heart-rending details is the fact that the lesson taught will be helpful to others, pointing the way to renewed life and health to every sufferer from rheumatism.

The story is told by a woman. Her name is Mrs. Caleb Fenly; she lives in St. Paul, Ind.

This is her account: "I am a farmer's wife. I believe my frequent exposure to the weather caused my terrible attack of rheumatism. Damp weather always aggravated it."

"My limbs would begin to swell at the ankle joints.

"This swelling would begin in the night, at times. I would awake in agony.

"Daylight would find my limbs purple in color, swollen to twice their natural size, and so racked with pain I could not bear to touch them.

"My right arm and both legs were so drawn as to be almost useless.

"My skin became dry and yellow.

"At times my limbs would pain as though millions of needles were pricking them.

"Again they would be numb and I

could not feel a needle thrust into my flesh.

"I was confined to the house three years, unable to walk nearly half the time.

"After those three slow years of agony, during which I spent probably \$2,000 for treatment and tried a dozen doctors, I gave up hope of any release from pain, but death."

"I was cured, completely cured, by Dr. Williams' Pink Pills for Pale People. They alone caused my recovery.

"The first dose gave me appetite.

"After the second dose I slept soundly, the first time within a year.

"I sent for a dozen boxes. By the time I had taken the contents of eleven boxes I felt entirely well.

"The doctor said I was cured. He was greatly impressed, and since then he has prescribed Dr. Williams' Pink Pills for Pale People for many of his patients."

Mrs. Fenly, together with her husband, made affidavit to the exact truth of the foregoing account before Notary P. N. Thomas.

The cure of the severest cases of rheumatism by Dr. Williams' Pink Pills for Pale People has occurred in every state in the Union, and its power in ordinary cases is proportionately greater.

These marvelous vegetable pills go directly to the seat of the trouble. They build up a new cellular structure in the diseased parts by eliminating poisonous elements and renewing health-giving chemical forces in the blood.

They are for sale by druggists everywhere; for 50 cents a single box or \$2.50 for half a dozen.

EIGHT RECRUITS HOME.

Last Lot of Volunteers Beginning to Get Back from Their Summer's Tramping.

HAD THEIR HARDSHIPS THOUGH THEY DIDN'T SEE CUBA.

Drank Poor Coffee Out of Old Tin Cans—Carl Peterson Located at Last—Lieut. "Jack" Wilson Will Get Home Next Week.

BEST WILL COME STRAGGLING BACK.

Seven of the Company L recruits on sixty-day furloughs arrived home on the afternoon yesterday. An eighth recruit, a Marquette man, but enlisted with Company F, came also.

The list of the arrivals is: NICK BROWN. HENRY BURKE. JAMES M'COY. JAMES M'PHERSON. ED KLINE. ROBERT YOUNG. DAVID MILLER. NEIS.

The arrival of the recruits was a complete surprise to everybody. It was expected here that they would return in a body, and had they done so they would probably have been met with carriages and given some sort of welcome back to Marquette, but when the eight climbed off the train yesterday there was not a single carriage waiting and only chance friends to extend a hand of greeting.

There is a great difference in the appearance of the recruits who have been kept in this country and the other members of the company who have seen service in Cuba.

While the last are weak and have sickly, yellow complexions, the boys who came back yesterday are rugged and brown and appear none the worse for their summer's camp experience, though they complain of some hardships.

They are loud in their complaints of the treatment they received while making marches under hot suns in Virginia and Pennsylvania. They say that on the very first march they made the thermometer registered 116 degrees in the sun, but they were forced to travel in heavy marching order, each man carrying sixty pounds on his back. Nine men died from the effects of the first day's tramping.

One complaint is that they could drink water only when given special permission to do so, and allege that the officer in charge threatened to have any man shot down who disobeyed this order. They think they were especially hard treated because they had no commissioned officers of their own, regiment with them. They were under command at different times of officers of six different regiments, but never of the Thirty-fourth, or of any Michigan regiment.

Their fare, as they give it, was but little better than that of the soldiers in Cuba. It would not, they say, be set before a dog in Marquette. The coffee they were compelled to drink was wretched stuff and all they had to drink it out of was old oyster and other refuse tin cans. They say their marches and the poor food they received reduced them to little more than skin and bones. The way they account for their present well fed looks is that for three weeks after they arrived at Meadville, Pa., they did nothing but lie around and eat three meals a day, not even answering roll calls.

The rest of them, they say, will keep straggling back from Island Lake a few at a time, but it will be some little time before the last ones are back, because their guns and accoutrements have been left and somebody must stay behind to guard them until they are all accounted for and turned over to the proper authorities.

Carl Peterson's exact whereabouts have been determined at last. Much anxiety was allayed by the following dispatch which his sister, Miss Florence Peterson, received from Miss Robinson:

"Carl in St. Catherine's hospital, Bushwick avenue, Brooklyn; not serious."

Lieutenant "Jack" Wilson is out of the hospital in Boston and has recovered his strength far enough so he is able to travel. He is on his way home and is just now in Chicago, where he has stopped off a few days to rest and visit with his sister. He is expected in Marquette next week.

Several of the Company L boys who returned last week are seriously sick, and most of the others are not able to go about much. All are believed to be sure to recover in time.

The young ladies of the Volunteers' Relief club carried flowers to all of the sick ones yesterday afternoon.

SUDDEN DEATH.

Arthur Delf Drops Dead From Neuralgia of the Heart.

Arthur Delf, a long resident of Marquette, well known and respected, dropped dead yesterday afternoon from neuralgia of the heart.

At the time of the attack the deceased was taking a short outing at the cottage of his son A. E. Delf, up the lake shore. He had an attack about a week ago and had to be taken home from the store. Urged by his son to take a little rest he went up to the cottage Wednesday.

In the afternoon he was out on some rocks near the cottage in company with his daughter-in-law, Mrs. A. E. Delf. Just as he was leaning over to pick up a small stone he was attacked, and fell back to the ground.

Mrs. Delf ran back to the cottage to get some stimulants, but he was dead when she returned. He is thought to have passed away almost instantaneously. His remains were brought in from the cottage last evening.

The deceased was born in 1832. He has resided in Marquette at two different periods; the last time for eighteen consecutive years. He was a member of the Presbyterian church, and also connected with the A. O. U. W. Three sons and a daughter are left to mourn his loss. All reside here save E. W. Delf of Calumet.

The funeral will be held from the house at 230 West Ridge street at 3 o'clock Sunday afternoon.

DYSPEPSIA is the cause of untold suffering. By taking Hood's Sarsaparilla the digestive organs are toned and dyspepsia is cured.

MARQUETTE MINETTES.

A trio of men were discussing a variety of topics on a railroad train the other day.

One of them made mention of the number of lawyers who made their homes and practice here, and remarked:

"I don't see how they all live."

"Humph!" remarked the listener. "It's plain to see you have never been up against them."

"Well, how about the doctors?" suggested the last of the trio, for the second speaker was a physician. "They don't charge anything, I suppose."

"The doctors," answered the M. D., "get theirs in little all over the community, and a doctor has a great many sources of income not depending on sickness at all. There's insurance examinations for one of them, and giving health certificates of all sorts. These come in little at a time, but they figure up quite an item in his income in the course of a year."

This may not be new but it was appropriately called forth.

The first night "The Gay Matinee Girl" showed here a party of attorneys sat down well front in the center of the house. While the jokes were being slowly evolved they fell to discussing the costumes of the feminine portion of the cast.

"Did you ever notice," said one of them, "how much shorter a short skirt makes a woman look?"

"Yes," came the retort, "and did you ever notice how much longer a short skirt makes a man look?"

IT IS JUST AS IMPORTANT

That you enrich and purify your blood in the fall as in the spring. At this time, owing to decaying vegetation, a low water level, and other causes, there are disease germs all about us, and a weak and debilitated system quickly yields to attacks of malaria, fevers, etc. By purifying and enriching your blood with Hood's Sarsaparilla you may build up your system to resist these dangers, as well as coughs, colds, pneumonia and the grip which come with colder weather. To be on the safe side, take Hood's Sarsaparilla now, and always be sure it is Hood's and not something else represented to be "just as good."

AGAINST THE CONTRACTOR

Verdict Rendered Against John C. Larson and His Bondsmen for \$4,511.32.

HE FURNISHED CITY OF MENOMINEE WITH A SEWER SYSTEM.

Monmouth Mining and Manufacturing Company Is the Real Plaintiff—Calendar Out for Approaching Circuit Court Term.

IMPORTANT CASE FINALLY SETTLED.

In the United States court yesterday the city of Menominee, nominal plaintiff, was given a verdict for \$4,511.32, against John C. Larson and his bondsmen.

This is the most important case on the docket for this term of court.

The real plaintiff in the case is the Monmouth Mining & Manufacturing company of Monmouth, Ill., but it brought its suit in the name of the city of Menominee, as the council of that city exacted a bond from Larson, who built a sewer system there under contract, for the protection of laborers and concerns furnishing material. The bond given was for \$40,000.

The Monmouth company furnished the sewer pipe that went into the system. It tried a year ago in this court to collect its bill, but there was a technical defect in the proceedings, so the suit had to be commenced anew.

The amount granted is about \$1,100 less than the sum asked for. The arguments on law points and to the jury consumed all the morning session and a little time in the afternoon. The jury retired at 2:50 and was out about forty minutes.

Only one other case was taken up yesterday. That was the case of Grace Huckel versus the steamer Normandie. The judge held that the steamer was liable for damages, but announced that he would refer the case to a referee to take testimony and determine the amount of damages that should be assessed. The referee will be named later.

Calendars are just out for the approaching term in the circuit court, which convenes next Tuesday.

There are listed thirty-eight cases of all classes. Seven of these are criminal cases. Of the criminal actions the principal ones are an attempted burglary, a larceny and two violations of the game laws.

On the civil docket there are twelve issues of fact to be tried by jury and half as many for trial by court. One issue of law is listed for trial by court. Twelve chancery cases complete the calendar.

By no means all the cases listed are likely to come to trial. Some of them have been carried on the docket for a number of terms.

A number more saloonkeepers were arrested yesterday, bringing the total up to eleven. The saloon keepers have held meetings to decide on their plan of action, though at least part of them have already engaged attorneys for their defense.

SPEAKS UP FOR WHEELER.

Ex-Orderly Sergeant of Co. G Calls Him a Brave Man.

To The Mining Journal—As an ex-member of Co. G, 5th Regt. M. N. G., the undersigned has followed with special interest The Mining Journal's recital of such incidents of the late war as had a bearing upon the personnel of that company.

The charges made against Captain Samuel Wheeler, who was a private in Co. G during the later years of its existence, have had a painful interest, and for the sake of justice I desire to say what I can in refutation of at least one charge, that the field may be more clear for Captain Wheeler and his friends to refute such charges as I cannot, if they are able to do so.

The charge that Captain Wheeler "plugged" for detail as recruiting officer is clearly meant to call into question his personal courage. This may not be the most serious charge against him but from a soldier's standpoint no worse charge than cowardice can be made and the average soldier will feel less keenly a charge against his probity than one that impugns his courage.

It is not necessarily discreditable to Captain Wheeler that he brought to bear such influences as he could command to secure appointments as a recruiting officer. It is not an undesirable detail, is strictly within the line of duty and Captain Wheeler possesses some special qualifications for that service. But this bears lightly on the merits of the case.

The writer was orderly sergeant of Co. G at the time the Fifth regiment was ordered into active service at Ironwood. Samuel Wheeler enlisted as a private just prior to Co's departure from Marquette. It was a part of the duty of the orderly sergeant to detail enlisted men for such routine duty as guard mount and for whatever special service might be ordered by the officer in command of the camp. Private Wheeler repeatedly intreated that, in the event of a requisition for the detail of men upon specially hazardous duty, he be included in the quota from Co. G. He never complained whenever called upon for extra work of any kind, and on two occasions he volunteered to take the place of men who were not strong, notwithstanding the fact that by so doing he was kept forty-eight hours on continuous duty on each occasion.

These facts should be ample refutation of the charges against his courage or industry. They are offered through no sense of obligation to Captain Wheeler but solely in the interest of fairness. I may add that it would please me if the captain should be able to clear himself of the remaining charges.

Very respectfully, Webster Dock.

RETIRING FROM BUSINESS.

\$20,000 TO BE SACRIFICED AT ONCE.

We have had a big rush during the first week of our sale and many of our customers, as well as strangers, have come in and are convinced that we mean business. The prices at which we are selling our goods is all the argument necessary to convince the public that we are positively retiring from business. For this week we would make special mention of our

BOYS' SUITS.

We have about 200 all-wool Black and Blue Cheviots, Double Breasted, running from 5 to 15 years, that would be considered Cheap at \$2.50, but we will close them out at \$1.25. Mothers, take notice of this bargain. We still have a full line of

LADIES' CLOAKS, CAPES, JACKETS and SKIRTS

(all this season's goods) that is going at a big sacrifice; also a big line of

Blankets, Quilts, Knitting Yarns, Dress Goods and Flannels; also a full line of Men's, Ladies' and Children's Shoes, Clothing, Hats and Caps, Gents' Furnishings, Dry Goods, Notions, Carpets, Floor and Table Oil Cloths, etc., etc.

All of which must be closed out regardless of cost.

It will pay people living in near-by towns to take advantage of this sale, as you will save more than your fare, even by purchasing a small quantity. Come and be convinced that we mean business, and when you see our prices you will know at once how much money you can save by buying your Fall and Winter Goods at this sale, as this will be the greatest slaughter of goods ever offered in the Upper Peninsula.
