## ARMY IS TO STAY AS IT NOW STANDS.

Authoritatively Announced No More  
Volunteers Will Be Mustered Out.

DECISION WILL NOT ALTER NO MATTER  
WHAT THE INFLUENCE.

TOTAL OF 96,000 MEN HAVE BEEN  
ORDERED DISCHARGED.

Retention of the Present Large Force, It is  
Stated, Has in View More Than Any  
Other the Situation in the  
Philippines.

DISCIPLINE TO BE MORE SEVERE.

Washington, Sept. 13.—Tremendous pressure is still being brought to bear on the war department to have more troops mustered out. It is announced today, with increased emphasis, that there will be no more troops mustered out. The situation does not admit of any further reduction in the army. An effort is being made to eradicate the amateurish idea of bringing them down to the strictest discipline. The purpose of the outlet, when the muster out began, was to muster out one hundred thousand volunteers. A little over ninety-six thousand are already mustered out, and now it is announced positively there will be no more mustered out, no matter what influence is brought to bear.

The retention of the volunteers now in the service and the efforts to improve the morale of the army has in view the Philippine situation more than Cuba and Porto Rico.

SKEPTICAL OF SUCCESS.

The difficulty experienced in the construction of the proposed commission for an investigation into the conduct of the staff branches of the army during the war has excited some discussion in military circles as to the possibility of the practical failure of an investigation by the commission.

It develops that there is dreaded disapproval among army officers of the proposition to have the conduct of the war department investigated by a civil commission which cannot be clothed with judicial authority. They say it will be impossible for a commission not having power to compel testimony to get at the facts. Most of the officers, they say, will make it a point of honor, as well as a matter of safe interest, to decline to give testimony unless compelled to.

Two of the gentlemen selected by the president to be members of the commission have practically accepted. They are Colonel Sexton and Dr. Gilman. The latter arrived in the city tonight and will see the president tomorrow. Favorable responses are looked for from General Dodge and Dr. Keen, thus insuring four members of the body.

AWAITING CUBAN FROSTS.

Camp Meade, Middleton, Pa., Sept. 13.—The twenty-six thousand troops now at the camp will stay in Pennsylvania until the heavy frosts in Cuba make it safe to send the boys there for garrison duty.

LONG CABINET MEETING.

IMPORTANT WAR PROBLEMS RECEIVE EARNEST DISCUSSION.

Washington, Sept. 13.—The cabinet had a session of two hours and a half today and then took a recess. The situation at Manila was discussed at some length, but the principal business under discussion was the letter of instructions to the members of the commission to settle the terms of peace with Spain.

Senator Davis, a member of the peace commission, arrived in Washington today. This evening he dined with the president at the White House. Commissioner Whitelaw Reid also reached the city late tonight, and Senator Frye is scheduled to arrive tomorrow night. Several members of the cabinet were at the White House tonight in consultation with the president. Secretary Day spent some time there, presumably conferring over the instructions to the peace commissioners, and Secretaries Long and Bliss were also at the mansion.

GOMEZ NO LONGER CHIEF.

RESIGNED BECAUSE OF BACK SEAT GIVEN THE CUBANS.

Santiago de Cuba, Sept. 13.—An uncontradicted report has been received by General Lawton that General Gomez, the insurgent commander-in-chief, has resigned the command of the Cuban army and the resignation has been accepted by the Cuban republican government. It is stated that Gomez objected to the Cuban government being "side-tracked" by the United States.

EIGHT HUNDRED SICK.

Washington, Sept. 13.—The following is General Lawton's health report for today: Total sick, 796; fever, 471; new cases of fever, 73; returned to duty, 207. There was one death—Guy E. Pool, private, Company E, Thirty-third Michigan; typhoid.

PROTECTORATE NOT WANTED.

HAVANA FAVORS EITHER INDEPENDENCE OR ANNEXTION.

Havana, Sept. 13.—The presence of Robert P. Porter, who is in Havana on a special mission to study the financial and economic aspects of the situation, is regarded with suspicion by the party of free Cuba, as indicating the establishment of an American policy of guardianship. Porter is preparing a revision of the Cuban tariff, which will probably be protective of Cuban industries.

Independence and annexation are the chief topics discussed here, and the idea of an American protectorate, with mili-

tary occupation, is nowhere favorably considered. Everywhere it is recognized that the choice is between independence and annexation.

CUBAN ELECTIONS.

Next month, at the headquarters of the central Cuban republic government at Cuitas, representatives of the different corps of the Cuban army will proceed to the presidential election and the definite constitution of the government. There are two distinct tendencies in the Cuban army, one strongly supporting the present government and the other favoring Gomez.

Already four presidential nomination tickets are in the field. On the first are the names of Bartolome Maso for president and Mendez Capote for vice president; on the second, Mendez Capote is for first place and Jose Miguel Gomez for second; on the third, Jose Miguel Gomez and Pedro Betancourt are the names; and on the fourth, Calixto Garcia and Jose Miguel Gomez. General Gomez is still encamped on the Maricao estate, Sana Clara province.

COMMISSION PROCEDURE.

This afternoon the American-Spanish evacuation commissioners decided that for the present they would discuss the more important points to come under consideration by letter, and to only meet in joint session later to discuss the details. Therefore no joint session will be held for some time.

Several well-known Cubans arrived here Saturday by the Mascote, ostensibly as delegates commissioned by the Cuban junta to facilitate the work of disbanding the Cuban troops. There is reliable authority, however, for the statement that they really are commissioned to agitate the question of Cuban independence.

GUNS FOR THE FILIPINOS.

AMERICAN SHIP LANDS MUNITIONS FROM UNITED STATES.

Manila, Sept. 13.—The American bark Abbey, with a cargo of arms and ammunition from the United States, which left Canton ostensibly for Singapore, under heavy bonds, ten days ago, now, it is said, has landed five thousand Krag-Jorgensen rifles and many cartridges in Batanga province for the insurgents. The reports seem impossible, though from good sources.

The indications today are that the insurgents intend to comply peacefully with the American request to leave the suburbs of Manila by Sept. 15.

CRISIS SEEMS PASSED.

London, Sept. 14.—The Manila correspondent of The Times cables:

"A better feeling prevails between the Americans and insurgents, probably induced through the influence of the insurgent leaders assembled at Malolos. Today General Aguinaldo sent an officer to ask permission to move a detachment of troops from London, one of the suburbs of Manila. The request was promptly granted, and a large detachment of insurgents evacuated London this (Tuesday) afternoon, marching through the American lines in the direction of the water works and receiving proper military honors enroute. Both parties seem anxious to avoid a conflict."

GUESS AT MERRITT'S MISSION.

Madrid, Sept. 13.—Advices today from the Philippine islands say that the insurgents would release only a few of their prisoners. They will shortly set free the Spanish civil employes in their hands. General Merritt, it is said here, goes to Paris empowered to ask, in the name of the insurgents, an American protectorate over the whole of the Philippine islands.

REVENUE LAW ATTACKED.

TAX ON BROKERS ALLEGED TO BE UNCONSTITUTIONAL.

Chicago, Sept. 13.—Habeas corpus proceedings were begun in the United States court today by James Nicol, a member of the board of trade, who was fined \$500 last week for violating the new revenue law. The proceedings involve the constitutionality of that section of the revenue law which compels brokers to make a written statement of all sales and contracts. Nicol's attorney contends that it is beyond the power of congress to prohibit the making of contracts in the states. He also averred that the tax imposed is not uniform, and therefore is unconstitutional. He said further that it oats and other products were taxed on the board of trade, these articles should also be taxed on the farm. General Black, United States attorney, replied to the arguments. Judge Showalter took the case under advisement.

GOVERNOR PINGREE ANGERED.

HALF OF THE "CRACK" 35TH REGIMENT FOR DISCHARGE.

Detroit, Sept. 13.—Secretary Alger, accompanied by Governor Pingree, went to Camp Eaton, Island Lake, this afternoon to inspect the Thirty-fifth Michigan. This new regiment, it has been intimated, would be ordered to Porto Rico or Cuba for garrison duty, and now the governor is disappointed and rather angry over the insistence for the regiment's discharge. The regiment is almost wholly composed of unmarried men, who were anxious at first to remain in the service, but recently nearly half of them petitioned for their discharge.

BUT FOUR CASES.

ARMY DOCTORS AT PONCE KEEP THE YELLOW PEST CURBED.

San Juan, Sept. 13.—No new cases of yellow fever are reported from Ponce. The total remains at four cases, including two deaths, both privates of the Nineteenth regular infantry. A board of surgeons is investigating the cases, but has not yet made its report.

The American evacuation commissioners today paid a visit of courtesy to the Spanish commissioners. No session of the commission was held today. The American commissioners are waiting with curiosity for the disclosure of the attitude of the Spaniards tomorrow.

UPPER HOUSE.

ARMY LEADERS ARE AGAIN DRAWN

Count D'Almenas Adds General Linares to the  
List of the Chiefs Whom He Thinks  
Should Be Led to the  
Gallows.

PROCEEDINGS Akin TO THE BULL-RING.

Madrid, Sept. 13.—The chamber of deputies today adopted, as did the senate yesterday, the Hispano-American protocol by 151 votes against forty-eight.

GENERALS UNDER FIRE.

There was another uproarious session of the senate today. Count D'Almenas, referring to his statement of yesterday giving the names of generals he said ought to have sashes tied around their necks, instead of around their waists, said that General Linares also was incompetent and ought to be arraigned.

General Weyler and others loudly protested, and a great tumult ensued, many of the senators standing and shouting and threatening each other. The president of the senate vainly strove to restore order.

When the debate was resumed Senor Gonzales attacked the army. He said it had been worsted, first by the insurgents, and then by the Americans. He blamed General Weyler and the late premier, Canovas del Castillo.

Premier Sagasta, replying, said that neither Castillo nor himself had ruled long enough to change the character of the race, which was the true cause, he claimed, of the disaster to Spain. "We are," the premier said, "an amalgamate country. We are attacked when acting as an honest man would. I have lost my prestige, but it is because I believe the path I am following is best."

VIOLENT SPEECH BY WEYLER.

General Weyler then made a speech of great violence, which provoked such an outburst that the premier had to intervene, and he called upon the general to explain his policy. Weyler replied that he had not threatened the government or institutions, but only those who had attacked the army.

The Duke of Tetuan, former minister for foreign affairs, defended the late Premier Castillo, whereupon Senor Gonzales declared that Castillo had foreseen the loss of Cuba and planned with Sagasta to sign the surrender. The loss of Cuba, Senor Gonzales continued, was just punishment for those who had failed to profit by the doctrine that colonies should not be governed by oppression. The senate then adjourned.

The Republicans, Carlists and bolting Conservatives of the chamber of deputies have issued a manifesto giving their reasons for opposing the government. Its publication has been prohibited.

MURDERED BY A SOLDIER.

SAN FRANCISCO CLERK SHOT  
DOWN IN COLD BLOOD.

San Francisco, Sept. 13.—Walter Rosser, a private of the Tennessee regiment, tonight shot and killed Henry Hildebrandt, an employe of Speckles' market in this city. Rosser was walking up Market street and, seeing some sweetmeats exposed to view, it is alleged, he started to help himself. He was told by Hildebrandt to move on about his business. Rosser, instead of complying, immediately drew a revolver and fired, killing Hildebrandt instantly.

Rosser is now in jail, charged with murder. Friends of Rosser, the murderer, state that he is well connected in the East. A crowd of Tennessee soldiers, members of Rosser's regiment, have assembled around the prison where the murderer is confined, and the wildest threats to attempt to rescue are indulged in. A large force of police has been hurried to the scene, and the authorities do not doubt their ability to maintain order.

CAMP BUT A MEMORY.

LAST OF THE REGIMENTS DEPARTS FROM CHICKAMAUGA.

Chickamauga, Sept. 13.—The volunteer army at Camp Thomas is completely dissolved and scattered, the last regiment—the Ninth New York—leaving this afternoon. Before the Ninth left the park they marched to General Breckinridge's headquarters, where, on behalf of the regiment, Colonel Green expressed acknowledgments to the general for the many courtesies his soldiers had received during his command.

General Breckinridge received orders today to proceed to Knoxville, where he is to remain one day, and then proceed to Lexington, where he will assume command of the corps at that point.

The hospital reports today show thirty-five released on furloughs and one death—Winfield S. Jones, Eighth New York.

SHAFTER FILES HIS REPORT.

200 TYPE WRITTEN PAGES ON THE  
SANTIAGO CAMPAIGN.

Washington, Sept. 13.—General Shafter today submitted to the war department his report on the Santiago campaign, covering not only the battle of Santiago, but the entire progress of the military invasion of Cuba. The report is a voluminous document, covering about two hundred type-written pages. It was stated the report would not be made public at present.

General Shafter left tonight for Camp Wikoff, where he will remain in command.

A CRITICAL TIME

During the Battle of Santiago.

SICK OR WELL, A RUSH NIGHT AND DAY.

The Packers at the Battle of Santiago de Cuba Were All Heroes—Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. Butler, of pack-train No. 3, writing from Santiago de Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was for the indirect saviour of our army, for if there had been no way of getting supplies to the front, there were no roads that a wagon train could use. My comrades and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by the Stafford Drug Company.

STEPHENSONIAN LOGIC.

Sam Stephenson's organ in his home town, the Daily Herald, is still frothily discussing the result of the Republican congressional convention at Ishpeming. In its last number it delivers itself of this sage opinion:

Mr. Hambitzer nominated Chase S. Osborn for temporary chairman, and, as seconded, put the motion himself instead of allowing the chairman of the Republican congressional committee to do it. It was a rotten proceeding on the part of the Sheldensites, and in their hearts they know it. If they had a majority of the uncontested delegates why did they not act like men and do business in a business-like manner? Mr. Stephenson is legally nominated and we believe his name will be placed upon the regular ticket.

Yes, the Shelden men had a majority of the uncontested delegates in the convention, but the Stephenson majority on the congressional committee, headed by Mr. Newett, proposed to nullify that advantage of the Shelden men by usurping the powers of the convention and seating the contesting Stephenson delegations at the outset. This was the dishonest scheme, to unjustly deprive the Shelden men of control of the convention, (which they had fairly won), which was very cleverly defeated by the Shelden men when they organized the convention by the exercise of an undoubted right, after that body had been called to order by the chairman of the congressional committee.

There are ample precedents for their proceeding, furnished by even as high a body as the house of representatives of the American congress, which, on a historic occasion, did just what the convention at Ishpeming did last Thursday, ignoring the officer who called it to order and selecting a speaker on the motion of one of its members, the motion being put by the member who made it and the result being declared by him. The speaker thus elected took his seat and presided over the deliberations of the house during the ensuing sessions of that congress, and there was no question of the legality of his election ever raised in any quarter.

Two of the five members of the congressional committee refused to be a party to the arbitrary proceeding by which the majority of that committee proposed to arrogate to itself the right to declare who were entitled to seats in the convention, when the other three members of the committee disclosed their purpose at the meeting of the committee which was held shortly before the convention met. The two members of the committee who withdrew from the meeting knew that the proposed action of the majority was to be taken in the interest of a faction in the party which was in a minority in the convention, and declined to give it their sanction.

The power to organize itself in its own way resided with the convention, and was properly exercised after the convention had been called to order by the chairman. The Shelden men organized the convention with proper regard for the rules and precedents governing the work of representative bodies, and the subsequent work of the convention was taken up and disposed of in an orderly manner, and with no disturbance save what was created by the noisy and turbulent Stephenson minority.

We regret that the Herald feels so badly over the result of the convention at Ishpeming, but incline to the belief that the outcome of the election will be equally unsatisfactory to that paper. The voters of the Republican party in this district want Mr. Shelden returned to congress, and will know how to make their will effective at the polls.

A CHANGE OF BASE. Robert P. Porter, the tariff statistician, who was sent as a commissioner to Porto Rico to investigate the trade conditions of the islands and its custom laws, has reported to the treasury department that it would be advisable to decrease the duties on goods imported at the ports in possession of the United States at least 50 per cent. Mr. Porter is of the opinion that present duties are entirely too high and will obstruct the revival of business in the island.

That Mr. Porter makes a wise recommendation is obvious. But there is a remarkable phase to this report, in that it shows that his views on the inherent power of tariff duties to promote prosperity have undergone a decided change. The time was when Mr. Porter would have considered it rank neresy for a Republican statesman to question that duties could be too high. Instead of retarding business the high tariffs of Porto Rico he would have held that they failed to effect a beneficial result because they were not high enough, and instead of recommending their reduction would have suggested that they be increased.

OUR OWN PENINSULA.

The Escanaba tug Monarch has been overhauled and repaired on the sectional dock at Escanaba.

The flouring mill at Stephenson is very busy these days grinding wheat for Menominee county farmers. C. B. Marson is head miller.

The Specular and Magnetic are in with coal. The steamer is now unloading at Pickands' dock, while the schooner is lying at the ore dock waiting her turn.

Rapid River citizens remembered the men of the Gladstone fire department, which assisted in extinguishing the recent conflagration, by presenting them each a ten dollar check.

The second annual fair of the Mackinac County Agricultural society will be held in St. Ignace, October 4th and 5th in the Hombach building on State street and on the grounds of Chambers Bros, immediately in the rear of this building.

John Otto, a fireman on the steamer North Land, was buried at Mackinac island on Wednesday. The heat of the stoveholer drove him insane and he died on the trip between Detroit and Mackinac. Two other stokers were prostrated on the same trip, and one of them is likely to die.

Ocean rates have doubled within thirty days and most of the regular steamer room at the seaboard for this month's landing has been chartered. Engagements for next month have been light. Rates from New York to Liverpool are 3 pence and from Boston 2 1/2 pence. The through rate from Chicago to Liverpool on wheat is 18.80 cents per bushel and corn 13 1/2 cents.

Magnus Nelson is the largest strawberry raiser in Michigan, and this year he sold 35,000 quarts. He also has an immense apple crop this year, the yield being 3,000 bushels. Mr. Nelson is a scientific as well as practical farmer, and his farm near Menominee is well worth a visit just now. He has taken first premium for apples at state fairs in years ago, but since then his orchard has improved and he now has one of the finest in Michigan.

The Menominee school board at its session Saturday decided not to build another school house this year, nor lease the old Presbyterian church, as there was some talk of doing, but will endeavor to overcome the inconvenience of overcrowded rooms by holding half-day sessions in the first primary grades. Next year, in all probability a new eight-room building will be erected in the center of the Marinette avenue school lot, which will allow of the entire use of the present building for primary grades.

An excursion was run into Menominee and Marinette Sunday by the Chicago & Northwestern railroad from Iron Mountain and all points south of there. About two hundred took advantage of the cheap rates and spent a very pleasant day in the twin cities. Most of them spent the day at Lakeside or Riverside. At the former place the Scandinavian Marine band discoursed music during the afternoon. A great many boys of Company E of Iron Mountain came down and spent the day with some of Menominee's soldiers whom they met at Santiago.

When the massive freight carrier Troy steams away from the upper dock of the Detroit Drydock Co., early this week, perhaps on Wednesday afternoon, she will represent an investment to her owners, the Western Transit Co., of \$225,000. The Troy was launched in a most successful manner at Wyandotte on July 20, and soon afterward was towed to the foot of Orleans street, where a great army of workmen have been ever since in fitting her out. The Troy is built on shapely lines for a package freighter, which, together with a bright coat of paint, sets her off in an excellent manner. She is 402 1/2 feet over all, has a 42 1/2 foot beam and has a molded depth of 28 feet. Her engines are the finest money could procure, being of the quadruple expansion type. They will work 210 pounds of steam. The new boat will carry 5,350 net tons of freight, exclusive of her heavy cargo of fuel. Her designers expect her to run at a 13-mile clip.

The ridiculous is always bound to creep in as the alloy of the sublime. The most sacred battle-cry has been juggled upon the lips of the down until the most ardent partisan in the field has been forced against his own motion to grin. It was only a repetition of this truism occurring during the fervor of the Stephenson-Shelden campaign in Crystal Falls the other day that again evidenced the weakness of human clay. During the canvass in Crystal Falls the adherents of Mr. Stephenson very justly and generously remembered the charity of Mr. Stephenson which was so ample during the trying days of Democracy and soup houses. Sam's carloads of flour were the subjects of free and forceful mention. A fellow about town who is more famous as an inventor than as an adept at wrestling with the proposition of human toll heard the battle-cry and it appealed to his tender and poetic nature. He caught up the slogan, and revised into his own words, this is about the way it sounded: "Urgh for our Sam; 'ee's the mon that gives us the flour! The other bloomin' feller makes us work for our flour! 'Urgh for our Sam!"—Crystal Falls Diamond Drill.

DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. ENTERTAINED STATE DEPUTY.

Members of the local Pythian society entertained Deputy Grand Chancellor Loomis of Michigan here yesterday. The deputy is making a tour of the state, giving lectures to the different lodges on the work of the order.

Last night a meeting of the local branch was held. Nearly all the members of the Negaunee order were also present, they having untied with the local organization in extending a greeting to the chancellor. The meeting was a very pleasant one and all those who came out enjoyed themselves very much.

ISHPEMING IN BRIEF.

Mrs. Joseph Andrews of Ironwood is in the city visiting relatives.

Mrs. Cleo Melleur of Ontonagon is in the city visiting her sister, Mrs. Albert Plouffe.

Mr. and Mrs. John A. Olson have returned from a visit to relatives and friends in Minneapolis.

There was a card party at the headquarters of the Country club last evening. A majority of the members were present and all enjoyed themselves very much.

John Blumberg, the furrier and tailor, will soon move from his present stand on First street to the Robbins block on Main street. The place is now being put in trim for him.

Miss Grant, the milliner, who was here last season, has returned to the city, after taking in the openings at the leading millinery establishments in Milwaukee and Chicago.

Children taking in the excursion to Pictured Rocks on the steamer Christopher Columbus next Friday will be charged twenty-five cents. This price will prevail on both afternoon and evening excursions.

Sats Zaroni, who was here last winter with the repertoire company under the management of Harry L. Pugh, arrived in the city yesterday. He does his juggling act on the street now and will likely give an exhibition here this evening if the weather is favorable.

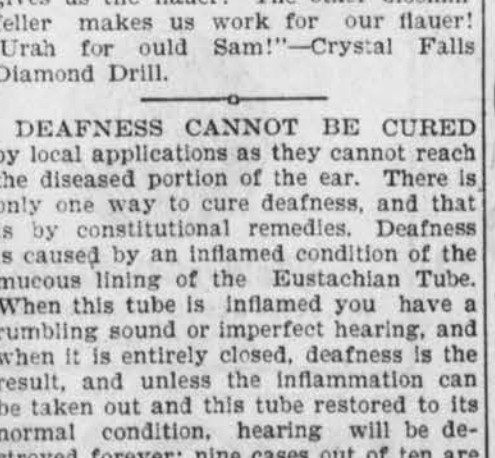

DISCOVERED BY A WOMAN.—Another great discovery has been made, and that too, by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. Additional Ishpeming

ENROLLMENT IS LARGE.

The total enrollment at the public schools of Ishpeming up to Friday evening was 2,500, or about two hundred more than were enrolled during the first week last year. More children came in yesterday and it is thought that the number will be increased every day from now on until the close of this month at least.

There are three rooms more in use than there were last year. One of the kindergartens has been moved to the basement of Cavalry Baptist church. The room is very desirable and the children will be as well off there as in any room in the large buildings. The place is being connected with the sewerage system and it will also be improved in other ways.

ENTERTAINED STATE DEPUTY.

Members of the local Pythian society entertained Deputy Grand Chancellor Loomis of Michigan here yesterday. The deputy is making a tour of the state, giving lectures to the different lodges on the work of the order.

Last night a meeting of the local branch was held. Nearly all the members of the Negaunee order were also present, they having untied with the local organization in extending a greeting to the chancellor. The meeting was a very pleasant one and all those who came out enjoyed themselves very much.

ISHPEMING IN BRIEF.

Mrs. Joseph Andrews of Ironwood is in the city visiting relatives.

Mrs. Cleo Melleur of Ontonagon is in the city visiting her sister, Mrs. Albert Plouffe.

Mr. and Mrs. John A. Olson have returned from a visit to relatives and friends in Minneapolis.

There was a card party at the headquarters of the Country club last evening. A majority of the members were present and all enjoyed themselves very much.

John Blumberg, the furrier and tailor, will soon move from his present stand on First street to the Robbins block on Main street. The place is now being put in trim for him.

Miss Grant, the milliner, who was here last season, has returned to the city, after taking in the openings at the leading millinery establishments in Milwaukee and Chicago.

Children taking in the excursion to Pictured Rocks on the steamer Christopher Columbus next Friday will be charged twenty-five cents. This price will prevail on both afternoon and evening excursions.

Sats Zaroni, who was here last winter with the repertoire company under the management of Harry L. Pugh, arrived in the city yesterday. He does his juggling act on the street now and will likely give an exhibition here this evening if the weather is favorable.

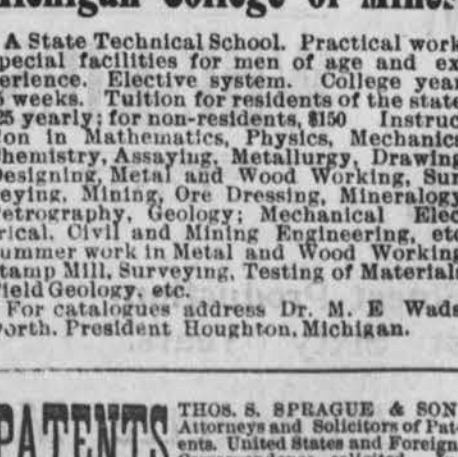

DISCOVERED BY A WOMAN.—Another great discovery has been made, and that too, by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. BRITISH ADMIRAL PRESENTS ULTIMATUM.

Turkish Military Governor of Crete Given Forty-Eight Hours to Come to Time.

MUST DISARM HIS TROOPS AND TURN OVER FORTIFICATIONS.

SURRENDER OF LEADERS OF OUTBREAK LIKEWISE DEMANDED.

Formal Notice Also Given the Porte by the United States That American Property Destroyed in Armenia Must Be Paid For.

BODY BLOWS FOR THE SICK MAN. Candia, Sept. 13.—Admiral Noel, commander of the British naval forces in Cretan waters, today issued an ultimatum to Edhem Pasha, Turkish military governor of Crete, demanding that within forty-eight hours he should deliver up the ring-leaders of the recent outbreak and massacre, surrender the fort and ramparts defending the town and disarm the Mussulman troops.

AMERICAN ULTIMATUM, TOO. Constantinople, Sept. 13.—The United States, it is announced, has replied to the recent note of Turkey, declining to accept Turkey's repudiation of the responsibility for the American losses during the Armenian trouble.

JAPAN-CHINA ALLIANCE. SIGNIFICANT VISIT OF THE MIKADO'S PREMIER TO PEKIN.

Pekin, Sept. 13.—The Marquis Ito has arrived at Tien-Tsin and is expected shortly. His visit is regarded as likely to result in an offensive and defensive alliance between Japan and China.

POISONING SUSPECTED. KING AND CROWN PRINCE OF COREA TAKEN SUDDENLY ILL.

Yokohama, Sept. 13.—Reports from Seoul report that the king of Corea and the crown prince were suddenly taken ill after dinner on Sunday last. Poisoning is suspected. Both are improving. Eleven courtiers have been arrested.

CHINA'S REBELLION SPREADING. LITERARY MEN OPPOSED TO THE DYNASTY ARE JOINING.

Hong Kong, Sept. 13.—A revolution in central China seems unavoidable. The rebellion in Hainan and the province of Kwang-Si is being joined by thousands of the literati, who are bitterly opposed to the Manchu dynasty.

FAURE SAID TO OBJECT. NO REVISION OF THE DREYFUS CASE WHILE HE IS PRESIDENT.

Paris, Sept. 13.—Among the rumors in circulation tonight regarding the Dreyfus case is one that an arrest still more sensational than any yet will be made. Another report says that General Zurlinden, at the last moment, begged to be excused from accompanying President Faure to the army manoeuvres. A newspaper assertion that M. Faure is supporting General Zurlinden in opposing revision has given rise to a notion that there will be no revision while M. Faure is president. Two of the leading Paris journals assert tonight that President Faure, rather than allow a revision of the case, will resign and seek re-election by the national assembly convened to elect his successor.

WROTH AGAINST ITALIANS. MURDER OF EMPRESS LEADS TO OUTBREAKS IN AUSTRIA.

London, Sept. 13.—Vienna special dispatches today state that the entire Austrian empire is infuriated against Italians on account of the assassination of the Empress Elizabeth, and violent anti-Italian demonstrations have occurred.

MAY BE TRIED IN AUSTRIA. Geneva, Switzerland, Sept. 13.—It is asserted that Luochon, the assassin of Empress Elizabeth, being a foreigner, may be extradited to Austria.

On the arrival here today of the representatives of the Austrian court they were conducted to the death chamber and viewed the remains of the empress. The ladies of the party particularly were affected. After prayers, the coffin was finally closed in the presence of the authorities.

MANY SUSPECTS ARRESTED. THREE WHALING SHIPS LOST. CUTTER BEAR COMES FROM THE ARCTIC WITH THE CREWS.

Neah Bay, Wash., Sept. 13.—The revenue cutter Bear touched here today on her way down the coast. She has on board Lieutenants Jarvis and Bertoll and Dr. Call, composing the relief party, and ninety-one members of the crews of the whaling vessels wrecked in the Arctic. Only three out of eight ice-bound vessels were lost.

THREE INSTANTLY KILLED. CARRYALL STRUCK BY A TRAIN AT WICHITA, KAS.

Wichita, Sept. 13.—Mrs. Sarah Avery and Mrs. W. H. Ford of Wichita and John Cherry of Malvane were killed outright and several others badly injured here tonight when a Rock Island passenger train struck a carryall at the Douglas avenue crossing. There were thirteen persons in the vehicle.

OLD TIME TELEGRAPHERS. Omaha, Sept. 13.—The Old-Time Telegraphers' association convened here this morning. The next annual meeting will be held at Boston. The following officers were elected: Thomas Roche, Boston, president; John Brant, New York, secretary-treasurer.

WILHELMINA NOT SHOT AT. Amsterdam, Sept. 13.—It is semi-officially announced that the reports of the attempted assassination of Queen Wilhelmina and the shooting of the Countess of Limburg-Stirum are entirely without foundation.

BRINGS MICHIGAN SOLDIERS.

TRANSPORT ARRIVES AT CAMP WIKOFF FROM SIBONEY, CUBA.

Camp Wikoff, Sept. 13.—There were 660 men in the general hospital today. Five deaths were reported, all regulars. The transport Villigana arrived today from Siboney, Cuba. She brings 240 soldiers and twenty horses. The men are about evenly divided between regulars and volunteers. Most of the volunteers are members of the First Illinois, Second Ohio and Thirty-third and Thirty-fourth Michigan. The following died on the voyage from Cuba: Harvey Blinn, Twenty-first infantry; Private Hesser, First Illinois; and Private McGuire, Second Ohio.

ARRIVE FROM PORTO RICO. New York, Sept. 13.—The Sixth Illinois, from Porto Rico, enroute for home, disembarked from the Manitoba at Weehawken this afternoon. The men are in good shape, and very few are sick. They left at intervals over the West Shore up to midnight.

The Twentieth United States infantry, from Camp Wikoff, left tonight for Leavenworth.

DEATHS FROM TYPHOID. New York, Sept. 13.—Herman Reiner, colored, of the Twenty-fourth infantry, and John B. Clarke, Seventh infantry, who were removed from Camp Wikoff to Fort Wadsworth, died today from typhoid fever. Most of the sixty-seven sick soldiers taken to Fort Wadsworth at the same time are in critical condition, only eight of them being out of danger.

PARADE MAY STAND. Washington, Sept. 13.—General Miles said today that dispatches were being exchanged with New York concerning the proposed parade of troops there. Although he feared the parade was off, yet efforts were still under way to bring it about.

HORRIBLE CRIME REVEALED. MISSING PARTS OF MURDERED YOUNG WOMAN'S BODY FOUND.

Bridgeport, Conn., Sept. 13.—All the parts of the dismembered body of the young woman who was mysteriously murdered, mutilated and cast into the Yellow Mill river, have been found. The trunk was discovered today, the upper half, with the arms attached, in one package, and the lower part of the body in another. The abdominal part was swathed in a white rubber sheet, such as used in surgical operating rooms. This, together with the plain evidence that the body was severed, like the legs and head, by using a keen knife and a perfect edge saw, leads the police to the conviction that the mutilation and, presumably, the murder was done by a surgeon. Other evidence suggests the young woman was the victim of a criminal operation at the hands of a physician. A piece of muslin found in the woman's mouth seems to indicate that she was gagged and perhaps smothered. The woman may have been poisoned, say physicians who have noted the color of her eyes.

EAST AGAINST THE WEST. POLITICS ABSORBING ATTENTION OF THE SONS OF VETERANS.

Omaha, Sept. 13.—The politics of the order seem to be engrossing the attention of the encampment of the Sons of Veterans. A state has been formed which practically arrays the East against the West. If the West receives the office of commander-in-chief, Colonel Frank Shepard of Illinois will probably be elected, although Oberdorff of New York has not retired from the race. The West is expected to allow Cincinnati to be selected for the next encampment and General Bolton as quartermaster general. Both propositions will be hotly contested, for Denver is after the location and Kansas has a strong candidate for quartermaster general in the person of C. Borin of Oberlin.

ALLEGED FIRE-BUG JAILED. \$2,400,000 THE LOSS SUSTAINED AT NEW WESTMINSTER.

New Westminster, B. C., Sept. 13.—It is generally believed that Sunday's fire was of incendiary origin. The police have arrested Jack Shepard, a farmer, who had stated he knew the fire would happen. Shepard is considered mentally unbalanced. He was recently in jail for a trivial offense and when released swore to "blow" the town. It is now estimated that the property loss is greater than first announced. Mayor Owens and a commission have gone over the burned district, and estimate the loss at \$2,400,000. The insurance aggregates \$1,500,000.

THREE INSTANTLY KILLED. CARRYALL STRUCK BY A TRAIN AT WICHITA, KAS.

Wichita, Sept. 13.—Mrs. Sarah Avery and Mrs. W. H. Ford of Wichita and John Cherry of Malvane were killed outright and several others badly injured here tonight when a Rock Island passenger train struck a carryall at the Douglas avenue crossing. There were thirteen persons in the vehicle.

OLD TIME TELEGRAPHERS. Omaha, Sept. 13.—The Old-Time Telegraphers' association convened here this morning. The next annual meeting will be held at Boston. The following officers were elected: Thomas Roche, Boston, president; John Brant, New York, secretary-treasurer.

GOOD WEATHER FOR GOLF. Morristown, N. J., Sept. 13.—The second day's play for the golf championship was resumed today. The weather was fine.

SILVER VERSUS GOLD.

FINANCIAL STUDENTS EXPOUND FAVORITE THEORIES AT OMAHA.

Omaha, Sept. 13.—A very distinguished gathering of financial students opened a three-days' session here today. Well-known exponents of the silver and anti-silver theories are present. Hon. J. Sterling Morton read a paper by Edward Atkinson of Boston in defense of the gold standard, and Horace White of New York followed with a paper on "The History of the Gold Standard." H. F. Bartine, national bimetalist, replied to Mr. White.

PAPER MEN GROW ANXIOUS. The afternoon session developed into almost a mouth-to-mouth contest between the gold and silver sides, with the middle-of-the-road editors of the Reform Press association strongly in evidence for their favorite theory of irredeemable paper currency. The flatists are most impatient to be heard and can hardly wait until Thursday, which is their day for the advocacy of paper money, and their interruptions were fast and numerous.

The first speaker was H. P. Robinson of Chicago, editor of the Railway Age. His subject was, "The Interest of Railway Men in the Gold Standard." He strongly contended for the necessity of maintaining national honor by paying off the obligations of the country in as good money as they were contracted in. Louis R. Enrich of Colorado followed and then Governor Leslie M. Shaw of Iowa made a brief address, which went deep into the subject from a producer's point of view.

WHY HE IS FOR GOLD. "I am a gold monometallist," he said, "because the whole world is agreed upon the gold standard; and the law of commercial convenience, which no act of parliament of congress can repeal, governs the whole matter. The only logical argument I can see for silver coinage is that it would reduce the wages practically one-half, and thus enable us to compete with foreign nations; but I would rather have an American market than that. If India was compelled to go absolutely upon a gold basis, she could not successfully compete with us in the Liverpool market with her cereals."

CONTRIVERSY OVER WAGES. General A. J. Warner of Ohio, president of the American Bimetallic union, contended that the gold standard had appreciated the dollar and correspondingly caused a general fall in prices, doubling the debts of the country.

Congressman Fowler of New Jersey replied to General Warner and admitted that the wages had both increased numerically since 1849, and in purchasing power, under the gold standard.

Congressman Towne will open in behalf of silver tomorrow.

INSURANCE MEN CONVENE. FIFTEEN STATES REPRESENTED AT THE MILWAUKEE MEETING.

Milwaukee, Sept. 13.—The National Insurance Commissioners' association began its twenty-ninth annual convention this morning at the Hotel Pfister. Fifteen states are represented by commissioners or others of insurance departments, forty-five delegates answering the roll call.

President S. W. Carr, in an address today, strongly favored placing the departments under civil service principles. The expense of all examinations of companies, except the examination made when a company first applies for admission to a state, he thought, should be borne by the state out of the insurance revenues of the state. Attorney General Myler of Wisconsin read a paper on "The Inconsistencies of Fire Insurance Legislation."

The afternoon session was taken up by Manager R. F. Beddall of the Royal Insurance company, whose paper treated on the legislative enactments of the several states and countries of the world and the taxes imposed upon the companies, showing the United States to be much the most severe in laws and most excessive in taxation.

At the evening session the first paper was by John A. McCall, president of the New York Life Insurance company. His address was an exhaustive review of life insurance from the first convention of the state insurance commissioners. Mr. McCall's history of the rise of industrial insurance showed the tremendous growth of the business and the great benefit it was to the industrial classes.

NEW JAPANESE TARIFFS. Washington, Sept. 13.—A telegram was received today at the Japanese legation to the effect that on the 10th inst. the government of Japan had proclaimed a new Japanese statutory tariff, and that it, as well as English, German, French and Austrian-Hungarian convention tariffs, would be put into operation the first of the coming January. This step marks the inauguration by the Japanese of new treaty relations with the western powers.

TALKED TO THE FIREMEN. Toronto, Sept. 13.—At today's session of the Brotherhood of Locomotive Firemen, E. E. Clark of Cedar Rapids, Ia., grand chief of the Order of Conductors; P. H. Morrissey of Peoria, Ill., master of the Railroad Trainmen; P. V. Powell of Peoria, grand chief of the Railroad Telegraphers, and L. S. Coffin, president of the Disabled Railway Employers' Home at Island Park, made speeches eulogistic of the order and advocating measures for its expansion.

MINERS TO CHIP IN. Indianapolis, Sept. 13.—The national executive board of the United Mine Workers today voted \$1,000 to the Third Pool (Pittsburg district) strike and retained President Ratford. Action sympathetic with the Pana (Illinois) strikers was taken. A circular letter will be sent in a few days to all local unions, asking for aid for the Pittsburg and Pana strikers.

THREE MORE PLACES ON MICHIGAN TICKET.

Attorney General Maynard Upsets a Practice in Vogue in This State for Years.

AFFECTS APPOINTEES TO OFFICE TO FILL OUT UNEXPIRED TERMS.

DECIDES THEY CANNOT HOLD OVER AFTER NOVEMBER ELECTIONS.

Successors Must Be Chosen for Two Regents of the University and for One Member of the Board of Education.

Lansing, Mich., Sept. 13.—Attorney General Maynard, in an opinion rendered tonight, decides that appointments made by the governor to fill the unexpired term of elective offices cannot hold beyond the next ensuing general election, and thus upsets both the theory and practice that have been in vogue in Michigan for years. E. Finley Johnson of Ann Arbor, a member of the state board of education, and two regents of the university—George A. Farr of Grand Haven and Colonel H. S. Dean of Ann Arbor—according to this opinion, cannot hold their offices after the November election unless re-elected. This will make three more state offices to be voted for at the next election. Governor Pinckney has ordered the secretary of state to place the names of the candidates for these offices on the official ballots.

ASK FORECLOSURE. Denver, Sept. 13.—A decree for the foreclosure and sale of the entire Union Pacific-Denver & Gulf railroad system, from Texas to Wyoming, was entered in the United States circuit court today. The action is brought by the American Loan & Trust company, the Mercantile Trust company and the Central Trust company of New York on the behalf of the holders of over fifteen millions of bonds.

PASSENGER RATES GOING UP. Chicago, Sept. 13.—The last obstacle to the full restoration of passenger rates in the Western territory was removed today by the Canadian Pacific announcing that it would advance its basing rate between Chicago and St. Paul to \$11. It had previously stated it would use the reduced \$8 rate as its basing rate.

KILLED IN THE ALPS. Berlin, Sept. 13.—Norman Neureda, an artist and well known as an Alpine climber, while descending Schmidkamin, in the Alps, Sunday, was struck on the head by a falling stone and killed.

REVOLT THREATENS PERU. Lima, Peru, Sept. 13.—It is rumored that the promoters of the present agitation in various quarters of Peru have obtained assistance in money and arms from Argentine and Ecuador.

SWEPT OVER THE FALLS. Buffalo, Sept. 13.—Peter Schamm, a brewer from Philadelphia, jumped from the Goat Island bridge at Niagara Falls this morning. His body was swept over the American falls.

TODAY'S WEATHER. Washington, Sept. 13.—The following is the weather forecast for tomorrow for Upper Michigan: Rain; fresh to brisk variable winds.

NAMED FOR GOVERNOR. Concord, N. H., Sept. 13.—The Republican state convention today nominated Hon. Frank W. Rollins for governor.

BASEBALL SCORES. National League—Runs.Hits.Errors.

GAMES TRANSFERRED. St. Joseph, Mo., Sept. 13.—The last series of the Western league ball games, to have been played here between St. Joseph and Milwaukee on Sept. 13, 19 and 20, will be transferred to Milwaukee. The season will close here Sept. 17 with Indianapolis.

CHICAGO MARKETS.

Chicago, Sept. 13.—The business in the wheat pit today was of large volume, and stronger early, but the extreme figures were not maintained. The principal bull influences were an advance at Liverpool and the strength in the Northwest, notwithstanding the liberal arrivals in that section. Cash at Duluth was up 1/2 cents, and at Minneapolis 1/4. New York wired that acceptances were liberal and reported continental raising of bids for September loading, and later placed the business at ninety loads. Foreigners were buyers of futures at the seaboard, and New York and St. Louis bought here. An early feature was moderate speculative offerings. On the advance early buyers were disposed to secure profits, and the prices receded.

The corn trade was moderate, and the market tame at times. It was stronger early, followed by weaker and closing easy. Higher cables, the rise in wheat, light country offerings and some improvement in the cash demand combined to give the early strength. At the advance the offerings increased, and the country evidently selling, and prices yielded. Trading in oats was active and stronger early, on covering by September shorts and the strength in other grains, but the market became weaker when wheat and corn went off.

The leading grain futures ranged as follows:

Table with 4 columns: Wheat, Dec., Corn, Dec., Oats, Dec., and their respective prices.

Closing Cash Quotations. Wheat, stronger. Corn, tame. Oats, active; No. 2 white, 24 3/4; No. 3 white 23 3/4.

Movement of Grain. Receipts—Flour, 15,000 barrels; wheat, 143,000 bushels; corn, 460,000 bushels; oats, 613,000 bushels.

WALL STREET STOCKS. New York, Sept. 14.—The market started this morning with indications that the reactionary period had ended. Prices in the railroad list advanced almost without exception under the stimulus of high prices for Americans in London and a sharp demand for People's Gas on reports that the dispute with the Indiana Gas company had been adjusted.

The bears sold the list freely, and their confidence was justified by the renewal of liquidation, induced by the decline of prices. There was stubborn resistance to the decline in some railroad stocks, but the prices generally fell below yesterday's low point, and dullness intervened. The market was of specialties during the greater part of the day, and some sharp declines are shown by quite a number. Minnesota Iron, Illinois Steel and American Steel & Wire all suffered heavy losses.

The closing quotations of bonds and leading stocks were as follows:

Table with 3 columns: U.S. new 4s, U.S. 4s, U.S. 3s, etc., and their respective prices.

COPPER STOCKS. Boston, Sept. 13.—The following were the closing prices of copper mining stocks:

Table with 3 columns: Allouez, Boston & Montana, Butte & Boston, etc., and their respective prices.

The following are yesterday's Boston stock quotations, furnished by A. B. Turner & Bro., Savings Bank Building, Marquette:

Table with 3 columns: Opening, 12 m., Close, and various stock prices.

METAL PRICES. New York, Sept. 13.—Pig iron, warrants dull; \$8.35 bid, \$8.35 asked.

CANNOT LIVE MUCH LONGER. Dedham, Sept. 13.—Hon. Thomas Bayard is weaker tonight. He cannot survive many more days.

OUR OWN PENINSULA. State Game and Fish Warden Osborn has filed his report for August with the secretary of state. He says that a great deal of attention has been given to the work of supplying dams with fish ladders as required by the statute.

State Game and Fish Warden Osborn has filed his report for August with the secretary of state. He says that a great deal of attention has been given to the work of supplying dams with fish ladders as required by the statute. This work has been carried on all through the summer and there is still much of it to do. Nets have been inspected along the northern shores of the lower peninsula, and in St. Mary's river and upper Lake Huron. As a general thing the nets have been found to be of legal mesh. The usual reports at this season of the use of venison in lumber camps have come in, but careful investigation has generally revealed that the reports were without foundation in fact. During the month forty-one complaints of violations of the game and fish laws were received. There were twenty-one arrests, six convictions, one dismissal and fourteen cases are still pending. The amount of fines and costs assessed against violators was \$154. There were two arrests for violations of the game laws, and nineteen for violations of the fish laws.

Articles of association have been filed, incorporating the Pigeon River Improvement, Slide and Boom Co., under the general laws of the state of Minnesota. The capital stock of the new company is \$25,000 and the corporation runs for a period of fifty years.

The firm of Alger, Smith & Co., and other lumbering concerns own large tracts of timber tributary to that stream, which will be driven to Lake Superior, and many millions of feet will be towed to Grand Marais, to be saved there. While the principal offices are to be in Duluth, it is in many respects a Grand Marais concern, owing to the fact that a majority of the incorporators either reside or have large interests there. Also the fact that so much of the timber to be handled will be saved there, the new company will have much to do with prolonging the life of Grand Marais' principal industry for many years after the pine has been exhausted in that vicinity.

MR. DOOLEY ON ALGER'S LETTER. "I usen't to know," said Mr. Dooley, "what me frind Gin'ral Sherman meant when he said that thing about war. I've been through two iv him, not to speak iv conv-ntions an' prim'ries, an' I divvle th' bit iv har-rn come to me no more than if I was settin' on a roof playin' an' accorleen. But I know now what th' ol' la-ard meant. He meant war was hell whin 'twas over."

"Did ye see what me frind Alger wrote to Chansy Depot? Well, sir, Alger has been mistreated. There's a good man, I say he's a good man. An' he is, too. At anny thrick fr'm shingles to two-be-fours he's as good as th' best. But no wan appreciated Alger. No wan understood him. No wan even thried to. Day be day he published th' private letters iv other people, an' that didn't throw anny light on his character. Day be day he had his pitchers took, an' still th' people didn't get onto th' cur-ives iv him. Day be day he chatted iv th' turors iv war, an' still people on'y said: 'An' Alger also r-ran.' But th' time come whin Alger cud contain himself no longer, an' he set down an' wrote to Chansy Depot."

"Mr. Chansy Depot, care iv Grand Central Depew, New York, New York, Esquire. Dear Chansy: I've been expectin' a letter fr'm ye fr' three or four days. In reply to same will say: Oh, Chansy, ye don't know how I suffer. I'm that low in me mind I feel like a bunch of lathes. Oh, dear, to think iv what I've gone through. I went into th' war unprepared. I had on'y so many r-rounds iv cartridges an' a cross-cut saw, an' I failed to provide meself with th' ordinary necessities iv life. But in spite iv me deficiencies I went bravely ahead. Th' strain was something tur-ble on me. Me mind give out repeatedly. I cud not think at times, but I never faltered. In two months I had enough supplies piled up in Maine to feed ivy slier in Cuba. They were thousands iv r-rounds iv cartridges fr' ivy rig'mint, an' all th' rig'mints had to do was to write fr' thim. Th' navy had taken Manila an' Cervera's fleet an' th' ar-rmy had taken Sandago an' th' yellow fever. Th' war is over an' peace want me wags her wings over the country. Fine scantlings is quoted strong. Irywhere is peace an' content. Me photographs are on sale at all first-class newsdealers. Yet there is no cam' fr' me. Ontkin' was insult me. They tell me a sojer can't eat gin'ral orders. They want me to raysign an' go back to me humble home in Michigan. Disgustin' men that've done nawthin' but get thimselves shot ask fr' milk and quinine. They'll be askin' me to carry food to thim next. Oh, Chansy, oh, hivyens, ye can't know how grieved I am. Rather whin I have perished in a low I am thin't've indured this ingratitude. But in lookin' over me past life I can think iv no wrong I've done. If me mim'ry is at fault please note. Me career is an open book. I've held nawthin' back fr'm th' public, not even whin 'twas mar-keed private. I can say with th' pote that I done me footy. But oh, Chansy, don't iver aspire to me job. Be sicerity iv war if you will, but never be sicerity iv a war. Do not offer this letter to th' newspapers. Make thim take it. How's things goin' with ye, ol' pal? I hope to see ye at th' seaside. Thin' thim 'Th' yous, sick at heart, but 'atin' reg'lar, Russ."

"Well," said Mr. Hennessy, "th' poor man must've had a har-rd time iv it."

"He did," said Mr. Dooley. "Niver laif his head to a pillow before eight, up with th' moon, he's suffered as no man can tell. But he'll be all r-right whin his mind's at r-rest.—Chicago Journal."

What the Banks and Leading Business Men of Kalamazoo Think of the

MICHIGAN Accident Association.

KALAMAZOO, MICH., June 6, 1898. TO THE PUBLIC: We, the undersigned, hereby certify that we are personally acquainted with the officers and directors of the MICHIGAN ACCIDENT ASSOCIATION of this city, and know them to be first-class, responsible business men, who we believe will carry out to the letter any obligations they may incur. We would further say that from what we know of the methods and success of the MICHIGAN ACCIDENT ASSOCIATION we believe it to be one that is judiciously managed and conducted on strict business principles. Among a large membership of this association we have never heard of a complaint of unfair treatment or failure to meet all legitimate obligations.

STORIES OF THE STREET.

Marquette People Are Talking About It on Every Corner. It is sometimes an easy matter to fool the public, but you can't keep it up very long, they are sure to find you out; and every time a man is fooled, another skeptic is made. Skepticism is allowable when reading in a home newspaper about some incident occurring in San Francisco or Maine, but the circumstances are entirely different when it refers to someone right at home, friends and neighbors, people you know, whom you can see, and with whom you talk it over. This is the kind of evidence at the back of Doan's Kidney Pills-home statements by home people, and the astonishing local work they have been doing has caused more talk among our citizens than the doings of any other modern wonder. Read the following: Mr. Charles Parr, of 118 East Jackson street, foreman on Pickands dock, says: "I can very highly recommend Doan's Kidney Pills to any one troubled with kidney disorder or pains in the back and loins. I was bothered a good deal for a long time with backache, often very severe. In looking after and keeping my hoists in working order, I often have to do a great deal of climbing on the derricks, and I must have strained myself. I let it go for a time, thinking it would wear off, but instead it became more persistent. I then began to look for some remedy to give me relief and seeing Doan's Kidney Pills so highly recommended, I procured a box at the Stafford Drug Co., and began using them. I had taken but a few doses when I felt the pains were leaving me. Since I finished the treatment I have had no indications of a return of the trouble." Doan's Kidney Pills are for sale by all dealers. Price 50 cents. Mailed by Postter-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name Doan's and take no other.

### MONEY OF OTHER DAYS.

AN EX-TREASURY OFFICIAL GIVES SOME ENTERTAINING HISTORY OF THE KIND ONE LARGELY IN USE HERE.

Colonel William A. Gavett of Detroit, who held a prominent position in the United States treasury department for several years, and later was a member of ex-Governor Rich's staff, spent Saturday and Sunday in Ishpeming in the interest of the American Life Insurance company of New York. Mr. Gavett is one of the general managers of the Michigan agency.

In the early seventies, when nearly all the mining corporations of the upper peninsula were manufacturing their own money, the colonel was in the treasury department at Washington. Just twenty-four years ago he came to the upper peninsula on a most interesting mission, and he retains a very clear recollection of nearly everything connected with it, and also remembers most of the old settlers whom he met at that time.

He came to this part of the state to put a stop to the use of the money then being issued and circulated extensively by nearly all the mining companies doing business up here. He was successful in his work, as the scare that struck some of those who were responsible for issuing and putting in circulation the "shinplaster" currency, as it was called, had a most telling effect.

That kind of money had been in use for ten years lacking one month before the government officials learned anything of it. The first intimation they had of it was given them by the late Robert Nelson, known as the "Father of Ishpeming," who was then president of the First National bank of this city.

It occurred to Mr. Nelson that the money system of this particular part of the country was not just right, so he sat down one day and wrote the officials at Washington about it, at the same time enclosing a dollar bill of the money the mining companies were then issuing, and which was extensively in circulation among the people.

As soon as the officials got the letter they knew there was something wrong, and Mr. Gavett was sent up here to investigate matters.

The government agent was given an icy reception by every mine official he met. When he explained his mission, telling them that Uncle Sam was back of him and that he must be given access to the books of each corporation that had issued its own money, they simply laughed at him and told him he had better go back to Washington and mind his own business. But Gavett was not so easily put off and after a time the head men of the corporations began to see that they were in for it.

The government did not undertake to prosecute those who were issuing the currency, but the tax that was put on it

soon drove it out of circulation. The tax levied was 1-12th of 1 per cent per month. Any bank handling the money was charged 10 per cent per month.

Some of the companies had millions of dollars of the money in circulation. The Calumet & Hecla Copper Mining company and the New York Iron company, the latter of this city, were the heaviest users of the currency. The head officials of both of these companies openly refused to have anything to do with Gavett and declared that he should not be permitted to examine their books. It was some time before he succeeded in accomplishing the task he was sent out to do, but he got over the work without causing anyone concerned serious trouble.

Soon after Mr. Gavett got here nearly everyone knew there was trouble ahead. It was reported through some unknown source that the government was going to prosecute any person found with the money in his possession. This scared many. A genuine panic followed the scare. In telling the reporter about it, Mr. Gavett said that some of the merchants of Ishpeming and other places in the upper peninsula who had thousands of dollars of the corporation money stored away in their safes and elsewhere got rid of it almost as rapidly as though it had been burned up. He said that he called on business men for the purpose of merely ascertaining how much of the currency they had on hand and in many cases they declared that they didn't have a dollar; never had any of it, and didn't want it. He was sure that some of them had dug holes in the ground and buried their bills just before he had got around to them.

The money went out of circulation very rapidly and within a month or so after Mr. Gavett was here it was hard to get hold of any of it. The most of the companies redeemed all the money that was presented, paying the holders old dollar for dollar, while others discounted it.

Samuel J. Tilden was at the head of the New York Iron company at that time and Charles J. Canda, after whom Canda street in this city was named, was his right hand man. Mr. Gavett had a harder time getting Mr. Canda to submit to an investigation of the company's books than any other man who had to do with putting out the money that he encountered.

Two years after Mr. Gavett's visit here, in 1876, the corporation money question became a campaign issue against Mr. Tilden, who was then a candidate for the presidency. The statement of the investigation of Gavett was printed in pamphlet form and circulated all through the United States as an argument against Tilden. And it had great weight in the campaign, as it created the impression that Mr. Tilden had done something that was altogether wrong, though there were hundreds of good Republicans who were as deep in the mire as he.

During his investigation Mr. Gavett found fifty-six different organizations having money in circulation. All of these were not up in this country, however.

They were scattered all over the United States, taking in railway corporations as well as mining companies. Even the Mormons of Utah had money of their own in circulation.

The amount picked up, to say nothing of what was buried in cellars and vanished in other ways, was something enormous. It is no wonder, Mr. Gavett said, that the people of this section had "money to burn" in the early days. Money was about the easiest thing a man could get up here.

But the tax collected by the government amounted to considerable while the currency was disappearing from circulation. In about four or five weeks time there was something like \$55,000 collected in the upper peninsula and before the money was entirely wiped out over \$1,024,000 was collected in taxes in different parts of the country.

From the time of Mr. Gavett's investigation up to the present day he has carried some of the money he picked up on that trip. Even the \$1 bill that Robert Nelson forwarded to J. J. Knox, who was then president of the treasury at Washington, is still in his possession. Among the money he showed the reporter and two or three other Ishpeming men to whom he related the particulars of his investigation, were bills issued by the Pittsburgh & Lake Angeline Iron company, the Saginaw Mining company, the New York Iron company, the Calumet & Hecla Copper Mining company, the Marquette, Houghton & Ontonagon Railway company, the Bay Furnace company, the South Carolina Railway company, also some Mormon money and samples from other parts of the country.

Mr. Gavett can tell many funny things that occurred about the time he was up here after the money makers. He spoke of one instance where a man living at Negaunee was arrested on the charge of counterfeiting the paper bills issued by one of the companies. The fellow was arrested and held a prisoner several days. When he was brought into justice court he demanded a jury trial. His attorney was a bright fellow and it was wholly through his efforts that the man escaped prison. He had a fairly intelligent jury before him and after the testimony was all in and it looked as though the prisoner was guilty of the charge the attorney convinced the jury that there was no cause for action, even if the fellow had counterfeited the currency, as it was not money at all. He proved to the satisfaction of the jury that the corporations then issuing the money had no legal right to do it, and in consequence the prisoner was discharged.

### SENATORIAL CONVENTION TODAY

A Republican senatorial convention for the purpose of nominating a candidate for this district will be held at Marquette today. There will be a contesting delegation from Marquette county, the delegates having been chosen at the double county convention held two weeks ago today at Negaunee. The delegates elected at the Sheldon convention are: George Hayden, Walter Fitch, John E. Van Evers, M. M. Duncan, John Jones, William B. Neeley, Everett Ball, M. C. Quinn, S. H. Hiley, C. T. Fairbairn, R. C. Neeley, A. J. Yungbluth, Nels Clifton, James H. Rough and Thomas Martin.

The Stephenson convention named the following delegates: C. D. Blanchard, Gad Smith, S. M. Billings, George Tucker, C. L. Scurley, P. B. Kirkwood, T. M.

Wells, Matt Elliott, Thomas Walters, Samuel Mitchell, Robert Maxwell, M. M. Duncan, M. Jenks, A. E. Sterne and B. J. Goodman.

It is certain that one of the two delegations will be thrown out after the temporary organization is perfected. There does not seem to be much of a fight on over the temporary organization in this case, as it is not known that there will be any opposition to Alexander Maitland of Negaunee, for the nomination. The Sheldon fellows feel that Mr. Maitland is entitled to at least a second term and are not inclined to oppose him.

### THE PARIS WOMAN DEFEATED.

It will be of interest to upper peninsula cyclists to know that both Tulle Anderson and Dottie Farnsworth defeated Mile Lisette, the Paris wonder, in the six days' bicycle race at St Paul last week. Miss Anderson broke the world's record, covering 24 miles in twelve hours. The previous record was two miles and ten laps less than the distance covered by Anderson. The Minneapolis papers speak of the races as being good and say the Paris woman did her best to win out. It is said that the championship honors of this country lie between Miss Anderson and Miss Glaw, who recently participated in the ladies' races here. They have met three or four times and it is claimed that the honors were divided about equal between them. Miss Glaw defeated Miss Anderson once and Miss Anderson also won from Miss Glaw in a spirited contest.

ROBBED THE GRAVE.—A startling incident of which Mr. John Oliver of Philadelphia was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradual growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at the Stafford Drug company.

TIMBER CULVERTS COMING OUT. STREET COMMISSIONER HAS BEEN REPLACING THEM WITH PIPE.

During the past three years the street commissioner here has had more or less trouble with the old culverts put in during the early days, when there was no sewerage system.

Occasionally the timbers in the culverts would give out, causing the ground above them to settle.

This work has been going on now for the past three summers, it having been started about the time John Wasmuth was given charge of the street work.

The work of removing the culverts has been continued this summer, Street Commissioner Thomas having dug out several of them and replaced the timber culverts with sewer pipe.

The street commissioner has finished up the repairing of nearly all the side and cross walks that will need his attention this season.

COMPLETED THE CENSUS. Rev. Charles Langner, pastor of St. Paul's church, completed the census of Catholic families in the city last week and on Sunday he submitted a very interesting report to the members of his congregation.

WILL REFUND WATER BONDS. VOTE AT THE SPECIAL ELECTION LIGHT, BUT RESULTED IN FAVOR OF THE PROPOSITION.

The taxpayers of Negaunee manifested very little interest in the special election held Monday for the purpose of giving the council the power to refund the \$10,000 of water bonds soon to mature.

In the First ward only seven of the taxpayers came out to vote. Five of these voted in favor of the proposition and two against it.

Inasmuch as the vote was favorable the city authorities will lose no time in issuing the new bonds.

LOCAL LAONICS. Miss Louise Tourville has returned from a visit to friends in Duluth.

Attractive advertising matter for the county fair at Marquette the latter part of this month has been distributed in Negaunee.

Rev. Charles Langner, pastor of St. Paul's church, completed the census of Catholic families in the city last week and on Sunday he submitted a very interesting report to the members of his congregation.

He located 328 Catholic families in the entire city. Of these 138 were French and 114 Irish Catholics.

Special Rate for Children. Many here who think of taking in the excursion to Pictured Rocks next Friday wondered if they would have to pay the same price for children as will be charged adults.

**ANOTHER CIRCUS FEATURE.**

**Great Julian Family Late With La-Pearl Aggregation Signed for County Fair.**

**BAREBACK RIDING IN A RING BEFORE THE GRAND STAND.**

Show Feature of the Fair Will Be a Strong One—Two Combinations Will Make a Company of Eight Acting People.

**ADDITION TO FAIR ATTRACTIONS.**

W. A. Ross, who is superintending the circus features of the coming county fair, yesterday closed a contract with the great Julian family of riders and acrobats, who were till lately traveling with the LaPearl circus.

On each of the three days of the fair they will give a first class circus performance in a ring which will be thrown up inside the race track just opposite the grand stand.

The features of the performance are a bare back riding act with two somersaults on the horse, by Miss Dollie Julian, aged fourteen. Miss Linda Julian will be seen in a daring bareback hurdle act. Both ladies will give an act on the rolling globe and Miss Dollie will perform on the slack wire. The performance will conclude with a tumbling act by William Bennett and Miss Dollie Julian. The Julians furnish their own riding stock.

**GEORGE BALL PROMOTED.**

Is Made a Second Lieutenant in the Thirty-fifth Regiment.

A telegram received last evening by D. H. Ball brings the news that his son George E. Ball has been promoted to the rank of second lieutenant in the Thirty-fifth Michigan.

At the time the Thirty-fifth was forming Lieutenant Ball quit school at Ann Arbor, where he was taking the law course and enlisted with it. He was made first sergeant on the organization of his company, and is now promoted to second lieutenant, the place being made vacant by the resignation of Lieutenant Shields.

The Thirty-fifth is the one Michigan regiment which will not be mustered out with or before the declaration of peace. It is said to be slated for two years' service, but the place of its campaigns have not been made public, if they are even known by the war department.

Lieutenant Ball wires that his regiment leaves today for Camp Meade, located at Meadville, Pa., the place from which the Thirty-fourth recruits have lately returned.

**TO NOMINATE A SENATOR.**

Republican Convention Will Meet Here Today for That Purpose.

Republican delegates from the Thirty-first senatorial district will meet in this city today to nominate a senator to represent this section of the peninsula in the legislature next winter.

The convention is called by C. T. Fairbairn of Ishpeming. It will convene at 1:30 this afternoon in the assembly room of the city hall.

Alger, Dickinson, Iron and Marquette are the counties in the district, and they are represented in the convention by respectively 3, 6, 3 and 15 delegates. Every county has one delegate for every 500 votes in the total cast for the several gubernatorial candidates in the last election.

It takes fourteen votes to elect. Besides selecting a candidate the convention will name a senatorial committee and transact such other business as is proper to be brought up for consideration.

**WILL GO TO MUNISING.**

Marquette Masons Will Witness Degree Work in Nesterville.

Marquette Masons have been invited to go to Munising tomorrow and witness degree work by the lodge there.

The invitation has been accepted, and arrangements have been made by the lodge to go down and back on the City of Marquette, if the weather is any ways favorable. It is expected that from forty to fifty members of Marquette lodge No. 101 F. & A. M., will make the trip. The number may be increased slightly, as they invite all visiting Masons to go with them.

The boat will leave Spear's dock at 1:30 Thursday afternoon, and returning leave Munising that night after the banquet.

**WHO CAME FIRST.**

Honor of Being Woman Longest Resident in Marquette in Dispute.

Several have disputed the statement made concerning the late Mrs. Katrina Doetsch that at the time of her death she had probably resided longer in Marquette than any other woman. Friends of Mrs. Harlow and Mrs. Captain Barney advance them as claimants for the honor. Both of these ladies came to Marquette in the summer of 1849. F. O. Clark says that Mrs. Harlow and his wife, who was then a very small child, landed in Marquette about a month prior to Mrs. Barney's arrival. He says also that there are several ladies in the city who have resided here since 1853.

**OFFER \$100 FOR CHARITY.**

Goodspeed & Son Give Their Side of a Matter in Controversy.

To The Mining Journal: It has come to our notice through Charles Cameron that we refuse, contrary to express promise, to take Fred B. Elliott back into our employ. Would say regarding same, that we hereby offer the Clerk's union, or any worthy charitable association in Marquette, \$100 for evidence to show that we have ever made such promise. Check enclosed payable to your order for such evidence.

The facts of the matter are these. Mr. Elliott enlisted at his own option, and we received word that he would leave the following week, and gave us time to say neither yes nor no. As we had just fairly got new manager there, who was

unacquainted with the people or the store, it necessarily made us anxious as to what result would be. As we have never to this day had any conversation with Mr. Elliott regarding enlistment we repeat the \$100 above awaits any worthy charity in Marquette that will produce evidence as to any promise made by us to take him back. Furthermore, would say that we have had only the friendliest feeling for Mr. Elliott, as per letter to Montauk Point, and we deem it only just to ourselves and him that talk of any promises should cease.

Yours respectfully,  
GOODSPEED & SON.

**LOCATING SHUT-OFFS.**

Supt. John Kern Is Engaged on a Job of Large Size.

Superintendent John Kern of the water department is engaged in a good work of large size. He has been putting in his spare time this summer getting data and making a map of the water mains of the city showing the exact location of every shut-off in the system.

To do this he is going around and locating the shut-offs and taking actual measurements of distances from given points, so that he can tell by reference to his book and map almost to the inch where to dig for a shut-off when it gets covered up by snow or earth.

Some of the shut-offs in the Marquette system are in peculiar locations, and if Mr. Kern should suddenly die or move out of town his successor would have a lively time finding them, but if Mr. Kern is spared long enough to complete his map and its accompanying book of measurements it will be no trouble for any superintendent who may come after him to locate the shut-offs.

He has taken the measurements in most of the outlying districts now and is working down into the original plat and older sub-divisions in the center of the city.

**DIDN'T TURN OUT.**

Subscribers to Citizens' Committee Fund Showed Little Interest.

If the citizens of Marquette are pleased with the work that has been done for the town this summer by the Citizens' committee they did not make it evident yesterday afternoon and evening.

The officers of the committee announced by letter to the subscribers and publicly through the paper that they would keep open house at the committee room in the city hall yesterday afternoon and evening, the purpose being to get the people there so they might have explained to them the intents and plans of the committee.

The officers expected that there would be quite a number of people who would come around, if not to hear of the plans of the committee, to make suggestions of their own, but they were disappointed on both scores. The room was kept open according to announcement, but the people who came could be counted on the fingers of a single hand.

**OFFICERS RE-ELECTED.**

No Change in the Formation of the School Directorate.

The school board held its first meeting since election yesterday afternoon in the office of F. O. Clark and organized itself for the new year.

This year there was only one vacancy to fill on the board of trustees, and as George Barnes was elected to succeed himself there is no change in the personnel of the school board. The board organized itself in precisely the same way it was organized last year. This arrangement leaves the roster standing as follows:

Moderator—J. F. Neidhart.  
Assessor—Peter White.  
Director—George Barnes.  
Trustees—F. O. Clark, J. L. Johnson.

**SO-SA-WA-GA-MING.**

New Club Will Keep Open Till Close of the Hunting Season.

Although the present is its first season the So-sa-wa-ga-ming club has enjoyed an excellent patronage all summer.

It has still a number of guests stopping with it and more are going up by almost every trip of the steamer. There are a number of people who consider September and October the two pleasantest months for an outing.

The club will continue open anyhow till the close of the hunting season, and even in the winter it may never entirely close its doors. As long as there is a demand for an open house among the members the club will be kept running.

**NOT TO BE SNEEZED AT.**

Times-Herald Springs a Joke About the Hay Fever Association.

The following editorial paragraph appeared in yesterday's issue of The Chicago Times-Herald.

"The Western Hay Fever association, which claims a membership of 20,000, has just completed holding its annual convention at Marquette. That is an organization not to be sneezed at."

**LAI D TO REST.**

The funeral of Mrs. John Doetsch took place yesterday morning from her late residence, corner Third and Bluff streets, from there to St. Peter's cathedral, where high mass was celebrated by Rev. Father Crocker. The funeral procession was one of the largest ever seen in Marquette, and was particularly noticeable for the large number of old residents who followed the remains.

A great many relatives and friends from out of town were present, among them being Mr. and Mrs. W. A. Washburn, Hancock; Mrs. Jacob Woisner, Stephenson; Mrs. Westermeyer, Neguene; Mrs. Dolph Thoney, Daggett; Mr. and Mrs. George Thoney, Mrs. Maria Gilbert, Miss May Gilbert and Peter Fitzpatrick, Ishpeming. Park cemetery was the place of interment.

**SEPTEMBER GRIND BEGUN.**

Circuit Court Sits to Dispatch Criminal and Civil Business of All Sorts.

ONLY ONE SENTENCE IS SO FAR METED OUT.

Violator of the Game Law Gets Twenty Days in the County Jail—Those Charged With Crimes Arraigned and Allowed to Plead.

**FEW CRIMINALS TO FACE THE BAR.**

The September term of the circuit court started yesterday with Judge Stone on the bench and most of the lawyers of the county in attendance.

What few defendants there were who had criminal charges hanging over them were arraigned and given a chance to plead. Only one sentence was pronounced. That was in the case of the people versus John Kolkonnen. He was charged with a violation of the game laws. He admitted his guilt, whereupon the judge sentenced him to serve twenty days in the county jail. He began his term yesterday.

A settlement was affected out of court of the slander case of the people versus Alex Matson. A bastardy case, the next one up, was continued over the term with the bond remaining in force.

Charles Pritzwood, a defendant in a game law violation case, was not present, having retreated on the bond. Prosecuting Attorney Bell filed his information against him.

The information was filed in the case against Nelson Rollo, charged with indecent exposure. His first plea was not guilty, which was afterwards changed to nolo contendere.

Information was filed against William O'Brien, and he pleaded guilty to the charge of burglary. Sentence was not pronounced against him.

The case of the people versus John D. Nirmair, larceny, was nolo proseed.

In the garnishee proceedings brought by W. S. Hill against Louis Grabower it was held there was no cause for action. The costs were charged to the defendant.

The case of Margaret Hendricksen against Thomas J. Eddy was continued on application of the defendant, and the costs taxed at \$15. In the case of the same plaintiff against Mrs. Elizabeth Finley a continuance was granted on application of the defendant.

In the assumpsit suit of Margaret Grant versus Catherine Donahue an order was entered, denying security for costs.

In the suit of Max Ederheimer and others against Samuel Blumenthal et al., the plea was withdrawn and judgment given for \$594.50. Costs were \$23.

The suit of C. H. Moss, administrator, against the Chicago Cigar & St. Paul, was continued over the term on application of the defendant.

**MARQUETTE MINETTES.**

It is a safe proposition that there is more Peerless consumed along Lake Superior than any other brand of tobacco which finds favor here.

Peerless is pre-eminently the poor man's narcotic and the quantity which he consumes is something wonderful. It takes a cultivated taste to appreciate Peerless, but when once a man gets inured to it it is a long time before he finds another brand that gives him the same satisfaction.

Lumbermen have come to recognize Peerless as one of the staples, and it is a daring or foolish jobber who would think of taking a crew of men into the woods without a liberal supply of the weed in the form they favor.

Through carelessness one jobber did go in last winter without a box of Peerless in his outfit. The men soon consumed what little they had with them when they went in, and long and loud were the complaints when they had to fall back on another brand which had been included in the supplies.

"Say, Pusher," said one of them one day, addressing the foreman, "how do you think this gang is going to get in 3,000,000 feet without any Peerless in camp?"

"So, ho," said the smart young man coming on an acquaintance in a music store, "what are you doing here?"

"Buying a banjo."

"Going to charter a tug boat and go out and learn?"

"Don't say any more about women;" cried the bright girl. "Say it about the men and the newspapers."

"I think it is disgraceful the way they're ending this war, every man of them from General Alger down to the lowest private. Rushing into the newspapers and quarreling over their honors, just as if there wasn't honor enough for the whole of them. You never heard of a lot of women doing worse."
