You cannot work or recreate a man into good health any more than you can will make healthy men more healthy; it make unhealthy more unhealthy When a man has been living in too big a hurry,

himself out, when he has got so that he does not sleep or eat, or rest, and the whole world looks gloomy to him, it is time for him to take medicine. Then when he is braced up a bit, it is time enough for him to take to the bicycle.

When a man's nerves have an edge on them, so that the least little disappointment rasps on his temper like a file, when his stomach and liver and nerves are deranged, and he is continually gloomy and melancholy, he should take Dr. Pierce's Golden Medical Discovery. It makes a man as hungry as a fisherman and sees to it that all the vital elements of the food are absorbed into the blood. It braces up the liver and puts it to work in the right way. It drives all bilious impurities from the system. It fills flesh, nerves, brain cells, sinews and bones with the life-giving elements of rich, red, pure blood. It makes a man healthy and then a bicycle will make him strong. Medicine dealers sell it, and have nothing "just as good."

"Through your skillful treatment I am once more a well man," writes J. N. Arnold, Esq., of Gandy, Logan Co., Neb. 'I suffered for years with constipation and torpidity of the liver, irritation of the prostate and inflammation of the bladder. I took six bottles of 'Golden Medical Discovery' and 'Pleasant Pellets and am permanently cured. You have been the means of saving my life."

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. All medicine dealers sell them. No other pills are "just as good."

Why not something else? Because

Dr. J. J. Thomas says: "It is incomparably superior to any extract of Hamamelis I have ever used.'

DR. O. G. RANDALL says: "Nothing can equal Pond's Extract. I have tested others, and yours is four times as strong as the best."
DR. J. C. MITCHIE says: "Pond's Extract of Hamamelis Virginica is the only reliable article I have found.'

Dr. H. K. Weiler says: "The difference between Pond's Extract and so-called Witch Hazel is the difference between a cent and a dollar." DR. H. F. MERRILL says: "It is far superior to any I have used in strength and purity."

DR. R. J. HARRISON says: "I have never found any extract equal to Pond's."
DR. Powell says: "Hereafter I shall use no other than Pond's Extract." And numerous others of similar purport.

General Miles Proposes a New Basis for Reducing the Volunteer Army.

PLAN EFFECTS ALL REGIMENTS NOT ALREADY MUSTERED OUT.

WOULD SCALE ALL ORGANIZATIONS DOWN ABOUT ONE HALF.

Scheme Provides for Eight Companies, Instead of Twelve, With Seventy-Five Men Each in Place of 106 as at Present.

IS ANTAGONIZED BY ADJUTANT CORBIN.

Washington, Sept. 16.-General Miles has a proposition to reduce the size of the volunteer army which he believes will meet with the approval of every soldier in the volunteer army, as it would permit the men who desire to remain in the service to do so and allow those who wish to be mustered out to be discharged.

The proposition is to re-organize the volunteer army by reducing the regitwelve, as now constituted, and reducing The first train arrived at 8 o'clock, the *the number of men in each company to seventy-five instead of 106, as at present. fore their arrival all the whistles of the This would reduce the army to less than half of its present strength, as the reduction would amount to 665 men to each was lighted up by electricty, and tables regiment.

These regiments, ago and all soldiers passing through are although on furlough and under muster- cared for. The hospitality extended this trol of the war department, as only two mittee. organizations, the Rough Riders and two battalions of Iowa artillery, have been mustered out

General Miles asserts that if his scheme is adopted it will stop all dissatisfaction in the future, as portions of regiments could be discharged and not force men who desire to remain to be mustered out. This proposition is antagonized by General Corbin, who says such a change would involve too much work, and army officers are interested in the sparring between the commanding general and his adjutant to see which

A. T. VAN ALSTYN'S

Marquette, Michigan.

The dry goods store of the present day is as different from the dry goods store of former days, as the styles of dress of today and that of twenty-five years ago; or at least, the modern "up-to-date" store is.

Marquette City excells in many ways all her rival cities. It is a well-known fact, and admitted by all, that Marquette homes, her buildings, streets, and drives, her well kept lawns, and beautiful surroundings, are the envy of every person of taste and culture. Her churches and schools, libraries and public buildings, are superior to those of any city on the lake or in the Upper Peninsula.

It is equally admitted by all that at the present time there is not an "up-to-date" modern dry goods store either in Marquette or within a radius of one hundred (100) miles. It is admitted by everyone that one of the most needful enterprises, to place Marquette in her proper place as the leading center of trade in the north, is just such a store. Recognizing this fact, and being urged by many who have the material interest of the city and it's growth at heart, the undersigned has arranged to open, on or about Oct. 1st, in the Opera House Block on Washington St., a dry goods house in which the people of Marquette may well take pride.

Occupying a space of 75 feet frontage, with a suite of rooms on the second floor for a first-class dress-making department, the store building is now being re-modelled and modernized, and when completed it will be the most convenient and the handsomest dry goods store north of Chicago. The fixtures are of oak and glass, of the latest style and pattern, and will equal those to be found in the best stores in our large cities.

The Cloak and Suit department will be eighty feet long, with splendid light, and room to show the elegant styles and qualities of the

finest line ever shown in any city outside of our great cities. Our dress goods and silk departments will surpass anything ever

attempted in Marquette. You will also find the most complete departments of Linens, Hosiery, Underwear, Gloves, Blankets, Woolens, Muslin Underwear, Carpets, and staple goods.

We shall sell goods on their merits; good goods at fair prices. We do not expect to sell goods at less than cost. Nor do we expect to sell them at cost. But we do expect to sell all our goods at as low a price as

you can procure them for in Chicago or any other market. We shall be glad at all times to refund money where customers are not fully satisfied. We shall take pleasure in showing you our goods whether you buy or do not buy. We are coming to Marquette to serve

her people in the best way we know how. You can always rely on courteous attention from our sales-people.

We shall always sell our goods strictly for cash, and at as small a margin as we can and show a living profit. The credit system is worse for the customer than for the merchant. It is so easy for one to go to a store and buy goods and have them charged, and then when the first of the month comes a customer is invariably surprised at the large amount of their month's bill, and many find it hard to meet these bills promptly, often times buying more than they would were they to pay for the goods

when purchased. Merchants doing a credit business always lose a large number of their accounts, the customers who pay their bills having to pay for those who do not pay; and no merchant can sell his goods at as close a margin, and trust them out on his books, and pay bookkeepers and collectors and

postage, as the merchant who sells for cash. We expect to merit your patronage because we will give you the best value for you money, and the best styles any market will afford. We shall be under-sellers because we shall be under-buyers. The undersigned spent 12 years in the retail dry goods business, previous to 13 years connection with one of the largest wholesale houses in America. We do not think that we are conceited when we say that our experience in the wholesale and retail dry goods business will enable us to sell our goods at a uniform lower price than any other house in the Upper Peninsula.

Our relations with the producers and manufacturers of merchandise will be such that we will be in a position at all times to take advantage of the great sales in New York City and Chicago, and of many of the

mills.

We shall take every discount on our purchases that cash will secure. We shall also maintain a mail order department, and also give prompt attention to outside orders by 'phone. Send to us for samples of any kind of goods you may want and your orders for same will be attended to at once, and if goods are not satisfactory, return them to us, and we will cheerfully refund you the money.

In remitting money to us, send by P. O. order, Express order, or Draft. To our out-of-town trade, parties living in nearby towns, on purchases of \$10, and upwards, we will deduct the amount of your carfare from the amount of your purchase, so it won't cost you any more to come to Marquette and trade than it will to trade in your own town.

We solicit an inspection of our store and goods. We want the ladies to feel at home at our establishment; and free to come in and look at our goods, no matter if they do not wish to make a purchase. We have provided our salesroom with ladies' Toilet and Dressing Rooms, which we trust our customers will feel free to visit at any time.

DRESS-MAKING DEPARTMENT: One feature of our store which we trust will meet with the approval of the Ladies of Marquette is our Dress-making Parlors, under the management of Mrs. Hall, a lady thoroughly qualified to do the finest kind of work, from a plain tailor made gown to creations of art which can scearcly be surpassed by Parisian artists. Mrs. Hall is now in the east and will return in time for our Grand Fall Opening, when she will be pleased to meet the Ladies of Marquette and vicinity. Satisfaction guaranteed to everyone patronizing this department. We will furnish you with material, linings, and making, at as moderate prices as good work will permit. Do not fail to visit this

Every dollar's worth of our stock will be entirely new. Not one dollar's worth of old goods in the store.

Remember our store is for everybody All will find a cordial welcome, and we shall try to keep goods to suit all customers.

Come and see us, and then tell your friends about us. Watch the papers for date of our opening.

Wait for your fall purchases until you see our stock. You will be able to buy new goods for less money than many old ones are being

The undersigned has been coming to Marquette several times a year for the past 12 years, and knows many of the citizens. We would like to know you all. Come and introduce yourself, and believe us Yours to Serve

To add weight to her story Mrs. Wams-ley made alfidavit to its truth before John F. Russell, a Notary Public of Greensburg. Neuralgia of the heart is only one of many serious evils that grow out of derange-ments of the nervous system or of the blood.

The remedy that expels impurities from the blood and supplies the necessary materials for rapidly rebuilding wasted nerve tissues reaches the root of many serious diseases. It is these virtues that have given Dr. Williams' Pink Pills for Pale People their wonderful curative powers in diseases that at first glance seem widely different.

This famous remedy is for sale by all druggists for 50 cents a box; or six boxes for \$2.50.

Under the direction of Acting Captain place. Ben Trudell, the life savers dragged for an hour and a half at the end of the dock before they recovered the body.

Finally one of the grappling hooks, about eight feet under the end of the pier, caught the boy by the foot and he was brought to the surface. Had he been under any farther it would have been very difficult to have recovered the body and it could not have been accomplished last night.

All the time the life savers were at work the end of the dock was black with people watching the efforts of the crew and anxiously hoping every time the grappling hooks were pulled up to see the body brought to the surface.

The man who catches the biggest fish and shoots the biggest deer every year went out the last day of the trout season. He got some trout, but the principal thing he got, so far as this story s concerned, was a pair of wet boots. That evening in town he was telling how awfully wet he got on his fishing

"Don't believe I'll ever be able to dry ut those boots:" he said. "Oh, yes you will. Easy enough if you only go about it right;" remarked a by-

"If I set them behind the stove they'll ake and crack."

"No, you don't want to do it that way. I'll tell you how to do it and you won't WELL DRESSED BEEF AND have any trouble, Just fill them with bran, and set them where it is a little warm over night. The bran will absorb all the moisture, and in the morning they will be as dry as a new pair." "That's a good idea;" cried the fisher-

man. "Never too old to learn, I'm going

The next forenoon he presented himself in the office of the man who had given him the receipt for drying the boots "What's the matter, Joe?" inquired the occupant of the office, noticing that the usual smiling features were overcast

by a cloud of disgust. "I've got a bill against you. what the matter is. "Bill? What for?"

Houses to Rent. "Didn't you tell me last night how to dry out my wet boots?" 'Yes, I did. Did you?" "More fool I, but you'll have to pay

for them all right." "The bran didn't hurt your boots. What are you talking about?" "Yes it did. Now you look here. I went home and filled those boots up with

oran, just as you said, then I put them behind the stove and went to bed.' "And weren't they dry when you got

"They were dry as a bone." "Then you ought to pay me something. What you kicking about?" "I'll not pay you a cent, but you've got

to pay me \$4.' "For heaven's sake, what for?" "Rats knawed holes in both those boots to get the bran!"

ROBBED THE GRAVE .- A startling incident of which Mr. John in a most dreadful condition. My skin was almost yellow, eyas sunken, tongue coated, pain continually in back and weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am NINETEEN LECTURERS AND INSTRUCTORS now a well man.
