

# THE DAILY MINING JOURNAL.

NUMBER 4510.

MARQUETTE, MICH., SATURDAY MORNING, FEBRUARY 11, 1899.

PRICE FIVE CENTS.

## WHY SUFFER

from cold when we sell Hot Water Bottles. We warrant every one sold. The same as we do all other goods. We buy direct from makers and can do so. It is poor economy to buy cheap rubber goods. Might as well throw away your money.

**The Stafford Drug Co.,**

Mail Orders Promptly Filled. 222 SOUTH FRONT ST.

## GOING FAST.

OUR ENTIRE STOCK OF MEN'S WINTER FOOTWEAR AT OUR CLEAN-UP-SALE.

These goods are not shop-worn or out of date. They are new clean up-to-date goods.  
\$4.50 Men's High-Cut "Klondike" shoes, new toe, now \$3.20.  
\$4.00 Men's Winter Tan shoes, Call-Lined, new toe, now \$3.20.  
\$4.00 Men's Box-Calf shoes, Call-Lined, new toe, now \$3.20.  
\$3.50 Men's Box-Calf shoes, new toe, \$2.80.  
\$3.00 Men's Winter Tan or Box-Calf shoes, new toe, now \$2.40.  
Buy now before your size is sold.

**Goodspeed's,**

120 Front Street.

## DANGER!

It is dangerous to be without a warm suit or overcoat these cold days.

It is also needless when you can buy at the prices we are offering. We have made big reductions on our Winter Clothing department will convince you that our goods are right and our prices lower than anywhere (quality considered). Our lines of winter Underwear and Hosiery are the best to be had. If you want honest dealing come to us.

**GOODING & ORMSBEE,**

127-129 Washington St., Marquette.

## ATTENTION!

Gentlemen of Marquette:

For the next ten days I shall be in New York city buying new goods for the coming season, and also studying the art of garment making in all the latest styles.

**SIMMONS,**

The Tailor.

**Lilac Cream, Glycerine Lotion,**

Two of the finest toilet articles made for Chapped Hands, Face, and Lips and Roughness of Skin. With every cash purchase of 25c we are giving a complimentary chance on a \$50 Phonograph—Edison's latest.

Cor. Front and Washington Sts., and on Superior St.  
**Pendill's Pharmacies,**

**Tonella & Johnason,**

**Undertakers and Embalmers.**

Orders by 'phone or telegraph from any part of the upper peninsula will have careful and prompt attention.

We close at 6 P. M. until April 1st, except Saturdays and Railroad Paydays.

Buy your Groceries at

**Murray's.**

They are the best and cheapest in the end. We have most anything you can wish for in this line.

**D. Murray,**

114 South Front Street.

LIVE WELL WHILE YOU LIVE, for you will surely be a long time dead. Don't all buy Copper Stocks. Buy Groceries; they will make you feel good when they go down, and they are cheaper.

**E. L. KELLAN, 110 S. FRONT ST.**

## EGGS!

All Eggs sold by us guaranteed Strictly Fresh.

**Hoard's Creamery Butter,**  
The Best in the Land.

Fresh Vegetables.

The only place in the city where you will always find a full assortment.

**DEL'S GROCERY.**

TELEPHONE TO No. 490

and a Canvasser will call on you and take your subscription for telephone service with the

**THE FIRELIGHT'S RUDDY GLOW**

will be more cheerful and full of intense heat and comfort if it is made from our coal. It burns longer, is more economical, cleaner and with less waste than any other coal on the market. Our furnace and range coal is the delight of the housekeeper on baking days, and when the house needs heating.

**PICKANDS & CO.**

## STORM BOUND CONTINENT.

Dispatches from Various Points Indicated a Slight Improvement in Weather Conditions.

SLIGHTLY HIGHER TEMPERATURE AND AN UPWARD TENDENCY OF MERCURY.

A THOUSAND MEN SHOVEL OUT THE COLORADO MIDLAND RAILROAD.

And Bring in Coal and Provision Trains—Stock Killed. Crops Injured. Lower End of Lake Michigan Frozen Over.

## MANY FATALITIES NOTED YESTERDAY.

Leadville, Colo., Feb. 10.—Snow showers succeeded in opening the Denver & Rio Grande as far as Malta, five miles below the city, releasing trains loaded with coal and provisions stalled there. Snow began falling again early today, but with not much wind.

Dallas, Tex., Feb. 10.—The distress throughout the Pan Handle is undeniably the snow is five feet deep; the mercury fifteen below at Texline. The loss of cattle and wheat is enormous. It is regarded as a certainty that many persons were frozen to death.

Glen Haven, Mich., Feb. 10.—The entire surface at the lower end of Lake Michigan is now one vast sheet of ice, smooth and unbroken throughout the greater part. Foot passengers from South Manitou Island report no open water in any direction. A similar condition has not existed for many years.

La Crosse, Wis., Feb. 10.—After three weeks of the coldest weather this city ever has known, the temperature today rose thirty degrees, and tonight it is only five below. One result of the continued cold weather which may cause serious trouble in the spring has been the freezing of ice in the Mississippi river to such a depth that ice men cannot cut it. Old river men predict that there will be trouble with jams when the ice goes out, probably damaging bridges and making much other trouble.

Washington, Feb. 10.—The thirteenth consecutive day of abnormally cold weather in the central valleys, west and northwest, has been marked by some moderation in Ohio and upper Mississippi and lower Missouri valley, although the temperatures in these districts still remain in the neighborhood of zero. In the middle Atlantic states the cold wave continues with undiminished severity, particularly at Washington, where the minimum of eight below zero was recorded this morning. In the northwest and central Rocky Mountain region there has been another decided fall, accompanied by snow, the temperature having fallen from ten to forty degrees, and ranging from zero in central Colorado to thirty below in North Dakota. The cold wave will continue general for several days to come.

Chicago, Feb. 10.—The cold weather records were broken at a number of points last night. Washington was 8 below; Cleveland, 17; Pittsburg, 20, business at a standstill and schools dismissed; Detroit, 13; Republic, Mich., 50, and has been 10 to 25 below continuously for three weeks past. New York, 7; 15 to 22 throughout the state.

Nevada, Mo., Feb. 10.—The peach and apricot crops of Vernon and Cedar counties are reported killed today. The loss is estimated at more than one hundred thousand dollars. The weather is the coldest known here in thirty years.

Denver, Feb. 10.—An apparently interminable snow storm on the mountains in the vicinity of Leadville resumed sway early today, after a brief respite during the night. However, wind and cold had abated, and conditions were more favorable for the work of breaking down the snow barriers which have closed the railroads and cut many mountain towns off from communication with the outside world. On the Colorado Midland a large force of men succeeded in breaking the blockade at Snowden and brought in thirty cars of coal. Midland people believe that by tomorrow they will have their road entirely open. West of Leadville the railroads are still tied up tight. In the canyon of the Grande there have been snow slides, one of them 450 feet in length and 35 feet deep.

Marshall Pass is again closed, but the rotary is bucking drifts and the narrow gauge may soon be open. Down on Cumbre Pass, the storm has put an end to railroading for several days. On the South Park line trains are running as far as Grant, Colo., Breckenridge, Okonoko and all towns on the high line to Leadville are completely isolated; in some of them fuel and provisions are becoming scarce.

Aspen, Colo., Feb. 10.—About two feet of snow fell yesterday, and the mountain trails and railroads are completely blocked. People living at the foot of Aspen mountain are moving out to escape the danger of impending snowslides. Several buildings in the city have collapsed under the great weight of snow, but no serious accidents have occurred.

Chicago, Feb. 10.—The cold weather claimed numerous victims during the day. Two men were frozen to death. Charles Jacobson died from cold and exposure and the body of an unidentified man was found dead on the sidewalk at 5,145 Halstead street. All others sustained frost bites, some serious.

Pittsburg, Feb. 10.—There were three fatalities in this vicinity, as a result of the cold weather. They are: Hugh Gallagher, miner, froze to death, while on his way home from work; John Gillespie and Patrick O'Grady, found dead today in a shanty which they had fitted up for their protection from the cold.

Philadelphia, Feb. 10.—The cold weather last night and today in this city broke all existing records of the weather bureau during its twenty-nine years of existence, and while beyond that period there were no authentic data, it is said that today's minimum temperature—6 below zero—was the lowest, with one exception, since Feb. 17, 1897. George Ste-

art was found dead from cold in a stable this morning, and there are a great number of prostrations, some of which are likely to prove fatal. Extreme cold general throughout Pennsylvania.

Butte, Mont., Feb. 10.—The second blizzard struck Montana this morning, and soon the thermometer dropped below zero. Great falls of snow are reported from all over the state.

Omaha, Neb., Feb. 10.—The temperature tonight is 10 below, and still falling. A stiff north wind is blowing and fine hard snow is falling. Reports from outside the city tell a similar tale.

## SOLDIERS BURIED IN CUBA.

TO BE AT ONCE REMOVED TO THE UNITED STATES, AT GOVERNMENT EXPENSE.

Washington, Feb. 10.—The war department, after long and careful work, has made up what it believes to be a full and complete list of the deal of the Cuban and Porto Rican campaigns who are still interred in Cuba. Appropriations have been made to have these bodies removed to the United States; and the Roumanian, with a large force of undertakers, has started for Porto Rico to begin this work. War department so far has received applications from the friends and relatives of about three hundred dead, who wish to take charge personally of the bodies for private burial. The quartermaster general's office would like to receive the names and addresses of any other persons who are authorized to take charge of bodies on their arrival in the United States. Where such requests are received, bodies, on their arrival in New York, will be shipped direct to address indicated and turned over to friends. The whole expense of transportation is being stood by the government. Bodies not claimed by relatives will be given honorable military interment at Arlington.

## MORE FIGHTING AT MANILA.

'Tis a Sicken Story—Poorly Armed Natives Mowed Down by Machine Guns, Shells and Rifles.

Villages Burned, the Inhabitants Slaughtered, or Driven Out, and All in the Name of Liberty and Humanity.

## GLORIOUS SUCCESS OF OUR FLAG.

Washington, Feb. 10.—The following dispatch from General Otis was received tonight:

"Manila, Feb. 10.—The insurgents have collected in considerable force between Manila and Calococan, where Aguinaldo is reported to be, and threatened an attack and uprising in the city. This afternoon I swung the left of McArthur's division, which is north of Pasig river, into Calococan, driving the enemy easy. Our left is now at Calococan. Our loss is slight; that of the insurgents considerable. Particulars in the morning. The attack was preceded by a half hour's firing from two of Admiral Dewey's vessels." (Otis)

Manila, Feb. 10.—The American forces this afternoon made a combined attack upon Calococan and reduced it in short order. At a signal, the monitor Monadnock opened fire from the bay with the big guns on her forward turret on the earthworks with great effect. Soon after the Utah battery bombarded the place from the land side. The rebels reserved their fire until the bombardment ceased, when they fired volleys of musketry as the Montana regiment advanced in the jungle. The Kansas on the extreme left, with the Third artillery deploying to the right, charged across the open, carried the earthworks cheering under a heavy fire. Supported by artillery at De La Lome church, the troops further advanced driving the enemy, fighting at every step, right into the town line, and penetrated to the presidencia and lowered the Filipino flag at 5:30. The enemy's sharpshooters in the jungle on the right fired at long range on the Pennsylvania regiment, but were soon silenced by shrapnel, and the Pennsylvania men remained in the trenches. As the Americans advanced they burned the native huts. The rebels were mowed down like grass. The American loss is slight.

Washington, Feb. 10.—For reasons they refuse to divulge, the officials expect that the attempt to land troops at Hilo will be postponed. It is thought it may be considered best to give the Hilo insurgents time to learn of Aguinaldo's ill success first, in the belief that they will be less ready to try conclusions with the American troops. Foreign interests there may also complicate matters.

The president sent a message to congress today urging the imperative necessity for the construction of a cable across the Pacific.

The house, in committee of the whole, resumed consideration of the sundry civil appropriation bill.

Allen, in the senate, offered a resolution for the election of senators by popular vote; also a resolution reaffirming that the doctrines, principles and declaration of independence are to be adhered to, not only in this country, but to be deemed universal. It went over.

## BILL FOR A LIMITLESS PAROLE.

St. Paul, Feb. 10.—Senator Wilson today introduced a bill into the senate which will practically effect the pardoning of the Younger brothers, if it becomes law. It is to amend the parole in this state so that prisoners sentenced for life, and who may have served over twenty years in prison with a good prison record, may be granted by prison managers a parole limitless as to geographical restriction. Ordinary parole requires the prisoner to remain within the boundaries of this state.

## CZAR'S PEACE CONVENTION.

Washington, Feb. 10.—Pierre, United States charge d'affaires at St. Petersburg, cabled the state department that the conference proposed by the czar, looking to a disarmament of the nations, will be held at The Hague.

## NICARAGUA CANAL BILL.

Will be Offered as an Amendment to the Sundry Civil Appropriation Bill.

TO GET IT BEFORE THE HOUSE DURING THIS SESSION.

PENSION GRANTED TO THE DAUGHTER OF PRESIDENT TYLER.

And to ex-Senator John M. Palmer—Army Appropriation Bill Calls for \$79,094.372—Cuban Relief Cut to \$100,000.

## TO MAKE SMALL ARMS AT ROCK ISLAND.

Washington, Feb. 10.—The general debate on the sundry civil appropriation bill was concluded today. Speakers during the day touched a variety of topics, but as a rule, the debate lacked spirit and interest. During the course of the debate, Hepburn, chairman of the interest and foreign commerce committee, gave notice that he would offer the Nicaragua canal bill as an amendment to the sundry civil bill. The statement elicited applause.

Mr. Hepburn, in making his motion said he had been moved to take this course by a statement of Chairman Cannon yesterday that the bill would not be considered at this session. Mr. Hepburn argued that the amendment would be in order and could properly be placed upon the bill.

At 5 o'clock the house took a recess until 8 o'clock, the evening session to be devoted to prison legislation.

At the night session of the house, thirty-one private pension bills were passed. Among them the senate bill to pension Letitia Tyler Semple, daughter of President Tyler, which deadlocked the house a week ago, and the senate bill to pension ex-Senator John M. Palmer, of Illinois, at the rate of \$50 per month. The amount carried by the bill to pension Mrs. Semple was reduced from \$50 to \$30 per month. In the course of the discussion on the bill to pension General Palmer, it developed that he is absolutely without means, and was practically blind. Mr. Brucker, Democrat of Michigan, recalled the fact that Palmer had been the candidate of gold Democrats for president in 1896, and suggested that that might account for the fact that the bill was pushed through within a month after its introduction. Mr. Talbot, Democrat of South Carolina, moved that the pension be paid in silver. The motion was not entertained by Mr. Connolly, Democrat, of Illinois, who was in the chair. Adjourned.

The army appropriation bill was completed today by the house committee on military affairs, and by dint of pretty severe cutting of numerous items, it was brought down to \$73,094,372. It is framed on the basis of an army of about one hundred thousand men, and contemplates the enactment of the Hull bill for an increase of the army or retention of the volunteers and regulars up to that number. Specific provision is made for nine major generals and twelve brigadier generals. The larger items of the bill are as follows:

Pay of officers, \$4,000,000; pay of enlisted men, \$13,500,000; retired officers, \$1,663,566; four hundred contract surgeons, \$720,000; subsistence department, \$8,000,000; subsistence supplies to be issued to inhabitants of Cuba who are destitute and in immediate danger of perishing, unless they receive same, \$100,000; quartermaster's department, \$7,200,000; incidental expenses, telegraphing, interment of those killed in action, reward for the apprehension of deserters, etc., \$2,400,000; horses for cavalry and artillery, \$750,000; barracks and quarters, \$3,000,000; transportation of army and supplies, \$17,500,000; clothing and camp and garrison equipment, \$5,952,246; medical and hospital supplies, \$1,500,000; ordnance stores, \$1,200,000; manufacture of arms, \$800,000; establishment of plant for manufacturing small arms at Rock Island, Ill., armory, \$350,000.

The last items are entirely new and a new departure. Making small arms at Rock Island will bring the daily output of the government up to two thousand stands a day. Among the reductions made by the committee today was that on Cuban relief, from \$281,300 to \$100,000.

## NOT MUCH DONE IN SENATE.

PRESIDENT RECOMMENDS A PACIFIC CABLE.

Washington, Feb. 10.—The consideration of the legislative, executive and appropriation bill was resumed in the senate today, but at 2:45 p. m. it was laid aside for the day, and a message from the president recommending a Pacific cable was read and referred to the committee on appropriations. A bill was passed authorizing the Dakota Southern Railway company to construct a bridge across the Missouri river at Yankton, S. D. The senate then, at 3:10 p. m., went into executive session, and at 5:10 adjourned.

## ST. LOUIS REQUESTS CONGRESS

TO HELP IT OUT ON A WORLD'S FAIR FOR 1903.

St. Louis, Feb. 10.—The committee of two hundred appointed to raise funds and secure the legislature for a world's fair in 1903, centennial of the Louisiana purchase, formally organized tonight. Pierce Chouteau, great-grandson of the first settler of St. Louis, was elected chairman. Resolutions were adopted to organize a corporation to be called the "St. Louis world's fair, Celebrating Louisiana purchase centennial," with a capital stock of \$5,000,000. The delegation was authorized to visit Washington next week to apply for government recognition and financial aid.

## MORE MICHIGAN POSTMASTERS.

Washington, Feb. 10.—The president today nominated the following postmasters: Sylvester H. Gray, Muskegon; W. H. Brunson, St. Joseph.

HELD CAPTIVE. The most terrible captivity a woman can experience is to feel herself completely incapacitated for all womanly duties...

IT WAS FAIRLY ARRIVED AT. With so many of the upper peninsula towns competing for the Normal school which it is understood the legislature is going to make provision, during the present session, for establishing in this part of the state, it is safe to assume that there will be some dissatisfaction with the action of the caucus of upper peninsula members of the legislature in deciding in favor of the city of Marquette as a location for the proposed institution.

The people of Marquette have felt the force and justice of this argument against the claims of their city as a location for the proposed Normal school, and have much regretted that possession of the branch state prison in a measure debarred them from making the effort they otherwise would have made for an institution they much more strongly desired to have established here.

But since the Normal school is to come to their city by the free and unbiased action of the representatives of the upper peninsula in the state legislature, provided it is decided at this session to make provision for establishing it, our people are greatly pleased, and can be depended on to do their full share to make the institution a force for the advancement of education in this part of the state whose good influence will be felt in every city, village and hamlet of the upper peninsula.

We feel that we can ask the other points which sought to secure the school to lay aside any feeling of disappointment they may have been caused by the decision in our favor of the caucus of upper peninsula members, and to generously concede that it was fairly and wisely arrived at.

We take it for granted that the legislature will make provision for instituting the school, the necessity for it being conceded, and it having been understood that there would be no delay about passing the bill providing for its establishment if the upper peninsula members could agree on a location for it.

The current number of the Iron Trade Review of Cleveland contains this relative to sales of ore to date and the indication they give of what the output of the Lake Superior mines will be for the season of 1899: Ore sales for 1899 are already a matter of history for the most part. In the whirlwind of a week some millions of direct sales were made and other millions were set down in the usual way for furnaces having related mining interests, or owning and operating their own mines—these together making up the bulk of the 14,000,000 to 15,000,000 tons that the Lake Superior region will attempt to produce in 1899.

State of Ohio, City of Toledo, Lucas County, ss. Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure.

GRAIN-O BRINGS RELIEF to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, affects the heart and disturbs the whole nervous system.

AN IMPORTANT QUESTION. If your friends or neighbors are suffering from coughs, colds, sore throat, or any throat or lung disease (including consumption), ask them if they have ever used Otto's Cure. This famous German remedy is having a large sale here and is performing some wonderful cures of throat and lung diseases.

Nervous Weak Tired. Thousands are in this condition. They are despondent and gloomy, cannot sleep, have no appetite, no energy, no ambition. Hood's Sarsaparilla brings help to such people. It gives them pure, rich blood, cures nervousness, creates an appetite, tones and strengthens the stomach and imparts new life and increased vigor to all the organs of the body.

COMMON COUNCIL PROCEEDINGS.

[Official] Marquette, Feb. 6th, 1899. A regular session of the council was called to order by the mayor, Hon. Joseph F. Neldhart.

The recorder presented a communication from the League of American Municipalities setting forth the many advantages of the league and inviting the city to become a member.

The council unanimously consenting that a vote should be taken at this session, said appointment was confirmed by the following vote: Yeas—Aldermen Clark, Gustafson, Gray, Gorman, Hamill, Jacobs, Jones, Shea, Stevens, Smith, Tobin and Ward. Nays—None.

Approved and confirmed as follows: Yeas—Aldermen Clark, Gustafson, Gray, Gorman, Hamill, Jacobs, Jones, Shea, Stevens, Smith, Tobin and Ward. Nays—None.

Resolved, That the reward offered Oct. 28, 1898, by the City of Marquette, for the arrest and conviction of the perpetrators of the explosion at the residence of James Pendill on Oct. 25, 1898, be and the same is hereby withdrawn.

Established in 1873. CHARLES A. HAGER, FUNERAL DIRECTOR and Practical Embalmer, MARQUETTE, MICH.

ABOUT THE WAHNTA. MR. HAMBITZER GIVES SOME INTERESTING INFORMATION CONCERNING IT.

A letter received by Jos. F. Hambitzer yesterday from Frederick H. Clark, written on his arrival in Boston Tuesday, says, in speaking of the Wahnta: "Our charter under the laws of New Jersey was drawn yesterday by Charles W. F. Loring, counsel of the New York stock exchange. The charter is practically the same as the new Miners' company and will be filed in New Jersey on Thursday. The stockholders' first meeting will be either Saturday or Tuesday in New Jersey and I will have to go over. The following day the directors and the officers will be elected."

"Expect I will want to have the deeds passed either the latter part of next week or the very first of the following week. The local market is scrambling for the stock and the papers here are full of it. It looks here as though there would be a smart premium on the stock within a week."

Mr. Hambitzer today stated to the reporter that, now that subscriptions are about to be received, it is time that the public knew just what is embraced by the Wahnta. In 1852, Algernon Merryweather, a well-known geologist and scientist, made a number of geological cross sections in Ontonagon and Gogebic counties. This occupied his time for about five years.

While thus engaged he discovered a fine amygdaloid lode west of Lake Gogebic, on the top of an elevated plateau, about five miles west of the head of the lake. He sank two shafts or pits, one of which was sunk to a depth of forty feet and was full of mass copper and barret rock and the surrounding rock a soft greenish amygdaloid trap. The walls were well defined and remarkably smooth. Lack of facilities for developing the property compelled Mr. Merryweather to abandon the same; but it is said to have been his pet discovery; he named it the Pitus, signifying the God of Wealth. Mr. Ayers Stockley of Houghton was associated with Mr. Merryweather and knows of his confidence in his pet discovery; but Merryweather died and the property passed into the hands of Saginaw parties who have sold the same to the new company. The Wahnta, with \$350,000 in the treasury out of the \$500,000 to be derived from the sale of most stock, is one of the best prospects and promising ventures yet all time to come, putting in a plant large enough to furnish water for fire protection and for all other purposes.

A committee was finally appointed which will take the entire subject under consideration, including the cost of pumping sites, mains and pumps, filtering plants, etc., and will also confer with the officials of Hancock in regard to the project for a combined Lake Superior plant, which seems demanded by the gloriously bright prospects for both towns. The committee consists of President Croze, ex-officio chairman, and Trustees William Van Orden and F. J. Bawden. The question of street improvements was next considered and the general sentiment seemed to be in favor of bonding the village for \$50,000 to be employed in the improvement of the "boulevard," or Sheldon street, taking out the difference in levels now existing in the block of that street near the Gazette office and possibly paving the entire street. It was recognized that considerations of health demanded the change in levels, filth of every kind finding its way from the hills above into the crevices of the rocks with which the upper side of the street was built up in the early days, and it was finally decided to present a resolution submitting the question to a vote of the people at the regular election on March 13 at an adjourned session of the village board to be held on the 23rd inst.

A communication from H. W. Beatley of Marquette, asking that action upon gas and electric railway franchises be postponed because of his inability to be present at this meeting was laid on the table, and after passing upon the usual list of bills the board adjourned until the 23rd inst.

Work is progressing at the Baltic and the chances are that rock will be milled about the first of April. The management, however, is yet undecided as to the exact time, even should the plant be in condition to handle the rock, for the reason that it is thought advisable, owing to the variable character of the lode, to have a larger number of openings from which to obtain stamp rock, in order that the barren streaks in the vein need not be mined. The permanent shafts, which are now being sunk on the footwall, have necessarily been sunk through stretches of trap rock caused by its irregularities. The drifting of course, has in places been through comparatively barren ground and intrusions of trap rock, and consequently the aggregate length of drifts would not represent the length of good stopping ground. Under these conditions haste in attempting to stamp at this time the rock on hand would be a very unfair test, as to what may be expected in the future. It must be remembered that a large portion of the work done during the early part of 1898 was simply exploratory, to determine the width, strike and character of the lode and that much of the sinking and drifting done gives no stopping ground. For instance, the adit level, which is being extended for the sole purpose of taking care of the surface drainage in the future, was not located with a view to early production, nor could it be without disadvantage to future operations. All then, that offers stopping ground is the second level, and this cannot be stopped to any extent until extended some distance from the shafts. Surface work has been interfered with this winter by the remarkable severe weather, and delays have been experienced in receiving machinery. In some instances running up to two months after the time contracted for delivery. A great deal of the success of the Wolverine from the start was due to the fact that before the mill went into commission the mine was well opened ahead, so that rock could be properly selected and handled with economy. A great injustice can be done a mining property by endeavoring to make a product and it must be remembered that there was never a copper mine that became a producer within a year or so after exploratory work on it was begun.

PROGRESS AT THE BALTIC. MANAGEMENT INCLINED TO GET GOOD AND READY BEFORE MAKING A START TREATING ROCK.

Work is progressing at the Baltic and the chances are that rock will be milled about the first of April. The management, however, is yet undecided as to the exact time, even should the plant be in condition to handle the rock, for the reason that it is thought advisable, owing to the variable character of the lode, to have a larger number of openings from which to obtain stamp rock, in order that the barren streaks in the vein need not be mined. The permanent shafts, which are now being sunk on the footwall, have necessarily been sunk through stretches of trap rock caused by its irregularities. The drifting of course, has in places been through comparatively barren ground and intrusions of trap rock, and consequently the aggregate length of drifts would not represent the length of good stopping ground. Under these conditions haste in attempting to stamp at this time the rock on hand would be a very unfair test, as to what may be expected in the future. It must be remembered that a large portion of the work done during the early part of 1898 was simply exploratory, to determine the width, strike and character of the lode and that much of the sinking and drifting done gives no stopping ground. For instance, the adit level, which is being extended for the sole purpose of taking care of the surface drainage in the future, was not located with a view to early production, nor could it be without disadvantage to future operations. All then, that offers stopping ground is the second level, and this cannot be stopped to any extent until extended some distance from the shafts. A great deal of the success of the Wolverine from the start was due to the fact that before the mill went into commission the mine was well opened ahead, so that rock could be properly selected and handled with economy. A great injustice can be done a mining property by endeavoring to make a product and it must be remembered that there was never a copper mine that became a producer within a year or so after exploratory work on it was begun.

DEATH OF H. C. PARKE. COPPER COUNTRY PIONEERS SINCERELY MOURN THE UNTIMELY DEATH OF THE GREAT MANUFACTURING CHEMIST WHO WAS ONE OF THEM.

The death of H. C. Parke, of the great firm of manufacturing chemists, Parke, Davis & Co., of Detroit, at Lamesa, near San Diego, Cal., on Wednesday from heart failure, removes one whom the pioneers of the copper country have always regarded as one of their number. He having passed fourteen or fifteen years as clerk and financial agent of the old Cliff mine, of which his uncle, Marquis W. Kelsey, was the superintendent,

and at Hancock, where he was in business before establishing himself in Detroit. Hervey Coke Parke was born Dec. 13, 1827, at Bloomfield, Oakland county, Michigan, and was named after his uncle, Captain Hervey Parke, well known from his connection with the earlier governmental surveys of Michigan. His father was a hard-working country physician and died in 1856 with his wife, both the victims of an epidemic.

In 1862 Mr. Parke, after clerking in Adrian and Pontiac stores, came to the upper peninsula, where he passed eleven years at the Cliff mine, marrying in 1856 Fannie A. Hunt, of Keweenaw county. In 1863 Mr. Parke removed to Portage Lake, opening a hardware store at Hancock, of which village he became the first president. Three years later he sold out and started for Detroit on the ill-fated steamer Pewabic, which, copper laden, still reposes on the sands at the bottom of Lake Huron whither she was sent by her collision with the steamer Meteor. Mr. Parke and his family escaping in the boats which transferred them to the Meteor.

In Detroit Mr. Parke became a partner with S. P. Duffield in the firm of Duffield, Parke & Co., manufacturing chemists. Five years later, in 1868, the firm became Parke, Davis & Co., including H. C. Parke, George S. Davis, John R. Grout and William H. Stevens. In 1876 the firm was incorporated with a capital of \$500,000, increased a year later to \$600,000. Under the able management of George S. Davis and Mr. Parke the company grew to be one of the largest institutions in Detroit, paid enormous dividends, and sent its products to all parts of the globe. Mr. Parke was president from its organization to the time of his death, and is understood to have left a comfortable fortune. His first wife died in '68, leaving several children. In '73 he married Mary M. Mead of Almont, by whom he also had several children. He was prominent in Episcopal church matters for the past twenty-five years, being one of the pillars of St. John's church, Detroit.

He arrived in California on Saturday last for his usual winter visit and was taken with severe chills soon after. He had a ranch near San Diego and his son, I. S. Parke, was with him at the time of his death. The Detroit Journal, in speaking of Mr. Parke's business affairs, says: "It was after about a year of residence in Detroit that he engaged in business with S. P. Duffield, M. D., under the firm name of Duffield, Parke & Co., manufacturing chemists. The firm continued under that name for two years, and in 1868 was succeeded by Parke, Davis & Co. The firm was composed of Mr. Parke, George S. Davis, John R. Grout and William H. Stevens. In 1876 the firm incorporated under their original title, and the original stock was increased from \$50,000 to \$500,000. "In 1887 the capital stock was further increased to \$600,000 and several of the employees were rewarded for long service with an interest in the concern, which had become one of the largest establishments of the kind in the world. "Mr. Parke has been president of the institution from the time of its organization. The vastness of the business is well known to the people of this city. It has agents in all parts of the globe and its reputation for honesty is so great that any compound with the label of Parke, Davis & Co. on it is considered guaranteed as to purity. "The capital stock of the concern is now over \$1,000,000, and since the retirement of Mr. Davis about three years ago the controlling interest has been in the hands of the Buhs, although Mr. Parke had retained his interests and was president of the corporation at the time of his death."

GRAND MASQUERADE BALL. HOUGHTON FIREMEN WILL MAKE MERRY ON MONDAY EVENING AT ARMORY HALL.

The grand masquerade ball of Continental Fire Co., No. 1 of Houghton will be given at Armory Hall on Monday evening next and the long-awaited event is expected to far eclipse anything of the kind ever before attempted in Houghton. The largest purse yet, \$100, being offered in prizes as follows: Best fancy costume, \$20; second, \$15; third, \$8; fourth, \$5; fifth, \$2; best comic costume, \$20; second, \$15; third, \$8; fourth, \$5, and fifth, \$2. The fun will be commenced in the afternoon by a grand parade en costume of the Houghton fire department headed by the famous Calumet band of the Fifth Regiment, M. S. T., of eighteen pieces while Chief Voetsch will be followed by the wildest aggregation of stalwart cake walkers and hay-

seeds that ever made a Josh Spruceby look envious. The committee having the arrangements in charge consists of President George W. Quirk, of the department, Treasurer Casper Brand, Chief Louis Voetsch, Patrick Murphy, Ed Berkold, Joseph Dittler and Richard Hooper and great satisfaction is felt at their being finally able to secure "the big band" for the event. Masks will be removed at 10:30 o'clock when the judges will award the prizes and general dancing will follow. Supper will be served by the Lady Foresters of Houghton, which guarantees its excellence and the price of ball tickets has been placed at fifty cents, children under twelve, twenty-five cents.

WHIST LEAGUE TOURNAMENT. UPPER PENINSULA WHIST LEAGUE WILL HOLD A TWO-DAY MEETING AT HOUGHTON. On Monday the teams of the Upper Peninsula Whist League will meet in Houghton as the guests of the Portage Lake Whist club for a two-days' tournament. Marquette, Escanaba, Ishpeming, Negaunee, Sault Ste. Marie, Ironwood, Iron Mountain, Menominee, Calumet, Lake Linden and Hancock will be represented by teams and the great struggle will be for the U. P. whist trophy, now held by the Soo club which won it at the last tournament, which was held in the city by the rapids. The following will be the program of the two days' meet, special rates being given on all railroads: Monday—Business meeting at Hartman's Hall, 2:30 p. m. Play for U. P. Whist league trophy immediately after the business meeting. Evening play begins at 8 o'clock. Play for Soo trophy for pairs will occur during the regular tournament play, ladies being eligible. Tuesday—Visit the Calumet & Hecla smelting works and stamp mills at Lake Linden in the morning and the mines at Calumet during the afternoon, returning to Houghton at 6 o'clock where dinner will be served at the Onigaming Yacht club, a dance following.

CAUSED BY DEMAND. ACTIVITY IN COPPER PRODUCTION SPRINGS FROM NATURAL CAUSES IN THE OPINION OF IRON AND STEEL. We take this interesting article on copper from Iron and Steel, a publication of high rank in the class to which it belongs: "A review of the year's copper market shows remarkable activity in that industry. The production of the United States reached 546,000,000 pounds, an increase of 36,000,000 over 1897. The greatest output of any one state was produced by Montana, which mined 219,250,000 pounds, against 237,158,000 pounds in 1897, a decrease of 17,900,000 pounds, due to a falling off in Anaconda shipments. All other mines in the state maintained their regular production. The reputation of Montana as a copper producing state has become world-wide and a great advertisement for the west. The output for 1898 will doubtless show a large increase over last year, as some new producers have been opened under the influence of higher prices which now prevail. "Production by the Lake Superior mines increased from 145,840,000 pounds in 1897, to 159,148,400 in 1898. A number of new Michigan mines have been opened and commenced the new year under most favorable conditions for increasing the output. Mining in the lake region has been very active, and by the advantage of the improved systems which have been inaugurated in the past few years production is constantly increasing. More money was paid out last year in dividends in this industry than in any other line of stocks representing equal capital to be found in the world. Arizona is gaining great prominence as a copper producer. The product rose from 81,015,000 pounds in 1897 to 111,183,200 in 1898, an increase of over 30,000,000 pounds. Miners are extending the scope of their operations and copper promises to bring greater prosperity to all kinds of business in the mining districts. Modern methods introduced are increasing the value of copper properties in Colorado and Wyoming, where production is growing to large proportions. Production in Arizona from 1893 to 1896 was between 43,000,000 and 45,000,000 pounds annually, doubling on the depreciation of silver in 1896 to 72,740,000. "The consumption of copper for the manufacture of wire has increased in all directions, and that for engineering and shipbuilding purposes has become unpre-

IMPORTANT CABINET MEET

The Report of the War Investigation Commission is Discussed With Interest.

A CAN OF ROAST BEEF IS PRODUCED IN THE MEETING.

IT IS TESTED, AND FOUND IN PERFECT CONDITION.

Members of the Cabinet Declare That the Report is Not a Whitewashing Affair—Some Censure in It.

GEN. MILES OUGHT TO HAVE REPORTED.

Washington, Feb. 10.—The cabinet discussed the report of the war investigation commission informally today.

It was agreed that the Cubans could have the three million dollars to be paid them in any kind of money they wished.

As to the matter of calling an extra session of congress, it was agreed that it would be necessary in case of the failure of the army reorganization bill.

The members of the cabinet declared the report of the war commission to be in no sense a whitewashing report. On the contrary, it is stated that the commission has not failed to point out where there was error or fault.

LORD BERESFORD IN 'FRISCO.

AUTHOR OF THE OPEN DOOR POLICY HAS COME TO THIS COUNTRY TO FEEL THE PUBLIC PULSE.

San Francisco, Feb. 10.—The New Japanese liner America Maru arrived here today from China and Japan, via Honolulu.

Sure Cure for Colds. When the children get their feet wet and take cold give them a hot foot bath, a bowl of hot drink, a dose of Ayer's Cherry Pectoral, and put them to bed.

Ayer's Cherry Pectoral. Every doctor knows that wild cherry bark is the best remedy known to medicine for soothing and healing inflamed throats and lungs.

Dr. Ayer's Cherry Pectoral Plasters over your lungs. The Best Medical Advice Free! We now have some of the most eminent physicians in the United States endorsing our plasters.

...will provide it in greater abundance than it has ever been provided before, besides insuring that it shall not be wasted as it is now.

L. A. W. ASSEMBLY CLOSED.

THE ASSEMBLY WILL CONTINUE TO CONTROL RACING, PROFESSIONALS ENTITLED TO REPRESENTATION.

Providence, R. I., Feb. 10.—To continue control of bicycle racing, both professional and amateur, to exclude the former from membership, but to allow them representation at the national assembly, and, according to President Keenan, representative on the racing board, were the main results of the 1899 national assembly of the League of American Wheelmen.

San Francisco, Feb. 10.—The New Japanese liner America Maru arrived here today from China and Japan, via Honolulu.

PEACE TREATY SIGNED.

WILL NOW BE SENT TO MADRID FOR ENDORSEMENT OF SPANISH GOVERNMENT.

Washington, Feb. 10.—The official copy of the treaty of peace with Spain, bearing the signatures of the Spanish and American commissioners, which was ratified by the senate last Monday, as certified by Vice President Hobert, was signed by the president and Secretary Hay at 2:35 o'clock this afternoon in the library of the executive mansion.

REVOLUTION IN NICARAGUA.

Managua, Nicaragua, Feb. 10.—President Zelaya is sending General Irene Estrada, from San Uevaldo in the direction of Rama, ninety miles distant, with about a thousand soldiers, several cannons, and good equipments.

New York, Feb. 10.—General A. D. Strauss, consul general of Nicaragua in this city, today received a cablegram from the president of Nicaragua stating that all points on the eastern or Atlantic coast of that state had been closed to commerce by his orders.

DUN'S AND BRADSTREET'S.

Reports Both Show a Constantly Increasing Business, and Upward Tendency.

LARGE EXPORTS OF CEREALS AT HIGHER PRICES.

DEMAND FOR IRON PRODUCTS BEYOND CAPACITY OF THE MILLS.

In the Copper Market, the Quotations Are Not Far from Those of the Great French Corner.

DUN'S PLEASING MARKET PREDICTIONS.

New York, Feb. 10.—R. G. Dun & Co.'s Trade Review for this week to-morrow will be: "The solid basis for good business has not been shaken by the speculative reaction."

The leading grain futures ranged as follows: Wheat, May, 72 3/4; July, 73 3/4; Sept., 74 3/4; Dec., 75 3/4. Corn, May, 36 3/4; July, 37 3/4; Sept., 38 3/4; Dec., 39 3/4.

BRADSTREET TELLS THE SAME STORY.

Bradstreet's Review will say: That some favorable effects are likely to follow the atmospheric change of the week is evidenced by reports of improved distribution at retail of heavy winter goods.

NEW YORK MONEY.

New York, Feb. 10.—Money on call, steady, 2 1/2%; prime paper, 2 3/4%; exchange, steady; demand, 4 1/2% to 5%; sixty days, 4 1/2% to 5%.

KAISER BILLY DON'T APPROVE.

London, Feb. 10.—The Daily Mail's Berlin correspondent says: "Emperor William disapproves of the continuance of the existing conditions in Samoa, and will almost certainly propose a conference of the three powers after he has received the statement of Doctor Raffael, president of the municipality of Apia."

Calumet Baking Powder. Perfection in Quality. Moderate in Price.

THE GRAIN MARKET.

Chicago, Feb. 10.—Wheat was dull and within a cent range, closing at the bottom one cent under yesterday.

Corn was active within a 1/2 cent range, closing 1/4 from the bottom, and 1/2 above yesterday.

Oats were active and irregular within 1/2 cent range, closing 1/4 from the bottom at yesterday's figures.

The leading grain futures ranged as follows: Wheat, May, 72 3/4; July, 73 3/4; Sept., 74 3/4; Dec., 75 3/4.

Closing Cash Quotations: Wheat, weak, Corn, steady; No. 2, 35 3/4; No. 3, 34 3/4.

Receipts—Flour, 14,000 barrels; wheat, 65,000 bushels; corn, 400,000 bushels; oats, 225,000 bushels.

Shipments—Flour, 13,000 barrels; wheat, 21,000 bushels; corn, 174,000 bushels; oats, 110,000 bushels.

NEW YORK STOCK MARKET.

New York, Feb. 10.—The market left off with advances in leading specialties and prominent railways, with tone unsettled. Dealings were largely professional, and were in the nature of contracts.

BOSTON QUOTATIONS.

Table with columns: Opening, 12 m., Closed. Includes items like Adventure, Ashland, Ashcroft, etc.

METAL PRICES.

New York, Feb. 10.—Tin went up with a whirl today on a firm set of advances from the west.

BALTIMORE SOLD TO BROOKLYN.

New York, Feb. 10.—At a conference between the Baltimore and Brooklyn base ball managers today, the deal transferring the Baltimore club to Brooklyn was consummated.

THE IRISHMEN KILLED HIM.

Chicago, Feb. 10.—Policeman Edward Leach was shot and killed today by Patrick Furlong, a fellow officer, during a quarrel over Irish and English politics.

TODAY'S WEATHER.

Washington, Feb. 10.—The following is the weather forecast for tomorrow for Upper Michigan: Fair; continued cold; fresh to brisk westerly winds.

GOING TO DIG FOR COAL.

Leadville, Colo., Feb. 10.—A thousand men went to work this morning to clear the tracks of the Denver & Rio Grande, to break the coal embargo.

WILL KEEP THE CAROLINES.

Madrid, Feb. 10.—The Spanish government has decided not to sell the Caroline Islands.

WHEN THIEVES FALL OUT.

Chicago, Feb. 10.—Sol Von Praag, a saloon keeper, levee politician and sporting man, announced tonight that he would apply to the court for an injunction stopping the six-round boxing contests which are scheduled to be held tomorrow night in the gymnasium of the aristocratic Chicago Athletic club.

PEOPLE LOVED GEN. GARCIA.

Havana, Feb. 10.—About three hundred wreaths and floral emblems, from individuals and societies, have been piled at the foot of the bier of General Garcia, whose body arrived here from the United States yesterday afternoon.

would not allow the man to box here, because of the unsavory record they made in their New York fight. He declared the proposed fight was not in good faith, and he would not allow it.

YELLOW FEVER SCORE.

Havana, Feb. 10.—Major Kneeder reported today from Guanajay some deaths from yellow fever among the members of the Two Hundred and Second New York, but no new cases.

RABBI HIRSCH TO LEAVE CHICAGO.

New York, Feb. 10.—Jas. Selligman, president of Temple Emanu El congregation, announced today that Dr. Emil G. Hirsch of Chicago would succeed Dr. Gotthell as the rabbi of the congregation.

MORE OF AGUINALDO'S COMMISSIONERS.

San Francisco, Feb. 10.—On the steamer from Yokohama today came "General" E. Riego De Dios, and Senor M. Rivera, who are Aguinaldo's "special commissioners" to Washington.

THIS TRUST ONLY \$25,000,000.

TAKE NOTICE:

TO ALL WHOM IT MAY CONCERN: That by order of the Circuit Court for the County of Marquette in chancery, the corporation known as Iron Mountain Mining Company has been dissolved, and I have been appointed as Receiver of the assets of said corporation for distribution, according to the statutes of Michigan in such case made and provided. That the debts have been fully paid and the corporate interests have been closed, and the assets that have come into my hands as such Receiver are now ready for distribution to the original stockholders, their heirs or assigns, as their interest shall appear.

This is to notify all who claim interests under and through the present stockholders of record that they must notify me within thirty days from and after this date of the interest which they claim, and through whom, as I shall at the expiration of said time distribute the said assets to the stockholders as they appear of record on the books of the company.

Dated, this 16th day of January, 1909. ALFRED KIDDER, Receiver.

THE NURSE'S STORY.

Some Startling Facts are Laid Before the Public.

Wonderful Discovery Made by One Who Has for Twenty Years Ministered to the Sick.

Miles, Wis., Feb. 6.-Louis Hughes, who for a score of years has been a nurse, tells how he saved himself from death and also made a most important discovery while ministering to the sick and dying.

"I was suffering with my kidneys," says the nurse, "and my experience with regard to this trouble was that it was incurable. I had no faith in any medicine, but I heard so much about Dodd's Kidney Pills and the wonderful cures they had performed that I determined to try them. In about five days after using the pills I found that the dull pain in my back was less heavy, and gradually my back seemed to get stronger. I have felt less pain when bending or rising. My urine is much freer and color decidedly better. In fact, they acted with me as a tonic. They seemed to tone my whole system. I have been a nurse for the past twenty years and have had many dropsical cases, and Dodd's Kidney Pills would be good in such cases, as they cause a free flow of the urine."

Thousands of cases of Dropsy, Heart Disease, Diabetes, Rheumatism, Lumbago, Sciatica, Neuralgia, Gravel, Stone in the Bladder, Diseases of Women, Paralysis and Heart Failure, have been cured by Dodd's Kidney Pills.

Sold by druggists at 50 cents a box, or six boxes \$2.50. Sent by mail on receipt of price by Dodd's Medicine Co., Buffalo, N. Y.

HATHWAY & PETERS.

ANTON MANTHEI, 157 Washington street, wholesale and Retail-Meat. Butter and Eggs.

MILITARY HANDKERCHIEF.

Company L Soldier Brings Home a Rare Curio from the Cuban Campaign.

SPANISH SOLDIER HAD HIS INSTRUCTIONS ON HIM.

Copy of the Times of Cuba, First American Newspaper Issued on the Island-Publishers Have Their Troubles Too.

IRATE SUBSCRIBERS STOP THE PAPER.

If the curious which the boys of the Thirty-fourth collected while they were in Cuba could all be brought together in one place they would make an interesting museum. All the boys brought home more or less mementoes of the campaign, and not the least interesting of the lot are two which were brought back by an Ishpeming volunteer who was a member of Co. L.

One of these is a big square of cloth, a good deal like a bandana handkerchief, which the Spanish soldiers wore around their necks, and the other is a copy of The Times of Cuba, the first American newspaper printed on the island. The issue which he has is No. 8, and it contains among other things a notice of the Thirty-fourth Michigan.

The handkerchief, if it may be called that, is a square of yellow cloth surrounded by a red border and containing an inner square, also of yellow and surrounded by a border of red. The inner square is full of diagrams and printed matter explaining the use of the Remington rifle.

On the outside of the inner border, extending clear around the handkerchief, are a series of small pictures intended to show the young Spanish soldier how to conduct himself on the battlefield and in other circumstances of warfare. The most noticeable thing about this series of illustrations is the number of pictures showing soldiers firing on the enemy from behind trees and from other protected locations. The views are apt illustrations of Spanish warfare as it was exemplified in the struggle for the freedom of Cuba.

The paper, the Times of Cuba, is a four-column folio, published daily in English and Spanish. The front page contents are printed in English, the inside is given to the Spanish, and the back page contains advertisements only. There are a few ads also on the inside pages. Some of the advertisements are in one language and some in another.

The Times prints this item regarding the Thirty-fourth: "Yesterday we were visited by the Rev. W. W. Wright, chaplain of the Thirty-fourth Michigan volunteers. He brought us a few words from our old friends, Colonels Peterman and Bennett, who are doing their duties earnestly and quietly, without complaint. Colonel Peterman is now doing duty as provisional brigadier commander, having under his command the Thirty-third and Thirty-fourth Michigan, and Ninth Massachusetts regiments, who were commanded by Colonel Duffield, who was sent home on account of illness.

"Major Lattimer and Winans and Adjutant McNaughton have been allowed to return to the United States owing to illness. Major Bobb is sick on the hospital ship. Mr. Wright has had the fever but has fully recovered. The regiment has now but one major, Hodskin, who has not been sick a single day, but who has been attending to his duties with that heroic sense of duty found in the well trained soldier. The regiment has lost twenty-one men from sickness since its arrival in Cuba. The general health of the men, however, is now much better than formerly."

The publishers of the Times of Cuba have their troubles just the same as publishers in this country, and find it impossible to run an independent paper in a way that will suit everybody. A half column is given up to telling about a baker who withdrew an advertisement because the paper mentioned the exorbitant price at which bread was sold in the city, and about three subscribers who cancelled their subscriptions.

One Spaniard cancelled because he was afraid the editors of the Times were Mambisis, and two subscribers who were Mambisis cancelled because they thought the editors were Spaniards. The article concludes with the statement that in spite of these cancellations the subscription list is rapidly growing, and that it looks very much as if the people

FIRE AT FRANKFORT, KY.

Frankfort, Feb. 10.-The governor's mansion burned to the ground at noon today.

A CHALLENGE.

I hereby challenge any man in Michigan for a straight catch-as-catch-can or a mixed match Cornish and catch-as-catch-can for from \$200 to \$500 a side, two best out of three falls. John Rowett preferred, him to name the amount, style and place he prefers to wrestle at any time within sixty days. Anyone accepting this challenge please notify me at Kalspell, Montana.

JACK O'NEILL, Champion Catch-as-catch-can Wrestler of Northwest and British Columbia, Kalspell, Mont. (2-11-10)

FREE OF CHARGE.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Stafford's drug store will be presented with a sample bottle of BOSCHEE'S GERMAN SYRUP, FREE OF CHARGE. Only one bottle given to one person, and none to children without order from parents.

No throat or lung remedy ever had such a sale as BOSCHEE'S GERMAN SYRUP in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only throat and lung remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by all druggists in this city.

You'll never get tired, fagged out, disappointed, unhappy or make mistakes in marriage, if you use Rocky Mountain Tea. Stafford Drug company.

SUMMER AT PRESQUE ISLE.

Coming Season Promises To Be a Big One at the Island.

It is a long time till summer, but those who are interested in Presque Isle are already beginning to talk about the old season that popular resort has in prospect.

These predictions are based on the activity which will prevail in the up-thrading mining towns, and the better wage rate which will be paid. The miners will be earning about \$25,000 more a month than they have been, this money will find its way among all the people and put hundreds in position to allow themselves short outings.

There is no trip which they can take so economically and which will give them so much pleasure as a day at Presque Isle. The round trip rate is but fifty cents. Another quarter will provide a boat ride on the lake. Those who like dancing can enjoy that pleasure at the pavilion. Besides these more artificial pleasures there are the never wearying natural beauties of the island.

IN "A DOLL'S HOUSE."

Miss Clara Thropp Will Appear Here Next Saturday as Nora.

While Miss Clara Thropp, the best and brightest of American comedienne, was appearing in London at the Duke of York's theater as Nora in "A Doll's House," Clement Scott, the great English dramatic critic, visited Miss Thropp on the stage between the acts, and the next day he wrote the following lines in his paper regarding the comedienne: "As merry as a lark and as twittering as a swallow, who has flown from the home of its berth, to gladden our hearts with its soft music."

Miss Thropp will shortly appear in this city as Nora. "A Doll's House" as presented by her is regarded as the most remarkable play of the century and has created broadsides of newspaper discussion both in America and Europe. She is supported by an admirable company.

IN THE CHURCHES.

Subjects of Sunday's Sermons in the Various Houses of Worship.

Baptist-For the morning the pastor will have for his subject, "Lessons from the Life of Lincoln;" for the evening it will be, "Feeble Faith Appealing to a Savior." Sunday school at 12 o'clock; Young People's society at 6:45. A cordial welcome to all.

Methodist-In the morning will be held the second quarterly communion service. The sermon subject will be, "Man's Judgment versus God's Judgment." "Lincoln" will be the topic of the evening sermon. The subject of the Eyworth league service will be, "The Joy of Finding the Lost."

First Church of Christ (Scientist), church hall, 109 Spring street-Service 10:30 a. m., subject, "Mind." All are welcome.

St. Margaret's mission, South Marquette-Sunday school at 2 p. m. Evening service at 7:30.

SIGNING PETITIONS.

People Lending Their Influence to Repeal Closed Season Law.

Upwards of a hundred names were secured yesterday by W. B. Harris, of the Lake Superior Fish company, to petitions praying the legislature to abolish the present closed season law, which was designed, nominally anyhow, for the protection of whitefish and trout during the spawning season.

Signatures to the petitions were secured at the instance of the Michigan Commercial Fishermen's association. The petitions signed here are to be sent to Senator Maitland and to Representatives Gordon and Waters. The instructions are for the petitions to be sent so they will reach Lansing not later than Monday. This leads to the inference that the bill to repeal the law is soon to come up.

BE CURED OF GRIP!

The Wonderful Results Obtained in the Case of Supt. Davidson.

Now, what is the grip? Can it be avoided or prevented? And can it be cured? Grip is characterized by a continued fever, by a tendency to inflammation of the membranes of the digestive and often the respiratory tracts, by pain in the muscles, and by debility.

The grip in individual cases varies from a slight indisposition to severe forms with grave symptoms—these variations depending wholly upon the health, age, temperament or nervous condition of the person. Those predisposed to rheumatism suffer great pain in the muscles; persons of nervous temperament become low spirited, often have hysteria, and, if not closely watched, have been known to commit suicide. Several cases of this sort have been reported this month in the newspapers. Headache is a constant symptom. The bowels are generally constipated. Whatever form the disease takes there is invariably extreme prostration. The danger to persons in previous healthful condition is slight.

It has been absolutely proven that there is one certain preventive of serious cases of grip; and that there is one remedy for persons suffering with it, or beginning to be convalescent from its attack. The unexampled public demand for

Paine's celery compound during the last two months—and the proprietors of this remedy have never known so great a call for it—has been due to its use by thousands of people for whom it has been prescribed by intelligent physicians, to restore the patient's vitality, to purify the blood of the enervating poison, to restore the nervous system to healthy action and to strengthen the vital organs.

A person will continue to suffer from the evil effects of grip for many months unless he attacks the disease by getting rid of the unnatural, unhealthy poisons in the system, supplying the body with new blood, arousing the healthful action of the kidneys, liver and digestive organs, and nourishing and upbuilding the over-exerted and debilitated nervous system. All this and just this Paine's celery compound will do. In the multitude of cases where it has been used, it has never failed.

A case well known in Chicago is cited. Mr. Frank E. Davidson, who is one of the most brilliant and best known engineers in the world, had just finished the plans for the great intercepting sewer system of Chicago, which is to divert the entire sewerage of the city from Lake Michigan, through the famous Chicago drainage canal, and down the Mississippi. Superintendent Davidson had worked for months on this scheme. He was well nigh exhausted and took to

his bed with an attack of the grip. After a while the disease not having left him, he was advised to try Paine's celery compound. He was soon back at his office in the department of public works, a well man, and forthwith wrote a letter to the proprietors of the remedy, in which he says:

"I had been told by friends of the wonderful results obtained by them from the use of Paine's celery compound. After my severe attack of the grip I determined to try it. I have already found that my friends' reports were not at all exaggerated, and I wish to join most cheerfully with them in recommending the remedy to others."

Hundreds of grateful letters have been written to the proprietors of Paine's celery compound since the appearance of grip this year, telling of the perfect recoveries it has effected. The letters come from men and women of many conditions. Few persons are so poor they cannot afford to have this great remedy constantly in the house, and none are so prosperous that for their health's sake they can afford to be without it. When so many men and women whose words carry the utmost weight in the communities in which they live testify as they do to the great benefit they have received from Paine's celery compound, there can be no hesitancy in trying it. A single trial is the test which is confidently invited.

COLDEST DAY OF THE YEAR.

YESTERDAY WAS THE CULMINATION OF THE SPELL OF ZERIC WEATHER, APPARENTLY.

Of the fifteen continuous zero days that have been experienced here lately Friday was the coldest. In the morning forty degrees below zero was the record at the Nelson House, and observations of from thirty-five to forty degrees below were reported from all over the city. There is no sign of warmer weather and the list of zero days will probably be longer before a thaw comes. Old residents are coddling their memories in the effort to recall cold snaps comparing with the present spell, and only two have been mentioned which rank with it in severity.

It is stated that in the winter of either '74 or '75 for a period of thirty days the thermometer was constantly below zero, and the same condition existed in the winter of one of the early eighties. With these two exceptions the present run of cold weather is the severest ever experienced here. It is improbable that in either of the periods mentioned the thermometer was as low for fifteen days as it has been for that interval during the present spell. Many people are being inconvenienced by the cold. Numberless pipes in private residence have been frozen up and the plumbers have hardly had time to sleep for the past two weeks.

The Salisbury school has been closed since Wednesday. In the morning of that day it was found that the pipes supplying the building with water were frozen, and it was necessary to disconnect the school. The work of thawing them out was begun immediately but up to this date it has not been completed. The pipes were frozen in the building and the frost had also reached them outside and it was necessary to dig down to them. A considerable length of pipe has been uncovered and still the seat of the trouble has not been reached. It is probable that the pipe is frozen clear out to the place where it connects with the main pipe, in which case it will not be possible to start the school next Monday, as more time will be required to repair the damage. The teachers in the building have been spending their time visiting the various rooms of the schools and inspecting the different methods of teaching employed, but the scholars have had unqualified holidays.

A force of men has been engaged for the past ten days trying to locate a leak in the main pipe in front of the Union Tea company's store. Considerable difficulty has been experienced in finding the break and it is necessary have a fire constantly burning in order to keep the uncovered pipe from freezing up. The water has risen nearly to the surface of the earth in the excavation. The work seems no nearer completion than when it was started.

The cold weather was the cause of a very exciting time at the Haslam residence Thursday morning. As a provision against frozen pipes the water was turned off from the boiler of the kitchen range. This fact was forgotten and the fire was lighted as usual in the morning. When the fire was burning quite briskly there was a loud explosion and the range was literally blown to pieces. The girl employed in the household happened to be standing to one side of the range or she would in all probability been killed. The range was completely wrecked and much minor damage was done in the room. A few other such accidents have happened here recently.

**TWO NOTABLE MUSICAL EVENT.** MUSIC LOVERS WILL BE ABLE TO ENJOY TWO TREATS NEXT SUNDAY AND MONDAY EVENINGS. Good music has been something of a rarity here lately, but there will be a feast of it very soon. The choir of the Calvary Baptist church, assisted by outside talent, has been preparing a fine musical program, to be rendered at the regular Sunday evening service of the church, beginning at 7 o'clock. On Monday evening the concert which has been arranged by Miss Minnie Sullivan will be held at Anderson's hall. The program prepared for the Baptist church comprises several solos and selections by a double quartet. The several numbers on the program have been rehearsed during the past week and they will be rendered in the finest style. The musical program is as follows: Dologyo..... Mendelssohn Solo, "Oh, for the Wings of a Dove"..... Miss Anderson. Chorus, "Hallelujah"..... Double Quartet. Hymn, "Abide With Me"..... Mauk Solo, "Ave Verum"..... Millard Miss Sullivan. Chorus, "Joyful Bells"..... Brackett Double Quartet. Hymn..... Mr. Bennett. Solo, "Over the Stars There is Rest"..... Mr. Bennett. Chorus, "The Radiant Morn' Has Passed Away"..... Double Quartet.

Every number on the program has been thoroughly prepared and the service will be most enjoyable. The public is cordially invited to attend. Monday evening will be the last time the Ishpeming public will be privileged to hear Miss Minnie Sullivan for a long period as she is about to leave for Chicago, where she will be located for some months. Miss Sullivan is one of the best vocalists that has ever been heard in this city. She will be assisted at her concert by the very best local talent and a fine program of vocal music will be rendered. The audience promises to be very large.

Food does more harm than good when not digested. Kodol Dyspepsia Cure digests what you eat. It prevents various diseases and cures stomach troubles. It cures indigestion, sour stomach and belching, and allows a worn-out stomach rest. It acts instantly. Stafford Drug company.

**A GREAT RECORD OF CURES,** unequalled in medical history, proves that Dr. Sarsaparil possesses merit un- doubtedly. One of our oldest and most

TURNS ON HIS TORMENTOR.

MAYOR ANDREWS ANSWERS CRITICISMS THAT HAVE BEEN MADE ON THE ENTERTAINMENT OF THE LEGISLATORS.

The following communication speaks for itself:

"Ishpeming, Mich., Feb. 9, 1899. "To The Mining Journal:—I ask the privilege of trespassing on a little of your space in order to correct the untruthful statements in the Iron Ore in its two last issues relative to the visit here of our state legislators. It is strange any one who had grown up in our city, and who had prospered on the patronage of our people, would be so ungrateful as to deliberately misrepresent the sentiments and hospitality of our people generally, and attempt to tarnish the good name and fame of our city. But this Mr. Newett has done.

"When it became known that members of our legislature would visit us, steps were at once taken to afford them a fitting entertainment, and, of course, the entertainment should necessarily be arranged and regulated to suit the time and convenience of our visitors. To make sure that a number of our worthy citizens would be present to receive and entertain our guests, I issued invitations to about one hundred, and all who could honor my invitation did so, and did all in their power to make our guests comfortable and give them all information asked in regard to our city, its industries, etc. No one was barred from taking part in entertaining the visitors. They were told that if they wished to visit the mines or other points of interest conveyances were at hand as well as guides to accompany them. But on account of their short stay here—about two hours—the invitation could not be accepted. Within half an hour after reaching here the visitors were seated to the sumptuous dinner prepared for them at the Nelson House. Shortly after dinner they took the train for the copper country, but not before formally thanking the citizens of Ishpeming for their hospitality.

"Still the Iron Ore would cast discredit upon its own town and advertise broadly that the legislative party was given a 'chilly reception.' Mr. Newett did not grace the occasion with his presence; perhaps for that reason he thinks things were not done just right. Some of the 'impolite legislators' he refers to may have seen him skulking in some back street or alley and they could hardly refrain from saying 'What is the matter with Newett, he looks so lonely and chilly?' Mr. Newett must be given credit for some little discretion. There was no place for him at the reception of our state legislators, and there never will be on similar occasions unless it be deemed advisable to exhibit a habitual grumbler, falsifier and defamer. Mr. Newett complains of 'scars' upon the flesh of those at home deliberately slighted. Poor Mr. Newett; it is said to think he feels hurt. If Mr. Newett has any conscience the scars of compunction upon it ought to plague him for many a day.

"The people of this city have done well by Mr. Newett, and gratitude alone should have compelled him to remain silent, but since he opened the floodgates of abuse and falsehood upon the city, its people, and especially upon the gentlemen who served at my invitation, as entertainers of our legislative guests, one in my position should not suffer misrepresentation and slander to go forth uncontradicted.

**"WM. ANDREWS."** REMARKABLE RESCUE. — Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a victim of consumption, and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. Free trial bottles of this Great Discovery at the Stafford Drug company. Large bottles 50 cents and \$1.00.

**GENERAL COMMITTEE DISSOLVED.**

ALL SUBORDINATE COMMITTEES HAVE ALREADY GONE OUT OF THE NORMAL SCHOOL LOCATION BUSINESS.

The announcement that Marquette had been granted the proposed Normal took every citizen of this city by surprise. It was not known that the caucus was to be held on Thursday and the question of the location was settled before any representations were made to the house and senate, as the committees that was conducting the campaign in favor of this city supposed that it had plenty of time to present its case. The work of the various committees was progressing finely and something definite in respect to sites would have been arranged in a few days.

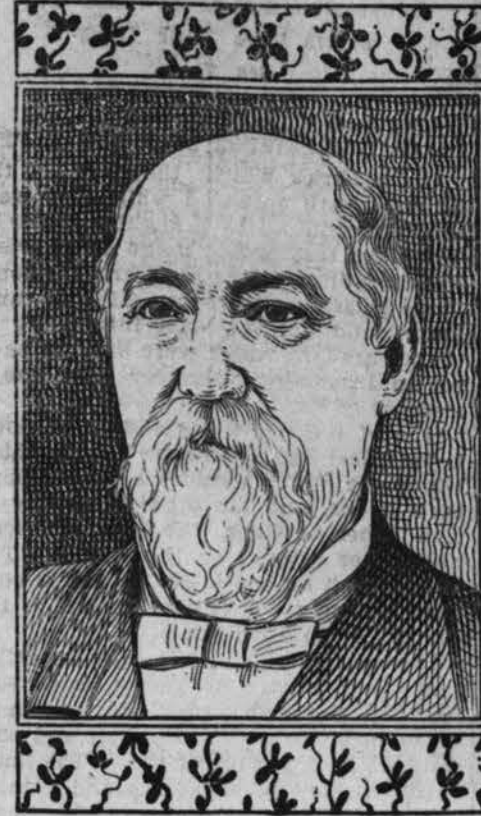

It is regarded as very strange that the caucus should have been held without some notice of its assembling reaching this city and those who have had the interests of the city in charge cannot understand it. The question that was generally asked yesterday was, "Where was Representative Watters when this was going on?" It is regarded as strange that he did not notify the local parties as to what was being done in the matter. The whole affair is now ancient history but there is a feeling manifested here that all was not straight in the transaction, and it is generally regretted that this city was not given an opportunity to at least present its claims and offer a site.

The men who were looking after the affair were engaged in working out the details all Thursday, and they had even gone so far as to survey the two sites proposed with a view to making maps to present to the legislators when the caucus was up for determination. It is needless to say that all further work on the

## MISSOURI'S WAR GOVERNOR

### RESTORED TO HEALTH BY PE-RU-NA.

#### A Letter From the Auditor of the Interior.

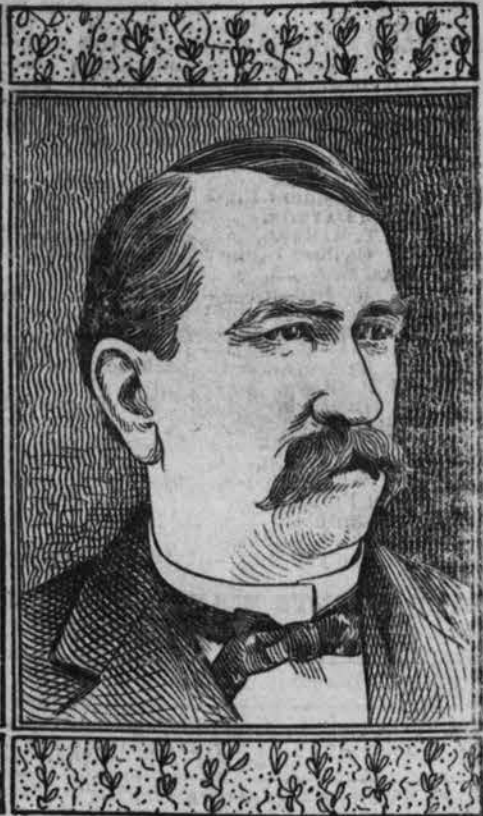

GOV. T. C. FLETCHER.

Hon. Thomas C. Fletcher, the noted war governor of the state of Missouri, is a great friend of Pe-ru-na. He writes: The Pe-ru-na Drug Mfg Co., Columbus, Ohio:

Gentlemen—For years I have been afflicted with chronic catarrh, which has gone through my whole system, and no one knows the torture and misery I have passed through. My doctor has prescribed various remedies, and I have never found any relief until I was persuaded by a friend to use Dr. Hartman's Pe-ru-na. After the use of one bottle I feel like a new man. It also cured me of a dropping I had in my throat, and built my system up generally. To those who are suffering with catarrh I take pleasure in recommending your great medicine. Very respectfully,

THOMAS C. FLETCHER.

Everything that affect the welfare of the people is a legitimate subject of comment to the real statesman. The statesman is not a narrow man. It is the politician who is narrow. The true statesman looks out on the world as it is, and seeks, as far as is in his power, to remedy evils and encourage the good.

HON. WM. YOUNGBLOOD.

Treasury Department, Office of Auditor for Interior, Washington, D. C., Dec. 10, 1898. The Pe-ru-na Drug Mfg Co., Columbus, Ohio:

Gentlemen—I've often heard of your great medicine and have persuaded my wife, who has been much of a sufferer from catarrh, to try Pe-ru-na, and after using one bottle she has wonderfully improved. It has proved all you have claimed for it, and I take pleasure in recommending it to anyone who is afflicted with catarrh. Yours,

WM. YOUNGBLOOD, Auditor for the Interior.

Catarrh in its various forms is rapidly becoming a national cure. An undoubted remedy has been discovered by Dr. Hartman. This remedy has been thoroughly tested during the past forty years. Prominent men have come to know of its virtues and are making public utterances on the subject. To save the country we must save the people. To save the people we must protect them from disease. The disease that is at once the most prevalent and stubborn of cure is catarrh.

They are "Little Servers" to the frail womanhood, aiding development of organs and body. No known remedy for women equals them. Cannot do harm—life becomes a joy. \$1 per box by mail. Sold by all druggists. DR. MOTT'S CHEMICAL CO., Cleveland, Ohio. FOR SALE BY THE STAFFORD DRUG COMPANY.

maps will be discontinued.

All efforts in the direction of obtaining a normal for this city will now have to be postponed until the peninsula grows large enough to ask for another institution of the same class, and this will not be for many years to come. While some disappointment was manifested it was generally of a negative sort and one appeared to be deeply grieved over the result. The thing that created the most unfavorable comment was the fact that this city was given no opportunity to submit its claims. The institution will be conveniently located for pupils who will wish to attend from here, and it is expected that the number will be quite large.

never do this, but imitations generally do.

Insist upon having Allcock's and you will get the best and original and the one on the reputation of which others trade.

Don't be fooled. Allcock's always give satisfaction and none of the imitations do.

## In and About Negaunee

### CAME AS A SURPRISE.

SO EARLY A SETTLEMENT OF THE QUESTION OF A LOCATION FOR THE NORMAL WAS NOT EXPECTED HERE.

The announcement in yesterday morning's Mining Journal brought the first definite tidings received here that the proposed Normal is to go to Marquette. So early a settlement of the matter was not looked for, but it is understood that a few people here knew the caucus was going to be held Thursday night. Senator Maitland had been striving to get the meeting postponed to give those who were working in the interests of this city time to get their case prepared for presentation to the legislators, but his efforts were ineffectual, and the caucus was held as originally planned.

The gentlemen here were getting the matter of securing a suitable site well in hand, and in a few days they would have been prepared to make a definite offer. Most of the parties interested in the Barabee farm site had been consulted and it would probably have been secured. George Maas did not like the idea of foregoing his mineral rights, but he would doubtless have surrendered them for the public good. All the labor that has been done has been expended in vain, and there are now several Normal sites for sale at very low prices in the vicinity of the city.

The impression was very general as the news gained circulation yesterday morning that the Marquette hustlers had stolen a march on the people from the twin cities, and had rushed the settlement of the question through in a hurry at a premature date. Two gentlemen here, however, state that they knew the caucus was to be held, that the attempt to get it postponed had failed, and that there was nothing out of the way in the transaction.

Two parties holding different views on the subject are noticeable. One division rather admires Marquette's enterprise in hustling for the institution and commends the choice of the legislators in picking out that city as a location for the school.

The following utterance in yesterday's Iron Herald well states their position: "At a caucus of the upper peninsula members of the legislature, held in Lansing last evening, Marquette was agreed upon as the site for the Normal school. It was generally conceded that the Queen City was the really desirable point for its location, but it was urged that because of the prison being there the school should go elsewhere, in deference to an equitable distribution of these public honors, but there was neither force nor reason in the position. The fact remains that Marquette is the most advantageous point, all things considered, bearing upon the welfare of the institution and of the greatest good to the largest number, of the towns named, and we therefore congratulate not only the Queen City, but the upper peninsula members of the legislature, and the taxpayers of the state, who are to maintain it. The decision will doubtless prove the most satisfactory of any that could have been made."

The above paragraph expresses the sentiment of a large number of the people of Negaunee relative to the matter. Marquette was probably the second choice for the school in this city, and at least the third.

This opinion is not universal, however, and many people in a very decided language expressed dissatisfaction with the action of the caucus. In some quarters much fault was found because the question was settled without giving the twin cities time to present their cases, and the alleged highhandedness of the Queen City in demanding a second state institution while the other cities of the county are yet unrecognized was severely criticized.

The outcome of the contest over the location of the Normal school has reopened the old county seat sore, and the suggestion is heard that a decided effort should be made to change its location to one of the twin cities, in an effort to more evenly divide the public institutions between the three cities of the county. While this talk was apparently without definite direction yesterday there is no question but that a decided feeling against Marquette exists here.

The latter city will do well to nail down the dilapidated county buildings yet more tightly or some fine morning they will be found at a point some distance from the shores of Lake Superior.

Now that the hope of obtaining the Normal is gone, all the developments in the transfer of the Queen mines will be watched with a renewed interest. Notwithstanding the statement that emanated from Cleveland, that the change would be made before the end of the present week, nothing definite has yet been announced. The deal may possibly be closed today.

### A RUNAWAY SKIP.

CONSIDERABLE DAMAGE DONE TO THE SHAFT AT THE LILLIE MINE.

Quite a serious accident occurred at the shaft of the Lillie mine Wednesday night. A skip loaded with ore broke away and fell a distance of two hundred and fifty feet to the bottom of the shaft, doing considerable damage as it went whirling down the shaft. The primary cause of the trouble lay in the sheave, which is the large pulley wheel at the top of the shaft house. In addition to carrying the rope that supports the skip the sheave is fitted with a friction band running an endless cable which is arranged to pull the tram cars to the dump. The weight of this cable in addition to the one that was connected with the skip made the burden of the sheave rather heavy.

Wednesday night the supports of the sheave gave way under the strain and the skip, which at the time of the accident was at a point about two hundred and fifty feet above the bottom of the mine, was dropped back some twenty-five feet, which was the amount of slack rope given by the breakage of the sheave. The rope connected with the skip, which was put in new last summer, was full of frost and the resulting jerk was strong enough to snap it and let the skip drop to the bottom of the shaft.

There was about five tons of ore in the skip and the momentum attained by it was frightful. In its long fall to the bottom it bounded from side to side. Five wall plates were torn out and considerable minor damage was done. The sheave was pulled out of position and several of the attachments of the rope were disarranged. It was a wonder that the shaft did not suffer more than it did from the mishap.

Repairs were begun immediately, but the amount of work necessary to put the shaft in good condition was so great that the men in the mine were laid off for a day and a half. Work is going on now at the shaft and the damage is nearly all repaired. No one was hurt by the fall of the skip, as the men happened to be away from the bottom of the mine. This was a very fortunate circumstance, as instant death would have been incurred by anyone near the place where the cage struck.

### COLDEST DAY OF THE SEASON.

Friday enjoys the above distinction. At the end of fifteen days of zero weather it appears to be getting colder instead of warming up. Yesterday morning forty degrees below zero was recorded at the building of the Upper Peninsula Brewing company, thirty-six degrees below at F. D. Davis' residence and thirty degrees below at the Breitung house. All through the day the thermometer recorded about twenty degrees below zero. The only spell of weather that is remembered by the old settlers here that compares in severity with the present cold snap occurred in either '74 or '75. Then the thermometer registered below zero right along for thirty days. This is the worst siege of zero weather that has since been experienced here.

### FROZE WHILE RUNNING.

Thursday afternoon the water was turned on in the fire standpipe in front of the Tracy building for the purpose of flushing it. It was easy to get the water turned on but when an attempt was made to shut it off the shutoff could not be moved, as it had frozen up, notwithstanding the fact that the water was flowing. The stream continued to flow and the ground in the vicinity of the pipe was flooded. The water made its way out on the car tracks and filled the channels between the rails with ice, and also got down to the Northwestern tracks and filled them up with ice. When the street cars got here yesterday morning they found it impossible to get any further than the Northwestern tracks, and it was necessary to put a force of men at work clearing out the ice. The job was finished during the afternoon.

### L'ANSE NOTES.

It has been zero weather here the past two weeks frequently getting down to twenty below.

D. J. Norton of Ewen was in town yesterday on business concerning his lumbering interests.

Mrs. Victor Peterson is suffering from a severe attack of pneumonia and doubt is entertained as to her recovery.

John Mitchell of the Powell & Mitchell firm has been searching the county for teams to work in the woods, and secured few.

Miss Annie Murphy returned from Bessemer, where she has quite a large music class, to spend a few weeks with her parents, Mr. and Mrs. P. C. Murphy.

Duluth parties who bought the old Scary redstone property, near Messner's quarry, have a gang of men at work getting ready to thoroughly test the property in the spring.

The supreme court this week affirmed the decision of the circuit court which was rendered for the defendant in the horse case of M. J. McCabe vs. Jas. Loonsfoot. The case was thrice tried here, and has attracted considerable attention.

Baraga county is likely to derive some benefit from the great copper boom. With the South Shore road running from Newtonville to the new mines, there is every probability that stamp mills and in time smelting works will be located on the shores of our bay.

## Healthy, Happy Girls

often, from no apparent cause, become languid and despondent in the early days of their womanhood. They drag along always tired, never hungry, breathless and with a palpitating heart after slight exercise so that merely to walk up stairs is exhausting. Sometimes a short, dry cough leads to the fear that they are going into consumption.

They are anemic, doctors tell them, which means that they have too little blood. Are you like that? Have you too little blood? More anemic people have been made strong, hungry, energetic men and women by the use of Dr. Williams' Pink Pills for Pale People than by any other means they are the best tonic in the world.

Miss Lulu Stevens, of Gasport, Niagara Co., N. Y., had been a very healthy girl until about a year ago, when she grew weak and pale. She lost her appetite, was as tired in the morning as on retiring, and lost flesh until she became so emaciated that her friends hardly knew her. The doctors declared the disease anemic, and gave her up to die. A physician who was visiting in Gasport prevailed upon her to try Dr. Williams' Pink Pills for Pale People. She did so, and was benefited at once. She is now well and strong—the very picture of health.—Buffalo (N. Y.) Courier.

The genuine are sold only in packages, the wrapper always bearing the full name. For sale by all druggists or sent, postpaid, by the Dr. Williams' Medicine Company, Schenectady, N. Y., on receipt of price, fifty cents per box. Book of cures free on request.

## COPPER COUNTRY NEWS.

(Continued from Page Three.)

cedently large. The government demand is heavy, while the electrical industry takes phenomenal supplies. Entire consumption last year is estimated 20 per cent. greater than in 1897. Exports were 138,000,000 long tons, or 56 per cent. of the American product.

### FOR VILLAGE TREASURER.

Charles S. Roulo, who has been policy clerk in the insurance office of Van Orden Bros. for the past six years and a resident of Houghton for thirteen years, announces himself as a candidate for the office of village treasurer at the election to be held on Monday, March 13. Mr. Roulo is an able and popular young man and if elected would fill the office with credit to himself and to the town which he favors him with their suffrages.

### CIRCUIT COURT ADJOURNS.

McCarthy, who was held for trial for grand larceny in stealing an overcoat from Dittler Bros.' saloon in Hancock, pleaded guilty to petit larceny Thursday afternoon and was given ninety days in jail, the overcoat being an old one and Prosecuting Attorney Larson fearing that it would be impossible to prove that it was worth \$25 in order to hold the prisoner on the charge of grand larceny.

### THE COPPER MARKET.

The market is dull and steady, and nobody anticipates any great break in copper. There will be no market Saturday or Monday. Tuesday will probably open stronger. New issues of stocks are being steadily absorbed, and lower priced shares are holding their own remarkably well.

### YANKEE INVESTMENT IN CUBA.

A syndicate of American capitalists has just concluded the purchase of a large tract of land near Santiago, and will open up many new iron mines, and inside of five years Yankee enterprise will transform the slow-going country into a place of business activity and push. In much the same manner Hostetter's Stomach Bitters will transform a run-down, debilitated, thin-blooded man into a type of health and strength. It will fill his veins with pure blood, drive away dyspepsia, and clear up his tired brain. It will make him eat and sleep well, and if his nerves are in bad shape, the Bitters will tone them up and restore their old-time form. Malaria is another disease that the Bitters are good for.

### COPPERDOM BREVITIES.

John Campbell of L'Anse was a Portage Lake visitor Thursday.

Judge Haire left for his home in Ironwood on the evening train.

John Stanton left for Chicago yesterday on his way to New York.

F. M. Sackrider left yesterday for Ishpeming on a short business trip.

D. Fred Charlton, of Marquette, has been in the copper country on business for the past two days.

The Elite Lady minstrels of Calumet will probably appear before a Houghton audience on Friday evening of next week, at least that is the talk now.

The mercury stood at 38 below zero at 6:30 on Saunden street at Houghton and was way down at other copper country towns but the people are getting used to it now.

The case of Wieder vs. Ecker, an appeal from justice court at Calumet, took up most of the day yesterday, court finally adjourning for the term late in the afternoon.

B. V. Nordberg, of Nordberg Bros. Mfg. Co., Milwaukee, has been in the copper country for a day or two looking after some of the big machinery contracts soon to be let.

The house-warming at Hancock's new city hall, which was to have taken place Thursday evening, was indefinitely postponed because of the severity of the weather. Parading with a band at 20 below zero and lower is a chilly proposition.

A general feeling of satisfaction was expressed in the copper country yesterday over the fact that Marquette had won out in the Normal school fight. The beautiful city on Iron Bay is regarded here as by far the best site for the institution from its central position and also because of its social attractions, its churches and its theatre.

### THEY HAVE GONE.

East Lake, Mich., Feb. 6, 1899.—Mrs. Marie Hansen of this town states that two of her children were afflicted with boils and large sores all over their bodies. They began taking Hood's Sarsaparilla and all signs of the disease disappeared.

La Grippe is again epidemic. Every precaution should be taken to avoid it. Its specific cure is One Minute Cough Cure. A. J. Sheperd, publisher Agricultural Journal and Advertiser, Eldon, Mo., says: "No one will be disappointed in using One Minute Cough Cure for La Grippe." Pleasant to take, quick to act. Stafford Drug company.

### FOR RENT.

The store room now occupied by D. Poplin, Lake Linden, will be for rent on and after March 1. For terms, apply to Chas. Therrien, Lake Linden, Mich. (1-17-tf)

### TOUR OF ALL MEXICO.

In a special vestibuled train of Pullman compartment, drawing room, library and dining cars, with the celebrated open top observation car Chilhill, starting from Chicago, Monday, Feb. 27, for a tour of thirty-seven days, the longest ever offered. Tickets include all expenses—railway and sleeping car fares, meals in dining car, hotels, carriages, special street cars, boats, guides and interpreters; no extras whatever. The party will be a select one and limited in number, and will be personally conducted under the auspices of The American Tourist association, Reau Campbell, general manager, 1423 Marquette building, Chicago. For full information, maps, circulars, etc., call on or address any ticket agent of the Chicago, Milwaukee & St. Paul railway. (2-11-tf)

### A PLAIN LETTER

About Four Hundred Baltimore Rye from Potosky's Most Prominent Physicians.

Reycraft & Reycraft, Physicians and Surgeons, Office over Postoffice. Potosky, Mich., Jan. 21, 1899. Gentlemen: Having thoroughly tested your Four Hundred Baltimore Rye whiskey, we believe as a remedial agency it is one of the best of its kind, and we recommend this brand in every case where a stimulant is indicated. It is perfect in stimulation. Mellow, well matured and peculiarly adapted as a medicant in typhoid and other low types of fever. We always take pleasure in prescribing and recommending its use when a tonic or stimulant effect is desired. Very truly, DR. REYCRRAFT & REYCRRAFT.

Rich, pure and mellow; guaranteed ten years old; sold at all first-class cafes and at drug stores. (1-26-tf)

The Best Cough Remedy on Earth. Warner's White Wine of Tar Syrup, Consumption Cure, cures a cold in 24 hours if taken 1 time and does not stop a cough in one minute by paralyzing the throat, but it cures the disease and leaves the throat and lungs healthy and strong. 25 and 50 cts

ROYAL Baking Powder Absolutely Pure

### WINE OF CARDUI

#### Woman Knows Woman.

Zurich, Kan., Jan. 31. I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it. MRS. V. M. BOISVERT.

**McLREE'S Wine of Cardui**

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

**LADIES' ADVISORY DEPARTMENT.** For advice in cases requiring special directions, address, giving symptoms, Ladies' Advisory Dept., THE CHATTAHOOCHEE MEDICINE CO., Chattanooga, Tenn.

Druggists Sell Large Bottles for \$1.00.

### WINE OF CARDUI

### The Export and Table BEER

Brewed from the highest grade malt and hops and purest spring water. Result: A beer as it should be—pure. One bottle of U. P. B. Co.'s beer will make you a connoisseur.

It's the Beer That Makes Marquette Famous.

### SYRUP OF FIGS

NEVER IMITATED IN QUALITY!

### THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon you the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. NEW YORK, N. Y. LOUISVILLE, KY.

**DROVE OVER BAY ON ICE.**

**Feat Accomplished Yesterday Which Has Not Been Performed Before for Years.**

**MADE THE TRIP FROM MARQUETTE TO CHOCOLAY SAFELY.**

**Weather Forecaster at Chicago Holds Out Hopes of Something Warmer-Intense Cold Prevailed All Day Yesterday.**

**MODERN STEAMERS AS ICE FIGHTERS.**

Two men drove across the bay on the ice from Marquette to Chocolay yesterday. In pioneer days the road across the bay used to be the customary winter route between the two places, but it has been years since there has been ice enough in the bay to make it a safe journey. Old settlers say that the feat has not been accomplished before for eighteen or twenty years.

With a continuance of the present state of weather there is nothing to hinder the route coming into favor again and being used till spring. Ice is now fifteen inches thick inside the breakwater and eight or ten inches thick in the bay outside.

How long the present conditions will continue is something nobody knows, but the weather prognostications sent out from Chicago are for slightly warmer weather today, which gives hope that the worst of the cold spell is over and that Marquette and the surrounding region will be given an opportunity to look once again on the thermometer when it records something on the upper side of the zero mark, something which has not been possible for two weeks steady.

The official weather observation, taken at 7 o'clock yesterday morning, showed a temperature of 23 degrees below zero, which was a drop of one degree from 1 o'clock, the time when the figures were secured which were used in yesterday's Mining Journal. Twenty-three below was the minimum temperature for the day. At noon the mercury indicated 12 below, and at 7 in the evening the temperature was thirteen below. At 1 o'clock this morning the thermometer at Pendill's corner, which coincides more nearly with the government thermometer than any of the other street instruments, showed 16 below.

The continuation of the extreme cold is bringing out reminiscences of other very cold winters and the late springs following them, and those who have been here long enough remember the occasions are regaling the later comers of the years when the boats got stuck in the ice while trying to make the harbor even as late as June 20.

Some say that with the large and powerful steamers which are plying on the lakes now such scenes will never be witnessed again, but others contend that with similar conditions there will be just as much trouble in getting in as in the old days when the Mineral Rock used to fight her way through the ice every summer for the honor of being the first boat into Marquette.

**LOOKED A LITTLE BETTER.**

**Copper Stocks Showed More Strength Yesterday Than for Several Days.**

Yesterday was a quiet day but it was the best one for the coppers there has been since the first part of this week. There were no large advances, but there were a number of fractional gains and only one considerable loss, Tamarack, which fell from 235 to 231. Michigan and Mass showed increasing strength, but Adventure was a little weak, dropping to 13 bid.

Quiet but steady is the phrase best descriptive of the market. There were only four stocks which fluctuated within so wide a range as a dollar between Thursday's and Friday's close. Three of these made gains. With their fluctuations the four are as follows: Argandian, 71 1/4 to 73; Boston & Montana, 345 to 348; Butte & Boston, 85 1/2 to 86 1/2; Tamarack, 235 to 231.

The metal market made an encouraging advance yesterday of nearly two pounds. This is the biggest jump it has made for some time and will undoubtedly have an influence on the dividend payers if it proves to be a permanent advance. Hayden, Stone & Co. report the London market as follows: "Opened, 73, 2 and 6; closed, 73 and 10; closed Thursday, 71 and 15."

On account of holidays there will be no transactions on the Boston board either today or Monday, consequently no quotations before Tuesday.

Following are the few bulletins which were posted by the brokers yesterday: A. B. Turner & Bro.: "Stock exchange closed Saturday and Monday." A. B. Turner & Bro.: "Copper up one pound seven and six. Coppers quiet because of holidays."

**WATER MAIN FROZEN.**

**Park Street Residents Must Do Without Water Till Next Spring.**

The cold spell has put the residents of Park street to serious inconvenience by the freezing of the water main on that thoroughfare.

When the Park street main was laid five or six years ago it was not put the usual distance under ground, because it was expected that the street would soon

be graded and about two feet more of earth hauled on, which would cover the pipe deep enough to put it down below the frost line. This has never been done, and the result is the pipe is frozen and not a drop of water will run from any hydrant on the whole street.

Superintendent Kern says nothing can be done to remedy the trouble, and that the main will have to remain as it is till it thaws out naturally in the spring. By letting it take this course the chances are there will be no bursted pipes, while if the pipes were dug down to they would crack as soon as the air struck them.

The residents of Park street are now put to the inconvenience of carrying their water in pails from wherever they can get it. One house on the upper end of the street, which is served from the Morton street main, has water, and many are securing a supply there. People living on the lower end of the street are carrying water from Fourth.

**LAKE FELL.**

**Ice Was Over the Troublesome Intake and Not In It.**

Superintendent Kern says that the alarm about ice in the intake night before last was baseless. His explanation of the fact that the water fell seven inches in the water works' well is that the lake fell. He says Lake Superior is subject to such sudden changes, and that it sometimes rises or falls as much as two feet in a few hours. He has given up worrying about the intake now and thinks it is safe from stoppages by slush ice, as the thick solid sheet of ice which has formed over the entire bay, affords it perfect protection.

**D. SIEDERFIELD & CO.**

**Members of the New Firm Have Arrived in the City.**

D. Siederfield and I. Reshassky, of Ohio, who have purchased the business of Kassel Oshinsky, have arrived in the city, bringing their families with them. Both of them are young men who have made a success in business elsewhere, and who come to Marquette well recommended for hustling qualities and integrity. They expect to take charge of the store Monday.

Baby sleeps and grows while mamma rests, if Rocky Mountain Tea is given. It's the greatest baby medicine ever offered loving mothers. 35 cents. Stafford Drug company.

**CITY BREVITIES.**

Weather forecast: Unsettled weather. Yesterday's temperature: 7 a. m., 23 below; noon, 12 below; 7 p. m., 13 below; maximum, 10 below; minimum, 23 below.

Born, yesterday, to Mr. and Mrs. Joe Smith, a girl.

W. S. Prickett of Sidnaw spent yesterday in the city.

A. F. Howard was up yesterday from Munising on business.

E. H. Scott of LaPorte, Ind., stopped off in the city yesterday.

There was a dancing party at the snow shoe club house last evening.

E. O. Pardee of Manistique was a business visitor here yesterday.

Frank Perry of the Soo was a business visitor in the city yesterday.

John Brahney has been added to the office force of Paine, Webber & Co.

The Biddle Whist club will meet this afternoon with Mrs. Dr. Markham.

Prosecuting Attorney Potter was down from Ishpeming on legal business yesterday.

Dr. W. H. Morse is home again after a ten days' visit with Chicago and Milwaukee friends.

F. G. Potter returned to the city last evening after a business visit of several days in Calumet.

S. A. Tomlinson of Lansing, one of the prison board members, was a Marquette visitor yesterday.

Harvey Hatch left for Chicago last night, being called by a telegram announcing the death of his father.

The auditing committee will meet at the court house today to go over the budget of bills preparatory to the meeting of the board of supervisors Wednesday.

A considerable number of the Marquette Christian Endeavorers went up to Ishpeming last evening on a special to attend a county convention of the society.

The Epworth league will give a valentine social in the parlors of the Methodist church on Monday evening. A nice program will be rendered and refreshments served.

W. G. Rice of Houghton, formerly editor of the Portage Lake Mining Gazette, now a member of the law firm of Gray & Rice, stopped off here yesterday on his way home from Lansing.

Charles A. Parker, manager of the Clara Thropp company, which will appear here a week from tonight, was in the city yesterday arranging for the coming of the company. Mr. Parker was here a few months ago as the manager of the Dorothy Morton company.

The ladies' auxiliary to the A. O. H. is preparing for its second annual ball to be given in Fraternity hall Monday evening. The following ladies have taken charge of the ball: Mrs. Margaret Coughlin, Misses Anna Fagan, Mary Glenney, Susan O'Hara, Bridget Kilgallen, Anna Kilgallen.

Captain J. A. Wood, who is now in charge of a gold mine and mill at Warren, Idaho, and who discovered the Norrie mines at Ironwood and has since been engaged in important mining enterprises in the west, writes his friends that he would like to return to Michigan. His friends say Captain Wood would be a good man to open up and develop some of the new iron or copper propositions now being brought forward.

The funeral of Gustaf Anderson, who died at Limestone last Tuesday, aged 26 years, will be held here tomorrow. The procession will start at 1 o'clock from the residence of Charles Anderson, 348 West Park street, and proceed to the Swedish Lutheran church, where funeral services will be held at 1:30. The interment will take place in Park cemetery. All members of the Swedish Crown society are requested to be at Fraternity hall at 12:30 p. m.

**Marquette Opera House.**
