TREATY-MAKERS GIVE UP THE TASK.

American-Canadian High Commissioners Unable to Agree on All the Questions Involved.

LUMBER AND BOUNDARY PROBLEMS THE STUMBLING BLOCK.

WILL AGAIN TRY THEIR LUCK. HOWEVER, IN AUGUST.

Adjournment Taken in the Hope It Might Result in a Better Prospect for Harmony in Developing Concessions That Will Be Acceptable.

PERMANENT BREAK IS DENIED

Washington, Feb. 20.—The American-Canadian joint high commission, after its session today, adjourned to meet at Quebec Aug. 2 unless the chairmen of the respective commissions agree upon another date.

The commission first began its labors nearly six months ago in Canada and has, with the exception of probably a month, been earnestly at work endeavoring to accomplish the object for which it was appointed—an agreement with a view to the formulation of a treaty covering many perplexing questions of difference affecting the business interests of the United States and Canada existing between the two countries.

MANY QUESTIONS SETTLED.

A dozen important questions were referred to the commission for consideration, and the commissioners assert that substantial progress in the settlement and adjustment of many of the questions has been made. Probably those which have given the most serious trouble and proved stumbling blocks to a final agreement on all have been the two relating to lumber and the Alaskan boundary question, on both of which the Canadians have demanded concessions which the Americans have felt it would be prejudicial to the best interests of the United States to grant. It is felt, also, that an adjournment for a few months might result in a better prospect for harmony and a disposition on the part of the Canadians to agree to the propositions made to them from the commissioners on this side of the boundary line.

Senator Fairbanks, chairman of the American commission, has repeatedly stated there was no basis for the reports of a rupture in the relations between the two bodies, and he tonight supplemented this by saying that they were on the best of terms.

ARBITRATION PROPOSED.

A public statement respecting the action taken today was issued by the commission. The statement says the commission has made very substantial progress in the settlement and adjustment of many questions upon which it has been earnestly engaged, but has been unable to agree upon the settlement of the Alaskan boundary. Arbitration on this point is proposed, but the commission has been unable to agree on the method of reference, and it therefore was deemed advisable to adjourn to a convenient date in order to enable the respective governments to further consider the subject.

SAYS THEY SHOULD BE SHOT.

SENSATIONAL ATTACK ON THE GENERALS ENGAGED IN CUBA MARKS THE OPENING OF THE SPANISH PARLIAMENT.

Madrid, Feb. 20.—Cortes reassembled today. The galleries in both chambers were thronged with expectant crowds.

In the senate Count D'Almenas made a violent attack on the Spanish generals engaged in the war in Cuba.

"Five months have elapsed," said he, "and not a single general has been shot."

This gave rise to a tumult, and the count was called to order. Again he asked why the generals who capitulated had not been executed. He declared that the army is an army of lions led by asses.

The recriminations continued for some time between Count D'Almenas and Lieutenant General Correa, minister for war, amid considerable disorder.

BLOW FOR FINLAND.

RUSSIA FURTHER CURBS THE RIGHTS OF THE PROVINCE.

St. Petersburg, Feb. 20.—An imperial manifesto has been issued depriving the Finnish parliament and senate of the exclusive right, hitherto enjoyed, of discussing measures designed to bring Finland into closer conformity with the rest of the empire.

ANGER IN SCANDINAVIA.

Stockholm, Feb. 20.—The czar's manifesto relating to the Finnish parliament and senate has excited intense indignation throughout Scandinavia. All the newspapers protest against Russian coercion and declare that the Finnish efforts toward home rule have been practically destroyed. All Finnish affairs, it is asserted, will be settled at St. Petersburg. The Aftonbladet says: "It is high time that Sweden and Norway should cease to quarrel and should prepare to defend their liberties against the Russian giant."

OHIO RAILROAD LAW UPHELD.

AT LEAST THREE TRAINS DAILY MUST STOP AT ALL STATIONS.

Washington, Feb. 20.—The United States supreme court today rendered a decision upholding the constitutionality of the Ohio statute requiring all railroads in the state to stop at least three trains daily, if so many are run, at all stations on their lines of three thousand inhabitants or over.

The court also, on a case appealed from

FILIPINOS APPLY THE TORCH.

ATTEMPT TO BURN THE WASHINGTON REGIMENT'S CAMP.

Manila, Feb. 21.—The natives of the village of Paco made a bold attempt last [Monday] night to burn the quarters of the First Washington volunteers by setting fire to the huts adjoining their quarters in the rear. Fortunately the wind changed at the moment the fire was discovered, and, fanned by a stiff breeze, the flames spread in the opposite direction, destroying fully twenty shacks and houses opposite the ruins of the church. The incendiaries escaped.

Mysterious signals were frequently made along the enemy's lines during the night, and this led to the belief that an attack had been arranged, but nothing happened.

The rebels are leaving the vicinity of San Pedro Macati in small parties, and are reported to be moving toward Singaon.

ADMIRAL SCHLEY SPEAKS OUT.

REPLIES TO THE CHARGES OF SAMPSON AND THE NAVY DEPARTMENT—FACTS, HE SAYS, SPEAK FOR THEMSELVES.

Washington, Feb. 20.—Rear Admiral Schley, having been granted permission to answer the charges made against him in the communication recently sent to the senate, today handed to the committee on naval affairs this statement, in which he disclaims any purpose of a controversy with the navy department.

The admiral says his orders from Admiral Sampson of May 19 were to blockade Cienfuegos, which he proceeded to do. On his arrival he sent Commander McCalla, of the Marblehead, ashore to establish relations with the insurgents, the result of which was made known to him at 3:40 o'clock May 19. Then for the first time he learned definitely that the Spanish fleet was not at Cienfuegos. Within two hours he started for Santiago.

"What possible ground of criticism adverse to me there can be in all this," he says, "I do not see. I was on the spot, acting under orders which gave me entire discretion and yet clothed me with the responsibility of going to Santiago only after I was satisfied the fleet was not at Cienfuegos." The admiral quotes from the dispatch of Admiral Sampson of May 20, in which the latter says that Schley should "hold his fleet off Cienfuegos."

HIS CRUISE TO SANTIAGO.

As to the slow progress toward Santiago, on account of the Eagle, Schley says that Admiral Sampson had seen fit to send him, and he had no right to abandon her. He had been ordered to proceed "cautiously." If, however, he had known the Spanish fleet was in Santiago, no consideration for the Eagle or anything else would have prevented him from getting there at the earliest possible moment with the larger vessels, but the weather and sea made it impossible to do better than he did.

Speaking of the "retrograde movement," which the secretary, adapting the language of Admiral Sampson, characterizes as "reprehensible conduct," Schley says that in his forty-two years of service "never was such language used to characterize conduct of mine, and I see no reason for it now." He adds:

"Acting in accordance with my best judgment, in view of the circumstances, and without certain knowledge of the whereabouts of the Spanish fleet; after having been informed by scouts commanded by such officers as Sigbee, Jewell and Wise, that, although they had been off Santiago for a week, they had seen nothing of it and knew nothing of its movements or whereabouts since it had left Curacao; after having been assured by Captain Sigbee that he did not believe the fleet was in Santiago, and by the emphatic declaration of Pilot Nunez; and knowing that, as the sea and weather then were, it would be impossible to coal my squadron off port, I deemed it best to take the action I did, the final result of which was the location of the enemy's fleet in Santiago harbor."

FACTS SPEAK FOR THEMSELVES.

Admiral Schley speaks of the difficulty of doing anything with the insurgents, and refers to the manner in which Lieutenant Blue took three days to secure information. As to the battle of Santiago, Schley says the facts of that contest speak for themselves. He quotes from his official report to Admiral Sampson, in which he congratulated the commander of the squadron and said "the victory seems big enough for all of us." He asks the committee to contrast his reports and those of Sampson containing the references to himself, and continues:

"As to all this criticism of my course prior to the discovery by me, May 29, of Cervera's fleet, whether from Admiral Sampson or the department, none of it was ever made by either to me; and I never heard a word of it from any one until after the battle with that fleet, although more than five weeks had passed since the alleged 'reprehensible conduct' had occurred. Although Admiral Sampson used this language to the secretary concerning me on the tenth day of July (just one week after the battle) he has never, to this day, in any manner or to any extent intimated to me any disapproval or made to me any criticism of my conduct of the flying squadron."

Admiral Schley then quotes the department's dispatch of May 29 in these words: "The department looks to you to ascertain the fact of the presence of the enemy and that if the enemy, if in the harbor at Santiago, does not leave without decisive action." Commenting on this, the admiral says: "In obedience

FRENCH PRETENDER MAY DECIDE TO STRIKE.

Duke of Orleans Arrives Unexpectedly at Brussels to Confer With Leaders of His Cause.

THINKS THE TIME RIPE FOR A MONARCHIST ATTEMPT.

STREET DISORDERS IN PARIS HAVE ENTIRELY CEASED.

Rioting May Again Resume After the Funeral of Faure, but the Possibility of the Downfall of President Loubet Now Is Further Remote.

SENDS PORTRAITS TO THE BORDER.

Brussels, Feb. 20.—The Duke of Orleans unexpectedly arrived here today. It is reported he considers the moment opportune for a monarchist attempt in France. The leaders of his party arrive tomorrow. Three millions of the duke's portraits, decorated with the tri-color, have arrived here and will be secretly dispatched to France for distribution.

FRENCH CAPITAL QUIET.

Paris, Feb. 20.—The street demonstrations have, late tonight, entirely ceased, perhaps only until after the funeral of M. Faure, but the aspect is altogether more hopeful and President Loubet's seat seems permanent. He has reaffirmed his intention to retain the Dupuy cabinet, a step which tends to remove the suspicion that he is a Dreyfusard.

According to the best authority, M. Loubet's message to parliament will not be a lengthy document. The president will appeal warmly for pacification and concord and will eulogize the army and express the hope that the country will, in its attachment to the army and its respect for justice, speedily witness the restoration of harmony and the solution of the questions agitating the nation. Regarding foreign affairs, the message will say that in her relations with foreign nations France will pursue a policy which will remain faithful to the friendships formed and which, by its correctness and disinterestedness, will conform to the traditions of her history. This policy will be the surest guarantee of peace and best calculated to maintain the place which France now occupies in the world.

STRICT POLICE MEASURES.

The strictest police measures have been taken to maintain order in the streets tonight, and the police are instructed to arrest immediately any person uttering cries hostile to the new president.

It has been arranged that the entire funeral cortege shall form at Elysee palace, instead of at the cathedral of Notre Dame, as previously intended.

GRAIN ELEVATOR IN RUINS.

FIRE DESTROYS A NEW YORK STRUCTURE VALUED AT \$200,000.

New York, Feb. 20.—The grain elevator Columbia, valued at \$200,000, was burned to the water's edge today.

THIRTY FAMILIES HOMELESS.

Port Washington, Wis., Feb. 20.—Last night's fire, which destroyed the plant of the Wisconsin Chair company and three additional squares of other property, was finally gotten under control this morning. The loss is half a million. Thirty families are homeless.

ATHLETIC TREATY SIGNED.

WISCONSIN AND MICHIGAN UNIVERSITIES KISS AND MAKE UP.

Milwaukee, Feb. 20.—The Sentinel tomorrow will say:

"Wisconsin and Michigan are reunited in close athletic relationship for the first time since 1893, and the two universities will this year play football and basketball and meet on the cinder path. Two-year contracts have been drawn up at Madison by Managers Fisher for Wisconsin and Baird for Michigan, providing for playing the above games."

BOOM TIMES AT PITTSBURG.

GREATER ACTIVITY IN IRON THAN FOR SEVERAL YEARS.

Pittsburg, Feb. 20.—There is at present an activity in the iron and steel market in Pittsburg eclipsing anything known for several years. Prices are advancing. Today steel billets are selling for \$29 per ton. Thursday last the market stood \$18.50 as the top notch. The present prices are the highest that have prevailed in this district since 1890-1891, when billets went up to \$36 per ton.

"CRACK" REGIMENT DROPPED.

MUSTERING-OUT ORDERS GO TO THE 35TH MICHIGAN AND ALL OTHER VOLUNTEER ORGANIZATIONS NOW IN UNITED STATES.

Washington, Feb. 20.—The war department issued an order today mustering out all the remaining volunteers in the United States, consisting of thirteen regiments of infantry and four batteries of artillery. The Thirty-fifth Michigan, now camped in the South, is among the organizations dropped.

RAILWAY AMALGAMATION.

London, Feb. 20.—A general meeting of the shareholders of the Central Pacific railroad, summoned by the London committee today approved the amalgamation of the road with the Southern Pacific and instructed the committee to take immediate steps to carry it out.

TODAY'S WEATHER.

Washington, Feb. 20.—The following is the weather forecast for tomorrow for Upper Michigan: Generally fair; fresh to brisk south to west winds.

(Continued on Page Four)

WHAT TO DO WHEN SICK.

In case of weak stomach, disordered liver, impure blood, shattered nerves, bronchitis, lingering cough, or other affections which lead to consumption, Dr. Pierce's Golden Medical Discovery will ordinarily bring about rapid cure. If the trouble be deep-seated and chronic, you had better write to Dr. R. V. Pierce, himself, at Buffalo, N. Y., telling him about your sickness. He will give you a fatherly, carefully-considered advice, and charge no fee at all. His practice has been so widespread, and has covered so many forms of disease, that his free advice is likely to do you more good than that of a physician who charges high prices.

Dr. Pierce is also the head of the famed Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., where hundreds of invalids and afflicted persons from all over the country go for treatment by the corps of specialists who are in constant attendance. It is because of his vast practice that the doctor is so well fitted to successfully treat every form of disease. Do not feel that you are imposing upon him when you ask for free advice, because he wishes all to know that his medicines only are to be paid for—not his advice.

"I have used three bottles of Dr. Pierce's Golden Medical Discovery since my correspondence with you and find great improvement in my case," writes Mr. A. E. Novotny, of New York, N. Y. (Box 143). "I feel that I am in need of no more medical assistance. When I started to take your medicine I had a regular consumptive cough of which I was afraid, and everybody cautioned and warned me concerning it. I was losing weight rapidly, was very pale and had no appetite whatever. Now I do not cough at all, have gained eight pounds in weight, have recovered my healthy color, and my appetite is enormous. I can and will recommend your medicine to everybody who may be in need of the same, as it is a sure cure, no sham, as are most other patent medicines, and is far superior to all similar medicines."

If the head aches, the trouble is pretty sure to be constipation or biliousness. Dr. Pierce's Pleasant Pellets will cure you.

OUR TRADE WITH GERMANY.

The supposition that American trade in Germany or German trade in the United States is being depressed by existing conditions is unfounded.

Notwithstanding the fight of the Germans over the supposed impurity of a number of American products, the exports from the United States to Germany have been constantly growing. Our consuls have demonstrated to them pretty clearly that exceeding caution is taken in preparing the products for the export trade. There is not a single instance of a germ being taken into Germany by any of the preserved fruits of America.

The statistics just issued by the treasury department show that the United States is giving to Germany a larger per cent. of her import trade than ever before, and notwithstanding the fact that the exports of 1897 were phenomenally large, the exports of 1898 were larger still.

On the other hand, the imports from Germany to the United States were nearly 25 per cent. greater in 1898 than they were in 1897.

A decade ago 10 per cent. of our imports was taken from Germany, while now 13 per cent. comes from that country; a decade ago 8 per cent. of our exports went to Germany, while now nearly 14 per cent. go there. In 1897 the United States sent \$163,000,000 worth of goods into Germany. These exports included a considerable increase in meats and provisions, showing that the embargo against this class of American products is not what it is popularly supposed to be.

A NICE POINT.

The refusal of the Standard Oil company to produce its books in court at Cleveland as directed by the court places the company in contempt, and the attorney-general of the state on Saturday asked that the secretary of the company, Mr. Squire, on whom the order to produce the books was served, be committed to jail because of his contumacy in the matter. The court refused to make an order sending Squire to jail and the records in the case will be transmitted to the supreme court for its consideration.

The recalcitrant official of the Standard Oil company submitted his reasons for refusing to produce the books, and they make a tolerably good case for him and his company. They are as follows:

- 1. Because they are demanded in an action instituted against the Standard Oil Co. for contempt of court, and I am informed that to enforce their production for such a purpose is an unreasonable search and seizure.
2. Because the books disclose facts and circumstances which may be used against the Standard, tending to prove it guilty of offenses made criminal by an act of the legislature of Ohio, passed April 19, 1898.
3. Because they disclose facts and circumstances which may be used against myself personally as an officer of said company tending to prove me guilty of offenses made criminal by the act aforesaid.

It is asking a good deal of Mr. Squire and his company to call on them to furnish the prosecution with evidence that might prove them guilty of criminal violation of the laws of the state, and the state may not be able to compel them to assist in convicting themselves by doing that. But it is to be hoped that some way may be found of getting at the evidence the books would furnish if produced in court, as the statement of Secretary Squire justifies the assumption that they would, if produced, establish just what the state is trying to prove regarding the Standard Oil company and its methods.

THE RIGHT SPIRIT.

This, relative to the Normal school, from the Diamond Drill of Crystal Falls, shows the right spirit:

The upper peninsula members of the legislature decided in caucus Thursday of last week to locate the proposed Normal school at Marquette. We would much prefer that some section of the peninsula that had not already been favored with a public institution should have been selected but, now that Marquette has won out, we congratulate her upon her success and upon having men with the public spirit, push and energy that some of her citizens have shown in this contest.

We hope now that, having made a choice, the members will lose no time in pushing the bill through. There is, no doubt, much chagrin and disappointment in the ranks of the competitors for the school but that should not lead them to a dog-in-the-manger policy. Let's push the thing along and help Marquette make the school a howling success.

And this, from the Sault Ste. Marie News, is in the same strain:

Marquette got the new Normal because it hustled and because Representative Gordon moved in the thing early and all the time and not because that city was pre-eminently the best location or because it deserved the school. But the fight was fair and, now that the location has been determined, a united effort should be made to pass the bill providing for the institution. Marquette gets a good many things because her citizens go and drag them in by main force and that's the way we'll have to do.

As a matter of fact, there is very general satisfaction throughout the peninsula with the action of the upper peninsula members' caucus in selecting Marquette as the location for the Normal school, it being generally admitted that the institution will accommodate the people of the whole peninsula better here than it would at any other point where it could be placed.

In the senatorial contest in Pennsylvania it doesn't seem that any party has gained any particular advantage, all having held their strength since the balloting began. Jones, the choice of the Democrats for senator, came mighty near upsetting the apple carts of those opposed to the re-election of Mr. Quay not long ago. In an interview he had declared he would withdraw and throw his support to any satisfactory independent Republican, when the opportunity time offered. He was ready to defeat Quay, he said, through the choice of such a Republican. But he was soon compelled to take water on his proposition. Democrats who considered themselves bound to Mr. Jones as the candidate of their party declared they would be absolved from such allegiance if Mr. Jones withdrew in order to elect a Republican of his choosing, and that many of them would vote for Quay if he did such a thing. Their determination frightened Jones and he repudiated his declaration to the effect that he would withdraw, but he made a mighty close shave when he shook the lines of opposition to Quay. That gentleman would have been elected by Democratic votes if Jones had carried out his first declaration.

THE DETROIT JOURNAL'S WASHINGTON CORRESPONDENT HAS DISCOVERED THAT SECRETARY OF WAR ALGER HAS DESIGNS ON THE SEAT IN THE UNITED STATES SENATE NOW FILLED BY McMillan, and will make a fight to secure it two years hence.

It is said that Senator McMillan will not seek a third term, but that he is planning to have his son chosen as his successor. If the Alger and McMillan millions should come into action with the senatorship as the prize in 1900 the election of that year will be the warmest one ever witnessed in this state.

The legislature is taking its work easy, and the prospect now is that the session will last well along into warm weather. If the members were paid a fixed salary instead of by the day the effect in shortening the session would be salutary, and it would result in a large saving to the state exchequer.

UPPER PENINSULA.

A monument upon the grave of Cipriano Pedrote to attest the honor in which his memory is held, in his having lost his life in his country's cause, as well as the personal esteem with which the community regarded him, is to be erected by the citizens of Vulcan and Norway.

A Mr. Parker, a relative of the promoter of the trans-peninsular canal, was in Manistique last week. He says that the capital stock for the project has been practically subscribed, and that work on the preliminary survey will be commenced early next spring. Two surveys will be made.

The population of Menominee as shown by the forthcoming city directory is 15,000. The Leader quotes the chief canvasser as saying: "I have visited many cities, but in comparison to the population there were so few vacant buildings and business places."

C. G. Turner, of Traverse City, has a copper mine in process of opening at Lake Gogebic. He claims that he has struck a vein or virgin copper several feet in thickness, and has, at the present time, men at work doing exploratory work. He will organize a mining company in the spring. As yet the mine is unnamed.

There are negotiations pending for the purchase of the Sheridan mine, owned largely by Escanaba and Gladstone people. A Cleveland furnace company wants the property, and the mining company wants the furnace people to have it, so probably the deal will go through. Should the negotiations fall to consummate the Sheridan will be worked the coming season.

Dr. Deadman of the Soo, was in Manistique Wednesday with his famous dog team, says the Pioneer-Tribune. The doctor utilizes his team in looking after his large practice. He frequently drives from the Soo to St. Ignace and other remote points from the Soo. The doctor is enroute for Wisconsin. The team created considerable interest about town during his stay there.

The Soo's new Third ward school building is receiving its finishing touches, and it will be ready for occupancy about March 1. It is handsome, commodious, convenient, and a model structure in every way, and is said to be the finest building of its kind and size in the upper peninsula. Its cost complete will be about \$22,000 and it will accommodate 375 pupils.

The earliest breaking up of a logging camp to occur near Menominee for some time will take place this week. The Kirby, Carpenter company's camp at Elmwood, in charge of Guy Clark, will break on Wednesday. This has been an exceptionally prosperous winter for logging, and the full quota has been harvested at this camp much earlier than was expected, hence the suspension of operations there.

A Lansing dispatch says that the Minneapolis, St. Paul & Sault Ste. Marie Railway company reports that it earned \$18,215 less than nothing in Michigan in December last. Its explanation of this singular report is that it discovered that it had reported too large earnings for the

previous months of the year, and so adjusted the account in the manner indicated. Commissioner Wessell declines to accept that report, and has directed the company to report exactly what it earned in December, regardless of what mistakes it may have made.

It sounds strange, but nevertheless it is a fact that there is a scarcity of stove wood in every town on the Ontonagon range. Situated as they are in such close proximity to forests of the finest hard maple and birch one would think that cord wood would be a drug on the market, but it is just the reverse, and if one had several hundred cords of dry wood on hand at present in Ontonagon county he would have no difficulty disposing of it at \$6 per cord. Next winter it will be worse for there does not appear to be any one getting out more than a quantity this winter as farmers and others who own teams can make more money with them working for the new mining companies, besides choppers are scarce throughout that county.

During the past week about seventy-five men belonging to Company M, Seventh infantry, at Fort Brady, have been discharged in compliance with orders received from the war department by Captain W. J. McIver. The order affected all soldiers who enlisted subsequent to May 10, 1898. At that time applicants were informed, according to a general order, that they could enlist for three years or during the period the war lasted. The men discharged at Fort Brady last week were nearly all from Boston and they have returned there. About thirty-five men are left in the company. The officers are not all displeased at the departure of a majority of the men, as they were an unruly lot. But few would be re-enlisted even if they desired to again enter the service. Men will be recruited at the Philadelphia station to fill the vacancies in the company.

A dispute has arisen in regard to the boundary line between Wisconsin and Michigan along the Menominee river, which will affect the possession of a hundred or more islands in the river. All the islands have been assessed and taxed in Wisconsin and regarded as belonging to the Badger state. They have in recent years become more or less valuable on account of waterpower and now the authorities claim that in many cases they belong to Michigan. When Wisconsin was admitted into the union a clause was inserted that all the islands in the river below Quinnesec should go to Wisconsin. This was never ratified by Michigan, it is claimed, and therefore the middle thread of the main channel, the line originally established, is the boundary. This new interpretation will affect valuable islands in the river near Menominee and a large number up river. It is expected that an action to determine the real status of the matter will be begun in the United States supreme court. The owners do not know in which state to file their deeds or pay taxes, or which state has jurisdiction in case of lawsuits or in the event of a crime being committed on any of these islands. Several large paper companies are interested in securing a decision.

The board of engineers composed of Colonel G. J. Lydecker, of Detroit, in charge of the government work in this district; Colonel Raymond, of Philadelphia, and Major Adams, of New York, which was appointed last fall by the war department to examine into and make a report on the plans of the Michigan Lake Superior Power Co., as affecting the interests of navigation, held a meeting in Detroit last week. The plans of the company were considered in detail and minutely discussed. These plans were presented at a meeting of the board held in November, by the company, and provide for a dike or wing dam at the head of the falls, which will cut off the same flow of water as will be taken through the water power canal, and thus prevent the lowering of the normal Lake Superior level. The board formulated its report, and the Sault Ste. Marie News has been given to understand that it was a favorable one, only a number of recommendations for minor changes in the company's plans being made that in no way conflict with the enterprise.

The report is now in the hands of the war department. Its adoption will mean that the last straw has been removed that might prevent the full prosecution of the undertaking that means so much for the Soo.

Gladstone Delta: "Delta county once extended from the Menominee river to St. Mary's river, but it has been cut down gradually until it reached its present proportions. Now it is to lose half a dozen more townships on the eastern border. As the county is already small enough, as many towns should be added to the western and northern sides. Marquette county is too big; it is sprawled all over the middle of the peninsula and contains three cities as well as many villages and hamlets. Marquette can well spare a few townships in the thinly settled parts of her territory. The bill for amending Delta should be amended so as to give us one range of townships in 24 and 25 west all along the west side of the county, and a tier of towns 44 north from range 19 to 24. This territory is naturally tributary to Delta and now is the time to give it to us. If Representative McCallum will amend his bill to this end he will be forgiven and not otherwise. Senator Baker desires to do what is right. Any map will show the gentlemen what is due this county as compensation for the four rich towns taken from our sunny side. The territory we ask for is either thinly settled or uninhabited, and those who are already living in it are nearer to our towns than to those of the counties to which they are attached. A fair exchange is all we ask."

BUCKLEN'S ARNICA SALVE.—The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Stafford Drug Co.

Too late to cure a cold after consumption has fastened its deadly grip on the lungs. Take Dr. Wood's Norway Pine Syrup while yet there is time.

PIPE STAVES FOR SALE.

1,665 pieces 2 1/2 in. by 5 1/2 in. by 16 feet, cut to circle 6 ft. inside diameter. Equals about 29,000 feet, selected common pine, well seasoned. Price in pile at city power station, \$19 per thousand feet. Light & Power Commission, R. A. Wilson, Superintendent, Marquette, Mich. (12-15-15)

Advertisement for Syrup of Figs, featuring an illustration of a woman holding a bowl and text 'NEVER IMITATED IN QUALITY'.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon you the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

ADVENTURE CLOSES A DEAL SECURES STAMP MILL SITE ON LAKE SUPERIOR ALTHOUGH IT MAY NOT BUILD THERE.

The Adventure Consolidated has closed the deal for a stamp mill site on the shore of Lake Superior two and a half miles east of Ontonagon. The purchase includes all of Section 16, Town 52 north of Range 29 West, or about 200 acres, the remainder of the section being cut off by the lake, leaving only a triangular piece. The site is just west of Four Mile point, and Bear creek empties into Lake Superior near by. By damming this and utilizing the water from another small stream west of the location, sufficient water might be secured to run a stamp mill; this, however, is only one of the possible advantages of the site, as it may be found advisable to take water from the lake.

The purchase of this site does not necessarily mean that the Adventure will build its mill there; the site has been purchased as a measure of precaution only, and when the time arrives for the construction of a mill the advantages of Keweenaw bay and other sites will be duly canvassed and the mine will consider carefully the propositions it may receive from the Copper Range, South Shore and St. Paul roads before arriving at a decision.

The Adventure is opening up finely and undoubtedly has a brilliant future before it, but it will be some time before it will need a mill. Its management believes in making haste slowly in such an important matter, and while it might be crowded so as to furnish rock for a mill this summer, it is more than probable that no start will be made upon its mill before fall, when the mine will be in better shape.

FIND AT THE ALLOUEZ. Allouez had a boom all its own Sunday and the opening yesterday morning found it at 12 1/2, while it closed Saturday noon at 10. The flurry was caused by the report circulated in Houghton and Hancock that the Allouez had at last struck good-looking rock in its shaft on the Osceola amygdaloid. When John Stanton returned east a week before, he stated as he took the train that while the Allouez had been working in the Osceola lode for some time the vein matter was poor and no copper had been found. He hoped that it would show up richer farther down, and this hope seems to have been realized, as the report is fairly well authenticated that a rich shute was struck Saturday. It was certainly time for the Allouez to strike something after all these years besides the pocketbooks of its stockholders.

CROWDED WITH ORDERS. The foundry and machine shop of Charles J. Hodge is crowded to overflowing with mining work now and machinists have been hunted up all over the peninsula to help out in the rush. Nineteen rock crushers are now on the order book or in progress of construction for the different mines of the district, including some for the Arcadian, and besides these the plant is hard at work on the 120 jigs for the new Franklin mill, a part of which have already been delivered. Twenty-three moulders are now employed in the foundry and Superintendent Harris has fifteen or sixteen machinists in the machine shops. The works are running night and day to take care of the rush of work.

BIG C. & H. DIVIDEND. Copper country holders of Calumet & Hecla stock were rejoiced to learn yesterday morning that in addition to the regular dividend of \$10 an extra dividend of \$30 had been declared. The Merchants & Miners' bank of Calumet received a telegram announcing the fact, but the telegram gave no information as to the date of payment or other details. Forty dollars a share means a dividend of \$4,000,000 and a total of dividends distributed by this property of \$60,850,000.

COPPER GOSSIP. Dr. L. L. Hubbard and party started

for the Wyandotte yesterday morning, the roads having at last hardened sufficiently to permit the hauling of supplies out to the property, some twenty-seven miles from Houghton. While the thaw delayed the start, which was planned for last week, it will probably prove a gain in the end, as the body of snow has been lowered materially, thus lessening the trouble in locating the shafts and in clearing the ground for the warehouse, camps, barn and other temporary structures which are to go up at once.

Captain James Chynoweth, of the Centennial, who is also to superintend the work of development upon the Trimountain, returned to Houghton yesterday noon after taking a look at the property, the lines of which will be established immediately preliminary to the commencement of work thereon.

DIED ON THE RAILROAD SURVEY. UNEXPECTED DEMISE OF FRED LORANGER, WHO FOUGHT AT SANTIAGO--DETAILS MEAGRE.

A telegram was received yesterday morning by General Manager Charles A. Wright, of the Copper Range railroad, announcing the death in camp near the old Henwood mine of Fred Loranger, a veteran of the Santiago campaign, in which he served as a member of the Houghton company--F--in the "late unpleasantness." The telegram was from Engineer Stockley, who has charge of the party working on that end of the survey, and was sent from Greenland.

The news was quickly learned by Captain Hendrickson and members of Company F and at first could not be believed, as Loranger, who was about twenty-three years of age, looked strong and stalwart and had been out on the survey only about a week. He was a son of Alec Loranger, who recently moved to Detroit after many years' residence at Houghton, Fred and George, the latter a married brother connected with the Mineral Range road, choosing to remain in the copper country.

In the afternoon George Loranger and an undertaker started to drive out to the camp near the Henwood mine, about forty miles from Houghton. They intended to push through if possible and are expected to return to Houghton with the remains today. While the telegram did not give any particulars as to the manner or cause of death the rumor spread about town yesterday afternoon that it was caused by pneumonia.

The members of Company F, now again members of the Michigan state troops through their discharge from the service of the United States, though still without equipment, expect to turn out nearly to a man to show their respect for their late comrade in arms when the funeral takes place.

MIRACLE IN COPPERDOM. The remarkable has happened, and Saturday and Monday, after "big pay day," found at this writing the justice offices of Calumet without one single, lonesome ordinary drunk to lighten the cares of the officials as well as his own pockets by contributing in coin of the vintage of McKinley for disturbing the peace and dignity of the people of the state of Michigan. At Hancock, too, Justice Finn smoked his pipe in solitary grandeur and mourned for the good old days, while Justice Brand, at Houghton, having become hardened to the state of affairs, just grinned to see the other chaps get a taste of it, while he officiated yesterday afternoon at the examination of two "drunks" picked up in Houghton Saturday night. Andrew Nelson, the first victim, was given sixty days in jail.

FOR SALE. At a bargain and on easy terms. The property known as the Hoskins place on Lake street, Lake Linden. Small payment down, balance on long monthly payments. For particulars call on M. A. Ross, at New Linden Hotel. (2-21-1w)

THE BOARD OF TRADE CAFE

The Haas Brewing Co. ESTABLISHED IN 1859, Houghton, Mich.

Recently equipped and expanded to the largest and most modern brewing plant in the upper peninsula. Capacity, 200 bbls per day.

Fine Table Beer Our Specialty.

COPPERDOM BREVITIES.

Hon. Thomas B. Dunstan leaves today for Detroit to take in the Michigan club banquet tomorrow, Feb. 22.

Mrs. C. J. Martin returned to Marquette Monday after spending Sunday in Houghton with her husband.

The thaw has melted the snow off from the ice on Portage Lake and now skating is again enjoyed in the lake itself as well as in the rinks.

George D. Sherman, the new superintendent for the upper peninsula of the Michigan Telephone company's exchanges, with headquarters at Marquette, arrived at Houghton yesterday afternoon to look over the exchanges in the copper country.

A runaway horse made things lively for a few minutes at Calumet late Sunday afternoon, finally bringing up head first against a telephone pole near Paul Kratt's place, the shock killing the animal. Hoskins had owned the outfit, but is understood to have lately transferred it to his clerk.

This evening a sleigh load of Houghton young people will drive up to Calumet to attend the rink party to be given at the Laurium ice rink by the pupils of the Calumet high school. The committee having the matter in charge consists of Frank Sody, Harry Goldsmith, John Kerr, Noble Borgo, Wallace Nelson and Matt Gipp. The Superior band will furnish the music. An effort is being made to secure a special train between Houghton and Calumet and in the event of its being secured the trip by sleigh will be abandoned.

NOTICE.

COPPER RANGE RAILROAD COMPANY.

TIES. Will be purchased by this company, at its option, as per description, prices and specifications given below, delivered and piled on the company's right of way at points designated by the Chief Engineer before July 1st, 1899.

SPECIFICATIONS: Quality of Timber--All ties shall be made of sound, live tamarack, Hemlock or Cedar timber, and they must be straight grained and free from wind shakes. Dimensions--All ties shall be peeled and exactly 8 feet in length, 7 inches thick; not less than 8, nor more than 12 inches face width. The faces of all ties must be parallel, out of wind and free from score marks, and the ends must be squared. Special Conditions--Ties that do not fit the foregoing specifications will be classed as cul ties and may be accepted by the company or may be rejected entirely. All ties that shall be rejected by the company's inspector will be left at the place of delivery subject to the order of the contractor, who shall promptly remove the same, and, in the event of the contractor failing to remove them, they will be removed by the company at the sole risk of the contractor. Ties must be placed in piles not exceeding 100 feet in length, leaving a space between piles of not less than 25 feet lengthwise, and not less than 3 feet in depth. All ties delivered in accordance with this notice, and received by the company, will be inspected monthly, beginning April 1st, 1899, and payments for the same will be made within 30 days after the month in which inspection is made.

PRICES: Ties complying with above specifications and conditions, 20c per tie. Cul ties, if taken by the company, 10c per tie. C. A. WRIGHT, General Manager. Houghton, Mich., Feb. 13, 1899. (4-16-1m)

Engagement Extraordinary!

CALUMET---Monday and Tuesday, Feb. 20, 21. HOUGHTON---Wednesday and Thursday, Feb. 22, 23.

The most Brilliant, Social and Dramatic Event of the season. The Foremost of American Comediennes.

MISS CLARA THROPP,

Supported by a carefully selected company presenting for the first time in this county Henrik Ibsen's dramatic masterpiece,

"A DOLL'S HOUSE."

As played by Miss Thropp 600 nights at the Duke of York's theater, London. Followed by the farcial 1-act gem, "THE TRUANT SPOUSE."

NOTE.--Each lady attending will be presented with a souvenir leaflet of Rudyard Kipling's poems.

PRICES: 25c, 50c, 75c and \$1.00.

GENERAL MILES TELLS OF ARMY BEEF.

Court of Inquiry Into the Famous Controversy Begins Its Grind at Washington.

COMMANDING GENERAL THE FIRST WITNESS SUMMONED.

HIS CHARGES BASED ON REPORTS FROM SUBORDINATES.

No Imputation of Fraud, He Declares, Was Intended, and Three Other Officers Take the Stand and Assert the Meat Was a Very Poor Quality.

AT WORK SIFTING FOR THE TRUTH.

Washington, Feb. 20.—The Miles court of inquiry today made a good start in its work. Calls of ceremony on the president and the general commanding the army occupied a large part of the forenoon, and immediately thereafter General Nelson A. Miles appeared as the first witness. He and three other army officers summoned as witnesses were examined and disposed of before the court closed its session at 3 o'clock. General Miles' testimony, of course, was the feature of the day's proceedings. It was said after the court adjourned that Surgeon Daly whose original "embalmed beef" report was the genesis of the meat controversy, probably would appear at tomorrow's session.

PROGRESS OF THE GRIND.

The court of inquiry began this morning its first formal session. After the usual preliminaries General Miles was sworn as the first witness. He identified and approved a copy of his evidence before the war commission. Then he was shown a copy of the alleged interview with him printed in the New York Journal of Dec. 22. He said he did not think the interview correctly represented what was said, because the contents should be taken in connection with all that was said.

With regard to the interview in the New York Herald of Feb. 1, the general said: "I have a letter from the gentleman who, I understand, wrote this, in which he says he is willing to swear I declined to be interviewed and that, thinking something should be given out, he proceeded to write what he knew were facts." The witness declared the interview erroneously represented him to say that he had overwhelming evidence the refrigerated beef was treated with chemicals, when, as a fact, his only evidence was the reports of officers and men to the effect the beef had an odor like that of an embalmed body and they had seen chemicals injected into it.

The general said that Cuba and Porto Rico were excellent grass countries, and the cattle should have been shipped to the army on the hoof, as was done in the Civil war and in the wars with the Mexicans in Arizona and Texas and in the Porto Rico before he advised the department against sending more refrigerated beef. General Miles said he learned of a large supply of native cattle soon after landing and advised the war department the next day after getting ashore.

KICK FROM THE TROOPS.

Referring to the canned roast beef, as distinguished from refrigerated beef, Colonel Davis read a portion of General Miles' war commission testimony condemning it in severe terms.

General Miles said the canned roast beef was issued to the volunteer and regular troops alike on the transports and in Cuba till the arrival of the refrigerated beef.

FIFTY YEARS OLD

Why let your neighbors know it? And why give them a chance to guess you are even five or ten years more? Better give them good reasons for guessing the other way. It is very easy; for nothing tells of age so quickly as gray hair.

Ayer's Hair Vigor

is a youth-renewer. It hides the age under a luxuriant growth of hair the color of youth.

It never fails to restore color to gray hair. It will stop the hair from coming out also.

It feeds the hair bulbs. Thin hair becomes thick hair, and short hair becomes long hair.

It cleanses the scalp; removes all dandruff, and prevents its formation. We have a book on the Hair which we will gladly send you.

If you do not obtain all the benefits you expect from the use of the Vigor, write the doctor about it. Probably there is some defect with your general system which may be easily removed.

Dr. J. C. Ayer, Lowell, Mass.

frigerated beef. It was fully tested by the first regulars and volunteers. The first complaints of it, General Miles said, he heard at Tampa from some of the Rough Riders from San Antonio, but he paid little attention to it at the time, not realizing fully that there had been any change from the standard ration. He again heard of it aboard the Yale. The men declared they could not eat it, and he ordered an inspector to inquire into it. Again he heard of it in the trenches at Santiago, but he still was largely occupied with the campaign and thought nothing more of the complaints than he would of hearing some man kicking about his coffee or his hardtack.

What finally drew his attention seriously to the matter were the reports of officers that the whole of the Fifth corps were weak and prostrated. This was in August, when the question of a parade at New York was broached. General Bates at that time reported that only about one-fifth of the men at Montauk Point were in condition to march through New York. General Miles said this seemed to him remarkable, as there was no yellow fever at the point and he thought the men certainly ought to be over their malaria. He therefore ordered an inquiry into the beef about which there had been so much complaint.

AWAITED THE INVESTIGATION.

"Did you report this matter at the time to the commissary general's office?" asked Colonel Davis.

Gen. Miles leaned forward and, drawing his brows to furrows, replied, forcefully, "I am not required, Sir, to report to the commissary general."

"Well, did you report it to the secretary of war?" asked Colonel Davis.

General Miles, in reply, went at some length into an explanation of the routine of the army headquarters, showing why he preferred to conclude his inquiry so that he might have something tangible to present to the secretary.

Colonel Davis put a number of questions as to why the commanding general delayed definite action in the beef matter, and the witness responded that he delayed because he did not want to act until he secured the very best of authority, or, rather, information from the most reliable sources. Finally he issued an order to the officers to report on the quality of the beef furnished. He did not report directly to the secretary of war, because, under the rules of 1890, the order should go from the adjutant general to the secretary.

The general's attacks upon the canned and refrigerated beef before the war commission were then taken up specifically. Colonel Davis read the testimony of the commanding general in which he referred to the meat as "embalmed beef" and said it had been sent as "a pretense of experiment." General Miles was asked if he knew that when the war began canned roast beef was part of the army ration. This question brought out a partial explanation of his using the phrase "a pretense of experiment."

FRAUD CHARGES NOT INTENDED.

The general said he did not know that canned roast beef was part of the army ration, though in 1888 an order had been issued including canned corn or fresh beef. He did not understand that the canned beef now in question was meant. When his attention was finally attracted to the canned roast beef recently issued he assumed, he declared, that "it was being issued as an experiment," since it was not understood by him that canned roast beef was part of the regular ration.

Continuing his explanation, General Miles said he thought his use of the "pretense of experiment" phrase was unfortunate, and he disclaimed any intention to impute fraud to any one. "As far as indicating fraud," he said, "I wish to state no such inference was intended. It was, perhaps, an unfortunate expression, and had my attention been called to it I might have amended it to say, well, 'on the theory of experiment.' As a matter of fact, it was an experiment, and a very costly one."

"With that disclaimer," remarked Colonel Davis, "of course we will pass to the refrigerated beef."

COMPLAINTS WERE MANY.

Then, in reply to a question, General Miles said he first heard complaints against the beef at Ponce. The first direct statement that it had been treated chemically came, he believed, from Dr. Daly, who presented it late in September and appeared subsequently before the war commission. He said he did not recollect whether Dr. Daly's report was volunteered or whether he had been ordered to investigate and report on the meat. It was general talk among the officers at Ponce, General Miles continued, that the refrigerated beef must have been subjected to some chemical treatment to make it keep for seventy-two hours. Dr. Daly's, however, was the first official report.

General Miles then read a long summary of one hundred letters received by him at the army headquarters giving the various terms in which the army meat was characterized. These included "embalmed," "decomposed," "infected," "poisoned," "spoiled" and the like. He said that he should fix Sept. 21 (the date of Dr. Daly's report) as about the earliest at which the question of chemically treated meat had been brought to his notice so as to command his full attention.

OTHER OFFICERS TESTIFY.

Lieutenant Colonel Van Horn, of the Thirteenth infantry, was next sworn. The witness said he had used all kinds of beef—canned, corn, refrigerated and the canned roast article. He said the criticisms of the canned roast beef began early and were made often. None of the beef that the witness remembered was actually spoiled, but it was unpalatable and the ground of constant complaints. The witness had eaten some of the refrigerated beef which arrived in camp unspoiled and found that good.

Lieutenant Colonel Charles Minor, of the Sixth infantry, was the next witness. The canned roast beef was issued as a traveling ration when the regiment left Tampa and until the end of the siege. Complaints against the canned beef became general and marked about July 2. He said he was using it, and when opened it was apparently fresh but stringy and absolutely without nourishment, and when cut it fell to pieces. The men could not and did not eat it. "I believe then and believe now," he said, "the beef had been used for making beef extract and the nutrient taken out. It appeared to have been boiled to pieces." Major Henry Jackson, of the Third cavalry, gave similar testimony, and the court then adjourned for the day.

HOUSE VOTES MONEY FOR PAYMENT TO SPAIN.

Separate Appropriation of Twenty Millions Passes Under Suspension of the Rules.

THIRTY-ONE MEMBERS GO ON RECORD IN OPPOSITION.

REPRESENTATIVE BRUCKER OF MICHIGAN IS ONE OF THEM.

Attempts Are Made to Adopt by Unanimous Consent, as Necessary, Declarations as to the Philippine Policy, but None Are Successful.

DOINGS YESTERDAY IN CONGRESS.

Washington, Feb. 20.—A separate bill appropriating twenty million dollars for payment to Spain under the provisions of the treaty of Paris was passed today by the house under suspension of the rules. No amendment was in order, and all attempts to secure unanimous consent to offer an amendment declaratory of the policy of the United States not permanent to annex the Philippine islands were objected to. Mr. Wheeler of Kentucky, upon whose point of order the appropriation went out of the sundry civil bill, made the only speech in open hostility to the measure, but upon roll call, thirty-four members—thirty-one Democrats, two Populists and one Silver Republican—voted against it.

WAR MONEY FOR THE STATES.

The votes of 213 members were cast for the senate bill to reimburse the governors of states for the expenses paid by states in organizing the volunteers for service in the war with Spain before their muster into the service of the United States, the bill also passing under suspension of the rules. A bill appropriating \$500,000 for the Pan-American exposition to be held at Buffalo in 1901 was before the house when the absence of a quorum compelled adjournment.

Among those who voted against the Spanish appropriation was Mr. Brucker of Michigan.

CABLE TO MANILA.

BILL IN AID OF THE PROJECT RECEIVES THE APPROVAL OF THE SENATE FOREIGN COMMITTEE.

Washington, Feb. 20.—The senate committee on foreign affairs today authorized a favorable report on an amendment to the sundry civil bill for the construction of a cable to Hawaii and Manila, not to be built by the United States, but by a yearly subsidy to be paid by the government.

SENATE PROCEEDINGS.

The anti-scalping bill was finally disposed of for the present session today by the senate, that body displacing the railroad measure by taking up the army re-organization bill and making it unfinished business. The postoffice appropriation bill was under discussion for several hours and will be voted on tomorrow.

After the transaction of routine business the vote by which the naval personnel bill was passed was reconsidered and the bill recalled for correction, an error having been discovered, and then consideration of the postoffice appropriation bill was resumed. At 2 o'clock p. m. Mr. Hawley, chairman of the committee on military affairs, called up the army re-organization bill. Some discussion followed as to the precedence of the measures. Mr. Hawley said he had waited a long time and would give way no longer; he would accept nothing but unconditional surrender. The roll was called on the question of taking up the bill, and it was voted to take it up, 44 to 26. By this vote the anti-scalping bill was displaced as unfinished business. The Democrats voted in the negative, together with the Populists, Senators Pettigrew and Teller, Silver Republicans, and Mr. Lindsay of Kentucky voted in the affirmative.

MAIL BOXES FOR FARMERS.

After being read the army re-organization bill was laid aside and the postoffice appropriation bill taken up. Senator Tillman offered an amendment providing that star route contractors be required to collect from and deposit in boxes erected along their routes, the mail matter boxes to be maintained by the people along the route. The amendment was agreed to. Senator Butler asked for unanimous consent to an amendment providing that the postal commission make a final report to congress not later than March 1, 1900. This was objected to, and Mr. Butler moved the adoption of the amendment. It was defeated, 27 to 19. An agreement was reached that consideration of the bill should be resumed not later than 1 o'clock tomorrow and that the final vote on the measure and pending amendments be taken at 2 o'clock without displacing the unfinished business, the army re-organization bill.

Senator Frye of Maine gave notice that he would call up the river and harbor bill on Thursday. He also presented the amendment to the sundry civil bill providing for the laying of a Pacific cable. The house bill authorizing the secretary of the interior to rent or lease certain portions of the forest reserves adjacent to mineral or medicinal springs for hotel or sanitarium purposes was passed.

'HOD' TAYLOR'S NEW JOB.

At 6:15 the senate went into executive session and, at 6:30, adjourned. During the secret session the appointment of Horace A. Taylor of Wisconsin, to be assistant secretary of the treasury to

success William B. Howell, and of Colonel Marcus P. Miller, Third artillery, to be brigadier general, was confirmed, as were also those of Michigan postmasters: E. J. Marsh, at Hillsdale, and George Spaulding, at Monroe.

A favorable report was made to the senate during the day on Mr. Pettigrew's amendment to the sundry civil bill relating to the patenting of lands in the great Sioux Indian reservation opened to settlement.

BAN ON POLYGAMISTS.

FAVORABLE ACTION IS TAKEN ON A PLAN TO SHUT OUT MORMONS FROM CONGRESS.

Washington, Feb. 20.—A proposed constitutional amendment against admitting polygamists to congress was favorably acted upon today by the house committee on the election of president and vice president. A joint resolution for this purpose was introduced by Mr. Capron of Rhode Island, who will make the report.

ADMIRAL SCHLEY SPEAKS OUT.

(Continued from Page One)

to the above order, and without any further order or instruction from any one, I did ascertain the fact that the enemy was at Santiago and the enemy did not leave without a decisive conflict."

COMMANDED AT THE BATTLE.

Detailing the events connected with the battle of July 3, he says that at 3:45 that day Admiral Sampson made the signal from his flagship, "Disengage the movements of the commander-in-chief," and steamed eastward to Siboney, "This," says Schley, "left me senior officer present and necessarily clothed me with the responsibility of the command." Continuing, he declares that when the enemy's vessels came out the harbor the signal was made from the Brooklyn (his flagship) to the fleet to "Clear for action." Then followed the signal to "Close for action," and this by the signal "The enemy is escaping to the westward."

Following the appearance of the Spanish fleet, there was a general inward movement, the American vessels closing and engaging it. At the final capture of the Colon at 1:15 p. m. the Brooklyn was the nearest ship, the Oregon next and then the Texas and Vixen. The New York arrived at 2:23 p. m. and the commander-in-chief assumed command of the squadron. Signals were made from the Brooklyn to the squadron until all the signal halyards were shot away and then by the Meyers army code.

BROOKLYN BORE THE BRUNT.

In conclusion, Admiral Schley contends that the turn of the Brooklyn in the battle of July 3 was the "crucial and deciding feature of the combat, and of decided advantage." Furthermore, he says that it is a mistake to say that the vessel's distance from the enemy was increased to the extent of eight hundred yards, and adds, "Although this may not be of record, it is a fact, nevertheless." He cites the fact that the charts of the board of navigators shows that the Brooklyn was the nearest when the fleet emerged from the harbor, the nearest to the Colon when it surrendered, and he gives many confirmatory details of his flagship's active and effective participation in battle. He says he made no report of his maneuvers in his report of the battle, as its effect upon the battle was never a question with him. The admiral's last paragraph reads: "May 21 I received a telegram from the commander-in-chief congratulating me upon my success in locating and blocking the enemy's fleet at Santiago. If it was a worthy commendation at that time, I am at a loss to understand how it could have grown into 'reprehensible conduct,' as suggested by Admiral Sampson in his letter of July 10, 1898, some six weeks later."

NEW HUNGARIAN MINISTRY.

Buda-Pest, Feb. 20.—Emperor Francis Joseph has entrusted Koloman-Dezsell with the task of forming a new Hungarian cabinet, in succession to the ministry presided over by Baron Banffy, who announced on Saturday last the ministers' intention of resigning at the close of the parliamentary session.

WRITING PAPER TRUST DENIED.

Neenah, Wis., Feb. 20.—At the main office of the Kimberly & Clark company of this city denied the report to the effect that the writing paper mills of the country have been taken into a trust. An official of the company today said the report was absolutely without foundation.

DAUGHTERS OF REVOLUTION.

Washington, Feb. 20.—The continental congress of the national Society of the Daughters of the American Revolution convened today. Mrs. Daniel Manning, president general, read her annual address, dealing in part with the work of the society in sending nurses and supplies to the soldiers during the late war.

RECORD OF DEATHS.

LaFayette, Ind., Feb. 20.—Charles E. Stewart, president of the board of trustees of Purdue university, died tonight.

Washington, Feb. 20.—Mrs. Elizabeth Wallis (Madame Ponist), at one time one of the best known actresses on the American stage, died today, aged eighty.

BOSTON PUGILIST WON.

Buffalo, Feb. 20.—Spike Sullivan of Boston tonight knocked out Otto Seiff of Chicago in the thirteenth round. The fighting throughout was fast and fierce.

Syracuse, N. Y., Feb. 20.—Ed Dunkhorst of Syracuse went from Fray Lullier of St. Paul in eight rounds tonight.

A \$225,000 PAPER DEAL.

New York, Feb. 20.—George B. M. Harvey, a well-known newspaper man and head of the syndicate that has purchased the street railroads in Havana, has bought The North American Review from Lloyd S. Brice and David A. Monroe. The price is reported to be \$225,000.

Jennie—No man can love a girl with a white face and a red nose. Rocky Mountain Tea will make them change places, then you're all right. Stafford Drug company.

GREATEST DAY YET IN COPPER STOCKS.

Calumet & Hecla Tops the List With a \$75 Advance on Its Phenomenal Dividend.

ALLEGED POOL FORMED TO PUT WINONA TO THIRTY.

GAIN IN MOHAWK, NOW A STRONG EASTERN FAVORITE.

Volume of Business on the Exchange Simply Beyond Comprehension, With Many of the Brokerage Firms Working Night and Day in Relays.

BOOM STILL ON IN FULL BLAST.

Boston, Feb. 20.—[Special.]—Today was the greatest day ever known in copper stocks, Calumet & Hecla gaining \$75 in five hours on the strength of the phenomenal dividend of \$4,000,000, which is the largest sum ever paid in a single dividend by any American corporation except in liquidation.

WINONA IN THE SWIM.

The Winona made a sensational advance to \$20, partly on heavy Lake and local buying and partly because a strong pool has been formed to put the price to \$30 with every prospect of success. Most flattering reports come from the Winona, and this cannot but favorably affect its neighbor, the Wyandotte, which has the northerly extension of the lode, which is unquestionably the Pewabic on which the great Quincy mine is opened. Arnold sold down to \$8, but recovered to \$10, where it closed. The feeling toward Arnold is not favorable here.

Mohawk gained to \$33, closing at that figure. All reports regarding this property are unanimously favorable, including many from entirely disinterested sources.

Old Colony sold up to \$21, and is booked for \$25 and perhaps higher.

OVERTURE FOR THE CLERKS.

The volume of business in "coppers" is simply beyond comprehension. The clerks in the leading brokerage houses are working sixteen hours daily, and several firms are working in relays every one of each day's twenty-four hours, including holidays and Sundays, and even then they are behind from one to four weeks in posting and comparisons.—Horse J. Stevens.

MINING COMPANY LOSES.

Helena, Mont., Feb. 20.—The supreme court of Montana today denied the application of the Boston & Montana Consolidated Mining company of Butte for a writ prohibiting Judge Clancy of the district court from appointing a receiver for the company upon the petition of Burdette O'Connor, a stockholder. The decision will not become effective for ten days, and in the meantime the Boston & Montana company will endeavor to secure further delay in the appointment of a receiver.

BOSTON QUOTATIONS.

The following were yesterday's Boston stock quotations, furnished by A. B. Turner & Bro., Savings Bank Building, Marquette:

Table with columns: Opening, 12 m., Closed. Lists various stocks like Adventure, Ashbed, Arcadian, etc.

ACTIVITY IN WALL STREET.

TRANSACTIONS AGAIN OVER A MILLION SHARES AND PRICES GO TO STILL HIGHER POINTS.

New York, Feb. 20.—The active stock specialties generally made large advances today, while the railroads gained from 1 to 3 points. A strong tone prevailed practically all day, with the strength radiating from one group of stocks to another.

News that a syndicate had secured a majority of the Chicago & Alton stock benefited the Southwestern group, including Texas Pacific, Missouri Pacific and Kansas & Texas preferred over 2 points each. Atchison preferred was about the strongest stock among the railroads, making an extreme rise of 3/4 on favorable forecasts of the forthcoming January statement of net earnings. Among the local traffic shares pronounced strength appeared.

Tobacco was the sensational feature among the industrials, adding to its recent rise 1 1/2 points. Many conflicting rumors were disseminated concerning the continued rise in Tobacco. Some believe it is a movement against the short interest, part of which was formed on the breaking up of the pool in the stock some time ago.

NEW YORK MONEY RATES.

New York, Feb. 20.—Money on call today was steady, at 2 1/2% per cent; prime paper, 2 3/4% per cent; exchange, steady, with demand at \$4.86@4.86 1/2 and sixty days at \$4.84@4.84 1/2.

CONVENTION ENDED.

Washington, Feb. 20.—The National Council of Women closed its triennial session here today. Arrangements were made for representation at the international council meeting in London next May.

IN THE CABINET NOW.

Washington, Feb. 20.—Ethan Allen Hitchcock of Missouri, recently ambassador to Russia, today took the oath and entered upon the duties of secretary of the interior.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

IN THE CABINET NOW.

Washington, Feb. 20.—Ethan Allen Hitchcock of Missouri, recently ambassador to Russia, today took the oath and entered upon the duties of secretary of the interior.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

ROYAL Baking Powder. Made from pure cream of tartar. Safeguards the food against alum. Alum baking powders are the greatest menaces to health of the present day.

In the final hour realizations occurred in many stocks which caused some declines of note, but the general market displayed its rallying tendency to the end. The dealings were considerably in excess of a million shares, the largest that have taken place in some weeks, with the commission houses reporting a good volume of out-of-town buying. The following are the closing quotations of principal bonds and stocks:

SURPRISE IN THE WHEAT PIT.

UNEXPECTED DECREASE IN THE VISIBLE SUPPLY HASTENS THE SHORT HOLDERS TO COVER.

Chicago, Feb. 20.—The trading in wheat today was active, within 1 1/2 cent range, closing 1/4 from the top and 1/2 above Saturday. The market opened strong, on higher cables and the smallness of the world's shipments; declined on account of liquidation and because of large receipts; rallied sharply on an unexpected decrease in the visible supply and on large clearances.

Trade in corn was fairly active, within 1/4 cent range, closing 1/4 from the top and 1/4 above Saturday. The market opened firm; declined on the liquidation of long property and excessive receipts; rallied with wheat and on light country acceptances.

The trading in oats was fairly active, within 1/4 cent range, closing medium and 1/4 above Saturday. The advance was in sympathy with wheat and on covering by shorts.

The leading grain futures ranged as follows:

Table with columns: Opened, Highest, Lowest, Closed. Lists Wheat, Corn, Oats.

Closing Cash Quotations:

Wheat, strong, No. 2 red, @74 1/2; No. 2 hard winter, @66 1/2; No. 2 northern spring, @70 1/2; Corn, steady, No. 2, 34 1/2 @ 1/2; Oats, easy

THE BONE-SETTER

HERE AGAIN.

DR. ARONS ARRIVES THIS MORNING.

This Wonderful Bone-Setter Comes on the Recommendation of Those He Has Already Cured.

WILL BE AT THE HOTEL MARQUETTE AS USUAL.

MANY ENQUIRIES FOR HIM HAVE BEEN MADE.

Dr. Arons, the wonderful Bone-Setter, telegraphs in response to many enquiries, that he will arrive here at 10:40 a. m. and will be at the Hotel Marquette, where he will be glad to have those wanting his services call. He has made many wonderful cures in Marquette and in every case that he has undertaken he has met with success. Any patient who has been under his treatment stands ready to testify in his behalf, both as an honorable and wonderful doctor. Hundreds of cases of dislocated hips, shoulders and ankles have been reset right here in Marquette successfully and without pain. The work is all done without the use of a knife or other sharp instruments. The doctor has demonstrated what he can do before many of our prominent citizens and professional men. The greatest wonder of all is the very short time it takes to do the work and the little or no pain that is experienced by the patient. He will straighten a club foot so that the patient can walk in ten minutes. Call on the bone-setter in his rooms at the Hotel Marquette today. He will give you all information gratuitously.

Lands Wanted

containing Coal, Iron, Copper, Lead, Zinc and other minerals. Also timber lands.

NICHOLSON & CO., 150 Broadway, New York.

WANTED-FOR RENT OR SALE.

FOR SALE-A large hotel containing thirty-six rooms and situated at the junction of the Chicago, Milwaukee & St. Paul R. R. and Sault Ste. Marie R. R. at Pembine, Wis. Address Jas. McGuire. (2-20-1w)

WANTED-Men to learn barber trade. We positively guarantee \$80 monthly after only eight weeks practice. Spring rush soon. Students from distance assisted with transportation. Tools presented. Write at once. Moler Barber College Chicago, Ill. (2-18-1m)

WANTED-Competent girl for general household work. 310 East Arch St. (2-20-1f)

WANTED-Railroad ties and telegraph poles. Address Thomas Workman, Baraga, Mich. (2-10-1m)

FOR SALE-One pair of heavy horses fit for the lumber woods. Call at No. 221 Superior street. (2-7-1f)

WANTED-A girl for general household work. Good wages to the right girl. Mrs. J. E. Sherman, 414 E. Hewitt Ave. (2-21-1f)

WANTED-Situation by first class stationery engineer; understands dynamo. Address E. P. White, 132 Van Buren street, Chicago, Ill. (2-18-1f)

FOR SALE-Choice building lots in Nester addition for sale cheap for cash, or on time at low rate of interest. For particulars enquire at office of Peter White. (2-18-1f)

COAL AND WOOD-Will be sold at the following prices for cash:

Table with 4 columns: Coal/Wood type, Ton, 1/2 ton, 1/4 ton. Rows include Hard Coal, Soft Coal, Cannel Coal, Hardwood dry, Hardwood dry, split, per cord, Dry Pine slabs, per cord.

COAL AND WOOD-Will be sold at the following prices for cash:

Table with 4 columns: Coal/Wood type, Ton, 1/2 ton, 1/4 ton. Rows include Hard Coal, Soft Coal, Cannel Coal, Hardwood dry, Hardwood dry, split, per cord, Dry Pine slabs, per cord.

NOTICE. One Dayton Computing Scale (new), price at factory \$45, will sell for \$30; also one \$55 Cary safe for \$50; one S. F. Bowser self-measuring oil tank (new), for \$20; one 16-foot display case; one pickle display case; one three-story show case; one four-story show case; two 8-foot show cases; two 4-foot show cases. The above goods are new, or nearly so, and in first-class condition, and will be sold for cash only, to close out.

J. L. HERLICH

UNDERGROUND EUROPE.

Among the most remarkable features of the nineteenth century, now rapidly drawing to a close, has been a revival after more than a thousand years of that disposition to burrow beneath the surface of the soil which seems as instinctive with man as it is with the mole, the analogy between the two in this respect affording food for reflection to those who favor the doctrines of evolution in connection with the origin of the human race. Give a child of tender years a spade and a heap of sand, and the first thing that he will proceed to do is to tunnel, and as he grows up the fascination of the underground grows upon him to such an extent that sooner than go over a mountain or a river he will prefer to pass beneath, while in a number of the leading cities of Europe the people, called upon to choose between an aerial and a subterranean means of traffic and communication, have unhesitatingly announced themselves in favor of the latter.

If attention is drawn to this at the present juncture, it is because of the announcement in the cable dispatches to the effect that England's parliament is about to be called upon to institute measures for the purpose of putting a check, if not an absolute stop, to the process of honey-combing the foundations and subsoil of the British metropolises. Moreover, an alarming accident has recently taken place at Paris, where the celebrated Restaurant Champeaux, on the Place de la Bourse, where the princes of finance are wont to foregather for their midday meal, was wrecked the other day by an explosion of terrific force, which is ascribed to the accumulation of gases in the subterranean passages and tunnels which traverse the French capital, maza fashion, in every direction. Then, too, the works of the new "Metropolitan" or underground railroad, beneath the crowded Rue de Rivoli that skirts the Tuilleries, are encountering almost insuperable difficulties, owing to the extraordinary number of vaulted galleries that tier upon tier intersect the entire route of the projected railway, and which require the most delicate handling in order to avoid danger in the huge buildings that line the Rue de Rivoli throughout the greater part of its length. Finally, the anti-anarchist conference at Rome which has just brought its sessions to a termination, is asserted to have had under consideration the disposition which the nihilists and anarchists have shown of late to avail themselves of tunnelings and tunnels for the perpetration of their outrages against the constituted authorities and against society.

The peril that threatens London and that is about to lead to statutory action in parliament is serious. But it is one by which Paris, Rome, and a number of other great cities of the old world are menaced in the same way. One hundred years ago there was practically no underground London, save along the river's edge, where wine cellars centuries old extended for several miles. Today there is almost as much life and traffic beneath the surface of the British metropolis as above it. Two and even three tiers of underground railroads, with their underground stations and shops, as well as other huge conduits, tunnels, sewers, and subways of every description, honeycomb the subsoil of London to the depth of more than one hundred feet, and unless some check is offered to this form of enterprise there is no knowing where it will end.

The results of this tampering with the foundations of London are beginning to be felt, and are giving rise to no end of alarm. A goodly portion of the metropolis appears threatened with subsidence, and the gravest fears are entertained for Westminster Abbey, St. Paul's Cathedral, and other historic state edifices. In fact, no one would be surprised to learn that their safety has become affected by the impudent interference with their foundations. It was but the other day that the London papers placed on record an alarming subsidence in Hyde Park, where the ground suddenly showed a rift several hundred feet in length, and a week later the sinking of about a hundred yards of the roadway on one side of Fleet street, while the police reports and the weekly returns of the building inspectors are said to furnish sensational reading with regard to the large number of big edifices in the city, and mansions both great small in the residential districts, that show cracked walls that are tottering, or that are actually wrecked by the subsidence of the ground.

A curious feature about the whole affair is that, in spite of all these burrowings, no one seems to possess any definite knowledge as to their extent, and it would appear that they are, so to speak, uncharted. For it was only ten years ago that general amazement was caused by the chance discovery that a gigantic metropolitan sewer passed right under Buckingham Palace, and that it was so imperfectly constructed as to have impregnated the entire subsoil of this, the queen's London residence, with sewage, a circumstance which served to account for the fact that her majesty invariably complained of feeling ill after spending more than twenty-four hours in this palace. That a sewer of this kind should have existed right under the palace within a few feet of the floors of the royal cellars without any one being aware of its presence there, speaks volumes for the happy-go-lucky methods that govern the subterranean portion of the British metropolises.

The same ignorance prevails with regard to the underground portion of Paris, for which, however, there is more excuse than in the case of the English metropolis. For the subterranean part of the Gallic capital is of ancient origin, and many centuries old. True, the state maintains an engineer, who bears the title of "inspector general" of this Plutonian region, and he has at his disposal liberal resources, as well as a large staff for the purpose of shoring up wherever the surface shows signs of subsidence. But he is obliged to wait for these manifestations, as no plan or chart of subterranean Paris is in existence, and a large portion thereof, at any rate, is as yet unexplored.

It is asserted that more than a third, CURE Rheumatism by taking Hood's Sarsaparilla, which by neutralizing the acid in the blood permanently relieves aches and PAINS.

indeed nearly one-half, of Paris is underground by the quarries out of which the stone that went to build the city in ancient times was extracted. These underground passages and tunnels bear the name of catacombs, but were not originally intended as such. Indeed, it was only at the close of the last century that the government conceived the idea of converting a portion of these tunnels into the stone to sepulchral uses, and from 1786 until the end of the revolution, all the bones of the dead were collected from the various churches and cemeteries of Paris, where they had been accumulating for centuries, and were deposited in these vaults. It is calculated that the remains of over 3,000,000 human beings were thus disposed of, the bones, as a rule, being laid closely in order, with their ends outward, while at regular intervals skulls are interspersed in ranges so as to present alternate rows of the back and front part of the heads. The portion of underground Paris devoted to these relics of humanity is known officially as the "assuise municipale"-the municipal bonery-and, strictly speaking, it is only this part that should be known as the catacombs. But it forms a relatively small portion of the entire maze beneath the surface of Paris, which is to such an extent undermined that the city may almost be said to be built on pillars and buttresses, rather than on solid ground.

As just stated, no one knows the extent of underground Paris. Tunnels and subways, the presence of which had been unsuspected, are constantly being found and it is no exaggeration to state that it is almost impossible to make any exact valuation along streets built before the present century without finding subterranean passages and vaults. Of the advantages which all the latter offer to the criminal classes it is hardly necessary to speak, and many a robbery has been perpetrated by burglars making their way into the cellars through tunnels the existence of which was ignored by the owner of the house.

It is with the object of protecting the Bank of France from burglaries of this kind that the institution has been provided with a most ingenious system of tanks, which would have the effect of discharging an enormous volume of water into any tunnel thieves might endeavor to bore from the secret subways beneath the city into the vaults of the bank. The disappearance of the water from the tanks has the effect of starting off a burglar alarm.

At the close of the Commune a number of the insurgents are known to have sought refuge in this underground portion of Paris, and, owing to the absence of any charts or plans, the authorities were soon obliged to give up the search. It is understood that a majority of the fugitives got lost below ground and the other day, as escaping from the tanks, which would have the effect of discharging an enormous volume of water into any tunnel thieves might endeavor to bore from the secret subways beneath the city into the vaults of the bank. The disappearance of the water from the tanks has the effect of starting off a burglar alarm.

Rome is another city honeycombed like Paris with subterranean passages, which, according to St. Jerome, were in existence already in the earliest period of the Christian era, but which were closed up and forgotten for hundreds of years, until, in the seventeenth century, their existence was unexpectedly brought to light by excavation. There, too, they are uncharted, and no one knows their extent, the official figures of the mileage of these underground passages varying from 300 to 900 miles. And, as if this were not sufficient in the way of honeycombing the Eternal city, the Roman municipality has just begun the construction of a long tunnel which is to connect the old city with the new, passing right under the Quirinal Palace.

There is something distinctly uncanny in the ignorance which prevails in Paris, Rome, and other cities of Europe with regard to the subterranean portions thereof, and it is odd that the mysteries in connection therewith should have appealed to so few novelists, Alexandre Dumas, the elder, being, so far as I know, the only writer of any eminence who has ever given them a place in his books. Equally unpleasant is the feeling that the ground on which one stands and the house in which one lives, are determined and likely to give way without warning at any moment.

It is a matter for surprise and congratulation that the anarchists and the nihilists, in their efforts to terrorize that social system of which they are the relentless foes, should have neglected until now to avail themselves of the unrivaled opportunities afforded by the underground portions of the capitals of Europe for the perpetration of outrages. They are fond of burrowing. At least half a dozen of the attempts upon the life of the present czar, of his father, and of his grandfather, have been made by means of tunnels beneath the railroads or streets which they were to traverse and beneath the churches and palaces in which they were to be present at a stated time. The purpose in each instance was to use the excavation thus made for blowing the imperial party into eternity. With tunnels and subways passing beneath royal palaces and public buildings, as is the case in so many European cities, one cannot help wondering why the anarchists should not take advantage of these subways already made, instead of burrowing afresh on their own account. A bomb dropped from the window of a carriage in the underground railroad that passes beneath the houses of parliament in London, or from the window of the tramway that will speed beneath the Quirinal palace at Rome, would be sufficient to reduce either of these two edifices to ruin. Yet, curiously enough, no attempt of this kind has ever yet been made. Is this to be attributed to the remnant of scruple, and to unsuspected sentiments of humanity on the part of the anarchists, or merely to lack of enterprise?

There were but two sovereigns in the

THE HORRORS OF WAR.

Dangers Encountered by Soldiers in Field and Camp.

A Minnesota Veteran Relates His Experience. Came Home Racked With Disease, but was Cured-Like a New Man.

Galesburg, Ill., Feb. 20.-H. Mendenhall of this city was a member of a Minnesota regiment in the great Civil War, and is now a member of L. P. Plummer Post No. 50, G. A. R., Department of Minnesota. While he was battling for his country disease fastened upon him. He suffered awful torture as the result of disordered kidneys. Today, however, he is a well man. Dodd's Kidney Pills entirely cured him. The veteran sings the praises of Dodd's Kidney Pills wherever he goes. "Dodd's Kidney Pills have done me a world of good," says Mr. Mendenhall. "My backache is stopped entirely and my kidneys, which were in a terrible shape, do not trouble me. My case was of several years standing, and the cure is a most remarkable one. I always recommend Dodd's Kidney Pills to every one I talk with who has kidney trouble, for I know they will do what they are advertised to do. They are the only medicine that ever did me any good. I am feeling like a new man."

Mr. Mendenhall also states that his wife was cured of kidney trouble by the use of Dodd's Kidney Pills. Dodd's Kidney Pills are sold by druggists at 50 cents a box, or six boxes for \$2.50. Sent by mail on receipt of price by Dodd's Medicine Co., Buffalo, N. Y.

present century who displayed any taste for subterranean passages, namely, Napoleon III. and the present kaiser of Germany. Napoleon III. had a secret underground passage constructed at Paris leading from the Elysee palace, beneath the Rue d'Elysee, to a private house on the other side of the street. This house belonged to his chamberlain, Count Bacchocchi, and whenever the emperor wished to undertake some secret excursion without the knowledge of his jealous consort he would proceed from the Tuilleries to his former residence at the Elysee for the alleged purpose of working quietly there with his ministers, and then, while his wife's spies remained watching at the gates of the palace, he would quickly pass from his private room through the subterranean passage to Count Bacchocchi's house, enter the latter's carriage and drive off. Eventually Italian conspirators found out the existence of this underground passage, and on one occasion toward the close of his reign an attempt was made to stab the emperor by an Italian carbonari, who was himself immediately killed by the emperor's Corsican body-guard, Baron Griseoli.

Emperor William has in the same way spent a considerable sum of money recently in the construction of his subterranean passages extending from the opera to the "Zeuchaus," where a strong military detachment is always on duty. Thanks to this, the kaiser is able to reach his box in the opera and to leave it without being observed. The subway in question affords a significant demonstration of the little confidence which the emperor reposes in the loyalty of his Berliners. Possibly he recalls the fact that his grand-uncle, King Frederick William IV., was forced by the people of Berlin to stand bareheaded on the balcony of his palace while the corpses of all those who had been shot down by his soldiers in 1848 were carried past him to the cemetery; while his grandfather, old Emperor William, then prince of Prussia, was compelled by these same Berliners to flee for his life to England.

A NARROW ESCAPE-Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Trial bottles free at the Stafford Drug Co. Regular size 50 cents and \$1.00 Guaranteed or price refunded.

The "life-line" is out, extending the "glad hand" of life, hope, and happiness. Reaches around the globe. "The Rocky Mountain Tea. Stafford Drug company.

TOUR OF ALL MEXICO.

In a special vestibuled train of Pullman compartment, drawing room, library and dining cars, with the celebrated open-top observation car Chilli, starting from Chicago, Monday, Feb. 27, for a tour of thirty-seven days, the longest ever offered. HALF RATES TO DETROIT, MICH., AND JACKSON, MICH.

Via the Northwestern Line. Excursion tickets will be sold at one fare for round trip, to Detroit Feb. 21, limited to Feb. 23, inclusive, account of Annual Michigan club banquet, and at one fare for round trip to Jackson Feb. 27 and 28, limited to March 3, account of Annual State Convention Prohibition party. Apply to agents Chicago & Northwestern railway.

THE MODERN WAY commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches, and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Made by California Fig Syrup Co.

\$2,500,000

Michigan Telephone Company

CONSOLIDATED MORTGAGE GOLD 5 PER CENT BONDS.

Part of an Authorized Issue of \$5,000,000.

Dated January 2, 1899. Denomination \$1,000. Due January 1, 1929.

Principal and semi-annual interest (January 1 and July 1) payable in Gold Coin of the United States of the present standard of weight and fineness, at the Old Colony Trust Company, Trustee, Boston.

The bonds are in coupon form, with provision for registration of the principal. They are practically a First Mortgage, as only \$285,000 of the \$750,000 First Mortgage Bonds originally authorized will remain outstanding.

Table with 2 columns: Bond type and amount. Rows include Share Capital (\$2,500,000), First Mortgage 5 per cent. bonds, due 1917 (\$285,000), Consolidated Mortgage 5 per cent. bonds, this issue (2,500,000), Average of net earnings for five years after payment of interest, applicable to dividends (\$183,171).

(See letter below from President Charles J. Glidden.)

Table with 2 columns: Year and Subscribers. Rows include 1894 (12,187), 1895 (13,098), 1896 (13,981), 1897 (15,568), 1898 (19,052).

It is estimated that the subscribers, Dec. 31, 1899, will approximate 30,000.

We offer the above issue of bonds for subscription at 99% and accrued interest to date of delivery, payable as follows:

3 per cent. or \$30 per bond on application. 96 1-4 per cent. and accrued interest upon delivery March 15th.

Application will be made to have the bonds listed on the New York and Boston Stock Exchanges. The policy of the management is outlined in the following letter to us from Mr. Chas. J. Glidden, president of the company.

GENTLEMEN: February, 6, 1899.

The Board of Directors and Executive Committee of the Michigan Telephone Company have authorized the proceeds of the sale to you of \$2,500,000 Consolidated Mortgage Bonds, to be applied as follows:

First. To purchase and cancel the \$650,000 outstanding First Mortgage Bonds of the Company. Contract has been entered into with the holders of these bonds for the purchase of \$365,000, leaving outstanding bonds to the par value of \$285,000.

Second. To purchase land and erect Exchange Buildings for the exclusive use of the Company at the following places:

In Detroit, for Branch Exchange Buildings, five.

For Main Exchange Buildings, one each at Battle Creek, Bay City, Kalamazoo, Lansing, Marquette and Port Huron.

The Company already owns land and buildings to the value of \$264,552.84, consisting of Main Building and one Branch at Detroit, and Main Exchange Buildings at Jackson, Saginaw and Grand Rapids.

Third. To extend the long-distance service to all important sections of the State not already covered, including the iron and copper district of the upper peninsula, thereby connecting this district with all long-distance points of the State and the entire long-distance service of the United States and Canada.

Fourth. To placing extra copper metallic circuits for long-distance service on pole routes already established throughout the State, providing for a large and increasing business.

Fifth. To pay the cost of connecting new subscribers at all Exchanges, and general additions to the Company's extensive plant.

Our past experience has proven that extensions and improvements of the character outlined have largely increased the revenue of the Telephone Companies, thereby providing for all fixed charges and regular dividends upon the Capital Stock.

Very truly yours, [Signed] CHAS. J. GLIDDEN, President.

MORTGAGE. The trust deed provides for a total issue of \$5,000,000 bonds, as follows:

\$2,500,000 now offered for extensions and to immediately retire \$365,000 First Mortgage bonds.

\$2,500,000 to be reserved by the Trustee for future extensions, and to retire the remaining First Mortgage bonds now outstanding.

REPORTS. All legal requirements in the preparation of the bonds and mortgage have been performed under the supervision, and with the approval, of Messrs. Storey & Thorndike; the physical condition of the property has been determined by Messrs. Stone & Webster, whose valuation thereof is herein stated; and the accounts have been examined and reported upon by Mr. Henry A. Piper, expert public accountant.

Copies of the reports are open to inspection.

Mystery of a Disappearing Cargo.

The mystery of the disappearance of part of the cargo of the schooner Chalmers two years ago, while bound from Baltimore to Savannah, has been solved by an examination of the vessel at Philadelphia, where she has been undergoing repairs. Ten tons of phosphate, the missing merchandise, were located between the inner ceiling and the outward planking, where it had worked two years ago while the vessel was storm-tossed at sea. It was necessary to cut away part of the planking on the inside and outside of the vessel to remove the phosphate, the work occupying over a week. The vessel had lost her insurable interest, and it was while the trouble was being inquired into that the missing cargo was discovered.

THAT THROBBING HEADACHE would quickly leave you, if you use Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by the Stafford Drug Co.

Smoking in Manila. Nearly everybody smokes in Manila. It is a common sight after sundown to see a father out for a stroll with his wife and children, and every one of them over the age of five years smoking a cigarette.—Chicago Inter Ocean.

Horses with Docked Tails. The Royal Agricultural society of England has adopted a resolution forbidding horses with docked tails from appearing at its exhibitions.—Chicago Chronicle.

Difficult to Side-Track. After suspicion is once directed toward a man it is difficult to side-track him.—Chicago Daily News.

Help is wanted when the nerves become weak and the appetite falls. Hood's Sarsaparilla gives help by making the blood rich, pure and nourishing. Get only Hood's.

Hood's Pills are easy to take, easy to operate. Cure indigestion, sick headache.

For frost bites, burns, indolent sores, eczema, skin disease, and especially piles, DeWitt's Witch Hazel Salve stands first and best. Look out for dishonest people who try to imitate and counterfeit it. It's their endorsement of a good article. Worthless goods are not imitated. Get DeWitt's Witch Hazel Salve. Stafford Drug Co.

A PLAIN LETTER About Four Hundred Baltimore Rye from Potosky's Most Prominent Physicians.

Reycraft & Reycraft, Physicians and Surgeons, Office over Postoffice, Potosky, Mich., Jan. 21, 1899. The Crown Distillery Co., Cincinnati, O. Gentlemen: Having thoroughly tested your Four Hundred Baltimore Rye whiskey, we believe it is one of the best of its kind and we recommend this brand in every case where a stimulant is indicated. It is perfect in stimulation. Mellow, well matured and peculiarly adapted as a medicinal in typhoid and other low types of fever. We always take pleasure in prescribing and recommending its use when a tonic or stimulant effect is desired. Very truly,
DRS. REYCRRAFT & REYCRRAFT.

Rich, pure and mellow; guaranteed ten years old; sold at all first-class cafes and at drug stores. (1-26-14)

WRITES FROM THE KLONDIKE. SAM HUOT HAS A LETTER FROM HIS BROTHER WHO IS MINING IN THE FROZEN NORTH.

Napoleon Huot is well known in this city. His brother, Sam Huot, resides here, and at various times Napoleon has visited Sam here, but has lived most of the time in the copper country. For some months past he has been in the Klondike region seeking for gold. From time to time he has written his brother here. The last letter received is dated Jan. 15. It is quite short and some of the space is devoted to personal matters. He writes:

"I write you a few lines in haste that you may know that I am well and also to wish you one and all a happy New Year. I received your kind letter a few weeks ago, in which you ask for information as to Alaska. Well, much could be said for and against this country, as many have accumulated great wealth and others (by far the greater number) have been very unfortunate and in many ways disappointed.

"I must say that in general those who have come here prepared and determined to stay have succeeded in securing good claims, or employment from other claim-holders who have paid and yet pay them good wages. Many come here unprepared to struggle, short of rations, short of money, not accustomed to this climate and our means of living, and of course soon gave way to discouragement and returned to their homes with nothing but stories of hardship and depreciation of our frozen country.

"There are a number of upper Michigan people around here. Among this number are N. Mercier of Lake Linden and Fred and Frank Picotte, both brothers of Dr. Picotte, of Ishpeming. About a month ago I visited N. Mercier, who has a very good claim on the Eldorado river, and on my return I came by the way of Hunter's Creek, where the Picotte boys are located. They were fortunate in buying a good claim from a man who returned to California late last fall.

The above is an extract of all the matter that is of general interest here. The letter was written in French. The Picotte boys are well known in this city, as they have visited their brother here. He hears from them periodically and they report that they are getting along finely. Ishpeming as a city has no representative in the Klondike country. At the time of the breaking out of the excitement over the gold fields there was considerable talk of possible expeditions heard here, but the parties failed to complete arrangements for the trip. It is probable that they are just as well off, particularly if they have been playing copper stocks as a substitute.

STOCKS VERY STRONG.

Everyone who had money in copper stocks yesterday had abundant reason to rejoice. The market wore the strongest aspect it has shown for several weeks. With the exception of the forlorn Arnold, the stocks were all booming. Local speculators are much emboldened and they are looking for still higher prices. Two and three point advances were made in several stocks. Winona had its long expected innings and the stock was lifted to the twenty dollar mark. It is predicted that it will reach twenty-five before the end of the week. Wyandotte, which was billed to follow Winona, did not fulfill the prophecy yesterday, but a raise in it is generally expected.

Tri-Mountain is a great favorite here and there has been good buying of the stock for the past few days. Among the bulletins received here yesterday was one announcing that a regular dividend of ten dollars and an additional dividend of thirty dollars has been declared on the Calumet & Hecla stock. This announcement did not cause the widespread satisfaction that resulted from the general rise in the small stocks.

Another bulletin received by Turner Bros. read, "Coppers very strong. Franklin and Mohawk look particularly well." Better prices and even a stronger market are generally expected here for the remainder of the week and there has been no general selling except in the case of Old Dominion. A large number of holders were scared out just before its rise to forty-seven dollars last week.

WILL PRODUCE QUEEN ESTHER.

The Harmonic club of the Methodist church has definitely decided to produce the well known cantata, Queen Esther. The matter has been under consideration lately and many requests have been made to various members of the organization that the piece should again be rendered. Feeling that there is a strong desire to hear the cantata again, the club has decided to undertake its production and the rehearsals will begin immediately.

The very best vocal talent to be found in the city will be enlisted in the production, and the principal parts will be in the hands of the favorite singers. The success of the performance is assured, as it has been produced by the same organization to the satisfaction of critical audiences in the past. Some of those

ATE DURING THE FIGHT. Admiral Schley and Capt. Cook Not Worried Enough to Lose a Meal. It seems that Admiral Schley and Capt. Cook sat down to dinner while the Brooklyn was chasing the unfortunate but gallant Colon. There's American assurance for you, says the Kansas City Star. At the close of a tremendously important battle, which settled a war and changed the map of the world, the commanders on the United States flagship, pursuing at top speed the last of the enemy, whose guns still belched defiance, sat down to dinner, which, no doubt, was served in style and with a strict regard for gastronomic etiquette.

"I will have a bit of the tomato soup," remarked the admiral. "Ah, that must have been a five and one-half inch shell, eh, captain?"

"Sounds like it—pass me the celery," replies Capt. Cook. With the cheese and black coffee and cigars the enemy is overhauled and driven ashore, the Spanish sailors dotting the sea like drowning rats and the aged Cervera tearing his beard in the agony of disaster. Then, after quaffing a chartreuse, the American admiral appears on deck and orders all boats lowered and all efforts made to save the lives of the saturated Spaniards. There ought to be fairly good material in this incident for a light opera. There was nothing half so naive or amusing in "Pinafore."

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. Stafford Drug Co.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

Gust Baruch is in the city representing J. Hamill & Co. of Appleton. He has found at Burke's barn at Ishpeming, where he has a load of draught horses on exhibition. All persons interested are invited to call and inspect the horses. (2-1-14)

THE MINING JOURNAL

People buy a newspaper to get the news.

The paper with the most news is always the best newspaper to buy.

The Mining Journal publishes more news than any other paper in Northern Michigan.

The proof is easy.

It costs a little more, but--it's worth the price.

AUGUST FLOWER.—"It is a surprising fact," says Professor Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used GREEN'S AUGUST FLOWER than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that GREEN'S AUGUST FLOWER is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." SAMPLE BOTTLES FREE at Stafford's drug store. Sold by dealers in all civilized countries.

REPUBLICAN STATE CONVENTION, Kalamazoo, Mich., March 1.—For this event the D. S. S. & A. railway will sell tickets at all of its stations in Michigan to Jackson and return, via Mackinaw City and the Michigan Central railway, at rate of single fare for the round trip. Tickets will be on sale Feb. 27 and 28, and will be good for return passage until March 3, inclusive. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A. (2-20-28)

DEMOCRATIC STATE CONVENTION, Kalamazoo, Mich., March 8.—For this event the D. S. S. & A. railway will have on sale at all of its stations in Michigan tickets to Kalamazoo and return, via Mackinaw City and the G. R. & I. railway, at rate of single fare for the round trip. Tickets will be on sale March 6 and 7, and will be good for return passage until March 10, inclusive. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A. (2-20-9)

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Electric Oil. At any drug store.

A PROMINENT PHYSICIAN (On State Board of Health of Wisconsin) Speaks of Four Hundred Baltimore Rye

STATE OF WISCONSIN, State Board of Health, OFFICE OF GEO. W. HARRISON, M. D.

SOLON MARKS, M. D., President Milwaukee; F. H. BOBENLUX, M. D., Madison; J. H. McNEEL, M. D., Fond du Lac; GEO. W. HARRISON, M. D., Ashland; Q. O. SUTHERLAND, M. D., Janesville; F. C. SUTER, M. D., La Crosse; C. O. B. WINGATE, M. D., Secretary, Milwaukee.

Aug. 5, 1898. Crown Distilling Co., Cincinnati, O. Gentlemen:—

The sample of Four Hundred Baltimore Rye Whiskey you sent me is one of the finest articles that I ever tested, and for medicinal purposes I think is as good as any in the market. I consider it perfectly pure and one of the finest of stimulants. Yours truly, GEO. W. HARRISON, Examining Surgeon, U.S.A. 3 Infy, U.S.A.

Its purity is extraordinary; guaranteed ten years old; sold at all first-class cafes and at drug stores. (1-26-14)

To Cure a Cold in One Day. Take Warner's White Wine of Tar Syrup, the best cough remedy on earth. 25 and 50 cents.

ROYAL Baking Powder Absolutely Pure

In and About Negaunee

LODGE WILL BE INSTITUTED.

WORK OF NEGAUNEE FORESTERS HAS BORNE GOOD FRUIT.

State Secretary Flynn of the Foresters and O. S. Green, an enthusiastic member of the same organization, spent Sunday at Marquette furthering the work that has been done there toward the organization of a new lodge of Foresters. They have been working at Marquette the interests of the order for the past few weeks, but the end of their labors is now in view. Much of their time in the Queen city up to last Sunday had been spent informally in arousing interest in the formation of the lodge. Those who propose to join it assembled Sunday and there is now no question as to the institution of a branch of the order at Marquette.

A meeting of the parties interested was held in the basement of St. Peter's cathedral Sunday afternoon. A large number of prospective members were in attendance and some thirty-five indicated their purpose of joining the new lodge. The formation of the lodge was informally discussed, but definite action was postponed until next Sunday when all the work which must be finished before the lodge can be instituted may be put in proper shape. The meeting next Sunday will be the last preliminary meeting and the institution and installation will probably follow on the succeeding Sunday.

The last meeting was very enthusiastic. The physician was selected. Dr. Guimot was the choice of those present and his credentials have been forwarded to headquarters where they will be acted upon. The officers who will rule the lodge will probably be selected next Sunday and the name of the organization will be decided on.

It is expected that the charter membership of the lodge will be at least sixty. If this expectation is realized the lodge will start off under more favorable auspices than any other lodge of the order in this state, as no organization has ever had so many charter members on its list. In addition to the new organization there will be three ladies' auxiliaries in Marquette. The order has a very strong hold in that city.

Most of the credit for the formation of the new lodge should be given to State Secretary Flynn and O. S. Green of this city. When they started missionary work at Marquette interest in the formation of the lodge was dormant. They succeeded in interesting a few people in the subject, and latterly under their direction work has progressed finely and they have devoted a good deal of time to the task of getting the lodge started, and they are much pleased to know that its success is assured.

NO PLAY THIS YEAR.

The Negaunee Dramatic club will fail to produce an amateur performance this season. The question of the advisability of preparing a piece has been under discussion and at first it was thought that one would be given, but the club has definitely decided not to undertake the work. The reason is that the season is already too far advanced to allow of the production of the piece before the spring break-up and great difficulty would be experienced in getting the members to attend rehearsals during the warm weather.

The performance of the amateur minstrels has indirectly been the cause of the abandoning of the regular performance of the Dramatic club. Some of the club's members were enlisted in the minstrel performance and its last production came at a time when the annual drama of the club usually begins to receive attention. The decision not to put on a play is generally regretted here as the performances have always been financial and artistic successes and considerable enjoyment has resulted from their production. The regular performance will undoubtedly be held next winter.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. Stafford Drug Co.

AN EXCELLENT COMBINATION.

Successful Enterprise Based on Merit. The Importance of Informing the Public of the Value of an Article Through the Leading Newspapers.

The few remedies which have attained to world-wide fame, as truly beneficial in effect and giving satisfaction to millions of people everywhere, are the products of the knowledge of the most eminent physicians, and presented in the form most acceptable to the human system by the skill of the world's great chemists; and one of the most successful examples is the Syrup of Figs manufactured by the California Fig Syrup Co. Unlike a host of imitations and cheap substitutes, Syrup of Figs is permanently beneficial in its effects, and therefore lives and promotes good health, while inferior preparations are being cast aside and forgotten. In olden times if a remedy gave temporary relief to individuals here and there, it was thought good; but now-a-days a laxative remedy must give satisfaction to all. If you have never used Syrup of Figs, give it a trial, and you will be pleased with it, and will recommend it to your friends, or from overfeeding, or from colds, headaches, biliousness, or other ills resulting from an inactive condition of the kidneys, liver and bowels.

In the process of manufacturing the pleasant family laxative made by the California Fig Syrup Co., and named Syrup of Figs, figs are used, as they are pleasant to the taste; but the medicinal properties of the remedy are obtained from an excellent combination of plants known to be medically laxative and to act most beneficially. As the true and original remedy, named Syrup of Figs, is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist in avoiding the worthless imitations manufactured by other parties. The company has selected for years past the leading publications of the United States through which to inform the public of the merits of its remedy, and among them The Mining Journal is included, as will be seen by reference to its advertising columns.

LOCAL LAONICS.

M. E. Asire was up from Marquette Saturday.

Louis Miller and wife of Escanaba were here Saturday.

J. D. Campbell spent Saturday in Escanaba on a business mission.

August Sy, Jr., a former resident of this city, is now visiting his friends here.

Dr. Sheldon left yesterday for Kansas, where he will visit his mother, who has been quite sick lately. He will be gone some time.

Charles W. Taylor was here over Sunday. He came to the city to spend the day with his wife and family. He will be here a few days.

Pete Morrisette, accompanied by his wife and child, left yesterday for Rubicon, Ontonagon county, where some time will be spent on a visit.

Jim Blee was down from Neeley's camp to spend Sunday. He reports that the recent fair weather bids fair to interfere with the lumbering operations in this vicinity.

John Hackenjos arrived home Sunday night. He was accompanied by his niece, Miss Hackenjos, who has been spending the past four years in Milwaukee with her grandmother.

A large number of Negaunee people spent Sunday in Marquette and a number of the Queen City's young men returned the compliment and put in the day at this city.

Three Finns are held in the city lock-up to answer to a charge of being drunk and disorderly. Officer Gribble captured the trio Sunday morning about 2 o'clock. All three were in a beastly state of intoxication and they were howling about the streets in a disgusting way. The trio will be taxed severely for their fun.

Mr. and Mrs. J. O. St. Clair have been called here to the bedside of Mrs. J. P. Mitchell, who has been dangerously sick with the grip. At the present time Mrs. Mitchell is resting easily and there is little doubt of her recovery. Mr. and Mrs. St. Clair now reside at Ann Arbor. Mrs. St. Clair is a daughter of Mrs. Mitchell.

The committee that was appointed at the last meeting of the local order of the Orient to complete arrangements for an entertainment and banquet has not taken any action as yet. The committee is waiting until the new officers get their books in order. As soon as this is done a meeting will be held and all the details of a big celebration will be arranged.

The ladies of the Eastern Star will hold a quilting party Thursday afternoon at 2 o'clock at the Masonic hall. The ladies are invited to be present at 2 o'clock and the gentlemen are requested to make their appearance about six, when tea will be prepared for them. The gentlemen will be assessed the small sum of twenty-five cents. The proceeds go to a worthy cause and all are requested to attend.

The horse known as "Faithful Tom" died at the Hackenjos barn Sunday morning. The animal was known throughout the city as it had been one of the first team belonging to the fire department and has been in use ever since horses were first used in connection with the department. The horse had been in active service for about nine years. Every possible attention was given to the animal and two veterinary surgeons endeavored to save its life but their efforts were unavailing.

A large sum of money was lost, that is, it wasn't made, here last week by the copper speculators. Just before Old Dominion made its eighth point jump a tip was received from a source that was considered reliable advising the local holders to close out immediately. The tip was apparently authentic and it was generally circulated. The local men who were loaded down with this stock sold out almost to a man the day before the spectacular rise occurred. It is stated that in the neighborhood of 7,000 shares were sold on the strength of this tip. The people who sold out were much surprised and disappointed at the developments of the following day.

As the season of the year when pneumonia, la grippe, sore throat, coughs, colds, catarrh, bronchitis and lung troubles are to be guarded against, nothing "is a fine substitute" will "answer the purpose" or is "just as good" as One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. Insist vigorously upon having it if "something else" is offered you. Stafford Drug Co.

GRAIN-O BRINGS RELIEF to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, affects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25c. per package.

AN IMPORTANT QUESTION. If your friends or neighbors are suffering from coughs, colds, sore throat, or any throat or lung disease (including consumption), ask them if they have ever used Otto's Cure. This famous German remedy is having a large sale here and is performing some wonderful cures of throat and lung diseases. No matter what other medicines have failed to do, try Otto's Cure. Large sizes 25c. and 50c. Sold by The Stafford Drug Co.

MICHIGAN CLUB ANNUAL MEETING AND BANQUET, Detroit, Mich., Feb. 22.—For this event the D. S. S. & A. railway will have on sale at all of its stations in Michigan tickets to Detroit and return, via Mackinaw City and the Michigan Central railway. Tickets of single fare for the round trip, at rate of single fare for the round trip. Tickets will be on sale Feb. 20 and 21, and will be good for return passage until the 24th, inclusive. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A. (2-20-21)

HOBSON-CRAZY.

Girls Lug Off an Old Uniform as a Souvenir of Their Naval Hero.

An ensign on the New York recently had been acting as escort to several young women who were curious to see the ship, and as he passed the door of the room that Hobson occupied just before he sank the Merrimack the ensign casually mentioned the fact. The girls stopped at once and insisted upon entering. They sat on Hobson's chairs and bed, examined everything minutely, and asked a hundred questions.

"And this is Hobson's, too, isn't it?" eagerly asked one of them, looking at a wornout uniform hanging in the corner. The ensign murmured something which the girls took for "yes."

"Oh, if I dared!" exclaimed the girl, hesitatingly, and then said, with sudden decision: "Yes, I will; I'm going to have a button."

"A button!" exclaimed the leader of the party with some scorn. "Why, Mr. Hobson will never wear that uniform again. It's too old. I believe I'll take the whole coat."

The others were silenced by this piece of daring, and all looked quickly toward the ensign. He merely smiled, but his silence was a sufficient consent, and they took possession of the coat.

"If you are going to take the jacket, you had better take it all," suggested the ensign. "Hobson would have no use for the other part alone." And so they bundled it all up in a piece of brown paper and hurried off the ship, as if they feared the ensign would change his mind.

"What are those girls lugging off with them?" asked the officer of the deck as the girls went down the gang-plank carrying their package tenderly.

"Oh, that's a souvenir," answered the ensign, laughing. "It's a wornout uniform of some petty officer, but they think it's Hobson's, and insisted upon taking it, and I wasn't hard-hearted enough to disappoint them."

State of Ohio, City of Toledo, Lucas County.—ss.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1888.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75 cents.

Hall's Family Pills are the best.

He Was Exultive.

Anecdotes concerning the boyhoods of our fighting men are especially timely at present, and I wish to relate one about a young lieutenant on the Marbledale, says a writer in the Washington Post. I know he will be delighted at my telling it. I am told that he has threatened to shed the blood of any of his kinsmen who remind him of it, for its constant repetition has embittered his youth. He is still young, however, the youngest lieutenant in the navy, and, I believe, the youngest man Annapolis ever graduated. There was a time when he was very much younger. When he was precisely two years and six months old his nurse entered his apartment one morning. "O, come with me," said she. "I want you to see the darling little baby brother the angels have brought you." The future lieutenant sat up in his trundle bed and looked haughty. "Go way," he said, contemptuously, "I don't care to meet strangers."

SPAIN'S GREATEST NEED.—Mr. R. P. Olivia, of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed, only 50 cents. Sold by the Stafford Drug Co.

MADE ME A MAN. AJAX TABLETS POSITIVELY CURE ALL Nervous Diseases—Falling Menstruation, Impotency, Spermatorrhea, etc., caused by Abuse of other Excesses and Indulgences. They restore and sustain Lost Vitality in old or young, and fit a man for study, business or marriage. They prevent Incontinence and Consumption if taken in time. Their use shows immediate improvement upon having the genuine Ajax Tablets. They have cured thousands and will cure you. We give a positive written guarantee to effect a cure. 50 CENTS in each case or refund the money. Prices: 50c per package or six packages (full treatment) for \$2.50. By AJAX REMEDY CO., Chicago, Ill.

For sale in Marquette, Michigan, by The STAFFORD DRUG CO.

H. W. R. MOTT, representing the WHITEHILL & BIGELOW CO., of the Pfister Hotel, Milwaukee, MAKERS OF Ladies' Shirt Waists To Order, with a swell line of samples. ALL THE LADIES ARE INVITED. (2-20-14)

Miss Delores De Graff.

Her Case Was Desperate, But Dr. Coderre's Red Pills Cured Her.

Read the unsolicited testimonial printed below, and see if you have not some one of the symptoms described by Miss De Graff. If so, you can do like she did, and cure yourself with Dr. Coderre's Red Pills for Pale and Weak Women. You want a clear, bright complexion, don't you? You want a plump figure, too. All women do. Don't you want face bloomers and powders, though? They don't do a bit of good. Don't do yourself with hurtful drugs for back, head, sides, stomach. The trouble isn't there. It is in the woman's organs. Make them well and strong, and your friends will be astonished at your good looks. If married, your husband will be delighted. If single, you will have admirers by the score. Nothing on earth is so beautiful as a healthy woman. Health itself is beauty. Miss Delores De Graff lives in Lancaster, O., and writes as follows: "For six months I was going into a decline. I was getting pale and thin rapidly. Doctors thought I had consumption, because I coughed so hard. My appetite and digestion were poor. I suffered from leucorrhoea and irregularities. I had terrible headaches and was nearly blinded by them. My hands and feet were cold. I had pains between the shoulders, in the back and sides. A friend recommended Dr. Coderre's Red Pills. She knew by experience they were a good remedy. I at once sent \$2.50 to the Franco-American Chemical Co., Montreal, for 6 boxes, and took them faithfully. They cured me of all my troubles. I feel today as if I had never been sick. I am just as fleshy as ever; my complexion clear and bright."

Send name and address for a free copy of our famous book, "Pale and Weak Women." Dr. Coderre's Red Pills are widely imitated. Beware of all red pills sold by the dozen, the hundred or at 25c a box. They are worthless imitations. Get the genuine at all honest druggists. They have them—always 50 Red Pills in a box for 50c, or 6 boxes for \$2.50. Or you can send the price in stamps, or by registered letter, money order or express order to us. We mail them all over the world; no duty to pay. Dr. Coderre's Red Pills, at \$2 a box, last longer than liquid medicines costing \$1. They are easier to take, more convenient to carry, and they cure. Address all letters to THE FRANCO-AMERICAN CHEMICAL CO., Medical Department, Montreal, Canada.

THE FRANCO-AMERICAN CHEMICAL CO., Medical Department, Montreal, Canada.

WHEN YOU DON'T, YOU DON'T!

DEMOCRATIC CANDIDATE.

Chances Are There Will Be None and Judge Stone Will Win Out Hands Down.

DEMOCRATS MAKE NO MOVE FOR CAUCUSES OR CONVENTIONS.

Republicans in Wards and Townships Will Elect Delegates Direct to the County Convention—Delegates Allowed to Each.

COLLECTOR SUNDBROM REAPPOINTED.

The political pot is beginning to simmer again but its ebullitions are confined entirely to the Republican side.

As yet the Democrats have done nothing about calling caucuses and conventions for the coming election, and it cannot be learned from Marquette Democrats that they have any intention to do so.

One of the most prominent of the local members of the party said last night that he had heard nothing of any movements yet and that he doubted if the party would put a judicial ticket in the field.

"Judge Stone is a good judge," he said, "as good as we could get, and I don't think anyone stands a show of winning the election against him."

The interviewer remarked that under the present law the judge could not run on both tickets, whereupon the gentleman quoted said the endorsement would probably consist in making no nomination at all.

The indications are that Judge Stone will be re-elected without opposition. Judge Halre, who has the western end of the peninsula, is not so fortunate, as news comes from there that the Democrats will put up a man against him.

The Republican county convention, which will be held in this city Saturday, will be preceded by caucuses in each of the eight wards Friday evening.

Delegates are apportioned among the wards and townships according to the vote they cast for governor at the last general election. This gives the various wards and townships representation as follows:

Marquette city, first seven wards two delegates each, Eighth ward one delegate; Ishpeming city, First ward, one delegate, Second two, Third three, Fourth, Fifth and Sixth two, Seventh and Eighth one, Ninth two, Tenth one; Negaunee, first three wards, one delegate each; Fourth ward two, Fifth ward one. Townships, Republic, three, Champion and Tilden two each, Chocology, Ely, Forsyth, Humboldt, Ishpeming, Marquette, Michigan, Negaunee, Richmond, Sands, Skandia, Turin and West Branch, one each. This gives a total of fifty-eight votes in the convention with thirty necessary to elect.

The county convention will select ten delegates to attend the state convention at Jackson March 1 and ten to represent the county in the judicial convention in Escanaba March 9. In addition to this it will nominate a candidate for county commissioner of schools and transact any other business which may properly come before it.

Following is a list of the places where the different ward caucuses in this city will be held:

First ward, John Connor's building, corner of Lake and Garden streets; Second ward, road roller house on Spring street; Third ward, Hodgkins' livery barn; Fourth ward, city hall; Fifth ward, Northwestern hotel on Washington street; Sixth ward, Lindblad's bicycle livery on Third street; Seventh ward, Stafford's greenhouse on Third street; Eighth ward, corner of Front and Park streets.

C. F. Sundstrom, who has served several years as deputy internal revenue collector in the upper peninsula, has been reappointed to the same position by Collector Lemon of the western district, under whose jurisdiction the upper peninsula has recently passed.

Mr. Sundstrom received notice several days ago that he had been reappointed and was instructed to file his bond. He was also requested to go down to Grand Rapids for a conference with the collector. He passed through here yesterday afternoon on his way south.

MARQUETTE MINNETTES.

Clay Clement is booked to appear here the last part of March. If Clay has an eye to business he'll change the name of his great success and play it through the upper peninsula under the title of the "Old Dominion."

A "valued subscriber" sends this gag which the minstrels might spring: Mr. Ross—Mr. Power, can you tell me why it am dat de minstrel am de greatest coward at heart?

Mr. Power—Why, no, Billy. I am sure these are all brave men or they wouldn't dare face this intelligent and refined audience.

Mr. Ross—No. No. Dey's cowards, ebery one ob 'em. Mr. Power—Why, Billy, how can you make that out?

Mr. Ross—Cause dey all appears in black face to hide dey true colors.

"What have you been buying now, Sam?" inquired the first dabbler in stocks meeting the second dabbler coming out of a broker's office.

"Copper King," twenty-five shares at eighteen.

"Why don't you know anything? You'd better let stocks alone. The Copper King is not worth the paper its certificates are printed on. That stock will go down to nothing and in short order, too."

A week later the two dabblers met again. The second had a quotation sheet in his pocket.

nothing afearedly; quicker than I thought. Maybe you'll believe me next time I tell you something."

Another story about the speculators deals with the wheat pit. One of the local operators was carrying 5,000 bushels on a two-cent margin. Wheat dropped one forenoon to within three-eighths of his limit. He was working and couldn't very well quit to go around and margin it down so he sent a friend.

The friend walked into the office and took a look at the board. Wheat had gone up an eighth, and with half a cent to spare the friend thought there was no use of putting up that extra margin money right then. It might not be needed at all. So he took his seat with the rest of the scholars and sat down to wait results.

There was not much doing and with the monotony of watching unchanging quotations he soon fell asleep. He slept undisturbed for full two hours, and when he woke up the market had closed, wheat had dropped and his friend was out.

There is a good joke being told at the expense of one of the French societies of the city.

A few weeks ago this society gave a dance. The committee arranged with a prompter and left the matter of securing the violinist with him. The prompter got a man who was stopping at one of the hotels and who is in town only occasionally. He is a stranger to most people here.

The night of the ball the violinist was accosted by one of the committeemen shortly after his appearance in the hall.

"I beg your pardon," said the committeeman, politely, "but this ball is intended only for Frenchmen and nobody else is allowed. You're not French, are you?"

The musician was plainly of Hibernian descent. He replied, "No."

"I'm very sorry," said the committeeman, "but I'll have to ask you to retire." The violinist retired and couldn't be found again that night, leaving only a pianist to furnish the music."

CITY BREVITIES.

Weather forecast: Threatening weather; westerly wind.

Yesterday's temperature: 7 a. m., 29 degrees; noon, 28 degrees; 7 p. m., 30 degrees; maximum, 30 degrees; minimum, 28 degrees.

Andy Herron was up from Munising yesterday.

C. C. Ireland was in town yesterday from Gladstone.

J. H. Booth came down yesterday on business from Sidaaw.

Sam Marks of Munising was about town yesterday forenoon.

John F. Wilson was down yesterday on business from Kenton.

Miss Mary Kalenk of Ishpeming spent Sunday here visiting friends.

M. McGraw of Ishpeming was a business visitor in the city yesterday.

Mark Elliott of Palmer was around the court house on business yesterday.

One drunk was up before Judge Cray yesterday. His honor suspended sentence.

Hager Bros. (Limited) have just received a carload of springs and mattresses.

W. T. Potter of Ishpeming was down from the Hematite city on legal business yesterday.

John Sullivan of Sault Ste. Marie represented the western end of the peninsula here yesterday.

The sale of seats for the minstrel show, which began yesterday, promises well for the financial success of the entertainment.

Charles LeVeque, who visited here over Sunday with his brother, returned yesterday afternoon to his home in Menominee.

Amos Boden, who held ticket No. 10 G, was the winner of Mr. Buckley's rifle, which was raffled off last Tuesday night at Fraternity hall.

Mr. and Mrs. Chris LaBounty's infant daughter, who died Saturday, was buried yesterday from the French Catholic church, the interment being in the old Catholic cemetery.

The court house flag pole will fly the stars and stripes on Washington's birthday. Sheriff Carlson has succeeded in finding a man who is willing to climb the pole and attach a rope in place of the old one which came down some time ago.

John Rossopka, who formerly gave his name as John Pokka, had his examination for sanity yesterday in the circuit court and was judged insane, but the disposition to be made of him was not determined. He is quite certain to be deported though, as he has not been long enough in this country to establish a residence anywhere.

Miss Emily Harvey died at her home in Chocology at 10 o'clock yesterday forenoon, aged seventy-four. Miss Harvey came here in 1855 and was one of the oldest residents in this section of the country. Arrangements for the funeral have not been made yet, but it will probably be held tomorrow from the residence in Chocology, the burial being in Park cemetery in this city. The deceased has been an invalid for a number of years. She was a member of the Episcopal church.

A FRIGHTFUL BLUNDER will often cause a horrible burn, scald, cut or bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures old sores, fever sores, ulcers, boils, felons, corns, all skin eruptions. Best pile cure on earth. Only 25 cents a box. Cure guaranteed. Sold by the Stafford Drug Co.

LIVELY DAY FOR STOCKS.

Monday's Opening Gives Promise of a Strong Market for All This Week.

CALUMET & HECLA REACHES ANOTHER HIGH TOP NOTCH.

Heavy Buying by Many Speculators—Winona is a Feature in the Day's Trading. Metal Closes Just a Little Off.

BULLETINS FROM THE BOSTON HOUSES.

The prediction made Saturday that this week would be a lively one for the stocks bids fair to be verified. The opening was certainly all that could be desired and when the last quotations were received yesterday afternoon the market showed no signs of diminishing in strength.

Buying was general yesterday and all the brokers did a big business. There seems to be a feeling on the part of the speculators that there are a number of things which are good at present prices and that it is a good thing to get in on them before they go higher.

Winona was the feature of the market. A rumor was in circulation Sunday that the Federal Steel people were going to buy in, and the way the stock went up it looks as if the report was pretty well founded. From a close of 17 Saturday Winona went up at pretty nearly every quotation till it closed at 20 Monday.

Arnold was the only stock which showed signs of weakness on yesterday's strong market. Closing at 10 asked the half Saturday it fell down to 9 yesterday, but right at the close came back to 10 again. But even at this, 9 is the lowest figure Arnold has touched since the boom was on, considering that the quotation is with the recent \$3 assessment paid.

A. B. Turner & Bro. posted a bulletin which made the holders of Calumet & Hecla happy. It was to the effect that the directors had just declared a \$10 regular dividend and an extra \$30 dividend, making \$40 in all. There was no falling off in the announcement that the dividend had been declared, but the stock kept forging ahead and made a new high mark for itself at \$90, which was a gain of \$80 since Saturday's close.

Allouez was among the stocks which were carried upward on yesterday's market, advancing from 10 1/4, the close Saturday, to 12 3/4. Mohawk closed at 32 3/4, a gain of 1 3/4. Quincy went up from 150 to 154 and Isle Royale gained a point at 61. Arcadian and Boston & Montana each lost a point, the former dropping from 78 to 77, and the latter from 376 to 375.

Copper itself was not so strong as the stocks yesterday, and sustained a slight loss. Hayden, Stone & Co. quoted the London market as follows: Opened, 73, 2 and 6; closed, 72, 12 and 6; previous day's close, 72 and 15.

Following are bulletins which were posted yesterday: Paine, Webber & Co.: "Winona just started. Think it good for \$25."

A. B. Turner & Bro.: "Coppers very strong indeed. Franklin and Mohawk look particularly well."

FISHING SEASON APPROACHING. Tugs Will Begin Work Again About the First of April.

The tug fishermen are already making preparations for their season's work, which they anticipate will begin about the first of April, possibly the last week in March. Last season they began operations about the twenty-fifth of March.

They are much in hopes that the legislature will make the coming season considerably longer than the season of 1898 by repealing the closed season law and permitting them to fish as long as the weather is suitable.

Fishing is more of an industry here than many people suppose and it supports not less than fifty men and nearly as many families, all of whom will be glad to see the season open so the boats can go out once more. If the season is extended by the repeal of the present law it means hundreds of dollars into the pockets of the fishermen.

The ice in the bay is at present from twelve to fifteen inches thick, but it is not piled and but little trouble is anticipated from it after it begins to go out.

ROPE DRIVE BROKE.

Another Accident Occurs at the City Electric Light Plant.

Marquette was without electric light for several hours yesterday afternoon, and in the early evening on account of another break in the rope drive, which crippled the service by breaking a short time ago.

Another rope was on hand and this was put on the drum after a delay of several hours. It would have been put on immediately after its arrival here but the force was nursing the old rope along hoping it would last till the days became longer, when they would have more time to put the new rope on without inconveniencing the patrons of the service.

Miss Nellie E. Powers of Oshkosh will be at the New Clifton on Tuesday and Wednesday, Feb. 21 and 22, with a very fine and complete line of Art Needlework. All those interested in the newest designs in stamped Linens, Battenberg and Pillows are invited to call and inspect the work. (2-18-23)

A CHALLENGE.

I hereby challenge any man in Michigan for a straight catch-as-catch-can or a mixed match Cornish and catch-as-catch-can for from \$200 to \$500 a side, two best out of three falls. John Rowett preferred, him to name the amount, style and place he prefers to wrestle at any time within sixty days. Anyone accepting this challenge please notify me at Kallspeil, Montana.

JACK O'NEILL, Champion Catch-as-catch-can Wrestler of Northwest and British Columbia, Kallspeil, Mont. (2-11-1f)

Happy is the man or woman who can eat a good hearty meal without suffering afterward. If you cannot do it, take Kodol Dyspepsia Cure. It digests what you eat, and cures all forms of Dyspepsia and Indigestion. Stafford Drug Co.
