YELLOW SCOURGE BRANCHES OUT.

Negro Quarter in the Town of Phoebus, Near Hampton, Is Attacked by the Pest.

SIX CASES AND TWO DEATHS THE FIRST DAY'S RESULT.

SPREAD IN THE HOME ITSELF ASSESSMENT TO BE NIPPED.

One Old Soldier Succumbs, However, and the New Patients Number Three—Vigorous Measures to Tighten the Quarantine in Fever District.

MARINES GUARDING THE BOUNDARIES.

Norfolk, Va., Aug. 1.—Yellow fever appeared today at Phoebus, a little town adjoining Hampton. The scourge appeared among the negroes, and six cases and two deaths are reported.

There is no change in the local situation, except that the authorities have redoubled their diligence to prevent the fever from spreading to this city from Hampton or elsewhere. The mayor, chief of police and the patrolmen are doing eighteen hours duty daily, and special officers, inspectors and physicians are working day and night in perfecting the quarantine against Hampton and neighboring points in the peninsula.

Hampton, Va., Aug. 1.—The most important development of the day in the yellow fever situation was the discovery of several cases in the town of Phoebus, adjoining the Soldiers' Home. Policeman Joseph Maston is one of the victims, and the most remarkable feature of his case is the fact he believed he had yellow jaundice. Hampton this morning was quarantined against Phoebus. Business there has been almost entirely suspended, and it is practically dead here. The leading hotels closed today, and the merchants are discharging their clerks.

MORE VETERANS STRICKEN.

Washington, Aug. 1.—Three new cases of yellow fever in the Soldiers' Home at Hampton and one death, is the official report received tonight by Surgeon General Wyman from Dr. Wadsworth, the yellow fever expert on duty at the institution. Added to Dr. Wadsworth's figures sent General Wyman yesterday this makes, up to date, forty cases in all which have occurred at the home, of which eight have proved fatal.

The surgeon general during the late afternoon received a message from Surgeon Vickery, of the Hampton home, thanking him for the prompt service of the Marine Hospital service officials and saying there was no further spread of the epidemic in the home.

Surgeon White wired Dr. Wyman that he arrived at Hampton last night, that the quarantine had been unanimously turned over by the local authorities to the Marine Hospital service, and that he had accepted it. He said: "There is little doubt there may have been infection in Phoebus, a place under quarantine. The work will be heavy, but we hope for the best. Please approve my order to Richmond for a freight train to come here and to Phoebus to bring supplies."

EVACUATING OLD POINT.

Adjutant General Corbin transmitted to Dr. Wyman an order from General Miles to General Merritt, commanding the Department of the East, saying that hereafter no vessels should tie up at the Fort Monroe wharf unless under the order of Surgeon Pettus, the marine hospital officer in charge of the quarantine there. The acting secretary of the treasury has transmitted a request to the secretary of war to notify the officer commanding at Fort Monroe that all quarantine measures for the enforcement of the treasury regulations there are in the hands of Surgeon Pettus.

It was stated at the office of the Marine Hospital service today there are not more than two or three hundred people left at Old Point. Special trains will be run there at such intervals as may be necessary to remove the inhabitants, subject to such inspection and detention as may be deemed necessary at Richmond.

MARINES ON GUARD.

Surgeon General Van Rypen, of the navy, received word during the day that a guard of a dozen marines had been sent from the naval barracks at Norfolk to the naval hospital, located between Norfolk and Portsmouth, to see that persons might not land from small craft coming up Elizabeth river from the fever district.

COLONEL DIES AT SEA.

COMMANDER HAWKINS OF THE PENNSYLVANIA REGIMENT SUCCUMBS ENROUTE HOME FROM THE PHILIPPINES.

San Francisco, Aug. 1.—The United States transport Senator arrived tonight from Manila with her flag at half-mast on account of the death of Colonel Alexander Hawkins, commander of the Tenth Pennsylvania regiment, U. S. V.

The Senator sailed from Manila on July 1 with thirty-eight officers and 721 enlisted men. The transport was at Nagasaki on July 15, when Colonel Hawkins was taken ill with cancer of the bowels, from which he had been a sufferer during the greater part of his campaign in the Philippines and for which he had undergone treatment in the military hospital at Manila. His illness continued during the following day, when the Senator was at Yokohama, and two days later he passed away at sea. The remains were placed in a hermetically sealed casket in the stern of the vessel and lay in state, tended night and day by a guard of honor during the remainder of the voyage. The body of the dead commander will be sent to Pennsylvania for interment.

FRESH TROOPS FOR OTIS.

Washington, Aug. 1.—General Otis today cabled the arrival of six companies of the Twenty-fifth colored infantry and

the sailing of the transport Grant with the Wyoming, Idaho and North Dakota soldiers.

CALLS IT DEWEY ADULATION.

BOSTON ALDERMAN PROTESTS AGAINST MAKING THE ADMIRAL A SECOND BOULANGER.

Boston, Aug. 1.—The board of aldermen today passed an order requesting the board of estimate and apportionment to appropriate a sum sufficient for extending the hospitality of the city of Boston to Admiral Dewey.

Alderman Michael Brey, a Democrat, forcibly opposed the measure. He said, in explaining his position: "I do not think we should throw ourselves into a state of adulation of a hero because he has won a battle. It hardly strikes me that the admiral is to be put in the same category with Grant, Sherman and our other great military heroes. I do not, however, wish to discredit him in the least, but I do protest against making him a second Boulanger in America."

OLYMPIA SAILS FOR ITALY.

Trieste, Aug. 1.—Admiral Dewey sailed for Naples today.

ALARM IN SOUTH AMERICA.

POLITICIANS FEARFUL THAT THE U. S. DESIGNS TO GOBBLE THE WHOLE CONTINENT.

New York, Aug. 1.—Dr. Laureans Villanueva, ex-president of Venezuela, who is at present in New York, when asked this morning through an interpreter whether it was true the South American countries were about to form an offensive and defensive alliance against the United States on account of its "imperial policy," replied he had not heard of it, but thought that such an alliance ought to be made.

"Do the South American nations fear the United States?"

The ex-president shrugged his shoulders and opened his hands rapidly, and then said something in Spanish. "Mr. Villanueva thinks," said the interpreter, "the United States may be satisfied with the Philippines," said the reporter.

"Oh, no; the United States wants Europe and the Indies, at least," came from the ex-president; through the interpreter. "Do all South American republics think as you do about the United States?"

"Why, of course. It is a well known fact. Who can doubt it? Do you deny it?"

NO BACKDOWN ON ALASKA.

CONGRESSMAN HULL DECLARES THAT TO YIELD WOULD BE NOTHING LESS THAN CRIME.

Des Moines, Ia., Aug. 1.—Congressman J. A. T. Hull reached Des Moines today, having returned from his trip to Alaska to investigate the boundary question. "To yield to the demands of Britain in the Alaskan boundary question would be nothing short of a crime," he said. "The boundary is all one hears in Alaska. It is the topic of the hour, and the excitement is at a high pitch in the matter. It would be disgraceful for the United States to back down in the matter and allow Britain to have Skaguay. Skaguay is the key to all the trade in the gold regions. It is impossible for any other city to control the mining trade. If we allow England to have its way in this boundary matter we virtually turn over the Alaskan trade to England; if we assert our rights in the matter and retain Skaguay, we are assured of perpetual control of the Alaskan trade. That trade belongs to the United States. Most of the miners in that country are Americans and desire to buy American products."

TOO MANY CITY OFFICIALS.

NEW YORK'S COMPTROLLER WOULD CUT OFF \$5,000,000 ANNUALLY IN SALARIES.

New York, Aug. 1.—Bird S. Coler, comptroller of Greater New York, is preparing recommendations for a radical reduction in the city's budget for 1900. Coler hopes to save the city five million dollars by carrying out his scheme.

The main features of the plan are the vesting of all control of the city's finances, including the municipal salaries, in a city board of estimate; the abolition of the offices of borough presidents and other places which he believes to be sinecure, and a large reduction in the amount of money appropriated to charitable institutions and societies.

The comptroller says that he is convinced there are too many office holders, and that by requiring strict attention to duty from every employe retained many could be dismissed without detriment to city affairs.

Coler holds that the city pays too much for certain kinds of work, as instance, he says it is unjust to pay a laborer who sweeps the streets as much as a school teacher who must study eight or ten years to obtain a place.

FAST MAIL JUMPS THE TRACK.

ENGINEMEN AND TWO POSTAL CLERKS ARE KILLED IN IOWA.

Boone, Ia., Aug. 1.—The northbound fast mail on the Chicago & Northwestern left the track at "Kate Kelly" curve, just east of the Des Moines river bridge, at 5 o'clock this morning. Engineer Masterson, Fireman Schmidt and Postal Clerks Stone and O'Brien were killed and five clerks injured. The entire train went over the banks. The cause is unknown.

HAIL MOWS DOWN VAST TRACTS OF GRAIN

Immeasurable and Widespread Damage to Growing Crops in the Northwest.

HALF A MILLION ACRES OR MORE TOTALLY DEVASTATED.

MINNESOTA, SOUTH DAKOTA, IOWA AND NEBRASKA STRICKEN.

Corn Leveled to the Ground, Wheat Flattened and Buildings Blown Down, Terrific Winds Accompanying the Icy Bombardment.

FARMERS GALORE VERY HARD HIT.

St. Paul, Aug. 1.—Reports received here tonight by wire from nearly all the grain growing states in the western Mississippi valley indicate that immeasurable and widespread damage to crops has been done in the last twenty-four hours by hail and wind.

The states that have suffered the most are Minnesota, South Dakota, Iowa and Nebraska. In Iowa a terrific storm of drenching rain, accompanied by a furious and devastating wind, mowed down the grain, and where the damage did not amount to total loss it left the fields in such condition that the farmers in many sections have practically given up all hope of saving half the crop they planned on.

No accurate figures on the total damage can be made, but it is conservative enough to say that fully half a million acres of richly fruited crops have been leveled by the storms.

Gary, S. D., Aug. 1.—Hail last night damaged grain on a strip twelve miles long by four miles wide. The loss is very heavy.

Stephen, Minn., Aug. 1.—A hail storm covering territory eight miles wide ruined a thousand acres of growing grain last night.

Creighton, Neb., Aug. 1.—A heavy wind and rain storm visited this section of the state last night and did considerable damage. One and a half inches of rain fell in short time. The corn and uncut grain was knocked flat over a considerable extent of territory, and several buildings were demolished.

Crookston, Minn., Aug. 1.—Fifty square miles of crops were destroyed in Polk county by last night's hail storm. The storm followed the Red Lake river from Mallory to Crookston, thence southeast for ten miles. Most of the damage was done north of the river. Nesbit township was entirely cleaned out. Fisher, Fanney and Crookston were from a quarter to a half destroyed.

Marshalltown, Ia., Aug. 1.—Reports received from all parts of the county today indicate that many thousand dollars' worth of damage was done to crops by a heavy rain and wind storm this morning. Corn was leveled to the ground, unharvested wheat flattened, barns and other buildings blown down and wind mills wrecked. The new school house at St. Anthony was wrecked, and crops in all sections are badly injured.

SMELTERS TO REMAIN CLOSED.

WAGE SCALE FIXED BY COLORADO'S ARBITRATION BOARD UNSATISFACTORY TO THE TRUST.

Denver, Aug. 1.—The operating committee of the American Smelting & Refining company at a meeting today decided not to reopen the smelters in this city and Pueblo at the scale recommended by the state board of arbitration. The committee published a card in which it says:

"The decision of the board of arbitration cannot be accepted by our company, because it is unreasonable and unjust. The board has undertaken to arbitrarily interfere with the industrial conditions in Colorado in a way which cannot fail, if persisted in, to bring about great hardship to the industries already established and to prevent new industries from establishing themselves here."

WONDERFUL CYCLE RIDING.

HANSON REELING OFF CENTURIES AT MINNEAPOLIS IN RECORD-BREAKING TIME.

Minneapolis, Aug. 1.—"Old Man" Hanson is still grinding out centuries. He reels them over his shoulder as if he had twenty more to spare. Six hundred and twenty miles in fifty-five hours and forty minutes was the story up to 1:30 p. m. today. Within the world's record the 600th mile was finished in a sprint in 2:38, and Hanson was still feeling as fresh as a May morning. The last twenty miles of the 600 were finished in one hour and seven minutes.

KRUGER'S PROPOSAL REJECTED.

VOLKSRaad NOT IN FAVOR OF THE PROPOSED CONCESSION.

Johannesburg, Aug. 1.—It is reported that quantities of military supplies are arriving at Pietermaritzburg, capital of the British colony of Natal, South Africa, daily.

It is stated that the volksraad at the secret session held to consider Kruger's proposals for the removal of the religious disabilities, which disqualify Jews and Catholics for franchise, rejected the proposal.

YAQUIS ON THE WARPATH.

FIERCE BATTLE BETWEEN THE INDIANS AND MEXICAN TROOPS.

Ortiz, Mexico, Aug. 1.—A courier brings confirmation today of the report the Yaquis are on the warpath in earnest. It is impossible to secure accurate figures as to the total number of killed, but estimates of fifty on each side are not considered excessive.

DEWEY'S OPINION OF NEWSPAPERS.

"I long ago gave up denying or affirming newspaper reports."

The quoted words are those of Admiral Dewey at Trieste on July 30th, when he was questioned regarding the truth of the statement attributed to him in a dispatch printed in the New York Herald, in which he was made to predict that our next great war will be with Germany.

The Herald gave the dispatch publicity without waiting to verify its authenticity. It now explains that it was sent to the paper by one Dr. Boyland, a "well known physician who, when traveling, corresponds with the Herald in a dilettante way," and avers that it was a resume of a conversation the doctor had with Admiral Dewey on board the latter's ship on the date mentioned. It "regrets" having given to the public a statement which the admiral manifestly did not intend to have spread broadcast through the medium of a daily paper, but insists that the conversation occurred and that Admiral Dewey expressed the opinion attributed to him by its wandering correspondent.

It is easy to understand the manner of man this doctor must be, and as easy to rate the morality of the paper which is willing to use such a man to enhance the sensational interest of its news columns. It is also easy to understand how a man dominated by a fine sense of honor, such as Dewey is, comes to entertain so poor an opinion of the newspapers of his country as that conveyed in his expression regarding them, when his impression of them is obtained from experiences like that in the case here commented on.

A very large proportion of our newspapers subordinate everything—honor, decency and the public welfare—to their desire for sensational news-getting. They are ready to violate pledges, practice deceit, impose on good nature and disregard the obligations of the unwritten law whose requirements gentlemen hold to be sacredly binding, in their mad chase for "scops" in the way of sensational news. In this manner they have brought odium on journalism, earning for the press the distrust and dislike of the very class whose confidence and good will they most earnestly desire and seek to deserve. Those guerrillas of journalism are doing a noble calling a great injury, but we know of no way of correcting them save by bringing to bear on them the restraining influence of enlightened public sentiment, there being no law to reach them.

GENERAL OTIS AND THE "ROUND ROBIN."

We endorse without qualification what the Petoskey Record says regarding General Otis and the "round robin" of the newspaper correspondents at Manila in the appended article from that paper: The protest cable to the government from Hong Kong by the associated correspondents of American newspapers in Manila, against the censorship of cable dispatches from Manila to their papers, will affect intelligent public opinion both here and the government not at all. The correspondents demand that the censorship shall be entirely removed and that they be permitted to telegraph "all phases" of the situation as they see it, and to criticize the military operations as they may see fit to do. General Otis should at once expel them from the Philippines, and he would have a right under military law to do so.

In time of war the newspaper correspondent is a curse to any army. Even if a correspondent confine himself to what he believes to be facts as to conditions and campaigns, he is continually giving aid to the enemy and in some measure fills the place of a hostile spy. If in addition to this he assumes to pass upon the acts of military commanders—criticize plans and publish details thereof, he becomes more dangerous than any spy of the enemy could possibly be. Grant and Sherman used to drum correspondents out of camp, and at one time General Sherman absolutely excluded them from the department of the Mississippi.

During the civil war they rendered abortive many movements by giving information to the enemy through their papers, and were a constant thorn in the side of commanding officers. The reports of General Otis, the division commanders under him, and the civil members of the Philippine commission all substantially agree, and it is to be noted well that there is nothing contradictory to their official reports in the statements of returning and mustered out officers and men. These newspaper sensation mongers want a free hand to do mischief and dish up a constant succession of sensations for the benefit of their newspapers, the managing editors of which would proceed to conduct the war in the seclusion of the sanctum. General Otis is perfectly right in seeing that nothing but legitimate and safe news be published. He is in absolute authority; and when private persons come into Manila to criticize the military authority which is paramount until congress acts, and call in question the truth of his official reports, he will be justified in expelling them from the islands, or punishing them in any other sufficient way.

The reception to General Alger on his return to Detroit today promises to be a tremendous manifestation by the people of Michigan of regard for the man whom the president sought to dishonor. That

it will be construed as a rebuke to President McKinley on account of his unhandsome treatment of Alger is inevitable. It was because the president treated him badly that the people of Michigan have taken this means of testifying their undiminished regard for and confidence in him. Had he been permitted to resign, as he was ready to do, of his own free will, and with time given him for effecting a graceful retirement, there would have been no occasion for today's demonstration and it would not have been thought of. There is no escaping the conclusion that special honor is being paid to Alger on his return home as an indirect expression of disapproval by the people of this state of the president's treatment of their esteemed and distinguished fellow citizen, let interested politicians affect to regard it as they may.

An alliance between France and Germany may seem improbable, if not impossible, but so would one between the United States and Great Britain up to a couple of years ago. Germany and France have "fit" one another repeatedly, and with varying results, and they might well decide to call the bloody score even and resolve to let the past stand effaced and begin anew on an amicable basis; while we have been twice at war with England and whipped her both times. So she has much to forgive us, yet she manifests a willingness to do this. We appear to have reached the age of international alliances and internal trusts.

IT WAS FASCINATING.

"Z-z-z-z" went the barrier, down went the starter's flag, and as the bunch of horses started forward with mighty bounds four-fifths of the occupants of the crowded grand stand and the equally crowded lawn lifted up their voices in a re-echoing shout of "They're off!" The delay at the post had been a trying one on the half dozen nervous, high-strung 2-year-olds, who were to run a mile for the Breeders' Plate. The colts had cut up all kinds of capers, now breaking through the barrier, to the immense delight of the sweating assistant, and now remaining flat-footed, gazing attentively up the long home stretch, while the rest of the youngsters were dashing madly for the first time. But at last they were off, and the starter heaved a sigh of relief and mopped his forehead as he stepped down from the block. Little Tommy Brown, on the well-played favorite Modjeska, had broken well in front, but immediately snatched up his mount, and the green and gold of the Oswego stable was seen to drop back to fourth. Tommy was thinking hard to himself as they swung around the first turn. Why shouldn't he do what Thompson had asked him? It would be so easy? Just race along until the picture of the flying horse effort as if to go to the front, but skillfully and cautiously manage it so that Oak Leaf would beat him out at the wire. He had never tried it before, but he knew he could do it. The first eighth pole flashed by and he could hear the subdued, far-off noise of the grand stand. In his nostrils was the old familiar smell of the sweating horses and the leathery odor of the saddles. Culbertson, the colored boy on his quiet Virginia dialect, Tommy has always known him to do when in the heat of a race. Two lengths clear in the lead he called Oak Leaf, running freely and steadily. Then there came in his mind as he noticed the gilt top of the quarter pole the picture of that little house down there in the blue grass, where he had lived nearly all of his fifteen years. He could see the straight, dusty road, the little tobacco patch that he used to weed and worm, and the tiny white-washed well house in the front yard, with the hollyhocks growing in a flaming row near the fence. That was home, and he could see it all so plain. The third third-third of the flying hoofs resolved itself into a strange cadence, that rang in his ears like the old, old strains of the songs his mother used to hum as she sat with her knitting out on the cool back porch under the shade of the mighty beech. Why shouldn't he do it? He pulled himself together with a start. They were nearing the five-eighths. Oak Leaf was still in front, with the same lead, and Berger, striding still on him, showed a flashing sea of steel as he glared back at the following bunch. Modjeska wanted to go to the front, so Tommy eased up a little and moved quickly up to a good third. What was the race to him more than any other? It could not affect his record, for no one would know. Then that \$500 that Thompson had offered him to lose would just pay off the mortgage on the old house. He shut his mouth firmly and mechanically prepared to swing Modjeska in close to the rail as they came around the last turn. How glad his mother would be when he sent her the money to pay off the debt. The boys had their whips out now, for it was the head of the stretch, but still Brown sat motionless on his horse while the bunch closed up. The roar of the grand stand was in his ears now that road he had heard so many times as he had fought his way gamely to the front down the long stretch. He was Tommy Brown, the "honest jockey," the favorite of the public, who had never "pulled" nor "thrown" a race before. It was one mad dash now. Oak Leaf was a length in front, with Berger riding like mad. Twin Pars was second, a head in front of Modjeska. Should he do it? It was now or never. Then with a curse he snatched out his whip and dealt Modjeska a vicious blow on the flank. In describing the finish the newspaper said next day: "Tommy Brown is getting stuck on himself. He wanted to make a grandstand finish with Modjeska, and fell asleep on her until the last sixteenth, when he woke up, and by magnificent work nipped the flying Oak Leaf at the post and won by a short head."

A PASTIME AND AN ART.

The latest fad among ladies and girls is that of passporting pictures, and in the present age of pictures and fine illustrations of every kind and description with which the magazines are filled, bare walls come very near to being a crime, when it is possible to mount pictures in such a cheap, easy and artistic manner.

The plan heretofore followed of cutting strips of paper with shears and applying moulage with a brush has been superseded by the use of a ready gummed paper which can be purchased at all art stores at a very low cost. The old way of doing this work was very unsatisfactory on account of the sticking of the mullage to the fingers, and the lack of adhesiveness to the glass. The strips which can now be bought hold with wonderful tenacity, and the method of using them, being a complete reversal of the old method, is accomplished without sticking the fingers or musing the work.

The outfit required consists of a brush about an inch wide, a box or two of the ready gummed binding strips, and a strip of felt about two feet long. The plan of working is to cut off pieces of the binder the length of the edge of the glass to be bound, and laying one upon the table before the operator, the brush moistened in water is drawn lengthwise on the gummed side of the binder. The glass is taken in both hands and rested against the edge of the table, the further edge is gradually lowered upon the gummed strip, care being taken to have it attached evenly to the full length of the gummed strip. The glass, with binder attached, is lifted and laid upon the felt pad and pressed down with the fingers until every portion adheres. In this way from an eighth to a quarter of an inch of the binder is attached to the edge of the glass, the balance extending beyond. Strips are attached to the other edges of the glass in like manner. The picture, mat and cardboard backing are then laid upon glass, the edge of which extends about an inch beyond the edge of the table, toward the operator. The moist brush is then passed along the extending edges of the binder, and the binder is pressed with the thumb and fingers up over the edge of the edge of the glass onto the cardboard backing. By proper manipulation of the thumb and fingers the binder can be drawn tightly so that a neatly fitting edge results. The opposite side is then done in the same manner, after which the ends are bound. A couple of tape loops are fastened to the cardboard backing either by gluing them directly to the back with good liquid glue, or a couple of slits may be cut through the cardboard and the tape put through them and by which the picture is hung.

BUILDING NOTES.

St. Patrick's parochial school at Hancock is undergoing many improvements which will be completed with the opening of the fall term. New blackboards have been secured and the old ceilings will be succeeded by beautifully tinted new ones of steel. Preparations are also being made to accommodate a largely increased attendance.

The plans for the new Douglass House at Houghton are completed and bids for the construction of the hotel will be received the next ten days at the office of H. L. Ottenheimer, the architect, at Houghton. As soon as the contract is let the work of excavating for the foundation will be commenced at once. It is hoped to have the building gotten under cover before snow flies and the inside work completed by the opening of next summer.

BOUND OVER FOR TRIAL. NOT A "RINGER" IN IT.

STRONG EVIDENCE ADDUCED IN JUDGE BRAND'S COURT AGAINST PRISONER LOUIS BORN.

RUMORS ANENT THE HOUGHTON TEAM MINUS FOUNDATION.

The examination of Louis Born of Houghton was conducted yesterday morning before Justice Brand. Prosecuting Attorney Larson represented the people and J. F. Hamblitz appeared for the defendant. Katie Roderick, the little girl whom he is charged with having attempted to assault, was the first witness. She told of her experience of the morning in question, after which medical testimony was introduced. Born was bound over to the coming term of the circuit court in the sum of \$1,000. At noon he had been unable to secure bondsmen and he will probably join Sheriff Lean's boarding force, which now numbers more than thirty.

TRIO OF DRUNK CASES.

John Loschere of Houghton paid a fine of \$3 and costs Monday when brought before Justice Brand on the charge of drunk and disorderly. John came in contact with a couple of window names while being ejected from Lange's furniture store and when he got through there was ample ventilation afforded.

Andrew Waara, who struck Bezotte, the Atlantic saloon keeper, with a beer glass Sunday morning, paid a fine of \$10 and costs, immediately after which he caused the arrest of the liquid dispenser for keeping his place of business open on Sunday.

James Welsh and John Berry, a pair of imported loafers, were up before Justice Brand Monday afternoon, charged with being drunk and disorderly. They pleaded guilty and sentence was suspended on condition that they get out of town within an hour. They arrived at Hancock within eight minutes.

GOOD HAUL BY BOLD THIEVES.

TILL OF A RED JACKET DRUG STORE TAPPED FOR ABOUT \$150.

The Eagle Drug store at Red Jacket was "touched" Sunday evening for an amount variously estimated at from \$100 to \$150. The money stolen had been stored in a sack and placed in the cash till underneath the drawers. Three clerks were at work in the store, so that it was not considered necessary to lock the till. The money was seen as it was being taken out of the till at 6 o'clock, but at 10, when the manager was closing for the evening, the sack was gone without there being the remotest clue as to who took it. The thief must have known the exact location of the till and reached over the counter and secured the swag, but how this could be accomplished without being noticed is something for the police to learn. Sheriff Lean was notified of the affair and put Officer MacNamara to work on the case. This officer spent all of Monday in looking into the job, but was unable to find any clue leading to the identity of the perpetrators.

COPPERDOM BREVIETIES.

Hancock's village fathers will meet this afternoon.

A. C. Burrage of Boston, president of the Arcadian Copper company, was among yesterday's Lake arrivals.

As yet no trace of the missing son of Charles Ruelle of Houghton has been found. Two boats are patrolling the shore at Houghton, night and day. The belief is general that the boy has been drowned.

Mrs. Nicholas Evert of Hancock, accompanied by her daughter Susie and nurse, Mrs. D. Robertson, will leave Friday on the steamer China for a six weeks' visit to Buffalo and other Eastern cities.

The repairs to Congressman Sheldon's yacht Sallie W. are progressing rapidly under the direction of George Carpenter, a clever boat builder, formerly of Bay City. Mr. Sheldon expects to be able to use his launch again within two weeks.

An unknown man was killed yesterday morning near Sturgeon River by the westbound passenger train. How he met his death no one seems to know. Undertaker Lange was notified and proceeded to the scene of the accident on the morning train east and was expected to return with the remains at noon.

The greater number of the Catholic clergymen of the diocese met Monday at the residence of Rev. T. J. Atfield. The purpose was in reference to the consecration of the Right Reverend Fr. Elis. D. D., which will take place at the Marquette cathedral the 24th of this month. Special railroad rates will be afforded those from this county who wish to attend the notable event.

F. W. Haas of Houghton has secured the agency for the upper peninsula of the "King Fire Destroyer," a hand fire engine of the most modern pattern. The apparatus comprises a heavy rolled copper tank of four gallon capacity. This is charged with water, soda and sulphuric acid. A carbonic acid gas is produced, and the apparatus is highly effective in checking conflagrations in their early stages.

The steamer Bon Voyage returned from its excursion trip to Duluth yesterday morning after a lively experience, especially during the frightful storm of Friday night, when the wind blew about at the rate of sixty miles an hour. About sixty people made the trip. There was no particular entertainment offered at Duluth, but all report a much improved condition of business affairs at the head of the lakes.

BEAUTIFUL BUILDING LOTS FOR SALE CHEAP.

A plot of the prettiest residence lots in Houghton county is now in the hands of Attorney R. T. Looney, and may be seen at his office in the Hartmann block, Houghton. The property is known as "Highland Place—Hubbell's Addition to the Village of Houghton." The streets are graded and Huron spring water is accessible. The location is near the Michigan College of Mines and is the most beautiful spot in the village of Houghton. Lots are selling at \$250, \$350 and \$400 and may be purchased on time. A better investment could not be made than the purchase of a lot.

HOW OUR SOLDIERS DECORATED A CHINAMAN.

"I am a great advocate of Chinese labor for the hospital department in the field. Some have criticized me for saying the Chinese are invaluable to us in the field, but I know what I know," was the remark made to me by Maj. Hoyt, chief medical officer of Gen. Arthur's division. "It was back in the days when our forces held the country only as far out as Calocan that I determined to make use of the sleepy-looking yellow men. I organized a small litter corps of four Chinese, and was laughed at for my veridancy. One night when there was quite brisk fighting around Calocan, I started for the firing-line with my four Chinese. By the time I struck the line my four had dwindled to one. The laugh was on me seemingly. But that one Chinaman was a hero, doing everything I told him, with the utmost promptness and coolness. When we got back to Calocan, the boys made a bogus medal, decorated him with it, called him captain, and saluted him. I'm half-inclined to believe that he really thought he was captain. We pay our Chinaman very well for this dangerous work, and when he learned what his pay was he must have thought, from that evidence, and judged by the Chinese scale of wages, that he was a sure-enough captain. After that we had no difficulty in getting plenty of Chinese for the work of litter-bearers. These coolies are a wear and tear much better than our men could do. It is rarely now that we have trouble with one on account of cowardice. Of course we shelter them all we can under fire, for they are just as necessary to us as horses or mules would be; but when necessary they will go right up under the hottest fire, pick up a wounded man, lay him gently on the litter, and start back with him, trotting, yet careful to give no unnecessary jar to the litter. They are the best men for this particular work I have ever seen."

Other army surgeons tell the same tale. Not a medical officer in the field but has a squad of these bearers. In camp they do the cooking and other servants' work. On march going into position, they carry great weights in the way of hospital stores on the same litters.—Manila Correspondent in Leslie's Weekly.

Some of the most notable work of recent times has been done in numismatics, says Percy Gardner in the August Atlantic. I can remember the time, scarcely a quarter of a century ago, when Greek coins were commonly called medals, and valued only as works of art or as interesting documents of mythology, or perhaps as serving to illustrate some passage in Sophocles or Euripides. The idea of placing the coins of every Greek city in a strict chronological sequence, so that at every point they could be brought into relation with the recorded history of that city, was foreign to earlier numismatists. It was like the letting-out of water when Mr. Barclay Head, now keeper of coins in the British museum, published his modest work on the chronological sequence of the coins of Syracuse, in which for the first time a rigorous and logical method of arranging the coins was followed. This work made its appearance in 1874; and in the next few years which have since elapsed, the entire procedure in Greek numismatics has been changed, and we regard coins as documents always to be placed in the strictest relation to history in a series which runs parallel to the civil and military transactions of every city, and often casts on these a light which is by no means to be despised.

It is well known that while works of Greek sculpture survive in abundance, the equally beautiful and important creations of the great painters of Greece have utterly perished. Our knowledge of great masters of the brush in Greece is very scanty; we even have to fall back on the stories, often silly and always untrustworthy, told of them by the elder Pliny. But we are now slowly working back to them from the designs of Greek vases, which cannot indeed give us any notion of the coloring which they used, but may serve to enlighten us in regard to their treatment of subjects, their grouping and perspective, and their drawing. In regard to the greatest of early Greek painters, Polygnotus, who probably exercised much influence even on the genius of Phidias, we have lately gained much light. Comparing the elaborate descriptions of his works by the traveler Pausanias with the designs of extant vases, we have by degrees, Professor Robert of Halle leading the way, at length reached a point at which we may claim to have recovered the general character of Polygnotian art.

BLANCO OPPOSED TO THE SURRENDER.

Type-Writer General Declares He Never Advised the Capitulation of Santiago.

SHOULDERS THE BLAME ON THE MADRID GOVERNMENT.

GARRISON AMPLIFIED IN FORCE FOR STRONG RESISTANCE.

This Evidence Contradicted by the Defeated Commander and His Officers. Who Assert It Was Impossible to Hold Out Longer.

GRIND OF THE TORAL COURT-MARTIAL.

Madrid, Aug. 1.—The second session of the court-martial of Generals Toral and Pareja, charged with surrendering Santiago de Cuba to the Americans without having exhausted all means of defense, took place today.

General Toral made a similar defense. He said Santiago was defenseless, and that it was impossible to hold out longer. He read a telegram sent by Captain General Blanco, who, after consulting with the authorities at Madrid, approved of the capitulation.

Another Spanish officer testified that when he entered Santiago he found three-quarters of the troops sick. General Rubi gave testimony to the effect that further resistance would have been equivalent to the death of the remainder of the troops.

PLENTY OF AMMUNITION.

Lieutenant General Pando, who was in charge of the military operations in Cuba, testified as to his regret that the recommendations made by him before leaving Santiago had not been acted upon, as Santiago then had sufficient ammunition, except for the artillery.

Colonel Ordenez testified that he was blockaded and therefore did not take part in the conference where it was decided to surrender. But he said he believed all means of resistance had been exhausted, though perhaps capitulation might have been avoided by an attempt to break through the enemy's lines, causing much bloodshed.

VENEZUELA'S CASE HEARD.

ARGUMENTS IN THE BOUNDARY DISPUTE CONTINUE AT PARIS.

Paris, Aug. 1.—At the session today of the Anglo-Venezuelan boundary arbitration commission, the argument of M. Malet-Prevost, secretary of the commission, in his presentation of the Venezuelan case was confined to evidence showing that after 1761 the whole trade of Guiana was in the hands of Spain.

M. Malet-Prevost asserted that he supposed a Dutch post on the Barima before 1666 never existed, yet it was largely on the assumption of the existence of this post that Schomburgk has drawn his line at Amakuru, and the British claim was founded on a source of error.

STOCKHOLDERS MUST PAY.

Chicago, Aug. 1.—The affairs of the Globe Savings Bank, for the mismanagement of which Chas. W. Spaulding is now serving time in the state penitentiary at Joliet, are to be settled at last. The final decree, which was drawn up by Judge Tuley in January last, was entered today, and in accordance with it the stockholders of the bank now will have to pay their full assessment, and the University of Illinois will remain in rightful possession of its \$125,000 endowment bonds. An appeal will be taken to the supreme court.

AGED NEARLY 107 YEARS.

DEATH OF THE OLDEST WOMAN IN THE STATE OF WISCONSIN.

Nellsville, Wis., Aug. 1.—Margaret Garvin, aged 106 years and seven months, died today in the town of York. She was the oldest person in the state. She leaves surviving her four sons and daughters, thirty grandchildren, forty-four great grandchildren and one great great grandchild.

ROUGH RIDER WEDS.

Alton, Ill., Aug. 1.—Joseph Stephens of New York city, one of Roosevelt's Rough Riders and the mate of William Tiffany in the battles before Santiago, and Mrs. Clara Sherwood Rollins, a lithe woman of Upper Alton, were married at the house of Mrs. A. Sherwood, the bride's mother, today. Mr. and Mrs. Stephens left tonight for Paris, where they will visit the groom's mother, the Duchess De Rino, before starting on an automobile tour of France.

WAGES RAISED AT IRONWOOD.

NORRIE MINE GRANTS ITS MEN A 10 PER CENT INCREASE.

Ironwood, Mich., Aug. 1.—The management of the Norrie and East Norrie mines today met the demands of the men for higher wages and allowed them a raise of about 10 per cent, the increase to go into effect Aug. 1. The settlement is satisfactory to all concerned. Two thousand men are affected.

GOTHAM STRIKERS WIN.

New York, Aug. 1.—William M. Boyle, president of the Brotherhood of Boiler Makers and Iron Ship Builders, which organization resolved to strike today, and a large gathering of the members of the brotherhood are jubilant tonight, it being reported that fourteen firms had granted the demands of their striking employees. Especially glad were the men when early in the evening a report came in that the John N. Robbins Dry Dock company, which employs about twelve hundred men, would allow the men a reduction in the working time, with no reduction in pay, beginning Aug. 4.

MORE TROUBLE AT CLEVELAND.

Cleveland, O., Aug. 1.—There seems to be a disposition to stir up trouble among the employees of the Little Consolidated company. More than half of them have been initiated into the union of the Big Consolidation's former employees, and a dispatch has been sent Senator M. A. Hanna, who is in France, asking him if he, as president of the Little Consolidated company, will recognize the union. No answer has yet been received to the cablegram.

A prominent physician tonight gave an instance of the way in which the boycott is being enforced. He says he was called to see a little girl who was dying. He was met by two men, who told him he had better not attend the child, as its father was "a scab." He replied they ought to serve notice of the boycott on the Almighty and inform him they would not go to heaven, for the child would be there in a short time.

BRICK-MAKERS GAINING.

Chicago, Aug. 1.—Bad faith and the making of a trust agreement, and the charges against the brick manufacturers of Chicago embodied in a statement issued today by their striking employees. The strikers' forces were augmented during the day by the accession of nearly all the non-union men in the North side yards.

APPEALS FOR CHICAGO'S HELP.

NEW RICHMOND RELIEF BOARD VISITS THE ACTING MAYOR.

Chicago, Aug. 1.—Members of the committee appointed by Governor Schofield of Wisconsin to distribute and have charge of the relief of the New Richmond (Wis.) tornado sufferers called on Acting Mayor Walker today and asked that an appeal be issued to the business men of Chicago to assist in the work of relief. The committee, which consisted of O. H. Ingram of Eau Claire, Colonel W. J. Boyle of Milwaukee, Leslie Wilson of Chippewa Falls, A. E. Jefferson of Hudson and O. W. Mosher of New Richmond, was assured by the acting mayor that he would render all assistance in his power.

DEATH OF THE OLDEST WOMAN IN THE STATE OF WISCONSIN.

Nellsville, Wis., Aug. 1.—Margaret Garvin, aged 106 years and seven months, died today in the town of York. She was the oldest person in the state. She leaves surviving her four sons and daughters, thirty grandchildren, forty-four great grandchildren and one great great grandchild.

ROUGH RIDER WEDS.

Alton, Ill., Aug. 1.—Joseph Stephens of New York city, one of Roosevelt's Rough Riders and the mate of William Tiffany in the battles before Santiago, and Mrs. Clara Sherwood Rollins, a lithe woman of Upper Alton, were married at the house of Mrs. A. Sherwood, the bride's mother, today. Mr. and Mrs. Stephens left tonight for Paris, where they will visit the groom's mother, the Duchess De Rino, before starting on an automobile tour of France.

HEUREAUX A TYRANT.

SLAYING OF THE SAN DOMINGO PRESIDENT UPHELD FOR THE GOOD OF THE COUNTRY.

New York, Aug. 1.—Senor Adriano Grullon, of the firm of Huttlinger & Vivig of New York, representative in the United States of the Santo Domingo revolutionists and formerly the business partner of Senor Jimenez, leader of the insurrection, tonight made a public statement of the reasons for the recent assassination of President Heureaux. He says:

"The assassination of Heureaux was not an act of revenge for the murder of Caceres' father, but the signal for the commencement of an uprising against the existing government there. Caceres is a cousin of General Horacio Vasquez, and was with him at the time of the shooting. General Vasquez is a member of one of the best families of Moca, and was for years a partner in the house of Cosmo Batlle, a firm well known there and former agents of the Clyde Steamship company.

ACTUATED BY PATRIOTISM.

"Neither Caceres nor General Vasquez can be considered common assassins, as their motives were not personal but patriotic. They attacked the president in broad daylight in an open space, and not from an ambush of any kind, nor even in the dark, although his little party was outnumbered by two to one by the president and his body guard."

The statement then gives a review of the conditions which have existed in the island for the past fourteen years, and the claim is made that Heureaux has held power by a system of terrorizing, that no legal elections have been held since 1889, and that the entire governmental machinery had been under the control of the late president.

IOWA REPUBLICANS GATHER.

STATE CONVENTION ASSEMBLES AT DES MOINES TODAY.

Des Moines, Ia., Aug. 1.—The majority of the delegates to the Republican state convention, which meet tomorrow morning, have arrived in the city and the remainder will be on hand in time for the opening of the convention at 11 o'clock. The nominations for governor, lieutenant governor, railroad commissioner and superintendent of public instruction will go to the present incumbents by acclamation. On the supreme judgeship there is a warm contest, and no one expects the nomination to be reached before the third or fourth ballot. The friends of Slogas Robinson, Sherwin, Burnham, Fee, Sloan and Cliff are expressing confidence and claim all the way from 150 to 350 votes each on the first ballot. It will take 645 to nominate.

ROOT TAKES THE OATH.

WAR PORTFOLIO TRANSFERRED TO THE NEW YORK MAN.

Washington, Aug. 1.—Hon. Elihu Root took the oath of office as secretary of war at 10:45 o'clock today. The ceremony occurred in the large office of the secretary of war in the presence of Secretaries Gage and Hitchcock, Assistant Secretary Melkijohn, a large number of army officers in uniform and other employees and officials. The oath was administered by Judge Cole, of the supreme court of the District of Columbia. General Alger escorted Mr. Root to the office. After the ceremony he bid his former associates goodbye and congratulated Secretary Root and the administration, concluding by saying, "May God bless you and give you strength." The general left at noon for Detroit.

WAR PLANNED ON THE BELL.

EASY FOR WHITMAN.

Boston, Aug. 1.—The second Longwood cup was played for this afternoon by M. D. Whitman, the holder, and Dwight L. Davis, the challenger. The result was three straight sets for Whitman, 6-1, 6-4, 7-5.

CANADIAN BOAT FIRST OVER THE LINE.

Third Race in the Cup Series Results in the Initial Defeat of the Yankee Challenger.

WEATHER CONDITIONS ALL IN FAVOR OF HER COMPETITOR.

KAISER'S YACHT METEOR VANQUISHES THE ENGLISH CRACKS.

Britannia, Satania and Others All Out-Sailed in the Contest for the Queen's Emblem—Start of the Shamrock Is Set for Thursday.

WON BY OVER THREE MINUTES.

Dorval, Que., Aug. 1.—With the weather favorable to his boat and good seamanship, Skipper Duggan of the Canadian defender Glencairn won his first race and the third of the series for Seawanhaka cup this afternoon.

From the very start, when the Glencairn crossed the line nine seconds ahead, it was apparent the Canadian advantage was at a very much greater advantage toward the American challenger than she had been yet during the present races.

On the first leg, which was a beat to the windward, the Constance rounded the buoy fifty-three seconds ahead of the Glencairn. When the second buoy was rounded by the Constance at 2:06:20, the Glencairn was thirty-five seconds behind, having reduced her rival's lead by eighteen seconds.

The Glencairn continued to gain steadily on her rival and passed the ten-mile mark just thirty-five seconds ahead of the Constance. It was no sure race for the Canadian boat, the only question being the amount of wind.

The wind was becoming lighter, and this run being the windward, the slowest of the day. The Glencairn gradually forged ahead, and finished three minutes and six seconds ahead of the American boat.

Time: Glencairn—Start, 1:25:07; finish, 3:52:26; Constance—Start, 1:25:16; finish, 3:56:32.

The race tomorrow will be over the triangular course.

TEN EYCK THE HERO.

Worcester, Mass., Aug. 1.—The second annual regatta of the Quinsigamond International Regatta association of Lake Quinsigamond this afternoon was witnessed by nearly twenty-five thousand people. Champion Ten Eyck was the hero of the regatta. He made two appearances, in the final heat of the single sculls and in the eight-oared race as stroke of the Wachusett crew. His rowing in the singles was the distinctive feature of the regatta. He had Arthur Kubic of Springfield for his competitor and beat him by twelve lengths, making a new record for the mile and a half course. The previous record was 9:58 2/5, made by him three years ago. Today he covered the course in 9:46 3/5.

SHAMROCK TO SAIL TOMORROW.

Greenock, Aug. 1.—The Shamrock will proceed to Fairlie Wednesday, to remain there for the night. Sir Thomas Lipton's steam yacht, the Eclair, will go to join the Shamrock Thursday morning, and the two vessels will start for America about 10 o'clock.

Cowes, Isle of Wight, Aug. 1.—Emperor William's yacht, the Meteor, won the queen's cup today in a race against the Britannia, Satania, Rainbow, Rosen and Cetonia.

GRAIN RATES GO UP.

Chicago, Aug. 1.—According to the agreement entered into by the railway presidents on July 10 the rates on grain and provisions from Chicago to the East were materially advanced today. The advances are as follows: On corn for domestic use, from 11 to 15 cents per hundred pounds; all grain and grain products, except domestic corn and wheat, from 9 1/2 to 11 cents, and on export oats from 11 1/2 to 13 cents.

ALIVE WITH DISEASE GERMS.

Springfield, Ill., Aug. 1.—At the slaughtering house of B. Franz and Bro. in this city today there were slaughtered four head of cattle, property from the dairy herd of Robert D. Loose, and two from the herd of George Reisch of Reisch Bros., brewers. All the animals on post-mortem examination were found to be badly affected with tuberculosis, some of the diseased parts being as large as a man's hand.

GREAT RACE HORSES MATCHED.

Dubuque, Ia., Aug. 1.—At Columbus today Directly and Ananar were matched for \$5,000 a side. Secretary Baldwin, of the Nutwood Driving Club, was there and, making the best offer, secured the race for the Dubuque meeting. The money is posted. The total purses of the Dubuque races are now \$110,000.

SAMOA'S NEW REGIME.

Apia, Samoa, July 26, via Auckland, N. S., Aug. 1.—At a meeting of the Samoan commissioners, just held, all parties signed an agreement abolishing the kingship, and agreeing to a president as administrator, with a legislative council of three tripartite nominees. The commissioners have left here on the transport Badger.

Brussels, Aug. 1.—The cabinet has resigned because of the rejection of the government electoral bills. The king is conferring with former Premier Nayer.

CHICAGO GRAIN MARKETS.

Chicago, Aug. 1.—Wheat—Irregular, within 3/8 cent range, closing 1/4 from the bottom and 1/2 under yesterday. The market opened dull and weak on lower cables and favorable weather, fluctuated narrowly on small trading and became active near the close, declining sharply on the absence of a cash demand and with corn.

Corn—Fairly active, within 1/2 cent range, closing at the bottom and 3/4 under yesterday. The market opened lower and declined on favorable crop prospects and good weather. Longs liquidated heavily.

Oats—Active, within 1/4 cent range, and closing under yesterday. Weather conditions were favorable. The leading grain futures ranged as follows:

Table with columns: Opened, Highest, Lowest, Closed. Rows: Wheat, Corn, Oats.

Cash Quotations.

Wheat, weak; No. 2 red, not quoted; No. 2 Nor. 60c. Corn, weak; No. 2, not quoted; Oats, weak; No. 2 white, new, 23c; No. 3 white, new, 23 1/2c.

Movement of Grain.

Receipts—Flour, 18,000 barrels; wheat, 85,000 bushels; corn, 520,000 bushels; oats, 800,000 bushels.

Shipments—Flour, 13,000 barrels; wheat, 8,000 bushels; corn, 533,000 bushels; oats 177,000 bushels.

WALL STREET STOCKS.

New York, Aug. 1.—Today's stock market began strong, but closed easier than last night. The declines extended to a point each in Burlington and Pennsylvania and from 1 to 2 points in the leading industrials.

Soon after the opening realizing sales were made on a large scale, the operators taking advantage of a heavy commission house demand to take the profits made on the recent rise. The outside buying and the realizing seemed about equally balanced for a time, but the weight of selling proved too much for the market to carry and the prices of the railroads gave way.

The softness of the market moved the professional operators to turn to the short side after having realized, and they attacked values vigorously in the afternoon, practically wiping out the gains in the specialties and carrying the railroads generally a sharp fraction below last night. Chicago & Great Western and Chicago & Eastern Illinois maintained strength throughout the day and receded from a fraction to 3/8.

London bought stocks quite freely in New York today, and exchange bills against future grain shipments continued in large supply. There also had been a sharp fall in exchange on Paris this week, and today stock exchange in Paris rose 1 1/2 centimes.

Interest of Exchange Rates.

Money on call today ruled steady, at 3 1/2 to 4 1/2 per cent. Prime paper, 3 3/4 to 4 1/4 per cent. Exchange, heavy; demand, \$4.86 1/2; sixty days, \$4.83 1/4.

BOSTON COPPER QUOTATIONS.

The course of the Boston stock market yesterday was as follows. A. B. Turner & Bro., brokers, Savings Bank Building, Marquette, furnishing the figures:

Table with columns: Opening, 12m., Closed. Rows: Adventure, Ashbed, Arcadian, etc.

METAL QUOTATIONS.

New York, Aug. 1.—Metal prices today closed as follows: Pig iron warrants, unchanged at \$15.25 bid and \$15.75 asked; Lake copper, unchanged at 18.50 cents.

IRELAND IN WASHINGTON.

Washington, Aug. 1.—Archbishop Ireland arrived in Washington today, where he will remain a day or two before going to St. Paul. The archbishop will call at the Catholic legation and the Catholic university while here. Catholic affairs in Cuba and Porto Rico, he says, are now under the direction of Archbishop Chapelle, who reports directly to Rome. Future events may bring them under control of the American church, but at present...

BECOME A MAN

This will interest those who have dreamed of "medical companies" and "free prescriptions" for "fakes" and "electronic" devices.

DOCTOR GRAHAM,

It rests with you whether you continue the nerve-racking tobacco habit, or you remove the desire for tobacco, with out any more distressing or expensive means.

Ishpeming and Vicinity.

WITH US AGAIN. THE "WHITE, WHITE WONDER" AND "ELECTRIC BELT" MAN PULLED LEGS HERE MONDAY NIGHT.

We have got'em again. The soap man and the electric belt man took turns at gulling the public Monday night.

The soap man came back to prove that he had been calumnyed by a local paper which said he purchased his soap right in this city.

At first this fakir was going to give away everything. When it came to the show down, in order to get his merchandise into the hands of responsible parties, he had his auditors put a quarter in his hat and take a box of tooth powder, promising them a reward.

Fakir No. 2 did not do a very good business, as he was a poor stock. A number of bad young men gazed him slightly and he did not have brains enough to get back at them.

MOWICK STORE CLOSED AGAIN.

CREDITORS HAVE MADE ANOTHER STEP TOWARD FORCING A SETTLEMENT. Reputy U. S. Marshal Dolf of Marquette is now in possession of the stock of goods in the Mowick store owned by Alf Henderson.

Under the original order Henderson was at liberty to sell all goods added to his stock after the date of the transfer made by Mrs. Mowick in March.

BAND IS ALL RIGHT.

Much praise is heard for the Ishpeming City band. That organization has been playing quite steadily of late and its merit has been impressed upon all who have heard it.

WILL TOUR PENINSULA YEARLY.

Hereafter the Gentry dog and pony show will appear in this section of the peninsula yearly. The first trip was made last year.

CARD OF THANKS.

Mr. J. C. Funston and his daughters, Mrs. J. H. Gillett of Marquette and Mrs. A. E. Hume of Wheeling, W. Va. desire to express their sincere thanks for the many kindnesses of friends displayed during the long illness of Mrs. J. C. Funston.

SUGGESTS A WATER TOURNAMENT.

A CORRESPONDENT OF THE MINING JOURNAL WOULD LIKE TO SEE AQUATIC SPORTS ON LAKE BANCROFT.

A local reader of The Mining Journal has addressed a communication to the paper on water sports in general, and suggesting an aquatic tournament on Lake Bancroft.

Such a tournament was held last year. Swimming races of all descriptions were on the program and much enthusiasm was evoked.

As of necessity the sport would be public, all expenses would have to be covered by subscription. No one person would undertake the labor involved in securing the required money and prizes.

PENINSULA CONVENTION.

A convention of the Young People's societies of the Swedish Mission churches of the peninsula will be held here this week.

ISHPEMING IN BRIEF.

H. O. McMain of Marquette was here yesterday. The regular meeting day of the Country club.

Mrs. I. S. Oliver and daughter of Green Bay were here yesterday.

R. P. Bronson entertained his brother and wife, from Ohio, Monday.

The frequency of rain storms lately is being generally remarked. For the last few weeks it has rained on as many days as it has been fair.

The ladies of St. Joseph's church will begin today to canvass the city in the interests of a fair which will be held for the benefit of a church repair fund in September.

Carl Tellefsen entertained a number of the singers who remained here at his residence Monday night. The lawn was illuminated and the guests were delighted with the treat afforded them.

Dr. Leonard was busy yesterday moving his office from the Vesler block to the room formerly occupied by Sedgwick & Cooley in the Peninsula Bank building.

July has proved a month of heavy mortality. The records at the recorder's office show a total of eighteen deaths for the month.

Copper trading and interest in the once popular speculation are at a low ebb here. The local offices are handling very little business and are practically deserted.

J. W. Jochim entertained many people at his residence Monday night. They were present to see the blossoming of a cactus which blooms only once a year.

The nuptials of Miss Mary S. Argyle and J. Henry Williams were celebrated at the residence of the bride's parents on Fourth street last evening.

Thursday will be Lady Henry Somerset's birthday. That lady was the successor of Frances Willard to the presidency of the W. C. T. U.

The local base ball team met the Sidnaw aggregation Sunday and succeeded in defeating it by a score of 7 to 6.

Clara Thropp, the clever artist who made such a big hit here in Henrik Ibsen's "Doll's House" a few months past, will reappear in this city the night of labor day.

House." She will be seen here, however, in her new play, "My Friend, The Count." She is supported by a New York company which is much stronger than that which she brought here on her last visit.

DEWEY'S CHAPLAIN.

Father William Henry Ironsides Reany, Formerly of Detroit.

The chaplain on Admiral Dewey's flagship, the Olympia, is Rev. Fr. Reany, who is a son of Capt. Henry Reany, chief clerk of the United States light-house inspectors for this district, says the Detroit Evening News.

When the war with Spain broke out, Fr. Reany was chaplain on the receiving ship Vermont at the Brooklyn navy yards. Just after the battle of Manila Fr. Reany was assigned to the Olympia to take the place of the chaplain, whose term in the service had expired.

"So you are the son of Captain Reany of Detroit," said Admiral Dewey, as he grasped the two hands of Fr. Reany when the latter was introduced on board the Olympia. "Well, it gives me pleasure to have you with me."

Admiral Dewey and Fr. Reany's father years ago served on the same boat together. Fr. Reany is not one who believes in referring a great deal to his surroundings and to the people he is with, in his private letters home, so that in his communications to his father he has not told many things of Dewey.

He is a large and powerful man, something of an athlete, and has often put on the gloves and boxed with the "tars." His full name is William Henry Ironsides Reany. When he was born, his father was an officer on the U. S. S. Ironsides, and after an odd custard he was presented with a "peeing cup," and was christened Ironsides in honor of the boat.

In some of his letters Fr. Reany has said that there are more opportunities for sailors to enjoy themselves on board the Olympia than there would be in New York city. All kinds of athletic sports are indulged in, for which prizes are offered. Concerts are regularly given and a great deal of talent has developed among the common seamen.

Out on Burlingame avenue live the charming sisters of the chaplain, and they are anxiously awaiting the return of Dewey, because it means the return of their brother.

The last letter received from Fr. Reany said that he would probably reach New York about Oct. 1.

A THOUSAND TONGUES.

Could not express the rapture of Annie E. Springer of 1125 Howard St., Philadelphia, Pa., when she found that Dr. King's New Discovery for Constipation had completely cured her of hacking cough that for many years had made life a burden.

Medical scientists, says Science Staffings, have now demonstrated that a brain cell actually loses part of its substance during action.

WHAT SLEEPLESSNESS MEANS. During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with.

FOR RENT.—A fine store room, suitable for any business. Situated on corner of Main and Bank streets, Ishpeming. All conveniences, including street heat. H. H. Meldon, 106 Bank street. (6-27-17)

MICHIGAN'S METROPOLIS.

THE GREAT AND GROWING CITY OF THE STRAITS.

All Roads Lead to Detroit—Practical Applications Worth Weighing by Our Readers.

In 1897 the conventions held in Detroit brought that city 100,000 visitors. Last year the number reached 75,000, and this year it will amount to probably 250,000.

Of the 15 largest cities of the country, Detroit stands second in percentage of growth from 1880 to 1890. It being exceeded only by Chicago.

The firms having, leaders in their lines, invite the trade of our retail dealers and all others interested.

The promptness and courtesy which have built up these establishments is the best recommendation we can offer for them to our readers.

In and About Negaunee.

GOOD WORK BY MAYOR NEELY. CITY IS FREE OF FAKIRS—THOSE WHO COME DON'T STAY LONG.

Negaunee is to be congratulated. It is, and has been so far this year, free of street fakirs who rob unsuspecting purchasers and injure legitimate business.

Mayor Neely is to be thanked for his happy condition of affairs. He does all he can to discourage street peddlers who apply for a license from taking one out.

What is better, Mayor Neely intends to hold the fakirs down. He will continue to soak them to the limit under the charter.

Night and silence rule the city—'till the wind its breathing stills. While the moon is sinking calmly down behind the western hills—

I can "hear the waters murmur as they move toward lake and sea;" I can "hear the night bird calling as it flies from tree to tree."

Oh, the circle 'round the camp-fires, the evenings warm and clear; The merry songs and jesting, with their ever wholesome cheer;

I am tired of watching markets and tired of paying bills. I want to go out sailing or go tramping o'er the hills;

I want to hear the squirrel's saucy chatter as I pass, And see the partridge skurry through the underbrush and grass;

And so my longings blend into the story of the past, My soul has joyous visions 'mid the darkness deep and vast.

MAYOR AND THE FAKERS.

His Honor Is Besieged With Traveling Gentry Who Want License Fee Reduced.

EVERY ONE HAS A STORY OF REAL HARD LUCK TO TELL.

City's Executive Tries to Get a Bargain on a Diamond but the "Broke" Faker Refuses to Sell His Hand-some Sparkler.

THEY ALL KICK ON THE LICENSE.

If Mayor Neidhart's store looks unusually busy now days it is not because his honor is having any phenomenal rush of trade. The demand for ten penny nails hasn't perceptibly increased in the past week but the demand for street licenses has quadrupled, principally because the tournament is coming.

The mayor hasn't anything to do with the licenses but all of the fakers seem to think the matter is in his hands, and the first place they go when they strike town is the mayor's store. He talks with them awhile then tells them they will have to drop around to the city hall and interview Recorder Donovan.

In spite of the prosperity stories they tell on the street, how they are not here to sell the goods but simply to advertise them and are paid municipal salaries by the concerns they represent, each one has a hard luck story and in strictest confidence he confides it in the city's executive. The license fee for selling most kinds of goods is only \$3 a day, and when a man tries to beat that the inference is he is in pretty hard lines.

A few weeks ago an ex-vice-captain who used to sail on the lakes but who has experienced a reversal of fortunes struck town with a line of Yankee notions. He laid around a couple days then braced the mayor for a reduction in the license. His honor was hard hearted and refused to reduce. Finally after several other sources of influence had been tried with like results the captain went up to the city hall and paid his \$3. Then he stayed in town three days longer but never once appeared upon the streets. The third day he took a train for parts unknown. The strangest thing about it is that for all he was so hard up as to make it worth while to spend two days trying to get a reduction of the license, he neglected to go around and get his money back from the recorder.

But the mayor had a more recent experience which beats this one out by several points. It refers to the long haired gentleman who was on the street selling tooth powder.

The mayor in a moment of illdness, for the rush of fakers had not then begun, was watching the crowd get off the 10:40 train. He espied the man with the Bryansque hair and immediately called the turn on his vocation. He did not come around in the afternoon as the mayor expected he would, but two days later he appeared. He was accompanied by the proprietor of one of the cheaper hotels.

The hotel keeper introduced the faker to the mayor and told him that the man had been sick at his house for two days. Like all of them the faker wanted the mayor to throw off the license fee or at least make a reduction. It was plain from the man's appearance he had been sick and it may be he had heart disease as he claimed. His honor's soft heart was beginning to melt around the edges till he happened to cast his eye on a handsome diamond the fellow wore in his cravat. Then it hardened up like custard in a sixty-second ice cream freezer. "You may have been sick," said the mayor addressing the faker, "but a man with a stone like that can't be very hard up. Here now, I'll give you \$35 on it and take my chances on its being genuine." "Not by a d—n sight," replied Mr. Faker forcibly. "I'm not broke; I always have a hundred in my pocket. But if you want the stone I'll sell it to you for \$75."

The mayor didn't buy the stone and the faker paid the charter rate for his license.

His honor says he is getting tired of fakers who are in hard luck and wishes some fellow would come along who would ask the price and put his money up like a little man. He might get it back.

PARENT'S MISTAKE.

Many a Mother in Marquette Will Appreciate the Following:

Many a strong man and many a healthy woman has much to thank mother for. The care taken during their childhood days has brought them past the danger point and made them healthy men and women. Children are generally bothered at some period with incontinence of urine, and inability to retain the urine is oft times called a habit. It is not the children's fault, the difficulty lies with the kidneys and can be readily righted if taken in the right way. A North Kalamazoo lady shows you how.

Mrs. L. W. Bissell of 71 Park St., North Kalamazoo says, "My little brother who has lived with me for some time and is now twelve years old has been troubled with a kidney and bladder weakness ever since he was a baby. The muscles of his bladder seemed to weaken and nearly every night he would wet the bed. I did not know what to do for a long time but at last I decided to try Doan's Kidney Pills. I got a box at a drug store and they helped him so much that he kept on giving them to him until he had used five boxes. He gained right along and now is as strong and healthy as a looking boy as one can see. Both my husband and I are much pleased with this remedy and believe it is excellent for all such ailments."

Just such emphatic endorsement can be had here in Marquette. Drop into the Stafford Drug Co.'s and ask what their customers report.

Doan's Kidney Pills are sold for 50 cents per box by all dealers, or mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the United States. Remember the name Doan's and take no substitute.

with few exceptions remained within a fraction of where they were quoted the day before, and the price at which some of them have been selling for weeks. Speculators around here are no longer talking summer boom but are waiting to see what the fall will bring forth.

Arctadian was weaker toward the end of the day yesterday and closed off one at 89 1/2. Boston & Montana rose one to 355. Butte & Boston weakened a little and closed off one at 78. Calumet & Hecla advanced ten points to 835. Quincy fluctuated one, this time in a down direction, and closed at 161. There were a number of other changes but all fractional.

Paine, Webber & Co. said yesterday in their daily letter to the local branch: "Boston, Aug. 1.—London copper opened with spot unchanged and closed off 1 shilling 3 pence for spot and 1 shilling 2 pence for futures. Between 10 and 12:30 4,499 shares changed hands, the most active being Arctadian, Bingham, Franklin and United States Mining. During the afternoon the market remained quiet. Calumet & Hecla was strong today and advanced twenty to 845 and later 840. The balance of the list was inclined to be a trifle heavy. The market closed dull. Sales of active stocks yesterday: Adventure, 100; Arctadian, 2,630; Arnold, 245; Ashbo, 50; Baltic, 350; Bingham, 1,035; Butte & Boston, 190; Centennial, 150; Copper Range, 325; Franklin, 409; Michigan, 50; Monark, 100; Osceola, 169; Parrot, 217; Pioneer, 105; Quincy, 23; Victoria, 40; Tecumseh, 115; Tri-Mountain, 485; United States Mining, 700; Utan, 410; Washington, 500; Winona, 200; Wolverine, 75."

Wheat was irregular yesterday, September falling off slightly and December making a decided gain. The former option dropped off 1/4 to 69 1/2. December advanced 1 1/2 and closed at 71 1/2; it touched 71 3/4.

F. G. Logan said of the wheat market in his yesterday's letter to Paine, Webber & Co.:

"Chicago, Aug. 1.—Wheat—The market has been dull but there was an absence of liquidation. Holders who were so disposed had parted with their property yesterday. Routine news was without feature. Receipts continue large and cash demand is slow. Reports from the spring wheat country admit considerable damage has been done by the hot weather and rust and the best opinion is that the crop will be considerably short of last year. Primary receipts were 837,000 against 532,000 last year. Duluth reports no shipping demand at that point. Total clearances and flour 430,000 bushels."

TWO BREITUNG VENTURES.

Breitung Bond and Mining Guarantee Companies—Both Limited.

Articles of corporation have been filed with the county register of deeds for two local companies headed by Edward N. Breitung. One is the Breitung Bond company and the other is the Breitung Mining Guarantee company, both being limited liability corporations with a capital stock of \$100,000 each. E. N. Breitung has the majority interest in both concerns.

The first is organized for the purpose of dealing in real estate, bonds, stocks, commercial paper of all sorts and guaranteeing securities. The purpose of the second as set forth in the articles is to buy, sell and lease mining lands, conduct mining and carry on all operations necessary to ship and mine the product. It is also authorized to advance money to others to use in mining development.

The life of each company is twenty years, and each has its capital stock divided into 10,000 shares of \$10 each. The officers of both companies are the same, being: E. N. Breitung, chairman; S. W. Shaul, secretary; James Wallace, treasurer. Both companies have headquarters at Marquette.

CLEAN FACES COME HIGHER.

Fifteen Cent Shaves in All Union Shops Beginning Monday.

Next Monday and thereafter clean shaven faces will be worth more than they are now. The Barbers' union has decided to put the price of shaves up to 15 cents, the new rate to go into effect Monday, Aug. 7. From and after that date 15 cents will be the price charged in all union shops, and as all save two of the shops of the city are under the union pretty nearly everybody who patronizes a barber will have to come up with the extra nickel.

The barbers say the advance is necessary as there is not a good living profit in 10 cent shaves, especially as about half the customers expect to have their necks shaved and their hair trimmed a little all for the same price. There will be no advance in price in anything except shaves.

BADLY HURT.

Dewey McGinnis Brought Down From Ewen With Several Broken Bones.

Dewey McGinnis, a mill hand at Ewen, was brought down from that place on the 7 o'clock train last night and placed in St. Mary's hospital where he lies now in a precarious condition. His collar bone is broken, his shoulder is dislocated and his head is injured. It is also probable that one or two ribs are broken, but it is impossible to tell that as he is in a plaster cast.

McGinnis was injured Saturday by falling from a tramway. He is about thirty years old but it is not known if he is married or single. Ewen is not his home.

"BLACK SHEEP" COMING.

One of Charles Hoyt's Best Farces is Headed This Way.

Hoyt's "A Black Sheep" which enjoyed a prosperous run of more than 200 nights at Hoyt's theater, New York, will shortly be presented in this city identically the same as given in the great metropolis. The cast is headed by William Devere, who will be seen in his great character of the Arizona editor. This part was especially written for Mr. Devere by the author, Charles Hoyt.

TO CLEANSE THE SYSTEM Effectually yet gently, when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritative or weakening them, to dispell headaches, colds, or fevers, use Syrup of Figs, made by the California Fig Syrup Company.

COULDN'T ERECT ARCHES.

Rain Causes a Temporary Delay in Decoration of City for the Tournament.

EVERYTHING WILL BE READY ON OR BEFORE OPENING DAY.

Carelessness in Making Entries for the Races. Some Letters Do Not State for Which Races or Contests the Entry Is Made.

MARQUETTE WILL BE IN GALA ATTIRE

Rain for the first time yesterday blocked the tournament preparations. It was the intention of the decorating committee to erect the five big arches in the streets last night, but on account of the storm this work was postponed. However everything will be up and in readiness days before the tournament. It is certainly true that no other city which has entertained the association has ever had its work so well advanced and kept it so well in hand as has Marquette. There will be no rush at the last minute.

After the five grand arches are up the electricians will put on the incandescent lamps. It was impossible to do the electrical work on the big arches while they were in sections. After these arches are up the next to be erected will be the small electrical arches which are to be put up every sixty feet on Front and Washington streets.

Marquette will be decorated as it never was before. This is certain, for no committee which has had charge of any previous celebration has ever spent so much money on bunting, flags and electrical effects as the tournament decoration committee. This committee was given the largest appropriation of any of the sub-committees which are working on the tournament.

In addition to the work which the decoration committee has done and has yet to do private enterprises must be counted on to do a good deal towards beautifying the city. Every business man along the main streets is planning to decorate his place, most of them elaborately. The decorations will consist not only of flags, greens and bunting, but in a number of cases there will be private electrical displays.

Entries are beginning to come in from the various companies which will enter teams in the contests, and in a few days it will be possible, probably, to make up the schedule of the races. The committee is anxious to do this as soon as possible.

It is, however, hampered in its work through the carelessness of those sending entries. Only yesterday a letter was received from a copper country chief enclosing \$10 forfeit and neglecting to state what races or contests he desired to enter his team for. J. A. Rivers, who is the one to whom entries are made, says that every letter of entry should state specifically the races the team desires to enter. Unless this is done an accurate schedule of races cannot be prepared.

BREAKWATER WORK.

Five Hundred Feet Will Be Laid This Summer if Weather Favors.

Work at the concrete breakwater is being pushed and in order to complete the allotted amount this summer Engineer Krey is working his force of men Sundays and evenings till 8 o'clock.

The amount planned to be done this season is 500 feet, and Mr. Krey says the work will be accomplished if the weather is at all favorable. The footing blocks have been laid the entire distance and the wooden sub-structure and the footing blocks, have been put in place.

A force of about forty men is engaged on the job.

KILLED ON THE TRACK.

Report Reaches Here of a Fatality Yesterday Morning at Chassel.

It was reported here yesterday, though the news could not be verified, that an unknown man was killed about 2 o'clock yesterday morning on the South Shore's track at or near Chassel. No details are known regarding either the man's age or condition or the circumstances of the accident.

EMINENT PHYSICIAN COMING.

Dr. B. E. Ottman of the American Medical and Surgical Institute of Muskegon, Mich., which has been established for the past twenty years for the treatment of all surgical and chronic diseases, is now at Hotel Marquette and will remain until Monday, Aug. 7. Dr. Ottman is president of the institute and one of the most distinguished specialists in the state of Michigan. He has many patrons here and desires all to call on him as he is specially interested in each and every one that he has taken for treatment. PORT LIST.

Arrived—Pease, Planet, Frontenac, Chattanooga, Specular, Holland. Cleared—Frontenac, Conneaut; Chattanooga, Ashtabula; Wade, Specular, Holland, Cleveland.

LOCAL MARINE NEWS.

No liners made the port yesterday. The Pease and Planet are in with a cargo of coal which they will discharge at the L. S. & I. dock.

The pleasure steamer Weston has not yet returned from Baraga, where she went to run an excursion Sunday.

The Business has finished discharging her cargo of coal at the L. S. & I. dock and has cleared with ore for Fairport.

Though the number of arrivals and clearances yesterday was not large boats were considerably more numerous than the day before.

FUN FOR THE CHILDREN.

The children are delighted and the older folks pleased to know Gentry's Dog and Pony show is coming again. This show gave wonderful satisfaction last season, and no doubt they will crowd the tent at each performance while in our city. The price of admission is small, giving everybody an opportunity to take the whole family for the same money you would pay for a single admission to the three-ring circuses and you get value received when you attend Gentry World's Greatest Trained Animal show. Remember the dates. (8-2-11)

SHAKESPEARE'S INVOCATION.

Shakespeare's invocation: "May good digestion wait on appetite," need not have been had proper food, properly cooked, been on the table.
