GREAT OVATION TO GEN. ALGER.

Magnificent Welcome Tendered the Late War Secretary on His Return to Detroit.

HEARTY CHEERS FROM THOUSANDS OF LUSTY THROATS.

EQUALLY ENTHUSIASTIC DEMONSTRATION EARLIER IN THE DAY.

Immense Crowd Meets the Train on Its Arrival at Toledo and Shouts Its Approval of the Michigan Man's Official Record.

GREETED BY VAST MULTITUDES.

Detroit, Aug. 2.—The late Secretary of War Alger was tendered a magnificent welcome tonight by the people of his own city and state. From 4 o'clock, when the welcoming committee crowded into his private car upon its arrival at Toledo, until 9 o'clock tonight, when the general ceased grasping the outstretched hands, the scene was a constant and spontaneous ovation. Smiles and tears repeatedly struggled for the mastery over the secretary's bronzed countenance as he gazed into the eager faces of the multitudes who loudly and convincingly insisted that "Alger's all right," and no dissonant voice was heard.

ESCORTED BY VETERANS.

The special train which met General Alger and party at Toledo carried four hundred members of the reception committee. Upon the arrival at Detroit three hundred bicyclists and over a thousand marchers escorted the general from the depot to the reviewing stand. The militia and veterans of the Civil war, a company of Spanish war veterans and scores of marchers in secret society uniforms filed past. When the ex-secretary appeared upon the stand there was a roar of applause from the dense crowd, which blocked all traffic for blocks around. General Alger reviewed the parade and returned the salutations of the many marchers, especially the veterans of the G. A. R., his comrades.

Mayor Maybury, after calling for order, said: "General Alger, I should deeply regret, sir, of being able to voice the heartiness of this welcome were it not already shown in this vast concourse, through whom you have passed. It will go forth to the world, sir, that where you are best known, there you are best beloved and best appreciated. It will go forth to the world, sir, as due notice that a standard of high character, built up by patience and perseverance, honesty and uprightness, cannot be thrown down by slanders."

HOT SHOT BY PINGREE.

Governor Pingree, in his speech, read in behalf of the state, made some pointed references to the incidents leading to General Alger's home coming and fired some characteristic shots at the newspapers, which, he asserted, were largely responsible. The governor said General Alger's best service for his country was in his efficient management of the war department. Said he: "Without your energy, business ability and experience no one knows how long it might have lasted. You were handicapped by the machinery of department, which is ancient and obsolete. In spite of it you contributed more than any one else to bringing the conflict to an end with a loss of life so small as to astonish the world."

"The facts which led you to submit your resignation to the president are well known. The treatment which you received has justly aroused the resentment of fair-minded Americans. The people of Michigan look upon the manner in which your withdrawal from the cabinet was forced as an insult to the state. They are here today to rebuke the cupidity of politicians, high and low. They are here to show their contempt for the cowardly attacks of a venal press."

"I know some people think it unwise, upon an occasion like this, to give voice to such sentiments as I have been expressing. I say to them that the truth is never out of place. I have come to believe that the institution most dangerous to our form of government is the newspaper. Its boasted liberty is rather license. It has no scruples and conscience. There are, of course, exceptions, but I speak of the press as a whole."

"Because you, General Alger, would not bow to them and conduct the war department in the interests of combines, army contractors and the commercial interests which control the newspapers you became a marked man. I voice the sentiment of the people of Michigan when I say to you that we have every faith that history will rebuke the newspapers and the politicians of highest and lowest station who used such vile methods to accomplish their little purposes."

THE GENERAL IN RESPONSE.

General Alger, responding, said: "I can command no language to express my gratitude for this royal welcome to my home. I am glad from the bottom of my heart to be released from official care and to again enter my old home and live among the people of Michigan."

"Since I went away the country has been through a terrific struggle. The office which I headed taxes to the utmost every man's strength who occupied any position in it. I gave my best thought and honest effort and did everything that I could to carry out my part of that great work. What has been done is a matter of record. I am perfectly willing to rest the case with my countrymen. Every transaction and everything that was done in conducting that war is a matter of record, and the people have the right to have that record searched."

"And now, my fellow citizens, I come home without grievance. During that struggle, and while that great work was upon me, I can truthfully say that I had from the president all the support that he could give. We went through

that struggle and came out victorious." The closing scene was a reception in the city hall corridor.

Toledo, Aug. 2.—Ex-Secretary of War Alger was greeted this afternoon by an immense crowd of cheering people as his train pulled into the depot and the local reception committee formally welcomed him. General Alger was visibly affected as he acknowledged the enthusiastic demonstration.

GORED BY A MADDENED BULL. IOWA FARMER MEETS WITH A FRIGHTFUL ENDING.

Fort Dodge, Ia., Aug. 2.—John Dirk, a farmer living near Pomeroy, met a horrible death at his farm this morning from a maddened bull. Dirk had gone out in the pasture, when he was attacked. His cries were heard by his wife, who ran to his assistance, and together they drove the animal away. As they were leaving the bull attacked them again, knocking both down. Dirk told his wife he was dying, and she managed to escape and summoned a neighbor who fired two charges from a shotgun into the animal, driving it away. Dirk's body was trampled and bunted into an almost unrecognizable mass. Mrs. Dirk had two ribs crushed.

GOTHAM SOLONS SUBPOENAED. MAZET COMMITTEE TO HEAR ARGUMENTS ON THE QUESTION OF ABOLISHING CITY ASSEMBLY.

New York, Aug. 2.—The most interesting thing that developed today in connection with the Mazet legislative investigating committee was the fact that every member of the municipal council had been subpoenaed for tomorrow for the purpose of determining why the present city legislative body should not be abolished. With each subpoena was a letter from Attorney Moss, counsel of the Mazet committee, saying: "You will be subpoenaed to appear before this committee on Thursday at 11 a. m., and will be treated fairly and courteously. The assembly will be urged to convene and legislate against the municipal assembly, and I desire that your side of the controversy shall be correctly presented."

YELLOW PEST CURBED. SITUATION IN THE STRICKEN VIRGINIA TOWNS IMPROVES.

Washington, Aug. 2.—Advices from Hampton show that the only change in the yellow fever situation is the addition of four suspected cases to those already in existence. There has not been a death since 7 o'clock last night, and everything with reference to the disease is more than favorable.

The work done both at Hampton and Phoebus shows the ability of the officials interested to cope with the situation. The removal of the troops from Fort Monroe begins tomorrow.

A dispatch from Dr. Wasdin says a house inspection of the worst portion of Phoebus discloses nothing. The dispatch adds: "The suspicious case of last night is verified. No new cases at the home today; one desperate."

QUARANTINE DECLARED. Montgomery, Ala., Aug. 2.—Governor Johnston tonight issued a state quarantine against the Soldiers' Home, Phoebus, Hampton, Old Point Comfort, Newport News and other places hereafter infected.

FEVER AT SANTIAGO. Santiago de Cuba, Aug. 2.—Four cases of yellow fever have been reported in the last four days, the victims being American civilians. General Wood believes there is little danger of an increase of the disease, as nearly all the people are immune.

ACCIDENT TO THE COLUMBIA. STEEL MAST SNAPS AND PREVENTS RACE WITH DEFENDER.

Newport, R. I., Aug. 2.—The Columbia and the Defender started in the first trial race this morning. Not long after the start the Columbia's new steel mast snapped fifty feet from the deck and the rigging went into the water. Tugs and the Defender assisted to clear her and she was towed back.

CANADIAN TAKES ANOTHER. Dorval, Que., Aug. 2.—Today was another Glencairn day, the Canadian boat winning her second and the fourth race for the Seawanhaka cup. During the race there were all kinds of breezes, from east to west and from north to south, and it was difficult to say at times just which boat had the advantage as to wind. Undoubtedly, however, Dugan's able seamanship told well today in placing the Glencairn five minutes and thirty-nine seconds ahead of the American challenger at the finish. The following is the official start, finish and elapsed time:

Start. Finish. Time.
Constance 1:55:25 4:20:25 2:25:29
Glencairn 1:55:27 4:15:15 2:19:48
WILLIAM'S YACHT AGAIN WINS.
Cowes, Isle of Wight, Aug. 2.—The German emperor's yacht Meteor won the race today, which was for a prize of £100. The Prince of Wales' Britannia dropped out before the race was half sailed. Besides the race won by the Meteor fourteen yachts started in a separate race for a cup presented by Emperor William for schooners and yawls of forty tons. The race finally resulted in the yawl Gertrude winning the prize.

GVERNOR IS POWERLESS. Frankfort, Ky., Aug. 2.—Governor Bradley today issued to the press "for the public and legislature" a long message reviewing the Clay county feuds and tending to show that he is powerless to do more than he has done without further authority from the legislature. The governor says the newspapers have magnified the lawlessness, but thinks the legislature should pass laws that would enable the executive to suppress outbreaks of such character, even though the local officials (offendees affiliated with one side or the other of the feud) should not call for assistance.

WAR IN GERMANY ON YANKEE FOODS.

Campaign for the Virtual Total Prohibition of Imports Renews With Vigor.

AGITATION LESSENING THE CONSUMPTION OF MEAT PRODUCTS.

FRANCE'S TRADE TREATY WITH AMERICA DISLIKED IN PARIS.

Influential Publication Condemns the Concessions Made the United States and Declares They Will Entail Great Industrial Sacrifices.

WOULD BAR US FROM THE MARTS.

Washington, Aug. 2.—The agents of the agricultural department in Germany report increased activity on the part of agitators in exerting influence to curtail to the minimum the importation of American food products. These reports represent that a greater effort than ever before will be made to secure from the reichstag a statute providing for an inspection by agents of the German government of all American products which shall be so strict as to entirely ignore the certificates of the American inspection. The agitation is conducted principally by the Agrarian party, and it is stated that the press is being used to an unwonted extent to create public sentiment adverse to all American food articles.

Especial attention is given to beef, and use is made of the testimony before the war investigating committee and the beef court of inquiry. The agitation in itself has had the effect of reducing the German consumption of our meat products, but the officials here are not especially apprehensive of legislation.

ONE-SIDED RECIPROCITY.

Paris, Aug. 2.—The Republique Francaise today renews its attack on the Franco-American treaty, declaring the reductions obtained on French products are insignificant, while France, it adds, has granted considerable concessions entailing large industrial sacrifices, especially, for example, on machinery, in which nowadays America displays great superiority.

REVOLUTION ON THE TAPIS. GRAVE POLITICAL SITUATION IN HAYTI—NUMEROUS ARRESTS.

Port au Prince, Hayti, Aug. 2.—The political situation is causing anxiety. There have been numerous arrests, among them M. Doublin, a former minister of the interior, and M. Duviver, a newspaper man. Duviver was later released on the demand of United States Consul Powell and took refuge in the consulate. Later—the authorities continue to make arrests. Besides the persons before reported as having been taken into custody is M. Fouchard, formerly minister of finance. Many refugees have sought protection at the American legation, among them M. Menos, for some time minister of foreign affairs. The situation is grave.

Washington, Aug. 2.—The state department fully approves of the action taken by United States Minister Powell at Port au Prince, in enforcing respect for the sanctity of the United States legation. The point now involved is the breach of propriety shown in making arrests within the legation premises, not the propriety of granting asylum.

It was announced earlier today that the United States and Hayti have agreed to arbitrate the claims of American citizens for alleged indignities and losses suffered in Hayti. The arbitration is a novel one, in that Hayti trusts all her interests to the arbitrator chosen by the United States, who will be Judge Day, late secretary of state.

TRANQUIL IN SAN DOMINGO. Santo Domingo, Aug. 2.—The two assassins of President Heurieux have been captured and shot. The country is entirely quiet.

Commander L. C. Logan, commanding the United States gunboat Machias, now in these waters, has been officially received by President Figueroa.

Fort de France, Island of Martinique, Aug. 2.—Latest advices from Santo Domingo are that, in conformity with the constitution of the Dominican republic, General Figueroa today took the oath of office before congress. His term will expire Feb. 21, 1901.

Washington, Aug. 2.—The commander of the gunboat Machias reports all quiet in San Domingo, and no indications of trouble growing out of the assassination of the president.

BATTLE FOUGHT IN CEBU. BAND OF FILIPINOS CHASED FROM THEIR TRENCHES.

Manila, Aug. 2.—Mail advices from the island of Cebu announce that a company of Americans last week attacked the Filipino trenches two miles from the town of El Parde. The rebels were commanded by the brothers Climac, prominent and wealthy persons. The cruiser Charlestown shelled the enemy and the Filipinos retreated. The American casualties were slight.

RECRUITS SAIL FOR MANILA. San Francisco, Aug. 2.—The transport Indiana sailed for Manila today with about eight hundred recruits, and the hospital ship Relief arrived with 329 sick and disabled soldiers from the Philippines. They were brought ashore and taken to the hospital. There were two deaths on the voyage.

The docking of the transport Senator today was unaccompanied by any demonstration out of regard for the death of Colonel Hawkins, a hero of two wars, and commander of the Pennsylvania regiment. A detachment of soldiers carried

(Continued on Page Four)

The doctor looked wise and said it was "nervous indigestion." But he didn't cure it. So Mr. Thos. G. Lever, of Lever, S. C., wrote to Dr. Pierce, of Buffalo, N. Y. And now Mr. Lever is well. Dr. R. V. Pierce is and for thirty years has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo. During this time he has probably treated more cases of chronic, or lingering, diseases than any other physician in the world.

Invalids from all over the world write to him and receive advice free of charge. During the early years of his practice Dr. Pierce compounded his "Golden Medical Discovery" which he has used ever since in treating all affections of the lungs and bronchial tubes; for purifying the blood; for toning up the nerves and whenever an honest reliable non-alcoholic tonic was needed. In connection with it, he prescribes what other special medicine may be required in exceptional cases and gives directions as to diet and hygiene.

The result is health. Mr. Lever writes: "I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no avail. I thought myself incurable as I suffered so much with pain under my ribs and an empty feeling in my stomach. I was getting very nervous and suffered a great deal mentally, thinking that death would soon claim me. I was irritable and impatient and greatly reduced in flesh. I could scarcely eat anything that would not produce a bad feeling in my stomach. I wrote Dr. Pierce. He prescribed his 'Golden Medical Discovery' and 'Pelle's' and gave me some simple hygienic rules. I am well again. I believe the 'Golden Medical Discovery' and 'Pelle's' will cure any case of indigestion, torpid liver, or chronic cold."

SOURCES OF OUR PROSPERITY.

The voice of the calamity howler is no longer heard in the land. That the country is enjoying a wonderful prosperity is not denied. The evidences of this are too abundant and general to leave room for contention on that point. But there are many who are honestly apprehensive that the industrial and commercial activity now prevailing will soon again be succeeded by stagnation—that the fat years will be followed by lean ones, as has happened in the past with a certain regularity.

It is not unlikely that the future has in store for us periods of trade depression, but we see no reason for anticipating an early reaction from the prosperity the country is now enjoying. It springs from many causes that are reasonably sure to continue in vigorous operation for a long term of years. The fact is, this nation is just beginning to get in position to obtain the full benefit from the harmonious development of its manifold resources, and in our belief the prosperity that has come to it within the past two years is but a precursor of what it will experience for a long term of years to follow.

Formerly our chief resource was our agriculture. We were raisers of grain and meat and cotton for the world, and balanced the account by taking in return for our exports of these manufactured articles in endless variety produced in countries across the sea. While these conditions continued we remained poor, for we were drawing on our soil for products which were exchanged for those of foreign factories and workshops, and in the exchange of commodities into which but little skilled labor entered for those produced entirely by that class of labor we got much the worst of it. Only in recent years have our manufactures been anywhere near sufficient for our own needs. The important feature of the economic condition now existing in this country is the development of mining and manufacturing to a point sufficient not only for our own needs but enabling us to become competitors with the older nations in the markets of the world. The sources of our prosperity have been trebled, therefore, and this gives good assurance of its greater stability.

Our manufacturing and mining industries, combined with our agricultural resources, give us a trinity of forces making for prosperity which cannot fail to ensure its permanence, for they supply the essentials for a complete and independent nation. We have taken a rating different and higher, already than any other nation, simply because, if we were fenced in by our boundaries and could not pass them, could send no goods abroad and bring in none from other countries, we could still thrive and prosper exceedingly, while no European nation could long continue if her boundaries were to limit her people, her products and her supplies. We are, however, with the great seas of the world washing our shores, open to trade with all the world, to buy and to sell. For our great cities located on the coast, which give facilities for international commerce such as could only be paralleled by combined Europe, we have, in the interior behind those cities, natural resources upon which have been developed mining and manufacturing industries whose surplus output can very nearly rival those of combined Europe and will, in time to come, exceed the output of the rest of the world.

While our mineral resources are beyond calculation their development has only begun. The present output can be multiplied over and over, in future years, as deposits are opened up. But in 1898 the total value of mineral production was \$709,816,750, against \$648,804,899 in 1897, according to figures gathered by the Mining & Engineering Journal, while for 1899 there will be a proportionate increase. This included nearly 53 million tons of bituminous coal, nearly 21 million tons of iron ores, about 52 million barrels of petroleum, nearly 19 million barrels of salt, over 8 million barrels of natural hydraulic cement, and 3 1/2 million barrels of Portland, 5 1/2 million long tons of limestone for flux, \$32,000,000 worth of building stone, while in metals we turned out 11,560,165 tons of pig iron, 535,900,232 pounds of copper, 58,763,127 ounces of silver and a proportionate share of metals used in the arts.

The figures of our manufacturers are not to hand, but their growth in volume is indicated by exports, our home consumption undoubtedly more than keeping pace with it, as on all hands exports are restricted by home demands. According to treasury reports for the fiscal year ended June 30, 1899, 28.15 per cent of our total exports were of manufactures, against 24.12 per cent. for the preceding year, these being valued at \$238,667,794, a gain of about 48 million dollars. Cotton cloths gained over 5 1/2 millions, agricultural implements nearly 5 millions, chemicals 1 1/2 millions, leather and leather goods over 2 millions, tobacco nearly 4 millions, fertilizers 2 1/2 millions, iron and steel over 23 millions, cotton goods, other than cloths, about 6 1/2 millions; copper nearly 3 millions, coal about 2 millions, lumber over 4 millions. It is the figures that cover our mining

and manufacturing trades, domestic and foreign, that will hereafter best measure our growth and prosperity. Already we are the foremost agricultural, mining and manufacturing nation of the world, but our mining and manufacturing interests are only in their beginning. The world requires food in proportion to population. But there is no fixed limit of physical appetite in the use of the products of the mines and the factories. A man can eat so much bread and meat and no more. But of increased wealth in dwelling and furnishing, in clothes and adornment, his limit is only fixed by two things—his desires and the means to gratifying them which he has at command.

Three bishops of the church of England have united in a decision adverse to the use of incense and lights in any of the services of that church, though they do not declare positively against it. This is a blow at ritualism, but hardly severe enough to be effective. The Boston Traveler obtained the opinion on the decision and the effect it is likely to have from an Episcopalian clergyman of that city, Father Convers of the church of St. John the Evangelist, who made this comment on it:

It will have no weight with the church in this country, or in any other country. The statement as given out by the English bishops is the opinion of three men. It has no legal weight as regards ritualistic services in the church of England. The decision is not given by a legally constituted court, and can, therefore, be of very little value. It is a matter that cannot be settled by three men. We all admit that the opinions of three as high ecclesiastical authorities as the bishops of England are usually valuable. But in this case the opinions are of little or no value. The decision may have a moral effect on the church in England. As regards this country the decision has no connection whatever. We will go on as we have always been doing. The public will understand that it is not the decree of a regularly constituted ecclesiastical court. It is just like the president of the United States giving his opinion on a point of law. His opinion might be of great value and a thesis of law, but it would have no bearing whatever on the decision of the case.

General Alger's statement bearing on certain of his acts as secretary of war during the conflict between this country and Spain, in reply to criticisms of these published in the newspapers, is a temperate and dignified paper. He defends himself fully, but without showing heat or bitter resentment. Those who expected that the retiring secretary would signalize his withdrawal from the cabinet by giving a statement to the public covering his record as war secretary in which the president would be given a dose of "hot stuff" will find the document disappointing, but it will please General Alger's true friends, who would regret to see him even momentarily forget the dignity with which he has borne himself since he tendered his resignation to the president in response to the wish that we would do so conveyed by the latter to him through several intermediaries.

The agricultural experiment station for the upper peninsula should be located solely with reference to having it accomplish something valuable for development of the agricultural resources of this part of the state. Our best agricultural lands do not lie on the shores of either Lake Superior or Green Bay. The station ought to be located at an inland point where the conditions of soil and climate are about what they average in those portions of the peninsula where the body of lands available for farming lie. Beauty of scenery and similar considerations should not count in determining where it will go. The experiment station is to be established for a prosaic purpose, and picturesqueness of environment will not aid it in the work for which it is designed.

Since the military power of the state of Ohio was employed to stop rioting at Cleveland the street car employees who went out on a strike have abstained from stoning and blowing up cars loaded with passengers. They are now trying to enforce a boycott of the street car lines, to which there is no objection to be raised. If they can hurt the companies operating street railways in Cleveland in that way it is their privilege to do so, and innocent people will not be harmed. Besides the boycott will not last long. The strikers settled it that their strike would result in failure when they resorted to ruffianism in the vain hope of making it effective.

The Hague conference will not result in a general disarmament by the great powers but it will have effect to somewhat lessen the chances of having nations get to fighting about trivial disagreements in the future, which is a point gained for civilization. The principle of arbitration of international disputes before resorting to war is gaining increased recognition, and with its enlarged application must come a diminution of warfare. The Hague conference will be found not to have been held in vain if the signatory powers faithfully abide by the agreements reached there.

Every guest at the Alma Sanitarium, Alma, Mich., is cared for by experienced physicians. Its mineral water baths are famous. Book free. (5-4-3no)

THE IMPORTANCE OF THE

CENTURY DICTIONARY AND

CYCLOPEDIA

Is shown by its USE and ENDORSEMENT By the MOST SUCCESSFUL MEN of the Country.

If a person who intended to buy a typewriter was offered some new make, he would naturally want to know who else used it. If he found that the United States government had adopted it, and that business houses like Marshall Field & Co., Montgomery, Ward & Co., and Wanamaker were also using it, he would at once know that it was a superior machine—and would buy it. And exactly the same is true of reference works. Among these the Century Dictionary and Cyclopaedia stands at the top. It is now used in preference to all other works of reference by the foremost men of this generation. It is an entirely new work, and is the only one that is perfectly adapted for present day needs. It has, therefore, been adopted by those persons and institutions on whose approval, public opinion depends. In educational institutions and in the law courts it is the highest authority. When President McKinley subscribed for his set he bought it because it would give him the authoritative information required by a man who is to preside over the greatest nation of the earth. Every up-to-date professional or business man should use The Century, and the person who is without it is handicapped, for the possession of The Century amounts to capital and brains. By special newspaper courtesy, readers of The Mining Journal may obtain the number of sets of The Century which constitute The Sentinel's allotment for the northern peninsula. When this co-operative movement was first introduced, a number of appreciative persons embraced the opportunity of wholesale price and easy terms, and this is the final opportunity. The Sentinel

especially invites readers of The Mining Journal to investigate the offer. Century bargain hunters are numerous—and the sets will not hold out long.

The Century. The Century is the most comprehensive encyclopedia, for it contains 150,000 encyclopaedia articles at least 50,000 more than any other work contains. It is also the best dictionary and most complete atlas. It contains 50,000 definitions (no other work approaches this number); 300,000 quotations (eight times as many as any other); and 8,000 illustrations (far more beautiful and numerous than any other). The atlas feature of the work consists of 300 beautiful maps, and of a gazetteer of domestic and foreign cities, towns, rivers, places, etc., containing almost 200,000 entries (no other atlas has within 500,000 of this number).

The Reason Why. And this is the reason why the Milwaukee Sentinel, when it decided to distribute a reference work among its friends, choose The Century. It found that the best people throughout the English-speaking race were using the publication to the almost total exclusion of all others. The Sentinel secured the work for its friends at a special price, and on terms that bring it within the reach of the most modest purse.

OUR GREAT OFFER IS LIMITED.

The Sentinel offers any person who sees this announcement an opportunity to obtain a complete set of the finally completed 10-volume edition of The Century Dictionary and Cyclopaedia at a special wholesale price, and on easy monthly payments. The complete set will be delivered on receipt of the first payment, so that a purchaser has the use of his set while paying for it. We are able to make this splendid offer—the most important that has ever been made by the Milwaukee Sentinel or any other newspaper—through an introductory arrangement with the publishers. We are banding together a limited

number of persons in a co-operative club, each of whom secures his set at the same rate as if he paid spot cash for one thousand sets at one time. In addition, each member of the club may pay for the work in small monthly payments. Those who desire to investigate this offer should fill in the adjoining Information Request and mail it to The Mining Journal, Marquette. On receipt full information regarding the club and its privileges will be furnished. As the number of sets to be distributed in the northern peninsula is necessarily limited, it is important that investigation should be made immediately.

Form for requesting information: Cut this out and mail it. The Mining Journal, Marquette: Please have sent to the address below sample pages, specimen illustrations and full particulars concerning the upper peninsula allotment of The Century Dictionary and Cyclopaedia, according to your agreement with the Milwaukee Sentinel. PUBLIC PARK FOR HOUGHTON. JOSEPH RUELLE WAS DROWNED.

MOVEMENT FOR A WORTHY PURPOSE HAS BEEN STARTED. BODY OF THE MISSING BOY FOUND IN PORTAGE LAKE.

The public spiritedness of some of Houghton's leading citizens was again in evidence yesterday morning, when a movement was started to secure the Rice estate property, located east of and adjoining the Sheldon homestead, for a public park. The necessity of a park has been manifest for some time, and much attention has been devoted to the finding of a suitable location. A more desirable spot could not be had for the purpose, and the price—\$11,000—is confessedly reasonable, it being understood this figure is made only with the understanding that the property is for the village and for park purposes. It is now in order for those who take pride in the advancement of the village to show their appreciation of this deserving movement by aiding in every manner in the securing of the property. Already several liberal contributions have been made, and within an hour yesterday \$2,000 had been subscribed. Houghton is the only town in the county that is without a public park, while some of its neighbors have several. Hancock secured a park site a few years ago which has since been improved and is now an ornament to the village. It is scarcely expected that the above figure for any extended period, and while benefit arrangements are constantly being arranged for various purposes, there could be no better opportunity than this for the people to do something the benefit of which would be shared by every resident during the life of the village.

At the time of the discovery Mr. Ruelle was searching the shore, and it was some little time before he was apprised of the fact. Though realizing that the worst had happened, Mr. Ruelle was relieved of the terrible strain to which he had been subjected during the past six days. It has been a severe trial for him, and that the little boy's remains have been recovered is a matter of deep consolation. In the boy's hand when taken from the lake was a fish line, and it now develops that several boys saw him fishing from the corner of Hennes' dock, while one of them also states that he intended fishing from the railroad trestle immediately west of this point. The body bore no mark or injuries. Arrangements for the funeral had not been completed at this writing.

It is not likely that the new Franklin stamp mill will go into commission until the middle of next week. Superintendent Chynoweth has placed orders for two thirty-five-drill compressors, one each for the Centennial and Elm River. At the Centennial work will commence on the compressor building at an early date. The new shaft and rockhouse at No. 4 shaft at the Arcadian will be ready for service about Sept. 1, while the foundation for the rockhouse at No. 1 shaft is under way. The big permanent hoist for No. 2 shaft is expected to arrive in about two weeks. Mine Inspector Josiah Hall and Superintendent J. D. Hosking of the Franklin returned a few days ago from a visit to the mines of Ontonagon. Mr. Hall has always been a firm believer in the Michigan, and was especially pleased at the outlook at this property. Subscribers to Phoenix Consolidated stock have received notice from Secretary J. Wheeler Hartley that the American Loan & Trust company, 53 State street, Boston, is prepared to issue certificates of stock in the name of the subscribers only upon the surrender of the receipts given by Cameron Currie & Co. of Detroit, financial agents.

Again comes the information, notwithstanding the strong position of copper, that the visible supply abroad has again increased, this time the amount being 4,504 tons greater than that of two weeks ago. It is no wonder that no attention is paid to this semi-monthly report of the foreign stocks, as all advices show the demand for the metal the past two weeks as being in excess of any similar period for the year. During the winter of 1897 there were fully 17,000 tons of refined copper stored on the local docks awaiting the advantages in freight rates by lake, but in estimating the copper supplies this item, which represents one-half of the amount of copper abroad, was never referred to. At present there is practically no copper at the local furnaces, nor has there been any for nearly a year, as it is shipped East as fast as smelted and orders are continually at hand for all the copper that the mines can produce; in fact, there is a decided scarcity of Lake brands. The manipulation of the visible supply of copper has become rank, and the bi-monthly report apparently has no significance.

OLD HOTEL TO COME DOWN.

DOUGLASS HOUSE PROJECT IS RADICALLY CHANGED.

At the last moment, and as the owners were about to advertise for bids for the construction of the new Douglass House at Houghton, it has been decided to abandon the original location of the building and, instead, to tear down the old landmark and erect the new structure upon its site. The company has also decided to purchase the Hodgson & Hoar block, which will also be torn down. This will give the owners of the hotel project a frontage of 150 feet on Sheldon street and a depth of 200 feet. This change, with others contemplated, will give the new hotel the most attractive site of any on the peninsula, and will afford all the room that any future enlargements may require. With the new arrangement the present delightful view of the scenery north of Portage lake will be protected, and the quarters will not have the cramped appearance that would have resulted from the erection of a four-story building on the frontage of the property. New plans will be prepared immediately, and once work is started it will be continued night and day until the structure is under cover.

BADLY INJURED IN CHICAGO.

MRS. E. M. HOAR OF HOUGHTON THE VICTIM OF AN ACCIDENT.

Mrs. E. M. Hoar of Houghton, mother of Mrs. Gage Gilbert, met with quite a serious accident Sunday in Chicago, which is thus described in the Record of Monday:

"In Michigan avenue, in front of the Art Institute, at 5 o'clock yesterday afternoon several people were injured by a collision. Mr. and Mrs. E. G. Gilbert, of 5,823 Madison avenue, and Mrs. E. M. Hoar of Houghton were the occupants of a trap, which ran into a buggy, overturning both vehicles and demolishing the buggy. Mrs. Hoar was carried into the livery stable of R. Evans & Son, 117 Michigan avenue. Dr. J. D. Hammond, the house physician of the Leland Hotel, was summoned and found she had an arm broken and was suffering from internal injuries. She was taken to the Leland Hotel, where Mr. and Mrs. Gilbert are also registered. The occupants of the buggy were Mrs. Mary Stepanak and a party of children, all of whom were bruised and badly frightened. Mr. Gilbert, the driver of the trap, is a civil engineer."

BAD SALOON ROW AT ALLOUEZ.

Keweenaw is awaking in more ways than one, and it looks as though a revival in court matters is in sight. A saloon fight of unusual proportions, followed by serious results, occurred at Allouez Saturday night and Friday. Gen. Allen, the proprietor, is being held pending the question of the recovery of one of the participants, a man named John Kingstrom, who came up from the "Point" in the evening. It would appear that nearly every one in the saloon was drunk. Kingstrom is accused of having opened fire first by throwing a bottle at one of the party. First they mopped the floor with him, and then it was under tables and over chairs until there was not much left but rags and bones. The man received a cut across the face and under the chin, and the attending physician considers his condition critical.

LABOR STILL VERY SCARCE.

The number of people of the working class that are coming into this county daily is but little short of phenomenal. Every steamer lands a large party, and the three trains arriving every day from the outer world are always well filled. Calumet seems to be the destination of most of those coming in, and notwithstanding the continuous arrivals there is still an actual scarcity of labor which promises to continue until winter sets in. At Calumet or Lake Linden there is scarcely an idle workman. Those too strong to work seem to prefer to loiter in the vicinity of Portage Lake. Don't Tobacco Spit and Smoke Your Life Away. To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50¢ or \$1. Cure guaranteed. Booklet and sample free. Address: Sterling Remedy Co., Chicago or New York.

Burdock Blood Bitters gives a man a clear head, an active brain, a strong, vigorous body—makes him fit for the battle of life.

that at Lake Linden by Thomas Harris. These gentlemen have all been identified with the agency just dissolved, and the dissolution was simply to divide the territory.

MARE WITH A FALSE TAIL.

Her Owner, a San Francisco Milkman, Has Given Her a Good, Bushy Switch.

It is not given alone to woman, who would make herself more beautiful with abundant tresses, to rest while her back hair hangs on the door knob. On the contrary, there is a petted sorrel mare in this city which is bedded down carefully every night by Morris P. Sweet, a dairyman of No. 1615 Folsom street, while her switch, or rather her tail, hangs up with the harness. Her present owner has had her for several years, and so deftly has he dressed "Kittie's" back hair that he has driven her over all the streets of San Francisco without attracting attention until she fell under the lynx eyes of Matthew McCurrie, assistant secretary of the Society for the Prevention of Cruelty to Animals. With his attention turned all ways at all times, McCurrie noticed what he supposed to be harness sewed to the hide of the poor brute. Upon investigation he was sorry that there was not a special reward of merit for the man who had, at infinite pains, provided a good, bushy switch that this poor brute might be adequately armed against the common enemy. After Sweet bought the horse with the sad-looking stump where a tail should have been he made several trips to the boneyard before he managed to get a sorrel tail of just the proper hue. To it he had enough hide attached to reach the crupper straps. When it was new there was hide enough to lace well around the stump, but it has since been tanned and shrunken by the wind and weather until now a bit of scrutiny shows some of the lacing at the sides. From a utilitarian standpoint the tail is quite as useful as if every hair of it was rooted to the stump. "Kittie" holds her head proudly, and her limbs are as slender as those of the finest thoroughbred. She was born and bred an aristocrat. She was docked in accordance with the standard in society horsemanship, and that is the reason that to-day she runs in a milk wagon, a victim to fashion and wears false hair.—San Francisco Chronicle.

A Ruler's Perils.

It is estimated that the world has had 2,550 kings or emperors of whom records are known, and who have reigned over 74 peoples. Of these rulers 300 were overthrown, 64 were forced to abdicate, 28 committed suicide, 23 became mad or imbecile, 100 were killed in battle, 123 were captured by the enemy, 25 were tortured to death, 151 were assassinated, and 108 were executed.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—pleasant for ten cents. All druggists, satisfaction guaranteed, 10¢, 25¢, 50¢.

Where Dr. Fowler's Extract of Wild Strawberry is kept handy.

Nature's remedy for every looseness of the bowels. Eczema, scald head, hives, itches of the skin of any sort instantly relieved, permanently cured. Doan's Ointment. At any drug store.

BEAUTIFUL BUILDING LOTS FOR SALE CHEAP.

A plat of the prettiest residence lots in Houghton county is now in the hands of Attorney R. T. Looney, and may be seen at his office in the Hartmann block, Houghton. The property is known as "Highland Place—Hubbell's Addition to the Village of Houghton." The streets are graded and Huron spring water is accessible. The location is near the Michigan College of Mines and is the most beautiful spot in the village of Houghton. Lots are selling at \$250, \$350 and \$400 and may be purchased on time. A better investment could not be made than the purchase of a lot. (7-25-1m)

Edocate Your Bowels With Cascarets.

Candy Cathartic, cure constipation forever. 10¢, 25¢. If C. C. fail, druggists refund money.

WARNING.

We warn the trade that certain unprincipled salesmen try to sell an imitation of our famous FOUR HUNDRED BALTIC RYE, holding out as an inducement to the customer large profits for him to deceive the public. Kick these vultures of trade out, as their goods, like themselves, are vile. They only get you into trouble, as we will protect the public from this base fraud and our FAMOUS BRAND AT ANY COST. Crown Distilling company.

STRIKE ON THE GRAND TRUNK.

Machinists at Port Huron Quit Because of the Employment of a Non-Union Man.

TROUBLE TO SPREAD OVER THE ENTIRE SYSTEM.

CLEVELAND BOYCOTTERS MAY BE TAKEN INTO COURT.

Held They Can Be Prosecuted Under the Anti-Trust Law, Which Covers Conspiracies of All Kinds in Restraint of Trade.

NOTED IN THE LABOR WORLD.

Fort Huron, Mich., Aug. 2.—The machinists of the Grand Trunk shops here struck today. Yesterday J. C. Gehering, the foreman, set a non-union man to work. The machinists notified him that unless the new man was removed they would strike, but he was put to work again today. Every branch of the International Machinists' association and the Amalgamated Association of Engineers which has men in the employ of the Grand Trunk was notified, and the strike will extend today over the entire system. Two hundred and fifty men are out here.

CAR DYNAMITER JAILED.

Cleveland, O., Aug. 2.—The police detailed on the attempts to blow up Big Consolidated cars believe they have made an important arrest in taking John Schoenthat, a striking conductor. He admits that he had tried to purchase dynamite, but says he did it at the request of another man whose name he does not know. Schoenthat had been employed by the company about four years.

Good lawyers say the boycotters may be prosecuted against under the Ohio anti-trust law, which covers conspiracies of all kinds in restraint of trade.

LUMBERMEN GET AN INCREASE.

Cloquet, Minn., Aug. 2.—The wages of the employees of the Northern and the Cloquet Lumber companies were raised 10 per cent yesterday on all classes of all labor. The early train took out more than a score of laborers, and the mill crews are so badly broken up that in some cases it is almost impossible to keep up operations.

MINERS' BOARD MEETS.

Indianapolis, Aug. 2.—There was a meeting today of the executive board of the United Mine Workers of America, representing all the mining districts of the United States and having within its jurisdiction over seventy-five thousand union miners.

HANSON KEEPS UP THE GAIT.

900 MILES IN 82 HOURS AND AWAY AHEAD OF THE RECORD.

Minneapolis, Aug. 2.—Bicyclist Hanson finished his 900 miles at 4:53 p. m. today and then took a rest until 6 o'clock, when he started the last century of the thousand-mile ride. He is in prime condition. He rode the 900 miles in eighty-two hours and eighteen minutes, and will try to complete the thousand miles tonight. He has nearly twenty-four hours in which to finish and be within the record. Hanson says he will ride twenty miles extra so there can be no question about the distance.

TO TESTIFY FOR DYEFYUS.

ARRAY OF ARMY OFFICERS AND OTHERS HAS BEEN SUMMONED.

Rennes, Aug. 2.—The witnesses summoned in behalf of Dreyfus include Captain Lebaron Redaunt, to whom the prisoner is alleged to have made a confession, which has since been denied; Senator Scheurer-Kestner, formerly vice president of the senate; M. Trarieux, formerly minister of justice; M. Bourgeois, formerly premier and minister of the interior; Major Hartman, of the Twenty-second artillery; Captain Freystaetter; Major Forzineti and others.

HEAVY GRAIN RECEIPTS.

FIGURES FOR DULUTH THIS YEAR LARGEST IN CITY'S HISTORY.

Minneapolis, Aug. 2.—A Duluth (Minn.) special dispatch this afternoon states that "the grain receipts here in the crop year have been the largest in the history of Duluth. The total wheat receipts were \$9,131,781 bushels and the shipments \$8,967,090. For the preceding crop year the wheat receipts were 34,000,000 bushels less than this year, and the other grains also less."

BIG GLASS PLANT FOR TOLEDO.

EASTERN CAPITAL IN A DEAL TO FIGHT THE TRUST.

Toledo, O., Aug. 2.—One of the largest window glass plants in the country is planned for this place. It is understood it will be used in connection with the Ford plants in fighting the glass trust. There is to be Eastern capital back of the enterprise.

DECIDE ON HIGHER PRICES.

Chicago, Aug. 2.—The hay raker manufacturers of the middle Western states decided today to advance the prices of rakes because of the recent advance in the prices of iron and steel. The amount

of the advance was not definitely determined.

Appleton, Wis., Aug. 2.—The big sulphite plant of the Manufacturing Investment company has gone into the possession of the Interlake Pulp & Paper company, recently organized in New York.

NEW COPPER COMPANY.

Trenton, N. J., Aug. 2.—The Armer Consolidated Copper company, with an authorized capital stock of five millions, was incorporated here today for the purpose of operating mines in Arizona and New Mexico.

DYEA BARRACKS BURNED.

COSTLY INCENDIARY FIRE IN THE ALASKAN TOWN.

Seattle, Wash., Aug. 2.—The steamer Humboldt, from Alaska, brings news today of the destruction of the barracks at Dyea. Besides the buildings, about \$5,000 worth of stores were consumed. It is asserted the fire was incendiary. News also is received of the wreck of the Yukon river steamer Anglian at Five Finger rapids.

BASEBALL SCORES.

Table with columns for National League and Western League, listing teams, runs, hits, and errors.

Chicago, Aug. 2.—Manager Burns, of the Chicago ball team, has traded Demontreville for Magroon, shortstop of the Orioles. He has also purchased Pitcher Fred Klobedanz, of the Hartford team.

SAD HAVOC BY STORM.

Oconto, Wis., Aug. 2.—A severe wind and lightning storm visited Couillardville and Mays Corners today, destroying much property. A number of water spouts were noticed.

New York, Aug. 2.—A tornado with a velocity of eighty miles passed through Elizabeth, N. J., this afternoon, doing damage conservatively estimated at \$85,000.

Tallahassee, Fla., Aug. 2.—A terrific wind and rain storm passed through this section during yesterday and last night. The wires are down south of here and the railroad service to Gulf ports is suspended. The storm came directly up from the gulf and started northward.

OPENS DOORS FOR RE-TRIALS.

San Francisco, Aug. 2.—In view of the decision of the supreme court granting Hoff, murderer of Mrs. P. A. Clute, a new trial on the ground of an improper charge by the judge to the jury, the police are worried lest Mrs. Botkin may secure a new trial for the murder of Mrs. John P. Dunning of Dover, Del., on the same ground. It is alleged that in both cases the judge delivered practically the same charge used in the Durant case.

ITALIAN FLEET MAY COME.

Washington, Aug. 2.—There is some prospect that an Italian fleet may visit American waters next month. A movement to that end has been on foot of late among prominent Italians of New York, the purpose being to have the fleet here on Sept. 18, when Italy celebrates her national holiday. It is thought the sailing north of the Italian fleet at Buenos Ayres is the result of the movement.

RECEIVED BY M'KINLEY.

Plattsburg, N. Y., Aug. 2.—President McKinley received the officers of the Twenty-sixth regiment today. This is the regiment being recruited at the Plattsburg barracks.

The president took several walks this morning, but a thunderstorm this afternoon kept him in doors, and he spent most of the time with Mrs. McKinley.

BACK FROM ALASKA.

Northfield, Minn., Aug. 2.—Serenio E. Payne, chairman of the ways and means committee of congress and a member of the joint high Anglo-American commission, and Mrs. Payne and W. J. Payne of New York have just returned from an extended trip to Alaska, the Pacific coast, the Yellowstone park and other points of interest.

FOR TENNIS CHAMPIONSHIP.

Southampton, N. Y., Aug. 2.—In the first round of the championship singles at the Meadow Club lawn tennis tournament today W. A. Larned was defeated by James D. Bell of Columbia college.

TODAY'S WEATHER.

Washington, Aug. 2.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Thursday; probably thunderstorms Friday; variable winds, mostly easterly.

WAR IN GERMANY ON YANKEE FOOD.

(Continued from Page One.)

ROAD DESTROYED BY NATIVES.

ELECTRIC RAILWAY COMPANY IN HARD LINES IN KOREA.

Toledo, Aug. 2.—The United States minister to Korea, Dr. V. H. Allen, who is in Toledo after sixteen years' service in the East, has some late advices from the Orient in which he is informed of considerable difficulty in regard to the operating of the electric railway built in Korea. The difficulty arose over the killing of a child by one of the motormen of the road and ended in nearly all the property of the company being destroyed. The minister states that the natives are very friendly to the Americans, and that the future trade relations are going to be largely with this country, rather than Europe. Dr. Allen will go to Lake Champlain to see the president after he has reported at Washington.

OLD WORLD NEWS NOTES.

MISCELLANEOUS GOSSIP FROM COUNTRIES ACROSS THE POND.

Brussels, Aug. 2.—William C. Lovering, a member of the United States house of representatives from Massachusetts, was robbed last Saturday on his way from Ostend to this city of \$13,000.

Paris, Aug. 2.—A storm of great violence swept over the commune of Banon, in the department of Basses-Alpes, yesterday. Roads were washed out, bridges swept away, flocks drowned and farm crops ruined.

London, Aug. 2.—The Pall Mall Gazette this afternoon says it learns that Great Britain is about to surrender to China the town of San Chun, which was occupied by the British May 16 during the Kow-Loon disturbances.

Paris, Aug. 2.—M. Malet-Prevost, secretary of the Anglo-Venezuelan boundary arbitration commission, in the presentation of the Venezuelan case today, devoted his argument to showing that up to 1814 Spain had effective control of the coast, from Orinoco to Essequibo.

Christiana, Aug. 2.—Premier Steen opened the inter-parliamentary peace conference today with a speech in which he claimed that The Hague conference was partly the fruit of the work of the inter-parliamentary conference. John Lund was elected president of the conference.

London, Aug. 2.—The admiralty court today awarded £2625 to eight tugs and five other vessels for towing off the French steamer Admiral Aube, which went ashore and sank in the quicksands near Harwich last January while bound from Hamburg for Santa Rosalia, Lower California.

London, Aug. 2.—The Rottingden plate of 200 sovereigns was won at Brighton today by Lord William Bessford's Blacksmith, with "Skeets" Martin, the American jockey, in the saddle. L. Reiff, another American jockey, finished second on Croker's Salina. Four horses ran.

London, Aug. 2.—Wm. Waldorf Astor declines to see any one regarding his nationalization as a British subject, but has authorized his agents to say that he considers the matter purely personal, has no explanations to offer and is quite prepared for the attacks of the American newspapers.

London, Aug. 2.—The British ambassador to the United States, Sir Julian Pauncefote, who has been acting as head of the British delegation at the peace conference at The Hague, has arrived in London. He was congratulated by the officials of the foreign office on his elevation to the peerage. His title is not yet announced.

London, Aug. 2.—The Rome correspondent of The Daily Mail says the pope, through Cardinal Rampolla, has addressed a note to the nuncios abroad denouncing the attitude of the Italian government toward the holy see in connection with The Hague conference. The note says that all the governments except the Italian desired to see a papal delegate there.

London, Aug. 2.—During the debate in the house of commons tonight Joseph Chamberlain, colonial secretary, said in regard to the government of the West Indies that the constitutional rights should not be further extended, in some cases it being evident that they had already gone too far and the electors did not care for their privileges. Secretary Chamberlain said he was convinced the crown and government would be guided by local public opinion.

NEW GOLD DISCOVERIES.

Revelstoke, B. C., Aug. 2.—Florence McCarthy, mayor of Revelstoke, and I. T. Brewster of this city returned yesterday from Smith Creek, in the Big Bend district, and brought gold worth thousands of dollars, most of which was secured by placer mining.

BRAINS WIFE WITH A CLUB.

Chippewa Falls, Wis., Aug. 2.—Philip Martell today in a drunken rage assaulted his wife with a club, inflicting probably fatal injuries.

OBITUARY.

Philadelphia, Aug. 2.—Joseph Alford Smith, dean of the colony of actors and actresses at Forest Home, is dead, aged eighty-six.

LYING AT DEATH'S DOOR.

Chicago, Aug. 2.—Five ounces of blood from the arm of a friend coursed through the veins of ex-Judge Richard

Prendergast today had the effect of imparting renewed strength to the patient. But the good result is not expected to be permanent, and the gravest fears are entertained for Mr. Prendergast's life.

CHICAGO GRAIN MARKETS.

Chicago, Aug. 2.—Wheat—Quiet, within 1/4 cent range, closing 1/2 cent from the top and 3/4 above yesterday. The market opened higher, on strong cables and storm damage reports; declined on more favorable weather and lack of cash demand; advanced on higher closing cables and smaller spring wheat crop estimates. Corn—Fairly active, within 1/2 cent range, closing at the top and 1/2 above yesterday. The market opened higher, with wheat, and on light receipts; advanced on a good cash demand and large clearances.

Oats—Active, within 1/2 cent range, closing at the top and 3/4 above yesterday. The rally in other grains started shorts buying. The leading grain futures ranged as follows:

Table with columns: Wheat, Dec; Corn, Dec; Highest; Lowest; Closed.

Cash Quotations. Wheat, firm; No. 2 red, 70 1/2; No. 2 Nor., on track, 70c. Corn, firm; No. 2, 31 1/2; Oats, strong; No. 2, white, not quoted; No. 3 white, new, 22c, old, 23 1/2c.

Movement of Grain. Receipts—Flour, 22,000 barrels; wheat, 80,000 bushels; corn, 675,000 bushels; oats, 145,000 bushels.

Shipments—Flour, 18,000 barrels; wheat, 26,000 bushels; corn, 273,000 bushels; oats, 367,000 bushels.

WALL STREET STOCKS.

New York, Aug. 2.—Today's stock market, like that of yesterday, had a period of strength in the morning which gave way before the day was over. The depression was due to the continued prospect of hard money. The early strength had its inception in a disposition by London to buy American stocks, notwithstanding the marking up of the money rate there.

There was a smart upward movement in some of the specialties early in the day, and Sugar went up 2 1/2. Reports of extraordinary earnings in the iron and steel industry gave a firm tone to that group of stocks, and Tennessee Coal, on a report that valuable property was about to be acquired, rose 3/4. The trunk lines were favorably affected by the going into effect of higher freight rates on grain to the seaboard. The tobacco stocks, local traction shares, General Electric, People's Gas and a few others gained from individual causes.

The higher prices brought out realizing sales, and there was a sharp break in Sugar and Brooklyn Transit, the latter declining 2 1/2 from the best. Lackawanna fell 3 1/2 points on rumors of a projected strike. The grangers were weak on bad crop news. The closing was dull and heavy and generally below last night's closing. Final figures are:

Marie, Aug. 2.-[Special]-Up-Centurion, 10:30; Venezuela, Matamoras, Law, Arabian, 1:12; Sawyer, Redfern, Tuxbury, 1:30; Wotan, Celtic, Stewart, 9; Llan, Bannockburn, Minnedosa, Dunmore, 10; Stephenson, Jenney, Whitworth, Wallula, Gould, Wawatam, 11:30; Hackett, McGregor, 12:30; Alberta, City of Toledo, 1; Torrent, Jackson, Ketchum, Perew, 2:30; Vulcan, 3:30; Bessemer, Holley, 5; Yale, Meriden, 5:30; Elphicke, Empire, 6:30.

PORT LIST.

Down-China. Arrived-Fay, Cobb, Wawatam, Peck, Paisley. Cleared-Fay, Cobb, Toledo.

LOCAL MARINE NEWS.

The China was in on her way down the lake yesterday. The steamer Peck is in with a cargo of coal for the D. S. & A. The schooner Paisley came in yesterday with a load of steel rails for the South Shore. Captain Gibson has had a new center board placed in the Criss Grover. The schooner left last night for Portage Entry, to bring down a cargo of stone.

CITY BREVITIES.

Weather forecast: Warm, with possibly thunderstorm; south wind. Yesterday's temperature: 7 a. m., 61 degrees; noon, 63 degrees; 7 p. m., 58 degrees; maximum, 64 degrees; minimum, 58 degrees. Born, yesterday, to Mr. and Mrs. Daniel Morrison, a son. Rev. Blockford of Lathrop spent yesterday visiting in town. John Garvin of Ewen was down yesterday from up the road. C. D. Danaher of Dollarville stopped off in the city yesterday. Ben Lalonde came down from Ishpeming last night to hear the concert. W. H. Hosking of Calumet was down yesterday from the copper country. William Jackson of Houghton was down from the copper country yesterday. C. F. Finselsen and E. T. Malone of Chicago are in the city looking after their quarry interests. Hans Jensen of Chicago, who has been in the city visiting relatives the past ten days, left for home last evening. License to wed was issued yesterday by County Clerk Ross to Kusti Perttinen and Amantha Pyhajaro, both of Republic. Superior hive No. 217, L. O. T. M., will serve refreshments to welcome the new members at Fraternity hall this afternoon. John Wahl, Jr., has been taken in charge by County Agent Blanchard and arrangements are being made to send him to the state school at Coldwater. James Coleman and Victor Engstrom were sent down from Ishpeming yesterday to serve ten-day sentences in the county jail for being drunk and disorderly. Members of Busy Queen hive, No. 558, are requested to meet at A. O. U. W. hall at 2:30 sharp this afternoon. In addition old members are requested to bring baskets. R. T. Looney of Houghton was down yesterday from the copper country to attend to matters connected with the prospective change of executors of the late Bishop Vertin's will. The eight days of retreat for the sisters of St. Joseph in the upper peninsula is at an end and the nuns have returned home. The sisters from the copper country left yesterday afternoon. Fred Donckers is building an ice cream parlor next to his stand on Washington street. The annex has a board floor and a canvas roof. He expects it to do a big business during tournament time. A. G. Johnston of Michigan was down on business yesterday in the probate court. The sale of real estate belonging to the estate of Alfred Dish- ney, of which he is the administrator, was adjourned till the first Tuesday in October. One of the carpenters working on the arch which was being erected yesterday at the corner of Washington and Third was burned by a brace wire which he was assisting in stringing coming in contact with a trolley wire and himself completing the circuit by getting against a telephone wire. His hands were the injured parts. His burns were not serious but painful. The members of the board of agriculture got back yesterday from Sidnaw, where they spent some little time looking over the sites offered by the residents of that enterprising village. In the afternoon they were entertained here by a drive about Presque Isle. They left on the night train for the copper country, all save T. F. Marsden of Bay City, who went on ahead at 3:05 in order to look over a site offered at Baraga.

NATURAL.

It is natural for man to be strong and vigorous, physically, mentally and morally, and nothing but natural food will make this condition possible. A food that is creating practical interest among housewives of the right sort is now being demonstrated at Arthur Delf's grocery and A. J. McDonald's grocery.

SPECIAL STOCKHOLDERS' MEET- ING.

Hancock & Calumet Railroad Company. -Certain stockholders owning more than one-fourth of the capital stock of the Hancock & Calumet Railroad company, having requested the calling of a special stockholders' meeting for the purpose of considering and acting upon a proposition heretofore made at the last annual stockholders' meeting, to lease or buy the property of said company together with all its assets, a special meeting of the stockholders will be held at the office of the President, 301 Nester block, Marquette, Mich., on Tuesday, the 5th day of September, 1899, at two o'clock in the afternoon, to consider such proposition and such other business as may properly be brought before the meeting. Marquette, Mich., July 31, 1899. A. E. MILLER, Secretary.

OMINOUS.

When Julia, Mrs. Blank's maid of all work, came to her mistress and "gave notice" because she was going to be married, Mrs. Blank said: "You know, Julia, that marriage is a pretty serious thing." "Yes'm," replied Julia, "but not gittin' married is a more seriouser thing sometimes, don't you think? Anyhow, it'll be as serious for him as it is for me, if we don't git along all right. But then, as you say, gittin' married is about the seriouserest piece of business a body can engage in, an' mebbe I am a fool an' mebbe he's a bigger one. There's no tellin'. It's a turrible solemn thing as I reckon you've found out by this time. Like enough I'll sip sorrow, but so will he, that's one comfort."-Detroit Free Press.

INDIANS AT THE POLLS.

Durant, I. T., Aug. 2.-The Choctaws are holding an election throughout the reservation today to elect members of the council and national secretary, auditor, treasurer and attorney. The candidates on the Tuskahoma party ticket are far in the lead here.

GASOLINE KILLS TWO.

Dell Rapids, S. D., Aug. 2.-A gasoline stove exploded here today while it was being filled, fatally burning Mrs. Amanda Cochran and her daughter, Miss Hawley. Mrs. Cochran is dead and Miss Hawley will die.

STRANGE DISEASE BREAKS OUT.

Sheldon, Neb., Aug. 2.-A peculiar disease has broken out among cattle in this vicinity. Cattle go suddenly blind, and the disease appears to be infectious. The malady thus far baffles the skill of veterinarians.

NICARAGUA'S CONGRESS OPENS.

Managua, Nicaragua, via Galveston, Aug. 2.-The congress of Nicaragua assembled today, Senor Gomez, president of the body, presiding.

LIGHTNING'S DEADLY WORK.

Kingston, N. Y., Aug. 2.-Lightning struck the ship yards of C. Hiltbrand at South Rondout today, killing one man and injuring twelve.

Shredded Wheat Biscuit may take the place of meat for it contains all the elements of nutrition.

Call at Arthur Delf's and A. J. McDonald's groceries and judge for yourself the merits of the Shredded Wheat.

Are you thin? Would you like to get fat and plump? Tried "laughing," 'twouldn't work, now take Rocky Mountain Tea, 'twill do the business.

NOTICE.

The Light & Power commission has arranged with Mr. Frank Penhill to sell incandescent lamps at his drug store, corner Front and Washington streets, at the following prices: 8 and 16 candlepower, 21 cents; 32 candlepower, 30 cents; 50 candlepower, 50 cents.

BATHS, BATHS, BATHS.

Turkish and Russian, salt and electric, for gentlemen; massage treatments a specialty; also chiropody. Frank Keough, masseur. St. Luke's hospital; hours, 8 a. m. to 9 p. m.

FREE OF CHARGE.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Stafford's drug store will be presented with a sample bottle of BOSCHEE'S GERMAN SYRUP, FREE OF CHARGE. Only one bottle given to one person, and none to children without order from parents. No throat or lung remedy ever had such a sale as BOSCHEE'S GERMAN SYRUP. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only throat and lung remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by all druggists in this city.

TO CLEANSE THE SYSTEM.

Effectually yet gently, when costive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispell headaches, colds, or fevers, use Syrup of Figs, made by the California Fig Syrup Company.

To Cure a Cold in One Day.

Take Warner's White Wine of Tar Syrup, the best cough remedy on earth. 25 and 50 cents.

MARQUETTE OPERA HOUSE.

OUR SCOTCH INDIANS.

Signs of the Infusion of Blood from Across the Sea in Cherokee Veins.

Cherokees come well by their stubbornness, their shrewdness and their love of controversy. As Indians they had these traits to begin with. As the result of a strong infusion of Scotch blood they added to the strength of the characteristics.

It is Scotch history that after the battle of Culloden many Scotchmen left their native land rather than accept English sovereignty. It is Cherokee history that numbers of these sturdy Scots found homes and wives with the Cherokee nation before the enforced migration of the tribe from Georgia to the Indian territory. John Ross was one of these Scotch exiles who accepted Cherokee citizenship. He became a chief, and was given the name of "Coo-is-coo-ee." When the nation moved to the territory one of the districts into which the reservation was divided for government purposes was named "Coo-is-coo-ee." Ross founded a family which became powerful in Cherokee councils. He and his son were frequent visitors to Washington and had much to do with the treaty making which gave to the nation the strong legal position it holds in its relation with the United States. A descendant of Ross, the Scotch exile, is one of the officers of the nation today.

The Adairs are another influential Cherokee clan established by a Scotchman who came over after the battle of Culloden. As the descendants of Adair by his Cherokee wife grew up they were sent away to American colleges and given the best of opportunities for education. McNair is another of the familiar Scotch names introduced into the Cherokee nation by this Scotch infusion. The McNair who came over after Culloden was a Highlander. One of his descendants lives on a magnificent estate of 1,500 acres in the beautiful valley of the Grand river. Duncan is another Scotch name found among the Cherokees. The head and front of Cherokee opposition to American citizenship would not be guessed by any physical characteristics. He is Scotch in looks and Scotch in his love of a controversy.

Hamilton Clark of Chauncey, Ga., says he suffered with itching bilis twenty years before trying DeWitt's Witch Hazel Salve, two boxes of which completely cured him. Beware of worthless and dangerous counterfeits. The Stafford Drug Company.

FOR SALE—House and lot, corner of Division and Lake streets, now occupied by E. Cronin. Apply to Cornelius Kennedy. (6-16-tf)

Ishpeming and Vicinity.

IMPROVEMENTS IN PROSPECT.

ST. JOHN'S CHURCH TO BE REPAIRED AND RENOVATED THOROUGHLY THROUGHOUT.

St. John's church, which has housed the English-speaking Catholic congregation of this city for the last thirty years, is about to be thoroughly renovated and repaired. The church will not be rebuilt, but it will be remodeled with such care that it will for all the appearance of a new structure. The parsonage will also be given some attention. Although the church is thirty years old it is still in good condition. The foundation is of heavy timbers which are as sound as they were the day they were put in. A new church would cost in the neighborhood of \$16,000, therefore the pastor in charge, Rev. J. M. Langan, has decided to have the present structure reconstructed and repaired, which can be done at a cost of \$4,000 or \$5,000.

The improvements will be comprehensive. A modern heating plant will replace the stoves which now warm both the parsonage and church. It will be ample sufficient to heat both in the coldest weather, and besides will effect a considerable saving of fuel. The building will be improved both inside and on the exterior. A new steel ceiling will be put in which will greatly improve the appearance of the church proper. The windows will be fitted with stained glass. The interior decorations will all be retouched and brightened up. The exterior will be repainted and wherever repairs are required they will be made. D. Fred Charlton of Marquette, of the firm of Charlton, Gilbert & Demar, will superintend the work. He was in the city yesterday inspecting the building. The improvements will cost for the expenditure of \$4,000 or \$5,000, and the task of raising this sum will fall on Rev. J. M. Langan and the members of the congregation.

A church fair will be relied upon to furnish a goodly share of the required amount. It will be held in September, beginning on the 18th. No pains will be spared to make it a social success, as well as a substantial money winner. The work of preparation is in the hands of the ladies of the congregation and they are already busy with the preliminaries. They have organized with Mrs. F. Labreche as president, Miss Nora Mullins, vice president, Miss Joe Flannigan, secretary and John Welch as treasurer. The soliciting is in the hands of three committees, composed of Mrs. F. Labreche and Miss Mary Crane, Mrs. J. H. Kiefer and Miss Joe Flannigan, and Mrs. D. Ryan and Miss Maggie Small. The ladies have been assigned different sections of the city and are going about their work in a systematic way.

The fair will be held in Anderson's hall. There will be the usual booths where all descriptions of merchandise and fancy goods will be sold. The amusement features will be most entertaining and provision will be made to give those who attend a good time. Rev. Langan will offer some features that will prove very attractive, such as prize trips to a couple of the big cities. A fair was never held here for a better purpose and there is no doubt but that the ladies will repeat the successes they have always had with this kind of entertainment.

MANUFACTURING BERRY BOXES.

J. Ewal, a Wisconsin manufacturer of berry boxes, has established a branch business in this city which he will run while the berry season lasts. He was engaged in the business here last year, and is an extensive manufacturer of boxes in Wisconsin. The cost of the boxes is much less when they are made near the locality where they are to be used, as the material can be shipped to a distributing point at a much less cost than the finished product. Mr. Ewal makes boxes for his own use, as he ships berries, and also supplies others in the shipping business in this locality. The branch shop has quarters in the Swedish Home building on Second street. A small force is employed which will continue at the work until the season is ended. A large amount of material is stored ready to be worked up.

EXPLORING NEAR THE HOIST.

Sam Collins, M. A. Griffin and Pat Griffin are exploring for iron on Section 15, about two miles from the hoist on Dead river and about six miles from Marquette. They have been at work there the past month. Several test pits have been sunk and a start has been made sinking a shaft. The deposit lies within a few feet of the surface. The work is being done on an option by Pat Griffin. Four men are working on the exploration under the direction of Collins. It is said that the deposit looks well and that the prospect of finding a body of ore which may prove valuable is very good. It is the intention of the holders of the option to push work until the value of the find is determined.

SOLD REMAINDER OF STOCK.

Lerand & Tislov, the furniture firm at the corner of Cleveland avenue and First street which has been gradually selling out its business, have disposed of the remainder of the stock to Johnson & Erickson, the firm of second-hand men doing business at the stand directly opposite. Johnson & Erickson intend to leave their old store and move their stock into the rooms now occupied by Lerand & Tislov, which furnish better accommodations for their business. Lerand & Tislov have been in trade here for many years and the members of the firm are well known. For the present Mr. Lerand will continue his undertaking business but in time he will also dispose of that and remove to Superior.

AT THE DEXTER.

The hitch which was the cause of the delay of a couple of weeks in starting the work of unwatering the Dexter mine in preparation for a resumption of mining operations has been satisfactorily adjusted and everything is now ready for getting the mine ready for production. Arrangements are being made to unwater the mine and the work will be under way very shortly. The Minnesota Iron company is conducting the work and it will be done under the di-

rection of D. H. Bacon, president of that concern, who was formerly agent of the Cleveland Iron company. Mr. Bacon is well known here because of his connection with the local mines.

ISHPEMING IN BRIEF.

H. R. Harris of Marquette was here yesterday. Rev. Patrick Sheehy arrived here from Calumet yesterday.

John Thoney of Marquette was about the city yesterday.

N. E. Skud is at Bessemer for a few days, looking after the firm's business.

Painters are improving the front of the Thoney block on Main street with a coat of paint.

Ernest Anderson left for Chicago last night. He has been in the city for the past few days.

C. M. Weld and H. L. Smyth of Boston are in the city inspecting the various mining properties.

Mrs. E. C. Cooley entertained yesterday afternoon in honor of Mr. Cooley's sister, Mrs. Nason of Ripon, Wis.

Alberta Adams, who has been doing professional racing here lately, has returned to her home in Minneapolis.

There will be an ice cream festival at the M. E. church Friday night. If the weather permits the affair will be held on the lawn.

The official program of the Ringlings' circus has been received. The space not filled by the program is covered with business cards of local firms.

John Bontl, a miner at the Cliffs shafts, had his foot badly crushed Tuesday afternoon. The injury was attended to at the Ishpeming hospital.

Dr. N. Meloche has bought out Meloche Brothers and will hereafter conduct Meloche's pharmacy in his own name. The real estate was included in the deal.

July is one of the lightest months of the year at the public library. Librarian Fiske reports that 889 books were drawn for home reading. The total number for the year up to date is 7,200.

A force of men was busy yesterday raising a corner of the building on First street occupied by J. Leonard Johnson, which had sagged somewhat. Jack screws were employed and the structure was successfully brought into proper position.

G. S. Bennett and wife of Detroit are in the city for about a week. Mr. Bennett is with the Evening News. He is in this section in the interest of a publication about to be issued by his paper containing biographies of the prominent men of the state.

The excursion to Presque Isle today should be a record-breaker, as the round trip fare has been placed at the extremely low price of 25 cents. This is the cheapest rate to Presque Isle that has been offered by the railroad company. The excursion is in honor of the birthday of Lady Henry Somerset, president of the W. C. T. U.

Andrew Peterson, a policeman, had an experience Tuesday night that he does not care to repeat. While traveling his beat he noticed that the electric light at the corner of Third and Pine streets was burning but dimly. He caught hold of a wire which appeared to be connected with it, intending to shake the light so that it would burn brightly. He happened to get hold of a live wire and he was unable to let go of it and was badly shocked. It was necessary to remove him to his home when he was rescued from his uncomfortable and dangerous position.

A THOUSAND TONGUES.

Could not express the rapture of Annie E. Springer of 1125 Howard St., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will everyone who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c, and \$1.00. Trial bottles free at The Stafford Drug company; every bottle guaranteed.

EYES TESTED FREE.

Dr. W. D. Cook wishes to announce to his old friends and the public that he will visit the upper peninsula this year, but Dr. W. Thurlert will fill his place. You will find him an expert in all eye troubles. He ranks among the best in the science of fitting glasses. Thanking you for the past patronage. Very sincerely, W. D. COOK.

Dr. Thurlert is to be found at the Urban House, Ishpeming, from Aug. 1 to Aug. 15. Thorough examinations free. (8-3-1w)

WANTED—At the Nelson House, two dining room girls. (8-3-1f)

A yard man can find steady employment by enquiring at The Nelson House, Ishpeming. John P. Outhwaite. (8-3-1f)

VETERINARY SURGEON.

William Dowrick, 756 East Empire street, is prepared to treat all diseases in cattle. Castrating a specialty. County phone 290. (7-28-10d)

How Are Your Kidneys? Dr. Hobbs' Sparagus Pills cure all kidney ills. Sample free. Add. Stafford Drug Co., Chicago or N. Y.

FOR SALE.—Residence at Ishpeming at the corner of North and Third streets at a bargain. For further information address A. L. Smith, 743 Grace street, Chicago, Ills. (7-22-tf)

If you want solid comfort and satisfaction smoke the "Challenge cigar." Its the very best on the market for 10 cents. (6-12-tf)

A MYSTERY.

Flowers from clods of clay and mud! Flowers so bright, and grass so green! Tell me, blade, and leaf, and bud, How it is you're all so clean.

If my fingers touch these sods, See, they're streaked with sticky earth;

Yet you spring from clayey clods, Pure, and fresh, and fair from birth.

Do you wash yourselves at night In a bath of diamond dew, That you look so fresh and bright When the morning dawns on you?

God, perhaps, sends summer showers, When the grass grows gray for rain, To wash the faces of His flowers, And bid His fields be green again.

Tell me, blade and leaf, and bud; Flowers so fair, and grass so green; Growing out of clay and mud, How it is you're all so clean.

—Gabriel Setoun.

MAKING WALL PAPER.

The Interesting Process Briefly and Instructively Described.

The manufacture of wall paper is singularly interesting. First, a web of blank paper is set in a reel behind a blotching machine; two cylinders bring the free end of the paper into the machine, where a roller working in a color pan puts a large quantity of color upon the paper in blotches. Then a set of flat brushes, called jiggers, brush quickly back and forth, thus spreading the coloring matter evenly over the surface of the paper.

As the paper comes from the blotching machine a workman takes one end of it, wraps it around a stick and places the stick across two parallel endless chains, and the paper is thus carried up an incline. When 18 feet of it has run out, the chains take up another stick that lies across them, and carry it up as they did the first stick; a third stick soon follows the second, and thus the work continues until the entire web of paper has been run out of the blotching machine.

The chains, in their working, hang the paper in loops over a system of steam pipes, and it is thus thoroughly dried before it reaches the end of the chain-ways, where it is again wound into web form.

Wall paper designs are first sketched on paper, and then transferred to rollers of the size required. It is necessary to prepare as many rollers as there are colors in the design; thus, if the design requires printing in eight colors, eight rollers must be prepared.

When all of the rollers are ready the artist directs his workmen and each one is given a color. A workman to whom that color has been given takes a roller to his bench, sets it firmly in the grasp of a vise, and, with hammers, files, brass, ribbons, and brass rods, goes to work. Every bit of the design that is to be in green is traced out for him, and he carefully reproduces it in relief on the roller.

When his work is finished, the roller bears on its face, in raised brass, green stems, leaves, etc., and at the proper time and place will put the green coloring and shading just where the designer intended it should be. In like manner the other rollers are made ready for use, and they are then taken to a press that has a large cylinder of the width of ordinary wall paper. There are grooves around the sides and the bottom of the cylinder, into which are fitted the rods on the ends of the rollers, and, when in position, the faces of the rollers just touch this cylinder. An endless cloth band comes to each of the rollers from below, each band works in a color pan, which contains, in liquid form, the coloring matter to be carried on the roller to which the band belongs.

Each roller is placed in such position that the part of the design upon it will strike exactly in the spot necessitated by the relative position of the other rollers.

When all is ready the paper that has passed through the blotching machine is placed between the cylinder and the first roller, the cylinder and the rollers revolve rapidly, and soon the paper is beautifully printed. At each of the endless cloth bands there is a steel scraper called a doctor, and it is the doctor's duty to prevent too much liquid from the other pans from getting on the rollers.

The wall paper press throws off ten rolls of paper a minute, and each roll contains sixteen yards. It is said that stamped paper for walls was first manufactured in Holland about the year 1555. Some of the very costly wall paper in use nowadays is beautifully embossed and hand-painted.—Philadelphia Times.

All weak places in your system effectually closed against disease by DeWitt's Little Early Risers. They cleanse the bowels promptly cure chronic constipation, regulate the liver, and fill you with new life and vigor. Small, pleasant, sure; never gripe. The Stafford Drug Company.

FOR RENT—A fine store room, suitable for any business. Situated on corner of Main and Bank streets, Ishpeming. All conveniences, including steam heat. H. H. Meldon, 106 Bank street. (6-27-1f)

Where to Stop When in Detroit. Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50.

"Our baby was sick for a month with severe cough and catarrhal fever. Although we tried many remedies she kept getting worse until we used One Minute Cough Cure.—it relieved at once and cured her in a few days."—B. L. Nance, Prin. High School, Bluffdale, Texas. The Stafford Drug Company.

A PLAIN LETTER

From a Prominent and Well Known Surgeon in the Upper Peninsula.

Office of W. H. Dodge, M. D., Hancock, Mich., August 1, 1899.

Gentlemen:—You ask my opinion of your Four Hundred Rye Whisky. Its purity is extraordinary.

I prescribe it in cases requiring such an agent, because of its purity. Very respectfully, W. H. DODGE, M. D.

The purest type of the purest whisky, guaranteed ten years old. Sold at all first-class cafes and at drug stores.

Be Prepared!

The bearing of children is not such a very serious ordeal to the woman who is prepared. If

Mother's Friend

that wonderful, soothing and relaxing liniment, be faithfully used during the period of pregnancy, there will be little morning sickness or nervousness, the critical hour will be relieved of much pain, and labor will be brief. Recuperation will be rapid, and all after-dangers will be avoided.

Sold by druggists for \$1 a bottle. Send for our free book on this subject. THE BRADFELD REGULATOR CO., Atlanta, Ga.

WE SELL LIVE STOCK

From our stock farm in Green Bay, Wis. Freight paid and safe arrival guaranteed.

COWS: Jersey or Native; with or without calf.

HOGS: Young pigs or fancy Poland-China breeding stock.

Horses and Poultry to order. A fine brood mare and some choice Plymouth Rocks offered.

POWDER MILL EXPLOSION.

One Man, Andrew Johnson, Seriously and Perhaps Fatally Injured by the Accident.

THERE IS NOT EVEN A THEORY ADVANCED TO SHOW THE CAUSE.

Explosion Occurred in the Press Mill Which is the Least Dangerous Part of the Works—Damage Confined to One Building.

EMPLOYEE MAY LOSE HIS LIFE BY IT.

Andrew Johnson, a workman at the Lake Superior Powder company's works, was seriously and perhaps fatally burned through an explosion there yesterday forenoon.

The explosion occurred about 11:30 and was in the press mill of the black powder works, not in the high explosive works, as was reported about town in the afternoon.

CAUSE UNKNOWN.

As to what caused the explosion not even a theory has been advanced. The press mill was the last place where an explosion was looked for, and in all the time the powder works has been running here there has never been an explosion in that building.

Owing to the separate building system on which the works is constructed no damage was done to any other building than that in which the explosion actually took place.

He was removed to the city as soon as possible after the accident and placed in the hospital, but his condition has undergone little if any change since his arrival there.

NO SHOCK FELT.

Contrary to what has been the experience with previous explosions the concussion of the one yesterday was not felt in town.

COPPERS SLOW OF ACTION.

Light Day's Business and Little Change in the Figures.

Yesterday's market was a repetition of what is beginning to be the old, old story—"light day's business and few changes in quotations."

Atlantic started the public by shooting up from 29 1/2 to 31 1/2, an advance of 1 1/2, something quite unusual for it lately.

London copper fell yesterday. Hayden, Stone & Co. quoting it at 275. 1/2.

"Boston, Aug. 2.—London came a fraction lower this morning.

"Rev. Joseph Gabriel Pinten, priest of St. Peter's cathedral parish, will undoubtedly be appointed to succeed Archbishop Kater and Bishop Richter to handle the estate of the late Bishop Verdin.

The two prelates named are those named in Bishop Verdin's will as executors of his estate.

Several petitions for administrators were filed in the probate court yesterday.

Dr. R. E. Otmann of the American Medical and Surgical Institute of Muskegon, Mich., which has been established for the past twenty years for the treatment of all surgical and chronic diseases, is now at Hotel Marquette and will remain until Monday, Aug. 7.

Shredded Whole Wheat Biscuit, easily prepared, easily digested, for sale by all grocers.

UNIVERSITY BOYS.

Summer Club Plays to a Packed and Fashionable Crowd.

The University of Cincinnati summer club gave its second annual concert last evening in the opera house, to a crowd which tested the capacity of the parquet and balcony.

Musically as well as socially the concert was a success. The program was quite varied and there was something in it to suit nearly every legitimate taste.

Ganne's "La Czarina" was one of the most taking of the numbers not distinctly of the "college" stamp. This was an instrumental number.

The club's soloist, Morris Ebersole, repeated his hit of a year ago with his comic selections, "Hello Ma Baby", in which the club assisted on the chorus, was probably the best of his numbers.

The club is comprised of the following: Charles W. Adler, leader of the mandolin club; Walter H. Geler, business manager; Morris R. Ebersole, leader of the club; George Jackson, Walter F. Murray and Paul R. Ingles. All of its members are connected with the University of Cincinnati Glee and Mandolin club, an organization which is noted through the central southern states for its concerts.

GENTRY'S DOGS.

Animal Performers Delight a Large Tent Full of People.

Prof. Gentry's dog and pony show gave the first performance of a two days' stand here last evening.

Though all the performers are animals the extent and merit of the performance entitles it to rank as a circus, and a circus with a particular power to please the children.

The show tents are pitched at the corner of Hewitt avenue and High street. Two performances will be given there today, a matinee in the afternoon and a second exhibition at night.

FOOT RACER CHALLENGES.

"Au Train, Mich., Aug. 1, 1899. "Sporting Editor Mining Journal—I have been getting ready for the 150-yard foot race to take place at the time of the tournament in Marquette this month.

"Yours truly, "CHARLEY DOUCETTE."

EMINENT PHYSICIAN COMING.

Dr. R. E. Otmann of the American Medical and Surgical Institute of Muskegon, Mich., which has been established for the past twenty years for the treatment of all surgical and chronic diseases, is now at Hotel Marquette and will remain until Monday, Aug. 7.

Shredded Whole Wheat Biscuit, easily prepared, easily digested, for sale by all grocers.

The happiest couple in the world should be a deaf husband and a blind wife, both taking Rocky Mountain tea.

TOURNAMENT PRIZES OUT.

Jewelers Make Displays of Trophies to Be Given Victorious Teams in the Contests.

FOUR HANDSOME ARRAYS OF MASSIVE SILVERWARE.

Prizes the Finest Ever Hung Up for Any Tournament of the Association—Carpenters Start Work on the Arches—Line of March.

RESIDENCE DISTRICT TO DECORATE.

Knobs of people were gathered in front of the windows of the four jewelry stores all day long yesterday, and the attraction at each place was a display of prizes which are to be given to victorious teams in the coming firemen's tournament.

About three-fourths of the prizes have arrived and are on exhibition. The rest are expected in a few days. The committee which purchased the prizes divided the order up as evenly as possible between the city's four jewelry concerns, so the displays at each place are about equal in merit.

JEWELERS' DISPLAYS.

Bigelow & Co. show in their window a trumpet, second prize in the regulation horse race; a silver cribbage board, third prize in same; a vase, third prize in the No. 2 horse race; a silver tureen and plate, third prize in the novelty horse race; a silver water set, second prize in the novelty hook and ladder race; a tureen and plate, a gold lined pitcher, and a prize goblet, respectively first, second and third prizes in the ladder climbers' contest.

G. N. Conklin displays three handsome pieces, two trumpets and a silver water set. One trumpet is for the first prize in the No. 2 horse race, and the other is for second prize in the novelty horse race; the water set is the first prize in the novelty hook and ladder race.

Schock & Hallam have a silver punch bowl with tray and eight cups, first, second and third prizes in the regulation horse race; gold mounted umbrella and cane, and Chum clock in case, respectively second and third awards in the firemen's foot race; and a large Don Juan clock, first prize in the regulation hub and hub race.

ARCHES GOING UP.

Rain not interfering, work on the erection of the arches was begun yesterday, and a large four-sided one filling the entire street intersection at Third and Washington was nearly completed, as far as building its frame work went.

The line of march which will be covered by the parade the first day has been determined upon. It is as follows: Fourth on Superior street; march to Front; north to Ridge; east to Pine; north to Arch; east to Cedar; south to Ridge; west to Front; south to Washington; west to city hall.

The purpose in publishing the line of march now is to give every business man and house holder along it time to decorate his place. The business streets will be well decorated anyway, but the committee is particularly anxious to have the residence district make a good show too.

Shredded Wheat Biscuit is whole wheat and nothing but whole wheat; the wheat is merely shredded and cooked to make it easily digested and utilized. It contains all the elements with which nature endowed it, to build up and maintain the complete human structure in a normal, symmetrical perfectly balanced state.

NEW PHOTOGRAPH GALLERY.

Stierle, late of Menominee, has opened up in the rooms formerly used by Childs, 307 Front street, where he will conduct the business of a first-class photograph gallery.

Amateur work will have prompt and satisfactory attention. I will give one colored picture, cabinet size, mounted on large, heavy card, with every dozen cabinets ordered.

THE GREAT GERMAN SPECIALIST, Dr. E. G. Leonhard, Can be consulted at the Clifton Hotel from 9 to 11 a.m., 3 to 5 and 7 to 8 p.m.

The doctor will treat all Chronic, Nervous and Skin diseases. Thirty years' practical experience in the great hospitals of Berlin, Paris, Vienna and New York give the public a guarantee of the best and

Most Approved Treatment.
