WITHIN SPEAKING DISTANCE

Yes, we are all in one nation, and have been so for over 100 years. But we never got so close together as is now the case, when the long distance telephone has put all the country at the elbow of every enterprising business man. It is no longer necessary to write or telegraph. All that is requisite is to talk and get an answer then and there.

Action Follows a Session of the Executive Council, When Orders Are Issued to Exchange the Marlin for New Mauser Rifles.

TRANSVAAL IN THE MARKET FOR GUNS.

Manila, via Hong Kong, Aug. 15.—The arrival of mail advices from Negros and Cebu agree that the insurrection is gaining strength remarkably in both of those islands, hitherto counted the most friendly in the archipelago. Outbreaks are feared, particularly in Cebu, where some of the leading men have gone over to the insurrection. Many of the wealthy inhabitants are preparing to leave the island. Senors Liorento and Meliza, supreme court justices from Negros and Cebu, have gone from Manila to use their influence against the insurrection.

The results of the autonomist government in Negros is disappointing. Insurgent bands are operating there, as in Cebu, destroying much plantation property, claims for which are being presented to General Otis.

The bombardment of Paete, on the east side of Laguna de Bay, by the Napidan, whose commander, Lieutenant Copp, was under the impression that the town had been occupied by the insurgents, has aroused a strong sentiment among the natives of the whole lake region. It is asserted there that the officers and crew of the gunboat landed and looted the best buildings after the bombardment. The crew of the Napidan has been transferred to other duty.

The officers of the United States gunboat Wheeling, which has returned from a cruise along the northern coast of Luzon, report that insurgent forces occupy every village.

GILMORE PARTY ILL-TREATED.

San Francisco, Aug. 15.—The Bulletin this evening publishes a startling story from the Philippines regarding Lieutenant Gilmore and the party from the Yorktown captured by the Filipinos and reported well cared for and well treated. It appears that when the Americans reached San Isidoro, where the Yorktown members had been imprisoned, they found letters secreted under stones telling of hardships and begging that aid be sent them. The men complained they had been starved, beaten and bound and were in rags.

One of the letters, signed Albert Lowensohn, said the Spaniards had been treated very badly, worse than the Americans, and that hundreds were dying of dysentery and other diseases, the government taking no notice of the sick. He gave a list of the prisoners, as follows: J. C. Gilmore, U. S. N.; N. W. Wilson, P. Vandovill, S. M. M. W. Ellsworth, coxswain; S. Edwards, S. D. S.; S. Brisoloz, O. G.; A. Pearson, apprentice; F. Anderson, landsman; A. D. Brice, D. Honneman, Nevada cavalry; A. Bishop, Third artillery; H. H. Huber, Hospital corps; J. O'Brien, civilian.

ANTI-IMPERIALIST MANIFESTO.

Boston, Aug. 15.—The Anti-Imperialist league has issued a pronouncement. The document asserts the movement has made rapid progress in the five months past and declares the league is carrying on the contest upon the idea that the United States, the president especially, is responsible for the war, and that President McKinley at any moment can bring the war to an end. It continues: "Our purpose is to aid in bringing the war to an end, and in advance we reject and any and every scheme for compromise. Our information and experience justify the opinion that the body of anti-imperialists the country over will disregard the claims of domestic questions, subordinating them to the single purpose to bring the army of the United States out of the Philippine islands at the least possible delay, and without delay to recognize the right of the inhabitants of the Philippines, Cuba and Porto Rico to self-government."

PRESIDENT WILL ATTEND.

Plattsburg, N. Y., Aug. 15.—A committee consisting of Governor Stone of Pennsylvania and others arrived tonight to invite President McKinley to the reception to the Tenth Pennsylvania upon its return from the Philippines. The president accepted the invitation. The entire state militia of Pennsylvania will be in Plattsburg on the occasion.

TRANSPORT SENATOR SAILS.

San Francisco, Aug. 15.—The transport Senator sailed for Manila today with seven hundred officers and recruits.

DEWEY'S DEPARTURE DELAYED.

Leghorn, Aug. 15.—Admiral Dewey is still indisposed. His departure for Florence has been postponed.

OPEN TO THE WORLD'S TRADE.

TA-LIEN-WAN TO BE MADE A FREE PORT BY THE CZAR.

St. Petersburg, Aug. 15.—The emperor has issued an imperial order to the Russian minister for finance, stating: "Having obtained the use of two Chinese harbors—Ta-Lien-Wan and Port Arthur—we shall, through the railways in course of construction, be united to China, a result which gives to all nations the immeasurable gain of easy communication and lightens the transportation of the world's trade. After completing the railways, we shall declare Ta-Lien-Wan a free port for the merchant ships of all nations."

ISLAND SEIZED BY FRANCE.

Hong Kong, Aug. 15.—A newspaper

published at the Portuguese settlement of Macao, a seaport southwest of the entrance to the Canton river, reports that France has occupied the island of San Chau as an assertion of her right to the province of Kwang-Tung in the event of the partition of China.

JIMINEZ'S FORCES ROUTED.

DOMINICAN REVOLUTION PUT DOWN WITH MUCH SLAUGHTER

Puerta Plata, San Domingo, Aug. 15.—The government forces under Escobaza have defeated the insurgents. The town was almost a massacre, and the wounded on both sides are numerous. The engagement is considered by the government as decisively ending the Jiminez uprising.

New York, Aug. 15.—In connection with the revolutionary movement in Santo Domingo, a junta has been formed here whose members are in conference almost constantly and are supposed to be communicating daily by cable with Jiminez.

ARMS SEIZED IN CUBA.

Havana, Aug. 15.—Lieutenant Schaum, collector of customs at Baraco, has seized 143 carbines and 18,000 pounds of ammunition, evidently intended for Santo Domingo. General Brooke is making every effort to check filibustering. There is no truth in the report recently circulated that 400 men left the island for Santo Domingo in one expedition.

BRICK STRIKE ENDS IN FAILURE.

CHICAGO WORKINGMEN GO BACK TODAY AT THE OLD SCALE.

Chicago, Aug. 15.—After three weeks' idleness, all the South side brick yards will resume work tomorrow. The workingmen return to work under precisely the same conditions as when they stopped.

SCATTERED THE MOB.

Cleveland, Aug. 15.—Strike sympathizers stoned a Big Consolidated car tonight. The conductor of the car lay down on a seat and fired several shots at the crowd with a revolver. Nobody was hit, but the shooting had the effect of dispersing the mob.

MINERS OUT IN ILLINOIS.

Springfield, Ill., Aug. 15.—The miners of the Cantrall Coal company, at Cantrall, Ill., have struck because a pit boss—Peter Bechem—is objectionable.

BIKE RECORDS SMASHED.

FAST TIME BY TOM LINTON AND E. RYAN AT WALTHAM.

Waltham, Mass., Aug. 15.—At the grand circuit meet of the National Cycling association today three world's records were broken. Tom Linton won the twenty-five motor-paced race in 42:41 1-5, breaking Elke's world's record by four-fifths of a second. Linton continued around the track after making this record for a sixty-minute run, making 34 miles, 1,633 yards, which breaks Taylor's world's record by 410 yards. Ever Ryan of Waltham defeated Farnham of the Metropolitan Wheelmen, in a ten-mile paced race, breaking the world's record, held by himself, by 1 4-5 seconds. The two-mile championship professional race was won by Tom Cooper, and the one-mile handicap professional by Earl Kiser.

SENATOR HAYWARD STRICKEN.

SUFFERS A STROKE OF APOPLEXY AT WOODMEN'S PICNIC.

Omaha, Aug. 15.—Senator Hayward was to be one of the speakers at the Woodmen's picnic at Brownville today. He had just been called upon and was on the point of rising, when he suffered a stroke of apoplexy and fell unconscious. About 4 o'clock unfavorable systems developed. While the doctors have not abandoned hope, they admit he is in a very precarious condition. A physician who came from the senator at 8 p. m. reported a noticeable improvement; that the paralysis was apparently passing away, and the patient was able to speak.

WAS NOT ON THE CAR.

COMPANY WITNESS AT BRIDGEPORT IS JAILED FOR PERJURY.

Bridgeport, Conn., Aug. 15.—At today's session of the coroner's jury investigating the trolley accident which killed twenty-nine persons, William Kelley, a young man who testified before the jury last week, was charged with perjury. Kelley had said he was on the car at the time of the accident. His testimony was highly favorable to the company, being to the effect the car was running slowly. A witness next day testified that Kelley was not on the car at all, and Kelley today admitted he was not on the car.

REPORT WAS PREMATURE.

G. A. R. COMMITTEE HAS NOT EXONERATED COM'R EVANS.

Chattanooga, Tenn., Aug. 15.—Colonel H. B. Case of this city, one of the five members of the G. A. R. committee appointed to investigate the office of Pension Commissioner H. Clay Evans, denies emphatically the report that the committee has decided to exonerate Evans. Colonel Case today said, "There never has been a report of the committee written, and until it is, no one will know what it is."

WRECKED THE BRIDGE.

Iron Mountain, Mich., Aug. 15.—The Milwaukee railroad bridge near here has been wrecked by dynamite. Men hunting for the body of a man drowned Sunday used dynamite to bring him to the surface. One charge of sixty sticks was placed in the water directly under the bridge, which is of iron, eighty feet high. The explosion shot a stream of water 150 feet high through the iron structure, tearing away the rails on both sides of the track for twenty feet and otherwise damaging the structure.

DREYFUS' LAWYER OUT OF DANGER.

Thought Now M. Labori Will Be Able to Be Present in Court Next Monday.

PROCEEDINGS LIKELY TO BE POSTPONED UNTIL THEN.

POCKETS OF THE WOUNDED MAN WERE RIFLED.

Conspirators Balked, However, in Their Supposed Intention to Secure Important Papers Connected With the Trial, as Their Victim Carried None.

BULLET MISSED A VITAL SPOT.

Johannesburg, Aug. 15.—The Transvaal government is purchasing all the arms possible.

Pretoria, Aug. 15.—The executive council concluded its session at 12:30 p. m. today, when orders were issued to the field cornets to give out Mauser rifles in exchange for Marlin rifles. A great crowd gathered to receive arms.

WILL BREAK OFF NEGOTIATIONS.

Cape Town, Aug. 15.—No reply has yet been received from the Transvaal on the subject of the latest British proposals for the settlement of the questions in dispute. A dispatch from Pretoria says that the reply, when sent, will be disappointing and it is feared, result in the breaking off of the negotiations.

CHANGE IN COMMANDER.

London, Aug. 15.—Major General Sir William Francis Butler, who is announced yesterday from Cape Town, would be relieved as commander of the British forces in South Africa as a result of his Boer sympathies, has been recalled and Sir Frederick Walker appointed to replace him.

London, Aug. 15.—The Chronicle, which regards General Butler's virtual dismissal as an "indication that the country is being hurried into war," says: "His offense was that he spoke rough words of truth about that precious organization, the South African league. We are convinced that he acted for the honor and interests of the empire."

London, Aug. 16.—The Mail's Johannesburg correspondent confirms the report that warrants have been prepared for the arrest of 147 members of the reform party of the Transvaal. He gives the date for executing the warrants as uncertain, and the whole thing is regarded as a bluff.

REGARDED AS VERY CRITICAL.

Washington, Aug. 15.—The situation in the Transvaal is regarded by the officials here as very critical. Thus far, however, the state department has not received a word from any official source concerning the strained condition of affairs.

GREAT BUTCHERY IN CHINA.

500 SOLDIERS ANNIHILATED BY A BANDIT ARMY OF 10,000.

Canon, China, Aug. 15.—Five hundred soldiers were surrounded yesterday at Chao-King, on the river West, by ten thousand robbers. A desperate fight occurred, ending in a victory for the robbers, who have occupied the villages in the vicinity. Two hundred and fifty soldiers were killed and a hundred wounded. Two thousand more troops left Canton yesterday.

LILLY LANGTRY WEDDED AGAIN.

HUGO GERALD DE BATHE, AGED 28, HER NEW HUSBAND.

London, Aug. 15.—Mrs. Lilly Langtry was married July 27 at the island of Jersey to Hugo Gerald de Bathe, twenty-eight years of age, son of Sir Henry Percival de Bathe, bart, retired general and Crimea veteran. The ceremony was performed very quietly, the only witness being Mrs. Langtry's daughter, Miss Langtry.

HAVANA'S REMARKABLE RECORD.

ONLY THIRTY-SIX CASES OF YELLOW FEVER SO FAR THIS YEAR.

Havana, Aug. 15.—Mills, clerk at the headquarters of General Brooke, was stricken with yellow fever today. The total number of cases in Havana this year is thirty-six, of which only twelve were fatal. This is considered a remarkable record.

WHITE CAPS WHIPPING NEGROES.

Greenwood, S. C., Aug. 15.—The sheriff of this county today appealed to Governor McSweeney for aid to assist him in suppressing the White Caps outrages. For more than a week White Caps have been whipping negroes, who are in a state of terror.

COSTLY FIRE THIS MORNING.

New York, Aug. 16.—Fire at West Chester, N. Y., this [Wednesday] morning destroyed St. Peter's Episcopal church and most of its contents. The loss is \$200,000.

LUMBER TRUST STORY DENIED.

Marquette, Wis., Aug. 15.—Lumbermen here ridicule the report sent out to the effect initial steps toward the formation of a lumber trust were being taken. Experts are united in the opinion that such a trust is practically impossible.

ANOTHER ONE FOR COLUMBIA.

Newport, R. I., Aug. 15.—The Columbia today put the finishing touches to the series of trial races against the Defender in the presence of the New York Yacht club fleet, winning a twenty-one mile race by 8 min. 52 sec.

MARQUETTE, MICH., AUGUST 16.

THE TRANSVAAL TROUBLE. The Transvaal republic is doomed to destruction, unless providence shall intervene to protect it in some way that cannot now be foreseen.

Right seems to be with the Boers, but the sympathy of the world is not with them because the contention between them and the Uitlanders has assumed a form that makes in favor of the latter.

Two principles which we recognize as paramount in a government "of the people, by the people," come into apparent antagonism in consequence of this condition.

The British government has not failed to perceive the advantage the peculiar attitude of the Boer republic toward the Uitlanders gives it, and is adroitly proceeding to force concessions which will deprive the Boers of the power to maintain their republic.

The war, if it should come, is likely to be a long one, and harassing for the British. Fighting at home, where old and young men and boys can fight, and the whole country is one where every boy learns to shoot a rifle.

Here is where the war would have an effect on the trade of the world. At present the South African gold output is at the rate of nearly a third of the world's total.

The world at large, therefore, because it would be largely and directly affected and injured by such a war, is equally interested in preventing it.

An officer of the German navy who is now touring this country was on the Gefion at Manila with Admiral von Diederichs, during our war with Spain.

lieh people," he says, "wish to impress on the American mind the aid they rendered this country in order to pave the way for the alliance they seek with the United States.

If Commander St. John, of the British cruiser Peacock, is reported correctly in a dispatch from British Columbia, he has expressed himself with remarkable freedom about American military operations in the Philippines.

Remembering all the flattering things recently said of us by our British admirers, we should be willing to pass over occasional ill-natured remarks, such as those of the commander of the Peacock.

Iowa has a small-sized revolt on her hands. It is not a political revolt or the result of a labor strike.

There is an impression prevailing that the city which draws the annual tournament of the Firemen's association captures an elephant.

The re-trial of Dreyfus is full of dramatic incident. The denunciation of General Mercier by the accused Saturday, after the ex-minister of war, who was connected with the first prosecution and conviction, had given his statement to the court, was supremely thrilling.

The way of the transgressor isn't always hard. Captain Carter, who swindled the government out of \$1,600,000 while acting for it in a highly responsible capacity as an engineer in charge of government work, has not only not been punished save by dismissal from the army, but is living in great style and luxury in New York on the fruit of his speculations.

Coxey, who once led an army of tramps to Washington, is now extensively engaged in manufacturing, but it is safe to wager that he hasn't any of his old-time followers in his employ.

A MOTHER TELLS HOW SHE SAVED HER LITTLE DAUGHTER'S LIFE.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form.

EFFECT OF RED.

Why does the bull so strongly object to a red rag? While the professional physiologists do not, as yet, appear to have found any satisfactory explanation of the fact, a French manufacturer of photographic materials professes to know the only members of the animal kingdom who are excited by any red.

STATE OF MICHIGAN, County of Marquette.

At a session of the probate court for said county held at the probate office in the city of Marquette, in said county, on the 15th day of August, in the year one thousand eight hundred and ninety-nine.

Present the Honorable Charles Kelsey, Judge of Probate. In the matter of the estate of Lillie A. Crowell, deceased.

On reading and filing the petition of the Marquette Land company, duly verified, setting forth that said Lillie A. Crowell departed this life about the 9th day of January, A. D. 1885, and that deceased was, at the time of her death, a portion of which said lands are located in said county of Marquette.

STATE OF MICHIGAN, County of Marquette.

At a session of the probate court for said county held at the probate office in the city of Marquette, in said county, on the 15th day of August, in the year one thousand eight hundred and ninety-nine.

Present the Honorable Charles Kelsey, Judge of Probate. In the matter of the estate of Charles L. Camp, deceased.

On reading and filing the petition of the Marquette Land company, duly verified, setting forth that said Charles L. Camp departed this life about the month of April, 1884, and that said deceased was, at the time of his death, a portion of which said lands are located in said county of Marquette.

STATE OF MICHIGAN, County of Marquette.

At a session of the probate court for said county held at the probate office in the city of Marquette, in said county, on the 15th day of August, in the year one thousand eight hundred and ninety-nine.

Present the Honorable Charles Kelsey, Judge of Probate. In the matter of the estate of Charles D. Wick, deceased.

BATHS, BATHS, BATHS.

COPPER EXCEEDINGLY SCARCE. TRAMP NUISANCE TO GO. COUNTY OFFICIALS ARRANGING FOR THE BALL AND CHAIN SYSTEM OF PUNISHMENT.

The time seems to be at hand when a genuine scarcity of copper will not only be made manifest but remain unsatisfied indefinitely unless new deposits of large volume are discovered and under conditions which will render their development and future operation at a profit. It is figured that the average production of copper in this country for several years past is 20,000 tons per month. During the first six months of 1899 the output reached the total of 124,487 tons, or an average of 20,748 tons per month. The present statement is made that at the present date all the copper produced in this country is in process of manufacture, and that not a free ton of the commodity is obtainable. In Europe, notwithstanding the bulk produced since Jan. 1, and given above, the entire stock of copper does not exceed 16,000 tons. Within five years the price of copper has advanced from 10 cents to 18 1/2 and 19 cents per pound. In 1894 copper was produced from the best mines and delivered in New York city at about 8 cents a pound. Today the cost of production and delivery is nearer to 6 cents a pound. The constantly increasing use of copper in electrical devices and appliances of every sort has annually swelled the demand for metal, not only here, but in Europe wherever electricity is being introduced and its generative powers availed of. Since 1894 the demand has increased 50 per cent. Previous to that date there was an annual increase in production of about 10 per cent, but there forward it has averaged a fraction less than 4 per cent. Meanwhile the demand from abroad has been constantly augmented, and since Jan. 1, 63,420 tons of copper have been exported. It is not surprising, with the supply and demand taken together, that there are combinations seeking to obtain control of the situation.

EXPLORING ON ISLE ROYALE. The handsome steam yacht Idler, owned by Senator McMillan of Detroit, arrived at Portage lake Monday evening, having on board a party consisting of Colonel J. M. Hecker and son, Judge Lillbridge, Mr. Dewey and others interested in the exploratory work being conducted at Isle Royale island under the direction of Jacob Houghton. Mr. Houghton sent word to Detroit that the progress thus far made offers the greatest encouragement, and on the strength of this information the party is making its trip to the island to look over the situation. The yacht is expected back tomorrow, when Colonel Hecker will proceed to Detroit by rail. Mr. Houghton has about fifty men at work at Isle Royale island, but it is not expected that the operations will be continued during the winter months.

STOCKHOLDERS FINDING FAULT. The Wolverine declared a dividend of \$2 per share yesterday. The amount, however, is not payable until Oct. 2, and why it should be withheld from stockholders for a period of more than six weeks is not apparent in view of the recent favorable report of the company wherein the balance of assets was shown to be more than four times the amount of this dividend. Local stockholders are much displeased at the delay and believe that it could be avoided. The dividend just declared is the third by the company, the former ones being those of Oct. 1, 1898, for \$60,000 and April 1, 1899, for \$90,000.

COPPER MISCELLANY. Sixty tons of refined copper per day is about the amount turned out at the Calumet & Hecla company's smelters at South Lake Linden, and this is all shipped without any delay. A similar amount represents the product of the company's smelting plant at Buffalo. Word was received yesterday that the Arnold mill was again in commission after the enforced idleness caused by the breaking away of the mill dam.

KENTON SALOONIST SUEED. ELIZA SMITH SEEKING \$10,000 DAMAGES BECAUSE OF THE SELLING OF LIQUOR TO HER HUSBAND AGAINST HER WISH. The attention of the circuit court has been attracted the past two days in the case wherein Eliza Smith, late of Kenton, is plaintiff and Walter Whalen and Patrick Gannon and their bondsmen, Adolph LePlant and Frank A. Lewis, are defendants. The story of the trouble is a long one and the case an action for civil damages under the liquor law for alleged injuries to her person, property, means of support and otherwise on account of sales of liquor made to her husband while intoxicated by the defendants after she had served notice upon them not to sell him liquor. Damages are claimed at \$5,000 actual and \$5,000 exemplary. The case was given to the jury yesterday at noon. The attorney for the plaintiff was E. J. Carey and for the defendants T. J. Finnegan. This is a novel case from the fact that it is the only civil damage case under the liquor law ever brought up here, and the outcome is watched with much interest, as the plaintiff has five other suits arising out of violation of the liquor laws against other parties at Kenton. These will not be tried at the present term of court.

The appealed case from justice court at Calumet of David Kingston vs. Angelo Jassino will be on call for Friday, with E. J. Carey for the plaintiff and W. J. McDonald for the defendants.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by The Stafford Drug Company.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Electric Oil relieves the pain instantly. Never safe without it.

GREAT MANUFACTURER'S MIDSUMMER CLEARING SALE OF BRADBURY PIANOS.

NEW PIANOS. A Few Splendid Pianos in Styles Which Do Not Appear in Our New Catalogue:

Table with 2 columns: Style and Price. Includes models like 1 Style 10 Bradbury, Walnut Case, Original Price \$500.00, SALE PRICE \$350.00.

SECOND HAND PIANOS. All Refinished and in Fine Condition. 1 Style 6 Bradbury, Rosewood Case, Original Price \$400.00, SALE PRICE \$250.00.

A FEW REMARKABLE VALUES IN VARIOUS MAKES OF PIANOS - SECOND HAND. 1 VOSE & SONS, \$175.00. 1 NEW ENGLAND, \$125.00. GOOD SQUARE PIANOS \$25.00 AND UPWARDS.

CASH OR REASONABLE PAYMENTS. EVERY PIANO GUARANTEED. IF NOT SATISFACTORY, RETURN AT OUR EXPENSE TO OUR CHICAGO WAREROOM. F. G. SMITH, Manufacturer, Western Wareroom, 263-265 Wabash Ave., Chicago. AMOS SALADIN, Marquette, Mich., Representative for the Upper Peninsula.

WINE OF CARDUI. HEALTHY OLD AGE. I am 49 years old and have been suffering with Change of Life. I had flooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. MRS. E. B. TOWNSEND. It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers. It is for women alone to decide whether they will be healthy or sick. The remedy for their sickness is close at hand. LARGE BOTTLES OF WINE OF CARDUI SOLD FOR \$1.00 BY DRUGGISTS.

DR. MOTT'S PENNYROYAL PILLS. They overcome weakness, irregularity and omissions, increase vigor and banish "pains of menstruation." They are "Life Savers" to frail womanhood, aiding development of organs and body. No known remedy for women equals them. Cannot do harm - life becomes a pleasure. DR. MOTT'S CHEMICAL CO., Cleveland, Ohio. FOR SALE BY THE STAFFORD DRUG COMPANY.

Wealthy Inhabitants Are Preparing to Leave and Claims for Property Destroyed Are Stacking Up on Otis-Fresh Troubles, too, in Luzon.

FILIPINOS HOLD WHOLE NORTH COAST. Remnes, Aug. 16.—6:30 a. m.—The proceedings opened without disorder.

Remnes, Aug. 15.—M. Labori is doing so well that the doctors consider him out of danger and hope to see him on his feet before the trial is ended.

The patient confirms the statement that his pockets were rifled while he was lying wounded on the ground yesterday, evidently with the intention to secure important papers in connection with the trial, but none were in his pockets.

This evening M. Labori was removed in an ambulance to the residence of Professor Basch, in a suburb of Remnes. He stood the journey well. The doctors tonight are extremely hopeful of speedy recovery.

M. Demange has decided to ask for an adjournment tomorrow, when the court-martial will reconvene. Colonel Jonaus will undoubtedly accede to the request, but cannot grant an adjournment for more than two days, when the application must be renewed. Dreyfus wants the sessions postponed until Monday, when it is hoped M. Labori will be able to be present.

GUERIN SELF-IMPRISONED.

Paris, Aug. 15.—M. Jules Guerin, president of the Anti-Semite league, who is still besieged by the police, this evening displayed the Anti-Semite tri-color flag on the roof of the Anti-Semite headquarters with the motto, "France for Frenchmen."

In consideration of the fact that recourse to force in the arrest of Guerin might lead to useless sacrifice of life, it has been decided to leave Guerin chose between self-imprisonment and arrest. Friends are busying themselves to rescue him from his impossible and foolish position. Joseph Lasces, Anti-Semite deputy from Algiers, who was furnished a permit from the government, visited Guerin this evening, making every effort to persuade him that further resistance was in vain and dangerous.

BRAWL IN THE STREET.

As an Anti-Semite group was standing in the street this evening, some passerby cried, "Down with the Jesuits," whereupon they were surrounded and threatened. A supposed anarchist then fired several revolver shots, wounding three men, one seriously. The alleged anarchist was arrested.

PROOF AGAINST ORLEANISTS.

Paris, Aug. 16.—The Math asserts that M. Fabre, the examining magistrate, now has proofs of a conspiracy against the republican government, and that the Orleanist party has expended considerable sums in the Nationalist propaganda.

ELEVEN DEATHS AT OPORTO.

Oporto, Portugal, Aug. 15.—Since the outbreak of the plague there have been eleven deaths and twenty-six cases.

WHISKY MEN IN SESSION.

Milwaukee, Aug. 15.—The opening session of the National Wholesale Liquor Dealers' association took place today.

Calumet Baking Powder advertisement with logo and text: 'MAKES HEALTHFUL FOOD', 'NOT MADE BY THE TRUST', 'MODERATE IN PRICE'.

OFFICERS WERE ELECTED, WITH LEOPOLD EINHORN OF CLEVELAND AS PRESIDENT.

Chicago Grain Markets. Chicago, Aug. 15.—Wheat—Moderately active, within 1/4 cents range, closing at the bottom and 1/4 under yesterday.

Corn—Quiet, within 1/4 cent range, closing at the bottom and 1/4 under yesterday. The market opened lower, with wheat; declined on lack of cash and export demand, with aggressive liquidation.

Oats—Easier, with moderate trading, within 1/4 cent range, closing at the bottom and 1/4 under yesterday. A shipping house that had been a good buyer of late sold rather freely.

The leading grain futures ranged as follows: Wheat, Dec. 73 1/2; Corn, Dec. 28 1/2; Oats, Dec. 28 1/2.

Cash Quotations. Wheat, weak; No. 2 red, not quoted; No. 2 white, not quoted. Corn, weak; No. 2 white, new, on track, 25 1/2; old, 24 1/2.

Movement of Grain. Receipts—Flour, 18,000 barrels; wheat, 40,000 bushels; corn, 305,000 bushels; oats, 506,000 bushels.

Shipments—Flour, 9,000 barrels; wheat, 29,000 bushels; corn, 361,000 bushels; oats, 549,000 bushels.

WALL STREET STOCKS.

New York, Aug. 15.—The bear element was in evidence all day in the stock market and came off with flying colors. It made a vigorous attack in the morning and by 2 o'clock seemed to have exhausted its efforts.

The market successfully overrode all efforts to support values. The industrial specialties suffered the most severely, and the reaction in the railroads reached a point in only a few cases.

A few railroad stocks which had shown early strength succeeded in retaining net gains. The most conspicuous movement of the day was that of American Tobacco, which advanced 6 points on an enormous volume of trading.

There was a notable upward movement in the Iowa Central stocks on talk of heavy earnings. They show gains of 1 and 2 1/2, respectively. Final figures are:

Table of stock prices for U.S. reg, U.S. 3s, U.S. 4s, etc.

RANGE OF MONEY RATES.

Money on call, steady, at 2 1/2 to 3 per cent; last loan, 3 per cent. Prime mercantile paper, 4 1/2 to 5 per cent.

BOSTON COPPER QUOTATIONS.

The course of the Boston stock market yesterday was as follows, A. B. Turner & Bro., brokers, Savings Bank building, Marquette, furnishing the figures:

Table of copper quotations with columns for Opening, 12m., and Closed prices for various grades like Adventure, Arcadian, etc.

CHEAP RATES TO NEW YORK.

Chicago, Aug. 15.—Tomorrow the Erie railroad will announce a rate of \$18.45 for the round trip between Chicago and New York, going into effect during the first four days of September and the return coupons being good for any time that month.

Trouble is brewing in the Central Passenger association. The Grand Trunk, Lake Shore, Michigan Central & Erie roads are arrayed against the Nickel Plate line, which is alleged to have violated the agreement. They accuse the Nickel Plate of being co-operative with local ticket scalpers and certain roads.

PROVOKED AT M'KINLEY.

Springfield, O., Aug. 15.—Prominent colored Masons of Ohio met in this city tonight to express dissatisfaction concerning President McKinley's silence on the lynching question and his refusal to commission colored officers.

NATIONAL TENNIS TOURNAMENT.

Newport, R. I., Aug. 15.—At the national championship tennis tournament today eighteen matches in the preliminary and first rounds were played off.

CZAR TO VISIT VICTORIA.

London, Aug. 16.—The Telegraph's St. Petersburg correspondent says that "the emperor and empress will visit Queen Victoria at the end of the month."

CATHOLIC STUDENTS CHEER M'KINLEY.

Statement the War Will Go On Until All Rebellion is Crushed Enthusiastically Endorsed.

SUMMER SCHOOL IS ADDRESSED BY THE PRESIDENT.

WM. J. BRYAN HOLDS FORTH AT DES MOINES.

Argues for Silver Before the Delegates to the Democratic Convention and Closes With a Tirade Against the So-Called Policy of Imperialism.

Plattsburg, N. Y., Aug. 15.—The president today visited the Catholic Summer school at American Cliff, Lake Champlain. The grounds were gaily decorated in honor of the visit, and the roads lined with people anxious to get a glimpse of the president.

He had not intended to make an address, but the warmth of the greeting evidently caused him to change his mind. He said: "Our patriotism is neither sectional nor sectarian. We may differ in political or religious beliefs, but are united for country. Loyalty to government is our national creed. We follow, all of us, one flag. Wherever it floats it is the flag of the free and hope of the oppressed, and wherever it is assailed, at any sacrifice it will be carried to triumphant peace."

It is found in the home of the humblest toiler, and what it represents is dear to the heart. Rebellion may delay, but it cannot defeat its blessed mission of liberty and humanity."

The president spoke slowly and earnestly. Only once did he raise his voice—when he said that "the flag, whenever assailed, will be carried to triumphant peace."

The cheering which interrupted the speech at this point fairly shook the roof. A reception followed the speech.

SCORES THE REPUBLICAN PARTY.

Des Moines, Ia., Aug. 15.—Bryan spoke for two hours tonight at the Auditorium to an audience of 4,500. The house was crowded, and the audience, which practically included all the delegates to the Democratic convention, which meets tomorrow, took every opportunity to applaud.

Bryan first reviewed the record of the Republican party, accusing it of putting the dollar above man. He then took up the silver question, saying that prosperity did not set in until six months after the election, when the Klondike gold mines began to yield.

Republicans who claim that trade is better because the balance of trade is in favor of the United States give away their own position.

Bryan closed his speech with a lengthy discussion of imperialism. The difference, he said, between a republic and an empire is this: A republic needs an army of 25,000 for 70,000,000 people; an empire needs four times that large an army when ten million people is added.

This suits the young man who gets a fat job in the army, but not the people, who pay the \$1,500 a year needed to maintain each soldier in the Philippines.

Bryan gave figures to show that England and other nations do not colonize rapidly, and said that with twenty people to the square mile in America, and sixty to the mile in the Philippines, there was no opportunity there.

UGHT TO CALL ON SULTAN.

"Even if we did succeed in killing off all the natives," he said, "you cannot get young Americans to go there. They prefer to go to Iowa or Nebraska. The profit will not equal the cost and the profit will not go to the right people, but to the investment syndicates. Even if any man is willing to trade for his postage and does not have a taste for his birthright, he had better investigate the postage."

"As the Tagals are largely Christians, and our native allies largely Mohammedan, we ought to ask the sultan to help us subdue the Christian insurgents. The government ought to make a declaration of good intentions toward the Philippines, as it did toward Cuba. The president ought to have done so, or if he did not have the power, should have asked congress for it. Now he might call a special session to ask for that power. Mr. Cleveland called a special session to repeal the Sherman act, and Mr. McKinley called one. A special session now would cost much money, but not nearly so much as the continuance of the war."

HINGES ON TAMMANY.

St. Louis, Aug. 15.—Governor Stone said today: "If Croker really favors the nomination of Bryan, Tammany will certainly follow him. With Tammany supporting him, there will be but very little opposition in the East to Bryan."

Troy, N. Y., Aug. 15.—The Chicago platform Democrats of Eastern New York have issued a call for a conference for the purpose of organizing "The Bryan League of the Empire State."

THE COCKATOO'S NUT CRACKER BILL.

There is a wonderful cockatoo in one of the islands of the Indian ocean, near New Guinea. It is as large as a full grown pheasant, and it is of a jet black color. The bird is remarkable for its immensely strong bill and the clever manner in which it is used. The bill is as hard as steel, and the upper part has a deep notch.

Now, the favorite food of this cockatoo is the canary nut; but there is wonderful ingenuity required to get at it. For the nut is something like a Brazil nut, but it is ten times as hard. In fact, it requires the blow of a heavy hammer to crack it.

It is quite smooth and somewhat triangular in shape. Nature appears to have given the possessor of the wonderful bill some intelligence to direct its powers, for the cockatoo takes one of the nuts edgewise in its bill, and by a carving motion of its sharp lower beak makes a small notch on it. This done, the bird takes hold of the nut with its claws, and biting off a piece of leaf, retains it in the deep notch of the upper part of the bill. Then the nut is seized between the upper and lower parts of the bill, and is prevented slipping by the peculiar texture of the leaf. A sharp nip or two breaks off a tiny piece of the shell of the nut. The bird then seizes the nut in its claws and pokes the long, sharp point of its bill into the hole and picks out the kernel bit by bit.—Savannah (Ga.) News.

GALL INSECTS. How They Make Material for Various Inks and Dyes.

Oak apples, so-called, are familiar objects to almost every one, yet few understand their real nature. Many persons suppose them to be a sort of fruit growth of the tree on which they are found. Besides the oak apples, there are similar swellings and fruit like growths, some of which are attached to twigs and are no larger than cherries, while others grow on leaves and are as large as hen's eggs, but of a more globular form. Some are hard within, some soft but woody in texture; others are pithy or spongy, and still others are nearly hollow with strings or fibers radiating from the center.

All kinds have in the middle a small, hollow, pea shaped, or seed like cell, which contains the insect that is the real cause of the growth. The irritation to the leaves or twigs caused by these tiny insects gives these abnormal growths the distinctive and appropriate name of "galls," by which they have long been known.

Gall flies are among the most peculiar of all the insect tribes. They belong to the great order that includes the bees, the wasps, the gnats, and the ichneumon flies, but they never sting or harm men or animals. The female gall fly, impelled by the law of nature to provide for the safety and welfare of her offspring, cuts away the outer skin or bark of a leaf or twig, and deposits therein an egg. From this is hatched a small white grub, without legs, but with a strong mouth. As it eats its way into the surrounding tissue the plant is seemingly invigorated, and begins to enlarge about the tiny larva and grow into a shape well suited to its needs as a place of concealment and food supply.

While all flies of the same species develop galls that are exactly alike, every species produces a different form. Exactly why this is so has never been explained, yet we see parallel instances everywhere in nature.

When the larva is full grown it is transformed in its narrow cell to a red-eyed, whitish pupa, helpless and almost motionless, yet having rudimentary antennae, legs and wings, which give promise of the coming gall fly. This, in many species, is a gaily colored insect, with red eyes, more or less veined wings, a humped back, and an exceedingly long ovipositor. Thus equipped it emerges from its confinement and flies abroad, soon to deposit its eggs in leaves and twigs and thus to cause others galls.

Yet, strange to say, the successive generations of the same species differ widely in appearance and even in color. From galls made by the spring brood are hatched flies of the summer brood, whose grubs winter in the galls and produce the brood of the following spring. Not only do these successive generations differ in appearance, but the summer brood consists of both sexes, while the spring brood is of females only. In some species one brood is entirely black, while the following one is highly colored.

The blackberry has a gall fly which gives exclusive attention to that plant, and causes a hard swelling of the stems filled with several cells each occupied by a grub. I think the Eight O'Clockers would find it interesting to gather some of these curious galls, selecting those that have turned brown, which shows that they have attained full growth. If they are put into a receptacle that will admit a little light and air, but will not allow the gall fly to escape, the process of hatching out may be observed after which the prisoner may be liberated. The flies are often beautifully colored, some with red and black bodies, others with metallic green or blue reflections.

Oak galls are either spongy or woody. The former are of no value to man, but the latter are largely used in the manufacture of inks and dyes. This is due to the fact that they contain a large percentage of tannic acid, and when combined with certain salts of iron form black, dark brown or purple dyes of absolutely permanent color. In our country galls adapted to commercial purposes cannot be found in sufficient quantities to supply the demand. The galls exported from Aleppo, in Syria, are the most valuable known for the manufacture of legal documents is required, by the laws of England and France, to be made from galls, such ink having proved to be practically indelible.—Philadelphia Times.

ANCHOR DRILL IN A WARSHIP.

In a letter written on board the British warship Mars is this graphic description of anchor drill with the huge mass of iron, and the scene when the anchor chain breaks: "I watched with an admiration only possible, I think, to those who have had a similar job many times upon the puny scale of ships measuring a thousand tons or so, the way in which those gigantic masses of iron were manipulated by the various steam adjuncts. The climax was reached when the single four and one-half inch wire rope was overhauled down through a block at the head of the davit that looked like a boiler crane, hooked on to a shackle in the shank of the anchor, and the other end tacked around the capstan in the center of the castle."

"One word from 'No. 1' and with a crash like an earthquake the cable ran out, six and one-half tons of anchor hung suspended at the end of that slender-looking rope, and was gliding gently upward under the unseen suction of some deep-hidden engine below."

"I could not help setting my teeth as I watched three cat-like men swarming round that suspended anchor, arranging its confining chains before it was lowered into its appointed place, thinking of what might happen."

"All ready! Heave up!" Whir went the engine again, up came the other anchor, dangling at the end of the cat beam man by its side. There was a momentary check, and with a crash that reverberated through every heart, the link at the hook of the pennant broke.

"With a spring like a grasshopper the man sprang outward and aft into the sea, the awful mass of iron grazing his shoulder as it fell."

"Man overboard!" rang out instantly. Like an echo the deep voice of the commander responded, "Man overboard!" and a crew and officers were in her like cats. Half a dozen men had flung themselves over the rails, and were scrambling down the side, when up popped the diver wanting wind badly, for the down draft of the anchor had sucked him after it almost to the bottom.—New York Press.

RAREST WOOD IN THE WORLD.

The very rarest wood is the calamander tree, of which there are known to be only 90 specimens in the world. They are on the island of Ceylon, where each tree, numbered, is under the protection of the governor. These trees, the last of their kind on earth, are held almost in religious reverence by the natives, who guard them as among their most sacred treasures. At the World's fair there were five pieces of furniture of these excessively rare trees. The exhibit was insured for \$250,000. Not even the kings of the earth dare cut down any of the 90 calamanders, whose priceless is far above that of a ruby mine. Allied to the ebony family, calamander wood is of a dark chocolate color of exceeding richness and brilliancy, mottled in a way almost indescribable.

One of the most profitable woods is sandal wood. The East Indian government has had a monopoly on the sandal wood trade, to the enormous profit of the stockholders, for several hundred years past. The method of preparing the wood tree for market is interesting. After the tree has been felled it is allowed to lie for a few weeks, during which time, on account of its pungent odors, it is assailed as a delicious morsel by myriads of the voracious white ants of India, and these greedy colonies soon leave nothing but the heart, which is the sandal wood of trade. Sandal wood cuts beautifully under the chisel, and specimens bearing 75,000 impressions to the square inch have come from the engraver's tool.

The toughest and most lasting wood is lignum vitae. It is tougher than steel, and will outlast brass. It is used now on our great warships for bearings, in which to run the shafts of the immense machinery; and the shafts usually wear out long before the lignum vitae bearings do. The wood is a dark gray, with a thin, smooth bark, and a stick of it vies with a stick of lead in weight.

Sometimes timber has been known to last 1,000 years. The roof of Westminster hall is over 450 years old. In Sterling castle are carvings of oak well preserved, after 200 years. The trusses of the roof of the basilica of St. Paul, Rome, were sound and good after 1,000 years of service. Piles in a perfectly sound state were dug from the foundation of the old Savory castle, after having been down for 650 years. Timbers of tamarisk wood in a perfect state of preservation have been found in the ancient temples of Egypt in connection with stone work known to be at least 4,000 years old.—New York Mail and Express.

NOT WANTING A JOB.

When the late W. E. Gladstone was chancellor of the exchequer, one day he was in the shipping department of the government office, getting some information and figures for the coming budget. While thus engaged a Sunderland shipowner called to see Mr. Lindsey, the then member for Sunderland.

While waiting for Mr. Lindsey to come in the shipowner got his eye on Mr. Gladstone, and was watching him closely. After doing so a little while he thus addressed him: "Thou seems a good writer and clever at figures. I'll give thee £10 a year, and that's an offer thou'll not get every day!"

Mr. Gladstone thanked him, and said he would see Mr. Lindsey. Just then Mr. Lindsey entered. Then Mr. Gladstone told Mr. Lindsey of the offer his friend had made him. Mr. Lindsey said it was a very good offer, but he did not know if Mr. Gladstone could be spared. Anyway, he had better introduce them. Turning to his friend, the shipowner, he said: "Allow me to introduce you to W. E. Gladstone, chancellor of the exchequer—Mr. So-and-So, Sunderland." The amazement of the shipowner cannot be described.

The grand old man laughed immoderately.—London Answer.

DUSKY NEW WOMEN.

Females of an Arab Tribe Who Go Unveiled While Their Men Cover Their Faces.

Many an Arab lady never leaves her house from the time she is married until she is carried out to be buried, says Pearson's Weekly. A woman of the middle class is allowed more liberty, and occasionally goes out for walks, accompanied as a rule by a servant.

The poor creature is enveloped in masses of white drapery, which make her look like a walking bundle, and in front of her face she arranges a large black scarf embroidered with blue, red and white flowers. It falls low in front, and even by holding up the ends, she cannot see more than a foot or two of the road before her. I often wonder that she does not get run over when she goes out alone, for I am sure she needs a dog to guide her quite as much as any blind man. Servants and other women of the lower classes wear pieces of black crepon wound tightly round their faces, leaving just a slit for their eyes to peep through, and they are equally muffled up in white draperies. Seen from a distance, they might be men with masks or thick black beards, as in Arab countries it is by no means easy to tell a man from a woman at first sight. The older and uglier a woman is the more prudish she seems to be about covering up her face, which, after all, is rather considerate on her part. Even the greater number of negroes wear the yashmak, but the Bedouin women never do. Indeed, I am told that in the interior there is one Arab tribe whose men wear veils, and whose women go about with their faces uncovered. These are probably the "new women" of Africa.

A BOY HERO.

The Pittsburgh Youth Who Fought at Manila and Met Admiral Dewey.

One of the heroes of the battle of Manila is a 13-year-old boy, who is popularly called "Boots" by his comrades. "Boots" lately returned on the transport City of Para, and has had the distinction of having had a personal interview with Admiral Dewey, who gave him a free trip to Hong-Kong on the Olympia because of his services in the siege of Malate and the fight before Manila. He is the boy who came from Pittsburgh with the regiment. The men smuggled him aboard the transport, but he had hard luck, as he fell down the hatchway on the third day out and broke his arm. He was all right when Manila was reached, and in the trenches before Malate he carried water and ammunition and paid no attention to the bullets. As he said: "There was no chance to dodge 'em, they came so quick." He was among the first to enter Manila with a captured Spanish rifle, which he brings back with him. On August 13 he learned that the Olympia was to go to Hong-Kong, so he determined to make the trip. He boarded the ship and asked to be shown to the admiral's cabin. Dewey was sitting at a table with the captain of the ship.

"Boots" said: "I salutes and says, 'Admiral, I want to go to Hong-Kong,' and he says, pleasant like: 'Well, my boy, you come aboard and we'll take you!'"

He was 13 days on the Olympia. When he got back to Manila Col. Hawkins feared that he might catch the fever, so he sent the boy to New York on the transport.

FORMOSAN CITY ABANDONED.

Residents of Plague-Stricken Teckham Are Compelled to Leave It.

The Japanese government has ordered the destruction of the city of Teckham, Formosa, and the removal of all its inhabitants to a new location. The city is situated on the northwest coast of the island, and has been frequently subjected to pestilence. In 1896 and 1897 plagues visited Teckham with enormous fatality. This fact being called to the attention of the government, an investigation was ordered by sanitary experts, who reported that the city was built upon a swamp, whereupon an order was issued to the governor to select a new location as convenient to the old as possible, where the natural conditions were healthful. A new city was laid out, and each property holder in the old one was assigned a site that corresponded in area with the one he occupied at Teckham and was given 12 months to move his buildings and belongings. Sewers, railroads and sidewalks, public buildings, water-works and all other public improvements were laid out by the government in the new city without expense to the people, but they were required to pay the cost of the removal of their own property. Most of the houses and other buildings in Teckham are built of very light wooden material.

INCLINED TO FALL

Most of the Active Coppers Show Weakness—Wheat's Big Drop.

The trend of the copper market yesterday was downward, and most of the active stocks closed at lower figures than they did the day before.

Baltic continued slipping away and fell 3/4 yesterday to 26; it was quoted at one time still lower but rallied slightly.

Osceola advanced 1/4 Monday, dropped three of it yesterday and closed at 35 1/2.

Tamarack advanced five to 230. Paine, Webber & Co. said yesterday in their daily copper letter:

"Boston, Aug. 15.—London came a trifle weaker this morning and closed steady at unchanged quotations. Up to 12:30 p. m. 12,851 listed shares changed hands.

The most active were Baltic, Bingham, Centennial and United States. After opening, which was fairly steady, prices ran off but by noon had steadied and generally recovered the losses made.

Baltic opened at 26 1/2 and declined to 25 1/2, but recovered to 26 1/2. The general market closed rather dull. United States Mining on the contrary was active and strong.

The Baltic assessment of \$3 is payable Sept. 18. Wolverine today declared a dividend of \$2 payable Oct. 2 to stock record Sept. 21. Books close Sept. 21 and reopen Oct. 2. Sales of active stocks yesterday were:

Arctic, 1,205; Bingham, 3,200; Butte & Boston, 350; Centennial, 6,690; Franklin, 200; Mass, 110; Mohawk, 50; Old Colony, 161; Osceola, 165; Parrot, 200; Quincy, 20; Sante Fe, 2,200; Tamarack, 5; Tecumseh, 10; United States Mining, 20,000; Utah, 555; Victoria, 100; Wyandotte, 155."

Wheat took a decided drop yesterday, the options following their gains of 1 1/2 and 1 3/4 respectively with a fall of 1 1/2 each. September closed at 70 and December at 72 1/2.

F. G. Logan said yesterday in his daily grain letter to Paine, Webber & Co.:

"Chicago, Aug. 15.—Wheat—Liverpool came dull and 1/4 lower, which was an intense surprise to all, the probable explanation being the number of cargoes off the coast, presumably for sale, numbering fourteen.

Liverpool spot wheat was firm for hard Kansas and La Plata varieties, the former 2d higher and the latter 1d up. Bradstreet's showed a decrease for the world's visible of 1,562,000 bushels.

Weather in the northwest has been favorable and there is an inquiry from that quarter for men to handle the crops. The Minneapolis Journal made its estimate yesterday of 157,000,000 bushels for the crop of the three states which we think is hardly warranted by the facts as judged through other eyes.

Conservative elevator people are taking a matter of about 25,000,000 bushels from that figure. The east has talked of some inquiry on the decline, both Philadelphia and New York reporting some acceptance. Flour sales by two firms for domestic account yesterday at Minneapolis were 32,000 barrels and the new wheat is beginning to arrive there, fifteen cars being the total today.

Primary receipts are less than the shipments, they being 520,000 compared with 630,000 bushels; clearances for the day, 264,000 bushels. Shorts on the last two days' advance have pretty well covered

up and some eleventh hour bulls were busy today disposing of contracts with the natural result that a decline took place which was only in order considering the foreign weakness; but we still believe, as heretofore, that less than a 500,000,000 bushel crop in America means higher prices than those now prevailing."

A FINAL OFFER.

A Valuable Opportunity is Passing Beyond the Reach of the Citizens of the Northern Peninsula.

The Milwaukee Sentinel is about to withdraw its offer of the Century Dictionary and Cyclopaedia at wholesale prices. This is because the few sets that were left for distribution in the Northern Peninsula and vicinity have nearly all been taken. When the opportunity was first offered in this locality, a great many people joined the club, and this left but few sets for distribution at this time.

In the meantime the Century has become exceedingly popular for those who secured sets when it was first offered have advertised its merits among their friends. Today there is probably no reference work so much sought after as the Century Dictionary and Cyclopaedia, and the withdrawal of the Sentinel offer will disappoint many persons in the upper peninsula.

Persons who have been intending to write for one of the sets and have been putting the matter off must do so no longer. They should write today, for this is the final offer, and to take advantage of it means a great saving of money and a very easy plan of payment. There are still a few sets left, and the Sentinel will allot them to the first to apply.

LOTS OF RESORTERS.

Hay Fever Sufferers Are Beginning to Come to Swell the Crowd.

Secretary Harris of the Citizens' committee says that resorters are coming in now on every train and that the city will soon have more summer visitors than it has had for years. All who apply to the Citizens' committee are being provided with hotels or boarding places as they desire. Yesterday a party of professors and students of the University of Chicago arrived and will spend some time in and about Marquette studying botany. They are quartered at Mrs. McCormick's, corner of Michigan and High streets.

The party includes Dr. Cowles, Messrs. Whitford and Livingstone, Mrs. Maury, and the Misses Maury, Tarrant, Macrea, Chapin and Waller.

The first of the hay fever sufferers are beginning to come and in a very short time the whole lot of them will be here. At least 500 are expected and when they arrive the accommodations of the city will be taxed to the utmost.

VESSEL MOVEMENTS.

PASSED THE CANAL. Sault Ste. Marie, Aug. 15.—(Special.)—Up—Osceola, Corning, King, 9:30; Black Rock, 9:50; Viking, Vinland, Ketchum, 11; Mariposa, Martha, 12; Hoyt (whalebacks), Eureka, 1:30; R. Erickson, Corlies, 2:30; Cumberland, 7:30; Choctaw, 8; Geo. Gould, 10; Manhattan, 10:30; Gilbert, 11:30; Wallula, Masba, Mayot 12; Mariska, Manda, Odes, 1; Kalkaska,

Fryer, 1:30; Pasadena, Holland, White & Friant, Orion, Wanhaushene, 2; Ranny, Pentland, 3; Ward, 4; Majesty, Sitka, 4:30; Business, 5:40; Quito (whaleback), 7, p. m.

PORT LIST.

Arrived—Pratt, Athens, Cadillac, Voluntee, Mitchell, Chickamauga, Columbia, Griffin, Choctaw, Manhattan. Cleared—Chickamauga, Griffin, Cleveland; Pratt, Athens, Cadillac, Ashtabula; Voluntee, Connaut; Mitchell, Buffalo; Columbia, Erie; Choctaw, Lorain.

CITY BREVITIES.

Weather forecast: Partly cloudy; brisk southeast wind. Yesterday's temperature: 7 a. m., 62 degrees; noon, 68 degrees; 7 p. m., 63 degrees; maximum, 69 degrees; minimum, 62 degrees.

W. T. Potter was down yesterday from Ishpeming. George Dizari was down yesterday from L'Anse. Mrs. Charles Butts of Kenton was a Marquette visitor yesterday.

John F. Schlinder, Miss Jessie Schlinder and Miss Irma Elser, of Milwaukee, are stopping in the city. Officer Humes passed another comfortable day yesterday and continues doing as well as could be expected.

Invitations have been sent out for the next meeting of the Shriners of Ahmed temple, which will be held here Aug. 24. Joe Carroll is making one of his periodical business visits to the city. He is accompanied on this trip by Mrs. Carroll.

Marie Flering, the lady bicyclist who was hurt Monday night, proves to have had her shoulder dislocated. She will leave for home in a day or two. Superintendent J. C. Hammond and wife went up to Negaunee yesterday to spend the evening with their friends Professor and Mrs. F. D. Davis.

Petitions for the determination of heirs in the Charles D. Wick, Lillie A. Crowell and Charles L. Camp estates were filed yesterday in the probate office. A civil service examination for post-office clerk and carrier will be held in this city Sept. 2. Applications must be filed with the secretary of the local board by Aug. 28.

Mr. and Mrs. L. D. Rose of Two Harbors, Minn., who have been visiting here during the tournament, left for home yesterday. They were accompanied by Mrs. H. Vandenberg, who will pay them a visit.

Judge Cray had two more wags, the last of the suspects, up before him yesterday. There being nothing against the fellows except the lack of visible means of support, they were released with injunction to get out of town.

Don M. Dickinson of Detroit, Dr. Henry Hooper and daughter and Mrs. Black of Chicago were among those who went up to the Huron Mountain club on the city of Marquette yesterday.

Licenses to wed were issued yesterday by County Clerk Ross to Albert Holm and Jennie Olson, the former of Ishpeming and the latter of Carlsberg; to John Root and Mary Patten of Negaunee; to Joseph Radda of Ishpeming and Laura Hampton of Negaunee; to August Au-

gustson and Amanda Maki, both of Republic, and to William Pascoe and Mary Elizabeth Davis, both of Ishpeming.

Martha Hogan and wife of Marinette, Wis., who have been taking in the tournament and visiting friends, left for home yesterday. Mr. and Mrs. Hogan are running the American house in that city.

The M. I. A. tea, which was to have been held this afternoon, has been postponed and will be held Friday in Felix hall from 4 till 6. All members and those who would like to become members are invited to be present.

MUSIC STUDENTS.

Music students can find pleasant furnished rooms, with board if desired, and a separate music room with use of piano, at 435 Lincoln avenue, Detroit, near three street car lines. House new and with all modern conveniences. Address, Mrs. J. R. Devereaux, 435 Lincoln avenue, Detroit. (8-14-3f)

AUGUST FLOWER.—"It is a surprising fact," says Professor Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used GREEN'S AUGUST FLOWER than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that GREEN'S AUGUST FLOWER is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." SAMPLE BOTTLES FREE at Stafford's drug store. Sold by dealers in all civilized countries.

SPECIAL STOCKHOLDERS' MEETING. Hancock & Calumet Railroad Company. —Certain stockholders owning more than one-fourth of the capital stock of the Hancock & Calumet Railroad company, having requested the calling of a special stockholders' meeting for the purpose of considering and acting upon a proposition heretofore made at the last annual stockholders' meeting, to lease or buy the property of said company together with all its assets, a special meeting of the stockholders will be held at the office of the President, 301 Nester block, Marquette, Mich., on Tuesday, the 5th day of September, 1899, at two o'clock in the afternoon, to consider such proposition and such other business as may properly be brought before the meeting. Marquette, Mich., July 31, 1899. A. E. MILLER, Secretary. (8-4 9-4)

LORETTO ACADEMY,

Sault Ste. Marie, Mich.

Young ladies' boarding college, incorporated by laws of Michigan, under direction of Ladies of Loretto, brick and sandstone building, beautifully situated on spacious grounds in residential quarter of the city; commanding a splendid view of landscape and river scenery, including the world-famed Soo Locks and St. Mary's Rapids. Classical, English and optional courses, French, German, etc. Stenography and Typewriting. Special attention paid to music and languages. For particulars address

NIGHT CALLS PROMPTLY ATTENDED TO

(8-1-1f)

CUT IN TWO.

CUT IN TWO.

We shall place on sale this (Monday) morning a lot of Fine, Colored, High-Priced, Shirt Waists--Organdies, Satin Stripes, cords and plain effects at just one-half the marked prices:

\$5.00 WAISTS FOR \$2.50.

\$4.00 WAISTS FOR \$2.00.

\$3.50 WAISTS FOR \$1.75.

\$3.00 WAISTS FOR \$1.50.

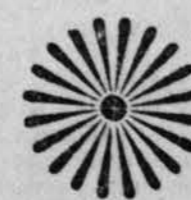

We Shall Continue the Quarter-Off Sale On the Cheaper Waists This Week.

WE HAVE ONLY A FEW TAILOR-MADE SUITS LEFT. SOME NUMBERS OF THESE THAT WE HAVE BEEN SELLING AT \$20.00 WE OFFER THIS MORNING AT \$10.00.

We call attention to our line of Satin Back Velvet Ribbons so much used--we have the wide black in stock at popular prices. Our line of Liberty Silks, Chiffons and Mousseline De Soie, in both Black, White, Cream and colors, is complete and are splendid values. We place on sale this morning a large line of Petticoats just bought at a little over 50 cents on the dollar and will offer them at wholesale price--the best opportunity to get a skirt at actual wholesale price--only one hundred in the lot. Beginning this afternoon and continuing during the week, we shall have with us two ladies from Chicago, who will exhibit a fine collection of art needle work and hand painting. The ladies of Marquette are cordially invited to visit our salesrooms and inspect this work.

Van Alstyne's OPERA BLOCK DRY GOODS HOUSE

WANTED:

Men to Make Us Room!

See Below:

Some few months ago, before the manufacturers boosted their prices because of the increased cost of material, we purchased a large line of fall goods. They are coming now—sooner than we figured on—and we find we must make room for them. To do this, we have inaugurated a grand clearing sale, cutting the prices on all summer-wear goods to just about actual cost; for instance: \$4.75 buys a man's all-wool suit that formerly sold at \$6.00 and was cheap at that. A call will, we think, convince you that this is a bonafide sale—not an advertising dodge.

NOT TO BE BUILT THIS FALL.
ERECTION OF THE NEW DIVISION STREET SCHOOL WILL BE DEFERRED UNTIL NEXT YEAR.

As was expected, the new Division street school building, to provide for the construction of which bonds were voted a short time ago, will not be erected this year. The estimates submitted for the rough work on the structure showed that it could only be completed and fitted up for a sum much in excess of the amount that would have been required in past years. As the school board does not wish to incur the extra expense of the increased cost of materials and the higher wages of labor the building of the school will be postponed at least until next summer.

There is some talk of the advisability of laying the foundations of the structure this fall, so that all will be in readiness for an early start on the main building next year. The board has not fully considered this proposition, however. Much time could undoubtedly be saved by doing the work before the snow flies, and the new building could be ready shortly after the opening of the fall term in 1900 if the foundations were ready in the early spring. It is probable that the board will decide to have the foundations put in this fall.

Accommodations outside of the regular buildings will have to be found for the coming year. Last year there were special schools in the Baptist church, the Salisbury M. E. church and the school room of the Swedish Lutheran church. The same extra quarters will be required this year. It is not unlikely that other rooms will have to be fitted up for pupils, as it is expected that the fall enrollment will be the largest in the history of the schools. The board does not anticipate any trouble in renting the rooms used last year, and as they are fitted up the expense will not be very great. The basement rooms in the High street school which the board hoped to be able to vacate will also have to be used.

The board has decided to postpone work on the new structure with the greatest regret, as the accommodations it would furnish are urgently needed. Even if construction were started at once it would hardly be possible to complete the new building before the school year was finished. Next year care will be taken to get at the work early and the building will be ready for use at the beginning of the fall term, or very soon after.

The teaching corps for next year has been engaged. In spite of the fact that it was generally believed that there would be many changes consequent on the resignation of former Superintendent Hardy, the number of new teachers will not be as large as last year. In the fall of '98 fourteen new teachers came to the city. This year there have only been eleven changes up to date. A couple of the teachers who left were members of the high school corps. Matrimony was instrumental in bringing about some of the changes and three young ladies who were here last year have resigned to take upon themselves the cares and duties of wedded life.

With the engagement of Mr. NeCollins as superintendent the teaching corps was filled out. All is about in readiness for the fall term. Mr. NeCollins will arrive here about a week before the opening. Meanwhile he will be in consultation with Mr. Hardy, who knows the exact condition of the schools. The board is well pleased with its selection of Mr. NeCollins and the conviction the right man has been found is growing stronger. He has fine recommendations. Without solicitation L. L. Wright of Ironwood, who was prominently mentioned for the position, wrote a letter in which he spoke highly of the choice of the board.

What little work was required about the various buildings to put them in first class shape for the fall opening of the schools is about completed and they will be ready in September. An extra large enrollment is looked for this year and it is believed that the largest number of pupils that ever attended school here will receive instruction the coming year.

DANIELS IS A KANSAS MAN.

It is stated by a person here, who asserts that he knows very well what he is talking about, that the real name of the sprinter who raced Ducette Friday and Sunday last, and who has been sojourning here under the name of D. J. Daniels, is Charles Beattie, who is a noted Kansas sprinter. It is known that Daniels is an assumed name of the local sprinter, as Ducette is of the man who beat him in his Friday in the 150-yard dash at the tournament. Beattie, the sprinter who is said to be one and the same with Daniels, is a well known professional with a record of 9 3-5 in the hundred yards and 14 4-5 in the 150 yards. The identity of the men is hardly an important question, nevertheless it is one that is attracting a great deal of attention here. The local sports still incline to the belief that Ducette and Maybury are the same, although some parties think that the man who appeared at Marquette as Ducette is Wefers.

CONSIDERING A PROPOSITION.

Two weeks ago the miners employed at the Section 21 mine of the Lake Superior made a formal demand on the management for the same pay the miners at the Norrie are receiving. The Norrie mine now being operated by the Oliver company, which has also obtained control of the Lake Superior property. The company offered to pay the Norrie scale provided the men will work ten hours each day, the same as the Norrie miners, the eight day hour being in vogue at the Lake Superior mines. The men quit work yesterday to give the proposition submitted by the company consideration, and will probably decide what to do about it today.

SCANDINAVIAN PICNIC SATURDAY

The Scandinavians of this city will unite in giving a grand picnic at Pearce's grove next Saturday. The Scandinavian society, under whose auspices the affair will be held, will form in line of march at its hall on Second street and parade the principal streets with the

City band at its head. The parade will stop at the D., S. S. & A. depot, where street cars will be taken. The band will stay at the grove all the day and render selections at short intervals. Refreshments will be served during the day and there will be various amusements. In the evening there will be a dance which will be given on the pavilion, the band furnishing the music. The grove will be lighted with electric lights and all provision will be made for the people's comfort. It is expected that the attendance will be very large.

ISHPEMING IN BRIEF.

John Thoney of Marquette was here yesterday.
S. W. Osgood of Houghton was here yesterday.
M. A. Griffin has some young pigs and a couple of milk cows for sale.
C. T. Hampton is expected home from a visit to Chicago and Boston today.
Bert Fisher, the copper country runner, has been here the last few days.
Mrs. Gibbs, a sister in law of Mrs. Dr. Andrews, arrived here yesterday from Washington, D. C.
P. F. Small and Miss Nellie Bright were united in marriage at St. John's at 7:30 this morning.
P. J. McGinty will be in the recorder's office for the next two weeks while Recorder Small is absent on his wedding tour.

Miss Dell Haslam arrived home yesterday morning from a six weeks visit in Omaha, Minneapolis, Duluth and other western points.
Miss Bessie LaLonde left Monday evening for Marquette, where she took a boat to Duluth. She will reside in Minneapolis the coming winter.

R. D. Ewing is about to leave for Escanaba, where he will assume charge of the public school system. He has been visiting here the last few weeks.

Mike Griffin had some samples from the explorations at Section 16 here yesterday. He says the property is looking good and that assays are showing up well.

Reserved seats for "Josh Simpkins" will be placed on sale at Tillson's at fifty cents this morning. The show comes well recommended and should draw a good house.

A pavilion party at Presque Isle will be tendered the young people of this city this evening by Mrs. Barbour in honor of the guests who are now visiting here. The party will go down on the L. S. & I. train.

Jens Leregen has purchased the residence property at the corner of Third and North streets now occupied by Ed J. Butler from A. L. Smith for a consideration of \$2,500. He may reside there himself.

Yesterday was the regular meeting day of the Country club and the usual number made their way to that resort. A piano has just been placed in the club house which adds greatly to its attractiveness. New members are being added right along and it is a most flourishing institution.

Mrs. Sam Huot and her son Napoleon left Monday evening for St. Joseph, where they will visit Mrs. Huot's parents, whom she has not seen for twenty-four years. They will be gone for three weeks. Mrs. Huot has four brothers and three sisters married and settled in St. Joseph whom she will also visit.

Two trick bicycle riders are giving nightly exhibitions at Union park this week. Their work is wonderful and some of their feats marvelous. They have gotten a good way from the city, however, and although the park is lighted with electricity for the occasion people hesitate to take the long trip to see the exhibition.

The Woodmen and Royal Neighbors of America decided to hold a grand ball here at a meeting held Monday night. The affair will come off about the middle of September. It will be held at Anderson's hall under the joint auspices of the two orders as a benefit for the Royal Neighbors. Committees will be put in charge of the arrangements.

James Fayle fell seventy feet down a shaft at the Lake Angeline mine yesterday morning about 9 o'clock and, marvelous to relate, his injuries were only of a trifling nature. He was working in one of the lower levels when he took the long drop. His fall was unbroken and a scalp wound and bruises about the body and legs were the extent of his injuries. He was cared for at the Ishpeming hospital and will be about shortly.

SPAIN'S GREATEST NEED.

Mr. R. P. Oliva of Barcelona, Spain, spends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed, only 50 cents. Sold by The Stafford Drug Co.

A yard man can find steady employment by enquiring at The Nelson House, Ishpeming. John P. Outhwaite. (3-3-tf)

FOR SALE—House and lot, corner of Division and Lake streets, now occupied by E. Cronin. Apply to Cornelius Kennedy. (6-16-tf)

FOR RENT—A fine store room, suitable for any business. Situated on corner of Main and Bank streets, Ishpeming. All conveniences, including steam heat. H. H. Meldon, 106 Bank street. (6-27-tf)

"Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwell, Valley street, Saugerties, N. Y.

MICHIGAN'S METROPOLIS.

THE GREAT AND GROWING CITY OF THE STRAITS.

All Roads Lead to Detroit—Practical Applications Worth Weighing by Our Readers.

In 1897 the conventions held in Detroit brought that city 100,000 visitors. Last year the number reached 75,000, and this year it will amount to probably 250,000. These visitors are charmed with Detroit and very many will come again. At each recurring visit they will note improvements, progress, and continued growth in everything that makes up a great city.

Of the 15 largest cities of the country, Detroit stands second in percentage of growth from 1880 to 1890. Its percentage of increase in that decade was 76 9-10 per cent. The present assessed value of Detroit's real estate is over \$169,000,000 and of her personal property over \$38,000,000. Detroit is a beautiful, enterprising and solid city. Her merchants and manufacturers keep abreast of the times in their displays of stocks and staple articles, and buyers need seek no farther than her hospitable limits to find anything they want, and of the best. The firms below, leaders in their lines, invite the trade of our retail dealers and all others interested. The promptness and courtesy which have built up these establishments is the best recommendation we can offer for them to our readers.

BANKS.

THE PEOPLE'S SAVINGS BANK.
Oldest Bank Under State Laws in Michigan. Established 1871.

The End Is Drawing Near.

It was only a few days ago that The Milwaukee Sentinel commenced the final distribution of the sets of The Century Dictionary and Cyclopaedia in the Northern Peninsula, and already the end is in sight. The opportunity offered is a valuable one, and it is evident that the work is in great demand. Persons who join the Sentinel Century Club each obtain sets of The Century Dictionary and Cyclopaedia at prices which enable them to save many dollars on the cost of this indispensable work, and on terms which bring it within the reach of everyone. But Mining Journal readers have availed themselves of the opportunity so eagerly that already nearly all sets laid aside for them have been taken--only a few more remain. We knew that many persons have wanted to buy The Century ever since its publication, and have been prevented from getting it only by its high price, but we had no idea that there were so many Century hunters in the territory where the Mining Journal circulates. It is apparent that those persons who have already secured the work have been telling their friends of its wonderful usefulness in their offices and homes. The few sets--there was only a small number of sets allotted for this distribution--have been claimed in less than half the time we expected. We will therefore soon have to announce that they are all gone.

This is a flood-tide opportunity. Do not miss it. The Century Dictionary and Cyclopaedia at a big saving and on easy monthly payments.

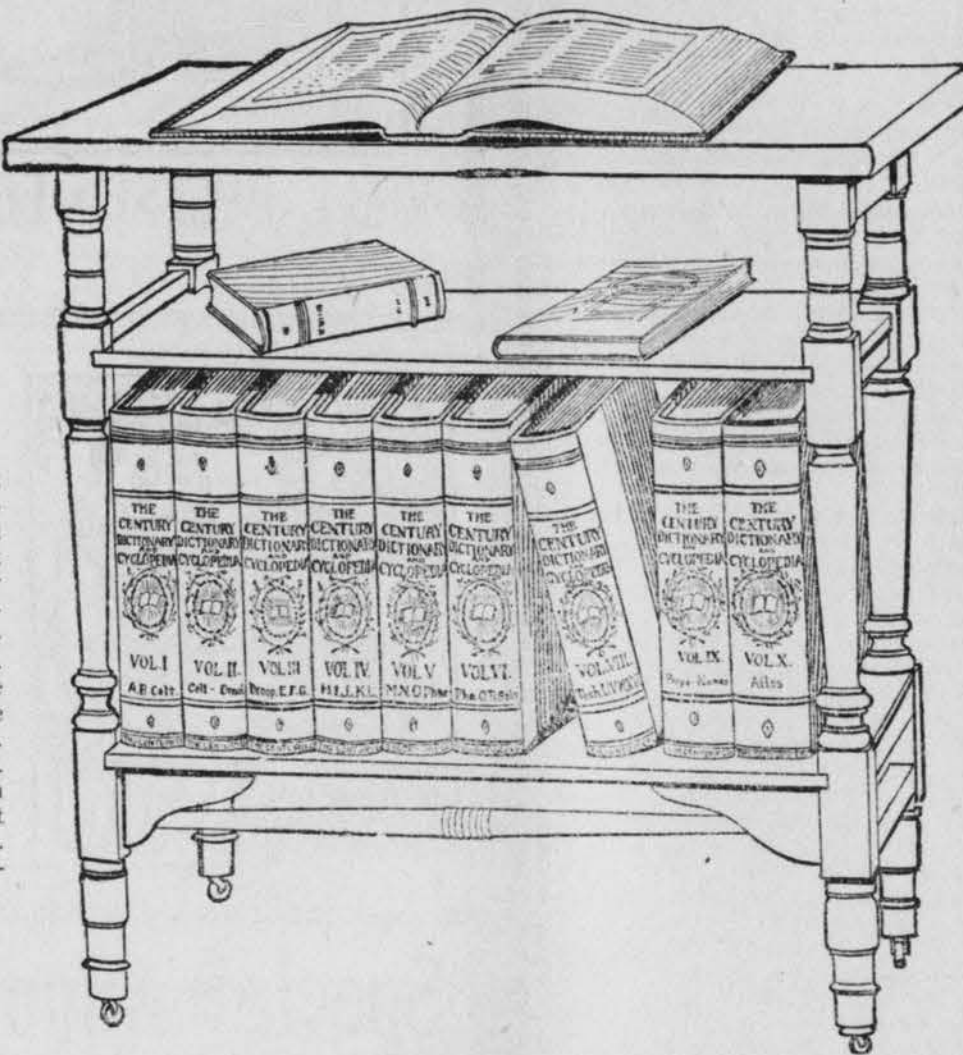

The Century Dictionary and Cyclopaedia is the greatest work of reference that the world has ever seen--it is equivalent to a reference library of over one hundred volumes. It is now used in preference to all other encyclopedias and special works of reference in the universities and law courts of this country and Great Britain. It treats of every subject. It contains 300 beautiful maps and nearly 5,000 splendid illustrations. Wherever the English language is spoken The Century is accepted as the highest authority. It costs over one million dollars to produce. Five hundred of the world's best scholars were engaged in its preparation. It is splendidly printed and bound. The printing was done by De Vinne. The paper is of the very best quality, and was especially manufactured to display the beautiful illustrations. The leather is made from the finest imported Morocco. The gold stamping and embossing on the volumes is done with consummate skill. The mechanical side of the work is perfect throughout, and is in keeping with its high scholarship. This is why The Century is high-priced work, and is what has kept it out of the homes and offices of many who have long desired to own it. It is this barrier of high price that The Milwaukee Sentinel has temporarily removed for Mining Journal readers.

OUR OFFER.

By an arrangement with the publishers of The Century Dictionary and Cyclopaedia the Milwaukee Sentinel is now completing a co-operative club, through which it can supply a limited number of readers and friends with sets of The Century Dictionary and Cyclopaedia at the lowest wholesale prices. Each member of the club thus secures a single set of this indispensable work at a saving of about 40 per cent. of the price at which it is sold everywhere. In addition he may pay in monthly payments, the set delivered when the first payment is made. Members may take more than a year to complete their payment if they desire. As a mark of special courtesy The Sentinel announces its readiness to receive from Mining Journal readers the application for memberships necessary to compete the Northern Peninsula membership in the club. The sets available for this locality were necessarily few and they are now nearly all gone.

If you want further particulars write to us today.

Those who wish to secure The Century Dictionary and Cyclopaedia through our Century club should write us without delay. The publishers supplied us with handsome illustrated pamphlets of the work, showing its wonderful arrangements, its illustrations, and its maps. While they last, these will be mailed free of charge to all interested persons who write for same. Use the adjoining information request.

The Mining Journal, Marquette.

Please have sent me illustrated pamphlet of The Century Dictionary and Cyclopaedia, with fuller information regarding the Century Club, whose members secure the work at special club prices and on small monthly payments.

In and About Negaunee.

ARE GROWING TOO BIG.

A NEGAUNEE MAN THINKS THE ANNUAL FIREMEN'S TOURNA-MENT SHOULD BE HELD WITHIN LIMITS.

A resident of this city who is an enthusiastic believer in the usefulness of the U. P. Firemen's association expressed himself forcibly to the reporter yesterday on the extreme to which the tournament cities have been going lately to insure the success of the annual meetings. He characterized the tendency to put big sums of money into the programs as dangerous to the association, and voiced the fear that unless it is curbed the windup of the association is in sight. "The pace is too hot," he said, "to be kept up. Ever since the first annual meeting each city that has been selected for a tournament has striven to outdo the place that had the meeting the previous year. Unless something is done to check it this competition will continue. If it does I am afraid the finish of the association is in sight. Marquette's tournament cost over \$5,000. I presume that Calumet will put up a program and embellish the village with decorations that will cost from \$8,000 to \$10,000. The question will then be what city will want to better this record? I venture to predict that no city will be looking after the tournament very eagerly next year. There is no place that will feel equal to the task of excelling or equalling what Calumet will do, and every city would hate to put up a tournament in any way inferior to the preceding one. A slump back several notches would not be satisfactory to the visitors, but how can the hot pace that has been set be kept up? Something must be done if the dissolution of the association is to be avoided. The tournament should be uniform in the extent of preparations so that the medium-sized cities might have the meeting without being afraid that their shows would be inferior to those of larger places. This matter is most important and should be given thought and attention by every fireman who enjoys the annual meeting and who has the interests of the big association at heart. Of course fine decorations and elaborate special features are most entertaining, but they are not essential. A limit on expenditure could be set which would allow of ample preparation for the tournament and which would still be small enough to bring the tournament within reach of the smaller cities. The most important part of the tournament is the races, and the mingling of the members of the various departments. For those features the visitors go to the tournament city. The attendance of outsiders would not be reduced by a curtailment of the expenditures and everything would be as satisfactory as it has been in the past few years."

There is much that is worthy of attention in these suggestions. The gentleman who was speaking sized up the situation pretty well. Numerous people here have been talking along the same lines the last few days, including a number of the firemen. The association is recognized as a fine thing and any condition that seems to threaten its welfare and endurance is given thought here, as well as all over the peninsula.

AT WORK YESTERDAY.

The construction of the stands for the Cornish wrestlers on the site of the old Gorman livery and work on the grand arch at the corner of Iron and Gold streets was started yesterday, under direction of the Sons of St. George. The rubbish has been cleared away from the site of the firm's old building and it will be an ideal place for the sport. The arch will be a massive decoration, 24 feet long, 18 feet high and 10 feet wide, and will span Iron street. It will be substantially constructed and will have an appearance of great solidity. A figure of St. George on horseback in the struggle with the dragon will surmount it. In the night the arch will be illuminated with many colored electric lights and the effect will be superb. The decorations about the city will also be generous. Private citizens and merchants are asked to do all they can to give the city a festive appearance. Displays of flags and bunting are especially desired. The committee will do everything possible to decorate the city but the co-operation of the people is necessary to make its efforts entirely successful.

AND THE END IS NOT YET.

A couple of weeks ago there arrived in Negaunee a fakir medicine man, accompanied by a handsome woman who was supposed to be his wife. The pair put up at a hotel here, from which they were expelled later for misconduct. A sporty chap here became infatuated with the woman, and captured her affections by displaying fat roll. She abandoned purveyor of fake nostrums and went to Marquette with her new admirer, where the two enjoyed the sights and scenes of the tournament. They returned Sunday evening, supposing that the disconsolate fakir had betaken himself hence, but he hadn't. Instead, he was waiting for the pair with rage in his heart and blood in his eye, and when the sport and the woman arrived here a row ensued that might have resulted in a tragedy but for the interference of persons who didn't want to see any blood spilled. The sport and the woman are still together, boarding at a private place, and the fakir is here also, brooding over dire schemes of vengeance, so a sensation is looked for before the end is reached.

INQUEST HELD YESTERDAY.

Coroner Wollmer convened a coroner's jury yesterday to investigate the cause of the death of the Finnish miner who was killed at the Queen mine Saturday, and who was buried yesterday. Two other men were injured in the same accident. The force was working in a bad place. A blast had been set, and in the hurry of getting out of the way the miner who was killed fell through a chute and was crushed by the ore which followed him. The other two men were also hurt by the fall of ore, one having an arm broken. The coroner's jury rendered the usual verdict.

Itching piles? Never mind if everything else failed to cure you. Try Doan's Ointment. No failure there. 50 cents, at any drug store.

LOCAL LACONICS.

Thomas Farrell of Escanaba was here Monday.

Gordan Murray went down the line yesterday.

The Catholic Foresters will hold a meeting at their hall tomorrow night.

Mrs. Leslie French left yesterday on a visit to her husband's people in southern Michigan.

Station Agent Barnes of the D. S. S. & A. took his visitors up to Calumet yesterday to show them the sights of the famous copper country.

A large number attended the social at the M. E. church last night which was held for the benefit of Benjamin Richards. Quite a sum was netted for him.

A lateral sewer back of the Winter & Suesse store has occasioned much trouble the last few days. It is blocked up and it seems to be impossible to remove the obstruction.

The free show outfit near the Breitung house has attracted much attention the past few evenings. There are three persons in the troupe and the people are alternately entertained and loaded down with patent medicine.

The members of Charles Towne post of the G. A. R. of this city and Ishpeming and the members of Albert Jackson post of Marquette are going to unite in a big picnic at Presque Isle Tuesday of next week. Complete arrangements for the affair have not yet been made. There will be a meeting of the local post next Friday night, when they will be perfected. The soldiers of the late Spanish war will also be invited to attend the picnic, which will be on an elaborate scale. The veterans are anticipating it with considerable pleasure and will attend in a body.

A NARROW ESCAPE.

Thankful words written by Mrs. Ada E. Hart of Groton, S. D. "Was taken with a cold which settled on my lungs; cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Trial bottles free at The Stafford Drug Co. Regular size 50c. and \$1.00. Guaranteed or price refunded.

GIVE THE CHILDREN A DRINK called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about 1/4 as much as coffee. 15 and 25c.

FREE OF CHARGE.—Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Stafford's drug store will be presented with a sample bottle of BOSCHEE'S GERMAN SYRUP. FREE OF CHARGE. Only one bottle given to one person, and none to children without order from parents. No throat or lung remedy ever had such a sale as BOSCHEE'S GERMAN SYRUP in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only throat and lung remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by all druggists in this city.

A PLAIN LETTER

From a Prominent and Well Known Surgeon in the Upper Peninsula. Office of W. H. DODGE, M. D., Hancock, Mich., August 1, 1898. Hancock, Mich., 1898. Crown Distilling Co., Cincinnati, Ohio. Gentlemen:—You ask my opinion of your Four Hundred Rye Whisky. Its purity is extraordinary.

I prescribe it, in cases requiring such an agent, because of its purity.

Very respectfully, W. H. DODGE, M. D. The purest type of the purest whisky; guaranteed ten years old. Sold at all first-class cafes and at drug stores.

Kodol Dyspepsia Cure.
Digests what you eat.
It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps, and all other results of imperfect digestion.
Prepared by E. C. DeWitt & Co., Chicago.
Stafford Drug Co.

WARNING.

We warn the trade that certain unprincipled salesmen try to sell an imitation of our famous FOUR HUNDRED BALTIMORE RYE, holding out as an inducement to the customer large profits for him to deceive the public. Kick these ventures of trade out, as their goods, like themselves, are vile. They only get you into trouble, as we will protect the public from this base fraud and our FAMOUS BRAND AT ANY COST.
Crown Distilling Company.

NOTICE TO CONTRACTORS.

Sealed bids will be received by J. H. Sawbridge, director of the public schools of Negaunee, until 12 o'clock noon of Monday, August 14th, 1899, for the building of a ward school house at Negaunee, Mich. Plans and specifications can be seen at Mr. Sawbridge's store, Negaunee, also at the architects' office. The right to reject any and all bids is reserved. Charlton, Gilbert & Demar, architects, Marquette, Mich. (8-4-10)

ROYAL Baking Powder Absolutely Pure
The Best Cough Remedy on Earth. Warner's White Wine of Tar Syrup, Consumption Cure, cures a cold in 24 hours if taken in time and does not stop a cough in one minute by paralyzing the throat, but it cures the disease and leaves the throat and lungs healthy and strong. 25 and 50 cts.

SOME CHANGES SINCE.

Old Map Which Serves to Show How Marquette Has Grown Since the Year 1857.

MARQUETTE WAS A VILLAGE WITH BUT FOUR ADDITIONS.

No Houses North of Ridge Street or West of Sixth but a Line of Them Along the Lake Past Whetstone Brook, One Railroad.

DOCKS THEN IN USE WERE PIGMIES.

In the county treasurer's office there is an old map of Marquette published about 1857 which serves well to show the growth of the city. This was only a small place then and the map is entitled, "Plan of the village of Marquette." At that time there were but four additions, the Cleveland Iron Mining company's allotment, and Hewitt's, Burt's and Harlow's additions. The old Episcopal church is the farthest building shown to the north, while a blacksmith shop a little to the south of Whetstone brook is at the far southern limit of habitation. Going away from the lake the most westerly house is at Sixth and Washington. No houses are shown on Ridge street west of Front. Along the lake shore there is nothing to the north of Lighthouse point, and only one house, just below the light, is to be seen between there and the location of the present Grace furnace dock.

WHEN DOCKS WERE SMALL.

Of docks there were three, the Cleveland Iron Mining company's pier at the foot of Superior street, the Iron Mountain company's pier running out from Main street and the dock of the Cleveland Iron Mining and Sharon companies. This ran out from Washington street and connected with a pier about in the location of the Grace furnace pier. The two first docks seem absurdly short compared with those in use here today. The Cleveland Iron Mining company's pier did not extend more than half way to Ripley's rocks, which may be seen on the map in their entirety the same as they were before they were partially blasted out. The Iron Mountain railroad company's pier was even shorter.

At the time this map was drawn there was only one railroad here, a short one built for the purpose of bringing ore down from the Jackson mine at Negawnee to Marquette. This was called the Iron Mountain railroad. It crossed the city limits between Superior and Washington, swung north nearly to the latter thoroughfare, then between Third and Front took a sharp turn downward to Superior and out onto the Cleveland Iron Mining company's dock. Another line ran out onto the railroad company's pier at the foot of Main street. A siding ran into the depot ground which was located on the half block south of Main street and between Front and Third. A machine shop and a water tank appear on this ground. Just to the north of the Iron Mountain railroad the Cleveland and Sharon companies plank road came in. This ran almost straight out onto the same companies' dock. Both the railroad and the plank road crossed Front street under a viaduct the same as the South Shore does now.

NO HILL RESIDENCES THEN.

No buildings appear on Front street north of Bluff. The first building important enough to mark it is the Sault Canal company's office. This was located on the east side of the street near the corner of Spring, though that street was not then cut through to the lake. On the other side of the street between Superior and Spring were Dr. Blaker's office and the United States land office. The latter was located at the corner of Front and Superior on the location now occupied by the Riedinger building. Dr. Jones' office appears on Spring street in about the present location of the steam laundry. The only building marked on Superior street is J. P. Pendill's store. Near the corner of Lake and Superior streets there is a group of three loosely connected buildings marked hotel.

Going down Lake street south of the docks buildings may be seen marked with the names of R. Gravaert, Barney's exchange, H. C. Staufert, Iron Mountain railroad office, H. B. Ely, S. C. Smith and the Whetstone factory. The last is located right on Whetstone brook. On the south side of the brook there is a blacksmith shop and still farther down two unmarked buildings.

On Washington street there is a school house shown between Third and Fourth.

SHALL WE DISPUTE.

The Opinions of Scores of Our Fellow Citizens?

Residents of Marquette like other American citizens, if making an investment want to be sure of getting the worth of their money. They want to know all the whys and wherefores and in a direct ratio to the value of the investment the burrow and ferret until satisfied with the collateral. Take an instance in the realm of proprietary articles. If we know of a friend who has been cured, we have some faith in the preparation; if we know of two or three our faith increases. If the cures reach scores, all well known citizens, and anyone who still maintains that there is nothing beyond ordinary merit in the said preparation can safely be left to the care of his fellow tax-payers. If he wishes to pick a quarrel with them on the question of their judgment and veracity, he has ample opportunity in Marquette to do so. Begin with this case: Mrs. Wm. Warren, 220 Jackson St., says: "I had constant pain through the small of my back at night was very restless, could find no position to lie in that was comfortable and consequently rose in the mornings feeling tired and worn out. The secretions from the kidneys were unnatural and greatly in excess. I also suffered from persistent headaches and had intense thirst, feeling as though I could not drink enough. I saw Doan's Kidney Pills recommended so highly for just such troubles and I procured them from the Stafford Drug Store. The treatment promptly relieved me of the trouble." Doan's Kidney Pills for sale by all dealers, price 50c. Mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

on the north side, and on the same side of the street just past the next block the Methodist church is shown. All through what is now the heart of the city and where every lot is occupied by a business block, buildings, as shown by the old map, were at considerable distances from one another while out in what are now the residence districts scarcely a house appears.

GLAW A CLOSE WINNER.

Defeats Ward Less Than a Wheel's Length In Six Nights.

The ladies' six night bicycle race came to an end last night, and Lizzie Glaw came in first by less than two feet over Selma Ward, with Lillie Harp a close third. The attendance was large and there was plenty of excitement. It was the prettiest race ever seen in this city. Miss Woodworth surprised her friends by setting pace several times at a fast clip that even surprised the other riders, Miss Fiering, who fell on Monday night and dislocated her left collar bone, was unable to appear on the track.

The total score for the nine hours is as follows: Glaw, first; Ward, second; Harp, third, all with 174 miles, 4 laps; Woodworth, fourth, 173 miles, 17 laps; Fiering, fifth, 155 miles, 3 laps.

As soon as the ladies' race was over Irwin Williams of Ishpeming and Peter Gaspar of Menominee rode the first heat of their five-mile race for a purse of \$50 all to go to the winner. This race is for the championship of the upper peninsula. The first mile was made in 2:37, Gaspar leading; two miles, Williams leading in 5:12; three miles, Williams leading in 7:44; four miles, Williams leading in 10:21; five miles, Williams ahead and winning in 12:49. Gaspar struck his peddle on the track and fell roundly the last curve but did not get seriously hurt. F. L. Needham acted as referee and H. O. Messier as timekeeper.

Tonight Williams and Gaspar will finish their race of two heats and there will be other special races. Harp and Woodworth will ride two miles best two in three heats, and Ben Gill and Archer LaVasseur of Marquette will also ride a race of two miles, best two in three heats. The races will start at 8:30.

TEARING DOWN ARCHES.

City Is Being Stripped of Its Beautiful Tournament Decorations.

Marquette is being stripped of the gala attire which it donned for the tournament and this morning it will wear its ordinary workaday aspect.

Nearly all the bunting and private decorations came down either Saturday or Monday, and last night Contractor Anderson took down the grand arches. At Superior street where the arch was wrecked in Friday's storm, his work consisted of carrying away the remains, and at Front and Washington one pillar was gone, having been taken away in the afternoon by a frightened horse and a delivery wagon.

It was the electric light commission's horse and wagon which did the damage. The horse was driven in under the arch just at the time the Washington street car was making the corner and the Front street car was going down hill. Being wedged in between the two cars he took fright and bolted, dragging the light wagon he was pulling against the pillar on the southwest corner of the arch and tearing it away. This left the overhead structure supported by the other three pillars and the trolley wire, a position from which it was very likely to fall and cause further damage. In running away the city rig crashed into J. C. Fassbender's meat wagon and started the delivery horse up. He took a run around onto Superior street where he was stopped. As he ran down Front street he put one of his front feet through a defective plank in one of the railroad viaducts and cut it.

Not only are the arches coming down but all the tournament business is being rapidly wound up. The various chairmen are hustling up the bills which their committees incurred and there will be a meeting in a day or two to audit them so they can be paid.

WON WITH EASE.

Superiority of Superior Gas Engines Demonstrated at Put-In-Bay.

The superiority of the Superior gas engine, which is manufactured here by the Lake Shore Iron works, is shown by the result of a race last Thursday at Put-In-Bay, near Sandusky, Ohio.

The Geneva, which is equipped with a twenty horse power Superior gas engine, beat a field of ten on a twelve-mile triangular course in fifty minutes, leaving the remainder of her competitors far behind. This is running very nearly at the rate of fifteen miles an hour and makes the Geneva the fastest power launch on fresh water, if not in the world. The boat is owned by M. Sullivan of Detroit and was handled in the race by Fred Cosford of Marquette.

Included in the list of competitors were two boats fitted with Sintz engines, one twenty-eight and the other thirty-two horse power, and one twenty horse power Morris Heights engine. The Geneva behaved admirably all through the race and was much more quickly started than any other boat entered.

CHANGE AT SUPERIOR.

Manager Evans Relinquishes Lease and the Owners Take Possession.

Hotel Superior is under direct management of the owners, L. C. Palmer and John H. Jacobs. Manager J. M. Evans has given up his five-year lease under which he was running the hotel on its fourth season and last night L. C. Palmer took control.

From now on to the end of the season, unless another manager is engaged to fill out, Mr. Palmer will officiate as proprietor. He took possession last night. Now that they have the hotel in their own hands again it is the intention of the owners to conduct it from this date forward in a manner which will please the patrons and satisfy the public.

TO CLEANSE THE SYSTEM EFFECTUALLY yet gently, when costive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers, use Syrup of Pigs, made by the California Fig Syrup Company.

There is no mistake about Suter's work. He makes the best photographs. 301 South Front street. (8-16-1m)

WILLIAM M'CRACKEN ONE.

Principal Waldo Announces First Appointment on Teaching Staff of the Normal.

SCIENCE DEPARTMENT WILL BE IN M'CRACKEN'S CHARGE.

Announcements of Other Appointments Will Come in Rapid Succession—Principal Waldo Here to Consult With Supt. Hammond.

ORGANIZING THE NORMAL FACULTY.

Prof. D. E. Waldo, principal of the new normal, arrived in the city yesterday after an absence of several weeks below, which time he has devoted to gathering a faculty about him. He has it yet to complete and after spending the remainder of the week here consulting with Superintendent Hammond, who is up here for the purpose of conducting a state teachers' examination, and some others who are interested in the success of the normal, he will return below and finish his task.

Prof. Waldo has been troubled with no lack of candidates for positions in the new school. In fact no less than 125 applications have been made and his work has been one of selection out of this large number.

STRONG CORPS OF TEACHERS.

"I have progressed so far in making up my faculty," said he last evening to a Mining Journal reporter, "that I have no hesitancy in assuring the people of the upper peninsula that the normal will have a strong corps of teachers."

The complete faculty will number seven, but so far the professor considers himself at liberty to name only one. This one is William McCracken, who will have charge of the department of science. Mr. McCracken is well known in Marquette, having taught here one year as a member of the high school faculty.

"He comes very highly recommended and I am very enthusiastic over his attainments," Professor Waldo said. "He is a graduate of the University of Michigan and has just done two years' graduate work in the University of Chicago. In addition to his year at Marquette he has taught three years at Manistee and several in Beaver Falls college, Penn. I know he is going to be an excellent man for the place."

"After I had secured him, in fact ten days after the deal was all closed, when I was down in Chicago, I met the secretary of the university board of recommendations and I told him I had secured one of his men for the normal.

"What's his name?" he asked.

"I told him, 'William McCracken.'"

"McCracken? He's fine," he said. "You couldn't have got a better man."

"The man is personally acquainted with Mr. McCracken's two years' work in the university of Chicago and knows his record elsewhere."

OTHERS TO FOLLOW.

In the next few weeks Prof. Waldo will have completed the faculty. During his stay in the city he expects to hear from at least one more teacher whom he has engaged conditionally that he has been released from his present position. Announcement of all teachers will be made as fast as the appointments are definite.

Another announcement which will be made very shortly, possibly this week, is the location of the quarters which the normal will occupy while its building is being constructed. The contractors are making good progress on that but there is no likelihood it will be ready for occupancy before the first of next year.

Prof. Waldo is stopping at the New Clifton and may be seen there the rest of the week by those who wish to interview him in normal business.

HEINRICH CONCERT.

Program for Tonight's Great Musical Event at the Opera House.

Marquette's musical public will have the opportunity this evening of hearing Max Heinrich, the great baritone, in a public recital at the opera house. Mr. Heinrich has appeared here twice before in chamber concerts, but this is the first time opportunity has been offered for the general public to hear him.

Mr. Heinrich is an artist of great ability and has a musical reputation as wide as the American continent. It is rare that he can be secured for a recital in any but the large cities. The program selected is a splendid one and will be as follows:

- "The Post"..... Franz Schubert
"The Fisher Maiden"..... Franz Schubert
"Faith in Spring"..... Franz Schubert
"The Carrier Pigeon"..... Franz Schubert
"Where'er You Walk"..... Haendel
"Spring Song"..... McKenzie
"The Hour of Dawn"..... Mendelssohn
"My Love's an Arbutus"..... Stanforth
"I Is Not Always May"..... Gounod
"O, Why So Soon the Rose Compains"..... Robert Franz
"Spring and Love"..... Robert Franz
Two Gondolier Songs.....
(a) "When Through the Piazzetta"..... Robert Schumann
(b) "Row Gently Here My Gondolier"..... Robert Schumann
"The Two Grenadiers".....
..... Robert Schumann
"Song to the Evening Stars" from "Tannhauser"..... Richard Wagner
"Allah"..... George Chadwick
"I'm Wearin' Awa'"..... Arthur Foote
"Thy Beaming Eyes"..... E. A. McDowell
"Wha't's His Heart"..... E. A. McDowell
"Danny Deever"..... Walter Damrosch

PHARMACISTS MAY COME.

Next Annual State Convention of the Men Who Compound Drugs.

Another big convention is in prospect for Marquette. This time it is the state pharmaceutical association meeting. The convention will be held some time next summer, and if secured for this place will bring about 500 delegates to the city. They will come from all parts of the state and will spend several days. Some of them will undoubtedly be induced to prolong their visit and take their annual outings here. The Citizens' committee has received word that an invitation from this place will be considered and acting on this has extended the invitation in behalf of the city.

It takes a severe matrimonial frost to kill the orange blossoms used in Rocky Mountain Tea 25 cents The Stafford Drug Co.

25 PER CENT. Reduction on all Summer Suits UNTIL SEPT. 1ST. F. L. SIMMONS, The Tailor.

WELL DRESSED FEET. Your comfort and appearance depend largely on the shoes you wear. We handle fine shoes and sell them cheap. H. F. HANDFORD. Front St., Marquette.

THE SUMMER MAN looks as neat and fresh as his sister if they have their shirts and shirt waists laundered here. Madras, percale and all kinds of fancy shirts and shirt waists keep their color and look like new when laundered by our careful methods. Bring your linen here if you want perfect satisfaction in your laundry work. Marquette Steam Laundry. (7-15-1f)

Special Announcement. I invite my customers and others to call and see the line of fall suitings and overcoatings just now received. The goods have just come in, are ready for inspection and will be sold for less money than elsewhere. A. BOULSON, Washington Street. (8-2-2w) The Tailor.

A LAWN MOWER AS AN EXERCISER can't be beat when it is one of our light and easy running mowing machines that cuts your grass evenly and leaves your lawn as smooth and velvety as if it had been shaved. Our new lawn mowers are universally conceded to be the ideal mower for those who have used them. Ball bearing lawn mowers, ball bearing sewing machines, for \$25. Call and see them. M. R. Manhard.

Spring delicacies are coming in right along now. BATHWAY & PETERS.

CROWDS Continue to Flock to See Dr. Tilney, the

WONDER WORKER. His Office Is Thronged from Morning to Night.

Many On the High Road to Recovery, Thanks to Science and Skill Those Who Were Treated In Public, Continue to Improve Daily.

A positive and permanent cure assured on all cases accepted. Now is the time to commence. Delays are dangerous. The fame of the wonder worker has certainly spread far and wide, for the sick and afflicted are coming from all over the country to consult this most remarkable specialist. The doctor does not treat all diseases, and turns away daily many who come to him. He has made a life long study of chronic diseases. With his new method of treating these cases, he succeeds where others fail. The doctor believes in keeping up with the times, and while others remain in the rut he keeps steadily advancing; hence his wonderful success. If you are sick and cannot get relief elsewhere, call on the doctor and he will give you relief immediately. All who wish to see him will do well to call early.

He treats successfully the following diseases: Big Neck, Bladder and Kidney Diseases, Bowel Complaint, Debility, Dropsy, Heart, Liver and Nerve Diseases, Rheumatism, Scrofula, Loss of Manly Vigor, all Female Diseases, Tape Worm, Sore Legs, all Eye and Ear Diseases, all Throat and Lung Diseases, Cancers, Piles and Fistula cured without cutting or pain, and all kinds of Chronic Diseases, at prices within the reach of all.

The Doctor's Office Is Now at Summit House, From 9 a. m. to 9 p. m. daily.

Consultation: Free. Saturday, August 19th, positively the last day in Marquette, when the doctor will go for two weeks to Negaunee. (8-15-1f)
