A SCORCHING HOT WAVE
at this time of the year is usually succeeded by "quite a spell" of cold weather. Chilly evenings now, and a bright fire in the grate is welcome. A small quantity of our high grade Cannel coal will take the chill from your rooms. Our hard coal for cooking or heating purposes has no equal for economy or cleanliness. Let us fill your bin now. Winter isn't very far off.

BOERS MENACING CITIES IN NATAL.
Thousands of Burghers Now Massed Along the Frontier Preparing to Strike.
THEIR NUMBER CONTINUALLY BEING AUGMENTED BY THE TRAINLOAD.
CHARLESTOWN ON THE BORDER DESERTED SAVE FOR A FEW SCOUTS.

CLASH MAY COME VERY SOON NOW.
London, Oct. 2.—The Daily News Berlin correspondent says:
According to advices from The Hague Dr. Leyds, European representative of the Transvaal, has named Tuesday as the day for a formal declaration of war by the Boers.
Dundee, Natal, Oct. 1.—The five thousand Boers now concentrated in close proximity to the frontier, it is reported, are about to attack Dundee. The most complete precautions have been taken. Charleston is deserted. All the women and children have left and there are not more than ten men now there. A locomotive is ready to bring away the railway staff.

FLOCKING TO THE FRONT.
Pretoria, Oct. 1.—While today found Pretoria somewhat more quiet, as a result of yesterday's exodus, detachments of burghers are still moving towards the Volksrust, the nearest station to the Natal border. It is expected martial law will be proclaimed Tuesday or Wednesday. Already all civil proceedings have been stopped until further orders, and another proclamation has postponed the sitting of the circuit court.

BURGHERS BY THE TRAINLOAD.
New Castle, Natal, Oct. 1.—The Johannesburg mail train, due last night, arrived this morning crowded with refugees who reported that the train was sidetracked at Standerton, Transvaal, to make way for trains carrying burghers to the Natal border. Four thousand Boers are at Sand Spruit and Volksrust, just beyond the border. The Natal burghers are being called in from the outlying stations. The local troops and carbiners are mobilizing for the defense of New Castle.

FEARS INVASION IN FORCE.
London, Oct. 2.—The correspondent of The Standard at New Castle, Natal, describing his passage from Johannesburg, says: "The train occupied nearly twice its usual time owing to stoppages to allow the passage of trains with burghers going to the front. The passengers suffered great inconvenience, particularly the women and children, being unable to get enough food, while the men were drenched with rain in the open trucks."
"When I left," he continues, "goods were being seized. So far as I can learn, there are undoubtedly at least twenty thousand armed Boers, well horsed, at different points on the border, especially in the direction of Natal. They boast their intention of invading Natal Wednesday next and sweeping the British into the sea. It certainly looks as though Natal will be invaded in force."

JOHANNESBURG DESERTED.
Johannesburg, Oct. 21.—The commanding orders are completed and the burghers are ready for the field. A large body passed through town yesterday. Business has virtually ceased. The merchants have finished barricading their premises and the proprietors of the drinking saloons expect to receive notification to close their establishments tomorrow.
A party of two hundred Germans have been notified to leave, and an Irish corps, commanded by Blake, an Irish-American, will go early in the week. The mines are paying \$5 a day, with food, to the men who will remain.
Three trains filled with armed burghers for the Natal border were this evening reported unable to leave Braamfontein owing to a large block on the line, which has disorganized the whole train service.
Two thousand passengers left yesterday by the morning and afternoon trains and nearly a thousand more last night.

MOUNTAIN PASSES SEIZED.
London, Oct. 1.—It is evident tonight that Buffalo river, northeastern boundary of Natal, is to be the Potomac of the war. In view of its strategic value, General Joubert has taken personal command of the Boer forces there, establishing a front line of pickets along the river, and has ordered the natives to drive in all stock. All the available burghers in the neighborhood have been requisitioned, with the result that two thousand have been mobilized at Wakkerstrom, the chief point of mobilization there.
From all points in the Transvaal, Natal and Cape Colony come reports of continued military activity on the frontier, and while the movements of the individual commands as yet do not show concerted plans, it is evident that the narrow wedge-like strip of Natal whose apex is crowned with the ominous name of Majuba hill, will be the center of the coming war.

CONFLICT LOOKED FOR SOON.
Late yesterday the Boers established a camp at Scheepor's Nek, near Vryheid, and they have mobilized a great force on the Buffalo river which the authorities at Dundee expect to move across the border to that spot, probably at once. It is expected that a conflict at this point will certainly occur early in the week.
At the same time the Boers are collecting a force of two thousand men under the notorious Commander Cronje in the Malani gold fields, near Mafeking.

British Beuanaland, on the opposite side of the Transvaal, where Colonel Baden Powell is stationed. It is announced that Cronje crossed the border and visited Chief Baraloi, apparently with the object of inciting him to fight. The British commissioner has ordered the chief to stay and protect the women and children, telling him he will not be allowed to fight.

ACTIVITY IN RHODESIA.
Dispatches from Tull Rhodesia, announce that another force of burghers is massed at Tletersburg, fifty miles south, and that outlying parties are posted at all drifts along the Limpopo river. In the meantime Colonel Plummer's column is moving fifty miles nearer the Transvaal frontier and has established telephonic communication to within six miles of Rhodesia, drift, on the Limpopo.
Enthusiastic scenes at all the railway stations mark the advance of the Natal volunteers.
OMINOUS DIPLOMATIC SILENCE.
London, Oct. 2.—Not the faintest hint is allowed to escape as to what diplomatic communications, if any, are passing between London and South Africa. So far as the public is concerned, the matter have not advanced since Friday. The silence maintained by both sides is regarded as ominous.
From South Africa the news is wholly concerned with the feverish preparations for hostilities. The British camp in the vicinity of Dundee consists of five thousand men, with twenty-four guns, in strong position. The Orange Free State is actively commanding.

The Transvaal government has virtually taken over the Netherlands railway for military purposes and the Natal trains are being turned back. The telegraph wires between Natal and Johannesburg have been cut since Friday.
CHAOS AT PRETORIA.
According to dispatches from Pretoria a complete chaos reigns there. The government has declared an emergency act of legislation authorizing the government banks to suspend specie payments for given periods, and has closed all the courts and suspended the English papers.
It is said there will be nearly thirty thousand burghers along the borders by Monday evening.
In Johannesburg warrants have been issued for the arrest of some fifty prominent uitlanders and journalists, but all received timely warning and got safely away.

Confirmed reports have reached Johannesburg that the first portion of the Indian contingent has arrived at Durbin, Natal.
THE ACTUAL BRITISH MOTIVE.
Were peace or war dependent merely upon the matter of sovereignty or transgression there might be some hope that hostilities may be averted at the last moment. But the Associated Press learns that apparently there is truth in what the peace party papers have often hinted at, that is to say, that the underlying motive actuating the British government throughout the negotiations has been the suppression of what they have reason to believe is a far-reaching conspiracy for the establishment of a Dutch federation from the Zambesi to the Cape. The authority for this statement is Chamberlain himself.

RUMORS OF INTERFERENCE.
Rumors of the interference of a foreign power continue to crop up, but the most sanguine scarcely believe that they would turn the British from their determination, evident from first, to attempt to compel President Kruger to submit absolutely to their terms, though speculation is rife regarding the awkward complications which might ensue by a German or Russian diversion in various parts of the globe.

CAPE TOWN STILL HOPEFUL.
Cape Town, Oct. 1.—There is less excitement here than near the frontier. Despite the alarming reports, many well-informed persons in Cape Town take the idea the Boers will take the initiative. President Kruger, it is said, does not despair of the sympathy of at least a portion of the British Liberals, and he knows that if the Boers are the first shot their sympathy will be absolutely forfeited.

MINERS CRUELLY TREATED.
MCKINLEY TO BE APPEALED TO IN THE CASE OF THE MEN PENNED UP IN IDAHO.
Anaconda, Oct. 1.—President Boyce, of the Western Federation of Miners, will immediately appeal to President McKinley in behalf of the imprisoned Couer d'Alene miners at Wardner. For the last eight days, it is alleged, all the prisoners have been kept on a bread and water diet for a trivial violation of the prison rules, and have been punished by being obliged to stand for eight hours immovable in the hot sun. For refusing to work the straw has been taken from their bunks, and they have been compelled to sleep on bare boards. No tobacco is permitted and no visitors are allowed to speak to the prisoners. It is alleged that under these unusual punishments the prisoners are rapidly breaking down in health, while some under the sun order are becoming crazed. The men have been imprisoned five months without trial, in the meantime two sessions of the district court having been held. Senator Carter will be asked to use his influence with the war department immediately.

ILLINOIS CEREAL PLANT BURNS.
DUST EXPLOSION CAUSES A \$250,000 LOSS AT BLOOMINGTON.
Bloomington, Ills., Oct. 1.—The plant of the Illinois Cereal company was destroyed by fire tonight, due to a dust explosion. The loss is a quarter of a million; insurance, \$150,000. Melvin Penn, the watchman, was crushed to death by a falling wall and Bertha Hammond, a packer, probably fatally hurt.
BLAZE AT MINNEAPOLIS.
Minneapolis, Oct. 1.—Fire today destroyed the warehouse of the Minneapolis Sash & Door company and the adjoining warehouse of the Woodward-Holmes company, causing a loss of \$80,000.

REBEL ENVOYS APPEAR.
A party of correspondents and photographers waited in the trench of the American outpost before the wrecked bridge across the river separating the two armies and at 9 o'clock a group came down the track, waving a handkerchief on a bamboo, and halted before the bridge. A bugle then sounded the "attention" and Major Shields, of General Wheaton's staff, and five soldiers, with a raised handkerchief, picked their way across the bridge.
The Filipinos introduced themselves—General Alajandino, a slender, bright-looking young man, a veteran of the rebellion against Spain; Lieutenant Colonel Orino, and Major Orbes, the latter of German blood and speaking English fluently. There soon appeared a second party of fourteen Americans marching between files of insurgent soldiers. They looked the picture of health and were dressed in new Filipino uniforms of blue gingham and were carrying monkeys and other presents from their Filipino friends.
JOE WHEELER CURIOUS.
Then General Wheeler, being anxious to see the Filipinos, forded the river, with a correspondent mounted behind the general, and the staff horse-carrying double. General Wheeler shook hands with the Filipinos and there was a general exchange of greetings, while the photographers plied their vocation across the track.
The file of barefooted Filipino soldiers curiously surveyed the line of stalwart American sentries, whose physique contrasted strongly with the little brown men, who looked too small for their guns. General Wheeler, who had no official connection with the incident, returned to General MacArthur and General Wheaton appeared at the other end of the bridge.
The commissioners and prisoners then forded the river, dismounted and saluted. General MacArthur's first inquiry was for Lieutenant Gilmore's party and General Alajandino replied vaguely that they were "in the north." General MacArthur asked if they would be released and General Alajandino replied, "I must consult with my government before answering."

TREATED LIKE LORDS.
The prisoners unanimously praised their treatment. One man said: "We have been given the best the country afforded, fine houses for quarters, servants, good food, plenty of wine and a money allowance. Aguinaldo visited us and shook hands. Three of the boys refused to shake hands with him."
Judging from the stories of the prisoners, they have been lionized by the people. They report that five sailors, survivors of Naval Cadet Wood's party, arrived at Tarlac Wednesday. Though small importance is attached to their judgment, they agree in saying that the Filipinos are "tired of the war, but will fight for independence to the last."
The released soldiers also say the idea of independence has taken firm hold of the Filipinos and they threaten, if conquered, to exterminate the Americans by assassination. Aguinaldo seemed popular among all the people the prisoners met. The country, they say, is full of rich crops. All the prisoners have stories of interesting experiences. Those captured at Calocan were marched along the railroads at night, through towns occupied by the Americans.
While Aguinaldo offered to release the prisoners in Tarlac, there is great disappointment at the fact that Lieutenant Gilmore's party failed to arrive.
OTIS AGAIN TURNS HIM DOWN.
ANOTHER FRUITLESS ATTEMPT BY AGUINALDO TO GAIN RECOGNITION OF HIS GOVERNMENT.
Manila, Oct. 1.—Aguinaldo's third attempt to shift his difficulties into the field

AMERICAN CAPTIVES GIVEN THEIR LIBERTY.
Fourteen Army Men Are Turned Over to General MacArthur at Angeles.
GILMORE AND HIS NAVAL PARTY, HOWEVER, STILL HELD.
PRISONERS UNANIMOUS IN PRAISE OF TREATMENT ACCORDED THEM.
Had Good Food, Servants and Money and Return With Many Presents from Insurgent Friends—Insurrection Waning in Mindanao Island.

GEN. GARCIA WANTS TO SURRENDER.
Washington, Oct. 1.—The war department is in receipt of the following from General Otis: "Communication, dated 12th inst., from General Garcia, commanding all insurgent troops in eastern Mindanao, expresses desire to turn country over to United States authorities and surrender insurgent arms."
General Otis also reports the capture of two men of the Nevada cavalry while on a reconnoitering expedition.

RELEASSED BY THE REBELS.
Manila, Oct. 1.—Fourteen American prisoners held by the Filipinos were given their release at Angeles yesterday, as arranged by General MacArthur. They are:
Corporal Otto Scheu and Privates Albert Rube, Otto Wagner and Peter Reilings, all of the Third infantry, captured near Balingag, July 28; Joseph MacArthur, James Boyle, William Miller, John Crinshaw, Thomas Dalin and Eli Drew, of the Sixteenth infantry, captured at Calocan, in August; Paul Spillano and Louis Ford, of the Fourth infantry; Charles Wilander, a discharged Third artillery man, captured by bandits while boating near Malabon, and George Graham, colored, an orderly of the Sixteenth infantry, who was put off a train near Malolos and immediately captured by the insurgents.

OTIS AGAIN TURNS HIM DOWN.
ANOTHER FRUITLESS ATTEMPT BY AGUINALDO TO GAIN RECOGNITION OF HIS GOVERNMENT.
Manila, Oct. 1.—Aguinaldo's third attempt to shift his difficulties into the field

DAILY MINING JOURNAL, A Morning Paper Published by the Mining Journal Co. (Inc. Inc.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00

MARQUETTE, MICH., OCT. 2, 1899

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Admiral Dewey says General Otis is an overworked man, and the jingo journals construe this as an expression of opinion by Dewey that Otis ought to be removed from command in the Philippines.

For once New York has done the proper thing and in the proper manner. The reception to Dewey was worthy of the great sea captain and the great metropolis of a great country.

By purchase of the interest of J. T. Murphy in the Evening Telegram of West Superior Kirby Thomas, heretofore editor of the paper, and Charles A. Marshall, its business manager, have become its sole owners, and it will henceforth be conducted under their joint management.

We note mention of Hon. Perry A. Powers as a candidate for the nomination for auditor general on the Republican state ticket.

Philip T. Colgrove of Hastings, who has a hankering after the gubernatorial nomination next year, is reported as saying that no man supported by Pingree can be elected.

The Progress states a fact that Republicans of this state who wish their party well should keep in mind.

The South African trouble is rapidly assuming a more threatening aspect, and the later reports plainly foreshadow war.

As to the so-called "policy of expansion," he pointed out the difference between the conditions under which we have added to our territory in the past and the methods by which the British government has increased its dominion.

Dr. Parkhurst, the professional reformer who kicked up such a disturbance in New York some years ago, is home from a run through Europe, and brought back with him a whole shipload of half-baked opinions on the state of things over there.

Freight will be received at the Tate warehouse, foot of Eighth avenue, West Duluth, for Eagle Harbor, Hancock, Houghton, Dollar Bay, Chassell, Jacobsville, Baraga, L'Anse, Pequaming, Skanee and Marquette.

Bismarck had a long head when, after the Franco-Prussian war, he allowed France to set up a republican form of government. He knew that it would only mean failure and an ultimate state of chaos in which Germany would reap the benefit.

Yes, there is something wrong, most assuredly, with a system of currency which lacks the capacity to respond to the demands of business.

Since money is essential to the free movement of business, there should be enough of it in circulation to prevent hampering stringencies in the available supply at off-recurring intervals.

At the opening of the scholastic year at Cornell university Thursday last, President Jacob G. Schurman, who was at the head of the commission sent to the Philippines to examine and report to the president and congress on the condition of civil government there, in an address that he delivered, dwelt at considerable length on the policy of territorial expansion as applied to these islands and other of the colonial possessions of Spain wrested from that country by us as one of the results of our late war with that country.

His discussion of the subject was full of thought and valuable suggestion. President Schurman admitted that a year ago he was opposed to having this government take the Philippine islands, but that since we have assumed responsibility for their future condition by obtaining a cessation of the rights over them formerly possessed and exercised by Spain, the question now is, "what shall be done with them?"

This is to be decided by the president and congress, and the American people hope and expect that it will be decided wisely and with proper regard for our interests and the rights of the people of the archipelago.

As to the so-called "policy of expansion," he pointed out the difference between the conditions under which we have added to our territory in the past and the methods by which the British government has increased its dominion.

England's supremacy in India and her foothold in Africa have been secured by invasion and conquest. Her growth has been by accretion, while ours has been up to the present time mainly by the acquisition of territory naturally belonging to us, and which had not been largely occupied by a race, or races, which had devoted themselves to its improvement.

But the most interesting portion of President Schurman's address was that which treated on our moral obligations with reference to the people of these islands. He alluded to those who hold the view that the Philippines have come into our possession by the fortune of war, and are ours to deal with as we will, for the purpose of stigmatizing it as "barbarous" and unworthy of a just and enlightened people.

The French republic is a mistake. Bismarck had a long head when, after the Franco-Prussian war, he allowed France to set up a republican form of government.

Sign power owns nothing, but there is something that it owes," he declared, explaining his meaning by saying that in virtue of the treaty of Paris we have acquired "the right to govern, or aid in governing, the people of the Philippine islands."

The conclusion of President Schurman was that we are under an obligation to first restore order in the Philippines and then address ourselves to the task of preparing the people of that archipelago for the task of governing themselves, or co-operating with us in giving them good government.

I was often asked in the Philippines if our civil service was better than that of Spain. Here is a point where the Filipino suspect and fear us. We must allay their anxiety and suspicion by a splendid Philippine civil service.

What is the end of colonization? Why should we extend our sovereignty over remote countries and alien peoples? I answer that the only justifiable object of such expansion is the establishment of good government in the territory annexed, the elevation of its people in civilization and the training of them in progressive self-government with a view to ultimate independence.

The best investment in the market today is an endowment in the old reliable Actna. F. H. Vandenberg, agent.

Ground has just been broken at Mt. Clemens for a new five-story hotel on European plan. The season of 1899 has been one of the most successful Mt. Clemens has enjoyed since it became a bath town.

Thursday afternoon an infant daughter of Mr. and Mrs. George Stanley, who live on a farm in Franklin township, Lenawee county, fell into a cistern at the time jumping into the cistern to save her little child, and lost her life in the attempt, both drowning before help arrived.

Chris. Dill, who lived alone in a small house, was found dead in bed at 7 o'clock one morning last week by his brother. He was apparently in excellent health the day before, and did a hard day's work in his garden.

The Wolverine Sugar company of Benton Harbor announces that its factory there will not be in operation before October. The plant, built at a cost of \$300,000, was to have been completed by Sept. 1, or \$500 a day was to be forfeited by the contractors, E. H. Dyer & Co., Cleveland.

Battle Creek has a youngster, Ray Price, who has an abnormal inclination for horse stealing. He was released on suspended sentence a few weeks ago for the larceny of a horse and carriage.

A score of years ago a man named Kennelly died at Rahway, N. J., leaving a fortune of \$200,000, which he willed to his brother Edward, whose whereabouts were unknown at the time.

During the months of July and August the deputy game wardens of the state put on considerable time on Sundays protecting game and fish from lawless hunters, who are usually abroad in large numbers on the Lord's day.

Last Thursday night the dead body of Rufus K. Stallings, an ex-mayor of Grand Haven, was found in one of the streets of that city by Dr. Dietrich, who was on his way home from a visit to a patient when he happened to stumble over it.

Charles C. James, aged fifty, a farmer living near Grand Rapids, died suddenly Wednesday last at the home of his sister, under peculiar circumstances.

One of the interesting cases disposed of in the circuit court at Pontiac last week was that of Samuel J. Burgess vs. Emanuel Windiate for trespass, with damages at \$1,000.

Mervin Thompson, charged with having robbed Harry Stone, of Homer, of \$1,200, is now known to have gone first to Albion, where he purchased a suit of clothes and also took on a good-sized jag.

Rendered despondent by ill-health and domestic troubles, Mrs. Theodore Rheiner of Detroit took her three little children to a room in the house the family lived in at Detroit last Wednesday night and after giving them heavy doses of morphine, took one herself, turned on the gas and then, making an incision in her wrist, lay down beside her little ones to die with them.

FELL TO HIS DEATH.

FRED STEEL OF HOUGHTON SUSTAINS FATAL INJURIES.

Frederick W. Steel, a young man of about thirty who had been employed since June on the transfer force at the South Shore freight depot at Houghton, fell from the roof of the freight depot at a few minutes of 7 on Saturday morning, receiving injuries from which he died without regaining consciousness at about 2:30 that afternoon.

Steel was coming to work that morning when he met a man whose business it is to take in the switch lights. He had three already in his hands and as Steel boarded at the same place and was very friendly with the light man he offered to get the light off the freight house roof for him. Steel had the reputation of being an unusually willing worker and was always very accommodating. He went up the ladder after the light, and when he reached the roof the light man on the ground noticed the snow and frost and called to him to come down, that he would rather get the light himself.

Steel, however, insisted that as he was that far he would finish what he had undertaken and walked over and got the light and started to return, when his feet shot out from under him and he fell to the track below, a distance of about twelve feet, striking on his head and right side, fracturing his skull and breaking a number of ribs from the spine.

The deceased had lost both parents and had no relatives in this upper country further than an uncle, Leonard Steel, at Lake Linden, and a half brother, William Scribner, at Baraga. The remains were taken to Baraga yesterday afternoon and the funeral will take place this afternoon from the home of his brother at 1 o'clock.

FATALITY AT CALUMET.

Henry Hautapera, aged fifty-four years, fell from the top of Calumet & Hecla shaft house No. 4 to the brace of the shaft, a distance of about fifty feet, late Friday evening and was killed. He was a married man and leaves two children.

WORK OF A FIRE-BUG.

THREE HOUSES AT HOUGHTON CONSUMED EARLY YESTERDAY.

At five minutes of 4 Sunday morning the whistle of Hodge's foundry across the lake sounded an alarm of fire. Houghton, but it was fully fifteen minutes later before the watchmen on the Houghton side could locate the blaze and sound the fire bell. Soon after the bell of St. Ignatius' Catholic church began to ring, and this gave every one the locality.

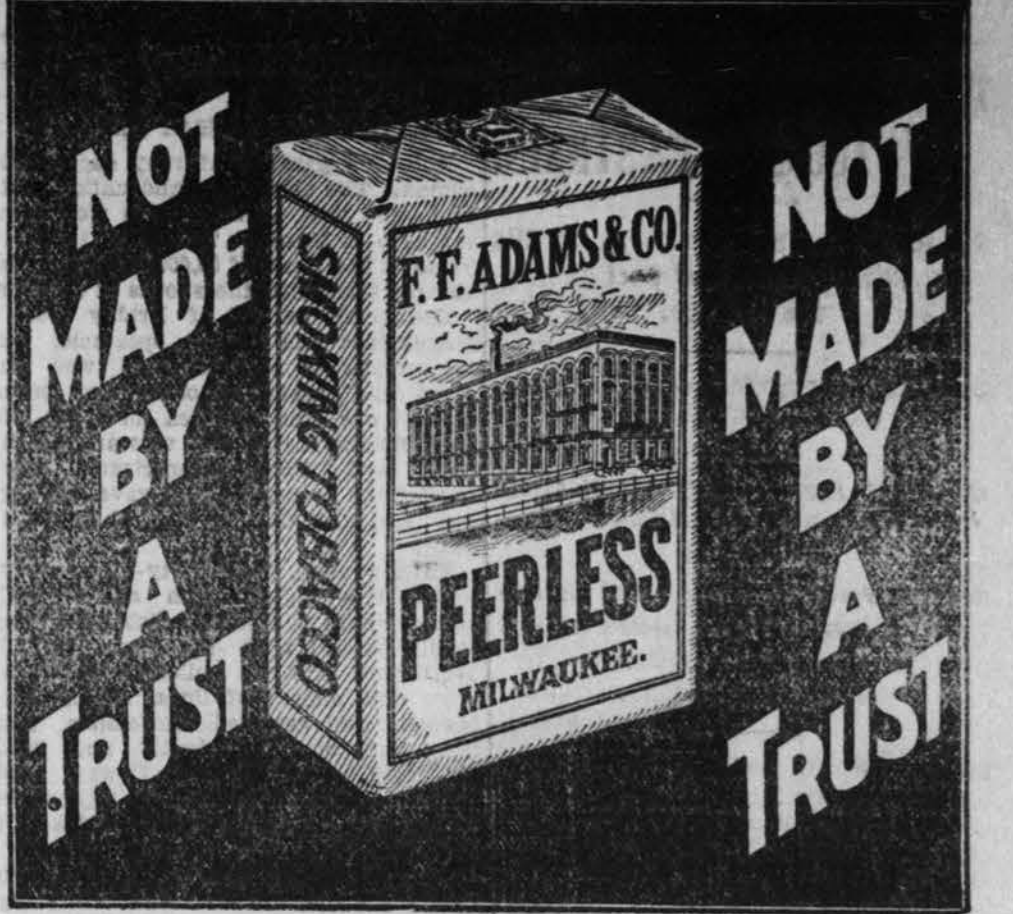

The fire was first discovered in an empty house on South street east of Portage. The flames rapidly spread and destroyed the house adjoining the first on the west and practically ruined the one next to that, while the third west got a severe scorching before the flames were brought under control by the engine, which was connected with hydrant at the corner of Albion and Portage streets and pumped the water up the hill from there, the force being found insufficient when first tried without the engine. The house first destroyed had been vacated on Thursday by a French family of the peculiar French name of Sweeney, which had been dispossessed on a tax title deed owned by Mrs. O'Leary. The second house destroyed was owned by Thomas Beahan of Hancock and was occupied by three families, Mrs. Harriette, living in the basement, a French family named Perrault on the second floor and a Mrs. Kraut in the attic. The next house, the walls of which were left standing, was owned and occupied by Mrs. Bennett, a scrub woman, who had only lately bought it and who had added a load of furniture on Saturday afternoon to her household effects. She had no insurance, and great sympathy is felt for her. The last house, only slightly damaged, was owned by the Finnegan estate and was occupied by Mr. Simmons. All of the structures were very old and although the loss is total, it would not be a heavy one were it not for the fact that the families burned out were in poor circumstances. Too many of them can say that they lost their all, although the Perraults, awakened by Mrs. Bennett, saved most of their furniture in good order.

The peculiar circumstances attending the vacating of the house in which the fire started—and fires do not originate in empty houses from spontaneous combustion as a rule—has started a great deal of talk in Houghton, and the affair will be given a rigid investigation, though, it must be confessed, with small hopes that the crime can be brought home to the guilty parties. Of one thing there is no doubt and that is that the fire was the work of an incendiary. The poor families who were so unceremoniously turned into the street were still encamped in the roadway yesterday afternoon guarding their few possessions and wondering where in all Houghton they could find a roof to shelter them—a very difficult question for people much better "fixed" to answer.

Mr. O'Leary, who lost the house by fire Sunday morning which he had just secured on tax title, had a little difficulty with Mr. Sullivan—whose house was also scorched and who was the former agent of the property—about the matter Sunday afternoon, in the course of which insult was added to injury by the unfortunate O'Leary getting the hot end of the personal encounter which took place. Marshal Foley had put Sullivan in charge of the burned places to keep the flames from starting up again, and hearing that he was being troubled in the execution of his duties the marshal went up to Corktown to see about it, getting there just as O'Leary got another thumping, whereupon he ran him off to the county jail. O'Leary announced to the assembled public as he was walked off that the marshal was the meanest Irishman of his acquaintance.

ANOTHER BATCH OF PRISONERS.

Sheriff Lean had thirty men and four women in his hotel on the hill Saturday night, the number being increased from Houghton Sunday—Officer Armstrong's early morning batch of three and by Marshal Malherbe's addition from Hancock of an insane man. Two

of Officer Armstrong's men were put in for fighting, one committing a brutal assault on an old man in one of the Copper Range boarding cars and the other indulging in an early morning fracas in "The Planter" saloon.

BAD STRIKE THREATENED.

A great deal of uncertainty exists in Houghton and Hancock over the outcome of today's stand of the trades union, the stone masons and bricklayers having announced that on and after Oct. 1 nine hours would constitute a day's work and that 45 cents an hour would be the scale of wages demanded. Some of the contractors are already paying \$4 a day for this class of labor, or within 5 cents of 45 cents an hour for nine hours, and others are paying \$3.75 and \$3.50, while some of the mines get their stone masons for \$3, men preferring mining work at that figure often because they are kept busy the year round on some other class of work. It is probable that the matter of wages will be settled without a strike, but there will be great uneasiness until all is settled satisfactorily, as a strike at this season would be a severe blow. Pending the settlement of the scale the masons would not work yesterday on the cold storage building, although the Sunday rate offered by Contractor Mueller is 50 cents an hour.

YARDS JAMMED WITH CARS.

The rush of freight at the Houghton yards of the South Shore road can be fairly well understood when it is stated that Saturday afternoon there were 116 cars in the yards, counting only the standard gauge cars, and an extra freight was expected to arrive at 5 o'clock with the regular freight following close behind. It is no wonder that the switching crews have a hard time of it to keep from being hopelessly swamped.

HOUGHTON SWITCHMEN KEPT ON THE JUMP HANDLING FREIGHT FOR COPPERDOM.

The rush of freight at the Houghton yards of the South Shore road can be fairly well understood when it is stated that Saturday afternoon there were 116 cars in the yards, counting only the standard gauge cars, and an extra freight was expected to arrive at 5 o'clock with the regular freight following close behind. It is no wonder that the switching crews have a hard time of it to keep from being hopelessly swamped.

LONG PARADE OF STORM-BOUND VESSELS SATURDAY.

There was a grand naval pageant on the Portage Lake waterways Saturday morning as a result of the great storm of Thursday and Friday. The sight when the fleet of vessels which had been storm-bound at the Lily Pond began to move out of the canal is said to have been one long to be remembered. The Osceola led the way, closely followed by the Codorus and then came the rest of the twenty-seven vessels in the fleet as closely as safety would permit.

STREAK OF BAD WEATHER.

Captain Devanney, now sailing the steamer Massachusetts, arrived at Dollar Bay yesterday with a cargo of coal, having left Cleveland last week Sunday. He says he never encountered such weather before. A storm struck him as he was leaving Lake Erie and it got so bad that when he reached Lake St. Clair he had to lie over four hours; he then made a dash and reached Sand Beach harbor of refuge, where he lay thirty hours. Then followed fine weather up Lake Huron and until he passed the Sault, where he was warned that he would have to turn back but he pressed on and had gotten about a mile this side of Granite Island Thursday when he had to turn and run back to shelter at Marquette, the big steamer Globe of the Bessemer following him in spite of her 3,000 tons of water ballast. The captain says that notwithstanding his various delays and the two days at Marquette he reached Portage Lake ahead of some vessels which left Cleveland before him bound for the same destination.

CURE FOR THAT COPPER PESSIMISM

VISIT HERE WILL EFFECTUALLY ERADICATE THE FEELING, SAYS WELL-POSTED BOSTON MAN.

Having just concluded an extended trip through the copper country, G. L. Walker says in the Friday issue of The New England Statist of Boston: "I advise all of my friends who own 100 or more shares of copper stocks, and everyone else for that matter, to visit the mining country on the shores of Lake Superior. Nature was certainly at her best when she made this country. Not only did she stud the rocks with the purest minerals, but she moulded the hills on the majestic plan and clothed them with beautiful vegetation. The beautiful scenery and healthful climate are rapidly coming to be appreciated by seekers for health and recreation everywhere, as is evidenced by the fact that last year the passenger business of the Duluth, South Shore & Atlantic railroad showed an increase of 15 per cent over the preceding year, and so far this year has shown a further growth of 38 per cent.

"As the Lake breezes at Marquette are a certain cure for hay fever, so the air of industry in the upper peninsula is an effective remedy for that feeling of pessimism, which many have, regarding the future of the copper mining business. There are more blanks than prizes in most mining districts, and the best way to learn about them is by a personal visit. The prizes in the Lake Superior district will continue, as in the past, to be the greatest in the mining world.

"New England people can make the trip from Boston to Calumet or Houghton, via the Canadian Pacific and Du-

tangle is straightened out operations are likely to be resumed.

According to New York advices, metal buyers are practically out of the copper market at present, believing that nothing will be lost in deferring purchases until absolutely needed. Indeed, it is stated that while the Calumet & Hecla and other producers are still asking 18 1/2 cents, but few are getting that figure, and there are indications a trifle shaded price would not be turned down in certain quarters.

The Adventure Mining company, it is stated, owns a stamp mill site on the lake front near Ontonagon and has also an option on another located on Keweenaw bay. As yet, however, the question of building a mill is being deferred, the work of opening up the mine meanwhile progressing favorably with the same rich copper as of yore being continually encountered.

Roswell Miller's statement, reproduced in these columns last week, is taken by the Milwaukee papers to mean that the St. Paul road will absorb the Copper Range line when it is completed. That is the general sentiment, too, in well-posted circles in copperdom.

And now comes word "officially" that Butte & Boston is now showing a handsome surplus over fixed charges! Also that after all these years of assessment, a dividend is next in order. Verily, this is a world of surprises.

The last pieces of the huge discharge for the new Osceola mill's 40,000,000 gallon pump were shipped from Cleaves & San's Portage Lake Foundry and Machine shop Saturday.

The Boston Herald financial writer learns from New York sources that a dividend of \$2 quarterly on Arcadian is being seriously talked of there.

DEATH OF MRS. C. E. LOSS.

A telegram was received at Houghton Saturday morning announcing the death at Chicago of Mrs. C. E. Loss that morning. Death came as an almost welcome release from two years of suffering which the efforts of surgeons and physicians of the very highest skill had been unable to relieve. By all those connected with Mr. Loss in his work upon the Copper Range the death of Mrs. Loss is regarded as an almost irreparable blow to him, for she was a lady of rare culture and refinement and of so unusually an amiable disposition as to have endeared herself to all who came in contact with her even in temporary business relations with her husband. C. T. Wiswell and P. J. Partentheimer, Mr. Loss' direct representatives in Houghton, left Saturday afternoon for Chicago to attend the funeral.

COPPERDOM BREVITIES.

E. E. McIntosh of Marquette was a Houghton visitor Sunday.
R. T. Looney left for Marquette yesterday on a short business trip.
John E. Fitzgerald, of the E. P. Allis company, arrived in the copper country Saturday.
Miss Etta Herman of Calumet was the guest of Miss Hattie Haas at Houghton yesterday.

The steamer Milwaukee landed four valuable horses Saturday for Cashier Jones of the Lake Linden bank.

Miss Adeline Beecher has returned to her home in L'Anse after a long visit with her sister, Mrs. H. C. Guck at Calumet.

Ben Willesen was down from Calumet yesterday to call on Portage Lake friends.

William Wern of Hancock returned Saturday from his four months' visit in Chicago.

Walter Fitch, president of the board of control of the College of Mines, left Saturday afternoon on his return to Champion.

Eugene Swift, of the engineering force upon the new Arcadian branch, ran down to Marquette Saturday to spend Sunday home.

Bert Carmichael returned to Houghton Saturday from an extended visit with friends in Saginaw and other lower Michigan cities.

Emil Paris and Miss Amelia Gauthier of Hancock were married Saturday evening at St. Joseph's church, Rev. Father Keller officiating.

Miss Minnie Sullivan returned to Houghton Sunday from an extended visit in Chicago during which she purchased her fall stock of millinery.

Mrs. Louis Raiche, who had been the guest of her sister, Mrs. A. B. Graham, at Houghton for a short time, left Saturday for her home in Marquette.

Mrs. T. C. Hodgson, accompanied by her son, arrived at Houghton Saturday evening from Detroit to join her husband, who is employed on the Gazette.

News from Grand Rapids is that Rev. Mr. Gilchrist, pastor of the M. E. church at Hancock, is improving rapidly now from the effects of the operation to which he submitted some days ago.

The boiler for the Dee central heating plant has reached the Houghton yards

(Continued on Page Six.)

DEWEY'S WELCOME TOO GREAT A STRAIN.

So Fatigued That He Kept to His Room the Greater Part of the Sabbath.

CHICAGO DELEGATION GIVEN A HEARING IN THE MORNING.

ASKS THE ADMIRAL TO VISIT THEIR CITY AT HIS LEISURE.

Mammoth Parade Saturday Wound Up New York's Great Greeting, Schley's Ovation Being but Second to That Recorded the Central Figure.

HERO OFF TO WASHINGTON TODAY.

New York, Oct. 1.—The functions and receptions that have figured so prominently in the daily life of Admiral Dewey since his arrival at Sandy Hook last Tuesday have proved almost too much for his strength. Today he was too fatigued to do more than remain in his room the greater part of the time and rest quietly. Dewey had an engagement to meet the Chicago Dewey committee at 10 o'clock this morning, and before he came down he sent a message to Mayor Harrison requesting that he be not expected to shake hands with the members of the committee. The admiral had so much hand-shaking Saturday that his hand pained him severely. Dewey rose early this morning and after a light breakfast sent for his private physician, Dr. Percy, of the Olympia, who was closeted with him for a few minutes. The admiral later called on the members of his family and relatives at the hotel, chatting with them for fully an hour. He received Mayor Van Wyck at 9 o'clock, the latter acting as the escort of the admiral throughout the day. There were many callers at the Waldorf-Astoria who wished to send their cards to the admiral, but few were permitted to do so, fatigue being given as the reason.

WINDY CITY HEARD FROM.

At 9:25 Mayor Harrison arrived, followed soon by the other members of the committee. Promptly at 10 o'clock Dewey came into the big ball room, clad in a civilian suit. The instant he appeared there was a burst of applause. He saluted and said, "Good morning, all." Dewey met Mayor Harrison as he advanced with a cordial greeting.

Mr. Harrison said: "Admiral Dewey, I appreciate your dislike for speeches, and have therefore none to make. I only want to say that I thank you on behalf of the Chicago committee for the honor done us by your receiving us here this morning. It is an honor second to none in the land. And now I wish to extend to you, on behalf of the committee, on behalf of the city of Chicago, an invitation to come to our city. We wish you to come to us whenever you see fit. We make no specified time, but would be glad to have you with us on Oct. 9, when President McKinley is to be present at the laying of the cornerstone of our new postoffice. While we may not be able, perhaps, to give you as elaborate a celebration, as perfect a ceremony as was yesterday's, we can and do promise you an equal degree of enthusiasm. If you cannot come to us now, then consider the invitation a standing one. Come at your pleasure. I now hand you the formal invitation of the committee."

COMING SOMETIME, MAYBE.

The admiral received the handsome, costly invitation extended by Mr. Harrison, and as he continued to turn over the leaves glanced up and said: "Mr. Mayor and members of the committee: The honor is mine. I consider it a great honor to be waited upon by such a delegation as this, and consider it a greater honor that the invitation is put in such a nice way, allowing me to set my own time to visit your city. I wish I could go to your city tomorrow, but that is impossible. As you know I am soon due in Washington. Then I must go to Vermont. I must have some rest—have not there for years. It is my great regret that I cannot go at once to your city. I wish so much I could be there when Mr. McKinley is there. I have a great regard for Chicago. It is a great city, and during the last year some of the grandest letters I ever received came from Chicago. I thank you, Mr. Mayor, and I thank you Chicagoans."

As the admiral concluded some one in the front row of the crowd stepped forward to shake hands with the admiral. Mayor Harrison quickly interposed himself between the officer and the enthusiastic Westerner, saying as he placed a hand on the man's shoulder: "Don't do that please. Don't ask the admiral to shake hands this morning. The Mayor Van Wyck, then placing a hand under the admiral's right arm, escorted him out through the door. As the admiral was leaving the room there was a burst of applause, and he turned and waved a salute with his hand as he disappeared behind the heavy curtains.

CURIOS PEOPLE BARRED.

The corridors of the Waldorf were filled with people anxious to catch a glimpse of the admiral. When he was escorted to the room to meet the Chicago delegation he was taken down a private stairway and returned the same way. In every conceivable manner his movements were guarded to keep the curious crowds from getting near him. A delegation from Philadelphia, headed by Mayor Ashbridge, arrived early in the day and stepped into the parlor of the hotel. The admiral came in and said, "Good morning to you, all." Mayor Ashbridge lost no time in telling what he was there for, and presented an album containing the invitation. "I feel very much honored," replied the admiral, "to receive the invitation. I will go to Philadelphia, but I cannot say now when I shall be able to do so." Before the application could get a fair start he had bowed himself out.

The admiral will leave the Waldorf-Astoria tomorrow at 12:15 o'clock for Washington. The trip will be made on the most elaborate special ever run by the Pennsylvania railroad. Dewey's personal party will consist of himself, his son George, brother Charles and wife, Captain Lambert and wife, Flag Lieutenant Brumby and Lieutenant Caldwell. A special private car will be provided for the admiral. In addition, the following officers, as special guests, will accompany the party: Rear Admirals Sampson, Schley, Philip and Casey, Captains Sigbee and Evans, Commanders

Wood, Ensign Bennett and Major General Miles.

SATURDAY'S GREAT PARADE.

The land parade Saturday capped the climax. The city, state and nation united in one vast demonstration worthy of the hero of Manila. The earth trembled beneath the tread of 50,000 men, and the air was torn with the shouts of millions. The naval parade of Friday was a magnificent and superb spectacle, but the wonder of modern times was the great land parade. Thousands of proud men of our land and sea forces, militia from fifteen states and veterans of the civil and Spanish-American wars swelled the procession and gave it a dignity and size that it boasted in sentiment.

Fifth avenue, from Fifty-ninth street to the Washington arch at Fortieth street, where the parade disbanded, was solidly packed with spectators, which overflowed into the buildings and windows and onto roof lines, sat in embassies and crowded scaffolding. For hours they waited patiently and good naturedly to see Admiral Dewey, and when they saw him, they waited on unconsciously for three hours and a half while the procession passed.

Far down this living lane the column marched while the air was vibrating with banners and shouts of admiration, the clatter of horses' hoofs when the cavalry passed with sabres flashing and plumes waving, the rumble of artillery, the snarl of drums, the clear drawn bugle call and the blare of military bands.

JACKIES AT THE HEAD.

When the head of the column appeared, the jackies of the Olympia marching rank on rank with an easy, rolling step and Sousa's blue-coated band of 140 pieces playing soul-inspiring music, it was a poor American whose heart did not beat higher. Those in the stands leaped on their seats, and everybody greeted the advancing column with cheers.

Then came the hero and rear admirals and officers of the fleet, in all the glory of their gold-laced uniforms and gold rimmed cocked hats. All were in open boucharques, and at their head was the man of the hour. Mayor Van Wyck sat beside Admiral Dewey in a carriage. Dewey was recognized on the instant and the cheers that had greeted the Olympia men seemed tame compared with the shout they raised. There is no conceivable kind of noise that they did not make. Everybody waved and cheered and nearly everybody jumped up and down in frantic enthusiasm. Admiral Dewey took it all very calmly, smiling and bowing to the right and left, occasionally lifting his gold-trimmed beaver as he rode along.

SCHLEY OWNS THE HONORS.

But it was Rear Admiral Schley who divided the honors with the central figure of the day. He received a demonstration second only to that of Admiral Dewey. The people along the line of march fairly rose at him, shouting their already lacerated throats to the breaking point.

In upper Fifth avenue some enthusiastic lady threw him a handful of roses, which landed fairly in his carriage. The admiral leaned forward, picked them up and lifted them to his lips. Instantly all of the ladies in the balcony seemed possessed with a desire to have their flowers similarly honored, and he was fairly bombarded. Many of the flowers fell into the street, only to be caught up by the eager spectators and carried to the carriage. Before he got to Madison square, Admiral Schley was up to his arms in flowers.

The marines and sailors of the North Atlantic squadron, eight battalions of them, attracted much attention. The marines marched with a circular step which was neither the seaman's roll nor the landmen's tread, but a combination. The men of the Brooklyn got, perhaps, the most applause.

Governor Roosevelt, riding a spirited black horse, at the head of the National Guard of the state of New York and surrounded by brilliantly-uniformed officers, received a hearty and continued ovation from one end of the line to the other. He was in civilian's attire and wore a silk hat; that is, when he had it on, as he was waving it right and left more than half the time.

ONE DISTRESSING INCIDENT.

Only one distressing incident occurred within the admiral's view. A wire had been stretched across the space between two of the stands on the park. The awful press of people broke it and they surged out into the avenue. Those in front were powerless to resist the pressure of the thousands in the rear. The police officers on foot were helpless. Suddenly half a hundred mounted policemen galloped up, and having formed a line charged and shoved the people back. Many women and children were caught in the rush. Some fainted and several, after the panic was over, were carried away in ambulances.

WASHINGTON'S TURN NEXT.

Washington, Oct. 1.—Elaborate preparations have been made to give Dewey a glorious, mighty welcome when he returns to Washington Monday evening the nation's hero. His arrival will be signalled by the admiral's salute of seventeen guns. A civic parade of twelve thousand men which will include the Grand Army, Spanish-American war veterans and other organizations, labor and society organizations and other uniformed bodies will take place at 8 o'clock p. m. After this has gone by there will come a general march past the reviewing stand by as many people as can pass up the avenue in the hour that the admiral has consented to add to the original program for this purpose. The admiral and president will occupy a reviewing stand just south of the treasury building.

final program for this purpose. The admiral and president will occupy a reviewing stand just south of the treasury building.

GETS THE SWORD TUESDAY.

Tuesday will be the great day of the celebration, however, for then the admiral will be escorted to the Capitol by the president and his cabinet and a military escort and presented with the sword voted him by congress. The admiral will ride in the same carriage with the president. The exercises, which will be brief, will take place in the reviewing station, east of the Capitol, facing the broad esplanade on which thousands of persons will gather to witness the ceremonies. Eight state governors and staffs will be among those who will do Dewey honor, among them Pingree of Michigan.

While here Dewey will be the guest of Mrs. Washington McLean, mother of John McLean, Democratic candidate for governor of Ohio.

JAMES HARLAN CRITICALLY ILL.

Washington, Oct. 1.—The president has approved the sentence imposed by court-martial on Capt. Oberlin M. Carter, corps of engineers, United States army, and a formal order has been issued from the war department directing the execution of the sentence. The verdict of the court was that Carter pay a fine of \$5,000, be dismissed from the army and be imprisoned for five years at hard labor. The sentence will begin immediate effect, and the United States penitentiary at Leavenworth, Kas., is designated as the place of his confinement. Charges were preferred against Captain Carter by General John M. Wilson, chief of engineers, Dec. 13, 1897. These charges were made after the investigation by a board of engineers of the river and harbor works at Savannah, Ga., and other points in that district, which had been under the supervision of Captain Carter. The charges mainly consisted of a declaration that Carter had entered into a conspiracy with other persons to defraud the United States. It was alleged in the charges that Carter and certain parties had defrauded the United States of from \$1,000,000 to \$2,000,000.

GROUND AT PLAINFIELD ALREADY FROZEN AN INCH DEEP.

Plainfield, Wis., Oct. 1.—The thermometer this morning registered 20 degrees above zero, which broke all previous records for September. The ground is frozen an inch deep, and potatoes are badly damaged.

ISTRMIAN CANAL A CINCH.

ADMIRAL WALKER EXPECTS IT TO BE CUT THROUGH NOW.

New York, Oct. 1.—Rear Admiral Walker and the other members of the Isthmian canal commission returned here today on the liner New York from Paris, where they went to study the work of the Panama Canal company. The admiral said the committee will go to the isthmus in the near future and spend the winter there studying the situation. The committee is much encouraged by what has been done so far, and there is not the least doubt that the canal will be cut through. Admiral Walker went to Washington tonight, where he will make a report.

BID TO SIR THOMAS LIPTON.

Chicago, Oct. 1.—A special invitation was sent today by the federal committee to Sir Thomas Lipton, asking him to be Chicago's guest at the laying of the cornerstone of the federal building next Monday. A movement has been begun to secure the attendance of the United States supreme court in a body.

MEXICAN PARTY ENROUTE.

Austin, Oct. 1.—The Mexican officials accompanied by the national band, passed through Texas today for Chicago to represent President Diaz at the festivities there.

SCOTSMEN'S CREW JAILED.

Montreal, Oct. 1.—Twenty-three members of the Scotsman's crew were arrested here this morning when they arrived on the steamer Montfort. When searched at the police station much plunder was found, confirming the stories of pillage and violence told by the passengers.

Quebec, Oct. 1.—The steamer Grecian last evening brought in a good share of the crew of the Scotsman, wrecked in the Straits of Belle Isle, and they were immediately placed under arrest, to be prosecuted for their brutal treatment and robbery of the passengers of the wrecked ship. The others will likewise be placed in custody as soon as they arrive in port.

ON DIAMOND AND GRIDIRON.

SATURDAY AND SUNDAY'S FOOT AND BASEBALL GAMES.

Sunday's baseball summaries:
St. Louis..... 4 4 1
Cleveland..... 3 4 3
Batteries: Sudhoff and Buelow; Harper and Duncan.
Chicago..... 5 9 3
Cincinnati..... 7 6 3
Batteries: Taylor and Chance; Cronin and Wood.

The following are the results of the games played Saturday:
Boston, 5; Washington, 4.
Chicago, 6; Louisville, 12.
St. Louis, 16; Cleveland, 3.
Baltimore, 6; Brooklyn, 4.
Philadelphia, 5; New York, 4.
Pittsburg, 3; Cincinnati, 3. Ten innings.
Batteries: For Pittsburg, Hoffer and Schriver; for Cincinnati, Hahn and Wood.

FOOTBALL RESULTS SATURDAY.

At Madison—Wisconsin, 45; Lake Forest, 0.
At Chicago—Chicago, 12; Physicians and Surgeons, 0.
At New Haven—Yale, 23; Amherst, 0.
At Philadelphia—Pennsylvania, 20; Ley high, 0.
At Beloit—Beloit, 59; Whitewater Normal, 0.
At Superior—Superior Athletics, 17; Duluth, 0.

CARTER TO GO TO PRISON NOW.

President McKinley Approves the Sentence Passed Upon the Convicted Engineer Officer.

FIVE YEARS AT HARD LABOR AT FORT LEAVENWORTH.

\$5,000 FINE, TOO, AND DISMISSAL FROM THE ARMY.

Captain Found Guilty Last Year of Defrauding the Government of Nearly \$2,000,000 in River and Harbor Work at Savannah, Georgia.

HIS LAWYER'S APPEAL WAS FUTILE.

Washington, Oct. 1.—The president has approved the sentence imposed by court-martial on Capt. Oberlin M. Carter, corps of engineers, United States army, and a formal order has been issued from the war department directing the execution of the sentence. The verdict of the court was that Carter pay a fine of \$5,000, be dismissed from the army and be imprisoned for five years at hard labor. The sentence will begin immediate effect, and the United States penitentiary at Leavenworth, Kas., is designated as the place of his confinement. Charges were preferred against Captain Carter by General John M. Wilson, chief of engineers, Dec. 13, 1897. These charges were made after the investigation by a board of engineers of the river and harbor works at Savannah, Ga., and other points in that district, which had been under the supervision of Captain Carter. The charges mainly consisted of a declaration that Carter had entered into a conspiracy with other persons to defraud the United States. It was alleged in the charges that Carter and certain parties had defrauded the United States of from \$1,000,000 to \$2,000,000.

IN CUSTODY AT NEW YORK.

New York, Oct. 1.—Captain Carter was arrested yesterday by Assistant Adjutant General Simpson, who came on specially from Washington for the purpose, and taken to Governor's island and handed over to Captain R. J. Roberts, the commanding officer, with order to keep strict guard and put Carter in close confinement. Carter is now in one of the upper casement cells in Castle William. He will be notified of his dismissal from the army tomorrow and will be handed over to the civil authorities in New York.

KILLED WITH HIS OWN CLUB.

PATROLMAN KOSSOW SLAIN BY HERMAN MUELLER, A TANNER, AT MILWAUKEE.

Milwaukee, Oct. 1.—With his own club as the weapon, Patrolman Kossow, the largest man on the city police force, was murdered Saturday morning by Herman Mueller, a tanner, almost his equal in size and strength. The crime was one of the most brutal in the history of Milwaukee, and the slayer is now locked up at the Central station awaiting his arraignment in the first degree.

Kossow went into Mueller's house to quell a family row, having been called by Mrs. Mueller, and was immediately attacked by the man, the sight of the policeman engaging him almost to the point of insanity. In the scuffle the officer slipped and dropped his club. Mueller secured it, and with a sudden terrific swing struck Kossow on the head. The policeman fell prostrated, but not satisfied, his frenzied assailant continued to wield the heavy weapon until life was extinct. Kossow's head was literally battered to pieces.

When Mueller has finished his work he coolly washed his hands and, mounting his bicycle, pedaled away. A general police alarm was turned in, however, and the murderer was arrested by two detectives about an hour later at a point several miles from the scene of the crime and just at the city limits on the West side. Mueller's house is located on Twentieth avenue, South side.

SAFETY BIT ON BROKERS.

CHICAGO JUDGE MAKES THEM RESPONSIBLE FOR PRO. ITS LOST.

Chicago, Oct. 1.—A decision of interest to the commercial world has been rendered here by Judge Chytraus in the case of Colonel Elwood vs. the brokerage firm of Eggleston & Son. The court held that when a broker, contrary to his instructions, closes a deal at a certain price, the measure of damage is the difference between that price and the price which would have been more advantageous to his client. Colonel Elwood had orders for 7,000 barrels of pork at \$15 per barrel. Without waiting for the expiration of the time limit, his brokers purchased the amount at \$15. Before the time limit expired there was a further drop to \$14. It was a difference Elwood sought to gain. His contention was sustained by the court and \$18,000 damages awarded.

SATURDAY'S CHICAGO MARKETS.

TRADING PRODUCTIVE OF A FURTHER DROP IN WHEAT.

Chicago, Oct. 1.—All the grain and provision markets Saturday were dull to the verge of stagnation and no material changes in values of deferred futures took place. September wheat and corn were in process of liquidation by long interests and declined sharply. The closing of the New York exchange had a narrowing effect on trading. September wheat closed 1/8c lower and December a shade lower. September corn declined 1/4 and December 1/4. December oats closed unchanged. Provisions closed unchanged to a shade lower.

	Opened	Highest	Lowest	Closed
Wheat: Dec	73 1/2	74 1/2	73 1/4	73 3/4
Corn: Dec	30	30 1/2	29 3/4	29 3/4

Change quotations:
No. 2 red, wheat, 71 1/2 @ 71 3/4. No. 2 corn, 12 3/4 @ 13. No. 2 oats, 22 1/2 @ 23. No. 3 white, 24 1/2 @ 25 1/4.

TO FIGHT AMERICAN PACKERS.

POWERFUL COMBINE FORMED FOR OPERATION IN GERMANY.

Berlin, Oct. 1.—The Associated Press correspondent hears on good authority that a powerful company composed of French, German and Russian capitalists, with a capital of over \$50,000,000, has been formed for the purpose of competing with the American pork exporters in Europe, particularly in Germany, England and Scandinavia. The plan is to raise hogs on a large scale in Siberia. It is claimed that this can be done cheaper than in the United States. The hogs will be shipped alive, over the Siberian railroad to the northwestern frontiers of Russia, where immense slaughter houses, on the American plan, will be established. Thence the pork will be sent by water to English ports and by rail to Germany and Scandinavia. In spite of the enormous distances, it is asserted that such Siberian pork can be brought to Europe cheaper than American pork. This, it is pointed out, is due to the low cost of production in Siberia and the cheapness of transportation on the railroad.

Professor Stiles, the scientific attaché of the United States embassy here, recently discovered that several large Antwerp firms did an immense business in inferior or diseased pork and beef which was put in American packages illegally obtained, thus giving them an American brand. The professor is now traveling in Switzerland, Germany and Denmark in order to complete the chain of evidence, for the purpose of prosecuting these firms.

BRAVE INDIANA GIRL.

SERIOUSLY WOUNDS A BURGLAR WITH A HAIR BRUSH.

Muncie, Ind., Oct. 1.—Miss Goldie Cochran, aged fourteen, struck a burglar in her room last night with a silver-backed hair brush and the unknown man will die as a result. The robber was detected by the girl carrying a valuable clock from the residence, when she commanded him to drop the timepiece. This he did and closing the door turned upon her, when she threw the brush, striking him in the temple. He fell to the floor and has remained unconscious since.

AN EFFECT OF LIGHTNING.

Damaged a Pair of Eyes That Were Large and Bright.

Through the brotherhood of affliction that comes from wearing glasses in one of their various forms a popular official of the Transit company told in conversation the other day of a curious reason why he wore prescription helps to eyesight. "It was because I was struck by lightning," he said. "It was when I was in my teens. The occasion when I was struck may be appreciated by all who have read a recent article in the Century Magazine, in which the writer dwells on the danger that arises from sitting, during a highly electrical storm, in a room where there are two openings into the outer air. I sat between an open window and an open door and there was a flash. The last I can remember is a sense of having an envelope of light around me. I was picked up insensible and those who first saw me say that smoke issued from my mouth and nose. All thought I was dead, but I slowly recovered and soon seemed to be as well as before the heavenly visitation.

"The serious effects of the shock, however, developed in my eyes. Their largeness and brilliancy had been often commented on by my friends, but these more or less desirable features had been destroyed by the electric fluid. The pupils and their irises contracted and I found a great difficulty in my vision. An expert oculist examined the eyes and gave some scientific name to the difficulty. That's another story. I only know that I can see and am glad to be alive.

HAVANA'S EXPORTS.

Washington, Oct. 1.—The war department has given out today a statement of the exports of merchandise and gold coin at Havana for the first eight months of the American occupation. If the volume of business continues at the same rate for the year the export trade will exceed the handsome sum of \$29,000,000. The total exports for the eight months were \$18,558,570, the United States alone taking \$13,423,417 worth. Spain took \$375,049 in merchandise and \$1,803,429 in gold.

M'LEAN OPENS HIS CAMPAIGN.

Hamilton, O., Oct. 1.—The Democratic state campaign was opened here yesterday with a great demonstration and speeches by John R. McLean, candidate for governor, and other candidates for state office. The Philippines, trusts, silver and political dictatorship furnished the keynotes of McLean's speech.

BIG DEAL IN IRON MINES.

Hurley, Wis., Oct. 1.—The Federal Steel company has purchased the Cary and Superior mines. These properties have been known heretofore as the Olanah Iron company, and S. S. Curry of Ironwood, Mich., is the leading spirit.

TODAY'S WEATHER.

Washington, Oct. 1.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Monday; rain Tuesday; high southeasterly winds.

MISI BANK ROBBED.

Sedalia, Oct. 1.—The safe of the Bank of Sedalia was blown open by burglars last night. It is reported they secured \$1,000, but Cashier Long says the bank only \$1,000.

AMERICAN OPTIVES GIVEN THEIR LIBERTY.

(Continued in Page One)

of diplomacy is a petition of the others—a fruitless effort to get some sort of recognition of our so-called government.

The Filipino men had an hour's conference with Gen. Otis this morning. They brought from Aguinaldo a message that he desired peace and wished to send a civilian governmental commission to discuss the question. General Otis replied that it was impossible for him to recognize Aguinaldo's government in that way. He hoped that that which he was willing to correspond with Aguinaldo as genl. of the insurgent forces, he must piously decline to recognize him as genl. of a civil government. Another conference will be held tomorrow.

The Filipino men remain two or three days. Their movements are quite unrestricted, but they under the constant surveillance of Gen. Johnson, of the Sixteenth Infantry. Today they visited the hospitals at distributed money among the word Filipinos, after which they maddis and received visitors at their hotel.

CAN BATT FOR YEARS.

"How long can Filipino army and people withstand thousands American troops?" at the representative of the Associates.

"Fighting in away, we can maintain a state of non resistance a large army of noation indefinitely," the general replied. "You Americans are holding a few around Manila, a narrow line of road to Angeles and a circle of countround San Fernando. But you are light of the resources of Luzon. We have immense, rich productive northwestern from which we draw. Our people contribute the money and food to maintain our army. We do not havpay our soldiers and can practically their wages as long as we desire. With our present supply of arms ammunition we could keep your armupped for years."

Discussing the question of recognition by the United States of the so-called Filipino government, Alajandino said: "The freedom the American president who have been turned over to the United States was decreed by the Filipino congress. Your government accepted them, will doubtless accept any other government may free."

He inquired percentage of the sick American troops when informed said he considered fair. He asked a number of questioning hope of anti-imperialistic as by the United States Congress, and what would be the effect of an anti-imperialist declared disposed to the prosecution of the several inquiries also were made reing the nature and effect of a joint session of congress.

TROOPS FOR MANILA.

San Francisco, Oct. 1.—The remaining companies of the first-seco regiment sailed for Manila on the transports Gite and Charles Nelson.

SAYS FILLOS ARE GAINING.

LONDON LETTER GIVE A DARK VI FOR AMERICANS.

LONDON, Oct. 1.—The Times publishes extracts from a letter from Manila, dated 21, whose writer asserts that Aguinaldo is getting the best of it; that the Amns are making no progress; that Aguinaldo has regained his influence over the natives, and recently obtained a money with which he has endeavored to foment disturbances in Manila.

"Aguinaldo says the writer, 'offers double that of the rewards for American and arms that General Otis offers Filipino weapons. The result is the Americans get none of the latthe their own are being constantly'.

"After of General Otis 'good intentioned, sluggish and extremely parsimonious' letter attributes the difficulties the Americans 'very largely to false economy.'

Manila feaquely policed, but the officers k would be useless to ask for more hospitals are inadequately staffed, General Otis declares, according to writer, that half the men in the ho are not sick, and to increase initials would only result in an increased number of invalids.

DULUTH IMPERIAL FOUR.

Is the Best Every Respect

Ask Your Grocer for It.

A Cure for Nervous Headache.

For eight years I suffered from constipation and severe nervous headache, the headache usually lasting three days at a time. Headache powders relieved me temporarily, but I had an effect. Since I began taking Celesty King I have greatly improved in health, seldom or never have headache, have gained in flesh, and feel decidedly well.—Mrs. E. S. Hatch, Temple, N. H.

Celesty King cures Constipation and all diseases of the Nerves, Stomach, Liver and Kidneys. Sold by druggists, 25c. and 50c. Sold by the Stafford Drug Co.

WANTED—FOR RENT OR SALE.

ANY LADY having two or three hours' spare time a day can make \$5 weekly working for us at home; nothing to sell. Send self-addressed envelope for free sample. Manhattan E. M. Co., 101 Beekman street, N. Y. (9-20-14)

WANTED—Girl for general housework. Mrs. Richard Blake, 401 E. Ridge street. (9-20-14)

FOR SALE—Coal stoves. Cheap, 113 W. Ohio street.

FOR SALE—Coal stove in first-class condition. Mrs. J. P. Van Iderstine, 401 N. Third street. (9-20-14)

WANTED—A good dry goods clerk who has had long experience; must be a good stock keeper and a good decorator who understands trimming a store; with good references. Address, Jacob Gordon, Florence, Wis. (9-20-14)

WANTED—Two dining room girls and a dishwasher, at the Summit House. (9-20-14)

WANTED—Solicitors to write sickness and accident insurance. Solicitors making \$4 to \$10 per day. Best plan. Plenty of territory. American Ben-volent Association, Chamber of Commerce, Detroit. (9-20-14)

FOR SALE—House, 111 Michigan street; nine rooms, with good stone cellar; all in good condition. Apply at 502 N. Front street or at Mrs. H. B. Lyons, Ridge street. (9-20-14)

WANTED—A good cook and a good dining room girl, at Queen City house. (9-20-14)

FOR RENT—Residence on East Arch street. For terms, etc., apply to James Jussell, Mining Journal office.

WANTED—A first-class dining room girl, and cook at Brunswick Hotel. (9-20-14)

WANTED—Girl for general housework, 1023 N. Front street. (9-20-14)

WANTED—A first-class meat cook, at New Clifton. (9-20-14)

FOR SALE—Exploring outfit, engine, boiler, drum and iron buckets. Also tubular boiler 5x16 ft., iron piping and pulleys, F. B. Spear. (7-14-14)

FOR SALE—Choice building lots in Nester addition for sale cheap for cash, or on time at low rate of interest. For particulars enquire at office of Peter White. (9-6-14)

THE MAN BEHIND THE GUN.

They say that life's a battle, lad, I think you'll find it true; The same old conflict rages, tho' the weapons may be new; But in every kind of warfare that is waged beneath the sun, The contest is decided by the man behind the gun.

There are many hidden dangers that a soldier never sees— Blind batteries to blast you, and sharpshooters in the trees; And whether you will falter, or the foe will have to run, Will depend upon the mettle of the man behind the gun.

There will come supremest moments in the battle for the right, When the deck is cleared for action, and the foe is just in sight; Then, oh then, you must be ready; for Manillas are not won

When a sluggard or a coward is the man behind the gun.

What tho' the foe grows boastful, and counts up his array Of armies and of battalions to fill you with dismay—

Keep up your target practice—victory's certain as the sun! For it's not the heavy cannon—it's the man behind the gun!

—Alice Rollit Coe, in Youth's Companion.

MAMMOTH POWER PLANT.

That of the Power Company at Niagara Falls the Largest in the World.

Niagara Falls enjoys the distinction of having a power house under the roof of which there is more power developed than in any other power station in the world. The station is that of the Niagara Falls Power company.

Years ago the people who journeyed to Niagara had their minds wholly occupied with the magnificent scenic features they were to find there. But to-day there is a new impulse to many of these journeys. On the banks of the Upper Niagara river, about a mile back from the Cataract, there has grown up the greatest power station in the world, and men of scientific and engineering talents who desire to keep up with the latest features of the development of power travel to Niagara.

In this station there are in operation eight mammoth generators, each of which is capable of developing 5,000 horse power, making the present total capacity of the station 40,000 horse power. But, in addition to these, there are now in course of erection two more generators of the same capacity, which will bring the output of the station up to 50,000 horse power, a wonderful amount of force. Each of the 5,000 horse power generators is connected by a long steel tube to a turbine at the bottom of the big wheel pit, which extends, slot like, for over 400 feet beneath the floor of the dynamo room. This wheel pit has been walled in with bricks, and it is one of the most interesting places at the Falls.

Huge penstocks, eight feet in diameter, carry the water from the inlet canal to the turbines, the head under which the water is used being 136 feet. An electrically operated elevator affords means of going down in the pit, and all who are fortunate enough to be allowed there are well repaid for the trip. Incandes-

cent lights break the gloom, and on the lower landing one stands over the turbines' home amidst a deafening noise. The generators in the dynamo room produce current at a voltage of 2,200, and the force of the station is divided up and sent over various lines to give service to the power company's patrons. It is used in many ways and at many voltages. Carborundum, aluminum, caustic soda, bleaching powder, peroxide of soda and other articles are manufactured in the factories operated by the electric power from this station. All the electric roads in the city of Niagara Falls are operated by the current; the trolley lines from Niagara Falls to Buffalo and from Buffalo to Lockport also run under this power, while twenty-five miles away in the city of Buffalo trolley cars are propelled and the streets lighted, malt houses, elevators and flouring mills, printing presses and other machinery are run by the subtle force of the wonderful Niagara development. In one great grain elevator there is a long line of motors operated by Niagara power, and these motors serve to transfer grain from the elevator to the boats or from the boats to the elevator.

Soon the power station will be still further enlarged or a new one of similar capacity built close by, which will give a total of 100,000 horse power. Over on the Canadian side, back from the Horse-shoe Falls, the Canadian Niagara Power company, controlled by the same capital as the Niagara Falls Power company, is about to build a power station. Ninety miles away stands the progressive city of Toronto, and she is looking toward Niagara for the whirling of the generators that shall in time develop power to be transmitted to that city.—New York Tribune.

MILITARY BALLOONING.

The great Napoleon regarded military balloons as of "no strategical importance." He was accompanied by a ballooning corps during his second campaign in Egypt, but the wagons containing the accessories fell into British hands, and this calamity, no doubt, unduly influenced his opinion.

Under the present conditions, the great use of balloons in war will be for reconnoitering purposes. Captive balloons will be largely employed, and with the help of field glasses, and other aids to accurate observation, invaluable information concerning the enemy's movements will be telephoned from the men in the car to those below.

On a clear day, the higher a balloon can ascend the better will the men in the car be able to observe the enemy's movements. In the ordinary way, satisfactory observations may be made from a height of 1,000 feet. In summer clouds and heat often obscure a clear view.

When a new and difficult country is being negotiated, a balloon, either captive or free, will be of invaluable service for mapmaking purposes. Photographs may be taken vertically downwards that will show every detail of the country; and it is only a matter of practice for skilled surveyors to become efficient in judging distances and heights from a balloon car, and in making accurate sketches and maps.

The chief uses of balloons in warfare may be summed up as follows: (1) to discover the whereabouts of an enemy hidden in cover; (2) for observation purpose and the taking of photographs;

(3) for carrying dispatches. In these respects balloons have been tested in actual warfare with more or less good results. For other purposes, such as the dropping of explosives on the enemy, balloons have seldom been employed with success; when the Austrians besieged Venice in 1849, the shells calculated to burst over the town, which were dropped from the balloons, burst instead over the Austrian lines, causing great damage.

The cables of captive balloons are made of steel wire, with a telephone wire in the center of the strands. The cable is about a third of an inch in thickness, and weighs 100 pounds for every 2,000 feet. When an ascent or descent is intended with a captive balloon, this cable may be either wound on or off a windlass worked by hand, or passed under a pulley and attached to a horse, who rapidly retreats from the pulley when the balloon is required to descend, or rapidly advances towards it to cause an ascent. Exhaustive experiments have been made from time to time with a view to determining the effects of rifle bullets on balloons. Several shots, for instance, were fired in succession from a Lebel rifle at a balloon rising at 500 feet, but it was found that the loss of gas resulting was never sufficient to cause any immediate damage. After six hours, the balloon quietly and slowly descended.—Pearson's Magazine.

THE NEGRO IN HOT WEATHER.

It has often been said that the capacity of the negro race for enduring heat has never been fully tested. An incident related by a dairyman living on the outskirts of the city seems to bear out this assertion. He has a young negro boy who looks after the cattle and does chores around the place. The only effect that the heat produces in his case is a desire to slumber. The dairyman had a young calf in the barnyard, and as the sun was pouring in on the poor animal, his wife sent "Carline" out to turn the calf loose so that it could seek a shady spot. After waiting an hour for his return the housewife went to the barnyard to investigate. There she found both the boy and calf curled up in the hot and stifling barnyard. The calf was dead from the effects of the sun, but the boy was slumbering peacefully by its side.

While a negro can stand any amount of heat on his head, he loves to cool his heels. It is a common sight in the winter to see a negro boy on a frosty morning with his head bundled up to keep out the cold, and at the same time walking unconcernedly along the frosty ground in his bare feet.

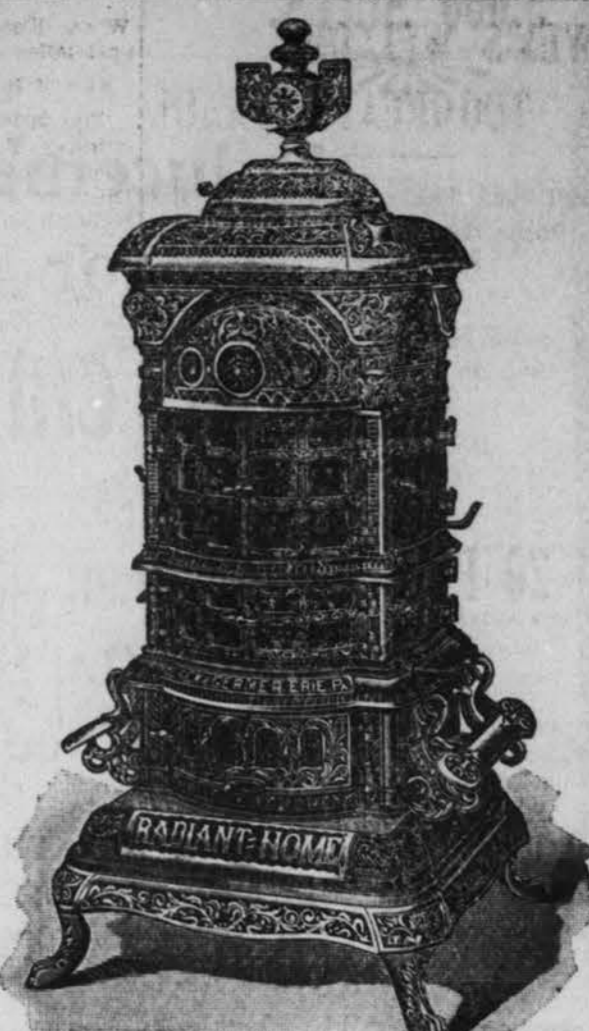

One of the hottest places in the city on a hot day is at the lumber wharves of the Florida Central & Peninsular railroad. When the men knock off for noon they frequently take a nap with their faces upturned to the rays of the blazing sun; at the same time they get their feet under the shadow of some friendly lumber pile.—Jacksonville (Fla.) Times-Union.

Key West, Oct. 1.—There were forty-eight new cases of yellow fever and two deaths here today.

Nora—You can't expect to do away with face blemishes in a week's time. Keep on taking Rocky Mountain Tea. You'll have a lovely complexion. The Stafford Drug Company.

The World Is Full

of cheap Johns; you can tell them at sight, as a rule. You get bitten every time you favor them; when an article is well or honestly made you can quickly see it. That's the reason the Radiant-Home will stand close inspection. It is made good. No other stove in this country ever equaled it, in holding fire, economy and durability.

Marquette Hardware Co., Washington St., Marquette, Mich.

SOMETHING TO BE PROUD OF

is the irreproachable manner in which your linen is always laundered when you bring it to the Marquette Steam Laundry. We are proud of it ourselves, and of the fact that not even "the beautiful snow" that caps Mont Blanc is whiter or of finer finish in its glacial smoothness than is the linen that we are doing up every day. Our prices are infinitesimal.

Marquette Steam Laundry And Dye Works. 6-12-14

A HAPPY WIFE

makes a happy home for all the members of her household, so make her happy by sending home one of our new style and handsome Gariand parlor stoves, that will cheer up the rooms and save worry, fuel and temper at the same time. "A word to the wise is sufficient." We are selling them cheap considering the prices of iron and labor.

M. R. Manhard.

WE ARE DAILY RECEIVING

Large Invoices of New Goods.
(We Are Selling Them, Too.)

Our Second Annual Fall Opening

Will Take Place the Week Beginning Monday, Oct. 9th.

NEXT WEEK,

at which time we will have our Fall and Winter stock complete. Our spacious sales-rooms will be replete with elegance, style and fashion. It will be an occasion when the seekers of the "Latest," the "Newest," the Parisian styles will delight to while away a few hours amid palms and draperies, music and flowers, and a showing of Dress Goods, Silks, Trimmings, Tailor-Made Suits, Jackets, Mantels, Silk Skirts, Silk Waists, French Flannel Waists, Carpets, Rugs, Curtains and Draperies never before attempted in this city.

It will not be necessary to wait until next week to find a large assortment of new goods. We open this morning new Ladies' and Misses' Wraps, Jackets, Golf Capes, Suits and Skirts, New Elegant Silk Waists in automobile, yellow, white, blue, heliotrope cerese, reds, black and all the leading new shades, New Silks, New Dress Novelties, New Carpets and Curtains, New Rugs in profusion, New Blankets, New Comforters, New Mattings, New Neckwear, New Underwear and Hosiery, New Buckles and Novelties, New Trimmings, New Laces, Handsome Allovers, New Linens and Towels.

We are adding to our Carpet Department this season an elegant line of the genuine Wilton and High Grade Axminster at \$2.50 and \$2.75 per yard---the highest creations of art in Carpets.

You are cordially invited to inspect our new goods.

After a Six Weeks' Visit In Eastern Markets

Mrs. M. J. Taylor, Miss I. Kelly's sister, has returned to show Ishpeming ladies the latest things in Fall Millinery. Miss I. Kelly leaves shortly to inspect the latest novelties. Their customers will get fine service. Their fall lines are unexcelled. Grand Opening will be held some time next week.

MISS I. KELLY, MAIN STREET.

PARAGRAPHIC PRODS.

Cleveland Plain Dealer: It must be admitted that General Ochs can't be blamed for the capture of that steam rowboat. Admiral Watson plays the responsible role this time.

Evening Wisconsin: The hollowness of the New York World's opposition to the retention of the Philippines is demonstrated by its eagerness to support Dewey as a presidential candidate.

Boston Herald: Now that Admiral Sampson and Admiral Schley have been dining together and swapping stories with each other, perhaps their bitter partisans might as well look pleasant and strive to get nearer together.

Duluth News-Tribune: The Cleveland Leader says that some people who imagine Mr. Hanna does not know how to talk will be surprised by his campaign speeches. We supposed that every one knew that money talks, and talks eloquently.

Minneapolis Tribune: General Grant's granddaughter had to have two weddings to tie the knot effectively between herself and her Russian prince. The precaution is to be commended, for these foreign wife-seekers as a rule are very slippery customers.

Chicago News: A French paper, commenting on the popularity of Admiral Dewey, remarked that a French general in the position of the American admiral would promptly begin figuring on ways and means of overthrowing the existing government. Dewey's ideas are exactly in a reverse groove. Instead of desiring to overthrow the government he is working hard to head off people who want him to become a candidate for the presidential chair.

Boston Transcript: Here's an instance of the surefootedness of justice, that might be struck off and hung up in every street car. Two years ago a San Francisco millionaire defied a by-law of decency by spitting on the floor of a street car, and since then has spent his time in a continuous performance of being arraigned and filing appeals till finally the last court of appeal was reached and he was ordered to spend twenty-four hours in jail without an alternative of a fine. He will probably be a little more careful where he spits in future, and if he has any spark of public spirit in him he will possibly be able to grow ultimately to look upon his punishment as being a warning to the rest of mankind that may result in better conditions all around.

THAT THROBING HEADACHE

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by the Stafford Drug Co.

ROYAL Baking Powder Absolutely Pure

DEWEY AND ROOSEVELT.

There is a pointed rebuke of Theodore Roosevelt in what Admiral Dewey says of Aguinaldo. Roosevelt, it will be remembered, had just likened Aguinaldo to Sitting Bull, when Dewey comes to say of this Filipino chief: "He is a pretty smart fellow. I know him pretty well. In fact, we were great friends, and are, for the matter of that, but he has not the brains." Here is the difference between absurd vaporing from the stump and the calm opinion of an American admiral who knew the man. The bull-headed folly of Roosevelt goes so far that, in effect, he includes Dewey in the list of traitors who are opposing the government. In fact, the language of Roosevelt upon the Ohio stump is so disgusting to the Washington Post, a paper in political sympathy with him, that it pronounces it "a strange mixture of malice and silliness."—Boston Herald.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy, for having put on the market such a wonderful medicine," says W. W. Massingill of Beaumont, Texas. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by The Stafford Drug Company.

WARNING.

We warn the trade that certain unprincipled salesmen try to sell an imitation of our famous FOUR HUNDRED BALTIMORE RYE, holding out as an inducement to the customer large profits for him to deceive the public. Kick these vultures of trade out, as your goods, like yourselves, are vile. They only get you into trouble, as we will protect the public from this base fraud and our FAMOUS BRAND AT ANY COST. Crown Distilling company.

LAYING OF CORNER STONE

Federal Building, and Fall Festival, Chicago, Ill., Oct. 4th to 11th, 1899.

For the above-named event the D. S. S. & A. railway will sell tickets to Chicago, Ill., and return at rate of single fare for the round trip. Tickets will be on sale October 2nd to 9th, inclusive, and will be valid for return passage leaving Chicago not later than the night trains of Saturday, October 14th. For further particulars apply to station and ticket agents or to Geo. W. Hibbard, G. P. A., Marquette, Mich. (9-22-10-9)

DON'T BE IMPOSED UPON—Always insist on getting Foley's Honey and Tar, as it is positively, absolutely and unquestionably the best cough medicine. Accept no substitute. The Stafford Drug company.

Smoke the "Challenge" cigar, 10 cents. It's the best for the money. Husted & Gessler, makers, represented by J. B. Tibor.

The healing properties of Banner Salve are truly marvelous. It is a thorough antiseptic and heals all Wounds, Cuts and Burns without leaving a scar.

Smoke the "Challenge" cigar, made by Husted & Gessler, Chicago. J. B. Tibor, agent. (6-12-10)

Ishpeming and Vicinity.

DEFEATED IRONWOOD 6 TO 0.

ONE OF THE FIERCEST GAMES OF FOOTBALL EVER PLAYED AT UNION PARK WON BY ISHPEMING'S TEAM SATURDAY.

The Ironwood and Ishpeming high schools met in a football game at the Union Park grounds Saturday afternoon, and, as was anticipated, the contest was a battle royal. Ishpeming won out by making a touchdown and subsequently kicking the goal. Ironwood was unable to score, although Ishpeming's goal was in danger twice in the second half. The game was noticeable for the skill and science displayed by both teams. Each was thoroughly coached, and it was evident from the style of the game that high school football is improving yearly. The Ironwood team was several pounds a man heavier than the local eleven, but superior swiftness and interference told for Ishpeming. The game was devoid of unpleasant features and all the players behaved like gentlemen.

H. W. Kiddle and C. M. Weld umpired and refereed the game and Geo. A. Newett and L. L. Wright of Ironwood acted as timekeepers. Twenty-five minute halves were played. Ironwood kicked off to Ishpeming and the ball was advanced ten yards before it was downed. The Ishpeming boys went in to surprise the strangers and did it. The ball was advanced ten yards on the first two plays. Gourdeau then carried it for ten yards. Randall was given the lead and aided by fine interference, made an advance of thirty yards. A line buck failed. Randall made three yards. A second line buck brought a further gain and it looked as if Ishpeming was going to get a touchdown when the ball was fumbled and captured by an Ironwood man on his twenty-yard line.

Ironwood also set a hurricane pace. The first play around the end advanced the ball to Ishpeming's territory thirty yards. A few gains were made, but good tackling by the Ishpeming boys finally prevented Ironwood from making the required distance and the ball was given to Ishpeming on its forty-yard line. The local boys started in to make up what they had lost by their unfortunate fumble. Gourdeau went through the line for five yards. A second line buck gained three yards. Eggen then travelled around the end for twenty-five yards. Randall made three yards, but a line buck failed. Third down was called with four yards to make, and Ishpeming got the distance through the line. Randall carried the ball for ten yards. Gourdeau made two more. A line play netted five yards. Sandberg hit the line for six yards. The ball was now nearing Ironwood's goal and the boys turned in with redoubled energy. A line play made distance. Randall was good for four yards. Gourdeau was then given the ball and after four minutes of play he succeeded in making ten yards and the only touchdown of the game, despite the attempts of the Ironwood men to prevent it.

Ironwood was off side on the first try for the goal and Ishpeming was given another chance. The extra point was made by a neatly placed kick. Ishpeming advanced the ball from the kickoff beyond the center of the field by short gains and a fifteen line yard buck by Sandberg, but lost it on a fumble. Ironwood made a series of short gains, but finally failed to make the required five yards and the ball was returned to Ishpeming. Ishpeming lost it on a fumble on the second trial for distance. Ironwood then made a series of gains through the lines that made the Ishpeming rooters anxious. The local boys succeeded in getting the ball on the third down before their goal was seriously threatened. Gourdeau made a gain of three yards, when time was called on the ball on Ishpeming's forty-yard line.

The second half was more fiercely fought than the first. The Ironwood men went in to tie the score and twice they came near accomplishing it. Ishpeming kicked off to Ironwood. A runner was lucky in advancing the ball to the center of the field. A series of nineteen line plays were used in rapid succession which advanced the ball from the center of the field to Ishpeming's twenty-five-yard line. A touchdown for Ironwood seemed a certainty. The local boys seemed anxious to prevent short gains through the line. They rallied when their goal was seriously threatened and finally succeeded in obtaining the ball on downs when a touchdown by the Ironwood team appeared inevitable. A line play failed Ishpeming. Gourdeau then carried the ball twenty yards. Randall and Anderson both made good gains. A couple of line bucks made distance. Gourdeau and Anderson each made a couple of yards. Randall made five yards. Eggen did likewise. Ishpeming tried this success but was finally lost the ball on downs. Ironwood tried the line for short but steady gains. In one scrimmage an Ironwood man rolled out with the ball and started for Ishpeming's goal. Dawson was in his proper place, however, and saved a touchdown against his team, although a twenty-yard gain was made which put the ball on Ishpeming's forty-yard line. Line plays were used with effect by Ironwood and once more a touchdown seemed imminent, when the local boys braced up and held steady.

Ishpeming made a couple of line plays which were successful. Anderson hit the line for fifteen yards. The ball was advanced into Ishpeming's territory, where it was lost on a fumble. Ironwood worked two plays for short gains, but also lost the ball. Ishpeming had not started its first play when time was called. The victory was won on its merits. The local boys played straight football, using no trick plays. End runs with fine interference were effective ground gainers, but Ironwood's heavy line was hit for substantial gains. Ironwood found line plays most effective.

Both teams put up fine football. The Ishpeming team is fully as good as, if not better than, any organization that ever before represented the local school. Coaches Butler and Ford have developed team work to a wonderful extent. Every man on the team deserves a full share of the credit. There were no special stars. The men have reason to feel proud of their showing. In the evening the Ironwood delegation was

entertained at a reception at Anderson's hall, which was handsomely decorated for the occasion. Trombley's orchestra furnished music for dancing. The hall was well filled with guests and the function was greatly enjoyed by the visitors.

GATHERS IN ANOTHER MINE.

THE GOODRICH IS ADDED TO THE OLIVER IRON COMPANY'S HOLDINGS IN MARQUETTE COUNTY.

The Oliver Iron company has purchased the Goodrich mine, located at the Saginaw, a couple of miles west of the city. It was owned by parties here. George A. Newett negotiated the deal by which it was transferred to the Oliver company. The property is one of great possibilities, although it has been allowed to lie idle for a term of many years. It was never properly worked or thoroughly explored. It has a large deposit of low grade ore which was mined to the extent of 50,000 tons while the mine was operated. There is a body of hematite ore of a better grade, the existence of which was determined by diamond drilling. No work was ever done on this deposit, although there is little question of its value. The fee of the company covers eighty acres. The mine could be opened up without much trouble, but as the Oliver company has a great deal of development work on hand at present it is probable that nothing will be done at the Goodrich until next spring. The mine will be given a thorough test and the land will be thoroughly explored. If it is found to be a meritorious property it will be developed and will take rank as a steady producer.

MINSTRELS TOMORROW NIGHT.

Shepard's minstrels will be the attraction at the opera house tomorrow night. Their special car is now in the city. They will be at Negawnee this evening. The company comes well endorsed. Its singers are said to be fine musicians. The first part of the show is set off by a crimson stage dressing that is said to be particularly elaborate. The company carries a fine band and orchestra, which furnishes music for a parade and at the evening performance. The Madrigal quartette and a music sheet of male voices are special features of merit. Lieutenant Walter Allen, a ventriloquist of considerable renown, carries an extensive lot of paraphernalia and gives a most pleasing act. There are other good specialties. The performance will be first class. Reserved seats are on sale at Tillson's today.

TO CURE A COLD IN ONE DAY take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

ISHPEMING IN BRIEF.

A. H. Tuttle of Ironwood was here Saturday.

H. H. Dyer of Crystal Falls was here Saturday.

L. L. Wright of Ironwood was up Saturday to see his high school team play football.

F. C. Chamberlain of Gogebic came up from Chicago Saturday morning and spent the days here.

Miss Lindy, who taught here last year, but who is now stationed at Ironwood, accompanied the football party Saturday.

The Michigan Telephone company has issued a new directory, giving the list of subscribers in Marquette county and their numbers.

In spite of the unfavorable weather many sportsmen went out after partridge yesterday. The number was small compared with that it would have been had the weather been fair.

The Western Union company is beginning to install its electrical clocks here. The clocks are set automatically at noon from the Washington observatory and keep perfect time. Many local business places are putting them in.

Sellwood's alligators in front of Tillson's store have attracted much attention the last few days. The alligators are a clever advertising fake and a person has to look into the barrel which serves as a cage to appreciate them.

The Chancel society of the Episcopal church gives a social at William Sedgwick's residence this evening. Every guest will be assessed three cents for every foot of his height and one cent for every additional inch. A pleasing program has been arranged and a pleasant evening will be spent.

The Davidson Stock company concluded its engagement here Saturday night, playing to a well filled and well pleased house. Saturday afternoon "Cinderella" was produced to a good matinee crowd. Seldon has a repertoire company scored such a hit here. The members of the company have made many friends while here and will be pleased to see them play here again. It opens a week's engagement at Marquette tonight.

The slight cough may soon become deep-seated and hard to cure. Do not let it settle on the lungs.

Think! Has there been consumption in your family? Scott's Emulsion is Cod-liver oil with hypophosphites. These are the best remedies for a cough.

Scott's Emulsion has saved thousands who, neglecting the cough, would have drifted on until past hope. It warms, soothes, strengthens and invigorates.

Scott & Bowne, Chemists, New York.

You Can't Expect to Create

the impression that you are well dressed unless your clothes are

MADE FOR YOU.

Equivocate as you may, the fact remains that ready-made garments lack that air of exclusiveness which custom work possesses.

Yours, for best work for the least money,

J. H. MORTLEY, THE FASHIONABLE TAILOR. Canda Street, Ishpeming, Mich. (9-11-11-0)

COPPER COUNTRY NEWS.

(Continued from Page Three.)

from the Burt plant, across the lake, and is now on rollers to be moved to its place in the Dee side of the Sheldon-Dee block.

The new plant of the Lake Superior Cold Storage & Produce company will be rushed to completion at the earliest possible date, as the company has sixty carloads of supplies coming and must have a place for them.

George Carpenter, who firmly established his reputation as a boat builder by his work upon Congressman Sheldon's yacht, has commenced the erection of his new boat building shop on the lake frontage near the Houghton freight depot, owned by Graham Pope.

Will H. Schweizer came up from Marquette Sunday to join his old-time Hancock partridge hunting outfit for ten days in the woods of Ontonagon county. The party will start this morning and will drive out about fifty miles, going by way of Baraga, to the location about ten miles east of the Belt which it has visited every year for eight or nine years past. Fred Nichols, Mort Getchell, John Harris and Ed Warder are the other members of the crowd this year.

The inhabitants of copperdom are inclined to scout the Associated Press reports of the grand welcome accorded Admiral Dewey in New York and to regard them as highly inaccurate, because as yet no one has discovered any mention of the presence of Will Calverly, nor have any of the illustrations shown the hero of Manila locked in the arms of Colonel Coach of the Baraga, Coachville & Southwestern. It is very apparent that the Associated Press is not what it is cracked up to be—we are evidently helpless in the hands of a great newspaper trust. This is more apparent when it is remembered that there was also no mention of the presence of that other eminent citizen of Houghton, Dick Lang, in New York at the time of Cornelius Vanderbilt's demise, while it was left to local newspaper talent to describe the long interview Bob Shields had with McKinley in his inauguration day, when Mac wished to be remembered kindly to all the then county clerk's friends at home.

SPAIN'S GREATEST NEED.

Mr. R. P. Olivia of Barcelona, Spain, sends his winters at Aiken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed, only 50 cents. Sold by The Stafford Drug Co.

GOING DOWN HILL.

People suffering from Kidney Diseases feel a gradual but steady loss of strength and vitality. They should lose no time in trying Foley's Kidney Cure, a Guaranteed Preparation. The Stafford Drug company.

Monarch over pain. Burns, cuts, sprains, stings. Instant relief. Dr. Thomas' Electric Oil. At any drug store.

WILL REPORT THURSDAY.

COUNCIL WILL HAVE DEFINITE INFORMATION CONCERNING THE CONDITION OF THE RECORDER'S OFFICE AT ITS NEXT MEETING.

George A. MacDonald has been giving a good share of his time the past week to a thorough examination of the accounts of the recorder's office.

The council will be furnished with evidence of shortages beyond the amount given in the preliminary report presented by Mr. MacDonald.

One lesson has been taught by the recent disclosures. In the future the clerkships of the two important boards and the recorder's office will be subject to regulations which will effectually prevent dishonesty in their administration.

FARMERS ARE KICKING. Farmers who have come to the city during the last few days have expressed themselves forcibly about the weather.

SHAKE INTO YOUR SHOES ALLEN'S FOOT-EASE, a powder. It cures painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions.

MINSTRELS TONIGHT.

Shepard's Modern Minstrels appear at MacDonald's Opera House this evening.

A NARROW ESCAPE.

Thankful words written by Mrs. Ada E. Hart of Grotton, S. D. "Was taken with a cold which settled on my lungs; cough set in and finally terminated in Consumption.

LOCAL LAONICS.

Sam Goodman was down from Nestoria Friday for a short visit.

Robert W. Jackson left Saturday morning to spend a month visiting in Pheasant, Ontario, Canada.

A number from this city attended the football game between Ishpeming and Ironwood Saturday afternoon.

Miss Jennie McMinn, assistant in the postoffice at Bessemer, has just concluded a week's visit with Miss Minnie Nesbitt here.

Kasper Kratz cruised about Iron street with his wheelbarrow Saturday picking up miscellaneous rubbish. It is a question as to when he will be frozen out.

The work on the road from the Hartford mine to the Cambria has been finished. A dressing of rock was put on which improved the surface of the road greatly.

Friday was a holiday for the school children. This was to give them an opportunity to attend the county fair, but they quite generally failed to avail themselves of it.

Harvey Pearce of the Negaunee & Ishpeming Street Railway company and Miss Ida MacGregor will be united in marriage here next Wednesday evening.

The contracting parties are well known. The ceremony will be a quiet affair. Miss MacGregor is a daughter of Capt. Charles MacGregor.

Carpenters are wanted urgently to work on the new ward school building. The work is being delayed by the lack of skilled labor.

State of Ohio, City of Toledo, Lucas County, ss. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and state aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

SHAKEN INTO YOUR SHOES ALLEN'S FOOT-EASE, a powder. It cures painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions.

STOPPED THE BACKACHE—A. R. Bass, Morgantown, Ind., writes: I was afflicted with Kidney disease and had to get up quite often during the night and suffered severe pains in Kidneys and with backache. I used Foley's Kidney Cure. After taking three bottles I am entirely cured. The Stafford Drug company.

DOES IT PAY TO BUY CHEAP?—A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boesche's German Syrup."

The Best Cough Remedy on Earth. Warner's White Wine of Tar Syrup, Consumption Cure, cures a cold in 24 hours if taken in time and does not stop a cough in one minute by paralyzing the throat, but it cures the disease and leaves the throat and lungs healthy and strong. 25 and 50 cts

ROYAL Baking Powder Absolutely Pure

GUBERNATORIAL TIMBER.

LIST OF AVAILABLES FROM AMONG WHOM MICHIGAN REPUBLICANS MAY SELECT THEIR CANDIDATE.

A correspondent of the Chicago Tribune, writing their paper from Lansing, has furnished it with this enumeration of available timber for the government on the Republican side, in connection with an exposition of the status of things political in the state from the correspondent's point of view:

Now comes the selection of the candidate for governor who can best command the support of the United Republican party without reference to previous adherence. The names of a number of good men are mentioned. Among them is Charles S. Osborn of Sault Ste. Marie, the present commissioner of railroads.

Mr. Osborn has been a consistent, energetic and potent Republican. He has never been affiliated with either Pingreephobia, but has occupied an independent position between the factions, observing the strictest rules of Republicanism. He is still a young man. He will not be forty until next January. There is a leaning to young men just now over the entire country.

Railroads are securing them for general managers, big shipping fleets are taking them on as commodores, and many of the states are finding in them the best timber for governors.

If there is anything in the hackneyed phrase of a "self-made man" Mr. Osborn is entitled to that credit. He was born in a log house in Indiana, struggled his way through an education in the common schools and at Purdue university, did newspaper work in Chicago and Milwaukee, and finally found himself publishing a newspaper at Sault Ste. Marie, Mich. He is still engaged in this business.

In addition, he has interested himself in local and state organizations, both as a society man and otherwise. He has been the president of the Michigan Non-Partisan Press association; was for four years in charge of the game and fish interests of the state, with nearly 300 deputies under him, and is commissioner of railroads in a state where there is only one commissioner, and where there are nearly 9,000 miles of railroads, valued at over \$300,000,000.

While Mr. Osborn has done much in the rut of work for a young man, he gets outside of it by sailing his yacht and hunting big game. There are those who claim that he can shoot a rifle and shotgun better than Governor Roosevelt, and that he knows the wilds as well or better, and has invaded them, and that it is no particular compliment to call him the "Roosevelt of Michigan," as he is frequently designated.

As a candidate for congress in the big Twelfth district of Michigan three years ago Mr. Osborn came within an ace of election, and where all of the fight comes in the convention. He came so near that he was able to nominate his personal friend and collaborator in politics, Congressman Carl Sheldon, and all this against the redoubtable and wealthy Sam Stephenson, who had swept the district for four previous terms without any one daring to beard him in his den.

Among the other candidates about whom there is talk is Justus S. Stearns of Ludington, who is the present secretary of state. Mr. Stearns is a millionaire lumberman, and in his personality and record is a clean and successful man.

James O'Donnell of Jackson, who has again very active, and while he has a very large following who like him and think well of him, they are inclined to think that he has scored too often, while others contend that he has joked himself out of politics. Mr. O'Donnell is bright, and has nothing against him more grave than the charge of being a professional humorist.

Colonel A. T. Bliss of Saginaw, who was a candidate three years ago, and charges that he would have been nominated if it had not been for O'Donnell, feels very bitter toward that gentleman, and will undoubtedly be a candidate if he thinks it is necessary for him to be in order to defeat O'Donnell.

Phil T. Colgrove of Hastings, Barry county, has announced his candidacy. He is grand chancellor commander of the Knights of Pythias of the world. Mr. Colgrove is a pleasing gentleman, with attainments of high order, but he has a domestic matter to contend with.

Not very long ago his wife secured a divorce from him, and his own friends are divided, some taking one side and some the other.

Judge Charles D. Long of the supreme court is talked of as a candidate. It is said that especially in the event of a contest between General Alger and Senator McMillan, Judge Long would have been the McMillan candidate for governor; but now that there will be no contest the great reason for Long's candidacy seems to have disappeared.

The story is that Judge Long was to give up his place on the bench where (without being plunged into the turmoil of a re-nomination and election) he can remain for seven years, for the purpose of being a candidate for governor, and that his reward would not only be the governorship, in case of success, but that in any event Senator McMillan would see that he was appointed to a life position on the Federal bench. Judge Long says he is not a candidate, but there are many who believe even yet that he may be.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. church, South Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by The Stafford Drug Company

NOTICE TO HEATING CONTRACTORS. Sealed proposals will be received by J. H. Sawbridge until 12 o'clock noon of Oct. 7, 1899, for heating and ventilating a new frame school house at Negaunee, Mich. Plans and specifications can be seen at Mr. Sawbridge's store, Negaunee, Mich., also at the architect's office, Marquette, Mich.

The right to reject any and all bids is reserved. CHARLTON, GILBERT & DEMAR, (9-23-1w) Architects.

Only one remedy in the world that will at once stop itching of the skin in any part of the body. Doan's Ointment. At any drug store, 50 cents.

SHELL FROM FAR MANILA.

Valuable Relic of the Capture of the Filipino City Offered the Public Library.

IS ONE OF FIVE FIRED AT THE LUNETTA BATTERY.

B. C. Morse, a Former Citizen Now in the Ordnance Department at Manila, Offers to Send It—More Soldiers Are Needed.

LETTER FROM THE DISTANT COLONIES.

B. C. Morse, who was once a resident of Marquette, during which time he was connected with the old Campbell & Wilkinson bank, is now serving in the ordnance department with the Pacific and Eighth army corps at Manila.

"A means of celebrating the day the natives intend to cut our throats tonight. The Americans here are not celebrating; that is sure."

"I have in my possession here two of the 8-inch shells thrown by our fleet into the city of Manila on the first day of May, 1898. These shells landed near the Lunetta about 500 yards from the walled city; being thrown at the Lunetta battery in answer to their fire. Five of these shells were thrown as near as I can find out. I think the official reports of the navy will tell. Two failed to explode and were brought to the arsenal to have the powder taken out. Having been ordered into the arsenal and in taking the inventory I found these shells and they were given to me by the Spanish officials."

"I enclose a sheet of stamps which some of the little folks in your family will want if you do not."

"I have been assistant to the chief of ordnance in this department and corps since last December and have a nice office and house. The arsenal is in the water end of the walled city and really the best station in the city. I cannot complain. Few are going home except those sick. I really do not expect to apply to you until next summer when I will have been in the field two years."

"We can occupy all the territory of OF UNTOLD VALUE."

The Information Contained in This Citizen's Statement Is Priceless.

The hale, the hearty, the strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Marquette who has spent a mint of money and hours of excruciating torture caused by kidney complaint, will stand in his own light if he does not follow the valuable advice offered by:

Mr. Theo. Farrell of 411 Wells avenue, Escanaba, writes on the Northwestern, says: "The majority of men who follow my calling suffer from backache. In some cases like myself they are a long time on the road before the symptoms develop, in others the jarring and swing of the cab brings on attacks much sooner. I watched the action of my kidneys carefully and had a specially constructed seat on the engine to counteract its effects. As soon as I found that my kidneys were not just right I took some good kidney tonic to correct them. I found Doan's Kidney Pills answer my purpose admirably. Reading about them I decided to leave off the remedy I always depended upon, and procured a box of Doan's Kidney Pills at a drug store, with the intention of giving them a chance to prove that there was something of merit in their composition. The results obtained were all that could be desired. Since I stopped the treatment I have had no indication of a return."

Just such emphatic endorsement can be had right here in Marquette. Drop into the Stafford Drug Co. and ask what their customers report.

Doan's Kidney Pills are for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the United States. Remember the name Doan's and take no substitute.

troops can cover and no more. If we had sufficient troops it would be an occupation with very little more fighting. It is hoped that the president knows that fact and that by the time the rainy season is over they will be here.

"Very Sincerely, B. C. MORSE."

DEWEY IS WELCOMED. Boston and New York Exchanges Will Again Resume Business.

Business will be resumed on the exchanges of Boston and New York today after a two days' lay off caused by the Dewey festivities. The Chicago board was the only active speculative market yesterday in which the people of this part of the country are interested.

"Chicago, Sept. 30.—Wheat—Liverpool quiet at 1/4 advance; Paris 1/8 lower; London, however, was 1/2 higher and sent acceptance and buying orders for winter wheat to this country at an advance of about one cent per bushel, the demand apparently being for hard winter. The Liverpool advance seemed to be over the political situation which is still unsettled. The September deal seems to have culminated yesterday, the stock of contract wheat being added to by 200,000 No. 1 northern, and 42,000 bushels from private elevators into public ones this morning. Primary receipts were 1,250,000 bushels against 1,700,000 last year. Exports without Galveston and New York were 40,000. Broomball predicts world's shipments will stand Monday at 7,000,000 bushels, which has had a depressing effect upon the market. Winter wheat receipts continue small, only twenty-four cars at Toledo compared with ninety-seven last year; 33,000 at St. Louis as compared with 130,000 last year; while Kansas City for the week received 1,000 cars compared with 1,300 last year. The increase in Chicago will probably be 1,000,000 bushels and at the northwest 2,000,000; predictions are made of a 2,000,000 increase in the visible Monday, which is about the same as last year. There has been small interest in the market the main bullish impulse coming from the southwest but this was overcome in this market by the pressure of September and correspondingly in the December option."

GOING TO IRONWOOD. Principal Waldo Will Be the Instructor at the Gogebic Institute.

The influence of the normal is being extended all over the upper peninsula by calling in requestion the services of Principal Waldo and other members of the faculty as instructors in the various county institutes. In this they not only Marquette but nearly every town in the peninsula will sooner or later get the benefit of the fine faculty which has been brought together as the teaching corps of the new school.

PARTRIDGE FAIR GAME. Open Season for the Birds Began Yesterday—Pheasants Increasing.

The open season for partridge came in yesterday, and for the next six weeks these birds will be fair game. Beginning this year the season opens two weeks later than it used to. This has caused some sportsmen to go wrong unintentionally and hunt out of season, but more have been regardless of the season and would have been so had it opened the first of July. These have been in the first for several weeks and their friends on the birds are said to have been considerable. Still, from all reports there are enough left, so the honest hunters will enjoy very fair sport throughout the season.

MARQUETTE MINETTES. Professional wits get off a good many clever things but they always have been and probably always will be rivaled by the unintentional humorist.

A Third ward hopeful came in from play the other day with a remarkably clean himself so she led him to the sink and began operations with soap and wash rag herself.

MAKING GOOD PROGRESS. Contractors Are Pushing Work on the New Normal Right Ahead.

Sunday being fine a large number of people took occasion in the afternoon to pay a visit to the new normal site to see the building and note what progress was being made on it.

EVERYBODY WHO HAS VISITED the place so far seems well pleased with the site and more than pleased with the building. Lipsett & Gregg, the contractors, are pushing its construction in a way that gives indication it will be finished and ready for occupancy by the first of the year as their contract calls for. The first story above the basement is now nearly completed.

CORNS AND BUNIONS REMOVED. Prof. G. B. Savnac will remove corns, bunions and cure in-growing toe nails; no cutting; has had seven years of successful experience and practice. For a short time will be at A. A. Cole's residence, 423 North Front street. (9-19-100)

IF YOU WANT solid comfort and satisfaction smoke the "Challenge cigar." Its the very best on the market for 10 cents. (5-12-11)

Secure a policy in the Aetna Life for the protection of your wife. See the agent, F. H. Vandenberg. (9-26-1w)

Buy the Mariposa cigar, claimed to be the best 5 cent cigar made. The Stafford Drug Co. (9-25-5w)

QUESTION ANSWERED.—Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce and they seldom heard of Apperitics, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Sample bottles at the Stafford Drug company.

Joseph Stockford, Hodgdon, Me., headed a sore running for seven years and cured his piles of long standing by using DeWitt's Witch Hazel Salve. It cures all skin diseases. The Stafford Drug Co.

EXHIBITORS Will Not Suffer Through the Financial Failure of the Fair.

The late fair was a financial failure, but this will entail no loss upon the exhibitors. The directors of the society have determined to pay all premiums in

full. This will cost the society quite a sum of money, but it will make it possible for it to recoup itself by giving a successful exhibition next fall and will have the effect of keeping alive the interest of those who have exhibited and those who might become such in the enterprise. All who have orders can have them cashed by presenting them at the office of the treasurer, C. H. Call. Saturday was moving day at the fair. The moving really began Friday afternoon but the bulk of the exhibits were taken away Saturday. The buildings are all locked up for the winter now and the grounds present a deserted appearance. Such few articles as were not cared for were taken to the office of Secretary Asire and can be obtained there by their owners.

OF COURSE there was a deficit but it is impossible yet to tell the amount. The directors will have a meeting probably the early part of this week and figure up where the society stands.

ONE WEEK OF AMUSEMENT.

Davidson Stock Company Will Play Here in Choice Repertoire.

The Davidson Stock company, which is one of the strongest week stand attractions touring, will hold the boards at the opera house all this week and present a repertoire of choice comedies and dramas. Every where the company has played it has given great satisfaction. It comes to Marquette after a week at Ishpeming, where it played to good business and more than pleased the people. It is the only repertoire company which has been here for a number of months, and as such will fill a genuine want for a popular priced attraction.

The Manistique Courier says of the performance of the company: "The Davidson Stock company which played at the opera house three nights last week, closing Saturday night, did an excellent business and fairly captured our theater-goers. The company is made up of clever people. Miss Kent and Mr. Kelly are exceptionally pleasant people and their interpretation of their general roles it would be hard to excel. Should the company happen in this city again they will play to a full house."

CITY BREVITIES.

Yesterday's temperature: 7 a. m., 34 degrees; noon, 48 degrees; 7 p. m., 44 degrees; maximum, 50 degrees; minimum, 34 degrees.

H. E. Burt of Manistique was in town yesterday.

D. J. Norton of Ewen spent Sunday in the city.

J. R. Foster of Munising was here over Sunday.

E. L. Hesse of Munising was a business visitor in the city Saturday.

A. P. Simpson formerly of Marquette but now of Saginaw, Sundayed here.

R. T. Looney of Houghton came down from the copper country last evening.

The regular October meeting of the common council will be held this evening.

Mrs. Robert Weston of Minneapolis who has been here visiting her parents, has returned home.

There will be a meeting of the park and cemetery commission in the city hall at 2 o'clock this afternoon.

The Catholic fair will continue tonight and tomorrow night and close with the grand prize drawing Tuesday evening.

The Baptists and Methodists held joint services yesterday in the former church with preaching by the Rev. E. A. Elliott.

The Passion Play was repeated at the Presbyterian church Saturday evening to a fair sized house, giving general satisfaction.

A small force of men is at present engaged in grading the site for the veneering factory. The work of erection will begin shortly.

There will be a meeting of the joint Maccabee committee in the ante room of Fraternity hall this evening at 8 o'clock. The meeting is to arrange for the coming of Great Commander Boynton.

Mrs. Carter Harrison, two children and a nurse of Chicago, were among those who came down on the City of Marquette from the Huron Mountain club yesterday. The season at the club is practically ended now, only four guests still remaining.

The annual meeting of the board of supervisors will be held at the court house a week from today. The auditing committee will meet Thursday and County Clerk Ross desires all bills which are to be presented to the board at this session placed in his hands by Tuesday night.

A large number of copper country people who were among the Detroit excursionists, came up from the straits as far as Marquette on a special Saturday night and laid here till Sunday morning when they took the 9 o'clock train for home. The party included George F. Goodale, F. N. O'Neil, Miss Helen Turner, Charles A. Herbert, Houghton; C. S. Neal, George H. Wheeler, Z. F. Wheeler, Ann Arbor; W. J. Parks, Lake Linden; Dr. Van Slyke, Edward O'Neil, Hancock; W. J. Webb, H. Armstrong, M. E. O'Brien, Calumet.

The funeral of Mrs. James Charlesworth which was held yesterday afternoon from the Presbyterian church was largely attended by the numerous friends of the deceased. Mrs. Charlesworth was a lady Maccabee and a member of the Degree of Honor. Three members each from the K. O. T. M. and A. O. U. W. lodges officiated as pallbearers. Many beautiful floral tributes testified to the esteem in which the deceased was held. Mr. and Mrs. James McMath, parents of Mrs. Charlesworth, were here from the Soo to attend the funeral, as was also her brother John McMath of Detroit.

THAT JOYFUL FEELING With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of Figs, is unknown to the few who have not progressed beyond the old-time medicines and the cheap substitutes sometimes offered but never accepted by the well-informed. Buy the genuine. Manufactured by the California Fig Syrup Co.

Beautiful women everywhere owe their matchless loveliness to the use of Rocky Mountain Tea. Plain women made attractive by this great remedy, The Stafford Drug Company.

VESSEL MOVEMENTS.

PASSED THE CANAL.

Sault Ste. Marie, Sept. 30.—(Special.)—Up—Selwyn Eddy, 11:30; Craig, Harper, Tyson, 3; V. H. Ketchum, 7; Nicholas, 8:30; Victory, 9; North Star, 10:30; Rockefeller (whalebacks), Linn, Masaba, 11:40; Lyon, Cumberland, 1:20; Bulgaria, Amazon, 1:40; Frontenac, 2; Manitoba, 2:30; Queen City, 3; North Wind, 4:20; Forest City, 5:30; Empire City, Choctaw, 6:30; Linden, Sitka, Yukon, 7.

PORT LIST.

Arrived—Presque Isle, Pontiac, Orr, LaSalle, Wawatam, Republic, Andaste, Wade, Craig, Continental, Holland, Specular, Magnetic, Paisley, Butters, Drake. Cleared—Iron Age, Andaste, Buffalo, LaSalle, Wade, Pontiac, Drake, Cleveland; Cambria, Presque Isle, Ashabua; Wawatam, Lofrain.

LOCAL MARINE NEWS.

The Marshal T. Butters loaded lumber Saturday for Tonawanda.

Quite a fleet of ore carriers came in Saturday night and Sunday.

All the boats which were sheltered here during the big storm have gone out.

The schooner Paisley is in with another cargo of rails and railroad iron for the South Shore.

A special from Bayfield, Wis., says that the City of Traverse bound from Chicago to Duluth, and which left shelter here to continue her journey to the head of the lake, lost her rudder Thursday morning when twenty miles off from Outer Island. A terrific gale and snow storm was raging at the time. The boat was brought to anchor at Bayfield that night after a perilous and exciting time. Captain Twitchell is reported to have shown great skill and coolness in bringing vessel into port. The steamer is probably now on her way to Duluth as she was to be towed there as soon as the storm abated.

TO CURE LA GRIPPE IN TWO DAYS.—Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box, 25c.

Yesterday's temperature: 7 a. m., 34 degrees; noon, 48 degrees; 7 p. m., 44 degrees; maximum, 50 degrees; minimum, 34 degrees.

NOTICE.

To the property owners, taxpayers and other persons interested in the proposed improvement, to-wit: For the construction of the "Genessee Street Trunk Sewer."

Notice is hereby given that the specifications for the construction of a trunk sewer, to be known as the "Genessee Street Trunk Sewer," to extend from the creek bed one hundred feet north-west to the center of Garden street, north in the center of Marble street, and said street produced north, to the center of Genessee street; thence west in the center of Genessee street to the center of Adams street, in accordance with the profile therefor, with man holes and lamp holes shown in said profile, together with the estimate of the expense of constructing said sewer and profile of the work to be done and district to be improved and assessed to pay the cost thereof, are now in the office of the city controller for public examination.

The district to be assessed, to pay for said trunk sewer, is bounded as follows:

Commencing at a point in the south line of Block number 1 of Edward's addition, 50 feet east of the southwest corner thereof, thence north on a line parallel with the west line of said Block number 1, and 50 feet distant therefrom, to the south line of Mesnard street; thence northwest across Mesnard street, to the southwest corner of Lot number 72 of Penny and Vaughn's addition; thence north along the west line of Lots numbered 72 and 43 of said addition, across Genessee street, and along the west line of Lots numbered 31 and 2 of said addition, to the south line of Jackson street; thence northwest across Jackson street, to the southeast corner of Lot number 1 of Champion addition; thence northeast along the east line of Lots numbered 1 to 8 inclusive of said addition, to the northeast corner of Lot 8; thence northwest along the north line of said Lot 8, to the east line of Champion street; thence southwest across Champion street, to the northeast corner of Lot number 17 in Block number 4 of White's addition; thence northwest along the north line of said Lot number 17 and across the alley lying between Blocks numbered 4 and 7 of said addition, to the northeast corner of Lot number 5 of Block number 7 of said addition; thence west along the north line of Lots numbered 5 to 8 inclusive of said Block 7, and across Division street, to the southeast corner of Lot number 12 in Block number 12 of said addition; thence north along the east line of said Lot number 12, across Newberry street and along the east line of Lot number 13 in Block number 11 of said addition, to the northeast corner of said Lot number 13; thence west along the north line of Lots 13 to 15 inclusive of said Block 11 to the northwest corner of said Lot number 15; thence south along the west line of said Lot number 15, and across Newberry street, to the south line thereof; thence west along the south line of Newberry street, and across Adams street, to the northwest corner of Lot number 101 of Blenhuiber's addition number 1; thence south along the west line of said Lot 101, to the southwest corner thereof; thence west along the south line of Lots numbered 102 to 110 inclusive of said addition, to the southwest corner of said Lot number 110; thence south along the west line of Lot number 141 of said addition, to the north line of Blenhuiber avenue; thence west along the north line of Blenhuiber avenue, and across Altamont street, to the southeast corner of Lot number 137 of said addition; thence north along the east line of said Lot number 137, to the southeast corner of Lot number 114 of said addition; thence west along the south line of Lots numbered 114 to 121 inclusive of said addition, to the southwest corner of Lot number 121; thence south along the west line of Lot number 120 of said addition, to the south line of Blenhuiber avenue; thence west along the south line of Blenhuiber avenue extended west to a point 500 feet west of the west line of Blenhuiber's addition number 1; thence south 297 feet to the north line of Caroline Burt's addition number 2; thence west along the north line of said addition 629.8 feet; thence southerly and easterly along the line of Mountain street, and across Albion street, to the southwest corner of Lot number 2 of Caroline Burt's addition number 2; thence east along the south line of said Lot number 2, and along the south line of Lots 1 to 5 inclusive of Caroline Burt's addition number 1, to the southeast corner of said Lot 5; thence south along the west line of Lot number 34 of said addition to the north line of Genessee street; thence southeast across Genessee street to the northwest corner of Lot number 46 of said addition; thence south along the east line of Altamont street, across Mesnard and Craig streets, to the southwest corner of Lot number 174 of Caroline Burt's addition number 2; thence east along the south line of Lots numbered 174, 173, 172, 171 and 170 of said addition, and along the south line of Lots numbered 94 to 99 inclusive of Caroline Burt's addition number 1, to the southeast corner of said Lot number 99; thence north along the east line of said Lot number 99, to the southwest corner of Lot number 101 of said addition; thence east, along the south line of said Lot 101, to the west line of Adams street; thence southeast across Adams street, to the southwest corner of Palmer's re-plot of Lot number 16 of Craig's addition; thence east along the south line of said Palmer's re-plot, to the west line of Division street; thence northwest across Division street, to the southwest corner of Lot number 1 in Block number 3 of Edward's addition; thence east along the south line of said Lot number 1, to the southeast corner thereof; thence north along the east line of said Lot number 1, to the south line of Craig street; thence east along the south line of Craig street, to the west line of Marble street; thence northeast across Craig street to the place of beginning.

The common council of the city of Marquette will meet on Monday, the 2nd day of October, A. D. 1899, at 8 o'clock p. m., and consider any objections to the construction of said trunk sewer and the district assessment roll prepared therefor, and for the final confirmation of said roll.
