## HANGING BACK ALL ON BRITAIN'S SIDE.

London Thinks Boers Determined to Fight or They Would Have Sent a Temporizing Reply.

REMARKABLE ABSENCE OF NEWS FROM THE DISTURBED REGIONS.

LEADS TO BELIEF THERE HAS BEEN WIDESPREAD WIRE-CUTTING.

Report the Transvaal Forces Have Occupied Laing's Nek Wildly Excites Cape Town. While Unconfirmed Rumors Have It That Hostilities Have Already Begun.

MORE SHIPS CHARTERED BY ENGLAND. London, Oct. 2.—No confirmation is obtainable from any source of a report contained in a dispatch to the Exchange Telegraph company that the Boers have captured Dundee.

Later—The rumor that the fighting had already commenced seems to have originated at a Woolwich arsenal. Matters are at a standstill, and practically no dispatches from South Africa have been received this morning.

London, Oct. 2.—There is great excitement at Cape Town, where it is reported the Boers have occupied Laing's Nek, the famous pass on the Natal border.

It is said that the question of the meeting of the cabinet tomorrow depends largely on the developments in the Transvaal. The remarkable absence of news from South Africa has led to the belief there has been widespread cutting of the wires, or extraordinary censorship.

ACTIVE BRITISH PREPARATIONS.

Had the Boers not determined to fight it out they would, it is thought, have sent some temporizing reply. All the hanging back seems to be on Britain's side.

Reports from the various arsenals and garrisons in Great Britain testify to the active continuance of the military preparations. The reserves have received preliminary notice to be prepared and several regiments have been notified to hold themselves in readiness for active service.

The government is chartering a large number of steamers, evidently for the purpose of transporting an army corps. About forty vessels are to be chartered, and the steamer *Evonora*, of the Cunard line, and the *Bavarian*, of the Allan line, are among those already taken.

A corps of gentlemen rough riders, patterned after Roosevelt's, is organizing for service in South Africa.

EXCITEMENT IN NATAL.

A dispatch from Durban, Natal, timed 10:45 o'clock this [Monday] morning, reports all trains from the Transvaal arriving twenty-four hours late, having been obliged to give place to Boer military trains. It is added that the trains which arrived last evening were packed, and that the station was besieged by friends of the passengers. The latter said they endured great hardships and had been subjected to insults by the Boers.

The dispatch adds that the excitement is increasing at Durban. The streets are thronged with animated crowds, and the impression prevails that the Boers may commence hostilities today. Although over 1,900 Natal volunteers have gone to the front, the trains from Lourenzo Marquez (Delagoa bay) are bringing enormous crowds, principally miners. A Boer command has arrived at the border town of Comantipoort.

BOER COMMANDERS CHOSEN.

A special press cablegram this evening from Pretoria says that "General Jan Koch will command the Boer forces on the Natal border, Commandant Cronje on the southwestern and General Schalk-burger on the eastern frontier, while General Malanbin will command at Rustenberg. Altogether there will be nine generals in command of the columns. A complete plan of campaign has been arranged with the Orange Free State. A rigorous censorship is maintained over all press telegrams. President Kruger addressed the troops which started for the Natal border on Saturday, appealing to their patriotism and wishing them Godspeed. Fighting is expected by Wednesday."

No exceptional activity was shown at the government offices in London today. Secretary Chamberlain and the Earl of Selborne were absent from the colonial office, but Lord Lansdowne, General Lord Wolseley, and General Sir Evelyn Wood were busily engaged at the war office. General Sir Redvers Buller called at the war office this afternoon and a special board meeting was held. Naturally nothing of the discussion was made public, but it is understood that General Sir Redvers Buller will not proceed for the Cape until next week except in case of unforeseen developments.

PARLIAMENT WITH SALISBURY.

Many members of parliament are returning to town in anticipation of an early summoning of the house of parliament. It is the general impression that, although some speakers may express disapproval of the government's policy, few will go to the extreme of voting against the required credit. It is considered more probable they will abstain from participating in a division.

A letter from an utterer received in Birmingham was published today. It reflects the general feeling of the British residents in Johannesburg, they must be in an awful funk. The writer says: "If it comes to a fight, I believe the Boers will make a massacre of it, blow Johannesburg to bits and shoot us on sight. In fact, I have been told so by one in office."

U. S. TO KEEP OUT OF IT.

New York, Oct. 2.—Charles D. Pierce, consul general of the Orange Free State, received a cablegram today relative to affairs in the Transvaal. He declined to make it public but said the president of the Orange Free State had made an ineffectual effort to induce President McKinley to request other powerful na-

tions to act with the United States as arbitrators between England and the Transvaal.

## REPUBLICANS ON TOP.

TOWN ELECTIONS THROUGHOUT CONNECTICUT YESTERDAY.

New Haven, Conn., Oct. 2.—One hundred and sixty-two of the 168 towns in the state today elected officials. Returns up to midnight have been received from 133 towns showing Republican victories in 101 and Democratic successes in thirty-two. Compared with last year, the Republicans have gained nine and the Democrats five.

## ANDREE FOUND THE POLE.

AT LEAST THE BUOY RECENTLY FOUND WAS THE ONE TO MARK THE ACHIEVEMENT.

Stockholm, Oct. 2.—The buoy marked "Andree Polar expedition," found Sept. 9 on the north coast of King Charles island by the master of the Norwegian cutter *Martha Larssak*, was opened today and found to be the buoy which Andree had arranged to drop if he succeeded in passing the pole.

## BRITAIN TO GET THE LANDS.

STATED ON GOOD AUTHORITY THE AWARD TO BE GIVEN TODAY IS AGAINST VENEZUELA.

Paris, Oct. 2.—The Venezuelan boundary tribunal has risen after concluding its deliberations. The award will be read tomorrow in the presence of the representatives of Great Britain and Venezuela. The secretaries are now writing out the award. It is said on good authority the verdict will be a decided victory for Great Britain. Chief Justice Fuller and Justice Brewer start for London Wednesday to sail for New York the 11th. Former President Benjamin Harrison will go to Berlin Wednesday, thence to The Hague, Brussels and London, sailing for the United States the 18th.

## NEAT PROFIT FOR UNCLE SAM.

SEPTEMBER RECEIPTS \$8,754,772 GREATER THAN EXPENDITURES.

Washington, Oct. 2.—The comparative statement shows that the total receipts for September were \$45,334,144 and the expenditures \$37,579,372, leaving a surplus of \$8,754,772.

The monthly statement of the public debt, issued today, shows that at the close of business Sept. 30, 1899, the public debt, less the cash in the treasury, amounted to \$1,148,965,789, a decrease for the month of \$8,490,775. The total debt is \$1,436,601,392. This does not include \$647,965,903 of treasury notes outstanding which are offset by an equal amount of cash on hand. The total cash in the treasury is \$1,015,241,086, against which there are demand liabilities outstanding amounting to \$727,545,473, which leaves a net cash balance of \$287,695,612.

## DEAD NUMBER 1,500.

FEARFUL HAVOC WAS WROUGHT BY THE RECENT EARTHQUAKE IN TURKEY IN ASIA.

Constantinople, Oct. 2.—It is now estimated that 1,500 persons perished in the earthquake in Asia Minor, around Aidin. The first shock occurred at 4 o'clock in the morning of Sept. 20 and lasted forty seconds. Whole villages were completely destroyed. The earthquake was felt as far as Mitylene and Smyrna.

The latest advices from the stricken area show that men, women and children were buried in the ruins of their dwelling places before they realized their danger. Numbers of bodies still lie beneath the debris. About 500 persons were killed at Sarakeni, and 500 at Denizli, where three-fourths of the buildings fell. There was a proportionate loss of life in many of the smaller villages. The disturbance has not yet subsided, although its strength appears to be spent. The shocks continue almost daily, but with no great violence. The population is encamped in the open, the consequence of the earthquake is the subsidence of the level of the Aidin district by two yards. Sulphurous springs burst out in the valley of Noander, and the country between Aidin and Denizli became full of crevices out of which rushed black, mutty water with sufficient volume to wash away a cove of 1,000 sheep.

## BIG DEMOCRATIC RALLY.

LEADERS FROM FORTY STATES AND THOUSANDS OF FOLLOWERS GATHER AT DALLAS, TEX.

Dallas, Oct. 2.—A two days' Democratic carnival opened here today. The city is packed with Democrats representing forty states and Oklahoma and Indian Territory, including such men as O. H. P. Belmont, New York; Judge Tarvin, Kentucky; Governor Jones, Arkansas; ex-Governors Adams, Colorado, and Crittenden and Stone, Missouri; Terril, ex-United States ambassador to Turkey, and thousands of lesser lights and leaders. Meetings have been arranged for morning, afternoon and evening, each with its attractions of national leaders.

Wm. J. Bryan arrived at the fair grounds shortly after 10 o'clock and was accorded a great ovation. Addresses were delivered at the forenoon session by Governor Stone of Missouri and Governor Jones of Arkansas. At the afternoon meeting the crowds were larger. If anything, than in the morning. General Cabell presided and introduced Champ Clark of Missouri, who was followed by Congressman Hugh Dismore of Arkansas and ex-Governor Alva Adams of Colorado.

At night there was a large procession composed of the labor organizations of Dallas. After the procession had passed the night meeting was called to order and Congressman William Sulzer of New York addressed the assemblage. William J. Bryan was next introduced and he was received with enthusiasm. He spoke on the questions of income tax, the Chicago platform, free silver, trusts and anti-imperialism.

## FIERCE ENGAGEMENT SOUTH OF MANILA.

Americans and Insurgents Battling in the Vicinity of Imus Since Saturday.

FILIPINOS ON THE RETREAT WITH REPORTED HEAVY LOSSES.

NAVAL EXPEDITION IN FORCE SAILS TO THE TOWN OF ORENI.

Place to Be Bomarded and the Sunken Gunboat *Uranderia* Raised—War Department Approves Action of Otis in Again Declining Recognition.

AGUINALDO'S ENVOYS GIVE IT UP. Manila, Oct. 2.—The Filipino envoys called on General Otis today and discussed matters with no result. General Alejandro said to the representative of the Associated Press that he had no instructions, except to deliver his letter, which was rejected. He will return to Tarlac tomorrow.

An expedition composed of an armored flatboat, armed with two three-pounders, with the gunboats *Helena*, *Petrel* and *Mindoro* escorting it, proceeded yesterday to Oreni for the purpose of bombarding that place and landing two hundred marines and blue jackets to raise the wrecked gunboat *Uranderia*. The gunboats will approach to about 2,700 yards from Oreni and the flatboat will enter the river. The expedition will return tomorrow.

The insurgents attacked Imus, on the Bacoor road today. The last advices from there was that the Americans had driven off the enemy, with five casualties. The insurgents loss is estimated to be large.

## SEVERAL AMERICANS KILLED.

Manila, Oct. 2.—The Fourth infantry regiment, Major Price commanding, has had a series of encounters with the insurgents about Imus since Saturday. The natives were led, it is supposed, by the former mayor of Imus, and made a general attack upon the American lines from Imus to Bacoor. A captain and a corporal of the American forces have been killed and eight men wounded. A Filipino colonel is known to have been killed. Major Price has requested Rear Admiral Watson to send two gunboats to his support.

The fighting began Saturday, when Captain Brown took the same battalion that distinguished itself at Perez Das Marinas and Lieutenant Kanabushue's scouts against a large force of insurgents on the Perez Das Marinas road, and a general engagement followed. The Americans, lying in mud in the rice fields, kept up a fire for an hour and a half, when reinforcements were sent to them until seven companies were engaged. The insurgents retreated. During the engagement three Americans were wounded.

The fighting of yesterday [Monday] began with an attack by the insurgents on a party repairing the telegraph lines, one member of which was wounded.

## ENVOYS GO BACK AGAIN.

General Alejandro and the two other Filipino envoys who accompanied him have returned to Angeles by special train. Washington, Oct. 2.—General Otis called this morning giving an account of his meeting with the insurgent envoys. He said the interview with Aguinaldo's representatives indicated the leaders were maneuvering solely to secure recognition of the insurgent government. The overtures were rejected and the envoys informed that the only thing the United States would recognize was a white flag and the grounding of arms, with the advice to be quick about it. His course was approved by the war department.

## CAPT. CARTER STILL TO FIGHT.

HIS COUNSEL GETS OUT A WRIT OF HABEAS CORPUS.

New York, Oct. 2.—Counsel for Captain Oberlin M. Carter tonight obtained from Judge Lacombe, of the United States circuit court, a writ of habeas corpus. The writ is directed to Major General Wesley Merritt and Captain Benjamin Roberts, of the Fifth artillery, directing them to produce Captain Carter in Judge Lacombe's court Wednesday morning.

## ROOT ANNULS THE CONTRACT.

Chicago, Oct. 2.—The Times-Herald's Washington correspondent telegraphs that Secretary Root formally annulled this afternoon the contract with the Atlantic Contracting company for the construction of the river and harbor improvements at Savannah, Ga., and Cumberland sound. The contract was made by former Captain O. M. Carter.

## ST. PAUL PLUMBERS OUT.

STRIKE ON AS A PROTEST AGAINST NON-UNION MEN.

St. Paul, Oct. 2.—The union plumbers of the city struck today against the employment of non-union men by the master plumbers, closing shops and suspending work on many buildings.

## MINERS GAIN THEIR DEMANDS.

Danville, Ills., Oct. 2.—Three thousand miners, who have been out two weeks, will return to work tomorrow, the firm's demands having been conceded by the operators this evening. The contention was for an eight-hour day at \$1.75 per day.

## GAS FUMES KILL THREE.

Chicago, Oct. 2.—Three people were suffocated by gas in their apartments at 4782 State street. The bodies were found tonight by the police, indicating that death was caused some time Sunday. The dead: Mrs. Kate Jungles, a widow, aged thirty-five; John Jungles, aged seven, her son, and John T. Lidt, thirty-five years old, a boarder.

**PREMATURELY OLD.**  
A man ought not to feel old, or to be old until well on towards the nineties, but now-a-days you don't see many such men. Instead, you hear people no older than 40 or 45 who begin to complain of tired backs and brains, of stomachs giving out, of shattered nerves, of lost energy, of aversion to work. These men have thought more of dollars than of health. They forget that money is almost worthless without health to enjoy it. If men and women will take Dr. Pierce's Golden Medical Discovery, they needn't worry much about old age. The years will go by, but they won't show it. This medicine makes digestion perfect, and changes a disordered stomach into a healthy one that works as Nature intended. It regulates the liver, enriches the blood and tones the nerves. It prevents consumption by curing bronchitis, lingering coughs and bleeding lungs. The "Discovery" contains no alcohol; no false or uncertain stimulus; the power it gives is the power of Nature: deep, genuine and lasting. It does not create a craving for stimulants. In serious cases of sickness, Dr. R. V. Pierce, Buffalo, N. Y., will give free advice and counsel to those who write him.

"The reason I delayed writing was because I wanted to wait one year after I had taken the medicine before giving my statement, and now I can send a good, conscientious testimonial," writes Chas. H. Sergeant, of Plain City, Madison Co., Ohio. "During the summer and fall of 1897 I became all 'run-down,' nerves and stomach were out of order. I wrote to Dr. Pierce for advice. He said I had general debility, and advised Dr. Pierce's Golden Medical Discovery, and I used six bottles. Since I stopped taking it about one year ago, I have not taken any medicine of any kind, and have been able to work every day. My appetite is good. I can eat three square meals a day, and I do not feel that miserable burning in the stomach after eating."

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The Carnegie Steel company is negotiating for the purchase of more ore carriers with a view to handling a larger share of its own ore between shipping and receiving ports next season. This great concern will soon own everything it needs to do an immense business at a profit, save customers for its finished products. And if it will not own these it will have a "purchase" on them that will be about as good as a deed of ownership.

Ex-Speaker Reed's private secretary, Amos L. Allen, who has been nominated for representative in congress by the Republicans in Reed's old district, has declared himself unequivocally in support of the administration's so-called "imperialistic" policy. This is taken as an indication that the ex-speaker is not as rabid an anti-expansionist as the papers which oppose having our government establish its authority in the Philippines have sought to make appear. It can very reasonably bear that construction.

Alger county gets the agricultural experiment station in the upper peninsula for the establishment of which the last legislature made provision. The board having the matter in charge has decided to locate it at Chatham in that county. Now some fool newspaper in the lower part of the state will ask "where is Chatham?" and it will bother most of the papers in this part of the state to answer the insulting query. Will the esteemed Munising News tell an anxious public where Chatham is and what they raise there?

Captain Carter will have to go to jail, and now the Democratic papers which were so concerned because they feared justice was going to miscarry in his case are disturbed because there is a possibility that he will be pardoned out. They may rest assured that he will not be. "President McKinley is very certain not to supply them with material for campaign fulminations against his administration by turning Carter loose. They have got all they are likely to out of the case of Carter, and may as well conclude to drop it.

A Washington dispatch sets forth that the third assistant postmaster-general, Madden, has been chasing about the city for the past several days looking for horses for Governor Pingree and his staff, to be ridden by them in the Dewey parade this week. The ten members of the governor's staff will be mounted on magnificent bays and their chief will lead them on a milk-white charger. And it's dollars to doughnuts that Governor Pingree will get his share of the cheering when the parade swings along Pennsylvania avenue. They know of him in Washington.

The New York Independent feels quite badly on account of the attitude the Democratic party seems determined to take on the issue of territorial expansion, concerning which it observes:

Yet it really looks as though we must witness a recurrence of the phenomena which disgraced the political atmosphere in the days of Vallandigham. We shall see a party striving to attain national control by open avowal of sympathy with the nation's red-handed enemies. Is this the Democratic party founded by Jefferson and fought for by Andrew Jackson? Is this the party that purchased Louisiana and annexed it forcibly? Is it the party that added Texas and California to our domain?

Is the Independent unaware of the fact that the men who made the Democratic party great are mostly angels now? Those who succeeded them as leaders appear to have no talent save in the way of ruining it.

The Grand Rapids Herald states that at a recent meeting of the prison board of Michigan it was shown by statistics bearing on the matter that with the return of prosperity there has come a marked decrease in crime, and the Herald adds that statistics to the same purport now come from the Illinois prison at Joliet. In May, 1895, the prison contained 1,623 convicts; today there are but 1,212. For the first time in the history of the prison an entire month has passed without a new convict being brought in, and that record-breaking month was the September now ended. This condition of affairs is not a sign that the millennium is at hand or that Chicago and Illinois morals are improving, but it means it has become easier to earn an honest living than to gain a precarious existence by crime, because that fewer are driven by harsh circumstances to criminality.

At Owosso on Tuesday and Wednesday of next week will occur the annual meeting of the Republican Newspaper association of this state, and the editor of The Mining Journal acknowledges receipt of a cordial invitation to attend it and discourse on "Trusts." The people of Owosso will banquet the visiting newspaper men and in other ways make the time pass pleasantly for them during the two days of the meeting, and it is a matter of regret with the writer that he cannot be there to participate in the fun and tell what he knows about the "octopi" whose voracious appetite and enormous digestive capacity are the subject of so much vivid description and

jurid denunciation at this time. But business comes before pleasure in every well regulated newspaper office, and the recipient of the kindly invitation is under the cruel necessity of staying at home and writing about trusts instead of going to Owosso and talking about them. Tough, isn't it?

**THE OHIO CAMPAIGN.**  
The state election in Ohio this year is attracting great attention on account of its peculiar character. It is going to be a warm one, with defections on both sides to stimulate interest in it as it progresses. Many Democrats are going to bolt McLean, and it is charged that the anti-Hanna element in the Republican party will knife Nash ruthlessly. Indeed, the Cleveland Plain Dealer specifically charges that Governor Bushnell and his followers are in a conspiracy to defeat Nash and turn the state over to the Democrats, but this will have to be very conclusively proven before many will believe it. Still it is plain that the anti-Hanna Republicans are deeply dissatisfied with the state ticket put up by the party. While it is unlikely that they will openly work against it they will do little to aid it in the campaign, and the lukewarmness of so large a group of voters will tell against the Republican chances of success—or would if the Democrats had an acceptable candidate for governor and an united party supporting him.

According to the Plain Dealer's story—and that paper, by the way, has squarely bolted McLean—there has been an agreement entered into between the Bushnell crowd and McLean by the terms of which the governor's adherents who are now in office will be retained in the places they are filling if McLean should be elected governor. This would be an exceedingly crooked deal, for it would leave McLean with but comparatively little patronage to be used in rewarding his henchmen if he became governor, while on the part of the Bushnell faction in the Republican party it would be a clear case of selling out their party, partly for revenge and part-

ly to retain control of a lot of paltry political positions.

It may be that the Plain Dealer has sprung this rosbuck for the purpose of increasing the disaffection in the Democratic party created by the nomination of McLean, whom it cordially hates, and that there is no such agreement as it declares has been entered into between the Democratic nominee for governor and the Republican incumbent of that office. But Ohio has long been noted for its trucking politics, and political jobbery that would not be dreamed of in any other state of the union is a common thing in that breeding place of political trickery and treachery.

Even if there is a deal such as charged by the Plain Dealer, however, we doubt if it would accomplish the election of McLean, who is so very distasteful to a large proportion of the Democratic voters that they will not support him under any circumstances. He is certain to lose more Democratic votes than he can gain from the Republicans and his defeat may be put down as a certainty.

**THE PIG IRON OUTLOOK.**  
The Financial News thinks it discerns indications that, with the exhaustion in supply of pig iron on hand iron and steel have about reached top prices. One of the most significant signs of this, it goes on to say, is that railroads are not disposed to consider any purchases of iron materials at the present level. As to rails, the roads got good contracts when prices were less than half those now prevailing. There is nothing denoting a let-up in railroad traffic and the inference is that railroad men would not delay purchasing iron and steel, including much needed rolling stock, unless they expected to gain by it. And the only gain would be through lower prices.

"While prices are high," that publication further says, "it does not follow that the furnaces are profiting at all in proportion to the rise. As a matter of fact the producers are all turning out iron at prices showing a very wide margin when compared with the higher

market prices which prevail. These high prices are therefore a source of direct danger to the furnaces in the fact that they restrict new undertakings and threaten a big decrease in demand when once existing contracts are completed. The furnaces would have a much surer and more durable market if market prices were no higher than those they are actually receiving for their output. What the iron trade needs above all things is stability, and stability can only come through a big reserve supply of iron in the warrant yards. We say warrant yards because furnace yards will not carry it, and if they did it would endanger stability of prices. But in warrant yards, where it can be cheaply carried by outside capital, it will give stability to the trade, first of all, by assured supply, and with an assured supply and freedom from such advances as the last year has witnessed, there will be increased undertakings in construction, land and marine, based on iron and steel, and this would make pig iron warrants one of the safest securities it is possible to name and would bring outside money into investment in them."

**WHAT MAY COME OF IT.**  
In an article considering some possible consequences of war between the British and Dutch in South Africa, the editor of the Johannesburg Daily News, Edgar Meils, says in an article published in Collier's Weekly:

Perhaps the most serious phase of the whole affair is the attitude of the natives, who outnumber the whites by 100 to 1. Remembering the thousand and one wrongs and cruelties perpetrated upon them in the name of civilization, they will retaliate in kind and with interest.

The moment hostilities are under way the Matabeles, their hereditary enemies, the Mashonas, the Basutos, the Bechuanas, the Swazies, the Matongas, the Zulus and the 1,100 other tribes supposed to exist somewhere in South Africa will do a little "civilizing" on their own account. They will attack the outlying towns like Lydenburg, Mafeking, Rustenburg, Barberton and those in the Zoutpansburg, just so soon as the white troops have gone to the front. Then the

world will be shocked again by atrocities akin to those of the Indian mutiny.

And now to sum up: England has unlimited means, men and arms. But she must transport her troops 7,000 miles to the scene of action, for those in the country at this time are utterly inadequate to cope with the situation. She must also ship her commissariat and ammunition the same distance. Her cavalry horses and most of her soldiers are unused to the climate, and still less to the Indian style of fighting of the Boers.

The latter will be outnumbered, but they know every inch of the country and are seasoned men. They control the water supply of the enemy and hold the base of supplies. And, above all, they firmly believe they are fighting for their native land—for their wives and children—for their independence!

NATION'S CAPITAL BIDS HIM WELCOME.

Reception to Dewey Surpasses All in the History of Washington, D. C.

MIGHTY CROWDS GATHER TO DO THE SAILOR HONOR.

ENTHUSIASTICALLY GREETED BY MCKINLEY AND HIS CABINET.

Big Parade of Civic Organizations Passes in Review Before the Admiral, Who Early Retires at the Home of the McKinleys.

BACK TO HIS NEW HOME CITY.

Washington, Oct. 2.—The home-coming of Admiral George Dewey—henceforth the national capital is to be his home—was made the occasion for the greatest tribute paid by Washington to any individual.

JOURNEY ONE LONG OVATION.

His journey from New York had been one continuous ovation, limited in its intensity only by the density of the population.

A bare stop was made at Princeton, where young Dewey had been a student, and the admiral went to the platform for a minute, merely saying to the boys he was pleased with the reception they had given him.

BOY GETS A GOLD PIECE.

Admiral Dewey was particularly touched all along the line by the number of children who turned out to see him.

GREETED BY THE MCKINLEYS.

There was no formality, and after such greetings Secretary Long invited the admiral to accompany him to the president's library, where President McKinley, the members of the cabinet were awaiting him.

PARADE A NOVEL ONE.

The head of the civic parade which had been arranged in honor of the admiral began to pass in review before him shortly after 8 o'clock.

MORE OF THE CREW JAILED.

Montreal, Oct. 2.—Twenty-eight more members of the Scotsman's crew were arrested today when they arrived on the steamer Ottoman.

with a hearty hand-shake by the admiral, who pressed a ten-dollar gold piece in the boy's hand before releasing his grasp.

FREEDOM OF DISTRICT HIS.

The train stopped a few minutes at the little station of Deannwood while a reception committee went through the formality of presenting the nation's guest with the freedom of the District.

STREETS JAMMED FOR BLOCKS.

In a few minutes the train was in the brilliantly lighted depot. The reception committee went into the admiral's car and after a few words of formal greeting brought him out.

SURPRISE GIVEN YANKEE YACHTSMEN.

Columbia Gets No Time Allowance from the Shamrock as Was Figured Upon.

ADVANTAGE WITH THE CHALLENGER BY OVER SIX SECONDS.

OFFICIAL MEASUREMENTS LESSEN CONFIDENCE OF AMERICANS.

Irish Boat, It is Felt, Will Prove a Worthy Antagonist for the Tenth Defender of America's Cup in the Contests That Start This Morning.

FIVE RACES MAY BE NECESSARY.

New York, Oct. 2.—One of the greatest surprises for yachtsmen since the arrival of the cup challenger Shamrock in these waters was the announcement officially made at the New York Yacht club tonight that the Columbia would have to allow Shamrock 6.31 seconds on a thirty-mile course.

It was generally supposed by the yachtsmen who have seen both yachts under sail and in drydock that the Shamrock, by reason of her greater sail spread and apparently larger hull, would have to give the Columbia something like a minute time allowance over the thirty-mile course which they are to sail.

HOW THEY COMPARE.

The official dimensions are: Length of water line, Columbia, 89.66 feet; Shamrock, 87.69. From after end of main boom to forward point of measurement, Columbia, 181.62 feet; Shamrock, 189.13.

CONTESTS START THIS MORNING.

Tomorrow morning at 11 o'clock and continuing Tuesday and Saturday of this week and Thursday, Friday and Saturday of next week, if so many trials shall be necessary, a series of races will be sailed between the Shamrock and the Columbia for the yachting championship of the world, the emblem of which is the old silver cup, weighing 100 ounces, won by the famous schooner yacht America in 1851.

CONTESTS START THIS MORNING.

Another important point of interest is found in the mechanical construction of the two yachts. Shamrock was built in the yard of the Thornycrofts, the most famous builders of torpedo boats, and Columbia came from the Herreshoff yard, the home of the American yachting boat. It is to be a test not only of yachting designs but of yacht construction.

CONTESTS START THIS MORNING.

According to the agreement under which these races are to be sailed, the winner of three out of a series of five is to keep or take the cup, as the case may be.

CONTESTS START THIS MORNING.

For Tuesday's race the yachts are to be sent fifteen miles from a point off Sandy Hook, either straight into the eye of the wind or dead before it and back again.

CONTESTS START THIS MORNING.

As the courses are to be laid there are three races in which the yachts must beat fifteen miles to windward and run fifteen miles before it. The other two courses are around a triangle, wherein twenty miles of each course are to be covered by reaching, so Columbia gets three races to its liking where Shamrock has two.

CONTESTS START THIS MORNING.

Columbia, as measured today by John Hyslop, official measurer of the New York Yacht club, at the Brooklyn navy yard.

big ball suspended between its masts will be stationed near the float. The racing yachts are to pass between the float and the tug, and they will be timed as they do so in order that their work in the kind of wind and weather they have had may be compared.

WINDWARD WORK TODAY.

This course of Tuesday is to give the yachts a chance for what is called windward work. The one characteristic of a sailing ship that is more important than all others is the ability to work into an adverse wind.

CONTESTS START THIS MORNING.

As to keeping the starting ground and the race course clear, Captain D. Evans is to have a notice of torpedo boats out to tell captains of excursion boats where to go to keep out of the way, and yet afford all passengers a good view of the work of the yachts.

COURSE TO BE KEPT CLEAR.

As to keeping the starting ground and the race course clear, Captain D. Evans is to have a notice of torpedo boats out to tell captains of excursion boats where to go to keep out of the way, and yet afford all passengers a good view of the work of the yachts.

WAR THOUGHT CERTAIN.

A violent decline in British consols had an important sentimental effect, although it was afterwards explained that this was partly due to the expectation of a new issue.

WILL MEET AGAIN.

ISHPEMING AND IRONWOOD FOOTBALL TEAMS WILL COME TOGETHER AGAIN ON THE 14TH OF THIS MONTH.

The supporters of the Ishpeming football team are greatly pleased at the victory which the boys put to their credit Saturday afternoon. The Ironwood team was known to be a strong one, and there was some doubt as to the ability of the home team to defeat it.

The regular October meeting of the common council will be held tomorrow evening. As far as is known nothing out of the ordinary will come before that body.

An infant child of Mr. and Mrs. Chas. Miller died yesterday. The little one was six months of age. The funeral will be held this afternoon at 3 o'clock from St. Joseph's church.

The Detroit excursionists are finding their way to the city. They report that the return passage was marred by rough weather on the lakes. The local delegation was quite large this year.

The Ironwood delegation spent Sunday about the city, leaving for home on the 11:40 p. m. train. The members of the team were looked after by the local boys and they had a pleasant trip.

There were twenty-six deaths in September this year, compared with eighteen for the same month in 1898. To date in '99 there have been 169 deaths, compared with 116 for the same period in 1898.

Bigelow Ropes has resigned his position in the chemist's office of the Cleveland Cliffs company to take a place with the party which is making a geological survey of the lands of the Cleveland Cliffs company.

The fall festival delegation from this city to Chicago last evening was large. Tickets will be sold until the 9th of the month, good for return until the 19th. The Ishpeming contingent will be increased by the numbers who will leave during the week.

Numerous parties spent Sunday in the woods after partridge. Some good sport was reported. Deputy Game Warden Downing was about the hunting territory all day and made one arrest for a violation of the game laws. The sport is good this year.

A twelve-year-old boy named Mike Harrington who lives on Johnston street met with a painful accident last week. He was examining a revolver which he supposed was empty of cartridges. One chamber was loaded and was discharged, the bullet going through his wrist above the hand and inflicting a painful wound.

At the Dexter a pump and a blowing apparatus are being employed to free the workings of water. The top of the first level has been reached. The progress has been good to date but the work will proceed more slowly as the more extensive workings are reached.

Shepard's Minstrels will appear at the opera house this evening. Reserved seats will be on sale at Tillson's today. A street parade will be given this noon by the company's band, also an open air concert in the evening.

social. A neat sum was realized for the society.

The high winds which prevailed yesterday made outdoor work unpleasant. The weather was, however, an improvement on the September variety.

LAST CENTURY SOLDIER.

A Veteran of the Argentine Independence and Civil Wars.

Probably the only survivor of the early struggles for Argentine independence is Don Felipe Diaz, who was born at Lujan about the year 1794, and is now, therefore, 105 years of age.

The greater part of his life seems to have been spent in skirmishes, battles, and hardships, and this old man of fine venerable appearance, one of the rough, brave, sturdy soldiers of the times of San Martin and Belgrano, the greater part of whose life has been one succession of dangers and privations in the service of his country, is dragging out a miserable existence in the utmost poverty and want.

His case has been brought to light by our friend, the Rev. William C. Morris, of Palermo, who has helped him and his granddaughter (with whom he is living). During the last five months Mr. Morris has had to help them in payment of rent, and in providing them with food and medicine. The poor old man has nothing and has had to depend on any alms which he or his granddaughter could obtain of their poor neighbors, before Mr. Morris found them.

Patriotism, jealousy of the honor of the flag, and of historical traditions, and of the fame of the heroes of the national independence, we hear much of in the editorials of our Argentine papers, and in 25th of May and 9th of July orations; and yet here is a man who has given his life to the service of his country, and who, after having faced death in a hundred battles in her service, is now left to perish in want in the great Argentine capital, unheeded for and alone. Felix Diaz is not a beggar, craving public charity. He is one to whom the nation owes a considerable debt. The long past of his country cannot be undone, but he has the strongest possible claim upon his people.—Buenos Ayres Standard.

EX-RECORDER JOHNSON'S SHORTAGES.

GEORGE A. McDONALD FINDS THAT THEY WILL AGGREGATE \$1,087.

The expert investigation of ex-Recorder Johnson's books, as recorder of the city of Negaunee, and clerk of the water and electric lighting boards, has been concluded by George A. MacDonald, who was appointed to examine the accounts.

This is meeting week in Negaunee. No. 1 hose company met last night, No. 2 will meet Wednesday night. The council meets regularly Thursday night.

The greater part of the shortages since April were found in the accounts of the water fund. Chris Johnson and Louis Corbett are bondsmen for Johnson as the clerk of the water fund, and they will be the hardest hit.

Right Rev. Bishop Els will dedicate the Polish Catholic church at Menominee on Sunday, Oct. 8.

Bishop G. Mott Williams has appointed Rev. Henry Purdie, late rector of Holy Trinity church, Iron Mountain, rector of Grace church at Menominee.

An inspiration institute for the teachers of Gogebic county will be held at Ironwood Oct. 5-7, beginning Thursday evening. Henry R. Pattengill, of Lansing, will act as conductor, while D. B. Waldo, president of Northern Michigan normal school at Marquette will fill the position of instructor.

L. W. Flannigan has sold out his interest in the Superior Land & Lumber Co., Manistique, to Foster Bros., Milwaukee. The deal involves \$50,000. The Superior Land & Lumber Co. purchased the timber contracts of the defunct Kirby-Dennis Co. and was to operate the mill at Munising. Mr. Flannigan says that Foster Bros. now have three camps in and are getting out a big stock for next season.

Last Tuesday morning, through the St. Paul Dispatch, the people of Cooks, Menominee county, were apprised of the fact that Dewey had returned and accordingly Mike O'Brien hoisted the big flag on the Democratic flag pole, when a little girl asked her brother "is that the Democratic flag?" The brother indignantly replied, "what's getting through you, they ain't no picture of Aguinaldo on that."

Samuel Crawford of Cedar River is making Rapid River a lively place and next year will probably push work on his railroad vigorously. His mill there is sawing 125,000 feet of lumber a day and all of it is being shipped as rapidly as possible. He has large holdings of hemlock and some pine and is going to put in all the logs he can this winter, the greater part of his crop being hemlock. He complains of the scarcity of men.

An Ironwood young man figures prominently in the following story, which was sent out Sept. 29 from Mount Vernon, Ohio, as a newspaper special: "Society here was shocked by a sensational fight which occurred late last night at the home of Mrs. Morgan, wife of the late General George W. Morgan, of Mexican war fame. Bates Burt of Ironwood, Mich., a Kenyon student, was spending the evening with Miss Sallie Morgan, and toward midnight Major George B. Bunn, M. D., who served in the Seventh Army corps in Cuba, and is infatuated with Miss Morgan, attempted to enter the house. Burt frustrated his design, and badly cut Bunn's scalp, using a flatiron as a weapon. Burt's scalp was also cut by a bottle wielded by Bunn. Miss Morgan was married some years ago, but was divorced."

A few days ago two smooth individuals worked the housewives of Garth in a very clever manner. They solicited orders for a pure Java and Mocha coffee, claiming it to be something new, and to prove their assertions they carried an excellent sample, and soon convinced the ladies that it was the real thing. After they had secured a goodly number of orders, the two smooth individuals went to Waldo's store at Rapid River and purchased about seventy pounds of Lion coffee at ten cents per pound. They had re-sacked and delivered to their customers at Garth, collecting as high as forty cents per pound for the "Java and Mocha" and now all the good people of Garth are enjoying the luxury of drinking Lion coffee that retails the world over for ten cents per pound at the mere pittance of forty cents per pound.

A Lansing report states that the return of a supervisor of one of the townships in the northern part of the state, which was recently received by a state official, failed to show that there had been any births or deaths in the township during the year. This being such an unusual case, the supervisor was written to for an explanation. He promptly replied that he had been supervisor of the township for a number of years, and knew of no birth or death occurring in the township during that period, explaining that the population was made up of a shifting body of railroad and lumber employees, most of whom had no families and who remained in any one place but a short time. Then he added this: "P. S.—A couple of fools got married here last week. If they don't starve to death this winter I will report them next year."

For some time it has been evident that the newspaper business in Iron Mountain was crowded to such an extent that some one of the competitors would have to drop out of the race. The blow fell Friday when Sheriff Anderson, of Dickinson county, took possession of the Tribune office, having levied on an execution issued in favor of John Bruce, of Milford, New Hampshire. A bill of sale was given to Richard Hosking, endorser of R. P. Tuten's paper to the amount of \$600, and there is also due Mr. Dunn, the reporter, \$150, and to the foreman over \$500. Editor Tuten says he has sunk \$3,000 in trying to publish a daily in Iron Mountain, and will now retire from the business. It is announced that the daily will be continued, but only for a short time unless the paper can be made to pay, which is very doubtful. One daily paper is all the town can support, an indifferent support at the best without competition.

**FIRED BUT TO BE HEARD.**

**Council Ratifies Mayor's Suspension of Truckey but Will Investigate Charges.**

**ALDERMEN WAX WARM OVER SUSPENSION OF TRUCKEY.**

**Whole Council Will Meet in Adjourned Session Next Monday Night to Hear Charges and Answers—Protest Against Normal Bluff Plat.**

**CITY DADS GET BY THE EARS.**

Officer Truckey is discharged from the police force but he is to be given an investigation.

This was the outcome of an exciting and stormy first part of last night's council session. The first feature of the Truckey incident was the mayor's official communication to the council read by Recorder Donovan to inform the aldermen that the officer had been suspended for neglect of duty. This was followed in order by a communication from the officer in which he complained that his suspension had not been in accordance with the charter and ordinances, that no charges were made against him and that if there were such he desired to be allowed to appear before the council and answer them. Pending the time of the hearing he asked reinstatement.

**DONOVAN INSTRUCTS THE MAYOR**

Alderman Shea started a ball for Truckey and moved that he be given a hearing. This motion was not seconded but Alderman Donovan, who belonged to the faction which favored the officer also got up and began to expound the charter to the mayor with a view of showing him the suspension was not in accordance with its provisions. He was just warming up to the argument when Alderman Tobin asked if there was a question before the house. The mayor said there was none.

"I move then that the mayor's action be confirmed," said Alderman Stevens. It was seconded by Alderman Tobin. Alderman Donovan got up again.

"Now what are these charges?" demanded he, "and have they been made in writing and under oath?"

"Don't have to," retorted his honor. "I'm the mayor and the charter gives me the power to suspend an officer whenever I think it is to the best interests of the city."

"But the charter says the charges must be made in writing and under oath," insisted Donovan.

"That applies only to outside citizens who may make complaints," replied the mayor.

"But what are the charges? That's what we want to know?" demanded Alderman Shea, who got the floor at this juncture.

"I've made them," said the mayor. "Neglect of duty."

**SHEA DEMANDS A SQUARE DEAL.**

"We want this officer to get a square deal and this council is entitled to know what he did," said Alderman Shea coming back.

The mayor's answer to this was that the officer had failed several times to report for duty as he should have done. Alderman Donovan got up again with the charter in his hands but the mayor cut him short.

"The question before the house is upholding the mayor and we'll vote on that now," he said. "Roll call on that, Mr. Recorder."

The result was a confirmation by 11 to 4, equivalent under the charter to a discharge from the force. Aldermen Shea, Donovan, Gorman and Fleury voted in the negative.

"I move now," said Alderman Tobin when the result had been announced, that the officer be given an investigation. Refer the matter to the committee," said the mayor.

"I move Mr. Mayor," said Alderman Ward, "that we amend the motion by referring the matter to the council as a committee of the whole."

**AGIT THE STARLESSES.**

"I want to see this Officer Truckey get a square deal," broke in Alderman Shea, "and I don't want it referred to the police committee. I believe the mayor and the committee are against the officer."

The date of the hearing was fixed a week in advance, Oct. 9. It will be an adjourned regular meeting but the Truckey matter is the only thing now scheduled to come before it and will probably take all the time of the session, if not more than one. During the discussion the council will go into executive session.

After the Truckey incident had been closed the business of the council settled down to its usual routine. There was a petition in the council signed by Frank Ducharme and 151 other residents of the Palmer addition protesting against the plat of the Normal Bluff addition as submitted to the council by J. M. Longyear two meetings ago. The protest demanded that a north street be cut straight through to the school. The protest was referred to the committee on streets and sewers. This committee had no report to make as the alterations it suggested in the plat had not yet been approved by Mr. Longyear.

**TWO CONTRACTS LET.**

A contract was let for the grading and macadamizing of certain portions of Park and Fourth streets to Eugene Larochelle, who was the lowest of two bidders. His bid was \$117 per foot on Park between Third and Fourth and \$107 a foot west of Fourth; the rate on Fourth street is \$114 a foot. The Spruce street sewer contract was also let. This went to Michael Flannery, whose bid was 39 cents a foot with lamp holes \$1.50. The council voted for the final confirmation of the South Marquette trunk sewer assessment roll. Robert Blumhuber was present and objected to it, but when certain explanations were made by the mayor and members of the council he withdrew his protest. Alderman Gorman thought that as the rate was going to be much higher than estimated by Commissioner French the city ought to stand a part of the expense, but he made no motion to that effect and none of the other members of the council seemed to feel it incumbent on them to do so, so the roll was confirmed just as it was.

Alderman Ward thought that as other lines of industry were commanding larger pay the policemen were

not getting enough money. There was not much opposition to the proposition and a motion to increase the pay from \$55 to \$60 a month was carried with only one dissenting vote. Park Policeman "Bob" Humes, who was shot by thugs during the tournament, presented his doctor bills for the council to pay. These amounted to \$155.65 and were unanimously allowed. The council refused payment on the doctor's and sundry expense bills which were put in by Miss Annie Suttell, the young girl who was so seriously hurt in a bicycle accident a few weeks ago. The finance committee reported that the city was in no wise to blame for the accident and that Miss Suttell's claims lay against the young man who was responsible for the accident.

**DEALING IN COPPERS.**

Boston Brokers Resume Business—Transvaal Scare Bulges Wheat.

Boston resumed business with the coppers yesterday but there was no great volume of trade on the exchange, and the market generally was weak. Butte & Boston was a notable exception selling as high as 81, though it closed eight points lower. Paine, Webber & Co. said in their daily letter to the Marquette branch:

"Boston, Oct. 2.—London copper closed easy. The visible supply of copper Oct. 2 was 28,328 tons, a decrease of 3,199 tons since Sept. 15. The visible supply Jan. 1 was 27,896 tons; Feb. 1, 26,015 tons; May 1, 25,529 tons; Aug. 1, 23,019 tons; Sept. 1, 22,281 tons. The market for copper stocks this morning was dull outside of one or two specialties and prices were weak. Up to 12:30 5,980 shares of listed coppers changed hands, the most active being Bingham, 1,925; Utah, 905; Butte & Boston, 660; Parrot, 565. Butte & Boston was strong in early dealings advancing to 81 but later declined to 73. Atlantic was up to 30 while Centennial sold off to 32. Utah dropped off to 39 1/2. The Boston market, considering the way prices acted in New York, held very well. Money was 30 per cent. Just before the close Arcadian sold off to 50, a loss of 3 per cent. for the day. Coppers closed dull and weak. Sales of active coppers yesterday: Arcadian, 1,925; Advent, 250; Arnold, 205; Baltic, 700; Bingham, 730; Bonanza, 150; Boston & Montana, 200; Calumet & Hecla, 10; Centennial, 700; Cochita, 1,670; Franklin, 150; Mass, 150; Osceola, 234; Parrot, 1,050; Santa Fe, 300; Tamarack, 660; Teicumsch, 25; Tri-Mountain, 50; United States Mining, 1,785; Utah, 2,640; Yoder, 210; Washington, 500; Wyandotte, 10; Winona, 50; Butte & Boston, 680; Mayflower, 200; Old Colony, 200; Quincy, 30."

Hayden, Stone & Co. quoted London copper: Opening and closing £75, 2s., 6d.; the previous close was £75, 18s., 9d. The war scare in the Transvaal is having a good effect on wheat as a speculative commodity. Both the December and May options enjoyed a bulge yesterday. December closed at 74 1/2, and May three cents higher. Fred Jones had the following on the market from his Chicago correspondents, A. R. Jones & Co.:

"Chicago, Oct. 2.—Wheat—Another day of bull markets, the whole speculative list advancing strongly and the advance mostly sustained. Foreign news bullish again. Beerbohm cable that the Russian crop, according to official figures, is about 64,000,000 under last year and their shipments last week but 2,128,000. Liverpool came higher, strong on the belief that the crisis has been reached in the South African difficulty and that war is inevitable. Northwest corn markets were strong on light receipts. These were some of the influences that opened our wheat market very strong, half a cent higher with an active demand and good volume of trade. St. Louis reported all offers accepted. New York at the same time advised of a marked improvement in the export demand. Outside buying of May increased the premium to three cents and both December and May kept moving up to the close. Primary receipts are quite a big factor; they have been on the increase for a week, especially at winter wheat points, and the pit is growing more bullish all the time. Taken all around the advance today seems entirely justified by news and conditions and at the close, which was very strong, the market looked for another bull day tomorrow. Considering the situation abroad we believe this will be the case and advise purchases of wheat."

**ENGAGEMENT OPENS.**

Packed House Greets Davidson Stock Company On Its Opening Night.

The Davidson Stock company opened a week's engagement at the opera house last evening presenting an amusing comedy drama called "Love and Law." The play throughout was well given and the performers had the encouragement of a packed house.

The Davidson Stock company is supporting James F. Kelly and Miss Dorothy Kent, as clever and finished a pair as is often found in a week stand company playing towns of this size. The supporting company also is much stronger than is common with repertoire shows and altogether the Davidsons did fair to give a week of real good amusement. The plays they are presenting are new and fresh and are not the hackneyed assortment usually given by repertoire companies.

The program was enriched last evening by a number of excellent specialties. Mr. Kelly and Miss Kent presented a cake walk which received a liberal amount of merited applause. Harry Antrim and Professor George Ott also appeared in songs and dances. The Pickaninny Mascot "Sparrow" a diminutive and cute little colored boy caught the fancy of the house and scored a great hit with his coon songs. He was twice recalled.

Tonight the company will present a play called, "An Irish American." Good specialties will be interspersed.

**LEFT FIFTY THOUSAND.**

**Some Figures on the Volume of Marquette's Summer Resort Business This Season.**

**EVERYBODY GOT SOME OF THE TOURISTS' DOLLARS.**

**Tide of Travel is Setting This Way and Season Ahead Promises to See a Great Increase in City's Resort Trade—New Hotel Soon.**

**FIVE HUNDRED HERE FOR SIXTY DAYS.**

Marquette has scarcely made a beginning as a summer resort, still a little figuring shows what a probable thing the resorther has already come to be.

The records of the Citizens' committee and the railroad company show that during the sixty-day period which is the height of the season, there was an average of 500 tourists a day; the number fluctuated, sometimes running up as high as a thousand. This does not mean that 500 or 1,000 new tourists came in every day but that the floating summer population during the season was represented by these figures. The resorters began to come along in June and the last of them have just left town. Some of them stayed all summer and a considerable proportion of the visitors spent a month here.

**TOURISTS SPENT \$50,000.**

Figuring on a sixty-day season with an average of 500 tourists a day it is easy to see that a good many thousands of dollars must have been spent here. The board bills of the visitors can be fairly averaged at \$8.50 a week. Some of them it is true spent less but there were just as many who put up at the larger hotels and paid more. But at \$8.50 the amount received by hotel and boarding house keepers aggregated \$4,250 a week, which will make a little over \$26,000 for the sixty days. This by no means represents all the expenditures of the tourists. Every last one of them had extras in the shape of carriage rides, street car fares, laundry and incidentals and it is reasonable to suppose the total amount of their expenditures did not fall short of \$50,000. A factory which would distribute \$50,000 a year among the people of the city would be rightly considered a fine institution.

The best of it is that this money found its way into channels where the distribution of large sums does not always go. A good half of it went directly to the keepers of boarding houses. The other half went first to the hotels, but both of these agencies soon distributed the major portion of it among the merchants in every line of business. It is a quite universal testimony among the business men that they noted a perceptible increase in trade during the tourist months.

**GOOD FOR SECOND YEAR.**

This was practically Marquette's second season as a resort. The gain over its first season was something phenomenal and the gain for the third promises to be in even greater fold. For the past two years the city has been well and persistently advertised. Some of the advertising has been received as the direct expenditure of money for space, but the papers of many cities have given a wide circulation to news articles regarding the city and the resort industry. All these have had a visible effect upon the business of the resort, and an effect such that if advertising were stopped altogether next season the volume of its business would hardly fall short of this year's level.

In the season just ended business was limited by the capacity of the city. If there had been more room there would have been more tourists. There was a big increase in the quantity of room available in the city over the season before, but this was not the case. Next year it is probable a still greater number of resort boarding and rooming houses will spring up, but it is very doubtful if the increase in this quarter alone will be enough to handle the additional trade which there is every reason to expect. This is causing renewed agitation for a second summer hotel and it is probable before next season opens such a house will be open for guests.

**ADVERTISING WORKS ALWAYS.**

The great reason for expecting an increase of resorters next season is that Marquette is becoming so much better known than it was a year or so ago, causing the tide of travel to set in this direction. A contributing reason is the growing interest of the railroads in the resort. The D., S. & A., through its general passenger agent, George W. Hibbard, has made strenuous efforts to turn the tide of travel this way ever since an effort was made to revive resort business here. The last two seasons the Chicago, Milwaukee & St. Paul and the Chicago & Northwestern have done something for the place with their cheap ten day excursions from Chicago. Next year there will be a new factor in the excursion business, the Cincinnati, Hamilton & Dayton, which proposes to make Marquette the objective place of its cheap excursions. The excursionists will be gathered up in Ohio between Cincinnati and Toledo and sent from the latter place by boat to St. Ignace, thence here by the South Shore.

Had the five or six hundred people which the C. H. & D. poured into Mackinac every excursion last summer been brought to Marquette it would have been quite impossible to have found proper accommodations for them. This furnishes one of the incentives of the new hotel project.

**NOT IN LATE YEARS.**

Snow Storms in September Previously Unknown—Storm Echoes.

It may be that somewhere back in the fifties winter was wont to set in in September, but the records of the weather office show that till this year snow in September was an all but unknown quantity.

In 1893 there was just a trace in September, but in no years between that and the present was there even that much. From 1883 to 1898 inclusive the first snow came in October with the exception of 1894 when it delayed its appearance till November. The trace of snow which was observable in September of 1892 came on the twenty-fifth of the month. The first perceptible fall of snow that year came Oct. 28, the amount being 1.9 inches. In 1894 the first snow fell Nov. 5, 6 of an inch. In 1895 a fall

of 2 inches on the eighth was the first. The next year, 1896, snow made its appearance one day earlier, but the fall was only 2 of an inch. In 1897 the first fall amounted to 3 of an inch and came Oct. 29. In 1898 the date was Oct. 25 and the amount 7 of an inch. The recent fall here began the evening of Sept. 25, and the following night had attained the depth of 4.4 inches. After that the weather moderated and the quantity rapidly lessened.

The severity of the storm of which the snow was an accompaniment is shown by the fact that at Middle Island point a big log on the beach was washed eight feet farther up than it was in the big storm five or six years ago when the two Wallacees went ashore. Both of Odette's launches which were anchored at the point were sunk.

**DIED FROM EXPOSURE.**

Body of Stephen Daignis Found Near Street Car Power House.

The body of Stephen Daignis, an old Frenchman, was found yesterday afternoon near the street car power house. The grass for a radius of perhaps six feet was pretty well tramped and looked as if there might have been a scuffle there. The violence theory was also supported by a well over one eye. The police spent some time on the case but were unable to get any evidence to support this theory and when the coroner's jury sat in Judge Cray's office last night it rendered a verdict that the deceased came to his death from exposure.

Daignis was last seen Friday afternoon, at which time he was in the vicinity of the power house. He is reported to have been drinking some and the theory now is that he wandered off and laid down and succumbed to Friday night's storm.

**TWELVE MONTHS' CREDIT GIVEN TO ALL.**

Owing to the great number who called upon the Eastern Healers at 117 Bluff street, Marquette, Mich., during the past month and could not get waited upon, they will extend the time of the liberal offer of giving consultation, advice and services free to all calling upon them before Saturday evening, Oct. 14. After that date charges will be made for the same.

They heal all manner of diseases. If they can restore you; they will administer unto you; if not they will advise you. The object of this pilgrimage is to introduce the Eastern mode of healing the sick without poisonous drugs or the surgeon's knife; also to introduce botanic medicines which God ordered from the foundation of the world for the healing of nations. These good Samaritans never administer medicines for symptoms of disease, but remove causes through a vegetarian diet and botanic remedies, hence their wonderful success in healing the sick and restoring to perfect health thousands who had given up all hope of ever finding a cure. The Eastern Healers or good Samaritans, are educated Christian men and women whose aim is to deal justly by the sick and afflicted, the poor and the needy. The Healers or good Samaritans have existed in all ages. They went out in the highways and byways, healing the sick, visiting the rich and poor, administering alike to all.

Notice—If you have been advised by anyone to undergo an operation for appendicitis, ovarian difficulties, rupture, tumor, cancer or piles, do not listen to it and have your life endangered by the lance, knife or needle before taking counsel of the Eastern Healers. The Healers wish it distinctly understood that no case is taken without a moral certainty of either materially benefiting or curing the same. No matter what your condition may be or how many doctors you have tried, go and get free counsel and forever have it settled in your mind as to your true condition. Remember, a perfect knowledge of disease is half the battle. It is your life that is at stake. You must either get well or suffer. Do not accept what anyone says, but see the Healers and satisfy yourself. They give you this opportunity free until October 14.

The following are a few of the many maladies cured by the Eastern Healers: Blood poisoning from poisonous lymph used in vaccinating; also insect, reptile and dog bites; scrofula, syphilis, cancer, tumors, old sores, ulcers, skin and scalp diseases, sore eyes, nerve, kidney, spinal and brain diseases, paralysis and fits, stomach, heart, liver and female diseases, colds, asthma, catarrh, weak lungs and first and second stages of consumption, nervous debility, lost strength of the whole or any part of the body, piles and rectal diseases, rheumatism, withered limbs, stiff joints, contracted cords and weakened muscles. A special invitation given to those afflicted with dropsy, also stomach, heart and kidney diseases.

Notice—Wives must be accompanied by their husbands and girls by their parents or guardians. No time given to drones or gossipers.

Be it distinctly understood that the Eastern Healers or good Samaritans are not Christian Scientists. Scientifically or Faith Healers, but treat diseases on scientific principles based upon the belief in the healing powers of vegetable medicines which God ordered from the creation.

All calling upon the Healers will not speak the English language will please bring interpreter with them. Hours of administering from 10 a. m. to 8 p. m. No Sabbath hours and no calls made.

**SOMETHING TO BE PROUD OF**

is the irreproachable manner in which your linen is always laundered when you bring it to the Marquette Steam Laundry. We are proud of it ourselves, and of the fact that not even "the beautiful snow" that caps Mont Blanc is whiter or of finer finish in its glacial smoothness than is the linen that we are doing up every day. Our prices are infinitesimal.
