## STILL A CHANCE FOR PEACE IN AFRICA.

All Hope Not Gone Asserts the Duke of Devonshire, President of British Cabinet Council.

BUT IT WILL NOT BE ENGLAND THAT WILL YIELD.

THINKS IT POSSIBLE WISER COUNSELS WILL INFLUENCE THE BOERS.

No Irrevocable Step to Be Taken by Her Majesty's Government Until the Transvaal Has Received and Fully Considered London's Demands.

DECISION IN OOM PAUL'S HANDS.

London, Oct. 10.—The absence of news from South Africa appears to be due to a heavy block on the telegraph lines, which may mean the lines are occupied by official dispatches; and that negotiations are being actively carried on.

London, Oct. 9.—The Duke of Devonshire, president of the council of ministers, speaking at Sheffield today, said: "Matters have not become more critical during the last few days, and I trust this interval for reflection may lead to a pacific settlement."

His grace added, however, that he was afraid the only hopeful sign was the fact the government of the South African Republic did not appear inclined to precipitate acts of aggression upon British territory, such as their previous preparations had led the British government to anticipate as within the possibilities. No doubt the longer such attempt was deferred the less would be the probability of even temporary success.

"Although the government does not consider it right," said his grace, "to relax any measures deemed necessary, and although the preparations for a possible campaign are still in full progress, I think I may say the country may rest assured that no irrevocable step will be taken until the Transvaal has received and had full opportunity to consider the demands the British government considers necessary to protect the rights of their fellow citizens and to safeguard British interests in South Africa."

"In these circumstances, there is a chance that wiser counsels than have hitherto prevailed may assert themselves."

CRISIS STILL HANGING FIRE.

SITUATION ON THE BORDER UNCHANGED, WITH THE WAR PREPARATIONS CONTINUING.

London, Oct. 9.—The complete dearth of news since afternoon from the Cape, on which all attention is riveted, is tonight poorly compensated for by a mass of minor details published concerning the preparations for the dispatch of the army corps and speculation as to the length and character of the debates when parliament meets.

In official circles there is said to be apprehension that the radicals will offer protracted opposition to the government's policy in South Africa, which possibly would make prorogation and Christmas near neighbors. Lord Salisbury's whip to the lords, issued tonight, says parliament will deal with matters of grave moment.

CRUISER GAVE CHASE.

The latest dispatch from Lourenzo Marquez, Delagoa bay, relating to the chasing of the steamer Guelph by the cruiser Philomel, caused some stir, especially as it was announced that the Guelph had landed at Durban 44 cases of ammunition for the Boers. There is a pretty general feeling that the ammunition ought not to be allowed to be forwarded.

Some indications of the war office estimates of the duration of the campaign are given by the fact that the authorities have contracted for eight months' supplies of bread and other military requisitions rendered necessary by the absence of the bulk of the army service corps, whom the war office thus evidently calculates will be at home again by the beginning of May.

PREDICTS YEARS OF ANARCHY.

Cape Town, Oct. 9.—Asked as to his opinion of the crisis James Say, ex-chairman of the Rand stock exchange, said:

"Great Britain, if she goes to war, will begin the worst day's work for herself in her history. South Africa would turn the country into a hell for years to come. Every Boer is ready to fight, and the women are fiercer than the men. If the Boers are once defeated Johannesburg will be razed and the gold mines destroyed. It will cost Britain £15,000,000 for new machinery alone. Milner's has been a sad, mad policy."

VICTORY FOR FRENCH STRIKERS.

DECISION OF THE PREMIER A BLOW FOR CAPITALISTS.

Paris, Oct. 9.—The final decision of Premier Waldeck-Rousseau in the Creusot strike is a chef d'oeuvre of clearness and justice, and, from a socialistic point of view, the greatest victory laboring men have won in twenty years. The premier's enemies declare that the document signed by Waldeck-Rousseau is the first page of his confession to conversion to socialism.

The workmen have won effectively all along the line, and the decision is to have a far-reaching effect on the relations of the capitalists to labor. The latter in the future can dictate, or at least regulate, the employment in divers branches of industry. There is great rejoicing among the strikers at Creusot. The leaders are urging them to remain calm and to reward the cabinet for the victory by good behavior.

Schneider must pay the increase of

wages promised; keep the strike agitators in his employ, and allow three men to be elected, to survey the workrooms.

While cleverly avoiding any discussion over the recognition of the syndicate by Schneider to ratify its existence, Waldeck-Rousseau said the government would ask the chamber to vote a law regulating the relations and functions of syndicates on points at issue between capitalists and labor. The premier also decided in favor of liberty of conscience by prohibiting the abuse by the master of his workmen.

GERMAN COUNT SENTENCED.

NINE MONTHS' IMPRISONMENT FOR CHEATING AT CARDS.

Berlin, Oct. 9.—Count Egloffstein, a prominent member of the Club Der Harmlosen, was today sentenced to nine months' imprisonment for cheating at cards.

FLOOD HAVOC IN ITALY.

TOWNS DESTROYED AND 40 LIVES LOST IN SALERNO PROVINCE.

London, Oct. 9.—A Naples special dispatch says that forty persons were drowned by floods following severe rains in the province of Salerno. A number of small villages and factories were destroyed.

BRYAN IS MUCH BETTER.

EXPECTS TO START OUT ON HIS IOWA TOUR AGAIN TODAY.

Omaha, Oct. 9.—In reply to a telegraphic inquiry as to his condition, Wm. J. Bryan replied today as follows from Webster, Ia.: "My condition is not serious. I am much better today, and expect to be able to resume my tour tomorrow."

REBELS ON TOP IN VENEZUELA.

WAR IS OVER AND CASTRO IS TO BE ELECTED PRESIDENT.

Caracas, Venezuela, Oct. 9.—Senor Matos, the special envoy sent by President Andrade to the insurgent commander, General Castro, has returned here. He reports having had a prolonged interview with General Castro and has assured United States Minister Loomis there is no danger of further hostilities unless new and unexpected complications arise. President Andrade, it is rumored, will resign, allowing the peaceful election of General Castro, of General Castro to the presidency. Several members of President Andrade's cabinet are leaving the country.

CRIPPLE CREEK MINES MAY CLOSE.

OWNERS THREATEN SUSPENSION TO BRING RAILROADS TO TIME.

Cripple Creek, Colo., Oct. 9.—The mine owners of this camp will hold a mass-meeting in Colorado Springs next Wednesday which may result in temporarily suspending work at the camp. The management of the Florence and Cripple Creek and Midland Terminal roads handling the bulk of the ore say they can hereafter handle only smelter ore, owing to the scarcity of cars. The mine-owners are leaders in the projected Colorado Springs and Cripple Creek Air Line. They say the discrimination against mill ore is a bluff to stop the new road, which will greatly reduce rates. Demand will be made that both grades or none shall be handled, or the camp's output is stopped.

FOR SWINDLING UNCLE SAM.

FEDERAL EX-ATTORNEYS ON TRIAL AT PHILADELPHIA.

Philadelphia, Oct. 9.—The joint trial of ex-United States District Attorney Ely P. Ingham and his law partner, former Assistant Attorney Harvey K. Nowitt, for complicity with Samuel M. Downey, deputy collector of internal revenue for the Lancaster district; S. Q. Jacobs and William L. Kelling, cigar manufacturers, of Lancaster, Pa.; Baldwin Bredell, machinist, of Camden, N. J.; Arthur S. Taylor, engraver, of this city, and James Burns, foreman in the Jacobs cigar factory, in extensive frauds on the government by counterfeiting tobacco stamps and hundred-dollar silver certificates, began here today. The frauds were unearthed and the persons mentioned arrested some six months ago. After the jury was impaneled District Attorney Beck made the opening address on behalf of the government.

OBJECTS TO THE TICKET SCALPER.

NEW YORK CENTRAL PRESIDENT REGISTERS A PROTEST.

Washington, Oct. 9.—President Calloway, of the New York Central, was before the industrial commission today to give testimony relative to the question of railroad transportation. He favored a pooling law and advocated the prohibition of the present ticket brokerage system.

The testimony of Frank Barry, secretary of the National Millers' association, related largely to the export rate on flour compared to that of wheat, which he said is as discriminating as to work great hardship upon the American millers. Barry divulged an extensive movement for an amendment to the interstate commerce act by saying that twenty-three national commercial organizations were preparing to band together to secure the amendment of the law so as to make the findings of the interstate commerce commission mandatory.

SUPREME COURT CONVENES.

Washington, Oct. 9.—The United States supreme court today convened for the regular October term, but adjourned without transacting any business, according to the usual custom.

TYPHOON DISASTER IN JAPAN.

Yokohama, Oct. 9.—It is now believed that no fewer than fifty persons perished in Saturday's typhoon.

## BOLD SALLY MADE BY AGUINALDO'S MEN.

Twenty-Fifth Infantry Attacked at Its Camp Four Miles from the Heart of Manila.

REBELS DRIVEN OFF AFTER A FIGHT LASTING AN HOUR.

SCHWAN'S ADVANCE ON SAN FRANCISCO DE MALABON IS UNCHECKED.

Column Meets With But Little Resistance and Camps for the Night Within Sight of the Stronghold. Where 5,000 Filipinos Are Entrenched.

MANY NATIVES TAKEN PRISONERS.

Manila, Oct. 9.—This afternoon a body of insurgents was seen near La Loma church, four miles from the heart of Manila. They opened fire on the Twenty-fifth infantry. The Americans replied with artillery, and the fight lasted an hour, when the insurgents retired. One American was wounded.

SCHWAN'S ADVANCE UNCHECKED

General Schwan's column—consisting of the Thirteenth infantry, a battalion of the Fourteenth infantry, two troops of cavalry, Captain Riley's battery of the Fifth artillery and Lowe's scouts—continued to advance today towards San Francisco de Malabon, meeting with little resistance and suffering no casualties. Provisions are being conveyed to Rosario, between Novleta and Santa Cruz. The American camp tonight is within sight of San Francisco de Malabon, the stronghold of the insurgents in the province in Cavite, where the Filipinos are said to number five thousand.

During the march from Novleta to Rosario a few shots were fired. This large coast town was literally filled with white flags. The Americans captured two or three hundred men, many of the Filipinos changing their clothing for costumes. The bay of Rosario was filled with hundreds of boats, in which the people had spent an exciting night.

ANOTHER NAVAL EXPEDITION.

An expedition composed of the United States gunboats Callao and Manila, with an armored flat boat and steam pump, has left Cavite for the river Pasig, or Bitis, which empties into Manila bay on the north side, with a view of raising the Spaniards, which is reported to be in good condition. The gunboat Helena, with a body of marines from the Baltimore, preceded the expedition.

NEWPORT HOME FROM MANILA.

San Francisco, Oct. 9.—The United States transport Newport, arrived tonight, thirty-three days from Manila. She has 335 members of the volunteer signal corps and about thirteen civilians. The Newport will not be docked until tomorrow after inspection.

NEW ANTI-EXPANSION LEAGUE.

CARL SCHURZ, COCKRAN AND OTHER AUNTIES FORM IT.

New York, Oct. 9.—Bolton Hall gives out a statement concerning the formation of a new organization, of which he is temporary secretary, which is to be known as the American league. A meeting has already been held and a platform adopted, the third and last clause of which says: "We adhere to the American idea that government derives its just powers from the consent of the governed," and the conclusion of which is: "We are, therefore, opposed to the use of force in the extension of American institutions." Among those named by Mr. Hall as subscribing to the principles of the league are Carl Schurz, Edward M. Shepard, W. Bourke Cockran, the Rev. C. H. Parkhurst, the Rev. H. Van Dyke, William Dean Howells, Charles W. Dayton, Henry Loomis Nelson, John DeWitt Warner, the Rev. Robert Collyer, the Rev. John W. Chadwick, Judge Henry Blischoff Jr., Ernest H. Crosby, Samuel Gompers and Wheeler H. Peckham.

CHAIR TRUST LIKELY TO FAIL.

FEAR OF PROSECUTION CAUSING COMPANIES TO HANG BACK.

Chicago, Oct. 9.—The proposed combination or trust of chair manufacturers, with a capital of \$30,000,000, will not be formed. It is said the promoters of the scheme are not meeting with the success that they expected, and that a number of companies owning plants are hesitating to enter a combine, fearing prosecution. "It would not surprise me if the whole thing falls through," said the manager of a large chair-manufacturing concern. "Doubts have been raised about the legality of such a combination and I understand that the promoters have the ablest trust lawyers in the country looking into the legal status of the plan. Their decision will settle the matter. It would be too costly an idea to combine simply for the purpose of inviting state prosecution."

CONGRESS OF SOCIALISTS.

Hanover, Oct. 9.—The tenth annual Socialistic conference opened this morning with two hundred and forty delegates in attendance, including representatives from Holland, Sweden, Switzerland and Austria. Herr Singer was unanimously elected president. Routine business was transacted.

JOCKEY BOYD KILLED.

Chicago, Oct. 9.—J. Boyd, the well-known steeple chase rider, was killed at Hawthorne today by his horse striking against a hurdle, turning a complete somersault and crushing Boyd.

DEWEY OFF FOR VERMONT.

Washington, Oct. 9.—Admiral Dewey and a party of friends left tonight at 3:30 for Vermont.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The New York World wants Bryan to get out of the way for Dewey as a candidate for the presidency "to help the Democratic party," which moves the Milwaukee News to suggest that the World suspend publication from a similar motive.

Tales of the incapacity of General Otis continue to be told in the papers which are endeavoring to influence the president to recall him, but it is significant that Admiral Dewey has not had any complaint to make of the way he is handling the campaign in the Philippines, except that he is "overworking himself."

Popular sentiment in Germany is strongly with the Dutch republic in South Africa in the contention it is having with Great Britain, but the German government has given President Kruger to understand that it will not interfere in his behalf in any way.

The Iron Age, which a short time ago professed to feel alarmed about the future of the iron and steel industries because of the altitude to which the prices had mounted, now states that "there is accumulating evidence that the entire product up to the summer of 1910 will be urgently needed."

The increased cost of materials hits the government hard in many ways, but especially in the construction work it has under way on new war ships. In the matter of armor for these, for example, the cost is nearly doubled.

PROBABLY MISQUOTED. We are inclined to believe that Robert Oakman of the state tax commission is misquoted in the New York dispatch which represents him as asserting that the commission will, as one result of its investigations while in the upper peninsula a short time ago, place on the assessment rolls mining property in this section to the amount of \$100,000,000.

CONSTIPATION. "I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARETS. I now have from one to three passages a day, and I was rich I would give \$100.00 for each movement; it is such a relief."

years ago, and these properties are now taxed on their assessed value. Mr. Oakman would not be likely to make a statement which would be a confession of his ignorance of the very laws whose workings he and his associates on the tax commission are engaged in studying.

GETTING VALUE FOR IS MONEY. The Boston Traveler thinks Sir Thomas Lipton, the owner of the Shamrock, didn't forget his business acumen when he apparently became an ardent yachtsman, and maintains that he is getting more than value for the money he is spending to win the American cup for England in advertising as the greatest tea merchant in the United Kingdom.

When he was knighted for his generosity to the poor during the queen's jubilee he became famed as a philanthropist, and, incidentally, won a title. It was good business.

When a challenger was needed for the America's cup, shrewd Sir Thomas saw the chance of his life, and seized upon it. And, really, one must pause to admire the man who is so enterprising. Give him all the credit that is due him as a philanthropic gentleman, a sportsman of the fairest, squarest type, and then cap it with the man's business ability and keen sightedness, for in this last he is greatest.

Sir Thomas Lipton, tea merchant, is the best advertised man in the world. He never loses an opportunity to advertise.

There are spots on it. To the Editor:—Your recent editorial in regard to the questionable quality of the civilization we are offering the world is illustrated by the intemperate temperance advocate whose recent address you justly characterize as "coarse intolerance," yet who is supported and endorsed by a large following of professional Christian men and women.

large audience of the same class of people. As regards the latter, one can but wonder if the perpetual preaching of the great sacrifice and the commemorative communion of that fearfully "broken body and shed blood" has so blunted our sensibilities that we can enjoy the representation of that most ghastly execution on Calvary, and see nothing shameful in making a show of the suffering which attended that magnificent demonstration of Divine love.

COMING WEDNESDAY. Murray and Mack in That Howling Farce, "Finnigan's Ball."

"Finnigan's Ball" is a happy title of the farce comedy given by the great favorites, Murray and Mack to their suffering Finnigan stage stories, and it is said to be a worthy chapter, or rather sequel to their former successes.

Another novel feature, although not original, is an introduction of a mammoth cake walk. Cake walking and rag time melodies being now the rage, a farce company would not be complete without them.

SHOT AT THE WINONA. PATRICK MURPHY OF HANCOCK PROBABLY FATALLY WOUNDED BY A FINN—CAUSE UNKNOWN.

GRIST OF INTERESTING BUSINESS HANDLED BY THE SUPERVISORS YESTERDAY—DETAILS.

The annual meeting of the Houghton county board of supervisors was held yesterday morning at 9 o'clock. Supervisors Duncan, Harris, Wright, Scott, Smith, Kroll, Fox, Orr, Edwards, Harrington and Grant being present.

COST OF THE POOR. The usual grist of bills was allowed and then the board took up the reports of county officers for the year, the first being that of the superintendents of the poor, showing that 1,659 disabled men, destitute families, widows and children had received outside aid during the year ending Sept. 30, the amount expended in such aid being \$29,957.22, divided as follows:

Houghton district ..... \$ 6,136.61 Hancock district ..... 12,903.49 Calumet district ..... 9,997.12

At the county house there have been ninety-six persons cared for during the year, the aggregate number of days' board being 15,141 at an average expense per day of 15-4-5 cents, exclusive of the farm and garden stuff produced.

MONEY NEEDED THIS YEAR. The report of County Treasurer Rudolph J. Haas, next submitted, showed that during the year ending Sept. 30 he had handled \$348,045.13, of which over \$70,000 were still on deposit to his credit as county treasurer, and that he estimated the necessary tax levy for the coming year for county taxes at \$108,292.52, divided as follows:

Poor fund ..... \$35,000.00 Care of insane ..... 8,000.00 General orders ..... 30,000.00 Salaries ..... 19,000.00 Bridge fund ..... \$16,392.52

"This sum represents the difference between the outstanding bridge bonds—\$30,000—and the amount on hand in the bridge fund—\$13,607.48—and is needed to take up the outstanding bridge bonds.

The report of Treasurer Haas was referred to the finance committee, as was that of the county clerk reporting the fees collected.

R. R. Goodell reported the sales of lands and timber made by him as agent in charge of the lands of Houghton county in the upper peninsula and the report was referred to the committee on county lands.

PRISONERS NUMBERED 148. The inspectors of jails reported upon their examination of the county jail, the report showing 148 prisoners for the year, of whom 109 were classed as drunk and disorderly, and the report was placed on file, as was that of Judge of Probate Gray, showing fifteen persons adjudged insane during the year and sent to the asylum.

The board of soldiers' relief then reported that \$875.49 had been expended during the year and that \$1,000 would be needed for the coming year. The report was referred to the finance committee.

MINE INSPECTOR'S REPORT. The report of Captain Josiah Hall, inspector of mines, was then read and was ordered placed on file. The report shows the following:

10-4, and so on, represents the month and day.

"In submitting this report," the mine inspector says, "it affords me much satisfaction to note that there has been a noticeable decrease in the number of casualties for the year as compared with former years and the number of men employed, as follows:

Year. Men Employed. Killed. 1898 6,480 21 1899 7,310 35 1891 7,792 28 1892 7,640 21 1893 7,591 23 1894 7,348 22 1895 7,249 22 1896 8,170 19 1897 8,726 26 1898 10,469 23 1899 12,051 27

\* Of this number 10 were killed in the Red Jacket shaft by an over hoist on the part of the engineer.

\*\* This exceptionally large number was due to the Osceola mine fire by which 30 men lost their lives.

LACK OF SKILLED MINERS. "During the past year there has been a greatly increased demand for labor of every kind and more especially for skilled miners. This has in fact been so great that it has been almost impossible to obtain miners who were experienced in underground work and it has often been necessary to employ men not familiar with this work and unacquainted with any of its dangers. This has been in a great measure a great detriment to the mine officials who, however, have used all the means within their power for the safety and welfare of

If there remain any holders of stock in the Wahnta Copper Mining company among the readers of The Mining Journal they will be interested in this piece of information concerning the property out west which the company is exploiting:

"Superintendent King reports to the Wahnta Copper company that sinking of No. 2 shaft at the Erie mines is now down thirty feet, with inside dimensions of 4 1/2 by 12 feet. This shaft is about 200 feet northwest of shaft No. 1 located on the outcroppings of the same vein, and is to be the main shaft. Sinking No. 1 shaft is being pushed and has been in good sulphuree ore for several months. The new storehouse being erected has been completed."

"I wish, in closing, to again call attention to the excellence of the work done by the Michigan College of Mines. The results of the efficient way in which this institution uses its splendid environment are best shown by the fact that its graduates have found ready employment, both in this and other mining districts. I wish to express the opinion that the institution deserves the warm support of the state and particularly of the copper country."

STREET RAILWAY FOLKS HEARD. Chairman Duncan stated that he had corresponded with the engineer who designed the Portage Lake bridge and was assured that the bridge was all right for street car use. W. O. Chapman then addressed the board for the Houghton County Street Railway company and stated that his company had assurances of right-of-way as far as the Franklin Junior mine, and that in respect to the bridge still narrower structures were safely crossed in the vicinity of Boston.

A franchise drawn up by local attorneys was then submitted and read, action finally being deferred until the adjourned meeting of the board next week.

The committee on bridges asked for further time in which to report upon the Sturgeon River bridge.

HOSPITAL SCHEME A GO. Then, after listening to a communication from the state tax commission, on which action was deferred, the board granted a hearing to a committee of ladies, consisting of Mesdames Taylor, Allen, F. Rees and Jones, who presented a request for the temporary use of the old county building for hospital purposes. The matter was discussed informally for a few minutes and then, by a unanimous vote, the board granted them the use of the building as it stands, the matter of drawing up the necessary contract being left to the committee on buildings. The feeling seemed to pre-

NO RIGHT TO UGLINESS. The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking woman of a run-down invalid. Only 50 cents at the Stafford Drug company.

ON THE SELVEDGE OF BLACK DRESS GOODS IS A GUARANTEE OF GOOD WEAR.

Appreciating the large volume of sales in our Carpet Department in the last year, we have contrary to custom increased our already large stock of Carpet for fall, adding the finer grades of Axminster and Royal Wilton. Our line of patterns in these grades are exclusive and private designs and the selection could not be excelled in any New York or Chicago house. Our stock now contains Axminsters, Body Brussel, Velvets, Tapestry Brussel, Ingrains and Matting in profusion.

#### RUG DEPARTMENT.

Our Rug Department is better supplied than any previous season in Turkish, Wiltons, Axminsters, Smyrnas and Moquettes, in all sizes.

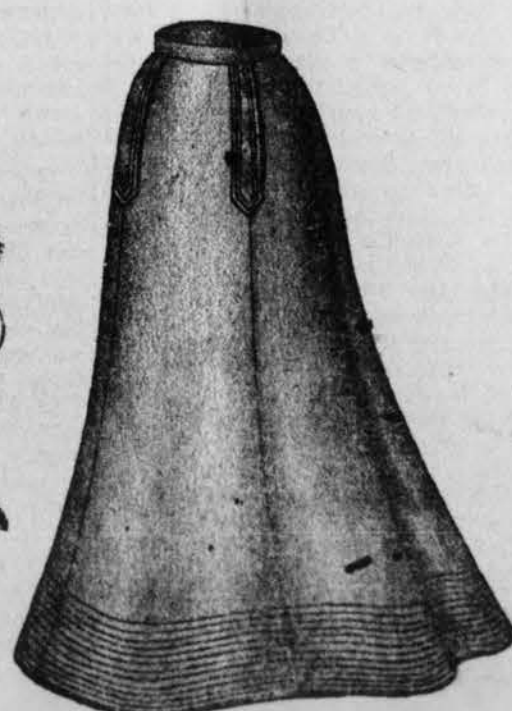

#### DRAPERIES and CURTAINS.

In Draperies and Curtains we have no competition. No such assortment was ever shown in Marquette before. Curtains from 75c to \$150 per pair.

#### KID GLOVES.

We have just received our Fall shipment of the Celebrated Centemeri Kid Gloves, in all the season's shadings and have added the \$1.00 Centemeri Kid Glove to our line. We do not make very much profit on Kid Gloves, but we do offer the public the best value ever given in Gloves. Gloves fitted and cleaned. All Gloves fully warranted.

Doubtless every lady in Marquette county has become acquainted with the popularity of our Tailor Made Suits and Jackets, during the past year. We have endeavored during the past two seasons to procure the best garments for the money that the market afforded, both as to quality and workmanship. How well we have succeeded is evidenced by the enormous sales in this department. Our experience in the past has led us to make still greater efforts with the result that our showing this season will be much larger and a selection comprising many high novelties which we have not shown heretofore.

A GRACEFUL LETTER. SUPERINTENDENT WRIGHT OF THE IRONWOOD SCHOOLS ACKNOWLEDGES THE CORDIAL TREATMENT HIS FOOTBALL TEAM RECEIVED HERE.

A gentleman here who takes great interest in high school athletics, and who was instrumental in giving the Ironwood football players a pleasant time while they were here a week ago Saturday, has received the following letter from Superintendent L. L. Wright of Ironwood:

"I feel that though some acknowledgment ought to be made to you for your very courteous and kindly treatment of our boys, I would like to include in this acknowledgment all of the people of Ishpeming who were concerned in the game. Our boys all feel very kindly toward the Ishpeming team and the Ishpeming people, and have asked me to return their thanks to the Ishpeming team, to Miss Olett, to the other teachers and to you."

DEAL NOT CLOSED.

The deal for the control of the properties of the Big Five mining company in the Ward mining district, Boulder county, Colorado, which was mentioned in these columns some weeks ago, has not yet been consummated and shareholders here are still in a state of expectancy.

Shareholders will realize about 40 cents a share, and when the commission on the sale is deducted from \$2,500,000 there will remain \$2,375,000 to be divided among them.

IS SELLING PIANOS.

A. E. Whitney, special agent of the Kimball company, manufacturer of fine pianos and organs, is here to stay a month. He is located in the Robbins block, recently vacated by T. F. Gill, where he has a large number of fine instruments on display and for sale.

DEARTH OF LIVERY OUTFITS.

The local livery stables enjoyed the biggest business they have had in some weeks Sunday. The weather was ideal for outings in the woods and the call for livery equipages began early in the morning and continued well into the evening.

WAS A FAKE.

An Ishpeming lady has just received a letter from a friend who lives in Salt Lake City, Utah, in which she states that she had read in one of the Salt Lake City newspapers a dispatch sent from Marquette which stated that during the three days' snow storm in September it was necessary to use the rotary snow plow on the D. S. S. & A. railroad to get the trains through.

ary snow plow on the D. S. S. & A. railroad to get the trains through. As the western lady is somewhat acquainted with the climatic conditions in this section of the state she was surprised at the news and wrote for information. Though the September snows were unusual they did not give foundation for the dispatch which galled the westerners. The incident serves to show what bald fakes are worked off as news far from the localities where the events described are said to have happened.

IS IN MICHIGAN.

E. J. Blackwell is in Michigan, where he arrived last evening. Yesterday William Peters received a telegram from Duluth from Mr. Blackwell announcing that he was about to leave that city, and would arrive here on the 6:25 train last evening. He was informed that his parents were located at Michigan and was told to stop off at that place. Mr. Peters went up yesterday afternoon to see him on his arrival. It is not known exactly when Mr. Blackwell will come to Ishpeming, as he will probably desire to visit his parents and rest up for a time, but a number of his friends are in hopes that he will come down today. Whenever he sees fit to come he will be given an enthusiastic welcome.

A STRIKE EPIDEMIC.

Strikes are serious things, and in view of the number that have occurred it is well to remember that until the cause be removed, dissatisfaction will depreciate work and prove a menace to society. But it is not only the commercial life which has its strikes. The whole country is groaning under the strike of the stomach, and many people make the mistake of trying to suppress the symptoms instead of removing the cause. There is but one sure way of curing the ills which arise from a rebellious stomach, and that is by an honest use of Hostetter's Stomach Bitters. Use it for indigestion, constipation, dyspepsia, biliousness, liver or kidney trouble, and see that a private Revenue Stamp covers the neck of the bottle.

ISHPEMING IN BRIEF.

A. Kilder of Marquette was here yesterday.

Alex Richardson of Menominee was here yesterday.

Alfred Meads of Marquette was an Ishpeming visitor yesterday.

Several of the mines will pay off this week. Some will settle up early next week.

Clark Youngs and Miss Cooper of Marquette made the trip to this city on wheels Sunday.

Ed Nelson went to Iron Mountain last night on a brief business trip. He will return this morning.

Frank Vilen of 811 Pine street lost an infant child by death Sunday. The funeral will be held today.

Officer Bettison picked up two jars yesterday afternoon. They will come pretty swift towards the end of the week when the monthly pay gets in circulation.

Patrick Sullivan, who has resided in this city for some years, is making arrangements to move his family to Michigan, where he has a good position with the Cleveland Cliffs company at the Imperial mine.

Herbert Wright played part of the game against Beloit with the varsity team of the University of Wisconsin Saturday. They are trying out the men and late in the game he was relieved by a fresh player. Wisconsin won by a big score.

The Foresters have issued several hundred invitations for their ball on Friday, Oct. 20. Much interest in the dance manifested and inquiries have been received from up the D. S. S. & A. line regarding special rates. If they can be obtained a good delegation will come to the city.

Seats for "Finnegan's Ball" are going like the proverbial hot cakes and it is certain that the attraction is going to bring out a packed house. Catchy advertising matter and good recommendations account for the unusual interest manifested in the appearance of the company.

Miss I. Kelly is holding her fall millinery opening this week. She has a fine line of pattern hats and is better prepared than ever to please her customers. Her sister, Mrs. Taylor, has spent several weeks in the latest looking up the latest styles, and Miss Kelly has also visited the markets. She hopes to see all her old and many new friends this week.

The admirers of Randall's colts think that it would be a good thing for the boys to get together and practice up their football so that they could play a couple of games this fall. The boys would be heartily supported by local people and would have no difficulty in getting Union park for a game. It is probable that the Houghton team would consent to meet them.

Charley Rohl, Champion's only jeweler, was here yesterday visiting his friends. Mr. Rohl is an old printer, having worked at that trade on The Mining Journal for some years. He started as "devil" at the foot of the ladder in 1872 when A. P. Swinford was running the paper and graduated from a case some years later to engage in the business which now occupies his attention.

The attention of the Ishpeming ladies buying round-trip tickets for the fall opening of Van Alstyn (Marquette) any day this week is called to this. If you will bring your ticket to the store Van Alstyn will refund you the cash, making the rate 50 cents for the round trip whether you buy anything or not. To those buying \$10 worth and upwards, Van Alstyn will refund the full amount paid for railroad fare. It is suggested that Wednesday or any day later would be most desirable, as new goods will be unpacked by that time.

QUESTION ANSWERED—Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they look when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Sample bottles at the Stafford Drug company.

### THE PRESIDENT AT WEST SUPERIOR AND DULUTH.

#### FRIDAY, OCT. 13, 1899.

At West Superior.

The president's special train is due to arrive at Union depot West Superior 8:30 a. m., of the 13th. It will remain half an hour, the president addressing the people from the platform of his car or from the pavilion at Hammond Park.

At Duluth.

President McKinley will spend forty-five minutes in Duluth next Friday morning. He will arrive on the Eastern Minnesota railroad at 9:15 o'clock, and will leave on the Northern Pacific at 10 o'clock for Fargo. The Duluth passenger agents have been advised that this is the program by Charles S. Fee, general passenger agent of the Northern Pacific railroad. The party will come in a special train. The run to Brainerd is to be made in three and one-half hours, which will bring the party there at 1:30 p. m., and Fargo is to be reached at 5:30 o'clock. A short stop will be made at Wadena.

An endeavor will be made to have the president deliver a short address while here. It would be from a public place, and the balcony of the St. Louis is suggested.

The Duluth reception committee will take the reception to the presidential party in hand, and will prepare for welcoming him in appropriate style. The new steel arch is to be pushed to completion before that time.

### ISHPEMING FIRM GETS CONTRACT.

#### THE HEATING PLANT FOR NEGAUNEE'S NEW WARD SCHOOL WILL COST A TIDY SUM.

The school trustees held a meeting Saturday and among other business disposed of the contract for the heating plant for the new ward school was let. The Lake Superior Steam Heating Company was given the work. The plant will be installed for a consideration of \$2,625. The work will be started immediately and will be completed before the school is ready for occupancy. The board received three bids on the work, two from Milwaukee concerns. The bids of the Milwaukee firms were hundreds of dollars higher than that put in by the Ishpeming concern which secured the contract. The plant will be installed in accordance with specifications furnished by the architects, Charlton, Gilbert & Demar, and it will have ample capacity to heat the eight-room building in the severest weather.

From the progress being made on the new school it is plain that it will be finished well within the limit of time specified in the contract, which is Dec. 15. In spite of several disadvantages the work has been pushed with fair speed. The school trustees have accepted an offer made by Louis Corbitt, whereby they will be able to get all the dirt required to raise the site of the new school to the proper level. Mr. Corbitt will allow the dirt to be taken from a couple of lots owned by him on Lincoln street. The board will only have to stand the expense of hauling. Bids for the cartage at a square yard rate will be called for and the contract will be let soon.

Director Sawbridge has provided for an abundance of funds to tide the board over the current year by accepting the proposition made a few weeks ago by C. G. Griffey. Mr. Griffey will provide the board with all the funds it will require at 6 per cent. interest. By the terms of the contract he will be given the issue of \$9,000 bonds voted for the construction of the new school. He will get the bonds at face value, paying no premium. This arrangement insures the board immunity from financial trouble. When Mr. Griffey's offer was first made there was some criticism of its terms but now that it has been accepted there seems to be little dissatisfaction with the action of the board.

The matter was referred to Director Sawbridge with instructions to make the best disposal of the issue that he could. After looking into the matter he decided that Mr. Griffey's offer was an advantageous one as any submitted and accepted it.

### RECEIVED SPECIAL INVITATION.

T. M. Wells has been absent the last few days in Chicago enjoying the fall festival and incidentally doing a little business. This fact is not out of the ordinary but in his store here is exhibited the big special invitation that called him to the Windy City. It came addressed to him and has his name written in a blank left for that purpose. It was sent by the invitation committee and requests his presence in Chicago "to assist the president in the ceremonies marking the laying of the corner stone of the new government building." A number of people went down from here Sunday night to be in Chicago yesterday to take in the big day of the festival. The excursionists from here are expected to begin arriving home tomorrow.

### HAVE PAID THE CLAIM.

The local lodge of Maccabees recently paid the death claim of the widow of James Dunstan, who died some months ago in Johannesburg, South Africa. Much difficulty was experienced in obtaining the required proofs of death. The necessary formalities were finally complied with, largely through the aid of a former Negaunee man, who is now a resident of South Africa. He aided the local lodge greatly and saved it considerable expense that otherwise would have been incurred. The fact that Mrs. Dunstan resides in Penzance, Cornwall, England, also delayed the settlement not a little.

### HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular sizes 50 cents and \$1.00. Trial bottles free at the Stafford Drug company; every bottle guaranteed.

A pair of glasses in a case awaits the owner at Sporey's store. They were picked up Sunday in the alley between Peck and Case streets.

The office rooms in the Davis block are being improved by fresh coats of varnish on the floors. The tenants are experiencing considerable inconvenience while the work is being done.

Murray & Finnegan, the firm which will take Harris & Matthews' store, will soon be in possession. The old firm expects the new one to take hold this week. Mr. Finnegan comes from Quinnesec.

Andrew Lindquist has finished the carpenter work on N. Laughlin's new Peck street house. The dwelling was originally started on Jackson street, but was moved to Peck street because its erection was in violation of the ordinance relative to the fire limits.

Louis Goodrich is about to start a barber shop here. He will take the room which is about to be vacated by Joy & Aiken, the firm which has been engaged in the candy business for the past several months. Joy & Aiken intend to seek new fields. Their business has been good, but with the approach of cold weather the ice cream end of it has been knocked out and they consider it advisable to find a new location.

The attention of the Negaunee ladies buying round-trip tickets for the fall opening of Van Alsty (Marquette) any day this week is called to this. If you will bring your ticket to the store Van Alsty will refund you the cash, making the rate 50 cents for the round trip whether you buy anything or not. To those buying \$10 worth and upwards, Van Alsty will refund the full amount paid for railroad fare. It is suggested that Wednesday or any day later would be most desirable, as new goods will be unpacked by that time.

## COPPER COUNTRY NEWS.

(Continued from Page Three.)

ness will be divided into departments, all of which will be under the direction of Mr. Parker. Night shifts will be put on at all the mines, and operations will be pushed vigorously regardless of what other companies may do. The economies that will be effected by these changes will amount, it is claimed, to from \$200,000 to \$250,000 per annum, and at the same time the production will be materially increased. Mr. Parker lately has been the consulting engineer of the company.

The New England Statist, whose representative, Geo. L. Walker, visited the Great Lakes nickel-copper property at Sudbury recently to witness the Graf reduction plant installed there a short time ago in operation, furnishes his paper with this information concerning it: "The Graf reduction plant, recently built on the property, being the first one ever constructed, is naturally imperfect in many ways. Superintendent Boss says that the few trials that have been made have, however, demonstrated quite conclusively that the ores can be treated rapidly, economically and successfully. The ore in these tests has been reduced to a copper-nickel matte, and a careful chemical test of the slag indicates that the separation of the minerals from the rock was complete.

"Professor Graf will arrange for a different type of grate than has been used heretofore. The new grate will probably consist of a series of water pipes as the furnace is of the down-draught description, and therefore destructive to the ordinary iron grate. A matte receptacle that can be dumped quickly and in a better method of lining the furnaces are also being considered.

"The Graf process of reduction is, as nearly as can be learned, almost entirely chemical. The secret of the process is the manufacture of what Professor Graf calls a gaseous electricity which brings about the reduction. About three bushels of charcoal is mixed with each ton of ore in the ovens, and the burning gas drawn down through it by exhaust fans. Those who have seen the operation say that the gas does not seem to create much heat, as the hand can be passed slowly through the same without scorching. Indeed, the charcoal which is mixed with the ore, is only partially burned, and much of it comes from the oven as it entered it.

"The effect of the gas on the ores, however, is said to be remarkable. In from eighteen minutes to one hour from the time the gas is turned on the molten metal begins dropping down through the grate, and in an hour and a half the same results are accomplished that other methods obtain from several days to three months. Professor Graf expects that he will later be able to so govern the degree of heat in the furnace that he can accomplish a complete separation of the various metals, taking out the antimony, then the nickel, copper, etc., with respect to the different degrees of heat at which they melt.

The ore so far treated has been found to contain about 30 per cent. of matte. As the matte has not been refined the exact percentage of each metal is not yet known."

## Mrs. F. Giguere

Almost Raised from the Dead by Dr. Coderre's Red Pills.

Some people would call the case of Mrs. Ferdinand Giguere a miracle—an intervention of Providence—but that would be a mistake. Her case simply shows the wonderful advance of medical science. It demonstrates the power of that most famous of all female remedies—Dr. Coderre's Red Pills for Pale and Weak Women.

As long as breath remains in a woman's body, there is hope for her recovery. A thousand medicines may prove utterly worthless. But these pills will cure anyone. No woman was ever nearer death than Mrs. Giguere, and yet she is alive and well today. The priest who recommended Dr. Coderre's Red Pills did an act of kindness that can never be repaid. He had seen other parishioners cured, and knew there was hope in this celebrated remedy. The following words were written by Mrs. Ferdinand Giguere herself. She lives at 29 Cuvillier St., Montreal: "My case was hopeless. Six weeks I was kept in bed by constant hemorrhages. I was unable to walk; was the shadow of myself, pale and thin. I received all the last sacraments of the church. One night the Sisters of Providence attending me thought I was dead and put a veil on my face. The priest who brought me the communion suggested that Dr. Coderre's Red Pills be tried. I had not much faith in them, because I had tried so many remedies, but I took them, just the same. After six weeks I was completely cured."

Free professional advice in women's diseases will be given by our French specialists to all sufferers who write us. Send your name and address on a postal card and get a free copy of our book, "Pale and Weak Women." Dr. Coderre's Red Pills are widely limited. Beware of all red pills sold by the dozen, the hundred or at 25c a box. They are worthless imitations. Get the genuine at all honest druggists. They have them—always 50 Red Pills in a box for 50c, or 6 boxes for \$2.50. Or you can send the price in stamps, or by registered letter, money order or express order to us. We mail them all over the world; no duty to pay. Dr. Coderre's Red Pills at 50c a box, last longer than liquid medicines costing \$1. They are easier to take, more convenient to carry, and they cure. ### BOARD'S ANNUAL SESSION.

#### Supervisors Equalize Valuations Throughout the County and Apportion All Taxes.

#### POOR SUPERINTENDENT SPORLEY INVESTIGATED AND EXHONORATED.

#### Powell Asserts Half the Game in This County Is Killed Before Season—Vikorous Roast for Present System of Game Protection.

#### COUNTY'S LITTLE LEGISLATURE MEETS.

The valuation of the county was equalized, the annual tax levy made, two officers elected and a considerable quantity of other business pushed through at the annual session of the board of supervisors yesterday. It was only by dint of considerable exertion that the board accomplished this much, and several matters which could be deferred were carried over till the succeeding meeting. As it was the board worked up so close to 5 o'clock that the warrants for supervisors' salaries and mileage could not be made out in time to allow the up-the-road members to get them, and the entire board had to go home no richer than it came. The board will meet again Nov. 22.

Equalizing the valuation of the different cities and townships and levying the tax was the most important business the board had before it. The bulk of this work was done in committees, the reports being submitted to the board at its afternoon session and adopted without change. The board adjourned at noon to meet again at 2 o'clock and the committees were supposed to transact their business in the interim, but their work dragged so that it was 4:30 before Chairman Morgan was again able to call the board to order and proceed with the business of the main session. The equalized valuation of the county remains practically the same. The cities and larger townships were equalized at the figures of a year ago, but some of the sparsely settled townships were given a reduction on account of timber which had been cut off from their pine lands.

The finance committee reported \$122,038.01 to be raised in taxes in the county this year, the amount being divided according to purpose as follows: State tax, \$60,636.84; county tax, general fund, \$40,000; poor fund, \$20,000; Agricultural society, one-tenth of one mill amounting to \$51.20; soldiers' relief fund, \$400. These taxes are apportioned among cities and townships according to their equalized valuations. The apportionment for the three cities is as follows: Marquette, \$12,769.96 state and \$15,992.35 county; Ishpeming, \$19,140.09 state, and \$11,251.77 county; Negaunee, 9,570.01 state, and \$22,563.33 county.

The offices of poor superintendent of the second district and county school examiner were filled by the board at its yesterday's meeting. There was a well defined effort on the part of a coterie of Ishpeming members to knock C. L. Spierley out of the first named office, but it did not succeed as Mr. Spierley was re-elected on the first ballot.

The first act in this effort was a communication from an Ishpeming woman named Mrs. Tredenick, who in the March report of the poor commissioners was published as having received \$25 for the burial of her son. Mrs. Tredenick stated positively in her letter that she had never received the \$25, that the undertaker hadn't, and that the supervisor, who in this case was also the undertaker, told her he had been to the secretary of the poor board and to the county treasurer about the matter but could get no satisfaction.

Mr. Spierley evidently had an inkling of what was in store for him for he was on hand with two big ledgers and when he was called upon to make a statement regarding the case opened his books and read the entries regarding it. Then addressing Supervisor Thomas Gill, who was the undertaker in the case, he inquired: "Mr. Gill, did you ever receive that \$25?"

"No sir, I did not," replied Mr. Gill. "Then here is the check returned from the bank with your signature on the back. I wish you'd look at it Mr. Chairman," he said, passing it up to the presiding officer.

"Mr. Spierley's statements are altogether false," retorted Supervisor Gill, and with that introduction he launched forth onto a history of all of the county cases he had had this year. The board seeing that it was about to be lost in a confusion of dates and names cut the dispute short here and referred the matter to a committee to report on it after dinner.

When the board resumed business in the afternoon the committee reported. The trouble all arose from Mr. Gill's neglecting to place the name of the county charge for whom the service was performed upon his bill. Spierley, on account of a telephone conversation they had had about the death of Mrs. Tredenick's son, supposed that that was the case and charged the money against the woman. The board reported that the service was rendered and the money paid though not to Mrs. Tredenick. After this report had been rendered the board had a side wrangle over whether it should square Mrs. Tredenick in its published report or let the matter drop with the report of the committee, which laid the trouble to a "clerical error," and after wasting considerable valuable time in debate concluded to insert Mrs. Tredenick's name in the report.

After it had been conclusively proven that Mr. Spierley had not taken the \$25 the board proceeded to vote on candidates for the office of poor superintendent of the second district. There were three candidates, C. L. Spierley, up for re-election, W. J. Whitford and Joseph Scoble. On the informal ballot Spierley received 24 votes out of 37, Whitford 9, Scoble 3 and blank 1. This ballot was made formal and Spierley retained in office.

Principal D. B. Waldo of the normal, who was filling an unexpired term on the board of county school examiners, was re-elected by acclamation.

The subject of the game wardens' work and compensation came in connection with an inquiry from Clerk Ross if he was authorized to draw warrants for the pay of the new warden of the second district at the same rate as his predecessor had been paid. At that Supervisor Powell got up and asked the prosecuting attorney to tell him if there was any way in which the county could

get out of paying the game wardens' salaries. "I regard this duty game warden business as the biggest imposition we have to pay," he remarked. Prosecuting Attorney Potter was not ready with an opinion just then but in the afternoon he informed the board that the game wardens' salaries could be reduced or cut off at any time. Deputy game wardens' he said, are appointed by the game warden of the state, but the supervisors have the power to regulate their pay and may make it whatever they consider the service worth. "Do you wish to make a motion, Mr. Powell?" inquired Chairman Morgan. "I am not prepared just now to make a motion," the supervisor responded. "I asked for information for myself and for the board and I should want to give the matter more thorough consideration before taking any action, but I am satisfied that most of the game is being killed before season and we are paying two deputy wardens \$50 a month each for game protection." Mr. Powell intimated that he might have something to offer at the next meeting.

The matter of the remuneration of the county register and treasurer for work they are required to do for the state tax commission was brought up, but as there was only a few minutes left before train time and important reports yet to be heard, it was carried over till the next meeting.

#### MAYOR VERSUS TRUCKEY.

#### Common Council Again Votes to Sustain the City's Executive.

The police investigation of the common council did not amount to much last night. Ex-Officer Truckey was not present in person but was represented by Attorney Charles Button, and the majority of the councilmen were plainly of the opinion he should have been there himself. It appeared quite certain that if the ex-officer had been there and made a formal denial of the charges in his own behalf a request for more time to prepare a defense would have been granted, but as it was the council ignored the pleadings of his representative and again voted to sustain the mayor. This does not absolutely preclude a second examination but it will compel the ex-officer to begin proceedings all over again.

When the session was opened for business Mr. Button made an address to the council in which he pointed out the justice of having the specific charges presented. He was not satisfied with the blanket charge, "neglect of duty," as already preferred by the mayor, saying that it gave absolutely nothing which could be answered. The mayor for a time refused to present the charges unless Truckey should be brought in to hear them in person, but his attorney, while admitting that he was close at hand, did not for some reason choose to produce him. However, the mayor finally consented to present the charges, which were in the form of affidavits from Joseph Laroux, Nels Steinberg and Peter O'Connell.

The Laroux affidavit repeated the story of the shooting in Laroux's saloon last month. To this the mayor added a statement from Chief Maney in which the chief told how Truckey had failed to report the shooting and the evening after had denied knowledge of it when questioned by him. Alderman Tobin asked the chief if he considered his failure to report and the later denial of the affair as neglect of duty, to which the chief replied he did.

In the second affidavit Steinberg, who is a watchman at the Lake Shore Iron works, told how he had found ex-Officer Truckey one night standing in the doorway of the blacksmith shop minus a hat and under the influence of liquor. Steinberg deposed that he took him into the works and got him a chair in which he slept till morning, when he provided him with an old hat which he could wear away. Steinberg further swore that Truckey later came around and abused him for telling the circumstances to Officer Anderson.

The third affidavit was from Peter O'Connell, who swore that on a certain date when coming home late from a wake he dropped into the Queen City restaurant where he found the then policeman asleep in a chair, and that he was still sleeping when he (O'Connell) went out.

Mr. Button put in a strong plea that Truckey be given twenty-four hours in which to meet these charges and that the parties making them be brought up to confront him, but the mayor and administration members of the council held that that session had been called off Truckey's request and that he had offered to be present then and meet any charges which had or which might be brought against him, and were inclined to hold the ex-officer to the letter of his offer.

Alderman Tobin, to test the sentiment of the council, he said, offered a resolution that an adjournment be taken for a week, but before this had received a second Alderman Ward amended it to read that the charges of the mayor be received and placed on file and that his action be sustained. Tobin said the amendment was satisfactory to him. A vote on it resulted in a 10 to 4 victory for the administration, whereat the council adjourned.

#### HE SPOKE.

#### Frank H. Vandenberg Addresses the Aetna Field Workers' Convention.

Frank H. Vandenberg, special representative of the Aetna Life Insurance company in the upper peninsula, who went to Milwaukee last week to attend the annual convention and banquet of the Field Workers' association, writes from there that the convention was a "howling" success in every particular and that it was the most enthusiastic and inspiring meeting of the kind ever held in Milwaukee. Mr. Vandenberg was one of the speakers at the convention and spoke on the topic, "How to Close Business with the Farmer." While the heads of the visiting agents were filled with good points, the banquet menu, which Mr. Vandenberg enclosed in his letter, shows that their stomachs were equally well filled with good things.

#### TWELVE MONTHS' CREDIT GIVEN TO ALL.

Owing to the great number who called upon the Eastern Healers at 117 Bluff street, Marquette, Mich., during the past month and could not get wanted upon, they will extend the time of the liberal offer of giving consultation, advice and services free to all calling upon them before Saturday evening, Oct. 14. After that date charges will be made for the same.

They heal all manner of diseases. If they can restore you; they will administer unto you; if not they will advise you. The object of this pilgrimage is to introduce the Eastern mode of healing the sick without poisonous drugs or the surgeon's knife; also to introduce botanic medicines which God ordered from the foundation of the world for the healing of nations. These good Samaritans never administer medicines for symptoms of disease, but remove causes through a vegetarian diet and botanic remedies, hence their wonderful success in healing the sick and restoring to perfect health thousands who had given up all hope of ever finding a cure. The Eastern Healers or good Samaritans are educated Christian men and women whose aim is to deal justly by the sick and afflicted, the poor and the needy. The Healers or good Samaritans have existed in all ages. They went out in the highways and byways, healing the sick, visiting the rich and poor, administering alike to all.

Notice—If you have been advised by anyone to undergo an operation for appendicitis, ovarian difficulties, rupture, tumor, cancer or piles, do not listen to it and have your life endangered by the lance, knife or needle before taking counsel of the Eastern Healers. The Healers wish it distinctly understood that no case is taken without a moral certainty of either materially benefiting or curing the same. No matter what your condition may be or how many doctors you have tried, go and get free counsel and forever have it settled in your mind as to your true condition. Remember, a perfect knowledge of disease is half the battle. It is your life that is at stake. You must either get well or suffer. Do not accept what anyone says, but see the Healers and satisfy yourself. They give you this opportunity free until October 14.

The following are a few of the many maladies cured by the Eastern Healers: Blood poisoning from poisonous lymph used in vaccinating; also insect, reptile and dog bites; scrofula, syphilis, cancer, tumors, old sores, ulcers, skin and scalp diseases, sore eyes, nerve, kidney, spinal and brain diseases, paralysis and fits, stomach, heart, liver and female diseases, colds, asthma, cataract, weak lungs and first and second stages of consumption, nervous debility, lost strength of the whole or any part of the body, piles and all rectal diseases, rheumatism, withered limbs, stiff joints, contracted cords and weakened muscles. A special invitation given to those afflicted with dropsy, also stomach, heart and kidney diseases.

Notice—Wives must be accompanied by their husbands and girls by their parents or guardians. No time given to drones or gossipers. Be it distinctly understood that the Eastern Healers or good Samaritans are not Christian Scientists, Spiritualists or Faith Healers, but treat diseases on scientific principles based upon the belief in the healing powers of vegetable medicines which God ordered from the creation. All calling upon the Healers who cannot speak the English language will please bring interpreter with them. Hours of administering from 10 a. m. to 8 p. m. No Sabbath hours and no calls made.

Makes rich, red blood, and muscle more rapidly than any known remedy. It's food for brain and nerve. That what's Rocky Mountain Tea is. The Stafford Drug company.
