GEO. D. SHERMAN, Gen. Superintendent. K. S. BAKER, Manager.  
MARQUETTE, MICH.

500 Men Wanted.

Laborers for work on Long Distance Telephone lines. \$30 per month and board with work all winter. Apply

General Superintendent, 407 Savings Bank Bldg.

## BIG BATTLE IS AT HAND.

Boers Advance to Attack the British at Ladysmith, Natal.

## SKIRMISHING HAS BEGUN.

Fighting Still On at Mafeking. With English Holding Own and Reported Heavy Boer Losses.

## ZULAS SAID TO BE ARMING.

Ladysmith, Natal, Oct. 18.—The British forces met the enemy in the neighborhood of Acton Homes and Bester's station, sixteen miles out, this morning. The firing began at 10 o'clock.

Camp Glencoe, Natal, Oct. 18.—2 p. m.—Boer scouts have been sighted at Hating Spruit, seven miles from the British camp. An engagement is imminent.

Ladysmith, Oct. 18.—British cavalry patrols have been in action at Acton Homes and Bester's station since midday, and the action is still in progress. A number of casualties have been reported. Supports are leaving the camp, and a fight is expected tomorrow.

## ENGLISH CAMP SACKED.

Lorenzo Marques, Delagoa Bay, Oct. 18.—The Volkstein, the Boer official organ at Pretoria, publishes the following:

The British camp at Ramathabana [just north of Mafeking] has been captured and sacked by General Cronje after severe fighting. Many burghers were killed and wounded. The Boer loss is not known.

The Volkstein admits that in the various skirmishes near Mafeking and at other points the Boer casualties number sixty or seventy killed and wounded.

London, Oct. 18.—A Pretoria special dispatch, dated noon yesterday, says:

After a few shots were fired at Mafeking a white flag was hoisted. A Boer party, bearing a flag of truce, was sent to inquire whether the town had surrendered. No definite reply was received. Boer Krupp batteries are now covering the town. Military engineers can be seen laying a temporary railroad, which probably will be used in an armored train defense by the garrison.

## BLAME ON THE FREE STATE.

Ladysmith, Natal, Oct. 18.—An official note says:

The Free State commando yesterday commenced actual hostilities. The Free State thus has taken upon itself the responsibility of beginning the war and cannot hereafter pose as an injured party.

A letter was brought to the British pickets today by Boer cyclists bearing a white flag signed by the Newcastle magistrate sent by the permission of Commandant General Joubert, stating the British who remain at Newcastle are all well.

## ALIWAAL NORTH ISOLATED.

Aliwal North, Cape Colony, Oct. 17.—[Delayed in transmission.]—The town is now deserted and the railway has been cut. Dutch farmers are quitting their farms. Several prominent British residents have been warned to leave, as there is danger in remaining, but this does not alarm the loyalists, who await events. The Boers are now close to town. A force of police is guarding the frontier bridge.

## WARRIORS GROWING RESTLESS.

London, Oct. 18.—A Durban, (Natal) special cablegram says the Zulus are arming with assegais, and that Chief Dinizulu says he is unable to restrain them. It is expected, the dispatch adds, they will be joined by the Swaziland warriors.

## FLAG OF TRUCE DISCREDITED.

BADEN-POWELL'S LITTLE GARRISON BELIEVED TO BE HOLDING OUT AT MAPEKING—THE SITUATION REVIEWED.

London, Oct. 18.—There is still no authentic news from Mafeking, but all reports tend to confirm the belief that Colonel Baden-Powell is holding his own and no credit is given the vague rumor a flag of truce has been displayed. A considerable engagement is anticipated in the vicinity of Ladysmith today. The combined advance of the Boers and Free State troops in this direction has been executed with skill and shows a clear appreciation of the British position.

## BRITISH IN STRONG FORCE.

General Sir George Stewart White has twelve thousand men and forty-six guns available, besides a considerable force of volunteers hold Ladysmith, and no anxiety is felt on his account, for the Natal country where the engagement is expected is fairly open and, although the work of moving them will be difficult, the guns likely will do good work. The country is not favorable to Boer tactics. It will be difficult for them to avoid the exposure of their flanks and attack the vigorous and mobile enemy already occupying useful positions. Gen-

eral White has a large body of excellent cavalry.

## NATIVE UPRISINGS FEARED.

The worst feature of the situation is regarded to be the probability of native uprisings, which, whether on behalf of or against the Boers, are certain to produce serious complications besides danger for the few hundred whites in these districts.

The havoc the Boers are making to railway and telegraph lines will seriously impede the movements of General Sir Redvers Buller's army corps.

## BOERS USING ARTILLERY.

JOUBERT'S FORCES AND THE BRITISH COME IN COLLISION NEAR LADYSMITH—DETAILS.

London, Oct. 19.—The Daily Telegraph's correspondent at Ladysmith says no newspaper representatives are allowed to proceed from there either to Bester's station or Acton Homes, and adds that General Joubert's forces are moving against Glencoe and Bester's station on the Harrismith-Lynch line.

According to the same authority, some volunteers who have just come to Ladysmith from Bester's station and Acton Homes reported that three hundred Boers tried ineffectually to cut off small parties of British troops, but the Natal men were too wary to be caught and retired firing. The Boers, they say, used cannon against the British riflemen, and the firing was heavy.

Two thousand Boers were engaged at Acton Homes and fewer at Bester's station. It is reported the enemy there is hemmed in and suffering severely. It is believed Commandant General Joubert is dividing his forces.

## TRANSVAAL GOLD SEIZED.

The Cape Town correspondent of The Daily Mail says:

"The authorities at Johannesburg have announced they will make a house-to-house search Monday and compel every British subject to leave town.

"The imperial authorities have impounded 150,000 sovereigns which arrived by steamer today for the Transvaal. It will be kept here until the war is ended."

"Dispatches from Briers, dated Saturday, state the Boers, advancing northward, were repulsed at Labatsi station."

## VICTORY FOR POWELL'S TROOPS.

The Times' Labatsi correspondent, under date of Oct. 14, says: "Boers were around us all day yesterday and broke up the line at several places between Pitsani and Mafeking. They were attacked and defeated by a party of our men from Mafeking. Thirty Boers were killed during the night. A runner has arrived bringing news of Colonel Baden-Powell's success in keeping the enemy at bay."

## KILLED BY THEIR OWN MEN.

CAPTS. VOULET AND CHANOINE, FRENCH OUTLAWS IN AFRICA, MURDERERS OF COL. KLOBB'S COMMAND, PAY THE PENALTY.

Paris, Oct. 18.—The minister for the colonies has received a dispatch announcing that Captains Voulet and Chanoiné, of the outlawed French expedition under Colonel Klobb, who was sent to arrest these officers on charges of cruelty and insubordination, have been shot by their own men. The dispatch is as follows and comes from Lieutenant Pallier, one of the officers of the Voulet-Chanoine expedition and now in command of Voulet's men:

"Voulet, who, with a hundred tirailleurs, on July 14 marched against Colonel Klobb, alone was responsible for the massacre. He told his comrades on his return what he had done and declared he intended to revolt and form an independent state. Only Chanoiné decided to accompany him, with some natives. On July 16 the tirailleurs mutinied and shot Chanoiné. Voulet fled, but on July 17 tried to rejoin the expedition but was shot by a sentry. The tirailleurs then rejoined the expedition in good order and the expedition, myself commanding, continued its mission and punished the murderers of Captain Casemajor, whose body was recovered."

## HANDICAP FOR COLUMBIA.

SHAMROCK GIVES HER A TIME ALLOWANCE NOW SINCE THE RE-MEASUREMENT WAS TAKEN

New York, Oct. 18.—On board the Shamrock there was great activity today, her crew completing the adjustment of the shrouds and stays to secure the new towst to replace the one carried away yesterday.

On board the Columbia everything remained quiet. The crew sat on the deck, where everything was ready for tomorrow's event.

There was an effort made to take the challenger out to test the new equipment, but after she was remeasured darkness set in and the trip was abandoned.

Measurer John Hyslop announced that the new measurement of the Shamrock shows the yacht's present water line to be 88.35 feet and the racing length by the club rule 102.565 feet. He states that Shamrock will now allow Columbia sixteen seconds on a thirty-mile course.

Tomorrow's race will be fifteen miles to windward, or leeward, or back, with the start at 11 o'clock as usual.

## WARNING TO POSTMASTERS.

LAW AGAINST POLITICAL ASSESSMENTS TO BE ENFORCED.

Washington, Oct. 18.—The postmaster general has issued a formal warning to all postmasters against the levying of political assessments. The order is understood to be the result of complaints of the violation of the law received from Ohio and other states where elections will be held this year.

## INSANE FARMER'S AWFUL DEED.

Redwood Falls, Minn., Oct. 18.—Frank E. Babcock, a farmer living near here, murdered his wife and three sons this afternoon and then blew out his brains. The crime was committed in a fit of insanity.

## TO CALL OUT MORE MEN.

Queen Gives Notice Militia and More Reserves Are Necessary.

## 35,000 ADDITIONAL TROOPS.

Message Excites Parliament and Revives the Fears of a European Coalition.

## BIG WAR FUND IS WANTED.

London, Oct. 18.—A message from the queen was presented in the house of commons today saying that the state of affairs in South Africa has made it necessary to call out the militia and the military reserves.

This announcement has occasioned widespread wonderment, and the old stories of preparations against a continental combination are revived.

A supplementary army estimate has been issued asking the house of commons to vote an additional thirty-five thousand men and fifty million dollars in consequence of the South African situation.

Berlin, Oct. 18.—It is officially announced that Emperor William will start for England Nov. 11.

## LIBERALS SCORE THE MINISTRY

CHARGE CHAMBERLAIN WITH BAD FAITH AND DECLARE WAR COULD BE AVOIDED—WILL SUPPORT GOVERNMENT, HOWEVER.

London, Oct. 18.—The house agreed to consider the latest royal message [the calling out of the militia] tomorrow, and a motion by Mr. Balfour, appropriating the entire special session for government business, was carried by a vote of 273 to 48. The debate on the address in reply to the speech from the throne then was resumed.

Philip James Stanhope, a Liberal member, moved an amendment strongly disapproving the conduct of the negotiations with the Transvaal. He attacked the policy of Secretary of the Colonies Chamberlain, demanded that the latter clear himself of the charge of complicity in the Jamieson raid, and added: "While entirely acquitting the government as a whole of any connection with these doubtful transactions, and believing they were animated by peaceful motives, I am convinced the secretary of state for the colonies and the British high commission in South Africa have, for the last two years, been fully determined that war and war only should end this crisis, and that they worked for this consummation during the last year."

## HARCOURT IN DENUNCIATION.

Sir William Vernon Harcourt, Liberal, said it was the duty of the house to support the government and maintain the integrity of the dominions of the queen, but they had the right to speak of the policy of the government in altogether a different tone. He went on to justify the opposition's criticism of the conduct of the negotiations, declaring his belief there were salient circumstances in the transaction which did not tend to a peaceable solution.

"Although I do not charge the government," said Sir William, "with deliberately avoiding a peaceable solution, in my opinion there is no justification for saying there had been criminal obstinacy on the part of the Transvaal. Step by step, it will be found, on wise advice from the Orange Free State and the government of Cape Colony, the Transvaal, until the door was shut, yielded and was continuing to yield to our pressure."

Discussing the cause of the final breach, Sir William said: "On Sept. 6 the Transvaal sent a dispatch pressing for the appointment of a joint commission to consider their offer, on the condition that suzerainty be dropped. Everybody is now convinced that suzerainty was dropped in 1884 (Loud ministerial protests). At any rate, the successive secretaries of state were of that opinion."

## SUIT AGAINST MARCONI.

L. C. LARNED OF BOSTON CLAIMS THE HONOR OF INVENTING WIRELESS TELEGRAPHY.

New York, Oct. 18.—Lymon C. Larned of Boston has brought suit against Guglielmo Marconi to restrain him and his agents from using the system of wireless telegraphy, which Larned claims is an infringement of a patent now controlled by him.

SICK WOMEN

are invited to consult Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., by letter, without fee or charge of any kind.

There is no qualified woman physician so far as is known connected with any proprietary medicine put up for women. Even the "bearded woman," the man who advertises "write to a woman" is not a qualified physician and stands too much in fear of the law to claim that he is.

Per month, by carrier \$3.00 Per year, by mail \$30.00

MARQUETTE, MICH., OCT. 19.

The Boers are not having as much success at the outset as they must have anticipated when they determined to force the war with England.

A New York paper thinks the decision of the Carnegie Steel company to increase its fleet of ore carriers before the opening of next season by adding to it five steamships of 8,000 tons burden each.

NO DANGER OF A MONOPOLY

The Philadelphia Record makes the recent acquisition by Rockefeller of a large addition to his ore carrying fleet on the great lakes the text for this comment.

The iron ore product of the Lake Superior region, which will be for the current year not less than 17,000,000 tons, is largely shipped by the lake route to the furnaces dependent upon this source of supply.

The Record is a little off on its figures and statements. This season's output of ore, though unprecedentedly large, will not reach 17,000,000 tons; nor is it true that the mining industry in the Lake Superior region is now practically in the control of one man.

GROWTH OF OUR IRON INDUSTRY

There is ample warrant for what the St. Paul Dispatch sets forth in the following article relative to the growth and transcendent importance of our iron industry.

No one who watches the development of this country can have failed to appreciate its iron industry, and not only the present conditions, but the growth which has placed the United States at the head of iron-producing countries.

furnace proprietor sixty years ago owned a large tract of land covered with native forest, where the wood was obtained for making charcoal.

In 1840 anthracite coal was introduced for smelting ores, and in 1855, for the first time, the production of pig iron made with this mineral fuel exceeded the amount from charcoal.

The Boston Transcript brings to the notice of the Republican party a danger that may lurk in the proposition to have it use its power at the coming session of congress to affirm the gold standard, unless it should concurrently adopt an adequate measure for giving greater elasticity to our monetary system.

A DANGER POINTED OUT

The Boston Transcript brings to the notice of the Republican party a danger that may lurk in the proposition to have it use its power at the coming session of congress to affirm the gold standard, unless it should concurrently adopt an adequate measure for giving greater elasticity to our monetary system.

THE PHILADELPHIA RECORD

The Philadelphia Record makes the recent acquisition by Rockefeller of a large addition to his ore carrying fleet on the great lakes the text for this comment.

THE IRON ORE PRODUCT

The iron ore product of the Lake Superior region, which will be for the current year not less than 17,000,000 tons, is largely shipped by the lake route to the furnaces dependent upon this source of supply.

THE RECORD IS A LITTLE OFF

The Record is a little off on its figures and statements. This season's output of ore, though unprecedentedly large, will not reach 17,000,000 tons; nor is it true that the mining industry in the Lake Superior region is now practically in the control of one man.

NO ONE WHO WATCHES

No one who watches the development of this country can have failed to appreciate its iron industry, and not only the present conditions, but the growth which has placed the United States at the head of iron-producing countries.

tem. The recent "squeeze" in the money market, which has so seriously deranged business throughout the country, and which made it necessary for the government to anticipate for eight months in advance the interest payment on the public debt, sufficiently indicates, the Transcript observes, where the trouble lies, and "what a dangerous weapon the Republicans will place in Bryan's hand if they simply affirm the gold standard without at the same time providing a comprehensive scheme of banking reform."

An affirmation of the gold standard will not materially lessen the tension of the money market during periods of crop movement. An elastic banking system would, if congress gives us one and not the other, the sophisticated Mr. Bryan can rise in his place next October when the crops are being moved and another squeeze, with extraordinary rates on money, follows, and announce that the committal of the country to the gold standard has been a failure.

The trouble which an affirmation of the gold standard will not sufficiently correct is that due to the inelasticity of our banking system. Under present conditions a rigid limit is practically put upon all United States currency, modified only by the ebb and flow of gold, which is always a clumsy method of adjusting the volume of currency to the needs of business.

The trouble which an affirmation of the gold standard will not sufficiently correct is that due to the inelasticity of our banking system. Under present conditions a rigid limit is practically put upon all United States currency, modified only by the ebb and flow of gold, which is always a clumsy method of adjusting the volume of currency to the needs of business.

Baby's Voice

she looks forward to it with indescribable fear. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that "MOTHER'S FRIEND," a scientific liniment. By its aid thousands of women have passed this great crisis in perfect safety and without pain.

Mother's Friend

Is the joy of the household, for without it no happiness can be complete. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that "MOTHER'S FRIEND," a scientific liniment. By its aid thousands of women have passed this great crisis in perfect safety and without pain.

WAS IGNORANT OF MIRACLES

The lawyer asked the witness if the incident previously alluded to wasn't a miracle and the witness said he didn't know what a miracle was. "Oh, come!" said the attorney, "supposing you were looking out of a window in the twentieth story of a building and should fall out and should not be injured, what would you call that?"

SPECIAL NOTICE

Office of the Odd Fellows' Building Association of Marquette: Notice is hereby given that there will be sold at public auction, to the highest bidder, at the office of the association, second floor of Fraternity block, Marquette, Mich., on Friday, Nov. 10, 1899, at 9 o'clock a. m., the following shares of the capital stock of said association for the non-payment by the owners of said stock, for thirty days and upwards, after the same became due and payable, of assessments of the amount set opposite the certificate:

SOME WIRES TO GO UNDERGROUND. TELEPHONE SYSTEM AT HOUGHTON SOON TO TAKE ON TRULY METROPOLITAN STYLE.

As a result of the recent visit of the telephone officials to Houghton, Manager James R. Dee informs The Mining Journal that it has been determined to adopt the very latest principles in rebuilding the Houghton system and, as at Marquette, the wires will be put underground where the character of the buildings is such as to make it necessary as, for example, in front of the New Douglas House, where the big pole now standing at the corner of Sheldon and Isle Royale streets will be entirely done away with, something that Mr. Dee has been very anxious to bring about.

BARAGA SPORTS TAKEN IN. "LUMBERJACK" OF HOUGHTON "DIDN'T DO A THING" TO THAT TOWN'S GLADIATOR, HIMSELF BEING A "RINGER," TOO.

They tell strange stories about the fight which was pulled off at Baraga Tuesday night between the Chicago gentleman of color who rejoices in the melodious pseudonym of Black Strap, who has been doing up the local pugilistic luminaries there, and an unknown "lumberjack" from Houghton. It is alleged that Wick O'Connell was down at Baraga recently when the darky did up the man he was sent against and proffered the remark that he couldn't fight a little bit, that there was a hobo working on the railroad at Houghton that could put him to sleep too easily. This was too much for the rich sporting blood of Baraga, and the Baragaites promptly remarked that they had \$100 which said that Wick was talking through his millinery.

The purse was accordingly made up and on his return to Houghton Wick did a little telegraphing, and then sat down to await the eventful night. It came Tuesday, when the assembled sports from the Portage Lake towns started for the sawdust city on the late train in high feather, their man, dressed up carefully in an old pair of overhauls, an old and dilapidated leather coat and with a "turkey" on his back, having been taken down in the afternoon.

The mill was pulled off promptly on the arrival of the late train and lasted just fourteen seconds. "Black Strap" started in like a whirlwind and caught the lumberjack [?] on the point of the jaw with the right with a blow that brought him to his knees and kept him there while the referee counted out seven seconds, when he regained his feet and, finding that it was too dangerous fooling with such a wild-eyed antagonist, landed him one under the ear with a short right-handed jab which ended the contest then and there, the man with the molasses name being dead to the world for over an hour before they brought him to.

The deal is said to have been a "plant" to do up Pat Nester, who put up the \$100 to back "Black Strap," but it is alleged that Patrick was too faxy for the boys to get much of a graft on him and slid out from under just in time. It may interest the colored pugilist from Chicago—who was afraid that if the unknown heard that he was "Black Strap" from Chicago, sah" he would refuse to enter the ring against him—to know that the railroad hobo who interviewed him so speedily has the reputation of being Frank Hammond, trainer for the Detroit Athletic club, and about the best man in Michigan.

BOXING CARNIVAL TONIGHT. The boxing tournament of the Houghton Athletic club comes off this evening at the Armory Opera House, when George Stead of Chicago and Frank Stachouse of Detroit will meet again, this time in a fifteen-round contest to a decision for a purse of \$300. Frank Hamel of Detroit and Patsy Gilmore of Chicago will meet in a ten-round bout for \$200 and Frank Edwards of Ashland and Harry Wells of Port Huron will meet at catch weights. The admission will be 50, 75 and \$1, and Mike Shea of Marquette will be on hand to referee the contests.

OLSEN ADMITS HIS GUILT. MAN WHO HELD UP AND ROBBED OTTO LINDQUIST AT CALUMET BOOKED NOW FOR A TERM IN THE PENITENTIARY.

Marshal August Beck of Calumet drove down to Houghton yesterday with Louis Olsen in his charge and landed him in the county jail to await trial at the next term of court on a charge of highway robbery for holding up Master Mechanic Otto Lindquist of the Tamarack Junior near the corner of Sixth and Pine streets, Calumet, on Monday night and relieving him of a pocketbook containing \$5. Olsen's actions on the day following the robbery led to his prompt arrest on suspicion, and the subsequent recovery of a part of his ill-gotten booty and his identification as the man who had cashed a check contained in the stolen pocketbook left him no alternative but to own up to the crime, and in default of \$500 bail he was sent to the county jail for safe-keeping. Much sympathy is expressed for his father, who has the best of reputations, while another son is also to stand trial at the next term of court, being out on bail charged with larceny from a store.

SHE PLEADED GUILTY. Marshal Foley returned yesterday afternoon from Marquette with the girl Helen Watson, whom he had wired Marshal Maney to arrest there for him. She pleaded guilty to the charge of disorderly conduct and was released from the charge of larceny preferred through mistake. MURPHY WILL LIVE. Deputy Sheriff Fleming came in from the Winona Tuesday evening and re-

Uneeda Biscuit and National Biscuit Company. For a pleasant change of diet Uneeda Jinjer Wayfar

borrowed from Boston & Montana to meet its bond interest.

The statement that the Utah Consolidated mining employees have been notified not to give out any news on penalty of losing their positions is very timely, as the Boston News Bureau learns from people arriving from that vicinity that the new smelter is not doing what was expected. The mine is showing as well as ever, but changes must be made in the smelter to realize the results to be expected.

The trustees of the Montana Ore Purchasing company have declared the regular quarterly dividend of \$1 per share (\$80,000), payable at the New York office of the company on Oct. 27, 1899. Books close Oct. 17 and reopen Oct. 27, 1899.

The Mining Journal has been favored with the "October copper letter" issued by Frederick H. Clark of Boston and once more is forcibly reminded that there are "only a few of the good things left!" After giving the confiding public a little advice on copper stock investments in general, the self-stated "authority on stock manipulation" has this to say about the "Wannita" of woeful memory:

"This most maligned of Boston coppers is coming to be recognized on its merits and while stock-jobbers [!] and news mongers have been busy defaming the company and questioning the value [!] of its properties, the management has pushed development work until now it is common knowledge that the Erie Consolidated mines have shown up as well as any properties that have been opened up in Arizona in the past ten years and Arizona advices say they will become one of the paying propositions of the territory within the next year. Development work has been followed along the lines indicated by twenty years of successful mine management. The ore bodies opened up have averaged over 18 per cent copper, the richest oxides and sulphurets \$12 and over in gold, and prominent mine owners and experts of Salt Lake City, Denver, Montana and Boston have pronounced the ores as remarkably rich and easy to treat. The large ore 'dump' is daily being increased and weekly reports confirm the sanguine expectations of the management which were accidentally [so!] published last spring. The stock should be purchased on its merits."

Just so! The first of the four engines purchased by the Copper Range from the Northern Pacific road for track-laying purposes through the inability of the Baldwin people to turn out new engines in time for the road, will be turned over to the South Shore road at West Superior this morning and is expected to arrive at Houghton promptly, when it will be sent out beyond the Atlantic and set to work attending the extra steam shovel, now in the yards, which will be started at work on a cut there containing 36,000 yards. The remaining engines purchased from the Northern Pacific will be delivered next week.

Four carloads of machinery, representing the greater part of the new Atlantic hoist from Fraser & Chalmers of Chicago, were delivered upon the tracks of the Copper Range road Tuesday evening and will be run up over the switch-back onto the Atlantic railroad and then taken out to the mine. The new deal makes it much easier for the Atlantic to handle its machinery, as before it all had to be teamed out. This would be a very difficult job in this case, as among the pieces are a thirty-foot shaft of 18-inch steel and the "spider" for the hoisting drum, which is twenty-four feet in diameter.

A gentleman who has just visited the Victoria brought back with him, to Houghton some very fine samples of barrel work, and states that the mine is turning out a great deal of similar stuff now. As the pieces shown run from 85 to 90 per cent copper it only needs enough such rock to prove the Victoria a very valuable mine.

RED HOT FROM THE GUN. Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible ulcers that no treatment helped for twenty years. Then Buckle's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Bolls, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25 cts. a box. Cure guaranteed. Sold by The Stafford Drug Company.

COPPERDOM BREVITIES. N. E. McBride returned Tuesday afternoon from Chicago. Roger C. Williams of L'Anse was a Portage Lake visitor Tuesday evening. Misses Lottie Lean and Gertrude Lange of Houghton returned Tuesday evening from their trip to Duluth. R. T. Looney, the attorney and counselor at law, has leased the front offices in F. W. Kroll's new block at Houghton, while Dr. Sarkisian has taken the remaining suite. Frank Papineau, the man who was injured by falling into the hold of the steamer Pratt at the Atlantic dock last week, is now rapidly recovering and Dr. Wheeler took him home from St. Mary's hospital, Hancock, Tuesday afternoon. A very prominent citizen of Houghton was heard giving this fatherly advice to a newly-made benefactor of the same town recently: "The first thing you want to do is to get your wife to join the Whist Club," and then he yawned for the fortieth time and again figured out on the clock how much time must pass before it would be 11 o'clock and he would dare show up at home without danger of being mobbed by the whist enthusiasts.

The Copper Journal of Hancock announces that hereafter its days of publication will be Mondays, Wednesdays and Fridays, the change from Tuesdays, Thursdays and Saturdays being made for the convenience of advertisers. The Copper Journal has a very loyal support from the merchants of Hancock and the other towns from which it draws its patronage, and is right in thinking that whatever its advertisers feel is best for their interests is the proper course for the paper to pursue.

S. O. Dixon of Racine, general manager of the C. H. Starke Dredge & Dock company, the concern into which all the dredge and dock companies on Lake Michigan were consolidated, is in Houghton arranging for the trip to the Sault of the dredge which was taken off the work last week and which will be taken down today, or as soon as the weather will permit, by the company's tugs, Calumet and Wau Bun. The remaining dredge will be kept busy by the government until Nov. 1 and will then be hurried down to the Sault before the ice shuts it in. The contract on Portage river which has kept several of the Dixon dredges busy during the last two seasons required the removal of over 900,000 yards of material. The largest dredge is the one which is left to finish up the extra work desired by the government.

TO CURE A COLD IN ONE DAY take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Joseph Stockford, Hodgdon, Me., healed a sore running for seventeen years and cured his piles of long standing by using DeWitt's Witch Hazel Salve. It cures all skin diseases. The Stafford Drug Co.

The "Challenge" is the best 10-cent clear sold. Husted & Gessler, makers, Chicago. J. B. Tibor, agent.

To Cure a Cold in One Day. Take Warner's White Wine of Tar Syrup, the best cough remedy on earth. 25 and 50 cents.

### RIO DEL PILAR TIRED OF WARFARE.

Otis in Receipt of an Alleged Offer from the Insurgent General to Turn Over Aguinaldo.

FORMER SPANISH SOLDIERS PAY THE PENALTY OF TREACHERY.

CAUGHT BY FILIPINOS DICKERING TO SURRENDER THE ARTILLERY.

Seven of the Ten Are Executed—Old Indian Fighter Lawton Again Takes to the Field, and Rebels Are Defeated Near San Arita.

PROGRESS OF THE EASTERN WAR. Washington, Oct. 18.—General Otis cables the following report:

Lawton, with a strong column, reached Cabiao, ten miles south of San Isidro, this morning. The Third and Fourth cavalry are with him, under Young and Bell. The Thirty-sixth infantry is scouting northwest of San Arita. Part of the regiment struck the insurgents, killing and wounding several and capturing thirteen prisoners and fifteen rifles.

Manila, Oct. 18.—General Otis has received messages purporting to come from insurgent General Rio Del Pilar offering to sell out his army and deliver Aguinaldo into the hands of the Americans. General Otis is firmly set against buying surrender.

Ten former Spanish soldiers, acting as officers in the Filipino artillery, recently determined to surrender their guns to the Americans. The plots were discovered by the Filipinos, who killed seven, the other three escaping to Manila and giving the news.

Twenty-five Filipinos today attacked a railroad patrol of eight members of the Seventeenth at Guiguinto, wounding two. The Americans were reinforced by a patrol and drove off the enemy.

#### FILIPINO BLUE BOOK.

The consuls at Manila have received from Tarlac, where it is believed Aguinaldo remains, a book containing the correspondence between him and the American commanders and consuls, in which, as he contended in his recent appeal for recognition, the Filipinos find the basis for their assertion the American government recognized their sovereignty and promised them independence.

The book is addressed to the members of the United States congress and contains a long argument by Senor Buencamino, of the so-called cabinet of Aguinaldo, who alleges that letters written by Wildman, United States consul at Hong Kong, to Aguinaldo in June and July of last year made a sensation among the Spaniards here.

#### RIDICULOUS ALLEGATIONS.

Replying to Aguinaldo's request that the Americans arrange for the shipment of the Spanish prisoners to Hong Kong, relieving the Filipinos of the expense of maintaining them, Wildman, so it is claimed, wrote: "Never mind feeding them. A meal every day of rice and water will be a good diet. They have been living too high the last few years. As the Spaniards want more bloodshed than the Filipinos, I trust you will let them have a taste of real war. Don't be so tender with them. Handle them as they would treat you."

Wildman's letters deal largely with the shipment of arms. The whole corre-

spondence, however, contains no promises of independence. Buencamino lays stress upon letters from Admiral Dewey and General Anderson requesting passes for American officers and others to visit the Filipino territory, and upon a letter from General Anderson asking "you and your people to co-operate with us in the military preparations against the Spaniards."

#### BOILER MAKERS' STRIKE ENDED.

San Francisco, Oct. 18.—The boiler makers' strike is over and the men will go back to work tomorrow. The men have been conceded a nine-hour day on all vessels not owned by the government. On the latter a day's work will be eight hours, with ten hours' pay. As a result of the settlement the transports in port will get away next week.

#### COMMISSIONERS HOME.

Vancouver, B. C., Oct. 18.—Professor Worcester and Colonel Denby, Philippine commissioners, arrived here today on the steamer Empress of Japan and left for Washington, where they will make a report to the president. Neither gentlemen would make a statement of any kind for publication.

#### CRUISER NEWARK SAILS.

San Francisco, Oct. 18.—The cruiser Newark sailed today for Manila, via Guam. It is understood that on her arrival at Manila she will join the blockading fleet in guarding the coast of Luzon to prevent filibusterers landing supplies for the insurgents.

#### FEARS FOR THE IOWA TROOPS.

NEWS OF A FIERCE TYPHOON OFF THE JAPANESE COAST THAT THE SENATOR IS UNDERSTOOD TO HAVE ENCOUNTERED.

Victoria, B. C., Oct. 18.—The steamer Empress of India, from Japan today, has the roughest trip she has ever experienced. The second day out from Yokohama the ship encountered a typhoon which smashed all telegraphic communication between the engine room and the bridge, destroyed some of the boxes and continued all day and night. Fears are expressed by the officers for the transport steamer Senator, carrying home the Fifty-first Iowa. She left Yokohama for San Francisco eight hours before the Empress, having immense upper works that would fare badly in a gale.

#### NO ALARM AT FRISCO.

San Francisco, Oct. 18.—The transport Senator, with the Iowa volunteers on board, is expected to arrive from Manila next week. The news of the terrible experience of the steamship Empress of India while enroute from the Orient, sent out from Victoria, when she encountered a typhoon, has caused no alarm here for the safety of the Senator, which is supposed to have also passed through the typhoon. The Senator is a good vessel and able to withstand a rigorous storm of unusual severity.

#### GOV. SHAW TO MEET THEM.

Des Moines, Ia., Oct. 18.—Owing to fears that the transport Senator, carrying the Fifty-first Iowa regiment home, may have suffered on account of the heavy weather, Governor Shaw has announced the cancellation of his speaking dates and leaves immediately for San Francisco to care for the troops in case they have suffered severely.

#### FINE ART GALLERY DESTROYED.

DINGEE HOME IN CALIFORNIA IN ASHES—\$300,000 THE LOSS.

Oakland, Cal., Oct. 18.—"Fernwood," the magnificent home of George R. Dingee, in Piedmont hills, burned this morning. It contained one of the finest private art galleries and conservatories in the state. The loss is over \$300,000.

#### BADGER HOTEL CONSUMED.

Green Lake, Wis., Oct. 18.—The Terrace Beach Casino, a large hotel, burned to the ground today. Mr. and Mrs. Jenks, parents of the proprietor, burned to death. The loss is \$60,000.

#### FATAL INDIANA FIRE.

Knightstown, Ind., Oct. 18.—In a fire early this morning three firemen were crushed to death under falling walls and two others are missing. Property worth \$100,000 was destroyed.

#### BLAZE AT CHICAGO.

Chicago, Oct. 18.—The New England Transfer elevator, forty-ninth street and Homan avenue, burned this (Thursday) morning. The loss is \$100,000.

#### BLIZZARD IN MONTANA.

FOUR MEN DEAD AND THERE MAY BE OTHER FATALITIES.

Great Falls, Mont., Oct. 18.—Four men are dead, probably eight more, in Teton county from the recent storm. The dead were all sheep herders—Norman Druce and one other employed by W. K. Flowerice; Will Graham, working for the Homer Sheep company, and a man named Ladd, employed by Wallace Taylor. Two herders, named McIntosh and Conley, are missing. There were two parties in the mountains, including ladies, who have not been heard from, although they may have escaped. They are W. M. Corbin and Charles McDowell and wives, of Dupuyer, and W. F. Ralston and four sons. The snow is four feet deep on the level in parts of Teton county.

#### THAT ALASKAN AGREEMENT.

Washington, Oct. 18.—Secretary Hay had a conference today with Mr. Tower, British charge d'affaires, on the Alaskan modus vivendi. The terms were substantially agreed upon.

Later in the day the conclusion was reached that the safest course would be to secure the assent of the British foreign office to the exact terms of agreement, leaving no opportunity for future misunderstanding, so the matter was laid before that office through the cable. It is the confident belief the agreement will be perfected tomorrow or the next day.

#### TODAY'S WEATHER.

Washington, Oct. 18.—The following is the weather bureau's forecast for Upper Michigan: Fair Thursday and Friday; fresh northerly winds.

#### BUBONIC PLAGUE IN ARGENTINE

Rio de Janeiro, Oct. 18.—The statement that the Bubonic plague is raging at Santos is officially confirmed.

### DEMAND THAT THE WAR BE ENDED.

Anti-Imperialists Out With a Declaration of Principles at Chicago.

PRESENT POLICY DECLARED BOTH HOSTILE TO LIBERTY AND ILLEGAL.

DEFEAT AT THE POLLS PLANNED FOR THOSE WHO SUPPORT IT.

Conference Comes to a Close With a Speech by W. Bourke Cockran of New York Protesting Against the Course of the Administration.

#### WOULD HOLD ISLANDS IN TRUST.

Chicago, Oct. 18.—At the second day's session of the anti-imperialists' conference the speaker of the morning was Herbert Myerick of Springfield, Mass. He declared "it a fundamental error to assume that imperialism, militarism, despotism or any sacrifice of the tenets of liberty and self-government are essential to the largest possible development of America, internally or externally."

After a general discussion of the Philippine question a public mass meeting was held and a declaration of principles adopted. This denounces the policy of imperialism as hostile to liberty, unconstitutional and tending toward militarism, and demands the immediate cessation of the Philippine war. It also says: "We propose to contribute to the defeat of any person or party that stands for the forcible subjugation of any people."

#### PROMOTERS TICKLED.

The meeting came to a close tonight, Bourke Cockran of New York delivering the oration of the evening. Central Music Hall was filled, and the remarks of the orator were greeted with approval by those present.

Mr. Cockran based his objection to the policy of the government on the broad ground that one people had no right to force a government on another. He discussed the question in a dispassionate manner, claiming there were many reasons why the United States should hold the islands, but no reason why it should attempt to force upon any people a form of government to which that people objected. The conference adjourned at the conclusion of his address, those in charge of the meeting expressing themselves delighted with the success of the affair.

Mr. Cockran's address, in part, was as follows: "The war has brought us not merely new responsibilities, but an opportunity never equalled in the history of the world. The manner in which that responsibility should be met and that opportunity improved is the problem to be considered in this conference. If our proceedings are to be of any value, they must be conducted in a calm atmosphere than is likely to be found in political conventions."

#### TWO COURSES OPEN.

"The questions affecting our territorial integrity should be considered by the nation as a whole. There are two courses open to us. The first is to accept either tribute or territory for ourselves, and by making in the conditions of peace provision for improving the conditions of men. 'If we should accept the establishment of other reward than the establishment of free and beneficent governments in the territories wrested from Spain, we will show that we did not take up arms for conquest or plunder, but for justice and humanity. A president proclaiming such a policy, so novel and enlightened, would take a place in history as distinct and conspicuous as Abraham Lincoln, while this country would acquire a moral influence among the nations unprecedented and unparalleled."

"It would be an inspiring answer to the universal aspirations of peace which were brought into existence at the recent conference at The Hague. Our Eastern complications prevented us rendering a priceless service to humanity and gaining unmeasurable glory for ourselves at The Hague, but that opportunity is by no means lost. The policy of civilization and humanity may still be adopted by the American people, even if the president fails to initiate it, even if he should oppose it. Indeed, the glory of establishing ourselves in the primary of civilization would be increased if it were achieved by the people themselves in spite of the officers who control our government."

#### CLOUD ON MCKINLEY'S HORIZON.

"The purpose of this conference should be to promote unanimity not aggressive division. Whatever we think of the president's action, it is only fair to admit that the policy to which he appears inclined and which we condemn ceases the only shadow of doubt on his own political prospects. The cession of the Philippines by Spain to the United States is an accomplished fact, irrevocable and therefore beyond discussion. The problem which confronts us now is the course which we should pursue to them, the duration of our authority and the manner of maintaining it."

"Since the conclusion of the treaty of peace, no one recognized authority has declared the policy of our government on the question. Indeed, in the absence of congress, there is no power to declare it. We are not opposing any policy, but protesting against the absence of policy. The sentiments expressed by the president are your sentiments."

#### TO BE THE WORLD'S LARGEST.

Cedar Rapids, Ia., Oct. 18.—The American Cereal company is now engaged in improvements to the plant here that will cost half a million dollars and make the mills the largest in the world. It is announced the company also will erect flouring mills with a capacity of three thousand barrels of flour per day.

#### TO MEET AT DETROIT.

Washington, Oct. 18.—The nineteenth annual convention of the American Federation of Labor, according to a call issued today by the executive council, will be held at Detroit, beginning Monday, Dec. 11.

#### COADJUTOR INSTALLED.

Omaha, Oct. 18.—Rev. Arthur Llewellyn Williams was consecrated bishop coadjutor of the diocese of Nebraska today with impressive ceremonies.

The maiden's dream of love and happiness can be fully realized by taking Rocky Mountain Tea. Brings bright eyes, lovely color, health. The Stafford Drug company.

## ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

ments and mine in abstract, yet we are shocked by the bullets and bayonets which accompany them in concrete.

"The president says our flag stands in the Philippines for the same principles of government it typifies here. If that be so, we are at one with him. The flag stands here for self-government; does it stand for self-government there? Nobody would question the right of the president to hold the Philippines until a stable government be established. On the contrary, I think every one would aid him to fix a satisfactory test of their capacity to govern themselves and maintain order meantime."

#### LOUISIANA NOT A PRECEDENT.

"When we protest against the forcible seizure of territory as a violation of the Declaration of Independence, we are told that Jefferson violated it. This statement is not true, but if it were it would not answer the objection. Louisiana was purchased as an act of necessity, and the law of self-preservation justified it."

"We are here this evening to protest against an attempt to replace the ancient American policy of peace and morality by a policy of imperialism involving the existence of a standing army to menace liberty and oppress labor, because we want this country to remain a land where the whole product of the soil is distributed among the toilers who create it, where the patriotic workmen who produce are more honored than the paid fighting men who destroy, where the laborer's dinner pail is a higher badge of dignity than the soldier's knapsack, where the enduring glory of justice is cherished and the vain glory of conquest despised, and where the flag which typifies freedom and the constitution which secures justice, enshrined by hearts, sustained by arms and glorified by the memories of a free people, shall remain inviolable, indestructible, inseparable forever."

#### SAMOA NEGOTIATIONS ON.

PERMANENT SETTLEMENT EXPECTED IN SHORT TIME NOW.

Berlin, Oct. 18.—Ambassador White says that amicable negotiations are proceeding for the permanent settlement of the Samoan question.

#### YESTERDAY ON THE GRIDIRON.

Chicago, Oct. 18.—The football games played today resulted: Princeton, 12; Pennsylvania State college, 0; Pennsylvania, 17; Wesleyan, 6; University of Michigan, 12; Notre Dame, 0.

#### BROOKLYN TAKES ONE.

Philadelphia, Oct. 18.—The second game of the National league post series resulted: Runs.Hits.Errors. Brooklyn..... 5 14 3 Philadelphia..... 4 9 1 Batteries: Dunn, McKames and McGuire; Donohue and McFarland.

#### BEEF SUGAR CONVENTION.

Clear Lake, Ia., Oct. 18.—The sugar beet convention was called to order today by Professor Curtis Ames with an attendance of three hundred. Secretary Wilson, of the department of agriculture, at Washington, was chosen chairman. A paper was read by R. M. Allen of Ames, Neb., president of the National Beet Sugar association, and addresses made by Secretary Wilson; Professor Shaw, Minnesota Agricultural college; Professor Hayes, Minnesota Agricultural college; Professor Curtis Ames, Iowa; Senator Gear; C. F. Taylor, and Henry Wallace.

#### YALE'S NEW CHIEF TAKES HOLD.

New Haven, Conn., Oct. 18.—Arthur Twining Hadley, LL. D. was inaugurated president of Yale university today as the successor of the venerable Timothy Dwight, resigned.

Three thousand undergraduates and recent graduates, carrying torches, united tonight in a parade in honor of the new president. Transparencies symbolic of college life were carried at distances of every few feet. The celebration terminated with a huge bonfire near the campus on the old gymnasium lot.

#### TO BE THE WORLD'S LARGEST.

Cedar Rapids, Ia., Oct. 18.—The American Cereal company is now engaged in improvements to the plant here that will cost half a million dollars and make the mills the largest in the world. It is announced the company also will erect flouring mills with a capacity of three thousand barrels of flour per day.

#### TO MEET AT DETROIT.

Washington, Oct. 18.—The nineteenth annual convention of the American Federation of Labor, according to a call issued today by the executive council, will be held at Detroit, beginning Monday, Dec. 11.

#### COADJUTOR INSTALLED.

Omaha, Oct. 18.—Rev. Arthur Llewellyn Williams was consecrated bishop coadjutor of the diocese of Nebraska today with impressive ceremonies.

The maiden's dream of love and happiness can be fully realized by taking Rocky Mountain Tea. Brings bright eyes, lovely color, health. The Stafford Drug company.

### MCKINLEY VISITS HIS PLACE OF BIRTH.

Speaks at Niles, Ohio, Where He First Saw the Light Fifty-Six Years Ago.

CHEERED BY A THOUSAND FRIENDS OF HIS BOYHOOD DAYS.

BIG CROWDS GREET HIM AT CLEVELAND AND COLUMBUS.

Last Speech of His Tour of Some 6,000 Miles Made at the Latter City, When the Journey Back to Washington, via Pittsburg, Is Resumed.

#### FIRM ON HIS PHILIPPINE STAND.

Cleveland, Oct. 18.—President McKinley and party arrived here at 8:45 this morning and were taken for a drive through Gordon and Wade parks. Following this a short reception was held at the Hollenden Hotel, then a luncheon and reception at the Union club. The party left the city at 2:30 p. m.

#### AT HIS BOYHOOD HOME.

Niles, O., Oct. 18.—In this town McKinley first saw the light of day. A thousand of his boyhood friends were gathered at the railway station this afternoon to cheer him on his journey back to Washington. Only three cabinet members remained with the party, and they all appeared to bow in acknowledgement of the warm reception which awaited the party. The president, when the cheering had subsided, spoke in part as follows:

"It affords me extreme pleasure to be able, after so many years of absence, to come back to the old town in which I was born, and I need not tell you that many cherished memories crowd my mind as I stand in this presence. This town has had its ups and downs (A voice: "No downs since you went in"), and I am glad to know it is enjoying an upward rise this time, and that prosperity is in your shops and factories and happiness and contentment in your homes."

#### OVALATION AT WARREN.

Warren, O., Oct. 18.—The citizens of Trumbull county turned out in force this afternoon to welcome the presidential party. Carriages carried the president and his party to the speakers' stand in front of the court house, on three sides of which were massed spectators. The front ranks were public school children. Mr. McKinley was continuously cheered. He said, in part:

"It is with unfeigned pleasure that, after many years absence, I come back to meet my fellow citizens of the county of my birth and boyhood. This presence awakens many tender and sacred memories. I see but few of my old boyhood friends before me in this audience, but their sons have taken up the work which was inaugurated by their fathers. Great men were produced on this great Western Reserve, and their influence has been felt in every village and hamlet of this great land. There is one thing that can be said truthfully about the people of the Western Reserve—they all adhere to principles. They never were sidetracked by mere policy; but my time is limited, so I must bid you goodbye."

#### JAM AT YOUNGSTOWN.

Youngstown, Oct. 18.—President McKinley's train arrived here at 5 o'clock this evening, and the president delivered the last speech of his tour. It is estimated twenty thousand people were jammed into the narrow space surrounding the speakers' stand, and the president had great difficulty in making himself heard. As the president proceeded the crowd became quieter and enthusiastically cheered every word of his address. He said, in part:

"I must congratulate the community, devoted as it is to industry and manufacture, upon the improved conditions of the country the last two years and a half. Nothing in the whole journey of mine of more than five thousand miles into the great Northwest and through the Central and Western states, nothing has given me more genuine pleasure than the welcome I have had from Cleveland to Youngstown by the workmen employed in the mills and factories along the line. No cheers have been more encouraging or more helpful than the cheers given by the men as they came out of the mills and waved their shining dinner buckets, now full when once they were empty."

#### PROBLEM IN THE ORIENT.

"We have before us some grave problems of government—problems that command not only from the president but from all people steady and sober judgment; problems not to be settled by one party or section, but problems that are national and which the people must settle, following the plain path of duty. We are in the Philippines. Our flag is there. Our boys in blue are there. They are not there for conquest; they are there because in the providence of God that great archipelago has been placed in the hands of the American people. "When Dewey sunk the Spanish ships at Manila, it was not to capture the Philippines—it was to destroy the Spanish fleet. So we sent Dewey, and the islands came to us. It was no responsibility we sought, but it was a responsibility put upon us. Will the American people shrink? (Cries of "No"). Our flag is there (Applause and shouts of "It will stay there, too") representing liberty, humanity and civilization. There was no cloud on Dewey's victory, and there will be no doubt or hesitation in preserving it."

#### ATTENDS NEPHEW'S WEDDING.

Secretaries Long and Hitchcock also spoke briefly and then, having taken dinner abroad the train, the president, Mrs. McKinley and Miss Barber were driven to the residence of Dr. Deestrick in North Phelps street to attend the wedding of Miss Anna Viola Deestrick to William McKinley Duncan, son of Andrew K. Duncan and nephew of President McKinley. The parlor of the Deestrick home were tastefully decorated with orchids and smilax. The wedding ceremony was performed by Rev. S. R. Frazier.

#### ATTENDS NEPHEW'S WEDDING.

Secretaries Long and Hitchcock also spoke briefly and then, having taken dinner abroad the train, the president, Mrs. McKinley and Miss Barber were

#### ATTENDS NEPHEW'S WEDDING.

Secretaries Long and Hitchcock also spoke briefly and then, having taken dinner abroad the train, the president, Mrs. McKinley and Miss Barber were

driven to the residence of Dr. Deestrick in North Phelps street to attend the wedding of Miss Anna Viola Deestrick to William McKinley Duncan, son of Andrew K. Duncan and nephew of President McKinley. The parlor of the Deestrick home were tastefully decorated with orchids and smilax. The wedding ceremony was performed by Rev. S. R. Frazier.

At 9 o'clock the president and cabinet were driven to St. Columbia's Hall, where a public reception was given. The president greeted hundreds of his boyhood friends with a hearty handshake and a kind word. The reception lasted until 10 o'clock. At that hour the party returned to the train, which left immediately for Pittsburg over the Pennsylvania lines.

Pittsburg, Oct. 19.—The presidential train arrived here at 1:55 this (Thursday) morning. After a stop of twenty minutes it proceeded on the journey to Washington. The party were all asleep.

#### CROWDS GREET BRYAN.

HE FINISHES UP IN KENTUCKY AND CROSSES THE LINE TO HELP OUT McLEAN.

Louisville, Ky., Oct. 18.—Twenty thousand people greeted W. J. Bryan here this afternoon. The crowd was filled with enthusiasm and saluted with barbecued meat and burgoo.

A barbecue was the feature of the third day's program of the party, which has been stumping Kentucky in the interest of the regular Democratic nominees. After three hours of speech making the party resumed its journey, going to Covington, and after meeting there tonight the campaign in Ohio will be begun.

The Bryan party arrived at the speakers' stand at the race track shortly after 1 o'clock this afternoon. Bryan was cordially received and addressed the immense crowd in support of Blackburn for the United States senate and the Goebel state ticket. He said it was not a question between Goebel and any other Democrat, but between Goebel and the election of a Republican governor and other state officers.

#### ATTACKS THE WAR POLICY.

The Nebraskan attacked the Philippine policy of the administration. He cited McKinley's statement that the United States would hold the archipelago, and quoted the president as saying "I confidently believe congress will provide for these people a government that will bring them blessings and advance their material interests."

"Change that sentence but slightly," said Bryan. "Put 'parliament' instead of 'congress,' and 'colonists' instead of 'people,' and you have a declaration exactly in line with policy of King George when the American patriots were in revolution. Again put 'cortes,' instead of 'congress,' and 'Cubans,' instead of 'people,' and you have the announcement of the Spanish king in justification of his campaign of subjugation the time the United States interfered to free that desolated island near our coast. These things denote a departure from the principles contained in the Declaration of Independence."

Continuing Bryan said: "Now the gallant Boers in South Africa are shedding their life's blood for the right to govern themselves, and this nation stands with its hands tied, its throat gagged. If we appealed to England on behalf of the Boers, she would reply: 'What's the matter with the Filipinos?' I want this nation to be at peace with other nations of the world, but I would rather have the gratitude of these valiant Boers than the smiles of the English aristocracy."

#### TRUSTS WITH REPUBLICANS.

Shelbyville, Ky., Oct. 18.—An enormous crowd greeted Bryan's train on its arrival here. Bryan delivered an address in which he held Princeton in politics stronger than blood. He believed in ideas, that an idea was the best thing a young man could get in his head. He had caught an idea in traveling Iowa, when he observed the hogs had rings in their noses to prevent them from destroying man; that they were worth, from which he had reached the conclusion we should put rings into the noses of some of the governmental hogs. God created man; man created corporations—the former with a soul, the latter without. Hereafter there must be an accounting in the former creation and none in the latter.

"I say that in the last campaign the corporations contributed large sums of money to the campaign funds," said the speaker. "I was instrumental in having a law passed in our state making it a penal offense to contribute money to campaign funds, and such law ought to be similar in every state in the Union. Corporations purchase the right of immunity from Republican attorneys general candidate for governor, will be attached to the train in the morning."

#### FINISHES UP THE STATE.

Covington, Ky., Oct. 18.—When the train reached here an enormous crowd was assembled at the depot, and great enthusiasm was displayed. Bryan's address was largely a repetition of those delivered at various points throughout the state. Commencing last Monday and ending tonight, Bryan has traversed Kentucky from west to east, delivering six speeches at designated points each day, besides many platform speeches at unexpected points.

At the end of the speech here many people were badly crushed in the rush for the platform to shake hands. Bryan was escorted to Ohio with great crowds and blazing lights along the way, but declined to participate in public receptions and left for Dayton, where the private car of John R. McLean, Democrat. If you ask me why the Republican party does not destroy the trust, my answer is, 'Remember now thy creator' (Applause). The Republican party cannot destroy trusts because if it did it would destroy 'the hen that lays the golden eggs.'

## Do You Want Consumption?

We are sure you do not. Nobody wants it. But it comes to many thousands every year. It comes to those who have had coughs and colds until the throat is raw, and the lining membranes of the lungs are inflamed. Stop your cough when it first appears, and you remove the great danger of future trouble.

### Ayer's Cherry Pectoral

stops coughs of all kinds. It does so because it is a soothing and healing remedy of great power. This makes it the greatest preventive to consumption.

Put one of Ayer's Cherry Pectoral Plasters over your lungs

A whole Medical Library Free. For four cents in stamps to pay postage, we will send you sixteen medical books.

Medical Advice Free. We have the exclusive services of some of the most eminent physicians in the United States. Unusual opportunities and long experience enable us to fit them for giving you medical advice. Write freely all the particulars in your case. You will receive a prompt reply, without cost. Address: DR. J. C. AYER, Lowell, Mass.

## HEARING AGAIN ADJOURN.

### CORONER'S JURY IN THE CASHEN MURDER CASE WILL NOT RE-ASSEMBLE UNTIL OCTOBER 25.

The coroner's jury in the Cashen murder case was to hold a session yesterday afternoon to finish taking testimony in the case and to render its verdict. The absence of one of the jurors from the city necessitated a second postponement, and the jury will not meet until next Wednesday, when its work will be completed. In the light of the developments the sessions of the jury are not important and it will find its verdict speedily when it re-convenes next week.

The arrest of the two men who were concerned in the murder of Cashen continued to occupy the public mind yesterday. There was much discussion of the case but it was chiefly concerning the capture of the men and the detective work done by Case Downing and Sam Bennett in connection with the search for the fugitives. Case was busy receiving congratulations which would have been shared by Mr. Bennett had he been in the city. Mr. Downing is fully deserving of all the credit given him, as he is responsible more than any other man for the two arrests.

He started on the case the morning after the murder at the request of the Cashen boys. When he found blood leading to the terminus of the street railway track he thought the criminals might have used the cars to make good their escape, and he directed his investigations to the street car conductors, with the result that he ascertained that although no suspicious parties were on the car after the murder two drunken men rode on one shortly before it occurred, and got off down town. Case followed this clue and found a saloon where the men drank after leaving the car. He got a description of the caps they wore and found that they were identical with those found on the scene of the struggle.

He then suggested the surveillance of the Queen location. The developments of the search from that time on are public knowledge. It is a matter of considerable regret among people here that the two officers who effected the capture of the men will not receive a reward from the city. The special committee to which the matter was referred last Sunday night deemed that the capture of the second man would follow the arrest of Kallio in a short time and did not offer a reward. If the council had taken an action earlier in the week Mr. Bennett and Mr. Downing would receive a substantial testimonial to the value of their work. As it is they will have only profuse thanks and the knowledge of a duty well performed.

Lassenen's story of the killing was a topic of considerable discussion yesterday. In some quarters it is believed to be an accurate presentation of the facts, while there are many who think it was largely made up to fit the case in which he finds himself. It confirms the testimony taken at the inquest, which went to show that Cashen received the knife wound in the first struggle with his opponent, and it also shows that he must have walked the considerable distance to the spot where he was found after receiving his death wound.

As the two men waited examination, they will be held until the December term of the circuit court for trial. It is understood that Lassenen's plea will be that he used his knife in self-defense. There was great excitement on the main streets of the city Tuesday night over the report that the capture of the Ishpeming people. It was reported that a prominent citizen had been held up while riding in his carriage. Color was lent to the rumor by the fact that Marshal Westgren had taken a man into custody at the time when the carriage was said to have been stopped. The report was a fake in every respect. The carriage was not interfered with in any way. The story arose from the fact that the driver of the carriage had hurriedly driven into the city from the Cleveland shops to get Marshal Westgren to go out there to arrest a drunken man who was making a disturbance on Division street. The fellow was taken to the jail and the canard grew out of his arrest and caused considerable excitement for a time.

## WAS A CANARD.

There was great excitement on the main streets of the city Tuesday night over the report that the capture of the Ishpeming people. It was reported that a prominent citizen had been held up while riding in his carriage. Color was lent to the rumor by the fact that Marshal Westgren had taken a man into custody at the time when the carriage was said to have been stopped. The report was a fake in every respect. The carriage was not interfered with in any way. The story arose from the fact that the driver of the carriage had hurriedly driven into the city from the Cleveland shops to get Marshal Westgren to go out there to arrest a drunken man who was making a disturbance on Division street. The fellow was taken to the jail and the canard grew out of his arrest and caused considerable excitement for a time.

## TEAM PRACTICES NIGHTLY.

The football squad is out every night, rain or shine, practicing in preparation for the next important game, which will be played with the Escanaba team at that city on the 23rd of October. It is believed that this will be a hard game to win. Superintendent Ewing asserted after the Ironwood game last Saturday that his team would give the Ishpeming team a stiff fight for the victory. The Escanaba team is heavy and should be able to outkick the local boys, but it is probable that swiftness and science will again tell for the Ishpeming team. The coaches in charge of the Ishpeming organization are not, however, taking anything for granted and are working hard to improve the efficiency of the team work.

## WORKING NIGHT AND DAY

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated lobe of health that changes weakness into strength, listlessness into energy, brain-fog into mental power. They're wonderful in building up the health. Only 25c. per box. Sold by The Stafford Drug Company.

## RHEUMATISM CURED IN A DAY.

"Mystic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by Frank Penhill, druggist, Marquette. (10-10-14f)

It's a mistake to imagine that itching piles can't be cured; a mistake to suffer a day longer than you can help. Doan's Ointment brings instant relief and permanent cure. At any drug store, 50 cents.

## ISHPEMING IN BRIEF.

J. Vivian of Houghton was here yesterday.  
F. O. Clark was up from Marquette on law business yesterday.

Gad Smith of Marquette called on his Ishpeming friends yesterday.  
Yesterday turned out quite pleasant despite the unfavorable weather in the morning.

Miss Larue Outhwaite entertained a number of her friends at her home Tuesday evening.

Miss Edith Hosking left the city yesterday morning for Duluth, where she will visit for an extended period.

The country club held its regular meeting Tuesday. A number of the members took the trip to the club house.

Mrs. Eric Fallen of 618 Vine street passed away Tuesday, dying of consumption after an extended illness. The funeral will be held today.

Mrs. Duhaime, a resident of Ishpeming, is about to move to Champion, where she will live with her son, who is employed in the Champion mine.

Benjamin Neely was here yesterday afternoon to look after the interests of the Truan estate in a lawsuit which was heard in Justice Donahoe's court.

Dr. and Mrs. Jarvis entertained a number of their friends at a card party last evening. The gathering was quite large and a pleasant time was passed.

E. C. Cooley concluded a real estate deal for the Building & Loan association yesterday morning. He sold the dwelling property at 603 Lake street for a consideration of \$500 cash to John Hansen, who will occupy it.

Sheriff John Carlson was up from Marquette yesterday. He received many congratulations on the arrest of the murderers of Cashen by his subordinates, and freely confessed that quite a load had been lifted from his mind.

Rev. Atwell of Grace church is looking for a person acquainted with military tactics who would be willing to give some time to drilling a company which is to be formed among the boys belonging to the Knights of Temperance.

Special rates are offered on the D. S. S. & A. road for those who wish to attend Mrs. Sechlitz's concert at the Marquette Opera House tomorrow evening. The ladies of the Chancel society of the Grace church have tickets for sale. The attraction is standard.

"On the Suwanee River" will be produced at the Ishpeming Opera House this evening for a second time. It is one of the best things that will be seen here this season, as well as the last play that is booked for several weeks. The advance sale is heavy and the production will be witnessed by a large gathering.  
Miss Lizzie Glaw, the female professional bicycle racer who has been seen twice in this city, and who was seriously hurt in races at Zanesville, Ohio, a few weeks ago as a result of a bad fall, finally succumbed to her injuries. She was well known to local people and was one of the foremost women racers. This was to be her last season on the track, but she rode once too often.

John Green was up before Justice Hosking yesterday morning, charged with being drunk and disorderly, and was given the customary fine. Green is the fellow who assaulted the Italian at the corner of Pine and Division streets Tuesday noon. He abused his victim considerably before he was placed under arrest. It was considered a misfortune that he could not have been punished more severely.

Hans Johnson was up before Justice Hosking yesterday. He pleaded guilty to the charge of assaulting a member of his own family, for which misconduct he was arrested Tuesday night. His offense cost him in all \$25. He paid up and was let go. A number of drunks were up before the different justices yesterday morning. The city was quite disorderly Tuesday night and the jail held a bunch of offenders before morning.

## TO CURE LA GRIPPE IN TWO DAYS—Take Laxative Bromo-Quinine Tablets.

All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

The "Plow Boy Preacher," Rev. L. Kirkman, Belle Riva, Ill., says, "After suffering bronchial or lung trouble for ten years, I was cured by One Minute Cough Cure. It is all that is claimed for it and more." It cures coughs, colds, grippe and all throat and lung troubles. The Stafford Drug Co.

## BATHS, BATHS, BATHS.

## Upper Peninsula News.

The Menominee bowling clubs have just arranged for a fall and winter tournament. Six clubs will participate.

On Saturday evening last Hon. S. M. Stephenson and C. H. Jones gave a banquet in honor of Captain Charles Nelson of San Francisco, at the S. M. S. hotel, Menominee, and thirty gentlemen were present. Captain Nelson is the president of the San Francisco chamber of commerce and is making a short visit in Menominee with Mr. Jones.

Martin & Silliman's branch office of lumber inspecting and shipping at Grand Marais has been one of the busiest on the lakes this season. Manager E. H. Walker states that already 20,000,000 feet of lumber have been handled there this season by his firm alone, which is an increase of 7,000,000 over last year at the same date. Besides this, K. G. Boggs who is represented there by A. J. Ballentine, has increased his shipments this year over those of last season. At the present rate and outlook the lumber output for that port this year will reach well over the \$20,000,000 mark, which would be a large increase over the total output of 1898.

## BRAVE MEN FALL

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Indianapolis, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at the Stafford Drug Company's drug store. Every bottle guaranteed.

Smoke the "Challenge" cigar, 10 cents. It's the best for the money. Husted & Gessler, makers, represented by J. E. Tibor.

Beauty is Blood Deep. Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartics clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin today to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for ten cents. All druggists, satisfactory guarantee, 10c, 25c, 50c.

Consumption Cure—Warner's White Wine of Tar Syrup, the best cough remedy on earth, cures a cold in one day if taken in time. 25 and 50c.

# ROYAL Baking Powder

Absolutely Pure

# DYSPEPSIA

"For six years I was a victim of dyspepsia in its worst form. I could eat nothing but milk toast, and at times my stomach would not retain and digest even that. Last March I began taking CASCARETS and since then I have steadily improved, until I am as well as I ever was in my life."

# In and About Negaunee.

## GIVES GREAT SATISFACTION.

NEWS OF THE APPREHENSION OF THE MURDERER OF JAMES CASHEN AFFORDS PROFOUND RELIEF.

Tuesday there were many expressions of satisfaction about the city when the news reached here that the second man concerned in the Cashen murder was in custody. The prisoner was brought to Negaunee on the regular Northwestern passenger Tuesday morning but his coming was entirely unheralded, the officers having him in custody desiring to get him to Marquette with the least possible excitement. There was no crowd at the depot to see him come in, but the news that he was on the train obtained currency rapidly and many people went to the station to get a glimpse of the murderer before the Marquette train pulled out.

Negaunee people have felt that it would be a public calamity if the murderer should escape capture. His arrest within a week after the crime was committed will have the effect of making evil disposed persons hesitate before employing deadly weapons in their quarrels. It was feared that if the perpetrators of the Ishpeming murder escaped punishment a wave of petty disturbances and crime would sweep over the Twin cities. Since the decided revival in business both cities have been noisier than their wont and it is necessary for the police officials to draw a tight rein.

Deep interest was taken here in the search for the criminals on account of the suspects having been residents of Negaunee. In the effort to apprehend them Mr. Jennings of this city furnished information that was of great value to the police officers. The men are now safe in the Marquette jail and the knowledge that they are in custody has had a wholesome effect in quieting the excitement that has prevailed since the murder at Ishpeming was committed.

## EXPLORING NEAR CASCADE.

ANOTHER EFFORT WILL BE MADE TO LOCATE AN ORE BODY ON A TRACT OF MINERAL LAND THERE.

John Jones of Iron Mountain has spent considerable time about Negaunee and in the vicinity of Cascade the past two weeks preparing to start extensive explorations near Palmer. He will do considerable work near the Volunteer mine on the lands formerly explored by the Negaunee & Marquette Exploration company. That company did considerable work in an endeavor to locate a workable deposit of ore. Its efforts came to naught, however, and the company abandoned exploration after spending a large amount of money. Mr. Jones will give the same tracts some attention. His son, Bert Jones, will superintend the operations, which will be pushed energetically from now on. All possible progress will be made before winter sets in. The exploration is expected to result in the discovery of a body of medium grade ore. The report has become current here that a few days that Corrigan, McKinnon & Co. of Cleveland have come into possession of the Cascade properties. It is stated on pretty good authority that they have the controlling interest in the Star West mine. This property produces a low grade ore which is valuable when worked with the better grades. It is a surface mine and is worked during the summer months.

## HORRORS OF PHILIPPINE WAR.

Tales come to us of the sufferings endured by our brave soldiers in the Philippines. The papers ring with them and sympathy is freely given. And yet there are people in our midst of whom we hear nothing who are just as brave. They are suffering silently and fighting bravely with the greatest enemy of mankind—Dyspepsia and all its terrible ills. There is relief for them if they will take Hostetter's Stomach Bitter faithfully. It will cure dyspepsia, constipation, biliousness, malaria, fever and ague and liver and kidney troubles. It tones up the whole system. Get it from any druggist and see that a private revenue stamp covers the neck of the bottle.

## Lower Michigan News.

Frank Westbrook, who has been wanted for some time at Bay City for burglary, was arrested at Onas Monday and taken to Bay City to stand trial on the charge.

## FOR SALE—Two driving horses,

a phaeton, cutter, robes and other driving equipment. Apply Benjamin Neely, Sr., Negaunee. (5-12-1f)

## QUESTION ANSWERED—Yes, August Flower still has the largest sale of any medicine in the civilized world.

Your mothers and grandmothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and had with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Sample bottles at the Stafford Drug company.

## Eat plenty, Kodol Dyspepsia Cure will digest what you eat.

It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps, and all other results of imperfect digestion. Prepared by E. C. DeWitt & Co., Chicago. Stafford Drug Co.

## LOCAL LACONICS.

John T. Jones was up from Iron Mountain Monday.

Christ White's little daughter entertains a number of her little friends this afternoon.

Marion Fellow entertained a large number of her young friends at a birthday party at her home Monday night.

William Vodden, who was hurt in a street car accident a few months past, is just getting around. The after effects of his injury clung to him for many weeks.

Two or three days' work will see the roof of the new M. E. church sealed against the weather, after which the carpenters will be able to push their work steadily.

A number of Negaunee people are going to Ishpeming this evening to take in "On the Suwanee River," which will be produced by an able company at the opera house.

October is turning out to be about as unfavorable a month as September. It started out well and the first week's weather was delightful, but latterly there have been constant rains and the sun is in retirement most of the time.

The deal by which Finnegan & Murray were to obtain possession of Harris & Matthews' store has apparently fallen through. The prospective purchasers took an inventory of the stock but the details of the transfer were not concluded.

R. Hoch, wife and daughter spent Tuesday visiting their friends here. They were down from Duluth on their way to Marquette, where they attended the wedding of Arthur E. Boswell and their niece, Miss Flora Meeske, yesterday afternoon.

Ernest Auger's horse ran away Tuesday. It was standing in front of Winter & Suss's store when it took a wild leap across the walk and ran up towards Sharon's livery stable. It entered the stable and dashed through it, slightly damaging a couple of turnout.

The woods will be the resort of a large number of Negaunee men this winter. Employment is offered at numerous camps and as wages are better than they have been in past years many people will take up the work. Every day parties pull out of the city for the numerous camps.

The ladies of the M. E. church are soliciting about the city for fancy work, useful articles, food and money in preparation for a church fair which will be held at a future date for the purpose of raising money to be used in furnishing the new church. The ladies are working hard and expect to realize a big sum.

T. A. Wagner, general agent of the Detroit Building & Loan association, was here Tuesday. He is perfecting the organization of a branch of the association here. Yesterday he had two men at his proposition. The branch will be effected with Negaunee men and it is expected that it will flourish.

## State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY.

## Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1898. A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

## LOST—On Main street, between the Episcopal church and the Cliff office, six black feathers. Suitable reward to finder. Mrs. H. Mackenzie, Negaunee. (10-17-21)

## FOR SALE—Two driving horses,

a phaeton, cutter, robes and other driving equipment. Apply Benjamin Neely, Sr., Negaunee. (5-12-1f)

ask pay for overtime when a trip takes more than twelve hours. Both requests are regarded as reasonable and the management, it is expected, will grant them.

Seventy-five Italians were brought to Marshall from Toledo this week by the contractors who are putting in a sewerage system there. Work on the system was begun in July and it has been impossible to secure plenty of help here, although every effort has been made to do so, and preference given to local help. The work must be completed, according to the contract, by January 1 next.

Archie Brown, a well-to-do young farmer living at Sebena, was digging potatoes in a field near the highway. George Erdman drove along with a load of wood. In a spirit of fun, Brown threw a small potato at him. The potato struck him squarely in the right eye, crushing the eye ball. The doctor who attended him says there is great probability of his losing the sight of the other eye also.

Newton Newman of South Olive, Clinton county, accidentally shot and instantly killed his 16-year-old sister Lois Monday morning. Young Newman had returned from a hunting trip and his sister was sitting on a box watching him fix his gun. In some manner the gun was discharged, the entire charge entering the left breast of his sister, who was sitting only three feet away. She died almost instantly without uttering a word.

A wild steer escaped from the rack of a stock wagon at Monroe Monday and created quite a commotion on the streets, which were filled at the time with school children and others, Monday. Several persons were knocked down and trampled on in the rush to escape from the steer, which cavorted furiously through the crowd. The animal was finally cornered and was then knocked down with an axe and butchered on the spot to prevent it from doing further damage.

At a joint meeting of the state board of health and the board of corrections and charities held at Lansing Saturday an understanding was reached relative to the examination of plans for public buildings by the two boards. The board of corrections is required to certify that in its judgment the building called for by the plans can be constructed within the sum appropriated before any money can be drawn from the state treasury, and some architects have been securing this certificate before the health board examined the plans with special reference to the ventilating facilities provided. The result has been that changes ordered have not been made in some cases. It was agreed that hereafter the plans shall be first examined and approved by the health board.

Some weeks ago a young couple from Charlotte, Paul Barbite and his wife, went to Jackson and secured board at the home of Leander Gates. The young man was about nineteen years of age, his wife being about the same age. Barbite sought work, but failed to find it, and became despondent. Sunday night he shot himself in the head, inflicting a wound that caused his death the next morning at the city hospital, to which he was removed for treatment. Barbite was a graduate of the high school at Charlotte, had excellent habits and was a general favorite. Recently he took an examination to enter the navy, but failed to pass, and it is thought that he brooded over the affair together with other things that discouraged him, and this is supposed to have led to his suicidal act.

Victoria Fox, the proprietress of two fashionable boarding houses at Mt. Clemens, who recently created a small sensation by causing the arrest on a capias of a young business man of the place in a suit for \$15,000 damages for insulting language alleged to have been used by him while attempting to collect a bill, is again in trouble. This time she claims one of the frequenters of her Walnut street establishment betrayed her confidence by stealing her pocket-book, containing over \$800 in money and a certificate of deposit on the Mt. Clemens Savings bank for \$3,000. Wednesday last she drew \$850 from the bank, intending to use it in a trip south, but owing to serious indisposition was unable to leave. Last Saturday evening she requested Dr. J. M. Wells, a questionable character who drifted into Mt. Clemens last summer, to get her some medicine, and gave him a \$5 bill which she took from the roll of money in his presence. After returning he lingered around the room for some time, and shortly after he left she missed the money. Since that time Wells has not been seen in the city. Mrs. Fox is a young and rather handsome widow. She went to Mt. Clemens last spring from Marinette, Wis., and leased two boarding houses. She seemed to have plenty of money, and at once purchased the finest turnout in the city and proceeded to cut a wide and brilliant swath.

## MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on The Stafford Drug company, and get a free trial bottle. Regular size 50c. and \$1. Every bottle guaranteed, or price refunded.

## To Cure Consumption Forever.

Take Casscroft's Cherry Cathartic. 10c or 25c. If C. C. fail to cure, Druggists refund money.

## Too late to cure a cold after consump-

tion has fastened its deadly grip on the lungs. Take Dr. Wood's Norway Pine Syrup while yet there is time.

## The Best Cough Remedy on Earth.

Warner's White Wine of Tar Syrup, Consumption Cure, cures a cold in 24 hours if taken in time and does not stop a cough in one minute by paralyzing the throat, but it cures the disease and leaves the throat and lungs healthy and strong. 25c and 50c.

## ROYAL Baking Powder Absolutely Pure

Employees of the Ann Arbor railway held a meeting at Durand Sunday to consider grievances and formulate a demand on the company for the redress of these. No pay for overtime and too low a rate for regular work are what the men complain of. It was decided to ask for a general increase in mileage, firemen to get two cents per mile, instead of one and eight-tenths, as at present, and so on through the list. The men will

## Miss Z. Bergeron.

Dr. Coderre's Red Pills Made Her Happy, Healthy and Strong.

There is no sadder sight than a weak, pale, thin, lifeless girl. It is like a blasted bud that refuses to burst into full, luxuriant bloom. At no time in a woman's life is there so much need for good advice. Then it is that the foundation for the future health is laid. To start in loaded down with the burdens of female disease is too much for any one to bear. Girls should take Dr. Coderre's Red Pills for Pale and Weak Women. These will regulate the menses properly. They help the figure develop into that of a beautiful woman. They will stop leucorrhoea just as it is beginning to get a foothold. They will set matters right in the stomach and bowels, and thus insure a complexion that rivals the color of the peach. There will be brightness in the eyes and sprightliness in the step. A healthy girl will always be attractive.

She will have far more admirers than a girl weakened by disease. Take heed to these words. Read this testimonial. Miss Zephine Bergeron, of 19 Shannon St., Montreal, says: "I am 16 years old, and since the age of 11 I constantly suffered from weakness caused by impure blood. There was great pain at the menstrual period, and my back, sides and head ached. My face was covered with eruptions, my digestion was bad, and I had palpitation of the heart. I am very thankful for the cure which Dr. Coderre's Red Pills brought about. They removed every pain, and made my complexion as fair as any girl's. I am now well and happy."

Girls, as well as women, should write our French specialists for professional advice. No fee is charged. Send your name and address on a postal card and get a free copy of our famous doctor's "Pale and Weak Women." Dr. Coderre's Red Pills are widely imitated. Beware of all red pills sold by the dozen, the hundred or 25c. a box. They are worthless imitations. Get the genuine at all honest druggists. They have them—always 60 Red Pills in a box for 50c, or 6 boxes for \$2.50. Or you can send the price in stamps, or by registered letter, money order or express order to us. We mail them all over the world; no duty to pay.

Dr. Coderre's Red Pills, at 50c. a box, last longer than liquid medicines costing \$1. They are easier to take, more convenient to carry, and they cure. Address all letters to THE FRANCO-AMERICAN CHEMICAL CO., Medical Department, Montreal, Canada.

## The very choicest paper hangings of the swelles

New York shapes may be seen here at prices less than you'd pay if you sent to the city for them. The best workmen to hang them. La Combe Bros., Painters and Paper Hangers, 117 Iron St.

### GEORGE BALL AT CALUMPT

Former Marquette Boy to W  
tain of Regulars in the  
Far Philippines.

#### SERIES OF LETTERS WRITTEN ON HIS VOYAGE ACROSS THE OCEAN.

Officer Life on Board a Transport—Passing a  
Volcanic Peak in the Ladrone Group  
—Co rzdior Looks Like  
Presage Isle.

#### MARQUETTE'S COMMISSIONED OFFICER.

Within the past few days Mrs. D. H. Ball has received from her son George, who is now a captain in the United States regular army in the Philippines, two letters, the first of which is made up of a series of letters written while he was on the transport making the long journey from San Francisco to Manila. In the second letter he gives a good description of the harbor of Manila, likening the island of Corregidor to Presage Isle. At the time the last division of the second letter was written, Sept. 10, he had just learned that the officers were to disembark on the following day and proceed inland to join their regiments. He was at Calumpit, ten or fifteen miles out from Manila. As the first of these letters describes a phase of soldier life with which readers of The Mining Journal have not been made acquainted before it is herewith produced as follows:

"Pacific Ocean, Aug. 13, 1899,  
Lat. 21, 08' N., Long. 165,  
48' W.

"Dear Mother—We left Honolulu about 6 o'clock Friday evening, and we are once more on the broad Pacific.

Yesterday we sat on deck all day long and until late in the evening. The moon was up and it was perfectly beautiful on the water. This morning we had a short service on deck. We got some hymnals in Honolulu.

"I have been getting some compliments on my company. It is the only one that hasn't complaints to make. All of the rest have been complaining and causing no end of trouble. The colonel asked me this morning if I had received any complaints from any of my men and when I told him that my men had not complained since we were in running order he seemed quite pleased. I have had several good long talks with Colonel Hood. He is very interesting to talk to, and has a large fund of personal experiences that are funny and instructive.

"It has been quite warm since we left Honolulu and today we are all wearing our white duck suits. I shall have my picture taken in my white duck suit and send it to you.

"I can't make myself believe that I am so far away. It seems incredible. However, I am expecting now to eat Christmas dinner with you one year from next Christmas. I may not, but I shall make my plans for it anyway.

"All of the rest of the people are dozing or writing. It is a sleepy kind of a day, and I feel sleepy myself. I am going to write a little on this letter each day until we reach Manila. Some days there won't be much to write about, though.

"Aug. 16, 1899, Lat. 21, 05', N.  
Long. 179, 39', W.

"We have almost reached the 180th meridian. At 2:15 this afternoon we expect to reach it and tomorrow we drop a day.

"There is very little to write about. Our mornings are pretty well taken up with our company inspections and general police work, and in the afternoon we sit on deck under the awning and read or talk, or just sit and gaze at the sea.

"Tonight we will have a concert on deck. Each one of the six companies has organized a quartet, and we have offered a prize to the best one. One can hear them practicing all over the ship.

"We have been having the most glorious moonlight nights I ever saw. We are in the rain belt now and every afternoon it rains for an hour or so, and in the evening it clears off and we have a full moon. A cool breeze springs up too and makes it delightful after the heat of the day. During the day time we sit on deck and svelte or spend a good deal of that time in the bath tub.

"We have been running very slowly yesterday and today. Our run yesterday was only 243 miles as against 257, 259, etc., on previous days.

"We will pass a little island in a day or two with an active volcano on it. The captain said that we would pass near enough to take pictures of it with our cameras.

"Aug. 18, 1899, Lat. 21, N.  
Long. 175, 44', E.

"We have dropped the 17th of August from our calendar and are now in east longitude.

"We had the concert last night and it was a diversion.

"We have a very pleasant breeze today so that the heat is not so noticeable. The day started out this morning warm and muggy, but it did not last very long.

"I am more energetic today than I have been for some time. I have been practicing on my mandolin, drawing up some papers, and writing to you. I am afraid I shall overdo if I am not careful. That doesn't seem like much exertion, but if you knew how much it makes one perspire to move around any you would readily understand. You can just imagine me seated on deck writing this letter with the perspiration pouring down my face. It doesn't seem to weaken one to perspire so here. I am in perfect health and strength in spite of it.

"Aug. 27, 1899, Lat. 20, N.  
Long. 135, 25', E.

"There has been almost nothing to write about since I wrote last until last Friday when we passed the volcano. The island is a mere rock of volcanic origin, rising 1,000 feet straight from the ocean. It is like a perfect cone with the crater on the north side. This island is called Farallon de Pajaros. It lies in Longitude 144, 50 E and Lat. 20, 40 N. We passed on the south side about a quarter of a mile away. The captain said that at that distance soundings had been made to 240 fathoms without reaching the bottom. There isn't a particle of vegetable life on it, and its only inhabitants are birds, of which we saw a great many. Just as we arrived opposite the island a severe rainstorm struck us, but we all stayed on deck in spite of the wetting

that we got, for it was the first land we had seen for two weeks. I took a picture of it, but I am afraid it will not be very good.

"We sighted the island at about 5 in the morning and very soon afterwards we were all on deck. I took the picture at 7 just before the rain struck us and then I got one more during a lull in the storm, after we had gotten a short distance beyond. The volcano is an active one, and as we drew near we could see the dense white smoke pouring out of the crater. It was a peculiar sight to us who had never seen anything of the kind before.

"To the south of us, as we were passing this island, we could see two other islands. These are all parts of the Ladrone group, of which the Farallon de Pajaros is the northernmost.

"We expect to sight the northern end of the island of Luzon on Wednesday afternoon or Thursday morning, and on Friday we expect to steam into the harbor of Manila.

"On Wednesday evening we have a farewell dinner, because the rest of the time after that will be taken up with our preparations for disembarkation. For thirty days this has been our home and our world. With the exception of the two days at Honolulu we have been removed from the great busy world as entirely as if we had never been a part of it. We have been a very jolly party and have had no trouble of any kind. The men have been very happy and they seem to be enjoying their trip. It will be a relief to get on shore again, but I shall be sorry when the trip is ended. This jolly party will be scattered all over and will probably never get together again as a body.

"We are getting a new motion on our boat. Until yesterday we were running in the trough of the seas, but our course was changed slightly and now we go right into the seas. This new motion has made some sick, but they are becoming accustomed to it now.

"The heat has bothered me some. This tropical sun beats down terribly. In the morning the heat on deck comes right through the awning and were it not for the breeze we would suffer. As it is, we think we shall appreciate cold weather when we are so fortunate as to experience it again. I think a nice cool breeze from Lake Superior would be about the finest gift you could give me just now.

"Day before yesterday we had fire drill on board. The men behaved splendidly, and there was no excitement or friction anywhere. It was a pleasant little diversion, too. I was officer of the day at the time, and the others are still laughing at the picture I presented as I dashed around the boat giving orders and posting guards. My sword became unstrung and was swinging wildly, and Cramer, the adjutant, said that the reason the men went to their quarters so quickly was because they wanted to get out of the way of my sword.

"We are going to have a little practice in drill on 'Man Overboard,' several of us have volunteered to jump over for the sake of the drill, and we will probably have some fun out of it. There is no possible danger, and we would all enjoy a dip in the ocean.

"Aug. 30, 1899.  
"Tonight we expect to sight the northern end of Luzon, and by Friday evening we expect to be in the bay of Manila.

"There has been very little going on since I wrote last. The only excitement occurred day before yesterday when we saw two waterpots near the ship. Fortunately the wind carried them away from us about a mile or so.

"We have only one very sick man on board. He is from my company. He has a very severe attack of typhoid fever, and we did not expect him to live through last night, but he rallied and seems to be much better today. With the exception of one or two cases of mumps and measles, that is all of the sickness we have had since we started.

"I am beginning to get a little impatient. I want to get on land again. Thirty days on the water is long enough for me."

#### WANT A KINDERGARTEN.

Ladies Petition School Board to Incorporate It In School System.

When the school board holds its next meeting it will find a petition before it requesting it to adopt the kindergarten and establish it as part of the school system. This petition is signed by twenty-seven representative ladies of the city. There have been several private kindergartens here which have been accorded fair patronage but no previous efforts have been made to have the kindergarten made part of the public schools. If the petition is acted upon with favor it will be an innovation for Marquette, but by no means the same generally speaking. Kindergartens have been made part of the public school systems in many places and generally with success. The adoption of the kindergarten is favored by a larger number of people here, particularly ladies, than those whose names appear upon the petition. The project is said also to be favored by Miss Chandler.

#### NEW OFFICERS.

Oasis No. 2 of the O. S. B. Elects and Installs Them.

Following is the list of new officers recently elected by Oasis No. 2, O. S. B., and installed by the lodge at its last meeting by Lady Legate E. E. Coventry: Commander—Lady Boone. Vice Commander—Lady E. E. Coventry. Scribe—Lady McLean. Accountant—Lady S. M. E. Coventry. Chaplain—Lady Coventry. Marshal—Sir Cameron. Trustee—Lady Brooks.

#### THAT JOYFUL FEELING

With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of Figs, is unknown to the few who have not progressed beyond the old-time medicines and the cheap substitutes sometimes offered but never accepted by the well-informed. Buy the genuine. Manufactured by the California Fig Syrup Co.

HIGH ART TAXIDERMISTRY. Correct and life-like attitude. Deer heads a specialty. Guaranteed moth proof. M. M. Stierle, 301 South Front street. (10-17-10)

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 25c. If C. C. C. fail, druggists refund money.

### FURNACE GOES IN BLAST.

Carp River Furnace, Idle for a Period of Eight Years, Once More Becomes Active.

SCHAFFER & GREY NOW THE DIRECTORS OF ITS DESTINIES.

Product Will Be Fifty Tons a Day of High Grade Charcoal Iron Which Will Be Marketed Under the Old Name of Excelsior.

#### VALUABLE INDUSTRY TO THE CITY.

After eight years of idleness the Carp River furnace went in blast yesterday afternoon.

Late in the spring the property passed into the hands of Schaffer & Grey, partners in the firm which has again placed the furnace in the ranks of the active producers. Mr. Schaffer, while a resident of Marquette, has for a number of years operated the Excelsior furnace in Ishpeming, which he was compelled to shut down at the end of last season for lack of water. Mr. Grey is a gentleman well known in iron manufacturing circles and for a number of years had the control and management of the furnace at Ashland, Wis.

#### GETTING READY SINCE JUNE.

They took hold of the Carp River furnace last June, since which time they have had a force of men busily engaged in cleaning up the property and remodeling it to bring it in line with up to date furnaces with which it must compete. This was quite a task and it is only by hard work since that time they have brought the furnace to a point where it can begin active operations.

The cupola was filled with ore Tuesday, and yesterday afternoon the fires were started. Mrs. Schaffer having the honor of igniting them. There was some talk that the new furnace would use ores from the Marquette range, but the management was unable to secure ore of the grade needed here from the up-the-road mines, all the regular producers being under contract so they are bringing their ore from the Gogebic.

#### OUTPUT FIFTY TONS A DAY.

The capacity of the furnace will be fifty tons of pig iron per day. Its product will be high grade charcoal iron of the same quality as was manufactured by Mr. Schaffer at Ishpeming. Being familiar to the trade under the name of Excelsior iron it will continue to be sold as such.

The re-opening of this furnace means quite a good deal to Marquette from a business point of view. It will be a summer and winter industry and from the very outset will give employment to fifty men at good wages. Should the present managers or other capitalists please associate industries with it a much larger force of men will be required and the benefit to the community will be correspondingly greater. Even as it is it constitutes an industry of considerable importance and one which every citizen will hope to see meet with continued success.

#### BROKERS' LETTERS.

Dealers on the Boards Give Their Views of Copper and Wheat.

The tone of the copper market was no better yesterday than the day before. Paine, Webber & Co. gave expression to their opinion in the following letter: "Boston, Oct. 13.—The difficulty in borrowing on coppers again caused some further liquidation. There were few stocks pressing for sale and the only ones selling are those that are obliged to. It is hard to tell how much further the liquidation will go. Buying orders are scarce. The New York market is strong and for the moment offers the best chance for speculation. The Boston Herald this morning is very bearish on copper metal. It says electrolytic copper has taken the market to itself at home and abroad for several weeks at 17 cents. Lake people must meet electrolytic producers and in the race for prices there is no telling where it will end. This they say is trouble with the copper share market. We look for lower prices today on the liquidation the article is sure to cause. Sales of active coppers Tuesday: Adventure, 220; Allouez, 550; Arcadian, 4,700; Anaconda, 440; Ashed, 450; Atlantic, 170; Baltic, 375; Bingham, 350; Bonanza, 1,900; Butte & Boston, 350; Calumet & Hecla, 15; Centennial, 1,900; Cochit, 1,400; Copper Range, 300; Franklin, 155; Mase, 200; Messtower, 100; Michigan, 455; Old Colony, 225; Oceola, 162; Parrot, 425; Pioneer, 10; Quincy, 107; Rhode Island, 100; Santa Fe, 1,700; Tamarak, 150; Trimountain, 750; United States Mining, 470; Utah, 1,100; Victoria, 170; Washington, 1,700; Wolverine, 251; Wyandot, 55."

Wheat took a slight turn for the better yesterday on the strength of a stronger demand on the other side of the ocean. A. R. Jones & Co. in their yesterday letter to Fred Jones spoke as follows:

"Chicago, Oct. 13.—Wheat—The unexpected strength of Liverpool markets gave this market quite a different tone today, opening it one-quarter higher and encouraging holders very materially. Low grades of cash wheat were a little firmer and not much for sale. This also stimulated the bulls somewhat, but on the whole there was nothing of importance either in the news or aside from the attitude of Liverpool to influence either very materially, certainly not enough to start investment buying. Traders generally seemed inclined to sell wheat on the theory that a further break on forced liquidation would be a matter of course but the better tone abroad induced covering to the firmness was chiefly due. The little commission house buying was apparently on the theory that the decline was about exhausted and that a rally is the natural course. Freights show a declining tendency and shipping demand while slow enough today is in decidedly better shape. May was relatively strong. New buying is mostly for that month and comparatively little demand for the December. The general situation appears stronger than yesterday but the small volume of trade somewhat against any great advance just now."

If you want to be a handsome, rolling girl with rosy cheeks, laughing eyes, lips like Cupid's bow, take Rocky Mountain Tea. The Stafford Drug company.

### SYRUP OF FIGS

ACTS GENTLY ON THE  
KIDNEYS, LIVER  
AND BOWELS
