PRISONERS OF BOERS.

Many Hussars and Fusiliers Cut Off and Captured.

YULE'S FLIGHT WAS HASTY

British Found to Have Suffered Heavily in Recent Battles and News is Withheld.

APPREHENSION IN LONDON.

London, Oct. 25.—The war office returns tonight show that the total British casualties since the beginning of hostilities are 597. Eighteen officers were killed and fifty-five wounded, while of the men seventy-six were killed and 435 wounded and thirteen are unaccounted for. This total, however, does not include the squadron of the Eighteenth Hussars which went astray near Dundee, and the officers of the Dublin fusiliers.

London, Oct. 26.—An ominous veil is still drawn over the movements of General Sir George Stewart White and General Yule. Beyond belated Ladysmith dispatches concerning the Elandslaagte fight, the public is left in complete darkness in conjecture over the "cooked" war office dispatches.

MAY HAVE BEEN A ROUT.

Since it is practically certain that Yule has now effected a junction with White, and as both are now in a position of safety, the conjecture concerns itself chiefly with the manner of Yule's retreat. That it was hasty is evident. Since the receipt of General White's curious first description of the Ladysmith fight, in which the British lost a hundred men, little reliance can be placed on the official dispatches. While the concealment of the facts regarding Yule's retreat can be amply justified, on the ground of keeping intelligence from the Boers, the hiding of the news respecting the hussars and fusiliers apparently captured in the battle of Glencoe, is severely criticised, no intimation having been given that the officers were missing.

DUTCH STILL CAN SHOOT.

The heavy losses of the British troops in facing only some eight thousand Boers is commented upon as what a rifle means today in the hands of even undisciplined men who can shoot fairly straight and stand their ground. It is considered that the American losses at El Caney and San Juan have been much heavier if the Spaniards had doggedly stood their ground like the Boers. General Buller is expected to arrive at the Cape early next week. The indications are some troops have already arrived at the front and have been in the fighting whose arrival has not yet been announced. There is every probability that reinforcements are now moving up. This is calculated to hasten Joubert's attack on Ladysmith, and news of a big battle is being daily expected.

SYMONS A PRISONER.

About half the complete army corps is now about the Dutch that has occurred in the despatching of the remainder of Buller's forces is owing to the difficulty in obtaining transports. Although news has arrived that General Symons is doing well, there is no indication as to his whereabouts. It is presumed he is at Dundee, in the hands of the Boers. Speaking at Dublin to the departing troops yesterday [Wednesday] General Lord Roberts of Kandahar said that however important the previous campaigns in South Africa had appeared at the time, they had dwindled into insignificance when compared with the great event in which the British troops were about to engage.

PRESIDENT STEYN BRIBED.

A Times dispatch from Naauwpoort, Cape Colony, says: "It is rumored among the Dutch that President Steyn received £50,000 for inducing the Orange Free State to join the Transvaal."

BRITISH FORCES UNITED.

NEWS FROM THE SEAT OF WAR IN NATAL AS GIVEN OUT BY THE GOVERNMENT.

London, Oct. 25.—General White telegraphs from Rietfontein, under date of the 24th, that in the fight near Ladysmith yesterday thirteen British were killed and ninety-three wounded, while ten are missing. The casualties were mostly among the Gloucester regiment. Colonel Wilford, of the Gloucesters, was the only officer killed, but six officers were wounded. A Ladysmith special dispatch, dated the 23rd, says that "the troops of the Eighteenth hussars which got astray in pursuing the Boers after the battle of Glencoe have arrived at Ladysmith, having fought their way through." YULE PROBABLY WITH WHITE. General White telegraphed from Ladysmith at 4 o'clock this afternoon that he had advised from his column sent out to meet General Yule's retreating column, that the two bodies were within three miles of each other at noon, and that he

had no further anxiety as to the results. The Daily Telegraph's Ladysmith correspondent, cabling Monday, says: "Thirty of the Eighteenth hussars who were sent from Glencoe to intercept the retreat of the Boers from Elandslaagte were cut off by the enemy. Under Sergeant Baldey they bravely fought their way across Biggarsberg, the enemy pursuing and firing at them along the passes. They arrived here this morning. Three of the troop are missing, owing to the breakdown of their horses." This dispatch is but explanatory of the report, given above, of some of the surviving hussars cutting their way through.

BAD NEWS REPORTED.

The war office this evening issued the following:

There is nothing to add to General White's description today's engagement. We learn from unofficial sources that the following officers, whose absence was not previously notified to us, are prisoners in the enemy's hands: Eighteenth hussars—Lieutenant Col. Moller, Major Greenville and Captain Paddock. Dublin fusiliers—Captain Lonsdale, and Lieutenants Majendie and Shore. It is presumed the whole squadron of the Eighteenth hussars under command of the officers named were also made prisoners.

ANOTHER SKIRMISH.

London, Oct. 25.—A Cape Town special dispatch, dated 9 o'clock this morning says: There has been another battle at Ladysmith. The Boers were repulsed. The British casualties were four killed and seven wounded.

PROTEST TO THE KAISER.

HAMBURG CITIZENS WOULD TAKE HAND IN THE WAR.

Berlin, Oct. 25.—At a meeting last evening of three thousand members of the Pan-German and Anti-Semitic league of Hamburg, called to protest against the Transvaal war, a dispatch was sent Emperor William full of solemn patriotic effusions and urging him to intercede in behalf of the Boers and to postpone his journey to England.

CANADIANS MOBILIZING.

TROOPS LEAVE FOR QUEBEC ENROUTE TO SOUTH AFRICA.

Toronto, Oct. 25.—The members of the Toronto contingent for the Transvaal, 125 strong, reinforced by a like number from the London district, left today for Quebec. They expect to sail Tuesday. Halifax, Oct. 25.—The Nova Scotia, New Brunswick and Prince Edward island companies of the Canadian regiment of volunteers for the Transvaal, joined forces at Moncton today and proceeded to Quebec to embark on the transport Sardinia.

NOTED BOERS IN CAPTIVITY.

SEVERAL OFFICERS, BESIDES GEN. KOCK, AT LADYSMITH.

London, Oct. 26.—A Pietermaritzburg [Natal] dispatch of the 23rd, just received, says: "Among the Boer prisoners at Ladysmith are Dewitt Hamer, member of the raid for Barberton, and Dr. Van Loggels, public prosecutor for Heidelberg. Among the killed is De Jong, secretary of the Transvaal education department. It is expected that General Kock, the Boer commandant, will recover. The heavy losses among the Kings Royal Rifles of Dundee seem to have been due to the black belts worn over the khaki, which afforded excellent targets."

CHAMBERLAIN DEFENDS THE WAR.

NOTICE BY DAVITT HE WILL RESIGN AND A CHALLENGE TO A DUEL ALSO FEATURES OF THE DAY IN COMMONS.

London, Oct. 25.—Michael Davitt, Irish Nationalist, announced in the house of commons today that he would resign tomorrow as a protest against the Boer war. Apart from the diversion created by Davitt, there was a lively scene in the house between Gavin Clark, radical member for Caithness, Scotland, and ex-agent in the Transvaal, and Major Rash, Conservative member for the Southeast division of Essex. Clark denied Roach's statement that he (Clark) was in the Boer camp at the time of the fight on Majuba hill and characterized the assertion as a "sample of the misrepresentation now prevailing." Major Rash retorted that his statement was made on the authority of Clark himself, who had himself told him six years ago, adding that if Clark again denied the major would repeat the statement if he were outside of parliament, when he could take what steps he liked.

COLONIAL CHIEF SPEAKS.

Sir William Vernon Harcourt, the former Liberal leader of the house, said he desired to again call attention to the provocation of the secretary of state for the colonies, Joseph Chamberlain, during the negotiations and in his speech at Highbury. Secretary Chamberlain replied, repudiating any intention to be provocative and saying he only intended to be plain and free from ambiguity. He had followed in the negotiations the principles observed by all statesmen during the past ten or twenty years. The people were entitled, he said, to demand a clear expression of views, and there was never the slightest justification for the statement that Kruger had been in doubt. The secretary added: "It was necessary to impress upon President Kruger the seriousness of the step he was called upon to take and the consequences which would follow any mistake on his part. It was not desirable to introduce in the official dispatch collateral

TO BLOCK CONTINENT.

Powerful English Squadron Sails for the Mediterranean Sea.

OMINOUS PRECAUTIONS.

Belief in London the Empire is to Face an Even Greater Crisis Than That in Africa.

RUSSIA-FRANCO ACTIVITY.

London, Oct. 25.—The belief that Great Britain is on the verge of a crisis, or even a conflict, far greater than that in the Transvaal, has many supporters, though the lack of all official information favors a conservative view. The remarkable military and naval activity is due to a desire to take thorough precautions which, though ominous, have at present no special bearing on the European relations. The Neueste Wiener Tageblatt of Vienna publishes a telegram from the Transvaal legation at Brussels announcing that Dr. Leyds has received formal assurances that France and Russia will not permit Great Britain to annex the Transvaal or Orange Free State. This is discredited, however, as it is pointed out that, even if this were the intention of the powers mentioned, they would not allow their hands to be shown prematurely through Dr. Leyds.

PRECAUTIONS AT GIBRALTAR.

New and stringent orders have been promulgated with reference to the defenses of Gibraltar. The privilege Englishmen have had of entering the gate without a pass is temporarily suspended. Nobody is allowed to enter or inspect the batteries. Even the famous St. Michael's cave is closed, because it is required for storage of arms and munition. For months sappers and miners have been engaged in constructing new and powerful batteries, and it is believed the garrison will be augmented. The Times, commenting on a rumor of European intervention, scouts the idea, saying: "No power will lift a finger. The alarming combinations built up our naval movements have no existence save in overheated imaginations."

CHANNEL FLEET SAILS.

Queenstown, Oct. 25.—The cruisers Furious, Pelorus and Pactolus sailed this afternoon for Cape Clear to meet eight battleships and two cruisers of the channel squadron, and all then proceeded for Gibraltar. London, Oct. 25.—The ordered consolidation of the English channel squadron with the Mediterranean squadron at Gibraltar is taken in some quarters to indicate that Great Britain is preparing for possible interference with her plans in South Africa on the part of France, aided by Russia. The last time a similar contingency was provided for was in October, 1898, when the Fashoda incident was as yet an unsettled question. At that time, as at the present, the English channel squadron was ordered to rendezvous at Gibraltar, with the idea of preventing the consolidation of the French Mediterranean squadron with the channel squadron of the republic. In the English channel fleet are fourteen first class fighting ships, in addition to a large number of torpedo craft. The French fleet in the channel, on the other hand, consists of the older and consequently less formidable battleships and cruisers of the navy. The Russian fleet in the Black sea, which it is feared may pass the Dardanelles by force and join the French Mediterranean squadron, consists of eighteen first-class battleships and cruisers and twenty-five torpedo boats.

FRENCH FLEET GETS ORDERS.

London, Oct. 26.—A dispatch from the continent to The Mail says the French fleet has received instructions to watch the movements of the British Mediterranean squadron, while the Italian fleet is under orders to concentrate in the bay of Spezia.

HOSTILITY OF FRANCE.

DECLARED TO BE LARGELY ON THE SURFACE AND THAT PARIS WAITS TO CHOOSE SIDES.

New York, Oct. 25.—The special correspondent of The Times, telegraphing from Paris, says: There is intense uncertainty here as to the real state of affairs in the Transvaal, and until the French know on which side the cat will jump their opinion is not frankly expressed, and it is therefore difficult to gauge. All their newspapers are outwardly hostile to England. But editors of the chief organs privately admit that they are with the English at bottom, though the tradition of the French press prevents them from saying so. The views entertained by M. Delcasse, the minister for foreign affairs, are precisely the same, and it is all nonsense to declare, as some of the Paris papers are doing, that France and Russia propose to intervene in Africa and help the Boers.

EYES ON THE KAISER.

France is watching with intense interest the attitude of the German emperor with regard to the war. For some years very successive French cabinets have been hypnotized by the jerky and spasmodic movements of this young potentate.

Copper Country Department

BIG CARD FOR CAPT. HARROW. OFF TO IRONWOOD LAST NIGHT. STEAMER HARLEM SUCCESSFULLY ARRIVES AT THE CANAL ON THE FIRST STAGE OF HER VOYAGE TO DETROIT.

The big steamer Harlem, released from the rocks on Isle Royale island, yesterday morning at 11 o'clock left the place where she was recently beached in Siscoit bay after being pulled off the reef, and towed by the tug Merrick, arrived at the watch house, at the entrance of the canal, about quarter to six last evening. The outfit tied up in the Lilly pond for the night and will come down through this morning. This first day's was the longest run the Harlem will have on her way down to Detroit.

The Harlem, with a partial cargo of miscellaneous freight on board, struck the reef about one and one-half miles south of Menagerie Island light, Isle Royale, on Nov. 26, 1898. Wrecking outfits were at once sent to her relief from both ends of the lake, the big wrecker Swayne coming up from the "Soo," while Inman sent down an expedition from Duluth. Pumps were put on board, but it was found impossible to lower the water in the steamer and on Dec. 1 the wrecking outfit left her and she was formally abandoned to the insurance companies, who paid their loss upon her—\$225,000—in full.

Last spring the insurance companies advertised for bids, and on June 15 sold her as she lay to Thompson & Boynton of Port Huron, whose bid was the highest—\$30,000—the next bid being \$27,000. On June 29 Thompson & Boynton's first expedition, the tug Merrick with the usual wrecking outfit, passed through Portage en route to the stranded steamer in charge of Captain W. Harrow, who arrived at the scene on the 30th.

Arriving at the Harlem it was found that the winter storms and ice had forced her about eighty feet over the reef, her mainmast was gone, her deck houses on the starboard, or lake, side had been washed or carried away by the seas and ice; the main deck was raised between No. 2 and No. 3 hatches about a foot and a half for twenty-five feet, and a crack had opened in the top plates on both sides just forward of the stacks. This was patched and more pumps were sent her. As they lowered the water and lightened the steamer the holes discovered were plugged, and so working away all summer the steamer was finally tightened so that on Aug. 29 she was lifted and carried over half a mile from her first position, when some of the pumps began to give out—through the carelessness of the men who were feeling them "dope"—and Captain Harrow found it necessary to shove her back on the reef again, about a mile from where she first struck, to keep her from going down in deep water.

The steamer looked as if she were sailing along past the rocks in all her former pride to one approaching her from a distance, and Captain Harrow was more determined than ever to get her into safe water in Siscoit bay. He sent for larger pumps and refitted his old ones, and was ready for work when the delayed Baker outfit reached the scene. Of the Baker pumps only three could be gotten in shape to run, but finally a calm day came and the water was hurriedly pumped out, and this time the Harlem rode the lake until she was allowed to settle on the soft bottom of the innermost inlet of Siscoit bay, safe from every wind that blew. Then the Baker outfit was sent below again with the Snook, and no sooner had he reached Detroit than Baker began to tell how he and his pumps—which threw a stream hardly equal to one of the big fellows placed on board by Thompson & Boynton—had "saved" the Harlem, as witness the following from the Detroit News of Oct. 19:

"Captain Baker is back with his wrecking tug Snook from Isle Royale, where he helped raise the steamer Harlem. He tells how it was done: "We put thirty men at work cutting hay on the island and dried it over the boilers of the Snook. Then it and a big hauler were chopped up quite finely and divers took bags of it down under the Harlem, crawling in the crevices of rock under the boat, and pushed it through the holes in the main bottom. All the time the pumps were going, and the hay and chopped rope was sucked up through the holes in the water bottom and soon stopped them up. Then 100 hoses were cut out from big trees and fastened between the deck and the water bottom to keep it from being forced up by the great pressure of the water.

"On the 27th of September the boat was raised, taken in tow by a tug and headed for Little Siscoit bay, fourteen miles away. One by one all of the twelve pumps aboard gave out till only three, the ones I brought up, were left working, and I tell you the suspense while we were going was a fearful one. If my pumps had given out the boat would have gone down in deep water, never to be recovered. Well, we got her safely in the harbor and ran her on to a soft clay bank in six feet of water. She is as good as ever above the water line, and is now being patched up so as to be brought down to the Detroit drydock."

Not a shore was placed in the Harlem until after the Baker outfit was sent below, and as far as the marsh hay is concerned the Merrick's crew declare that the extent of the famous hay operations was confined to the drying of hay on the Snook's boilers to make beds for her crew. The credit of saving the Harlem—one of the greatest wrecking jobs ever carried to a successful conclusion on the great lakes—belongs to "Wash" Harrow alone. He went up against a much stronger proposition than he had any idea of to begin with, but he stuck to it and finally conquered by his very persistence. For a time it seemed as if every time they tightened the steamer or lowered the water in her it was simply to discover new holes in her, and with every fresh attempt new difficulties were encountered, but after a fight from June until October, and then with a final "long pull all together," to make the jump from Isle Royale in to Portage, the Harlem finally rode in safety, the water being kept down in her by a six-inch siphon placed on board and operated by steam from one of her own boilers, for the rest of the way down to Detroit, where she is to be rebuilt at the very yards that launched her, is comparatively easy, as she can drag from one harbor to another in safety.

THE CALUMET BREWERY COMPANY WITH \$40,000 CAPITAL IS ORGANIZED AND WILL PUT UP A MODERN PLANT. The Calumet Brewing company has been organized with a capital of \$40,000 divided into 4,000 shares of \$10 each, and the contract has been let to C. Proelss & Co. for the erection of the necessary buildings for the new company on the seven lots purchased by it at Lake View.

The principal stockholders and board of managers consists of John Knivel, George Hall, Charles Schenck, G. Martini and Frank Schroeder. John Knivel, who has represented the Pabst Brewing company in Calumet for many years, will be the general manager of the new enterprise, while his associates are among the solid business men of Calumet. Allen Murphy of Fond du Lac, Wis., will build the cold storage and refrigerating plant of the new brewery, which will take care of 2,000 barrels of beer.

BATCH OF DEPUTIES APPOINTED. SEVERAL ARE EMPOWERED BY THE COUNTY CLERK TO ISSUE DEER HUNTING LICENSES. County Clerk Richardson has appointed the following deputy county clerks for the purpose of taking affidavit for deer licenses this fall, the appointments being for that purpose only and terminating with the close of the open season for deer: William Johnson, notary public, Larson & Calbraith's office, Calumet; Euchariste Brule, township clerk of Schoolcraft township, Lake Linden; Joseph Wise, township clerk, Torch Lake township, South Lake Linden; George T. Hyde, notary public, Jacobsville; E. L. Power, Chassel; Donald Grant, supervisor, Laird; James A. Moon, justice of the peace, Kitchi; J. H. Hicock, Wyandot mine.

THREE HUNDRED LICENSES HAVE BEEN RECEIVED BY THE COUNTY CLERK, WHO HAS ALREADY COMMENCED ISSUING THEM; THE OPEN SEASON FOR DEER UNDER THE NEW LAW IS FROM NOV. 8 TO NOV. 20, INCLUSIVE. WEDDED LAST EVENING. MISS FRANCES HOAR OF HOUGHTON BECOMES THE BRIDE OF HENRY WORMER OF DETROIT.

One of the most brilliant, and at the same time extremely pretty, weddings to occur in the copper country for some time was that celebrated last evening at 8 o'clock in Trinity Episcopal church, Houghton, by the rector, Rev. J. E. Curzon. Miss Frances Jenniphere Hoar of Houghton was the bride and Henry Wormer of Detroit the groom. It was a very pretty ceremony. E. F. Reimer, of the College of Mines, was best man and Miss Agnes Van Orden the maid of honor. The ushers were Frank Van Orden, Ward Smith and J. W. Knowlton, of the College of Mines, and Little Leora Jones and Olive Croze officiated as flower girls. Many friends, besides relatives, of the couple were present, the guests from abroad including Mr. and Mrs. E. D. Brigham and Mr. and Mrs. T. H. Bush of Chicago; Mr. and Mrs. Henry Harrow, and Mr. and Mrs. W. S. Nelson of Ishpeming; and Samuel P. Miller of Houghton, this party coming up yesterday over the South Shore from Chicago and Ishpeming in the Chicago & Northwestern private car No. 403. Immediately after the ceremony the guests repaired to the home of the bride, Mr. and Mrs. Wm. B. Hoar, in East Houghton, where until 10 o'clock a pleasing reception was held, the newly wedded couple then taking the late train for the East, with Chicago as their destination. Mrs. Wormer has been prominent in copperdon social circles and both her and her husband, who is a graduate of the Mining school, where he was more familiarly known by the name of Latham, that of his stepfather, have a legion of friends who wish them every joy. The Chicago and Ishpeming party, who are the guests of Mr. Brigham, assistant general freight agent of the Northwestern line, and Mr. Miller, general C. & N. W. agent in Chicago for this territory, will be taken to Calumet on a sight-seeing tour before returning home this afternoon.

MASS SELLS SOME COPPER. 18,000 POUNDS AT A PRICE A LITTLE OVER 18 CENTS—FIRST SHIPMENT FROM ARCADIAN. The Mass Consolidated mine has recently disposed of 18,000 pounds of mass copper at a price a trifle over 18 cents a pound.

The first shipment of refined copper from the Arcadian was made Tuesday, when the steamer James Fisk, Jr., of the Union Transit company, took on ninety tons at the Quincy smelting

ECONOMY How much is your time worth? How much do you value your strength? Is your money worth saving? These questions will all be answered to your entire satisfaction if you use GOLD DUST Washing Powder

In your cleaning. It will do your work in half the time, with half the labor, and at half the cost of soap or any other cleanser. It will make your housework easy and save you many an hour of worry. For greatest economy buy our large package. THE N. K. FAIRBANK COMPANY CHICAGO ST. LOUIS NEW YORK BOSTON

works dock; the John M. Nicol of the same line is taking on the balance of the Arcadian copper ready for shipment this morning, some ninety-six tons. William A. Paine, of Paine, Webber & Co., president of the Copper Range Railroad company, and F. A. Gilbert of the same city, vice president of the road, arrived in Houghton yesterday to attend a meeting of the board of directors today.

The decline in Anaconda to 45 or thereabouts is said by the Boston papers to be due to a falling off in the quality of the copper ore. A notably, however, was scored yesterday in Wall street. Two additional engines for the Copper Range, purchased from the Northern Pacific, are expected to reach Houghton by this evening at the latest.

PROBLEM FOR THE OFFICIALS. COUNTY AUTHORITIES AT WITS ENDS TO KNOW WHAT TO DO WITH LUNATIC BROWN. The Houghton county authorities are at their wits ends to know how to dispose of the insane man, Brown, who was brought in from the railroad camps at the Arcadian some time ago and who was refused admission at Newberry shortly after on the ground that he was not a citizen of Michigan but had only recently come into the state from Wisconsin.

He has since been kept in the Houghton county jail but is in terrible shape, and Sheriff Lean, whose humanity has forbidden him to turn the man loose—in fact, his condition is such that it is not safe to turn him out onto the community—feels that he should be getting better care and attention than is possible in a county jail; but the sticker is that the Wisconsin authorities are as unwilling to take care of him as the Michigan authorities, unless the full facts are made clear as to his residence in Badgerdon and, from the fact that the man himself is unable to tell anything about himself, this is a very difficult matter to establish.

It might be possible, of course, to take him down across the state line and kick him off the train for the Wisconsin officials to look after, but that is not Sheriff Lean's way and he is now figuring on a trip to Iron Mountain in the hope of discovering there, where Brown is supposed to have worked for a time, something about him that will compel the Wisconsin authorities to take him and care for him.

ABOUT MARRIAGE LICENSES. GOOD ANYWHERE IN THE STATE WHERE TAKEN OUT BY A LOCAL RESIDENT. County Clerk Richardson, in speaking of the recent case of a Marquette man finding a Houghton county minister unwilling to marry him upon a license procured in Marquette county, states that when the perturbed individual came to him to secure a new license he sent him away with the comforting assurance that the license issued to him in the county where he lived was good anywhere in the state of Michigan.

It seems strange that there should be so much misapprehension existing on the subject of marriage licenses, not only among private individuals—where it would at least be pardonable, as the ordinary man acquires such a license only once in his life-time—but among clergymen and even the very county clerks themselves who issue the licenses. For example, the county clerk of one of the upper peninsula counties recently went on record as stating that there must be some tall lying done down at St. Joseph to enable Chicago parties to secure marriage licenses there, whereas the fact is the law provides simply that in case both parties are non-residents of the state the ceremony must be performed in the county where the license is issued in the case of residents of the state the license secured in the county where one of the parties resides is valid for a ceremony anywhere in the state of Michigan.

In this manner many an expectant bridegroom from the copper country has secured his license at Houghton before starting for the lower part of the state for his bride. ACTIVITY IN IRON ORE CIRCLES. DR. NELSON HULST PREDICTS THE GREATEST BOOM ON RECORD FOR THE COMING YEAR.

Dr. N. P. Hulst, the general manager of the Silver Mining company, which represents the iron mining interests of the Carnegie company on the Iron Ranges of Michigan, Wisconsin and Minnesota, while in Houghton Tuesday stated to The Mining Journal that in his opinion the action of Rockefeller in placing the freight rate on ore so high was ill-advised, in that it had forced the Carnegie people to either build or buy steamships to carry their own ores, with the result that some of the largest carriers on the lakes had already been purchased while the contract for five vessels of the very largest size had already been let and options had been secured on every berth in the lake shipyards as it becomes vacant, the doctor speaking from hearsay in this last respect as the matter is not in his department. He believes that this will mean cheap freights in the future and that Rockefeller, with the small and already antiquated "pigs" of the American Steel Barge fleet on

FILIPINOS TO SEND AN ENVOY.

Senor Regidor Coming from London as the Accredited Representative of Aguinaldo.

TO CONFER ON PEACE TERMS WITH THE PRESIDENT.

SCHEME OF INSULAR GOVERNMENT WILL BE PROPOSED.

Is Fashioned After the Plan Now in Vogue in Cuba and Contemplates the Final Turning Over of the Archipelago to the Natives.

INSURGENTS AGAIN MENACING CALAMBA. Manila, Oct. 25.—The insurgents have returned to the vicinity of Calamba in increased numbers and are surrounding the town.

MOVE TO END HOSTILITIES. New York, Oct. 26.—The World's Washington correspondent telegraphs: Senor Antonio Regidor, now in London, will sail for the United States within three weeks as the fully accredited representative of Aguinaldo to present to President McKinley new terms for the ending of hostilities and reconstructing the government of the islands.

A high authority The World learns that these are the exact terms Aguinaldo desires: Free trade between the United States and the Philippines. Perfect religious freedom. Coaling stations for the United States upon all the important islands to be selected by the United States, ceded outright forever by the Philippines.

Military reservations on such islands as determined by both governments. The employment of United States officials in the customs and all other internal branches of the government, selected by the United States, and paid by the Philippines.

Introduction of the American police system. Establishment of a judiciary in Cuba. A reconstruction of the entire Filipino government consistent with the constitution of the United States and adapted to the requirements of the natives.

Recognition of the Filipino government as an independent republic under the protectorate of the United States. Senor Regidor will have plenipotentiary powers to treat with the United States upon all these points in order to reach an agreement by which the hostilities may cease.

ACTIVE WARFARE PLANNED. Washington, Oct. 25.—Preparations for an active campaign in the Philippines are being made. Great quantities of material for the troops, the marines, and the sailors will be shipped from New York and San Francisco within the next few weeks. The army supplies will include clothing and equipment sufficient for the military force for a period of six months. Arrangements have been made to ship \$1,500,000 worth of uniforms, tents, campaign hats, russet shoes, blankets, and the innumerable articles supplied by the army quartermasters.

Most of this material will go from New York on the transports, and will be made up largely of supplies now kept in stock at the Eastern quartermaster depots. Some of the material will be shipped also from the Pacific coast. This will necessitate the purchase of another lot of supplies of all kinds to be held in reserve, pending a demand for it in the Philippines. The estimates for quartermaster supplies for the next fiscal year

will be heavy, and the cost has greatly increased with the placing of volunteer regiments in the field.

Another shipment of material being hurried by the war department is the ordnance. Fully \$50,000 worth of rapid fire guns has been purchased in the open market. The shipment includes a quantity of ammunition, saluting powder, and projectiles. The delay in the delivery of such material by an ordnance concern which has a contract for a large amount of material made it necessary to buy the guns and ammunition without the formality of inviting bids. They will be shipped from New York on the first available transports.

MORE TROOPS EMBARKED. San Francisco, Oct. 25.—The transports Tartar, Manuense and Newport today sailed for Manila and the Olympia and Pennsylvania for Portland. The Manila-bound vessels carried three companies of the Thirty-first infantry and the entire Twenty-eighth infantry. The Portland-bound vessels will carry the Thirty-ninth and Forty-fifth regiments.

An order has been issued to muster out the Fifty-first Iowa volunteers on Nov. 3.

THANKSGIVING PROCLAIMED. THURSDAY, NOVEMBER 20, IS SET ASIDE BY THE PRESIDENT.

Washington, Oct. 25.—The president has issued a proclamation setting apart Thursday, Nov. 20, as a day of thanksgiving. The president sets forth as among the reasons for special thanksgiving the freedom from pestilence; the national prosperity; the exaltation of American patriotism; the freedom from disaster and disease of those engaged in maintaining the honor of the flag; the ratification of peace with Spain; the successful administration of the trust undertaken in behalf of Cuba; the sympathy and help displayed by the people in behalf of the sufferers by the Porto Rican hurricane, and, lastly, says: "While the insurrection still continues in the island of Luzon, business is resuming its activity and confidence in the good purposes of the United States is being rapidly established throughout the archipelago."

BIG FRAUD IN RUSSIA. FORTY-THREE GOVERNMENT OFFICIALS ARRESTED AT ODESSA FOR ROBBERING THE CZAR.

Odesa, Oct. 25.—A gigantic system of official fraud and corruption has been unearthed at Sebastopol. Forty-three government officials have been arrested and will be tried by court-martial December second. It is reported several of the accused have committed suicide rather than stand trial, for it found guilty they will be banished to Siberia.

Vive Admiral Tyrtoff, Russian naval commander in the Black sea, is responsible for the arrests. He alleges the officials of various government departments have been engaged on a huge conspiracy to misappropriate funds and sell government supplies. The affair has caused the greatest consternation.

PROMISES EQUAL RIGHTS TO ALL. "We are told we shall lose South Africa; our foreign friends are convinced of it. Yet they are not happy. Such predictions have a made for us. It is impossible to pretend that the Dutch at the Cape are crushed by our rule, when they have all the rights Englishmen possess. Whatever may be the result of the war, does any one imagine we shall fail to do for others what we claimed for ourselves, or refuse equal rights to the Dutch in the Transvaal, which they refused us?"

The house, by a vote of 224 to 28, passed the second reading of the appropriation bill.

RAID IN RHODESIA FEARED. METHODISTS APPREHENSIVE OF AN ATTACK ON MISSION.

Boston, Oct. 25.—The leaders of the Methodist church in this country are waiting with anxiety for news from the Methodist mission at Umtali, which is situated in British Rhodesia, on the railroad which runs south to Cape Town. This mission, as are all the other stations of the Methodist church in the dark continent, is under the charge of Bishop Hartzell, an Illinois man. As a result of his devoted labors the mission at Umtali has been enlarged until it includes eight dwelling houses, a hospital, a church, and a sixteen-room hotel. Three missionaries with their families are now permanently stationed there.

Property valued at \$30,000 was recently secured by the mission through the influence of Cecil Rhodes, and the fear is that the Boers, as the result of possible further reverses, may retreat along the railroad into Rhodesia, destroying the towns and villages in their path.

RICH CRIPPLE CREEK STRIKE. VEIN ASSAYING \$200,000 ENCOUNTERED AT THE ISABELLA MINE.

Colorado Springs, Colo., Oct. 25.—The Isabella mine at Cripple Creek is reported semi-officially to have opened a six-inch vein of ore in Buena Vista shaft that assays \$200,000. The rumors are from the same source as those of last January, which advanced Isabella stock from 21 cents to \$1.80. The stock has advanced now from 91 cents to considerably over a dollar. One of the finest equipments in the camp has been placed in the mine. Energetic outcroppings of ore may now be expected. There is a persistent attempt to wrest control of the company from President Nelson B. Williams and his associates.

CHUNKS OF PURE GOLD. Deadwood, S. D., Oct. 25.—All records of the Grantz mine were broken yesterday, when Mr. Grantz took out four pieces of ore weighing from a half to three-quarters of a pound each, which were solid gold. The pieces were found in a crevice of rock, and it appeared, as though some one had poured molten gold into a mold. Each piece was about half an inch in thickness and the size of a boy's hand. The gold is pure and solid, and nothing like it has ever been discovered in the Black Hills before. Mr. Grantz received \$79,000 in cash for the car of ore shipped two weeks ago to Denver. The Grantz strike is considered one of the most remarkable the world has ever seen.

CATHOLIC SCHOOL REMOVAL. DUBUQUE TO GET THE BIG MADISON (WIS.) INSTITUTION.

Dubuque, Ia., Oct. 25.—Rev. Dalton of St. Louis is here arranging for the removal of the Catholic summer school from Madison, Wis., to Dubuque. It is of national scope and includes the archdioceses of Milwaukee, Santa Fe, Dubuque, St. Paul, Cincinnati and St. Louis. The instructors comprise the most eminent Catholic educators of the country and the attendance averages fifteen hundred.

TODAY'S WEATHER. Washington, Oct. 25.—The following is the weather bureau's forecast for Upper Michigan: Showers Thursday; cooler in eastern portion; Friday fair; fresh westerly winds.

NEW COLLEGE PRESIDENT. Oakland, Oct. 25.—Professor Benjamin Ide Wheeler was today inaugurated president of the University of California.

PRISONERS OF BOERS.

(Continued from Page One)

suggestions or indications of opinion, but semi-official warning was frequently conveyed in speech.

Regarding Mr. Davitt, Mr. Chamberlain said he recognized he had hitherto discussed the matter moderately and discreetly, "and I would pay the greatest attention to his arguments if I did not know he would use precisely the same arguments in regard to any British war, which are based on his enmity to England." What would have been the Irish argument in the Spanish-American war, in which Spain showed herself infinitely less capable of defending herself than the Transvaal? he asked.

Redmond, Parnellite member for East Clare, shouted "The Transvaal did not blow up your warships."

OUR WAR A PRECEDENT. Secretary Chamberlain continued: "That great contest between the United States and Spain was fought without the loss of a single American. We never denied the Transvaal a foe-man worthy of steel. Not only was the disparity between the forces in the Spanish-American war as great as those now engaged, but the contention of the United States and its right of interference arose from the fact that some distance from its territory there was oppression, not of American citizens, but of another race of people, that justified the intervention of the United States in the mind of the civilized world or, at any rate, in the eyes of the Englishmen and Irishmen. But we are interfering in behalf of our own people, the Irish supremacy. The war, therefore, was inevitable. There has been an enormous strain upon us. We are called upon to bring the war to a quick conclusion, to send across the sea a force such as no nation in history has ever before sent. This is entirely due to the preparations which made the Transvaal an armed camp and not only secured a defensive position, but enabled it to take two offensives against the large force now engaged."

PROMISES EQUAL RIGHTS TO ALL. "We are told we shall lose South Africa; our foreign friends are convinced of it. Yet they are not happy. Such predictions have a made for us. It is impossible to pretend that the Dutch at the Cape are crushed by our rule, when they have all the rights Englishmen possess. Whatever may be the result of the war, does any one imagine we shall fail to do for others what we claimed for ourselves, or refuse equal rights to the Dutch in the Transvaal, which they refused us?"

The house, by a vote of 224 to 28, passed the second reading of the appropriation bill.

NEW COLLEGE PRESIDENT. Oakland, Oct. 25.—Professor Benjamin Ide Wheeler was today inaugurated president of the University of California.

TO SPEND FIFTEEN MILLIONS.

NEW YORK CENTRAL TO INCREASE ITS ROLLING STOCK.

New York, Oct. 25.—President Callaway today said the proceeds of the new issue of fifteen million dollars of New York Central stock would be applied solely to rolling stock and equipment.

BICYCLE PRICES FIXED. \$75 FOR A CHAINLESS THE MAXIMUM TRUST RATE.

New York, Oct. 25.—The American Bicycle company announces that general direction of the various factories' selling departments will be conducted in New York. The prices adopted are \$75 and \$60 for chainless wheels and \$50, \$40, \$30 and \$25 for chain wheels.

HON. JOHN BLACK IS DEAD. EX-MAYOR AND A PROMINENT CITIZEN OF MILWAUKEE.

Milwaukee, Oct. 25.—Ex-Mayor John Black, one of the most prominent and wealthiest men of Milwaukee, died from Bright's disease today, aged seventy-one.

Omaha, Oct. 25.—The remains of the late Chief of Police White were sent to Chicago tonight for burial, accompanied by Mayor Moores and a delegation from the police force of the city.

COMBINE OF COAL DEALERS. RETAILERS OF WISCONSIN AND PART OF ILLINOIS IN IT.

Madison, Wis., Oct. 25.—The Retail Coal Dealers' Association of Wisconsin and Northern Illinois was organized here today by fifty delegates. The members say its aim is not to regulate prices, but to extend the membership and make a stand against the practice of some wholesalers in shipping direct to consumers. L. Hull of Oak Park, Ills., was chosen president and R. C. Brown of Oshkosh, Wis., vice president.

DEWEY IN HIS NEW HOME. HOUSE JUST BOUGHT IS FORMALLY TURNED OVER TO HIM.

Washington, Aug. 25.—The house on Rhode Island avenue recently purchased for Admiral Dewey by popular subscription was formally turned over to him today by Assistant Secretary Vanderbilt and United States Treasurer Roberts, of the Dewey home committee. Mr. Fitch, the owner, presented a deed at the treasury department which was immediately filed for record. The purchase price was about \$50,000.

WANT SALOONS CLOSED SUNDAY. SIOUX CITY LIQUOR DEALERS TAKE REMARKABLE ACTION.

Sioux City, Ia., Oct. 25.—The saloon men took remarkable action today and as a result the city promises to be dry Sundays. The Liquor Dealers' association, with fifty-five members present, adopted a resolution saying that, in the interest of good order, the sale of intoxicating liquors in Sioux City be discontinued on Sunday and requesting the mayor to enforce observance of the law in this respect in all places where liquors are sold in this city.

ANDRADE LEAVES VENEZUELA. NEW YORK SAID TO BE DESTINATION OF THE EX-PRESIDENT.

Ponce, Porto Rico, Oct. 25.—News is received concerning the successful revolution in Venezuela, and it is reported that President Andrade and staff, on board the steamer Caracas, have sailed from La Guayra for New York, via San Juan and Ponce.

BOLIVIA'S NEW EXECUTIVE. BUENAS AYRES, Oct. 25.—Cajalando has been elected president of Bolivia in succession to Senor Severo Fernandez Alonzo.

Lima, Peru, Oct. 25.—The Bolivian convention has proclaimed Senor Lucio Velazco and Senor Anibal Capriles first and second vice presidents of the republic in succession to Dr. Rafael Pena and Dr. Genaro San Jines.

TROUBLE FOR SOME NAVAL MEN. COSTLY OVERSIGHT IN THE GUNBOAT VIKING THAT RENDERS HER USELESS TO UNCLE SAM.

Washington, Oct. 25.—Somebody will have to answer for a remarkable discrepancy which has been made in the detail of officers of the Viking. The Viking had been fitted out at the Norfolk navy yard for duty in Central American waters. Much money had been expended on the equipment of the ship. It was equipped with a rapid fire battery and was stocked with the usual supplies, such as fuel and the many other articles of a warship on a long cruise. It was placed in commission a few days ago and the detail of officers and selection of a crew was made. When it came to placing the provisions on board it was discovered that there was no place for such stores. No amount of figuring could rearrange the material on board so as to accommodate the provisions for the crew. There was nothing to do but remove all the supplies, disarm the ship, and put it out of commission.

The naval authorities will probably investigate the matter in order to ascertain why a ship of the navy can be placed in commission and not have it disarmed until after much delay and expense of equipment that the vessel cannot carry the required amount of sustenance for officers and crew. It is likely the Viking will be sold. It is of no use to the navy.

PASSENGERS QUARANTINED. New York, Oct. 25.—The thirty-one passengers of the Ward line steamer Havana, which arrived last night from Havana, were today sent to Hoffman's island for observation. They will be released tomorrow noon. General Fitzhugh Lee and Mrs. Ludlow, wife of General Ludlow, are among the detained.

DUEL TO THE DEATH. El Reno, Okla., Oct. 25.—C. W. Hopkins, a stockman, and Deputy Marshal Fox engaged in a pistol fight in a saloon here today and both were killed. Fox attempted to arrest Hopkins, who was drunk.

IS GOBBLED BY THE STANDARD OIL.

Control of the United States Leather Company in New Hands.

RECENT HEAVY TRANSACTIONS IN THE STOCK EXPLAINED.

200,000 SHARES JUST TRANSFERRED TO THE ROCKEFELLERS.

Deal Places Them in Charge of the Trust and It is Estimated the Latest Purchase Represents an Outlay of Some Five Million Dollars.

BIG MAGNATES ENTER ANOTHER FIELD. New York, Oct. 25.—Interest in the recent heavy transactions in United States Leather stock was increased today, when it was announced in Wall street that a block of 200,000 shares of common stock had been transferred on the books of the company to John D. Rockefeller, Jr.

The Mail & Express says: "The transfer of this big stock makes it certain that the Leather common stock is now in the control of the Rockefellers. The outstanding capital of the leather trust is \$125,751,800, of which \$62,225,900 is preferred and the remainder common. The voting privileges are vested in the common stock."

It is estimated that the privilege of control of the common stock of the Standard Oil people between four and five million dollars.

CORPORATIONS IN HOT WATER. Chicago, Oct. 25.—Twenty-four million dollars will be demanded through the courts from corporations in Cook county for violation of the Illinois statutes. State's Attorney Deneen will make the demand in a few days by filing three thousand suits. The purpose is to satisfy the law, which calls on every corporation in Illinois to file a statement with the secretary of state every year. Failure to comply is punishable by a fine of \$50 a day.

GLUCOSE CO. TO SUBMIT. Chicago, Oct. 25.—President Matthieson, of the Glucose Sugar Refining company, this evening said, regarding the recent supreme court decision: "In respect of this litigation, the company will continue business, and if the final court of review stands by the opinion just delivered, this company will cheerfully conform its course, heretofore believed to be legal, along the lines which the highest court shall direct."

ACTIVE DAY IN WALL STREET. DEALINGS ON A BIG SCALE AND GAINS AT THE END.

New York, Oct. 25.—The movement in prices on the stock exchange today was irregularly upwards for the railroad stocks, while many of the industrials showed weakness, and the prices generally gave way after 2 o'clock under the pressure of realizing in the leather stocks, which had been the center of speculation all day.

Many of the earlier gains were wiped out in this reaction, although an aggressive advance in the coalers checked the decline and rallied the market, but not to the top level, and it closed with the brilliant advance in the coalers still in force, but with the tendency irregular elsewhere in the list. The net gains in the coalers were from a point in the minor members of the group to 4 1/2 in New Jersey Central.

The dealings in the leather stocks again were on an enormous scale, common rising at one time to 25 and preferred to 82 1/2. Other points of individual strength were in Sugar, the southern group of railroads, the southwestern group, Iowa Central preferred, Ann Arbor preferred, Great Northern preferred, Anaconda and American Car, common and preferred. Final quotations are:

Table with columns: Stocks, Tuesday, Wednesday. Lists various stocks like Adventure, Ashbed, Arcadian, etc.

*Asked. Bid.

METAL QUOTATIONS. New York, Oct. 25.—Pig iron warrants today at the close were quoted very dull, at \$18.00; Lake, copper, easier, at 17.75 cents.

THAT METHODIST ROW. Miller, S. D., Oct. 25.—Owing to a break-down, the Methodist ladies did not get their parsonage out of St. Lawrence last night. Today the Miller people had State Senator King, Justices Butterfield and Patterson and Town Marshal McCullen arrested for conspiracy and intimidation. Another St. Lawrence man, who drew a revolver on the ladies and workmen, also was arrested. The parsonage is being hauled out and will arrive here in a day or two.

SHOOTING TOURNEY ENDS. Nashville, Oct. 25.—Helkes of Dayton, O., today won the Schmelzer medal at the tournament of the Belle Mead Gun club, breaking ninety clay targets out of a possible hundred. Marshall of Keithsburg, Ills., was second with eighty-nine, and Gray third, with eighty-seven. The meet was characterized by splendid shooting, Gilbert of Spirit Lake, Ia., having a score of 500 out of a possible 600.

BISHOP TO PORTO RICO. St. Louis, Oct. 25.—The Episcopal missionary council today decided to send a bishop to Porto Rico.

CITY BREVITIES.

Weather forecast: Partly cloudy and cooler; northwest wind.

Yesterday's temperature: 7 a. m., 51 degrees; noon, 48 degrees; 7 p. m., 46 degrees; maximum, 51 degrees; minimum, 46 degrees.

Five more deer licenses were issued yesterday.

Mrs. W. R. Gilbert of Bessemer visited in the city yesterday.

Frauk Cronin was down yesterday on business from Ishpeming.

John Johns of Ishpeming was down yesterday from up the road.

Arthur Johnson is now working in Fred Jones' brokerage office.

Thomas E. Kelly of Menominee was a business visitor in the city yesterday.

E. H. Scott of LaPorte stopped off here yesterday on his way to Munising.

Charles Spengler of St. Ignace was in the city yesterday on a business trip.

Special Land Agent Z. P. Curry has taken a month's vacation and has gone home to Youngstown, Ohio, for a visit with his family.

The family of W. H. Richmond, master mechanic of the L. S. & I. railway, arrived in the city yesterday. They will reside at 328 East Ridge street.

Mrs. G. F. Beehler of L'Anse, who has been visiting here for the past few weeks, returned home yesterday accompanied by her daughter, Mrs. Chapple.

Application was made in probate court yesterday by Edward Pearce to have Joseph Beatty of Champion appointed administrator of the estate of Edward W. Pearce of that place.

County Clerk Ross issued three licenses to wed yesterday as follows: To Joseph Hamatt and Mary Kilman of Ishpeming; to William Sharp and Minnie Lawson, Negaunee; to Carl F. Johnson and Johanna A. Ek, of Ishpeming.

The Young People's Society of Christian Endeavor will give a reception in the parlors of the Presbyterian church Friday evening to the faculty and students of the normal. This is the first function of this kind which has been tendered to either the faculty or student body of the normal.

State Superintendent Hammond of the state board of education and Perry P. Powers, a member of the board, are expected in the city some time next week to look over the work on the new school building and to note progress which is being made in the scholastic end of the enterprise. Prof. E. F. Johnson, who is also a member of the board, is expected up at Thanksgiving time.

BALLOON SPIDERS.

Float Through the Air in Baskets They Have Woven.

The ordinary California buzzard and the singular ravens of Santa Catalina island often give marvelous exhibitions of soaring or rising into the air without moving their wings, and when it is remembered that their bodies are reduced to a minimum of weight and that even their bodies are filled with air, it is almost scientifically and literally true that they are living balloons. As a stroller who had descended the bank by a little trail crouched low in the shadow of a wild lilac, he saw against the dark green bank of the opposite canyon a cobweb aloft; then another, drifting down the aerial channel of the wind. Others followed—a procession of webs was passing; some were long and formed of a single thread of silk; others had a delicate mass of fabric attached. Presently one of them came so near that he put out his hand and caught it.

It was a perfect balloon, and the aeronaut—a small spider—sat complacently in his basket, a fluffy mass of web half an inch in length, light as a feather and supported by a long thread which reached away, undulating and curving upward. Scores of these aeronauts passed by, drifting up the little canyon, borne aloft by the upward current of air.

The stroller noticed quite a number of spiders on the leaves and branches in singular attitudes, and then it occurred to him that there was a spider migration, and that instead of walking or crawling away, the insects were going, like Andree, by balloon. More on the leaves of the wild lilac were preparing for the journey across the chasm, forming, building and launching their balloons. A spider that had been actively climbing up a branch of neighboring oak stood on an outer leaf and prepared to make its balloon. It had a wonderful arrangement of spinnerets in which the balloon-making material, which is also employed to construct nets and traps, is stored.

Some of the spiders have an additional spinning organ and a comb-like implement upon the hind legs, by which they comb out the silk, making a tangle of fine webs. Thus they are well prepared to make cables for balloons, guy ropes, net, and by the aid of the comb, a fluffy platform web.

Some of the spiders make little platforms of fluffy web as they went; others merely tuff to the thread; but in one way or the other scores of them crossed the canyons and traveled through the air, aeronauts in all the name implies.—Philadelphia Inquirer.

HIGH ART TAXIDERM.

Correct and life-like attitude. Deer heads a specialty. Guaranteed moth proof. M. M. Sterle, 201 South Front street. (10-17-1f)

Plug-ugly.—Don't use powder, paint or arsenic. Ruins your complexion. Take Rocky Mountain Tea, will make lovely color, fine form. The Stafford Drug company.

"A dose in time saves lives." Dr. Wood's Norway Pine Syrup; nature's remedy for coughs, colds, pulmonary diseases of every sort.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. The Stafford Drug company will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable.

TO BLOCK CONTINENT.

(Continued from Page One)

ate, just like some hysterical subject under the finger of a professional mesmerizer. Whatever Emperor William does or seems inclined to do calls out a further outcry here.

The French, however, are inclined to believe that Emperor William is no longer sympathetic with the Boers. Independent republicanism was never really to his liking, and he has felt a fascination for that imperially-minded personage, Cecil Rhodes.

The German emperor does not and cannot regard the Boers as possible allies for any present or future scheme of German expansion in Africa, and their reduction would enable him to treat with their victors on terms of "do ut des," which have never been within his reach before. Russia is entirely disinterested in the Transvaal.

RUSSIA THOUGHT INSINCERE.

The Russian press denounces England on the broad principles of morality and justice, but a dog must occasionally have its muzzle taken off to allow it to drink. The Russian newspaper articles must, therefore, be read between the lines. Sometimes "England" appears in them for "Russia." The French papers quote these articles, but they know their significance and value, and the French statesmen are even better posted on the subject.

With an indifferent Russia and a friendly Germany, England has nothing to fear from France. Moreover, France has now but one idea in her head, and that is her Paris exhibition. Any statesman who would jeopardize the success of that show would bring about a revolution. The friendly tone adopted by the United States toward the British also influences French opinion greatly, though not outwardly and visibly. If the British successes continue it is certain the French will alter their tone altogether and frankly leave the Boers to their fate.

SAMPSON GIVEN A SWORD.

GIFT OF THE PEOPLE OF NEW JERSEY PRESENTED THE ADMIRAL AT THE CAPITOL.

Trenton, N. J., Oct. 25.—Admiral Sampson was presented with a sword of honor on behalf of the people of New Jersey today. Governor Voorhees made the presentation speech.

The presentation took place in the assembly chamber of the capitol in the presence of a distinguished audience of naval officers and persons prominent in the public and social life of the state. The naval officers present included nearly all of those associated with Sampson before the entrance to Santiago harbor. Among those present were: Rear Admiral Melville; Captains Chadwick, Taylor, Philip, Clark, Sands, Bronson, Train, Folger and DeLahanty, of the vessels in Sampson's fleet, and Lieutenant Commander Winslow, the admiral's flag lieutenant.

ADMIRAL'S ADDRESS.

Admiral Sampson in accepting the sword said: "It is with pride that I arise to thank the people of New Jersey for this beautiful sword. Whether this be considered an expression of the donors' estimate of my service during the war or an expression of what they consider their indebtedness to whoever the debt is due, and I, as a resident of the state, am chosen to receive the honor—whatever your generous motive may be, the honor is great.

"If I mistake not, you make me today the representative of the many who fought well at Santiago. Courage and valor in one man be found, but unless that courage and valor had been multiplied a thousandfold and in a thousand hearts that day there might have been a different tale to tell.

"I am proud for, and proud of, my country, and in their name, jointly with my own, I accept the gift. You have honored me because I was the commander, though to have been commander was honor enough, and your acknowledgment here, in this manner, is precious to me.

"That I receive it, your excellency, from your hands, the governor of my adopted state, adds greatly to its value. Because I care, I am unable to say how much I care."

Afterwards Sampson was given a reception.

SCHLEY WAS ABSENT.

All but three of the naval commanders present at Santiago were here today. The three absentees were Rear Admirals Schley and Higginson and Captain Evans. Higginson is sick and Evans missed the train. President McKinley, Secretary Long and Admiral Dewey sent letters of regret.

The president said: "It seems most fitting that this testimonial of honor should have been arranged by your state, the home of Rear Admiral Sampson, in recognition of the valuable and conspicuous services he rendered his country in the war with Spain."

Secretary Long regretted that public business required his presence in Washington. "I beg to express my hearty appreciation of the deserved honor done with this sword. He was entrusted with most onerous and responsible duties during the war, and is entitled to the highest credit for the consummate and successful manner in which he discharged them."

WELCOME TO BRUMBY.

Atlanta, Ga., Oct. 25.—The arrival of Lieutenant Brumby, of the Olympia, tonight, to receive his formal welcome into the city and his native state, was the signal for a noisy, enthusiastic demonstration. Tonight he was given a reception at the Capital City club, and tomorrow the presentation of a sword from the people of Georgia will take place.

YALE MAN ARRESTED FOR KISSING.

BOTH HE AND HIS SWEETHEART ARE SENTENCED TO FIFTEEN DAYS' IMPRISONMENT.

New Haven, Conn., Oct. 25.—Stephen Lawrence of the law school is the first Yale undergraduate in fifty years to be sentenced to fifteen days' imprisonment for the crime of kissing a pretty girl, and the unrelenting judge likewise sentenced the girl to fifteen days' imprisonment. Mr. Lawrence has appealed to the superior court and furnished bonds for their appearance.

Lawrence asked Miss May Carroll, a handsome and vivacious shop girl, to take supper with him. She consented.

They went to a restaurant much frequented by fashionable people and students. Lawrence ordered supper, and while it was being prepared and while they were enjoying the supper he made love to Miss Carroll with all the ardor of his twenty-two years. She listened to him with all the discretion of a maiden of eighteen.

When Mr. Lawrence paid his bill the cashier noticed his face was flushed and that a pretty pink suffused Miss Carroll's cheeks—a blush raised maybe by Mr. Lawrence's compliments. As he and she walked toward the door Mr. Lawrence, unable longer to control himself, leaned over and kissed Miss May. Nor can it be truly said that she shrank from him.

People at the tables smiled. But Police Beeman Winchell took no such humane view of Lawrence's peccadillo. Standing outside the door Winchell saw the young man kiss Miss May. In this state it offends the law to kiss in public. Winchell promptly arrested Lawrence and Miss May and took them to the station-house. Lawrence summoned his friends, who gave bail for both; so they were spared the ignominy of passing the night in cells.

Yesterday morning the law student and the shop girl appeared before Judge Edwin C. Dow in the city court. Frowning Judge Dow heard Winchell's testimony. The general statute gives to the judge the discretion of administering a fine of from \$10 to \$100 or of imprisonment up to thirty days for the crime of kissing in public, even if the girl kissed does not object.

Judge Dow took the harsher course. "Fifteen days' imprisonment for each," he said sternly. Then Mr. Lawrence appealed the case and gave bonds. He and Miss Carroll have left here, going in opposite directions, his friends insist. It is doubtful if they will ever stand trial. It is said Mr. Lawrence lives in New York city. He entered Yale late in the term and his name does not appear in the university catalogue.

ENLARGING FIELD FOR TRADE.

EXPANSION THE TOPIC AT THE COMMERCIAL CONGRESS.

Philadelphia, Oct. 25.—Today's session of the international commercial congress at the National Export exposition was officially designated "Expansion Day," and a number of speakers addressed the delegates on the topic as it related to the development of commerce in all countries of the world. Hon. John A. Kasson of Iowa spoke on territorial and commercial expansion. He said the Philippines promise greater immediate advantages than any former addition to our territory.

The achievement of the American railroads and their relation to the commercial, industrial and agricultural interests were set forth in an address by General Passenger Agent Daniels of the New York Central, president of the American Association of Passenger Agents. He traced beneficial results to commerce from the war between China and Japan, and detailed the great progress made by American-built locomotives and general railway paraphernalia in Russia and the Orient. "The Manila & Daguapan railroad, in the island of Luzon," he said, "is laid upon mahogany ties, passing through forests that are valuable in wood and over inexhaustible beds of copper and other rich minerals. Shall we wonder, then, that the American railroads are seeking connections that will secure a portion of the commerce that must come from the development of this rich region?"

OPENING IN SOUTH AMERICA.

A brief address on the trade conditions in Brazil was delivered by Colonel Bryan, United States minister to Brazil. "The representation by capable Americans of our business houses cannot be too highly urged in extending business in Brazil," he said. "These must speak French, Portuguese and English. Speculating on exchange should be forbidden, and American banks and steamship lines should be introduced.

Eugene Zeger, United States consul to Brazil, referred to the great railroad enterprise inaugurated, and those to be established, connecting the great southern countries of South America with Brazil. William Grant Clark of Queensland spoke briefly on the Philippines. His references to the islands were principally of a descriptive character.

A resolution was adopted providing that a new international committee on resolutions be appointed with Dr. Wilson, of the commercial museum, as ex-officio member, and two members from Australia, two from the United States, each from Great Britain and her colonies, one from Asia, one from Africa, one from the West Indies and one from South America, a total of thirteen, seven to be a quorum.

UNION PACIFIC SETTLEMENT.

LAST CLAIMS, TOTALING \$36,641,921, ARE ORDERED PAID.

Minneapolis, Oct. 25.—Howard S. Abbott, special master in the Union Pacific railway receivership, today filed in the United States a report on the claims filed against the company. The report was confirmed by Judge Sanborn and is the last step in the settlement of the Union Pacific receivership. The largest claims allowed were those of the Union Pacific, the balance due the company being found to aggregate \$44,500,000. A balance due the United States of \$7,395,294 also was allowed. The total of the claims allowed, in addition to \$26,448,720 already paid, is \$56,641,921. It is ordered that the claims allowed be paid pro rata out of the funds in the hands of the receivers. Judge Sanborn ordered the preferred claims, which are comparatively small, paid in full and a dividend of 6 per cent on unpreferred claims. The aggregate of the disallowed claims is about \$19,000,000.

BANK REOPENS TODAY.

Montreal, Oct. 25.—The Banque de Jacques Cartier, which suspended business July 31, will reopen tomorrow. When the bank closed three months ago the depositors, representing a million and a half dollars, agreed not to withdraw their deposits for a year.

makes a happy home for all the members of her household, so make her happy by sending home one of our new style and handsome Garland parlor stoves, that will cheer up the rooms and save worry, fuel and temper at the same time. "A word to the wise is sufficient." We are selling them cheap considering the prices of iron and labor.

M. R. Manhard.

Henry Hammond, who shot John T. Shayne, the wealthy furrier, last March while the latter was dining with Hammond's divorced wife at the Auditorium Annex, was begun today before Judge Hutchison.

MAJOR HAYES' INHERITED LUCK.

An interesting war story was told recently by a man who took part in a meeting on board the steamer Sylvia coming from Porto Rico to New York. The chief speaker in the party was Major Webb C. Hayes, son of the late president, who has been recently made lieutenant colonel of the Thirty-first infantry. Beside him sat Captain Paget, the British military attaché, and a third was a western newspaper man. They had been speaking of luck in war, and the major remarked:

"I don't know whether I am lucky or unlucky. I've been in a number of battles and in every one I've been wounded or had my horse wounded. None of my wounds, however, has been grave enough to disable me permanently."

Captain Paget, who has witnessed or taken part in twenty wars, said: "I suppose that I'm rather lucky, because I've had very much the same experience and am alive today, while most of my old colleagues have passed away."

The western editor spoke up: "In the major's case I think it's heredity. I knew his father, the president, during the civil war, where he was one of the bravest generals. He was certainly unlucky in many things, but very lucky in not being killed. He frequently led forlorn hopes or maintained desperate defenses in which the loss of life was appalling, but he came out without a scratch. He had me once on an experience in the Lynchburg campaign which I shall never forget."

"The unionists had been outnumbered and probably out-manuevered, and were falling back, pursued by the confederates. Hayes was ordered to hold the enemy in check in a narrow valley until the artillery and supply wagons were safe. He promptly entrenched himself and erected barricades of logs and stone fences. He had General Hastings to hold one side of the gorge and Major William McKinley, now president, to hold the other, while he took personal charge of the center. The night wore on and soon the firing began."

"Suddenly General Hayes saw men wounded and staggering in front of one of his barricades and in the darkness took them for his own soldiers. He ordered the firing to cease, and ran himself out of the lines to save them as far as he could. A few feet from a cannon he heard a man moaning. He picked him up and carried him within the lines and said gently in the dark:

"My boy, what regiment do you belong to?"

"The man gasped: 'I'm one of Early's brigade.'"

"The general had run into a body of confederate troops, and had he been known the history of the republic might have been changed."

ALTGELD IN NEBRASKA.

Omaha, Oct. 25.—Ex-Governor Altgeld of Illinois came to Nebraska today for a stumping tour to last several days, firing the opening gun at Blair. He criticized the course of the administration in the Philippines.

BRITISH BARK LOST AT SEA.

Philadelphia, Oct. 25.—A dispatch from Turk's Island says that the British bark Greenland, which sailed from here Oct. 12 for Bahamas to load salt, has been lost. The crew were saved. No particulars.

"J. E. K." CIGARS

Always Reliable. The Best that Tobacco can produce. 10c. or 3 for 25c. J. E. Kenning & Co., Mfg's, Grand Rapids, Mich.

WORKINGMAN VS. TRUST.

The latter cannot live without the support of the former.

The workmen of this country, if they will be consistent, can quickly bring about the downfall of trusts by individual action. If the people refuse to patronize trust-made goods, trusts will fall apart. Many well known brands of tobacco are now controlled by a trust and it is dangerous to buy without investigating. Ask your dealer who makes the brand you use. The next time you buy a plug buy one of the following brands and you are safe: Gold Rope, Kingbolt, Rise and Shine and Trasher.

The above are made by union labor in a union shop at union prices by the Wilson-McCallay Tobacco Co., Middletown, Ohio. This company is willing to live and let live as is demonstrated by the fact that in thirty years of business they have never had a strike in their establishment.

THE ICEMAN'S LOSS.

According to a Calculating Barber It Figures Out to Be Considerable.

"How'd you like to be the iceman?" Snyder, the calculating barber, was artlessly executing a quickstep on the razor strop when the above little ditty floated in from the busy thoroughfare, causing a smile of contempt to flit across his features, says the Philadelphia Record. "That simply makes me weary," he remarked, as with a flourish he dabbed the patron's face. "You hear that latest acquisition in the way of slang phrases repeated by men of every station, just as if the iceman's lot was an earthly paradise. As a matter of fact, the individual who embarks on a career which involves the marketing of congealed moisture doesn't have to run around searching for his troubles. How many people, do you suppose, ever think of the amount of money that drips right out of the iceman's hands when the sun beats down on his heavily loaded wagon? Don't amount to much, eh? Well, you'll change your opinion when I bring up a few figures for your consideration. Starting out with a ton of ice, I estimate that melting alone causes a dead loss of about 100 pounds to the dealer. This doesn't seem much, but when you calculate that about 1,000 wagons a day right here in town lose that amount the figures are amazing. One hundred thousand pounds, at say, ten cents per hundred, runs up the tidy sum of \$100. Three hundred and sixty-five times \$100 gives us the annual loss locally as \$36,500. Takes a little nerve, doesn't it, to be an iceman? Then, if during the summer these drippings could be collected, I figure that they'd supply all the hospitals in town with ice water baths for sunstruck patients. Frozen into a solid lump, if the entire of these drippings could be collected, I figure as a ten-story building. Then again, the waste when the cakes are cut is enormous, to say nothing of what vanishes into the air when the ice is whisked clean with a brush broom. But without going into further details, I think you'll agree that the man who peddles ice has enough trouble to worry him into an early grave. Tonic?"

Nasal CATARRH

It is all stages there and be clean.

Ely's Cream Balm

It cures catarrh and drives away a cold in the head quickly.

It cures the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying--does not produce sneezing. Large Size, 50 cents at Drug Store or by mail. Trial Size, 10 cents by mail.

STOP SMOKING.

It cures you whether you continue to smoke or not. It cures you whether you continue to smoke or not. It cures you whether you continue to smoke or not.

THE "PLOW BOY" PREACHER. Rev. J. Kirkman, Belle River, Ill., says, "After suffering bronchial or lung trouble for ten years, I was cured by One Minute Cough Cure. It is all that is claimed for it and more." It cures coughs, colds, grippe and all throat and lung troubles.

THE STAFFORD DRUG CO.

Ishpeping and Vicinity.

AN INFORMAL RECEPTION.

EX-GOVERNOR RICH AND SENATOR M'ILLAN MET THE FAITHFUL OF THE TWIN CITIES WEDNESDAY EVENING.

The parlors of the Nelson house a couple of the political chiefs of the Republican party of Michigan for a few hours Tuesday night, and the leading members of the Republican party of Ishpeping and Negaunee called informally while they were here to greet ex-Governor Rich and Senator McMillan and the lesser members of the delegation. The affair was delightfully informal. The special train did not reach the city until about eight o'clock. More time was consumed at Marquette than was intended and the arrival of the party was somewhat delayed. The visiting gentlemen were conducted to the Nelson house, where they remained until shortly after ten, when the train pulled out for the copper country, where yesterday was spent.

During the evening a large number of people paid their respects to the senior senator of the state and his well known companion, ex-Governor Rich, now collector of customs for the Detroit customs district. Many of the callers were acquainted with the gentlemen and introductions of the strangers soon put all on a pleasant familiar footing. Politics was all but tabooed, as the junket was not for the purpose of putting up or repairing political fences.

It was the intention of the local Republicans to arrange quite a reception for their visitors. It was decided to consult their wishes, however, and a gentleman went down to Sands to meet the party and consult its members with reference to this. Senator McMillan stated that he would prefer an informal reception, remarking that he was making the tour simply to call on his friends. He informed the chairman of the party that everything in connection with his candidacy for the senatorship was most encouraging.

The wishes of the party were consulted and the reception was entirely informal. The evening passed agreeably for the visitors and those who called to pay their respects until the time set for the departure of the special train, when the members of the delegation were escorted to their train.

EXTENSIVE REPAIRS.

The Cleveland Cliff's company has contracted with Charles Regstrom for a large quantity of repair work to be done on the company's buildings at the Imperial mine location at Michigamme, where many of the houses need repairing. All the dwellings will receive attention and they will be made proof against the severe weather. The work will be started at once and completed in a few days.

THROUGH TO HOUGHTON.

Official car 403 of the Chicago & Northwestern railroad passed through here yesterday morning, attached to the D. S. S. & A. regular, en route for Houghton. E. D. Brigham, assistant general freight agent, and S. F. Miller, general agent of the road, with Mrs. Brigham, Mrs. H. V. Trford and Mrs. M. E. Bush made up the party which occupied it. Here the party was joined by Mr. and Mrs. Henry Harwood and Mr. and Mrs. W. S. Nelson. Last evening's members attended the wedding of Miss Hoar, daughter of William B. Hoar. The car will probably come down from Copperdun today.

CHOPPERS ARE SCARCE.

One reason for the great scarcity of good fire wood lies in the difficulty experienced in obtaining labor to work in the woods. One dealer here states that he is now paying \$1.50 per cord to chop and yet finds it very difficult to get the work done. The best wages offered in years can now be had by good

Mrs. J. N. Leveillee.

Dr. Coderre's Red Pills Made Her Well After Years of Helplessness.

Just think of it--to be alive three years and yet to be practically dead! Think of lying in bed for years, helpless and racked with pains! While others were enjoying life and happiness, Mrs. J. N. Leveillee was agonizing on what she thought was her death bed. Can't you see how grateful she must be to Dr. Coderre's Red Pills for Pale and Weak Women for completely curing her from the death almost? And yet there is nothing to be wondered at. All diseases can be cured, if the right remedy be taken. There are so many wrong medicines, however, and so many women who take them, that the only right remedy for pale and weak women is Dr. Coderre's Red Pills. Mrs. J. N. Leveillee writes:

Dr. Coderre's Red Pills cure all kinds of ailments. They are the greatest known tonic and invigorator for women. They make childbirth easy, and insure quick recovery afterward. They are free of charge by mail. If preferred, they can be sent by express, or by registered letter, money order or express order to us. We mail them all over the world; no duty to pay.

Dr. Coderre's Red Pills, at 50c. a box, last longer than liquid medicines costing \$1. They are easier to take, more convenient to carry, and they cure. Address all letters to:

THE FRANCO-AMERICAN CHEMICAL CO.,
Medical Department, Montreal, Canada.

men and handsome earnings can be made. The fact remains, however, that the labor can not be obtained and it is thought that there may be a serious wood famine here before spring.

FORMING A BOOK CLUB.

Mr. Taylor, representing the University Traveling library, is spending some time here. He is organizing a book club of that institution. He has obtained the names of many prominent people who will hold membership in the local library club and expects to complete the list shortly. Forty persons is the limit for a single branch. The University furnishes fifty volumes to its subscribers. At the expiration of three months the books are replaced by a second lot, and so on until the expiration of the fifth year, when the University completes its contract. The institution is incorporated under the laws of Iowa. Special pains are taken to select the most valuable works and the reading of the members of the clubs is directed along wholesome educational lines. The system will be installed all over the peninsula by Mr. Taylor. He will remain in Ishpeping until the full quota of subscribers has been enlisted in the local branch.

YELLOW FEVER IN THE ARMY.

It isn't the number of men that yellow fever kills that frightens you, but the unexpected suddenness of its attack and the rapidity with which it kills. A man is well and hearty at 3 p. m.; at 4 p. m. he is deadly ill; at 6 p. m. he is dead, and at 8 p. m. he is buried. In such the same manner men will work day after day in apparent health, and then suddenly appear a general weakness. The body is giving out. It needs something to strengthen it, to drive away the impurities of the blood, to tone up the stomach and assist digestion. For this purpose Hostetter's Stomach Bitters is highly recommended. It will cure dyspepsia, indigestion, constipation, malaria, fever and ague.

ISHPEMING IN BRIEF.

E. R. Morrison of Marquette was here yesterday.

Sheriff Carlson was up from Marquette Tuesday for a few hours.

Charles Kruse and George A. Newett went out to Camp Nine Tuesday on a hunting trip.

Attention is called to the card of William Dowrick of Empire street, veterinary surgeon. It is published in another column.

Lightning affected the telephones of both systems yesterday noon and there was considerable unlooked for ringing of bells.

Wretched weather prevailed yesterday. The rain fell was heavy and persistent. The weather forecast for today predicts a let-up in the rains.

The new directory of the Marquette county phones is now about ready for distribution. It will be put in the hands of the subscribers in a few days.

August Embloom has moved his saloon business from its location in the Johnson block of Cleveland avenue to the store room under the Scandinavian hall on Second street.

The city has been very orderly the past few days, this being in marked contrast with the disturbances of the middle of the month. The police are having an easier time of it latterly.

Chris Christianson moved his saloon from its location in the Nolan block to the stand vacated by August Embloom in the Johnson building yesterday. There is no tenant for the store in the Nolan block.

The Western Union time clocks which have been installed in numerous business places have not yet been connected so as to give Washington observatory time hourly during the day. It is expected that they will be in running order within a few days.

An alarm of fire yesterday noon brought out the department. It was thought that the blaze was caused by lightning, but it was found that there was no necessity for getting the firemen out, as the blaze, which was located at Read's lumber yard, was extinguished without their aid.

With Fall Should Come New Furniture.

Visit the Columbian Furniture Co.

Newly married couples and people refitting homes find our stores their Mecca. Complete assortments in all lines at all qualities and prices. ALL WE ASK IS GIVE US A TRIAL.

In Our Undertaking Department

most approved methods are followed. All professional devices are employed. Propriety of all arrangements and absolute perfection of work guaranteed.

COLUMBIAN FURNITURE CO.,
H. W. OUTHOUSE, Prop. (9-14-0)

Upper Peninsula News.

The home of Attorney Fleming at St. Ignace was struck by lightning on Friday of last week. The stove furniture was scattered about, the stove pipe knocked down, and not a brick in the chimney remained above the roof. The family was away at a neighbor's at the time.

WANTED--FOR RENT OR SALE.

FOR SALE--One fine Jersey cow and heifer calf. My services as a veterinary surgeon may be had promptly on call. Fine recommendations.

WILLIAM DOWRICK,
(10-26-3w) Empire St.

The Kirby-Carpenter company of Menominee has disposed of its next season's cut of Nos. 3, 4 and 5 boards to the Paepcke & Light company of Chicago at an advance of \$3 per 1,000 over this season's prices. The cut will be about 12,000,000 feet, and the amount involved about \$112,000.

FOR SALE--I have two fancy three-seated and one fancy two-seated livery sleighs in good condition, ready for immediate use, for sale. Apply to Ole Walsech. (10-21-1f)

Tuesday morning the work of clearing the site for the government building at Marquette was commenced. The building utilized by S. Calien for a store room was moved to the lot formerly occupied by Robt. Wall's blacksmith shop. The site will be cleared completely this fall and next year a handsome building will adorn it.

LOST--A Delta Sigma Delta fraternity pin. Seven pearls in the Sigma. Reward offered. Inquire Mining Journal, Ishpeping. (10-19-1w)

A marriage certificate was issued at Crystal Falls Monday to Edward Carlson and Annie Carlson of the Great Western location. This is the lady's second marriage without changing her name. Her maiden name was Annie Carlson. She was married originally to a man named Carlson. He died and now she marries again without changing her name.

FOR SALE--House and lot at 205 Houghton street for sale. Was the property of the late James Connell. Apply to REV. J. M. LANGAN. (9-29-1f)

The body of Anton Johnson, who has been missing from Carney since September 21, was found Monday morning about six miles east of that town on a deserted logging road. A bullet hole in the forehead with the weapon lying near the body, revealed the method of his death. The body was badly decomposed. This logging road is seldom traversed in the summer time and Johnson evidently realized that his body would not soon be found when he committed the rash act.

THE GAYNOR DANCING CLASS

Will Open for the Season at

ANDERSON'S HALL,
Friday Eve., Oct. 27.

On the Opening Night There Will Be a Lesson Followed by a Hop.

Prices per Term's Instruction.

GENTLEMEN	\$3.00
LADIES	\$2.00
PRIVATE LESSONS	.50

(10-21-3m)

This week the lumber piers employed by the various companies on the Menominee river will organize a union. There are over a hundred piers and yard men on the river who will join. A wage scale will be formed and adhered to. This will make a Vessel Loaders union, Shingle Weavers, Lath Pullers, Coal and Freight Handlers and a Lumber Piers union, five altogether on the Menominee. Efforts will probably be made to unionize the other men employed in the mills.

ISHPEMING OPERA HOUSE.

E. J. BUTLER, Manager.

S. M. Stephenson is negotiating for the purchase of a two-thirds interest in the newly-discovered Dehumbert mine near Sagola. The mine is owned by E. L. Hammond and T. B. Catlin of Iron Mountain and G. A. Blesch of Menominee. Mr. Stephenson will probably purchase the interest of the Iron Mountain men. This mine is located on a new range and promises to be a bonanza. This week a diamond drill will be operated. The proposed deal will involve considerable money.

THE WHITE SPEAR MEDICINE CO.

Up-to-Date Vaudeville by Up-to-Date Specialty Artists.

Two Grand Haven citizens have secured an option on forty acres of land adjoining Spring Lake, Iron county, and will start a skunk farm there next spring. One of the would be skunk farmers leaves for Ohio next week to study the methods of a large farm of the same nature near the city of Circleville. This Ohio skunkery yields its owner a profit of nearly \$5,000 yearly. The Grand Haven men intend to buy forty polecats, which inside of three years they claim will increase to 1,000 or more.

Popular Prices Rule.

(10-17-8d)

RHEUMATISM CURED IN A DAY.

"Mystic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by Frank Pendill, druggist, Marquette. (10-10-1f)

On Account....

of my limited store space I will have no formal fall millinery opening. My customers can find me at 219 Pearl street with me.

GLORIOUS NEWS Comes from Dr. D. B. Cargile of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved--that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidney and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by The Stafford Drug Co. Guaranteed.

Latest Pattern Hats and Fall Novelties.

My trimming facilities are unequalled. I have no exorbitant rates to pay and my patrons get the benefit. My goods are all open for inspection and I would be pleased to receive all interested in fall millinery.

IT MAY SAVE YOUR LIFE.--A dose or two of Foley's Honey and Tar will prevent an attack of pneumonia, grip or severe cold if taken in time. Cures coughs, colds, croup, laryngitis, hoarseness, difficult breathing, whooping cough, ineffectual consumption, asthma or bronchitis. Gives positive relief in advanced stages of consumption, asthma or bronchitis. Guaranteed. The Stafford Drug Company.

Mrs. A. Deadman,
(9-9-1f) 219 Pearl Street.

ROYAL Baking Powder Absolutely Pure

Consumption Cure--Warner's White Wine of Tar Syrup, the best cough remedy on earth, cures a cold in one day if taken in time.

Kodol Dyspepsia Cure.

Digests what you eat.

It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps, and all other results of imperfect digestion. Prepared by E. C. Dewitt & Co., Chicago. Stafford Drug Co.

YOU NEVER GET TIRED OF Uneeda Biscuit. It's because they contain the nourishing substance of wheat in a plain, palatable form. They're kept good in the patent air tight package. Five and ten cent sizes. Avoid imitations. Made only by NATIONAL BISCUIT COMPANY. For a pleasant change of diet—Uneeda Jinjer Wayfar

In and About Negaunee.

MACK IS PLEASED. THINKS THE FEDERAL STEEL COMPANY WAS WISE IN TAKING AN OPTION ON THE FORTY ADJOINING THE BARASA.

John F. Mack, manager of the Barasa Mining company, under whose direction the Barasa mine has been developed, was asked by a Mining Journal representative yesterday morning what he thought about the option taken by the Federal Steel company on lands adjoining the Barasa tract.

Mr. Mack held an option on the forty which is now controlled by the Federal Steel people for many months while he was working on the Barasa property. He considered the forty valuable but the Barasa required so much time and money that he was not able to undertake exploratory work on the other tract.

Next week at the latest the results of the three months exploring at the Hartford mine, which is owned by Benjamin Neely of this city and is under option to the Oliver Mining company, will be made known to the public.

COAL CONSUMPTION OF OCEANIC. The White Star steamer Oceanic has been the all-absorbing marine engineering topic of the month, and comparative tonnage and horse power figures and speeds have been glibly used even by the average man met in the streets.

HUNG UP THE TOOLS. A pick and shovel with a card attached attracted attention in front of the Montreal house Tuesday noon. The inscription on the card was illegible written but those who took the trouble to spell it out were informed that the tools were being held for the price of two drinks.

HE FOOLED THE SURGEONS. All doctors told Renick Hamilton, of West Jefferson, O., after suffering eighteen months from Rectal Fistula, he would die unless a radical operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on Earth, and the best Salve in the World. 25 cents a box. Sold by the Stafford Drug company.

HE WORKED HERE. Floyd M. Sanders of Tawas, Mich., the car painter on the D. S. S. & A. road whose height is six feet nine inches, was employed here for some days. He attracted considerable attention at Marquette Tuesday by out-towering F. C. Chamberlain, the Tall Pine of the Gogebic. Sanders was regarded as a wonder while in this city and many stories are in circulation concerning his unusual altitude.

DISCOVERED BY A WOMAN. Another great discovery has been made, and that, too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest test, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose that she slept all night and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz. Thus write W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at the Stafford Drug company. Regular size 50c and \$1.00. Every bottle guaranteed.

Becoming a Mother. Mother's Friend. An ordeal which all women approach with indescribable fear, for nothing can compare with the horrors of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipation of the coming event, and casts over her a shadow of gloom that cannot be shaken off. Thousands of women have found that the use of MOTHER'S FRIEND during pregnancy is a safety to mother and child. This scientific liniment is a godsend to all women at the time of their most critical period. Not only does MOTHER'S FRIEND carry woman safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness" and other discomforts of this period. Sold by all druggists at 50c per bottle. Send for free booklet to THE BRADFIELD REGULATOR CO., Atlanta, Georgia.

COPPER COUNTRY NEWS.

(Continued from Page Three.)

his hands, will find that he is getting the worst of it. Dr. Hulst looks for a year of unparalleled activity in 1900 in the Lake Superior mines and declares that the mines will next season reap the harvest that would have been theirs this year had they not sold their ores too early to the extent that the demand would mean in prices before the season was over.

COURT DATES FIXED.

Judge Jay A. Hubbell has fixed the times of holding court in the three counties of the Twelfth judicial circuit for the years 1900 and 1901 as follows:

- BARAGA COUNTY. First Monday in January. Second Monday in April. Second Monday in July. First Monday in October. (July term non-jury unless otherwise specially ordered.) KEWEENAW COUNTY. Second Monday in January. Third Monday in July. Second Monday in October. HOUGHTON COUNTY. Third Monday in January. Third Monday in April. First Monday in August. First Monday in November. The next term of court for Houghton county opens on the first Monday in November, the 6th, and the docket promises to have an unusual by large number of criminal cases upon it this time.

HANDSOME NEW WAREHOUSE.

Ruelle & Dube's new warehouse on the Ruelle water front at Houghton is finished, the last of the doors being hung yesterday. The new warehouse is a beauty, the 5,000 feet of floor space on the first floor being entirely unobstructed by post or pillar, while on the second floor the braces of the trusses offer very little obstruction. The trusses are of the regular bridge pattern and are of 8 by 12 inches, with a tie-piece underneath 8 by 8, making the lower part of the truss 8 by 20. The new warehouse has been neatly painted and received its first freight yesterday, when the Baraga and Chicago put off seventy-five barrels of apples for local merchants.

NEW HAND AT THE WHEEL.

The Copper Journal is going to have a new advertising manager, as this, taken from The State Republican of Lansing, sets forth: "With Saturday's State Republican Jerome J. Wood severed his connection with the editorial staff. He has accepted a position on the Hancock (Mich.) Copper Journal and will leave for that city tomorrow. He will fill the position of advertising manager. Mr. Wood has been with The State Republican for more than a year and has proved to be not only an earnest and faithful newspaper man, but a prolific and interesting writer as well. If he keeps up the same clip in Hancock he will assuredly make a success in his new field."

COPPERDOME BREVITIES.

Professor Spruce, of the College of Mines, left yesterday on a trip to Iron Mountain. W. T. Potter of Ishpeming, prosecuting attorney of Marquette county, was a Portage Lake visitor yesterday. Fred Dougherty, formerly of The Mining Journal and now telegraph editor of The Evening Wisconsin of Milwaukee, arrived yesterday morning to "do" the copper country on a vacation trip. The road from Houghton out past the Copper Range mine is a terror, to use the words of George Wallace, of the Lake Superior Powder company, Marquette, who braved the deep mud yesterday.

After Nov. 1 the telephone company will answer calls by number only in the copper country exchanges. The Houghton switch boards were rearranged Tuesday night, and now The Mining Journal's number is 318.

Harry Lee, formerly night clerk at the Hotel Marquette and later clerk at the New Northwestern, Hancock, has resigned his position on the South Shore surveying corps and is again behind the desk of the Northwestern as day clerk for his former associate, Powhatan Bolling.

John Stanton, of the Atlantic, Baltic, Wolverine, Phoenix, Mohawk and Michigan mines, arrived from New York Tuesday, accompanied by Dr. Moore of the Atlantic and his bride, nee Stanton, who have returned from their wedding trip. Superintendent F. Mc.M. Stanton reached home Monday ahead of the party.

Louis Olson was taken up to Calumet from the county jail yesterday and was arraigned before Justice Fisher, charged with highway robbery for holding up Master Mechanic Lindquist at Calumet a short time ago. He waived examination and was bound over for trial at the circuit court under bonds of \$1,000. In default of the bonds he was returned to the county jail.

A. J. Otterson, agent of the Union Transit company, has received notice from H. C. French, general manager of the company, to the effect that on Saturday, Nov. 11, the line will discontinue receiving freight shipments at Lake Erie ports for Lake Superior and that the last sailing will be made that day from Buffalo. Agent Thomson states that the steamers of his lines will also refuse freight after about the date named.

THE BANNER PILE CURE is Banner Salve. It gives immediate relief and will soon effect a cure. 25 cents. The Stafford Drug company.

ROYAL Baking Powder Absolutely Pure

Where It Rains Forever.

You can expect a shower at Panama, says a correspondent in the Chicago Record, about three o'clock every afternoon during the rainy season. The rest of the day and evening after six o'clock is delightful, and no one thinks of carrying an umbrella, but at Colon it rains all the time, and, according to the old proverb, it never rains but it pours. It is the real thing by the bucketful. It seems as if the bottom had dropped out of the sky. Colon and Panama are 47 miles apart. The rainfall at Panama is about 92 inches annually, or about eight feet. The rainfall at Colon is 250 inches annually, or about 21 feet, and the people get it all in five months, an average of four feet a month precipitation, while in Arizona they only have a few inches. It takes all the rest of the year for the people to get dry.

HE FOOLED THE SURGEONS.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering eighteen months from Rectal Fistula, he would die unless a radical operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on Earth, and the best Salve in the World. 25 cents a box. Sold by the Stafford Drug company.

HE WORKED HERE.

Floyd M. Sanders of Tawas, Mich., the car painter on the D. S. S. & A. road whose height is six feet nine inches, was employed here for some days. He attracted considerable attention at Marquette Tuesday by out-towering F. C. Chamberlain, the Tall Pine of the Gogebic. Sanders was regarded as a wonder while in this city and many stories are in circulation concerning his unusual altitude. He painted railroad buildings here. One of his notable achievements was decorating a rather low shed, roof and all, without using a ladder. The walls were painted without the least trouble. The territory about the ridge held for the price of two drinks. He had a good job of it. He had an amusing chase about the city looking for a pair of overalls. The longest size in the local stores barely reached his knees and he had to send out for a special pair.

DISCOVERED BY A WOMAN.

Another great discovery has been made, and that, too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest test, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose that she slept all night and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz. Thus write W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at the Stafford Drug company. Regular size 50c and \$1.00. Every bottle guaranteed.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets,—beauty for ten cents. All druggists, satisfaction guaranteed, 10c, 25c, 50c.

The Best Cough Remedy on Earth.

Warner's White Wine of Tar Syrup, Consumption Cure, cures a cold in 24 hours if taken in time and does not stop a cough in one minute by paralyzing the throat, but it cures the disease and leaves the throat and lungs healthy and strong. 25 and 50 cts

FOR SALE—Two driving horses, a phaeton, cutter, robes and other driving equipment. Apply Benjamin Neely, Sr., Negaunee. (9-9-tf)

LOTS OF NEW STREETS.

More Than a Mile of Good Macadam Roads Built and Rebuilt This Season.

MORE SIDEWALKS LAID THAN FOR SEVERAL YEARS PAST.

This Season Has Been a Busy One for the Street Department—Cement Gutters an Innovation—Cement Sidewalks in Favor.

THROUGHFARES ARE IN GOOD SHAPE.

Marquette's streets were never before in such good condition as they are today and never before were so great a proportion of them new. More streets have been built and repaired this summer than for a good many years back, if not in the history of the city.

This condition of affairs is due to the policy which has been followed by the common council for the past several years. During that time it has appropriated liberally for street building and several good macadamized streets have been added each season. Marquette has now a number of miles of this kind of paving and outside of the business district it gives the best of satisfaction. There is a feeling among a good many that the pavements on the down town streets ought to be of a more lasting character, wooden blocks, stone, brick or asphalt.

NEARLY DONE WORK.

The building work of the street department for the year is practically finished. The only piece of street now under construction is that on Rock street, and Commissioner French says that another day's rolling will finish that. The road roller was idle yesterday on account of the storm.

This has been a long and busy season for the commissioner and his men. The rock crusher went into commission May 10, forty days earlier than it started the year before. It stopped running this year on Oct. 18; a year ago it stopped Oct. 4, making a difference of a month and a half in its time of operation the two seasons. This, however, is not a real gain, as the work was twice interrupted this summer, once on account of a break down and once by the tournament. Still the length of the run was considerably greater than it was a year ago.

TABLE OF STREET WORK.

The amount of street work, building and rebuilding, which has been done this season is shown by the following table:

Street	Feet
Superior	1,600
Washington	800
Hampton	1,200
Spring	800
Arch	700
Spring	300
Rock	1,100

Total, seven streets, 6,500.

No account is taken in this table of small repairs to streets, in which work the department has been called upon to spend considerable time and money. It represents in every instance practically new streets.

THIS YEAR'S INCREASE.

The increase in work this year over last is 1,200 square yards. The number of linear feet laid is, however, not so much greater, as this would seem to indicate on account of the great width of Superior street. The ordinary streets are macadamized only twenty-four feet wide, while Superior, which measures ninety-six feet across, was macadamized from curb to curb. The rebuilding of Superior street was the biggest job the department undertook this season, but it is now the finest street in the downtown part of the city. It was an improvement which was greatly needed and to get which the residents of that part had been working with the council a long time. The macadam extends three blocks. It was laid from Front street to Fourth and from Fifth to Sixth.

WAS BADLY NEEDED.

Another much needed piece of work which was done this summer and which the council was besought to authorize for a long time, was the rebuilding of Washington street. While one of the principal business streets of the city it had been allowed to fall into a bad state of surface repair. It was put in good shape just after the tournament, with the exception of a little less than a block between Third and Fourth on the north side of the street, which was left in its original condition in order to permit the Michigan Telephone company to put its wires under ground, it being the company's intention to run them below surface from there to its building in the next block. Early in the spring, or as soon thereafter as the telephone company does this work, the remaining part of the street will be top dressed and rolled. The improvement will then be permanent as there will be no necessity to tear up the street.

COMMISSIONER'S PRIDE.

The Hampton street job is one on which Commissioner French particularly prides himself. This used to be one of the worst streets on the south side, but now its roadway is like a rock and as nice as any in the city. Within the past few days the commissioner has been putting a little work on the Chequamegon road. This was built several years ago but was never finished. He has now top dressed all but a small strip of it between the Carp river bridge and the Branch prison.

Another branch of its work in which the street department has excelled itself this season is in the building of sidewalks. Half again as many were built in the season of 1898 as in 1899, this being shown by the amount of lumber used. In 1898 only 200,000 feet was used, while this year the amount runs up to 300,000 feet. It is shown also in the sidewalk account, which shows \$2,000 for this purpose in 1898 and \$3,000 for it this year. Mr. French was unable to tell yesterday just how many blocks had been built, but it is much more than for some seasons past.

NOT ALL SHOW WORK.

The work which has been done on the streets and sidewalks is apparent to everyone who walks or drives over them, but in addition to this the department has done a great deal of work which does not show. This includes ripraping Presque Isle drive, repairing catch basins, sewers and such things. It is all

work that has to be done at the expense of time and money, but it is not apparent to the public and brings little if any credit upon the street commissioner and his department.

An innovation which has been made here this year is the laying of cement gutters. Two of these have been laid on Front street, one down the big hill from Bluff street to the Savings bank and the other down the smaller hill from Rock street to Superior. More of them would have been laid if the commissioner had been able to secure the material. In time gutters of this kind will be found on all the down town streets and possibly through the residence district.

SENTIMENT FAVORS CEMENT.

Cement cross walks are beginning to be laid, though the first one was put down in the season of 1898. A second was laid late this summer across Washington street on the east side of Front. The common council has already pledged itself to this kind of cross walk, having passed a resolution calling for them whenever a new walk is required in the business district. There is a growing sentiment in favor of having walks, as well as crossings, particularly in the down town district, built of this material.

Before street work was begun this season the common council appropriated \$12,000 to be spent through the highway fund. It is impossible now to tell just how much of this money was expended, but though more work was done than was figured upon originally, the street commissioner says he thinks there is still something left. He says he hopes this surplus amounts to at least \$1,500, as that amount will be required to run the city through the winter. This money will be paid out for small repairs and in keeping the streets and walks clear of snow.

MARCH STORM COST \$800.

The expense to the city from an average snow storm is about \$40 for cleaning walks, but big storms, when it is necessary to shovel out the streets, cost a good deal more than this. The great storm of last March cost the city at least \$800.

During the season Commissioner French's department has employed from twenty-five to thirty men. A dozen of them have been kept busy at the stone crusher and the rest on the streets. The wage scale this year was about ten per cent. higher than last year. Common labor received \$1.50 a day and some of the skilled labor as high as \$2. Even at these prices it was impossible to keep a steady force of men. On account of the number of other jobs available, often with increased pay, the employees of the department were shifting more or less all season.

Before the winter sets in there is still considerable light work to do, such as cleaning gutters and making ready generally for the stormy season. One of the pieces of work still waiting to be done is repairing the trunk sewer on Lake street.

WEDDED IN CHURCH.

MacPherran-Wilkinson Ceremony Witnessed by Many Friends.

The wedding of Miss Alice Mabel Wilkinson, daughter of Mrs. J. M. Wilkinson, and Edgar W. MacPherran, both of this city, was solemnized at the First Presbyterian church at 8:30 o'clock last evening in the presence of a large company of friends and relatives. Rev. J. M. Rogers performed the ceremony. The church was tastefully but simply decorated with ground pine and ferns. Mrs. Andrew Klein presided at the organ and gave a beautiful rendition of the Lohengrin and Mendelssohn wedding marches. Miss Gould of Brooklyn, N. Y., was the maid of honor, and the bridesmaids were the Misses Carr of St. Paul, Mallory of Brooklyn, Stockton of Chicago and Merritt of Marquette. James Duffy of Bay City acted as best man, and Messrs. Ralph MacPherran of Milwaukee and Charles MacPherran of Chicago, I. Newton Swift of Ypsilanti and Frank B. Spear, Jr., of Marquette as ushers.

The bride wore a wedding gown of white silk mull over taffeta, and carried a bouquet of white roses. The bridesmaids wore gowns of dotted white mousselin de sole trimmed with lace and pink velvet and carried pink carnations.

After the ceremony a supper was served at the residence of the bride's mother for the bridal party. Mr. and Mrs. MacPherran left on the night train for a trip of about two weeks, and will be at home after Nov. 29 at 355 East Ridge street.

The bride is one of Marquette's daughters, having lived here all her life. The groom is land commissioner of the D. S. S. & A. railway. Both have the esteem and best wishes of a wide circle of friends.

FEW SMALL ADVANCES.

Most Coppers Continue Falling but a Few Score Small Gains.

Generally speaking there was not much change in the copper share situation yesterday. However, it was a little more encouraging than it was the day before as there were a few gains scored. Another feature of encouragement was the rather brisk rally in the metal.

Arcadian, which has been leading the slump, fell off a couple more yesterday and closed at 35½. There was a gain of one for Atlantic, which closed at 25. Boston & Montana closed up five to 35, but Butte & Boston fell two and finished at 65. Old Colony made a good gain, jumping from 5 Tuesday night to 6½ on the opening yesterday, while the close was still an eighth better. Old Dominion also netted an advance and closed up at 26; it opened three-quarters better. Tamarack went up two points and closed at 210. Anaconda closed up 2½ at 45. All other changes were fractional, and with the exception of a quarter gain on Mohawk, were unimportant. Hayden, Stone & Co. quoted London copper opening at 274, 1s. 3d and the close three pence better; the close the night before was 273, 10s.

Paine, Webber & Co. said yesterday in their daily letter to the local branch: "Boston, Oct. 25.—Good coppers are cheap for any one who can take care of them. Mohawk at going prices looks very attractive. Baltic at 22 is very cheap. The only sellers are the bears and they will soon run, we think. Two and a half is bid for a large amount of Wyandotte. A London cable says: Copper is recovering smartly. Sales of active coppers Tuesday: Adventure, 230; Allouez, 450; Anaconda, 100; Arcadian, 975; Atlantic, 300; Baltic, 550; Bingham, 565; Boston & Montana, 164; Butte &

Boston, 100; Calumet & Hecla, 84; Centennial, 595; Cochita, 1,200; Copper Range, 150; Franklin, 235; Mass, 110; Michigan, 525; Mohawk, 300; Osceola, 245; Parrot, 1,200; Quincy, 67; Rhode Island, 210; Santa Fe, 3,700; Tamarack, 45; Trilmountain, 425; United States Mining, 300; Utah, 2,300; Victoria, 101; Washington, 2,210; Wolverine, 955; Wyandotte, 360."

Wheat fluctuated yesterday within very narrow range, a quarter being the limit. Both options closed where they did Tuesday, December at 70½ and May at 74½. A. R. Jones said yesterday:

"Chicago, Oct. 25.—Wheat—Yesterday's weak close brought a like response from Liverpool today and another low opening. Liquidating sales carried prices again to a shade under 70 cents, where buying began against puts, in which there was a hearty trade. This buying turned the market stronger and it slowly gained ½. Breaking of the drought in the southwest was another big factor in the early weakness and hastened liquidation. Outside trade was extremely small, so the local traders had everything their own way. Smith was credited with the bulk of the buying against puts as he was the biggest holder of privileges. There was very little in the news to influence prices either way. As noted heretofore, the corn market is the leader, stronger today than as any time so far and without it wheat would have made a poor showing and on the movement of corn tomorrow depends very largely the prices for wheat. The wheat appears to have no special strength and unless helped by other grains it will likely sell off again before tomorrow's close. We notice, however, that the feeling on the curb is firm."

WILL GET TWELVE MILLION.

Successful Spawn Taking for the New York Fish Commission.

The 12,000,000 lake trout spawn which Captain Rose of Charlevoix was commissioned to secure on Lake Superior this season for the New York fish commission seems in good way to be realized. Already upwards of 11,000,000 embryo fishes have been secured and there is a week yet to run.

More of the spawn has been secured from the fish tugs working out from Marquette than from any others on the lake. Captain Rose said yesterday that 5,000,000 had been secured here. Of the rest about 2,000,000 has been taken out of Munising and in the neighborhood of 4,000,000 from Sault Ste. Marie and Canadian points. The quantity secured last year was only about 8,000,000 from all places.

TELEPHONE CABLE LAID.

Two Peninsulas of Michigan Can Now Hello Across the Straits.

The Michigan Telephone company's cable across the straits of Mackinac was laid yesterday. The work was done without accident and the cable is working perfectly. This news was contained in a telegram sent to The Mining Journal last evening by Division Superintendent George D. Sherman from St. Ignace. Mr. Sherman has been there about a week superintending the job. He adds in his telegram that conversation can be easily carried on over the cable. Now that this is laid the company will bend all its energies to completing the line between Marquette and St. Ignace.

BACK TO ST. IGNACE.

Pitcher Frisk Will Spend the Winter in the Upper Peninsula.

Emil Frisk, the one time Marquette pitcher who has been working this season with the Detroit in the Western league and later with Cincinnati in the National, will return to St. Ignace to spend the winter, though, according to a Detroit paper, he would not be averse to spending the winter in that city if he could find something to do. The Press speaks of him as the Canadian league pitcher who has made a name for himself as a natural batsman.

VESSEL MOVEMENTS.

PASSED THE CANAL.

Sault Ste. Marie, Oct. 25.—(Special).—Up—Masaba, 9; Adelia Shores, 10; Butternut, 10:30; Pease, Planet, 12:30; Fulton, Russell, 1; Ogleyay, 1:40; Nicholas, 2:20; Jay Gould, 3:20; City of Bangor, Corona, 6; Turner, Buckeye, Pendall, Hoag, 7; Lynn, 8:40; Trevor (whalebacks), 9:30; Toltec, Zepotic, Ranney, Sanduskey, 12; Northern Wave, 1; Castalia, 6:30; Bulgaria, Amazon, Angeline, 8.

PORT LIST.

Up—None.
Down—None.
Arrived—Andaste, Pratt, Athens, Corona.
Cleared—Andaste, Buffalo.

LOCAL MARINE NEWS.

Vessel business was rather light here yesterday. Four boats arrived and only one cleared. No packet freighters came in. The Continental has nearly finished unloading her coal cargo at Pickands' dock. The Sam Mitchell is expected in with a load of coal this morning.

SPECIAL NOTICE.

Office of the Odd Fellows' Building Association of Marquette:
Notice is hereby given that there will be sold at public auction, to the highest bidder, at the office of the association, second floor of Fraternity block, Marquette, Mich., on Friday, Nov. 10, 1899, at 3 o'clock a. m., the following shares of the capital stock of said association for the non-payment by the owners of said stock, for thirty days and upwards, after the same became due and payable, of assessments of the amount set opposite the certificate:
No. of Cert. No. of Shares. Amt due.
15..... 8..... \$28.00
