## MANY BOERS PRISONERS.

Nearly a Thousand Sent to Pietermaritzburg in Captivity.

## SKIRMISHES IN NATAL.

News is Much Delayed, but the Opposing Forces Apparently Are On Verge of Great Battle.

## YULE'S MEN ARE RESTING.

Ladysmith, Oct. 27.—General Yule's column is recovering from the fatigue of the march from Glencoe. The morale of the troops is splendid.

London, Oct. 27.—A Pietermaritzburg (Natal) special dispatch, dated the 24th, says: "Nine hundred and eighty-eight Boer prisoners arrived here this morning."

## MAY BE FIGHTING NOW.

London, Oct. 28.—The war situation this [Saturday] morning presents no new features. It is presumed that in Natal the Boers are reconstructing their plans and that the English are resting, but telegrams from Ladysmith at express rates still occupy forty-eight hours in transmission to London, therefore it is not impossible something is happening.

## SYMONS ORDERED THE RETREAT.

The Daily Telegraph publishes the following dispatch from Ladysmith, dated Tuesday:

"General Symons ordered his column to march back to Ladysmith, and under his instructions, himself and all the wounded were placed in hospitals at Dundee. It is supposed the Boers, puzzled by the retirement, imagined a trick was being prepared, and therefore remained at Dundee, watching their guns, instead of following the British."

## SKIRMISH AT REITFONTEIN.

The Daily Telegraph publishes the following from Ladysmith, dated Wednesday:

"Our cavalry patrols have been fired on this forenoon and chased by the enemy near the scene of the Reitfontein engagement. The Boers show signs of becoming aggressive."

"We have learned of the capture of the hussars in response to a military wire sent: Commandant General Joubert."

## SPIES JAILED AT DURBAN.

Durban, Natal, Oct. 24.—[Delayed in transmission.]—Many spies have been arrested here, and some of them are to be shot. On the strength of representations by the mayor of Durban, the governor of Natal, Sir Walter Francis Hely-Hutchinson, has prohibited the landing of all but British refugees. Undesirable persons of all nationalities will be rigidly excluded. Already there are too many of this class in Durban. It is reported that one of the Indian transports is being fitted out to convey the Boer prisoners elsewhere.

## BELATED GLENCOE NEWS.

According to the latest account of the first battle at Glencoe the Boer army amounted to seven thousand men, and about noon another army, almost as large, under Commandant General Joubert, advanced within six thousand yards of Glencoe camp and then retired. The Boer losses were very heavy—fully three hundred.

## INDIGNATION AT CAPE TOWN.

Cape Town, Oct. 27.—Great indignation has been caused by the announcement that Dr. Hoffman, a member of the Cape house of the assembly, with a party of assistants, is going to the Transvaal to do ambulance work. It is suspected he will give information to the enemy.

## WANT M'KINLEY TO TAKE ACTION.

HOLLANDERS HOLD A MASS MEETING AT GRAND RAPIDS.

Grand Rapids, Mich., Oct. 27.—About a third of the inhabitants of this city are Hollanders, and they held a mass meeting tonight to express their sentiments on the situation in South Africa. Sir John Steketee, local consul for The Netherlands, presided and addresses were made by the three pastors of the Reformed churches. Resolutions were adopted denouncing England for making war on the "Transvaalers," etc., but the audience insisted on the addition of a clause requesting President McKinley to offer the good offices of the United States "to save the independence of our sister republics in South Africa."

## PARLIAMENT ADJOURNS.

SPEECH OF THE QUEEN CLOSING THE WAR SESSION.

London, Oct. 27.—The queen's speech at the prorogation of parliament today congratulated parliament on the brilliant qualities displayed by the brave regiments upon whom the task of repelling the invasion of the South African colonies is laid and expressed the trust that Divine blessing may rest upon the efforts of the army to restore peace and good government there and vindicate the honor of Great Britain.

## DENIAL BY FRANCE.

NO INTERVENTION IN THE WAR INTENDED, IT IS SAID, BUT MYSTERIOUS NAVAL ACTIVITY IS NOT EXPLAINED.

Paris, Oct. 27.—An authoritative statement was issued this afternoon formally denying the rumors of intended Franco-Russian intervention in the Transvaal war and declaring France has no ground and no desire for any such intervention at present, and that Russia is most likely placed in the same position, and adding that Germany is the only power directly concerned in the matter.

## QUEER NAVAL MOVEMENTS.

Paris, Oct. 28.—The Petit Journal asserts that five cruisers of the French squadron now at Piraeus, port of Athens, have been ordered to place themselves in readiness to go to the Cape.

A dispatch to The Journal from Toulon says: "Two or three of the fastest cruisers have been ordered to go to Delagoa bay, and Russian warships will follow them."

The Figaro, while pointing out the contradictory rumors from Toulon on the subject of the dispatch of a naval division from the southeast coast says: "It is certain that the cruiser Cassard sailed from Toulon for Port Said on the receipt of an important telegram enclosing sealed orders."

## VISIT OF THE KAISER.

London, Oct. 28.—The Daily Mail's Berlin correspondent wires that "all arrangements have been completed for Emperor William's visit to the queen. His majesty will arrive in England Nov. 29 and will remain at Windsor castle for five days and then go to Sandringham for a two days visit to the Prince of Wales."

## BRITISH SUBJECTS WARNED.

FREE STATE PROCLAMATION ANNEXING CAPE COLONY TERRITORY IS DECLARED VOID.

Cape Town, Oct. 27.—Sir Alfred Milner, governor of Cape Colony, and W. P. Schreiner, the premier, have issued a proclamation declaring null and void the proclamation of the Orange Free State asserting that a portion of Cape Colony is now Free State territory. Sir Alfred Milner's proclamation warns all British subjects in the colony of their duty and obligations to the queen.

## PROCLAMATION AT PRETORIA.

Lourenzo Marquez, Delagoa Bay, Oct. 27.—The following dispatch has been received here from Pretoria, filed yesterday:

"The government has issued a proclamation declaring that no rents or interests on bonds can be claimed during the continuance of the martial law nor within a certain fixed period after the repeal of the same."

## CORNELIUS MAY CONTEST

DISINHERITED SON SAYS AN AGREEMENT EXISTED BY WHICH HE WAS TO GET \$10,000,000 OF THE VANDERBILT MONEY.

New York, Oct. 27.—The World tomorrow will publish the following: Cornelius Vanderbilt, last night, made this important statement to a World representative:

"The agreement by which I receive six million dollars from my brother's portion of the estate is being made to appear as a mere gift. It is no gift but the result of a compact entered into before my father's demise. By this compact I was to receive no less than ten million dollars. The truth of the matter is that the agreement or adjustment was made from the beginning. There was an understanding between us that my share should be no less than ten million dollars."

Mr. Vanderbilt was asked if there would be an amicable settlement of the estate on the basis indicated by the transfer of six million dollars to him from Alfred's portion. To this he replied:

"You must excuse me. I will not discuss the matter further. I just wish to be set right before the public. All my interests are in my lawyer's hands."

New York, Oct. 27.—The will of the late Cornelius Vanderbilt was filed for probate in the surrogate's office this afternoon. The provisions of the will are substantially the same as mentioned in the synopsis given out Thursday by Chauncey M. Depew.

## PREACHER DIES ON THE GALLOWS.

REV. G. E. MORRISON HANGED AT DALLAS, TEX., FOR THE BRUTAL MURDER OF HIS WIFE.

Dallas, Tex., Oct. 27.—Rev. G. E. Morrison was hanged here today at noon for the murder of his wife in October, 1897. On the scaffold he asserted his innocence. Morrison's crime was one of peculiar atrocity. It appears that he coolly and deliberately planned to poison his wife, a pretty, amiable and affectionate woman, in order to marry a wealthy lady, Miss Anna Whiteley, with whom he went to school at Carbondale, Ills., and to whom he represented that his wife had been dead a number of years. She was the main witness against him.

## DELIA FOX DANGEROUSLY ILL.

NOTED SOUBRETTE LYING NEAR TO DEATH AT NEW YORK.

New York, Oct. 27.—The World tomorrow will publish the following: Delia Fox, the operatic soubrette, was dangerously ill last night and her physicians said that she could not survive the next forty-eight hours. The immediate cause of her precarious condition is inflammation of the bowels.

Toluca, Oct. 27.—Mrs. James Senor of Buayrus died today from the effects of the bite of a pet coon and her daughter, eleven years old, is dying from the same cause.

## MOWED THEM DOWN

Vryburg Magistrate Reports 513 Boers Slain at Mafeking.

## BIG LOSSES AT KIMBERLEY.

Burgbers There Said to Have Carried Their Fallen Comrades Away in Carts.

## BESIEGED HOLDING OUT.

London, Oct. 27.—The magistrate at Vryburg is responsible for a report made today to Premier Schreiner, at Cape Town, that 513 Boers have been killed at Mafeking.

London, Oct. 28.—Special dispatches this [Saturday] morning assert that Colonel Baden-Powell, British commander at Mafeking, is aware that Pretoria has given General Cronje orders to stay his hand, as already there are quiet enough to employ the Boers in Natal.

## BOERS SUFFERED AT KIMBERLEY.

Cape Town, Oct. 27.—According to further advices from Kimberley relating to Colonel Turner's sortie, the Boers removed their killed and wounded in carts. No reliable estimate of their losses has been made. Cecil Rhodes rode out to watch the fight. The townspeople, including women, mounted the trenches, watching eagerly for the return of the troops.

Pretoria, via Lourenzo Marquez, Oct. 27.—The Boers at Vryburg have secured a quantity of ammunition. Commandant Schooman has seized Krondollepoort and destroyed the railway bridge there.

## DUTCH FORCE IN RHODESIA.

MENACING THE RAILROAD TO PREVENT THE REINFORCING OF COLONEL BADEN-POWELL.

Cape Town, Oct. 27.—A telegram from Bulawayo, Rhodesia, dated Monday, says:

"A Boer force is threatening Chief Khama and Chief Linchwe, who are loyal to Great Britain." The two chiefs' country lies at the extreme northwest of the Transvaal and includes Bechuanaland. Probably the explanation is that the Boer force intends to destroy the railway to Bulawayo, which runs through Khama's country, and thus prevent any attempt of Colonel Plummer's Rhodesian force to go to the relief of Mafeking. Already there have been stories of a Rhodesian armored train engaging the Boers some distance north of Mafeking.

## ENGLAND'S OWN WAR.

NO MEDDLING OR MEDIATION WANTED BY ANY POWER.

London, Oct. 28.—Commenting upon the petition to President McKinley, promoted by the New York World, urging that the good offices of the United States be offered in settling the difference between Great Britain and the Transvaal The Standard says:

"We very much doubt whether the Washington government will at all appreciate the suggestion, but in any case it is as well for those whom it concerns, particularly for those whom it does not concern, to understand that the Transvaal question is one which exclusively affects ourselves and which we propose to settle without assistance or intervention of any kind."

## UPRISING BELIEVED CHECKED.

BRITISH COMMISSIONER IN BASUTOLAND THINKS HE HAS CALMED THE CHIEFS.

Cape Town, Oct. 27.—At a great meeting of Basutos, numbering thousands, all the principal chiefs pledged their loyalty to the queen, and urged the claim to be considered as British soldiers. The commissioner, Sir Godfrey Lagden, disabused the idea that Britain needed their aid, and exhorted the chiefs to check their excitement and to beware of false reports. It is believed the probability of a Basuto uprising is now checked, notwithstanding Steyn's proclamation to the chiefs to the effect that no injury will be done to those not assisting the British.

Lerethodi, the paramount chief of Basutoland, has under his command an army of 50,000 men, all well mounted. Of this force 25,000 are armed with breech-loading rifles, and the remainder with assegais and battle-axes. They are said to be expert horsemen and good shots. Basutoland has been under an English protectorate for years, and the English have found them an extremely difficult people to manage. On assuming the protectorate the English authorities forbade this settlement of white people on the territories of the Basutos. This rule has been rigidly enforced, and has been one of the chief means of keeping them in subjection. At one time the forces of Cape Colony attempted to disarm the Basuto warriors, but were forced to desist without accomplishing their purpose. The blacks hold their great chief in the greatest reverence and are extremely jealous of anything that looks like an attempt to interfere with his prerogatives. The English keep no military force in Basutoland, depending entirely upon moral suasion, backed by a few policemen, themselves members of the Basuto tribe.

JETTISONED COPPER RECOVERED. CAPT. SINCLAIR, FOR THE INSURANCE COMPANIES, RAISES THE METAL THROWN OVERBOARD FROM THE RUNNELLS.

The steambarge Suit passed yesterday with the recovered copper which the steamer H. E. Runnels jettisoned at Point Au Sable recently. Captain Cyrus Sinclair of Duluth having been entirely successful in his efforts to recover it for the insurance companies.

CHANCE FOR MORE SALVAGE. The Harlem lay at Carroll's dock all day yesterday fixing up for the trip below. Over a hundred tons of chrome steel billets, thrown overboard from the Harlem when she lay on the reef at Isle Royale, lie where they can easily be recovered, and it is regarded as strange, with steel at its present price, that no effort is made to fish them up.

MARINE MISCELLANY. J. C. Thomson has received notice from the Anchor and Western Transit lines that their steamers will stop receiving freight for Lake Superior ports at Cleveland on the 7th of November and at Detroit on the 8th.

BUNCOED IN CHICAGO. MAN FROM CALUMET THE VICTIM OF A CONFIDENCE GAME THAT COSTS HIM \$80. The Chicago Record of Thursday last published the following: K. M. Sundstrom, a "farmer" from Calumet, Mich., forged his way through a crowd that was waiting in the ante-room of the grand jury yesterday afternoon and presented himself to Captain Knoch, who has charge of the grand jury calls.

AN ELEGANT PLANT. CONTRACTOR MUELLER HAS JUST ABOUT FINISHED IT FOR THE LAKE SUPERIOR PRODUCE & COLD STORAGE COMPANY. On the 15th of August Henry Hildinger, of the Fred W. Wolf company, Chicago, arrived in Houghton to superintend the erection of the Lake Superior Produce & Cold Storage company's new plant, of which the Wolf company were the architects.

GOES TO THE COPPER RANGE. ALBERT MITCHELL, DIAMOND DRILL EXPERT, RESIGNS HIS ELM RIVER POSITION. Albert Mitchell of Marquette, diamond drill expert for the Fay group of mines, has resigned to accept a similar position with the Copper Range Mining company and assumed his new duties Thursday.

SAYS WINONA IS IMPROVING! Henry Mack, for nearly a year now the surface boss of the Winona mine, is in Houghton for a few days on business. He states that the Winona is now getting some of the richest rock since the work of development was begun there and feels very sanguine about the future of the property.

limited credence and has been finally put to sleep by developments at the property. In sinking shafts on new lodes or in a territory little known, it is difficult to determine the angle of dip of the lode, hence the shafts may pass over the copper-bearing bed into either the foot or hanging walls. This was precisely what happened in the case of the Winona, which lies twenty-two miles south of Houghton and in a virgin district.

THE WINNING SIDE NOW. Writing to The Mining Journal from Boston, a gentleman that city who is particularly well informed regarding the copper market, (he is neither a broker or promoter), says: "I am a bull on the copper situation. It is the business side. A hundred are buying stocks now where one is selling short." Evidence multiply that "short selling" for the purpose of beating down prices has had its run and is getting to be risky business.

REGULAR TABLE D'HOTE DINNER. "BOARD OF TRADE," HOUGHTON, WILL SERVE IT EVERY NOON—BEAUTIFUL THE SERVICE AND THE DECORATIONS—DETAILS. The range, broilers and steam table for the "Board of Trade" cafe at Houghton are in place and are the finest of their kind, the range being a large sized Deane hotel range from Brantford & Duparquet of Chicago, while the steam table is a beautiful piece of furniture with places for meats, fish, soup, vegetables and gravies, for the new cafe will serve a regular table d'hote dinner in courses from 12 till 2 each day.

FIRST CAR OF PALMS COMES. The first car of palms for the palm room of the new resort has arrived, and it is stated as a strange fact that the management saved four cents a hundred on the freight from Chicago to Houghton by having them sent around through lower Michigan and then up across the straits. The varieties already received include splendid specimens of Phoenix reclinata, and P. Canariensis, Pandanus Veitchii and P. utilis, Latania barbonica, Kentia Fosteriana, Cycas revoluta and the rubber plant, Ficus elastica, and ferns, Nephrolepis Bostoniensis. As all palm growers will recognize, some in the above list are quite rare, while among the eight Latanias in the collection are some magnificent specimens, standing nearly six feet high with a still greater spread of leaves.

LANGE TO GET INTO LINE. HOUGHTON FURNITURE DEALER PLANS TO MATERIALLY IMPROVE HIS ESTABLISHMENT. Theodore Lange is planning to commence as early as possible in the spring some very extensive improvements in the building containing his furniture and undertaking establishment at Houghton, improvements which he had planned to commence this fall but which had to be put over because local builders and contractors were so busy. He will raise the building so as to give an additional three feet in the height of the first story and the same amount in the basement, while a new plate glass front will be put in the store and the entrance changed to the south side of the front, giving a show window nearly twenty-three feet wide for furniture. The basement excavations will be extended

FILIPINOS AGAIN TRY AND FAIL.

Otis Once More Declines to Negotiate for Peace With an Insurgent Commission.

LAWTON STILL PUSHING NORTHWARD WITHOUT RESISTANCE.

NOW AT CALANATUAN, TO THE WEST OF TARLAC, THE STRONGHOLD.

Revolutionary Plot is Unearthed in Negros and One of the Wealthiest Natives in That Part of the Archipelago is Jailed at Iloilo.

CABINET DEBATES THE PHILIPPINES. Washington, Oct. 27.—General Otis this evening cables:

The insurgent government has submitted an application to send five commissioners to Manila to arrange the difficulties attending the release of the Spanish sick prisoners and to discuss peace conditions. It has been declined; no negotiations are necessary, as we would gladly receive all the Spanish prisoners at our lines and welcome them from their cruel captivity and labor for their welfare. Correspondence by mail.

The cabinet meeting today lasted two hours and a half, much longer than usual. After the adjournment the members were unusually reticent, saying the president had cautioned them against talking. It can be stated, however, that the Philippines were under discussion and, there is reason to believe, with reference to the military and naval plans to be put in operation soon.

MORE TROOPS REACH MANILA. Today, also, the following was received from General Otis:

Lawton's advance, under Young, is north of San Isidro near Cabanatuan. He has established a permanent station, three months' supplies being forwarded by the San Juan river route. Lawton meets little resistance.

Twenty-sixth volunteers and a battalion of the Nineteenth infantry have been sent to Iloilo. The transport Tacoma, with headquarters and seven companies of the Twenty-seventh volunteers, has arrived. Casualties: Corporal Henderson, Company C, washed overboard. Two men deserted and seven were left sick at Honolulu, of whom Corporal Hunter, Company G, is dead. No other casualties. Command in good health.

The transport Sheridan, with the Thirty-third volunteers and recruits, also has arrived, in good condition. Private Hulgan, Company K, died enroute.

PLUG NIPPED IN NEGROS. Manila, Oct. 27.—M. Ruperto Santiago, one of the wealthiest Bisayans, who had taken the oath of allegiance to the United States and posed as a friend of the Americans, has been arrested at Iloilo while other Bisayans are being watched. The prisoner is charged with organizing a revolutionary junta. Santiago owns sugar estates throughout the island of Negros.

It is asserted that a council of ten and the manager of the junta met daily at Santiago's office for the purpose of engineering an extensive scheme of collections for the insurrection. One of Santiago's steamers was captured carrying supplies to the rebels. His arrest has

caused rumors of an outbreak of the natives of Iloilo and precautions have been taken to prevent trouble.

A battalion of the Eighteenth regiment and the marines of the Concord form an expedition at Concepcion, in the northern part of the island of Panay, which is searching for the Concord's coxswain who was lured ashore by a white flag and is supposed to be a prisoner. They found the place deserted and burned every house as a punishment.

YOUNG HAS A FIGHT. Manila, Oct. 28.—General Young's column, which left San Isidro yesterday morning at daybreak, moving northward in the direction of Santa Rosa, encountered the enemy strongly entrenched just beyond Tuboatin river. A brisk fight ensued and the rebels were repulsed. Two Americans were killed and one wounded. Pursuit was impossible on account of the width and depth of the stream.

GUNS BOUGHT IN ENGLAND. TWELVE OF THE LATEST PATERN NORDFELDT-MAXIM ARE SHIPPED TO THE PHILIPPINES.

London, Oct. 27.—Lieutenant Sumner, military attaché of the American embassy, has just purchased and shipped to General Otis in the Philippines a battery of twelve of the latest pattern Nordfeldt-Maxim rapid-fire guns. These are the first of this style of gun in the American army. It is especially adapted to mountain fighting or flanking movements. It fires a three-inch shell or shrapnel at a range of 2,000 yards. This is a short range, but it is practically equal to our present field piece. Where the latter and the caisson require twelve horses the gun is easily carried on the backs of three mules—one each for the gun, the carriage and the ammunition.

MOUNTAIN ARTILLERY, TOO. Washington, Oct. 27.—It has been decided to send to Manila one additional battery of mountain artillery. It will consist of four twelve-pounder Hotchkiss mountain guns fitted with 500 rounds of ammunition each. The material will be sent from New York on one of the transports, together with 4,100 rounds of ammunition for the guns, which were formerly in the Astor battery.

The use of mountain artillery in the Philippines is found to be of great value. It is the most effective form of attack which can be brought against the enemy, and the character of the ordnance lends itself easily to the difficulties of country and impediments of transportation. General Otis has urged that additional artillery of this type be dispatched to the scene of operations, and is in obedience to his recommendations that another battery of mountain guns is now to be shipped.

TRANSPORTS TO BE ARMED. Arrangements have been made for arming the transports Logan, Meade and Thomas. Each ship will be equipped with four guns, supplied under contract, and fitted with 400 rounds of ammunition each. The transports Cassius and Ingalls will be equipped with two guns each.

HOLDS AGUINALDO A HERO. SENATOR PETTIGREW WOULD PULL DOWN THE STARRY FLAG.

Minneapolis, Oct. 27.—A special to the Journal from Aberdeen, S. D., tonight says that reports from Senator Pettigrew's meeting at Woonsocket credit him with having eulogized Aguinaldo as a patriot and hero, never once referring to the achievements of the South Dakota regiment in Luzon or mentioning their home-coming. At the conclusion of this portion of his address, he said: "I am ashamed of my country. I would pull down the flag and go back and blot out the recent history if I could."

THURSTON JOINS THE SPEAKERS. SENATOR NOW TALKING FOR THE REPUBLICANS IN NEBRASKA.

Omaha, Oct. 27.—United States Senator John M. Thurston started in today on a week's campaigning in Nebraska, opening with a speech at Wakefield, where a large audience greeted him. He argued in favor of the gold standard and advanced reasons why the Philippines islands should be retained and President McKinley's administration supported.

SHOOTING AFFRAY IN INDIANA. Brazil, Ind., Oct. 27.—Dr. L. C. Griffith and William Staggs, citizens of Cory, while in this city today quarreled, but later departed together. When midway between Brazil and Cory the quarrel was renewed. Dr. Griffith drew a revolver and fired three shots at Staggs, one bullet penetrating his side and another lodging in the arm. Staggs, accompanied by a friend, drove to this city for medical aid. His injuries are serious.

ANOTHER KICK ON ROBERTS. Baltimore, Oct. 27.—The closing session of the conference of Kings Daughters and Sons was held today in Ascension Protestant Episcopal church. The committee on resolutions reported adversely to allowing Brigham H. Roberts, congressman-elect from Utah, taking a seat in congress. Officers were elected with Mrs. B. C. Whitney of Detroit as president and Miss Florence Hess of Columbus, O., secretary.

MARKSMEN DIVIDE THE MONEY. Nashville, Tenn., Oct. 27.—The event of the shoot of the Belle Meade club today was the Gerst cup handicap at twenty-five live birds. Haywood, Gilbert, Fanning, Dupont, Debow and Hirsch divided the money, each shooting a clean score. In the miss-and-out event at thirty-two yards, Haywood, Pierce, Young, Elliott and Gay carried it to fifteen birds, when the money was divided.

KENTUCKY BANKING FAILURE. Lexington, Ky., Oct. 27.—The banking firm of D. A. Sayre & Co. assigned today to the Trust & Safety Vault company. The deposits are placed at \$140,000. The assignee states it will pay dollar for dollar. Inability to realize on outstanding paper is given as the cause.

BIG DEAL ON IN ILLINOIS POLITICS.

Mason, It is Said, Is to Immediately Resign His Seat at Washington.

TO BECOME A CORPORATION ATTORNEY AT A HIGH SALARY.

TANNER'S FRIENDS ALLEGED TO BE PROMOTING THE SCHEME.

Governor Then Is to Step Out and Be at Once Appointed Senator by Northcott, Who Will Succeed Him in the Gubernatorial Chair.

SENSATIONAL CHANGES IN OFFICE? Chicago, Oct. 27.—The Times-Herald tomorrow [Saturday] will say:

Senator Mason's threat to resign unless the administration's Philippine policy is changed, according to the latest prophecy may be executed before Christmas. Persons who assume to be well informed insist that he will step out immediately in pursuance of an arrangement which will change the whole face of Republican politics in Illinois. A story, as widely circulated yesterday, runs to this effect:

Senator Mason will resign in a few weeks to take a high salaried legal position—\$12,000 or more a year—with one of the biggest corporations in the country, having headquarters in Chicago. Governor Tanner will then resign and, Lieutenant Governor Northcott, on succeeding to the governorship, will appoint Tanner to the vacant senatorship. With Tanner thus eliminated from the gubernatorial situation, Northcott can be made the "organization" candidate for governor next year.

The interests which are alleged to be making Senator Mason their attorney at a big salary with a long term contract are interests which have a friendly feeling for Governor Tanner's future.

HARD FIGHT FOR M'COY.

'KID' KEPT BUSY FOR THIRTEEN ROUNDS BEFORE SUCCEEDING IN DEFEATING STIFF.

St. Louis, Oct. 27.—The initial boxing entertainment of the West End Athletic club was held tonight at its new quarters in the mammoth Coliseum. "Kid" McCoy appeared, with Billy Stiff of Chicago as his opponent. McCoy had the advantage in height and reach, but in weight Stiff was favored by several pounds.

Stiff showed himself a fighter and several times had the "Kid" in a ticklish position. In the eighth McCoy took the benefit of the count, owing to a collision and fall with the Chicago man, and again in the twelfth, when the Chicago boy put him down with a terrific right-hand punch in the back of the neck. In the thirteenth round McCoy played his left lightly for Stiff's nose, and as the latter raised his guard high the lad whipped his right over like a flash to the point of the jaw. Stiff fell flat on his back and did not recover his faculties for some time.

Steve Flannigan of Philadelphia was given the decision over Casper Leon of New York in twenty-five rounds.

STEVE O'DONNELL PUT OUT. CHOYNSKI WINS IN THE FIFTH ROUND AT CHICAGO.

Chicago, Oct. 27.—Joe Choynski defeated Steve O'Donnell tonight in the fifth round. O'Donnell made a rather poor showing. In the first round Choynski landed a straight right on the mouth that dropped O'Donnell cleanly. The bell rang when he had been down three seconds, but he went to his corner very groggy. In the fifth Choynski put O'Donnell down twice, and the latter was so clearly out of it that Choynski said to him, "Stay down." O'Donnell, who was unable to rise anyhow, took the advice and allowed himself to be counted out without attempting to rise.

CONNELLY-MATTHEWS A DRAW. New York, Oct. 27.—At the Broadway Athletic club tonight, Eddie Connelly of St. John, N. B., and Matty Matthews of Brooklyn fought twenty-five rounds. Referee Johnny White declared the bout a draw. It was a hard fight all the way through, and each man was disfigured early in the game. Connelly had some the better of the argument.

WAR CLAIMS AGAINST CHILL. CONGRESS OF THE REPUBLIC TAKES UP THE MATTER OF FINALLY ADJUSTING THEM.

Santiago de Chili, Oct. 27.—The chamber of deputies is discussing the revival of the Chilian claims commission, according to the convention with the United States.

Washington, Oct. 27.—The reference to the revival of the Washington tribunal in the Associated Press cablegram from Santiago de Chili indicates that the chamber of deputies is now engaged in the process of ratifying the convention providing for the revival of the Chilian claims commission. The original commission met in Washington in July, 1893, for the purpose of settling claims from citizens of the United States and Chili growing, in most cases, out of the revolution which overturned the administration of President Balmaceda. Only six months' time was allowed for this purpose, and the result was that many claims on both sides were left unadjusted. The United States claims unadjusted amounted to \$9,300,000 and the claims from the Chilian side to \$22,240,000. Negotiations looking to the creation of a new commission were perfected more than a year ago and submitted

to our senate for ratification. The senate failed to take it up in season and it became necessary to amend the treaty so as to extend the time. That amendment was passed by the senate, but again became necessary to secure the ratification of the Chilian legislation, and this is what is now pending.

EPISCOPAL BISHOP TO JAPAN.

REV. SYDNEY C. PARTRIDGE RECEIVES THE APPOINTMENT.

St. Louis, Oct. 27.—The house of bishops of the Episcopal church today appointed Rev. Sydney C. Partridge bishop to Japan. He was formerly connected with Chinese missionary work. It was resolved to correspond with the Archbishop of Canterbury for the purpose of having the spiritual jurisdiction of Hawaii transferred to the American church.

RIVERA WAS REMOVED.

FOUND THAT THE FORMER CIVIL GOVERNOR OF HAVANA PROVINCE WAS AN OBSTRUCTIONIST.

Havana, Oct. 27.—General Rius Rivera, former civil governor of the province of Havana, whose withdrawal was cabled last evening as a resignation, denies he has resigned. He says he was dismissed and attributes his dismissal to the direct influence of Senor Domingo Mendos Capelo, secretary of state in the advisory cabinet of Governor General Brooke. Senor Capelo asserts he requested Rivera to resign because he was an obstructionist and out of harmony with the administration, but General Rivera refused to resign, hence his removal.

FOREIGN CATCHES BARRED.

IMPORTANT RULING ON FISH BY ATTORNEY GENERAL OREN.

Lansing, Mich., Oct. 27.—In an opinion just filed Attorney General Oren rules relative to commercial fish caught in foreign waters that foreign-caught fish that are immature according to the Michigan standard cannot at any time be held or marketed in Michigan; such fish caught contrary to the laws of the state of country where caught cannot be held or marketed here; and between Nov. 15 and Dec. 15 fish caught in foreign waters cannot be held or marketed in Michigan.

BIG SALE OF UNCAUGHT FISH.

Marinette, Wis., Oct. 27.—The directors of the Wisconsin and Michigan Fishermen's association have sold in advance the bulk of the fall catch to James Dorrmer of Buffalo, who is to secure all the fish he desires, which will mean 25,000 packages. The deal involves \$55,000, the price being \$2.20 per package. A representative of the fish trust is purchasing some small lots. The association is fighting the trust, and so far has been successful in disposing in advance of its catch at high prices.

GENERAL HENRY IS DEAD.

VACANCY NOW IN THE GRADE OF BRIGADIER IN THE ARMY.

New York, Oct. 27.—Brigadier General Guy V. Henry, late military governor of Porto Rico, died at 4 o'clock this morning from pneumonia, aged sixty. He was ill for ten days.

Washington, Oct. 27.—General Henry's death leaves vacant the command of the Department of Missouri, to which he was recently appointed; and also creates a vacancy in the grade of brigadier general in the regular army.

MILLIONAIRE GIBSON EXPIRES.

Minneapolis, Oct. 27.—Charles Gibson, a St. Louis millionaire, owner of the Hotel St. Louis, died at the Hotel Nicolett tonight, aged seventy-three. Old age is given as the cause. Mr. Gibson was a "sir," having been knighted by Prince Bismarck for special service rendered the German government, for which he was awarded a medal in addition to his rank of honor.

OPERATION WAS FATAL.

New York, Oct. 27.—Captain Charles H. Lester, U. S. A., retired, died tonight as the result of an operation for cancer of the mouth. He was fifty-six years of age and leaves a widow. He fought in the Civil war and had spent much of his time since then with the army in Dakota and Texas.

DEAD AT BOSTON.

Boston, Oct. 27.—John Codman Ropes, a lawyer, widely known as a writer on historical subjects, died from paralysis tonight.

DEMISE OF FLORENCE MARRYAT.

London, Oct. 27.—Florence Maryat (Mrs. Frances Levan), the well-known authoress, died today.

YESTERDAY ON THE GRIDIRON.

Notre Dame, Ind., Oct. 27.—The Notre Dame football team defeated Northwestern university today by a score of 12 to 0.

Iowa City, Oct. 27.—Football: Iowa university, 5; Ames, 0.

GOBBLED BY THE PENN SYSTEM.

Columbus, O., Oct. 27.—The Dispatch this evening says the definite announcement has been made that the Pennsylvania company will assume full control of the Cleveland, Akron & Columbus road on the first of next month.

TODAY'S WEATHER.

Washington, Oct. 27.—The following is the weather bureau's forecast for Upper Michigan: Fair aturday and Sunday; fresh easterly winds.

Plug-ugly.—Don't use powder, paint or arsenic. Ruins your complexion. Take Rocky Mountain Tea. It will make lovely color, fine form. The Stafford Drug company.

AFRICAN WAR OF NO AFFECT HERE.

Week of Conflict Clears Away the Fears It Would Menace American Prosperity.

MONEY EASIER, STOCKS HIGHER AND TRADE DEMAND CONTINUES.

HEAVY TRANSACTIONS IN STEEL RAILS AT PITTSBURG.

They Cover 1,500,000 Tons, Two-Thirds of the Entire Annual Capacity, and Are Followed by Large Orders for Material, Notably Bessemer Pig.

DUN AND BRADSTREET'S REVIEWS.

New York, Oct. 27.—R. G. Dun & Co.'s Trade Review for this week tomorrow will say: "Fears, not facts, made the war in South Africa seem a menace to prosperity here, and a week of conflict has cleared away the fear. The money markets have grown less embarrassing, stocks have gradually advanced, the industrial are still supported by a volume of demand for which no precedent can be found and the payments through the principal clearing houses for the past week have been 35.6 per cent. larger than last year.

"The heaviest transactions in steel rails ever made, covering a million and a half tons for next year's delivery, or two-thirds of the entire annual capacity of the works, have just been closed. Great contracts for material now follow, one concern having bought a hundred thousand tons of Bessemer pig at Pittsburgh for \$25, while \$24.50 is paid for early deliveries. The markets for the minor metals are reacting.

"While the shipments of boots and shoes for September were 380,599 cases, against 343,814 in the month of last year, the reluctance of buyers to pay as much as the manufacturers ask renders spring orders much below the average.

"The buying of wool has been heavy—42,928,289 pounds in the four weeks, against 36,394,099 in the same weeks of 1897, when the last great speculation was on foot. The prices are not higher, while the demand for woolen goods continues, standard prints being an eighth of a cent higher.

"The failures in the United States the past week numbered 190, against 225 in the corresponding time of last year."

BRADSTREET'S SUMMARY.

Bradstreet's tomorrow will say: "A quieting down of distributive trade, more particularly at retail, is reported this week, growing out of unseasonably warm weather in most sections of the country. As regards prices, however, there is no appreciable loss of strength. "Wheat has been strong, as have the other cereals, and wheat flour has advanced this week. Coffee is firm, but not much higher, some speculative reaction having been noted.

"Among the leading products decreasing in price, tin and copper, among the metals, have been most notable. Cotton is fractionally lower as a result of the deadlock between foreign consumers and American producers. "Lumber, after a slight hesitation at some markets, due to enlarged supplies, is again very firm, as also are hides and leather, in sympathy with the recent advances in boots and shoes.

"In all lines of the iron business, the demand is still very heavy. "The wheat shipments for the week foot 6,416,000 bushels, against 5,661,000 for the week of last year. The corn exports were 4,526,000 bushels, against 2,424,000 a year ago.

"The total of the bank clearings at the principal cities of the United States for the week is \$1,790,487,197, an increase of 35.2 per cent. compared with the corresponding week of last year."

WALL STREET TRADERS SELL.

FEAR OF AN UNFAVORABLE BANK STATEMENT TODAY SHATTERS PRICES OF SECURITIES.

New York, Oct. 27.—The stock market today made a considerable display of strength during the early hours of trading. Later there were occasional advances by individual stocks or groups, some of which saved gains on the day, but in the majority of cases an active selling movement in the last hour wiped out the earlier gains and carried the prices, in some cases, sharply below last night's level. The motive of the selling was the fear of an unfavorable bank statement tomorrow, as well as to take the attractive profits on the week's advance. The high-priced industrials and specialties and iron and steel stocks were conspicuous in a late reaction.

The most notable movement of the day was the rise in some railroads running through the South and Southwest. Louisville & Southern railway lead with an extreme advance of 1½ points. The speculation was mixed during the greater part of the day, many leading industrials drifting up and down at a level either side of last night's price. This was true of Sugar, Tobacco, Manhattan and the Leather stocks. New York, Chicago & St. Louis first preferred dropped over 5 points on a single transaction without exciting any attention. There were various points of weakness in the minor specialties, Steel & Wire dropping an extreme of 2½ points, with only a feeble rally.

### TRUSTS HELPING OUR EXPORTS.

U. D. EDDY OF NEW YORK SPEAKS FOR THE COMBINES AT THE COMMERCIAL CONGRESS.

Philadelphia, Oct. 27.—Today's session of the international commercial congress was devoted to a discussion of Pan-American subjects. Several important papers were read. Henry W. Peabody, of the Boston chamber of commerce, presided.

U. D. Eddy of New York addressed the gathering with an argument in favor of the large combinations commonly known as "trusts." A study of the exports from the United States for recent years, he said, will show their great growth due to the ability of the large units to produce, transport and market at cheaper prices than the smaller units doing like business in other countries. In conclusion, he said: "If the export of American goods is to continue to increase, it will be necessary to still further perfect our organizations for production and transportation. The organizations and combinations which are today called trusts, and as such are condemned as in restraint to trade, yet if the facts before stated are correct, instead of restraining trade, they stimulate it."

### OPENING IN SOUTH AMERICA.

W. E. Curtis, commissioner of the Pan-American exposition, expressed his belief in a great future trade between the United States and South America. He had just returned from South America, he said, and there he found a remarkable change in the trade conditions, but also that the Germans are monopolizing nearly all the business.

Edw. J. Roberts, a delegate from Buenos Ayres, read a paper on the conditions existing in the Argentine republic. Following Antonio E. Dolfin, consul general of Venezuela, spoke briefly of the commercial condition of his country, calling special attention to the facilities offered by Venezuela for the great packing industries of the United States. He declared that the cattle and livestock of Venezuela are particularly suited for packing for export, while the nearness of the important points to the United States is another favorable element.

### BIBLE NOT SACRED.

DR. BATTEN OF NEW YORK ADVANCES NEW 'THEORIES.

New York, Oct. 27.—The World today says: Dr. Briggs was outdone last night at the Church club, which is composed of laymen of the Protestant Episcopal church, by the Rev. Dr. L. W. Batten, the youthful new pastor of St. Mark's, just here from Philadelphia. Dr. Batten denied that the Bible was a sacred book, or inspired, or the foundation of the church. Many of his hearers applauded him. The topic was the "Higher Criticism."

"I have heard," said Dr. Batten, "that the Bible is the foundation of the church. I, for one, don't want to place my religion in a book. Jesus Christ didn't send his apostles out into the world to write a book. There is no part of the New Testament that was written to become a part of a sacred book. St. Paul had no more idea of making a contribution to a sacred book when he wrote his 'epistles' than any clergyman here has when he sits down to write his sermon. What he did is being kept up in precisely the same way today. Where are you going to draw the line? Was all that he wrote inspired, and that of St. Clement not? "No man," continued Dr. Batten, deliberately, "can be a member of the Protestant Episcopal church and believe that the Bible is the foundation stone of the church. The church flourished before the scriptures were thought of or before one got the idea that they were sacred."

### THREE MEN IN A TENT.

Enforced Economy in the Wilderness of South Africa.

In one of those secluded recesses in the undulating country northwest of Krugersdorp that are remote, solitary and picturesque, says a writer in the Johannesburg News, I came upon a bell tent. There was a time when such a trifle would have excited no curiosity, for the prospector was abroad in those days, and gave a semblance of life to these solitudes that less than eight years ago swarmed with buck and baboons. But the game has gone, and the prospector has made up his mind that this particular spot at least is worthless, so it knows him no more.

Looking closer, there were revealed in the vicinity of the tent several things that fitted ill with the theory that the tent concealed a prospector. A little bit of soil had apparently been dug up; a rough inclosure shielded two or three fowls and other outward and visible signs suggested something more permanent than a prospector's shelter. Only a few weeks back I had explored a similarly mysterious canvas concealed among the thorn trees of a portion of the Grant's band and had found a Zulu in an advanced stage of smallpox. He had dropped by the way on his lonely tramp to his kraal, and after lying in misery in the open for three days had been discovered and cared for by Field-cornet Van Wyk and District Surgeon Van Der Merwe, who pulled the poor wretch through and avoided spreading infection. I had evidently struck another Lazarus, and, with the spirit of inquiry full on me, proceeded to examine. I unfastened the canvas and peeped in. Although it was near noon, three white men lay curled in blankets fast asleep, two on stretchers and one on the ground. The sudden intrusion of broad daylight awakened the latter. He sat up—a towzled, unkempt figure—and in the free and frequent language of the common people demanded to know who the Gehenna I was and what the ditto I wanted. I fell back on a subterfuge, and said I wanted one of the sleepers on the stretcher awake. He glared suspiciously and inquiringly for a moment, then greeted me with the "Hallo!" that betokens recognition, but he had distinctly the advantage of me. When he had tumbled out of his blankets, adjusted his pajamas and pushed back his hair I dimly recognized through his unwelcome beard an exile from Johannesburg civilization. When No. 3 had finished blinking and awaking I had solved the mystery of the whereabouts of two acquaintances whose disappearance during a period of prolonged hardship had suggested several theories, from suicide to fraudulent desertion.

I was shown the commissariat department. It consisted of potatoes, beans, mealies, onions and blitong, with a few tins of salmon, lobster, etc., all part of the original supply purchased in Krugersdorp.

"No," said No. 1, by way of preface to the explanation he volunteered; "we are not prospecting, we're economizing—waiting till the close of the year, and saving our clothes and our washing bills. We've been here six weeks—at least Bill and I have. Jim joined us last week. We had been hard up for months, with no prospect of getting a job until things settled down, so Bill and I put our capital together, bought this outfit, and here we live like Robinson Crusoes on less than a bob a day apiece. Our friends think we are on a shooting trip. You are the first visitor we have had except a spoony couple from Krugersdorp last Sunday, who had lost their way. It's the quietest holiday I've ever had in my life, and the cheapest, and if Jim here would give up talking about his spree in Johannesburg in his flush times we should be happy as sand boys, but after one of those yarns he always wants to go into Krugersdorp and that means his coming back drunk and making us jealous."

While the others prepared the 12 o'clock meal, the boss detailed the history of the novel enterprise. It was the too common one of a man in a £30 per month situation suddenly discharged, expending his small reserve in waiting for another billet, and then waking one day to the realization that his stay-at-home was rapidly decreasing. He and Bill, who was similarly placed, had often protected a holiday picnic under canvas, and now came the opportunity. Their united capital was about £15 and the first week in May they proceeded to put their project into practice. The bell tent was picked up on Marshall square for

35 shillings and 60 shillings judiciously expended at the second-hand stalls on Market square supplied them with a goodly stock of cooking utensils and other necessary articles. The bedding consisted of cheap Kafir blankets and a rug or two, while the portmanteau was packed with all their oldest clothes, one decent suit for town visits, and such other comforts as could be taken without overcrowding the space. As it was they had been compelled to erect a rough earth enclosure covered with grass, which served as a storeroom for superfluous paraphernalia.

"Of course," added the boss, "our great difficulty has been to make our provisions fit in with our means. Neither of us have any income, beyond a stray sovereign or so raised at intervals. We have only two meals a day—this at noon and supper about 8 o'clock. This is forced on us by cold and economy. The nights are so bitterly cold that we sit up as long as possible, and get our sleep after sun up. You called in just at breakfast time—a cup of coffee. The last few nights we have been compelled to drink coffee every hour through the night or we should have been frozen. It is expensive, though we burn only one candle, and use 'Boer coal' for our kettle.

"I know ten ways of cooking mealies and a dozen of making beans palatable, and though the menu isn't quite up to Frisco standard, we are making flesh on it," said the boss.

"What about fresh supplies, such as milk and vegetables?"

"Well, we don't get as much as we should like, but the farmers about are very good natured and we sometimes get such luxuries for nothing, as we can't afford to pay for them. Our greatest want is whisky and reading matter. We are teetotalers on compulsion, and Jim is already a reformed character, but we have read up all we brought in the way of light literature."

"Then, how do you kill time?"

"Bill and I are learning land surveying from this handbook, but, as we have no instruments, it's more theory than practice. Bill is also tackling Kafir, and I am reading a manual on assaying."

"What does Jim do?" I inquired.

"I am making a collection of butterflies, which will be worth fifty quid when it's complete. Catching 'em is better than loafing round Commissioner street," answered Jim, cheerfully.

"How is the collection growing?"

"Oh, first rate; I only want four more to complete my first half dozen. Jim is the humorist of the party."

"How long do you reckon to stay here?"

"It's all a question of funds. Our capital is melting, of course, though we look at every tickey and buy nothing that we can do without. So far we have managed to have meat every day, and have not had to do without a single necessary, and our expenses work out at 18 shillings 6 pence per week for three. We are in splendid health, and even if at the end of another month things have not improved we shall be in a much better position than if we had tried to ride out the storm in Johannesburg. At any rate we have preserved our self-respect, our health and our clothes, to say nothing of having kept out of politics and saved Jim from a drunkard's grave."

And then we had dejeuner—the very finest meal I have ever eaten in the veld, cooked in veld style, and consisting of a good thick bean soup, followed by a fish stew and stewed peaches and coffee. The conversation over the meal and for some time after consisted of an attempt to figure out the exact cost of the meal per head. We should have got it all right but for Jim, who having once been a storekeeper at a mine, insisted that the proper way to arrive at net cost was to allow for original capital outlay on entire stock.

We worked on these lines till the blank leaves and edges of all the reading matter in the tent had become an eruption of figures, and when we had agreed on it at 4 1/2 pence per caput, Jim refused to assent to the gross cost of the plan. When the party had escorted me to the lengthening shadows and over the hills to Krugersdorp, they returned to finish calculations, and prepare to face the watches of the night over coffee and cards.

**WHEN THE SNOW FLIES.**  
OPERATIONS AT THE WINTHROP MINES WILL THEN CEASE UNTIL NEXT SPRING.

The Winthrop mines are only worked during the summer months and as long as the weather remains favorable in the fall. Being surface properties, operations are suspended during the winter, when the snow would seriously interfere with the work. It is probable that there will be another full month's mining done before the snow compels Mr. F. Braastad to lay off his force of men, although it is possible that hard weather may set in earlier. The mines are closing a very prosperous season, one of the best they have had for several years. Production has been above the normal tonnage and the prices realized for the ore have been fairly satisfactory. But though shipments have been large the output has failed to reach the expected figure. It was hoped that a new record in production would be made this year. While the output cannot be definitely known until the end of the shipping season, it is certain that it will not reach the expected figure. The great demand for ore carriers is responsible for the curtailment. At times it has been impossible to get boats, and at the best the transportation facilities have not been such as to allow of the maximum production by these mines. Vexatious delays have been experienced at times throughout the season. The men have not been laid off, as they were taken from the mines and placed at work stripping to provide for an extension of the open pits. Little trouble has been encountered in getting labor at the Winthrop mines. They are favorites with the men and all the help required has been employed. A force of about 150 men is now on the pay roll. The men will be let go when snow comes and navigation closes. All the ore hoisted has gone directly into the cars this year. None has been placed in stock. The men let go at the Winthrop will have no difficulty in finding profitable employment at the other mines of the city or, failing of this, in the woods.

The plan of operations at the old underground mine which has been partially opened up this year calls for some work on the first level, which will be directed with a view to making it an open pit mine. This work will be vigorously pushed next year. It is confidently expected that 1900 will be the banner season at the Winthrop. Prices are going to be better than they were this year and it is hoped that ample transportation facilities will be available. If conditions are at all favorable the largest output ever achieved by the company will be mined next season.

**IMPORTANT HIGH SCHOOL FOOTBALL GAME TO BE PLAYED THERE THIS AFTERNOON.**

A party of about seventy-five Ishpeeming people are this morning leaving for Escanaba, where the local men have yet put forth will be required to win it. A gentleman well posted on football who has witnessed both teams play has summed up the situation as follows for The Mining Journal: "Donovan at full should outplay Slaughter all round. Anderson should prove the equal of Leighton as a line backer, although the latter has more dash. Ishpeeming has no one that will equal Olmstead as a running back, but Leighton ends are good and they may make the speedy half's twenty and thirty yard runs look sick. Sanberg should be more valuable in the game than Semer because of his experience and strength in carrying the ball. An interesting struggle should develop between Hodson and Dawson, who are evenly matched. Randall is a more consistent ground gainer than his opponent and is a sure tackler in the open field. The follow cut a sorry figure. It was easy to see that he had been injured. His person was covered with gore and he looked as if he had been through a cider mill. He was earnest in his intention to clean out his assailants, and when last seen he was still industriously pursuing his search for his partner. As no murders were reported he probably failed in his quest."

**LOOKING FOR A FRIEND.**

A woe-begone figure accosted several people on Main street Thursday night with the query, "Have you seen Jack Smith? Six fellows just played rough horse with me down street. I can lick one man but I'm hanged if I can handle half a dozen. I am going to get my pard and we will clean out the blamed joint." The fellow cut a sorry figure. It was easy to see that he had been injured. His person was covered with gore and he looked as if he had been through a cider mill. He was earnest in his intention to clean out his assailants, and when last seen he was still industriously pursuing his search for his partner. As no murders were reported he probably failed in his quest.

**WILL PUT IN STEEL CEILING.**

Members of the buildings and grounds committee of the common council looked over the city hall yesterday and superintended a few minor repairs. The committee will arrange to have a new paneled steel ceiling placed in the council chamber to replace the plastering, which is in a dilapidated condition. There has been a bare patch from which the plaster fell away exposed for the past several months. The old council authorized the building and grounds committee to have the new ceiling put in. The matter was referred to the same committee in the new council, which proposes to take action at an early date. The improvement will greatly better the appearance of the council room.

The parties who intend to spend some time in quest of deer this season are already beginning to make arrangements for trips to the various hunting grounds. Many people will take trips of varying length in search of game, which is reported to be plentiful this fall. Hunting is going to be especially good in Houghton county, where it has not been up to the standard in the past few seasons. The building of the Copper Range road has driven the deer down to accessible hunting grounds.

### ENROUTE TO MARQUETTE.

**James Wood, Third of Calumet Post-office Robbers, Coming Here to Stand Trial.**

**ARRESTED BY POSTOFFICE INSPECTOR AT COLUMBUS, OHIO.**

**Had Just Finished Serving a Year's Sentence for Burglary—Woman's Anxiety to See Her Lover Revealed His Identity.**

### WAS THE BAD MAN OF THE TRIO.

James Wood, alias Carson, the Calumet postoffice robber, who has escaped punishment for his misdeeds for nearly three years, was in Milwaukee yesterday and is expected to arrive here this morning. Wood was arrested by Postoffice Inspector Ralph Bird of Milwaukee, on a tip that came to Sheriff Carlson from an ex-sheriff in Ohio. As soon as he received the information Sheriff Carlson notified both the Houghton county and United States authorities; the latter acted upon it.

### SHOT TWO OFFICERS.

The case against him is particularly aggravated, as it was he who wounded the under sheriff of Houghton county and filled one of the deputies full of bird shot at the time they were trying to arrest the trio. Immediately after the crime Wood and his companions took to the woods. A posse was organized and chase was given. The gang made for Crosse county. The sheriff's men with an Indian guide kept close behind. One morning the posse was informed by the gang that the three men had left the regular trail and had run into a blind trail and that they would have to return the same way. The party camped there and the same day the three men were sighted making their way back to the main trail.

When close to the posse, which was hiding in the brush, the sheriff and his men sprang out and commanded the three to hold up their hands. Two of them obeyed, but Wood, who was carrying a double-barreled shotgun, quickly discharged both barrels and then, whipping out a couple of revolvers, began a regular fusillade. Before the posse could recover from their surprise Wood had disappeared. One of the members of the posse received more than 100 of the shot in his face, neck and head, but the doctors had little trouble in picking them out, although the wounds were very painful. The under sheriff also received a number of shot, but he was not badly wounded. In the firing that followed Wood was shot in the arm but it did not prevent his escape. Shortly afterwards it was reported he was in Cleveland.

### WOMAN HIS UNDOING.

From Cleveland Wood went to Columbus, Ohio, where he distinguished himself by running away with another man's wife. Wood and his companion went from there to Cincinnati, in which city Wood was arrested for burglary and sentenced to prison for one year. A short time ago the woman with whom he had eloped returned to Columbus, where the prison is. Inspector Bird, who has been following the case ever since the escape of Wood from the sheriff's posse, learned of this and had the woman shadowed. She was followed to the prison one day, where it was learned she made inquiry for Albert Palmer, whom the inspector quickly recognized as the man he was after. Wood, or Palmer, or Carson, was released a few days ago and the inspector was on hand and placed him under arrest just as he left prison.

### SEVERAL MAKE GAINS.

Some Stocks Advance But Copper Market Is Somewhat Irregular.

Several good advances were to be noticed in the copper shares dealt in yesterday, but these encouraging signs did not apply to the entire list. Paine, Webber & Co. in their letter below advise buying certain of the stocks. Hayden, Stone & Co. are not quite so positive in that advice. They say the worst ought to be over and that when the money market gets in good shape there will be a boom in the better class coppers. On any pronounced weakness they advise buying them for a turn. They say that the slump in London copper is a discount of the time when the price will decline to 45 cents.

Arcadian closed off a point and a quarter yesterday at 36. Arnold rallied one to 8 1/2. Atlantic fell one to 24. Boston & Montana was hard hit and dropped 16 points to 32. Its companion piece, Butte & Boston, advanced one to 66, and earlier in the day sold as high as 70. Centennial closed three points over Thursday, the last quotation being 27 1/2. Osceola improved yesterday, closing at 83 1/2, three and a half above Thursday. Parrot opened at 41, but closed at 42, a net loss of one for the day. All other changes were fractional, a few more advances than declines.

Paine, Webber & Co. said in their letter yesterday:

"Boston, Oct. 27.—London copper opened weak this morning, spot being off 1 1/2, 3d, and futures, 10s., with the market easy. It closed at a 6s. 3d. advance for spot and 7s., 3d. for futures. A president of one of the largest New York banks says: "There are indications of the beginning of a return of the funds recently shipped west," and he expects to see money rule easier. Copper stocks opened dull but later showed a bit of activity, prices however were not as strong as they were yesterday. The most active stocks were Arcadian, Baltic, Old Colony, Santa Fe and United States Mining. It looks to us as if coppers have had their decline and are being bought today by the best people. In many cases

the stocks are lower than when the metal was selling at 12 1/2c.; present market 17 1/2c. Copper Range is the best proposition on Lake Superior today and we strongly recommend it as a purchase for big profits. It sold last spring for 50 and is now about 35. Baltic and Mohawk are better every day and at present prices, 23 and 18, are very attractive to people with money. Today's market closed quiet with prices a trifle irregular. Sales of active coppers Thursday: Adventure, 150; Allouez, 250; Anaconda, 13; Arnold, 75; Atlantic, 150; Baltic, 2, 100; Bingham, 255; Bonanza, 200; Boston & Montana, 40; Butte & Boston, 60; Calumet & Hecla, 61; Centennial, 67 1/2; Cochita, 313; Copper Range, 50; Franklin, 47 1/2; Mass, 100; Mayflower, 425; Michigan, 60; Mohawk, 105; Old Colony, 350; Osceola, 95; Parrot, 715; Pioneer, 50; Rhode Island, 60; Santa Fe, 929; Tamarack, 22; Trumountain, 200; United States Mining, 1,200; Utah, 475; Victoria, 400; Washington, 100; Wolverine, 255; Wyandot, 25."

What was off yesterday, December closing at 70% and May at 73%, both down a half from Thursday.

A. R. Jones & Co. said in their wheat letter to Fred Jones:

"Chicago, Oct. 27.—Wheat—Higher cables this morning were obscured by heavy Argentine shipments, wheat opening easy and slow. Traders sold freely and found little demand. Weather was wet all over winter wheat country. The liberal increase looked for in the visible, Monday, narrow trade, and corn sagging from its own weight, apparently all contributed to a further decline till December had gone back to 70 1/2, closing weak at almost bottom. There was no support to be had from anywhere until puts were reached, and even then there was only moderate buying. Low as the market is conditions indicate no marked improvement. The car shortage is likely to be a factor ere long, tending to lower prices still further. Wheat hinges a great deal just now on the coarse grains. Considering the shorter crop than anticipated, active cash and export demand, increased uses to which corn is being put, small stocks, light country movement, disposition among farmers to feed corn as affording better returns than shipping it to market, and the general bullish sentiment resulting from all these causes, corn is bound to make and maintain a higher range of prices, but just at present pit conditions favor an adverse movement, as holders are well loaded and fresh buyers scarce. Under these circumstances a further decline than the market suffered today seems warranted before another material advance. It closes steady under top."

### NEARLY SIX THOUSAND DOLLARS

Marquette County Soldiers Are Hitting the State Relief Fund Hard.

Marquette county soldiers are drawing on the state relief fund at a great rate. The county relief board met yesterday and approved claims aggregating over \$1,550. The amount approved the previous month was \$3,814.97, which brings the total to nearly \$6,000. This is not the amount claimed by the entire Co. L, but by the half of the company which was recruited in this county. The others are undoubtedly filing their claims in Delta and Menominee counties. At yesterday's session the board allowed the claims of thirty-two different applicants. There was one other claim for \$233.75 which was not allowed because the soldier filing it was not a resident of this county. Several claims were laid over. Reports that come from other counties in the peninsula which had companies show that the relief fund is being drawn upon quite as heavily as it is here. The Ironwood company drew \$11,000; the Soo company \$12,000 and over. Companies in other counties approximated these figures. At this rate it would seem it can be only a short time till the entire one-sixth mill tax on the assessed valuation of the state is exhausted.

### ELKS CLUB ROOMS.

Lodge Will Have Pleasant Quarters in the Opera House Block.

The Elks will shortly have pleasant club rooms in the Opera House block, which will be open at all times for the use of the members. This was decided upon at the meeting of the lodge held Thursday evening. An option had already been secured upon the rooms formerly occupied by the business college and a committee was appointed to close the deal. The rooms will be used exclusively for club purposes. The lodge will meet as before in the Fraternity block. Every comfort and convenience which will make the rooms more attractive will be included in the furnishings. The Elk lodge while not yet two years old has a fine membership and is one of the most vigorous societies in the city.

### STAR WEST MINE SOLD.

Corrigan, McKinney & Co., Purchase It From S. R. Kaufman.

Papers have been filed in the county register of deeds' office showing the sale of the Star West mine by S. R. Kaufman of Marquette to Corrigan, McKinney & Co. of Cleveland. The property is on the southeast quarter of Section 26, Town 17, Range 26 west. It is just east of the Barasa near the city of Negaunee. The mine has not been worked for some years.

Also within the past few days papers have been filed with the register of deeds for a mining option given by Philip Marketky and others to the Minnesota Iron company. The property covered by the option is the southeast quarter of the southeast quarter of Section 32, Town 48, Range 48 west.

### NORMAL RECEPTION.

Y. P. S. C. E. Entertains Both Teachers and Students.

Faculty and students of the normal were tendered an unusually pleasant reception last evening in the Presbyterian church parlors by the young people of the church. The affair was arranged by the Young People's Society of Christian Endeavor.

The parlors of the church were prettily decorated for the occasion and presented an attractive and homelike appearance. As the guests entered the room they were met by a reception committee consisting of Rev. and Mrs. J. M. Rogers, Mrs. Thomas Tracey, the Misses Bessie McLeod, Daisy Williams and Messrs. Seldon Crary and Orrie Brown. Principal Waldo, though not

formally attached to this committee, also stood with it for the purpose of presenting the out-of-town students.

The affair was very successful in bringing together the students of the school. The greater part of the out-of-town students were present as well as the full faculty. During the evening a very attractive musical and literary program was rendered. There was a vocal duet by the Misses Norma Ross and Laura Heppner, a piano solo by Mrs. H. C. Davis, a vocal solo by E. C. Wilkinson, a reading by Mrs. Charles Kelsey and a vocal solo by Mrs. A. H. Palmer. Refreshments were served later in the room adjoining the main parlor.
