In Speaking of the Pianola

EMIL SAUER, one of the greatest living pianists, says: "Of all the achievements in the musical domain the invention of the Eolian company seems to me the luckiest and most ingenious. It bears in all its traits the stamp of the reason to be, the right of existence, and considered from an unprejudicial point of view the wonders of PIANOLA most plainly astonish us. It will undoubtedly conquer the hearts of the music-loving classes, and to thousands of men as an inexhaustible source of inspiration and pleasure."

VET RIVER IS CROSSED

Lord Roberts' Advance Is Successful at All Points.

TROOPS OCCUPY WINBURG.

Division Under Hamilton Also Gets in Between the Boer Wings and Prevents Junction.

DAY OF HEAVY FIGHTING.

London, Monday, May 7.—4:20 a. m.—Lord Roberts is making better progress than any one had dared to hope, meeting with success at all points.

The only news of the actual occupation of Winburg is an incidental reference to it in a dispatch from Vet river describing General Pole-Carew's operations, but as the latest news of General Hamilton's operations was that he was preparing to force a difficult passage over the Little Vet river, on the Bloemfontein-Winburg road, there is no doubt that the news of the occupation is accurate. The Boers, following their customary tactics, had evacuated their positions on the Vet river during Saturday night.

IN BETWEEN THE BURGHERS. As Lord Roberts, advancing along the railway, and General Hamilton, twenty miles to the east, threatened the two wings of the Boer forces, it would not be surprising to hear they had also evacuated Winburg. General Hamilton's advance will prevent the Boer forces in the direction from Thabanchu from joining their main army near Winburg.

General Rundle on Saturday had arrived in pursuit of the Boers seven miles north of Thabanchu, compelling the Boers to retire in an easterly direction. The Boer account of the capture of Brandfort says: "The federal forces, although weak in numbers, offered strong resistance, but were forced by the overwhelming force opposed to them to evacuate the town."

RELIEF OF MAFEKING. General Hunter's progress, although slow, is satisfactory. The idea that the relief of Mafeking is in sight, however, appears to have been premature, as the Boers in that quarter are still stoutly resisting the British advance. According to a dispatch to The Daily Mail from Cape Town a special expedition to the westward left Kimberley a few days ago and will endeavor to relieve Mafeking while Generals Hunter and Methuen are operating on either side of the Vaal river in conjunction with Lord Roberts' army.

From Lourenzo Marques some various rumors that Colonel Plumer had been reinforced and is again advancing toward Mafeking. Another report says that Mafeking has been relieved and General Lomax, with three thousand Boers, captured at Fourteen Streams.

VOLKS RAAD MEETS TODAY. Women have been placed in the government offices in the Transvaal in order to relieve the burghers for active service. The volks raad meets in Pretoria today. Probably the sitting will be memorable.

The Johannesburg shell factory has resumed work with Austrian, Italian and Greek workmen.

LORD ROBERTS' REPORT.

OPERATIONS AT VET RIVER AND VICINITY AS DESCRIBED BY THE COMMANDER-IN-CHIEF.

London, Sunday, May 6.—The war office has just published the following dispatch from Lord Roberts, dated Vet River, May 5, 7:15, evening: "I marched here today with General Pole-Carew's division. The headquarters and Wavell's brigade of the Seventh division are two miles in the rear. Maxwell's brigade of the same division, is the same distance to the right.

RIVER GALLANTLY FORCED.

"The enemy are in considerable strength on the opposite side of the river. Our guns engaged theirs for some three hours without our being able to force a passage of the river, but shortly before dusk the mounted infantry under General Hutton turned the enemy's right and, in a dashing manner, pushed across the river under a heavy shell and musket fire. We are now bivouacking for the night within three miles of Vet river. Our casualties, I hope, are not numerous.

"General Hamilton was in action yesterday and succeeded in preventing the junction of the two Boer forces by a well executed movement of some of the Household Cavalry, the Twelfth Lancers and Kitchener's Horse, who charged a body of the enemy and inflicted serious loss. The enemy fled, leaving their dead on the field, also the wounded to be attended by our doctors.

"General MacDonald's Highland brigade dislodged the enemy on the first flank, under cover of the naval guns, in which operation the Black Watch distinguished themselves and were skillfully led.

"General Hamilton was advancing this morning to a difficult drift over the Little Vet river.

"General Hunter reports that Bar-

ton's brigade was heavily engaged this morning two miles north of Ruidam. The enemy's position was four miles long and strongly held. He states that our men marched magnificently, and carried ridge after ridge in grand style. The casualties in this force, also those in Hamilton's and Hunter's, will be reported as soon as possible.

"Captain Miller, who was taken prisoner near Thabanchu, has been sent to General Rundle's camp by the enemy with a severe wound in the abdomen.

"General Brabant reports that one sergeant and three men were captured May 2 while on patrol and that one of them, who had been brutally ill-treated and left for dead by the enemy, was found the following day.

"Lieutenant Lilley, Victoria Mounted Rifles, reported missing, was found at Brandfort dangerously wounded; he has been carefully attended by the Netherlands ambulance.

BATTLE AT THE VET.

HUTTON'S BRIGADE CARRIES THE FORD IN FINE STYLE UNDER A HEAVY FIRE—THE DETAILS.

Vet River, Sunday, May 6.—General Pole-Carew started at daybreak yesterday on a nineteen-mile march. He first came into contact with the Boers holding the river at 1 o'clock p. m. The British soon had two batteries in

action and later added two naval mine-pools and two 4.7 and a 5-inch siege gun. The Boers fired with great accuracy and the duel continued unabated until sunset; even later there was desultory firing. It is marvellous that nobody on the British side was injured.

General Hutton started early to find the drift on the west. When this was discovered it proved to be strongly held and protected by two guns. The British speedily engaged the Boers, who entailed the dismounted firing line with a Maxim, but General Hutton pushed forward his own pom-pom and a galloping Maxim and forced the Boers to leave the river bed. The encounter was terribly hot.

ENEMY RETIRES IN NIGHT. Later the whole British force crossed the river, threatening the Boer right. The Boers must have received about the same time news of General Hamilton's occupation of Winburg. About sunset a detachment of twenty-six Australians, who had crept unseen towards the river bed, found themselves near a kopje occupied by Boers. After firing their fixed bayonets and charging capturing the kopje. Early this morning it was discovered that the whole Boer force had fled. General Hutton, during the night, got two squadrons to

(Continued on Page Four)

FIRE LOSS OF A MILLION.

Mallory Line Pier and Its Valuable Contents Got Up in Smoke at New York—Several Barges Also Destroyed and One Life Lost.

New York, May 6.—A fire that started at the river end of the Mallory line steamship pier, at the foot of Maiden lane and East river, early this morning completely destroyed the pier and its valuable contents. The police place the loss at a million.

Several barges moored near the pier also were destroyed; many rescues of captains and members of their families on board were made. The nine-month-old daughter of Captain Charles Lochs, of the barge Sherwood, was drowned.

The Mallory line pier was 290 feet long and fifty wide. The pier shed was

filled with valuable freight of miscellaneous character, mostly cotton. The cause of the fire and the amount of insurance is unknown.

Captain Lochs, with the baby in his arms, and wife jumped into the water and, seeing that his wife was about to drown, he let go of the infant and managed to keep his wife's head above the water. Captain Boyle went to the rescue, but the baby sunk before it could be reached.

Patrolman Cronin was badly burned while rescuing a child from a burning barge.

MISSOURI COUNTIES SWEEP. HALF A DOZEN TORNADOES LEAVE HAVOC IN THEIR PATHS.

Kansas City, May 6.—No less than a dozen tornadoes of more or less severity are reported to have occurred this afternoon in Saline, Ellsworth and Barton counties, which join each other at Ellinwood, Barton county, three persons are reported killed. Other storms are reported near Ellsworth and Kanopolis, Ellsworth county, and near Brookville, Saline county.

Near Kanopolis eight distinct funnel-shaped clouds developed within a radius of twenty miles, four of them large ones, two of which are known to have traveled over the earth for a space of twenty-five minutes, doing great damage to farm buildings and crops. Brookville reports that six tornadoes traversed the country in as many different directions from that town without touching it.

In no instance are the details reported. The destruction wrought probably has been off the railroads at inaccessible points.

TWO DEATHS REPORTED. Later—A special dispatch to The Times from Ellinwood says: "At Cheyenne Bottoms, six miles north, a tornado destroyed the residence of Geo. Helfrick, killing him and his wife. The residence of William Helfrick also was demolished and himself and wife and child badly hurt."

SENATE WILL GIVE IT ANOTHER WHIRL TODAY—FORECAST OF THE WEEK IN CONGRESS.

Washington, May 6.—Routine business probably will occupy the greater part of the senate's attention this week. Senator Teller's resolution expressing sympathy for the Boers will be called up tomorrow. Senator Hale, either tomorrow or on Tuesday, will bring forward the naval appropriation bill, and probably the greater part of the week will be devoted to its discussion. On Thursday the Montana senatorial case will be called up. It is the undoubted purpose of the senate leaders to bring about adjournment early in June.

The attention of the house this week will be occupied with various miscellaneous matters, except such time as may be devoted to the consideration of the conference reports on appropriation bills, which will be given the right of way. The most important piece of general legislation will be the amended senate bill to amend the general pension laws, which will be placed upon its passage tomorrow under suspension of the rules. Tuesday will be given to the committee on claims and next Friday to war claims.

WM. C. ENDICOTT DEAD. CLEVELAND'S FIRST SECRETARY OF WAR AND THE FATHER OF MR. JOSEPH CHAMBERLAIN.

Boston, May 6.—William Crownshield Endicott, secretary of war under President Cleveland's first administration, died at his residence in this city this afternoon from pneumonia, aged seventy-three. Mr. Endicott had been in apparently good health up to last Wednesday, when he took his custom-

action and later added two naval mine-pools and two 4.7 and a 5-inch siege gun. The Boers fired with great accuracy and the duel continued unabated until sunset; even later there was desultory firing. It is marvellous that nobody on the British side was injured.

General Hutton started early to find the drift on the west. When this was discovered it proved to be strongly held and protected by two guns. The British speedily engaged the Boers, who entailed the dismounted firing line with a Maxim, but General Hutton pushed forward his own pom-pom and a galloping Maxim and forced the Boers to leave the river bed. The encounter was terribly hot.

ENEMY RETIRES IN NIGHT. Later the whole British force crossed the river, threatening the Boer right. The Boers must have received about the same time news of General Hamilton's occupation of Winburg. About sunset a detachment of twenty-six Australians, who had crept unseen towards the river bed, found themselves near a kopje occupied by Boers. After firing their fixed bayonets and charging capturing the kopje. Early this morning it was discovered that the whole Boer force had fled. General Hutton, during the night, got two squadrons to

BESIEGED BY REBELS.

British at Kumassi, Gold Coast Colony, Closely Invested.

SITUATION MUCH WORSE.

Governor Cables London for Reinforcements and Reports Much Hard Fighting.

ASHANTIS LOSE HEAVILY. London, Sunday, May 6.—The colonial office has received the following dispatch from Sir Frederick Mitchell Hodgson, governor and commander-in-chief of Gold Coast Colony, dated Kumassi, April 27:

"The situation, I regret to inform you, has changed for the worse. "On April 2 a force was sent to clear the rebel forces to the eastward. Four members of the constabulary were killed and a large number of rebels killed or wounded.

"On April 25 the Ashantis surrounded the town in great force, probably ten thousand. The ymaka determined to attack and the Hausas were obliged to evacuate the cantonment and concentrate at the fort. The fight lasted four hours. Twenty of our native allies and two Hausas were killed.

"The present occupants of the fort number 38, including eighteen Europeans, six of whom are missionaries. It is necessary that further reinforcements be sent to the Gold Coast."

ONE FORCE REACHES HIM. Sir Frederick, under date of April 29, telegraphed: "Yesterday a serious attack was made on the fort by rebels, but they were routed on all sides with great loss. Two members of the constabulary were killed and ten wounded.

"A contingent of the Lagos constabulary, under Inspector General Apin, has arrived after two days of severe fighting. The column was attacked at Asaqui, which was taken with the loss of one killed and twenty-three wounded, among them General Apin, slightly.

"On the following day the contingent was attacked two miles from Kumassi by eight thousand rebels. There was great loss in taking a stockade across the road. After desperate fighting the Ashantis fled. Two members of the constabulary were killed and thirteen wounded, including Assistant Inspector Read."

MORE BLACKS MOWED DOWN. Under date of May 3, Sir Frederick wires that the rebels were massed to the eastward; that he had made a demonstration on the previous day with two guns, inflicting great loss.

The colonial office announces that reinforcements have been sent General Hodgson from the Sierra Leone and West African frontier police.

CONGO REBELLION SPREADING. GRAVE DEVELOPMENTS ON THE TAPIS IN WEST AFRICA.

London, May 6.—Grave developments are expected in the Congo Free State by men in London who are familiar with the recent movements of the native population. A man who has traveled extensively in Africa and is conversant with conditions in the Congo Free State said to the correspondent today:

"It is my opinion that within a few days we will hear more of the mutiny at Boma, for then it will be seen that the matter is much more serious than the published reports indicate. So critical is the situation that within the last fortnight the people of Boma, the capital of the Congo Free State, have been panic-stricken and have contemplated abandoning the town.

"Mutinies and revolts are the order of the day in the Congo Free State. First the eastern districts revolted. Then the rebellion spread to the western region. Afterward the Mongalla area became infected, and now this modernized lower part of the Congo Free State, the seat of administration, is face to face with a native uprising. If the truth were known, it would be found that the whole country is in a state of ferment."

DEWEY AT MEMPHIS. CHEERED ALL THE WAY ON THE TRIP FROM ST. LOUIS

Memphis, Ala., May 6.—The train carrying Admiral Dewey and party arrived from St. Louis at seven this evening. The day's journey had no significance beyond the fact that at every station enroute large assemblages were present and insisted upon seeing the hero of Manila. Thousands here at the Poplar street depot and along the route to the Peabody Hotel gave the admiral an enthusiastic greeting. At 8 o'clock tonight a limited reception was held in the parlors of the hotel, after which the admiral retired for the night.

TODAY'S WEATHER. Washington, May 6.—The following is the weather bureau's forecast for Upper Michigan: Generally fair Monday and Tuesday; warmer Monday. Fresh north to east winds.

Headache for Forty Years.

For forty years I suffered from sick headache. A year ago I began using Celeri King. The result was gratifying and surprising. My headaches leaving at once. The headaches used to return every seventh day, but thanks to Celeri King, I have had but one headache in the last eleven months. I know that what cured me will help others.—Mrs. John H. Van Keuren, Saugerties, N. Y.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., MAY 7.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Ten years in Sing Sing is what Franklin Syndicate Miller got for swindling those who trusted to him to make them rich speedily and without effort on their part. It ought to give Gates the shivers to read of this. Measured by what he made in his deal, Gates ought to get a sentence of about a thousand years if Miller got ten.

Ex-Congressman Lewis, who was one of the attractions at the Mohawk club's Bryan banquet at Detroit last week, says Schley will be the Nebraska's running mate on the Democratic national ticket. It hasn't yet been ascertained what Schley's politics are, but it is pretty well understood that his habits are badly Democratic.

Captain Chadwick has been sharply reprimanded by the secretary of the navy for his "indiscretion" in having permitted his tongue to wag too freely recently when he happened to be discussing Admiral Schley's conduct as an officer. The captain is reminded that he offended in a similar manner once before, and it is intimated that it will not be well for him if he errs in that way again.

Secretary Long is having considerable trouble with naval officers who criticize their superiors, or talk in the presence of newspaper reporters on topics that are hardly suitable for free and easy discussion by men holding such positions. He might find it advantageous to adopt the plan pursued by General Otis at Manila in dealing with the newspaper correspondents, and subject his subordinates to a rigid censorship when they come ashore.

There were only a few Republican papers in Michigan that had the honesty and courage to protest against the selection of Stanley W. Turner for chairman of the state central committee, but few as they were in number they seem to have had influence enough to prevent that outrage on the honest voters of the party in the state from being consummated. It was arranged to have him made chairman of the committee, and with the consent of leaders of the party who ought to have shown more regard for decency, but when the conscience of the delegates was appealed to it was all up with Stanley W. But he still has his government job. Some day the Republican party will become so pure and good that it will hold this class of "work-ers" overboard, and when it does that it will not need big campaign funds to enable it to carry elections.

AN IMPUDENT THREAT.

The letter carriers of the country are, it is said, going to take an active part in the coming congressional elections if the postal appropriation bill as amended becomes a law. They are opposed to the bill for reasons set forth in this statement of their position, made by John N. Wilson, of New York.

The amendment practically repeals the eight-hour law, in providing that extra remuneration shall be paid to all letter carriers who work more than forty-eight hours a week. That is not what the carriers want. They do not care for the extra work. That should be given a third man. We want to furnish employment to as many men as we can, and we shall all be satisfied with the wages paid for an eight-hour day. We want that amendment killed in the senate, and if it is not done there will be a great change in the personnel of the house next session. Every man who voted for the amendment will feel the weight of the letter carriers' opposition.

It may develop that the letter carriers are making more trouble for themselves than they will be able to make for the house members whose course on the bill in question has not met their approval. The bulk of the voters will hardly feel disposed to all the carriers in their campaign of vengeance against members of congress whose offense in this case seems to be that they have considered the interests of all the people as paramount to those of a class of public servants who are very well paid for the service they render, and who display no little gall in assuming that the government must run to suit their ideas and satisfy their demands.

A WAR WITHOUT BATTLES.

The St. Louis Globe Democrat discusses a peculiar aspect of the war in South Africa, given it by the tactics employed by the Boers, in this article: Enough is known of the style of warfare in South Africa to warrant the belief that there will be no great pitched battles during the struggle. The inequalities between the adversaries may account for this result, though it is also due in part to a difference in tactical views. In the recent operations east and southeast of Bloemfontein the Boers could have concentrated 30,000 men and the British twice as many, and one of the great battles of the century might have joined at some point on the line. But the advance of the Boers seems to have been in the nature of an infantry raid in force. It cost the British nearly a thousand men, chiefly in prisoners, and brought about another ineffective siege ending in Boer retreat. In some respects the movements in South Africa recall

those in Greece in the recent war with Turkey. Battles were avoided by the Greeks, and in the end they were saved only by the interposition of other powers. It was a war without a general field engagement.

With the military writer of the future it will be a question if the Boers did not lose their greatest opportunities through delusive sieges. They felt so sure of the prey at Ladysmith that a large army was kept there, giving Roberts the chance to break through the thin lines in the distance and seize the capital of the Free State. If, at the moment of his arrival in Bloemfontein or soon after, the Boers had fallen upon him with every available man and driven it back at least as far as the Orange River. The barren attempt at Wepener is a repetition of Ladysmith on a smaller scale. The garrison was laboriously surrounded, but not assaulted. No one disputes the devoted courage of the Boers, but their strategy lacks energy in offensive operations in mass, and wars are not won by armies with this characteristic.

Taking note of Senator Tillman's brutal attack on the negro race in the course of the lecture he delivered before the students of the state university at Ann Arbor a few days ago, the Boston Transcript administers this stinging rebuke to that burly southern politician: The lecture of Senator Tillman before the students of Michigan University was coarse and insulting, considering the fact of which he was well aware, that there were colored students of good standing in his audience, and the comment he made upon the hisses which followed one of his most objectionable statements did not place him in any better light. "You scratch one of these colored graduates under the skin," said he, "and you find the savage. His education is like a coat of paint, like his skin." There is considerable of the savage in all of us if we are scratched in a way to bring it out. It did not require much scratching to let loose those savage orgies which brought white men by the thousand to participate in the horrible lingering torture of Sam Hose a year or so ago. A North American Indian of the old school would have been delighted with that exhibition of refinements in fiendish savagery, as something to which his ingenuity had never risen. The class of men in the south whom Senator Tillman represents have played upon the savage element in the negro nature, which is merely the savage element in human nature. The negro has the same capabilities of affection, of gratitude, of elevation, as the white man, if they are appealed to and cultivated. That those capabilities are not further developed in him is the white man's responsibility. The superior race should do its best to bring it out instead of taunting the negro with being fundamentally a brute, and treating him as such. Senator Tillman will do well in future to keep his gospel of hate and insult and moral outrage for his own section. It is not appreciated in the educated and civilized circles of the north.

THE APPETITE OF A GOAT

Is envied by all poor dyspeptics whose stomach and liver are out of order. All such should know that Dr. King's New Life Pills, the wonderful stomach and liver pills, gives a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy. Only 25c at the Stafford Drug company.

NOT GOING TO PORTO RICO.

The last number of the Iron Mountain Press contained this piece of political information: Senators McMillan and Burrows paid a visit to the president last Saturday, especially in the interest of G. Smith of Marquette, whose appointment to the Porto Rico secretaryship has been urged, says a Washington dispatch to the Detroit Free Press. No direct promise has been made to give the place to Mr. Smith, but the senators have been assured that he will be taken care of. President McKinley desires to confer with Governor Allen, who has gone to Porto Rico to look over his new field of duty, but will return before taking up actively the reins of government.

Sault Ste. Marie.

The "Soo" Machine & Boiler company of this city has filed articles of association. George A. Hill has received a commission of deer from his old home at Munising. Mrs. E. C. Davidson and son, W. E. Davidson, of Ruliyard were in the city Saturday.

W. D. Hitchcock of De Tour passed through the city Saturday on his way to Chicago. The "Soo" line has established a downtown ticket office, with T. R. Harvey as agent.

Mrs. McNaughton, wife of Captain W. W. McNaughton of Ridge street West, is seriously ill. Mrs. Augustus Metzger of La Crosse, Wis., mother of Victor E. Metzger, has returned to her home.

H. M. Westlake and George Comb left yesterday morning on a C. P. R. boat for Port Arthur on their way to Cape Nome.

The steamer Maryland, bound down with ore, grounded at the head of the canal Friday and was released after several hours' delay.

H. M. Owen, A. L. Ferguson, G. N. Priestor, William Chandler and Chas. S. Osborn are home from the Republican state convention.

The Park Hotel barber shop has engaged the services of Miss Wilson of Manistique as a tonsorial artist and she will commence work tomorrow.

Rev. Fathers Carre and Gagnier, of St. Mary's church, have returned from Escanaba, where they went to attend the silver Jubilee of Father Mesnard.

The "Soo" ball players have leased the old Fort Brady grounds and will immediately convert them into a suitable ball park. Mun McCarty will manage the team.

Elmo Kibby, agent of the Racine Boat Manufacturing company, recently received a carload of row boats and launches for delivery to local parties. Among the lot was a beautiful 21-foot twentieth century electro-vapor launch, which is the property of Dr. A.

Nerves Unstrung.

Weak Stomach: Pain in the Chest: Sleepless, Nervous, Irritable; all run Down. Cured by Dr. Miles' Nervine.

Nearly every disease is the sign of poverty, either of the blood or of the nerves. When the brain cells and the nervous tissues are used up faster than they are repaired, not only the brain and nerves, but every vital organ of the body cries out for help. Headaches, neuralgia, heart disease, nervous dyspepsia and liver and kidney troubles run rampant in the helpless system, destroying whatever strength remains until at last the break-down comes and then—

Dr. Miles' Restorative Nervine is doing a world of good for such weak, nervous people, whose brain and body are overtaxed, but who may yet be saved from a state of indescribable wretchedness, and restored to lives of happiness and industry. By soothing and strengthening the secretive glands of the digestive organs it facilitates digestion and assimilation,

while the nervous system is rapidly built up again and put to work without confusion, thus bringing all the important organs into harmony and restoring perfect health. "About seven years ago I was all run down with nervousness and heart trouble and I was so bad that I had to give up work. I was nervous, sleepless and irritable all the time and although several doctors treated me I did not improve any under their care. Hearing Dr. Miles' Nervine well spoken of for such troubles I commenced using it and grew better from the start. When I had used three bottles I felt that I was cured; but I still keep a bottle of the Nervine on hand, and when I am unusually tired or nervous I take a dose and am all right again. I took Dr. Miles' Nervine and Liver Pills along with the Nervine and found them the best Liver Pills on the market." ALBERT CRANE, Newark, Ohio. Dr. Miles' Nervine is sold at all drug stores on a positive guarantee. Write for free advice and booklet to DR. MILES MEDICAL CO., Elkhart, Ind.

It has been the history of our such struggles, and England has been no exception, that in the disturbance of commercial relations and other questions become restive. There might be no desire to interfere on general principles, but the influence of the financial, industrial and commercial interests often compels governments to act from economical considerations. The experience of the war thus far has effectually established the prestige of the Boers as fighters. They may be able to continue, if they do for a few months, other developments are not improbable. But, embarrassed by protracted demands upon her fighting material in men, supplies and munitions of war, her army thousands of miles away, Great Britain might find it difficult to head off foreign interference by substantial methods.

That all the more powerful nations of Europe would rejoice to see the British fail to conquer the Boers is not to be disputed. It is not that they really sympathize with the Boers in the struggle they are making to maintain the independence of their states, for they do not, but because they hate the British and would keenly relish seeing them humbled. They are restrained from interfering only through prudential considerations, and if the opportunity for aiding the Boers ever comes they will be tolerably certain not to let it pass unimproved.

Much will depend, of course, on the success that will attend on the movement on Pretoria which is now in progress under the immediate direction of General Roberts. If that should be successful there will be no chance for interference on behalf of the Boers. But if it should fail, and the British force now in the field against the Boers should prove to be inadequate to corner them, there is no such thing as foretelling what might happen before the war would come to an end. It is a costly and troublesome war for Great Britain, and it is no cause for wonder that the British people are beginning to wish that they were well out of it.

McClendless, Fred R. Price and C. G. Lampman; also a 16-foot cutter consigned to A. G. and A. C. Bailey and B. E. Dunn of Bay Mills. The Falls City Boat club received two natty 15-foot cedar row boats to add to its equipment.

Mrs. C. W. Pickford died at her home on Court street shortly before 12 o'clock Friday night from consumption. Mrs. James Pascoe of Hancock, a step-daughter of the deceased, was in attendance during the last few weeks of Mrs. Pickford's illness.

Messrs. Moffly, Chipley, Murdoch, Geo. Hanger, E. S. B. Sutton, W. W. Dan, and H. C. Mendelson gave a farewell dinner to Lieutenant Bent Saturday evening at the Hotel International, Canada Soo. Lieutenant Bent leaves Tuesday for California.

The statistical report of lake commerce through the canals at Sault Ste. Marie, Michigan and Ontario, for April indicates that this will be another record-breaking season in the volume of traffic. During that portion of the month from the opening of navigation, April 22 to April 30, 427 vessels, of registered tonnage of 534,191 net tons, passed through the locks, carrying a total of 473,482 net tons of freight. Of the freight tonnage, 305,678 tons were eastbound and 167,804 tons westbound.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and prepared a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. Lynch, Door, Va. This remedy is sold by The Stafford Drug Co.

INFLAMMATORY RHEUMATISM CURED IN THREE DAYS.

Morton L. Hill, of Lebanon, Ind., says: "My wife had inflammatory rheumatism in every muscle and joint; her suffering was terrible and her body and face were swollen almost beyond recognition; had been in bed for six weeks and had eight physicians, but received no benefit until she tried the Mystic Cure for Rheumatism. It gave immediate relief and she was able to walk about in three days. I am sure it saved her life." Sold by Frank Pendill, drug gift, Marquette.

Coughs and colds, down to the very borderland of consumption, yield to the soothing, healing influences of Dr. Wood's Norway Pine Syrup.

Nerves Unstrung.

Weak Stomach: Pain in the Chest: Sleepless, Nervous, Irritable; all run Down. Cured by Dr. Miles' Nervine.

Nearly every disease is the sign of poverty, either of the blood or of the nerves. When the brain cells and the nervous tissues are used up faster than they are repaired, not only the brain and nerves, but every vital organ of the body cries out for help. Headaches, neuralgia, heart disease, nervous dyspepsia and liver and kidney troubles run rampant in the helpless system, destroying whatever strength remains until at last the break-down comes and then—

Dr. Miles' Restorative Nervine is doing a world of good for such weak, nervous people, whose brain and body are overtaxed, but who may yet be saved from a state of indescribable wretchedness, and restored to lives of happiness and industry. By soothing and strengthening the secretive glands of the digestive organs it facilitates digestion and assimilation,

while the nervous system is rapidly built up again and put to work without confusion, thus bringing all the important organs into harmony and restoring perfect health. "About seven years ago I was all run down with nervousness and heart trouble and I was so bad that I had to give up work. I was nervous, sleepless and irritable all the time and although several doctors treated me I did not improve any under their care. Hearing Dr. Miles' Nervine well spoken of for such troubles I commenced using it and grew better from the start. When I had used three bottles I felt that I was cured; but I still keep a bottle of the Nervine on hand, and when I am unusually tired or nervous I take a dose and am all right again. I took Dr. Miles' Nervine and Liver Pills along with the Nervine and found them the best Liver Pills on the market." ALBERT CRANE, Newark, Ohio. Hood's Sarsaparilla Cures All Blood Humors America's Greatest Spring Medicine.

GENERAL GARCIA IS MADE PRISONER.

Important Capture in the Philippines by a Party of Funston's Troops.

NEXT HIGHEST OFFICER TO AGUINALDO IN THE TOILS.

HAS BEEN PERSONALLY DIRECTING GUERRILLA OPERATIONS.

Small Force Under Lieutenant Smith, Led by Spies, Finally Corralled the Rebel Chief After a Search of Several Weeks.

FOUND DISGUISED AS A PEASANT. Manila, Monday, May 7.—General Pantolon Garcia, the highest insurgent officer except Aguinaldo, was captured yesterday by Lieutenant Smith, of General Funston's staff, in the town of Jaen, province of New Ecija.

Garcia has personally directed the guerrilla operations, and General Funston had spent weeks trying to corner him; several of his companies have beaten the whole country. At night spies led Lieutenant Smith, with Lieutenant Day and forty cavalrymen, to a house where Garcia was disguised as a peasant, only a major and two servants being with him. Jaen is the largest ungarriioned town in the province.

OTIS HOMEWARD BOUND.

MARTHUR TAKES UP THE REINS IN THE PHILIPPINE ISLANDS.

Manila, May 6.—The United States transport Meade sailed for the United States at 5 o'clock yesterday afternoon with Major General Otis and two aides-de-camp on board. The warships in port fired a major general's salute as the steamer raised her anchor.

The general's launch left the palace at 4 o'clock, carrying General Otis and General MacArthur's staffs to the Meade. The Twentieth and Fourth Infantry, drawn up in front of the city wall, presented arms and the bands played "Aul Lang Syne," while a shore battery saluted. During the morning the supreme court judges and many officers called at the palace to bid farewell to General Otis, who kept at work with up accustomed energy until the moment of leaving.

BAN ON DIVINE HEALERS.

SAID THE GOVERNMENT IS ABOUT TO PROHIBIT THEM FROM USING THE MAILS.

Washington, May 6.—Divine healers have come under the ban of the post-office department and in a few days an order will be issued debarring them from the use of the mails. The department has been gathering information respecting their methods for a month, and it is now so well conceded that their business is illegitimate that it is the purpose to institute a general raid. The matter was first brought to the attention of the department by complaints from Nevada, Mo., where Weltner, a so-called divine healer, conducting his business by mail, endeavored to collect payment for continuing to treat a patient after the patient was dead. Further investigation showed that he had attempted this in several instances, although, of course, he was not aware that the subject of his "absent treatment" had succumbed to disease.

Professor F. A. Weltner is president of the American School of Magnetic Healing, which is located at Nevada, Mo., and organized under the laws of that state. He claims to have treated 55,000 patients without personal consultation and to have cured all but twelve. The postal authorities have notified the officials of the Nevada school to appear on May 12 and submit arguments to show why a fraud order should not be issued against them.

TO BUILD RAILWAY IN BRAZIL.

GERMANS PUSHING COLONIZATION SCHEMES WITH VIGOR.

Bremen, May 6.—German colonization schemes in Brazil are being pushed with considerable vigor. A syndicate of German and Belgian capitalists has commissioned a German engineer to survey a railway line in South Brazil, between San Francisco and Blumenau, along the Itajahy valley, where there is a colony of 15,000 Germans. The length of the railway when finished will be about eighty miles.

Dr. Krauel, who, at one time, was German minister to Brazil, says that for the purpose of carrying out its overseas policy Germany requires, in the first place, to make an economic conquest of Brazil. The moral conquest will follow. He shrewdly denies that Germany has any political designs on South America, but says that in order to have a firm foothold in north Brazil, Germany requires to extend its ship

CONFERENCE AT CHICAGO.

Leaders of the Fusion Parties Meet and Decide on the Make-up of the Ticket.

Chicago, Monday, May 7.—The Chronicle this morning says that at a conference held Sunday between leaders of the Democratic, Populist and Lincoln Republican (Silver Republican) parties, it was decided that the fusion ticket to be selected this year be headed by Bryan and Towne. Those present included Senator Butler of South Carolina, General Weaver of Iowa and Congressman Shibley of Virginia, representing the Populists; Senator Pettibone of South Dakota and ex-Senator Dubois of Idaho, for the Silver Republicans, and J. G. Johnson, vice chairman of the national committee, and B. J. Campau of Michigan, representing the Democrats.

CAMPAN IN ATTENDANCE.

Chicago, Monday, May 7.—The Chronicle this morning says that at a conference held Sunday between leaders of the Democratic, Populist and Lincoln Republican (Silver Republican) parties, it was decided that the fusion ticket to be selected this year be headed by Bryan and Towne. Those present included Senator Butler of South Carolina, General Weaver of Iowa and Congressman Shibley of Virginia, representing the Populists; Senator Pettibone of South Dakota and ex-Senator Dubois of Idaho, for the Silver Republicans, and J. G. Johnson, vice chairman of the national committee, and B. J. Campau of Michigan, representing the Democrats.

TAX ON BIKES PROPOSED.

OSHKOSH SCHEME TO RAISE MONEY FOR THE STREETS.

Oshkosh, Wis., May 6.—A large number of wheelmen have signed a petition to the common council to impose a tax on local bicyclists, the fund so raised to be used for improving the streets and building bicycle paths. The plan is to tax men's wheels \$1, women's \$1, children's \$1 and children's \$1.

HOODOO ON BOARD.

SAILING OF THE CRUISER ALBANY IS AGAIN POSTPONED.

Washington, May 6.—The cruiser Albany is still at the Elswick works in England, although it was expected that she would sail for this country in March. A report just received from Captain J. E. Craig, who has been assigned to the command of the vessel, says that there is trouble over the dynamo and that he cannot predict when the vessel will be ready to start for the United States.

GROVER'S NAME MENTIONED.

ONLY FIRST-CLASS MEN FOR THE ARBITRATION BOARD.

Washington, May 6.—The president has resolved that in selecting the jurists who shall represent the United States on the permanent board of arbitration provided for by The Hague treaties he will consider only the names of persons of the highest character and of national reputation. Of names which have been mentioned as meeting the president's requirements are those of Benjamin Harrison, Grover Cleveland and Richard Olney.

CANAL TREATY TO WAIT.

TIME FOR RATIFICATION IS EXTENDED SEVEN MONTHS.

Washington, May 6.—Secretary Hay and Lord Pauncefote, the British ambassador, have signed a treaty extending for seven months, from Aug. 5 next, the period of time allowed for the exchange of ratifications of the Hay-Pauncefote canal treaty. This extension was arranged for in view of the conviction that no legislation upon the treaty can be secured during the present session of congress. The extension will prolong the period allowed for the exchange of ratifications until the expiration of President McKinley's term of office.

ELLIS JUNCTION SOLD.

BIG COLONY OF POLES TO BE LOCATED IN THAT SECTION OF MARINETTE COUNTY, WIS.

Milwaukee, May 6.—What is known as Ellis Junction, Marinette county, Wisconsin, has been sold by H. Zeck of Marinette county to the Polska industrial company. The village is suburban to Crivitz, and is included in a tract of 10,000 acres. The tract will be colonized by a co-operative community of Poles from Milwaukee, Chicago and the old country. The tract includes houses, saw mills, general stores and all lumbering interests on the tract. The amount of money paid for the tract is not stated, but is estimated at considerable over \$100,000.

FENIAN PLOT.

WHAT THE EVIDENCE AT THE WELAND CANAL TRIAL TODAY IS EXPECTED TO SHOW.

Toronto, Ont., May 6.—The evidence which will be produced at the trial tomorrow of the three men charged with attempting to blow up Lock No. 24 in the Welland canal, it is understood will show that the prisoners were not the instruments of the labor element of Buffalo, supposed to be antagonistic to a Canadian route for grain traffic, but the agents of a Fenian plot. It has been learned that the three men concerned in the outrage arrived at Buffalo from a city on the Atlantic seaboard. They were unacquainted with Buffalo, and left for Niagara Falls at the earliest possible moment after their arrival in Buffalo.

WORK MAY STOP ON BIG HALL.

STRIKE TROUBLES GROWING SERIOUS AT PHILADELPHIA.

Philadelphia, May 6.—All efforts to compromise the dispute between the Allied Building Trades council and the Brotherhood of Carpenters and Joiners have so far failed. Unless an amicable agreement is speedily reached it is possible that the work on the national Republican hall will come to a standstill. By tomorrow the work on the convention hall will have advanced to a stage where painters and plumbers will be necessary. All journeymen in these trades will refuse to go to work unless the brotherhood carpenters are withdrawn from the job. There are about 10,000 idle men in the building trades today.

TIME FOR RATIFICATION IS EXTENDED SEVEN MONTHS.

Washington, May 6.—Secretary Hay and Lord Pauncefote, the British ambassador, have signed a treaty extending for seven months, from Aug. 5 next, the period of time allowed for the exchange of ratifications of the Hay-Pauncefote canal treaty. This extension was arranged for in view of the conviction that no legislation upon the treaty can be secured during the present session of congress. The extension will prolong the period allowed for the exchange of ratifications until the expiration of President McKinley's term of office.

ELLIS JUNCTION SOLD.

BIG COLONY OF POLES TO BE LOCATED IN THAT SECTION OF MARINETTE COUNTY, WIS.

Milwaukee, May 6.—What is known as Ellis Junction, Marinette county, Wisconsin, has been sold by H. Zeck of Marinette county to the Polska industrial company. The village is suburban to Crivitz, and is included in a tract of 10,000 acres. The tract will be colonized by a co-operative community of Poles from Milwaukee, Chicago and the old country. The tract includes houses, saw mills, general stores and all lumbering interests on the tract. The amount of money paid for the tract is not stated, but is estimated at considerable over \$100,000.

FENIAN PLOT.

WHAT THE EVIDENCE AT THE WELAND CANAL TRIAL TODAY IS EXPECTED TO SHOW.

Toronto, Ont., May 6.—The evidence which will be produced at the trial tomorrow of the three men charged with attempting to blow up Lock No. 24 in the Welland canal, it is understood will show that the prisoners were not the instruments of the labor element of Buffalo, supposed to be antagonistic to a Canadian route for grain traffic, but the agents of a Fenian plot. It has been learned that the three men concerned in the outrage arrived at Buffalo from a city on the Atlantic seaboard. They were unacquainted with Buffalo, and left for Niagara Falls at the earliest possible moment after their arrival in Buffalo.

WORK MAY STOP ON BIG HALL.

STRIKE TROUBLES GROWING SERIOUS AT PHILADELPHIA.

Philadelphia, May 6.—All efforts to compromise the dispute between the Allied Building Trades council and the Brotherhood of Carpenters and Joiners have so far failed. Unless an amicable agreement is speedily reached it is possible that the work on the national Republican hall will come to a standstill. By tomorrow the work on the convention hall will have advanced to a stage where painters and plumbers will be necessary. All journeymen in these trades will refuse to go to work unless the brotherhood carpenters are withdrawn from the job. There are about 10,000 idle men in the building trades today.

CHOLERA TAKES HOLD IN STRICKEN INDIA.

Dread Disease Now Adding to the Horror of the Famine in the Native States.

HEAPS OF DEAD AND DYING EVERYWHERE SEEN.

RELIEF WORK, ALTHOUGH GREAT, ENTIRELY INADEQUATE.

Said That Ten Times the Present Charity Could Be Laid Out in a Single District and Yet Not Fully Relieve the Distress.

93,500,000 PERSONS IN SQUALID MISERY.

London, May 6.—A special dispatch from Bombay says that cholera is alarmingly virulent among the natives on the famine relief works at Virankon, where there are fifty deaths daily from the disease.

This report that cholera is strengthening its deadly hold on famine stricken India brings the pitiful condition of the country more than ever to public view. About 93,500,000 persons, for this is the population of the districts affected, are suffering the squalid existence away amid pestilence and misery that show no signs of abating. Hundreds of thousands of pounds in good British gold, good German marks and American corn have been thrown into the country, but all this charity seems merely a drop in the ocean.

The famine and its attendant complications appear to exceed in virulence any two previous visitations. The viceroy, Lord Curzon of Kedleston, and the government are making ceaseless exertions to meet the terrible emergency, but the stupendous difficulties confronting them prevent the present supplying of relief to more than 5,000,000. In the meantime the native states are dotted with heaps of dead and dying and the roads are crowded with ghastly bands seeking to escape from the stricken territory but who for lack of food and water mostly succumb in the attempt.

A correspondent at Simla writes: "Ten times the total relief could be laid out in a single district without fully relieving its distress. All we can hope for is a succession of good years to put the people on their legs again." The British districts are reported to be so far escaping the general starvation and mortality that mark the native states.

VET RIVER IS CROSSED.

(Continued from Page One)

blow up the line near Swaidale. The British discovered yesterday after every hundred yards along the railway concealed small packets of high explosives. The Boers had destroyed three bridges over spruce between here and Brandfont, but in every case it was possible to make a detour.

The Boers appear to be fighting with much less spirit. It is reported that they are commanded by General Lucas Meyer. The bridge over the Vet river is completely destroyed. General Hutton captured a Maxim and took twelve prisoners.

FREE STATERS DEMORALIZED.

GENERAL BOTHA RETURNS FROM FRONT DISGUSTED, IT'S SAID.

London, Monday May 7.—A special dispatch to The Times from Lourenzo Marques says: "General Botha has been to the Free State to rouse the burghers, but has returned disheartened and disgusted. From an unimpeachable source I learn that he has openly stated to friends that the Free State is so completely demoralized that it is hopeless to hope for anything from them."

RETREAT BEFORE BARTON.

BOERS ARE DRIVEN AT RUIDAM AFTER STIFF FIGHTING.

Warrenton, Sunday, May 6.—Yesterday General Barton drove from two to three thousand Boers from hilly positions at Ruidam, where they awaited him. They retreated after stiff fighting, leaving several dead on the field. The British casualties were slight. General Barton is still pursuing. Windsorton and Klipdam have been evacuated. General Paget's brigade is attacking the Boer position at Warrenton.

BATCH OF PRISONERS TAKEN.

The engagement yesterday was severe and lasted from nine in the morning until four in the afternoon. More than once the British infantry were obliged to engage the Boers at close quarters; the Boers only retired when retreat was nearly cut off. The British losses are five killed and twenty-five wounded, mostly Welsh fusiliers. The British took a batch of prisoners, including a Swedish ambulance, which they allowed to return. The Boers were in hurried retreat and left thirteen dead.

ALABAMA LYNCHING.

Geneva, Ala., May 6.—An unknown number of about twenty years was taken from the officers by a mob three miles from here late yesterday and hanged to a tree. He assaulted a young girl Tuesday and was captured two days later.

CORNS REMOVED.

Corns and ingrowing nails removed without pain or cutting. Bunions relieved. Satisfaction guaranteed. Frank Keough, St. Luke's Hospital. (4-24-1mo)

WHEELMEN GETTING OUT.
 Warmer Weather Brings Out the Bicycles in Large Numbers.
 Sunday's bright, clear weather, slightly warmer than has prevailed for a few days previous, had the effect of bringing the wheelmen out in considerable numbers. The roads are good to the island and they are said to be good in several directions running out from the city. Some wheelmen, who are at the same time fishermen are using their mounts to carry them to the brook trout streams, but the catches reported to date are not heavy.

MARINE MATTERS.
PASSED THE CANAL.
 Sault Ste. Marie, Mich., May 6.—(Special.)—Up—Carnegie, 9:30; Westford, Manitowoc, Monitor, Atmosphere, Johnson, 10:30; St. Paul, Ashland, Sacramento, Crete, 12; America, 1:30; Elflinnere, Celtic, 2; Admiral, St. Louis, Champion, 4:30; W. PORT LIST.
 Arrived—Forest City, Tampa, Roby, Angeline, Centurian, Choctaw, LaSalle, Rugee, Kaliyuga, Fontana.
 Cleared—Roby, Angeline, Centurian, Ashtabula; LaSalle, Tampa, Conneaut; Rugee, Erie.
 Sheltered—Tugs Cora Sheldon, H. A. Meldrum, Geniieve, Hingston dredge No. 10.

LOCAL MARINE NEWS.
 The tug Cora A. Sheldon was in port yesterday.
 The tugs Geniieve and H. A. Meldrum came in Saturday evening having in tow the big Hingston dredge No. 10, which is enroute from Buffalo to Portage lake. The tugs and the dredge were sheltered here all day Sunday but got away last night for their destination.

If troubled with rheumatism, give Chamberlain's Pain Balm a trial. It will not cost you a cent if it does no good. One application will relieve the pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, frostbites, quinsy, pains in the side and chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price, 25 and 50 cents. The Stafford Drug company.

CITY BRIEVITIES.
 Yesterday's temperature: 7 a. m., 36 degrees; noon, 36 degrees; 7 p. m., 31 degrees; maximum, 36 degrees; minimum, 33 degrees.
 The city lockup held one drunk last night.
 John Nesbitt was down Saturday from Negeau.

C. H. Kelsey was down Sunday from the copper country.
 Edward Johnson was in town Saturday from Newberry.
 M. M. Berg of Baraga was in the city Saturday on business.

A. T. Emmons of Ishpeming was in Marquette last evening.
 A new fire pump has been installed at the L. S. & I. dock.
 E. A. Dunbar of Houghton was a Marquette visitor Saturday.

Mrs. J. W. Stone arrived home Saturday from her trip to Washington.
 Mr. and Mrs. J. M. Forvilly of Ishpeming spent Sunday in the city.
 A. P. Simpson of Saginaw, formerly of Marquette, Sunday in the city.
 J. W. Sparling of Bay Mills was a business visitor in the city Saturday.

G. R. Whitaker and J. Swart were in town Saturday from Sault Ste. Marie.
 Sam Lee is again a resident of Marquette. He got back Saturday morning.
 Mrs. J. Carey of Notoxia and Miss Ackerman of Trout Creek visited in the city Saturday.

Andrew Lindquist and family of Negeau spent yesterday in the city visiting friends.
 M. J. Peppard, the well known Minneapolis contractor, arrived in town on last evening's train.
 Captain Peter Ranquist, a prominent mining man of Bessemer, visited friends in town Saturday.

J. F. Clarkson, of Prendergast & Clarkson, the Chicago contractors, is down from the copper country.
 Judge Kelsey returned Saturday from Detroit, where he has been attending the Republican state convention.
 This being the first Monday in the month the common council will meet tonight for its regular May meeting.

All the members of the new police force are now out in their blue clothes. Chief McIntosh made his appearance Sunday.
 Mr. and Mrs. M. E. Astre returned from Chicago Saturday. Mr. Astre spent most of the week there doing business.
 E. J. Butler was down yesterday from Ishpeming, being called by the death of his mother-in-law, Mrs. Julia McNulty.

James Bice, traveling engineer under Commissioner of Railroads Chase S. Osborn, has been in the city the past couple days.
 Frank Hoard has had a new bicycle rack put out in front of his new delivery. It has accommodations for about a dozen bikes.
 John G. Stone leaves for Ontonagon today. Mr. Stone expects to make that city his future home and proposes to open a law office there.

Peterson Severson was arrested Saturday for begging and scaring women on the hill. Peter was given a ten-day sentence at the jail.
 Mrs. Carrie Hallam has just purchased the Nathan Quarters property on Hewitt avenue. The deal was made through the Asire agency.
 Ed Connors, who has been working for the railroad company up near Du-

luth all winter, is back and will soon go firing on a South Shore engine.
 The regular monthly meeting of the Park and Cemetery commission will be held in the secretary's office in the Harlow block at 2 o'clock this afternoon.
 Joe Carroll, one of the best known traveling men making this territory and formerly a resident of Marquette, is stopping off in the city a day or two.
 One of the street cars ran into an open switch at the power house Saturday afternoon and gave the passengers quite a shake-up, though none of them were hurt.
 The "Snap Shot" dodgers put out Saturday by F. H. Vandenberg, the wellknown Aetna man, proved quite an attraction and were pretty generally read in all parts of the city.
 A reception will be tendered in the parlors of the Baptist church Wednesday evening to the Rev. H. E. Purinton and his wife. Mr. Purinton has but lately arrived here to take the pastorate of the church.

While so much information is laboriously gathered about the Boers and their manners and customs by correspondents in South Africa to satisfy thousands of settlers who are as typically Boers in every sense of the word as any that the English have fought against in South Africa, and besides having a similarity of birth and ancestry they live largely the same sort of life as their African brothers and communicate their thoughts through the same peculiar sort of vernacular of speech. The Pennsylvania Dutch have among them the most typical American Boers, and it is not difficult to find settlements of these where the streets and towns are almost perfect representations of Pennsylvania, the only difference being that the English have fought against in South Africa, and besides having a similarity of birth and ancestry they live largely the same sort of life as their African brothers and communicate their thoughts through the same peculiar sort of vernacular of speech. The Pennsylvania Dutch have among them the most typical American Boers, and it is not difficult to find settlements of these where the streets and towns are almost perfect representations of Pennsylvania, the only difference being that the English have fought against in South Africa, and besides having a similarity of birth and ancestry they live largely the same sort of life as their African brothers and communicate their thoughts through the same peculiar sort of vernacular of speech.

J. B. Ferguson, for the past eight years chief clerk in the purchasing department of the D. S. S. & A. railway, has resigned his position and as soon as he can dispose of his property will go to Colorado to engage in business for himself.
 The high school boys who compose the M. H. S. athletic team had a practice Saturday at the new fair ground. The boys are getting in shape for a meet with some of the outside schools and it is expected that in the near future there will be a field day here.

Mr. and Mrs. M. J. Manley, stewards of the Huron Mountain club, arrived in the city Saturday from Detroit. They were accompanied by a crew of four and will proceed at once up the lake to put the club in readiness for the rush of visitors that will come as soon as hot weather sets in.
 Hugh McKenzie leaves for his camps in the Porcupine Mountains west of Ontonagon today in his new launch. While here he picked up several lumbermen and will take them back with him. Mr. McKenzie has purchased the launch to use in toting supplies between Ontonagon and his camps.
 Mrs. Julia McNulty, wife of the late James McNulty, died Saturday afternoon at 1:15. She had been ailing for some time, though it was not thought until last Monday night that her case was serious. She deceased is survived by eleven children. The funeral will be held tomorrow morning at 9 o'clock.

A number of Negeau and Ishpeming people were down yesterday from up the road, among the number being Mrs. C. T. Curran and the Misses Anna Lacey, Margaret Malloy, Mary A. and Nora P. Kennedy, all of Ishpeming, and the Misses Mary Sullivan, Margaret Nolan, Mary Reidy, Nellie Manning and Mary O'Neil, all of Negeau.

Colds ON THE Chest
 are dangerous; they weaken the constitution, inflame the lungs, and often lead to Pneumonia. Cough syrups are useless. The system must be given strength and force to throw off the disease.

Scott's Emulsion
 will do this. It strengthens the lungs and builds up the entire system. It conquers the inflammation, cures the cough, and prevents serious trouble.

TURKISH BATHS.
 Turkish and Russian, salt and electric for ladies and gentlemen; massage treatments a specialty; also chiropody. Frank Keough, masseur, St. Luke's hospital; hours, 8 a. m. to 9 p. m. (5-25-14)

eral of the Ohio and Pennsylvania regiments, and they did excellent service. From those Boer settlements, however, the younger element is making a last trek. They are leaving the farms and quiet communities for the towns and cities, where they lose their Dutch-German identity and become Americans. In the last quarter of a century the disintegration of the American Boer communities has thus been advancing rapidly, and in another half-century they will probably be assimilated and absorbed by the more progressive element that surrounds them. One by one their customs and words disappear or become modified, and with the children refusing to be bound by the old customs and traditions it is merely a matter of the death of the present generation of old people before their personality is forever lost.

AN OBJECT LESSON IN TRUST METHODS.
 The manipulations of the American Steel & Wire Co.'s affairs by its management have thrown a glaring light on trust methods, and opened the eyes of the public who could see no danger to the people in these gigantic organizations of capital for the control of industries.
 The trust, in its perfected form, controls production and distribution. It reduces the cost of production by various economies. It regulates the price to the consumer, and thus by having complete control of both ends makes its profits whatever it chooses. The claim made for the trust is that it cheapens the cost of production by cutting off unnecessary expenses due to wasteful competition, and is thus enabled to reduce the price to the consumer; it controls distribution, and therefore saves the dealer from losses caused by unforeseen fluctuations of the market. On these grounds, the combinations and consolidations popularly known as trusts are asserted to be in the interest of the public.

That is the theory. Test it by the history of the American Steel & Wire Co. and see how completely the facts reverse the theory.
 When the consolidation had been effected, the price of nails was rapidly raised by successive steps from \$1.37 1/2 a keg to \$2.52. Having thus domestic market secured to it by a tariff which practically shut out competition, it made the American customer pay \$2.52, while it sold the same goods in foreign markets at \$2.14 a keg. That fact illustrated the incidental, if not fundamental, connection between trust and tariff.

With these figures in evidence what becomes of the claim that the trusts benefit the public by reducing the cost to the consumer? Instead of a reduction, the American Steel & Wire trust made the American consumer pay more than two and a half times the price ruling before it got in its work.
 But, it may be said, wages of the workers were raised, and this benefited the producer. Granted. The trust voluntarily raised wages, because not to do so when the selling price had been so enormously advanced would have certainly have caused a demand for still higher wages than had been voluntarily given, and a refusal would precipitate a strike disastrous to the schemes of the trust. But it should not be forgotten that whenever the trust thinks it to its interest to stop the raising of wages, it can arbitrarily reduce wages, or shut down altogether, "to make necessary repairs," or "to relieve a congested market." This has been made unpleasantly evident by the sudden order of the general manager to close several mills and throw thousands of employees out of work because "the market is overstocked." The consumers had been given their lesson and now the producers have had a suggestion of what is in store for them.

The distributors were not overlooked. They also have had a reminder of their being at the mercy of the trust, and the lesson they received is not likely to be quickly forgotten. A paragraph in the Plain Dealer's New York dispatch Monday morning told the story in a few lines. The Plain Dealer's correspondent in New York, who has exceptional facilities for getting at the facts in the case, said the hardware merchants are very sore over their experience, though, for obvious reasons, reluctant to speak openly about it. They had been advised to buy freely from the trust, as prices were booming, and if they did not buy they would get the benefit of the rise. They followed this advice, and when fully stocked up the trust, without warning, cut the price 25 per cent and the hardware men have to stand the loss.

Thus the producers, the distributors, and the consumers have all had costly evidence of the greed of the trust and of their own helplessness.
 But there was still another class to be taught—the investing public. They are having their lesson also, and it is a sharp one.
 American Steel & Wire stock was put on the market as a desirable investment. Having complete control of producers, distributors and consumers, the company could regulate its profits at will. Therefore, regular dividends were assured and the investment was apparently a safe one. The common stock sold at one time last year at \$2 a share. A month ago it sold at \$5.75 a share. The unexpected action of Manager Gates in closing a number of the mills, with the explanation that it was made necessary by an overstocked market, sent the stock down to \$3.25. This frightened the general investing public, who were not in a position to know what the facts are, and if the object was a manipulation of the market for the benefit of insiders in the trust it was accomplished.

The American Steel & Wire Co. has furnished an object lesson in trust methods which it may be profitable to study closely.—Cleveland Plain Dealer.

President McKinley says we all believe in protection, and proves his case personally by taking a policy in the old Aetna Life for \$25,000. (5-7-14)

MAGNETIC HEALER
 Who cures the Deaf, Sick, Lame, Rheumatic, Paralytic and all Chronic Diseases by the
LAYING ON OF HANDS
 Will publicly demonstrate his wonderful powers on the stage one night only as above.
ADMISSION FREE.
 Seats free. Treatment on stage free.
 Positively no boys, girls or children will be admitted unless they are afflicted. The crowds are always so large that seats cannot be given to boys and girls. Each demonstration will be preceded with a short dissertation on **The Power of Vital Magnetism As a Healing Agency** after which cures will be performed that will astonish the skeptical, set the serious to thinking, and convince the doubtful that in animal magnetism is a force capable of effecting most marvelous cures. No matter what the disease—how bad, how long standing or hopeless the case may appear—if curable at all, they are amenable to magnetism and they will
ARISE AND WALK.
 All those who are on crutches or canes, rheumatic, palsied, paralytic, deaf, sick or lame and wish to be cured are invited, and a great number of people will be treated FREE upon the stage. He not only treats the blind, lame and crippled at his private office at the Clifton Hotel, but nearly all chronic diseases yield to this strange power.
SPECIAL NOTICE!
 All those who desire free stage treatment will meet the boy's manager, at the opera house, Monday afternoon between 4 and 5, and secure free treatment tickets and seats will be reserved for them.
 Private apartments have been secured at the Clifton Hotel, where all who desire private magnetic treatment may call any time selected, Tuesday, May 8, and receive consultation, after which, if found curable and magnetic treatment is desired, a price which is within the means of all will be named, and appointments made for treatment. Ishpeeming and Vicinity. SCANDINAVIAN REPUBLICAN LEAGUE. ONE FOR THE UPPER PENINSULA WILL BE ORGANIZED HERE MAY 12TH. Prominent Scandinavian residents of Ishpeeming are sponsors for an attempt to organize a Scandinavian Republican league and a meeting for that purpose will be held here Saturday, May 12. Invitations to attend the meeting have been sent to representative Scandinavians in all the cities of the peninsula. Many responses have been received and from fifty to one hundred leading Scandinavians from outside points are expected to be present. The following names are affixed to the invitations: F. Braastad, John W. Joehim and Frank Platto of Ishpeeming; John Carlson of Marquette; Conrad Carlson of Bessmer; Nels Christofferson and F. O. Furstrom of Menominee; R. T. Miller of Iron Mountain; Frank A. Janson of Norway; O. V. Linden of Escanaba and C. F. Larson of Crystal Falls. The business of organizing the proposed league will be taken up at the Swedish Home hall promptly at 7 o'clock and it is expected that it will be completed in the afternoon. In the evening a banquet will be served at the Swedish Home hall, the price of which will be \$2 a plate. There will be toasts and speaking by prominent Scandinavians and the spread will be the best procurable. A. Lind is chairman of the arrangement committee and responses to invitations should be directed to him. Special rates have been procured at Ishpeeming hotels for those who will attend, but in order to obtain room rates who intend to come, they must notify Mr. Lind at once in order that he may secure them quarters. As the proposed name of the league indicates, it will be a political organization devoted to the interest and welfare of the Republican party. IMPROVEMENTS IN PROSPECT. The room in the Uren block, corner of Cleveland avenue and First street, occupied by J. M. Forvilly's saloon is about to be greatly improved and when the projected work is completed, Forvilly will have one of the neatest places in the city. At present the main entrance to the saloon is on Cleveland avenue. It will be changed to First street, and the Cleveland avenue front will be fitted with large plate glass windows. A new iron ceiling, also iron walls, will be put in and the interior decorated. The room adjoining the saloon on the west which has been used as a beer cellar will be rebuilt and fitted up for a barber shop for a tenant who will occupy it at the earliest possible date. These changes will greatly improve the appearance of the building. The funeral of Charles Milne, who died in Humboldt Friday last, was held here yesterday morning under the direction of the Brotherhood of Locomotive Engineers, the Marquette lodge being in charge. The deceased was aged seventy-three years but had resided in Humboldt only a few months. He had been a locomotive engineer for fifty-four years, running most of the time in Canada, and had lately retired from the road. John Milne, his son, is an engineer on the D. S. S. & A. road. At one time he resided in Ishpeeming, where he had many acquaintances. CLUB ELECTED OFFICERS. The annual meeting of the Ishpeeming club was held Friday night. The following officers were elected for the ensuing year: President, J. M. Hayden; vice president, H. F. Heyn; secretary, C. T. Fairbairn; treasurer, T. H. Dawson; caterer, E. C. Cooley and assistant caterer, C. D. Cole. The organization is in splendid shape with a neat balance in the treasury. Luncheon will be served for members every second Saturday evening. "WHO IS WHO" THIS EVENING. "Who is Who" is the attraction at the opera house this evening. The performance, as is evidenced by press notices, is giving the same satisfaction this season that it did last, when it made an undoubted hit. The specialties are bright and entertaining and the singing is first class. A LIFE AND DEATH FIGHT. Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for consumption, which completely cured me. I would not be without even if it cost \$5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and \$1.00. Trial bottles free at the Stafford Drug company. Scratch, scratch, scratch; unable to attend to business during the day or sleep during the night. Telling piles, horrible plague, Doan's Ointment cures. Never fails. At any drug store, 50 cents. Spring and summer clothing, dry goods, shoes, hats, etc., at a big sacrifice at Braastad's. DOES COFFEE AGREE WITH YOU? -If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. Get a package today from your grocer, 15c and 25c. Be sure it is made by the Genesee Pure Food Co., Le Roy, N. Y., as there are imitations on the market. Our mammoth line of spring goods are going at just as low figures as our heavy wares. Come with the crowds to Braastad's. Where to Stop When in Detroit. Hotel Metropole, Woodward Ave., opp. City Hall, European plan. Rooms, \$1 per day; with bath, \$1.50.

Lower Michigan News. Christian Enright, sixty years of age, a respected citizen of Southfield township, Oakland county, committed suicide Thursday last by eating a piece of ham saturated with strychnine. It is thought he suicided on account of financial troubles. Two brothers were paroled from the state prison at Jackson by Governor Pinger last week. They are Thomas and Jerry Bloomfield, of Saginaw, who were sentenced in March and May, 1898, to three and one-half years' imprisonment for larceny. The men were convicted of stealing a dozen sheep. A physician at Columbiaville, Lapeer county, has reported a strange case to the state board of health. A little girl eight years of age was exposed to scarlet fever and measles at the same time. In due time the girl developed the scarlet fever, and had nearly recovered when she was afflicted with the measles, and is now suffering with the disease. There is said to be nothing like this case in the books. Mrs. Matilda Johnse of Port Huron, whose husband, Louis Johnse, was instantly killed by the bursting of an empty wheel at the Port Huron Engine & Thrasher company's works, where he was employed, secured a heavy verdict from the company in the circuit court last week. The jury, after being out three hours, awarded a judgment of \$2000, approximating the full amount recoverable under the statute. Grand Rapids urchins have been having all kinds of fun recently by throwing stones at the globes on the electric street lamps. Some of them are clever marksmen, and as a result there were many broken globes. The authorities got tired of the sport first and caused the arrest of a number of the lads. One of them has been sent to the reform school for three years, and it is now believed that the sport will become unpopular. Thieves entered the house of David Olney West of Leoniada, St. Joseph county, early last Thursday morning and secured a considerable amount of valuables, such as watches, lace curtains, clothing and a gun, then went to the barn, hitched up a carriage and drove away. The family were aroused by the noise at the barn and followed the rig to Colon, where the services of a couple of officers were secured, who found the abandoned rig some distance out of town. A posse was soon formed and the thieves were located in a swamp, where after a sharp encounter and several shots exchanged, one of them was captured. The other is still at large, but all the property was found and identified. Both of the men are negroes. Ex-Governor Luce, president of the State Pioneer society, is making arrangements for the coming annual meeting to be held at Lansing in June. The membership of the society has been reduced by death to such an extent that it will be necessary this year to make some change in the society in order to recruit its membership. It is stated that it is necessary to continue the society in order to preserve the records already obtained of the pioneer citizens of the state as well as to complete the historical work. Twenty-eight volumes of the reports of the society have been printed, but there is still a large amount of work to be done before the records of the pioneers are complete. Very little has been done in the way of recording the experiences of the early settlers of the upper peninsula, and much of the interesting history of Michigan is to be obtained from that portion of the state. It is probable that at the June meeting steps will be taken to receive the sons and daughters of the pioneers into the society, and to interest them in the work it has been doing. "PERSEVERE AND PROSPER." Take Hood's Sarsaparilla faithfully and it will cure scurf, salt rheum, boils, pimples and all blood humors; also dyspepsia, rheumatism, catarrh and that tired feeling. It never disappoints. Sick headache is cured by Hood's Pills. Money saved is money earned. Buy all your spring goods at Braastad's closing out sale.

WORK IS SUSPENDED.

MINERS AND OTHER UNDERGROUND HELP AT NEGAUNEE MINE LAID OFF FOR A NUMBER OF DAYS.

It was deemed advisable the latter part of last week to temporarily shut down the Negaunee mine pending a complete setting of the ground which has been caving freely the past ten days or two weeks in some portions of the workings. Accordingly, a force of about 500 men were laid off for an undetermined interval, which, however, probably will not be more than a few days.

The trouble at the Negaunee has been foreseen and is nothing more than has been expected. It is very annoying, as it will cause more or less interruption to the work of the mine, the extent of which will depend on the length of time the mine is shut down. The settling process which may be said to have started with the first big cave-in about ten days ago has been going on steadily, causing more or less annoyance and, in many instances, a possibility of dangerous falls of ground.

Under these conditions Captain Piper considered it advisable to keep the men out of the mine for a few days, until the ground has fully settled. He expects that the delay will be short and hopes to resume work in a few days. The consequences for the company, beyond a loss in production, will extend to the loss of several of the men, who are unwilling to lose any time from work and are, therefore, taking jobs with other companies.

The trouble at the Negaunee is causing much comment and discussion in the city. Business men particularly regret it, as many wage earners are affected, and they hope for an early resumption of mining with a full force of men.

BASEBALL TEAM ORGANIZED.

Baseball players here have organized a city team. The members have indulged in preliminary practice and as soon as the weather becomes warm will work regularly. Games with outside teams will be arranged and it is hoped that the season will be prosperous for the players and conducive to the amusement of Negaunee people. The team is made up as follows: Catcher, G. Trotsch; pitchers, Al Hooper and George Reichel; short stop, E. Roberts; first base, J. Roberts; second base, John McAliff; third base, Frank Brown; right field, John Chapman; center field, E. Barab; left field, A. Dyer. Most of the young men enumerated are experienced players who are capable of putting up a stiff, nerve game. Baseball has languished here for some time but the revival of interest is expected this year.

GLORIOUS NEWS

Comes from Dr. D. B. Carrige, of Washita, I. T. Carrige writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by the Stafford Drug company.

LOCAL LAÇONICS.

Miss Nellie Curran of Swanzy spent Sunday with her parents here.

W. S. Wilson of Forsyth township was in the city Friday and Saturday.

The building occupied by Frank Anderson on Iron street has been repainted and renovated.

Ole Johnson & Co. have a very neat saloon as a result of the improvements completed this spring.

A number of Negaunee fishermen spent yesterday at the neighboring streams in quest of trout. Some good catches were reported.

Murdock McLeod visited here the latter part of last week doing business for his Minneapolis house. He spent some time at the Palmer location with his brother, Duncan McLeod.

Andy Seass has been down town a couple of times. The fellow terrorized a house occupied by a widow in Negaunee field. Complaint was telephoned here and Officer Choquette was sent out for the offender. He was refractory and the officer had some trouble in getting him to town.

A number of tramps struck town Friday night on the fast freight. They have not been numerous so far this spring but the police expect the usual summer crop. It is remarked here that the county ought to arrange a stone yard for the entertainment of these tourists or, what would please them as well, put them at work repairing the Goose Lake road.

Street Commissioner Thomas has issued notices to the property holders of Negaunee requesting them to clean up their premises and alleys, also to rebuild and repair sidewalks which are in bad condition. Many walks are in various stages of dilapidation and should receive immediate attention. The street gang put in some good work last week and as a result the city looks very cleanly.

Burt Jones of Iron Mountain, who has been in charge of the Jones exploration near Palmer, left Negaunee for the Mesaba range, where he will

assume charge of another exploration just undertaken by his father. He is in the new Hard Ore district of the Mesaba range, not far from Mesaba Junction. Work at the Palmer exploration has been abandoned and will not be resumed until the prospect of securing a railroad spur from the Northwestern company is brighter than at present. There is a large body of lean ore in sight but without track facilities nothing can be done with it.

Cherry street residents hope that their petition presented to the council and referred Thursday night will receive some attention this year. Certainly some work should be done on the thoroughfare, which has not been touched since it was first laid out. Water pipes are insufficiently protected in cold weather and no satisfactory grade has been established. Residents on that street would like to take some pride in the locality, but cannot until it is put in better trim. Petitions have been presented to the council each year without result, but better things are expected of the gentle reminder submitted Thursday evening. Another petition which should be noticed is that asking for the construction of a sidewalk on East Silver street.

The anelitis believed that rheumatism was the work of a demon within. Many one who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by The Stafford Drug Co.

THE LONELIEST WOMAN.

She's From Washington and Lives Up on a Seal Island.

Without doubt, the loneliest woman, that is to say, the one farthest removed from her kind in all these United States of America, is Mrs. Clark, of Washington, the wife of Major E. W. Clark, government agent of the Pribylof or Seal Islands in the Bering sea, says the Washington Star. This group, composed of two small islands of St. Paul and St. George, are the homes of nearly all the seals remaining in existence and they are about 1,800 miles west of the entrance to Puget sound, and about 200 northwest of the Aleutian Islands, beginning at Unimak pass, St. George, which is the smaller of the two, being about six by twelve miles in extent, is forty miles from St. Paul, and it has a population of about 100 Aleuts, and four or five whites, consisting of Major Clark and his wife, a physician, and two or three clerks of the North American Commercial Co., which controls the seal business, and has stores and warehouses on both islands. The village of St. George consists of twenty-five or thirty buildings, including the company's buildings, the agent's house and a Greek church. There are no other houses on the islands, and Mrs. Clark is the only white woman. Her home is a small cottage of small rocks, very cozy and comfortable, with a stove and a full kitchen, and a look over the sea. She does no cooking in her own house, as the company officials take their meals at the company house, near by. Mrs. Clark's nearest neighbor is the wife of the agent on St. Paul, who is less lonely because she has with her a number of children. Mrs. Clark's children being grown and having their own homes in the states. There is no communication between the islands except by one of the company's ships and by revenue cutters, as other ships are not permitted to visit the islands. These ships come only in the summer, and from October until June, no ship does not expect to see any one or hear anything from the United States, or to send word home, no matter what happens. Sickness, death, disaster may come to her far off in that forbidding sea, or any visit her own at home, but no word may come or go until the next steamer is resumed. St. George is absolutely without trees, but its rolling surface and mountains, 1,000 feet high, are beautifully green with coarse grass and moss, and wild flowers of brilliant hues. At the level stretches near the sea, there are about a dozen, in the rocks at the water's edge, thousands and thousands of seals in ceaseless activity disport themselves noisily day and night, from June until December, while millions of water fowl fill the air and the sea and flutter about the cliffs. Three hundred days in the year the weather is dark and dismal and the clouds hide the islands for days at a time. The cold is never excessive, but the winter storms are severe, and terrific gales sweep over sea and land. There is no harbor, and ships come to anchor a mile or more from shore.

AMERICA'S Greatest Medicine is Hood's Sarsaparilla, because it possesses unequalled curative powers and its record of cures is GREATEST.

SPRING GOODS CHEAP.

You should not purchase new spring goods until you see Braastad's mammoth stock. During the closing out sale of the past couple of months heavy goods were practically sought by purchasers. Now comes the rush for spring goods. All going dirt cheap.

Negaunee people can save considerable money by purchasing their spring goods at Braastad's. All goods going at a sacrifice.

Latest pattern sleeping cars. Brilliantly lighted trains. Meals served in dining cars "a la carte." For tickets and reservations apply to agents D. S. S. & A. railway.

STANDARD OIL OCTOPUS.

Has It Got the Senate of the United States in the Grasp of Its Tentacles?

A Story Told in Detail That Goes to Establish That It Exercises Control Over That Branch of Congress.

The New York Times of recent date contains a long article purporting to give the motive which led Secretary of War Root at the Grant dinner of last week to discuss the possibility of the United States being forced to go to war to maintain the Monroe doctrine. It is said that the facts which led up to Secretary Root's remarks are contained in an official report just submitted to the Danish government by Captain W. Von Christmas Dirckink-Holmfeld.

The captain was the special envoy of his government to negotiate the sale of the islands to the United States, and his report has been put in the hands of Mr. Hoerring, the prime minister and minister of finance, states that the failure of the negotiations is due to the interference of Henry H. Rogers, one of the directors of the Standard Oil company.

According to the Times, the first attempt of Mr. Rogers in the Danish West Indian islands matter was about three years ago, just prior to the breaking out of the war with Spain. Mr. Rogers, by letter and through the agents of the Standard Oil company in Denmark, among them Niels Gron, proposed to the Danish government that for a commission of 10 per cent on the purchase price he would undertake the sale of the Danish West Indian islands, St. John, St. Croix and St. Thomas, to the United States. Mr. Rogers stated to the Danish government that he was in a position to do what he proposed on account of his influence and the influence of his company with United States senators.

Mr. Gron, who had been sent to Denmark, went with this proposition of Mr. Rogers to Mr. Hoerring, the Danish minister of finance, and it was decided to give Rogers permission to act in the matter as the representative of the Danish government, but without any bill of that effect. Then Mr. Rogers, it is asserted, went ahead with the negotiations till the breaking out of the Spanish war stopped him. But in the early part of 1899 Captain Christmas, being in Germany, was approached by a syndicate of Germans, who asked him to use his influence in Copenhagen to obtain from the Danish government a contract with Germany, by which the latter could purchase the island of St. John. Captain Christmas was not slow in asserting that this would be next to impossible, for the reason that the United States would neither allow Denmark to sell the island to a foreign power nor would it allow Germany to purchase it. He then laid the matter before his government, the outcome being that the permission was denied on diplomatic grounds, the Danish government recognizing that, should any such complications arise, the sale of the island to the United States would be next to impossible. This led to Captain Christmas coming to America as the authorized agent of the Danish government for the sale of the island. Meantime Secretary White at London was sent to Denmark and found the island could be bought for \$4,000,000, so reported to the secretary at Washington.

Continuing the story, the Times says: "On Captain Christmas' arrival in New York he at once mailed his letter of introduction to Mr. Rogers, and was requested by the latter to meet him in his office in the Standard Oil building at 10 o'clock the next day. During the interview that followed, Captain Christmas showed Mr. Rogers his official appointment as agent for the Danish government, and says in his report that he was astounded to hear Mr. Rogers say that it was only through his good will and offices that he (Christmas) could hope to do anything toward the fulfillment of his mission.

"Captain Christmas states that Rogers told him that he controlled the votes of twenty-six senators of the United States, who were at all times ready and willing to obey any order given them by the Standard Oil company.

"Mr. Rogers demanded from Captain Christmas a contract showing that the Danish government would pay to him (Rogers) 10 per cent of the price agreed upon.

"Captain Christmas says he pointed out to Rogers that matters were at that time in a very different state from formerly, when the question was purely a business one between individuals in which the Danish government had no part whatever. He said that he refused to enter into any negotiations with Rogers, but knowing, he says, the tremendous power of the Standard Oil company, he deemed it expedient to spar for time, and to that end promised Rogers that he would communicate with his government and see what could be done. Mr. Rogers said it was his terms or nothing, and that thereafter all negotiations would be made for him by his representative, Niels Gron."

It is asserted that the next day Gron called on Christmas, and said: "The word of the Standard Oil company is law; make no mistake about that. They will permit no one but themselves to sell the Danish West Indian islands. If the deal is not consummated through them, it will not be consummated at all, rest assured of that. You are wasting your time and the time and money of the Danish government. Turn everything over to Rogers, agree to his terms, or give up hope of ever accomplishing the task for which you have come here."

"Captain Christmas, it is alleged, was so indignant at this 'preposterous' demand that he refused to continue the interview, and went at once to Washington, where he presented his credentials to Secretary Hay and related to him the interviews he had had with Rogers and Gron.

According to the story, Secretary Hay was equally indignant when he heard what the Danish agent had to say. He said he would look into the matter, and that in the meantime Captain Christmas need not worry, for, said he, "The

Standard Oil company does not as yet own the United States government." Captain Christmas also saw Senator Lodge and received from him the same assurance.

It was after this that Captain Christmas asserts that all negotiations with Mr. Rogers were broken off.

An attempt, says the Times, was made to interview Mr. Rogers on the subject, but he refused to be seen.

Upper Peninsula News.

The old court house building at Crystal Falls was burned Thursday. The insurance is \$1,000.

At the meeting of the Iron Mountain military company Wednesday evening Lieutenant Thos. Touhey was unanimously elected captain to fill the vacancy caused by the promotion of P. D. MacNaughton.

Steps are being taken to relieve the monotonous sound of the government fog whistle at Menominee at the instance of several citizens, who have appealed to Congressman Sheldon. The treasury department may take some action. The petitioners assert that the fog whistle is a nuisance.

Two thousand acres of delinquent tax lands were sold at the annual sale in Menominee Wednesday and about \$5,000 realized therefrom. The sale will be continued for several days, or until the full list of 3,500 descriptions has been bid in. The land sold the opening day was mostly farming lands.

Tuesday, a man named Brown of Trout Lake was at work in Smith's shingle mill of that place, and accidentally put his hand against the saw which tore his thumb in such a manner that it had to be taken off. Mr. Brown had lost four fingers of his hand before and now the thumb is gone he has nothing but the wrist left.

The spread of forest fires is abating along all the railroad lines leading out from Menominee, and from present indications there is no danger of further damage unless the weather should turn sultry, with high southerly winds. Reports from up the line are that the fires are well nigh extinguished. The loss so far suffered is estimated at \$500,000.

Will Winslow, at one time a well known resident of Ironwood, is now living in Japan. He left this country just before the outbreak of the Spanish-American war. He was at that time major of the Fifth regiment. He left rather mysteriously and there has been much conjecture since that time as to his whereabouts. He closed out his interests at Ironwood.

Sault Ste. Marie lodge, No. 552, B. P. O. Elks, propose to have in the new McTavish block one of the finest lodge rooms in that city. The rooms will be finished in golden oak and with steel ceilings. They will be laid out, according to plans furnished by the lodge, into reception, dining and toilet rooms, buffet and lodge room proper. They will be furnished in a sumptuous manner and when completed will be a source of pride to the Elks and the city.

Thursday John Murphy, a brakeman on the Northwestern road, rescued three of Sheriff Anderson's children from instant death on the tracks near Crystal Falls. The children were sitting on the track when a train backed down. Murphy saw the danger but was four cars away from the end of the train. He ran over the cars and dropped down in front releasing the air valve as he crumpled and setting the brakes. The train came to a stop about three feet away from where the children were sitting, apparently unconscious of their terrible danger. It was an act of heroism and coolheadedness rarely equaled and deserving of the highest commendation.

President Earling of the Milwaukee road has announced that the ore dock which is now being built at Escanaba, one of the most modern of its kind, will be completed some time in July. The new dock will furnish a lake outlet for the ore to be shipped over the extension of the Escanaba and Lake Superior road, from Watson to Channing, where it connects with the Milwaukee road. The extension is now under construction and will be used jointly by the two roads between Channing and Escanaba. The Milwaukee railway's extension from Channing to Crystal Falls, a distance of about fourteen miles, will tap a region in the Menominee range, rich in ore. The mines in the Crystal Falls district comprise the Hollister, Armeria, Lee Peak, Hope, Hill Top, Crystal Falls, Great Western, Lincoln, Paint River, Lamont, Youngstown, Bristol, May, Tobin, Columbia and Mansfield. The new tracks will not reach all these mines, but the road contemplates building to many of them before the extensions are completed.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Props, Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by their firm.

BORE MARKS OF FAITH.

Rev. H. E. Purinton's Evening Address on "Some Marks of a Christian."

FINDS A FINE EXAMPLE IN THE APOSTLE PAUL.

Marks Which Paul Bore Were Both External and Internal—Letter Point to Lessons Which He Adjoined His Numerous Hearers to Apply.

GOSPEL FROM THE BAPTIST PULPIT

Rev. H. E. Purinton of the First Baptist church spoke in that edifice last evening on the subject, "Some Marks of a Christian." The church was quite well filled, having not only its own Sunday night congregation but as well a number of Presbyterians, who were at liberty owing to the absence of their own pastor.

Mr. Purinton based his remarks on a text in Paul's epistle to the Ephesians, "For I bear on my body the marks of the Lord Jesus." Having announced his text he next spoke of the circumstances under which the epistle in which it is contained was written. It was written, he said, in Rome some time following Paul's missionary tour among the Galatians, during which he turned that people from idolatry and established several Christian churches. He had preached to the Galatians that the only thing necessary in order to be a Christian was to have faith in Jesus.

CAME WITH BAD NEWS.

Some time after he had been taken to Rome as a prisoner messengers came to him with stories of the Jews who had come into Galacia and begun to estrange them from the simple faith Paul had taught them, telling them that they could not become Christians unless they subscribed to the forms and customs of the Jews. After reciting the circumstances under which the epistle had been written he asked what was Paul's meaning when he said he bore in his body the marks of Lord Jesus.

Were these, he inquired, facial disfigurements such as the monks of ancient times were wont to cut on themselves, or were they marks of a peculiar dress such as the nuns of today wear? They were neither one. The literal marks, he said, to which Paul alluded were the scars which he had on his body and which were the result of the scourings and stonings he had received and the manacles he had worn on his wrists.

Speaking of Paul's coming to Rome he quoted a well known church writer who said that Rome didn't know that a conqueror was entering her gates that day, but that he was the greatest who ever entered, taking the entire city for Jesus Christ.

INNER MARKS WERE DEEPER.

Returning to the marks of Paul's fidelity to the faith he remarked that these were but the outward marks and that there were in the apostle

deeper marks without which the other marks never would have been there. Paul, he said, was an example of what a man might be on whom the Christian life takes hold.

The deeper and inner marks to which he alluded he enumerated as Paul's self-denial, his courage and his magnanimity. Under the first head he told of Paul's denial of wealth and career. He was born of a wealthy family, was finely educated and had a splendid career just opening ahead of him, but all those things he put aside to follow the Christian faith.

TWO BRANDS OF COURAGE.

His courage was both physical and moral, and while his physical courage was a strong characteristic it was not said the speaker, to be compared with his moral courage, which he regarded as a much higher description of courage than the mere physical. His magnanimity the speaker characterized as a mark of his large mindedness. His willingness to forgive was unusual, for at the time these very Jews were striving to undo the work he had been at such pains to perform in Galacia he was raising money to send to the poor of the churches in Jerusalem.

As he enumerated them at the end of his discourse the three of the inner marks of Paul's Christianity represented three lessons, at least one of which ought to be taken home to himself and applied by every hearer. He closed by expressing the hope that those who had listened to his evening's address would make such application to themselves as was best fitted to their needs.

STILL HAS FAITH.

W. A. Paine Quotes a Man Who Has It in Copper Stocks.

The market in Boston day before yesterday was of the kind which is usually experienced on a Saturday. The trade was light and the list was inclined to be weak, although those which moved a point or more all went up, leaving the losses to be represented by fractions.

Butte & Boston advanced one to 69; Copper Range closed at 24 asked, an advance of three above the bid price of the night before; Helvetia advanced one to 7; Quincy went up a point and a half to 137 1/2; Tamarack closed three up at 18.

W. A. Paine said in his Saturday letter to the local branch of Paine, Webber & Co.:

"New York opened fairly steady but on small sales, and prices soon showed declines. Coppers opened as they have for the past week, very dull, prices showing slight changes from yesterday. A man whom I have always found to be very well posted on the copper situation writes me from New York: 'I am a bull on copper and do not really see the slightest reason for any decline. I could sell today any quantity within reason at 17 cents and would bet even that I could get a shade more for some. I can say that copper is very firm but there is no business at present. This is accounted for by large sales for May, June and July to take advantage of lake transportation. Demand for the metal sold is somewhat pushing. I feel very bullish on the market and would be not be one bit surprised to see

the metal sold for a couple of cents higher before the year is out. I can not figure out any great increase in production for this year at least.' The market closed dull with a little better undertone."

Wheat was dull Saturday and finally closed at 67 1/2, the same point where it closed the night before. A. R. Jones & Co. said in their letter to Fred Jones: "Today's markets were of a holiday character from start to finish. They all opened strong on Liverpool's sympathy with our yesterday's advance, but the light trade and generally favorable statistics weakened the situation materially and everything fell back, recovering later, but the close was rather weak. The chief features in wheat for and against the market were strong cables and a continuance of May delivery, opposed to a suspicion prevailing among traders that the government report to come on the tenth will raise the April figures of 82 1/2 per cent. There is this much to be said about wheat, bull factors have been very numerous during the past week or ten days but the response has been very poor, indicating a poor support to the market, and with this theory of crop improvement gaining ground, we are inclined to look for another dip very soon. Corn opened strong apparently, but broke easily a half cent to 28 1/2, then up to 40 1/2, with final figures at 40 1/2."

ROCK BAND CONCERT.

It Will Be Held Tonight at the First Baptist Church.

The young people who are engaged in looking after the advance sale of tickets for the Rock band concert to be given this evening at the Baptist church under the auspices of the Ladies' Aid of that church, are succeeding finely and are disposing of a large number. However, the seating capacity of the church is large and later buyers of tickets need not fear that they will be unable to secure admission. The price of tickets is twenty-five cents. There are no reserved seats. The entertainment comes highly endorsed. One gentleman of this city who has heard the concert says it is very good.

BASE BALL BOYS.

Carharts Win Fourth Successive Game of the Current Season.

The Carharts and the West Ends met on the diamond at the old fair ground at the foot of Third street yesterday afternoon and put up a lively game of ball in the presence of a small crowd of rooters. The result was a victory for the former team by a score of 14 to 12. Yesterday's was the fourth successive game this season which has been won by the Carharts. The batteries were: For the Carharts—Vincent Metcalf and John Bennett; for the West Ends—John Lawrence and Carl Riedholm.

FIRST COMMUNION.

Large Class Received at St. Peter's Cathedral Yesterday.

A large class of Catholic children, about eighty in number, made their first communion at St. Peter's cathedral yesterday. They received their first communion at the early mass. At 10 o'clock there was pontifical high mass celebrated by the bishop, following which the new communicants were confirmed.

Bishop Eis and Father Pinton leave tonight on the first stage of their journey to Rome. Father Faust has come up from Menominee to take charge of the cathedral parish during the absence of Father Pinton.

WHEN NATURE

Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedy only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Co.

DON'T LEAVE THE CITY.

Plenty of Proof Right Here in Marquette.

Claim is one thing, proof another. Columbus claimed the world was round. Did people believe it? Not until he proved it. Unproven claims have made the people skeptics. Every claim made for the "Little Conqueror" is proven. Proven in Marquette by local experience. Here is one case from the many we have:

Mr. Charles Parr, of 118 East Jackson street, foreman on Pickands coal dock, says: "I was bothered a good deal for a long time with hachache, often very severe. I let it go for a time, thinking it would wear off, but instead it became more persistent. I then began to look for some remedy to give me relief, and seeing Dean's Kidney Pills so highly recommended I procured a box at the Stafford Drug Co. and began using them. I had taken but a few doses when I felt the pains were leaving me. Since I finished the treatment I have had no indications of a return of the trouble."

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Dean's, and take no other.

CARRIERS' NEW JOB.

Will Register Letters On Their Routes—Postage Stamp Books.

Announcement was made some time ago that the government intended to institute a system here whereby the mail carriers would register letters along their routes instead of compelling people to go to the postoffice whenever they wanted to send a letter or package by registered post. Such a service will go into effect for the first time today.

Another new thing which will be instituted at the postoffice today is the sale of postage stamp books. These books are of convenient pocket size and contain twelve, twenty-four and forty-eight stamps. They are sold at twenty-five, forty-nine and ninety-seven cents, according to the number of stamps they contain. The advantage of the books is that they keep the stamps perfectly clean and will not permit them to stick together.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.
