PRETORIA HOLDING NEWS.

Buller, in Natal, Takes Glencoe and Is Advancing on Newcastle—Roberts Continues Passive.

FIGHTING NEAR MAFEKING.

Lourenço Marques, Tuesday, May 15.—A Portuguese official dispatch says an encounter has occurred at Mafeking, the Boers being repulsed with heavy loss.

BULLER STILL ADVANCING. London, Wednesday, May 16.—The war office has received the following from General Buller, dated Dundee, today:

"We occupied Glencoe yesterday. The Transvaalers have evacuated Biggarsberg. The Free Staters on the Drakensburg are much reduced in numbers. Trains are now running to Wessels' Nek station."

WHITE FLAG AGAIN VIOLATED. Lord Roberts reports from Kroonstad, the 15th:

"Two officers and six men of the Prince Alfred Guards, while out foraging yesterday a few miles from Kroonstad, visited a farm flying a white flag and were fired upon by a party of Boers. Two were killed, a lieutenant wounded and three taken prisoners."

LONDON HEARS REPORT OF BATTLE

RELIEF COLUMN SAID TO HAVE MET THE BOERS 32 MILES SOUTH OF MAFEKING.

London, Thursday, May 17.—4:30 a.m.—The British relief column fought the Boers at Kraal Pan, thirty-two miles south of Mafeking Tuesday, according to a telegram received Wednesday night at Mafeking, a hundred miles north of Mafeking. This intelligence is received here with some reserve, because it is difficult to understand how the news could have been so quickly put on the wire 128 miles from the scene of the engagement. A correspondent of The Morning Post is reported captured by the Boers at Kraal Pan.

In army circles the opinion seems to prevail that Mafeking already has been relieved, although two hours after midnight the war office asserted that news of relief had not been received. Douglas Story, The Daily Mail's correspondent at Pretoria, writes: "The Boer government is holding back some big news. Feverish activity prevails here; President Kruger is working day and night. The latest Boer official bulletin is that the relief column has been defeated with great loss."

ROBERTS' CAVALRY ACTIVE. Lord Roberts continues passive at Kroonstad. His cavalry is stretching like a semi-circular screen many miles in length, with out-lapping flanks. The railway probably will be completed today.

It seems that General French's cavalry had one lively fight in crossing the Zand river. A mixed squadron composed of Scots Greys, Inniskillings, Carabiniers and Australian Horse took a kopje and dismounted. The Boers suddenly fired from a concealed position, killing many horses and stampeding the rest. The Boers then advanced in overwhelming numbers and drove the squadron, capturing some many miles, robbing the dead and looting the saddles. A small brigade of cavalry drove them off. Farther north the Hussars charged the Boers, killing and wounding many stragglers.

General Roberts' infantry marched 120 miles in seven days; General French marched thirty miles in one day. The Boers, when retiring, dragged thirty-two guns through Kroonstad.

SUCCESS IN NATAL.

General Buller is moving toward Newcastle. He appears to be using twenty-five thousand men against five or six thousand. His operations will almost certainly result in forcing his way into the Transvaal, possibly in time to co-operate with Lord Roberts' advance, although General Buller is now 252 miles from Johannesburg, twenty-five days' march.

A Dane captured by the South African Horse says there are five hundred Frenchmen with the Boers who are opposing Buller, together with many Germans and other foreigners. The London correspondent of The Daily Telegraph says only one Boer was shot in the movement which resulted in the taking of Helpmakaar.

DISSOLVING BEFORE RUNDLE. General Rundle is sweeping through the northeast Free State. The Boers are dissolving before him and some have surrendered. Their main force has assembled between Ficksburg and Winburg, but it is without close organization.

A dispatch just received from Th-

banchu, dated the 15th, says: "The British force advanced this morning twenty miles to the northwest and took possession of Mequatling's Nek. Prisoners continue to be taken daily."

Today's installment of the war story PATH NOT ALL ROSES.

from every part of the field is, therefore, seemingly a narrative of British successes; but with the Boers preparing for the last desperate fighting farther in the interior and Boer guerrilla parties looting houses and stores in the northwest section of Cape Colony, it is not all roses for the British.

A telegram from Cape Town says that

Cecil Rhodes has decided to retire altogether from Cape Colony.

Washington, May 16.—The commissioners of the District of Columbia today declined an invitation to take part in the reception of the Boer envoys.

ENDORSES ARMY CANTEEN.

Adjutant General Corbin Says Its Proposed Abolishment Would Be Inimical to the Best Interests of the Army, and Sec'y Root Concurs.

Washington, May 16.—Secretary Root today sent to Chairman Hull, of the house committee on military affairs, an exhaustive collection of opinions on the question of the "army canteen" gathered by Adjutant General Corbin from every branch of the military service. General Corbin, reviewing the inquiry, says: "If the prohibition of the sale of beer at military posts, as contemplated by the bill now before the house, could be effective in bringing about the destruction of the drink habit among the soldiers, the adjutant general would unhesitatingly urge such action, and in doing so he believes he voices the practically unanimous sentiment of the officers of the army; but, on the contrary, it can be stated as a fact that the closing of the canteens would force the soldiers who are now content with drinking an occasional glass of beer within the limits of the post to go to whisky shops and the dens of vice that once surrounded the permanent posts, and which on the passage of such law would soon revive, and he cannot too strongly express the opinion that such legislation would be inimical to the best interests of the army."

Secretary Root, in a brief endorsement, expresses a similar opinion.

lines of the Transit company's system. None of the striking employees returned to work, the cars being operated by non-unionists who were imported from Indiana and Missouri towns. Eight lines were still tied up, some of them being obstructed and having the wires cut. Little interference with the running of cars was made during the day.

DISASTROUS FIRE IN ONTARIO.

HALF A MILLION DOLLARS' DAMAGE AT ST. CATHERINES.

St. Catharines, Ont., May 16.—Fire this morning completely destroyed the Canada Cycle & Motor company and the Welland Vale company's establishments. The loss is half a million, partially insured. Five hundred men are made idle.

HEAVY LOSS AT GREENWICH.

Greenwich, Conn., May 16.—Fire, caused by an explosion of gasoline, tonight destroyed several business blocks, the Catholic church, post-office, E. C. Benedict's stables and a few other buildings. The total loss is \$175,000.

BLAZE AT VA. COAL MINE.

Bristol, Tenn., May 16.—Fire today at the Toms Creek coal mines, Wise county, Virginia, destroyed the machinery of the Virginia Iron, Coal & Coke company. The loss is \$100,000.

CHICAGO HOTEL GOES IN FLAMES.

TWO PERSONS KILLED, FIFTEEN INJURED AND PROPERTY LOSS OF FORTY THOUSAND DONE.

Chicago, May 16.—Two persons were killed and fifteen injured in a fire early this morning which destroyed the Hotel Helene, 119 to 114 Fifty-third street. Five of the injured probably will die.

CHARLOTTE PETERSON, dining room girl. LENA PEARSON, chambermaid. The fire started in the basement and spread with great rapidity. There were many narrow escapes. The loss to the building and furnishings is \$40,000.

FIRE AT FISHER QUENCHED.

LOS IN THE MICHIGAN TOWN IS ESTIMATED AT \$500,000.

Menominee, Mich., May 16.—Heavy rains last night and today extinguished the fire at Fisher, which threatened the destruction of the main portion of the town. The loss is estimated at \$500,000, with insurance of \$400,000. A saw mill and shingle and planing mill, lumber and cedar yards, dry sheds, kilns, smoke house, hospital and eight dwellings were destroyed. The mills were owned by C. M. Fisher of Chicago, president of the Wisconsin & Michigan railroad. C. H. Worcester & Co., Ltd., S. G. McHadden, injured in the Hotel Helene fire this morning, died this evening.

ST. LOUIS STRIKE TO GO ON.

EXECUTIVE BOARD OF THE MEN REJECTS TERMS NEGOTIATED WITH COMPANY BY THE GRIEVANCE COMMITTEE.

St. Louis, Thursday, May 17.—At 12:25 this morning the executive committee of the strikers rejected the agreement arrived at between the Transit company and the strikers' grievance committee. The strike is still on.

St. Louis, May 16.—The conference called to effect a settlement of the differences existing between the St. Louis Transit company and the grievance committee of strikers was in session from early in the afternoon till 9:15 o'clock tonight. At its conclusion the members of the grievance committee announced that an agreement had been reached with the railway officials, but they were not in position to announce its terms until it had been ratified by the executive committee of the striking employees. The executive committee and grievance committee immediately went into secret session, and at 11 o'clock no intimation had come from behind the closed doors as to whether the two committees had up to that time agreed or disagreed on the conference proposition.

FIVE CONVENTIONS HELD.

Minneapolis, May 16.—The state Republican convention met this afternoon with nearly twelve hundred delegates present.

Resolutions naming Senators Davis and Nelson and Thomas Lowery and Samuel Lord as delegates-at-large were passed unanimously.

The resolutions adopted endorse President McKinley and his administration, and wise legislation to control the trust evil is promised.

A resolution also was passed endorsing Former Senator W. D. Washburn for vice president and instructing the state delegation to present his name to the Philadelphia convention if the circumstances are propitious.

HARMONY IN MISSOURI.

BUT SLIGHT CONTESTS AT REPUBLICAN STATE CONVENTION.

Governor—Joseph Florj, St. Louis. Lieutenant Governor—F. F. Allen, Kansas City. Secretary of State—E. L. Porterfield, Springfield. State Treasurer—W. F. Fleming, Webster Grove. Auditor—W. F. Bloebaum, St. Charles. Attorney General—Samuel O'Fallon, Oregon.

Chairman State Central Committee—Thomas J. Atkins, Humansville (re-elected).

Delegates-at-Large—D. P. Dyer, St. Louis; Jas. L. Minnis, Carrollton; C. G. Burton, Nevada; D. M. Houser, St. Louis.

Kansas City, Mo., May 16.—The Republican state convention today named delegates-at-large, alternates-at-large and presidential electors and selected a full set of state officers. The nominations for governor and lieutenant governor were made by acclamation, and there were but slight contests for the other state offices.

The convention voted to name negroes for alternates-at-large, and they were selected by acclamation. The resolutions endorsed Kerns for re-election as national committeeman. Webster Davis, who was expected to be a factor in the convention and who yesterday was made the occasion for an hour's wrangle, took no part in today's proceedings aside from that of a spectator.

The platform adopted endorses the maintenance of the gold standard, and favors the extension of self-government to all the people of the new possessions as soon as they demonstrate ability to exercise it. With regard to trusts such legislation is demanded, both national and state, as will effectively protect the public from these evils. The platform also favors legislation favorable to the merchant marine.

ALL BY ACCLAMATION.

KANSAS REPUBLICANS RENOMINATE THE STATE OFFICERS.

Governor—W. E. Stanley, Sedgwick county. Lieutenant Governor—H. E. Richter, Morris county. Associate Justice—W. A. Johnson, Ottawa.

Secretary of State—George A. Clark, Troy. Treasurer—Frank Grimes, Wichita. Auditor—George E. Cole, Crawford county. Attorney General—A. A. Gollard, Shawnee county.

Congressman-at-large—Charles E. Scott, Allen county. Delegates-at-Large—M. A. Lowe, M. S. Metcalf, A. W. Dubois, B. H. Tracey, E. W. Wellington and Frank Martin.

Topeka, Kas., May 16.—The Republican state convention here today nominated the above named candidates and delegates with unexpected unanimity. The only balloting was on candidates for electors, congressman-at-large and M. A. Lowe for delegate to Philadelphia. Lowe likely will be named for national committeeman to succeed Cyrus Leland. Scott was nominated for congressman-at-large on the first ballot, defeating D. W. Blain of Pratt county. All the state officers were renominated by acclamation. The resolutions unqualifiedly endorse the national and state administrations and pledge the delegates to support McKinley.

Rudyard Kipling is afraid the British will be too easy in dealing with the Boers after properly whipping them.

It is understood at Washington that the officials who were concerned in the postal frauds in Cuba will be prosecuted relentlessly.

General Roberts seems to have the Boers "on the run," but he is not using up his men chasing them too hard.

We are curious to see how the senate will deal with the case of Clark of Montana in the new form it has assumed through the senator's resignation.

Mr. Edward Lauterbach allows his pro-Boer sympathy to carry him to extreme lengths. Recently he announced that the Republicans will have to incorporate a plank in their national platform committing the party to a declaration in favor of the Boers to prevent its overthrow in the election of this year.

CHASING TAX DODGERS.

A Coldwater dispatch gives the information that President Campbell of the state tax commission has been there for some time recently examining the assessment rolls for the purpose of ascertaining if property owners in Branch county are complying with the requirements of the tax law.

As a result of the combinations of last year the iron and steel mills, as well as the industries of the country generally, were run on high pressure speed that dividends might be earned on the large capitalization of those combinations.

For several years prior to 1898 the industries of the country languished and manufactured stocks were low.

The commission will have plenty of business on its hands right along if it undertakes to enforce the provisions of the new law throughout the state.

A GRANGER GAMBLE.

It seems that farmers of the northwest who raise flax have been selling the crop before it is raised.

Duluth makes the estimate that northwest farmers have sold one million bushels of flax for fall delivery at prices considerably under the present market price.

The farmer is satisfied to sell flax on the farm at one dollar a bushel. When the September and October options sold above a dollar, a few weeks ago, the farmer made the computation that it would be a good deal to sell his prospective crop of flax at above a dollar for fall delivery.

When the fall comes, if the crop of flax is raised, the farmer can deliver it on his sale around a dollar and draw back his margin, losing nothing on the actual deal except a possible interest charge for money under the present rate.

Near by stood a pail of water and when she last came to look after the child she discovered that in some way he had tipped himself into the water pail and had drowned in the few inches of water in it.

RIVER DRIVER LOSES HIS LIFE.

Baraga, May 16.—Joseph King, aged twenty-two years, son of Peter King, a farmer living in the Sturgeon valley west of here, was drowned yesterday evening while on the drive for the Sturgeon River Lumber company. While riding a log he missed his footing and fell in, and before assistance could reach him he was drowned in sight of several other drivers, who soon after recovered the body. The funeral will be held from the Catholic church here tomorrow morning.

ST. IGNATIUS CHURCH, HOUGHTON, AS IT WILL LOOK WHEN COMPLETED.

CHANCES ALL SOLD IN ADVANCE.

ST. IGNATIUS FAIR UNIQUE IN THAT PARTICULAR—OVER 1,000 PRIZES FROM \$500 PIANOS AND BUILDING LOTS DOWN TO A BUSHEL OF POTATOES.

Unique among fairs is that which will soon be given at Houghton for the benefit of the building fund of St. Ignatius church. Instead of having to "take a chance" on a doll or some piece of outlandish fancy work, as is usually the case at a church fair, all of the ticket selling is being done in advance, and with the list of over a thousand prizes, varying from a bushel of potatoes or a cord of wood up to \$500 pianos and Houghton residence lots, every one is willing to dig down after the \$2 which is charged for each ticket and try his luck in the grand prize distribution which will take place during the fair, certain of the prizes being drawn each night.

It is an interesting thing to examine the list of the articles which Rev. A. J. Rezek, who has charge of this parish, has secured for his fair; there is everything conceivable there from a couple of tons of hay to the most elaborate bric-a-brac, from live chickens to a thousand mile book on one of the greatest railroads in the country, from a horse and carriage to ranges, sewing machines and bicycles. The list includes everything that can be used in a house or worn on the backs of its inmates, as well as all the requisites of a well fitted larder.

The fair promises to be an event long remembered in Houghton county, and already the fourth thousand of tickets is being sold and as yet Houghton is only partially canvassed.

HIGH PRAISE DUE PASTOR.

Last year, about as work was to begin upon the basement for the new St. Ignatius church, The Mining Journal published in this department a full and complete description of the plans for the new edifice. The basement is completed and occupied now and the zealous pastor, who was not dismayed at the task of replacing the old tumble-down structure which had served the congregation for over forty years, can at last see success at hand and another season will find the main body of the church completed. It will be entirely worthy to rank with the other large public structures which are so conspicuous on Albion street and its high tower will be the most conspicuous landmark for many miles upon Portage lake.

This morning The Mining Journal presents a cut of the church and its site as all will appear when completed, the present school building being moved back, leaving the pastor's residence published for the first time. The building will be 54 by 129 feet in ground dimensions and the interior will be thirty-two feet high at the side walls, the vaulted ceiling reaching a height of forty-four feet. The tower will be 175 feet high. Brieland & Sons of Milwaukee prepared the plans for the building, and Portage Entry stone will be used in its construction. It will be a splendid monument to the liberality of the Catholic citizens of Houghton and to the zeal, business ability and indomitable courage of their parish priest, Father Rezek.

STERLING BOILERS CHOSEN.

STEAM PLANT FOR THE NEW BALTIC MILL IS ORDERED.

The contract for the boiler plant for the new Baltic mill has been let to the Sterling Boiler company by the Baltic Mining company. The Sterling company will put in its famous water tube boilers, the contract calling for 750 horsepower. The Sterling company already has a large number of plants in the copper country, including those at the Wolverine and Arcadian mines and at the Franklin mill.

RUMORED CHANGE.

It is reported in Houghton mining circles that the superintendent of one of the new mines on the south range is about to resign to accept the position of assistant superintendent at the Atlantic.

TO STAKE OUT MASS SITE.

Agent Mathews, of the Mass Consolidated, arrived in Houghton yesterday and was met by J. F. Jackson, of the Wisconsin Bridge & Iron works, and R. T. Mason, who leaves the position of resident superintendent of the Copper Range Champion mine to become superintendent of construction of the Mass mill and later its superintendent. The party left on the afternoon train to stake out the new mill on the site

near the tank at La Freniere. It is regarded as practically certain that the Wisconsin Bridge & Iron company will build this mill, just as it received the contracts for the Baltic and Isle Royale mills. The new building will be erected for two heads as a starter, though only one will be put in at first.

QUINCY MINERS SORE.

The situation at the Quincy remains unchanged, but the miners are beginning to grow sore over the continuance of the strike. They voted to accept the raise of 10 per cent offered by the company, but the trimmers refused it and showed a disposition to prevent the miners from going down when they appeared to go on for the first shift after their acceptance of the raise. There was considerable grumbling yesterday among the miners over the obstreperousness of the trimmers.

MORE AGASSIZ GENEROSITY.

C. & H. PRESIDENT TO BUILD NEW HIGH SCHOOL AT HIS OWN EXPENSE AND THE MINING COMPANY A NEW ARMORY. President Agassiz, of the Calumet & Hecla mine, has stated his intention of building and equipping at his own expense a new high school building for Calumet. The new building will be erected at the corner of Mine and

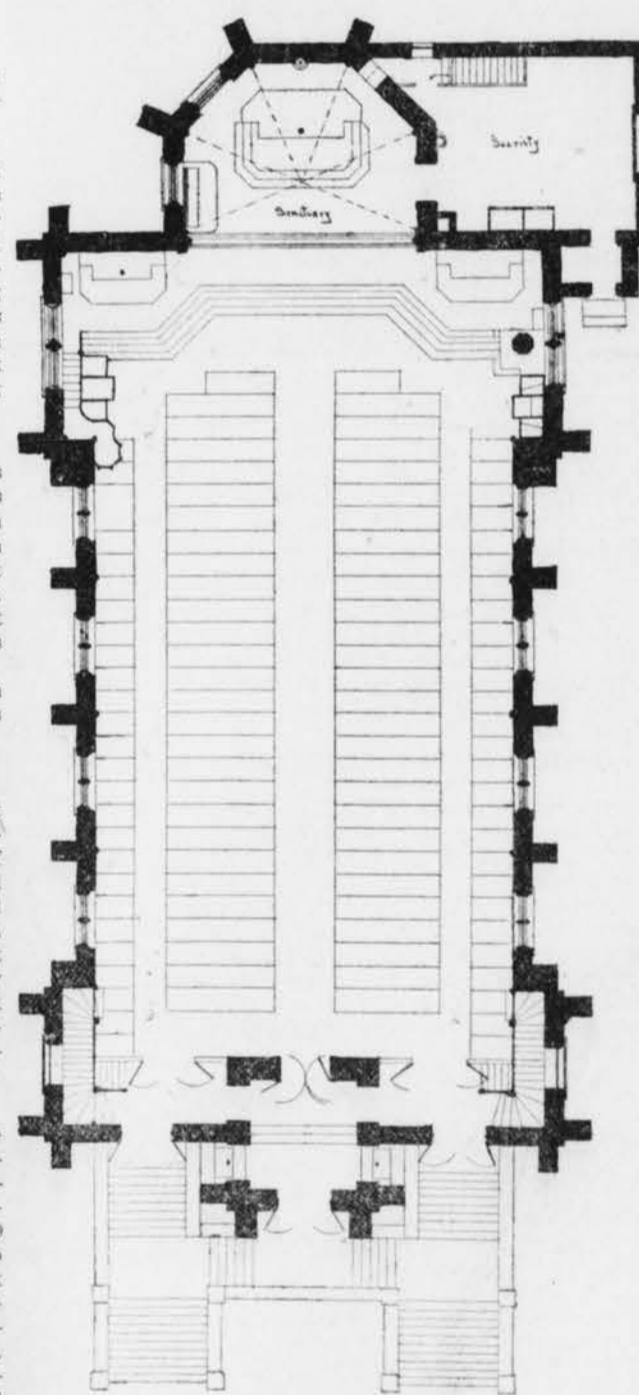

School streets, adjoining the present manual training school on the west, and may be built this fall. It is greatly needed, as the high school now has 240 pupils in it and the seating capacity of its present quarters on the third floor of the manual training building is far exceeded. The new building will be devoted to high school purposes exclusively and will resemble the manual training school in its architecture.

The Calumet & Hecla Mining company will also erect a new armory for the local company of infantry at an early date, President Agassiz having renewed a promise that he had made just before the war with Spain began, the war drove all thoughts of an armory out of everyone's head, but the project will be carried through this time.

STREET CAR EQUIPMENT COMING.

SEVERAL TONS OF BOLTS AND NUTS ARE LANDED WITH FIRST CARGO OF STEEL ENROUTE.

"The Doubting Thomases" of the copper country will now have to seek the soothing solitudes of the tall timber to escape the crowds who will demand an opportunity to get back at them for all the talk they have indulged in so freely about the Houghton County Street Railway, commonly characterized by the steam as a "myth," as yesterday the manager E. B. Ward, of the

Painting, Papering and House Decorating. HAMILTON & EIDE, Tezcuco Street, Hancock.

Give us your order. We will do your spring work on short notice. Finest line of WALL PAPERS—Alfred Peet's designs—in copper country. Drop us a postal and we will call and show them with pleasure.

Union Transit line, landed at Close & Davidson's dock at Hancock the first installment of freight for the new road in the shape of several tons of bolts and nuts for the track, while the first lot of steel for the company is also on the way up. The Union line has taken the contract to transport from Erie, Pa., 1,400 tons of steel rails for the new road and Colonel Otterson has been notified that the steamer Avon will arrive in a few days with the first shipment of the lot. The new company is starting out right and will put down a track that will be the equal of most railroad tracks in this part of Michigan and the superior of any street railroad track yet laid in this peninsula, as it will lay 60-pound steel, which is fully as heavy as the greater part of the steam railroad track herabouts.

ROBBED THE GRAVE.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts., guaranteed, at The Stafford Drug Co.

COPPERDOM BREVITIES.

[The Mining Journal's copper country office, C. H. Kelsey, representative, can be reached at all times by calling up telephone No. 312, Houghton, by parties having business with the paper.]

Judge Haire left yesterday for his home in Ironwood.

Stephen Jobe left yesterday on his return to Marquette after a trip through the copper country.

Dr. Overfield of Houghton arrived home yesterday from California, where he passed the winter.

The steamer Ward brought up yesterday a carload of heavy oak for the new Quincy mill stamp foundations.

Two hundred tons of bolts for Hugo & Sims for use on their reventment contract were landed yesterday by the Union liner, John M. Nicol.

Among those taking out marriage licenses yesterday were John Ryan and Miss Minnie Martin, both natives of Negaunee, though today both are residents of the copper country.

M. Wallace left Tuesday afternoon for Janesville to purchase another carload of horses and will reach Houghton with the car tomorrow, holding an auction sale at his barns on Saturday.

Dr. J. G. Turner opened offices in the Knoll building at Houghton yesterday afternoon. He will retain the position of Arcadian mine doctor in addition to building up a practice in Houghton.

M. Levine is moving his stocks into the new store room in the Murphy building on Shelden street at Houghton and will open for business in the copper country at the new stand on Saturday, the 19th.

W. V. Kenney arrived yesterday from Chicago. He is a solo cornetist of wide reputation and joins the Houghton Concert band. Professor Marino, the leader, left for Duluth yesterday to secure some additional players.

Marriage licenses were issued yesterday to John Ryan of Houghton and Minnie Martin of Kenton; August E. Kumpu and Katharine E. Jarvi of Calumet, and Herbert C. Hoag of Calumet and Mary McClymont of Canada.

G. R. Watts of Marquette will be in the copper country on one of his regular visits next week to tune organs and pianos. His headquarters will be at George W. Quick's jewelry store in Houghton, where orders may be left for him.

J. A. Smith, of the Michigan Granite Paving company, arrived in Houghton Tuesday evening after spending the winter season in lower Michi-

gan, and will at once resume his campaign against poor sidewalks in the copper country.

A very pleasant reception was given last evening in the parlors of the Swedish Lutheran Messiah church in honor of Rev. F. A. Linder and family. The parlors were well filled, the major portion of the congregation being out. Mr. Linder was presented with a liberal purse as a token of good will and esteem. After a short program in the earlier part of the evening coffee and cake were served.

WAITING FOR THEIR NOTES.

TREASURY DEPARTMENT UNABLE TO SUPPLY THE FAST AS NEEDED BY NATIONAL BANKS

Washington, May 16-Currency plates for one thousand banks will have to be provided under the currency act of March 14, and it will take four to six months before all can get these plates. About \$15,000,000 is now due the banks in currency, tied up because it cannot be printed until new plates are made. The regular force of engravers at the bureau of printing and engraving and all of the additional engravers that Assistant Secretary Vandenberg has been able to hire, are at work twelve hours a day engraving these plates, as well as the plates for the fifteen different styles and denominations of the new two percent bonds. The best that the bureau can do is to furnish fifty plates weekly.

When the new currency act of March 14 last went into effect there were 928 banks in the country that had bonds on deposit in the treasury. Since that time over one hundred new banks have been established under the act and in many instances all of their capital is invested in government bonds.

These banks are the greatest sufferers from the delay caused in engraving the new plates. Some special orders for plates have been given to relieve these banks and the question has come up as to making the plates for new banks all special orders. This has not been decided. It is likely, however, that all plates will hereafter be made in the regular order of rotation in which applications have reached the department. The cause of this can be seen by reading the currency act of March 14. Under that act the 928 banks having bonds on deposit have the right to circulate national bank currency to the limit of their deposits of bonds. They had, up to March 14, only five-dollar

plates. Each bank has to have plates of its own. The new act, in Sect. 12, limits the issue of five to one-third the circulation of any bank, so the engraving of these fives had to stop immediately.

WILSON AT CHATTANOOGA.

Chattanooga, Tenn., May 16.-Secretary of Agriculture James Wilson addressed the Southern industrial convention, in session here, tonight on "The Agricultural Interests of the South." He was greeted by a large audience and the address aroused much enthusiasm. At its conclusion resolutions were adopted thanking him for the work he is doing for the South and the nation. The convention in a body devoted the forenoon to an inspection of textile wood, iron and clay manufacturers. It reassembled in the afternoon and listened to papers read by Hon. Cyrus Kehr of Knoxville, R. V. Taylor of Mobile and Dr. W. P. Wilson of the Philadelphia museum. A resolution was adopted strongly endorsing Philadelphia's commercial museum.

DECLINE OF BUCKWHEAT.

Crop Large in This Country is Now Steadily Decreasing.

What is the matter with buckwheat? Cakes made of it and eaten warm are regarded as very nutritious and are still in favor with the farmers with many thousands, but for all that the cultivation of the grain is steadily declining. It must be that a great many have stopped eating buckwheat cakes, for there is certainly a great deal less buckwheat to be eaten than in former days.

Thirty-five years ago the farmers of our country sowed every year over 1,000,000 acres in buckwheat. Since then the crop has sometimes been larger, sometimes smaller, but on the whole the acreage and yield have been almost steadily decreasing. In 1898, the acreage was 678,332, only a little more than half that of thirty-five years ago, and the yield was only 11,700,000 bushels, which was just about one-half the yield at the close of the civil war. No explanation of this great decline in buckwheat raising has been made. It is probable, however, that the unreliability of the crop, which is sometimes large and sometimes small without any apparent reason for the variation, has discouraged a great many farmers. Another reason for the decline may be larger use within the past few years of cereal preparations, especially wheat, all of which come under the general designation of "hygienic foods. These preparations have probably won many persons from their allegiance to buckwheat cakes.

If buckwheat raising continues to decline, perhaps the best most of all will miss the fields, for they are very partial to the flowers of this plant, which secrete a great deal of honey that is not, however, of the first quality, as everybody knows who has eaten it. Buckwheat is not raised widely over the world, and this fact makes its decline in America, where it is most largely grown, all the more interesting. Russia and France are about the only countries in Europe that produce it, and Great Britain has never taken kindly to buckwheat cakes and imports very little of the grain.-New York Sun.

The Country club inaugurated its season of 1900 yesterday. A party of ladies went to the club house, in spite of the unfavorable weather, and held a regular meeting.

Mrs. Mary McDowell, residing at 144 Barnum street, passed away Tuesday at the ripe old age of eighty-four years.

Numerous persons have questioned C. D. Cole, manager of Child's art gallery here, concerning two men who are canvassing the city for orders for picture frames.

Henry Myers, who was drowned while working on the Bay Shore Lumber company's drive near the dam on the Peshekee river, some miles above Michiganville, was an entire stranger in these parts.

None of the men saw Myers fall into the water. They had just left the drive for lunch and only one man, who was the last to go for the meal, heard him yell.

Myers was a young fellow about twenty-two years of age. His remains were not recovered until last Saturday evening. They were brought to Champion and given interment in the local cemetery, all the men employed on the drive coming in to attend the funeral.

His brother-in-law, George G. Dietrich, arrived here Tuesday from the logs were started. He came to camp a stranger and had worked one day. His pole was found, but none of the workmen have ever seen or heard of him since that day.

Foreman Rogers has had some men working near the place searching for the body, assuming that he was drowned. Most of the men are of the belief that the fellow got tired of the job and left without saying anything to the

COLLECTING A DOG TAX.

Mrs. Joseph Lumphrey, who has resided in Champion the past fifteen years or so, recently removed to Lake Linden, where her eldest son has a good job.

A number of the sports of the town congregated at the South Shore station last Friday evening to hear the returns of the big fight as they came over the wire.

A number of the young people of Champion will attend the ball to be given tomorrow night at Michiganville under the auspices of the Ideal band of that place.

The fires in the forest north of the location caused some alarm last Sunday. It was supposed for a time that the buildings at the North mine were in danger of going down.

Mrs. Thomas Russell, who has been a sufferer from the grip for some time past, is not feeling very well. She does not improve as rapidly as her many friends here could wish.

The Bell Telephone company's crew, which has been in Champion for some time past, pulled up stakes a few days ago. The men are now working toward Ishpeming, springing the long distance wires.

Horsemen are advised that J. Hammett & Co., the well known horse dealers, have changed their location in Ishpeming to the Jones stable, near the South Shore depot.

A couple of local sports who spent Sunday fishing and hunting went out loaded with enough ammunition to cause an ordinary army to retreat. And they didn't get a thing—not even a fish worth bringing home rewarded their labor and skill.

Albert Zeien Says Death is Preferable to a Term in the Branch Prison.

WAS FOUND GUILTY OF ROBBERY IN COURT YESTERDAY.

Damaging Evidence Against His Character in the Shape of a Letter in Which He Sought Outside Aid for the Purpose of Breaking Jail.

NEW TRIAL WILL PROBABLY BE ASKED.

Albert Zeien declares that he will never go to prison and that rather than serve a term in the penitentiary he will kill himself in jail.

Zeien, who some months ago held up and robbed a drunken Finlander in Ne-gamnee, had his trial yesterday on the charge of highway robbery and was adjudged guilty.

AN INCRIMINATING LETTER.

One piece of evidence which was produced against Zeien was a letter found on his person by Sheriff Carlson.

The letter had evidently been written by Zeien to his father or to his brother Hugo and requested the one to whom it should be delivered to come to visit him.

Zeien is one of the six prisoners who made the attempt to break jail here some weeks ago and is credited with having been the ringleader of the gang.

OTHER COURT BUSINESS.

The Zeien case was about the only thing handled in court yesterday, though James Cameron of Chocoma, who pleaded not guilty to the charge of larceny, was allowed to change his plea and plead guilty to petit larceny.

The next case on the docket is that of the people against Avery L. Thompson, charged with embezzlement.

When the Thompson case is finished there will be but one more criminal case for trial this term.

When the Thompson case is finished there will be but one more criminal case for trial this term.

WORSE BEFORE BETTER.

Hayden, Stone & Co. Make a Cheerful Prediction About Coppers.

Hayden, Stone & Co. are out with the most cheerless prediction which has been made yet regarding the copper slump.

The tendency of yesterday's market was downward again, the same as it has been for weeks.

The copper visible is 27,644 tons, a decrease of 431 tons since May. Yesterday's sales were fifty tons spot and 225 tons futures.

The grains were decidedly better yesterday, wheat advancing half a cent to 66¢ and corn going up a cent and a half to 28 bid.

"Today the pendulum swings the other way and the promised all round bulge in board markets is a reality.

That put wheat to 67, a gain of 1/4 for the day, corn to 28 1/2, 1/4 cent over last night, and both closing an eighth under top.

OUT OF GENERAL FUND.

City's Bill for Street Sprinkling Will Be Borne By General Taxation.

ALDERMEN WRANGLE OVER METHOD OF MEETING THE EXPENSE.

Mayor and a Minority Wanted to Have It Charged Against the Abutting Property—Normal Bluff Plat Referred to Street Committee.

CITY WILL DO ITS OWN SPRINKLING.

Marquette will wet down its own streets this season with two sprinklers, buying one for the purpose and renting another, and paying the whole expense out of the general fund.

This decision was arrived at by the aldermen in last night's council meeting after a good deal of debate and was not to the full satisfaction of all those present when it had been done.

Practically all the aldermen were in favor of having the streets sprinkled by the city, but they were divided in opinion as to how it should be done.

At the previous meeting of the council the city recorder had been instructed to advertise for bids.

The sprinkling matter became a closed incident when Alderman Ward moved that the street purchasing committee be authorized to buy a sprinkler.

A vote was then taken on Alderman Ward's motion to have it adopted immediately, contending that all the aldermen had seen the plat and were as well able to act on it as they would be at any later meeting.

Alderman Ward, who represents the ward which contains the proposed new addition to the city, was strongly against it and argued that the plat should be referred to the committee on streets and sewers.

It was argued that if sprinkled with one cart but that it would take a second one to cover the new streets in the residence portion of town.

Street Commissioner French was called upon for remarks and strongly advocated sprinkling the new streets, giving it as his opinion that if sprinkled with one cart but that it would take a second one to cover the new streets.

As last night's meeting was called for the purpose of confirming an assessment roll, should the council see fit to proceed by assessing the abutting property, the mayor asked if there were any objections present.

There were no objections present, and the council passed the resolution that the streets should be sprinkled with one cart but that it would take a second one to cover the new streets.

When the discussion had proceeded this far Alderman Ward moved that the city do the sprinkling this season, using two sprinklers, one on the business streets and the other on the outlying new streets.

Alderman Jacobs opposed this view, saying that if the money were taken out of the general fund there would be a big kick from owners of property in parts of town where the streets were not sprinkled.

A special summer course in bible study will be conducted at the Moody Bible Institute in Chicago this summer from June 5 to Sept. 23 by the Rev. James M. Gray D. D. of Boston.

This course is for all both men and women who want to get better acquainted with the English bible and better equipped for Christian work.

SUMMER BIBLE STUDY.

A special summer course in bible study will be conducted at the Moody Bible Institute in Chicago this summer from June 5 to Sept. 23 by the Rev. James M. Gray D. D. of Boston.

This course is for all both men and women who want to get better acquainted with the English bible and better equipped for Christian work.

Students who enroll for the special summer course are entitled to the full privileges of the regular departments of the institute, as follows:

1. Mr. John H. Hunter conducts—(a) A personal workers' course (how to begin, how to use texts, and the best texts to use with different classes of people); (b) Study of the bible by chapters, discovering the principal subject, the leading lesson, the principal persons, the best verses.

2. Miss Mabel Hall's course for teachers of children, (a) the study of children, (b) principles of teaching, (c) lesson construction, (d) music, (e) black-board drawing, (f) practical methods.

3. The musical course (Professor D. E. Towner, superintendent) includes classes in notation, sight-reading, harmony, solo and part singing, vocal training, conducting, normal training for teachers, and composition.

4. In the practical work course students get actual experience in tent meetings, open air and street work, jail and mission services, aftermeetings, etc.

The course is intended for pastors, evangelists, returned missionaries and other Christian workers; college students on vacation; members of young people's societies; as well as those people of leisure who desire to know more of the bible.

No tuition fees are charged. Accommodations for board and room for men can be had in the men's department at \$3.25 per week; for ladies, in the women's department adjoining, at \$3.50 per week.

Students must, in addition, share in the work of the buildings. Scholarships covering the expenses of the summer course are offered by the Bible Institute Colportage association.

For particulars write to A. P. Pitt, superintendent, 250 LaSalle avenue, Chicago.

The institute buildings are near to Lake Michigan, Lincoln park, Newberry library and other objects of interest and profit.

Chicago is at its best in the summer time. Students are within easy access of all kinds of Christian agencies, from the rescue mission to the fully equipped metropolitan church.

Mr. Moody's object in the bible institute was to have an institution open the year round to which men and women might come for bible study and practical training for any students, can enjoy all the privileges of the class room, but are not eligible for the special diploma.

Further information can be obtained on application to R. A. Torrey, superintendent, 80 Institute Place, Chicago, or J. A. Stewart, Marquette, Mich., at Hotel Marquette.
