NUMBER 4914.

MARQUETTE, MICH., TUESDAY MORNING, MAY 22, 1900.

PRICE FIVE CENTS.

IT'S COLD!!

But our Soda is colder. Our Ice Cream is as good as it was last year—it could not be better—and our fruits and syrups are the best we can make or buy. We are running our Fountain and Store all night.

The Stafford Drug Co.,
COR. FRONT AND SPRING STS.

WE ARE HAVING A DRIVE

In Children's Shoes this week. Bring in the little ones and have their feet properly fitted. Our stock this spring is more complete than ever before. All the new things in button and lace—Viel-Kid, Patent Calf and Box-Calf—in vesting or leather tops.

\$1.57 BUYS

Misses' Sample Shoes, button and lace. In Viel-Kid, Box-Calf, Patent-Calf and Russia-Calf. Sizes, 12, 12½ and 13; widths, A, B, and C. These shoes are worth \$5.00 and \$6.00.

GOODSPEED'S,
120 Front Street.

Just arrived, a liberal supply of

Pure Dalmatian

Insect Powder.

Made from the closed flower—uncolored. The best is always the cheapest to use. We handle only the best quality. We also have Pure Powdered White Hellebore for spraying current and rose bushes, in fact all shrubbery.

PENDILL'S PHARMACIES,

MARQUETTE, MICHIGAN.

Cor. Front and Washington Streets and Superior Street, Opp. Depot.

NOW IS THE TIME TO CHANGE

UNDERWEAR!

WE MEAN FROM WINTER TO SPRING WEIGHTS.

We have a large assortment of all grades from

50c to \$5.00 Per Garment.

See the Deimel Linen-Mesh Goods.

Also an elegant line of Soft Bosom Hot Weather Shirts, in all grades and kinds. A full line of Hosiery, Suspenders, Neckwear, Collars, Cuffs, etc. Goods and prices guaranteed to be right.

Gooding & Ormsbee,
127-129 WASHINGTON ST.

We are going to give the people of Marquette the best Soda Water service that they have ever had. Everything new. We have the finest, newest and most beautiful soda conveniences in the city. Hoppner's Ice Cream, fresh Crushed Fruit each day, Fresh Fruit Juice, Mineral Water, Vernon's Ginger ale. The new drug store.

"THE PEOPLE'S DRUG STORE,"
Successors to the Owl Drug Co.

Relief of Mafeking Was Effected on Fri- day Last.

PANIC ON AT PRETORIA.

Non-Combatants Being Sent Away. With Roberts, Cavalry but 40 Miles from Johannesburg.

BRITISH ADVANCE ON AGAIN

London, Monday, May 21.—The war office late tonight received the following dispatch from Lord Roberts, dated Koonstad:

"The following is from Hunter: 'Mafeking is relieved. Mahon entered it the eighteenth.'"

Early in the afternoon, Sir Alfred Milner, British high commissioner, reported to Secretary Chamberlain as follows from Cape Town:

Warnton telegrams from Tsungtsang that Mafeking was relieved on May seventeenth. The column was a composite force, under Colonel Mahon, of about 2,300 men."

ROBERTS' CAVALRY MOVES ON.

London, Tuesday, May 22.—4.30 a. m.—British horsemen, according to a dispatch from Lourenzo Marques, are now close to the Vaal river within forty miles of Johannesburg.

The migration from Pretoria has begun. The women and children are being sent in trains to Machadodorp, on the way to Lydenburg. Trains are arriving at Lourenzo Marques filled with passengers, among whom are many Germans bound for Europe.

Some details of Colonel Mahon's Mafeking relief expedition are now coming through from wayside points. It was one long rush to Mafeking. A correspondent with General Hunter telegraphs the following from Fourteen Streams:

RACE WITH THE BOERS.

"Colonel Mahon" relieving column left Barkly West under secret orders on May 4 and reached Vryburg the 11th. The Boers marched on the right flank of the British, and a strange race followed. Mahon pressing toward Mafeking with the utmost speed consistent with keeping his force in condition and the Boers hurrying parallel in an effort to pass him and throw themselves across his path. The Boers succeeded. Colonel Mahon then turned west during the night. The Boers yet known overtook and attacked him in the bush, but were beaten off."

Then, as Lord Roberts has wired, Colonel Mahon and Colonel Plumer united forces at Jansabell on May 15 and Mafeking was relieved three days later under conditions not yet known here. The correspondent of The Daily Express says that "General Hunter devised and guided the relief, which was daringly executed by Colonel Mahon."

The last message from Mahon's column before the relief was dated Monday, the 11th. It says: "The Boers were in a dispatch from Mafeking, the 12th, via Ootsi, the 14th: 'Eloff today fell into one of the various traps that had been left open for months. At 4 a. m. the enemy, who had been much strengthened during the last few days, feinted an attack on the eastern side of town, while a large force, which during the night had crept along the river, guided by native rebels who had chosen the craftiest detours, managed to enter the Baralong location. They then burned and the huts of the natives were blazing feverishly for a distance of nearly a mile. 'Then, finding that they were unopposed, the Boers yelled: 'Come out, you skulkers. Today we take Mafeking.' Suddenly a Boer cried: 'Run. Here are the Rooieks.' Nearly all fled. Captain Marsh opened fire from the fort on each side, cutting off and repulsing the main body of the Dutch, but driving the vanguard of about a hundred and fifty into the native location, which had been burned."

CAPTURE OF YOUNG ELOFF.

Colonel Baden-Powell's hardest blow to the besiegers was the capture of Commandant Sarel Eloff, President Kruger's grandson, and his men. It was a dispatch from Mafeking, the 12th, via Ootsi, the 14th: 'Eloff today fell into one of the various traps that had been left open for months. At 4 a. m. the enemy, who had been much strengthened during the last few days, feinted an attack on the eastern side of town, while a large force, which during the night had crept along the river, guided by native rebels who had chosen the craftiest detours, managed to enter the Baralong location. They then burned and the huts of the natives were blazing feverishly for a distance of nearly a mile. 'Then, finding that they were unopposed, the Boers yelled: 'Come out, you skulkers. Today we take Mafeking.' Suddenly a Boer cried: 'Run. Here are the Rooieks.' Nearly all fled. Captain Marsh opened fire from the fort on each side, cutting off and repulsing the main body of the Dutch, but driving the vanguard of about a hundred and fifty into the native location, which had been burned."

PENNED UP BY BRITISH.

"The enemy broke into two parties, one being penned in a stone cattle kraal, the other hemmed in a hollow behind a kopje inside the outer defenses. They had no water and but little food."

"Meanwhile a strong party, estimated at five hundred, ran round the native location and reached the camp close to the railway. There they surprised and, after sharp fighting, captured Lieutenant Colonel Hore, Captain Singleton and Veterinary Surgeon Dunlop-Smith, who, for a time, were penned with forty Boers in the offices of the British South African company. This position was covered by our forts. 'The Boers were called up on to surrender, but refused, and the fighting was resumed for some hours. The Boer loss was heavy. Finally two parties of the enemy surrendered, the

other party escaping. The casualties are not yet fully known. The Boers lost about 150, but our casualties were under twenty. Angus Hamilton, correspondent of the London Times, is missing."

ADVANCING ON PRETORIA.

The railway head is expected to be at Koonstad today [Tuesday]. A congestion of traffic at Smaaldel delays Lord Roberts' advance, but his cavalry continues active through a wide range east and southeast of Pretoria. The infantry advances steadily. Generals Colville and Rundle shift their headquarters each day, the Boers retreating northward from Harrysmith. The raiding and sniping is decreasing.

Lord Roberts is advised that little resistance need be expected south of Klipriviersburg, near Johannesburg, where the natives are digging trenches; but the position, according to a correspondent, can be turned. The same authority thinks it improbable that there will be any defense south of Pretoria, and that even the capital of the Transvaal is likely to be evacuated. The orders from the war office directing six more siege trains to go out, however, indicate preparations in expectancy of a siege. Twenty-one war correspondents have

been killed or died from disease during the war.

Lourenzo Marques, Sunday, May 20.—The defense works at Johannesburg are progressing rapidly. Six guns brought from the front have been emplaced in the forts, while trenches intersecting Katzer and near Klipriviersburg, behind the race course, are being built.

BULLER'S ADVANCE DELAYED.

London, Monday, May 21.—The war office today received the following dispatch from Lord Roberts, dated Koonstad:

"Buller reports that his advance will be delayed a few days on account of the way in which the railroad is destroyed."

"Rundle reports Ladybrand occupied."

"Hunter is pushing up the railway with supplies for the Mafeking garrison and arranging for a hospital train for the conveyance of the sick and wounded to Kimberley."

"Methuen has left Hoopstad to cooperate with this force."

NO OVERTURES FOR PEACE.

London, Monday, May 21.—There is no truth that Kruger has sued for peace, and no communication from him on the subject is expected in the immediate future.

MEDIATION IS REFUSED

Administration Declines to Intervene for the Boers.

ENVOYS' MISSION IN VAIN.

They Confer With Secretary of State and Are Frankly Told Nothing Further Can Be Done.

M'KINLEY'S HANDS TIED.

Washington, May 21.—The state department has met the issue raised by the coming to Washington of the Boer delegation by declining to interfere in behalf of the South African republics in the present struggle.

In view of this announced decision, all questions as to the character of the recognition to be extended to the delegates and the sufficiency of their credentials are dropped at once into the background.

ABLY PLEA THEIR CAUSE.

This morning a note came to the state department from the delegates, asking that they be permitted to present themselves at the department, and at 2:30 o'clock was fixed for the meeting. At that time the three delegates appeared and were shown into the diplomatic room. Secretary Hay, accompanied by Mr. Babcock, his private secretary and stenographer, entered the diplomatic room and cordially greeted his visitors.

When the meeting was over, after lasting an hour, the Boers at the department stated to a number of newspapermen that they had nothing to say as to what happened. The secretary of state, after a consultation with the president, gave out a statement in which he said that the Boer envoys had presented at much length and with great energy and eloquence the merits of the controversy in South Africa and the desire of the Boer republics that the United States should intervene in the interest of peace and use its influence to that end with the British government.

Secretary Hay, in reply, reviewed the facts of the president's communication with the British government in response to the request of United States Consul Hay at Pretoria last March, and the reply of Lord Salisbury that her majesty's government could not accept the intervention of any power. Secretary Hay also quoted to the envoys article five of the Hague convention, which says that "the function of the mediator are at end when once it is declared, either by one of the parties to the dispute or by the mediator himself, that the means of reconciliation proposed by him are not accepted."

NOTHING FURTHER POSSIBLE.

The secretary of state continued: "This would seem to render any further action of the United States inadvisable under the existing circumstances. The steps taken by the president in his earnest desire to see the end to a strife which has caused so much suffering may already be said to have gone to the extreme limit permitted to him. Indeed, if in his discretion he had chosen not to present to England the South African request for his good offices, he might have justified his action by referring to the following declaration, which was made in the act of the signing of The Hague convention by the plenipotentiaries of the United States:

"Nothing contained in this convention shall be so construed as to require the United States of America to depart from its traditional policy of non-interference with, or entangling itself with questions of policy or the internal administration of any foreign state; nor shall anything contained in the said convention be construed to imply the relinquishment by the United States of its policy of its traditional attitude toward purely American questions."

CAN'T RISK PRECEDENT.

"The president sympathizes heartily in the sincere desire of all the people of United States that the war which is now afflicting South Africa may, for the sake of both parties engaged, come to a speedy close; but, having done his full duty in preserving a strictly neutral position between them and in seizing the first opportunity that presented itself for tendering his good offices in the interests of peace, he feels that, in the present circumstances, no course is open to him except to persist in his policy of impartial neutrality. To deviate from this would be contrary to all our traditions and all our national interests and would lead to consequences which neither the president nor the people of the United States should regard with favor."

CREDENTIALS NOT PRESENTED.

The Boer delegates will be received by the president at the White House at ten tomorrow. The call, it is understood, will be entirely unofficial in character, as the envoys have not yet presented to the officials here the credentials with which they are accredited.

Buffalo, May 21.—Jim Jeffords of California defeated Jim Fitzpatrick at the Olympia Athletic club tonight. Fitzpatrick's seconds threw up the sponge in the eleventh round.

GOVERNOR TAYLOR DEPOSED

United States Supreme Court Decides the Kentucky Governorship Contests in Favor of the Democratic Officials.

Washington, May 21.—The Kentucky governorship case was decided today by the United States supreme court in the interest of Democratic Governor Beckham, affirming the decision of the Kentucky court of appeals.

After reviewing the facts in the case, Chief Justice Fuller said: "It is obviously essential to the independence of states and to their peace and tranquility that their power to prescribe the qualifications of their own officers, the tenure of their offices, the manner of their election and the grounds on which the states may be contested should be exclusive and free from external interference except so far as plainly provided by the Constitution of the United States; and where controversies over the election of state officers have reached the state courts in the manner provided and have been determined in accordance with the state constitution and laws, the cases must necessarily be rare in which the interference of this court can be properly invoked."

"For more than one hundred years the constitution of Kentucky has provided that contested elections for governor and lieutenant governor shall be determined by the general assembly. The highest court of the state has often held, and in the present case again declared, that under their constitutional provisions the power of the general assembly to determine the result is exclusive and that its decision is not open to judicial review."

"The statute enacted for the purpose of carrying that provision of the constitution into effect has been in existence, in substance, since 1799, and many states have similar constitutional provisions and similar statutes. We do not understand this statute to be objected to as in any manner obnoxious to constitutional objection, but that the plaintiffs in error complain of the action of the general assembly under the statute to determine the result is exclusive and that its decision is not open to judicial review."

"The statute enacted for the purpose of carrying that provision of the constitution into effect has been in existence, in substance, since 1799, and many states have similar constitutional provisions and similar statutes. We do not understand this statute to be objected to as in any manner obnoxious to constitutional objection, but that the plaintiffs in error complain of the action of the general assembly under the statute to determine the result is exclusive and that its decision is not open to judicial review."

After the chief justice had concluded, Justices McKenna, Brewer and Harlan read opinions dissenting from the opinion of the court, Justice Harlan entirely and the others on certain points.

DEMOCRATS TAKE HOLD.

Frankfort, Ky., May 21.—At four this afternoon the Taylor soldiers, who have been in charge of the state capitol building and grounds since Jan. 30, the day Governor Goebel was assassinated, evacuated and turned the state grounds, Gatling guns and military equipment over to Assistant Adjutant General Murray, Democrat, who took charge of

the whole. The Democrats of the city are already jollifying over the decision. At five special coaches backed up from the state house for the use of the soldiers. Before they left cheers were given for deposed Governor Taylor, ex-Governor Bradley, Charles Finley, Caleb Powers and others.

A touching incident of the day occurred this afternoon, when two thousand people marched to the cemetery, each wearing a flower, which was cast upon the grave of the late William Goebel, making the little mound which marks his resting place a vast bank of flowers. There were no ceremonies at the grave except prayers.

The Republican state officials other than governor and lieutenant have held a conference here tonight. Ex-Governor Bradley says the contest over the minor offices will be carried up to the United States supreme court also. These officials maintain that there are issues involved in their cases which were not decided in the governorship cases.

HIS REQUISITION REFUSED.

EX-SECRETARY FINLEY OF KENTUCKY, WANTED FOR TRIAL IN GOEBEL KILLING, IS ARRESTED IN INDIANA BUT LET GO.

Indianapolis, May 21.—Charles S. Finley, former secretary of state of Kentucky, was today arrested and detained at police headquarters for about two hours tonight and was then released on Governor Mount's refusal to honor a requisition from Governor Beckham for his return to Kentucky for trial on charges of complicity in the Goebel assassination.

Requisition papers were issued by Governor Beckham immediately upon the receipt of news of the decision of the supreme court. A police officer from Frankfort arrived at five and waited upon the governor. After it became known that Finley was arrested by the state officers and chairman and secretary of the Republican state committee held a conference in the lobby of the Denison Hotel and sent representatives to Governor Mount's room. In a short time the announcement came that Governor Mount refused to honor the requisition. Later Governor Mount said: "When the proper time comes, I will give an explanation for my refusal which will be satisfactory to any fair-minded person."

TAYLOR ACROSS THE LINE.

W. S. Taylor of Kentucky arrived here this afternoon. He cannot be located, though it is believed he and Finley met each other at midnight.

superintendent of police that he, with a companion, murdered Professor Roy Wilson White, the young law instructor at the University of Pennsylvania, who was assassinated Saturday night. The details of the confession will not be made public until Ivory's accomplice has been arrested.

San Francisco, May 21.—Chinese Highbinders and the board of health have had a clash over the bubonic plague question, and up to the present time the Highbinders seem to be ahead. So far by threats to assassinate any Chinese who submits to inoculation against the plague, they have prevented the Chinese from taking the treatment.

NEGRO CONFESSES TO KILLING PROF. ROY WILSON WHITE.

Philadelphia, May 21.—At the Penn Athletic club tonight Terry McGovern and Edwood McCuskey sparred six hot rounds. McGovern could not knock his man out.

Look at the Facts.

Mrs. T. Dolan, of Madrid, Perkins Co., Neb., writes: "I think Dr. Pierce's medicines the best in the world."

DAILY MINING JOURNAL, A Morning Paper Published by the Mining Journal Co. (Limited).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

It is safer to be a British sympathizer in Pretoria than a Boer sympathizer in London, a fact which goes to establish that the Boer standard of civilization is entirely too Christ-like for modern uses.

An observer of political conditions in the south says the Populist party is disintegrating in that section of the union. It has got away beyond that stage in the north—so far beyond that it is beginning to smell badly.

Our Methodist friends seem to have as much trouble choosing their bishops as some of our legislatures do in electing United States senators, but they are safe not to make as bad a mess of it as many of the legislatures do.

The Minneapolis Tribune pitifully remarks that "Ambassador Choate has been talking again, and too much."

Andrew White, our ambassador at Berlin, declines to be numbered among the available for the vice presidential nomination on the Republican ticket.

Clark says his appointment to the Montana senatorship by acting Governor Spriggs was a complete surprise to him.

A Stockholm dispatch published in the London Daily Express states that King Oscar of Sweden has got himself into trouble by avowing his sympathy with Great Britain in the war she is conducting against the Boer states in South Africa.

A representative of a Russian establishment is now in this country trying to place a contract for the immense order of 10,000,000 tons of soft coal.

It is reported from Pittsburgh that a representative of a Russian establishment is now in this country trying to place a contract for the immense order of 10,000,000 tons of soft coal.

Such a corporation controls its independent constituent companies only through its interest in them as a stockholder. It pays no attention to politics other than to insure the absolute freedom of its employees.

There is a national election pending, and many are apprehensive of the result. Many Republicans are fearful that Bryan may be made president, and have got themselves into a state of mind over that awful possibility.

There are always two sides to these great questions. Very frequently the laboring man is abused, very frequently the corporation is abused, very frequently the public law is abused, the corporation.

There is a national election pending, and many are apprehensive of the result. Many Republicans are fearful that Bryan may be made president, and have got themselves into a state of mind over that awful possibility.

TO ESTABLISH BIG DAIRY FARM. OLD ISHPERING MAN BUYS 640 ACRES NEAR NEWTONVILLE.

Nels Majhamme of Michigan, for many years a resident of Ishpeming and one of the oldest and most influential Finnish residents of the Lake Superior country, has secured options on 640 acres of land, largely improved, at Newtonville, and contemplates engaging in dairying on a large scale.

Schoolcraft township still leads the procession in Houghton county, viewed from a purely agricultural standpoint, having 3,424 acres under cultivation, with 5,765 acres in farms.

The production of hay last year was 3,536 tons and of potatoes 21,361 bushels, while among the miscellaneous returns were 145 bushels of strawberries from 2 1/2 acres of land.

The farm produce of Schoolcraft township for 1899 easily exceeded \$50,000—an excellent showing.

MINING TIMBER COMES HIGH IN THE TRANSVAAL—AS TOLD BY VISITING ENGINEERS.

Messrs. William Watson, C. N. Pierce and Fred Norton, mining engineers from Johannesburg, have concluded a visit of several weeks' duration to copper country mines, and left the district on Sunday.

Timber, which is used in large quantities by the mines of the Rand, is very expensive, Mr. Watson, who is assistant superintendent of the Simmer & Jack, the largest gold mine of the world, spoke of the head-gear for a new shaft, put in place shortly before the breaking out of the war.

It was of Washington fir, comprising four long sticks of seventy-two feet each and two shorter timbers for braces. The cost of the material was near \$7,000. A single stick of long timber 12 to 15 inches square and 60 to 85 feet in length frequently costs from \$1,200 to \$1,500 delivered at the shafts.

The timber used in South African mines comes mainly from Washington and Oregon, going from Seattle to some extent to the Sound port to Lourenzo Marques, the port of Delagoa bay, thence between 300 and 400 miles by rail to Johannesburg.

The timber importing business of the Transvaal is practically monopolized by Fred Lingham, a brother of Mrs. Henry Wegner of Houghton.

Lingham went to South Africa from his home in Canada, and came with little but his business ability and an inclination to work. He is now in a fair way to becoming a millionaire at an early date.

THE HOUSE AND FURNITURE OF GEORGE LEONCE at South Lake Linden were burned Saturday. A hastily organized bucket brigade managed to save the house of a neighbor, which was in great danger.

The loss to Mr. Leonce will be about \$800 on the house and \$500 on furniture, with insurance of \$400 only.

Repetitions of such fires may be looked for unless conditions change. There are a few live people living there, and they have tried, unavailingly, on several occasions to awaken a little public spirit and to secure the modern improvements which all progressive communities enjoy.

At present there are about 3,000 people in South Lake Linden—mostly of the kind mentioned by Carlyle in his celebrated reference to the population of England—yet the town is not incorporated. It has no sidewalks except such as are provided by private enterprise.

It has no police department, no water works, no fire department, no system of street lighting and no sewers. The really live people of the place, of whom there are a number, are ashamed of the community, but they are apparently in a hopeless minority.

Many prairie towns of three hundred people have ten times the enterprise.

COPPERDOM'S OLDEST PIONEER. LATE DENNIS TWOHY PROBABLY HAD THAT DISTINCTION.

Dennis Twohy died last Friday at his home in Copper Harbor and was buried in the cemetery of that hamlet on Sunday.

Mr. Twohy was perhaps the oldest surviving pioneer of the copper district, previous to his demise, having located in Keweenaw county in 1845 when mining for copper was but barely begun.

He was eighty-nine years of age and leaves three sons—Patrick, Cornelius and John—and a married daughter living in St. Paul. He was an uncle of Edmund, Daniel and Will Twohy, of the Twohy Mercantile company, West Superior, and of Judge John

after the mining page of the Houghton daily can be shown some excellent mill sites in Ontonagon county. The mill sites offered in that county are unquestionably good, but the fact of the Mass and probably other south range mines coming to Houghton county for mill sites is not properly ascribable to adverse editorial influence on the part of the mining reporter referred to.

It can be laid to the machinations of W. F. Fitch, general manager of the D. S. S. & A. railway, who is an exceptionally long-headed railroad man and loses no opportunity to bring new business to his line.

THE TAKES IT SERIOUSLY. REV. SAMUEL BETTES REALLY WOULD BE SHERIFF, 'TIS SAID.

Some of the numerous admirers of Rev. Sam Bettes, the traveling evangelist who combines rowing and cow-punching with a sort of running fight against Satan, have petitioned the gentleman to become a candidate for sheriff in this county of Houghton, and it is stated on the authority of his newspaper organ that he is seriously considering the advisability of sending for his family and securing a residence here in time to become a local candidate for the office.

It might be inferred from this that the Rev. Sam really imagined that there was some possibility of his being elected to the office. That there is no chance of his election is known to all competent observers, but the play for the place will doubtless be given to the gentleman some time of the free advertising which he has been fortunate enough to secure in liberal quantities since he first flashed, meteor-like, across the evangelical and political horizon of the copper district.

WOLVERINE AS A MONEY MAKER. SUMMARY OF ITS OPERATIONS THAT SHOULD BE PLEASING TO HOLDERS OF THE STOCK.

B. T. Judkins, formerly of the Portage Lake Mining Gazette, now of Boston, publishes the Boston Transcript with this presentation of the capacity of the Wolverine mine as a dividend earner:

"The Wolverine annual report for last year, ended June 30, 1899, showed a surplus on hand of \$277,689.45. Since that time two dividends have been paid, one last October of \$2 per share, or \$120,000, and one in April of the same amount, or a total for the year of \$240,000. So if the mine had made no money during the past year, it still would have on hand a surplus of \$37,689.45. The past year, however, without doubt has been the most successful in the history of the mine, and when its next annual report is published, for the year ending June 30, 1900, I am of the opinion that stockholders will have every reason to be pleased.

From the reports published of monthly production since July 1, 1899, it is quite likely that the product for the year in refined copper will amount to between 4,800,000 and 5,000,000 pounds. The report for 1898-99 shows that it cost the mine 7.71 cents per pound to lay its product down in New York, all expenses paid, including construction; owing to the advance in the price of labor and supplies of all kinds, it may cost eight cents for the present year. The Atlantic mine received as an average price for its copper for the year ended Dec. 31, 1899, 17.15 cents per pound, and I see no reason why the Wolverine should not average as high or a trifle higher from July 1, 1899, to June 30, 1900, the fiscal year of the Wolverine, than from Jan. 1 to Dec. 31, 1899, the fiscal year of the Atlantic.

So therefore that it has cost the Wolverine eight cents to lay its refined copper down in New York, including construction, that the mine produced 4,800,000 pounds and the average price received was 17 1/4 cents per pound, or the mine netted 8 1/4 cents per pound, or a total of \$44,000, a little better than \$7 per share on its 6,000 shares of stock. This should give it a surplus June 30, 1900, of about \$48,000, after paying dividends the past year of \$4 per share or a total of \$240,000. The Wolverine management is talking of building a new stamp mill on the shore of Lake Superior, close to its proposed stamp mill for the Mohawk, also of building a new piece of railroad track from the mine to connect with the proposed railroad from the lake shore to the Mohawk mine. This construction of a new mill and railroad may cost at an outside figure \$180,000; if it should it would leave a surplus of about \$30,000, which is more than ample, as the mine has very little further outside construction. Then, too, with a modern mill and two up-to-date stamps, together with the necessary washing machinery, the mine not only will be enabled to increase its production from one-third to one-half of what it is now, but also to produce more than it is now, as the mine has very little further outside construction. Then, too, with a modern mill and two up-to-date stamps, together with the necessary washing machinery, the mine not only will be enabled to increase its production from one-third to one-half of what it is now, but also to produce more than it is now, as the mine has very little further outside construction.

MENTAL SITUATION STRONG. A most important feature of the copper situation, says the Boston News Bureau of Saturday, is the very large exports of the metal which America continues to send abroad.

For the first four months of this year we exported 59,994 tons of copper, against 39,422 tons for the same period in 1899, an increase of 52 per cent. During the same period our production was 89,299 tons, against 80,255 tons, an increase of only 11 per cent, and this notwithstanding that the April production of 24,957 tons was the largest for any one month in the history of the industry. It is very doubtful, however, if we can continue to send abroad 48 per cent of our production, as has been the case since Jan. 1. The tremendous demand for copper abroad explains much of the sustained strength of the metal at 16 1/2 to 17 cents, albeit there is a strong consumptive demand from domestic manufacturers and stockholders' hands are being urged to be light.

The decline from 18 cents has led certain consumers to hold off in expectation of a further softening in the price, but the demand is urgent and unless further weakness develops soon, these orders must come into the market. In the meantime scrap copper of every description is being utilized. The fact that many copper producers are sold into August at 17 cents means that this price, or a better, has been or will be received for an eight months' output, as against an average price of close to 16 cents received in 1899, and 12 cents in 1898.

ANENT THE MASS MILL SITE. The editor of the Ontonagon Herald, who can be quite tart at times, although no tartar, remarks with some asperity that the young man who looks

den, died suddenly of heart failure Friday evening. He had been a respected resident of Lake Linden more than a score of years and leaves a widow and seven children in comfortable circumstances.

V. V. Tuckey, the lower Michigan clothier, who opened a store in the Sheldon-Calverly block last winter, and who has been closing out his business since shortly after opening it, has set next Saturday as the final date for his retirement from the business circles of Portage Lake.

The opening of the new Douglass House can come none too soon for the relief of the traveling public. The average drummer without a pull or lacking the sagacity to engage rooms a week or two in advance is sometimes put to sore straits in finding a bed in either Houghton or Hancock.

Street rumor has planned an excursion to Detroit over the D. S. S. & A. railway on June 15. If enough applicants for tickets appear the railroad officials will probably help the rumor to materialize.

E. R. Penberthy has returned to Houghton after a year spent at Red Jacket in the management of the store of the Werten estate. The purchase of the business by Chicago parties let Mr. Penberthy out.

The ladies of the Portage Lake Congregational church will hold a bazaar at the church parlors next Friday evening at which suitable refreshments will be served and fancy work of all sorts exposed for sale.

The annual singfest of the Maennecher—"Lira" was held at Germania hall, Hancock, on Sunday. Members of the Calumet maennecher and their families were entertained with music, oratory and light refreshments.

Rev. A. J. Rezek of St. Ignace's church has gone to Chicago on business connected with the coming fair for the benefit of the building fund of the new church, the date for the opening of which is now set for the middle of June.

The Odd Fellows of Lake Linden, aided and abetted by visiting members of the order from other parts of the country, are preparing for a big celebration of the anniversary of the founding of the Manchester Unity on Saturday next.

Commencement exercises of St. Anne's academy, Lake Linden, are to be held at the opera house on Friday evening, June 22. An elaborate program including the usual cantata "Joseph's Bondage" is being prepared for the occasion.

Nearly three hundred tickets were sold for Ontonagon over the Copper Range railroad last Sunday. The management of the road is much pleased with the business done, as this was the first attempt at excursion business made by the new line.

The remains of William Kauffman, the watchman on the steamer Atee who was found Thursday, were buried at South Lake Linden on Sunday, from the residence of his brother-in-law, Superintendent C. H. Krause of the Arcadian stamp mill.

"Have You Seen Smith?" is the title of the farce comedy billed for next Tuesday evening at the Armory Opera House, Houghton. It is inferred from the title that the play belongs to the same class as "What Happened to Jones" and "Brown's in Town."

Michael Meyer, aged fifty-four, proprietor of the Eagle Hotel at Lake Linden, died suddenly of heart failure Friday evening. He had been a respected resident of Lake Linden more than a score of years and leaves a widow and seven children in comfortable circumstances.

A SAD HAPPENING.

A BOY AGED NINE YEARS DROWNED IN A TEST PIT YESTERDAY AFTERNOON.

Yesterday afternoon, as a number of boys were playing at the foot of a bluff back of the Cleveland-Cliffs engine house, one of their number, a lad aged nine years named Frank Allenen, son of Mike Allenen, who resides at No. 259 Division street, fell into a test pit in which there is about six feet of water, and was drowned before help could reach him.

LOST WAGON AND HARNESSES.

FOREST FIRE DESTROYED AN OUTFIT FROM THE ADOLPH LIVERY STABLE SUNDAY.

A fishing party which made Bass Lake its headquarters Sunday had a hard trip, which its members will be unwilling to repeat at an early date. A forest fire destroyed the spring wagon which the party used in getting to the fishing grounds, also the harnesses of the horses.

Bass Lake is located over twenty miles from here. It was impossible to haul the wagon very near its shores, so the horses were unhitched when quite a stage of the journey still remained and were led to the lake.

It whipped through the woods with unexpected speed, however, and consumed the wagon, the harness and other stuff taken along by the fishermen.

Two other parties which left on outing trips Saturday had unfortunate experiences. One party of young men bound for the Escanaba river had only covered a few miles of their road when an axle of their spring wagon broke.

The new golf links are about ready for use. There remains a little work to be done about the greens. The club members think that they will serve admirably and will be an appreciable improvement on the old grounds.

GIFT TO A PASTOR.

Once a year the members of St. George attend divine service at the Division street M. E. church on Sunday, the date of that observance this year, a goodly number of its members, accompanied by delegations from the Ishpeeming Trelawney and the Negaunee English Oak lodges, marched to Rev. S. Polkinghorn's church and took seats in the body of the edifice.

MANY ARE LEAVING.

Agent J. H. Malloy of the Northwestern road sent out a party of eighteen persons bound for Southampton, England, Sunday evening on the Chicago express. They sail this week. A large proportion of its members were Pines who will return to Finland, but there were a number of English born.

ISHPEEMING WON OUT.

The Ishpeeming base ball team succeeded in taking the Republic nine into camp Sunday by a score of 24 to 16. The game was interesting and closely fought. A large number witnessed it. About 100 people accompanied the Ishpeeming team and there was a generous amount of rooting. "Doc" Gourdeau and Sib Larson were a good battery for the Hematite city men and to their able work the victory is largely credited.

Don't overlook Braastad's bargain offerings. Big money saved on dry goods, clothing, shoes, etc., for this season.

ISHPEEMING IN BRIEF.

"Doc" Rodgers spent Sunday at Republic.

William Blackwood of Marquette was here yesterday.

A. L. Flewelling of Crystal Falls was here yesterday.

Fred Smith of Marquette visited Ishpeeming friends yesterday.

Hugh Sparks left the city on a business trip yesterday morning.

W. F. Tietz and C. S. Pollock of Marquette were Ishpeeming visitors yesterday.

Yesterday was an ideal spring day, it being warm without being uncomfortably hot.

D. H. Bacon of the Minnesota Iron company did business in Ishpeeming yesterday.

E. F. Bradt, superintendent of the Manila Iron company, was up from Iron Mountain yesterday.

W. J. Whitford has been down from the copper country the past few days visiting his family here.

Miss Amelia Oleott and Mrs. F. P. Tibson returned from a two day's visit in Duluth yesterday morning.

William Solgwick, Captain Thomas Waiters and C. P. Fichelman drove out to the Escanaba river Sunday.

The small structure opposite the Nelson House, which is occupied by a millinery store, was repainted yesterday.

The Chicago mail was an hour late in distribution yesterday morning, owing to a delay in the arrival of the express.

A crew of Postal Telegraph company employees worked on Division street yesterday. Two new wires were being strung.

T. J. Clifford directed the Marquette orchestra which played at the performance of "Pudd'nhead Wilson" Saturday evening.

The Donahoe block has been thoroughly cleaned out lately. Some new glass has been put in windows where there were broken panes.

Fred Tomsson left last evening for Chicago last evening to attend to business, the death of his mother, who had been ailing for some time.

Thomas R. Henry, advance man for "What Happened to Smith," was here yesterday arranging for a presentation of his show the evening of May 30. Paper was put out yesterday.

A pair of boys' pants, found in the postoffice last week, are being held pending the appearance of the person who forgot the package and walked off without it. They may be obtained by proving property.

The Northern Accident company paid out \$22 in settlement of claims here last week. The parties insured had received such minor injuries as the laceration or loss of fingers or toes which were sufficient to keep them from work.

The new golf links are about ready for use. There remains a little work to be done about the greens. The club members think that they will serve admirably and will be an appreciable improvement on the old grounds.

The L. S. & I. passenger service which has been inaugurated promises to be more popular than ever this season. The Sunday crowds for Presque Isle will certainly be large, and a couple of special excursions are already being figured on.

Saturday—for the first time in their history, it is said—the Lake Superior and Pittsburg & Lake Angeline iron companies settled their monthly pay roll on the same day. As a result, business was unusually lively and some of the stores were kept open until a late hour in the evening.

J. M. Hayden, manager for I. E. Swift & Co., wishes to state that F. H. Nickerson will retain charge of the company's mine supply business in the copper country, which has grown to very large proportions under his supervision and direction. Arthur Eganons will have charge of the shaft hardware in the proposed Houghton branch.

The Catholic dramatic club has engaged the Ishpeeming Opera House for the evenings of May 31 and June 1, when the club's latest drama, "Lynwood," will be produced. Rehearsals have proceeded very satisfactorily and as there has been plenty of time which to prepare the piece it will doubtless be given a finished presentation.

The aldermen held their first session as a board of review, for the purpose of examining and reviewing the assessment roll prepared by City Assessor J. H. Quinn for the year 1900, at the council chamber today. The second session, which is more particularly meant for the public, will be held next Monday and the aldermen will assemble on as many subsequent days as is necessary to complete their work.

Saturday a hand car on which a man, woman and child were riding left an open switch near the Winthrop Junction, throwing the passengers on the track. A doctor was summoned from the city by some excited person but when he reached the scene of the accident the car was disappearing from his sight, it having been placed on the track by the injured victims who continued their journey without much delay.

Friends of a well-known Ishpeeming gentleman accuse him of forgetting his fishing rod and leaving it in a seat of a railroad coach at Summit when he left the train to seek a retired stream in search of fluky prey. He acknowledges forgetting the rod but insists that he had turned back to the train to get it when a friend of his appeared with it and roared him for his thoughtlessness. He sticks to his own story and refuses to "set 'em up."

Six drunk and disorderly persons have been arrested during the last couple of days, the list including one woman. There has been much drinking, apparently more than the usual amount consequent on the monthly pay.

Inebriated men have been quite numerous about the street. Yesterday afternoon Marshal Farm ran, in a fellow who hit another man in the head with a beer glass, inflicting bad gashes. Both fellows were drinking in a down town resort.

Head Consul W. A. Northcott will be at Ishpeeming Woodmen's day, June 25. Don't miss the big show. (5-22-14)

COPPER COUNTRY NEWS.

(Continued from Page Three.)

Ogima. Nelson Stratton, of the Atlantic mine school, has been engaged to take Mrs. Mason's place at the head of the Champion school.

No formal celebration of Memorial Day will be held at either of the Portage Lake towns this year, owing to the dedication of the Soldiers' monument at Lakeview cemetery, Calumet, which will be attended by E. R. Stiles post of the G. A. R. Squads will be detailed to decorate the graves of soldiers of the Civil and Spanish war at both Houghton and Hancock.

Editor Mackenzie of the Calumet News, who has recently given evidences of progress and prosperity by installing linotypes and a perfecting press, will complete the new building for his paper this season, only the basement having been built last season. Mr. Mackenzie is undecided as to the character of structure to be erected, but will probably erect a solid stone building.

The success of the Houghton street fair is now assured. "Wid' Thompson has given his solemn word of honor that he will hold forth in a booth located at the exact geographical center of the fair and General Agent Beahan of the Copper Range having kindly consented to look after the golf tournament which it has been suggested holding on the Frog Pool links during the week of the fair.

The Michigan Grantold Paving company, which made an excellent beginning last season by putting in the first good cement sidewalks ever built in the Portage Lake towns, now has a competitor in the person of Lewis Hopkins of Chicago, who claims fifteen years' experience in the line of cement sidewalk construction and who has already secured several large contracts in Houghton and Hancock.

Hon. F. C. Chamberlain of Ironwood called on copper country acquaintances Saturday and Sunday. The Tall Pine of the Gogebic failed to connect with the anticipated office in Hawaii, but is advised to be of good cheer and not to lose heart. The present policy of expansion may yet lead to the benevolent assimilation of some coral islet in the far southern seas where an altitudinous statesman will be imperatively demanded.

Mrs. Louis Miller of Negaunee is canvassing the business communities of the copper district for advertising to go in the official program to be issued by the officers of the Upper Peninsula Firemen's association. The committee at Red Jacket in charge of the local end of the tournament had also arranged for a program, so there are liable to be two "official" prospectuses and schedules of the big event which is slated to take place at Calumet early in August.

The Finnish trammers who struck at the Quincy mine two weeks ago did a wise thing, just before the strike was settled, in securing an interpreter from the Finnish college. Their statements were not garbled in translation and no attempt was made by the translator to sandbag either party to the controversy. During a strike at the Atlantic mine three years ago, a translator was secured who played fast and loose with both parties. Upon the discovery of his duplicity it was necessary to call in the sheriff and a force of deputies to get the man safely out of the location, as the attentions of his countrymen were becoming quite pressing and their language toward him was more forcible than parliamentary.

"OF A GOOD BEGINNING cometh a good end." When you take Hood's Sarsaparilla to purify your blood you are making a good beginning, and the good end will be health and happiness. It never disappoints.

Sick headache is cured by Hood's Pills, 25c.

Now is the time to buy spring goods at Braastad's. An extra reduction in prices has been made in dry goods, clothing, shoes, neckwear, etc.

A harmless fire.—Burning Winecke & Doerr's Chancellor.

Snags are numerous at Braastad's. Bargains in all departments.

NOTICE TO CONTRACTORS.

Sealed bids will be received until 12 o'clock noon of June 1, 1900, by William Sedgwick, secretary of the Ishpeeming school board, for the building of a manual training school; also for a frame school house (separate bids on each).

Plans and specifications, with instructions, can be seen by applying to Mr. Sedgwick, or at the architects' offices. The right to reject any or all bids is reserved.

Charlton, Gilbert & Demar, architects, Marquette, Mich., Hancock, Mich., Milwaukee, Wis. (6-21-5)

In and About Negaunee.

SIX MINOR OFFENDERS. LOCAL LAZARONS.

THEY SETTLED THEIR PAY DAY SCORES IN POLICE COURTS YESTERDAY MORNING.

As a result of two days hilarity consequent on the monthly pay at Negaunee mines, there were five men in lock at the city lockup yesterday morning charged with breaches of the peace in being drunk and disorderly. A sixth had violated the bicycle ordinance by riding after dark without a light.

These offenders were brought into Negaunee police courts where they paid the usual fines and costs and were dismissed with an injunction to behave better in the future. Attention is called to the arrest for a violation of the ordinance regulating bicycle riding as an evidence that the police officers intend to see that the rights of pedestrians and other persons who use the public thoroughfare are respected.

Wheelmen are once more warned to provide their mounts with bells, a light when riding after dark, and to refrain from scorching or coasting in and about the city.

CASCADE IS LIVELY.

THE VOLUNTEER STAR WEST AND MOORE MINES ARE SHIPPING QUITE HEAVILY.

Palmer and the Cascade range are very lively this spring. The Volunteer mine is working a large force of men, the Star West property, controlled by Corrigan, McKinney & Co. of Cleveland, about 125 men, while the Moore property is gradually increasing its force, which will soon be quite large.

The Volunteer mine is shipping a nice tonnage of ore, and everything about the property looks promising. The Star West's product is about twenty-five carloads daily, while the Mesaba Friend is now sending out from six to ten carloads of ore each day. The location at Palmer is very lively. In a few months it has grown from a sleepy hamlet to a very lively little town.

THE NEXT VICE PRESIDENT.

This is the question now agitating the minds of our leading politicians, and while several prominent men have been suggested, the final selection will undoubtedly be the man who will serve the party interests to the best advantage.

This is also true of medicine. When your stomach becomes weak and you suffer from dyspepsia, indigestion, constipation and flatulency or when in need of a medicine to build up your system or restore your appetite, you will make no mistake if you try that sovereign remedy, Hostetter's Stomach Bitters. It is backed up by fifty years of cure, and is recommended by many prominent physicians. It is also an excellent medicine for malaria, fever and ague, and can be had of any druggist. Be sure to give it a trial.

TRY GRAIN-O! TRY GRAIN-O!
Ask your grocer today to show you a package of Grain-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. Grain-O is made from pure grains, and the most delicate stomach receives it without distress. 1/4 the price of coffee, 15c, and 25c per package. Sold by all grocers. Be sure it is made by the Ganssee Pure Food Co., Le Roy, N. Y., as there are imitations on the market.

SHAKE INTO YOUR SHOES Allen's Foot-Ease, a powder. It cures painful, smarting, swollen feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest corn discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it today. Sold by all druggists and shoe stores. By mail for 25c. In stamps. Trial package free. Address, Allen S. Olmsted, Le Roy, N. Y.

Shoes, clothing, neckwear, dry goods, carpets, rugs, beds, etc., going for less than cost at Braastad's.

J. Q. Hood, Justice of the Peace, Crosby, Miss., makes the following statement: "I can certify that One Minute Cough Cure will do all that is claimed for it. My wife could not get her breath and the first dose of it relieved her. It has also benefited my whole family." It acts immediately and cures coughs, colds, croup, bronchitis, croup, asthma and all throat and lung troubles.

Sound advice to those who have kidney and bladder troubles, is to take a safe, sure medicine like Foley's Kidney Cure. It always benefits the kidneys. The Stafford Drug Co.

After suffering from severe dyspepsia over twelve years and using many remedies without permanent good I finally took Kodol Dyspepsia Cure. It did me so much good I recommend it to everyone." writes J. E. Watkins, Clerk and Recorder, Chillicothe, Mo. It digests what you eat.

All the healing, balsamic virtues of the Norway pine are concentrated in Dr. Wood's Norway Pine Syrup, nature's own remedy for coughs and colds.

"DeWitt's Little Early Risers are the finest pills I ever used."—D. J. Moore, Millbrook, Ala. They quickly cure all liver and bowel troubles.

Upper Peninsula News.

Citizens of DeTour think that place is more attractive than Mackinac Island and are now looking for a capitalist to give it fame and himself wealth by building a summer resort hotel.

It has been discovered that quicksand underlies the site of the new federal building which is to be erected at Menominee. It is now feared that the foundation will absorb the greater part of the appropriation.

The Chicago, Milwaukee & St. Paul road brought 2,522 carloads of loss to Menominee last winter, and an equal amount into Marinette. The Menominee log shipments were 13,570,000 feet. During the winter three log trains were in the service. This summer logs will be shipped to Menominee for the Bay Shore Lumber company, A. W. Clark Lumber company, A. Spies, John Schroeder Lumber company and others.

The Michigan state land department officials state that the high price of lumber has caused lumbermen to trespass on state lands to a great extent during the past few months, and it is estimated that \$500,000 worth of timber has been cut on state lands since last September. Many of the forest fires which have done great damage are believed by these officials to have been caused by lumbermen who are endeavoring to cover up their trespasses.

At the last meeting of the Mackinac Island Park commissioners a franchise was given a company to put in a system of water works. A reservoir will be erected on the Fort Holmes table land. A clause in the franchise requires the work to begin within sixty days. The original franchise has a life of fifteen years and there is a proviso that if the service is satisfactory the holders will be given fifteen years additional. The commission found that it had about \$3,000 on hand and voted to expend the money in improvements in and about the island.

An amusing story is told in connection with the recent conflagration at Fisher. A man had planted a garden there and some of the staff had begun to come up. When he saw that the place was doomed he set to work and picked up all the tiny plants and seeds he could reach, packed them into boxes and shipped them to Menominee to transplant them. The value of the lot nearly worth the labor of digging them up, and his exertions would have been of more value had he tried to save some of the property in danger, but he was probably one of those who look out for No. 1 every time.

An association is being formed by the various Knights Templar commanderies of the upper peninsula for the purpose of holding an annual convolve in each of their home cities in rotation. Captain General O. E. Fuller of Ford River, who is a member of the Escanaba commandery, is at the head of the movement, which is meeting with general favor from all those interested. Eight commanderies will be included in the association, as follows: Marinette, Menominee, Escanaba, Ironwood, Sault Ste. Marie, Lake Superior of Marquette, Montrose of Calumet and Hugh McCarty of Crystal Falls. Although at present the association is just being perfected, Mr. Fuller says there is little doubt but that the organization will be concluded before the end of the present month, and in time to have the first convolve in June or July.

A reporter for The Crystal Falls Diamond Drill interviewed six of the eleven assessing officers of Iron county during the past week to learn their disposition in regard to obeying the new tax requirements and found that they intend to obey the law to the letter and that every cent's worth of property in the township of Crystal Falls, city of Crystal Falls, townships of Mastodon and Mansfield will go on the rolls at its true cash value as far as the assessing officer is able to discern. The visit of Attorney R. C. Flannigan to Crystal Falls has had as much to do with putting these values up as anything else. Mr. Flannigan didn't go there for that purpose but he had talks with several of the supervisors and with the representatives of the mining companies and he told them his idea of what he thought should be done, what the supervisors are doing in Dickinson county and what he thought it was his opinion that if the supervisors of Iron county didn't do likewise they would "hear something drop." Mr. Flannigan is attorney for almost all of the mining companies and he gave them a good, stiff talk, with the result of getting their approval of the "raising" proposition and then the thing was easy. A conference of several supervisors was held at Crystal Falls Tuesday evening and a basis of action arrived at and as a result at least \$4,000,000 will be added to the valuation of Iron county this year.

PREVENTED A TRAGEDY.

Timely information given Mrs. George Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed. Trial bottles free at The Stafford Drug Co.

CURED A RUNNING SORE.

"I had a bad running sore on my breast for over a year," says Henry H. Richards of Willsborough, N. Y., "and tried a great many remedies, but got no relief until I used Banner Salve. After using one half box I was perfectly cured. I cannot recommend it too highly, and will never be without it in the house." The Stafford Drug Co.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body. I am very grateful." Miss Julia Fulbridge, West Cornwall, Conn.

Kodol Dyspepsia Cure
Digests what you eat.

It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps and all other results of imperfect digestion. Each bottle contains 8 1/2 ounces. Prepared by E. C. DeWitt & Co., Chicago-Stafford Drug Co.

FRANK DOLLAR'S SUIT.

Action Against the City for Ten Thousand Dollars' Damage Begun Yesterday.

COURT ADJOURNS TO ALLOW DOCTORS TO EXAMINE HIM.

Complainant Gets in All His Evidence Except Medical Testimony—He Claims to Have Been Injured by a Defective Sidewalk.

CHARTER PROVISION KNOCKED OUT.

Yesterday was another one case day in circuit court, the only thing coming to the attention of the court being the \$10,000 damage suit brought by Frank Dollar against the city of Marquette for injuries alleged to have been received by a defective sidewalk on Champion street.

The case began at the opening of court, 9 o'clock, and was pushed along rapidly till 3:30 when court adjourned. By that time all the evidence for the complainant had been put in with the exception of expert medical testimony. Dollar was the principal witness in his own behalf, and described the accident and the suffering he has undergone since on account of it.

DOCTORS EXAMINE HIM.

There will be expert medical testimony presented by both sides. By stipulation between the attorneys the complainant underwent a medical examination yesterday afternoon after the court had concluded its sitting. The examination was conducted by Drs. Youngquist, Laska, Linn and O'Fallon, the latter representing Dollar.

The doctors will take the stand this morning and give their opinions of the injury and the extent of it. How long this will take is hard to conjecture. As this will be the last of the evidence for the city will be ready to go ahead and put in their evidence for the defense.

The Dollar case is the first damage suit which has been filed against the city for some years and has excited considerable interest, not only because of the fact that it is the first of its kind in a test of one of the provisions of the city charter.

CHARTER DIDN'T STAND.

The provision referred to is one which requires a claimant for damages to come before the council and make a case before that body, giving it an opportunity either to allow or disallow the claim before going into court with it. Dollar came before a committee of the council appointed to take testimony, but refused to allow an examination of his injuries at least such an examination as the council desired to have the city physician make.

The meeting broke up rather unsatisfactorily and Mr. Dollar and his attorneys took the case into court, where they were beaten by the city on the ground that they should have exhausted their resources under the charter before going into court. From this decision they took an appeal. The supreme court upheld them in their contention and decreed that the lower court should try the case on its merits without coming to the council, and seek further redress at the hands of the council. The case is now in court for the first time on its merits. At the first trial no evidence was introduced.

DAY OF DECLINE.

Such Was Yesterday In Both Copper and Grain Markets.

Yesterday was a downward day in every market. In Boston the coppers were off and in Chicago the grains suffered, the latter more than the metal stocks. None of the stocks on the Boston board which moved so much as a point gained.

Arcturian fell off 1/4 from Saturday to 17 1/2; Anaconda dropped one to 42; the loss on Boston & Montana was four and on Butte & Boston two, the closes being respectively 22 and 64; Isle Royale dropped 1 1/2 to 24; Tamarack fell one to 17; White Knob dropped one to 15.

Paine, Webber & Co. said in yesterday's letter to the local house: "Coppers opened firm, up 10c, for spot and 2c, 6d, for futures; closed strong, up 7c, 6d, for spot and 10c, for futures. The stock market has been very quiet and up to noon but 1:30 listed shares changed hands, the most active being Baltic, Osceola, Parrott and Bingham. During the afternoon the market continued very dull and prices were a trifle weaker."

Hayden, Stone & Co. said in yesterday's letter: "Coppers had a fair recovery in London today but there was no demand for stock here. Rumor has it that the Calumet sale was at 15 cents. It is almost impossible to get the public interested. The only stock we feel bullish on is Centennial Eureka, cheap even at \$50 per share."

Both wheat and corn were down, the latter badly off. After a strong and higher opening wheat closed 3/4 under Saturday at 66 1/2. Corn, which opened at Saturday's closing figure, dropped 1/4 and finished at 36 1/2. A. R. Jones & Co. said in their daily letter to Fred Jones:

"The wheat market has been a peculiar one today. It got favoring news from every side, opened strong, held it strong and went higher, held its advance and strength till the session was two-thirds done, then went to pieces with a smash that surprised everyone. From an early high price of 67 1/2, the break carried it back an even cent to 66 1/2, and even at this price there was less support than before the break commenced. Final figures were 3/4 over bottom and sellers at that. The only explanation offered for this was a very weak corn market and the wheat trade being so largely local, all support was withdrawn, the instant a round lot was offered. There is no change in the bullish advices from the country; in fact, no change anywhere except in the minds of local traders. A message from Duluth this afternoon says indications are for rain before morning. Considering the nature of this decline, it ought to be recovered easily and quickly, but the outlook is not good for tomorrow. Cables are weaker and will likely show weaker still in the morning, but further recessions will offer up-

ward chances for investments, as the bull movement is far from over."

MUTUAL BENEFIT SOCIETIES.

Do They Have to Pay a Tax on Monies on Deposit in Banks?

The officers of the St. Jean Baptiste society have applied to the city attorney for a tax ruling in their case. What they want to know is whether or not the society is obliged under the tax law to pay a tax upon what money it may have on deposit in banks. Their contention is that it is not an insurance organization in the guise of a fraternity but is purely a mutual benefit organization. On the strength of this they hope to escape the tax.

Tax blanks were sent to fraternal societies as well as to individuals who were supposed to have money in the bank or out at interest on mortgages. All blanks are supposed to be in the hands of the city controller by today.

CERTIFICATE OF ERROR.

Auditor General Intervenes in a Local Tax Title Scrap.

M. I. A. NOTES.

The dandelion it hath full sway. As if there were no M. I. A. "Blossom", the Marquette people say. And come again another day.

One of the best of the many magazines devoted to horticulture, is published in Ohio. In the May number there appears an extremely interesting article on the improvement of Thomasville, Ga., since the organization of the Thomasville Improvement association. In the editorial comment on this article, the statement is made, that "A wave of beauty is about to strike the American shore. This wave will carry away all the tin cans and heaps of garbage, all the untidy, unpainted, and too-often-unnecessary old out buildings, and it will leave the ground free for trees, flowers and sunshine. A most wholesome civic pride is at the bottom of this movement." Marquette congratulates herself, that the aforesaid wave began to lap the shores of this region some time ago. It is still rolling in, gathering in volume, and the "civic pride" mentioned is growing among her people day by day.

Thomasville, Ga., claims a population of about 5,000 souls and the Thomasville Improvement association, which is very largely responsible for the cleanliness of the streets, was organized by a northern gentleman, who "the year before" from his section, feel an all-the-year-round interest in the city which is his winter home." Since the T. I. A. has been in existence, many notable persons have visited Thomasville and have contributed trees, shrubs and plants for special places in the town, among them President and Mrs. McKinley, after their visit there last winter, a magnificent camellia tree. Thrifty young magnolias, each marked with the name of an individual, probably the giver of the tree; roses, presented by women visitors, blossom everywhere and beautiful shrubs from home gardens have been sent in generous quantities to Thomasville, by their winter visitors, to adorn the public places.

"Enough money has been raised to warrant the purchase of a handsome fountain, to be placed in the public square, all covered with flowers, bordered with Russian and California violets, which the children of the town are allowed to gather freely." This sounds entrancing. We in Marquette cannot have flowers blooming all the year round, "flowers in bloom every day in the year" is the exact quotation. We have a long winter, and we cannot have magnolias and camellias. But there are plenty of hardy trees and shrubs to be obtained which will grow vigorously in our sandy soil and northern climate. We would like to see such an interest shown in our town, by our summer visitors, as these winter sojourners take, in their favorite resort in the south.

In this same article on the M. I. A. is mentioned the "little tidy cart". It was said that the negro population and shiftless white people of the vicinity of Thomasville would not become interested, and that in spite of all exhortation to the contrary, the melon rinds in their season, and cane peellings in theirs, with boxes, papers, tin cans, etc. were sure to be thrown into the streets as always before. But the cart was bought. It was put upon the street. There was laughter. No doubt there will be laughter in Marquette when the M. I. A. carts appear shortly. In Thomasville, as in Marquette, the city officials were in sympathy with the improvement association, and today that little town in Georgia is a model of fine order and beauty, a favorite resort of northern people, "while larger towns within a hundred miles of it are noted for piles of oyster shells, weeds, conglomeration of rubbish swept from stores and dumped in the most convenient spots, and the places thus rendered unpleasant by filth and marred by untidiness.

Marquette is twice the size of Thomasville. She aspires to grow into popularity as a summer resort. Let her follow the example of her ambitious little southern sister town.
