BOERS VOTING ON IT.

Whether to Quit the War is Left to the Fighting Men.

ROBERTS' INFANTRY HALTS

Rhenoster River Unfordable and Bridge Must Be Built—Buller Still Facing Laing's Nek.

PLAGUE DEATH AT DURBAN

London, Friday, May 25.—4:30 a. m.—Lord Roberts' infantry advance is delayed at the Rhenoster river for a day or two by the depth of the stream, which is not fordable. The banks, which are precipitous, are forty feet high. Pontoon and temporary bridge constructions are under way.

The railway has not been damaged to any great extent between Kroonstad and the Rhenoster. The Transvaalers have offended the Free Staters by destroying their splendid bridges when retreating to Kroonstad. They were refrained from doing this on the retreat to the Rhenoster, but now are destroying the railroad and bridges almost completely north of the Rhenoster.

TROOPS COVER WIDE AREA.

The British troops are in the form of a crescent, with the horns thirty miles apart and with General French's cavalry on the left within twenty-three miles of the Vaal and Ian Hamilton's mounted men on the right within thirty miles of the Vaal. The center of the crescent is about forty miles from the Vaal. Seventy or eighty miles to the left Lord Methuen is advancing up the Vaal. Boer telegrams say that three thousand British, with ten guns, are near Vredefort, which is close to the Vaal and near Pary's.

One correspondent refers to the advance as "the Boer hunt" and another describes it as a "Boer hunt" and the Free Staters are pictured as "bolting like hares" at the first sight of the British. The latter, according to one writer, do not even find women and children, as the fleeing farmers take their families with them in consequence of retreating through the British kidnap all the children over twelve years of age.

REAR GUARD RUSSIANS.

The Boer rear guard was composed of Russians, to whom was committed the task of destroying the bridges. They also looted freely.

What the Boers are doing is an absolute mystery. The embargo of news out of Pretoria for the last twenty-four hours has been complete. Such shreds of information as the correspondents at Lourenzo Marques have picked up do not illuminate the Boer designs and dispositions further than that the movement toward Lydenburg continues and that a referendum on the question of continuing the war is going on among the Boer fighting men. It may be a fortnight before the results of the referendum are known by the Transvaal government. If the English view of the Boer discouragement is one-half right, the Boers will vote to quit.

SITUATION IN NATAL.

In Natal, General Darnell's volunteers occupied Mount Prospect Monday. Lord Dundonald's cavalry is at Firmstones, near Ingogo. His infantry rests at Schoonshoote. These names are all of fateful memory in the first Boer war. The British force Laing's Nek, where the Boers, through the range glasses of the British, are occasionally visible. In the march across the Biggarsberg all farms except one were found vacant.

Earl Delaware, who was supposed to have been captured at the disaster that befell a squadron of General Buller's Horse, contrived to escape. He lay all night with a wounded leg behind an ant-heap, reaching camp the next day.

MAKING GETTING FOOD.

As the railway is now open north of Mafeking, an abundance of provisions is entering the town. There is plenty of flour and meat and a few luxuries. Telegraph messages will probably come from Mafeking direct over the northern route in a day or two.

South Africa has another affliction. An extraordinary issue of the Gazette at Durban announces the death of an East Indian from the bubonic plague. The government has put into force most stringent preventive measures, but fears are expressed the pestilence may get among the troops.

The Transvaal National bank has suspended gold payments, under authorization from the government, requiring the acceptance of bank notes. The institution has large assets, apparently in London.

ENGLISH ELECTIONS SOON.

The Birmingham Argus, which keeps in pretty close touch with the colonial office, says: "We understand that a general election will be ordered as soon as Lord Roberts obtains additional success. The government will ask the country what it wishes to do with the conquered republics."

The Lourenzo Marques correspondent of The Times, telegraphing Wednesday, says: "According to a private letter

smuggled through from Pretoria, President Kruger now favors surrender, on the ground that the continuance of the war would ruin the property of the burghers. Civilian prisoners released at Pretoria report extraordinary activity during the last two weeks on the railway from Pretoria to Pietersburg. As many as twenty trains are running daily, and it is possible a large portion of them have been used to move the supplies northward for safety."

THIS VIEW DIFFERENT.

Contrary to President Kruger's alleged turn for peace, as mentioned in the above dispatch, a message from Cape Town says that "it is announced here that President Kruger has issued a proclamation saying he will defend

Johannesburg and calling upon all the Boers to fight to the bitter end." The Daily Express continues its alleged exposures of Dr. Leyds' use of the Transvaal secret service fund. The paper's Brussels correspondent asserts that numerous continental newspapers have been bribed to the extent of from £20 to £25 a week.

BULLER POSTING GUNS.

HIS ARMY RESTING ON HISTORIC GROUND NEAR LAING'S NEK.

Boer Camp, Volksrust, Tuesday, May 22.—The British crossed the Buffalo river and were within sight of our position.

(Continued from Page Four.)

BRITISH EMPIRE REJOICES.

Anniversary of the Queen's Birth Made the Occasion of Patriotic Demonstrations Throughout Her Majesty's Dominions.

London, May 24.—Under stimulus of the relief of Mafeking and Lord Roberts' rapid and successful progress, the queen's birthday has been celebrated throughout the empire with almost unprecedented rejoicings.

The two-fold nature of the celebrations gave the occasion unusual brilliancy. The recent demonstrations only whetted the public appetite for displays of patriotic feelings, and consequently today was chosen for all kinds of functions in connection with the war and its funds.

In London and in the principal towns were patriotic demonstrations, every private house was decorated with miniature union jacks and a picturesque carnival procession a mile long of cars

emblematic of the war paraded the northern suburbs of London. Torch light processions, reviews in the garrison towns, etc., were witnessed throughout the country. The school children had a holiday, and at most places there was a partial suspension of business. The west end of London tonight is brilliantly illuminated and thousands are crowding the streets, wearing patriotic favors.

In the house of commons tonight the government leader, A. J. Balfour, announced that Lord Salisbury would consider the proposal to appoint a national thanksgiving day, with a suitable form of prayer, in acknowledgment of God's vouchsafing victory to British arms.

JEFFRIES AND SHARKEY MATCHED.

TO FIGHT AUGUST 25 BEFORE CLUB OFFERING BIGGEST PURSE.

New York, May 24.—Jim Jeffries and Tom Sharkey were matched today to fight on Aug. 25 before the club offering the best purse.

MUST SHOW PLAGUE EXISTS.

FRISCO BOARD OF HEALTH IS SERVED WITH JUDICIAL ORDER.

San Francisco, May 24.—Judge Morrow today issued an order directing the board of health to show cause why injunctions should not be granted restraining that body from interfering with the freedom and liberties of the Chinese in this city and those desiring to leave it. It is expected that the proceedings commenced today will show conclusively whether or not the disease is present in this city.

DEMAND FILIPINO WAR CEASE.

ANTI-IMPERIALISTS HOLD FORTH IN COOPER UNION, GOTHAM.

New York, May 24.—A mass meeting to advocate "an American policy in the Philippines" was held tonight in Cooper Union under auspices of the Anti-Imperialist League of New York. Ernest H. Crosby presided. The speakers were George S. Boutwell of Massachusetts, Carl Schurz and others. The resolutions adopted declare that "it is the plain duty of the American people to stop the bloody war against the Philippines, to recognize their right and title to freedom and independence on the same basis on which we have recognized the right of the Cubans, and to withdraw our armed forces from the islands as soon as they may no longer be needed to assist and protect the people thereof in setting up and maintaining an independent government."

BULLETS FLY AT ST. LOUIS.

THREE MEN WOUNDED IN A STRIKE PRACAS LAST NIGHT.

St. Louis, May 4.—The day was absolutely without incident, except, perhaps, that more cars were run than any day since the strike was started.

At nine o'clock, however, a car, presumably filled with imported men, left the Union station for the railway sheds in the western section of the city. At Park and Compton avenues it was stopped by a big mob of strike sympathizers, who made a hostile demonstration.

Fragmentary accounts received by telephone are to the effect that as soon as the car halted those on board opened fire on the crowd. John Sharding, a striking motorman, was hit by a bullet and probably fatally wounded. Donald Watts, another striking motorman, received a serious bullet wound and a bystander, name unknown, was slightly wounded.

EVANS NOT A QUITTER.

PENSION COMMISSIONER HAS NO INTENTION OF RESIGNING.

Washington, May 24.—Enemies of Pension Commissioner Evans are moving heaven and earth to create the impression that President McKinley and the party managers are afraid the commissioner will be a heavy burden to carry from a Grand Army point of view, through the campaign, or in other words, that to retain him as commissioner of pensions would be at the cost of many G. A. R. votes. To this end they have from time to time caused stories to be printed that Mr. Evans was to resign or to be transferred to another post.

Such is the foundation for the story printed in a Philadelphia paper this morning that Mr. Evans was soon to

FAIL FOR \$13,000,000.

Price, McCormick & Co., New York Brokers, Suspend.

LONG ON FALLING COTTON.

This Market Panic-Stricken on the News and the Stock Exchange: Also Is Sharply Affected.

BRANCHES IN MANY CITIES.

New York, May 24.—Price, McCormick & Co., one of the largest brokerage houses in the city, failed today with liabilities estimated at thirteen million dollars.

The firm is a member of the stock, cotton and produce exchanges and the Chicago stock exchange and has branch offices in about thirty cities throughout the United States.

The failure is ascribed to the fact that the firm was long on cotton in the face of fast falling markets.

The notice on the door of the offices of the company referred all inquirers to William J. Curtis and William N. Cromwell, assignees. Mr. Cromwell said late this afternoon that it was impossible to make any statement at this hour concerning the condition of the firm; that its business is very extended, and covers several branch agencies. The total of the liabilities, he said, is about thirteen million dollars, nearly all of which is secured.

SCHLEY'S SON-IN-LAW PARTNER.

The firm is composed of Theodore H. Price, William G. McCormick, R. M. Stewart Wortley and Walter W. Price, with George Crocker of San Francisco as special partner on an investment of half a million dollars. Mr. McCormick is of the well-known Chicago family of agricultural implement fame and Stewart Wortley is a son-in-law of Rear Admiral Schley. The firm was organized Jan. 2, 1897.

Following the announcement of the failure the cotton market became panic-stricken and broke ten to thirteen points. The extent of the decline from the highest price when the bull movement culminated has been 122 points. Later in the session today the market became more quiet but continued to show a weak undertone on the generally very favorable crop accounts.

While the firm was also a member of the produce exchange, the effect of the failure there was almost wholly sentimental.

FORCED SALE OF STOCKS.

According to the rule of the stock exchange, the announcement of the failure was followed by the closing out of the suspended firm's outstanding contracts on the floor of the exchange. Up to the close the dealings for the firm's account footed up 32,959 shares. The assignees make the following announcement regarding the failure: "Price, McCormick & Co. have been compelled to temporarily suspend payment. We ask and advise that the creditors holding stocks, bonds and other collateral to loans and already well margined hold the loans until reasonable opportunity be afforded the assignees to deal with the same, that the necessary loss thereby may be avoided."

Price, McCormick & Co. had an extensive wire service and at times were credited with doing fully as large a business as any firm on the exchange.

FAILURE AFFECTS WALL STREET.

CLOSING UP OF PRICE, MCCORMICK & CO'S ACCOUNTS THE FEATURE OF THE TRADING.

New York, May 24.—Interest was still further restricted in the stock market today and the market had fallen near stagnation when preliminary symptoms began to appear of distress on the part of some speculative interests, who sold off sharply on a larger volume of dealings than for some time past. This was explained soon after noon by the announcement of the suspension of Price, McCormick & Co. The rest of the day was practically devoted to the closing out of the outstanding contracts of the suspended firm, other operations being almost entirely given over.

The dealings for the firm's account footed up nearly 34,000 shares for the close. A heavy outstanding short account was in evidence in the settlement, and the movement of prices resulting was exceedingly confused and irregular. In many stocks for which there was little market the forced sales caused some sharp declines, and the active railroad list was at one time from 1 to 2 points from the best. There were decided recoveries from the lowest prices and the closing, while almost stagnant, showed the net losses in the railroads generally reduced to fractions.

Sugar continued the most active stock in the market and moved in a feverish and erratic manner all day. The steel stocks were depressed by the rather discouraging view expressed by Iron Age of the prospects in the trade, that authority advising a sharp curtailment in production.

Closing prices were as follows, Palmé, Webber & Co. supplying the figures: Am. Zinc, 12@15; U. S. Oil, 15 1/2@16;

First National Bank OF MARQUETTE. Capital \$150,000 Surplus Fund \$50,000. PETER WHITE, President. E. F. FOWLER, Vice-President. J. G. RYAN, Cashier. EDW. S. BICE, Asst. Cashier.

THE MARQUETTE COUNTY SAVINGS BANK, MARQUETTE, MICH. Capital Paid In \$100,000 Surplus \$10,000. Receives Deposits in sums from \$1 upward. Loans money on real estate and other approved securities.

Personal. If you are constipated and troubled with indigestion, nervousness, headache, dizziness or foot breaks, we recommend as the best remedy we know of a little pill called Green Mountain Pearls. We guarantee that they will relieve you, and they won't grip. We sell a box of forty for 25 cents.

CHEAP LAND! The Michigan Land and Iron Company (Limited) of Marquette, Mich., will sell about 17,000 acres of land in the townships of Humboldt and Republic, being parts of townships 42 and 43, and range 42 for \$125 an acre, including the mineral right.

NERVITA PILLS Restore Vitality, Lost Vigor and Manhood. Cure Impotency, Night Emissions, Loss of Memory, all wasting diseases, all effects of overwork, excess and indigestion. A nerve tonic and blood purifier. Brings the pink glow to pale cheeks and restores the fire of youth. By mail \$2.50 per box, 6 boxes for \$12.50, with our bankable guarantee to cure or refund the money paid. Send for circular and copy of our bankable guarantee bond.

Entered as mail matter of the second class in the postoffice at Marquette, Mich. Kentucky's deposed governor is afraid the Democrats will kidnap him. After having had them rob him of his office in the high-handed way they did, he is not to be blamed for entertaining a poor opinion of their honesty.

The Daily Mining Gazette of Houghton has passed under a new management, with F. A. Vennay looking after the business end of the concern and Mr. C. H. Kelsey, lately in charge of The Mining Journal's copper country department, holding down the editorial chair. The combination is a strong one and the Mining Journal wishes it a large measure of success in the conduct of Houghton's new daily.

Mrs. Dewey has reached the conclusion that she doesn't want her husband to be president. The admiral's wife is in complete accord with the bulk of the American people on that point. They feel just as she does about it. As for the admiral himself, if his wife doesn't want him to be president, and the people don't either, he might as well resign himself to getting along without the office and content himself with the good things the gods have sent him.

Wm. E. Curtis informs the public through his Washington letter in Wednesday's number of the Chicago Record that "the credentials which Senator Clark presented to the senate from the lieutenant-governor of Montana bear evidence to sustain the theory that the appointment was the result of a conspiracy. The body of the document is written with a typewriter; the date is filled in with pen and ink, and it was evidently prepared in Washington and sent to Helena ready to be used when the opportunity offered."

DEMOCRATIC BRYAN WORSHIP. Allen W. Thurman of Ohio openly charges John R. McLean of Ohio with being engaged in a conspiracy to prevent the nomination of Bryan at Kansas City. As a step toward obtaining control of the Kansas City convention, with that object in view, McLean is, he says, now laying plans to have a delegation chosen from Ohio that will desert Bryan when the chance offers.

Headache. Biliousness, sour stomach, constipation and all liver ills are cured by Hood's Pills. The non-irritating cathartic. Price 25 cents of all druggists or by mail of C. I. Hood & Co., Lowell, Mass.

THE NATION'S SHAME. The worst feature of the Cuban scandal is that, through the greed and perfidy of a few dishonest officials, the nation is put to shame, and its professions of high purpose in all that it is doing and attempting to do in Cuba are discredited before the world. Only by vengefully pursuing and relentlessly punishing every person in any way criminally connected with the flagrant betrayal of a doubly sacred trust can the government satisfy the outraged honor of the American people.

THE CANADIAN MOUNTED POLICE seem to be an efficient corps of men, but their function goes no farther than the preservation of order. The tariff restrictions of the dominion were not reasonable and caused much needless hardship. It seemed for a time as if everything was being done which could be done to prevent immigration. Mr. Adney reached the Klondike before the winter of 1897 had set in. He found none of the simple requirements of the American mining laws in force.

Checked by Instability. In this article Iron and Steel points out how the impression that prices are going lower operates to temporarily check activity, thus creating a stagnation that will last until the expectation that has produced it wears away. From various sources there is information of extensive plans involving the purchase and consumption of iron and steel, just as soon as "prices get down again."

Upper Peninsula News. The furnace at Manistique has gone into blast again under new management. The Lake Superior district conference of the Swedish Methodist church is in session at Menominee and will remain so all this week. Menominee will build two miles of macadam road this season at a cost of \$6,000. The city already has six miles of such thoroughfares.

Prevented a Tragedy. Timely information given Mrs. George Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her from her bed. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the efficacy of this great grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed. Trial bottles free at The Stafford Drug Co.

Headache. Biliousness, sour stomach, constipation and all liver ills are cured by Hood's Pills. The non-irritating cathartic. Price 25 cents of all druggists or by mail of C. I. Hood & Co., Lowell, Mass.

any road had been built and the terrors of pestilence, with numerous epidemics to shoot, and the ever-present fear of frost to keep them from their journey's end, are vividly presented. Mr. Adney's experience in the woods of Maine standing him in good stead throughout. But even more interesting at the present time is the tale of the treatment of the miners in those parts, most of them Americans, by the authorities of the Dominion of Canada. Under American laws a mining camp soon becomes a well-regulated, self-governing community, with its own officers elected by the miners and a public sentiment strong enough to make honesty imperative.

But even more interesting at the present time is the tale of the treatment of the miners in those parts, most of them Americans, by the authorities of the Dominion of Canada. Under American laws a mining camp soon becomes a well-regulated, self-governing community, with its own officers elected by the miners and a public sentiment strong enough to make honesty imperative. The one idea of the authorities at Ottawa seemed at the outset to get as much as possible out of the men whose energy and skill had opened up this territory for them, and the taxin which resulted would hardly be believed possible on testimony less creditable than Mr. Adney's here.

THE MOST EVER EXACTED by Kruezer's government from the mines in the Witwatersrand district of the Transvaal is the most ruthless and the most exacting that has ever been levied on the output and only reached this figure after the Jameson raid had forced the republic to arm in self-defense, preparing for the blow which was so clearly foreseen. But when a representation from the Klondike induced the dominion government to revise its tax on the output of gold, the result shows much more lack of reason than the Transvaal was ever guilty of. By the new law each claim was given their old dimensions, but had to be staked in blocks of ten each, an alternate block of ten being reserved for the crown. The duty was reduced to 10 per cent for all, but \$2,500 was assessed on each claim, to be taken "from the gross output to cover the cost of working."

FINNISH IMMIGRANTS HELD UP. TWO-SCORE FOR HANCOCK DETAINED AT THE SOO BECAUSE OF EXPOSURE TO SMALL-POX.

Two-score Finnish immigrants, billed through to Hancock, were held up at the "Soo" Wednesday morning by Government Inspector Williams because of small-pox to which some of the party had been exposed en route to this country. The entire party will be held at quarantine at Sault Ste. Marie until all danger has passed.

BUT FEW TAX RETURNS. MANDATE OF THE NEW COMMISSION GENERALLY IGNORED.

At the session of the Houghton board of review on Tuesday it was found that, although 500 blanks had been sent out by Supervisor Fox, less than 150 returns had been filed and of this number barely 100 were filled out in such manner as to comply with the requirements of the law, as interpreted by the state tax commission, even with a tolerably liberal construction of the law. This means that something like 80 per cent. of the property owners of Houghton are liable to imprisonment. The percentage of returns will hold about the same in the other townships of Houghton county, and it is an absolutely safe bet that the new tax law will never be enforced and that none of the residents of Houghton county will ever see the inside of a jail because of their refusal to fill out the impertinent, middle-class and seemingly un-constitutional blanks sent out by that board styling itself the state tax commission.

ONE-FARE RATES SUNDAY. COPPER RANGE ARRANGES FOR ANOTHER CHEAP TRIP TO SOUTH RANGE POINTS.

In making a rate of one fare for the round trip for passengers from Houghton and Atlantic going to points on the Copper Range railroad next Sunday, the company has made another move that is bound to prove popular. The tickets will be valid for passage on the date of sale, and the Sunday train will run at the usual time, leaving Houghton at 9:25 in the morning and returning at 5:40 in the evening. This will really be the first opportunity to visit the new South range with its beautiful lakes and many promising mining industries. The beauty of the scenery along the Copper Range has been subject to much favorable comment by the hundreds who attended the excursion over the road last Sunday. The lakes are charming and afford splendid opportunities for those wishing to seek recreation along the banks, as well as to those who enjoy fishing. The Wyandot, Winona and Elm River mines are within easy distance of the road, and many, no doubt, will take this, the first opportunity, to visit them at a slight expense. The time of the departure of the train is the time of the departure of Calumet and Lake Linden can make the trip with every convenience.

HANCOCK FAIR—IN 1901. Mayor Scott of Hancock is quoted as in favor of having no celebration on Independence Day this year in his town, in order to oblige the neighboring suburb which is planning some sort of a fair. He strongly urges that the Houghton fair be countenanced and supported by the Hancock people this year and that Hancock hold a worthy fair next year, just to show how such things should be done.

MRS. HARRIS' FUNERAL TODAY. The death of Mrs. Samuel B. Harris at her home on the Quincy hill, Hancock, Wednesday morning after an illness of three weeks, as briefly mentioned in yesterday's issue, marked the passing of a most estimable lady. Mrs. Harris was sixty-five years of age and came to the copper district with her husband from England, immediately after their marriage, forty-six years ago. They came to a virgin land, poor in this world's goods but rich in health, hope and ambition to rise and prosper through honest effort. How well they have done so is known to their wide circle of friends, Captain Harris having raised himself by ability and hard work to the position of head of one of the largest mines of the world.

Mrs. Harris leaves a husband, Captain S. P. Harris, who is nearly prostrated by the loss, and three children—James Harris, a prominent attorney of Lake Linden, and a few months before his mother's death; John L. Harris, assistant superintendent of the Quincy, and a daughter, Mrs. Chas. D. Hanchette, of Hancock.

Funeral services will be held at the home at 2 o'clock this afternoon and interment will be in Forest Hill cemetery, Houghton.

EXPECT \$3 TAMARACK DIVIDEND. Tamarack shareholders are hoping for an \$3 dividend in the near future and hold the recent strength of the stock on a moribund market as evidence before the fact. The Tamarack once paid dividends of \$16 per annum, but run down to a basis of \$6 per year during 1896. The retaining of high-water mark in dividend disbursements will naturally gratify the shareholders, if it is accompanied by the payment of a semi-annual of \$3 next month, as now seems possible.

DAVID VIVIAN HAS BEEN APPOINTED MASTER MECHANIC OF THE ONIDA MINE, better known as the Delaware, in Keweenaw county, under his brother, Robert Vivian, who is superintendent of the property. A few men are being put at work and active mining of the recently discovered amygdaloid beds will be begun very soon.

THE ANNUAL MEETINGS OF THE QUINCY AND RIMMEL ISLAND COPPER COMPANIES will take place at the Eastern offices, 45 Broadway, New York, on June 7.

HEAVY BOAT TRAFFIC EXPECTED. The Anchor line passenger steamers will run on the same schedule as last year, beginning regular sailings on June 1. It is anticipated that the passenger business this season will be even heavier than last, which was pretty close to the carrying capacity of the boats. One of the best openings for capital to be found on the great lakes exists in the need for several modern passenger steamers, not so costly, nor so speedy as the North Land and North West—nor so expensive to the passengers to sail between Buffalo and Duluth and to touch at a number of the intermediate points which the Hill steamers now pass by, owing to the necessity for speed imposed by their schedules. The business in that line

would provide a paying traffic to four and perhaps six new vessels, beside leaving plenty for the China, India and Japan, the good old stand-bys that have never given the go-by to Portage lake.

NEW STORE ROOMS GOBBLED. Math. Haug, the Houghton Jeweler, will occupy the westernmost of the four new stores in the new Douglas House block, Houghton, as soon as completed, which should be during June. The corner store and the one adjoining are to be taken for the city offices of the St. Paul and Northwestern railroads, by which happy juxtaposition Commercial Agents Vaughan and Blodgett will be enabled to keep an eye, as with the other, without unnecessary travel or tribulation.

The two stores on the first floor of the new postoffice block at Houghton will be finished very shortly. The northern store will be occupied by W. R. Daskam & Co., hardware dealers, and the old Gazette building on East Sheldon street now used by them will be occupied by yet one more dispensary of that class of beverages which calls for the prepayment of \$500 for a red card on the part of the dispenser.

MAKING ITS FIRST BREW. The new Calumet brewery is now making its first brew of beer, which will be put on the market in about ninety days, that length of time being required to properly ripen the beverage. The predecessor of the present brewery, which was in business but a short time before being burned, made the serious mistake of marketing its beer before ripened, with disastrous results. The present brewery has ample capital and experienced management, hence no attempt will be made to rush the product upon the market before it gets in prime condition.

NEW PAVEMENTS GOING IN. R. R. Goodell has just completed a fine granite pavement on both street frontages of his residence property, and the walk will be continued down to Montezuma street, in front of Trinity Episcopal church. Opposite the Alton street frontage a similar walk will be constructed before the new high school. A large amount of this class of work is in sight, and it is safe to predict that at least two miles of handsome new granite walks will be built this year in Houghton and Hancock.

WANTS A CLEANING BEE. There is one Methodist parson in the county who is not afraid to speak his mind. The Rev. Henry Harris of the South Lake Linden M. E. church took his congregation to task last Sunday for the unsightly condition of the grounds about the edifice and suggested a bee for cleaning up. If it be true that cleanliness is next to godliness, it may be inferred that the South Lake Linden shepherd is leading his flock upward and onward by easy gradations.

VOTING MACHINES—MAYBE. The Calumet News is authority for the statement that the village authorities in Houghton will place voting machines in the various precincts in the near future. The city fathers will lay themselves liable to the imputation of fostering machine politics if such a step is taken, and its dollars to doughnuts that absent-minded voters will try to feed nickels into a slot when they get into the booth and face the mechanism.

BETTES COMING TO HOUGHTON. The Rev. Sam Bettes will do one of his celebrated lightning changes this week, if all goes well, and will launch his catamaran on the murky waters of Portage lake. If the liquor dealers at Calumet were certain that they had sufficient influence with the powers above they would pray that the craft might float away with its occupant to the Canada shore, never to return.

NOT TO PLAY AT DULUTH. Manager Ed Hocking, of the Twin City ball club, has been compelled, with regret, to decline an invitation for his team to play at Duluth next Saturday and Sunday. Owing to the short notice given he was unable to arrange to take all the members of the team for the trip, some of them having prior business engagements which could not be broken.

GLEE CLUB FLANS LONG TOUR. The Finnish Glee club of Calumet, which has gained more than a local reputation for good singing, will take a ten-day trip through northern Minnesota next month under the leadership of Professor Sanford Muttunen, giving local concerts at Duluth and the other principal towns of that section.

COPPERDOM BREVITIES. An addition is being built to Henry Kruger's barber shop, next to the Bowery.

Fred Steyle has moved into his handsome new home on South street, West Houghton.

The first lot of office supplies for the Postal Telegraph company has reached Houghton.

A business meeting and social will be held by the Y. F. S. C. E. of South Lake Linden this evening.

Thomas J. Pascoe of Houghton will leave Saturday for South Africa, believing the war to be about over.

The graduating class of the Lake Linden high school consists of fourteen young ladies and three young men.

A cargo of steel rails weighing 700 tons is en route for copperdom's new street railway on the steamer Portage.

The ladies of the Hancock Congregational church will give a bazaar and social at the church parlors this evening.

Rubble is being taken out at the Jacobsville quarry for the use of Porter Bros. in their government contract at the ship canal.

C. A. Wright of Hancock has gone to Grand Rapids and will spend several weeks in New York and other Eastern towns before returning.

Mrs. Edward Trevillian of South Lake Linden is very dangerously ill and

relatives from a distance have been summoned. The worst is feared.

The strike of cigar makers in the Gleeckle manufactory at Calumet has been settled on terms which are substantially a victory for the union.

The Ladies' Library association of Houghton will buy new books next month and requests patrons to hand in the names of any new books desired.

The village fathers of Houghton have decided to get after violators of the building ordinance who are erecting structures of wood in the fire limits.

West's minstrels played to a packed house at the Calumet theater Wednesday night and furnished one of the best entertainments ever given in the copper district.

Some mighty big flars have returned from fishing trips, but up to date the big catches of trout actually produced in substitution of claims set forth are few in number.

The Northern Michigan Singers' union, organized at Ishpeming last year, will meet at Hancock during the last week in July for three days of song and jubilation.

Lee Stros, have finished their work on the Copper Range railroad, and have gone to Kentucky, where a medium sized railroad contract has just been secured by them.

Mrs. Charles Klein of Laurium is contesting the will of her late husband, under the terms of which practically the entire estate was to be placed in trust for the widow and children.

Work on the addition to the Hancock high school is progressing rapidly. The addition has been so planned that the symmetry of the building as a whole will not be impaired by the new part.

The Houghton militia company will attend services at Grace Methodist church next Sunday morning in full uniform when an appropriate memorial Sunday sermon will be delivered by the Rev. S. M. Gilchrist.

Beahan & Fricke have been awarded the contract for the cutting down and grading up of the double-decked portion of Sheldon street, in Frenchtown, Houghton. They will be paid \$1.55 per perch for the stone work.

The annual efflux of schoolmarm's is about due to begin, and Agent Thompson, of the Anchor line, is adding another coat to the celebrated polish which has long rendered him so popular with the traveling public.

Acting under instructions from the council, Street Commissioner Malherbe of Hancock is getting after delinquent property-owners with his celebrated cane, and still worse is to follow unless the ragged sidewalks which now so

liberally adorn the leading thoroughfares of the town are made whole with neatness and dispatch.

A Mrs. Lekina has been placed in jail by the Houghton authorities, pending examination as to her sanity. As rapidly as one crazy person is taken to the asylum another mentally unbalanced turns up to keep the officers guessing.

The Hancock council has ordered 110 street signs from Hamilton & Eide for the principal street intersections. Steps are also to be taken looking toward the numbering of the town in preparation for the inauguration of free postal delivery.

The formal summer opening of the Eagle River Hotel will take place next Tuesday evening. The Calumet band orchestra has been engaged to furnish music and dancing will be indulged in. A fine supper will be a special feature of the joyous occasion.

John Lahti of Calumet has been safely placed in the Neshberry asylum by Sheriff Lean. Lahti became convinced that Dr. Ed Kotvalpa was mixing powdered kumky with his medicine and threatened the medical man with death for giving out such dope.

Republicans of South Lake Linden met last night and organized a campaign club with a membership of upwards of one hundred. Credit for this early opening of the campaign is largely due to Deputy Collector McDonald, of the internal revenue department.

Circuit court will open next Monday, when motions will be heard by Judge Streeter. The jury is called for the following day, when Judge Steere of Sault Ste. Marie will preside owing to the coming up of a case in which Judge Streeter was interested as an attorney previous to his elevation to the bench.

Judging from the bitter and persistent complaints of the traveling public, about a dozen big new hotels are needed immediately in the copper district. The houses now running are kept crowded at all times and on every special occasion the left-overs are put to great expense of time and worry to secure accommodations, which are finally found, as a rule, in private houses.

NOTICE TO CONTRACTORS. Sealed bids will be received until 12 o'clock noon of June 1, 1900, by William Sedgewick, secretary of the Ishpeming school board, for the building of a manual training school; also for a frame school house (separate bids on each).

Plans and specifications, with instructions, can be seen by applying at the high school or at the architect's office. The right to reject any or all bids is reserved.

Charlton, Gilbert & Demar, architects, Marquette, Mich., Hancock, Mich., Milwaukee, Wis.

(5-21-00)

SALARY LISTS IN CUBA ENORMOUS.

Senator Bacon Declares There is Much to Investigate in Every Department.

PLENTY OF CHANCE FOR FRAUD IN THE MILLIONS HANDLED.

SPOONER CONCLUDES HIS SPEECH ON THE PHILIPPINE QUESTION.

Says the Attempt to Make Imperialism the Issue is Merely to Obscure the Declarations of the Chicago Platform in 1896.

EXPANSION AGAIN THE SENATE THEME.

Washington, May 24.—The duty of the United States toward its "island possessions" was the subject of a heated discussion in the senate again today.

Soon after the senate convened Senator Bacon of Georgia began an extended reply to the speech of Senator Platt delivered yesterday.

He largely supplemented to that he delivered several days ago demanding an investigation of the Cuban financial affairs.

His resolution, to which there was little or no opposition, under the rules went to the committee on contingent expenses.

The remainder of the afternoon was occupied by Senator Spooner of Wisconsin in concluding his speech on the Philippine question.

Many of his statements were controverted by Senators Allen of Nebraska and Pettigrew of South Dakota, the controversy at times becoming almost personal.

BURENSOME SALARY ROLLS. Senator Bacon, demanding his proposed inquiry, declared it was a duty congress owed to the country and to the people to make the investigation.

He said the great purpose of corruption was to entrap the man or men who might have stolen hundreds or thousands of dollars, as an expert accountant might do, but to ascertain whether by fraudulent contracts or other devices of corruption the millions handled by the officials in Cuba had been disposed of dishonestly.

Senator Bacon declared, in discussing the various departments of the Cuban government, that "the most enormous salary lists were shown that anybody had ever saw."

The civil salary list alone for 1899 was over \$1,000,000, which he thought unparalleled. He declared that the American people, regardless of party, were determined the Cuban scandal should be sifted to the bottom, and said the investigation should not be limited to the extent suggested by Senator Platt in his speech yesterday.

Senator Bacon denied that he cherished any purpose of making campaign capital, and in conclusion said: "I would like before adjournment to see action taken that will allow the nation to redeem its pledge and leave Cuba to the people of that island."

The secretary has heretofore issued permits, but the bill as it passed the senate cancelled them. The house also struck out the chapter relating to arrest and bail which permitted arrests in certain civil actions.

CATHOLIC SCHOOLS HARD HIT. The conference report on the Indian appropriation bill was adopted. Mr. Fitzgerald of Massachusetts called attention to the fact that by the terms of the bill Congress, for the first time since General Grant's administration, refused a cent for contract schools. He charged that this was due to the campaign bigotry waged in certain sections of the country against those contract schools, most of which were Catholic.

The result of the legislation, he said, would be that twenty-six hundred Indian children would be denied schooling until government schools could be built. At 5:25 the house recessed until 8 p. m. for the further consideration of the Alaskan bill.

There were only about two dozen members present at the night session. After disposing of 188 of the 619 pages of the bill, at 10:20 the house adjourned until tomorrow.

SENATE COMMITTEE CUTS THE HOUSE APPROPRIATION. Washington, May 24.—Several items of interest to lake shipping were put in the sundry civil bill by the senate committee on appropriations. Among them is one authorizing the expenditure of \$500 for the construction or purchase of a vessel to be used as a revenue cutter on St. Mary's river; \$6,000 for lighting the ship canals constructed by the United States on the great lakes and their connecting waters; for the construction of a steam light vessel with steam for motive power, and for straits of Mackinac; \$35,000 for range lights to the main channel at the entrance to St. Mary's river, \$2,700.

RECRUIT SHOTS TO KILL. ATTEMPT TO ESCAPE AT FORT RILEY CLEVERLY BLOCKED. Fort Riley, Kas., May 24.—Two military prisoners, John Arnold and George A. Fryman, serving sentences of one year each, were shot by a sentry, under whom they were working, while trying to escape. The prisoners attacked the sentry, took his rifle, and with it ran for his life. The sentry gave chase, and the fugitives, finding themselves hampered by the rifle, threw out the cartridges and dropped the weapon. Pierce, the sentry, secured the rifle, reloaded it, and as the prisoners were disappearing fired three shots, which struck the men down. Arnold may die, but Fryman is not seriously wounded. Pierce, the sentry, is only a recruit.

FUSE ON CONGRESSMAN. THESE NOMINATIONS O.K'ED. Washington, May 24.—Confirmations: William Glover Gage, Michigan, commissioner on the Chilian claims commission; John C. Freeman, Wisconsin, consul at Copenhagen, Denmark.

SENATOR PETTIGREW TAKES A HAND. Senator Pettigrew, Populist of South

BOERS VOTING ON IT. FAIL FOR \$13,000,000.

(Continued from Page One)

position yesterday. They are busily employing heavy cannon at Schoonsboogte, near the scene of the battle on Ingogo river in 1881.

It is reported that fighting occurred at Botha's Nek yesterday. Chris Botha, brother of the commander-in-chief, has been appointed assistant to the commander-in-chief and has given great satisfaction. He has revived the fighting spirit in many of the federals.

In an ambush between Ngutu and Mount Prospect, eight British were killed and thirteen wounded.

BETHUNE'S DISASTER. Pretoria, Wednesday, May 23.—An official bulletin, issued today, says: "Sixty British cavalry came into Swaziland commando at Schroeper's Nek. The fighting lasted an hour. The British lost twenty-seven killed, twenty-five wounded and eleven prisoners. Twenty-five horses, two Maxims and a quantity of ammunition also were captured. The federals lost one killed and one wounded."

"On Sunday, Kalle engaged the British between Heilbron and Lindley. The federals had to retire before an overwhelming force, losing one killed and seven wounded."

BOER COURAGE OZZED OUT. POSITION AT KROONSTAD SHOWS THEY MEANT TO FIGHT. Kroonstad, Thursday, May 24.—Although the Boers retreated without a shot, their late position showed that they meant to fight. Along the steep sides of the south bank were cunningly constructed rifle pits, resembling the defenses of Paardeberg. These pits extended ten miles. A number of gun emplacements had been blasted in the rocks, and for seven miles the grass had been burnt in patches, with a view of marking the ranges.

President Steyn is telling the Free States that Lord Roberts' original proclamation has been rescinded, and that all now who are surrendered are sent to St. Helena. For a mile on each side of the river the railway had been blown up by dynamite at every twenty yards or so.

Refugees from the Boers assert that a strong anti-Kruger party is forming. Commandant Delarey is reported as saying the continuance of the war would be absurd.

General Louis Botha was recalled by urgent summons to Pretoria two days before the British reached here. He left Commandant Lemmer in command.

GUESTS OF W. ALDEN SMITH. MICHIGAN CONGRESSMAN GIVES DINNER TO BOER DELEGATES. Washington, May 24.—Representative William Alden Smith of Michigan gave a dinner tonight at the Hotel Gordon to the Boer commissioners.

ANTI-SALOON LEAGUE. IT OPENS ITS ANNUAL CONVENTION AT CHICAGO—PRESIDENT LAUDS MCKINLEY. Chicago, May 24.—The annual convention of the American Anti-Saloon league commenced a four-day session today, thirty states being represented by a hundred delegates. Five minute reports of the superintendents of the various state leagues, followed by the general address of the president, H. H. Price, and the report of General Superintendent Rev. Howard H. Russell, comprised the results of the morning's meet.

At the close of the reading of the address of the president, Rev. H. H. Abrams, superintendent for Iowa, arose and said: "What can you tell us, Mr. President, of the stand of President McKinley on the liquor question?"

President Price said: "I sat for years by the side of William McKinley in the house of representatives and know him for a very pure, clean man. My opinion is that he is a practical temperance man." He desired more information, he said, before forming any judgment.

PASSION PLAY RENDERED. Oberammergau, Germany, May 24.—The initial performance of the Passion Play took place today. The attendance was enormous despite the unfavorable weather. The representation, as a whole, according to the opinion of competent judges, surpasses that of 1890.

BOILER EXPLOSION KILLS FIVE. Covington, Ky., May 24.—Today, ten miles west, the boiler at McFerrin's saw mill exploded, killing five men and wrecking the plant. The dead: Captain James A. McFerrin, Moses Huntley, two men named Burket and York and an unknown negro.

TOOK OVERDOSE OF MORPHINE. L'Anse, Mich., May 24.—[Special.]—Louis J. N. La Crosse, an old resident of Baguay, not feeling well, took an overdose of morphine this morning and died a few hours later. He leaves a wife and five children.

BIG HAUL BY BANK ROBBERS. Williamsburg, Pa., May 24.—Robbers blew open the safe of the Peninsula bank this morning and secured \$10,000 in cash. No clue.

THE ONLY HIGH GRADE BAKING POWDER OFFERED AT A MODERATE PRICE. CALUMET Baking Powder. NOT MADE BY THE TRUST. NONE SO GOOD.

BOERS VOTING ON IT. FAIL FOR \$13,000,000.

RANGE OF MONEY RATES. New York, May 24.—Money on call, easy, at 1 1/2 @ 2 per cent; last loan, 2. Prime paper, 3 1/4 @ 4 1/2 per cent. Exchange, steady, demand at 48 1/2 % and sixty days at 48 3/4 %.

CHICAGO GRAIN MARKETS. Chicago, May 24.—There was just a fair trade in wheat today, the volume increasing somewhat, the range being 1/2 @ 5/8 c. The feeling was steady to firm and the close showed May off 1/4 c. and July off 1/8 c. The weather and crop conditions continue the dominating influences, the situation at the Northwest being the principal factor. The clearings were liberal—529,000 bushels—and New York reported eleven boatloads accepted. The feature was the failure of a large New York concern caused the late weak spell.

The corn trade was of moderate volume, the market being quiet at times and covering 3/4 @ 5/8 c. range. The feeling, while a little unsettled, was weaker. The whole and close showed May 1/2 @ 1/4 c. lower and July off 1/8 c. There was not much news, and the market was inclined to follow wheat. Around 3 1/2 % for July, fair quotations of long corn came out and prices settled 1/4 @ 1/2 c. The New York failure caused prices to weaken, although only moderate offerings. The reported failure were sold for the account of the firm in trouble. New York reported thirty-five boatloads accepted.

The oats trade was moderate and easy. The country acceptances were free, which led to liberal selling by local buyers and receiving interests. The buying was mainly steady. Oats prices receded 1/4 @ 1/2 c. and closed at the bottom. The trading was mainly in July.

The leading futures ranged: —May Wheat— Opening: Highest, Lowest, Closing. 66 1/4, 66 1/2, 66 1/4, 66 1/4.

—May Corn— Opening: Highest, Lowest, Closing. 37 1/2, 37 1/2, 36 3/4, 36 3/4.

The day's movement of flour and grain: Receipts. Shipments. Flour, barrels, 10,000, 12,000. Wheat, bushels, 20,000, 19,000. Corn, bushels, 118,000, 125,000. Oats, bushels, 212,000, 179,000.

BOSTON COPPER QUOTATIONS. The closing prices of the Boston copper stocks yesterday, as furnished by Paine, Webber & Co., Marquette, Mich., were as follows: Ariz., 17 1/2; Ash., 30 1/2; All., 14 1/2; Arn., 5 1/2; Atl., 23 1/2; Bal., 19 1/2; B. & M., 29 1/2; B. & C., 64 1/2; C. & H., 75 1/2; Cent., 16 1/2; C. P., 17 1/2; Cop. Range, 20 asked; Frank., 12 1/2 @ 13 1/4; Humb., 50 1/2; Isle Roy., 25 1/2; Mass., 64 1/2; Mayflower, 20 1/2; M. & N., 15 1/2 @ 16 1/2; N. 14 1/2; N. & P., 49 1/2; Old Col., 23 1/2 @ 24; Old Dom., 18 1/2 @ 19; Ose., 64 1/2 @ 65 1/2; Par., 40 1/2 @ 41; Pio., 50 asked; Quincy, 132 1/2 @ 133; R. M., 7 1/2 bid; Cent. Erica, 24 @ 24 1/2.

METAL PRICES. New York, May 24.—Trading was rather quiet and uninteresting in the market for metals today. Pig iron warrants were weak and unsettled, no quotations being given; Northern No. 1 ruled very weak, at \$20 1/2. Lake copper was steady for spot and rather easy for futures, closing at 16 1/2 cents.

FIGURES ON CUBAN FINANCES. STATEMENT OF RECEIPTS AND EXPENDITURES UNDER THE MILITARY GOVERNMENT. Washington, May 24.—Assistant Secretary of War Meikeljohn has given out an interview in explanation of the reports transmitted to the senate last Friday by the secretary of war, giving receipts and expenditures for the military government in Cuba. He said: "These reports contained itemized statements, showing in detail all expenditures made in the civil departments of Cuba and the department of post-offices for 1899, and all other expenditures for the last six months of 1899, which have been audited and paid by the treasurer. They showed the total receipts from all sources for the calendar year 1899 to be \$2,616,500, and the total expenditures for the civil departments \$1,984,000; for expenditures direct by the military government, \$679,000; for the department of post-offices, \$612,200.

"The expenditures for the first six months of 1899 as audited have not yet been reported by the military government, but such report is nearly completed. For the same time of the year 1898, the military government was reported by the treasurer of Cuba to disbursing officers the sum of \$5,094,796 for the expenditures outside of executive departments, while for the last six months of 1899, as audited and reported for such purposes, the expenditures were \$4,377,620. Therefore the expenditures during the first six months cannot exceed the amount allotted, thus making the total possible expenditures in Cuba \$12,516,515 for 1899.

"I do not believe that the actual expenditures for purposes outside the executive department for the first six months of the calendar year, when reported by the auditor, will exceed the amount expended for such purposes for the last six months, which was \$4,377,620. The probable total expenditures for these purposes for the year will be \$8,754,041, which, in addition to the expenditures for the military government, civil departments and post-offices, \$3,044,659, will make a probable total expenditure for 1899, for all purposes, \$11,798,700."

When Mr. Meikeljohn was asked about the expenditures for salaries in Cuba, he remarked: "While such expenditures appear in the report as aggregating \$3,122,052, they were not a heavy burden on the executive departments. There was expended by the department of state and government, under the direction of military government, \$460,975.

"This department expended for the establishment and maintenance of a village police system in the northern villages of Cuba, necessary for the preservation of peace and order, \$34,011. The insane, charities, hospitals and asylums received \$108,673; the amount paid to municipalities for deficits to enable the administration of municipal affairs was \$35,175; for materials, rents, repair of buildings and inspection service, \$19,944. The expenditures by the department of justice and public instruction for the maintenance of the judicial establishment were \$359,777."

METHODISTS ABOLISH AN OFFICE. EDITOR OF EPWORTH HERALD TO HEREAFTER HANDLE THE LEAGUE SECRETARYSHIP, TOO. Chicago, May 24.—At the Methodist general conference this morning, after a sharp debate, a motion to reconsider the action of the conference in regard to cutting off the additional secretary of the Freedmen's Aid and Southern Educational society was adopted. A motion with the object of postponing the whole matter for four years was tabled, and after an extended debate, an amendment offered by Mr. Welch of Wyoming, excepting the Freedmen's Aid from the previous action of the conference, thus allowing that society two secretaries, was adopted.

The conference voted to adjourn sine die on May 29 and then settled down to the election of the Eastern and Western book agents, the balloting on which was the last business of the forenoon session.

THIS THE RESULT. At the afternoon session the result of the ballot for book agents was announced. Homer Eaton and George P. Mains were re-elected to the New York office. Over the Western agents, however, there was a contest, which finally resulted in the re-election to the Cincinnati office of A. C. Jennings and the election to the Chicago office of Samuel H. Pyle, for years manager of the book depository at St. Louis. Dr. Lewis Curtis, at present in charge of the Chicago office, withdrew after the second ballot.

A lively debate was caused by the introduction of the report of the committee on Epworth league. The committee had been unable to agree in recommending a consolidation of the office of secretary of the league with that of editor of the Epworth Herald. Finally, amid protests and charges of snap legislation, the minority report, recommending that the office of secretary, at present filled by Wilbur F. Thirkield, D. D., be abolished, was adopted.

The conference also refused to allow an additional secretary to the Sunday School union, the debate on this taking up the time to the hour of adjournment.

Congressman J. P. Dolliver of Iowa delivered an address on "The Nation of America" consisting in the auditorium before a throng of delegates. Finally, the theater, Ex-Governor Robert E. Pattison of Pennsylvania presided, Bishop McCabe led the singing and, at the close of the address, Congressman Dolliver's father, a venerable Methodist minister of the faith, talked to the audience for a few minutes.

DAY WITH PRESBYTERIANS. REPORTS ON VARIOUS MATTERS ARE GIVEN ATTENTION. St. Louis, May 24.—At the conclusion of the religious services in the Presbyterian general assembly this morning, Dr. Wallace Radcliffe resumed his vigorous speech against the Peoria overture and in favor of the majority report of the special committee on the method of the appointment of the standing committees which was interrupted last Monday. Dr. Cornelson, chairman of the special committee, championed the Peoria overture. The report of the board of publication and Sabbath school work was presented and adopted.

During the transaction of routine business the committee on bills and overtures submitted a favorable report on the overture from the Presbytery of South Florida which recognized, with gratitude, the action of congress in unseating Brigham H. Roberts and offered a resolution memorializing congress to prohibit polygamy.

The report of the committees on system of benevolence as adopted, recommended that the pastors be urged to present more frequently to their congregations the duty and privilege of giving intelligently, and that all offerings should be in liberal proportion to personal income or resources, at least one-tenth in many cases more.

Rev. Willis G. Craig, chairman of the Presbyterian board of aid for colleges and academies, presented his report. Rev. Dr. Herriek Johnson called attention to the fact that nearly every college and academy under the care of the board needed an endowment. The report was adopted.

6,000 years have we waited for the greatest blessing ever offered. It doubles your joys and halves your sorrows. That's what Rocky Mountain Tea does. The Stafford Drug Co.

paratus respectively connected with them; Poles, Fixtures, Copper (No. of lbs. and value) and lamps for the arc circuit; the copper (No. of lbs. and value); lamps, the transformers, fuse boxes and arresters for the incandescent circuit; and a total of the same; and the monthly summary shall be made to show separately the total of each of the foregoing, summarized as total expense of distribution of current, of manufacturing of current, of the general expense, and the total invested in the real estate and buildings; water power, generating apparatus and distributing apparatus. The record of receipts shall show separate the following items of income. Direct circuit—street lighting; commercial lighting; alternating current—lighting for city, commercial and residences; power for stationary power; rents of motors and of meters; from penalties; total income; delinquent accounts; from shop for private jobs done; delinquent accounts and for miscellaneous collections; and shall show the amounts of rebates allowed on accounts.

And the monthly statement shall show the results of the business and the several data required by the city charter at the close of each fiscal year. The Commission adjourned. J. E. SHERMAN, Secretary.

Regular meeting of the Light and Power Commission held at the City Hall March 26th, 1900. Present: Commissioners—Russell, Payne, Gooding, Towar and Sherman. Absent: none.

A list of proceedings at the meeting of February 26, 1900, was read and approved. A fixed rate for current for a 1/2 H. P. motor one hour per day for Stafford's Drug Store was made at the rate of twenty dollars per year, payable monthly.

On motion the following bills were allowed and ordered paid: Pay roll for February, \$549.30. First National Bank (bond and coupon), 512.50. August Mchts, treas., (coupons), 50.00. Peoples Drug Store, 31.00. American Express Co., 2.05. Pay & Bricker, 18.00. Western Electric Co., 26.00. Garden City Chandler Co., 64.25. Martin J. Insull Co., 109.37. Electric Appliance Co., 71.24. Sterling Arc Lamp Co., 1.14. General Electric Co., 63.56. R. Williamson & Co., 5.50. August Mchts, treas., (coupons), 162.50. L. Bral, 11.00. Marquette Hardware Co., 7.90. The Commission adjourned. J. E. SHERMAN, Secretary.

Regular meeting of the Light and Power Commission held at the Electric Lighting Station, Marquette, Mich., April 24, 1900. Present: Commissioners Russell, Towar, Gooding and Sherman. Absent: Commissioners Gooding and Payne.

On motion by Commissioner Towar the following bills were allowed and ordered paid: First National Bank (bond and interest), \$512.50. Pay roll for March, 564.43. Westinghouse Elec. & Mfg Co., 102.78. Marquette City Savings Bank (coupons), 225.00. Pay & Bricker, 18.00. Michigan Telephone Co., 4.50. Western Electric Co., 2.35. American Express Co., 1.60. D. S. S. & A. Ry Co., 25.29. S. Adams, 7.00. Marquette City Telephone Tel. Co., 15.00. P. W. Read & Co., 7.54. F. B. Spear & Sons, 58.14. M. R. Manhard, 95.45. N. Pellissier, 95.45. Marquette City & P. L. Ry Co., 10.00. L. S. Engine Works, 16.64. Langardt & Crosswell, 42.50. R. Williamson & Co., 24.53. Garden City Chandler Co., 14.55. General Electric Co., 50.32. Electric Appliance Co., 178.87. A. Mchts, treas., (coupons), 225.00. Mining Journal Co. (LTD), 92.20. \$2,353.49.

On motion by Commissioner Towar a flat rate of \$75.00 per month until the further order of this commission was fixed for a nominal 30 H. P. motor for the Lake Shore Engine Works, to run their machine and pattern shop machinery twenty hours per day; and a flat rate of \$50 per month was fixed for same for ten hours day run only.

On motion by Commissioner Sherman the following resolution was unanimously adopted: Resolved, that a new system of keeping the accounts of the business of this commission be and is hereby established, comprising a record of disbursements, record of receipts, and a monthly summary.

The record of disbursements shall show the following items, each separately: viz: Voucher number; month allowed; name of payee; amount allowed; repairs to pole lines; poles and fixtures separate; arc circuit repairs; lamps; copper (No. of lbs. and value); separate and sundries; labor; cartages; globes separate; incandescent circuit repairs separate items copper (No. of lbs. and value), transformers, fuse boxes and arresters; lamp renewals and sundries; the foregoing being expenses of distribution of current.

Repairs to motive power: No. 1 Dam; No. 2 Dam; Flume foundation; Iron Flume; Wood Flume; No. 1 Water Wheel including casing and all operating apparatus; No. 2 Water Wheel, including casing and all operating apparatus; Transmission shafting and belting; sundries on generators, incandescent generators; labor, oil and waste, and sundries on electric machinery; office expenses; miscellaneous expenses, and a total of the operating expense (being total of the manufacturing distribution and the general expenses); bonds and interest on total expenses.

The disbursements for labor and material for wiring for private parties shall be kept separate under head of shop labor and material, and the material purchased for that purpose shall be kept separate and apart in a room by itself for each total expense.

The property accounts shall be as follows, viz: Land; Power House; Dwelling No. 1; Dwelling No. 2; No. 1 Dam; No. 2 Dam; Flume Foundation; Iron Flume; Wood Flume; No. 1 Water Wheel (including casing and fixtures); No. 2 Water Wheel (including casing and fixtures); Transmission shafting and belting; Direct current apparatus; alternating current apparatus, each including generators and all operating ap-

GEN. ALGER SCORES SENATOR BURROWS.

Says He Has Ruined Michigan's Timber Trade as Far as Canada is Concerned.

MILLS ALONG THE EAST SHORE ALL CLOSED DOWN.

DOESN'T BLAME THE DOMINION FOR ITS RETALIATION. Secretary Himself Just Disposes of the Last of His Holdings in Ontario in View of the Restrictions Following the \$2 American Tariff.

QUITS LUMBERING ACROSS THE LINE. Detroit, May 24.—Ex-Secretary of War Alger has sold the last of his timber holdings in Ontario, which consist of 108 square miles on the northern shore of Lake Huron, to Ferguson & McFadden of Renfrew, Ont., for \$150,000.

General Alger says: "We sold out because we did not think we could make money. Remember, I do not criticize Canada. I am informed that they would have a 10 per cent penalty amount of the old McKinley law, but the \$2 they would not stand, and they retaliated by putting on this restriction. And for that Senator Burrows has the entire responsibility. That act of Burrows closed all the mills along the east shore of Michigan. The senate passed the bill for \$1 and the house for \$2."

"At the conference committee Senator Burrows, going there supposedly as a representative of the senate and voting for \$2 lumber, did a greater injury to Michigan than he can repair if he lives a thousand years."

"If we were to go on lumbering in Canada we would have to close up our Michigan mills and build new mills there."

LIGHT AND POWER COMMISSION PROCEEDINGS. (Official.) Marquette, Mich., Feb. 26, 1900. Regular meeting of the Light and Power Commission held at the City Hall February 26, 1900. Present: Commissioners Russell, Gooding, Payne and Sherman. Commissioner Towar, absent.

The record of proceedings of the Commission January 22nd and February 5th, 1900, was read and approved. On motion by Commissioner Payne the following bills were allowed and ordered paid: Pay roll for January, \$572.90. E. J. Sink, 1.45. August Mchts, treas., (coupons), 162.50. Western Express, 7.55. Pay & Bricker, 18.00. H. Riley, 1.50. M. R. Manhard, 23.25. W. U. Telegraph Co., 51.00. L. S. Engine Works, 13.25. P. W. Read & Co., 2.50. L. Bral, 11.00. Robertson Bros., 4.40. Electric Appliance Co., 50.25. Lakeside Iron Works, 2.45. City Treasurer, Int. coupons, 450.00. D. S. S. & A. Ry Co., 42.66. First National Bank, 13.15. First National Bank, bonds and interest, 19,325.62. P. B. Spear & Sons, 14.00. R. Williamson & Co., 9.70. Standard Carbon Co., 123.25. Shelby Electric Co., 34.00. Standard Oil Co., 4.00. National Refining Co., 13.00. C. W. Hunt Co., 165.60. Electric Appliance Co., 272.42. General Electric Co., 32.72. \$21,391.84.

On motion by Commissioner Payne a fixed rate of twenty-five dollars per month was made for current for a five-horse power motor to drive pump for Foster Block.

On motion by Commissioner Sherman a flat rate of \$2.50 per month each was fixed for nominal 2,000-candle power alternating arc lamps (enclosed) in stores and business places closing habitually at 8 o'clock p. m. or earlier.

On motion by Commissioner Sherman the following resolution was unanimously adopted: Resolved, that a new system of keeping the accounts of the business of this commission be and is hereby established, comprising a record of disbursements, record of receipts, and a monthly summary.

The record of disbursements shall show the following items, each separately: viz: Voucher number; month allowed; name of payee; amount allowed; repairs to pole lines; poles and fixtures separate; arc circuit repairs; lamps; copper (No. of lbs. and value); separate and sundries; labor; cartages; globes separate; incandescent circuit repairs separate items copper (No. of lbs. and value), transformers, fuse boxes and arresters; lamp renewals and sundries; the foregoing being expenses of distribution of current.

Repairs to motive power: No. 1 Dam; No. 2 Dam; Flume foundation; Iron Flume; Wood Flume; No. 1 Water Wheel including casing and all operating apparatus; No. 2 Water Wheel, including casing and all operating apparatus; Transmission shafting and belting; sundries on generators, incandescent generators; labor, oil and waste, and sundries on electric machinery; office expenses; miscellaneous expenses, and a total of the operating expense (being total of the manufacturing distribution and the general expenses); bonds and interest on total expenses.

The disbursements for labor and material for wiring for private parties shall be kept separate under head of shop labor and material, and the material purchased for that purpose shall be kept separate and apart in a room by itself for each total expense.

The property accounts shall be as follows, viz: Land; Power House; Dwelling No. 1; Dwelling No. 2; No. 1 Dam; No. 2 Dam; Flume Foundation; Iron Flume; Wood Flume; No. 1 Water Wheel (including casing and fixtures); No. 2 Water Wheel (including casing and fixtures); Transmission shafting and belting; Direct current apparatus; alternating current apparatus, each including generators and all operating ap-

IMPORTANT SHIPPING PORT

Carnegie Interests Are Creating One at Conneaut.

Expedient Method of Transferring Steel Rails from the Cars to Vessels.

Describing the growth of Conneaut as a shipping point, the Cleveland Plain Dealer says that an important and practically a new industry there will grow noticeably this year as a result of the great demand for steel rails on foreign shores.

At Conneaut, machinery is erected for use exclusively in the handling of steel rails from the P. B. & L. E. cars to vessels. From the steel plants of the Carnegie Co. near Pittsburgh, the steel rails come over the railroad owned by the same company direct to their docks where vessels await them.

The heavy ore trains which go south daily from the same port, and which, after being unloaded at the furnaces are ready either to return empty or with coal, can, since the inauguration of the steel rail industry, bring loads of this product on the return trip and the special trains for the carrying of steel rails exclusively are not always necessary. However, some little time ago orders were placed for 200 new cars to be used exclusively in carrying steel rails this season.

This new order for cars also indicates that the business is to increase. Last season the steel rails were shipped from the docks at Conneaut harbor to foreign ports 67,380 net tons of steel rails, valued at \$4,042,800. What a large per cent this is of all the foreign exports from that port can be readily seen when it is stated that the total foreign shipments, including coal and cereals, were valued at \$4,678,863. Besides the foreign shipments of steel rails, 12,057 net tons were shipped coastwise. Of course the steel rail shipments to the lake only represent a part of this gigantic industry, the scope of which extends to nearly all the world.

The handling of steel rails and coal for ports across the lake is an industry which does not cease with the bringing of the last cargo of ore down the lakes and the close of navigation, for from the port of Conneaut there runs direct to Port Huron, Rondeau and other Canadian points, car ferries. These great vessels, equipped especially for breaking the ice, sometimes get stuck away out in the lake in the coldest and iciest weather, but they operate just the same, winter and summer, carrying entire cars from the terminal of one railroad line on one side of the lake to another on the other side. The car ferries are a modern invention, that is they have been in use but a few years at most. The car ferries which come to Conneaut are 200 feet long with a 54 foot beam. They are equipped with five engines, and a 3,500 horse power ice crusher. They have a height from keel to deck of sixty feet. Depending on the size of the cars, each car ferry can carry from twenty-six to thirty cars at a trip. The upper floor of the ferry is covered with four tracks, the same gauge as those of the railroads at the terminals, and the cars which are backed up to a track, can be shifted aboard easily. They can thus be loaded in a short time. The vessel is equipped with appliances to keep the cars from moving on the tracks in case of a storm. The distance across the lake is about seventy miles.

Rondeau is practically a new point for shipments from this side of the water. It is the port of the Lake Erie & Detroit River railway. There has been constructed a splendid water front at that port suitable to the traffic of the car ferries. New car ferries are talked of from time to time, and it is not improbable that the next few years will witness the establishment of several new ports on the Canadian side for receiving coal and steel rails. At Port Stanley the Grand Trunk railway receives the shipments from this side of the lake.

Near the close of last season one of the largest contracts of the Carnegie Co. called for the shipment of 30,000 tons of steel rails to Ft. William and Itasca. This order was filled in less than two months time through the port of Conneaut.

E. Day, one of the leading officials of the dock company operating at Conneaut, invented the machinery used in the steel rail handling industry. This machine lifts the rails from the cars, which have just arrived at Conneaut harbor, and deftly transfers them to the vessel on the opposite side of the machine, where they will be placed in which they lie in the cars. By this machine seven rails are raised at once, a great lift when one stops to consider that the combined weight of these rails is two and a half tons. These machines have been found to be very successful. There are a number of them located on a dock used especially for this industry at Conneaut.

The industry of shipping steel rails via the lakes will likely increase as the industry of carrying coal to the lakes. The older residents of Ashtabula well remember the time when the two great branch roads which now carry ore and coal in such abundance were built with a view to carrying principally ore on the northbound trip, and for years this was a great line of traffic. Then coal was carried for fuel without a thought of bringing it to that harbor to ship, as great cargoes to distant points. Now it is one of the principal industries at all lake ports. Ashtabula shipping more than 1,000,000 tons last season and Cleveland 2,000,000 tons. This industry grows often in one decade.

PORT LIST.

Up—None.

Down—None.

Arrived—Negaunee, tug Petrel, Outhwaite, Pontiac, Ketchum, Wawatana, J. S. Fay, D. P. Rhodes.

Cleared—Outhwaite, Barr, Ketchum, Ashtabula, Fay, Rhodes, Buffalo; Pontiac, Fairport; Wawatana, Conneaut.

LOCAL MARINE NEWS.

Things were brisker in port yesterday than they were Wednesday, particularly in the upper harbor, where five boats arrived and cleared.

There were no liners in yesterday but the India is expected to call on her way up the lake today.

The Bar has great success at Pickands' coal dock to the William McGregor, which has nearly discharged her cargo. The Business and Rugee are still in line.

The schooner Negaunee came in yesterday with a load of soft and blacksmith coal for F. B. Spear & Sons. She is unloading at their dock.

The tug Petrel came up yesterday from Munising and is making some slight repairs here. She will tow a raft of logs back from the Chocoley.

IF YOU CHOOSE

Grays for your summer suit you are following up fashion's dictum. We have a big assortment of the new grays in fine little checks or broken stripes; also blue or black serges, which are still in active demand. Our summer styles of shirts and neckwear will put the finishing touch to your toilet at prices that you can well afford. Our Walk-over shoes are a clear walk-over-all others—case; \$7 wear and comfort for \$3.50. The Rogers, Peet & Co. clothing, Jacob Rose, 308 Front street.

CORNS REMOVED.

Corns and ingrowing nails removed without pain or cutting. Bunions removed. Satisfaction guaranteed. Frank Keough, St. Luke's Hospital. (4-24-14m)

NOTICE TO TAXPAYERS.

City Controller's Office, Marquette, Mich., May 21, 1900.

Notice is hereby given that the assessment roll of the taxable property of the city of Marquette for the year 1900 will be in the hands of the board of review on Monday, June 4, 1900.

Said board of review will convene at the common council room in the city of Marquette on Monday, June 4, 1900, at 9 o'clock a. m. and will be in session each day thereafter up to and including Saturday, June 9, 1900, for the purpose of reviewing and correcting said assessment roll.

Every person having property in the city of Marquette is requested to call at the common council room during the sessions of said board of review and inspect said assessment roll, in order that all errors which may have been made in said assessment can be corrected.

FRANKLIN E. BAY, Controller. (5-21-5w)

The Twentieth century combination accident policy of the Aetna Life was presented to the public for the first time yesterday. It is a winner in every particular. (5-22-14)

PROGRESS IN MEXICO.

It Has Been Marvelous Within the Past Ten Years.

Enormous Development of Her Industries and Commerce During That Period.

Mexico's financial, industrial and commercial development, and the relations of her growth to the United States, was the theme of an entertaining and instructive discourse by Hon. Joaquin D. Casasus at a luncheon given in his honor at the Lawyers' club in New York by Mr. L. H. Stevens of that city last week. Mr. Casasus occupies in Mexico a position corresponding to that of our chairman of the House Ways and Means Committee. He is a lawyer of distinction in Mexico, and he drafted and carried through a legislative act upon which the reorganization of the Mexican finances has been made. Mr. Casasus has recently spent several days in Washington and New York, and on Thursday last sailed for Europe. In the course of his remarks, which were listened to by a number of gentlemen representing important financial and commercial interests, Mr. Casasus said: "Mexico has been passing through a period of exceptional prosperity in the last ten years. Commerce, agriculture, mining industries and institutions of credit have reached extraordinary development. Nothing can give a better idea of the present situation than statistics of the revenues, exports, new cotton factories started and the establishment of powerful institutions of credit, which have already aided the industrial and commercial development. The revenues of the Federal Government in 1890-91 were \$37,371,000, and in the nine years following they increased steadily until in 1898-99 they were \$60,025,000, or nearly double. The last five budgets of the nation have left large surpluses, averaging between \$5,000,000 and \$7,000,000. Today the treasury of Mexico is overflowing having covered all of its requirements, in excess of \$20,000,000. The previous figures are eloquent, but it should be borne in mind that not only the product of certain taxes has increased, but that all public debts have grown. The taxes upon exterior commerce increased from \$17,000,000 in 1893-4 to \$28,738,000 in the fiscal year of 1898-99. The interior stamp act, which may be considered as our income tax, has increased its products from \$9,353,000 in the year 1898-99 to \$23,215,000 in the year 1898-99. The decline in the price of silver, which has caused such trouble in the commercial world, has been advantageous to Mexico. This possibly is due to special conditions in our country. The increase in our national production has been due to that fact, and has permitted the exportation of an excess.

"The exports of Mexico have increased year by year. In the year 1890-91 our exports amounted to \$61,156,000, and in 1898-99 to \$138,478,000, thus showing a growth of 120 per cent in nine years. It is true that our mining production has contributed much to these results, but setting that aside the quantity of all of our agricultural and industrial products has been duplicated.

"One of the phenomena due to the depreciation of silver has been the establishment of an extraordinary number of cotton mills. The result of this industrial development in Mexico has been and is most powerful. This is particularly noted in the great number of manufacturing plants that have been established for the production of fabrics, wool and cotton. At the present day there are 120 such mills in operation, and more than twenty have been started in the last two years. The total result of sales made, which in 1898 was \$28,243,000, reached \$32,000,000 in the year 1899.

"Nothing can give so complete an idea of the commercial progress of Mexico as the facts connected with the establishment of new banks and their operations. On March 19, 1897, a law was enacted authorizing the establishment of banks of issue, mortgage and agriculture. This law has yielded the most surprising results. At the close of the year 1898, Dec. 31, the share capital of all the banks of issue then in Mexico amounted to \$35,550,000; of this \$23,010,000 was paid up. Add to this the amount of reserve and precautionary funds, which was \$5,720,047, and we reach a total of \$28,730,047. The development since has been something wonderful. The paid-up capital has increased to \$49,224,700, and with the reserve and precautionary funds the total capital is \$60,685,196.50, or an increase of 110 per cent. In January, 1897, the paper discounted amounted to \$47,335,376.39. In March, 1900, they came to \$123,080,455.48. The circulation of bank notes has followed the same upward movement. From an issue of \$37,967,105 it has reached \$65,182,549, an increase of 80 per cent, and the dollar account current has increased from nearly \$21,000,000 to over \$44,000,000.

"The country that in the last nine years has doubled its revenues; the amount of its exports, the number of its factories; tripled the capital in its banks, and the sum total of its commercial operations, can truthfully be said to be in full prosperity. But you may ask me: 'Is the prosperity of Mexico permanent?' These questions do not disturb the Mexican people at all. We are sure that all the elements that make our present peace are so solid they can never be destroyed. It is very natural that such fears should be entertained by strangers who do not know so intimately the exact state of our affairs. The Mexican nation owes for many and very great services to President Diaz, and without doubt the greatest of them all is in having given us a stable and durable public peace. In the retirement of President Diaz Mexico will lose its most distinguished statesman, but that fact will not prejudice in the least degree our progressive march in the future. All preexisting germs of discord in the country have now disappeared. The ill-humors heretofore ready to take up arms, barely suffice now to hold the plough. Peace has demonstrated that nothing is more remunerative than labor."

Sound advice to those who have kidney troubles is to take a safe, sure medicine like Foley's Kidney Cure. It always benefits the Kidneys. The Stafford Drug Co.

BAPTIST MISSION OFFICERS.

Detroit, May 24.—At the closing session of the Home Mission department of the Baptist Missionary anniversary this evening the following officers were elected:

President—E. M. Thresher, Dayton.

Vice Presidents—Andrew McLeish, Chicago; General J. J. Estey, Brattleboro.

Treasurer—Frank R. Hathaway, New York.

Auditors—Edgar L. Marston, L. F. Requa, New York.

Corresponding Secretary—Thomas J. Morgan, L. L. D. New York.

Recording Secretary—A. S. Hobart, D. D. New York.

"DUTCH TREATS."

Misunderstandings as to National Customs Lead to Disagreeable Results.

"I had a rather embarrassing, but somewhat instructive experience the other evening," remarked a club man of this city. "A gentleman from Breslau, who had just arrived in New Orleans on a pleasure trip, was introduced to me by a friend, who had met him on the cars, and we strolled into the St. Charles cafe. Going in we encountered another friend, making a party of four altogether, and we sat down to chat.

"In a moment or two the stranger from Breslau beckoned a waiter and ordered a glass of Rhine wine. To my utter amazement he said not a word about our joining him, and when the wine arrived he proceeded to sip it with perfect sang froid. In spite of all this I saw that he was unquestionably a gentleman of breeding and refinement, and while I was strongly tempted to order something for the balance of the party I refrained from doing so, lest he would observe me paying and feel mortified. The others looked bewildered and said nothing, but the friend who joined us from the door took early occasion to excuse himself and walk off. He is a fine type of the old-school, hospitable southerner, and I am sure he felt extremely indignant at what he considered an exhibition of foreign boresness.

"The fact is that our American custom of treating is almost entirely unknown in many parts of Germany and elsewhere in Europe. There it would be considered very bad form to offer pay for the refreshments of a chance acquaintance, and our friend from Breslau was simply giving himself according to the custom of his country. When he becomes better acquainted with American idiosyncrasies I am sure he will be covered with chagrin. After all, however, treating is an idiotic custom, and I must confess a private sympathy with the foreign point of view."

"That reminds me of a whimsical little incident which I witnessed in '95 in a cafe in Antwerp," said one of the listeners to the foregoing. "I was spending a few weeks in the city, and I refer to retail my paper over a glass and cigar. The public room was equipped with a number of little tables on a sanded floor, and ranged along one of the walls were several cabinets or lockers where residents kept their private bottles. The house supplied the liquor and they strolled in whenever they felt like it and helped themselves to a nip. "One day when I was sitting in my favorite corner a stout gentleman, who was evidently an old citizen, came in with an American whom he seemed to be showing the sights. The American was portly and slender, with a dignified carriage and an ironical, off-putting, hearty mustache. They took the adjoining table and presently the portly native waddled over to the cabinets and returned with a long-necked wine bottle and one glass. He poured out a drink very deliberately and then re-ported the bottle to the American, looking on with an expression of amazement. "Your health, captain," said the native in French, and raised the glass to his lips. The American's eyes blazed. "Perdition!" he roared, springing to his feet. "Do you mean to insult me?" And he seized the bottle off the table with a blow of his cane. Of course, there was a frightful row; everybody talked at once and the general dardmes rushed in and took several reams of memoranda.

"The funny part of it was that the portly gentleman couldn't understand how he had possibly given offense. I heard him discuss it several times after he returned, and when I left it was still a profound mystery, only to be explained by the well known eccentricity of all Americans."—New Orleans Times-Democrat.

JAPANESE RACE GROWING SMALL.

The Japanese are getting anxious about their physique, which is deteriorating so much that the Land of Flowers may in course of time become a Land of Babies. The military authorities have discovered that their men cannot use the ordinary rifle because it is too long for them, and have been compelled in consequence to arm them with special short firearms. Recent investigations have shown that the students are among the worst developed specimens of humanity on the face of the earth, the finished product of the Japanese university generally presenting the appearance of a puny, sickly, undeveloped youth.—Pall Mall Gazette.

Ishpeming and Vicinity.

A MYSTERIOUS MURDER.

Unknown Man Killed Yesterday About Three Miles from City on Dexter Road.

ROBBERY SUPPOSED TO HAVE BEEN THE MOTIVE.

Crime Reported Last Evening by an Arablan Whose Ignorance of English Makes It Impossible for him to Give a Satisfactory Account.

OFFICERS HAVE NO CLUE TO WORK ON

Ishpeming officers have a murder mystery to solve and at present no clue on which to go to work. The victim is an unknown man who was killed some time yesterday on the Dexter road.

ROBBERY SUPPOSED TO HAVE BEEN THE MOTIVE.

As soon as they were informed of the happening they left for the scene of the crime. There they found a man's body lying about twenty-five feet from the road under a low bushy tree.

The coat and vest were found torn open and the breast was exposed. The position of the body, head towards the road and arms extended, indicate that it had been dragged off the road by the feet.

The body was taken in charge by the officers and brought back to town, arriving here at 11:45. Coroner Woolmer then took it in charge and empaneled a jury, which will sit on the case to-day.

George Thompson of Chicago is visiting Mr. and Mrs. James Allen. Mrs. Allen is his sister.

Chris Christianson, ex-alderman of the Fourth ward, was down from the copper country yesterday.

There will be a dance at Anderson's hall this evening for which numerous invitations have been issued.

John Delaney and wife of Green Bay have been visiting with James Ames and family the past couple of days.

INTER-CLASS FIELD DAY.

ATHLETES OF THE ISHPEMING HIGH SCHOOL WILL COMPETE IN ANNUAL GAMES AT UNION PARK SATURDAY.

The athletes of the four classes of the high school will meet in a class field day at Union Park Saturday afternoon, beginning at 2 o'clock.

The program will include a 50-yard dash, pole vaulting, a 440-yard dash, broad jumping, a 220-yard dash, high jumping, a 880-yard dash, a shot put, a 100-yard dash, hammer throw and an 880-yard relay race.

The field of entries will be large, between forty and fifty athletes having trained for the events. The Seniors are said to be the favorites in the race, but they are deprived of the services of Ed Gourbeau and Ross Rule, who won points at Marquette last year and are therefore ineligible for competition.

Wednesday the Sophomores and Freshmen played a ball game at Union Park. The former were victorious by a score of 20 to 4.

The program will include a 50-yard dash, pole vaulting, a 440-yard dash, broad jumping, a 220-yard dash, high jumping, a 880-yard dash, a shot put, a 100-yard dash, hammer throw and an 880-yard relay race.

Wednesday the Sophomores and Freshmen played a ball game at Union Park. The former were victorious by a score of 20 to 4.

BOYS ARE WELL BEHAVED.

P. J. Denn thinks that the seriousness of the offense committed by four Ishpeming lads in assaulting Gus Salo Tuesday evening is over-estimated.

Mr. Denn fully intended to fight his boy's case until he was informed that he, in company with his fellows, had followed Salo, when he decided to enter a plea of guilty.

Mr. Denn fully intended to fight his boy's case until he was informed that he, in company with his fellows, had followed Salo, when he decided to enter a plea of guilty.

Mr. Denn fully intended to fight his boy's case until he was informed that he, in company with his fellows, had followed Salo, when he decided to enter a plea of guilty.

article is what counts, and as Mr. Beal is supplying his patrons with the very best it is quite natural that he is kept busy during the warm season.

Henry Demmert of New York arrived here yesterday on one of his periodical visits. Carbons for diamond drills have taken a big advance since he was last in the city, being worth \$55 a carat compared with \$33 a few months ago.

The city street gang is now working on the road through the Salisbury location. Many needed repairs have been made.

Signs have been displayed at the South Shore depot prohibiting bicycle riding on the platform.

The suit brought by M. L. Lee against Paine, Webber & Co. of Boston to recover several hundred dollars which he claims is due on account will be given a hearing in the circuit court today.

While P. Z. Smith, of Capac, was attending the May festival at the M. E. church Tuesday evening, burglars entered his jewelry store and took \$400 worth of goods.

TRAGEDY AT THE ZOO.

Big Bears Attempt to Make a Meal Off One of the Newly Purchased Bear Cubs.

CUB HAD TO BE KILLED TO END HIS SUFFERING.

Double Netting Put in Between Cages to Prevent a Repetition of the Mishap—Tame Cayote Fought Dogs and Had to Be Killed.

HEREAFTER NO DOGS TO BE ALLOWED.

There was a tragedy at the Presque Isle zoo this week in consequence of which the menagerie is one cub bear minus.

Not long since the park board purchased three little cubs of a man in Seney and domiciled them in the cage which was left vacant upon the escape of the cayoates. This cage adjoins the one occupied by the two big bears which have been one of the sights of the island for three years back.

The cubs had not been caged very long before they discovered what fine sport and excellent exercise it was to climb up the netting which separated the cages and it never occurred to them that they might come to harm by sticking their paws through into the other cage.

JUST LIKE CANNIBALS.

Tuesday while one of the cubs was exercising himself upon the netting one of the bigger bears on the other side reached up and took hold of the little fellow's paw, calmly bit it off and ate it.

Officer "Bob" Humas was superintending some work on the other side of the island at the time, but the news that the big bears were eating up one of the little ones was quickly carried to him and he ran post haste to the rescue of the cub.

By the time he got back the bear that had hold of the cub's fore leg had eaten it clear to the shoulder and the one which was eating the hind leg had made nearly as rapid progress. Bob entered the cage where the big bears were and by liberal use of force managed to make them let go.

Their ferocity seemed awakened by the blood they had tasted, for the first time since their imprisonment, if not in their lives, and they turned on him, but he succeeded in subduing them without injury to himself.

HAD TO BE KILLED.

The little bear which had been the victim of their cannibalistic tastes was not dead but he had to be killed immediately in order to put him out of his suffering. As a precaution against a repetition of the tragedy a double netting has been put in between the cages. There is a space between the two nettings sufficiently wide so that, even though the little bears do climb up,

their larger neighbors on the other side cannot reach them. However, their desire to do so is plainly evident by the hungry way in which they stick their tongues in through the nettings and endeavor to get at the cubs.

The Zoo has recently lost another member by death, though in this case the death was the result of an execution. The cayote, which was formerly in the cage occupied by the little bears, but which since last fall has been at large upon the island, was the victim of it. His death was the result of his attacks upon visiting dogs.

Human visitors found him so tame that he would follow them about and eat out of their hands, but he had a pronounced antipathy to all dogs and every dog which came upon the island had either to fight or to run. Complaints from owners of dogs caused an order to go forth for the killing of the cayote.

Although the cayote is dead Officer Humas says that hereafter no dogs will be allowed on the island and adds that he will shoot any dog which ventures to come into the park. The reason he gives for this is that they annoy the deer.

NEW SUNDAY TRAIN.

Change of Time Provides for It—New Schedule Sunday.

The D. S. S. & A. railway will change time next Sunday, May 27. The following are the only trains affected:

The early morning express (No. 5) for Sault Ste. Marie, St. Ignace and all points east, will arrive at 4:45 a. m. instead of 4:40 a. m., and will depart at 5:00 a. m., instead of 4:50 a. m.

The night express (No. 7) for Ashland, Duluth, St. Paul, Minneapolis and all points west will arrive at 10:40 p. m., instead of 10:50 p. m., and will depart at 10:50 p. m., instead of 11:05 p. m.

A new Sunday train will be put on between here and Michigamme leaving the latter point at 8:15 a. m. and arriving at Marquette at 10:00 a. m.

Returning it will leave Marquette at 8:00 p. m. and arrive at Michigamme at 9:50 p. m. This train will run Sundays only and will enable Michigamme and Champion people to visit Marquette, an opportunity which they have not had heretofore on Sundays. All other trains will arrive at and depart from Marquette as at present.

WEST'S MINSTRELS.

Large Audience Turns Out to Witness the Performance.

William H. West's Big Minstrel Jubilee appeared here last night and performed in the opera house before a large audience. The show was clean out throughout and appeared to give excellent satisfaction. The staging of the first act was both elaborate and tasteful.

The vocal selections in the opening part were all well sung. Without exception the soloists had fine voices and the chorus was good. Richard J. Jose has a phenomenally high tenor and as

a ballad singer par excellence. He was obliged to give two encore numbers before the house would desist in its applause.

In the second part there were three particularly good specialties. The "Signal Lights" chorus and drill with railroad lanterns was a very pretty and effective piece of stage work. The Luken brothers, acrobats, showed marvellous strength, daring and skill in their act and elicited warm and appreciative applause. The three Marvelles in eccentric dancing and contortion work were also very clever.

The performance concluded with a spectacle entitled "The Storming of San Juan Hill." The best feature of this was the concluding military drill. The weakest thing in the whole show was the comedy work. There was a good deal that was tiresome and the few things that were good were worked out too slowly. Only one or two members of the gag collection were of recent date, but that is such a uniform failing with minstrel shows it seems superfluous to pass a criticism upon it.

TRAINMEN'S BALL.

Casino Rink Will Be a Blaze of Glory This Evening.

The annual ball of L. L. Hood lodge of the Brotherhood of Railway Trainmen will take place this evening in Casino rink. The lodge has been at no little expense and pains preparing for the dance and expects to have it counted among its other successes of the same kind.

A committee has been at work on Casino rink and has decorated it handsomely with bunting and electrical designs. The effect as viewed by electric light is handsome indeed.

It is expected that the crowd will be a large one. The trainmen will not only draw from among their Marquette friends, but there will be a large attendance from all points on the division, as special trains and special rates have been secured.

Music for the dance will be furnished by the Marquette Ideal orchestra with Joe Hogan acting as prompter. Supper will be served on the stage by Mrs. Donovan.

TONTINE SAVINGS.

Cedar Rapids, Ia., May 12, 1906. Tontine Savings Association, Minneapolis, Minn.

Gentlemen:—I am in receipt of your check for \$2,400.00 and in acknowledging receipt of same, I desire to thank you and say, that the more I see the actual operations of your plan and compare it with other forms of investment, the more I can see the causes for its rapid growth and continued success.

Three years experience with your association has made me a net profit of nearly ten thousand dollars, and by taking new business each week, as I am doing, I expect to do even better than that during the next three years. With best wishes, I am,

Yours very truly, (Signed) E. O. Edson. Jos. J. Wirtz, General Agent, Marquette, Mich. Local agents wanted. (5-19-06)

DOLLAR JURY DISAGREES.

Unable to Reach a Verdict After Deliberations of Seventeen Hours.

SAID TO HAVE STOOD TEN TO TWO AGAINST THE CITY.

Case Will Have to Come to Trial Again at the Next Term if the South Marquette Man Decides to Push His Claim.

TEMPORARY VICTORY FOR MUNICIPALITY.

Disagreement was the result of the all night session of the jury which had the case of Frank Dollar against the city in hand. The case will have to come to trial again at the next term of court if Dollar still persists in pushing his claim against the city.

All night long the jurors staid in the jury room, discussing the various points of the case among themselves and when 9 o'clock this morning came they were still at it. They had not breakfasted and neither had they agreed.

SENT FOR THE JURY.

Court convened at 9 and as soon as he had taken his seat on the bench Judge Stone sent for the jury. The jurors filed in and took their seats in the box, after which the foreman informed the court that they had not yet been able to come to any agreement between themselves. A little questioning from the bench brought it to light that it was a question of fact on which they differed.

On this Judge Stone could give them no advice, so sent them back to their jury room to make a further effort to agree on a verdict. After they had spent another hour and arrived at no mutual result the judge reached the conclusion that it was useless to keep them on the case longer and so called them out and discharged them. The case was then continued to the next term of court.

It has been four or five years since any jury in this court has spent so long a time in consideration of a case and then failed to arrive at a verdict. It was just 5 o'clock Wednesday night when the case was given over by the judge, thus making the deliberations of the jurors cover a period of seventeen hours.

HOW THEY STOOD.

When the jury retired it is stated that the twelve men who comprised it were about equally divided between a verdict in favor of Dollar and a verdict in favor of the city.

At 10 p. m. it is claimed they stood ten for Dollar and two for the city. The situation never changed after that hour. The way the case stands now the city has a temporary victory, but it has the same fight to go over again at the next term of court. This will put it to extra expense and it still runs the risk of having to pay damages for Dollar's hurt. On this account one or two of the city officials are of the opinion that the city would have been just as

far ahead had a small award been given against it.

Others take a contrary view and believe that in another trial the city will be more successful and will fully establish the injustice of the claim. Yesterday the court spent its time hearing a case in assumpt brought by George W. Shaw against Andrewbacher.

CORKER FOR DULLNESS.

Less Than Eight Hundred Shares Sold Up to Yesterday Noon.

Thursday was a banner day for dullness in the Boston market, less than 800 shares of copper stocks being dealt in up to 12:30.

Boston & Montana dropped one to 292; Calumet & Hecla advanced three to 753; Isle Royale went up one to 25; Anaconda dropped one to 41 1/2; Tamarack closed at 190, a loss of one; Central Eureka closed up one point at 24. Paine, Webber & Co. said in yesterday's letter to the local branch:

"A holiday in London today, so no quotations in copper this morning. New York opened strong; Boston very dull. This market seems to be governed entirely by sentiment. The country was never more prosperous and the stability of our currency is assured. Railroad earnings are large, our mines, mills and workshops are working full time, labor finds ready employment at the highest wages known for years, the crop outlook is good and take it all in all, everything has a prosperous look and still we are not happy, for the stock market remains heavy. Sentiment, however, is a 'fickle jade' and often changes like the wind, in an instant. Should sentiment suddenly swing around from the bear to the bull side conditions would be ripe for a bull market. Coppers have been very dull this morning. Up to noon but 797 shares of listed coppers changed hands, the most active being Franklin, the price declining to 13. Coppers closed dull."

July wheat sold up strongly on the early part of the session yesterday, but towards the close lost all its gain and closed at 67 1/2, the same figure it stood at Wednesday night. July corn was a loser yesterday. It topped at 58 1/2, and from there sold down to 57 1/2, the close, a quarter under the previous night. A. R. Jones & Co. said in their letter to Fred Jones:

"There was no session of the Liverpool markets today, so ours was left to move by itself, and though slow it made a good showing of strength, advancing to 67 1/2, at best from an opening at 66 1/2. Commission house buying was the special feature that held prices up nearly all day but just at the close this demand slackened till the whole advance was lost, then came a slight reaction to 65 1/2, same as last night. The local trade is now giving less attention to the northwest situation and watching with increased interest damage reports from the winter wheat states. Of late all the authorities make special reference to the by-lamaze, some of them even intimating that Ohio, Indiana, Illinois and possibly Tennessee may have to abandon raising wheat entirely as the only means of stamping out the pest, which has ruined crop after crop and which is growing more destructive each year."

CITY BREVITIES.

Weather forecast: Partly cloudy; variable winds.

Yesterdays temperature: 7 a. m., 62 degrees; 7 p. m., 58 degrees; maximum, 70 degrees; minimum, 53 degrees.

John A. Hall was up from Munising yesterday.

C. W. Bronson was down yesterday from Ishpeming.

W. F. Menhennett of Ishpeming was a Marquette visitor yesterday.

S. H. Vaughan of Houghton was down yesterday from the copper country.

Frank Crouch got back yesterday afternoon from a fishing trip down the line.

Hon. Tim Nester of Munising stopped off in town yesterday afternoon and night.

Case Downing was down from Ishpeming and spent yesterday in Marquette.

Officers of all civic societies who are willing to participate in the G. A. R. parade on Memorial day are requested to communicate the fact to Captain Krueger, that he may assign the lodges

HERE'S WHAT'S WANTED.

A Citizen of Marquette Supplies the Information.

Over half the complaints of mankind originate with the kidneys. A slight touch of backache at first. Twinges and shooting pains in the loins follow. They must be checked, they lead to graver complications. The sufferer seeks relief. Physicians are tried, and liniments for the back.

So called Kidney cures which do not cure. The long-looked-for result seems unattainable. If you suffer, do you want relief? Follow the plan adopted by this Marquette citizen.

Mr. Lewis Lomtine of 116 Rock St., employed on the J. S. & L. R. R., says: "If I caught the least cold or did any heavy lifting, I suffered from a bad attack of backache. I soon became tired from lying in one position at night and in the mornings I felt unrefreshed. The kidney secretions were highly colored and unnatural. I saw Doan's Kidney Pills highly recommended, went to the Stafford Drug Co. and procured a box.

On taking them my kidneys were soon rendered active; the secretions became normal, the pain disappeared from my back and my whole system was toned up."

Sold for 50 cents per box by all dealers or mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name Doan's and take no other

places in the line. The Knights of Pythias and all others who received invitations to turn out are urgently requested to respond.

Ed Miller's new boat arrived here the first part of the week. Its engine is now being put in it and it is expected the boat will be ready to go in the water tomorrow.

Licenses to wed were issued yesterday by County Clerk Ross to John Dudley and Mabel Sampson, both of Palmer, and to Anni Erkkila and Filina Perno, both of Ishpeming.

The children of St. Joseph's orphan asylum enjoyed a pleasant afternoon at Presque Isle yesterday. They went out at 2 and returned at 8. The party filled one of the big street cars jam full.

WHEN NATURE

Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Co.

Taken this month keeps you well all the year. Greatest tonic known. Rocky Mountain Tea, made by Madison Medicine Co. 35c. The Stafford Drug Co.

For the best life, accident and health insurance on earth see our general agent, F. H. Vandenberg, room 401, Savings bank building, Marquette, Mich. The Aetna Life. (5-2319)
