### JOHANNESBURG OCCUPIED; REPORTED MUCH DAMAGED.

London, Wednesday, May 30.—The war office late tonight announced that news has been received tending to confirm the rumor said to be current at Berlin that Johannesburg has been blown up.

Pretoria, Wednesday, May 30.—British officers are now at Johannesburg dictating the terms of surrender. The British advance guard is half way between Johannesburg and Pretoria. It is reported there is a force also at Hatherly.

All forces have been dismissed from the forts around Pretoria. President Kruger is now at Waterval Boven.

London, Thursday, May 31.—4 p. m.—The Daily Mail publishes the following from Earl Rosslyn, who was a prisoner at Pretoria but who, as a civilian, appears to have been released:

Pretoria, May 30.—Pretoria will be occupied in about two hours without resistance. The president has gone to Waterval Boven. Burgomaster Desouza has been authorized to receive the British. He, with an influential committee of citizens, including Chief Justice Gregorowski, has been appointed to preserve life and property during the interval.

Everything is quiet, but crowds are waiting expectantly in the church squares for the arrival of the British, fearing possible disturbance and bloodshed among the prisoners of war at Waterval. United States Consul Hay and Leighwood insisted upon twenty officers being liberated on parole to go to the men. Their action cannot be too highly praised. I was permitted to accompany the officers.

Everything is quiet.

London, Thursday, May 31.—5 a. m.—The Times says this morning: "The war is practically over. By this time the British flag is flying at Pretoria. President Kruger fled and is half way to Delagoa Bay. Adolbert Hay, son of the United States secretary of state, who holds the office of American consul at Pretoria and who, in that capacity, took charge of our interests, thoughtfully insisted on a special speed for safe-guarding the large number of British prisoners."

London, Wednesday, May 30.—It is officially announced that the Boers are leaving Natal and that Hildyard has occupied Utrecht, in the southeastern portion of the Transvaal.

### BRITISH TRIUMPHS REVIEWED.

London, Thursday, May 31.—4:30 a. m.—Yesterday at noon the British were only about two hours' march from Pretoria and the Boer military forces had abandoned the city.

This intelligence comes from the Retter agent at the Transvaal capital and from Earl Rosslyn in a press dispatch. The two messages left about the same time. At 3 o'clock this morning the war office had received no news from Lord Roberts which the officials would make public, but it is assumed the press advices are correct.

Most of the London morning papers, through the courtesy of The Daily Mail, print Lord Rosslyn's dispatch and commenting upon it treat the war as ended. Some of the more cautious critics think guerilla warfare likely to be carried on for some time in various parts of the conquered territories.

All the Boer forces are dissolving. Lord Roberts, apparently, has not yet taken any considerable quantities of artillery, arms or stores. Large bodies of Boers must still be somewhere in the field.

Waterval Boven, whither Kruger has fled, is a hundred and thirty miles east of Pretoria, on the Delagoa Bay railway. It should not be confused with Waterval, ten miles north of Pretoria, where the British prisoners are. Waterval Boven is a small place in a mountainous country. The seat of the Boer government—what there is left of it—probably will be Lydenburg, to the north.

By the release of the British prisoners at Waterval a full brigade will be added

to the army of Lord Roberts, as there are 177 officers and 4,182 privates among them.

### JOHANNESBURG IS TAKEN.

A dispatch from Lourenzo Marques, dated Wednesday, says:

- Commandant Kraus has surrendered Johannesburg to Lord Roberts. By tonight's train from Pretoria arrived a few Greeks, who say they were told to leave Pretoria Tuesday. They affirm that the train in which they left was shelled by the British and half of the train cut off, the remainder steaming away. The incident probably occurred at Landsfontein Junction. Passengers from Pretoria assert that the town is utterly demoralized. There was a mad rush for the coast. Five trainloads of fugitives are expected here tonight.

### BOER-PORTUGUESE MIX-UP.

The Lourenzo Marques correspondents think the border trouble between the Transvaal and Portugal may come to a head at any moment. Komati bridge is strongly defended. Yesterday the Portuguese authorities were preparing to resist a possible engagement and a mule battery had been sent to the frontier.

The Times correspondent at Lourenzo Marques says: "It would not be surprising if a large proportion of the rebel Dutch sought temporary refuge on Portuguese territory. Although the authorities here are reticent they are not blind to such a possibility."

It is reported that a special train from Pretoria loaded with fugitives was detailed on the Transvaal side of Komati Fort and that a number of passengers were killed and injured.

The British authorities at Bulawayo think the Boers will retire into southern Rhodesia.

### INVASIONS AT OTHER POINTS.

General Hunter reentered the Transvaal at Maribogopan Tuesday. Water is scarce and all the farms are deserted. Yesterday General Hunter reached Geyserkop with ten days' supplies. Maribogopan is half way between Vryburg and Mafeking. Geyserkop is twelve or fifteen miles east. General Hunter meets no resistance.

General (now) Baden-Powell is invading further north without opposition. Commandant Snyman having gone toward Pretoria.

In northern Natal, Utrecht has surrendered to General Hildyard and General Lyttton has moved to Vryheid. Three correspondents estimate the number of Boers at Laing's Nek at ten thousand.

### KRUGER'S WAR BULLETIN.

Pretoria, Tuesday, May 29.—An official war bulletin has just been issued as follows:

"On Sunday a fight occurred close to Van Wyks Rust on the Gatsrand. The federals fought well and the British seemed to be tired out. At dark the federals retired in the direction of Van Wyks on account of the overwhelming force of British."

"The British attacked Witwatersrand yesterday and were in contact with the federals at Gatsrand, but they were beaten back with good results. The federals are under Commandant Louis Botha. The federals were heavily bombarded all day long, but kept their positions. The British loss is reported as considerable."

"The British are near Utrecht; they are also marching on Laing's Nek."

### BURGERS WILDLY EXCITED.

Pretoria, Tuesday, May 29.—A dispatch from Johannesburg last night describes the town as intensely excited throughout the day on reports of the British approach, but says the excitement subsided in the evening owing to rumors the British had been driven back. There are large numbers of burgers at Johannesburg, but remarkably good order prevails there.

Pretoria, Wednesday, May 30.—At a public meeting called this morning by the burgomaster of Pretoria, a committee was appointed to keep public order.

### CHOLERA ATTACKS THE NATIVES IN BOMBAY PRESIDENCY, INDIA—STARTLING MORTALITY.

London, Thursday, May 31.—The correspondent of The Daily Express at Bombay telegraphs:

"An unprecedentedly severe epidemic of cholera has broken out in the northern districts of the Bombay presidency, especially in the famine camps. The deaths have increased 40 per cent. within three days. In the Kair district there have been 1,330 deaths in seven days. The government has made a special grant for the cremation of the dead immediately. In Palanpur state on the first day there was one death, on the second eighty-four, on the third upward of four hundred. The first death was near the only available water supply. The germs were thus carried all over the camp. In the city of Bombay there have been sixty-seven deaths in the last seven days."

The envoys received an enthusiastic demonstration on their arrival in the city.

### ARMY SCANDAL IN SERBIA.

STORES FOUND BARE DESPITE LARGE EXPENDITURES SHOWN.

Belgrade, May 30.—A huge military scandal has been revealed by the issuance of an order for the mobilization of the Serbian reserves. Scarcely a uniform was found in the magazines. The accounts of the war office, however, show large expenditures.

### WOULD RUN WITH M'KINLEY.

LIEUT. GOV. NORTHCOTT OUT FOR THE VICE PRESIDENCY.

Clinton, Ill., May 30.—Lieutenant Governor W. A. Northcott of Illinois, who addressed an audience of five thousand here today, announced to a number of friends that he is a candidate for the Republican nomination for vice president.

### NO SIGNS OF AGUINALDO.

MAJORITY MARCH GIVES UP A WILD GOOSE CHASE IN THE MOUNTAINS—MORE FIGHTING.

Manila, May 30.—Major March's van of the Thirty-third regiment has arrived at Aparri from Benguet after several days of hard mountain traveling. The men are exhausted and ragged, having followed persistently on Aguinaldo's supposed trail. They had several encounters with the rebels, but found no signs of Aguinaldo.

### BAD AMERICAN REVERSES.

Manila, Thursday, May 31.—On Tuesday night the insurgents rushed San Miguel de Mayumo, province of Bulacan, Luzon, garrisoned by three companies of the Thirty-fifth volunteer infantry. They swept through the surprised town shooting right and left, killing five Americans and wounding seven. Captain Charles D. Roberts and two privates are missing. No Filipino dead were discovered. San Miguel de Mayumo is but a few miles from Manila.

While a band, under escort of troops of the Forty-sixth Infantry, was moving from Bang to Silang, within twenty-five miles of Manila, it was attacked by Ladrones, three of the party being killed.

### THESE RESULTS DIFFERENT.

Lieutenant Steed of Company L, Forty-seventh Volunteers, commanding a scouting party in the southern part of Albay province, has had several engagements with the insurgents in which seventeen of the enemy were killed and twenty-three, including a captain, captured. Six explosive bombs and a number of valuable insurgent documents also fell into the hands of the Americans. The scouts burned the town of Yubi, headquarters of the rebels.

Sergeant Brickley was killed during a slight engagement near Higo, province of Albay, yesterday.

Scouts of the Thirty-sixth and Thirty-fourth regiments yesterday captured thirty-two rifles and 500 rounds of ammunition in Pangasinan province.

### HOBOKEN PAPER MILLS BURN.

### Imperial Chinese Government Refuses to Sanction Their Passage to the Capital City.

### MANY WARSHIPS AT HAND.

Shanghai, May 30.—The British warships Orlando and Algerine are landing a hundred men at Taku, where the French, Russian and Japanese guards already have disembarked. The "Boxers" apparently are without arms except those they have obtained from the soldiers, many of whom are openly joining the rebels.

Yokohama, Thursday, May 31.—A Japanese cruiser has been ordered to Tien Tsin.

### YANKEE FORCES CHEERED.

Tien Tsin, May 30.—American, British, Japanese, German, Italian, Russian and French troops, to the number of a hundred each, have been ordered to guard their respective legations at Taku, but the victory here will not allow them to proceed to Taku on the railway without the authority of the foreign office.

One hundred and eight Americans, with a machine gun and a field gun, landed here last night amid great enthusiasm on the part of the residents. Five Russian and one British warship have arrived at Taku. The British are now landing.

The rescue party of Frenchmen and Germans returned from Chang-Hsin-Tien this afternoon. They confirm the report that the besieged Belgians are now safe at Peking. They found several thousand "Boxers" about the ruins of the Lu-Kow-Chiao and Chang-Hsin-Tien stations. The bridges had been damaged and the rolling stock destroyed. At both places the damage done is considerably greater than at Fang-Tai. The members of the rescue party saw several bodies of Chinese tearing up the sleepers and in one case a mandarin was looking on. The missionaries and others escaped from Pao-Ting-Fu in boats.

The imperial railway directory is endeavoring to fasten the blame for the damage at Fang-Tai on foreign employees, principally British, whom they say should have not left their posts. The foreigners, however, did not leave until they saw the Lu-Kow-Chiao station, five miles away, in flames. An attack had actually been made on an engine from Fang-Tai which was running on the Lu-Han line in an attempt to rescue the Belgians.

Later—More foreign men-of-war arrived today. They comprise five Russian warships, two British warships, one French warship, two British warships and one Italian warship. They are all landing men.

The Chinese refuse to allow the Russian troops to pass the Taku forts.

### EMPEROR WIELDS HIS PEN.

London, Thursday, May 31.—A Shanghai dispatch says that "yesterday the Chinese government issued an edict prohibiting the 'Boxers' organization under penalty of death. The edict, signed by the emperor and couched in equivocal terms, was promulgated really more as an excuse than in condemnation of the movement."

In American mission circles here it is said that the interests chiefly concerned in the disturbed districts of China are American. Several American mission stations are at Pao-Ting-Fu, where the missionaries are reported to be cut off.

Another dispatch received today says that the "Boxers" have attacked and burned the mission station at Lau-Tsin, forty miles southwest of Peking, and murdered the missionaries.

London, Thursday, May 31.—5 a. m.—The correspondent of The Daily Mail at Tien Tsin says: "Heavy fighting has taken place between the imperial troops and 'Boxers' at Tai-Chin-Hi-Sien. The result is unknown. Railway traffic at Peking has been resumed."

### COUNTRY MUCH EXCITED.

Peking, May 30.—Three Christian families were killed Friday by "Boxers" at Shan-Lai-Ying, sixty miles from Peking. At Fang-Tai the railroad station, workshop and locomotive sheds have been gutted and much rolling stock destroyed. A large warehouse full of valuable merchandise also was burned by the rioters. The damage is half a million taels. The whole country is much excited.

Later—The situation is somewhat better. Chinese troops having occupied disturbed localities. The party rescued at Chang-Hsin-Tien defended themselves from a house and fired on the "Boxers," killing several. When the troops of the relieving party arrived the house was abandoned and the soldiers looted and burned it. Two men and one woman are unaccounted for. The gravest anxiety is still felt.

The authorities have attempted to throw obstacles in the way of bringing foreign guards to Peking. The ministers maintained a firm attitude and said that

MICHIGANNE. VALUATIONS INCREASED.

MICHIGANNE PROPERTY SHOWS QUITE A GAIN ON THE TAX ROLL.

The board of review of Michigan township finished its labors in connection with this year's tax roll Tuesday of this week. The board was in session all day. A number of taxpayers of the village called to examine the roll, but the board's serious objections raised the amount of ore that is produced there before the close of the present year.

The township officials do not believe in burdening the company with taxes at this time in view of the great good being done the town. They wish to be as liberal as possible with the company and in this respect they have a large majority of the people with them.

Michigan people who are at all interested are invited to call at J. Hammet & Co.'s new quarters in the Jones' stable at Ishpeming when in that city. **SPECIAL FOURTH OF JULY PROGRAM.**  
IT IS ARRANGED FOR WEDNESDAY OF FAIR WEEK AT HOUGHTON—THE DETAILS.

The special Fourth of July committee, of which Graham Pope is chairman, held a meeting at the Houghton street fair committee's room Tuesday afternoon at which plans for the celebration of the anniversary of the nation's birth, which falls on Wednesday of fair week, were fully discussed.

It is proposed to keep the fair with all its free shows, midway and other attractions in progress during the morning of the same as on the preceding days, while the special Fourth of July features will begin shortly after noon, opening with a grand parade in which all the civic societies of the copper country and the militia companies, both of the copper and iron districts, will be invited to participate. A prize of a beautiful silk banner will be awarded to the society making the best appearance. All the bands of music at the disposal of the general committee will be loaned for the procession.

Following the parade will come the usual patriotic exercises, consisting of the reading of the Declaration of Independence, music and an oration. The orator of the day has not yet been decided upon. It is presumed that these exercises will take up the greater part of the afternoon; what time there is left may be spent in the fair proper, as all the attractions will be opened as soon as the exercises are finished.

In the evening a grand display of fireworks will take place, probably upon the lake, and the display may be counted upon as something worth seeing. A complete program will be selected from a number submitted by the Rochester Fireworks company consisting of set pieces, bombs, rockets and everything imaginable in the shape of fireworks.

The Fourth will without a doubt be one of the greatest days of the fair. There will be ample time to take in the midway and other attractions, as well as a good old time Fourth of July celebration.

**OUTSIDERS TABOOED.**  
An important decision has been rendered by the executive committee of the street fair in that no outsiders will be permitted to erect booths except manufacturers, wholesalers and jobbers, and those for the purposes of exhibition only. It was necessary to draw the line somewhere and it was thought best that, inasmuch as it is to be strictly a Houghton fair in this regard, to make the stand known at the outset.

**CALUMET'S BIG EVENT.**  
The plan at Calumet now is to furnish a number of attractions in addition to the firemen's tournament proper similar to those that will be found at the Houghton fair. There will be something new to see every minute of the subject. There have been very liberal and without doubt the tournament will be the greatest in the history of the U. P. organization.

**SOLDIERS' MONUMENT DEDICATED.**  
COPPERDOM DOES HONOR TO THE FALLEN DEFENDERS.  
Business was pretty generally at a standstill yesterday because of Decoration Day, and the citizens of the copper country who did not go to Calumet to attend the ceremonies found some other pastime to shake off the cares of every day life.

During the forenoon the soldiers' graves in all the cemeteries were decorated according to the usual custom. At Houghton Sergeant MacFarland and Corporal Penberthy took the subject matter and attended to the decorating work; at Hancock Sergeants Saunders and Hecker were in charge of a squad, while at Calumet the home company performed the duty at the graves.

At 11 o'clock the Houghton company, forty-eight strong, in command of Captain Hendrickson, boarded the train for Calumet, while the 11:40 train took D. R. Stiles post No. 174, G. A. R., twenty-five strong, and the Hibernal Rifles, with a turn-out of twenty men, to Calumet.

At Calumet in the afternoon a procession headed by the Calumet & Hecla band, was formed with the G. A. R. as the guard of honor. The line of march ended at Lake View cemetery, where the ceremonies consisted of unveiling the new soldiers' monument, which has been built by popular subscription and is a fitting remembrance to those who risked their lives in the service of their country. Judges Haire and Streeter were the speakers.

Oscar Johnson, a member of the Pickett opera company, was arrested at Stephenson Tuesday morning on the charge of larceny. The troupe played at Stephenson the previous evening and some feeling was aroused over a dispute regarding the ownership of a trunk. One of the female actors claims that Johnson, who is a negro, stole her trunk. He says that the dissensions among the actors have caused this unwarranted attack upon his honesty. He will plead "not guilty."

**DYSPEPSIA**  
For six years I was a victim of dyspepsia in its worst form. I could eat nothing but milk toast, and at times my stomach would not retain and digest even that. Last March I began taking C.A.S. ALIPI'S and since then I have steadily improved, until I am as well as ever was in my life.

Not Much Rioting and but One Man is Hurt—Grand Jury Scores the Police Board.

SETTLEMENT NOT YET IN SIGHT.

St. Louis, May 30.—A terrific explosion, supposedly caused by dynamite placed on the tracks of the Union line, at Fifteenth and Chamber streets shook the buildings and broke the glass in all the windows in the neighborhood early this morning.

On the whole, however, the violent demonstrations and scenes of bloodshed of yesterday in connection with the street car strike situation were followed today by a pronounced lull.

The board of police commissioners met this afternoon and decided to request the sheriff to immediately summon a thousand extra men to help the police keep order during the strike.

In the course of its report, made public today, the April grand jury says: "We believe the police force large enough, if thoroughly disciplined, to put down the mob violence and preserve order.

Machine Itself Is Tossed over the Fence into the Crowd, Two Spectators Sustaining Broken Legs and Others Also Being Injured.

BAD ACCIDENT AT WHEEL RACE.

Waltham, Mass., May 30.—The race meet of the Massachusetts division of the League of American Wheelmen today was marred by an accident, one rider being killed and others hurt.

The accident occurred in the second mile of the four-cornered international motor paced race, the contestants being Everett B. Ryan of Waltham, Albert Champion of Paris, Archie McEachern of Toronto and William P. Stinson of Cambridge.

Champion swerved into the grass and in avoiding him Harry E. Miles, aged twenty-five, of Lynn and William M. Stafford, twenty-four years, of Cambridge, who were riding Stinson's motor paced tandem, were forced up the track over the bank.

ONE DEAD; OTHER DYING.

Both men were thrown, Miles striking head-first upon an electric light pole, receiving a fractured skull and dying a few minutes later.

The motor tandem was thrown over the fence upon a crowd, falling upon a dozen men and women.

Shannahan and George Hill each had a leg broken and two other men and women were rendered unconscious.

The race was won by Archie McEachern, with Ryan second and Champion third. Time, 35:40-3:5.

APPROPRIATE WINDOWS. A. T. Van Alstyn and Archambeau & Co. Make Memorial Displays. Memorial day window displays were made yesterday by two enterprising merchandisers and attracted a merited amount of attention. A. T. Van Alstyn's east window brought home a fact that is every year becoming more apparent, the thinning of the ranks of the boys in blue. The design consisted of a pier, draped with handsome American flags and hung with crepe. The window was carpeted with small flags; the back ground was plain white with a festoon of black. The whole was very simple but in the height of good taste. Archambeau & Co. presented a window design befitting the day. Their south window was solidly lined on all sides with small American flags. Into this, on an easel, was set a large picture of the battle of the Wilderness, and in front, on a pedestal, stood a small marble bust of Abraham Lincoln. Above the picture was a card reading: "Let us honor the memory of those who fought and died that this republic might live." The card in front of the Lincoln bust bore the words: "The union must and shall be preserved."

FOURTH OF JULY. Will Independence Day Be Celebrated in Marquette This Year? "Will Fourth of July be celebrated in Marquette this year?" is a question which is being propounded in some quarters. To date it has had no answer from any authoritative source, and unless a movement is got under way quickly it will have to be answered in the negative. Marquette has had a number of celebrations in the intervening period but it has not found a date of July celebration since 1897. A number of towns in the peninsula are already planning to celebrate the anniversary of the nation's birth and if Marquette intends to get in the procession it will have to line up pretty quick.

FORCING CONCESSIONS NOW. ORGANIZED LABOR IS MAKING USE OF POLITICAL SITUATION. Washington, May 30.—The leaders of the labor unions keenly appreciate the advantage the impending elections gives them for the purpose of obtaining concessions from the political leaders, and are here in force keeping up a pressure on congress and in the departments to secure compliance with demands made by them in the name of organized labor. Several of the unions have their officials here to consult and work with Samuel Gompers of the American Federation of Labor in the endeavor to push through the senate the eight-hour labor bill which has already passed the house. This is a bill which makes an eight-hour working day compulsory in all labor for the government regardless of the individual rights of the contractors who may be under bond for the work. Of course, the theory is that the Republican leaders will give them their way for the sake of not alienating the labor vote, and that the Democrats will not dare set up any opposition. The same element is at work to procure the appointment of Joseph Ralph of Illinois to be director of the bureau of engraving and printing. Mr. Ralph is now custodian in the bureau. His claims to the directorship are wholly political, so far as the Democrats are concerned. Captain Meredith, who used to be director under the Harrison administration, is here at work to procure his own reappointment. He has the Grand Army "influence" at his back and formerly had the labor unions also. Between the two forces, the Democrats of the press who are importuned to see the president in the interest of the one candidate and the other are sore distressed to know what to do. Meanwhile, the man who has earned the office by many years of hard work in the bureau and who has done the best of his time its real manager, is modestly going his way and doing his duty at a salary which congress ought to be ashamed to pay him and which would be quadrupled in private employment if he rendered the same kind of service with equal efficiency. This is Mr. Sullivan, the assistant director, who manages the business of the bureau from A to Z. He has no time or inclination to buttress himself with senators and representatives in his own behalf.

WIPING OUT THE WOLVES. INOCULATION WITH GERMS OF RABIES TRIED WITH GREAT SUCCESS IN THE WEST. Denver, May 30.—Dr. Charles Grewell of the live stock census bureau has returned from a trip to the eastern part of the state, where he made the discovery that the wolves, the source of the greatest loss to range owners, are being rapidly exterminated by a simple process of inoculation with the virus of the rabies. Thousands of wolves have succumbed to the destroyer until the agent reports that the loss of lambs and calves has been reduced from this cause to less than 10 per cent., where, in former years, the loss has ranged as high as 55 per cent. Among the most incomprehensible proceedings to be observed within the vast area of Woolwich reserve are the doings of a small party of officials, one of whom appears to do nothing all day long but sit at a table and tap at the bottom of tin canisters with a couple of bits of stick, something after the manner of a child beating time on a drum. The French inspectors are here for him about as fast as he can tap them, and absolutely nothing seems to come of the game. To the unenlightened onlooker it is quite unintelligible. The tins contain meat, and before they are passed into store it is, of course, inspected. One examines the condition of what is included, and this, in fact, is the way it is done. The trained ear of the expert examiner can tell whether the meat is in a wholesome or a putrid condition by the sound which is when tapped with the stick, just as the examiner of railway carriage wheels is supposed to be able to tell whether the wheel he taps with his hammer is cracked or not. The rapidity with which the business is gone through and the seeming inattention of the performer with the sticks and his total indifference to all sorts of noises about him render the procedure a very curious one to watch. The test is said to be practically infallible.—London News.

CHICAGO THROUPEL ACCIDENT. Chicago, May 30.—A Chicago, Evanston & Edgewater electric car was derailed tonight. Over a dozen passengers were injured, five seriously, as follows: Mrs. Catherine Curson, Mrs. O. Donaldson, Mrs. Henry A. Mosher, Mortimer John Kline and John Adamson. HAWAII CHIEF JUSTICE DEAD. San Francisco, May 30.—The steamer Gaelic, from Hong Kong and Yokohama, via Honolulu, brings advices from Honolulu announcing the death of Albert Francis Judd, chief justice of the supreme court of Hawaii, on the 20th. He had been ill for several months. WHOLESALE DROWNING. Ahmedabad, India, May 30.—A portion of the embankment of the river here caved in today while many men, women and children were washing clothes in the river. Thirty lives were lost.

FACTS ABOUT THE PHILIPPINES. There is No Pacification Yet and Americans are Hated and Distrusted by the Natives.

The Cleveland Plain Dealer of Sunday contained this letter from its special correspondent, George Ade, treating on the situation in the Philippine islands at the time it was mailed, (it is dated April 21 and was written at Hong Kong after the correspondent's return from Manila to that city), which will be found instructive as to the problem before us in that archipelago, and full of interest: One month ago I went down to Manila to see the sights and make certain inquiries as to the present conditions in the Philippine islands. Some of the inquiries were answered in a sufficiently convincing manner, and I learned a few things which I believe will interest people at home. No doubt a good many people are in doubt as to what we have accomplished regarding the conquest of the Philippines. If so they somewhat reflect the state of mind of American soldiers and civilians in the islands. It cannot be denied that the situation is puzzling even to those who have been regarding it at close range. Anybody coming from the United States to Manila will discover that there are several "Philippine questions." The question at home is, "What is our duty toward the Filipinos?" The question with the army is, "How can we stamp out the insurrection?" The question with the advance guard of American business men is, "What shall we do to make money?" Therefore, when a tenderfoot, newly arrived from "the states," begins to ask questions as to the best means of inducing the Filipinos to love us and accept our beneficent government, he is regarded by some as amusing and surprising. In America the Philippine problem is one of ethics. In the islands it is a struggle with hard facts. As one of our distinguished countrymen expressed it, "It is a condition that confronts us, and not a theory."

SOURCES OF INFORMATION. Let it be understood in advance that I do not presume to speak very largely from my own observation. I spent only three weeks in the island of Luzon, and if I had depended for information, on what I actually saw I would be qualified merely to record impressions. I did learn several things by asking questions of people who are in a position to know what is what, and who had no reason to misinform me. They were, for the most part, unprejudiced witnesses for or against the policy of the government. The greater part of the information which follows was obtained by asking questions of business men who have had trade relations with the natives in Luzon and other islands, army officers who have fought and parleyed with the insurgents, newspaper correspondents who have accompanied various military expeditions into the remote portions of the islands, and last, but not least, the private soldiers who have mingled with the natives from day to day in a familiarity which has bred the usual contempt.

It may be argued that these people are well qualified to speak for themselves, which is true. But for prudential reasons very few of them choose to give their testimony in any public manner, and for another thing they do not understand just what the people of the United States want to know about the situation overseas. It is accordingly indicated, the questions which seem most important to them, in the excitement of military operations, are not the questions which present themselves most frequently to the people at home. "What is the Philippines doing everyone is talking about these days," is the phrase in the killing and capturing of the separate bands of insurgents. I take it that the reader has become bewildered by the oft-repeated and technical military reports and wants to know, briefly, just how we stand with the inhabitants and what is the justice to them and what is the situation as to whom they owe allegiance. The victors of the present day, who learned many facts which have not been reported at home, partly because those making the reports do not care to reveal the whole truth, or because they seem to think that these facts have no value to the people at home, have a ship which has returned and they wanted to tell the truth at all times without fear or favor.

LOOKING FOR "PACIFICATION." After one has been in Manila a few hours and had a few candid talks with the natives, it is difficult to remain for a long time he best to believe that the islands are in no such "pacified" condition as the people in the United States are prone to believe. A few trips into the country, the visiting of a few garrisons and the heaped up testimony of all disinterested persons will prove to him conclusively that "peace" in the Philippines is of very unstable quality. If the Philippines islands are "pacified" then we must concede a new meaning to the word "pacified." A Tagalo who is dodging around in the jungle taking an occasional wild shot at you is not "pacified." He may be "rattled," he may be afraid of you and lack the indiscreet courage to come out in the open and be killed in orthodox fashion, but as long as he has the gun and is animated by the desire to shoot you—he is not "pacified."

Everywhere there seems to be collusion between the people in the town and the insurgents outside. A native runner usually precedes the soldiers and sounds the alarm. FEW MAUSERS SURRENDERED. The most significant fact tending to prove that the Filipinos are not in a peaceful mood is that the arms used in the insurrection have not been surrendered. It is estimated that the insurgents had a total of 22,000 rifles, most of them Mausers, with a few Springfields and Remingtons. Only 2,000 or 4,000 rifles have been captured or purchased. The government now pays \$30 (Mexican) for every rifle turned in by a native. As a result of this liberal offer many old Remington and defective Springfields have been given up, but the natives

a night and day guard at every bridge. Wagons and pack trains are fired on from ambush every day. THREATS OF AMBUSH. These attacks are not reported unless someone is killed or wounded. The soldier who is called upon to perform any duty outside of a garrison is in greater peril than he was when the insurgents moved in large bodies. John T. McCutcheon, correspondent for the Plain Dealer, recently compiled some interesting figures showing that the American losses are greater since the guerrilla warfare began than they were during an equal period of fighting against organized armies. Formerly when eight or ten men were killed in a skirmish the news was cabled to America. But the correspondents cannot keep track of the scattered assassinations of the guerrilla campaign. The news never reaches the public through the official reports to Washington. A dozen American soldiers may be killed at a dozen remote points, but there is not a line of cable news to show for a total fatality that would mark a serious engagement. So it happens that for many weeks there has been little news cabled from Manila, because the fighting has been small and desultory and scattered over vast areas. It is not strange that the absence of war news, coupled with the repeated assurances that the war is "about ended," has led people at home to believe that conditions in the Philippines are favorable to a peaceful occupation. Such is not the case.

"LADROONES," NOT "INSURGENTS." It is true that the insurgent armies have been scattered, that many of the leaders of the insurrection are now under surveillance in Manila, that Aguinaldo has been chased into a remote hiding place, and that the reorganization and mobilization of a large army seems practically impossible. On the other hand, it is true that the spirit of rebellion is still active and that the insurgents continue a pestering and plundering campaign in small bodies that cannot be trapped into battle. In the official reports the insurgents are called robbers or "ladroones." The so-called "ladroones" are simply the same old insurgents, who are operating in small bodies because they have learned that they are not competent to fight on the European plan. They have become guerrillas that they may avoid being slaughtered and also make more trouble for the Americans. From their standpoint they have done a wise thing. From our point of view it would be much better if they would make a stand up. They are like civilized warriors. It would simplify matters.

There is much testimony to the effect that these small bands commit depredations on natives and Chinamen as well as on Americans, and that they prefer a roving life of brigandage to a quiet agricultural career in a nipa shack; but the fact remains that the primary object of their organization is to kill American soldiers and continue the struggle for Filipino independence. So you may call them "ladroones," robbers, bandits or anything else you choose, without materially changing their attitude toward the American rule.

The Manila newspapers, which are censored down to the punctuation marks, never use the words "insurgents" or "rebels" any more. There is no warfare any more except with the "ladroones." Not long ago these newspapers reported that a garrison was attacked at night by "robbers." The "ladroones" is a standing joke around Manila. REPUBLIC STILL ORGANIZED. It is commonly believed in Manila that the Filipino government retains an organization, necessarily sub-rosa, in many sections, that taxes are still collected and that the operations of the guerrilla bands are directed by the leaders, who are now assembled in Manila, enjoying the leniency of the United States government. Nearly everyone to whom I spoke was frankly of the opinion that the Filipino leaders had come into Manila and put themselves on parole so as to get together for a conference and reorganization. No one believes that they have really chosen to accept American rule without further protest. Although the present fighting is carried on by small bands, it does not follow, as most people at home seem to believe, that these bands are independent of each other and represent so many irresponsible private enterprises. Colonel Montenegro of the insurgent army, who suddenly came into Manila one day the other day to renew old friendships, told me that Aguinaldo, before fleeing from Tarlac, reorganized his army into small companies and ordered a guerrilla warfare. Whenever and wherever the insurgents dug trenches and made a stand in force they were overgenerated, flanked, demoralized and shot full of lead. Since they have begun to roam in small companies ambushing, taking pot-shots at scouting parties and outposts or pouring an occasional night volley into a garrison, they are no longer organized.

The effort to surround and capture a "robber band" is rarely successful. Before any detachment of soldiers leaves a garrison for a "chike" in pursuit of "ladroones," the news travels out from the town, and the bandit crew disappears in thin air. Everywhere there seems to be collusion between the people in the town and the insurgents outside. A native runner usually precedes the soldiers and sounds the alarm. FEW MAUSERS SURRENDERED. The most significant fact tending to prove that the Filipinos are not in a peaceful mood is that the arms used in the insurrection have not been surrendered. It is estimated that the insurgents had a total of 22,000 rifles, most of them Mausers, with a few Springfields and Remingtons. Only 2,000 or 4,000 rifles have been captured or purchased. The government now pays \$30 (Mexican) for every rifle turned in by a native. As a result of this liberal offer many old Remington and defective Springfields have been given up, but the natives

some new trick to deceive them. In brief, the effort to coddle them has not been successful. If there is anything which any visitor to Manila may learn to his entire satisfaction it is that the insurgents have not been won over by the policy of toleration. For one thing, the very men who have been appointed to enforce this policy have had no sympathy with them. They have applied it in a perfunctory way. The army is in favor of exterminating the rebels instead of pleading with them to be good. If it were left to most of the commanders in the field they would make short work of the insurgent leaders who are now enjoying the freedom of Manila. Every native captured with a weapon in his possession would be treated as an outlaw. There would be a series of striking object lessons in every neighborhood and in a short time there would be less contempt for American rule and a wholesome fear of lifting a weapon against an American soldier. FOR A SEVERE POLICY. The policy of wholesale and severe punishment if applied in the Philippine islands would doubtless arouse a storm of indignation in the United States, and yet nearly every American in Manila, soldier and civilian alike, advocates it very frankly and says that before the natives are brought to their senses the government will have to "come down hard on them." The army claims to be badly handicapped by instructions, supposedly emanating from Washington. Soldiers are not to fire on any body of natives until the natives open fire. Prisoners are to be taken and sent to Manila to be released if they promise to behave. The commanders are to be sent to Manila to pay their compliments to the governor general. As one soldier said, "we hike day and night to get these niggers, and then when we bring them on Manila they give us every one of them a dollar and turn 'em loose. We won't bring any more in if we can help it. We'll leave 'em where we find 'em, but Aggie won't have any more use for them."

When one has heard from the soldiers themselves the stories of comrades being waylaid and slaughtered and afterward mutilated he can understand why the soldier does not take kindly to any plan of forgiveness and forbearance. As he is the target for the insurgents, it is natural that his views should be so selfish and resentful. A man 1,000 miles away can afford to entertain the most humane and charitable opinion as to the proper treatment of the misguided Tagalo. But the soldier who has gathered up the hacked corpses wants revenge. He is out for blood. When it is suggested to him that he should be gentle with his enemy his language is not fit for publication. But never fear. He is not as gentle in practice as he is in the plans and specifications mapped out at Washington. OUR FRIENDS IN THE ISLANDS. Have we any friends in the islands? Yes, the European business element in Manila and the other ports are in favor of American rule because they see in it the only hope of a stable government with protection for property interests. The mountain tribes, having no political convictions, are indifferent. The Moros of Mindanao and other southern islands have never made any resistance. The Macabebes are the one tribe in Luzon that may be counted upon to stand strong allies of the Americans. They are hereditary enemies of the Tagalos. But the Tagalo who is believed to be sincerely in love with American rule is an absolute rarity. One trusted president after another has proved traitor to the Americans after making the most profound attestations of his loyalty. A well known general not long ago said that so far as his experience went only one president of every twenty-five could be depended upon to remain faithful to his promise. The commanding officer in charge of the district usually leaves for some other post that the president (mayor or town governor) is collecting taxes and recruiting troops for the Aguinaldo government. If we have comparatively no friends among the natives the reasons are not hard to discover. In the country the Filipinos are incapable of self-government and that the United States really wishes to deal justly and humanely with them, there is still no denying that we permitted them to believe that they would be granted their independence, that later on we refused to consider the claims and that up to date we have killed about 15,000 of them. The only law we have given them up to date is martial law, which is always hateful. Whatever may be the facts as to the outbreak of February, 1899, the natives blame the Americans for the present war. SPIRIT OF AMERICAN SOLDIERS. An invading army seldom makes a pleasant impression on the country being invaded. Certainly the American soldiers have not taken any pains to act as forerunners of the tender policy of "benevolent assimilation." They regard the natives with good natured contempt and speak of them as "niggers." You never hear them called anything else in the army. The rough and ready volunteer soldier is over here to "kill niggers," not to win their love and esteem by elucidating the advantages of American rule. These natives do not understand our unceremoniousness or the way of doing things any more than we can measure their native craft and hypocrisy, with its added veneer of Spanish politeness. The usual occupation of soldiers in a garrison is to "kid" and devil the inhabitants, whom they regard as a strange growth belonging to the same social division as domestic animals. Therefore, although the natives have learned to fear our soldiers in battle, it is surprising that they have no high respect for them? The soldiers are familiar with them and at the same time contemptuous of them. The poor native is unable to "size up" this can soldier, but he doesn't like the breed. If civil government is to be established in the Philippines it must not be founded on the presumption that the islands are "pacified" and friendly to American rule. It will be the many other questions bearing on the rather complicated situation, but perhaps the one of "pacification" is enough for this first letter.

Ishpeiming and Vicinity.

VERY CREDIBLE OBSERVANCE.

FINE WEATHER MADE THE DECLARATION DAY PROGRAM A NOTABLE SUCCESS.

Ishpeiming citizens generally joined with the civic and military organizations and veterans of the G. A. R. yesterday to fittingly commemorate the lives and deeds of the old soldiers who had at rest in the Ishpeiming and Negaunee cemeteries. Fine weather and general interest contributed to the entire success of the program.

The day was an absolute holiday. Work was suspended at all the mines and the business houses were closed by the Ishpeiming people and the visitors to the city through the streets until night-fall. In the morning the Lake Superior Guards and the Ishpeiming Light Guards accompanied the G. A. R. men to Negaunee, where the graves of deceased veterans were decorated. Dinner was served the old soldiers here by the Women's Relief society at noon. At 1 o'clock the crowd began to assemble at the Co-operative square, where a large platform had been built for those who were to participate in the program and the veterans. The organization which were to march in the parade assembled there.

The regular program was taken up about 2 o'clock and was concluded without a hitch before a concurrence of a couple of thousand people. The square was fairly filled. All gave an earnest attention to the exercises, which were very entertaining. The musical numbers were good. The addresses were delivered by Rev. J. M. Langan and T. J. Dundon, who spoke on appropriate themes in a spirit of true patriotism suited to the sacred duty that all had assembled to perform.

At conclusion of the exercises Marshals James Bryden and August Jacob, assisted by John Lacey, formed the parade which escorted the veterans to the cemeteries, where the graves of their deceased brothers in arms were decked with the freshest flowers and blossoms. The marching column was quite a long one, thanks to the interest taken in the observance of the day by the organizations represented.

The military aspect of the parade was particularly creditable. The Ishpeiming Light Guards and the Lake Superior Guards turned out neatly uniformed and well drilled contingents, the former having about sixty men in line. In addition, the Woodmen degree team made its first appearance and was greeted with favorable comment. The body of the new uniforms, which were received yesterday morning, is green cloth. They are neatly trimmed with red and present a stylish, natty appearance. Caps to match will be procured.

Yesterday white caps were worn. The members carry special drill axes with aluminum heads and under Captain Nugent's direction they went through intricate maneuvers with skill and precision. The team has its own drum major and will on future occasions be escorted by a life and drum corps.

Delegations from the Swedish Home society, the Hematite camp of Woodmen, the Ishpeiming fire department and the Union Canadiani Francese also appeared in the line of march. The common council and ex-city officials took part in the parade in carriages. The Ishpeiming City band furnished excellent music.

As usual, the G. A. R. veterans attracted attention. Charles Towne post was represented by a large proportion of its members, but today this is a handful of the men who once belonged to the organization. Among the veterans marched a Jackie who was much younger than his companion. William Bazley is the war's name. He was attired in the regular seaman's uniform with rolling trousers.

Mr. Bazley is a stranger to this section, but he has friends here. He has been in Ishpeiming ten days but will remain. He has served Uncle Sam about eight years. Last spring on May 29 he was honorably discharged from the United States monitor Monitor at Manila bay. In the course of his naval service he has been all over the world. He is a very interesting talker.

The parade traversed the main streets before going to the cemeteries. When the sacred duties at the graves of the dead were performed the city was once more bright by the marchers. On arriving here the parade was disbanded and the formal observance of the day was concluded.

Chairs, clothing, neckwear, dry goods, carpets, rugs, beds, etc., going for less than cost at Braastad's.

THEY DEPARTED SUNDAY.

A letter dated May 24 received by a friend of Bigelow ropes conveyed information that he and Clark Youngs of Marquette expected to sail for Cape Nome Sunday last. Their departure was originally set for May 18, but a delay in the arrival of their ship compelled a postponement, which was welcome as they needed the extra time to get their equipment together. Just previous to writing the letter in question Bigelow and Mr. Youngs had visited their boat, which had arrived from San Francisco. They boarded the craft without trouble. Their berths were located in a small room containing sleeping accommodations for four others besides themselves and were not very attractive. A casual examination of the steamer satisfied them but on attempting to leave they were detained by a health officer and were compelled to remain on the craft for five hours. The vessel was quarantined because it had cleared from San Francisco, where there is a bubonic plague scare. Ropes wrote that Seattle as thronged with prospective argonauts. The stores dealing in supplies for the northern country were crowded with purchasers who stood about waiting for their turn to be served. He suggested, what is now generally admitted, that too many argonauts are going north and expressed a fear that the new El Dorado will be badly overdone.

Don't overlook Braastad's bargain offerings. Big money saved on dry goods, clothing, shoes, etc., for this season.

FRIDAY'S MEETING.

IT PROMISES TO BE WELL ATTENDED BY MUNICIPAL OFFICERS AND TAXPAYERS.

The prospects are that the taxpayers' meeting to be held here Friday will be quite a notable gathering. Mayor J. M. Hartnett of Escanaba conceived the idea of having it called, and he undertook the task of inviting municipal officers from all peninsular cities. It is believed a goodly number of them will attend it. The purpose of the meeting is to discuss the problem of equalizing the burden of taxation borne by the upper peninsula counties and to devise means of doing away with inequalities which now exist.

The meeting is open to all taxpayers, who may participate in its deliberations regardless of the place of their residence or the nature of their property. The session will be held in the Nelson house Friday afternoon. Just what will be done at the meeting cannot be forecasted, as the program will depend on the wishes of the gentlemen who respond to Mayor Hartnett's general invitation. However, action consistent with the purpose for which the assembly was called together will probably be taken.

There has been some complaint that the session was not called at an earlier date, as some peninsular boards of revision have either finished or are nearly busy with their labors. This is immaterial, as the boards of equalization which meet in the fall may still be influenced by the result of Friday's deliberations.

ISHPEMING IN BRIEF.

Elmer Jones of Iron Mountain was here yesterday morning.

John Rule of Eveleth, Minn., was an Ishpeiming visitor yesterday.

M. J. Griffin left on a business trip to Duluth yesterday morning.

Captain William Allen of the Bessie mine was a visitor here yesterday.

T. F. Cole of Ironwood was here yesterday on business of the Oliver Iron company.

J. A. Wilson, Peter Pascoe Jr., and Bert Anderson were Republic visitors here yesterday.

A number of families picnicked at the Country club yesterday. A pleasant outing was enjoyed.

Charley Kruse has purchased a very stylish trap. It is one of the neatest turnouts in the city.

Two chaps who were arrested for being drunk and disorderly languished in the lockup yesterday.

Quite a crowd of sports assembled at Joe Pope's place Tuesday evening to hear the bulletins from the McCoy-Ryan fight.

A dance at Anderson's hall Tuesday evening under the auspices of the auxiliary Liberman organization attracted quite a crowd.

Vernon, the Wonder, a hypnotist of note, will be the attraction at the Ishpeiming opera house all next week. He performs wonderful feats.

A delegation of members of the Ishpeiming Golf club were entertained by the Marquette organization yesterday. Those who went down played on the Queen City links.

Joe Choyanski, the famous pugilist, will appear at the opera house with a farce comedy company the evening of June 11. He is an actor of no mean ability. Ishpeiming people will be curious to see him.

Members of the Alumni association are requested to remember the meeting called at the high school tomorrow evening at 7:15. Important business will be considered and a large attendance is greatly desired.

The members of the "What Happened to Smith" company were compelled to go to Negaunee for hotel accommodations yesterday. The Ishpeiming houses were full. There is an unusual press of travel just now.

Warren H. Manning of Boston, the landscape gardener who has charge of the work recently undertaken by the Cleveland-Cliffs Iron company here, arrived in the city yesterday morning for a stay of a few days.

The plans and specifications for the upper part of the proposed manual training building here received from the architects. There is no reason now why the structure should not be completed without delay.

Strangers were numerous in Ishpeiming yesterday. A big delegation of Negaunee people spent the day about the city while the neighboring locations were also well represented. The memorial day services were the attraction.

"Lynwood," a southern drama in four acts, presented by the Catholic Dramatic club, is the offering at the Ishpeiming theatre this evening. The seating capacity of the house will be taxed. The play will be repeated tomorrow evening.

Ishpeiming people patronized the several church entertainments in swing yesterday and last evening quite liberally. The pictorial lecture given by the Brown-Boyer was one of the diabolical "Tour Through Cornwall" at the Salvation Army hall proved very entertaining.

Tenants of the Cleveland-Cliffs Iron company are displaying commendable zeal in preparing to engage in the competition for prizes for the best kept premises and the best examples of home gardening offered by that concern. Many families are already busy planting and improving their lots in preparation for the first visit of inspection.

KEEP your blood pure and your stomach and digestive organs in a healthy condition by taking Hood's Sarsaparilla and you will be WELL. Snaps are numerous at Braastad's. Bargains in all departments.

CHAMPION.

SUNDAY TRAIN POPULAR.

IT IS CERTAIN TO BE LARGELY PATRONIZED DURING THE SUMMER SEASON.

The running of the Sunday train from Michigamme to Marquette is a service which the people of Champion appreciate very much. It will give them an opportunity to spend their Sundays with friends at Ishpeiming, Negaunee or Marquette.

As the regular trains run Sundays the only way Champion people could get down to Marquette was to try to huddle to catch the Milwaukee train. In the evening it would be necessary to again take a rig from Humboldt back. While the drive is a pleasant one only those who have horses could afford to make the trip frequently.

The Sunday train will surely be a paying one as there are many up here who will make the trip regularly now that they can get home in the evening at an early hour. Last Sunday about twenty-five Champion people went out while there were more than that number from Michigamme. It is thought that there will be Sundays during the summer when from 100 to 200 persons will take advantage of the cut rates from Champion, Michigamme and Humboldt.

Some complain that the train leaves a little too early to suit them, while others say the time of departure is about right. It leaves Michigamme at 8:15. One good feature about the service, at least many here think so, is the return trip being possible before the departure of the train for Duluth on the way. The Sunday train will pull out of Marquette at 8 o'clock. Tickets will be good on no other train. This will bring those who are inclined to stay late out of Marquette at a reasonable hour. If tickets were good on the Duluth train there would be nights when all the passengers could not be brought through without extra cars. And, besides, very few of the excursionists would care to come home on that train as about half the time seats would not be available.

The fare from this town, with tickets good to stop off at Ishpeiming, Negaunee or Marquette, is seventy-five cents. The rate is considered reasonable.

MARRIAGES GALORE.

Champion has had its full share of weddings this week. There was one Monday morning, two Tuesday and another is scheduled for today. On Monday Edward Goslin and Miss Mary Perant were made man and wife. Both are young people well known here. The happy pair were entertained during the day at the home of the bride's sister. A feast was served to a number of the young people's friends and in the evening all enjoyed dancing and other diversions.

Two brothers named Laforise whose home is at Champion were married Tuesday morning to the Betty sisters of Humboldt. It was a double wedding and the ceremony was performed by Rev. Father Girard at the Catholic church.

Victor Broad and Miss Genette Bastedo will be united in marriage today.

IN THE NEW PLACE.

Painters and plumbers have had possession of the Champion Co-operative society's store this week. Some of the goods were moved from the old place early in the week and now nearly all the business of the society is being conducted at the new stand. The store is a beauty and no mistake.

A portion of the goods ordered for the new store arrived some days ago. It will be a few days yet before everything is in place, but business will not be interrupted, as there is all kinds of room in the building for unpacking and putting away goods without interfering with the regular work.

SWIPED THEIR HAND CAR.

Two of Champion's young men took a couple of lady friends on a fishing trip some miles up the Huron Bay line Saturday. While they were at the stream some boys came along and went off with their hand car. The young men were in a fighting mood when they discovered the car gone. But there was nothing to be done save to start homeward on foot. Before they had gone far, however, they came to the car, it having been left behind by the boys.

HURT ON THE MESABA.

On Monday John Trevarthen received a telegram from the Mesaba range advising him that his brother, Captain Thomas Trevarthen, had been injured in a mine there. No particulars were given, but Tom must have been badly hurt as John was summoned to go there at once, and he left that night. Mr. Trevarthen lives in Champion a number of years and is well known to the older residents of the place. He left here in 1888.

WILL MEET TONIGHT.

The members of the Champion camp of the Modern Woodmen of America are requested to attend a regular meeting this evening. Steps for attending the big log rolling picnic at Ishpeiming on Monday, June 25, will be taken. It is the wish of the officers that the camp turn out in a body that day. The celebration promises to be a hummer.

SNAP SHOTS.

Joseph Gill has disposed of his home here. Houses, especially desirable ones, are very scarce in Champion just now.

Charles Eisenbaum left Tuesday for the copper country on a business trip.

Miss Mayme Connell of Ishpeiming spent Sunday with friends in Champion.

Amos Saladine was in town Monday and placed a new Henning piano in the home of Mitchell Leclair.

Dick Brown and W. J. Dower of Michigamme attended the Goslin-Perant wedding here Monday.

In and About Negaunee.

MAY EMULATE REV. BETTES.

CALUMET REFORMER IS NOT THE ONLY ONE ON THE UPPER PENINSULA.

Rev. Bettes, the Calumet reformer who keeps one eye on the saloonkeepers and the other on the shrievally, had better look to his laurels or his Negaunee disciples may snatch them from his brow. A local temperance organization is contemplating a crusade for Sunday closing. To this end a committee visited every saloon in the city to which access could be gained last Sunday and members of the delegation bought drinks, intoxicating and otherwise.

The Mining Journal understands that this visit was made with the purpose of ascertaining the true state of affairs preliminary to determining what may be done to secure an enforcement of the law. It is most likely that due warning will be conveyed to Negaunee liquor dealers of an intention to enforce its provision strictly before any radical action is taken.

What may come of the agitation here is problematical. Whether the "reformers" are in earnest or whether they have only experienced a spasm of unusual righteousness remains to be determined. It is certain, however, that without knowledge of the fact Negaunee saloon men sold liquor to men not altogether friendly to their interests Sunday last.

AGREEMENT WAS LACKING.

SOME STORES WERE CLOSED. OTHERS WERE OPEN, YESTERDAY MORNING.

Yesterday was a general holiday here. Work was suspended at all the mines and the business houses were closed the greater part of the day. The result of a binding agreement between the merchants was evident yesterday morning when some stores were open for business while others were tightly closed. In a majority of instances, however, the doors were shut after the first press of business had been cooled for and were kept closed the remainder of the day.

In the morning members of Charles Towne post, G. A. R., marched to the Negaunee cemeteries and decked the resting places of their deceased comrades. This duty performed they went to Ishpeming where they had dinner being guests of the Women's Relief club. The observances here were of an informal character and in the afternoon large numbers of Negaunee people went to Ishpeming to participate in the regular program.

A fair crowd remained behind, however, and the streets were busy and full of life all afternoon. The bicycle races at Union Park attracted quite a contingent of sports while numerous picnic and other outing parties amused themselves.

SUED THE WRONG MAN.

There was a funny case tried in the Washington courts lately. A butcher of the name of Nelson had an electric fan in his stall at the market to cool the atmosphere and away the flies. It was manipulated by a small thumb-screw beneath the counter, and when Nelson discovered that he could charge his body with electricity by placing his hand or foot against the thumb-screw, he indulged in practical jokes upon such of his customers as he thought were amiable enough to endure them. When some handsome young girl or jolly housewife would pick a leg of lamb or a roast of beef to examine it, Nelson would place his hands upon it, close the circuit, and she would receive an electric shock. Nobody was hurt or badly frightened, and Nelson made a good deal of fun for his customers. One day, however, a man by the name of William Schultz, who has no sense of humor, and hates practical jokes, picked up a piece of corned beef from the counter of Nicholas Auth, who had the adjoining stall. Mr. Auth had left his place in charge of his neighbor Nelson for a few moments while he went to do an errand. When he returned Mr. Schultz, who was one of his regular customers, was dancing around like a wild man and crying for vengeance. It seems that Nelson, with his hunger for fun, had taken hold of the chunk of corned beef which Schultz had picked off of Mr. Auth's counter, and had given the nervous man a shock from which he claims to have suffered both in body and mind. The butchers tried to soothe him, but he would not be consoled, and went straightway to a lawyer and brought suit for \$10,000 damages against Mr. Auth. The case was tried this week, but the jury found for the defendant, on the ground that Mr. Auth had nothing whatever to do with the case. While it was being tried it was Nelson's electricity, and the latter was responsible for whatever damage Mr. Schultz had suffered. Schultz had sued the wrong man.

COLD STEEL OR DEATH.

"There is but one small chance to save your life and that is through an operation," was the awful response set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. Large Crowds Turn Out to Witness the Parade and Attend the Patriotic Exercises—Business Suspended and Flags Displayed.

HONOR TO HEROES OF THE CIVIL WAR.

Memorial day yesterday under the auspices of Albert Jackson post, G. A. R. In the minds of the children were indicated lessons of patriotism and on the graves of the dead soldiers were strewn flowers—a tribute to their patriotism which make possible the present patriotic impulses of a united country with more than continental boundaries.

While the celebration was not as elaborate as it has been in some years the feelings which prompted it were just as genuine and as well calculated to furnish the guarantee that the graves of the heroes of the civil war will be decorated and their service to a grateful country held in loving remembrance when the last of the boys in blue have passed away and when other auspices than that of the Grand Army of the Republic.

THREE TIME IN YEARS. The procession formed shortly after 8 o'clock on Bridge street in front of the old high school building. Then under the marshmanship of Captain Kreuger it moved over a short line of march to the opera house. The line was composed of the band, Albert Jackson post, Company L and a large number of school children.

Before the procession arrived at the opera house there was already a good sized audience in waiting, and when it made its advent, enough more followed quickly to fill the house to capacity.

MANY GOOD FEATURES. The exercises opened with an instrumental number by the Catet Grey band after which Commander P. C. Beanston called upon the Rev. J. M. Rogers of the Presbyterian church to make the opening prayer. The next feature of the exercises was the reading of General Order No. 6 and Lincoln's address at Gettysburg, by Adjutant Blanchard.

INFLUENCED BY EXAMPLE. It is taken to be the sentiment of the American people that the final impulse of free government will be largely influenced by the character and uniform activity of the popular patriotic impulse.

NOTED FOR GRATITUDE. "One of the marked characteristics of the people of the western hemisphere is their gratitude. While the sentiment of gratitude is one of the noblest emotions of the human breast, that of ingratitude and degeneracy are synonymous, if not indeed, identical, and the vice of an ingrate nation beside that of a similarly base citizen is intensified and emphasized by as much as the magnitude of a group of relations exceeds that of the individual.

A NIGHT OF TERROR. "Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning," writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and \$1.00. Trial bottles free at the Stafford Drug Co.

man as a unit to society as a whole. Hence we discover a sentiment more offensively obtrusive than a worthy popular, imprudently affirming that a nation can owe no man anything.

HOPE OF THE WORLD. The hope of the world and the Israel of nations is America. The choicest energies of the vital fluid of the Latin, the Gaul and the Celt have been poured into the richest blood of the Angles, Saxons and Norman princes, of the Tudors, Plantagenets and Stuarts.

It is supplemented and perfected them all, its grandest mental concept is not splendor, as with Chaldea, not militarism, as with Persia, not letters, as with Greece, nor government, nor religion, as with Rome or Judea, but liberty. With this as its motto it landed on Plymouth Rock, defied the boundaries of the Ohio, forded the Mississippi, scaled the Rocky mountains, blazed its path to the Pacific, dashed through the Golden Gate, dotted the islands of the sea and planted itself in the Philippines as the beacon light of hope for the tardy unfoldment of eastern nations, and as a guarantee of a peaceful revolution in the thought and economic conditions of those benighted lands, by means of the triumphant force of western civilization.

FLOWERS FOR THE DEAD. The exercises concluded with the benediction pronounced by Rev. Rogers, after which the audience filed out while the band continued to play patriotic airs. At the conclusion of the morning's exercises the members of the post took carriages and drove to the various cemeteries, where they placed flowers on the graves of all the soldiers.

LEAVES FOR THE EAST. Secretary Harris of Citizens' Committee Seeks Other Fields.

W. B. Harris, secretary of the Citizens' committee, and formerly agent of the Western Express company, is today for the east, where he will take a more remunerative and responsible position than either of the two he has held here.

ORGANIZED A POST. Company L Members Perfected a Permanent Organization Yesterday.

Twenty members of former Co. L of the Thirty-fourth Michigan met yesterday afternoon and perfected a permanent organization. The purpose of this is to hold the company together for Memorial days and other occasions when it is desirable it should turn out as a body.

Busy Census Enumerators Will Ask Everybody in Marquette That Many Questions.

THEY HAVE SOMETHING TO DO BE-SIDES COUNT NOSES.

How the Public Can Help the Work Along and Insure a Full Count for Marquette—Some Thought Required in Order to Give Answers.

THINGS WHICH WILL BE ASKED.

The work of finding out how many people there are in Marquette will begin tomorrow morning and if that much time is needed it will continue through the fifteenth of June.

The public is principally interested in the grant of census, but that is only one of many things into which the census bureau will have its enumerators inquire. The enumerators are provided with a blank to fill out for each person in their district and on that blank are twenty-six questions. With such a list of subjects on which to get information it will take the enumerator quite a while and with most of them it will require diligent hustling to get over their territories in the prescribed time.

SOME HARD TO ANSWER.

If the public is acquainted with the duties of the enumerators and the questions which they are bound to ask it will simplify the work considerably, and it is for that purpose that this article is published. As will be seen by a list of questions given below there are several questions which by no means everyone will be able to answer at first call. By no means everybody can tell off-hand just where his father and mother were born. How many questions have you been to school is a question which will require a little thought. If the people who are being counted and catechized will read the questions over before the enumerator reaches them they will be able to save him, and themselves as well, a lot of time.

Can you answer these? 1. Surname, christian name, initial. 2. Residence, street, number of house. 3. Relationship of each member to the head of the family.

END OF THE WORLD TO THEM. As far as the census bureau is concerned the world comes to an end at midnight on May 31 and dies before the census enumerator reaches him will be counted, just the same as if he had continued his residence on this earthly sphere.

Another thing: Every person is supposed to be counted at his legal place of residence. He may be in Kokomo or Hoboken but if he belongs in Marquette he should be answered here. This is a point which people who are at home will do well to look out for and if they know of any such they should inform the enumerators of them when they call. People who keep boarding houses should inform the enumerators of the number and names of their boarders in order that all can be counted. It should be a point of pride to have as many people counted in Marquette as can be legitimately counted here.

Most of the work of the enumerators will be done during the day, in consequence of which fact it is the women of most households who will have the interview. They should see to it before the enumerators come around that they are posted on the answers to the questions as they apply to every member of their household. If all do this the enumerator will be saved the trouble of making a second trip home to the wife of the inmates of the house will be saved also.

DEATHS AND FUNERALS.

Andrew B. Gill, Well Known Here, Dies in the Soo.

A telegram received here from Sault Ste. Marie announces the death in that city yesterday morning of Andrew B. Gill, whose family resided in Marquette for five years and who is well known to many people here, although never a resident of Marquette himself. The deceased was about fifty-five years of age and is survived by a wife and five children, one of whom is Mrs. Lynn D. Folett of this city. The entire family was with him when the end came. He had been sick for about a year and a half.

Albert, the seven-week-old child of Mr. and Mrs. Fred Lalonde of No. 301 South Seventeenth street, died yesterday morning. The funeral will be held from the French Catholic church at 2 o'clock this afternoon followed by interment in Holy Cross cemetery.

While watching a ball game at the old fair grounds yesterday afternoon Willie Hebard, the thirteen-year-old son of Alfred Hebard, met with an accident which resulted in a broken leg. Willie, wait ten years to be counted. He will not be numbered in this census.

Isaac O. A. J. Udd was taken to the Soo on the early train yesterday morning by Sheriff Carlson, who was making the first stage of the journey with him back to Finland. C. C. Williams, eminent inspector of the Soo, arrived here on the late train night before last for the purpose of taking Udd down, but neither he nor Sheriff Carlson knew anything of the other's intentions, consequently the sheriff made the trip with Udd and Mr. Williams had his trip for nothing. The reason for Mr. Williams' coming was that a United States officer had arrived at the Soo for the purpose of getting Udd and taking him on to the coast.
